(3) Upon the filing with the board of the application for certificate of authorization, the certified copy of the resolution, and the information specified in subsection (1) of this section, the board shall authorize the director to issue to the ~~((corporation))~~ business entity a certificate of authorization to practice architecture in this state ~~((upon a determination by the board that:~~

(a) The bylaws of the corporation contain provisions that all architectural decisions pertaining to any project or architectural activities in this state shall be made by the specified architects responsible for the project or architectural activities, or other responsible architects under the direction or supervision of the architects responsible for the project or architectural activities;

(b) The applicant corporation has the ability to provide, through qualified personnel, professional services or creative work requiring architectural experience, and with respect to the architectural services that the corporation undertakes or offers to undertake, the personnel have the ability to apply special knowledge to the professional services or creative work such as consultation, investigation, evaluation, planning, design, and administration of the construction contract in connection with any public or private structures, buildings, equipment, processes, works, or projects;

(c) The application for certificate of authorization contains the professional records of the designated person or persons who are responsible;

(d) The application for certificate of authorization states the experience of the corporation, if any, in furnishing architectural services during the preceding five-year period;

(e) The applicant corporation meets such other requirements related to professional competence in the furnishing of architectural services as may be established and promulgated by the board in furtherance of the purposes of this chapter; and

(f) The applicant corporation is possessed of the ability and competence to furnish architectural services in the public interest.

(3) Upon recommendation of the board to impose action as authorized in RCW 18.235.110, the director may impose the recommended action upon a certificate of authorization to a corporation if the board finds that any of the officers, directors, incorporators, or the stockholders holding a majority of stock of the corporation have committed an act prohibited under RCW 18.08.440 or 18.235.130 or have been found personally responsible for misconduct under subsection (6) or (7) of this section.

(4) In the event a corporation, organized solely by a group of architects each registered under this chapter, applies for a certificate of authorization, the board may, in its discretion, grant a certificate of authorization to that corporation based on a review of the professional records of such incorporators, in lieu of the required qualifications set forth in subsections (1) and (2) of this section. In the event the ownership of such corporation is altered, the corporation shall apply for a revised certificate of authorization, based upon the professional records of the owners if exclusively architects, under the qualifications required by subsections (1) and (2) of this section).

~~((5))~~ (4) Any ~~((corporation))~~ business entity practicing or offering to practice architecture, whether or not it is authorized to practice architecture under this chapter, ~~((together with its directors and officers for their own individual acts, are))~~ shall be jointly and severally responsible to the same degree as an individual registered architect and shall conduct their business without misconduct or malpractice in the practice of architecture as defined in this chapter.

~~((6))~~ (5) Any ~~((corporation))~~ business entity that has been certified under this chapter and has engaged in the practice of architecture may have its certificate of authorization either suspended or revoked by the board if, after a proper hearing, the board finds that the ~~((corporation))~~ business entity has committed misconduct or malpractice under RCW 18.08.440 or 18.235.130. In such a case, any individual architect registered under this chapter who is involved in such misconduct or malpractice is also subject to disciplinary measures provided in this chapter and RCW 18.235.110.

~~((7))~~ (7) All plans, specifications, designs, and reports when issued in connection with work performed by a corporation under its certificate of authorization shall be prepared by or under the direction of the designated architects and shall be signed by and stamped with the official seal of the designated architects in the corporation authorized under this chapter.

~~((8))~~ (6) For each certificate of authorization issued under this section there shall be paid a certification fee and an annual certification renewal fee as prescribed by the director under RCW 43.24.086.

~~((9))~~ (9) This chapter shall not affect the practice of architecture as a professional service corporation under chapter 18.100 RCW.)

Sec. 10. RCW 18.08.430 and 1985 c 37 s 14 are each amended to read as follows:

(1) The renewal date for certificates of registration shall be set by the director in accordance with RCW 43.24.086. Registrants who fail to pay the renewal fee within thirty days of the due date shall pay all delinquent fees plus a penalty fee equal to one-third of the renewal fee. A registrant who fails to pay a renewal fee for a period of five years may be reinstated under such circumstances as the board determines. The renewal and penalty fees and the frequency of renewal assessment shall be authorized under this chapter. Renewal

date for certificates of authorization shall be the anniversary of the date of authorization.

(2) Any registrant in good standing may withdraw from the practice of architecture by giving written notice to the director, and may within five years thereafter resume active practice upon payment of the then-current renewal fee. A registrant may be reinstated after a withdrawal of more than five years under such circumstances as the board determines.

(3) A registered architect must demonstrate professional development since the architect's last renewal or initial registration, as the case may be. The board shall by rule describe professional development activities acceptable to the board and the form of documentation of the activities required by the board. The board may decline to renew a registration if the architect's professional development activities do not meet the standards set by the board by rule. When adopting rules under the authority of this subsection, the board shall strive to ensure that the rules are consistent with the continuing professional education requirements and systems in use by national professional organizations representing architects and in use by other states.

(a) A registered architect shall, as part of his or her license renewal, certify that he or she has completed the required continuing professional development required by this section.

(b) The board may adopt reasonable exemptions from the requirements of this section.

NEW SECTION. Sec. 11. (1) Section 5 of this act takes effect on July 1, 2011, and all persons enrolled in an intern training program as approved by the board before July 1, 2011, shall be governed by the statute in effect at the time of enrollment in the program.

(2) Sections 7 through 10 of this act take effect July 1, 2010." Correct the title.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. Water is an essential element for economic prosperity and it generates new, family-wage jobs and state revenues. It is the intent of the legislature to provide both water right applicants and the department of ecology with the necessary tools to expedite the processing of water right applications depending on the needs of the project and agency workload.

NEW SECTION. Sec. 2. Sufficient resources to support the department of ecology's water resource program are essential for effective and sustainable water management that provides certainty to processed applications. The department of ecology shall review current water resource functions and report to the legislature and the governor by September 1, 2010, on improvements to make the program more self-sustaining and efficient.

Sec. 3. RCW 90.03.265 and 2003 c 70 s 6 are each amended to read as follows:

(1)(a) Any applicant for a new withdrawal or a change, transfer, or amendment of a water right pending before the department(=) may initiate a cost-reimbursement agreement with the department to provide expedited review of the application. A cost-reimbursement agreement may ((only)) be initiated under this section if the applicant agrees to pay for, or as part of a cooperative effort agrees to pay for, the cost of processing his or her application and all other applications from the same source of supply which must be acted upon before the applicant's request because they were filed prior to the date of when the applicant filed.

(b) The requirement to pay for the cost of other applications under (a) of this subsection does not apply to an application for a new appropriation that would not diminish the water available to earlier pending applicants for new appropriations from the same source of supply.

(c) The requirement to pay for the cost of processing other applications under (a) of this subsection does not apply to an application for a change, transfer, or other amendment that would not diminish the water available to earlier pending applicants for changes or transfers from the same source of supply.

(d) In determining whether an application would not diminish the water available to earlier pending applicants, the department shall consider any water impoundment or other water resource management mitigation technique proposed by the applicant under RCW 90.03.255 or 90.44.055.

(e) The department may enter into cost-reimbursement agreements provided resources are available and shall use the process established under RCW 43.21A.690 for entering into cost-reimbursement agreements. The department's share of work related to a cost-reimbursement application, such as final certificate approval, must be prioritized within the framework of other water right processing needs and as determined by agency rule.

(f) Each individual applicant is responsible for his or her own appeal costs that may result from a water right decision made by the department. In the event that the department's approval of an application is appealed under chapter 43.21B RCW by a third party, the applicant for the water right in question must reimburse the department for the cost of defending the decision before the pollution control hearings board unless otherwise agreed to by the applicant and the department. If an applicant appeals either an approval or a denial by the department, the applicant is responsible only for its own appeal costs.

(2) In pursuing a cost-reimbursement project, the department must determine the source of water proposed to be diverted or withdrawn from, including the boundaries of the area that delimits the source. The department must determine if any other water right permit applications are pending from the same source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department finds they are hydraulically connected. The department shall consider technical information submitted by the applicant in making its determinations under this subsection. The department may recover from a cost-reimbursement applicant its own costs in making the same source determination under this subsection.

(3) Upon request of the applicant seeking cost-reimbursement processing, the department may elect to initiate a coordinated cost-reimbursement process. To initiate this process, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties

are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that cost-reimbursement processing of applications within the described water source is being initiated;

(b) Provide to individual applicants the criteria under which the applications will be examined and determined;

(c) Provide to individual applicants the estimated cost for having an application processed on a cost-reimbursement basis;

(d) Provide an estimate of how long the cost-reimbursement process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in the cost-reimbursement process.

(4) The applicant initiating the cost-reimbursement request must pay for the cost of the determination under subsections (2) and (3) of this section and other costs necessary for the initial phase of cost-reimbursement processing. The cost for each applicant for conducting processing under a coordinated cost-reimbursement agreement must be based primarily on the proportionate quantity of water requested by each applicant. The cost may be adjusted if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity.

(5)(a) Only the department may approve or deny a water right application processed under this section, and such a final decision remains solely the responsibility and function of the department. The department retains full authority to amend, refuse, or approve any work product provided by any consultant under this section. The department may recover its costs related to: (i) The review of a contractor to ensure that no conflict of interest exists; (ii) the management of consultant contracts and cost-reimbursement agreements; and (iii) the review of work products provided by participating consultants.

(b) For any cost-reimbursement process initiated under subsection (1) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned such a prequalified consultant by the department.

(c) For any coordinated cost-reimbursement process initiated under subsection (2) of this section, the applicant may, after consulting with the department, select a prequalified consultant listed by the department under subsection (7) of this section or may be assigned a prequalified consultant by the department.

(d) In lieu of having one or more of the work products performed by a prequalified consultant listed under subsection (7) of this section, the department may, at its discretion, recognize specific work completed by an applicant or an applicant's consultant prior to the initiation of cost-reimbursement processing. The department may also, at its discretion, authorize the use of such a consultant to perform a specific scope of the work performed by prequalified consultants listed under subsection (7) of this section.

(e) At any point during the cost-reimbursement process, the department may request or accept technical information, data, and analysis from the applicant or the applicant's consultant to support the cost-reimbursement process or the department's decision on the application.

(6) The department is authorized to adopt rules or guidance providing minimum qualifications and standards for any consultant's submission of work products under this section, including standards for submission of technical information, scientific analysis, work product documentation, and report presentation that such a consultant must meet.

(7) The department must provide notice to potential consultants of the opportunity to be considered for inclusion on the list of cost-reimbursement consultants to whom work assignments will be made. The department must competitively select an appropriate number of consultants who are qualified by training and experience to

investigate and make recommendations on the disposition of water right applications. The prequalified consultant list must be renewed at least every six years, though the department may add qualified cost-reimbursement consultants to the list at any time. The department must enter a master contract with each consultant selected and thereafter make work assignments based on availability and qualifications.

(8) The department may remove any consultant from the consultant list for poor performance, malfeasance, or excessive complaints from cost-reimbursement participants. The department may interview any cost-reimbursement consultant to determine whether the person is qualified for this work, and must spot-check the work of consultants to ensure that the public is being competently served.

(9) When a prequalified cost-reimbursement consultant from the department's list described in subsection (7) of this section is assigned or selected to investigate an application or set of applications, the consultant must document its findings and recommended disposition in the form of written draft technical reports and preliminary draft reports of examination. Within two weeks of the department receiving draft technical reports and preliminary draft reports of examination, the department shall provide the applicant such documents for review and comment prior to their completion by the consultant. The department shall consider such comments by the applicant prior to the department's issuance of a draft report of examination. The department may modify the preliminary draft reports of examination submitted by the consultant. The department's decision on a permit application is final unless it is appealed to the pollution control hearings board under chapter 43.21B RCW.

(10) If an applicant elects not to participate in a cost-reimbursement process, the application remains on file with the department, retains its priority date, and may be processed in the future under regular processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW.

NEW SECTION. Sec. 4. A new section is added to chapter 90.03 RCW to read as follows:

The water rights processing account is created in the state treasury. All receipts from the fees collected under sections 5, 7, and 12 of this act must be deposited into the account. Money in the account may be spent only after appropriation. Expenditures from the account may only be used to support the processing of water right applications for a new appropriation, change, transfer, or amendment of a water right as provided in this chapter and chapters 90.42 and 90.44 RCW or for the examination, certification, and renewal of certification of water right examiners as provided in section 7 of this act.

NEW SECTION. Sec. 5. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department may expedite processing of applications within the same source of water on its own volition when there is interest from a sufficient number of applicants or upon receipt of written requests from at least ten percent of the applicants within the same source of water.

(2) If the conditions of subsection (1) of this section have been met and the department determines that the public interest is best served by expediting applications within a water source, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general

circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that expedited processing of applications within the described water source is being initiated;

(b) Provide to individual applicants the criteria under which the applications will be examined and determined;

(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;

(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in the expedited processing of their applications.

(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that the application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within sixty days of the written request. Failure to do so will result in the applicant not being included in expedited processing for that water source.

(5) If an applicant elects not to participate in expedited processing, the application remains on file with the department, the applicant retains his or her priority date, and the application may be processed through regular processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW. Such an application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

NEW SECTION. Sec. 6. A new section is added to chapter 90.03 RCW to read as follows:

The department must post notice on its web site and provide electronic notice and opportunity for comment to affected federally recognized tribal governments concurrently when providing notice to applicants under RCW 90.03.265 and sections 5 and 12 of this act.

NEW SECTION. Sec. 7. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department shall establish and maintain a list of certified water right examiners. Certified water right examiners on the list are eligible to perform final proof examinations of permitted water uses leading to the issuance of a water right certificate under RCW 90.03.330. The list must be updated annually and must be made available to the public through written and electronic media.

(2) In order to qualify, an individual must be registered in Washington as a professional engineer, professional land surveyor, or registered hydrogeologist, or an individual must demonstrate at least five years of applicable experience to the department, or be a board member of a water conservancy board. Qualified individuals must also pass a written examination prior to being certified by the department. Such an examination must be administered by either the department or an entity formally approved by the department. Each certified water right examiner must demonstrate knowledge and competency regarding:

- (a) Water law in the state of Washington;
- (b) Measurement of the flow of water through open channels and enclosed pipes;
- (c) Water use and water level reporting;
- (d) Estimation of the capacity of reservoirs and ponds;
- (e) Irrigation crop water requirements;
- (f) Aerial photo interpretation;
- (g) Legal descriptions of land parcels;
- (h) Location of land and water infrastructure through the use of maps and global positioning;
- (i) Proper construction and sealing of well bores; and
- (j) Other topics related to the preparation and certification of water rights in Washington state.

(3) Except as provided in subsection (9) of this section, upon completion of a water appropriation and putting water to beneficial use, in order to receive a final water right certificate, the permit holder must secure the services of a certified water right examiner who has been tested and certified by the department. The examiner shall carry out a final examination of the project to verify its completion and to determine and document for the permit holder and the department the amount of water that has been appropriated for beneficial use, the location of diversion or withdrawal and conveyance facilities, and the actual place of use. The examiner shall take measurements or make estimates of the maximum diversion or withdrawal, the capacity of water storage facilities, the acreage irrigated, the type and number of residences served, the type and number of stock watered, and other information relevant to making a final determination of the amount of water beneficially used. The examiner shall make photographs of the facilities to document the use or uses of water and the photographs must be submitted with the examiner's report to the department. The department shall specify the format and required content of the reports and may provide a form for that purpose.

(4) The department may suspend or revoke a certification based on poor performance, malfeasance, failure to acquire continuing education credits, or excessive complaints from the examiner's customers. The department may require the retesting of an examiner. The department may interview any examiner to determine whether the person is qualified for this work. The department shall spot-check the work of examiners to ensure that the public is being competently served. Any person aggrieved by an order of the department including the granting, denial, revocation, or suspension of a certificate issued by the department under this chapter may appeal pursuant to chapter 43.21B RCW.

(5) The decision regarding whether to issue a final water right certificate is solely the responsibility and function of the department.

(6) The department shall make its final decision under RCW 90.03.330 within sixty days of the date of receipt of the proof of examination from the certified water right examiner, unless otherwise requested by the applicant.

(7) Each certified water right examiner must complete eight hours annually of qualifying continuing education in the water resources field. The department shall determine and specify the qualifying continuing education and shall inform examiners of the opportunities. The department shall track whether examiners are current in their continuing education and may suspend the certification of an

examiner who has not complied with the continuing education requirement.

(8) Each certified water right examiner must be bonded for at least fifty thousand dollars.

(9) The department may waive the requirement to secure the services of a certified water right examiner in situations in which the department deems it unnecessary for purposes of issuing a certificate of water right.

(10) The department shall establish and collect fees for the examination, certification, and renewal of certification of water right examiners. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. Pursuant to RCW 43.135.055, the department is authorized to set fees for examination, certification, and renewal of certification for water right examiners.

(11) The department may adopt rules appropriate to carry out the purposes of this section.

Sec. 8. RCW 90.14.065 and 1987 c 93 s 1 are each amended to read as follows:

~~(1)(a)~~ Any person or entity, or successor to such person or entity, having a statement of claim on file with the water rights claims registry ~~((on April 20, 1987,))~~ may submit to the department of ecology for filing ~~(?)~~ an amendment to such a statement of claim if the submitted amendment is based on:

~~((1))~~ (i) An error in estimation of the quantity of the applicant's water claim prescribed in RCW 90.14.051 if the applicant provides reasons for the failure to claim such right in the original claim;

~~((2))~~ (ii) A change in circumstances not foreseeable at the time the original claim was filed, if such change in circumstances relates only to the manner of transportation or diversion of the water and not to the use or quantity of such water; or

~~((3))~~ (iii) The amendment is ministerial in nature.

~~(b)~~ The department shall accept any such submission and file the same in the registry unless the department by written determination concludes that the requirements of (a)(i), (ii), or (iii) of this subsection ~~((1), (2), or (3) of this section))~~ have not been satisfied.

(2) In addition to subsection (1) of this section, a surface water right claim may be changed or transferred in the same manner as a permit or certificate under RCW 90.03.380, and a water right claim for groundwater may be changed or transferred as provided under RCW 90.03.380 and 90.44.100.

(3) Any person aggrieved by a determination of the department may obtain a review thereof by filing a petition for review with the pollution control hearings board within thirty days of the date of the determination by the department. The provisions of RCW 90.14.081 shall apply to any amendment filed or approved under this section.

Sec. 9. RCW 90.44.100 and 2009 c 183 s 16 are each amended to read as follows:

(1) After an application to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of groundwater right, the holder of a valid right to withdraw public groundwaters may, without losing the holder's priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or the holder may change the manner or the place of use of the water.

(2) An amendment to construct replacement or a new additional well or wells at a location outside of the location of the original well or wells or to change the manner or place of use of the water shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that: (a) The additional or replacement well or wells shall tap the same body of public groundwater as the original well or wells; (b) where a replacement well or wells is approved, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c)

where an additional well or wells is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or wells at the location of the original well or wells shall be allowed without application to the department for an amendment. However, the following apply to such a replacement or new additional well: (a) The well shall tap the same body of public groundwater as the original well or wells; (b) if a replacement well is constructed, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) if a new additional well is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original water use permit or certificate; (d) the construction and use of the well shall not interfere with or impair water rights with an earlier date of priority than the water right or rights for the original well or wells; (e) the replacement or additional well shall be located no closer than the original well to a well it might interfere with; (f) the department may specify an approved manner of construction of the well; and (g) the department shall require a showing of compliance with the conditions of this subsection (3).

(4) As used in this section, the "location of the original well or wells" of a water right permit or certificate is the area described as the point of withdrawal in the original public notice published for the application for the water right for the well. The location of the original well or wells of a water right claim filed under chapter 90.14 RCW is the area located within a one-quarter mile radius of the current well or wells.

(5) The development and use of a small irrigation impoundment, as defined in RCW 90.03.370(8), does not constitute a change or amendment for the purposes of this section. The exemption expressly provided by this subsection shall not be construed as requiring an amendment of any existing water right to enable the holder of the right to store water governed by the right.

(6) This section does not apply to a water right involved in an approved local water plan created under RCW 90.92.090 or a banked water right under RCW 90.92.070.

Sec. 10. RCW 90.44.100 and 2003 c 329 s 3 are each amended to read as follows:

(1) After an application to, and upon the issuance by the department of an amendment to the appropriate permit or certificate of groundwater right, the holder of a valid right to withdraw public groundwaters may, without losing the holder's priority of right, construct wells or other means of withdrawal at a new location in substitution for or in addition to those at the original location, or the holder may change the manner or the place of use of the water.

(2) An amendment to construct replacement or a new additional well or wells at a location outside of the location of the original well or wells or to change the manner or place of use of the water shall be issued only after publication of notice of the application and findings as prescribed in the case of an original application. Such amendment shall be issued by the department only on the conditions that: (a) The additional or replacement well or wells shall tap the same body of public groundwater as the original well or wells; (b) where a replacement well or wells is approved, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) where an additional well or wells is constructed, the original well or wells may continue to be used, but the combined total withdrawal

from the original and additional well or wells shall not enlarge the right conveyed by the original permit or certificate; and (d) other existing rights shall not be impaired. The department may specify an approved manner of construction and shall require a showing of compliance with the terms of the amendment, as provided in RCW 90.44.080 in the case of an original permit.

(3) The construction of a replacement or new additional well or wells at the location of the original well or wells shall be allowed without application to the department for an amendment. However, the following apply to such a replacement or new additional well: (a) The well shall tap the same body of public groundwater as the original well or wells; (b) if a replacement well is constructed, the use of the original well or wells shall be discontinued and the original well or wells shall be properly decommissioned as required under chapter 18.104 RCW; (c) if a new additional well is constructed, the original well or wells may continue to be used, but the combined total withdrawal from the original and additional well or wells shall not enlarge the right conveyed by the original water use permit or certificate; (d) the construction and use of the well shall not interfere with or impair water rights with an earlier date of priority than the water right or rights for the original well or wells; (e) the replacement or additional well shall be located no closer than the original well to a well it might interfere with; (f) the department may specify an approved manner of construction of the well; and (g) the department shall require a showing of compliance with the conditions of this subsection (3).

(4) As used in this section, the "location of the original well or wells" of a water right permit or certificate is the area described as the point of withdrawal in the original public notice published for the application for the water right for the well. The location of the original well or wells of a water right claim filed under chapter 90.14 RCW is the area located within a one-quarter mile radius of the current well or wells.

(5) The development and use of a small irrigation impoundment, as defined in RCW 90.03.370(8), does not constitute a change or amendment for the purposes of this section. The exemption expressly provided by this subsection shall not be construed as requiring an amendment of any existing water right to enable the holder of the right to store water governed by the right.

NEW SECTION. Sec. 11. A new section is added to chapter 90.44 RCW to read as follows:

Applications to appropriate groundwater under a cost-reimbursement agreement must be processed in accordance with RCW 90.03.265 when an applicant requests the assignment of a cost-reimbursement consultant as provided in RCW 43.21A.690.

NEW SECTION. Sec. 12. A new section is added to chapter 90.44 RCW to read as follows:

(1) The department may expedite processing of applications within the same source of water on its own volition when there is interest from a sufficient number of applicants or upon receipt of written requests from at least ten percent of the applicants within the same source of water.

(2) If the conditions of subsection (1) of this section have been met and the department determines that the public interest is best served by expediting applications within a water source, the department must notify in writing all persons who have pending applications on file for a new appropriation, change, transfer, or amendment of a water right from that water source. A water source may include surface water only, groundwater only, or surface and groundwater together if the department determines that they are hydraulically connected. The notice must be posted on the department's web site and published in a newspaper of general circulation in the area where affected properties are located. The notice must also be made individually by way of mail to:

(a) Inform those applicants that expedited processing of applications within the described water source is being initiated;

(b) Provide to individual applicants the criteria under which the applications will be examined and determined;

(c) Provide to individual applicants the estimated cost for having an application processed on an expedited basis;

(d) Provide an estimate of how long the expedited process will take before an application is approved or denied; and

(e) Provide at least sixty days for the applicants to respond in writing regarding the applicant's decision to participate in expedited processing of their applications.

(3) In addition to the application fees provided in RCW 90.03.470, the department must recover the full cost of processing all the applications from applicants who elect to participate within the water source through expedited processing fees. The department must calculate an expedited processing fee based primarily on the proportionate quantity of water requested by each applicant and may adjust the fee if it appears that an application will require a disproportionately greater amount of time and effort to process due to its complexity. Any application fees that were paid by the applicant under RCW 90.03.470 must be credited against the applicant's share of the cost of processing applications under the provisions of this section.

(4) The expedited processing fee must be collected by the department prior to the expedited processing of an application. Revenue collected from these fees must be deposited into the water rights processing account created in section 4 of this act. An applicant who has stated in writing that he or she wants his or her application processed using the expedited procedures in this section must transmit the processing fee within sixty days of the written request. Failure to do so will result in the applicant not being included in expedited processing for that water source.

(5) If an applicant elects not to participate in expedited processing, the application remains on file with the department, the applicant retains his or her priority date, and the application may be processed through regular processing, expedited processing, coordinated cost-reimbursement processing, cost-reimbursement processing, or through conservancy board processing as authorized under chapter 90.80 RCW. Such an application may not be processed through expedited processing within twelve months after the department's issuance of decisions on participating applications at the conclusion of expedited processing unless the applicant agrees to pay the full proportionate share that would otherwise have been paid during such processing. Any proceeds collected from an applicant under this delayed entry into expedited processing shall be used to reimburse the other applicants who participated in the previous expedited processing of applications, provided sufficient proceeds remain to fully cover the department's cost of processing the delayed entry application and the department's estimated administrative costs to reimburse the previously expedited applicants.

NEW SECTION. Sec. 13. Section 9 of this act expires June 30, 2019.

NEW SECTION. Sec. 14. Section 10 of this act takes effect June 30, 2019.

NEW SECTION. Sec. 15. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 16. It is the intent of the legislature to recover the actual cost of processing applications for water right permits and to stop subsidizing the processing of water right permits out of general tax revenues. The legislature recognizes that the largest beneficiary of receiving a water permit is the person receiving the water permit.

It is further the intent of the legislature that the backlog of applications be eliminated within five years of the effective date of this section and that thereafter water right permit applications be

processed to a conclusion within twelve months of an application being made to the department of ecology.

NEW SECTION. Sec. 17. A new section is added to chapter 90.03 RCW to read as follows:

The water rights processing and dam safety account is created in the state treasury. All receipts from the fees collected under RCW 90.03.470 must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only to support the processing of water right applications and change applications as provided in this chapter and chapters 90.38, 90.42, and 90.44 RCW and the safety inspection of hydraulic works and plans and specifications for such works.

Sec. 18. RCW 90.03.470 and 2005 c 412 s 2 are each amended to read as follows:

The fees specified in this section shall be collected by the department in advance of the requested action.

(1) ((For the examination of an application for a permit to appropriate water, a minimum fee of fifty dollars must be remitted with the application.

For an amount of water exceeding one-half cubic foot per second, the examination fee shall be assessed at the rate of one dollar per one hundredth cubic foot per second. In no case will the examination fee be less than fifty dollars or more than twenty-five thousand dollars. No fee is required under this subsection (1) for an application filed by a party to a cost-reimbursement agreement made under RCW 90.03.265.)) For the examination of an application for a permit to appropriate water or for an application to change, transfer, or amend an existing water right, an examination fee equal to one hundred dollars for each one-hundredth of a cubic foot per second must be remitted with the application, but in no case may the examination fee be less than one thousand dollars or more than fifty thousand dollars.

(2) The following fees apply for the examination of an application to store water((, a fee of two dollars for each acre foot of storage proposed shall be charged, but a minimum fee of fifty dollars must be remitted with the application. In no case will the examination fee for a storage project be less than fifty dollars or more than twenty-five thousand dollars. No fee is required under this subsection (2) for an application filed by a party to a cost-reimbursement agreement made under RCW 90.03.265)) and for an application to change a storage right:

(a) For storage of less than one hundred acre feet of water, an examination fee of one thousand dollars must be remitted with the application.

(b) For storage of more than one hundred acre feet of water but less than or equal to one thousand acre feet of water, an examination fee of two thousand dollars must be remitted with the application.

(c) For storage of more than one thousand acre feet of water but less than or equal to ten thousand acre feet of water, an examination fee of seven thousand five hundred dollars must be remitted with the application.

(d) For storage of more than ten thousand acre feet of water, an examination fee of fifteen thousand dollars must be remitted with the application.

(3)(a) ((For the examination of an application to transfer, change, or amend a water right certificate, permit, or claim as authorized by RCW 90.44.100, 90.44.105, or 90.03.380, a minimum fee of fifty dollars must be remitted with the application. For an application for change involving an amount of water exceeding one cubic foot per second, the total examination fee shall be assessed at the rate of fifty cents per one hundredth cubic foot per second. For an application for change of a storage water right, the total examination fee shall be assessed at the rate of one dollar for each acre foot of water involved in the change. The fee shall be based on the amount of water subject to change as proposed in the application, not on the total amount of water reflected in the water right certificate, permit, or claim. In no

case will the examination fee charged for a change application be less than fifty dollars or more than twelve thousand five hundred dollars.

(b)) The fee paid to the department for an application for change filed with a water conservancy board under chapter 90.80 RCW or for an application for change filed by a party to a cost-reimbursement agreement under RCW 90.03.265 must be one-fifth of the amounts provided in subsections (1) and (2) of this section. A conservancy board may charge its own processing fees in accordance with RCW 90.80.060.

(b) The examination fee for a temporary or seasonal change under RCW 90.03.390 is ((fifty)) two hundred dollars and must be remitted with the application.

(c) No fee is required under this subsection (3) for:

(i) An application to process a change relating to donation of a trust water right to the state; or

(ii) An application to process a change when the department otherwise acquires a trust water right for purposes of improving instream flows or for other public purposes(;

(iii) An application filed with a water conservancy board according to chapter 90.80 RCW or for the review of a water conservancy board's record of decision submitted to the department according to chapter 90.80 RCW; or

(iv) An application filed by a party to a cost-reimbursement agreement made under RCW 90.03.265)).

(d) For a change, transfer, or amendment involving a single project operating under more than one water right, including related secondary diversion rights, or involving the consolidation of multiple water rights, only one examination fee and one certificate fee are required to be paid.

(4) ((The fifty-dollar minimum fee payable with the application shall be a credit to the total amount whenever the examination fee totals more than fifty dollars under the schedule specified in subsections (1) through (3) of this section and in such case the further fee due shall be the total computed amount, less the amount previously paid. Within five working days from receipt of an application, the department shall notify the applicant by registered mail of any additional fees due under subsections (1) through (3) of this section.)) (a) The fee amounts specified in this section apply to applications received after the effective date of this section and to all applications that have not been acted on by the department by issuance of a report of examination as of the effective date of this section. For pending applications that were filed prior to the effective date of this section, any fees that were paid under a previous fee schedule must be credited to the amounts required by subsections (1), (2), and (3) of this section. When the department is prepared to take action on an application that was filed prior to the effective date of this section, the department shall notify the applicant that additional fees are due and give the applicant sixty days to remit the additional fees. If the applicant fails to remit the additional fees within the time provided, the department shall cancel the application and inform the applicant of the cancellation.

(b) If the department receives a water right, change, transfer, amendment, or storage application that does not include remittance of the fee amounts required by this section, the department shall return the application to the applicant with instructions on the proper fee amount to be remitted. An application does not establish a priority date until the proper fee is remitted.

(5) The ~~((fees specified in subsections (1) through (3) of this section do not apply to any filings))~~ fee for filing an emergency withdrawal authorization((s)) or temporary drought-related water right change((s)) authorized under RCW 43.83B.410 that ((are)) is received by the department while a drought condition order issued under RCW 43.83B.405 is in effect is one hundred dollars.

(6) For applying for each extension of time for beginning construction work under a permit to appropriate water, for completion of construction work, or for completing application of water to a

beneficial use, a fee of two hundred fifty dollars is required. These fees also apply to similar extensions of time requested under a change or transfer authorization.

(7) For the inspection of any hydraulic works to ~~((insure))~~ ensure safety to life and property, a fee based on the actual cost of the inspection, including the expense incident thereto, is required ~~((except as follows: (a) For any hydraulic works less than ten years old, that the department examined and approved the construction plans and specifications as to its safety when required under RCW 90.03.350, there shall be no fee charged; or (b) for any hydraulic works more than ten years old, but less than twenty years old, that the department examined and approved the construction plans and specifications as to its safety when required under RCW 90.03.350, the fee charged shall not exceed the fee for a significant hazard dam))~~.

(8) For the examination of plans and specifications as to safety of controlling works for storage of ten acre feet or more of water, a minimum fee of ~~((ten))~~ five hundred dollars, or a fee equal to the actual cost, is required.

(9) For recording an assignment either of a permit to appropriate water or of an application for such a permit, a fee of ~~((fifty))~~ two hundred dollars is required.

(10) For preparing and issuing all water right certificates, a fee of ~~((fifty))~~ two hundred dollars is required.

(11) For filing and recording a formal protest against granting any application, a fee of fifty dollars is required. No fee is required to submit a comment, by mail or otherwise, regarding an application.

(12) For filing an application to amend a water right claim filed under chapter 90.14 RCW, a fee of ~~((fifty))~~ two hundred dollars is required.

(13) For the registration of a new permit exempt groundwater withdrawal as required by RCW 90.44.050, a fee of three hundred dollars must be remitted.

(14)(a) Each person who holds a water right permit application, a reservoir permit application, or a change, transfer, or amendment application that is pending at any time between the effective date of this section and June 30, 2011, must remit a one-time fee of two hundred dollars to the department to retain an application in good standing. The department shall provide written notice by certified mail to each holder of an application for the fees that are due under this section. The notice must require that the fees be paid within sixty days of the date of receipt, but in no case may payment be due later than June 30, 2011. For ease of administration, the department may distribute the issuance of the notices by geographic area. The surcharge paid under this subsection is a credit against the application fees required in this section.

(b) Applications not in good standing must be canceled. The department shall issue an order to any holder of an application who fails to pay the fee within the prescribed time. The order must state that the application is canceled unless payment is received within thirty days.

(c) The department shall advise an applicant and provide an opportunity for an applicant to withdraw their application without further payment of fees if the department determines that the application would not likely be approved. The department shall summarize the basis for its conclusion to the applicant. The department shall further advise that the applicant has the option of providing an amended application that could include storage or other resource management technique that might make it approvable under RCW 90.03.255 or 90.44.055. The department's advice is not subject to appeal. If the applicant decides to retain the application on file and pays the fee required in this subsection, the department shall maintain the application in good standing until it is able to render a final decision on the application. The final decision is subject to appeal to the pollution control hearings board as provided under chapter 43.21B RCW.

(15) An application or request for an action as provided for under this section is incomplete unless accompanied by the fee or the minimum fee. If no fee or an amount less than the minimum fee accompanies an application or other request for an action as provided under this section, the department shall return the application or request to the applicant with advice as to the fee that must be remitted with the application or request for it to be accepted for processing. If additional fees are due, the department shall provide timely notification by certified mail with return receipt requested to the applicant. No action may be taken by the department until the fee is paid in full. Failure to remit fees within sixty days of the department's notification is grounds for rejecting the application or request or canceling the permit. Cash shall not be accepted. Fees must be paid by check or money order and are nonrefundable.

~~((14))~~ (16) For purposes of calculating fees for groundwater filings, one cubic foot per second shall be regarded as equivalent to four hundred fifty gallons per minute.

((15) Eighty percent of the fees collected by the department under this section shall be deposited in the state general fund. Twenty percent of the fees collected by the department under this section shall be deposited in the water rights tracking system account established in RCW 90.14.240.

(16) Except for the fees relating to the inspection of hydraulic works and the examination of plans and specifications of controlling works provided for in subsections (7) and (8) of this section, nothing in this section is intended to grant authority to the department to amend the fees in this section by adoption of rules or otherwise.) (17) The fees collected by the department under this section must be deposited in the water rights processing and dam safety account created in section 17 of this act.

(18)(a) The fees specified in this section are effective until the department adopts rules that modify them in accordance with section 21 of this act, except that the fees required in subsections (7) and (8) of this section may be modified at any time.

(b) When information has been previously obtained that directly relates to the processing of an application in subsections (1) and (2) of this section, the department must proportionately reduce the fees associated with that application as a result of the reduced workload of the department.

NEW SECTION. Sec. 19. A new section is added to chapter 90.03 RCW to read as follows:

Within existing appropriations, the department must provide grant funds to assist applicants in the payment of fees required in RCW 90.03.470. The department shall give priority in the distribution of grant money to applicants who designate on their application that the water will be used for agricultural purposes.

Sec. 20. RCW 90.44.050 and 2003 c 307 s 1 are each amended to read as follows:

(1) After June 6, 1945, no withdrawal of public groundwaters of the state shall be begun, nor shall any well or other works for such withdrawal be constructed, unless an application to appropriate such waters has been made to the department and a permit has been granted by it as herein provided: EXCEPT, HOWEVER, That any withdrawal of public groundwaters for stock-watering purposes, or for the watering of a lawn or of a noncommercial garden not exceeding one-half acre in area, or for single or group domestic uses in an amount not exceeding five thousand gallons a day, or as provided in RCW 90.44.052, or for an industrial purpose in an amount not exceeding five thousand gallons a day, is and shall be exempt from the provisions of this section, but, to the extent that it is regularly used beneficially, shall be entitled to a right equal to that established by a permit issued under the provisions of this chapter: PROVIDED, HOWEVER, That the department from time to time may require the person or agency making any such small withdrawal to furnish information as to the means for and the quantity of that withdrawal: PROVIDED, FURTHER, That at the option of the party

making withdrawals of groundwaters of the state not exceeding five thousand gallons per day, applications under this section or declarations under RCW 90.44.090 may be filed and permits and certificates obtained in the same manner and under the same requirements as is in this chapter provided in the case of withdrawals in excess of five thousand gallons a day.

(2)(a) The owner of a permit exempt withdrawal established under this section, the beneficial use of which is commenced on or after the effective date of this section, must register the withdrawal with the department on a registration form provided by the department. The registration must include information regarding the ownership and intended purpose of the withdrawal, the amounts withdrawn or proposed to be withdrawn, and the location, size, depth, and other particulars regarding the well. The department shall make the registration form available on its internet site and shall accept the filing of registration forms electronically as well as by conventional mail or personal delivery.

(b) For each permit exempt withdrawal the beneficial use of which is commenced on or after the effective date of this section, the registration form must be accompanied by a fee of three hundred dollars. Upon receiving a completed registration form and fee, the department shall make a record of the registration form and shall return a copy of the registration marked as having been received and registered.

(c) The well or wells being registered must be tagged in accordance with RCW 18.104.040(6). The department shall provide an identification tag for each well and shall instruct the owner to affix the tags to the wells used to withdraw water.

(d) Whenever the owner of a permit exempt withdrawal adds dwelling units or additional purposes for the use of the withdrawal or otherwise increases the amount of water to be withdrawn by more than twenty percent, a new registration form and fee of one hundred dollars must be filed.

(e) All fees collected under this section must be deposited into the water rights processing and dam safety account created in section 17 of this act.

(3) The department may issue either an order under RCW 43.27A.190 or a civil penalty under RCW 90.03.600, or both, to the owner of a new permit exempt withdrawal who fails to file the registration form and fee required in subsection (2) of this section. Before issuing an order or penalty, the department shall inform the owner in writing by registered mail with return receipt that the registration form and fee must be remitted within thirty days. An order issued under this subsection may require the owner to cease withdrawing and using water until the form and fee have been filed. If the owner continues to refuse to file the form and fee, the department may issue an order requiring that the subject well or wells be decommissioned.

(4) A permit exempt withdrawal, the beneficial use of which is commenced on or after the effective date of this section, that has not been registered shall not be recognized as a water right under a general adjudication of water rights held under chapter 90.03 RCW.

NEW SECTION. Sec. 21. A new section is added to chapter 90.03 RCW to read as follows:

To effectuate the purpose of fully recovering the direct administrative costs incurred by the state to process water right and storage applications under this chapter and RCW 90.44.050 and to inspect and approve hydraulic works under this chapter, the department may periodically adopt rules to adjust the fees established in RCW 90.03.470. Any subsequent fees adopted by rule supersede those provided in RCW 90.03.470. Before proposing to adopt any changes to the fees, the department shall consult with the policy committees of the legislature that review water resources legislation.

NEW SECTION. Sec. 22. A new section is added to chapter 90.03 RCW to read as follows:

(1) The department shall submit a report to the legislature prior to December 31, 2012, and biennially thereafter until December 31, 2020, on the status of the backlog of applications for water right permits, the effectiveness of processing water right permit applications to a conclusion within twelve months, and the appropriateness of the fee amounts.

(2) This section expires January 1, 2021.

NEW SECTION. Sec. 23. A new section is added to chapter 90.44 RCW to read as follows:

(1) The department may not require withdrawals of groundwater to be metered or measured for wells authorized under the provisions of RCW 90.44.050 constructed prior to the effective date of this section for single or group domestic uses that do not exceed withdrawing five thousand gallons a day.

(2) This section does not apply to wells the department has required to be metered or measured as of the effective date of this section."

- (1) The department or supervising agency shall provide the child's foster parents, preadoptive parents, or other caregivers with notice of their right to be heard prior to each proceeding held with respect to the child in juvenile court under this chapter. The rights to notice and to be heard apply only to persons with whom a child has been placed by the department (~~(before shelter care)~~) or other supervising agency and who are providing care to the child at the time of the proceeding. This section shall not be construed to grant party status to any person solely on the basis of such notice and right to be heard.
- (2) The department or other supervising agency and the court also shall consider, in any hearing under this chapter regarding a change in the child's placement, written information about the child submitted by persons who provided care to the child within twelve months preceding the hearing and other persons who have a significant relationship with the child.

Sec. 3. RCW 74.13.300 and 2009 c 520 s 77 are each amended to read as follows:

- (1) Whenever a child has been placed in a foster family home or in the home of a relative caregiver or other suitable person as described in RCW 13.34.130(1)(b) by the department or supervising agency and the child has thereafter resided in the home for at least ninety consecutive days, the department or supervising agency shall notify the foster family, relative caregiver, or other suitable person at least five days prior to moving the child to another placement, unless:

 - (b) The child is being returned home;
 - (c) The child's safety is in jeopardy; or
 - (d) The child is residing in a receiving home or a group home.
- (2) If the child has resided in a foster family home or in the home of a relative caregiver or other suitable person as described in RCW 13.34.130(1)(b) for less than ninety days or if, due to one or more of the circumstances in subsection (1) of this section, it is not possible to give five days' notification, the department or supervising agency shall notify the foster family, relative caregiver, or suitable person of proposed placement changes as soon as reasonably possible.
- (3) This section is intended (~~(solely)~~) to assist in minimizing disruption to the child in changing (~~(foster care)~~) placements. Nothing in this section shall be construed to require that a court hearing be held prior to changing a child's (~~(foster care)~~) placement nor to create any substantive custody rights (~~(in the)~~) for foster

parents, relative caregivers, or other suitable persons with whom a child is placed.

(4) Whenever a child has been placed with and resided in the home of a foster family, relative caregiver, or other suitable person as described in RCW 13.34.130(1)(b) for twelve continuous months or longer, the notice required under this section must be in writing and specify the reasons for changing the child's placement. The department shall report annually to the appropriate committees of the legislature regarding changes in placement for children who have resided for twelve continuous months or longer with a foster family, relative caregiver, or other suitable person, including the reasons for changing the placements of those children. The first report is due to the legislature not later than September 1, 2011, and a final report is due September 1, 2015.

SSB 6760 Prime Sponsor, Committee on Ways & Means: Regarding the basic education instructional allocation distribution formula. Reported by Committee on Education Appropriations

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) It is the legislature's intent to continue implementation of chapter 548, Laws of 2009, by adopting the technical details of a new distribution formula for the instructional program of basic education and authorizing a phase-in of implementation of a new distribution formula for pupil transportation, both to take effect September 1, 2011. Unless otherwise stated, the numeric values adopted in section 2 of this act represent the translation of 2009-2010 state funding levels for the basic education act into the funding factors of the prototypical school funding formula, based on the expert advice and extensive work of the funding formula technical working group established by the legislature for this purpose. The legislature intends to continue to review and revise the formulas and may make revisions as necessary for technical purposes and consistency in the event of mathematical or other technical errors.

(2) The legislature intends that basic education funding for a school district shall not be decreased as a result of the transition of basic education funding formulas in effect during the 2009-2011 biennium to the new funding formulas under RCW 28A.150.260 that take effect September 1, 2011.

(3) It is also the legislature's intent to adopt an implementation schedule for phasing-in enhancements to the baseline funding levels of 2009-10 beginning in the 2011-12 school year for pupil transportation, class size allocations for grades kindergarten through three, full-day kindergarten, and allocations for maintenance, supplies, and operating costs.

(4) Finally, it is the legislature's intent to adjust the timelines for other working groups so that their expertise and advice can be received as soon as possible and to make technical adjustments to certain provisions of chapter 548, Laws of 2009.

Sec. 2. RCW 28A.150.260 and 2009 c 548 s 106 are each amended to read as follows:

The purpose of this section is to provide for the allocation of state funding that the legislature deems necessary to support school districts in offering the minimum instructional program of basic education under RCW 28A.150.220. The allocation shall be determined as follows:

(1) The governor shall and the superintendent of public instruction may recommend to the legislature a formula for the distribution of a basic education instructional allocation for each common school district.

(2) The distribution formula under this section shall be for allocation purposes only. Except as may be required under chapter ~~28A.155~~, 28A.165, 28A.180, or ~~((28A.155)) 28A.185~~ RCW, or federal laws and regulations, nothing in this section requires school districts to use basic education instructional funds to implement a particular instructional approach or service. Nothing in this section requires school districts to maintain a particular classroom teacher-to-student ratio or other staff-to-student ratio or to use allocated funds to pay for particular types or classifications of staff. Nothing in this section entitles an individual teacher to a particular teacher planning period.

(3)(a) To the extent the technical details of the formula have been adopted by the legislature and except when specifically provided as a school district allocation, the distribution formula for the basic education instructional allocation shall be based on minimum staffing and nonstaff costs the legislature deems necessary to support instruction and operations in prototypical schools serving high, middle, and elementary school students as provided in this section. The use of prototypical schools for the distribution formula does not constitute legislative intent that schools should be operated or structured in a similar fashion as the prototypes. Prototypical schools illustrate the level of resources needed to operate a school of a particular size with particular types and grade levels of students using commonly understood terms and inputs, such as class size, hours of instruction, and various categories of school staff. It is the intent that the funding allocations to school districts be adjusted from the school prototypes based on the actual number of annual average full-time equivalent students in each grade level at each school in the district and not based on the grade-level configuration of the school to the extent that data is available. The allocations shall be further adjusted from the school prototypes with minimum allocations for small schools and to reflect other factors identified in the omnibus appropriations act.

(b) For the purposes of this section, prototypical schools are defined as follows:

- (i) A prototypical high school has six hundred average annual full-time equivalent students in grades nine through twelve;
- (ii) A prototypical middle school has four hundred thirty-two average annual full-time equivalent students in grades seven and eight; and
- (iii) A prototypical elementary school has four hundred average annual full-time equivalent students in grades kindergarten through six.

~~((e))~~ (4)(a) The minimum allocation for each level of prototypical school shall be based on the number of full-time equivalent classroom teachers needed to provide instruction over the minimum required annual instructional hours under RCW 28A.150.220 and provide at least one teacher planning period per school day, and based on ~~((an))~~ the following general education average class size ((as specified in the omnibus appropriations act)) of full-time equivalent students per teacher:

Grades K-3	25.23
Grade 4-7	27.00
Grades 5-6	27.00
Grades 7-8	28.53
Grades 9-12	28.74

(b) Beginning in the 2011-12 school year and beginning with schools with the highest percentage of students eligible for free and reduced-price meals in the prior school year, the general education average class size for grades K-3 shall be reduced until the average class size funded under this subsection (4) is no more than 15.0 full-time equivalent students per teacher beginning in the 2015-16 school year.

(c) The minimum allocation for each prototypical middle and high school shall also provide for full-time equivalent classroom teachers based on the following number of full-time equivalent students per teacher in career and technical education:

Career and technical education average class size	
Approved career and technical education offered at the middle school and high school level	26.57
Skill center programs meeting the standards established by the office of the superintendent of public instruction	22.76

(d) In addition, the omnibus appropriations act shall at a minimum specify:

- (i) ((Basic average class size; ~~—(ii) Basic~~)) A high-poverty average class size in schools where more than fifty percent of the students are eligible for free and reduced-price meals; and
- ~~((iii))~~ (ii) A specialty average class size for ~~((exploratory and preparatory career and technical education.))~~ laboratory science, advanced placement, and international baccalaureate courses~~((and~~
- (iv) Average class size in grades kindergarten through three). ~~((d))~~ (5) The minimum allocation for each level of prototypical school shall include allocations for the following types of staff in addition to classroom teachers:
 - ((i)) Principals, including assistant principals, and other certificated building-level administrators;
 - (ii) Teacher librarians, performing functions including information literacy, technology, and media to support school library media programs;
 - (iii) Student health services, a function that includes school nurses, whether certificated instructional or classified employee, and social workers;
 - (iv) Guidance counselors, performing functions including parent outreach and graduation advisor;
 - (v) Professional development coaches;
 - (vi) Teaching assistance, which includes any aspect of educational instructional services provided by classified employees;
 - (vii) Office support, technology support, and other noninstructional aides;
 - (viii) Custodians, warehouse, maintenance, laborer, and professional and technical education support employees; and
 - (ix) Classified staff providing student and staff safety.

Sec. 4. RCW 28A.150.315 and 2009 c 548 s 107 are each amended to read as follows:

(1) Beginning with the 2007-08 school year, funding for voluntary all-day kindergarten programs shall be phased-in beginning with schools with the highest poverty levels, defined as those schools with the highest percentages of students qualifying for free and reduced-price lunch support in the prior school year. Beginning with the 2011-12 school year, funding shall continue to be phased-in incrementally each year until full statewide implementation of all-day kindergarten is achieved in the 2017-18 school year. Once a school receives funding for the all-day kindergarten program, that school shall remain eligible for funding in subsequent school years regardless of changes in the school's percentage of students eligible for free and reduced-price lunches as long as other program requirements are fulfilled. Additionally, schools receiving all-day kindergarten program support shall agree to the following conditions:

(a) Provide at least a one thousand-hour instructional program;

(b) Provide a curriculum that offers a rich, varied set of experiences that assist students in:

- (i) Developing initial skills in the academic areas of reading, mathematics, and writing;

(e) Participate in kindergarten program readiness activities with early learning providers and parents.

(2) Subject to funds appropriated for this purpose, the superintendent of public instruction shall designate one or more school districts to serve as resources and examples of best practices in designing and operating a high-quality all-day kindergarten program. Designated school districts shall serve as lighthouse programs and provide technical assistance to other school districts in the initial stages of implementing an all-day kindergarten program. Examples of topics addressed by the technical assistance include strategic planning, developing the instructional program and curriculum, working with early learning providers to identify students and communicate with parents, and developing kindergarten program readiness activities.

Sec. 5. 2009 c 548 s 112 (uncodified) is amended to read as follows:

(1) The legislature intends to continue to redefine the instructional program of education under RCW 28A.150.220 that fulfills the obligations and requirements of Article IX of the state Constitution. The funding formulas under RCW 28A.150.260 to support the instructional program shall be implemented to the extent the technical details of the formula have been established and according to an implementation schedule to be adopted by the legislature. The object of the schedule is to assure that any increases in funding allocations are timely, predictable, and occur concurrently with any increases in program or instructional requirements. It is the intent of the legislature that no increased programmatic or instructional expectations be imposed upon schools or school districts without an accompanying increase in resources as necessary to support those increased expectations.

(2) The office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to:

(a) Develop the details of the funding formulas under RCW 28A.150.260;

(b) Recommend to the legislature an implementation schedule for phasing-in any increased program or instructional requirements concurrently with increases in funding for adoption by the legislature; and

(c) Examine possible sources of revenue to support increases in funding allocations and present options to the legislature and the quality education council created in ~~((section 114 of this act))~~ RCW 28A.290.010 for consideration.

(3) The working group shall include representatives of the legislative evaluation and accountability program committee, school district and educational service district financial managers, the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with expertise in education finance. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(4) The working group shall be monitored and overseen by the legislature and the quality education council established in ~~((section 114 of this act))~~ RCW 28A.290.010. The working group shall submit its recommendations to the legislature by December 1, 2009.

(5) After the 2009 report to the legislature, the office of financial management and the office of the superintendent of public instruction shall periodically reconvene the working group to monitor and provide advice on further development and implementation of the funding formulas under RCW 28A.150.260 and provide technical assistance to the ongoing work of the quality education council.

Sec. 6. 2009 c 548 s 302 (uncodified) is amended to read as follows:

(1) Beginning ~~((July))~~ April 1, 2010, the office of financial management, with assistance and support from the office of the superintendent of public instruction, shall convene a technical working group to develop options for a new system of supplemental school funding through local school levies and local effort assistance.

(2) The working group shall consider the impact on overall school district revenues of the new basic education funding system established under ~~((this act))~~ chapter 548, Laws of 2009 and shall recommend a phase-in plan that ensures that no school district suffers a decrease in funding from one school year to the next due to implementation of the new system of supplemental funding.

(3) The working group shall also:

(a) Examine local school district capacity to address facility needs associated with phasing-in full-day kindergarten across the state and reducing class size in kindergarten through third grade; and

(b) Provide the quality education council with analysis on the potential use of local funds that may become available for redeployment and redirection as a result of increased state funding allocations for pupil transportation and maintenance, supplies, and operating costs.

(4) The working group shall be composed of representatives from the department of revenue, the legislative evaluation and accountability program committee, school district and educational service district financial managers, and representatives of the Washington association of school business officers, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with expertise in education finance. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

~~((4))~~ (5) The local funding working group shall be monitored and overseen by the legislature and by the quality education council created in ~~((section 114 of this act))~~ RCW 28A.290.010. The working group shall report to the legislature ~~((December 1))~~ June 30, 2011.

Sec. 7. RCW 43.41.398 and 2009 c 548 s 601 are each amended to read as follows:

(1) The legislature recognizes that providing students with the opportunity to access a world-class educational system depends on our continuing ability to provide students with access to world-class educators. The legislature also understands that continuing to attract and retain the highest quality educators will require increased investments. The legislature intends to enhance the current salary allocation model and recognizes that changes to the current model cannot be imposed without great deliberation and input from teachers, administrators, and classified employees. Therefore, it is the intent of the legislature to begin the process of developing an enhanced salary allocation model that is collaboratively designed to ensure the rationality of any conclusions regarding what constitutes adequate compensation.

(2) Beginning July 1, 2011, the office of the superintendent of public instruction, in collaboration with the office of financial management, shall convene a technical working group to recommend the details of an enhanced salary allocation model that aligns state expectations for educator development and certification with the compensation system and establishes recommendations for a concurrent implementation schedule. In addition to any other details the technical working group deems necessary, the technical working group shall make recommendations on the following:

(a) How to reduce the number of tiers within the existing salary allocation model;

(b) How to account for labor market adjustments;

(c) How to account for different geographic regions of the state where districts may encounter difficulty recruiting and retaining teachers;

(d) The role of and types of bonuses available;

(e) Ways to accomplish salary equalization over a set number of years; and

(f) Initial fiscal estimates for implementing the recommendations including a recognition that staff on the existing salary allocation model would have the option to grandfather in permanently to the existing schedule.

(3) As part of its work, the technical working group shall conduct or contract for a preliminary comparative labor market analysis of salaries and other compensation for school district employees to be conducted and shall include the results in any reports to the legislature. For the purposes of this subsection, "salaries and other compensation" includes average base salaries, average total salaries, average employee basic benefits, and retirement benefits.

(4) The analysis required under subsection (1) of this section must:

(a) Examine salaries and other compensation for teachers, other certificated instructional staff, principals, and other building-level certificated administrators, and the types of classified employees for whom salaries are allocated;

(b) Be calculated at a statewide level that identifies labor markets in Washington through the use of data from the United States bureau of the census and the bureau of labor statistics; and

(c) Include a comparison of salaries and other compensation to the appropriate labor market for at least the following subgroups of educators: Beginning teachers and types of educational staff associates.

(5) The working group shall include representatives of the department of personnel, the professional educator standards board, the office of the superintendent of public instruction, the Washington education association, the Washington association of school administrators, the association of Washington school principals, the Washington state school directors' association, the public school employees of Washington, and other interested stakeholders with appropriate expertise in compensation related matters. The working group may convene advisory subgroups on specific topics as necessary to assure participation and input from a broad array of diverse stakeholders.

(6) The working group shall be monitored and overseen by the legislature and the quality education council created in RCW 28A.290.010. The working group shall make an initial report to the legislature by ~~((December 1))~~ June 30, 2012, and shall include in its report recommendations for whether additional further work of the group is necessary.

Sec. 8. RCW 28A.160.192 and 2009 c 548 s 311 are each amended to read as follows:

(1) The superintendent of public instruction shall phase-in the implementation of the distribution formula under this chapter for allocating state funds to school districts for the transportation of students to and from school. The phase-in shall ~~((be according to the implementation schedule adopted by the legislature and shall))~~ begin no later than the ~~((2013-14))~~ 2011-12 school year and be fully implemented by the 2013-14 school year.

(a) The formula must be developed and revised on an ongoing basis using the major cost factors in student transportation, including basic and special student loads, school district land area, average distance to school, roadway miles, and number of locations served. Factors must include all those site characteristics that are statistically significant after analysis of the data required by the revised reporting process.

(b) The formula must allocate funds to school districts based on the average predicted costs of transporting students to and from school, using a regression analysis.

(2) During the phase-in period, funding provided to school districts for student transportation operations shall be distributed on the following basis:

(a) Annually, each school district shall receive the lesser of the previous school year's pupil transportation operations allocation, or the total of allowable pupil transportation expenditures identified on the previous school year's final expenditure report to the state plus district indirect expenses using the state recovery rate identified by the superintendent; and

(b) Annually, any funds appropriated by the legislature in excess of the maintenance level funding amount for student transportation shall be distributed among school districts on a prorated basis using the difference between the amount identified in (a) of this subsection and the amount determined under the formula in RCW 28A.160.180.

((3) The superintendent shall develop, implement, and provide a copy of the rules specifying the student transportation reporting requirements to the legislature and school districts no later than December 1, 2009.

(4) Beginning in December 2009, and continuing until December 2014, the superintendent shall provide quarterly updates and progress reports to the fiscal committees of the legislature on the implementation and testing of the distribution formula.))

NEW SECTION. Sec. 9. A new section is added to chapter 28A.160 RCW to read as follows:

(3) This section expires June 30, 2015.

Sec. 10. RCW 28A.150.410 and 2007 c 403 s 1 are each amended to read as follows:

(1) The legislature shall establish for each school year in the appropriations act a statewide salary allocation schedule, for allocation purposes only, to be used to distribute funds for basic education certificated instructional staff salaries under RCW 28A.150.260. For the purposes of this section, the staff allocations for classroom teachers, teacher librarians, guidance counselors, and student health services staff under RCW 28A.150.260 are considered allocations for certificated instructional staff.

(2) Salary allocations for state-funded basic education certificated instructional staff shall be calculated by the superintendent of public instruction by determining the district's average salary for certificated instructional staff, using the statewide salary allocation schedule and related documents, conditions, and limitations established by the omnibus appropriations act.

(3) Beginning January 1, 1992, no more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in the omnibus appropriations act, or any replacement schedules and documents, unless:

(a) The employee has a master's degree; or

(b) The credits were used in generating state salary allocations before January 1, 1992.

(4) Beginning in the 2007-08 school year, the calculation of years of service for occupational therapists, physical therapists, speech-language pathologists, audiologists, nurses, social workers, counselors, and psychologists regulated under Title 18 RCW may include experience in schools and other nonschool positions as occupational therapists, physical therapists, speech-language pathologists, audiologists, nurses, social workers, counselors, or psychologists. The calculation shall be that one year of service in a

nonschool position counts as one year of service for purposes of this chapter, up to a limit of two years of nonschool service. Nonschool years of service included in calculations under this subsection shall not be applied to service credit totals for purposes of any retirement benefit under chapter 41.32, 41.35, or 41.40 RCW, or any other state retirement system benefits.

Sec. 11. RCW 28A.175.010 and 2005 c 207 s 3 are each amended to read as follows:

In developing rules, the superintendent of public instruction shall consult with school districts, including administrative and counseling personnel, with regard to the methods through which information is to be collected and reported.

(6) In reporting on the causes or reasons, or both, attributed to students for having dropped out of school, school building officials shall, to the extent reasonably practical, obtain such information directly from students. In lieu of obtaining such information directly from students, building principals and counselors shall identify the causes or reasons, or both, based on their professional judgment.

(7) The superintendent of public instruction shall report annually to the legislature the information collected under subsections (1) through (4) of this section.

(8) The Washington state institute for public policy shall calculate an annual estimate of the savings to taxpayers resulting from any improvement compared to the prior school year in the extended graduation rate, as calculated by the superintendent of public instruction. The superintendent shall include the estimate from the institute in an appendix of the report required under subsection (7) of this section, beginning with the 2010 report.

The portal must also provide a matrix displaying how individual school districts are

deploying those same state resources through their allocation of staff and other resources to school buildings, so that citizens are able to compare the state assumptions to district allocation decisions for each local school building.

The application shall be accompanied by a fee established by department rule to be deposited with the state treasurer to the credit of the motor vehicle fund. Permits shall be for the remainder of the calendar year in which they are issued, and accompanying fees shall not be prorated for fractions of the year. Permits must be renewed annually through a certification process established by department rule. Advertising copy may be changed at any time without the payment of an additional fee. A permit may be revoked after hearing if the department finds that any statement made in the application or annual certification process was false or misleading, or that the sign covered is not in good general condition and in a reasonable state of repair, or is otherwise in violation of this chapter, if the false or misleading information has not been corrected and the sign

Sec. 5. RCW 46.63.110 and 2009 c 479 s 39 are each amended to read as follows:

(1) A person found to have committed a traffic infraction shall be assessed a monetary penalty. No penalty may exceed two hundred and fifty dollars for each offense unless authorized by this chapter or title.

(2) The monetary penalty for a violation of (a) RCW 46.55.105(2) is two hundred fifty dollars for each offense; (b) RCW 46.61.210(1) is five hundred dollars for each offense. No penalty assessed under this subsection (2) may be reduced.

(3) The supreme court shall prescribe by rule a schedule of monetary penalties for designated traffic infractions. This rule shall also specify the conditions under which local courts may exercise discretion in assessing fines and penalties for traffic infractions. The legislature respectfully requests the supreme court to adjust this schedule every two years for inflation.

(4) There shall be a penalty of twenty-five dollars for failure to respond to a notice of traffic infraction except where the infraction relates to parking as defined by local law, ordinance, regulation, or resolution or failure to pay a monetary penalty imposed pursuant to this chapter. A local legislative body may set a monetary penalty not to exceed twenty-five dollars for failure to respond to a notice of traffic infraction relating to parking as defined by local law, ordinance, regulation, or resolution. The local court, whether a municipal, police, or district court, shall impose the monetary penalty set by the local legislative body.

(5) Monetary penalties provided for in chapter 46.70 RCW which are civil in nature and penalties which may be assessed for violations of chapter 46.44 RCW relating to size, weight, and load of motor vehicles are not subject to the limitation on the amount of monetary penalties which may be imposed pursuant to this chapter.

(6) Whenever a monetary penalty, fee, cost, assessment, or other monetary obligation is imposed by a court under this chapter it is immediately payable. If the court determines, in its discretion, that a person is not able to pay a monetary obligation in full, and not more than one year has passed since the later of July 1, 2005, or the date the monetary obligation initially became due and payable, the court shall enter into a payment plan with the person, unless the person has previously been granted a payment plan with respect to the same monetary obligation, or unless the person is in noncompliance of any existing or prior payment plan, in which case the court may, at its discretion, implement a payment plan. If the court has notified the department that the person has failed to pay or comply and the person has subsequently entered into a payment plan and made an initial payment, the court shall notify the department that the infraction has been adjudicated, and the department shall rescind any suspension of the person's driver's license or driver's privilege based on failure to respond to that infraction. "Payment plan," as used in this section, means a plan that requires reasonable payments based on the financial ability of the person to pay. The person may voluntarily pay an amount at any time in addition to the payments required under the payment plan.

(a) If a payment required to be made under the payment plan is delinquent or the person fails to complete a community restitution program on or before the time established under the payment plan, unless the court determines good cause therefor and adjusts the payment plan or the community restitution plan accordingly, the court shall notify the department of the person's failure to meet the conditions of the plan, and the department shall suspend the person's driver's license or driving privilege until all monetary obligations, including those imposed under subsections (3) and (4) of this section, have been paid, and court authorized community restitution has been completed, or until the department has been notified that the court has

entered into a new time payment or community restitution agreement with the person.

(b) If a person has not entered into a payment plan with the court and has not paid the monetary obligation in full on or before the time established for payment, the court shall notify the department of the delinquency. The department shall suspend the person's driver's license or driving privilege until all monetary obligations have been paid, including those imposed under subsections (3) and (4) of this section, or until the person has entered into a payment plan under this section.

(c) If the payment plan is to be administered by the court, the court may assess the person a reasonable administrative fee to be wholly retained by the city or county with jurisdiction. The administrative fee shall not exceed ten dollars per infraction or twenty-five dollars per payment plan, whichever is less.

(d) Nothing in this section precludes a court from contracting with outside entities to administer its payment plan system. When outside entities are used for the administration of a payment plan, the court may assess the person a reasonable fee for such administrative services, which fee may be calculated on a periodic, percentage, or other basis.

(e) If a court authorized community restitution program for offenders is available in the jurisdiction, the court may allow conversion of all or part of the monetary obligations due under this section to court authorized community restitution in lieu of time payments if the person is unable to make reasonable time payments.

(7) In addition to any other penalties imposed under this section and not subject to the limitation of subsection (1) of this section, a person found to have committed a traffic infraction shall be assessed:

(a) A fee of five dollars per infraction. Under no circumstances shall this fee be reduced or waived. Revenue from this fee shall be forwarded to the state treasurer for deposit in the emergency medical services and trauma care system trust account under RCW 70.168.040;

(b) A fee of ten dollars per infraction. Under no circumstances shall this fee be reduced or waived. Revenue from this fee shall be forwarded to the state treasurer for deposit in the Washington auto theft prevention authority account; and

(c) A fee of two dollars per infraction. Revenue from this fee shall be forwarded to the state treasurer for deposit in the traumatic brain injury account established in RCW 74.31.060.

(8)(a) In addition to any other penalties imposed under this section and not subject to the limitation of subsection (1) of this section, a person found to have committed a traffic infraction other than of RCW 46.61.527 or 46.61.212 shall be assessed an additional penalty of twenty dollars. The court may not reduce, waive, or suspend the additional penalty unless the court finds the offender to be indigent. If a court authorized community restitution program for offenders is available in the jurisdiction, the court shall allow offenders to offset all or a part of the penalty due under this subsection (8) by participation in the court authorized community restitution program.

(b) Eight dollars and fifty cents of the additional penalty under (a) of this subsection shall be remitted to the state treasurer. The remaining revenue from the additional penalty must be remitted under chapters 2.08, 3.46, 3.50, 3.62, 10.82, and 35.20 RCW. Money remitted under this subsection to the state treasurer must be deposited in the state general fund. The balance of the revenue received by the county or city treasurer under this subsection must be deposited into the county or city current expense fund. Moneys retained by the city or county under this subsection shall constitute reimbursement for any liabilities under RCW 43.135.060.

(9) If a legal proceeding, such as garnishment, has commenced to collect any delinquent amount owed by the person for any penalty imposed by the court under this section, the court may, at its discretion, enter into a payment plan.

(10) The monetary penalty for violating RCW 46.37.395 is: (a) Two hundred fifty dollars for the first violation; (b) five hundred dollars for the second violation; and (c) seven hundred fifty dollars for each violation thereafter.

(3) A person is guilty of a gross misdemeanor if he or she advertises for sale or sells a vehicle that has been declared unfit and prohibited from use by a local health officer if:

((A transfer of ownership in a motor vehicle is perfected by compliance with the requirements of this section.

(1)(a) If an owner transfers his or her interest in a vehicle, other than by the creation, deletion, or change of a security interest, the owner shall, at the time of the delivery of the vehicle, execute an assignment to the transferee and provide an odometer disclosure statement under RCW 46.12.124 on the certificate of ownership or as the department otherwise prescribes, and cause the certificate and assignment to be transmitted to the transferee. The owner shall notify

the department or its agents or subagents, in writing, on the appropriate form, of the date of the sale or transfer, the name and address of the owner and of the transferee, the transferee's driver's license number if available, and such description of the vehicle, including the vehicle identification number, as may be required in the appropriate form provided or approved for that purpose by the department. The report of sale will be deemed properly filed if all information required in this section is provided on the form and includes a department-authorized notation that the document was received by the department, its agents, or subagents on or before the fifth day after the sale of the vehicle, excluding Saturdays, Sundays, and state and federal holidays. Agents and subagents shall immediately electronically transmit the seller's report of sale to the department. Reports of sale processed and recorded by the department's agents or subagents may be subject to fees as specified in RCW 46.01.140 (4)(a) or (5)(b). By January 1, 2003, the department shall create a system enabling the seller of a vehicle to transmit the report of sale electronically. The system created by the department must immediately indicate on the department's vehicle record that a seller's report of sale has been filed.

(b) By January 1, 2008, the department shall provide instructions on release of interest forms that allow the seller of a vehicle to release his or her interest in a vehicle at the same time a financial institution, as defined in RCW 30.22.040, releases its lien on the vehicle.

(2) The requirements of subsection (1) of this section to provide an odometer disclosure statement apply to the transfer of vehicles held for lease when transferred to a lessee and then to the lessor at the end of the leasehold and to vehicles held in a fleet when transferred to a purchaser.

(3) Except as provided in RCW 46.70.122 the transferee shall within fifteen days after delivery to the transferee of the vehicle, execute the application for a new certificate of ownership in the same space provided therefor on the certificate or as the department prescribes, and cause the certificates and application to be transmitted to the department accompanied by a fee of five dollars in addition to any other fees required.

(4) Upon request of the owner or transferee, a secured party in possession of the certificate of ownership shall, unless the transfer was a breach of its security agreement, either deliver the certificate to the transferee for transmission to the department or, when the secured party receives the owner's assignment from the transferee, it shall transmit the transferee's application for a new certificate, the existing certificate, and the required fee to the department. Compliance with this section does not affect the rights of the secured party.

(5) If a security interest is reserved or created at the time of the transfer, the certificate of ownership shall be retained by or delivered to the person who becomes the secured party, and the parties shall comply with the provisions of RCW 46.12.170.

(6) If the purchaser or transferee fails or neglects to make application to transfer the certificate of ownership and license registration within fifteen days after the date of delivery of the vehicle, he or she shall on making application for transfer be assessed a twenty-five dollar penalty on the sixteenth day and two dollars additional for each day thereafter, but not to exceed one hundred dollars. The director may by rule establish conditions under which the penalty will not be assessed when an application for transfer is delayed for reasons beyond the control of the purchaser. Conditions for not assessing the penalty may be established for but not limited to delays caused by:

- (a) The department requesting additional supporting documents;
- (b) Extended hospitalization or illness of the purchaser;
- (c) Failure of a legal owner to release his or her interest;
- (d) Failure, negligence, or nonperformance of the department, auditor, or subagent;

(e) The transferee had no knowledge of the filing of the vehicle report of sale and signs an affidavit to the fact.

Failure or neglect to make application to transfer the certificate of ownership and license registration within forty-five days after the date of delivery of the vehicle is a misdemeanor and a continuing offense for each day during which the purchaser or transferee does not make application to transfer the certificate of ownership and license registration. Despite the continuing nature of this offense, it shall be considered a single offense, regardless of the number of days that have elapsed following the forty-five day time period.

(7) Upon receipt of an application for reissue or replacement of a certificate of ownership and transfer of license registration, accompanied by the endorsed certificate of ownership or other documentary evidence as is deemed necessary, the department shall, if the application is in order and if all provisions relating to the certificate of ownership and license registration have been complied with, issue new certificates of title and license registration as in the case of an original issue and shall transmit the fees together with an itemized detailed report to the state treasurer.

(8) Once each quarter the department shall report to the department of revenue a list of those vehicles for which a seller's report has been received but no transfer of title has taken place.)

(1) **Releasing interest.** An owner releasing interest in a vehicle shall:

(a) Sign the release of interest section provided on the certificate of title or on a release of interest document or form approved by the department;

(d) Donated to charity;

(e) Turned over to an insurance company or wrecking yard; or

(3) **Report of sale properly filed.** A report of sale is properly filed if it is received by the department, county auditor or other agent, or subagent appointed by the director within five business days after the date of sale or transfer and it includes:

(a) The date of sale or transfer;

(b) The owner's name and address;

(c) The name and address of the person acquiring the vehicle;

(d) The vehicle identification number and license plate number;

(e) A date or stamp by the department showing it was received on or before the fifth business day after the date of sale or transfer; and

(f) Payment of the fees required under section 505 of this act if the report of sale is processed by a county auditor or other agent or subagent appointed by the director.

(4) **Report of sale - administration.** The department shall:

(a) Provide or approve reports of sale forms;

(b) Provide a system enabling an owner to submit reports of sale electronically;

(c) Immediately update the department's vehicle record when a report of sale has been filed;

(d) Provide instructions on release of interest forms that allow the seller of a vehicle to release their interest in a vehicle at the same time a financial institution, as defined in RCW 30.22.040, releases its lien on the vehicle; and

(e) Send a report to the department of revenue that lists vehicles for which a report of sale has been received but no transfer of ownership has taken place. The department shall send the report once each quarter.

(5)(a) **Transferring ownership.** A person who has recently acquired a vehicle by purchase, exchange, gift, lease, inheritance, or legal action shall apply to the department, county auditor or other agent, or subagent appointed by the director for a new certificate of title within fifteen days of delivery of the vehicle. A secured party who has possession of the certificate of title shall either:

(i) Apply for a new certificate of title on behalf of the owner and pay the fee required under section 508 of this act; or

(ii) Provide all required documents to the owner, as long as the transfer was not a breach of its security agreement, to allow the owner to apply for a new certificate of title.

(b) Compliance with this subsection does not affect the rights of the secured party.

(6) **Certificate of title delivered to secured party.** The certificate of title must be kept by or delivered to the person who becomes the secured party when a security interest is reserved or created at the time of the transfer of ownership. The parties must comply with RCW 46.12.170 (as recodified by this act).

(7) **Penalty for late transfer.** A person who has recently acquired a motor vehicle by purchase, exchange, gift, lease, inheritance, or legal action who does not apply for a new certificate of title within fifteen calendar days of delivery of the vehicle is charged a penalty, as described in section 512 of this act, when applying for a new certificate of title. It is a misdemeanor to fail or neglect to apply for a transfer of ownership within forty-five days after delivery of the vehicle. The misdemeanor is a single continuing offense for each day that passes regardless of the number of days that have elapsed following the forty-five day time period.

(8) **Penalty for late transfer - exceptions.** The penalty is not charged if the delay in application is due to at least one of the following:

(a) The department requests additional supporting documents;

(b) The department, county auditor or other agent, or subagent fails to perform or is neglectful;

(c) The owner is prevented from applying due to an illness or extended hospitalization;

(d) The legal owner fails or neglects to release interest;

(e) The owner did not know of the filing of a report of sale by the previous owner and signs an affidavit to the fact; or

(f) The department finds other conditions exist that adequately explain the delay.

(9) **Review and issue.** The department shall review applications for certificates of title and issue certificates of title when it has determined that all applicable provisions of law have been complied with.

(10) **Rules.** The department may adopt rules as necessary to implement this section.

Sec. 423. RCW 46.16.090 and 1989 c 156 s 3 are each amended to read as follows:

(Motor trucks, truck tractors, and tractors may be specially licensed based on the declared gross weight thereof for the various amounts set forth in the schedule provided in RCW 46.16.070 less twenty-three dollars; divide the difference by two and add twenty-three dollars, when such vehicles are owned and operated by farmers, but only if the following condition or conditions exist:

(1) When such vehicles are to be used for the transportation of the farmer's own farm, orchard, or dairy products, or the farmer's own private sector cultured aquatic products as defined in RCW 15.85.020, from point of production to market or warehouse, and of supplies to be used on the farmer's farm. Fish other than those that are such private sector cultured aquatic products and forestry products

are not considered as farm products; and/or

(2) When such vehicles are to be used for the infrequent or seasonal transportation by one farmer for another farmer in the farmer's neighborhood of products of the farm, orchard, dairy, or aquatic farm owned by the other farmer from point of production to market or warehouse, or supplies to be used on the other farm, but only if transportation for another farmer is for compensation other than money. Farmers shall be permitted an allowance of an additional eight thousand pounds, within the legal limits, on such vehicles, when used in the transportation of the farmer's own farm machinery between the farmer's own farm or farms and for a distance of not more than thirty-five miles from the farmer's farm or farms.

The department shall prepare a special form of application to be used by farmers applying for licenses under this section, which form shall contain a statement to the effect that the vehicle concerned will be used subject to the limitations of this section. The department shall prepare special insignia which shall be placed upon all such vehicles to indicate that the vehicle is specially licensed, or may, in its discretion, substitute a special license plate for such vehicle for such designation.

Operation of such a specially licensed vehicle in transportation upon public highways in violation of the limitations of this section is a traffic infraction.)

(1) Motor trucks, truck tractors, and tractors owned and operated by farmers may receive a reduction in gross weight license fees as described in section 527 of this act only if the vehicle is used exclusively to transport:

(a) The farmer's own farm, orchard, dairy, or private sector cultured aquatic products as defined in RCW 15.85.020, from point of production to market or warehouse. Fish other than private sector cultured aquatic products or forestry products are not considered farm products;

(b) Supplies used on the farmer's farm; or

(c) Products owned by the farm as listed in (a) of this subsection for another farmer in the neighborhood on a seasonal or infrequent basis. This may only be for compensation other than money.

(2) Farm vehicles that meet the requirements provided in subsection (1)(a) through (c) of this section may receive a reduction in gross weight license fees if the farm is exempt from property taxes under RCW 84.36.630. The reduction is the reduced gross weight license fee provided in section 527 of this act. To qualify for the additional gross weight license fee reduction, the farmer must submit copies of the forms as required under RCW 84.36.630.

(3) An additional eight thousand pounds gross weight within the legal limits on farm vehicles may be used if the farmer is transporting the farmer's own farm machinery between the farmer's own farm or farms and for a distance of not more than thirty-five miles.

(4) The application for a reduced gross weight license fee must be made by the farmer or the farmer's authorized representative to the department, county auditor or other agent, or subagent appointed by the director on a form furnished or approved by the department and must contain a statement that the vehicle will be used subject to the limitations of this section.

(5) The department, county auditor or other agent, or subagent appointed by the director shall issue a unique series of license tags for farm vehicles registered under this section. Farm tags must be placed on all farm vehicles registered under this section to indicate that the vehicle is registered as a farm vehicle. The department may substitute a special license plate for farm vehicles.

(6) It is a traffic infraction to operate a farm vehicle registered under this section on the public highways in violation of the limitations of this section.

Sec. 424. RCW 46.16.125 and 1997 c 215 s 2 are each amended to read as follows:

In addition to the license fees required ~~((by))~~ under section 530 of this act for registering vehicles under RCW 46.16.070 (as recodified

by this act), operators of auto stages with seating capacity over six shall pay, at the time they file gross earning returns with the utilities and transportation commission, the sum of fifteen cents for each one hundred vehicle miles operated by each auto stage over the public highways of this state. However, in the case of each auto stage propelled by steam, electricity, natural gas, diesel oil, butane, or propane, the payment required in this section is twenty cents per one hundred miles of such operation. The commission shall transmit all sums so collected to the state treasurer, who shall deposit the same in the motor vehicle fund. Any person failing to make any payment required by this section is subject to a penalty of one hundred percent of the payment due in this section, in addition to any penalty provided for failure to submit a report. Any penalties so collected shall be credited to the public service revolving fund.

Sec. 425. RCW 46.16.160 and 2007 c 419 s 6 are each amended to read as follows:

((1) The owner of a vehicle which under reciprocal relations with another jurisdiction would be required to obtain a license registration in this state or an unlicensed vehicle which would be required to obtain a license registration for operation on public highways of this state may, as an alternative to such license registration, secure and operate such vehicle under authority of a trip permit issued by this state in lieu of a Washington certificate of license registration, and licensed gross weight if applicable. The licensed gross weight may not exceed eighty thousand pounds for a combination of vehicles nor forty thousand pounds for a single unit vehicle with three or more axles. Trip permits are required for movement of mobile homes or park model trailers and may only be issued if property taxes are paid in full. For the purpose of this section, a vehicle is considered unlicensed if the licensed gross weight currently in effect for the vehicle or combination of vehicles is not adequate for the load being carried. Vehicles registered under RCW 46.16.135 shall not be operated under authority of trip permits in lieu of further registration within the same registration year.

(2) Each trip permit shall authorize the operation of a single vehicle at the maximum legal weight limit for such vehicle for a period of three consecutive days commencing with the day of first use. No more than three such permits may be used for any one vehicle in any period of thirty consecutive days, except that in the case of a recreational vehicle as defined in RCW 43.22.335, no more than two trip permits may be used for any one vehicle in a one-year period. Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety and signed by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit such as dates, license number, or vehicle identification number invalidates the permit. The trip permit shall be displayed on the vehicle to which it is issued as prescribed by the department.

(3) Vehicles operating under authority of trip permits are subject to all laws, rules, and regulations affecting the operation of like vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip permits in Washington shall retain the customer copy of such permit for four years.

(5) Trip permits may be obtained from field offices of the department of transportation, department of licensing, or other agents appointed by the department. The fee for each trip permit is twenty dollars. Five dollars from every twenty-dollar trip permit fee shall be deposited into the state patrol highway account and must be used for commercial motor vehicle inspections. For each permit issued, the fee includes a filing fee as provided by RCW 46.01.140 and an excise tax of one dollar. The remaining portion of the trip permit fee must be deposited to the credit of the motor vehicle fund as an administrative fee. If the filing fee amount of three dollars as prescribed in RCW 46.01.140 is increased or decreased after July 1, 2002, the administrative fee must be increased or decreased by the

same amount so that the total trip permit would be adjusted equally to compensate. These fees and taxes are in lieu of all other vehicle license fees and taxes. No exchange, credits, or refunds may be given for trip permits after they have been purchased.

(6) The department may appoint county auditors or businesses as agents for the purpose of selling trip permits to the public. County auditors or businesses so appointed may retain the filing fee collected for each trip permit to defray expenses incurred in handling and selling the permits.

(7) Commercial motor vehicles that are owned by a motor carrier subject to RCW 46.32.080, must not be operated on trip permits authorized by RCW 46.16.160 or 46.16.162 if the motor carrier's department of transportation number has been placed out of service by the Washington state patrol. A violation of or a failure to comply with this subsection is a gross misdemeanor, subject to a minimum monetary penalty of two thousand five hundred dollars for the first violation and five thousand dollars for each subsequent violation.

(8) Except as provided in subsection (7) of this section, a violation of or a failure to comply with any provision of this section is a gross misdemeanor.

(9) The department of licensing may adopt rules as it deems necessary to administer this section.

(10) A surcharge of five dollars is imposed on the issuance of trip permits. The portion of the surcharge paid by motor carriers must be deposited in the motor vehicle fund for the purpose of supporting vehicle weigh stations, weigh-in-motion programs, and the commercial vehicle information systems and networks program. The remaining portion of the surcharge must be deposited in the motor vehicle fund for the purpose of supporting congestion relief programs. All other administrative fees and excise taxes collected under the provisions of this chapter shall be forwarded by the department with proper identifying detailed report to the state treasurer who shall deposit the administrative fees to the credit of the motor vehicle fund and the excise taxes to the credit of the general fund. Filing fees will be forwarded and reported to the state treasurer by the department as prescribed in RCW 46.01.140.)

(1)(a) A vehicle owner may operate an unregistered vehicle on public highways under the authority of a trip permit issued by this state. For purposes of trip permits, a vehicle is considered unregistered if:

(i) Under reciprocal relations with another jurisdiction, the owner would be required to register the vehicle in this state;

(ii) The license tabs have expired; or

(iii) The current gross weight license is insufficient for the load being carried. The licensed gross weight may not exceed eighty thousand pounds for a combination of vehicles or forty thousand pounds for a single unit vehicle with three or more axles.

(b) Trip permits are required to move mobile homes or park model trailers and may only be issued if property taxes are paid in full.

(2) Trip permits may not be:

(a) Issued to vehicles registered under RCW 46.16.070(5) (as recodified by this act) in lieu of further registration within the same registration year; or

(b) Used for commercial motor vehicles owned by a motor carrier subject to RCW 46.32.080 if the motor carrier's department of transportation number has been placed out of service by the Washington state patrol. A violation of or a failure to comply with this subsection is a gross misdemeanor, subject to a minimum monetary penalty of two thousand five hundred dollars for the first violation and five thousand dollars for each subsequent violation.

(3)(a) Each trip permit authorizes the operation of a single vehicle at the maximum legal weight limit for the vehicle for a period of three consecutive days beginning with the day of first use. No more than three trip permits may be used for any one vehicle in any thirty consecutive day period. No more than two trip permits may be used for any one recreational vehicle, as defined in RCW 43.22.335, in a

one-year period. Every trip permit must:

- (i) Identify the vehicle for which it is issued;
- (ii) Be completed in its entirety;
- (iii) Be signed by the operator before operation of the vehicle on the public highways of this state;
- (iv) Not be altered or corrected. Altering or correcting data on the trip permit invalidates the trip permit; and
- (v) Be displayed on the vehicle for which it is issued as required by the department.

(b) Vehicles operating under the authority of trip permits are subject to all laws, rules, and regulations affecting the operation of similar vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip permits in Washington shall retain the customer copy of each permit for four years.

(5) Trip permits may be obtained from field offices of the department of transportation, department of licensing, county auditors or other agents, and subagents appointed by the department for the fee provided in section 535(1)(h) of this act. Exchanges, credits, or refunds may not be given for trip permits after they have been purchased.

(6) Except as provided in subsection (2)(b) of this section, a violation of or a failure to comply with this section is a gross misdemeanor.

(7) The department may adopt rules necessary to administer this section.

NEW SECTION. Sec. 427. A new section is added to chapter 46.16 RCW under the subchapter heading "permits and uses" to read as follows:

The owner of a commercial vehicle properly registered in another state may apply to the department, county auditor or other agent, or subagent appointed by the director for an out-of-state commercial vehicle intrastate permit when operating the commercial vehicle in Washington state for periods less than one year. The permit may be issued for a thirty, sixty, or ninety-day period. For each thirty-day period, the cost of each permit is one-twelfth of the fees required under chapter 82.44 RCW if the vehicle is subject to locally imposed motor vehicle excise taxes and (1) under section 530(1) of this act if the vehicle is a motor vehicle or (2) under section 531(1)(c) of this act if the vehicle is a commercial trailer.

Sec. 428. RCW 46.16.210 and 2001 c 206 s 1 are each amended to read as follows:

((1) Upon receipt of the application and proper fee for original vehicle license, the director shall make a recheck of the application and in the event that there is any error in the application it may be returned to the county auditor or other agent to effectively secure the correction of such error, who shall return the same corrected to the director.

(2) Application for the renewal of a vehicle license shall be made to the director or his agents, including county auditors, by the registered owner on a form prescribed by the director. The application must be accompanied by the payment of such license fees and excise tax as may be required by law. Such application shall be handled in the same manner and the fees transmitted to the state treasurer in the same manner as in the case of an original application. Any such application which upon validation becomes a renewal certificate need not have entered upon it the name of the lien holder, if any, of the vehicle concerned.

PART VI. SPECIAL LICENSE PLATES

A. REVIEW BOARD

Sec. 601. RCW 46.16.700 and 2003 c 196 s 1 are each amended to read as follows:

The legislature has seen an increase in the demand from constituent groups seeking recognition and funding through the establishment of commemorative or special license plates. The high cost of implementing a new special license plate series coupled with the uncertainty of the state's ability to recoup its costs has led the legislature to delay the implementation of new special license plates. In order to address these issues, it is the intent of the legislature to create a mechanism that will allow for the evaluation of special license plate requests and establish a funding policy that will alleviate the financial burden currently placed on the state. Using these two strategies, the legislature will be better equipped to efficiently process special license plate legislation.

Sec. 602. RCW 46.16.705 and 2005 c 319 s 117 are each amended to read as follows:

(1) The special license plate review board is created.

(2) The board will consist of seven members: One member appointed by the governor (and) who will serve as chair of the board; four members of the legislature, one from each caucus of the house of representatives and the senate; a department of licensing representative appointed by the director; and a Washington state patrol representative appointed by the chief.

(3) Members shall serve terms of four years, except that four of the members initially appointed will be appointed for terms of two years. ~~(No)~~ A member may not be appointed for more than three consecutive terms.

(4) The respective appointing authority may remove members from the board before the expiration of their terms only for cause based upon a determination of incapacity, incompetence, neglect of

duty, or malfeasance in office as ordered by the Thurston county superior court, upon petition and show cause proceedings brought for that purpose in that court and directed to the board member in question.

Sec. 603. RCW 46.16.715 and 2005 c 319 s 118 are each amended to read as follows:

(1) The board shall meet periodically at the call of the chair, but must meet at least ~~((one time))~~ once each year within ninety days before an upcoming regular session of the legislature. The board may adopt its own rules and may establish its own procedures. It shall act collectively in harmony with recorded resolutions or motions adopted by a majority vote of the members, and it must have a quorum present to take a vote on a special license plate application.

(2) The board will be compensated from the general appropriation for the department ~~((of licensing))~~ in accordance with RCW 43.03.250. Each board member will be compensated in accordance with RCW 43.03.250 and reimbursed for actual necessary traveling and other expenses in going to, attending, and returning from meetings of the board or that are incurred in the discharge of duties requested by the chair. However, ~~((in no event may))~~ a board member may not be compensated in any year for more than one hundred twenty days, except the chair may be compensated for not more than one hundred fifty days. Service on the board does not qualify as a service credit for the purposes of a public retirement system.

(3) The board shall keep proper records and is subject to audit by the state auditor or other auditing entities.

(4) The department ~~((of licensing))~~ shall provide administrative support to the board, which must include at least the following:

(a) Provide general staffing to meet the administrative needs of the board;

(b) Report to the board on the reimbursement status of any new special license plate series for which the state had to pay the start-up costs;

(c) Process special license plate applications and confirm that the sponsoring organization has submitted all required documentation. If an incomplete application is received, the department must return it to the sponsoring organization; and

(d) Compile the annual financial reports submitted by sponsoring organizations with active special license plate series and present those reports to the board for review and approval.

Sec. 604. RCW 46.16.725 and 2009 c 470 s 710 are each amended to read as follows:

(1) The creation of the board does not in any way preclude the authority of the legislature to independently propose and enact special license plate legislation.

(2) The board must review and either approve or reject special license plate applications submitted by sponsoring organizations.

(3) Duties of the board include but are not limited to the following:

(a) Review and approve the annual financial reports submitted by sponsoring organizations with active special license plate series and present those annual financial reports to the senate and house transportation committees;

(b) Report annually to the senate and house of representatives transportation committees on the special license plate applications that were considered by the board;

(c) Issue approval and rejection notification letters to sponsoring organizations, the department, the chairs of the senate and house of representatives transportation committees, and the legislative sponsors identified in each application. The letters must be issued within seven days of making a determination on the status of an application;

(4) Except as provided in ~~((chapter 72, Laws of 2008))~~ section 621 of this act, in order to assess the effects and impact of the proliferation of special license plates, the legislature declares a temporary moratorium on the issuance of any additional plates until July 1, 2011. During this period of time, the special license plate review board created in RCW 46.16.705 (as recodified by this act) and the department ~~((of licensing))~~ are prohibited from accepting, reviewing, processing, or approving any applications. Additionally, ~~((no))~~ a special license plate may not be enacted by the legislature during the moratorium, unless the proposed license plate has been approved by the board before February 15, 2005.

The creation and implementation of the special license plate series may not ~~((commence))~~ begin until payment is received by the department.

(b) If the sponsoring organization is not able to meet the prepayment requirements in (a) of this subsection and can demonstrate this fact to the satisfaction of the department, the revenues generated from the sale of the special license plates must be deposited in the motor vehicle ~~((account))~~ fund created in RCW 46.68.070 until the department determines that the state's portion of the implementation costs have been fully reimbursed. If the state is still not fully reimbursed for its implementation costs after the one-year probation, the special license plate series must be discontinued immediately. Those special license plate series issued before discontinuation are valid until replaced under (RCW 46.16.233) section 422(10) of this act.

The department shall collect from the requesting organization a fee of two hundred dollars for providing special license plate design services. This fee includes one original special license plate design and up to five additional renditions of the original design. (2) A ((motor)) vehicle ((shall be)) is deemed ((licensed)) registered for the first time in this state when ((such)) the vehicle was not previously ((licensed)) registered by this state for the registration year immediately preceding the registration year in which the application for ((license)) registration is made or when the vehicle has been registered in another jurisdiction subsequent to any prior registration in this state.

((No)) (3) An additional tax ((shall)) may not be imposed under this chapter ((upon)) on any vehicle ((upon the transfer of ownership thereof)) when the certificate of title is being transferred if the tax ((imposed with respect to such vehicle)) has already been paid for the registration year or fraction of a registration year in which transfer of ownership occurs.

Sec. 912. RCW 82.44.065 and 2006 c 318 s 5 are each amended to read as follows:

If the department determines a value for a ((motor)) vehicle equivalent to a manufacturer's base suggested retail price or the value of a truck((type power or trailing unit)) or trailer under RCW 82.44.035, any person who pays a locally imposed tax for that vehicle may appeal the valuation to the department under chapter 34.05 RCW. If the taxpayer is successful on appeal, the department shall refund the excess tax in the manner provided in RCW 82.44.120.

Sec. 913. RCW 82.44.090 and 2006 c 318 s 6 are each amended to read as follows:

The receipt may be incorporated in the receipt given for the ((motor)) vehicle license fee or dealer's license fee paid.

Sec. 915. RCW 82.44.120 and 2006 c 318 s 8 are each amended to read as follows:

(((1) Whenever any person has paid a motor vehicle license fee, and together therewith has paid a locally imposed excise tax, and the director determines that the payor is entitled to a refund of the entire amount of the license fee as provided by law, then the payor shall also be entitled to a refund of the entire excise tax collected under the

provisions of this chapter. In case the director determines that any person is entitled to a refund of only a part of the license fee so paid, the payor shall be entitled to a refund of the difference, if any, between the excise tax collected and that which should have been collected.

(2) In case no claim is to be made for the refund of the license fee or any part thereof, but claim is made by any person that he or she has paid an erroneously excessive amount of excise tax, the department shall determine in the manner generally provided in this chapter the amount of such excess, if any, that has been paid and shall certify to the state treasurer that such person is entitled to a refund in such amount.

(3) In any case where due to error, a person has been required to pay an excise tax pursuant to this chapter and a vehicle license fee pursuant to Title 46 RCW which amounts to an overpayment of ten dollars or more, such person shall be entitled to a refund of the entire amount of such overpayment, regardless of whether or not a refund of the overpayment has been requested. Conversely, if due to error, the department or its agents has failed to collect the full amount of the license fee and excise tax due, which underpayment is in the amount of ten dollars or more, the department shall charge and collect such additional amount as will constitute full payment of the tax.

(4) Any claim for refund of an erroneously excessive amount of excise tax or overpayment of excise tax with a motor vehicle license fee must be filed with the director within three years after the claimed erroneous payment was made.

(5) If the department approves the claim it shall notify the state treasurer to that effect, and the treasurer shall make such approved refunds from the general fund and shall mail or deliver the same to the person entitled thereto.

(6) Any person making any false statement under which he or she obtains any amount of refund to which he or she is not entitled under the provisions of this section is guilty of a gross misdemeanor.

(7)) (1) Refunds of locally imposed motor vehicle excise taxes must be handled in the same manner and under the same terms and conditions as provided in RCW 46.68.010.

(2) A claim for a refund may be made by a person who:

(a) Is not seeking a full refund; and

(b) Believes the amount of the locally imposed motor vehicle excise tax paid was incorrect or too much.

(3) When a claim for a refund is made as provided in subsection (2) of this section, the department shall:

(a) Determine the amount of the locally imposed motor vehicle excise tax that had been greater than the amount actually due, if any; and

(b) Certify to the state treasurer the amount of the partial refund due.

(4) Before a local government subject to this chapter may impose a motor vehicle excise tax, the local government shall contract with the department for reimbursement for any refunds paid to a person by the treasurer.

Sec. 916. RCW 82.80.130 and 2006 c 318 s 4 are each amended to read as follows:

(1) Public transportation benefit areas authorized to implement passenger-only ferry service under RCW 36.57A.200 whose boundaries (a) are on the Puget Sound, but (b) do not include an area where a regional transit authority has been formed, may submit an authorizing proposition to the voters and, if approved, may levy and collect an excise tax, at a rate approved by the voters, but not exceeding four-tenths of one percent on the value of every motor vehicle owned by a resident of the taxing district, solely for the purpose of providing passenger-only ferry service. The tax must be collected only at the time of vehicle ((license)) registration renewal under chapter 46.16 RCW. The tax will be imposed on vehicles previously registered in another state or nation when they are initially registered in this state. The tax will not be imposed at the time of sale

by a licensed vehicle dealer. In a county imposing a motor vehicle excise tax surcharge under RCW 81.100.060, the maximum tax rate under this section must be reduced to a rate equal to four-tenths of one percent on the value less the equivalent motor vehicle excise tax rate of the surcharge imposed under RCW 81.100.060. This rate does not apply to vehicles (~~licensed~~) registered under RCW 46.16.070 (as recodified by this act) with (~~an unladen~~) a scale weight more than six thousand pounds, or to vehicles (~~licensed~~) registered under (~~RCW 46.16.079, 46.16.085, or~~) section 528 of this act, section 531(1)(c) of this act, or RCW 46.16.090 (as recodified by this act).

(2) The department of licensing shall administer and collect the tax in accordance with chapter 82.44 RCW. The department shall deduct a percentage amount, as provided by contract, not to exceed one percent of the taxes collected, for administration and collection expenses incurred by it. The remaining proceeds must be remitted to the custody of the state treasurer for monthly distribution to the public transportation benefit area.

(3) The public transportation benefit area imposing this tax shall delay the effective date at least six months from the date the fee is approved by the qualified voters of the authority area to allow the department of licensing to implement administration and collection of the tax.

(4) Before an authority may impose a tax authorized under this section, the authorization for imposition of the tax must be approved by a majority of the qualified electors of the authority area voting on that issue.

Sec. 917. RCW 82.80.140 and 2007 c 329 s 2 are each amended to read as follows:

(1) Subject to the provisions of RCW 36.73.065, a transportation benefit district under chapter 36.73 RCW may fix and impose an annual vehicle fee, not to exceed one hundred dollars per vehicle registered in the district, for each vehicle subject to vehicle license (~~tab~~) fees under (~~RCW 46.16.0621~~) section 531(1) (a), (c), (d), (e), (g), (h), (j), or (n) through (q) of this act and for each vehicle subject to gross weight license fees under (~~RCW 46.16.070~~) section 530 of this act with (~~an unladen~~) a scale weight of six thousand pounds or less.

(2)(a) A district that includes all the territory within the boundaries of the jurisdiction, or jurisdictions, establishing the district may impose by a majority vote of the governing board of the district up to twenty dollars of the vehicle fee authorized in subsection (1) of this section. If the district is countywide, the revenues of the fee shall be distributed to each city within the county by interlocal agreement. The interlocal agreement is effective when approved by the county and sixty percent of the cities representing seventy-five percent of the population of the cities within the county in which the countywide fee is collected.

(b) A district may not impose a fee under this subsection (2):

(i) For a passenger-only ferry transportation improvement unless the vehicle fee is first approved by a majority of the voters within the jurisdiction of the district; or

(ii) That, if combined with the fees previously imposed by another district within its boundaries under RCW 36.73.065(4)(a)(i), exceeds twenty dollars.

If a district imposes or increases a fee under this subsection (2) that, if combined with the fees previously imposed by another district within its boundaries, exceeds twenty dollars, the district shall provide a credit for the previously imposed fees so that the combined vehicle fee does not exceed twenty dollars.

(3) The department of licensing shall administer and collect the fee. The department shall deduct a percentage amount, as provided by contract, not to exceed one percent of the fees collected, for administration and collection expenses incurred by it. The department shall remit remaining proceeds to the custody of the state treasurer. The state treasurer shall distribute the proceeds to the district on a monthly basis.

(4) No fee under this section may be collected until six months after approval under RCW 36.73.065.

(5) The vehicle fee under this section applies only when renewing a vehicle registration, and is effective upon the registration renewal date as provided by the department of licensing.

(6) The following vehicles are exempt from the fee under this section:

(a) Campers, as defined in RCW 46.04.085;

(b) Farm tractors or farm vehicles, as defined in RCW 46.04.180 and 46.04.181;

((However, there are title certificates issued prior to June 30, 1985, which may not indicate security interests in the certificated vessel. The establishment of a more reliable system will require implementation over several years, as the existing security interests are either satisfied or their perfection is not continued. During this interim period of five years from June 30, 1985, two different classes, class A and class B, of title certificates will be in existence and issued by the department of licensing. The establishment and operation of the system for watercraft and vessels should be patterned upon the system established and operating for motor vehicles and the department of licensing is hereby authorized and directed to adopt the regulations and procedures necessary and desirable to establish such a similar system, excepting only as the same may be inconsistent with this chapter.))~~

Sec. 1010. RCW 88.02.070 and 1996 c 315 s 5 are each amended to read as follows:

Sec. 1118. RCW 46.44.170 and 2005 c 399 s 1 are each amended to read as follows:

(1) Any person moving a mobile home as defined in RCW 46.04.302 or a park model trailer as defined in RCW 46.04.622 upon public highways of the state must obtain:

(a) A special permit from the department of transportation and local authorities pursuant to RCW 46.44.090 and 46.44.093 and shall pay the proper fee as prescribed by RCW 46.44.0941 and 46.44.096; and

(b) For mobile homes constructed before June 15, 1976, and already situated in the state: (i) A certification from the department of labor and industries that the mobile home was inspected for fire safety; or (ii) an affidavit in the form prescribed by the department of ~~((community, trade, and economic development))~~ commerce signed by the owner at the county treasurer's office at the time of the application for the movement permit stating that the mobile home is being moved by the owner for his or her continued occupation or use; or (iii) a copy of the certificate of ~~((ownership or))~~ title together with an affidavit signed under penalty of perjury by the certified owner stating that the mobile home is being transferred to a wrecking yard or similar facility for disposal. In addition, the destroyed mobile home must be removed from the assessment rolls of the county and any

outstanding taxes on the destroyed mobile home must be removed by the county treasurer.

(2) A special permit issued as provided in subsection (1) of this section for the movement of any mobile home or a park model trailer that is assessed for purposes of property taxes shall not be valid until the county treasurer of the county in which the mobile home or park model trailer is located shall endorse or attach his or her certificate that all property taxes which are a lien or which are delinquent, or both, upon the mobile home or park model trailer being moved have been satisfied. Further, any mobile home or park model trailer required to have a special movement permit under this section shall display an easily recognizable decal. However, endorsement or certification by the county treasurer and the display of the decal is not required:

(a) When a mobile home or park model trailer is to enter the state or is being moved from a manufacturer or distributor to a retail sales outlet or directly to the purchaser's designated location or between retail and sales outlets;

(b) When a signed affidavit of destruction is filed with the county assessor and the mobile home or park model trailer is being moved to a disposal site by a landlord as defined in RCW 59.20.030 after (i) the mobile home or park model trailer has been abandoned as defined in RCW 59.20.030; or (ii) a final judgment for restitution of the premises under RCW 59.18.410 has been executed in favor of the landlord with regard to the mobile home or park model trailer. The mobile home or park model trailer will be removed from the tax rolls and, upon notification by the assessor, any outstanding taxes on the destroyed mobile home or park model trailer will be removed by the county treasurer; or

(c) When a signed affidavit of destruction is filed with the county assessor by any mobile home or park model trailer owner or any property owner with an abandoned mobile home or park model trailer, the same shall be removed from the tax rolls and upon notification by the assessor, any outstanding taxes on the destroyed mobile home or park model trailer shall be removed by the county treasurer.

(3) If the landlord of a mobile home park takes ownership of a mobile home or park model trailer with the intent to resell or rent the same under RCW 59.20.030 after (a) the mobile home or park model trailer has been abandoned as defined in RCW 59.20.030; or (b) a final judgment for restitution of the premises under RCW 59.18.410 has been executed in favor of the landlord with regard to the mobile home or park model trailer, the outstanding taxes become the responsibility of the landlord.

(4) It is the responsibility of the owner of the mobile home or park model trailer subject to property taxes or the agent to obtain the endorsement and decal from the county treasurer before a mobile home or park model trailer is moved.

(5) This section does not prohibit the issuance of vehicle license plates for a mobile home or park model trailer subject to property taxes, but plates shall not be issued unless the mobile home or park model trailer subject to property taxes for which plates are sought has been listed for property tax purposes in the county in which it is principally located and the appropriate fee for the license has been paid.

(6) The department of transportation, the department of labor and industries, and local authorities are authorized to adopt reasonable rules for implementing the provisions of this section. Sec. 1119. RCW 46.55.105 and 2002 c 279 s 10 are each amended to read as follows:

(1) The abandonment of any vehicle creates a prima facie presumption that the last registered owner of record is responsible for the abandonment and is liable for costs incurred in removing, storing, and disposing of the abandoned vehicle, less amounts realized at auction.

(2) If an unauthorized vehicle is found abandoned under subsection (1) of this section and removed at the direction of law enforcement, the last registered owner of record is guilty of the traffic infraction of "littering--abandoned vehicle," unless the vehicle is redeemed as provided in RCW 46.55.120. In addition to any other monetary penalty payable under chapter 46.63 RCW, the court shall not consider all monetary penalties as having been paid until the court is satisfied that the person found to have committed the infraction has made restitution in the amount of the deficiency remaining after disposal of the vehicle under RCW 46.55.140.

(3) A vehicle theft report filed with a law enforcement agency relieves the last registered owner of liability under subsection (2) of this section for failure to redeem the vehicle. However, the last registered owner remains liable for the costs incurred in removing, storing, and disposing of the abandoned vehicle under subsection (1) of this section. Nothing in this section limits in any way the registered owner's rights in a civil action or as restitution in a criminal action against a person responsible for the theft of the vehicle.

(4) Properly filing a report of sale or transfer regarding the vehicle involved in accordance with RCW 46.12.101 (1) through (3) (as recodified by this act) relieves the last registered owner of liability under subsections (1) and (2) of this section. If the date of sale as indicated on the report of sale is on or before the date of impoundment, the buyer identified on the latest properly filed report of sale with the department is assumed liable for the costs incurred in removing, storing, and disposing of the abandoned vehicle, less amounts realized at auction. If the date of sale is after the date of impoundment, the previous registered owner is assumed to be liable for such costs. A licensed vehicle dealer is not liable under subsections (1) and (2) of this section if the dealer, as transferee or assignee of the last registered owner of the vehicle involved, has complied with the requirements of RCW 46.70.122 upon selling or otherwise disposing of the vehicle, or if the dealer has timely filed a transitional ownership record or report of sale under RCW 46.12.103 (as recodified by this act). In that case the person to whom the licensed vehicle dealer has sold or transferred the vehicle is assumed liable for the costs incurred in removing, storing, and disposing of the abandoned vehicle, less amounts realized at auction.

(5) For the purposes of reporting notices of traffic infraction to the department under RCW 46.20.270 and 46.52.101, and for purposes of reporting notices of failure to appear, respond, or comply regarding a notice of traffic infraction to the department under RCW 46.63.070(6), a traffic infraction under subsection (2) of this section is not considered to be a standing, stopping, or parking violation.

(6) A notice of infraction for a violation of this section may be filed with a court of limited jurisdiction organized under Title 3, 35, or 35A RCW, or with a violations bureau subject to the court's jurisdiction.

Sec. 1120. RCW 46.55.113 and 2007 c 242 s 1 and 2007 c 86 s 1 are each reenacted and amended to read as follows:

(1) Whenever the driver of a vehicle is arrested for a violation of RCW 46.61.502, 46.61.504, 46.20.342, or 46.20.345, the vehicle is subject to summary impoundment, pursuant to the terms and conditions of an applicable local ordinance or state agency rule at the direction of a law enforcement officer.

(2) In addition, a police officer may take custody of a vehicle, at his or her discretion, and provide for its prompt removal to a place of safety under any of the following circumstances:

(a) Whenever a police officer finds a vehicle standing upon the roadway in violation of any of the provisions of RCW 46.61.560, the officer may provide for the removal of the vehicle or require the

driver or other person in charge of the vehicle to move the vehicle to a position off the roadway;

(b) Whenever a police officer finds a vehicle unattended upon a highway where the vehicle constitutes an obstruction to traffic or jeopardizes public safety;

(c) Whenever a police officer finds an unattended vehicle at the scene of an accident or when the driver of a vehicle involved in an accident is physically or mentally incapable of deciding upon steps to be taken to protect his or her property;

(d) Whenever the driver of a vehicle is arrested and taken into custody by a police officer;

(e) Whenever a police officer discovers a vehicle that the officer determines to be a stolen vehicle;

(f) Whenever a vehicle without a special license plate, placard, or decal indicating that the vehicle is being used to transport a person with disabilities under ~~((RCW 46.16.384))~~ section 701 of this act is parked in a stall or space clearly and conspicuously marked under RCW 46.61.581 which space is provided on private property without charge or on public property;

(g) Upon determining that a person is operating a motor vehicle without a valid and, if required, a specially endorsed driver's license or with a license that has been expired for ninety days or more;

(h) When a vehicle is illegally occupying a truck, commercial loading zone, restricted parking zone, bus, loading, hooded-meter, taxi, street construction or maintenance, or other similar zone where, by order of the director of transportation or chiefs of police or fire or their designees, parking is limited to designated classes of vehicles or is prohibited during certain hours, on designated days or at all times, if the zone has been established with signage for at least twenty-four hours and where the vehicle is interfering with the proper and intended use of the zone. Signage must give notice to the public that a vehicle will be removed if illegally parked in the zone;

(i) When a vehicle with an expired registration of more than forty-five days is parked on a public street.

(3) When an arrest is made for a violation of RCW 46.20.342, if the vehicle is a commercial vehicle and the driver of the vehicle is not the owner of the vehicle, before the summary impoundment directed under subsection (1) of this section, the police officer shall attempt in a reasonable and timely manner to contact the owner of the vehicle and may release the vehicle to the owner if the owner is reasonably available, as long as the owner was not in the vehicle at the time of the stop and arrest and the owner has not received a prior release under this subsection or RCW 46.55.120(1)(a)(ii).

(4) Nothing in this section may derogate from the powers of police officers under the common law. For the purposes of this section, a place of safety may include the business location of a registered tow truck operator.

Sec. 1121. RCW 46.55.140 and 1995 c 360 s 8 are each amended to read as follows:

(1) A registered tow truck operator who has a valid and signed impoundment authorization has a lien upon the impounded vehicle for services provided in the towing and storage of the vehicle, unless the impoundment is determined to have been invalid. The lien does not apply to personal property in or upon the vehicle that is not permanently attached to or is not an integral part of the vehicle except for items of personal property registered or titled with the department. The registered tow truck operator also has a deficiency claim against the registered owner of the vehicle for services provided in the towing and storage of the vehicle not to exceed the sum of five hundred dollars after deduction of the amount bid at auction, and for vehicles of over ten thousand pounds gross vehicle weight, the operator has a deficiency claim of one thousand dollars after deduction of the amount bid at auction, unless the impound is determined to be invalid. The limitation on towing and storage deficiency claims does not apply to an impound directed by a law enforcement officer. In no case may the cost of the auction or a buyer's fee be added to the

amount charged for the vehicle at the auction, the vehicle's lien, or the overage due. A registered owner who has completed and filed with the department the ~~((seller's))~~ report of sale as provided for ~~((by))~~ in RCW 46.12.101 (as recodified by this act) and has timely and properly filed the ~~((seller's))~~ report of sale is relieved of liability under this section. The person named as the new owner of the vehicle on the timely and properly filed ~~((seller's))~~ report of sale shall assume liability under this section.

(2) Any person who tows, removes, or otherwise disturbs any vehicle parked, stalled, or otherwise left on privately owned or controlled property, and any person owning or controlling the private property, or either of them, are liable to the owner or operator of a vehicle, or each of them, for consequential and incidental damages arising from any interference with the ownership or use of the vehicle which does not comply with the requirements of this chapter.

Sec. 1122. RCW 46.55.240 and 1994 c 176 s 2 are each amended to read as follows:

(1) A city, town, or county that adopts an ordinance or resolution concerning unauthorized, abandoned, or impounded vehicles shall include the applicable provisions of this chapter.

(A) A city, town, or county may, by ordinance, authorize other impound situations that may arise locally upon the public right-of-way or other publicly owned or controlled property.

(B) A city, town, or county ordinance shall contain language that establishes a written form of authorization to impound, which may include a law enforcement notice of infraction or citation, clearly denoting the agency's authorization to impound.

(C) A city, town, or county may, by ordinance, provide for release of an impounded vehicle by means of a promissory note in lieu of immediate payment, if at the time of redemption the legal or registered owner requests a hearing on the validity of the impoundment. If the municipal ordinance directs the release of an impounded vehicle before the payment of the impoundment charges, the municipality is responsible for the payment of those charges to the registered tow truck operator within thirty days of the hearing date.

(d) The hearing specified in RCW 46.55.120(2) and in this section may be conducted by an administrative hearings officer instead of in the district court. A decision made by an administrative hearing officer may be appealed to the district court for final judgment.

(2) A city, town, or county may adopt an ordinance establishing procedures for the abatement and removal as public nuisances of junk vehicles or parts thereof from private property. Costs of removal may be assessed against the registered owner of the vehicle if the identity of the owner can be determined, unless the owner in the transfer of ownership of the vehicle has complied with RCW 46.12.101 (as recodified by this act), or the costs may be assessed against the owner of the property on which the vehicle is stored. A city, town, or county may also provide for the payment to the tow truck operator or wrecker as a part of a neighborhood revitalization program.

(3) Ordinances pertaining to public nuisances shall contain:

(a) A provision requiring notice to the last registered owner of record and the property owner of record that a hearing may be requested and that if no hearing is requested, the vehicle will be removed;

(b) A provision requiring that if a request for a hearing is received, a notice giving the time, location, and date of the hearing on the question of abatement and removal of the vehicle or part thereof as a public nuisance shall be mailed, by certified mail, with a five-day return receipt requested, to the owner of the land as shown on the last equalized assessment roll and to the last registered and legal owner of record unless the vehicle is in such condition that identification numbers are not available to determine ownership;

(c) A provision that the ordinance shall not apply to (i) a vehicle or part thereof that is completely enclosed within a building in a lawful manner where it is not visible from the street or other public or

private property or (ii) a vehicle or part thereof that is stored or parked in a lawful manner on private property in connection with the business of a licensed dismantler or licensed vehicle dealer and is fenced according to RCW 46.80.130;

(d) A provision that the owner of the land on which the vehicle is located may appear in person at the hearing or present a written statement in time for consideration at the hearing, and deny responsibility for the presence of the vehicle on the land, with his reasons for the denial. If it is determined at the hearing that the vehicle was placed on the land without the consent of the landowner and that he has not subsequently acquiesced in its presence, then the local agency shall not assess costs of administration or removal of the vehicle against the property upon which the vehicle is located or otherwise attempt to collect the cost from the owner;

(e) A provision that after notice has been given of the intent of the city, town, or county to dispose of the vehicle and after a hearing, if requested, has been held, the vehicle or part thereof shall be removed at the request of a law enforcement officer with notice to the Washington state patrol and the department of licensing that the vehicle has been wrecked. The city, town, or county may operate such a disposal site when its governing body determines that commercial channels of disposition are not available or are inadequate, and it may make final disposition of such vehicles or parts, or may transfer such vehicle or parts to another governmental body provided such disposal shall be only as scrap.

(4) A registered disposer under contract to a city or county for the impounding of vehicles shall comply with any administrative regulations adopted by the city or county on the handling and disposal of vehicles.

Sec. 1123. RCW 46.61.581 and 2005 c 390 s 1 are each amended to read as follows:

A parking space or stall for a person with a disability shall be indicated by a vertical sign with the international symbol of access, whose colors are white on a blue background, described under RCW 70.92.120. The sign may include additional language such as, but not limited to, an indication of the amount of the monetary penalty defined in (~~RCW 46.16.381~~) section 706 of this act for parking in the space without a valid permit.

Failure of the person owning or controlling the property where required parking spaces are located to erect and maintain the sign is a class 2 civil infraction under chapter 7.80 RCW for each parking space that should be so designated. The person owning or controlling the property where the required parking spaces are located shall ensure that the parking spaces are not blocked or made inaccessible, and failure to do so is a class 2 civil infraction.

This section does not apply to those zones or areas in which the stopping, parking, or standing of all vehicles is prohibited or which are reserved for special types of vehicles. The person shall obtain and display a special placard or license plate under (~~RCW 46.16.381~~) section 701 of this act to be eligible for the privileges under this section.

(3) Toll collection systems include manual cash collection, electronic toll collection, and photo enforcement systems.

(4) "Electronic toll collection system" means a system of collecting tolls or charges that is capable of charging the account of the toll patron the appropriate toll or charge by electronic transmission from the motor vehicle to the toll collection system, which information is used to charge the appropriate toll or charge to the patron's account.

(5) "Photo enforcement system" means a vehicle sensor installed to work in conjunction with an electronic toll collection system that automatically produces one or more photographs, one or more microphotographs, a videotape, or other recorded images of a vehicle operated in violation of an infraction under this chapter.

(6) The use of a toll collection system is subject to the following requirements:

(a) The department of transportation shall adopt rules that allow an open standard for automatic vehicle identification transponders used for electronic toll collection to be compatible with other electronic payment devices or transponders from the Washington state ferry system, other public transportation systems, or other toll collection systems to the extent that technology permits. (7) The use of a photo enforcement system for issuance of notices of infraction is subject to the following requirements:

(a) Photo enforcement systems may take photographs, digital photographs, microphotographs, videotapes, or other recorded images of the vehicle and vehicle license plate only.

(b) A notice of infraction must be mailed to the registered owner of the vehicle or to the renter of a vehicle within sixty days of the violation. The law enforcement officer issuing the notice of infraction shall include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, videotape, or other recorded images produced by a photo enforcement system, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, digital photographs, microphotographs, videotape, or other recorded images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction.

(c) Notwithstanding any other provision of law, all photographs, digital photographs, microphotographs, videotape, or other recorded images prepared under this chapter are for the exclusive use of the tolling agency and law enforcement in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this chapter. No photograph, digital photograph, microphotograph, videotape, or other recorded image may be used for any purpose other than enforcement of violations under this chapter nor retained longer than necessary to enforce this chapter or verify that tolls are paid.

(d) All locations where a photo enforcement system is used must be clearly marked by placing signs in locations that clearly indicate to a driver that he or she is entering a zone where traffic laws are enforced by a photo enforcement system.

(8) Infractions detected through the use of photo enforcement systems are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of photo enforcement systems under this section shall be processed in the same manner as parking infractions, including for the purposes of RCW 3.50.100, 35.20.220, 46.16.216 (as recodified by this act), and 46.20.270(3).

(9) The penalty for an infraction detected through the use of a photo enforcement system shall be forty dollars plus an additional toll penalty. The toll penalty is equal to three times the cash toll for a standard passenger car during peak hours. The toll penalty may not be reduced. The court shall remit the toll penalty to the department of transportation or a private entity under contract with the department of transportation for deposit in the statewide account in which tolls are deposited for the tolling facility at which the violation occurred. If the driver is found not to have committed an infraction under this section, the driver shall pay the toll due at the time the photograph was taken, unless the toll has already been paid.

(10) If the registered owner of the vehicle is a rental car business the department of transportation or a law enforcement agency shall, before a notice of infraction being issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within eighteen days of the mailing of the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable toll and fee.

Timely mailing of this statement to the issuing law enforcement agency relieves a rental car business of any liability under this chapter for the notice of infraction.

Sec. 1127. RCW 46.63.170 and 2009 c 470 s 714 are each amended to read as follows:

(1) The use of automated traffic safety cameras for issuance of notices of infraction is subject to the following requirements:

(a) The appropriate local legislative authority must first enact an ordinance allowing for their use to detect one or more of the following: Stoplight, railroad crossing, or school speed zone violations. At a minimum, the local ordinance must contain the restrictions described in this section and provisions for public notice and signage. Cities and counties using automated traffic safety cameras before July 24, 2005, are subject to the restrictions described in this section, but are not required to enact an authorizing ordinance.

(b) Use of automated traffic safety cameras is restricted to two-arterial intersections, railroad crossings, and school speed zones only.

(c) During the 2009-2011 fiscal biennium, automated traffic safety cameras may be used to detect speed violations for the purposes of section 201(2), chapter 470, Laws of 2009 if the local legislative authority first enacts an ordinance authorizing the use of cameras to detect speed violations.

(d) Automated traffic safety cameras may only take pictures of the vehicle and vehicle license plate and only while an infraction is occurring. The picture must not reveal the face of the driver or of passengers in the vehicle.

(e) A notice of infraction must be mailed to the registered owner of the vehicle within fourteen days of the violation, or to the renter of a vehicle within fourteen days of establishing the renter's name and address under subsection (3)(a) of this section. The law enforcement

officer issuing the notice of infraction shall include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, or electronic images produced by an automated traffic safety camera, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, microphotographs, or electronic images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction. A person receiving a notice of infraction based on evidence detected by an automated traffic safety camera may respond to the notice by mail.

(f) The registered owner of a vehicle is responsible for an infraction under RCW 46.63.030(1)(e) unless the registered owner overcomes the presumption in RCW 46.63.075, or, in the case of a rental car business, satisfies the conditions under subsection (3) of this section. If appropriate under the circumstances, a renter identified under subsection (3)(a) of this section is responsible for an infraction.

(g) Notwithstanding any other provision of law, all photographs, microphotographs, or electronic images prepared under this section are for the exclusive use of law enforcement in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this section. No photograph, microphotograph, or electronic image may be used for any purpose other than enforcement of violations under this section nor retained longer than necessary to enforce this section.

(h) All locations where an automated traffic safety camera is used must be clearly marked by placing signs in locations that clearly indicate to a driver that he or she is entering a zone where traffic laws are enforced by an automated traffic safety camera.

(i) If a county or city has established an authorized automated traffic safety camera program under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system, and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment.

(2) Infractions detected through the use of automated traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of automated traffic safety cameras under this section shall be processed in the same manner as parking infractions, including for the purposes of RCW 3.50.100, 35.20.220, 46.16.216 (as recodified by this act), and 46.20.270(3). However, the amount of the fine issued for an infraction generated through the use of an automated traffic safety camera shall not exceed the amount of a fine issued for other parking infractions within the jurisdiction.

(3) If the registered owner of the vehicle is a rental car business, the law enforcement agency shall, before a notice of infraction being issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within eighteen days of receiving the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable penalty.

Timely mailing of this statement to the issuing law enforcement agency relieves a rental car business of any liability under this chapter for the notice of infraction.

(4) Nothing in this section prohibits a law enforcement officer from issuing a notice of traffic infraction to a person in control of a vehicle at the time a violation occurs under RCW 46.63.030(1) (a), (b), or (c).

(5) For the purposes of this section, "automated traffic safety camera" means a device that uses a vehicle sensor installed to work in conjunction with an intersection traffic control system, a railroad grade crossing control system, or a speed measuring device, and a camera synchronized to automatically record one or more sequenced photographs, microphotographs, or electronic images of the rear of a motor vehicle at the time the vehicle fails to stop when facing a steady red traffic control signal or an activated railroad grade crossing control signal, or exceeds a speed limit in a school speed zone as detected by a speed measuring device. During the 2009-2011 fiscal biennium, an automated traffic safety camera includes a camera used to detect speed violations for the purposes of section 201(2), chapter 470, Laws of 2009.

(6) During the 2009-2011 fiscal biennium, this section does not apply to automated traffic safety cameras for the purposes of section 218(2), chapter 470, Laws of 2009.

(b) An additional amount of fuel taxes shall be deposited into the Puget Sound ferry operations account. (f) Has committed any act in violation of RCW 46.70.090 relating to vehicle dealer license plates and manufacturer license plates;

(i) Fails to maintain one or more resident employees or agents to provide service or repairs to vehicles located within the state of Washington only under the terms of any warranty attached to new or unused vehicles manufactured and which are or have been sold or distributed in this state or transferred into this state for resale or for lease unless such manufacturer requires warranty service to be performed by all of its dealers pursuant to a current service agreement on file with the department;

(j) Fails to reimburse within a reasonable time any vehicle dealer within the state of Washington who in good faith incurs reasonable obligations in giving effect to warranties that attach or have attached

(1) If the purchaser or transferee is a dealer he or she shall, on selling, leasing, or otherwise disposing of the vehicle, promptly execute the assignment and warranty of title, in such form as the director shall prescribe.

(2) The assignment and warranty shall show any secured party holding a security interest created or reserved at the time of resale or lease, to which shall be attached the assigned certificate((s)) of ((ownership)) title and ((license)) registration certificate received by the dealer. The dealer shall mail or deliver them to the department with the transferee's application for the issuance of new certificate((s)) of ((ownership)) title and ((license)) registration certificate. The ((title)) certificate of title issued for a vehicle possessed by a dealer and subject to a security interest shall be delivered to the secured party who upon request of the dealer's transferee shall, unless the transfer was a breach of the security agreement, either deliver the certificate to the transferee for transmission to the department, or upon receipt from the transferee of the owner's bill of sale or sale document, the transferee's application for a new certificate and the required fee, mail or deliver to the department. Failure of a dealer to deliver the ((title)) certificate of title to the secured party does not affect perfection of the security interest.

A vehicle dealer((s)) shall possess a separate certificate of ((ownership)) title or other evidence of ownership approved by the department for each used vehicle kept in the dealer's possession. Sec. 1135. RCW 46.70.135 and 1994 c 284 s 11 are each amended to read as follows:

Mobile home manufacturers and mobile home dealers who sell mobile homes to be assembled on site and used as residences in this state shall conform to the following requirements:

(1) No new manufactured home may be sold unless the purchaser is provided with a manufacturer's written warranty for construction of the home in compliance with the Magnuson-Moss Warranty Act (88 Stat. 2183; 15 U.S.C. Sec. 47 et seq.; 15 U.S.C. Sec. 2301 et seq.).

(2) No new manufactured home may be sold unless the purchaser is provided with a dealer's written warranty for all installation services performed by the dealer.

(3) The warranties required by subsections (1) and (2) of this section shall be valid for a minimum of one year measured from the date of delivery and shall not be invalidated by resale by the original purchaser to a subsequent purchaser or by the certificate of ((ownership)) title being eliminated or not issued as described in chapter 65.20 RCW. Copies of the warranties shall be given to the purchaser upon signing a purchase agreement and shall include an explanation of remedies available to the purchaser under state and

federal law for breach of warranty, the name and address of the federal department of housing and urban development and the state departments of licensing and labor and industries, and a brief description of the duties of these agencies concerning mobile homes.

(4) Warranty service shall be completed within forty-five days after the owner gives written notice of the defect unless there is a bona fide dispute between the parties. Warranty service for a defect affecting health or safety shall be completed within seventy-two hours of receipt of written notice. Warranty service shall be performed on site and a written work order describing labor performed and parts used shall be completed and signed by the service agent and the owner. If the owner's signature cannot be obtained, the reasons shall be described on the work order. Work orders shall be retained by the dealer or manufacturer for a period of three years.

(5) Before delivery of possession of the home to the purchaser, an inspection shall be performed by the dealer or his or her agent and by the purchaser or his or her agent which shall include a test of all systems of the home to insure proper operation, unless such systems test is delayed pursuant to this subsection. At the time of the inspection, the purchaser shall be given copies of all documents required by state or federal agencies to be supplied by the manufacturer with the home which have not previously been provided as required under subsection (3) of this section, and the dealer shall complete any required purchaser information card and forward the card to the manufacturer. A purchaser is deemed to have taken delivery of the manufactured home when all three of the following events have occurred: (a) The contractual obligations between the purchaser and the seller have been met; (b) the inspection of the home is completed; and (c) the systems test of the home has been completed subsequent to the installation of the home, or fifteen days has elapsed since the transport of the home to the site where it will be installed, whichever is earlier. Occupancy of the manufactured home shall only occur after the systems test has occurred and all required utility connections have been approved after inspection.

(6) Manufacturer and dealer advertising which states the dimensions of a home shall not include the length of the draw bar assembly in a listed dimension, and shall state the square footage of the actual floor area.

Sec. 1136. RCW 46.70.180 and 2009 c 123 s 1 and 2009 c 49 s 1 are each reenacted and amended to read as follows:

Each of the following acts or practices is unlawful:

(1) To cause or permit to be advertised, printed, displayed, published, distributed, broadcasted, televised, or disseminated in any manner whatsoever, any statement or representation with regard to the sale, lease, or financing of a vehicle which is false, deceptive, or misleading, including but not limited to the following:

(a) That no down payment is required in connection with the sale of a vehicle when a down payment is in fact required, or that a vehicle may be purchased for a smaller down payment than is actually required;

(b) That a certain percentage of the sale price of a vehicle may be financed when such financing is not offered in a single document evidencing the entire security transaction;

(c) That a certain percentage is the amount of the service charge to be charged for financing, without stating whether this percentage charge is a monthly amount or an amount to be charged per year;

(d) That a new vehicle will be sold for a certain amount above or below cost without computing cost as the exact amount of the factory invoice on the specific vehicle to be sold;

(e) That a vehicle will be sold upon a monthly payment of a certain amount, without including in the statement the number of payments of that same amount which are required to liquidate the unpaid purchase price.

(2)(a)(i) To incorporate within the terms of any purchase and sale or lease agreement any statement or representation with regard to the sale, lease, or financing of a vehicle which is false, deceptive, or

misleading, including but not limited to terms that include as an added cost to the selling price or capitalized cost of a vehicle an amount for licensing or transfer of title of that vehicle which is not actually due to the state, unless such amount has in fact been paid by the dealer prior to such sale.

(ii) However, an amount not to exceed the applicable amount provided in (iii)(A) and (B) of this subsection (2)(a) per vehicle sale or lease may be charged by a dealer to recover administrative costs for collecting motor vehicle excise taxes, licensing and registration fees and other agency fees, verifying and clearing titles, transferring titles, perfecting, releasing, or satisfying liens or other security interests, and other administrative and documentary services rendered by a dealer in connection with the sale or lease of a vehicle and in carrying out the requirements of this chapter or any other provisions of state law.

(iii) A dealer may charge under (a)(ii) of this subsection:

(A) As of July 26, 2009, through June 30, 2014, an amount not to exceed one hundred fifty dollars; and

(B) As of July 1, 2014, an amount not to exceed fifty dollars.

(b) A dealer may charge the documentary service fee in (a) of this subsection under the following conditions:

(i) The documentary service fee is disclosed in writing to a prospective purchaser or lessee before the execution of a purchase and sale or lease agreement;

(ii) The dealer discloses to the purchaser or lessee in writing that the documentary service fee is a negotiable fee. The disclosure must be written in a typeface that is at least as large as the typeface used in the standard text of the document that contains the disclosure and that is bold faced, capitalized, underlined, or otherwise set out from the surrounding material so as to be conspicuous. The dealer shall not represent to the purchaser or lessee that the fee or charge is required by the state to be paid by either the dealer or prospective purchaser or lessee;

(iii) The documentary service fee is separately designated from the selling price or capitalized cost of the vehicle and from any other taxes, fees, or charges; and

(iv) Dealers disclose in any advertisement that a documentary service fee in an amount provided in (iv)(A) and (B) of this subsection (2)(b) may be added to the sale price or the capitalized cost:

(A) As of July 26, 2009, through June 30, 2014, an amount up to one hundred fifty dollars; and

(B) As of July 1, 2014, an amount up to fifty dollars.

For the purposes of this subsection (2), the term "documentary service fee" means the optional amount charged by a dealer to provide the services specified in (a) of this subsection.

(3) To set up, promote, or aid in the promotion of a plan by which vehicles are to be sold or leased to a person for a consideration and upon further consideration that the purchaser or lessee agrees to secure one or more persons to participate in the plan by respectively making a similar purchase and in turn agreeing to secure one or more persons likewise to join in said plan, each purchaser or lessee being given the right to secure money, credits, goods, or something of value, depending upon the number of persons joining the plan.

(4) To commit, allow, or ratify any act of "bushing" which is defined as follows: Entering into a written contract, written purchase order or agreement, retail installment sales agreement, note and security agreement, or written lease agreement, hereinafter collectively referred to as contract or lease, signed by the prospective buyer or lessee of a vehicle, which:

(a) Is subject to any conditions or the dealer's or his or her authorized representative's future acceptance, and the dealer fails or refuses within four calendar days, exclusive of Saturday, Sunday, or legal holiday, and prior to any further negotiations with said buyer or lessee to inform the buyer or lessee either: (i) That the dealer unconditionally accepts the contract or lease, having satisfied,

removed, or waived all conditions to acceptance or performance, including, but not limited to, financing, assignment, or lease approval; or (ii) that the dealer rejects the contract or lease, thereby automatically voiding the contract or lease, as long as such voiding does not negate commercially reasonable contract or lease provisions pertaining to the return of the subject vehicle and any physical damage, excessive mileage after the demand for return of the vehicle, and attorneys' fees authorized by law, and tenders the refund of any initial payment or security made or given by the buyer or lessee, including, but not limited to, any down payment, and tenders return of the trade-in vehicle, key, other trade-in, or certificate of title to a trade-in. Tender may be conditioned on return of the subject vehicle if previously delivered to the buyer or lessee.

The provisions of this subsection (4)(a) do not impair, prejudice, or abrogate the rights of a dealer to assert a claim against the buyer or lessee for misrepresentation or breach of contract and to exercise all remedies available at law or in equity, including those under chapter 62A.9A RCW, if the dealer, bank, or other lender or leasing company discovers that approval of the contract or financing or approval of the lease was based upon material misrepresentations made by the buyer or lessee, including, but not limited to, misrepresentations regarding income, employment, or debt of the buyer or lessee, as long as the dealer, or his or her staff, has not, with knowledge of the material misrepresentation, aided, assisted, encouraged, or participated, directly or indirectly, in the misrepresentation. A dealer shall not be in violation of this subsection (4)(a) if the buyer or lessee made a material misrepresentation to the dealer, as long as the dealer, or his or her staff, has not, with knowledge of the material misrepresentation, aided, assisted, encouraged, or participated, directly or indirectly, in the misrepresentation.

When a dealer informs a buyer or lessee under this subsection (4)(a) regarding the unconditional acceptance or rejection of the contract, lease, or financing by an electronic mail message, the dealer must also transmit the communication by any additional means;

(b) Permits the dealer to renegotiate a dollar amount specified as trade-in allowance on a vehicle delivered or to be delivered by the buyer or lessee as part of the purchase price or lease, for any reason except:

(i) Failure to disclose that the vehicle's certificate of ~~((ownership))~~ title has been branded for any reason, including, but not limited to, status as a rebuilt vehicle as provided in RCW 46.12.050 (as recodified by this act) and ~~((46.12.075))~~ section 303 of this act; or

(ii) Substantial physical damage or latent mechanical defect occurring before the dealer took possession of the vehicle and which could not have been reasonably discoverable at the time of the taking of the order, offer, or contract; or

(iii) Excessive additional miles or a discrepancy in the mileage. "Excessive additional miles" means the addition of five hundred miles or more, as reflected on the vehicle's odometer, between the time the vehicle was first valued by the dealer for purposes of determining its trade-in value and the time of actual delivery of the vehicle to the dealer. "A discrepancy in the mileage" means (A) a discrepancy between the mileage reflected on the vehicle's odometer and the stated mileage on the signed odometer statement; or (B) a discrepancy between the mileage stated on the signed odometer statement and the actual mileage on the vehicle; or

(c) Fails to comply with the obligation of any written warranty or guarantee given by the dealer requiring the furnishing of services or repairs within a reasonable time.

(5) To commit any offense relating to odometers, as such offenses are defined in RCW 46.37.540, 46.37.550, 46.37.560, and 46.37.570. A violation of this subsection is a class C felony punishable under chapter 9A.20 RCW.

(6) For any vehicle dealer or vehicle salesperson to refuse to furnish, upon request of a prospective purchaser or lessee, for vehicles

previously registered to a business or governmental entity, the name and address of the business or governmental entity.

(7) To commit any other offense under RCW 46.37.423, 46.37.424, or 46.37.425.

(8) To commit any offense relating to a dealer's temporary license permit, including but not limited to failure to properly complete each such permit, or the issuance of more than one such permit on any one vehicle. However, a dealer may issue a second temporary permit on a vehicle if the following conditions are met:

(a) The lienholder fails to deliver the vehicle title to the dealer within the required time period;

(b) The dealer has satisfied the lien; and

(c) The dealer has proof that payment of the lien was made within two calendar days, exclusive of Saturday, Sunday, or a legal holiday, after the sales contract has been executed by all parties and all conditions and contingencies in the sales contract have been met or otherwise satisfied.

(9) For a dealer, salesperson, or mobile home manufacturer, having taken an instrument or cash "on deposit" from a purchaser or lessee prior to the delivery of the bargained-for vehicle, to commingle the "on deposit" funds with assets of the dealer, salesperson, or mobile home manufacturer instead of holding the "on deposit" funds as trustee in a separate trust account until the purchaser or lessee has taken delivery of the bargained-for vehicle. Delivery of a manufactured home shall be deemed to occur in accordance with RCW 46.70.135(5). Failure, immediately upon receipt, to endorse "on deposit" instruments to such a trust account, or to set aside "on deposit" cash for deposit in such trust account, and failure to deposit such instruments or cash in such trust account by the close of banking hours on the day following receipt thereof, shall be evidence of intent to commit this unlawful practice: PROVIDED, HOWEVER, That a motor vehicle dealer may keep a separate trust account which equals his or her customary total customer deposits for vehicles for future delivery. For purposes of this section, "on deposit" funds received from a purchaser of a manufactured home means those funds that a seller requires a purchaser to advance before ordering the manufactured home, but does not include any loan proceeds or moneys that might have been paid on an installment contract.

(10) For a dealer or manufacturer to fail to comply with the obligations of any written warranty or guarantee given by the dealer or manufacturer requiring the furnishing of goods and services or repairs within a reasonable period of time, or to fail to furnish to a purchaser or lessee, all parts which attach to the manufactured unit including but not limited to the undercarriage, and all items specified in the terms of a sales or lease agreement signed by the seller and buyer or lessee.

(11) For a vehicle dealer to pay to or receive from any person, firm, partnership, association, or corporation acting, either directly or through a subsidiary, as a buyer's agent for consumers, any compensation, fee, purchase moneys or funds that have been deposited into or withdrawn out of any account controlled or used by any buyer's agent, gratuity, or reward in connection with the purchase, sale, or lease of a new motor vehicle.

(12) For a buyer's agent, acting directly or through a subsidiary, to pay to or to receive from any motor vehicle dealer any compensation, fee, gratuity, or reward in connection with the purchase, sale, or lease of a new motor vehicle. In addition, it is unlawful for any buyer's agent to engage in any of the following acts on behalf of or in the name of the consumer:

(a) Receiving or paying any purchase moneys or funds into or out of any account controlled or used by any buyer's agent;

(b) Signing any vehicle purchase orders, sales contracts, leases, odometer statements, or title documents, or having the name of the buyer's agent appear on the vehicle purchase order, sales contract, lease, or title; or

(c) Signing any other documentation relating to the purchase, sale, lease, or transfer of any new motor vehicle.

It is unlawful for a buyer's agent to use a power of attorney obtained from the consumer to accomplish or effect the purchase, sale, lease, or transfer of ownership documents of any new motor vehicle by any means which would otherwise be prohibited under (a) through (c) of this subsection. However, the buyer's agent may use a power of attorney for physical delivery of motor vehicle license plates to the consumer.

Further, it is unlawful for a buyer's agent to engage in any false, deceptive, or misleading advertising, disseminated in any manner whatsoever, including but not limited to making any claim or statement that the buyer's agent offers, obtains, or guarantees the lowest price on any motor vehicle or words to similar effect.

(13) For a buyer's agent to arrange for or to negotiate the purchase, or both, of a new motor vehicle through an out-of-state dealer without disclosing in writing to the customer that the new vehicle would not be subject to chapter 19.118 RCW. This subsection also applies to leased vehicles. In addition, it is unlawful for any buyer's agent to fail to have a written agreement with the customer that: (a) Sets forth the terms of the parties' agreement; (b) discloses to the customer the total amount of any fees or other compensation being paid by the customer to the buyer's agent for the agent's services; and (c) further discloses whether the fee or any portion of the fee is refundable.

(14) Being a manufacturer, other than a motorcycle manufacturer governed by chapter 46.93 RCW, to:

(a) Coerce or attempt to coerce any vehicle dealer to order or accept delivery of any vehicle or vehicles, parts or accessories, or any other commodities which have not been voluntarily ordered by the vehicle dealer: PROVIDED, That recommendation, endorsement, exposition, persuasion, urging, or argument are not deemed to constitute coercion;

(b) Cancel or fail to renew the franchise or selling agreement of any vehicle dealer doing business in this state without fairly compensating the dealer at a fair going business value for his or her capital investment which shall include but not be limited to tools, equipment, and parts inventory possessed by the dealer on the day he or she is notified of such cancellation or termination and which are still within the dealer's possession on the day the cancellation or termination is effective, if: (i) The capital investment has been entered into with reasonable and prudent business judgment for the purpose of fulfilling the franchise; and (ii) the cancellation or nonrenewal was not done in good faith. Good faith is defined as the duty of each party to any franchise to act in a fair and equitable manner towards each other, so as to guarantee one party freedom from coercion, intimidation, or threats of coercion or intimidation from the other party: PROVIDED, That recommendation, endorsement, exposition, persuasion, urging, or argument are not deemed to constitute a lack of good faith;

(c) Encourage, aid, abet, or teach a vehicle dealer to sell or lease vehicles through any false, deceptive, or misleading sales or financing practices including but not limited to those practices declared unlawful in this section;

(d) Coerce or attempt to coerce a vehicle dealer to engage in any practice forbidden in this section by either threats of actual cancellation or failure to renew the dealer's franchise agreement;

(e) Refuse to deliver any vehicle publicly advertised for immediate delivery to any duly licensed vehicle dealer having a franchise or contractual agreement for the retail sale or lease of new and unused vehicles sold or distributed by such manufacturer within sixty days after such dealer's order has been received in writing unless caused by inability to deliver because of shortage or curtailment of material, labor, transportation, or utility services, or by any labor or production difficulty, or by any cause beyond the reasonable control of the manufacturer;

(f) To provide under the terms of any warranty that a purchaser or lessee of any new or unused vehicle that has been sold or leased, distributed for sale or lease, or transferred into this state for resale or lease by the vehicle manufacturer may only make any warranty claim on any item included as an integral part of the vehicle against the manufacturer of that item.

Nothing in this section may be construed to impair the obligations of a contract or to prevent a manufacturer, distributor, representative, or any other person, whether or not licensed under this chapter, from requiring performance of a written contract entered into with any licensee hereunder, nor does the requirement of such performance constitute a violation of any of the provisions of this section if any such contract or the terms thereof requiring performance, have been freely entered into and executed between the contracting parties. This paragraph and subsection (14)(b) of this section do not apply to new motor vehicle manufacturers governed by chapter 46.96 RCW.

(15) Unlawful transfer of an ownership interest in a motor vehicle as defined in RCW 19.116.050.

(16) To knowingly and intentionally engage in collusion with a registered owner of a vehicle to repossess and return or resell the vehicle to the registered owner in an attempt to avoid a suspended license impound under chapter 46.55 RCW. However, compliance with chapter 62A.9A RCW in repossessing, selling, leasing, or otherwise disposing of the vehicle, including providing redemption rights to the debtor, is not a violation of this section.

(17)(a) For a dealer to enter into a new motor vehicle sales contract without disclosing in writing to a buyer of the new motor vehicle, or to a dealer in the case of an unregistered motor vehicle, any known damage and repair to the new motor vehicle if the damage exceeds five percent of the manufacturer's suggested retail price as calculated at the dealer's authorized warranty rate for labor and parts, or one thousand dollars, whichever amount is greater. A manufacturer or new motor vehicle dealer is not required to disclose to a dealer or buyer that glass, tires, bumpers, or cosmetic parts of a new motor vehicle were damaged at any time if the damaged item has been replaced with original or comparable equipment. A replaced part is not part of the cumulative damage required to be disclosed under this subsection.

(b) A manufacturer is required to provide the same disclosure to a dealer of any known damage or repair as required in (a) of this subsection.

(c) If disclosure of any known damage or repair is not required under this section, a buyer may not revoke or rescind a sales contract due to the fact that the new motor vehicle was damaged and repaired before completion of the sale.

(d) As used in this section:

(i) "Cosmetic parts" means parts that are attached by and can be replaced in total through the use of screws, bolts, or other fasteners without the use of welding or thermal cutting, and includes windshields, bumpers, hoods, or trim panels.

(ii) "Manufacturer's suggested retail price" means the retail price of the new motor vehicle suggested by the manufacturer, and includes the retail delivered price suggested by the manufacturer for each accessory or item of optional equipment physically attached to the new motor vehicle at the time of delivery to the new motor vehicle dealer that is not included within the retail price suggested by the manufacturer for the new motor vehicle.

Sec. 1137. RCW 46.72.060 and 1961 c 12 s 46.72.060 are each amended to read as follows:

any public street, road or highway shall have a cause of action against the principal and surety upon the bond or the insurance company and the insured for all damages sustained, and in any such action the full amount of damages sustained may be recovered against the principal, but the recovery against the surety shall be limited to the amount of the bond.

The director may supplement this list by rule.

(6) "Wrecked vehicle" means a vehicle which is disassembled or dismantled or a vehicle which is acquired with the intent to dismantle or disassemble and never again to operate as a vehicle, or a vehicle which has sustained such damage that its cost to repair exceeds the fair market value of a like vehicle which has not sustained such damage, or a damaged vehicle whose salvage value plus cost to repair equals or exceeds its fair market value, if repaired, or a vehicle which has sustained such damage or deterioration that it may not lawfully operate upon the highways of this state for which the salvage value plus cost to repair exceeds its fair market value, if repaired; further, it is presumed that a vehicle is a wreck if it has sustained such damage or deterioration that it may not lawfully operate upon the highways of this state.

This report shall be in such form as the department shall prescribe and shall be accompanied by evidence of ownership as determined by the department. No vehicle wrecker may acquire a vehicle, including a vehicle from an interim owner, without first obtaining evidence of ownership as determined by the department. For a vehicle from an interim owner, the evidence of ownership may not require that a title be issued in the name of the interim owner as required by RCW 46.12.101 ~~(as recodified by this act)~~. The vehicle wrecker shall furnish a monthly report of all acquired vehicles. This report shall be made on forms prescribed by the department and contain such information as the department may require. (1) Provisions and terms of the IRP prevail unless given a different meaning in chapter 46.04 RCW, this chapter, or in rules adopted under the authority of this chapter.

(2) The director may adopt and enforce rules deemed necessary to implement and administer this chapter.

(3) Owners having a fleet of apportionable vehicles operating in two or more IRP member jurisdictions may elect to proportionally register the vehicles of the fleet under the provisions of the IRP and this chapter in lieu of full or temporary registration as provided for in chapter~~(s)~~ 46.16 ~~((or 46.88))~~ RCW.

(4) If a due date or an expiration date established under authority of this chapter falls on a Saturday, Sunday, or a state legal holiday, such period is automatically extended through the end of the next business day.

Sec. 1141. RCW 46.87.020 and 2005 c 194 s 2 are each amended to read as follows:

(1) When application to register an apportionable vehicle is made, the Washington prorated fees may be reduced by one-twelfth for each full registration month that has elapsed at the time a temporary authorization permit (TAP) was issued or if no TAP was issued, at such time as an application for registration is received in the department. If a vehicle is being added to a currently registered fleet, the prorate percentage previously established for the fleet for such registration year shall be used in the computation of the proportional fees and taxes due.

(2) If any vehicle is withdrawn from a proportionally registered fleet during the period for which it is registered under this chapter, the registrant of the fleet shall notify the department on appropriate forms prescribed by the department. The department may require the registrant to surrender credentials that were issued to the vehicle. If a motor vehicle is permanently withdrawn from a proportionally registered fleet because it has been destroyed, sold, or otherwise completely removed from the service of the fleet registrant, the unused portion of the ((licensing)) license fee paid under ((RCW 46.16.070)) section 530 of this act with respect to the vehicle reduced by one-twelfth for each calendar month and fraction thereof elapsing between the first day of the month of the current registration year in which the vehicle was registered and the date the notice of withdrawal, accompanied by such credentials as may be required, is received in the department, shall be credited to the fleet proportional registration account of the registrant. Credit shall be applied against the ((licensing)) license fee liability for subsequent additions of motor vehicles to be proportionally registered in the fleet during such

registration year or for additional ((licensing)) license fees due under ((RCW 46.16.070)) section 530 of this act or to be due upon audit under RCW 46.87.310. If any credit is less than fifteen dollars, no credit will be entered. In lieu of credit, the registrant may choose to transfer the unused portion of the ((licensing)) license fee for the motor vehicle to the new owner, in which case it shall remain with the motor vehicle for which it was originally paid. In no event may any amount be credited against fees other than those for the registration year from which the credit was obtained nor is any amount subject to refund.

Sec. 1143. RCW 46.87.140 and 2005 c 194 s 9 are each amended to read as follows:

(1) Any owner engaged in interstate operations of one or more fleets of apportionable vehicles may, in lieu of registration of the vehicles under chapter 46.16 RCW, register and license the vehicles of each fleet under this chapter by filing a proportional registration application for each fleet with the department. The application shall contain the following information and such other information pertinent to vehicle registration as the department may require:

- (a) A description and identification of each vehicle of the fleet.
- (b) The member jurisdictions in which registration is desired and such other information as member jurisdictions require.
- (c) An original or renewal application shall also be accompanied by a mileage schedule for each fleet.

(b) Determine the total proratable fees and taxes required for each vehicle in the fleet for which registration is requested, based on the regular annual fees and taxes or applicable fees and taxes for the unexpired portion of the registration year under the laws of each jurisdiction for which fees or taxes are to be calculated.

Applicable fees and taxes for vehicles of Washington-based fleets are those prescribed under ((RCW 46.16.070)) section 530 of this act, ((46.16.085)) section 531(1)(c) of this act, and RCW 82.38.075, as applicable. If, during the registration period, the lessor of an apportioned vehicle changes and the vehicle remains in the fleet of the registrant, the department shall only charge those fees prescribed for the issuance of new apportioned license plates, validation tabs, and cab card.

(c) Multiply the total, proratable fees or taxes for each motor vehicle by the prorate percentage applicable to the desired jurisdiction and round the results to the nearest cent.

(d) Add the total fees and taxes determined in (c) of this subsection for each vehicle to the nonproratable fees required under the laws of the jurisdiction for which fees are being calculated. Nonproratable fees required for vehicles of Washington-based fleets are the administrative fee required by RCW 82.38.075, if applicable, and the vehicle transaction fee pursuant to the provisions of RCW 46.87.130.

(e) The amount due and payable for the application is the sum of the fees and taxes calculated for each member jurisdiction in which registration of the fleet is desired.

(3) All assessments for proportional registration fees are due and payable in United States funds on the date presented or mailed to the registrant at the address listed in the proportional registration records of the department. (1) The derelict vessel removal account is created in the state treasury. All receipts from RCW 79.100.050 and 79.100.060 and those moneys specified in (~~RCW 88.02.030 and 88.02.050~~) section 1028 of this act must be deposited into the account. The account is authorized to receive fund transfers and appropriations from the general fund, deposits from the derelict vessel removal surcharge under (~~RCW 88.02.270~~) section 1028(4) of this act, as well as gifts, grants, and endowments from public or private sources as may be made from time to time, in trust or otherwise, for the use and benefit of the purposes of this chapter and expend the same or any income according to the terms of the gifts, grants, or endowments provided those terms do not conflict with any provisions of this section or any guidelines developed to prioritize reimbursement of removal projects associated with this chapter. Moneys in the account may only be spent after appropriation. Expenditures from the account (~~shall~~) must be used by the department to reimburse authorized public entities for up to ninety percent of the total reasonable and auditable administrative, removal, disposal, and environmental damage costs of abandoned or derelict vessels when the previous owner is either unknown after a reasonable search effort or insolvent. Reimbursement (~~shall~~) may not be made unless the department determines that the public entity has made reasonable efforts to identify and locate the party responsible for the vessel, regardless of the title of owner of the vessel. Funds in the account resulting from transfers from the general fund or from the deposit of funds from the watercraft excise tax as provided for under RCW 82.49.030 (~~shall~~) must be used to reimburse one hundred percent of these costs and should be prioritized for the removal of large vessels. Costs associated with removal and disposal of an abandoned or derelict vessel under the authority granted in RCW 53.08.320 also qualify for reimbursement from the derelict vessel removal account. In each biennium, up to twenty percent of the expenditures from the account may be used for administrative expenses of the department of licensing and department of natural resources in implementing this chapter.

(2) If the balance of the account reaches one million dollars as of March 1st of any year, exclusive of any transfer or appropriation of funds into the account or funds deposited into the account collected under (~~RCW 88.02.270~~) section 1028(5) of this act, the department must notify the department of licensing and the collection of any fees associated with this account must be suspended for the following fiscal year.

(3) Priority for use of this account is for the removal of derelict and abandoned vessels that are in danger of sinking, breaking up, or blocking navigation channels, or that present environmental risks such as leaking fuel or other hazardous substances. The department must develop criteria, in the form of informal guidelines, to prioritize removal projects associated with this chapter, but may not consider whether the applicant is a state or local entity when prioritizing. The guidelines must also include guidance to the authorized public entities as to what removal activities and associated costs are reasonable and eligible for reimbursement.

(4) The department must keep all authorized public entities apprized of the balance of the derelict vessel removal account and the funds available for reimbursement. The guidelines developed by the department must also be made available to the other authorized public entities. This subsection (4) must be satisfied by utilizing the least costly method, including maintaining the information on the department's internet web site, or any other cost-effective method.

(5) An authorized public entity may contribute its ten percent of costs that are not eligible for reimbursement by using in-kind services, including the use of existing staff, equipment, and volunteers.

(6) This chapter does not guarantee reimbursement for an authorized public entity. Authorized public entities seeking certainty in reimbursement prior to taking action under this chapter may first notify the department of their proposed action and the estimated total costs. Upon notification by an authorized public entity, the department must make the authorized public entity aware of the status of the fund and the likelihood of reimbursement being available. The department may offer technical assistance and assure reimbursement for up to two years following the removal action if an assurance is appropriate given the balance of the fund and the details of the proposed action.

Whenever a person's special assessment or real property tax obligation, or both, is deferred under ~~(the provisions of)~~ this chapter, the amount deferred and required to be paid pursuant to RCW 84.38.120 shall become a lien in favor of the state upon his or her property and shall have priority as provided in chapters 35.50 and 84.60 RCW: PROVIDED, That the interest of a mortgage or purchase contract holder who requires an accumulation of reserves out of which real estate taxes are paid shall have priority to said deferred lien. This lien may accumulate up to forty percent of the amount of the claimant's equity value in said property and the rate of interest shall be an average of the federal short-term rate as defined in 26 U.S.C. Sec. 1274(d) plus two percentage points. The rate set for each new year shall be computed by taking an arithmetical average to the nearest percentage point of the federal short-term rate, compounded annually. That average shall be calculated using the rates from four months: January, April, and July of the calendar year immediately preceding the new year, and October of the previous preceding year. The interest shall be calculated from the time it could have been paid before delinquency until said obligation is paid. In the case of a mobile home, the department of licensing shall show the state's lien on the certificate of ~~(ownership)~~ title for the mobile home. In the case of all other property, the department of revenue shall file a notice of the deferral with the county recorder or auditor.

Sec. 1168. RCW 84.38.100 and 2006 c 275 s 1 are each amended to read as follows:

This lien may accumulate up to eighty percent of the amount of the claimant's equity value in said property and shall bear interest at the rate of five percent per year from the time it could have been paid before delinquency until said obligation is paid: PROVIDED, That when taxes are deferred as provided in RCW 84.64.050, the amount shall bear interest at the rate of five percent per year from the date the declaration is filed until the obligation is paid. In the case of a mobile home, the department of licensing shall show the state's lien on the certificate of ~~(ownership)~~ title for the mobile home. In the case of all other property, the department of revenue shall file a notice of the deferral with the county recorder or auditor.

ESSB 6392 Prime Sponsor, Committee on Transportation:
Clarifying the use of revenue generated from
tolling the state route number 520 corridor.
Reported by Committee on Transportation

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes that during the 2009 legislative session tolling was authorized on the state route number 520 corridor. As such, it is the intent of the legislature that tolling commences in the spring of 2011 on the existing state route number 520 bridge.

The legislature further recognizes that tolling of the state route number 520 corridor is integrally related to the issuance of a final project design resulting from the supplemental draft environmental impact statement for the state route number 520 bridge replacement and HOV program released in January 2010. It is the intent of the legislature that the department of transportation work with affected neighborhoods and local governments, including the mayor of the city of Seattle and the Seattle city council, to refine the preferred alternative design in the supplemental draft environmental impact statement so that the final design of the state route number 520 bridge replacement and HOV program will, to the extent required by state and federal law, include reasonable assurance that project impacts will be mitigated as much as practicable to protect against further adverse impacts on neighborhood environmental quality. Within the

cost constraints identified in section 1, chapter 472, Laws of 2009, and consistent with an opening date to vehicular traffic of 2014, it is further the intent of the legislature that any final design of the state route number 520 bridge replacement and HOV program accommodate effective connections for transit, including high capacity transit, including, but not limited to, effective connections for transit to the university link light rail line, consistent with the requirements of RCW 47.01.408, and ensure the effective, efficient, and feasible coordination of bus services and light rail services throughout the state route number 520 corridor, consistent with the requirements of RCW 47.01.410. The legislature further intends that any cost savings applicable to the state route number 520 bridge replacement and HOV program stay within the program.

Sec. 2. RCW 47.56.870 and 2009 c 472 s 2 are each amended to read as follows:

(1) The initial imposition of tolls on the state route number 520 corridor is authorized, the state route number 520 corridor is designated an eligible toll facility, and toll revenue generated in the corridor must only be expended as allowed under RCW 47.56.820.

(2) The state route number 520 corridor consists of that portion of state route number 520 between the junctions of Interstate 5 and state route number 202. The toll imposed by this section shall be charged only for travel on the floating bridge portion of the state route number 520 corridor.

(3)(a) In setting the toll rates for the corridor pursuant to RCW 47.56.850, the tolling authority shall set a variable schedule of toll rates to maintain travel time, speed, and reliability on the corridor and generate the necessary revenue as required under (b) of this subsection.

(b) The tolling authority shall initially set the variable schedule of toll rates, which the tolling authority may adjust at least annually to reflect inflation as measured by the consumer price index or as necessary to meet the redemption of bonds and interest payments on the bonds, to generate revenue sufficient to provide for:

(i) The issuance of general obligation bonds, authorized in RCW 47.10.879, first payable from toll revenue and then excise taxes on motor vehicle and special fuels pledged for the payment of those bonds in the amount necessary to fund the ((replacement state route number 520 floating bridge and necessary landings)) state route number 520 bridge replacement and HOV program, subject to subsection (4) of this section; and

(ii) Costs associated with the project designated in subsection (4) of this section that are eligible under RCW 47.56.820.

(4)(a) The proceeds of the bonds designated in subsection (3)(b)(i) of this section ((, which together with other appropriated and identified state and federal funds is sufficient to pay for the replacement of the floating bridge segment and necessary landings of state route number 520,)) must be used only to fund the ((construction of the replacement state route number 520 floating bridge and necessary landings)) state route number 520 bridge replacement and HOV program; however, two hundred million dollars of bond proceeds, in excess of the proceeds necessary to complete the floating bridge segment and necessary landings, must be used only to fund the state route number 520, Interstate 5 to Medina bridge replacement and HOV project segment of the program, as identified in applicable environmental impact statements, and may be used to fund effective connections for high occupancy vehicles and transit for state route number 520, but only to the extent those connections benefit or improve the operation of state route number 520.

(b) The program must include the following elements within the cost constraints identified in section 1, chapter 472, Laws of 2009, consistent with the legislature's intent that cost savings applicable to the program stay within the program and that the bridge open to vehicular traffic in 2014:

(i) A project design, consistent with RCW 47.01.408, that includes high occupancy vehicle lanes with a minimum carpool

occupancy requirement of three-plus persons on state route number 520;

(ii) High occupancy vehicle lane performance standards for the state route number 520 corridor established by the department. The department shall report to the transportation committees of the legislature when average transit speeds in the two lanes that are for high occupancy vehicle travel fall below forty-five miles per hour at least ten percent of the time during peak hours;

(iii) A work group convened by the mayor and city council of the city of Seattle to include sound transit, King county metro, the Seattle department of transportation, the department, the University of Washington, and other persons or organizations as designated by the mayor or city council to study and make recommendations of alternative connections for transit, including bus routes and high capacity transit, to the university link light rail line. The work group must consider such techniques as grade separation, additional stations, and pedestrian lids to effect these connections. The recommendations must be alternatives to the transit connections identified in the supplemental draft environmental impact statement for the state route number 520 bridge replacement and HOV program released in January 2010, and must meet the requirements under RCW 47.01.408, including accommodating effective connections for transit. The recommendations must be within the scope of the supplemental draft environmental impact statement. For the purposes of this section, "effective connections for transit" means a connection that connects transit stops, including high capacity transit stops, that serve the state route number 520/Montlake interchange vicinity to the university link light rail line, with a connection distance of less than one thousand two hundred feet between the stops and the light rail station. The city of Seattle shall submit the recommendations by October 1, 2010, to the governor and the transportation committees of the legislature. However, if the city of Seattle does not convene the work group required under this subsection before July 1, 2010, or does not submit recommendations to the governor and the transportation committees of the legislature by October 1, 2010, the department must convene the work group required under this subsection and meet all the requirements of this subsection that are described as requirements of the city of Seattle by November 30, 2010;

(iv) A work group convened by the department to include sound transit and King county metro to study and make recommendations regarding options for planning and financing high capacity transit through the state route number 520 corridor. The department shall submit the recommendations by January 1, 2011, to the governor and the transportation committees of the legislature;

(v) A plan to address mitigation as a result of the state route number 520 bridge replacement and HOV program at the Washington park arboretum. As part of its process, the department shall consult with the governing board of the Washington park arboretum, the Seattle city council and mayor, and the University of Washington to identify all mitigation required by state and federal law resulting from the state route number 520 bridge replacement and HOV program's impact on the arboretum, and to develop a project mitigation plan to address these impacts. The department shall submit the mitigation plan by December 31, 2010, to the governor and the transportation committees of the legislature. Wetland mitigation required by state and federal law as a result of the state route number 520 bridge replacement and HOV program's impacts on the arboretum must, to the greatest extent practicable, include on-site wetland mitigation at the Washington park arboretum, and must enhance the Washington park arboretum. This subsection (4)(b)(v) does not preclude any other mitigation planned for the Washington park arboretum as a result of the state route number 520 bridge replacement and HOV program;

(vi) A work group convened by the department to include the mayor of the city of Seattle, the Seattle city council, the Seattle

department of transportation, and other persons or organizations as designated by the Seattle city council and mayor to study and make recommendations regarding design refinements to the preferred alternative selected by the department in the supplemental draft environmental impact statement process for the state route number 520 bridge replacement and HOV program. To accommodate a timely progression of the state route number 520 bridge replacement and HOV program, the design refinements recommended by the work group must be consistent with the current environmental documents prepared by the department for the supplemental draft environmental impact statement. The department shall submit the recommendations to the legislature and governor by December 31, 2010, and the recommendations must inform the final environmental impact statement prepared by the department; and

(vii) An account, created in section 5 of this act, into which civil penalties generated from the nonpayment of tolls on the state route number 520 corridor are deposited to be used to fund any project within the program, including mitigation. However, this subsection (4)(b)(vii) is contingent on the enactment by June 30, 2010, of either chapter . . . (Engrossed Substitute Senate Bill No. 6499), Laws of 2010 or chapter . . . (Substitute House Bill No. 2897), Laws of 2010, but if the enacted bill does not designate the department as the toll penalty adjudicating agency, this subsection (4)(b)(vii) is null and void.

(5) The department may carry out the ~~((construction and))~~ improvements designated in subsection (4) of this section and administer the tolling program on the state route number 520 corridor.

Sec. 3. RCW 47.01.408 and 2008 c 270 s 2 are each amended to read as follows:

(1) The state route number 520 bridge replacement and HOV project shall be designed to provide six total lanes, with two lanes that are for transit and high-occupancy vehicle travel, and four general purpose lanes.

(2) The state route number 520 bridge replacement and HOV project shall be designed to accommodate effective connections for transit, including high capacity transit, to the light rail station at the University of Washington.

(3) The state route number 520 bridge replacement and HOV project shall be designed to provide a total height from the water to the top of the bridge rail on the floating bridge portion of the project of no more than twenty feet if any portion of the project is funded by revenue generated from tolling the state route number 520 corridor.

Sec. 4. RCW 47.56.875 and 2009 c 472 s 4 are each amended to read as follows:

A special account to be known as the state route number 520 corridor account is created in the state treasury.

(1) Deposits to the account must include:

(a) All proceeds of bonds issued for ~~((construction of the replacement state route number 520 floating bridge and necessary landings))~~ the state route number 520 bridge replacement and HOV program, including any capitalized interest;

(b) Except as provided in RCW 47.56.870(4)(b)(vii), all of the tolls and other revenues received from the operation of the state route number 520 corridor as a toll facility, to be deposited at least monthly;

(c) Any interest that may be earned from the deposit or investment of those revenues;

(3) The members of the legislative authority proposing to establish the district, acting ex officio and independently, shall constitute the governing body of the district: PROVIDED, That where a district includes area within more than one jurisdiction under subsection (2) of this section, the district shall be governed under an interlocal agreement adopted pursuant to chapter 39.34 RCW (~~However~~), with the governing body ((shall be)) being composed of (a) at least five members including at least one elected official from the legislative authority of each participating jurisdiction or (b) the governing body of the metropolitan planning organization serving the district, but only if the district boundaries are identical to the boundaries of the metropolitan planning organization serving the district. (4) The treasurer of the jurisdiction proposing to establish the district shall act as the ex officio treasurer of the district, unless an interlocal agreement states otherwise.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 9.94A.030 and 2009 c 375 s 4 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Board" means the indeterminate sentence review board created under chapter 9.95 RCW.

(2) "Collect," or any derivative thereof, "collect and remit," or "collect and deliver," when used with reference to the department, means that the department, either directly or through a collection agreement authorized by RCW 9.94A.760, is responsible for monitoring and enforcing the offender's sentence with regard to the legal financial obligation, receiving payment thereof from the offender, and, consistent with current law, delivering daily the entire payment to the superior court clerk without depositing it in a departmental account.

(3) "Commission" means the sentencing guidelines commission.

(4) "Community corrections officer" means an employee of the department who is responsible for carrying out specific duties in supervision of sentenced offenders and monitoring of sentence conditions.

(5) "Community custody" means that portion of an offender's sentence of confinement in lieu of earned release time or imposed as part of a sentence under this chapter and served in the community subject to controls placed on the offender's movement and activities by the department.

(6) "Community protection zone" means the area within eight hundred eighty feet of the facilities and grounds of a public or private school.

(7) "Community restitution" means compulsory service, without compensation, performed for the benefit of the community by the offender.

(8) "Confinement" means total or partial confinement.

(9) "Conviction" means an adjudication of guilt pursuant to Title 10 or 13 RCW and includes a verdict of guilty, a finding of guilty, and acceptance of a plea of guilty.

(10) "Crime-related prohibition" means an order of a court prohibiting conduct that directly relates to the circumstances of the crime for which the offender has been convicted, and shall not be construed to mean orders directing an offender affirmatively to participate in rehabilitative programs or to otherwise perform affirmative conduct. However, affirmative acts necessary to monitor compliance with the order of a court may be required by the department.

(11) "Criminal history" means the list of a defendant's prior convictions and juvenile adjudications, whether in this state, in federal court, or elsewhere.

(a) The history shall include, where known, for each conviction (i) whether the defendant has been placed on probation and the length and terms thereof; and (ii) whether the defendant has been incarcerated and the length of incarceration.

(b) A conviction may be removed from a defendant's criminal history only if it is vacated pursuant to RCW 9.96.060, 9.94A.640, 9.95.240, or a similar out-of-state statute, or if the conviction has been vacated pursuant to a governor's pardon.

(c) The determination of a defendant's criminal history is distinct from the determination of an offender score. A prior conviction that was not included in an offender score calculated pursuant to a former version of the sentencing reform act remains part of the defendant's criminal history.

(12) "Criminal street gang" means any ongoing organization, association, or group of three or more persons, whether formal or informal, having a common name or common identifying sign or symbol, having as one of its primary activities the commission of criminal acts, and whose members or associates individually or collectively engage in or have engaged in a pattern of criminal street gang activity. This definition does not apply to employees engaged in concerted activities for their mutual aid and protection, or to the activities of labor and bona fide nonprofit organizations or their members or agents.

(13) "Criminal street gang associate or member" means any person who actively participates in any criminal street gang and who intentionally promotes, furthers, or assists in any criminal act by the criminal street gang.

(14) "Criminal street gang-related offense" means any felony or misdemeanor offense, whether in this state or elsewhere, that is committed for the benefit of, at the direction of, or in association with any criminal street gang, or is committed with the intent to promote, further, or assist in any criminal conduct by the gang, or is committed for one or more of the following reasons:

(a) To gain admission, prestige, or promotion within the gang;

(b) To increase or maintain the gang's size, membership, prestige, dominance, or control in any geographical area;

(c) To exact revenge or retribution for the gang or any member of the gang;

(d) To obstruct justice, or intimidate or eliminate any witness against the gang or any member of the gang;

(e) To directly or indirectly cause any benefit, aggrandizement, gain, profit, or other advantage for the gang, its reputation, influence, or membership; or

(f) To provide the gang with any advantage in, or any control or dominance over any criminal market sector, including, but not limited

to, manufacturing, delivering, or selling any controlled substance (chapter 69.50 RCW); arson (chapter 9A.48 RCW); trafficking in stolen property (chapter 9A.82 RCW); promoting prostitution (chapter 9A.88 RCW); human trafficking (RCW 9A.40.100); or promoting pornography (chapter 9.68 RCW).

The fact that an offender through earned release can reduce the actual period of confinement shall not affect the classification of the sentence as a determinate sentence.

(19) "Disposable earnings" means that part of the earnings of an offender remaining after the deduction from those earnings of any amount required by law to be withheld. For the purposes of this definition, "earnings" means compensation paid or payable for personal services, whether denominated as wages, salary, commission, bonuses, or otherwise, and, notwithstanding any other provision of law making the payments exempt from garnishment, attachment, or other process to satisfy a court-ordered legal financial obligation, specifically includes periodic payments pursuant to pension or retirement programs, or insurance policies of any type, but does not include payments made under Title 50 RCW, except as provided in RCW 50.40.020 and 50.40.050, or Title 74 RCW.

(1) An offender is eligible for the parenting sentencing alternative if:

(a) The high end of the standard sentence range for the current offense is greater than one year;

(b) The offender has no prior or current conviction for a felony that is a sex offense or a violent offense;

(c) The offender has not been found by the United States attorney general to be subject to a deportation detainer or order and does not become subject to a deportation order during the period of the sentence;

(d) The offender signs any release of information waivers required to allow information regarding current or prior child welfare cases to be shared with the department and the court; and

(e) The offender has physical custody of his or her minor child or is a legal guardian or custodian with physical custody of a child under the age of eighteen at the time of the current offense.

(2) To assist the court in making its determination, the court may order the department to complete either a risk assessment report or a chemical dependency screening report as provided in RCW 9.94A.500, or both reports prior to sentencing.

(3) If the court is considering this alternative, the court shall request that the department contact the children's administration of the Washington state department of social and health services to determine if the agency has an open child welfare case or prior substantiated referral of abuse or neglect involving the offender or if the agency is aware of any substantiated case of abuse or neglect with a tribal child welfare agency involving the offender.

(a) If the offender has an open child welfare case, the department will provide the release of information waiver and request that the children's administration or the tribal child welfare agency provide a report to the court. The children's administration shall provide a report within seven business days of the request that includes, at the minimum, the following:

(i) Legal status of the child welfare case;

(ii) Length of time the children's administration has been involved with the offender;

(c) If the offender does not have an open child welfare case with the children's administration or with a tribal child welfare agency but has prior involvement, the department will obtain information from the children's administration on the number and type of past substantiated referrals of abuse or neglect and report that information to the court. If the children's administration has never had any substantiated referrals or an open case with the offender, the department will inform the court.

(4) If the sentencing court determines that the offender is eligible for a sentencing alternative under this section and that the sentencing alternative is appropriate and should be imposed, the court shall waive imposition of a sentence within the standard sentence range and impose a sentence consisting of twelve months of community

custody. The court shall consider the offender's criminal history when determining if the alternative is appropriate.

(b) If the offender is brought back to court, the court may modify the conditions of community custody or impose sanctions under (c) of this subsection.

(c) The court may order the offender to serve a term of total confinement within the standard range of the offender's current offense at any time during the period of community custody, if the offender violates the conditions or requirements of the sentence or if the offender is failing to make satisfactory progress in treatment.

(d) An offender ordered to serve a term of total confinement under (c) of this subsection shall receive credit for any time previously served in confinement under this section.

(b) Any program established pursuant to this section shall allow an offender to earn early release credits for presentence incarceration. If an offender is transferred from a county jail to the department, the administrator of a county jail facility shall certify to the department the amount of time spent in custody at the facility and the amount of earned release time. The department may approve a jail certification from a correctional agency that calculates earned release time based on the actual amount of confinement time served by the offender before sentencing when an erroneous calculation of confinement time served by the offender before sentencing appears on the judgment and sentence.

(b) The department shall, as a part of its program for release to the community in lieu of earned release, require the offender to propose a release plan that includes an approved residence and living arrangement. All offenders with community custody terms eligible for release to community custody in lieu of earned release shall provide an approved residence and living arrangement prior to release to the community;

(c) The department may deny transfer to community custody in lieu of earned release time if the department determines an offender's release plan, including proposed residence location and living arrangements, may violate the conditions of the sentence or conditions of supervision, place the offender at risk to violate the conditions of the sentence, place the offender at risk to reoffend, or present a risk to victim safety or community safety. If the children's administration or a tribal jurisdiction has an open child welfare case, the department will seek input from the children's administration or the involved tribal jurisdiction as to: (a) The status of the child welfare case; and (b) recommendations regarding placement of the offender and services required of the department and the court governing the individual's child welfare case. The department and its officers, agents, and employees are not liable for the acts of offenders participating in the parenting program unless the department or its officers, agents, and employees acted with willful and wanton disregard.

(3) All offenders placed on home detention as part of the parenting program shall provide an approved residence and living arrangement prior to transfer to home detention.

(4) While in the community on home detention as part of the parenting program, the department shall:

Home detention may be imposed for offenders convicted of possession of a controlled substance under RCW 69.50.4013 or forged prescription for a controlled substance under RCW 69.50.403 if the offender fulfills the participation conditions set forth in this section and is monitored for drug use by a treatment alternatives to street crime program or a comparable court or agency-referred program.

(2) Home detention may be imposed for offenders convicted of burglary in the second degree as defined in RCW 9A.52.030 or residential burglary conditioned upon the offender:

- (a) Successfully completing twenty-one days in a work release program;
 - (b) Having no convictions for burglary in the second degree or residential burglary during the preceding two years and not more than two prior convictions for burglary or residential burglary;
 - (c) Having no convictions for a violent felony offense during the preceding two years and not more than two prior convictions for a violent felony offense;

- (b) Abiding by the rules of the home detention program; and
- (c) Compliance with court-ordered legal financial obligations.

The home detention program may also be made available to offenders whose charges and convictions do not otherwise disqualify them if medical or health-related conditions, concerns or treatment would be better addressed under the home detention program, or where the health and welfare of the offender, other inmates, or staff would be jeopardized by the offender's incarceration. Participation in the home detention program for medical or health-related reasons is conditioned on the offender abiding by the rules of the home detention program and complying with court-ordered restitution.

Sec. 10. RCW 9.94A.190 and 2009 c 28 s 5 are each amended to read as follows:

(1) A sentence that includes a term or terms of confinement totaling more than one year shall be served in a facility or institution operated, or utilized under contract, by the state, or in home detention pursuant to section 8 of this act. Except as provided in subsection (3) or (5) of this section, a sentence of not more than one year of confinement shall be served in a facility operated, licensed, or utilized under contract, by the county, or if home detention or work crew has been ordered by the court, in the residence of either the offender or a member of the offender's immediate family.

(2) If a county uses a state partial confinement facility for the partial confinement of a person sentenced to confinement for not more than one year, the county shall reimburse the state for the use of the facility as provided in this subsection. The office of financial management shall set the rate of reimbursement based upon the average per diem cost per offender in the facility. The office of financial management shall determine to what extent, if any, reimbursement shall be reduced or eliminated because of funds provided by the legislature to the department for the purpose of covering the cost of county use of state partial confinement facilities. The office of financial management shall reestablish reimbursement rates each even-numbered year.

(3) A person who is sentenced for a felony to a term of not more than one year, and who is committed or returned to incarceration in a state facility on another felony conviction, either under the indeterminate sentencing laws, chapter 9.95 RCW, or under this chapter shall serve all terms of confinement, including a sentence of not more than one year, in a facility or institution operated, or utilized under contract, by the state, consistent with the provisions of RCW 9.94A.589.

(4) Notwithstanding any other provision of this section, a sentence imposed pursuant to RCW 9.94A.660 which has a standard sentence range of over one year, regardless of length, shall be served in a facility or institution operated, or utilized under contract, by the state.

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**NEW SECTION. Sec. 14.** (1) The legislature finds that:

(a) Native American tribes have depended on the state's marine waters and its resources for countless generations and continue to do so for cultural, spiritual, economic, and subsistence purposes.

(b) The state has long demonstrated a strong commitment to protecting the state's marine waters, which are abundant in natural resources, contain a treasure of biological diversity, and are a source of multiple uses by the public supporting the economies of nearby communities as well as the entire state. These multiple uses include, but are not limited to: Marine-based industries and activities such as cargo, fuel, and passenger transportation; commercial, recreational, and tribal fishing; shellfish aquaculture; telecommunications and energy infrastructure; seafood processing; tourism; scientific research; and many related goods and services. These multiple uses as well as new emerging uses, such as renewable ocean energy, constitute a management challenge for sustaining resources and coordinating state decision making in a proactive, comprehensive and ecosystem-based manner.

(c) Washington's marine waters are part of a west coast-wide large marine ecosystem known as the California current, and the Puget Sound and Columbia river estuaries constitute two of the three largest estuaries that are part of this large marine ecosystem. Puget Sound and the Columbia river are estuaries of national significance under the national estuary program, and the outer coast includes the Olympic national marine sanctuary.

(d) Washington is working in cooperation with the states of Oregon and California and federal agencies on ocean and ocean health management issues through the west coast governors' agreement on ocean health, and with the government of British Columbia on shared waters management issues through the British Columbia-Washington coastal and ocean task force.

(e) Washington has initiated comprehensive management programs to protect and promote compatible uses of these waters. These include: The development of a comprehensive ecosystem-based management plan known as the Puget Sound action agenda; shoreline plans for shorelines around the state; management plans for state-owned aquatic lands and their associated waters statewide; and watershed and salmon recovery management plans in the upland areas of Puget Sound, the coast, and the Columbia river. Data and

data management tools have also been developed to support these management and planning activities, such as the coastal atlas managed by the department of ecology and the shore zone database managed by the department of natural resources.

(f) For marine waters specifically, Washington has formed several mechanisms to improve coordination and management. A legislatively authorized task force formed by the governor identified priority recommendations for improving state management of ocean resources through Washington's ocean action plan in 2006. The governor further formed an ongoing interagency team that assists the department of ecology in implementing these recommendations. There is an extensive network of marine resources committees within Puget Sound and on the outer coast and the Columbia river to promote and support local involvement identifying and conducting local priority marine projects and some have been involved in local planning and management. Through the Olympic coast intergovernmental policy council, the state has also formalized its working relationship with coastal tribes and the federal government in the management of the Olympic coast national marine sanctuary.

(g) Reports by the United States commission on oceans policy, the Pew oceans commission, and the joint oceans commission initiative recommend the adoption of a national ocean policy under which states and coastal communities would have a principal role in developing and implementing ecosystem-based management of marine waters. Acting on these recommendations, the president of the United States recently formed an interagency ocean policy task force charged with developing a national ocean policy and a framework for marine spatial planning that involves all governmental levels, including state, tribal, and local governments. To further develop and implement such a planning framework, it is anticipated that federal cooperation and support will be available to coastal states that are engaged in marine and coastal resource management and planning, including marine spatial planning.

(2) The purpose of this chapter is to build upon existing statewide Puget Sound, coastal, and Columbia river efforts. When resources become available, the state intends to augment the marine spatial component of existing plans and to improve the coordination among state agencies in the development and implementation of marine management plans.

(3) It is also the purpose of this chapter to establish policies to guide state agencies and local governments when exercising jurisdiction over proposed uses and activities in these waters. Specifically, in conducting marine spatial planning, and in augmenting existing marine management plans with marine spatial planning components, the state must:

(a) Continue to recognize the rights of native American tribes regarding marine natural resources;

(b) Base all planning on best available science. This includes identifying gaps in existing information, recommend a strategy for acquiring science needed to strengthen marine spatial plans, and create a process to adjust plans once additional scientific information is available;

(c) Coordinate with all stakeholders, including marine resources committees and nongovernmental organizations, that are significantly involved in the collection of scientific information, ecosystem protection and restoration, or other activities related to marine spatial planning;

(d) Recognize that marine ecosystems span tribal, state, and international boundaries and that planning has to be coordinated with all entities with jurisdiction or authority in order to be effective;

(e) Establish or further promote an ecosystem-based management approach including linking marine spatial plans to adjacent nearshore and upland spatial or ecosystem-based plans;

(f) Ensure that all marine spatial plans are linked to measurable environmental outcomes;

(g) Establish a performance management system to monitor implementation of any new marine spatial plan;

(h) Establish an ocean stewardship policy that takes into account the existing natural, social, cultural, historic, and economic uses;

(i) Recognize that commercial, tribal, and recreational fisheries, and shellfish aquaculture are an integral part of our state's culture and contribute substantial economic benefits;

(j) Value biodiversity and ecosystem health, and protect special, sensitive, or unique estuarine and marine life and habitats, including important spawning, rearing, and migration areas for finfish, marine mammals, and productive shellfish habitats;

(k) Integrate this planning with existing plans and ongoing planning in the same marine waters and provide additional mechanisms for improving coordination and aligning management;

(l) Promote recovery of listed species under state and federal endangered species acts plans pursuant to those plans; and

(m) Fulfill the state's public trust and tribal treaty trust responsibilities in managing the state's ocean waters in a sustainable manner for current and future generations.

NEW SECTION. Sec. 15. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Aquatic lands" includes all tidelands, shorelands, harbor areas, and the beds of navigable waters, and must be construed to be coextensive with the term "aquatic lands" as defined in RCW 79.105.060.

(2) "Exclusive economic zone waters" means marine waters from the offshore state boundary to the boundary of the exclusive economic zone, over which the United States government has primary jurisdiction.

(3) "Marine counties" includes Clallam, Jefferson, Grays Harbor, Wahkiakum, San Juan, Whatcom, Skagit, Island, Snohomish, King, Pierce, Thurston, Mason, Kitsap, and Pacific counties.

(4) "Marine ecosystem" means the physical, biological, and chemical components and processes and their interactions in marine waters and aquatic lands, including humans.

(5) "Marine interagency team" or "team" means the marine interagency team created under section 3 of this act.

(6) "Marine management plan" and "marine waters management plan" means any plan guiding activities on and uses of the state's marine waters, and may include a marine spatial plan or element.

(7) "Marine resources committees" means those committees organized under RCW 36.125.020 or by counties within the Northwest straits marine conservation initiative.

(8) "Marine spatial planning" means a public process of analyzing and allocating the spatial and temporal distribution of human activities in marine areas to achieve ecological, economic, and social objectives. Often this type of planning is done to reduce conflicts among uses, to reduce environmental impacts, to facilitate compatible uses, to align management decisions, and to meet other objectives determined by the planning process.

(9) "Marine waters" means aquatic lands and waters under tidal influence, including saltwaters and estuaries to the ordinary high water mark lying within the boundaries of the state. This definition also includes the portion of the Columbia river bordering Pacific and Wahkiakum counties, Willapa Bay, Grays Harbor, the Strait of Juan de Fuca, and the entire Puget Sound.

NEW SECTION. Sec. 16. (1) The office of the governor shall chair a marine interagency team that is composed of representatives of each of the agencies in the governor's natural resources cabinet with management responsibilities for marine waters, including the independent agencies. A representative from a federal agency with lead responsibility for marine spatial planning must be invited to serve as a liaison to the team to help ensure consistency with federal actions and policy. The team must conduct the assessment authorized in section 4 of this act, assist state agencies under section 5 of this act with the review and coordination of such planning with their existing

and ongoing planning, and conduct the marine management planning authorized in section 6 of this act.

(2) The team may not commence any activities authorized under sections 5 and 6 of this act until federal, private, or other nonstate funding is secured specifically for these activities.

NEW SECTION. Sec. 17. (1) The marine interagency team created in section 3 of this act must assess and recommend a framework for conducting marine spatial planning and integrating the planning into existing management plans. The assessment must include, but not be limited to, recommendations for:

- (a) Including a marine spatial component into the Puget Sound action agenda;
- (b) Integrating marine spatial planning into management efforts for the Columbia river estuary, working with the state of Oregon; and
- (c) Developing a marine management plan containing a marine spatial component for the outer coast, to be incorporated within the comprehensive marine management plan authorized under section 6 of this act.

(2) The assessment authorized under subsection (1) of this section must also:

- (a) Summarize existing goals and objectives for: Plans in Puget Sound, the Columbia river estuary, and the outer coast, including the Puget Sound action agenda; shoreline plans for shorelines around the state; management plans for state-owned aquatic lands and their associated waters statewide; and watershed and salmon recovery management plans;
- (b) Develop recommended goals and objectives for marine spatial planning that integrate with existing policies and regulations, and recommend a schedule to develop marine ecosystem health indicators, considering the views and recommendations of affected stakeholders and governmental agencies;
- (c) Summarize how the existing goals and objectives as well as recommended goals and objectives are consistent or inconsistent with those adopted by other states for the west coast large marine ecosystem, and with those goals and objectives articulated in relevant national oceans policies and the national framework for marine spatial planning;
- (d) Identify the existing management activities and spatial data related to these priorities and objectives and the key needs for incorporating marine spatial planning into existing statewide plans; and
- (e) Provide recommendations on achieving a unified approach to database management and delivery that would support marine spatial planning throughout the state.

(3) The results of this assessment must be provided to the appropriate legislative committees by December 15, 2010.

(4) This section expires June 30, 2011.

NEW SECTION. Sec. 18. (1) Concurrently or prior to the assessment and planning activities provided in sections 4 and 6 of this act, and subject to available federal, private, or other nonstate funding for this purpose, all state agencies with marine waters planning and management responsibilities are authorized to include marine spatial data and marine spatial planning elements into their existing plans and ongoing planning.

(2) The director of the Puget Sound partnership under the direction of the leadership council created in RCW 90.71.220 must integrate marine spatial information and planning provisions into the action agenda. The information should be used to address gaps or improve the effectiveness of the spatial planning component of the action agenda, such as in addressing potential new uses such as renewable energy projects.

(3) The governor and the commissioner of public lands, working with appropriate marine management and planning agencies, should work cooperatively with the applicable west coast states, Canadian provinces, and with federal agencies, through existing cooperative entities such as the west coast governor's agreement on ocean health,

the coastal and oceans task force, the Pacific coast collaborative, the Puget Sound federal caucus, and the United States and Canada cooperative agreement working group, to explore the benefits of developing joint marine spatial plans or planning frameworks in the shared waters of the Salish Sea, the Columbia river estuary, and in the exclusive economic zone waters. The governor and commissioner may approve the adoption of shared marine spatial plans or planning frameworks where they determine it would further policies of this chapter and chapter 43.143 RCW.

(4) On an ongoing basis, the director of the department of ecology shall work with other state agencies with marine management responsibilities, tribal governments, marine resources committees, local and federal agencies, and marine waters stakeholders to compile marine spatial information and to incorporate this information into ongoing plans. This work may be integrated with the comprehensive marine management plan authorized under section 6 of this act when that planning process is initiated.

(5) All actions taken to implement this section must be consistent with section 8 of this act.

NEW SECTION. Sec. 19. (1) Upon the receipt of federal, private, or other nonstate funding for this purpose, together with any required match of state funding that may be specifically provided for this purpose, the marine interagency team shall coordinate the development of a comprehensive marine management plan for the state's marine waters. The marine management plan must include marine spatial planning, as well as recommendations to the appropriate federal agencies regarding the exclusive economic zone waters. The plan may be developed in geographic segments, and may incorporate or be developed as an element of existing marine plans, such as the Puget Sound action agenda. The chair of the team may designate a state agency with marine management responsibilities to take the lead in developing and recommending to the team particular segments or elements of the comprehensive marine management plan.

(2) The marine management plan must be developed and implemented in a manner that:

- (a) Recognizes and respects existing uses and tribal treaty rights;
- (b) Promotes protection and restoration of ecosystem processes to a level that will enable long-term sustainable production of ecosystem goods and services;
- (c) Addresses potential impacts of climate change and sea level rise upon current and projected marine waters uses and shoreline and coastal impacts;
- (d) Fosters and encourages sustainable uses that provide economic opportunity without significant adverse environmental impacts;
- (e) Preserves and enhances public access;
- (f) Protects and encourages working waterfronts and supports the infrastructure necessary to sustain marine industry, commercial shipping, shellfish aquaculture, and other water-dependent uses;
- (g) Fosters public participation in decision making and significant involvement of communities adjacent to the state's marine waters; and
- (h) Integrates existing management plans and authorities and makes recommendations for aligning plans to the extent practicable.

(3) To ensure the effective stewardship of the state's marine waters held in trust for the benefit of the people, the marine management plan must rely upon existing data and resources, but also identify data gaps and, as possible, procure missing data necessary for planning.

(4) The marine management plan must include but not be limited to:

- (a) An ecosystem assessment that analyzes the health and status of Washington marine waters including key social, economic, and ecological characteristics and incorporates the best available scientific information, including relevant marine data. This assessment should seek to identify key threats to plan goals, analyze risk and management scenarios, and develop key ecosystem indicators. In

addition, the plan should incorporate existing adaptive management strategies underway by local, state, or federal entities and provide an adaptive management element to incorporate new information and consider revisions to the plan based upon research, monitoring, and evaluation;

(b) Using and relying upon existing plans and processes and additional management measures to guide decisions among uses proposed for specific geographic areas of the state's marine and estuarine waters consistent with applicable state laws and programs that control or address developments in the state's marine waters;

(c) A series of maps that, at a minimum, summarize available data on: The key ecological aspects of the marine ecosystem, including physical and biological characteristics, as well as areas that are environmentally sensitive or contain unique or sensitive species or biological communities that must be conserved and warrant protective measures; human uses of marine waters, particularly areas with high value for fishing, shellfish aquaculture, recreation, and maritime commerce; and appropriate locations with high potential for renewable energy production with minimal potential for conflicts with other existing uses or sensitive environments;

(d) An element that sets forth the state's recommendations to the federal government for use priorities and limitations, siting criteria, and protection of unique and sensitive biota and ocean floor features within the exclusive economic zone waters consistent with the policies and management criteria contained in this chapter and chapter 43.143 RCW;

(e) An implementation strategy describing how the plan's management measures and other provisions will be considered and implemented through existing state and local authorities; and

(f) A framework for coordinating state agency and local government review of proposed renewable energy development uses requiring multiple permits and other approvals that provide for the timely review and action upon renewable energy development proposals while ensuring protection of sensitive resources and minimizing impacts to other existing or projected uses in the area.

(5) If the director of the department of fish and wildlife determines that a fisheries management element is appropriate for inclusion in the marine management plan, this element may include the incorporation of existing management plans and procedures and standards for consideration in adopting and revising fisheries management plans in cooperation with the appropriate federal agencies and tribal governments.

(6) Any provision of the marine management plan that does not have as its primary purpose the management of commercial or recreational fishing but that has an impact on this fishing must minimize the negative impacts on the fishing. The team must accord substantial weight to recommendations from the director of the department of fish and wildlife for plan revisions to minimize the negative impacts.

(7) The marine management plan must recognize and value existing uses. All actions taken to implement this section must be consistent with section 8 of this act.

(8) The marine management plan must identify any provisions of existing management plans that are substantially inconsistent with the plan.

(9)(a) In developing the marine management plan, the team shall implement a strong public participation strategy that seeks input from throughout the state and particularly from communities adjacent to marine waters. Public review and comment must be sought and incorporated with regard to planning the scope of work as well as in regard to significant drafts of the plan and plan elements.

(b) The team must engage tribes and marine resources committees in its activities throughout the planning process. In particular, prior to finalizing the plan, the team must provide each tribe and marine resources committee with a draft of the plan and invite them to review and comment on the plan.

(10) The team must complete the plan within twenty-four months of the initiation of planning under this section.

(11) The director of the department of ecology shall submit the completed marine management plan to the appropriate federal agency for its review and approval for incorporation into the state's federally approved coastal zone management program.

(12) Subsequent to the adoption of the marine management plan, the team may periodically review and adopt revisions to the plan to incorporate new information and to recognize and incorporate provisions in other marine management plans. The team must afford the public an opportunity to review and comment upon significant proposed revisions to the marine management plan.

NEW SECTION. Sec. 20. (1) Upon the adoption of the marine management plan under section 6 of this act, each state agency and local government must make decisions in a manner that ensures consistency with applicable legal authorities and conformance with the applicable provisions of the marine management plan to the greatest extent possible.

(2) The director of the department of ecology, in coordination with the team, shall periodically review existing management plans maintained by state agencies and local governments that cover the same marine waters as the marine management plan under section 6 of this act, and for any substantial inconsistency with the marine management plan the director shall make recommendations to the agency or to the local government for revisions to eliminate the inconsistency.

(3) Not later than four years following adoption of the marine management plan under section 6 of this act, the department of ecology, in coordination with the team, shall report to the appropriate marine waters committees in the senate and house of representatives describing provisions of existing management plans that are substantially inconsistent with the marine management plan under section 6 of this act, and making recommendations for eliminating the inconsistency.

(4) All actions taken to implement this section must be consistent with section 8 of this act. In the event of a conflict between the marine management plan and local ordinances and regulations, local ordinances and regulations shall control.

NEW SECTION. Sec. 21. No authority is created under this chapter to affect in any way any project, use, or activity in the state's marine waters existing prior to or during the development and review of the marine management plan. No authority is created under this chapter to supersede the current authority of any state agency or local government.

NEW SECTION. Sec. 22. A new section is added to chapter 43.21F RCW to read as follows:

(1) In addition to the duties prescribed in RCW 43.21F.045, the department must develop guidance applicable to all state agencies for achieving a unified state position upon matters involving the siting and operation of renewable energy facilities in the state's coastal and estuarine marine waters. The guidance must provide procedures for coordinating the views and responsibilities of any state agency with jurisdiction or expertise over the matter under consideration, which may include federal policy proposals, activities, permits, licenses, or the extension of funding for activities in or affecting the state's marine waters. In developing the guidance, the director must consult with agencies with primary responsibilities for permitting and management of marine waters and bedlands, including the departments of natural resources, ecology, transportation, and fish and wildlife, and the state parks and recreation commission, the Puget Sound partnership, and the energy facility site evaluation council. The director must also consult and incorporate relevant information from the regional activities related to renewable energy siting in marine waters, including those under the west coast governors' agreement on ocean health.

(2) The director may not commence development of the guidance until federal, private, or other nonstate funding is secured for this activity. The director must adopt the guidance within one year of securing such funds.

(3) This section is intended to promote consistency and multiple agency coordination in developing positions and exercising jurisdiction in matters involving the siting and operation of renewable energy facilities and does not diminish or abrogate the authority or jurisdiction of any state agency over such matters established under any other law.

NEW SECTION. Sec. 23. (1) The marine resources stewardship trust account is created in the state treasury. All receipts from income derived from the investment of amounts credited to the account, any grants, gifts, or donations to the state for the purposes of marine management planning, marine spatial planning, data compilation, research, or monitoring, and any appropriations made to the account must be deposited in the account. Moneys in the account may be spent only after appropriation.

(2) Expenditures from the account may only be used for the purposes of marine management planning, marine spatial planning, research, monitoring, implementation of the marine management plan, and for the restoration or enhancement of marine habitat or resources.

Sec. 24. RCW 43.84.092 and 2009 c 479 s 31, 2009 c 472 s 5, and 2009 c 451 s 8 are each reenacted and amended to read as follows:

(1) By October 15th of each even-numbered year, the office of financial management shall complete an objective analysis and scoring of all capital budget projects proposed by the public four-year institutions of higher education and submit the results of the scoring process to the legislative fiscal committees, the higher education coordinating board, and the four-year institutions (~~except that, for 2008, the office of financial management shall complete the objective analysis and scoring by November 1st~~). Growth projects should provide significant additional student capacity. Proposed projects must demonstrate that they are based on solid enrollment demand projections, more cost-effectively provide enrollment access than alternatives such as university centers and distance learning, and make cost-effective use of existing and proposed new space;

(b) Projects that replace failing permanent buildings (~~or renovate facilities to restore building life and upgrade space to meet current program requirements~~). Facilities that cannot be economically renovated are considered replacement projects. (~~Renovation projects should represent a complete renovation of a total facility or an isolated wing of a facility. (2) The office of financial management, in consultation with the legislative fiscal committees ~~((and the joint legislative audit and review committee))~~, shall establish a scoring system and process for each four-year project category that is based on the framework used in the community and technical college system of prioritization. Staff from the state board for community and technical colleges, the higher education coordinating board, and the four-year institutions shall provide technical assistance on the development of a scoring system and process.

(3) The office of financial management shall consult with the legislative fiscal committees in the scoring of four-year institution project proposals, and may also solicit participation by ~~((the joint legislative audit and review committee and))~~ independent experts.

(a) For each four-year project category, the scoring system must, at a minimum, include an evaluation of enrollment trends, reasonableness of cost, the ability of the project to enhance specific strategic master plan goals, age and condition of the facility if applicable, and impact on space utilization.

(b) Each four-year project category may include projects at the pre-design, design, or construction funding phase.

(c) To the extent possible, the objective analysis and scoring system of all capital budget projects shall occur within the context of any and all performance agreements between the office of financial management and the governing board of a public, four-year institution of higher education that aligns goals, priorities, desired outcomes, flexibility, institutional mission, accountability, and levels of resources.

(5) The office of financial management shall distribute common definitions, the scoring system, and other information required for the project proposal and scoring process as part of its biennial budget instructions ~~((, except that, for the 2009-2011 budget development cycle, this information must be distributed by July 1, 2008))~~. The office of financial management, in consultation with the legislative fiscal committees ~~((and the joint legislative audit and review committee))~~, shall develop common definitions that four-year institutions must use in developing their project proposals and lists under this section.

(7) By August 15th of each even-numbered year ~~((, beginning in 2008,))~~ each public four-year higher education institution shall prepare and submit prioritized lists of the individual projects proposed by the institution for the ensuing six-year period in each category. ~~((On a pilot basis, the office of financial management shall require one research university to prepare two separate prioritized lists for each category, one for the main campus, and one covering all of the institution's branch campuses. (8) The office of financial management shall convene a group by August 15th of each even-numbered year to rank projects in priority order in a single list to be submitted to the legislature for the ensuing biennium. The group shall consist of one representative of the higher education coordinating board, two representatives of the council of presidents, two representatives of the office of financial management, and one representative of the Washington state economic development commission. The council of presidents' representatives must rotate every two years, with each four-year public baccalaureate research institution representing the council of presidents once every two biennia and each four-year public baccalaureate nonresearch institution representing the council of presidents once every four biennia. The Washington state economic development representative shall be appointed by the governor and will change every two years. The governor or a designee may participate in determining the prioritized list.

(9) The priorities set by the group shall consider policies for the state's higher education system to achieve growth and manage existing assets in a responsible manner, biennial budget projections for capital expenditures, and biennial budget projections for student full-time equivalent growth."

(1) This section provides an alternative process for awarding contracts for construction, building, renovation, remodeling, alteration, repair, or improvement of university buildings and facilities in which critical patient care or highly specialized medical research is located. These provisions may be used, in lieu of other procedures to award contracts for such work, when the estimated cost of the work is equal to or less than five million dollars and the project involves construction, renovation, remodeling, or alteration of improvements within a building that is used directly for critical patient care or highly specialized medical research.

(2) The university may create a single critical patient care or specialized medical research facilities roster or may create multiple

critical patient care or specialized medical research facilities rosters for different trade specialties or categories of anticipated work. At least once a year, the university shall publish in a newspaper of general circulation a notice of the existence of the roster or rosters and solicit a statement of qualifications from contractors who wish to be on the roster or rosters of prime contractors. In addition, qualified contractors shall be added to the roster or rosters at any time they submit a written request, necessary records, and meet the qualifications established by the university. The university may require eligible contractors desiring to be placed on a roster to keep current records of any applicable licenses, certifications, registrations, bonding, insurance, or other appropriate matters on file with the university as a condition of being placed on a roster or rosters. Placement on a roster shall be on the basis of qualifications.

(3) The public solicitation of qualifications shall include but not be limited to:

- (a) A description of the types of projects to be completed and where possible may include programmatic, performance, and technical requirements and specifications;
- (b) The reasons for using the critical patient care and specialized medical research roster process;
- (c) A description of the qualifications to be required of a contractor, including submission of an accident prevention program;
- (d) A description of the process the university will use to evaluate qualifications, including evaluation factors and the relative weight of factors;
- (e) The form of the contract to be awarded;
- (f) A description of the administrative process by which the required qualifications, evaluation process, and project types may be appealed; and
- (g) A description of the administrative process by which decisions of the university may be appealed.

(4) The university shall establish a committee to evaluate the contractors submitting qualifications. Evaluation criteria for selection of the contractor or contractors to be included on a roster shall include, but not be limited to:

- (a) Ability of a contractor's professional personnel;
- (b) A contractor's past performance on similar projects, including but not limited to medical facilities, and involving either negotiated work or other public works contracts;
- (c) The contractor's ability to meet time and budget requirements;
- (d) The contractor's ability to provide preconstruction services, as appropriate;
- (e) The contractor's capacity to successfully complete the project;
- (f) The contractor's approach to executing projects;
- (g) The contractor's approach to safety and the contractor's safety history; and
- (h) The contractor's record of performance, integrity, judgment, and skills.

(5) Contractors meeting the evaluation committee's criteria for selection must be placed on the applicable roster or rosters.

(6) When a project is selected for delivery through this roster process, the university must establish a procedure for securing written quotations from all contractors on a roster to assure that a competitive price is established. Invitations for quotations shall include an estimate of the scope and nature of the work to be performed as well as materials and equipment to be furnished. Plans and specifications must be included in the invitation but may not be detailed. Award of a project must be made to the responsible bidder submitting the lowest responsive bid.

(7) The university shall make an effort to solicit proposals from certified minority or certified woman-owned contractors to the extent permitted by the Washington state civil rights act, RCW 49.60.400.

(8) Beginning in September 2010 and every other year thereafter, the university shall provide a report to the capital projects advisory review board which must, at a minimum, include a list of rosters used,

contracts awarded, and a description of outreach to and participation by women and minority-owned businesses.

NEW SECTION. **Sec. 10.** A new section is added to chapter 43.131 RCW to read as follows:

On page 1 of the striking amendment, strike all material after line 2 and insert the following:

"NEW SECTION. Sec. 1. The legislature recognizes that the 2009 state route number 520 legislative workgroup recommended a design and finance plan to move forward with final design and construction of the state route number 520 corridor. The design option for the westside, known as Option A+, is declared consistent with the design requirements outlined in RCW 47.01.408, which calls for six total lanes, with two lanes that are for transit and high-occupancy vehicle travel, and four general purpose lanes for the state route number 520 bridge replacement and HOV project.

The legislature further recognizes that time is of the essence and further study or refinement of the design of the state route number 520 bridge replacement and HOV project will only delay the project. Construction must move forward once the supplemental draft environmental impact statement process is complete, consistent with the department of transportation's plan to open the new state route number 520 bridge to vehicular traffic in 2014.

The legislature further intends that any cost savings applicable to the state route number 520 bridge replacement and HOV program stay within the program.

Sec. 2. RCW 47.56.870 and 2009 c 472 s 2 are each amended to read as follows:

(1) The initial imposition of tolls on the state route number 520 corridor is authorized, the state route number 520 corridor is designated an eligible toll facility, and toll revenue generated in the corridor must only be expended as allowed under RCW 47.56.820.

(2) The state route number 520 corridor consists of that portion of state route number 520 between the junctions of Interstate 5 and state route number 202. The toll imposed by this section shall be charged only for travel on the floating bridge portion of the state route number 520 corridor.

~~—(5)~~ The use of a photo ~~((enforcement))~~ toll system ~~((for issuance of notices of infraction))~~ is subject to the following requirements:

(a) Photo ~~((enforcement))~~ toll systems may take photographs, digital photographs, microphotographs, videotapes, or other recorded images of the vehicle and vehicle license plate only.

(b) ~~((A notice of infraction must be mailed to the registered owner of the vehicle or to the renter of a vehicle within sixty days of the violation. The law enforcement))~~ The officer issuing the notice of infraction shall include with it a certificate or facsimile thereof, based upon inspection of photographs, microphotographs, videotape, or other recorded images produced by a photo ~~((enforcement))~~ toll system, stating the facts supporting the notice of infraction. This certificate or facsimile is prima facie evidence of the facts contained in it and is admissible in a proceeding charging a violation under this chapter. The photographs, digital photographs, microphotographs, videotape, or other recorded images evidencing the violation must be available for inspection and admission into evidence in a proceeding to adjudicate the liability for the infraction.

(c) Notwithstanding any other provision of law, all photographs, digital photographs, microphotographs, videotape, ~~((or))~~ other recorded images, or other records identifying a specific instance of travel prepared under this chapter are for the exclusive use of the tolling agency for toll collection purposes and law enforcement in the discharge of duties under this section and are not open to the public and may not be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation under this chapter. No photograph, digital photograph, microphotograph, videotape, ~~((or))~~ other recorded image, or other record identifying a specific instance of travel may be used for any purpose other than toll collection or enforcement of violations under this chapter ~~((or retained longer than necessary to enforce this chapter or verify that tolls are paid))~~. Records identifying a specific instance of travel by a specific person or vehicle must be retained only as required to ensure payment and enforcement of tolls and to comply with state records retention policies as previously determined for toll facilities. Aggregate records that do not identify an individual, vehicle, or account may be maintained.

(d) All locations where a photo ~~((enforcement))~~ toll system is used must be clearly marked by placing signs in locations that clearly indicate to a driver that he or she is entering a zone where ~~((traffic laws are))~~ tolls are assessed and enforced by a photo ~~((enforcement))~~ toll system.

~~((8))~~ (6) Infractions for toll nonpayment detected through the use of photo ~~((enforcement))~~ toll systems must be issued to the registered owner of the vehicle identified by the photo toll system, but are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120. Additionally, infractions generated by the use of photo enforcement systems under this section shall be processed in the same manner as parking infractions, including for the purposes of RCW 3.50.100, 35.20.220, 46.16.216, and 46.20.270(3).

~~((9))~~ (7) The penalty for ~~((an infraction))~~ toll nonpayment detected through the use of a photo ~~((enforcement))~~ toll system ~~((shall be))~~ is forty dollars plus an additional toll penalty ~~((The toll penalty is equal to three times the cash toll for a standard passenger car during peak hours. The toll penalty may not be reduced. The court shall remit the toll penalty to the department of transportation or a private entity under contract with the department of transportation for deposit in the statewide account in which tolls are deposited for the tolling facility at which the violation occurred. If the driver is found not to have committed an infraction under this section, the driver shall pay the toll due at the time the photograph was taken, unless the toll has already been paid))~~ of twelve dollars. Two dollars of the infraction amount that is not remitted to the department of transportation under this subsection must be forwarded to the state treasurer for deposit in the judicial information system account established in RCW 2.68.020 to be used for costs associated with the development and maintenance of judicial information system products and services. The court may not waive, reduce, or suspend the two dollars that are allocated to the judicial information system account. The toll penalty may not be reduced. The court shall remit one-half of the toll penalty and one-half of the forty-dollar penalty for toll nonpayment to the department of transportation or a private entity under contract with the department of transportation for deposit in the statewide account in which tolls are deposited for the tolling facility at which the violation occurred. However, beginning on July 1, 2011, toll penalties and penalties for toll nonpayment deposited into the Tacoma Narrows toll bridge account created under RCW 47.56.165 must first be allocated toward repayment of operating loans and reserve payments provided to the account from the motor vehicle account under section 1005(15), chapter 518, Laws of 2007. Additionally, the one-half of the toll penalty and one-half of the forty-dollar penalty for toll nonpayment remitted by the courts to the department of transportation, resulting from the nonpayment of tolls on the state route number 520 corridor, must be deposited into the state route

number 520 civil penalties account created under section 4, chapter . . . (Engrossed Substitute Senate Bill No. 6392), Laws of 2010, but only if chapter . . . (Engrossed Substitute Senate Bill No. 6392), Laws of 2010 is enacted by June 30, 2010.

(8) Any court system adjudicating infractions for toll nonpayment must annually provide to the transportation committees of the legislature a complete accounting of all the court system's costs associated with such adjudication.

(9) If the driver is found not to have committed an infraction under this section, the driver shall pay the toll due at the time the photograph was taken, unless the toll has already been paid.

(10) If the registered owner of the vehicle is a rental car business, the department of transportation or a law enforcement agency shall, before a notice of infraction being issued under this section, provide a written notice to the rental car business that a notice of infraction may be issued to the rental car business if the rental car business does not, within eighteen days of the mailing of the written notice, provide to the issuing agency by return mail:

(a) A statement under oath stating the name and known mailing address of the individual driving or renting the vehicle when the infraction occurred; or

(b) A statement under oath that the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred because the vehicle was stolen at the time of the infraction. A statement provided under this subsection must be accompanied by a copy of a filed police report regarding the vehicle theft; or

(c) In lieu of identifying the vehicle operator, the rental car business may pay the applicable toll and fee.

Timely mailing of this statement to the issuing law enforcement agency relieves a rental car business of any liability under this chapter for the notice of infraction.

Sec. 7. RCW 46.63.075 and 2005 c 167 s 3 are each amended to read as follows:

(1) In a traffic infraction case involving an infraction detected through the use of ~~((a photo enforcement system under RCW 46.63.160, or detected through the use of))~~ an automated traffic safety camera under RCW 46.63.170, proof that the particular vehicle described in the notice of traffic infraction was in violation of any such provision of RCW ~~((46.63.160 or))~~ 46.63.170, together with proof that the person named in the notice of traffic infraction was at the time of the violation the registered owner of the vehicle, constitutes in evidence a prima facie presumption that the registered owner of the vehicle was the person in control of the vehicle at the point where, and for the time during which, the violation occurred.

(2) This presumption may be overcome only if the registered owner states, under oath, in a written statement to the court or in testimony before the court that the vehicle involved was, at the time, stolen or in the care, custody, or control of some person other than the registered owner.

Sec. 8. RCW 10.93.020 and 2006 c 284 s 16 are each amended to read as follows:

The Washington state patrol and the department of fish and wildlife are general authority Washington law enforcement agencies.

(2) "Limited authority Washington law enforcement agency" means any agency, political subdivision, or unit of local government of this state, and any agency, department, or division of state government, having as one of its functions the apprehension or detection of persons committing infractions or violating the traffic or criminal laws relating to limited subject areas, including but not limited to, the state departments of natural resources ~~((and))~~, social and health services, and transportation, the state gambling commission, the state lottery commission, the state parks and recreation commission, the state utilities and transportation commission, the state liquor control board, the office of the insurance commissioner, and the state department of corrections.

(5) "Specially commissioned Washington peace officer", for the purposes of this chapter, means any officer, whether part-time or full-time, compensated or not, commissioned by a general authority Washington law enforcement agency to enforce some or all of the criminal laws of the state of Washington, who does not qualify under this chapter as a general authority Washington peace officer for that commissioning agency, specifically including reserve peace officers, and specially commissioned full-time, fully compensated peace officers duly commissioned by the states of Oregon or Idaho or any such peace officer commissioned by a unit of local government of Oregon or Idaho. A reserve peace officer is an individual who is an officer of a Washington law enforcement agency who does not serve such agency on a full-time basis but who, when called by the agency into active service, is fully commissioned on the same basis as full-time peace officers to enforce the criminal laws of the state.

(8) "Primary commissioning agency" means (a) the employing agency in the case of a general authority Washington peace officer, a limited authority Washington peace officer, an Indian tribal peace officer, or a federal peace officer, and (b) the commissioning agency in the case of a specially commissioned Washington peace officer (i) who is performing functions within the course and scope of the special commission and (ii) who is not also a general authority Washington peace officer, a limited authority Washington peace officer, an Indian tribal peace officer, or a federal peace officer.

(9) "Primary function of an agency" means that function to which greater than fifty percent of the agency's resources are allocated.

(10) "Mutual law enforcement assistance" includes, but is not limited to, one or more law enforcement agencies aiding or assisting

one or more other such agencies through loans or exchanges of personnel or of material resources, for law enforcement purposes.

Sec. 9. RCW 47.56.167 and 2008 c 122 s 23 are each amended to read as follows:

- (1) The central toll (~~(collection)~~) account is created in the custody of the state treasurer for the deposit of prepaid customer tolls and clearing activities benefiting multiple toll facilities.
- (2) All receipts from prepaid customer tolls must be deposited into the account. (~~(Distributions from the account)~~) Prepaid customer tolls may be used only to refund customer(~~(s)~~) prepaid tolls or for distributions (~~(into)~~) to the appropriate toll facility account(~~(- Distributions into the appropriate toll facility account shall be based on charges incurred at each toll facility and shall include a proportionate share of interest earned from amounts deposited into the account)~~) based on an equitable methodology to be determined by the department in consultation with the office of financial management. - (3) Operations that benefit multiple toll facilities may be recorded in the account. At least monthly, operating activities must be distributed to the benefiting toll facility accounts.
- (4) On a monthly basis, interest earnings on deposits in the account must be distributed to the toll facility accounts based on an equitable methodology to be determined by the department in consultation with the office of financial management.
- (5) Only the secretary of transportation or the secretary's designee may authorize distributions from the account. Distributions of revenue and refunds from this account are not subject to the allotment procedures under chapter 43.88 RCW and an appropriation is not required.

- ~~((1))~~ (a) The person does not pay, refuses to pay, evades, or attempts to evade the payment of such tolls, or uses or attempts to use any spurious, counterfeit, or stolen ticket, coupon, token, or electronic device for payment of any such tolls(~~(-or)~~);

Representatives Carlyle, Priest and Maxwell spoke in favor of the adoption of the amendment to the committee amendment.

Amendment (1293) to the committee amendment was adopted.

Representative Ross moved the adoption of amendment (1265) to the committee amendment.

On page 6, line 9 of the striking amendment, after "~~necessary~~." insert the following:

"Sec. 2. RCW 28A.225.015 and 1999 c 319 s 6 are each amended to read as follows:

(1) If a parent enrolls a child who is six or seven years of age in a public school, the child is required to attend and that parent has the responsibility to ensure the child attends for the full time that school is in session. An exception shall be made to this requirement for children whose parents formally remove them from enrollment if the child is less than eight years old and a petition has not been filed against the parent under subsection (3) of this section. The requirement to attend school under this subsection does not apply to a child enrolled in a public school part-time for the purpose of receiving ancillary services. A child required to attend school under this subsection may be temporarily excused upon the request of his or her parent for purposes agreed upon by the school district and parent.

(2) If a six or seven year-old child is required to attend public school under subsection (1) of this section and that child has unexcused absences, the public school in which the child is enrolled ~~((shall))~~ may:

(a) Inform the child's custodial parent, parents, or guardian by a notice in writing, by e-mail, or by telephone whenever the child has failed to attend school after one unexcused absence within any month during the current school year;

(b) Request a conference or conferences to be conducted by telephone or in person with the custodial parent, parents, or guardian and child at a time reasonably convenient for all persons included for the purpose of analyzing the causes of the child's absences after two unexcused absences within any month during the current school year. If a regularly scheduled parent-teacher conference day is to take place within thirty days of the second unexcused absence, then the school district may schedule this conference on that day; and

(c) Take steps to eliminate or reduce the child's absences. These steps ~~((shall))~~ may include, where appropriate, adjusting the child's school program or school or course assignment, providing more individualized or remedial instruction, offering assistance in enrolling the child in available alternative schools or programs, or assisting the parent or child to obtain supplementary services that may help

eliminate or ameliorate the cause or causes for the absence from school.

(3) If a child required to attend public school under subsection (1) of this section has seven unexcused absences in a month or ten unexcused absences in a school year, the school district ~~((shall))~~ may file a petition for civil action as provided in RCW 28A.225.035 against the parent of the child.

(4) This section does not require a six or seven year old child to enroll in a public or private school or to receive home-based instruction. This section only applies to six or seven year old children whose parents enroll them full time in public school and do not formally remove them from enrollment as provided in subsection (1) of this section.

Sec. 3. RCW 28A.225.020 and 2009 c 266 s 1 are each amended to read as follows:

(1) If a child required to attend school under RCW 28A.225.010 fails to attend school without valid justification, the public school in which the child is enrolled shall take the following actions if the child is enrolled in the sixth grade or above, and may take the following actions if the child is enrolled in the fifth grade or below:

(a) Inform the child's custodial parent, parents, or guardian by a notice in writing, by e-mail, or by telephone whenever the child has failed to attend school after one unexcused absence within any month during the current school year. School officials shall inform the parent of the potential consequences of additional unexcused absences. If the custodial parent, parents, or guardian is not fluent in English, the preferred practice is to provide this information in a language in which the custodial parent, parents, or guardian is fluent; and

(b) Schedule a conference or conferences to be conducted by telephone or in person with the custodial parent, parents, or guardian and child at a time reasonably convenient for all persons included for the purpose of analyzing the causes of the child's absences after two unexcused absences within any month during the current school year. If a regularly scheduled parent-teacher conference day is to take place within thirty days of the second unexcused absence, then the school district may schedule this conference on that day~~((and))~~.

~~((2))~~ (2) The school may also take steps to eliminate or reduce the child's absences. These steps ~~((shall))~~ may include, where appropriate, adjusting the child's school program or school or course assignment, providing more individualized or remedial instruction, providing appropriate vocational courses or work experience, referring the child to a community truancy board, if available, requiring the child to attend an alternative school or program, or assisting the parent or child to obtain supplementary services that might eliminate or ameliorate the cause or causes for the absence from school. If the child's parent does not attend the scheduled conference, the conference may be conducted with the student and school official. However, the parent shall be notified of the steps to be taken to eliminate or reduce the child's absence.

~~((3))~~ (3) For purposes of this chapter, an "unexcused absence" means that a child:

(a) Has failed to attend the majority of hours or periods in an average school day or has failed to comply with a more restrictive school district policy; and

(b) Has failed to meet the school district's policy for excused absences.

~~((4))~~ (4) If a child transfers from one school district to another during the school year, the receiving school or school district shall include the unexcused absences accumulated at the previous school or from the previous school district for purposes of this section, RCW 28A.225.030, and 28A.225.015.

Sec. 4. RCW 28A.225.025 and 2009 c 266 s 2 are each amended to read as follows:

(1) For purposes of this chapter, "community truancy board" means a board composed of members of the local community in

which the child attends school. Juvenile courts may establish and operate community truancy boards. If the juvenile court and the school district agree, a school district may establish and operate a community truancy board under the jurisdiction of the juvenile court. Juvenile courts may create a community truancy board or may use other entities that exist or are created, such as diversion units. However, a diversion unit or other existing entity must agree before it is used as a truancy board. Duties of a community truancy board shall include, but not be limited to, recommending methods for improving school attendance such as assisting the parent or the child to obtain supplementary services that might eliminate or ameliorate the causes for the absences or suggesting to the school district that the child enroll in another school, an alternative education program, an education center, a skill center, a dropout prevention program, or another public or private educational program.

(2) The legislature finds that utilization of community truancy boards, or other diversion units that fulfill a similar function, is the preferred means of intervention when preliminary methods of notice and parent conferences and taking appropriate steps to eliminate or reduce unexcused absences have not been effective in securing the child's attendance at school. The legislature intends to encourage and support the development and expansion of community truancy boards and other diversion programs which are effective in promoting school attendance and preventing the need for more intrusive intervention by the court. ~~((Operation of a school truancy board does not excuse a district from the obligation of filing a petition within the requirements of RCW 28A.225.015(3).))~~

Sec. 5. RCW 28A.225.030 and 1999 c 319 s 2 are each amended to read as follows:

(1) If a child is required to attend school under RCW 28A.225.010 and ~~((if the actions taken by a))~~ the school district takes actions under RCW 28A.225.020 that are not successful in substantially reducing an enrolled student's absences from public school, not later than the seventh unexcused absence by a child within any month during the current school year or not later than the tenth unexcused absence during the current school year, the school district ~~((shall))~~ may file a petition and supporting affidavit for a civil action with the juvenile court alleging a violation of RCW 28A.225.010: (a) By the parent; (b) by the child; or (c) by the parent and the child. Except as provided in this subsection, no additional documents need be filed with the petition.

(2) The district ~~((shall not later than))~~ may, after the fifth unexcused absence in a month:

(a) Enter into an agreement with a student and parent that establishes school attendance requirements;

(b) Refer a student to a community truancy board, if available, as defined in RCW 28A.225.025. The community truancy board shall enter into an agreement with the student and parent that establishes school attendance requirements and take other appropriate actions to reduce the child's absences; or

(c) File a petition under subsection (1) of this section.

(3) The petition may be filed by a school district employee who is not an attorney.

(4) If the school district ~~((fails to))~~ does not file a petition under this section, the parent of a child with five or more unexcused absences in any month during the current school year or upon the tenth unexcused absence during the current school year may file a petition with the juvenile court alleging a violation of RCW 28A.225.010.

(5) Petitions filed under this section may be served by certified mail, return receipt requested. If such service is unsuccessful, or the return receipt is not signed by the addressee, personal service is required.

Sec. 6. RCW 28A.225.151 and 1996 c 134 s 5 are each amended to read as follows:

(1) As required under subsection (2) of this section, (~~each school~~) if a school takes additional actions provided in RCW 28A.225.030, it shall document the actions taken (~~under RCW 28A.225.030~~) and report this information to the school district superintendent who shall compile the data for all the schools in the district and prepare an annual school district report for each school year and submit the report to the superintendent of public instruction. The reports shall be made upon forms furnished by the superintendent of public instruction and shall be transmitted as determined by the superintendent of public instruction.

(2) The reports under subsection (1) of this section shall include:

(a) The number of enrolled students and the number of unexcused absences;

(b) Documentation of the steps taken by the school district under each subsection of RCW 28A.225.020 at the request of the superintendent of public instruction. Each year, by May 1st, the superintendent of public instruction shall select ten school districts to submit the report at the end of the following school year. The ten districts shall represent different areas of the state and be of varied sizes. In addition, the superintendent of public instruction shall require any district that fails to keep appropriate records to submit a full report to the superintendent of public instruction under this subsection. All school districts shall document steps taken under RCW 28A.225.020 in each student's record, and make those records available upon request consistent with the laws governing student records;

In making this determination, the secretary may consider the reports filed under RCW 10.77.060, 10.77.110, 10.77.140, and 10.77.160, and other reports and evaluations provided by professionals familiar with the case. If the secretary approves the release he or she then shall authorize the person to petition the court.

(2) In instances in which persons have not made application for release, but the secretary believes, after consideration of the reports filed under RCW 10.77.060, 10.77.110, 10.77.140, and 10.77.160, and other reports and evaluations provided by professionals familiar with the case, that reasonable grounds exist for release, the secretary may petition the court. If the secretary petitions the court for release under this subsection, notice of the petition must be provided to the person who is the subject of the petition and to his or her attorney.

(3) The petition shall be served upon the court and the prosecuting attorney. The court, upon receipt of the petition for release, shall within forty-five days order a hearing. Continuance of the hearing date shall only be allowed for good cause shown. The prosecuting attorney shall represent the state, and shall have the right to have the petitioner examined by an expert or professional person of the prosecuting attorney's choice. If the petitioner is indigent, and the person so requests, the court shall appoint a qualified expert or professional person to examine him or her. If the petitioner ~~((is developmentally disabled))~~ has a developmental disability, the examination shall be performed by a developmental disabilities professional. The hearing shall be before a jury if demanded by either the petitioner or the prosecuting attorney. The burden of proof shall be upon the petitioner to show by a preponderance of the evidence that the petitioner no longer presents, as a result of a mental disease or defect, a substantial danger to other persons, or a substantial likelihood of committing criminal acts jeopardizing public safety or security, unless kept under further control by the court or other persons or institutions.

~~((3))~~ (4) For purposes of this section, a person affected by a mental disease or defect in a state of remission is considered to have a mental disease or defect requiring supervision when the disease may, with reasonable medical probability, occasionally become active and, when active, render the person a danger to others. Upon a finding that the petitioner has a mental disease or defect in a state of remission under this subsection, the court may deny release, or place or continue such a person on conditional release.

(5) Nothing contained in this chapter shall prohibit the patient from petitioning the court for release or conditional release from the institution in which he or she is committed. The issue to be determined on such proceeding is whether the petitioner, as a result of a mental disease or defect, is a substantial danger to other persons, or presents a substantial likelihood of committing criminal acts jeopardizing public safety or security, unless kept under further control by the court or other persons or institutions.

(6) Nothing contained in this chapter shall prohibit the committed person from petitioning for release by writ of habeas corpus.

NEW SECTION. **Sec. 7.** A new section is added to chapter 10.77 RCW to read as follows:

(1) The department shall review the costs of the operation of each of the following boards and the rates of recidivism and treatment outcomes for the populations under their jurisdiction as follows:

(a) The Oregon psychiatric security review board's administration of cases involving: (i) Persons judged to be guilty except for insanity; (ii) persons who would have been guilty of a felony or misdemeanor that caused or risked physical injury to another except for insanity; and (iii) persons affected by mental illness and determined to be a substantial danger to others; and

(b) The Virginia community services boards' administration of cases involving persons found not guilty by reason of insanity.

(2) The department shall report the results of its review to the appropriate committees of the legislature by December 15, 2010.

NEW SECTION. Sec. 8. A new section is added to chapter 10.77 RCW to read as follows:

For persons who have received court approval for conditional release, the secretary or the secretary's designee shall supervise the person's compliance with the court-ordered conditions of release. The level of supervision provided by the secretary shall correspond to the level of the person's public safety risk. In undertaking supervision of persons under this section, the secretary shall coordinate with any treatment providers designated pursuant to RCW 10.77.150(3), any department of corrections staff designated pursuant to RCW 10.77.150(2), and local law enforcement, if appropriate. The secretary shall adopt rules to implement this section."

Expanding provisions relating to vulnerable adults.

The bill was read the second time.

With the consent of the House, amendment (1258) was withdrawn.

Representative Hurst moved the adoption of amendment (1296).

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 30.22.210 and 1981 c 192 s 21 are each amended to read as follows:

(1) Nothing contained in this chapter shall be deemed to require any financial institution to make any payment from an account to a depositor, or any trust or P.O.D. account beneficiary, or any other person claiming an interest in any funds deposited in the account, if the financial institution has actual knowledge of the existence of a dispute between the depositors, beneficiaries, or other persons concerning their respective rights of ownerships to the funds contained in, or proposed to be withdrawn, or previously withdrawn from the account, or in the event the financial institution is otherwise uncertain as to who is entitled to the funds pursuant to the contract of deposit. In any such case, the financial institution may, without liability, notify, in writing, all depositors, beneficiaries, or other persons claiming an interest in the account of either its uncertainty as to who is entitled to the distributions or the existence of any dispute, and may also, without liability, refuse to disburse any funds contained in the account to any depositor, and/or trust or P.O.D. account beneficiary thereof, and/or other persons claiming an interest therein, until such time as either:

((4)) (a) All such depositors and/or beneficiaries have consented, in writing, to the requested payment; or

((2)) (b) The payment is authorized or directed by a court of proper jurisdiction.

(2) If a financial institution reasonably believes that financial exploitation of a vulnerable adult, as defined in RCW 74.34.020, may have occurred, may have been attempted, or is being attempted, the financial institution may refuse a transaction as permitted under section 3 of this act.

Sec. 2. RCW 74.34.020 and 2007 c 312 s 1 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Abandonment" means action or inaction by a person or entity with a duty of care for a vulnerable adult that leaves the vulnerable person without the means or ability to obtain necessary food, clothing, shelter, or health care.

(2) "Abuse" means the willful action or inaction that inflicts injury, unreasonable confinement, intimidation, or punishment on a vulnerable adult. In instances of abuse of a vulnerable adult who is unable to express or demonstrate physical harm, pain, or mental anguish, the abuse is presumed to cause physical harm, pain, or mental anguish. Abuse includes sexual abuse, mental abuse, physical abuse, and exploitation of a vulnerable adult, which have the following meanings:

(a) "Sexual abuse" means any form of nonconsensual sexual contact, including but not limited to unwanted or inappropriate touching, rape, sodomy, sexual coercion, sexually explicit photographing, and sexual harassment. Sexual abuse includes any sexual contact between a staff person, who is not also a resident or client, of a facility or a staff person of a program authorized under chapter 71A.12 RCW, and a vulnerable adult living in that facility or receiving service from a program authorized under chapter 71A.12 RCW, whether or not it is consensual.

(b) "Physical abuse" means the willful action of inflicting bodily injury or physical mistreatment. Physical abuse includes, but is not limited to, striking with or without an object, slapping, pinching, choking, kicking, shoving, prodding, or the use of chemical restraints or physical restraints unless the restraints are consistent with licensing requirements, and includes restraints that are otherwise being used inappropriately.

(c) "Mental abuse" means any willful action or inaction of mental or verbal abuse. Mental abuse includes, but is not limited to, coercion, harassment, inappropriately isolating a vulnerable adult from family, friends, or regular activity, and verbal assault that includes ridiculing, intimidating, yelling, or swearing.

(d) "Exploitation" means an act of forcing, compelling, or exerting undue influence over a vulnerable adult causing the vulnerable adult to act in a way that is inconsistent with relevant past behavior, or causing the vulnerable adult to perform services for the benefit of another.

(3) "Consent" means express written consent granted after the vulnerable adult or his or her legal representative has been fully informed of the nature of the services to be offered and that the receipt of services is voluntary.

(4) "Department" means the department of social and health services.

(5) "Facility" means a residence licensed or required to be licensed under chapter 18.20 RCW, boarding homes; chapter 18.51 RCW, nursing homes; chapter 70.128 RCW, adult family homes; chapter 72.36 RCW, soldiers' homes; or chapter 71A.20 RCW, residential habilitation centers; or any other facility licensed by the department.

(6) "Financial exploitation" means the illegal or improper use of the property, income, resources, or trust funds of the vulnerable adult by any person for any person's profit or advantage other than for the vulnerable adult's profit or advantage.

(7) "Financial institution" has the same meaning as in RCW 30.22.040 and 30.22.041. For purposes of this chapter only, "financial institution" also means a "broker-dealer" or "investment adviser" as defined in RCW 21.20.005.

~~(8)~~ (8) "Incapacitated person" means a person who is at a significant risk of personal or financial harm under RCW 11.88.010(1) (a), (b), (c), or (d).

~~((8))~~ (9) "Individual provider" means a person under contract with the department to provide services in the home under chapter 74.09 or 74.39A RCW.

~~((9))~~ (10) "Interested person" means a person who demonstrates to the court's satisfaction that the person is interested in the welfare of the vulnerable adult, that the person has a good faith belief that the court's intervention is necessary, and that the vulnerable adult is unable, due to incapacity, undue influence, or duress at the time the petition is filed, to protect his or her own interests.

~~((40))~~ (11) "Mandated reporter" is an employee of the department; law enforcement officer; social worker; professional school personnel; individual provider; an employee of a facility; an operator of a facility; an employee of a social service, welfare, mental health, adult day health, adult day care, home health, home care, or hospice agency; county coroner or medical examiner; Christian Science practitioner; or health care provider subject to chapter 18.130 RCW.

~~((11))~~ (12) "Neglect" means (a) a pattern of conduct or inaction by a person or entity with a duty of care that fails to provide the goods and services that maintain physical or mental health of a vulnerable adult, or that fails to avoid or prevent physical or mental harm or pain to a vulnerable adult; or (b) an act or omission that demonstrates a serious disregard of consequences of such a magnitude as to constitute a clear and present danger to the vulnerable adult's health, welfare, or safety, including but not limited to conduct prohibited under RCW 9A.42.100.

~~((12))~~ (13) "Permissive reporter" means any person, including, but not limited to, an employee of a financial institution, attorney, or volunteer in a facility or program providing services for vulnerable adults.

~~((13))~~ (14) "Protective services" means any services provided by the department to a vulnerable adult with the consent of the vulnerable adult, or the legal representative of the vulnerable adult,

who has been abandoned, abused, financially exploited, neglected, or in a state of self-neglect. These services may include, but are not limited to case management, social casework, home care, placement, arranging for medical evaluations, psychological evaluations, day care, or referral for legal assistance.

~~((14))~~ (15) "Self-neglect" means the failure of a vulnerable adult, not living in a facility, to provide for himself or herself the goods and services necessary for the vulnerable adult's physical or mental health, and the absence of which impairs or threatens the vulnerable adult's well-being. This definition may include a vulnerable adult who is receiving services through home health, hospice, or a home care agency, or an individual provider when the neglect is not a result of inaction by that agency or individual provider.

~~((15))~~ (16) "Vulnerable adult" includes a person:

(a) Sixty years of age or older who has the functional, mental, or physical inability to care for himself or herself; or

(b) Found incapacitated under chapter 11.88 RCW; or

(c) Who has a developmental disability as defined under RCW 71A.10.020; or

(d) Admitted to any facility; or

(e) Receiving services from home health, hospice, or home care agencies licensed or required to be licensed under chapter 70.127 RCW; or

(f) Receiving services from an individual provider.

NEW SECTION. Sec. 3. A new section is added to chapter 74.34 RCW to read as follows:

(1) Pending an investigation by the financial institution, the department, or law enforcement, if a financial institution reasonably believes that financial exploitation of a vulnerable adult may have occurred, may have been attempted, or is being attempted, the financial institution may, but is not required to, refuse a transaction requiring disbursement of funds contained in the account:

(a) Of the vulnerable adult;

(b) On which the vulnerable adult is a beneficiary, including a trust or guardianship account; or

(c) Of a person suspected of perpetrating financial exploitation of a vulnerable adult.

(2) A financial institution may also refuse to disburse funds under this section if the department, law enforcement, or the prosecuting attorney's office provides information to the financial institution demonstrating that it is reasonable to believe that financial exploitation of a vulnerable adult may have occurred, may have been attempted, or is being attempted.

(3) A financial institution is not required to refuse to disburse funds when provided with information alleging that financial exploitation may have occurred, may have been attempted, or is being attempted, but may use its discretion to determine whether or not to refuse to disburse funds based on the information available to the financial institution.

(4) A financial institution that refuses to disburse funds based on a reasonable belief that financial exploitation of a vulnerable adult may have occurred, may have been attempted, or is being attempted shall:

(a) Make a reasonable effort to notify all parties authorized to transact business on the account orally or in writing; and

(b) Report the incident to the adult protective services division of the department and local law enforcement.

(5) Any refusal to disburse funds as authorized by this section based on the reasonable belief of a financial institution that financial exploitation of a vulnerable adult may have occurred, may have been attempted, or is being attempted will expire upon the sooner of:

(a) Ten business days after the date on which the financial institution first refused to disburse the funds if the transaction involved the sale of a security or offer to sell a security, as defined in

RCW 21.20.005, unless sooner terminated by an order of a court of competent jurisdiction;

(b) Five business days after the date on which the financial institution first refused to disburse the funds if the transaction did not involve the sale of a security or offer to sell a security, as defined in RCW 21.20.005, unless sooner terminated by an order of a court of competent jurisdiction; or

(c) The time when the financial institution is satisfied that the disbursement will not result in financial exploitation of a vulnerable adult.

(6) A court of competent jurisdiction may enter an order extending the refusal by the financial institution to disburse funds based on a reasonable belief that financial exploitation of a vulnerable adult may have occurred, may have been attempted, or is being attempted. A court of competent jurisdiction may also order other protective relief as authorized by RCW 7.40.010 and 74.34.130.

(7) A financial institution or an employee of a financial institution is immune from criminal, civil, and administrative liability for refusing to disburse funds or disbursing funds under this section and for actions taken in furtherance of that determination if the determination of whether or not to disburse funds was made in good faith.

Sec. 4. RCW 74.34.035 and 2003 c 230 s 2 are each amended to read as follows:

(1) When there is reasonable cause to believe that abandonment, abuse, financial exploitation, or neglect of a vulnerable adult has occurred, mandated reporters shall immediately report to the department.

(2) When there is reason to suspect that sexual assault has occurred, mandated reporters shall immediately report to the appropriate law enforcement agency and to the department.

(3) When there is reason to suspect that physical assault has occurred or there is reasonable cause to believe that an act has caused fear of imminent harm:

(a) Mandated reporters shall immediately report to the department; and

(b) Mandated reporters shall immediately report to the appropriate law enforcement agency, except as provided in subsection (4) of this section.

(4) A mandated reporter is not required to report to a law enforcement agency, unless requested by the injured vulnerable adult or his or her legal representative or family member, an incident of physical assault between vulnerable adults that causes minor bodily injury and does not require more than basic first aid, unless:

(a) The injury appears on the back, face, head, neck, chest, breasts, groin, inner thigh, buttock, genital, or anal area;

(b) There is a fracture;

(c) There is a pattern of physical assault between the same vulnerable adults or involving the same vulnerable adults; or

(d) There is an attempt to choke a vulnerable adult.

(5) When there is reason to suspect that the death of a vulnerable adult was caused by abuse, neglect, or abandonment by another person, mandated reporters shall, pursuant to RCW 68.50.020, report the death to the medical examiner or coroner having jurisdiction, as well as the department and local law enforcement, in the most expeditious manner possible. A mandated reporter is not relieved from the reporting requirement provisions of this subsection by the existence of a previously signed death certificate. If abuse, neglect, or abandonment caused or contributed to the death of a vulnerable adult, the death is a death caused by unnatural or unlawful means, and the body shall be the jurisdiction of the coroner or medical examiner pursuant to RCW 68.50.010.

(6) Permissive reporters may report to the department or a law enforcement agency when there is reasonable cause to believe that a vulnerable adult is being or has been abandoned, abused, financially exploited, or neglected.

~~((6))~~ (7) No facility, as defined by this chapter, agency licensed or required to be licensed under chapter 70.127 RCW, or facility or agency under contract with the department to provide care for vulnerable adults may develop policies or procedures that interfere with the reporting requirements of this chapter.

~~((7))~~ (8) Each report, oral or written, must contain as much as possible of the following information:

(a) The name and address of the person making the report;

(b) The name and address of the vulnerable adult and the name of the facility or agency providing care for the vulnerable adult;

(c) The name and address of the legal guardian or alternate decision maker;

(d) The nature and extent of the abandonment, abuse, financial exploitation, neglect, or self-neglect;

(e) Any history of previous abandonment, abuse, financial exploitation, neglect, or self-neglect;

(f) The identity of the alleged perpetrator, if known; and

(g) Other information that may be helpful in establishing the extent of abandonment, abuse, financial exploitation, neglect, or the cause of death of the deceased vulnerable adult.

~~((8))~~ (9) Unless there is a judicial proceeding or the person consents, the identity of the person making the report under this section is confidential.

NEW SECTION. **Sec. 5.** A new section is added to chapter 74.34 RCW to read as follows:

(1) A financial institution shall provide training concerning the financial exploitation of vulnerable adults to the employees specified in subsection (2) of this section within one year of the effective date of this act and shall thereafter provide such training to the new employees specified in subsection (2) of this section within the first three months of their employment.

(2) A financial institution that is a broker-dealer or investment adviser as defined in RCW 21.20.005 shall provide training concerning the financial exploitation of vulnerable adults to employees who are required to be registered in the state of Washington as salespersons or investment adviser representatives under RCW 21.20.040 and who have contact with customers and access to account information on a regular basis and as part of their job. All other financial institutions shall provide training concerning the financial exploitation of vulnerable adults to employees who have contact with customers and access to account information on a regular basis and as part of their job.

(3) The training must include recognition of indicators of financial exploitation of a vulnerable adult, the manner in which employees may report suspected financial exploitation to the department and law enforcement as permissive reporters, and steps employees may take to prevent suspected financial exploitation of a vulnerable adult as authorized by law or agreements between the financial institution and customers of the financial institution. The office of the attorney general and the department shall develop a standardized training that financial institutions may offer, or the financial institution may develop its own training.

(4) A financial institution may provide access to or copies of records that are relevant to suspected financial exploitation or attempted financial exploitation of a vulnerable adult to the department, law enforcement, or the prosecuting attorney's office, either as part of a referral to the department, law enforcement, or the prosecuting attorney's office, or upon request of the department, law enforcement, or the prosecuting attorney's office pursuant to an investigation. The records may include historical records as well as records relating to the most recent transaction or transactions that may comprise financial exploitation.

HOUSE BILL NO. 3178, by Representatives Carlyle, Anderson, Hunter, Rolfes, Eddy, Takko, Probst, Wallace, Maxwell, Van De Wege, Kelley, Green, Sullivan, Hudgins, Hope, Morrell, Springer, Ericks, Hunt, Goodman, Jacks and Finn

SUBSTITUTE HOUSE BILL NO. 3178 was read the second time.

Representative Carlyle moved the adoption of amendment (1297).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 43.105 RCW to read as follows:

(1) The legislature finds that the provision of information technology in state government lacks strategic coordination, transparency, and meaningful enterprise-wide direction and oversight. It is no longer economically sustainable or technically feasible for state agencies to obtain and provide large-scale, commonly utilized information technology products and services on an individual, agency- by-agency basis without coordination. Instead, the state needs a strong, enterprise-based information technology strategy to ensure the public's needs are being met and the state is receiving the highest quality information technology products and services at the best price from public or private providers. Developing a strong enterprise-wide strategy also includes establishing clear lines of authority and accountability within state agencies so that those services unique to individual agencies receive the support required to effectively and efficiently provide services to citizens. To accomplish these objectives, the state needs to develop an open, transparent process for determining the total cost of ownership for the information technology products and services it provides, and to provide such information in an easily accessible, public fashion. It is in the state's interest to ensure that the wide range of disparate networks, systems, services, and structures across state government become more closely coordinated, organized, and structured. This type of coordinating effort is already underway in the area of higher education through the efforts of the higher education technology transformation task force and informally within other areas. When more transparent technical and financial information is readily available, the state can make sound policy decisions about what information technology services should be provided centrally on a shared services basis, and what products and services may be best suited for either contracting with private providers or for maintenance at the agency level. Furthermore, if attractive pricing models and service level agreements are developed for enterprise-based information technology services, the legislative and judicial branches will have an incentive to participate in those services as well.

(2) It is the intent of the legislature to organize, consolidate, and, where appropriate, contract with private providers for technology systems and resources in a strategic fashion that is based upon sound, objective, nonpolitical, and independent technical and financial criteria. The state needs to develop a clear, enterprise-based statewide strategy for information technology to ensure that there is transparency and accountability regarding how information technology resources are being allocated, how decisions are being made, and who is accountable for on-time, on-budget delivery.

NEW SECTION. Sec. 2. A new section is added to chapter 43.105 RCW to read as follows:

(1) State agencies that are purchasing wireless devices or services must make such purchases through the state master contract, unless the state agency provides to the office of financial management evidence that the state agency is securing its wireless devices or services from another source for a lower cost than through participation in the state master contract.

(2) For the purposes of this section, "state agency" means any office, department, board, commission, or other unit of state government, but does not include a unit of state government headed by a statewide elected official, an institution of higher education as defined in RCW 28B.10.016, or agencies of the legislative or judicial branches of state government.

Sec. 3. RCW 43.105.190 and 2005 c 319 s 111 are each amended to read as follows:

(1) The department, with the approval of the board, shall establish standards and policies governing the planning, implementation, and evaluation of major information technology projects, including those proposed by the superintendent of public instruction, in conjunction with educational service districts, or statewide or regional providers of K-12 education information technology services. The standards and policies shall:

(a) Establish criteria to identify projects which are subject to this section. Such criteria shall include, but not be limited to, significant anticipated cost, complexity, or statewide significance of the project; and

(b) Establish a model process and procedures which agencies shall follow in developing and implementing projects within their information technology portfolios. Agencies may propose, for approval by the department, a process and procedures unique to the agency. The department may accept or require modification of such agency proposals or the department may reject such agency proposals and require use of the model process and procedures established under this subsection. Any process and procedures developed under this subsection shall require (i) distinct and identifiable phases upon which funding may be based, (ii) user validation of products through system demonstrations and testing of prototypes and deliverables, and (iii) other elements identified by the board.

The director may terminate a major project if the director determines that the project is not meeting or is not expected to meet anticipated performance standards.

(2) The office of financial management shall establish policies and standards consistent with portfolio-based information technology management to govern the funding of projects developed under this section. The policies and standards shall provide for:

(a) Funding of a project under terms and conditions mutually agreed to by the director, the director of financial management, and the head of the agency proposing the project. However, the office of financial management may require incremental funding of a project on a phase-by- phase basis whereby funds for a given phase of a project may be released only when the office of financial management determines, with the advice of the department, that the previous phase is satisfactorily completed;

(b) Acceptance testing of products to assure that products perform satisfactorily before they are accepted and final payment is made; and

(c) Other elements deemed necessary by the office of financial management.

(3)(a) The department shall evaluate projects based on the demonstrated business needs and benefits; cost; technology scope and feasibility; impact on the agency's information technology portfolio and on the statewide infrastructure; and final project implementation plan based upon available funding.

(b) Copies of project evaluations conducted under this subsection shall be submitted to the office of financial management and the chairs, ranking minority members, and staff coordinators of the appropriations committees of the senate and house of representatives.

(c) If there are projects that receive funding from a transportation fund or account, copies of those projects' evaluations conducted under this subsection must be submitted to the chairs and ranking minority members of the transportation committees of the senate and the house of representatives.

(4) For the 2009-2011 biennium, the following limitations are established upon information technology procurement:

(a) Except as provided in (c) of this subsection, state agencies are not permitted to purchase or implement new information technology projects without securing prior authorization from the office of financial management. The office of financial management may only approve information technology projects that contribute towards an

enterprise strategy or meet a critical, localized need of the requesting agency.

(b) Except as provided in (c) of this subsection, state agencies are not permitted to purchase servers, virtualization software, data storage, or related software through their operational funds or through a separate information technology budget item without securing prior authorization from the office of financial management. The office of financial management shall grant approval only if the purchase is consistent with the state's overall migration strategy to the state data center and critical to the operation of the agency.

(c) State agencies may purchase new information technology projects or servers without securing prior authorization from the office of financial management if the purchase by the agency is needed to address an immediate and compelling threat to public safety.

(d) For the purposes of this subsection (4), "state agency" means any office, department, board, commission, or other unit of state government, but does not include a unit of state government headed by a statewide elected official, an institution of higher education as defined in RCW 28B.10.016, or agencies of the legislative or judicial branches of state government.

NEW SECTION. Sec. 4. A new section is added to chapter 43.88 RCW to read as follows:

(1) As part of the biennial budget process, the office of financial management shall collect from agencies, and agencies shall provide, information to produce reports, summaries, and budget detail sufficient to allow review, analysis, and documentation of all current and proposed expenditures for information technology by state agencies. Information technology budget detail must be included as part of the budget submittal documentation required pursuant to RCW 43.88.030.

(2) The office of financial management must collect, and present as part of the biennial budget documentation, information for all existing information technology projects as defined by information services board policy. The office of financial management must work with the department of information services to maximize the ability to draw this information from the information technology portfolio management data collected by the department of information services pursuant to RCW 43.105.170. Connecting project information collected through the portfolio management process with financial data developed under subsection (1) of this section provides transparency regarding expenditure data for existing technology projects.

(3) The biennial budget documentation submitted by the office of financial management pursuant to RCW 43.88.030 must include an information technology plan identifying proposed large information technology projects. This plan must be presented using a method similar to the capital budget, identifying project costs through stages of the project and across fiscal periods and biennia from project initiation to implementation. This information must be submitted electronically, in a format to be determined by the office of financial management and the legislative evaluation and accountability program committee.

(4) The office of financial management shall also institute a method of accounting for information technology-related expenditures, including creating common definitions for what constitutes an information technology investment.

Sec. 5. RCW 43.88.560 and 1992 c 20 s 7 are each amended to read as follows:

The director of financial management shall establish policies and standards governing the funding of major information technology projects as required under RCW 43.105.190(2). The director of financial management shall also direct the collection of additional information on information technology projects and submit an information technology plan as required under section 4 of this act.

Sec. 6. RCW 43.105.041 and 2009 c 486 s 13 are each amended to read as follows:

(1) The board shall have the following powers and duties related to information services:

(a) To develop standards and procedures governing the acquisition and disposition of equipment, proprietary software and purchased services, licensing of the radio spectrum by or on behalf of state agencies, and confidentiality of computerized data. (b) To purchase, lease, rent, or otherwise acquire, dispose of, and maintain equipment, proprietary software, and purchased services, or to delegate to other agencies and institutions of state government, under appropriate standards, the authority to purchase, lease, rent, or otherwise acquire, dispose of, and maintain equipment, proprietary software, and purchased services: PROVIDED, That, agencies and institutions of state government are expressly prohibited from acquiring or disposing of equipment, proprietary software, and purchased services without such delegation of authority. The acquisition and disposition of equipment, proprietary software, and purchased services is exempt from RCW 43.19.1919 and, as provided in RCW 43.19.1901, from the provisions of RCW 43.19.190 through 43.19.200, except that the board, the department, and state agencies, as delegated, must post notices of technology procurement bids on the state's common vendor registration and bid notification system. This subsection (1)(b) does not apply to the legislative branch;

(c) To develop statewide or interagency technical policies, standards, and procedures;

(d) To review and approve standards and common specifications for new or expanded telecommunications networks proposed by agencies, public postsecondary education institutions, educational service districts, or statewide or regional providers of K-12 information technology services, and to assure the cost-effective development and incremental implementation of a statewide video telecommunications system to serve: Public schools; educational service districts; vocational-technical institutes; community colleges; colleges and universities; state and local government; and the general public through public affairs programming;

(e) To provide direction concerning strategic planning goals and objectives for the state. The board shall seek input from the legislature and the judiciary;

(g) To establish policies for the periodic review by the department of agency performance which may include but are not limited to analysis of:

(i) Planning, management, control, and use of information services;

(ii) Training and education; and

(iii) Project management;

(h) To set its meeting schedules and convene at scheduled times, or meet at the request of a majority of its members, the chair, or the director;

(i) To review and approve that portion of the ((department's) budget ((requests)) that ((provides for)) may provide independent, technical staff support to the board; and

(j) To develop procurement policies and procedures, such as unbundled contracting and subcontracting, that encourage and facilitate the purchase of products and services by state agencies and institutions from Washington small businesses to the maximum extent

practicable and consistent with international trade agreement commitments.

(2) Statewide technical standards to promote and facilitate electronic information sharing and access are an essential component of acceptable and reliable public access service and complement content-related standards designed to meet those goals. The board shall:

(a) Establish technical standards to facilitate electronic access to government information and interoperability of information systems, including wireless communications systems. Local governments are strongly encouraged to follow the standards established by the board; and

(b) Require agencies to consider electronic public access needs when planning new information systems or major upgrades of systems.

In developing these standards, the board is encouraged to include the state library, state archives, and appropriate representatives of state and local government.

(3)(a) The board, in consultation with the K-20 board, has the duty to govern, operate, and oversee the technical design, implementation, and operation of the K-20 network including, but not limited to, the following duties: Establishment and implementation of K-20 network technical policy, including technical standards and conditions of use; review and approval of network design; procurement of shared network services and equipment; and resolving user/provider disputes concerning technical matters. The board shall delegate general operational and technical oversight to the K-20 network technical steering committee as appropriate.

(b) The board has the authority to adopt rules under chapter 34.05 RCW to implement the provisions regarding the technical operations and conditions of use of the K-20 network.

(4) The board shall review all information technology efforts under its purview based on independent technical and financial information, regardless of whether the projects or services are being provided by public or private providers. This review must be conducted by independent, technical staff support, subject to funds appropriated for this specific purpose.

(5) In reviewing these efforts, the board, in consultation with the office of financial management, shall review state agency information technology budgets. The board may acquire project management assistance to assist in its efforts under this act.

Sec. 7. RCW 43.105.180 and 1999 c 80 s 11 are each amended to read as follows:

~~((Upon request of the office of financial management,))~~ (1) The department, in coordination with the information services board and the office of financial management, shall evaluate agency budget requests for major information technology projects identified under RCW 43.105.190, including those proposed by the superintendent of public instruction, in conjunction with educational service districts, or statewide or regional providers of K-12 education information technology services. The department shall submit recommendations for funding all or part of such requests to the office of financial management and to the chairs, ranking minority members, and staff coordinators of the appropriations committees of the senate and house of representatives. The department shall also submit recommendations regarding consolidation of similar proposals or other efficiencies it finds in reviewing proposals.

(2) The department, with the advice and approval of the office of financial management and the information services board, shall establish criteria, consistent with portfolio-based information technology management, for the evaluation of agency budget requests under this section. These budget requests shall be made in the context of an agency's information technology portfolio; technology initiatives underlying budget requests are subject to board review. Criteria shall include, but not be limited to: Feasibility of the proposed projects, consistency with the state strategic information

technology plan, consistency with information technology portfolios, appropriate provision for public electronic access to information, evidence of business process streamlining and gathering of business and technical requirements, and services, costs, and benefits.

(1) The department shall prepare a state strategic information technology plan which shall establish a statewide mission, goals, and objectives for the use of information technology, including goals for electronic access to government records, information, and services. The plan shall be developed in accordance with the standards and policies established by the board and shall be submitted to the board for review, modification as necessary, and approval. The department shall seek the advice of the board in the development of this plan.

The plan approved under this section shall be updated as necessary and submitted to the governor and the chairs and ranking minority members of the appropriations committees of the senate and the house of representatives.

These areas shall include, but not be limited to, wireless service, telephony, desktop computers, electronic mail services, and data storage.

(2) The office of financial management shall work with the appropriate state agencies, including the department of information services, to generate savings that arise pursuant to this act from the improved acquisition and delivery of information technology products and services. To accomplish this objective, state agencies must provide timely, accurate total cost of ownership data to the office of financial management upon request regarding information technology products and services. The savings must be at least equal to those specified in the omnibus appropriations act. In selecting a private provider for the pilot program, the office of financial management must engage in a competitive bid process or request for proposals process.

(2) The objective of the pilot program will be to assess: (a) Each agency's information technology application portfolio; (b) opportunities to use best practices and tools; and (c) whether the agency should proceed with application managed services or other similar programs based on the results of the assessment.

(3) The department of information services and the office of financial management shall prepare a report of the findings of the pilot assessments by September 1, 2010, and a final report of the pilot results by June 30, 2011. The final report must include the following: Identification of short and long-term costs, risks, benefits, and other organizational impacts of implementing application managed services or other similar programs within the pilot agencies. "Sec. 1. RCW 70.235.010 and 2008 c 14 s 2 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Carbon dioxide equivalents" means a metric measure used to compare the emissions from various greenhouse gases based upon their global warming potential.

(2) "Climate advisory team" means the stakeholder group formed in response to executive order 07-02.

Sec. 2. RCW 70.94.151 and 2008 c 14 s 5 are each amended to read as follows:

(1) The board of any activated authority or the department, may classify air contaminant sources, by ordinance, resolution, rule or regulation, which in its judgment may cause or contribute to air pollution, according to levels and types of emissions and other characteristics which cause or contribute to air pollution, and may require registration or reporting or both for any such class or classes. Classifications made pursuant to this section may be for application to the area of jurisdiction of such authority, or the state as a whole or to any designated area within the jurisdiction, and shall be made with special reference to effects on health, economic and social factors, and physical effects on property.

(2) Except as provided in subsection (3) of this section, any person operating or responsible for the operation of air contaminant sources of any class for which the ordinances, resolutions, rules or regulations of the department or board of the authority, require registration or reporting shall register therewith and make reports containing information as may be required by such department or board concerning location, size and height of contaminant outlets, processes employed, nature of the contaminant emission and such other information as is relevant to air pollution and available or reasonably capable of being assembled. In the case of emissions of greenhouse gases as defined in RCW 70.235.010 the department shall adopt rules requiring reporting of those emissions. The department or

board may require that such registration or reporting be accompanied by a fee, and may determine the amount of such fee for such class or classes: PROVIDED, That the amount of the fee shall only be to compensate for the costs of administering such registration or reporting program which shall be defined as initial registration and annual or other periodic reports from the source owner providing information directly related to air pollution registration, on-site inspections necessary to verify compliance with registration requirements, data storage and retrieval systems necessary for support of the registration program, emission inventory reports and emission reduction credits computed from information provided by sources pursuant to registration program requirements, staff review, including engineering or other reliable analysis for accuracy and currentness, of information provided by sources pursuant to registration program requirements, clerical and other office support provided in direct furtherance of the registration program, and administrative support provided in directly carrying out the registration program: PROVIDED FURTHER, That any such registration made with either the board or the department shall preclude a further registration and reporting with any other board or the department, except that emissions of greenhouse gases as defined in RCW 70.235.010 must be reported as required under subsection (5) of this section.

All registration program and reporting fees collected by the department shall be deposited in the air pollution control account. All registration program fees collected by the local air authorities shall be deposited in their respective treasuries.

(3) If a registration or report has been filed for a grain warehouse or grain elevator as required under this section, registration, reporting, or a registration program fee shall not, after January 1, 1997, again be required under this section for the warehouse or elevator unless the capacity of the warehouse or elevator as listed as part of the license issued for the facility has been increased since the date the registration or reporting was last made. If the capacity of the warehouse or elevator listed as part of the license is increased, any registration or reporting required for the warehouse or elevator under this section must be made by the date the warehouse or elevator receives grain from the first harvest season that occurs after the increase in its capacity is listed in the license.

This subsection does not apply to a grain warehouse or grain elevator if the warehouse or elevator handles more than ten million bushels of grain annually.

(4) For the purposes of subsection (3) of this section:

(a) A "grain warehouse" or "grain elevator" is an establishment classified in standard industrial classification (SIC) code 5153 for wholesale trade for which a license is required and includes, but is not limited to, such a licensed facility that also conducts cleaning operations for grain;

(b) A "license" is a license issued by the department of agriculture licensing a facility as a grain warehouse or grain elevator under chapter 22.09 RCW or a license issued by the federal government licensing a facility as a grain warehouse or grain elevator for purposes similar to those of licensure for the facility under chapter 22.09 RCW; and

(c) "Grain" means a grain or a pulse.

(5)(a) The department shall adopt rules requiring ~~((the reporting of))~~ persons to report emissions of greenhouse gases as defined in RCW 70.235.010 ~~((The rules must include a de minimis amount of emissions below which reporting will not be required for both indirect and direct emissions. The rules must require that emissions of greenhouse gases resulting from the burning of fossil fuels be reported separately from emissions of greenhouse gases resulting from the burning of biomass. Except as provided in (b) of this subsection, the department shall, under the authority granted in subsection (1) of this section, adopt rules requiring any owner or operator: (i) Of a fleet of on road motor vehicles that as a fleet emit at least twenty five hundred metric tons of greenhouse gas annually in~~

~~the state to report the emissions of greenhouse gases generated from or emitted by that fleet; or (ii) of a source or combination of sources that emit at least ten thousand metric tons of greenhouse gas annually in the state to report their total annual emissions of greenhouse gases. In calculating emissions of greenhouse gases for purposes of determining whether or not reporting is required, only direct emissions shall be included. For purposes of reporting emissions of greenhouse gases in chapter 14, Laws of 2008, "source" means any stationary source as defined in RCW 70.94.030, or mobile source used for transportation of people or cargo. The emissions of greenhouse gases must be reported as carbon dioxide equivalents. The rules must require that persons report 2009 emissions starting in 2010. The rules must establish an annual reporting schedule that takes into account the time needed to allow the owner or operator reporting emissions of greenhouse gases to gather the information needed and to verify the emissions being reported. However, in no event may reports be submitted later than October 31st of the year in which the report is due. The department may phase in the reporting requirements for sources or combinations of sources under (a)(ii) of this subsection until the reporting threshold is met, which must be met by January 1, 2012. The department may from time to time amend the rules to include other persons that emit less than the annual greenhouse gas emissions levels set out in this subsection if necessary to comply with any federal reporting requirements for emissions of greenhouse gases.~~

(b) In its rules, the department may defer the reporting requirement under (a) of this subsection for emissions associated with interstate and international commercial aircraft, rail, truck, or marine vessels until (i) there is a federal requirement to report these emissions; or (ii) the department finds that there is a generally accepted reporting protocol for determining interstate emissions from these sources.) where those emissions from a single facility, source, or site, or from fossil fuels sold in Washington by a single supplier meet or exceed ten thousand metric tons of carbon dioxide equivalent annually. The department may phase in the requirement to report greenhouse gas emissions until the reporting threshold in this subsection is met, which must occur by January 1, 2012. In addition, the rules must require that:

(i) Emissions of greenhouse gases resulting from the combustion of fossil fuels be reported separately from emissions of greenhouse gases resulting from the combustion of biomass;

(ii) Reporting will start in 2010 for 2009 emissions. Each annual report must include emissions data for the preceding calendar year and must be submitted to the department by October 31st of the year in which the report is due. However, starting in 2011, a person who is required to report greenhouse gas emissions to the United States environmental protection agency under 40 C.F.R. Part 98, as adopted on September 22, 2009, must submit the report required under this section to the department concurrent with the submission to the United States environmental protection agency. Except as otherwise provided in this section, the data for emissions in Washington and any corrections thereto that are reported to the United States environmental protection agency must be the emissions data reported to the department; and

(iii) Emissions of carbon dioxide associated with the complete combustion or oxidation of liquid motor vehicle fuel, special fuel, or aircraft fuel that is sold in Washington where the annual emissions associated with that combustion or oxidation equal or exceed ten thousand metric tons be reported to the department. Each person who is required to file periodic tax reports of motor vehicle fuel sales under RCW 82.36.031 or special fuel sales under RCW 82.38.150, or each distributor of aircraft fuel required to file periodic tax reports under RCW 82.42.040 must report to the department the annual emissions of carbon dioxide from the complete combustion or oxidation of the fuels listed in those reports as sold in the state of Washington. The department shall not require suppliers to use

additional data to calculate greenhouse gas emissions other than the data the suppliers report to the department of licensing. The rules may allow this information to be aggregated when reported to the department. The department and the department of licensing shall enter into an interagency agreement to ensure proprietary and confidential information is protected if the departments share reported information. Any proprietary or confidential information exempt from disclosure when reported to the department of licensing is exempt from disclosure when shared by the department of licensing with the department under this provision.

(b)(i) Except as otherwise provided in this subsection, the rules adopted by the department under (a) of this subsection must be consistent with the regulations adopted by the United States environmental protection agency in 40 C.F.R. Part 98 on September 22, 2009.

(ii) The department may by rule include additional gases to the definition of "greenhouse gas" in RCW 70.235.010 only if the gas has been designated as a greenhouse gas by the United States congress or by the United States environmental protection agency. Prior to including additional gases to the definition of "greenhouse gas" in RCW 70.235.010, the department shall notify the appropriate committees of the legislature. Decisions to amend the rule to include additional gases must be made prior to December 1st of any year and the amended rule may not take effect before the end of the regular legislative session in the next year.

(iii) The department may by rule exempt persons who are required to report greenhouse gas emissions to the United States environmental protection agency and who emit less than ten thousand metric tons carbon dioxide equivalent annually.

(iv) The department must establish a methodology for persons who are not required to report under this section to voluntarily report their greenhouse gas emissions.

(c) The department shall review and if necessary update its rules whenever the United States environmental protection agency adopts final amendments to 40 C.F.R. Part 98 to ensure consistency with federal reporting requirements for emissions of greenhouse gases. However, the department shall not amend its rules in a manner that conflicts with (a) of this subsection.

~~(d)~~ (d) The department shall share any reporting information reported to it with the local air authority in which the ((owner or operator)) person reporting under the rules adopted by the department operates.

~~((e))~~ (e) The fee provisions in subsection (2) of this section apply to reporting of emissions of greenhouse gases. ((Owners and operators)) Persons required to report under (a) of this subsection who fail to report or pay the fee required in subsection (2) of this section are subject to enforcement penalties under this chapter. The department shall enforce the reporting rule requirements unless it approves a local air authority's request to enforce the requirements for ((sources)) persons operating within the authority's jurisdiction. However, neither the department nor a local air authority approved under this section are authorized to assess enforcement penalties on persons required to report under (a) of this subsection until six months after the department adopts its reporting rule in 2010.

~~((f))~~ (f) The energy facility site evaluation council shall, simultaneously with the department, adopt rules that impose greenhouse gas reporting requirements in site certifications on owners or operators of a facility permitted by the energy facility site evaluation council. The greenhouse gas reporting requirements imposed by the energy facility site evaluation council must be the same as the greenhouse gas reporting requirements imposed by the department. The department shall share any information reported to it from facilities permitted by the energy facility site evaluation council with the council, including notice of a facility that has failed to report as required. The energy facility site evaluation council shall contract with the department to monitor the reporting requirements adopted under this section.

((f) In developing its rules, the department shall, with the assistance of the department of transportation, identify a mechanism to report an aggregate estimate of the annual emissions of greenhouse gases generated from or emitted by otherwise unreported on-road motor vehicles.))

(g) The inclusion or failure to include any person, source, classes of persons or sources, or types of emissions of greenhouse gases into the department's rules for reporting under this section does not indicate whether such a person, source, or category is appropriate for inclusion in ~~((the multisector market-based system designed under RCW 70.235.020))~~ state, regional, or national greenhouse gas reduction programs or strategies. Furthermore, aircraft fuel purchased in the state may not be considered equivalent to aircraft fuel combusted in the state.

(h) ((Should the federal government adopt rules sufficient to track progress toward the emissions reductions required by chapter 14, Laws of 2008 governing the reporting of greenhouse gases, the department shall amend its rules, as necessary, to seek consistency with the federal rules to ensure duplicate reporting is not required. Nothing in this section requires the department to increase the reporting threshold established in (a) of this subsection or otherwise require the department's rules be identical to the federal rules in scope.)) (i) The definitions in RCW 70.235.010 apply throughout this subsection (5) unless the context clearly requires otherwise. (ii) For the purpose of this subsection (5), the term "supplier" includes: (A) A motor vehicle fuel supplier or a motor vehicle fuel importer, as those terms are defined in RCW 82.36.010; (B) a special fuel supplier or a special fuel importer, as those terms are defined in RCW 82.38.020; and (C) a distributor of aircraft fuel, as those terms are defined in RCW 82.42.010.

(iii) For the purpose of this subsection (5), the term "person" includes: (A) An owner or operator, as those terms are defined by the United States environmental protection agency in its mandatory greenhouse gas reporting regulation in 40 C.F.R. Part 98, as adopted on September 22, 2009; and (B) a supplier."

Part 98, as adopted on September 22, 2009, does not have to pay the fee provisions in subsection (2) of this section when providing the department a copy of the federal submission as required in (a)(ii) of this subsection"

SECOND SUBSTITUTE SENATE BILL NO. 6702, by Senate Committee on Ways & Means (originally sponsored by Senators Kline, McAuliffe, Gordon, McDermott, Fraser, Shin and Kohl-Welles)

Providing education programs for juveniles in adult jails.

The bill was read the second time.

Representative Dammeier moved the adoption of amendment (1437).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. INTENT. The legislature intends to provide for the operation of education programs for juvenile inmates incarcerated in adult jails.

The legislature finds that this chapter fully satisfies any constitutional duty to provide education programs for juvenile inmates in adult jails. The legislature further finds that biennial appropriations for education programs under this chapter amply provide for any constitutional duty to educate juvenile inmates in adult jails.

NEW SECTION. Sec. 2. EDUCATION PROGRAMS FOR JUVENILES IN ADULT JAILS. A program of education shall be made available for juvenile inmates by adult jail facilities and the several school districts of the state for persons under the age of eighteen years who have been incarcerated in any adult jail facilities operated under the authority of chapter 70.48 RCW. Each school district within which there is located an adult jail facility shall, singly or in concert with another school district pursuant to RCW 28A.335.160 and 28A.225.250 or chapter 39.34 RCW, conduct a program of education, including related student activities for inmates in adult jail facilities. School districts are not precluded from contracting with educational service districts, community and technical colleges, four-year institutions of higher education, or other qualified entities to provide all or part of these education programs. The division of duties, authority, and liabilities of the adult jail facilities and the several school districts of the state respecting the educational programs shall be as provided for in this chapter with regard to programs for juveniles in adult jail facilities.

NEW SECTION. Sec. 3. "ADULT JAIL FACILITY"--DEFINED. As used in this chapter, "adult jail facility" means an adult jail operated under the authority of chapter 70.48 RCW.

NEW SECTION. Sec. 4. DUTIES, AUTHORITY, AND RESPONSIBILITIES OF EDUCATION PROVIDER. (1) Except as otherwise provided for by contract under section 7 of this act, the duties and authority of a school district, educational service district, institution of higher education, or private contractor to provide for education programs under this chapter include:

(a) Employing, supervising, and controlling administrators, teachers, specialized personnel, and other persons necessary to conduct education programs, subject to security clearance by the adult jail facilities;

(b) Purchasing, leasing, renting, or providing textbooks, maps, audiovisual equipment paper, writing instruments, physical education equipment, and other instructional equipment, materials, and supplies deemed necessary by the provider of the education programs;

(c) Conducting education programs for inmates under the age of eighteen in accordance with program standards established by the superintendent of public instruction;

(d) Expending funds for the direct and indirect costs of maintaining and operating the program of education that are appropriated by the legislature and allocated by the superintendent of public instruction for the exclusive purpose of maintaining and operating education programs for juvenile inmates incarcerated in adult jail facilities, in addition to funds from federal and private grants, and bequests, and gifts made for the purpose of maintaining and operating the program of education; and

(e) Providing educational services to juvenile inmates within five school days of receiving notification from an adult jail facility within the district's boundaries that an individual under the age of eighteen has been incarcerated.

(2) The school district, educational service district, institution of higher education, or private contractor shall develop the curricula, instruction methods, and educational objectives of the education programs, subject to applicable requirements of state and federal law. For inmates who are under the age of eighteen when they commence the program and who have not met high school graduation requirements, such courses of instruction and school-related student

activities as are provided by the school district for students outside of adult jail facilities shall be provided by the school district for students in adult jail facilities, to the extent that it is practical and judged appropriate by the school district and the administrator of the adult jail facility.

NEW SECTION. Sec. 5. SCHOOL DISTRICTS--ADDITIONAL AUTHORITY AND LIMITATION. School districts providing an education program to juvenile inmates in an adult jail facility, may:

(1) Award appropriate diplomas or certificates to juvenile inmates who successfully complete graduation requirements;

(2) Allow students eighteen years of age who have participated in an education program under this chapter to continue in the program, under rules adopted by the superintendent of public instruction; and

(3) Spend only funds appropriated by the legislature and allocated by the superintendent of public instruction for the exclusive purpose of maintaining and operating education programs under this chapter, including direct and indirect costs of maintaining and operating the education programs, and funds from federal and private grants, bequests, and gifts made for that purpose. School districts may not expend excess tax levy proceeds authorized for school district purposes to pay costs incurred under this chapter.

NEW SECTION. Sec. 6. SUPPORT OF EDUCATION PROGRAMS. To support each education program under this chapter, the adult jail facility and each superintendent or chief administrator of an adult jail facility shall:

(1) Provide necessary access to existing instructional and exercise spaces for the education program that are safe and secure;

(2) Provide equipment deemed necessary by the adult jail facility to conduct the education program;

(3) Maintain a clean and appropriate classroom environment that is sufficient to meet the program requirements and consistent with security conditions;

(4) Provide appropriate supervision of juvenile inmates consistent with security conditions to safeguard agents of the education providers and juvenile inmates while engaged in educational and related activities conducted under this chapter;

(5) Provide such other support services and facilities deemed necessary by the adult jail facilities to conduct the education program;

(6) Provide the available medical and mental health records necessary to a determination by the school district of the educational needs of the juvenile inmate; and

(7) Notify the school district within which the adult jail facility resides within five school days that an eligible juvenile inmate has been incarcerated in the adult jail facility.

NEW SECTION. Sec. 7. CONTRACT BETWEEN SCHOOL DISTRICTS AND ADULT JAIL FACILITIES. Each education provider under this chapter and the adult jail facility shall negotiate and execute a written contract for each school year, or such longer period as may be agreed to, that delineates the manner in which their respective duties and authority will be cooperatively performed and exercised, and any disputes and grievances resolved through mediation, and if necessary, arbitration. Any such contract may provide for the performance of duties by an education provider in addition to those in this chapter, including duties imposed upon the adult jail facility and its agents under section 6 of this act, if supplemental funding is available to fully pay the direct and indirect costs of these additional duties.

NEW SECTION. Sec. 8. EDUCATION SITE CLOSURES OR REDUCTION IN SERVICES--NOTICE. (1) By September 30, 2010, districts must, in coordination with adult jail facilities residing within their boundaries, submit an instructional service plan to the office of the superintendent of public instruction. Service plans must meet requirements stipulated in the rules developed in accordance with section 9 of this act, provided that (a) the rules shall not govern requirements regarding security within the jail facility nor the

physical facility of the adult jail, including but not limited to, the classroom space chosen for instruction, and (b) any excess costs to the jails associated with implementing rules shall be negotiated pursuant to the contractual agreements between the education provider and adult jail facility.

(2) Once districts have submitted a plan to the office of the superintendent of public instruction, districts are not required to resubmit their plans unless either districts or adult jail facilities initiate a significant change to their plans.

(3) An adult jail facility shall notify the office of the superintendent of public instruction as soon as practicable upon the closure of any adult jail facility or upon the adoption of a policy that no juvenile shall be held in the adult jail facility.

NEW SECTION. Sec. 9. ALLOCATION OF MONEY--ACCOUNTABILITY REQUIREMENTS--RULES. The superintendent of public instruction shall:

(1) Allocate money appropriated by the legislature to administer and provide education programs under this chapter to school districts that have assumed the primary responsibility to administer and provide education programs under this chapter or to the educational service district operating the program under contract; and

(2) Adopt rules that apply to school districts and educational providers in accordance with chapter 34.05 RCW that establish reporting, program compliance, audit, and such other accountability requirements as are reasonably necessary to implement this chapter and related provisions of the omnibus appropriations act effectively. In adopting the rules pursuant to this subsection, the superintendent of public instruction shall collaborate with representatives from the Washington association of sheriffs and police chiefs and shall attempt to negotiate rules that deliver the educational program in the most cost-effective manner while, to the extent practicable, not imposing additional costs on local jail facilities.

NEW SECTION. Sec. 10. Sections 1 through 9 of this act constitute a new chapter in Title 28A RCW.

NEW SECTION. Sec. 11. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

"NEW SECTION. Sec. 5. A new section is added to chapter 4.20 RCW to read as follows:

The definitions in this section apply throughout sections 6 through 11 of this act unless the context clearly requires otherwise.

(1) "Allegedly responsible party" means a person or entity alleged by the claimant to be responsible for damages in an action under RCW 4.20.010, 4.20.020, 4.20.046, or 4.20.060, that is based on a parent's significant involvement in a child's life.

(2) "Amount recovered" means the total compensation, including the reasonable value of nonmonetary compensation, that an attorney has obtained on behalf of a claimant through settlement, arbitration, or judgment, minus the reasonable costs and expenses incurred by the attorney in prosecuting or settling the claim.

(3) "Claimant" means any natural person who, in his or her own right, or vicariously, is seeking compensation in connection with a

claim under RCW 4.20.010, 4.20.020, 4.20.046, or 4.20.060, that is based on a parent's significant involvement in a child's life.

(4) "Collateral source" means compensation or benefits paid or payable to the claimant or on the claimant's behalf, to compensate the claimant for the injury complained of, regardless of the right of recoupment of any other entity, through subrogation, trust agreement, lien, or otherwise.

(5) "Contingent fee" means compensation, however calculated, that is payable only if an amount is recovered.

(6) "Early settlement offer" means a settlement offer made in accordance with section 6 of this act.

(7) "Economic damages" has the meaning provided in RCW 4.56.250.

(8) "Entity" includes an individual or person.

(9) "Noneconomic damages" has the meaning provided in RCW 4.56.250.

NEW SECTION. Sec. 6. A new section is added to chapter 4.20 RCW to read as follows:

(1) In any civil action for damages brought under RCW 4.20.010, 4.20.020, 4.20.046, or 4.20.060, that is based on a parent's significant involvement in a child's life, an allegedly responsible party may make an early settlement offer at any time prior to one hundred twenty days after the claim is filed with a court. To qualify as an early settlement offer, the offer must include a good faith offer to compensate the claimant for the claimant's current and future economic damages suffered as a result of the allegedly responsible party's act or omission, less collateral source benefits available to the claimant, and for reasonable hourly attorneys' fees for the claimant. The early settlement offer must be in writing and communicated to the claimant by certified mail. The offer must remain open for acceptance for a minimum of thirty days from the date the offer is received by the claimant.

(2) An allegedly responsible party may amend or issue an additional early settlement offer prior to one hundred twenty days after the action is commenced. The claimant may extend the time for receiving the offer beyond this period.

(3) An attorney who receives an early settlement offer shall provide a true and complete copy of the offer to his or her client.

(4) A claimant who agrees in writing to an early settlement offer may not bring or continue a civil action, based on the same alleged negligence, against the allegedly responsible party who made the early settlement offer or any other allegedly responsible parties who joined in the early settlement offer under subsection (5) of this section.

(5) An offer under subsection (1) of this section may include other allegedly responsible parties who were involved in the events that gave rise to the civil action, regardless of the theory of liability on which the claim is based, with their consent. If, after an early settlement offer is made and accepted, the participants in the offer dispute their relative contributions to the payments to be made to the claimant, such disputes shall be resolved through binding arbitration in accordance with chapter 7.04 RCW.

(6) The claimant may reject an offer of compensation made under subsection (1) of this section and elect to bring or maintain a civil action for damages. Upon rejection of an offer of compensation that complies with the requirements of subsection (1) of this section, the claimant may recover damages in the civil action only if the claimant proves by clear and convincing evidence that the allegedly responsible party caused the injury by reckless, willful, or wanton conduct.

NEW SECTION. Sec. 7. A new section is added to chapter 4.20 RCW to read as follows:

(1) An attorney who represents a person in an action under RCW 4.20.010, 4.20.020, 4.20.046, or 4.20.060, that is based on a parent's significant involvement in a child's life, and who represents the person on a contingent-fee basis, shall send a demand for

compensation by certified mail to each allegedly responsible party prior to commencing a court action. In the event that multiple allegedly responsible parties are known to the attorney, a demand must be sent on the same date to each party. The demand must specify the amount of compensation sought and must set forth the material facts, documentary evidence, and other information relevant to the demand, including:

(a) The name and address of the claimant or of the person on whose behalf the claim is being made;

(b) A brief description of how the injury or loss occurred;

(c) The names and, if known, the addresses and telephone numbers of all known witnesses to the injury or loss;

(d) Copies of photographs in the claimant's possession which relate to the injury or loss;

(e) The basis for claiming that the party to whom the demand is addressed is responsible or partially responsible for the injury or loss;

(f) A description of the nature of the injury or loss, including the dates and nature of the care or services provided, and the names and addresses of all physicians and other health care providers that provided medical care or services to the claimant or injured party;

(g) Medical records relating to the injury, including those involving a prior injury or preexisting medical condition which would be discoverable by the allegedly responsible party during the course of litigation or, in lieu thereof, executed releases authorizing the allegedly responsible party to obtain the records directly from those health care providers who provided treatment to the claimant; and

(h) Documentation of any medical expenses, lost wages, personal losses, and other economic and noneconomic damages suffered as a consequence of the injury or loss.

(2) The attorney shall mail copies of each demand to the claimant and to each allegedly responsible party.

(3) A claimant's attorney who learns of an additional allegedly responsible party after making a demand for compensation under subsection (1) of this section shall send a demand for compensation to the newly discovered allegedly responsible party and simultaneously mail a copy of the demand to each of the other allegedly responsible parties and to the claimant.

(4) In the event that a claimant's attorney learns of an additional allegedly responsible party more than ninety days after making a demand for compensation under subsection (1) of this section, the attorney shall not be required to send a demand to that party nor do the fee limitations imposed under section 510 (1) and (2) of this act apply with regard to an amount recovered from that party, except as provided by this subsection. An attorney who fails as a result of a breach of the standard of care to learn of an additional allegedly responsible party within ninety days of sending a demand for compensation to another allegedly responsible party shall not collect a fee in excess of that allowed under section 9 of this act with respect to an amount recovered from the additional allegedly responsible party.

NEW SECTION. Sec. 8. A new section is added to chapter 4.20 RCW to read as follows:

An allegedly responsible party is under no obligation to issue a response to a demand for compensation made under section 7 of this act. The fact that a demand for compensation was or was not made, the fact that an early settlement offer was or was not made, and the amount of any demand or settlement offer made are inadmissible at a trial arising from the injury or loss.

NEW SECTION. Sec. 9. A new section is added to chapter 4.20 RCW to read as follows:

(1) An attorney who represents a claimant who has accepted an early settlement offer under section 6 of this act shall not collect an amount as compensation for the attorney's services that is more than the attorney's reasonable hourly fees for the services performed.

(2) An attorney who represents a claimant who has rejected or failed to accept an early settlement offer shall not collect a contingent fee that is greater than twenty percent of the amount of the early

settlement offer plus the percentage of the amount recovered in excess of the early settlement offer as was agreed to by the claimant and the attorney.

(3) A claimant's attorney who has failed to make a demand for compensation under section 7 of this act, or who has omitted from the demand any information required under section 7 of this act of a material nature which the attorney had in his or her possession, or which was readily available to him or her, or of which the attorney had knowledge, shall not collect a contingent fee greater than twenty percent of the amount recovered.

(4) A claimant's attorney who has failed to provide his or her client a true and complete copy of an early settlement offer received by the attorney, as required under section 6 of this act, shall not collect a contingent fee greater than twenty percent of the amount recovered.

(5) An attorney shall disclose, plainly and in writing, to claimants whom the attorney proposes to represent on a contingent-fee basis:

(a) The fee limitations imposed by this section; and (b) the fact that such limitations are maximum limits and that the attorney and claimant may negotiate a lower fee.

The attorney shall also provide to each claimant a copy of sections 5 through 11 of this act.

(6) The fee limitations imposed by this section may not be waived.

(7) This section applies to all attorneys practicing in this state, including attorneys prosecuting claims filed in federal court, to the maximum extent permitted by federal law.

NEW SECTION. Sec. 10. A new section is added to chapter 4.20 RCW to read as follows:

A fiduciary relationship applies with respect to a fee agreement between an attorney and a claimant in an action under RCW 4.20.010, 4.20.020, 4.20.046, or 4.20.060, that is based on a parent's significant involvement in a child's life.

NEW SECTION. Sec. 11. A new section is added to chapter 4.20 RCW to read as follows:

(1) The court shall, in any action under RCW 4.20.010, 4.20.020, 4.20.046, or 4.20.060, that is based on a parent's significant involvement in a child's life, determine the reasonableness of each party's attorneys fees. The court shall take into consideration the following:

(b) The likelihood, if apparent to the client, that the acceptance of the particular employment will preclude other employment by the lawyer;

(c) The fee customarily charged in the locality for similar legal services;

(d) The amount involved and the results obtained;

(e) The time limitations imposed by the client or by the circumstances;

(f) The nature and length of the professional relationship with the client;

(g) The experience, reputation, and ability of the lawyer or lawyers performing the services;

(h) Whether the fee is fixed or contingent.

On page 34, after line 5 of the striking amendment, insert the following:

"NEW SECTION. Sec. 402. (1) The legislature finds that:

(a) To further the goals of high quality public education throughout the state, each school district board of directors should have the authority to grant public schools of the district the maximum degree of flexibility possible to meet the needs of individual students and the communities in which they live; and

(b) Particularly in schools and communities that are struggling to improve student academic outcomes and close the achievement gap among groups of students, there is a critical need for innovative models of public education that are tailored to the unique circumstances and needs of the students in those schools and communities and implement evidence-based practices proven to be effective in reducing demographic disparities in student achievement.

(2) Therefore, the legislature intends to:

(a) Grant school districts and public schools greater ability to meet the educational needs of a diverse student population;

(b) Improve educational performance through greater individual school autonomy and managerial flexibility;

(c) Encourage innovation in education by providing local school communities and principals with greater control over levels of staffing, personnel selection and evaluation, scheduling, and educational programming with the goal of improving student achievement and closing the achievement gap; and

(d) Hold public schools that receive greater autonomy under this chapter accountable for student academic achievement as measured by the statewide assessments of student learning and other accountability measures.

(3) The legislature encourages school districts identified for required action under section 103 of this act to establish innovation schools as an intervention model under section 105 of this act in any persistently lowest-performing schools identified in the District

NEW SECTION. Sec. 403. Any school district board of directors may establish one or more innovation schools or innovation school zones within the district as provided in this section.

(1)(a) Any public school within a school district may submit to the board of directors of the district an innovation school plan as described under section 404 of this act. A group of public schools within a school district that share common interests, such as geographical location or educational focus, or that sequentially serve classes of students as they progress through elementary and secondary education may jointly submit to the board of directors of the district a plan to create an innovation school zone as described under section 404 of this act. An innovation school zone may include all public schools within a school District

(b) A school district board of directors that receives an innovation school plan or innovation school zone plan shall either approve or disapprove the plan within sixty days of receiving the plan. If the board of directors rejects the plan, the board must provide a written explanation of the reasons for the rejection. The public school or group of public schools may resubmit an amended plan any time after a plan is rejected.

(2) Any school district board of directors may initiate and collaborate with one or more public schools in the district to create one or more innovation schools through an innovation school plan or one or more innovation school zones through an innovation school zone plan. In creating an innovation school plan or an innovation school zone plan, the board of directors must ensure that each public school affected by the plan has substantial opportunity to participate in development of the plan.

financial and other resources, and recruitment, employment, evaluation, and compensation of school employees;

(f) An estimate of the cost savings and increased efficiencies, if any, the public school expects to achieve in implementing the identified innovations;

(g) A listing and description of any waivers of state rules or laws and state or school district policies that are necessary for the public school to implement the identified innovations and why the waivers are necessary; and

(2) An innovation school zone plan must include all of the information under subsection (1) of this section, plus the following additional information:

(b) An estimate of any economies of scale that would be achieved by innovations implemented jointly by the public schools within the innovation school zone; and

(c) A statement of the level of support for creating an innovation school zone demonstrated by the personnel employed at each public school that would be included in the zone, the students and parents of students enrolled in each of the schools, and the community surrounding the innovation school zone. In determining the level of support, each public school shall specifically solicit input concerning the selection of schools included in the innovation school zone and the strategies and procedures that would be used in implementing and integrating the innovations within the schools in the zone.

(3) In considering or creating an innovation school plan or an innovation school zone plan, each public school involved in the plan and each school district board of directors is strongly encouraged to consider innovations in the following areas:

(a) Curriculum and assessments;

(b) Expanded accountability measures, including the use of a variety of accountability measures to more accurately present a complete measure of student learning and accomplishment, such as:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that there have been ongoing, egregious examples of certain residents of the special commitment center having illegal child pornography, other prohibited pornography, and other banned materials on their computers. The legislature also finds that activities at the special commitment center must be designed and implemented to meet the treatment goals of the special commitment center, and proper and appropriate computer usage is one such activity. The legislature also finds that by linking computer usage to treatment plans, residents are less likely to have prohibited materials on their computers and are more likely to successfully complete their treatment plans. Therefore, the legislature finds that residents' computer usage in compliance with conditions placed on computer usage is essential to achieving their therapeutic goals. If residents' usage of computers is not in compliance or is not related to meeting their treatment goals, computer usage will be limited in order to prevent or reduce residents' access to prohibited materials.

Sec. 2. RCW 71.09.080 and 2009 c 409 s 7 are each amended to read as follows:

(1) Any person subjected to restricted liberty as a sexually violent predator pursuant to this chapter shall not forfeit any legal right or suffer any legal disability as a consequence of any actions taken or orders made, other than as specifically provided in this chapter, or as otherwise authorized by law.

(2) (a) Any person committed or detained pursuant to this chapter shall be prohibited from possessing or accessing a personal computer if the resident's individualized treatment plan states that access to a computer is harmful to bringing about a positive response to a specific and certain phase or course of treatment.

(b) A person who is prohibited from possessing or accessing a personal computer under (a) of this subsection (2) shall be permitted to access a limited functioning personal computer capable of word processing and limited data storage on the computer only that does not have: (i) Internet access capability; (ii) an optical drive, external drive, universal serial bus port, or similar drive capability; or (iii) the capability to display photographs, images, videos, or motion pictures, or similar display capability from any drive or port capability listed under (ii) of this subsection (2)(b).

(3) Any person committed pursuant to this chapter has the right to adequate care and individualized treatment. The department of social and health services shall keep records detailing all medical, expert, and professional care and treatment received by a committed person, and shall keep copies of all reports of periodic examinations made pursuant to this chapter. All such records and reports shall be made available upon request only to: The committed person, his or her attorney, the prosecuting attorney, the court, the protection and advocacy agency, or another expert or professional person who, upon proper showing, demonstrates a need for access to such records.

~~((3))~~(4) At the time a person is taken into custody or transferred into a facility pursuant to a petition under this chapter, the professional person in charge of such facility or his or her designee shall take reasonable precautions to inventory and safeguard the personal property of the persons detained or transferred. A copy of the inventory, signed by the staff member making it, shall be given to the person detained and shall, in addition, be open to inspection to any responsible relative, subject to limitations, if any, specifically imposed by the detained person. For purposes of this subsection, "responsible relative" includes the guardian, conservator, attorney, spouse, parent, adult child, or adult brother or sister of the person. The facility shall not disclose the contents of the inventory to any other person without consent of the patient or order of the court.

((4))(5) Nothing in this chapter prohibits a person presently committed from exercising a right presently available to him or her for the purpose of obtaining release from confinement, including the right to petition for a writ of habeas corpus.

((5))(6) No indigent person may be conditionally released or unconditionally discharged under this chapter without suitable clothing, and the secretary shall furnish the person with such sum of money as is required by RCW 72.02.100 for persons without ample funds who are released from correctional institutions. As funds are available, the secretary may provide payment to the indigent persons conditionally released pursuant to this chapter consistent with the optional provisions of RCW 72.02.100 and 72.02.110, and may adopt rules to do so.

((6))(7) If a civil commitment petition is dismissed, or a trier of fact determines that a person does not meet civil commitment criteria, the person shall be released within twenty-four hours of service of the release order on the superintendent of the special commitment center, or later by agreement of the person who is the subject of the petition.

The bill was read the second time.

There being no objection, the committee amendment by the Committee on Early Learning & Children's Services was not adopted.

Representative Goodman moved the adoption of amendment (1518).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that a critical factor in the eventual successful outcome of a K-12 education is for students to begin school ready, both intellectually and socially, to learn. The legislature also finds that, due to a variety of factors, some young children need supplemental instruction in preschool to assure that they have the opportunity to participate meaningfully and reach the necessary levels of achievement in the regular program of basic education. The legislature further finds that children who participate in high quality preschool programs have improved educational and life outcomes and are more likely to graduate from high school and pursue higher education, experience successful employment opportunities, and have increased earnings. Therefore the legislature intends to create a program of early learning that, when fully implemented, shall be an entitlement program for eligible children.

The legislature also finds that the state early childhood education and assistance program was established to help children from low-income families be prepared for kindergarten, and that the program has been a successful model for achieving that goal. Therefore, the legislature intends that the first phase of implementing the entitlement program of early learning shall be accomplished by utilizing the program standards and eligibility criteria in the early childhood education and assistance program. The legislature also intends that the implementation of subsequent phases of the program established by the ready for school act of 2010 will be aligned with the implementation of the state's all-day kindergarten program in order to maximize the gains resulting from investments in the two programs.

NEW SECTION. Sec. 2. DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Community-based early learning providers" includes for-profit and nonprofit licensed providers of child care and preschool programs.

(2) "Program" means the program of early learning established in section 3 of this act for eligible children who are three and four years of age.

NEW SECTION. Sec. 3. PROGRAM STANDARDS. (1) Beginning September 1, 2011, an early learning program to provide

voluntary preschool opportunities for children three and four years of age shall be implemented according to the funding and implementation plan in section 5 of this act. The program must be a comprehensive program providing early childhood education and family support, options for parental involvement, and health information, screening, and referral services, as family need is determined. Participation in the program is voluntary. On a space available basis, the program may allow enrollment of children who are not otherwise eligible by assessing a fee.

(2) The first phase of the program shall be implemented by utilizing the program standards and eligibility criteria in the early childhood education and assistance program.

(3) Subsequent phases of the program including, but not limited to, program standards and eligibility criteria, shall be defined by the legislature after receiving the recommendations from the director required in section 8 of this act.

(4) The director shall adopt rules for the following program components, as appropriate and necessary during the phased implementation of the program:

(a) Minimum program standards, including lead teacher, assistant teacher, and staff qualifications;

(b) Approval of program providers;

(c) Accountability and adherence to performance standards; and

(d) A method for allowing, on a space available basis, enrollment of children who are not otherwise eligible by assessing fees or copayments.

(5) The department has administrative responsibility for:

(a) Approving and contracting with providers according to rules developed by the director under this section;

(b) In partnership with school districts, monitoring program quality and assuring the program is responsive to the needs of eligible children;

(c) Assuring that program providers work cooperatively with school districts to coordinate the transition from preschool to kindergarten so that children and their families are well-prepared and supported; and

(d) Providing technical assistance to contracted providers.

NEW SECTION. Sec. 4. ELIGIBILITY. (1)(a) During the initial phase of implementation, the standards in RCW 43.215.405(3) used for eligibility determinations in the early childhood education and assistance program shall be used to determine eligibility for the program.

(b) During subsequent phases of implementation, eligibility determinations shall be based on factors adopted by the legislature after receiving recommendations required in subsection (2) of this section.

(2) The director shall develop recommendations for legislative approval regarding eligibility criteria for subsequent phases of implementation of the program.

(3) The director shall report the recommendations required under subsection (2) of this section to the appropriate committees of the legislature not later than December 1, 2010.

NEW SECTION. Sec. 5. FUNDING AND STATEWIDE IMPLEMENTATION. (1) Funding for the program of early learning established under this chapter must be appropriated to the department. Allocations must be made on the basis of eligible children enrolled with eligible providers.

(2) The program shall be implemented in phases, so that full implementation is achieved in the 2017-18 school year.

(3) For the initial phase of the early learning program in school years 2011-12 and 2012-13, the legislature shall appropriate funding to the department for implementation of the program in an amount not less than the 2009-2011 enacted budget for the early childhood education and assistance program. The appropriation shall be sufficient to fund an equivalent number of slots as funded in the 2009-2011 enacted budget.

(4) Beginning in the 2013-14 school year, additional funding for the program must be phased in beginning in school districts providing all-day kindergarten programs under RCW 28A.150.315.

(5) Funding shall continue to be phased in incrementally each year until full statewide implementation of the early learning program is achieved in the 2017-18 school year, at which time any eligible child shall be entitled to be enrolled in the program.

(6) The department and the office of financial management shall annually review the caseload forecasts for the program and, beginning December 1, 2012, and annually thereafter, report to the governor and the appropriate committees of the legislature with recommendations for phasing in additional funding necessary to achieve statewide implementation in the 2017-18 school year.

(7) School districts and approved community-based early learning providers may contract with the department to provide services under the program. The department shall collaborate with school districts, community-based providers, and educational service districts to promote an adequate supply of approved providers.

NEW SECTION. Sec. 6. A new section is added to chapter 28A.320 RCW to read as follows:

For the program of early learning established in section 3 of this act, school districts:

Sec. 7. RCW 43.215.020 and 2007 c 394 s 5 are each amended to read as follows:
