(2) Any person or entity knowingly violating any of the provisions of subsection (1) of this section shall be liable for repayment of any excess benefits or payments received, plus interest at the rate and in the manner provided in RCW 43.20B.695. Such person or other entity shall further, in addition to any other penalties provided by law, be subject to civil penalties. The secretary or director, as appropriate, or the attorney general may assess civil penalties in an amount not to exceed three times the amount of such excess benefits or payments: PROVIDED, That these civil penalties shall not apply to any acts or omissions occurring prior to September 1, 1979. RCW 43.20A.215 governs notice of a civil fine assessed by the secretary or director, as appropriate, and provides the right to an adjudicative proceeding.

(3) A criminal action need not be brought against a person for that person to be civilly liable under this section.

(4) In all administrative proceedings under this section, service, adjudicative proceedings, and judicial review of such determinations shall be in accordance with chapter 34.05 RCW, the administrative procedure act.

(3) This section does not prohibit an employer from exercising its authority to terminate, suspend, or discipline an employee who engages in workplace reprisal or retaliatory action against a whistleblower. The protections provided to whistleblowers under this chapter do not prevent an employer from: (a) Terminating, suspending, or disciplining a whistleblower for other lawful purposes; or (b) reducing the hours of employment or terminating employment as a result of the demonstrated inability to meet payroll requirements. The department or the authority, as appropriate, shall determine if the employer cannot meet payroll in cases where a whistleblower has been terminated or had hours of employment reduced due to the inability of a facility to meet payroll.

(4) The department or the authority, as appropriate, shall adopt rules to implement procedures for filing, investigation, and resolution of whistleblower complaints that are integrated with complaint procedures under this chapter. Mr. Speaker:

The Senate has passed ENGROSSED SUBSTITUTE HOUSE BILL NO. 1981 with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature intends that the retirement and annuity programs of the state's institutions of higher education be revised for future participants to reflect changes that have already occurred in state pension plans. The legislature intends also that newly hired employees who are eligible for participation in an annuity or retirement income plan offered by a higher education institution have an opportunity to participate in either (1) that plan without a supplemental benefit under RCW 28B.10.400(1)(c), or (2) the public employees' retirement system plan 3 or the teachers' retirement system plan 3. Plan 3 provides a combination of defined contribution and defined benefit pension, which will be available for newly hired employees. The legislature also intends to reduce the expanded postretirement employment provisions for members of the public employees' retirement system and the teachers' retirement system plans 1 that were temporarily expanded due to the shortage of qualified workers in particular teaching and public employment categories, and eliminate postretirement employment exceptions that existed for annuity or retirement income plan-covered positions that have been the subject of abuse.

Sec. 2. RCW 28B.10.400 and 2010 c 21 s 1 are each amended to read as follows:

(1) The boards of regents of the state universities, the boards of trustees of the regional universities and of The Evergreen State College, ((and)) the state board for community and technical colleges, and the higher education coordinating board are authorized and empowered:

County agricultural agents, home demonstration agents, 4-H club agents, and assistant county agricultural agents paid jointly by the Washington State University and the several counties shall be deemed to be full time employees

of the Washington State University for the purposes ((hereof)) of this section;

((2)) (b) To provide, under such rules ((and regulations)) as any such board may prescribe for the faculty members or other employees exempt from civil service pursuant to RCW 41.06.070 (1)(cc) and (2) under its supervision, for the retirement of any such faculty member or other exempt employee on account of age or condition of health, retirement on account of age to be not earlier than the sixty-fifth birthday: PROVIDED, That such faculty member or such other exempt employee may elect to retire at the earliest age specified for retirement by federal social security law: PROVIDED FURTHER, That any supplemental payment authorized by (c) of this subsection ((3) of this section)) and paid as a result of retirement earlier than age sixty- five shall be at an actuarially reduced rate; and shall be provided only to those persons who participate in an annuity or retirement income plan under (a) of this subsection prior to July 1, 2011;

((3)) (c) To pay ((to any such retired person)) only to those persons who participate in an annuity or retirement income plan under (a) of this subsection prior to July 1, 2011, or to his or her designated beneficiary(s), each year after his or her retirement, a supplemental amount which, when added to the amount of such annuity or retirement income plan, or retirement income benefit pursuant to RCW 28B.10.415, received by the retired person or the retired person's designated beneficiary(s) in such year, will not exceed fifty percent of the average annual salary paid to such retired person for his or her highest two consecutive years of full time service under an annuity or retirement income plan established pursuant to (a) of this subsection ((1) of this section)) at an institution of higher education: PROVIDED, HOWEVER, That if such retired person prior to retirement elected a supplemental payment survivors option, any such supplemental payments to such retired person or the retired person's designated beneficiary(s) shall be at actuarially reduced rates: PROVIDED FURTHER, That if a faculty member or other employee of an institution of higher education who is a participant in a retirement plan authorized by this section dies, or has died before retirement but after becoming eligible for retirement on account of age, the designated beneficiary(s) shall be entitled to receive the supplemental payment authorized by this subsection to which such designated beneficiary(s) would have been entitled had said deceased faculty member or other employee retired on the date of death after electing a supplemental payment survivors option: PROVIDED FURTHER, That for the purpose of this subsection, the designated beneficiary(s) shall be ((a)) (i) the surviving spouse of the retiree; or, ((b)) (ii) with the written consent of such spouse, if any, such other person or persons as shall have an insurable interest in the retiree's life and shall have been nominated by written designation duly executed and filed with the retiree's institution of higher education(;;).

Upon his or her attaining eligibility for retirement under the Washington state teachers' retirement system, such faculty member or other employee shall receive from the Washington state teachers' retirement system a retirement allowance consisting of an annuity which shall be the actuarial equivalent of his or her accumulated contributions at his or her age when becoming eligible for such retirement and a pension for each year of creditable service established and retained at the time of said designation as provided in RCW 41.32.497 ((as now or hereafter amended)). Sec. 7. RCW 28B.10.423 and 1973 1st ex.s. c 149 s 8 are each amended to read as follows:

(1) For employees who are first employed by an institution of higher education in a position eligible for participation in an old age annuities or retirement income plan under this chapter prior to July 1, 2011, it is the intent of RCW 28B.10.400, 28B.10.405, 28B.10.410, 28B.10.415, 28B.10.420, 28B.10.423 and 83.20.030 that the retirement income resulting from the contributions described herein from the state of Washington and the employee shall be projected actuarially so that it shall not exceed sixty percent of the average of the highest two consecutive years salary. Periodic review of the retirement systems established pursuant to RCW 28B.10.400, 28B.10.405, 28B.10.410, 28B.10.415, 28B.10.420, and 28B.10.423 ((and 83.20.030)) will be undertaken at such time and in such manner as determined by the committees on ways and means of the senate and of the house of representatives ((and the public pension commission)), the select committee on pension policy, and the pension funding council, and

joint contribution rates will be adjusted if necessary to accomplish this intent.

(2) By June 30, 2013, and every two years thereafter, each institution of higher education that is responsible for payment of supplemental amounts under RCW 28B.10.400(1)(c) shall contract with the state actuary under chapter 41.44 RCW for an actuarial valuation of their supplemental benefit plan. By June 30, 2013, and at least once every six years thereafter, each institution shall also contract with the state actuary under chapter 41.44 RCW for an actuarial experience study of the mortality, service, compensation, and other experience of the annuity or retirement income plans created in this chapter, and into the financial condition of each system. At the discretion of the state actuary, the valuation or experience study may be performed by the state actuary or by an outside actuarial firm under contract to the office of the state actuary. Each institution of higher education is required to provide the data and information required for the performance of the valuation or experience study to the office of the state actuary or to the actuary performing the study on behalf of the state actuary. The state actuary may charge each institution for the actual cost of the valuation or experience study through an interagency agreement. Upon completion of the valuation or experience study, the state actuary shall provide copies of the study to the institution of higher education and to the select committee on pension policy and the pension funding council.

(3)(a) A higher education retirement plan supplemental benefit fund is created in the custody of the state treasurer for the purpose of funding future benefit obligations of higher education retirement plan supplemental benefits. The state investment board has the full power to invest, reinvest, manage, contract, sell, or exchange investment money in the fund.

(b) Beginning January 1, 2014, an employer contribution rate of one-half of one percent of salary is established to begin prefunding the unfunded future obligations of the supplemental benefit established in RCW 28B.10.400.

(c) Consistent with chapter 41.50 RCW, the department of retirement systems shall collect the employer contribution rates established in this section from each state institution of higher education, and deposit those contributions into the higher education retirement plan supplemental benefit fund. The contributions made by each employer into the higher education retirement plan supplemental benefit fund and the earnings on those contributions shall be accounted for separately within the fund.

(d) Following the completion and review of the initial actuarial valuations and experience study conducted pursuant to subsection (2) of this section, the pension funding council may:

(i) Adopt and make changes to the employer contribution rate established in (a) of this subsection consistent with the procedures established in chapter 41.45 RCW. If the actuarial valuations of the higher education retirement plans of each institution contributing to the higher education retirement plan supplemental benefit fund suggest that different contribution rates are appropriate for each institution, different rates may be adopted. Rates adopted by the pension funding council are subject to revision by the legislature.

(ii) Recommend legislation that will, upon accumulation of sufficient funding in the higher education retirement plan supplemental benefit fund transfer the responsibility for making supplemental benefit payments to the department of retirement systems, and adjust employer contribution rates to reflect the transfer of responsibility.

Sec. 8. RCW 28B.10.430 and 1979 ex.s. c 96 s 5 are each amended to read as follows:

(1) This section applies only to those persons who are first employed by an institution of higher education in a position eligible for participation in an old age annuities or retirement income plan under this chapter prior to July 1, 2011.

(2) For any person receiving a monthly benefit pursuant to a program established under RCW 28B.10.400, the pension portion of such benefit shall be the sum of the following amounts:

(a) One-half of the monthly benefit payable under such program by a life insurance company; and

(b) The monthly equivalent of the supplemental benefit described in RCW 28B.10.400((3)) (1)(c).

((2)) (3) Notwithstanding any provision of law to the contrary, effective July 1, 1979, no person receiving a monthly benefit pursuant to RCW 28B.10.400 shall receive, as the pension portion of that benefit, less than ten dollars per month for each year of service creditable to the person whose service is the basis of the benefit. Portions of a year shall be treated as fractions of a year and the decimal equivalent shall be multiplied by ten dollars. Where the benefit was adjusted at the time benefit payments to the beneficiary commenced, the minimum pension provided in this section shall be adjusted in a manner consistent with that adjustment.

((3)) (4) Notwithstanding any provision of law to the contrary, effective July 1, 1979, the monthly benefit of each person who commenced receiving a monthly benefit under this chapter as of a date no later than July 1, 1974, shall be permanently increased by a post-retirement adjustment. Such adjustment shall be calculated as follows:

(a) Monthly benefits to which this subsection and subsection ((2)) (3) of this section are both applicable shall be determined by first applying subsection ((2)) (3) of this section and then applying this subsection. The ((department)) institution shall determine the total years of creditable service and the total dollar benefit base accrued as of December 31, 1978, except that this determination shall take into account only those persons to whom this subsection applies;

(b) The ((department)) institution shall multiply the total benefits determined in (a) of this subsection by six percent and divide the dollar value thus determined by the total service determined in (a) of this subsection. The resultant figure shall then be a post-retirement increase factor which shall be applied as specified in (c) of this subsection;

(c) Each person to whom this subsection applies shall receive an increase which is the product of the factor determined in (b) of this subsection multiplied by the years of creditable service.

NEW SECTION. Sec. 9. A new section is added to chapter 41.32 RCW to be codified under the subchapter heading "plan 3" to read as follows:

(4) When a retired teacher or administrator renders service beyond eight hundred sixty-seven hours, the department shall collect from the employer the applicable employer retirement contributions for the entire duration of the member's employment during that fiscal year.

(5) The department shall collect and provide the state actuary with information relevant to the use of this section for the select committee on pension policy.

(6) The legislature reserves the right to amend or repeal this section in the future and no member or beneficiary has a contractual right to be employed for more than five hundred twenty-five hours per year without a reduction of his or her pension.

"Sec. 2. RCW 74.09.470 and 2011 1st sp.s. c . . . (2E2SHB 1738) s 21 are each amended to read as follows:

(1) Consistent with the goals established in RCW 74.09.402, through the apple health for kids program authorized in this section, the authority shall provide affordable health care coverage to children under the age of nineteen who reside in Washington state and whose family income at the time of enrollment is not greater than two hundred fifty percent of the federal poverty level as adjusted for family size and determined annually by the federal department of health and human services, and effective January 1, 2009, and only to the extent that funds are specifically appropriated therefor, to children whose family income is not greater than three hundred percent of the federal poverty level. In administering the program, the authority shall take such actions as may be necessary to ensure the receipt of federal financial participation under the medical assistance program, as codified at Title XIX of the federal social security act, the state children's health insurance program, as codified at Title XXI of the federal social security act, and any other federal funding sources that are now available or may become available in the future. The authority and the caseload forecast council shall estimate the anticipated caseload and costs of the program established in this section.

(2) The authority shall accept applications for enrollment for children's health care coverage; establish appropriate minimum-enrollment periods, as may be necessary; and determine eligibility based on current family income. The authority shall make eligibility determinations within the time frames for establishing eligibility for children on medical assistance, as defined by RCW 74.09.510. The application and annual renewal processes shall be designed to minimize administrative barriers for applicants and enrolled clients, and to minimize gaps in eligibility for families who are eligible for coverage. If a change in family income results in a change in the source of funding for coverage, the authority shall transfer the family members to the appropriate source of funding and notify the family with respect to any change in premium obligation, without a break in eligibility. The authority shall use the same eligibility redetermination and appeals procedures as those provided for children on medical assistance programs. The authority shall modify its eligibility renewal procedures to lower the percentage of children

failing to annually renew. The authority shall manage its outreach, application, and renewal procedures with the goals of: (a) Achieving year by year improvements in enrollment, enrollment rates, renewals, and renewal rates; (b) maximizing the use of existing program databases to obtain information related to earned and unearned income for purposes of eligibility determination and renewals, including, but not limited to, the basic food program, the child care subsidy program, federal social security administration programs, and the employment security department wage database; (c) streamlining renewal processes to rely primarily upon data matches, online submissions, and telephone interviews; and (d) implementing any other eligibility determination and renewal processes to allow the state to receive an enhanced federal matching rate and additional federal outreach funding available through the federal children's health insurance program reauthorization act of 2009 by January 2010. The department shall advise the governor and the legislature regarding the status of these efforts by September 30, 2009. The information provided should include the status of the department's efforts, the anticipated impact of those efforts on enrollment, and the costs associated with that enrollment.

(3) To ensure continuity of care and ease of understanding for families and health care providers, and to maximize the efficiency of the program, the amount, scope, and duration of health care services provided to children under this section shall be the same as that provided to children under medical assistance, as defined in RCW 74.09.520.

(4) The primary mechanism for purchasing health care coverage under this section shall be through contracts with managed health care systems as defined in RCW 74.09.522, subject to conditions, limitations, and appropriations provided in the biennial appropriations act. However, the authority shall make every effort within available resources to purchase health care coverage for uninsured children whose families have access to dependent coverage through an employer-sponsored health plan or another source when it is cost-effective for the state to do so, and the purchase is consistent with requirements of Title XIX and Title XXI of the federal social security act. To the extent allowable under federal law, the authority shall require families to enroll in available employer-sponsored coverage, as a condition of participating in the program established under this section, when it is cost-effective for the state to do so. Families who enroll in available employer-sponsored coverage under this section shall be accounted for separately in the annual report required by RCW 74.09.053.

(5)(a) To reflect appropriate parental responsibility, the authority shall develop and implement a schedule of premiums for children's health care coverage due to the authority from families with income greater than two hundred percent of the federal poverty level. For families with income greater than two hundred fifty percent of the federal poverty level, the premiums shall be established in consultation with the senate majority and minority leaders and the speaker and minority leader of the house of representatives. For children eligible for coverage under the federally funded children's health insurance program, Title XXI of the federal social security act, premiums shall be set at a reasonable level that does not pose a barrier to enrollment. The amount of the premium shall be based upon family income and shall not exceed the premium limitations in Title XXI of the federal social security act. For children who are not eligible for coverage under the federally funded children's health insurance program, premiums shall be set every two years in an amount no greater than the average state-only share of the per capita cost of coverage in the state-funded children's health program.

(b) Premiums shall not be imposed on children in households at or below two hundred percent of the federal poverty level as articulated in RCW 74.09.055.

~~((b))~~ (c) Beginning no later than January 1, 2010, the authority shall offer families whose income is greater than three hundred

percent of the federal poverty level the opportunity to purchase health care coverage for their children through the programs administered under this section without an explicit premium subsidy from the state. The design of the health benefit package offered to these children should provide a benefit package substantially similar to that offered in the apple health for kids program, and may differ with respect to cost-sharing, and other appropriate elements from that provided to children under subsection (3) of this section including, but not limited to, application of preexisting conditions, waiting periods, and other design changes needed to offer affordable coverage. The amount paid by the family shall be in an amount equal to the rate paid by the state to the managed health care system for coverage of the child, including any associated and administrative costs to the state of providing coverage for the child. Any pooling of the program enrollees that results in state fiscal impact must be identified and brought to the legislature for consideration.

(6) The authority shall undertake and continue a proactive, targeted outreach and education effort with the goal of enrolling children in health coverage and improving the health literacy of youth and parents. The authority shall collaborate with the department of social and health services, department of health, local public health jurisdictions, the office of the superintendent of public instruction, the department of early learning, health educators, health care providers, health carriers, community-based organizations, and parents in the design and development of this effort. The outreach and education effort shall include the following components:

(a) Broad dissemination of information about the availability of coverage, including media campaigns;

(b) Assistance with completing applications, and community-based outreach efforts to help people apply for coverage. Community-based outreach efforts should be targeted to the populations least likely to be covered;

(c) Use of existing systems, such as enrollment information from the free and reduced-price lunch program, the department of early learning child care subsidy program, the department of health's women, infants, and children program, and the early childhood education and assistance program, to identify children who may be eligible but not enrolled in coverage;

(d) Contracting with community-based organizations and government entities to support community-based outreach efforts to help families apply for coverage. These efforts should be targeted to the populations least likely to be covered. The authority shall provide informational materials for use by government entities and community-based organizations in their outreach activities, and should identify any available federal matching funds to support these efforts;

(e) Development and dissemination of materials to engage and inform parents and families statewide on issues such as: The benefits of health insurance coverage; the appropriate use of health services, including primary care provided by health care practitioners licensed under chapters 18.71, 18.57, 18.36A, and 18.79 RCW, and emergency services; the value of a medical home, well-child services and immunization, and other preventive health services with linkages to department of health child profile efforts; identifying and managing chronic conditions such as asthma and diabetes; and the value of good nutrition and physical activity;

(f) An evaluation of the outreach and education efforts, based upon clear, cost-effective outcome measures that are included in contracts with entities that undertake components of the outreach and education effort;

(g) An implementation plan to develop online application capability that is integrated with the automated client eligibility system, and to develop data linkages with the office of the superintendent of public instruction for free and reduced-price lunch enrollment information and the department of early learning for child care subsidy program enrollment information.

(7) The authority shall take action to increase the number of primary care physicians providing dental disease preventive services including oral health screenings, risk assessment, family education, the application of fluoride varnish, and referral to a dentist as needed.

(8) The department shall monitor the rates of substitution between private-sector health care coverage and the coverage provided under this section.

This includes that when conducting licensing or contract inspections, the department shall interview an appropriate percentage of residents, family members, resident case managers, and advocates in addition to interviewing providers and staff.

(3) Providers should be supported in their efforts to improve quality and address identified problems initially through training, consultation, technical assistance, and case management.

(4) The emphasis should be on problem prevention both in monitoring and in screening potential providers of service.

(5) Monitoring should be outcome based and responsive to consumer complaints and based on a clear set of health, quality of care, and safety standards that are easily understandable and have been made available to providers, residents, and other interested parties.

(6) Prompt and specific enforcement remedies shall also be implemented without delay, pursuant to RCW 74.39A.080, RCW 70.128.160, chapter 18.51 RCW, or chapter 74.42 RCW, for providers found to have delivered care or failed to deliver care resulting in problems that are serious, recurring, or uncorrected, or that create a hazard that is causing or likely to cause death or serious harm to one or more residents. In the selection of remedies, the safety, health, and well-being of residents shall be of paramount importance.

(7) All long-term care workers shall be screened through background checks in a uniform and timely manner to ensure that they do not have a criminal history that would disqualify them from working with vulnerable persons. Long-term care workers who are hired after January 1, ~~((2012))~~ 2014, are subject to background checks under RCW 74.39A.055. This information will be shared with the department of health in accordance with RCW 74.39A.055 to advance the purposes of chapter 2, Laws of 2009.

(8) No provider, or its staff, or long-term care worker, or prospective provider or long-term care worker, with a stipulated finding of fact, conclusion of law, an agreed order, or finding of fact, conclusion of law, or final order issued by a disciplining authority, a court of law, or entered into a state registry finding him or her guilty of abuse, neglect, exploitation, or abandonment of a minor or a vulnerable adult as defined in chapter 74.34 RCW shall be employed in the care of and have unsupervised access to vulnerable adults.

(9) The department shall establish, by rule, a state registry which contains identifying information about long-term care workers identified under this chapter who have substantiated findings of abuse, neglect, financial exploitation, or abandonment of a vulnerable adult as defined in RCW 74.34.020. The rule must include disclosure, disposition of findings, notification, findings of fact, appeal rights, and fair hearing requirements. The department shall

disclose, upon request, substantiated findings of abuse, neglect, financial exploitation, or abandonment to any person so requesting this information. This information will also be shared with the department of health to advance the purposes of chapter 2, Laws of 2009.

This subsection does not require completion of the nursing assistant certificate training program by providers or their staff. The long-term care teaching curriculum must consist of a fundamental module, or modules, and a range of other available relevant training modules that provide the caregiver with appropriate options that assist in meeting the resident's care needs. Some of the training modules may include, but are not limited to, specific training on the special care needs of persons with developmental disabilities, dementia, mental illness, and the care needs of the elderly. No less than one training module must be dedicated to workplace violence prevention. The nursing care quality assurance commission shall work together with the department to develop the curriculum modules. The nursing care quality assurance commission shall direct the nursing assistant training programs to accept some or all of the skills and competencies from the curriculum modules towards meeting the requirements for a nursing assistant certificate as defined in chapter 18.88A RCW. A process may be developed to test persons completing modules from a caregiver's class to verify that they have the transferable skills and competencies for entry into a nursing assistant training program. The department may review whether facilities can develop their own related long-term care training programs. The department may develop a review process for determining what previous experience and training may be used to waive some or all of the mandatory training. The department of social and health services and the nursing care quality assurance commission shall work together to develop an implementation plan by December 12, 1998.

(2) Prompt and specific enforcement remedies shall also be implemented without delay, consistent with RCW 18.20.190, for facilities found to have delivered care or failed to deliver care resulting in problems that are serious, recurring, or uncorrected, or that create a hazard that is causing or likely to cause death or serious harm to one or more residents. These enforcement remedies may also include, when appropriate, reasonable conditions on a license. In the selection of remedies, the safety, health, and well-being of residents shall be of paramount importance.

(3)(a) To the extent funding is available, the licensee, administrator, and their staff should be screened through background checks in a uniform and timely manner to ensure that they do not have a criminal history that would disqualify them from working with vulnerable adults. (3) Except as provided in subsection (4) of this section, an individual provider or home care agency provider who has resided in the state less than three years before applying for employment involving unsupervised access to a vulnerable adult as defined in chapter 74.34 RCW must be fingerprinted for the purpose of investigating conviction records through both the Washington state patrol and the federal bureau of investigation. This subsection applies only with respect to the provision of in-home services funded by medicaid personal care under RCW 74.09.520, community options program entry system waiver services under RCW 74.39A.030, or chore services under RCW 74.39A.110. having unsupervised access to persons with physical, mental, or developmental disabilities or mental illness, or to vulnerable adults as defined in chapter 74.34 RCW, then the secretary shall deny payment for any subsequent services rendered by the disqualified individual provider.

(7) Criminal justice agencies shall provide the secretary such information as they may have and that the secretary may require for such purpose.

**PART II  
HUMAN SERVICES**

**NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES**

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP), the health care authority and the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2011-2013 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP, the health care authority and the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The health care authority and the department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) By October 1, 2011, the department shall compile and submit to the department of health data regarding food procurement costs for fiscal year 2011 regarding meals and other food for both residential and nonresidential clients, including the percentage of food purchased from

Washington sources. The data shall be reported by setting and population, including costs per client, and be accompanied by the department's current food purchasing policies and standards.

(6) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

The reductions to appropriations in this subsection related to semi-secure crisis residential centers reflect a reduction to the number of beds for semi-secure crisis residential centers and not a reduction in rates. Any secure crisis residential center or semi-secure crisis residential center bed reduction shall not be based solely upon bed utilization. The department is to exercise its discretion in reducing the number of beds but to do so in a manner that maintains availability and geographic representation of semi-secure and secure crisis residential centers.

General Fund--Federal Appropriation .....	\$456,691,000
General Fund--Private/Local Appropriation.....	\$17,604,000
Hospital Safety Net Assessment Fund--State Appropriation .....	\$6,802,000
.....	<b>TOTAL APPROPRIATION</b>
<b>\$1,131,416,000</b>	

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$109,342,000 of the general fund--state appropriation for fiscal year 2012 and \$109,341,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for persons and services not covered by the medicaid program. This is a reduction of \$4,348,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2011 prior to supplemental budget reductions. This \$4,348,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) \$6,590,000 of the general fund--state appropriation for fiscal year 2012, \$6,590,000 of the general fund--state appropriation for fiscal year 2013, and \$7,620,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high- intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of

this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) \$5,850,000 of the general fund--state appropriation for fiscal year 2012, \$5,850,000 of the general fund--state appropriation for fiscal year 2013, and \$1,300,000 of the general fund--federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 557 per day.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) \$4,582,000 of the general fund--state appropriation for fiscal year 2012 and \$4,582,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(h) \$750,000 of the general fund--state appropriation for fiscal year 2012 and \$750,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(i) \$1,125,000 of the general fund--state appropriation for fiscal year 2012 and \$1,125,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(j) \$1,529,000 of the general fund--state appropriation for fiscal year 2012 and \$1,529,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(k) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(l) Given the recent approval of federal medicaid matching funds for the disability lifeline and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

(m) \$750,000 of the general fund--state appropriation for fiscal year 2012, \$750,000 of the general fund--state appropriation for fiscal year 2013, and \$1,500,000 of the general fund--federal appropriation are provided solely to adjust regional support network capitation rates to account for the per diem rates actually paid for psychiatric care provided at hospitals participating in the certified public expenditure program operated pursuant to section 213 of this act.

The fee schedule increases must be developed so that the maximum amount of additional fees paid by providers statewide in the 2011-2013 fiscal biennium is \$446,000. The department's fee schedule shall have differential rates for providers with proof of accreditation from organizations that the department has determined to have substantially equivalent standards to those of the department, including but not limited to the joint commission on accreditation of health care organizations, the commission on accreditation of rehabilitation facilities, and the council on accreditation. To reflect the reduced costs associated with regulation of accredited programs, the department's fees for organizations with such proof of accreditation must reflect the lower costs of licensing for these programs than for other organizations which are not accredited.

**NEW SECTION. Sec. 205. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--DEVELOPMENTAL DISABILITIES PROGRAM**

(1) COMMUNITY SERVICES

General Fund--State Appropriation (FY 2012) .....	\$418,664,000
General Fund--State Appropriation (FY 2013) .....	\$422,393,000
General Fund--Federal Appropriation .....	\$726,897,000
General Fund--Private/Local Appropriation.....	\$184,000
.....	TOTAL APPROPRIATION
\$1,568,138,000	

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(b) Amounts appropriated in this subsection reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients.

(c) Amounts appropriated in this subsection are sufficient to develop and implement the use of a consistent, statewide outcome-based vendor contract for employment and day services by July 1, 2012. The rates paid to vendors under this contract shall also be made consistent. In its description of activities the agency shall include activity listings and dollars appropriated for: Employment services, day services, child development services and county administration of services to the developmentally disabled. The department shall begin reporting to the office of financial management on these activities beginning in fiscal year 2010.

(d) \$944,000 of the general fund--state appropriation for fiscal year 2012, \$944,000 of the general fund--state appropriation for fiscal year 2013, and \$1,888,000 of the general fund--federal appropriation are provided solely for state contributions for individual provider health care benefits. Pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270, the state shall contribute to the multiemployer health benefits trust fund \$1.96 per paid hour worked by individual providers.

(e) \$1,871,000 of the general fund--state appropriation for fiscal year 2012, \$1,995,000 of the general fund--state appropriation for fiscal year 2013, and \$3,865,000 of the general fund--federal appropriation are provided solely for home care agencies to purchase health coverage for home care providers. The department shall calculate and distribute payments for health care benefits to home care agencies at \$558 per month for each worker who cares for publicly funded clients at 86 hours or more per month. In order to negotiate the most comprehensive health benefits package for its employees, each agency may determine benefit levels according to the hours an employee works providing state-funded personal care. Health benefits shall be offered to all employees who care for publicly funded clients for 86 hours per month or more. At a minimum, employees who care for publicly funded clients at 140 hours a month or greater must receive a comprehensive medical benefit. Benefits shall not be provided to employees who care for publicly funded clients at 85 hours or less per month or as interim respite workers. The department shall not pay an agency for benefits provided to an employee who otherwise receives health care coverage through other family members, other employment-based coverage, or military or veteran's coverage. The department shall require annually, each home care agency to review each of its employee's available health coverage and to provide a written declaration to the department verifying that health benefits purchased with public funds are solely for employees that do not have other available coverage. Home care agencies may determine a reasonable employee co-premium not to exceed 20 percent of the total benefit cost.

(f) \$1,127,000 of the general fund--state appropriation for fiscal year 2012, \$1,199,000 of the general fund--state appropriation for fiscal year 2013, and \$2,322,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, for instructional costs associated with the training of individual providers. House Bill No. 1548 and Senate Bill No. 5473 (long-term care worker requirements) make statutory changes to the increased training requirements and therefore the state shall contribute to the partnership \$0.17 per paid hour worked by all home care workers. This amount is pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270. Expenditures for the purposes specified in this subsection shall not exceed the amounts provided in this subsection.

(g)(i) Within the amounts appropriated in this subsection, the department shall revise the current working age adult policy to allow clients to choose between employment and community access activities. Clients age 21 and older who are receiving services through a home- and community-based medicaid waiver shall be offered the choice to transition to a community access program after nine months of enrollment in an employment program, and the option to transition from a community access program to an employment program at any time. The department shall inform clients and their legal representatives of all available options for employment and day services. Information provided to the client and the client's legal representative shall include the types of activities each service option provides, and the amount, scope, and duration of service for which the client would be eligible under each service option. An individual client may be authorized for only one service option, either employment services or community access services. Clients may not participate in more than one of these services at any given time.

(ii) The department shall work with counties and stakeholders to strengthen and expand the existing community access program. The program must emphasize support for the client so they are able to participate in activities that integrate them into their community and support independent living and skills.

(iii) The appropriation in this subsection includes funding to provide employment or community access services to 168 medicaid eligible young adults with developmental disabilities living with their families who need employment opportunities and assistance after high school graduation.

(h) \$75,000 of the general fund--state appropriation for fiscal year 2012 and \$75,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for the restoration of direct support to local organizations that utilize parent-to-parent networks and communication to promote access and quality of care for individuals with developmental disabilities and their families.

(i) In accordance with Engrossed Substitute House Bill No. 1277 (licensed settings for vulnerable adults), adult family home license fees are increased in fiscal years 2012 and 2013 to support the costs of conducting licensure, inspection, and regulatory programs.

(i) The current annual renewal license fee for adult family homes shall be increased to \$100 per bed beginning in fiscal year 2012 and \$175 per bed beginning in fiscal year 2013. Adult family homes shall receive a corresponding vendor rate increase per medicaid patient day of \$0.22 in fiscal year 2012 and \$0.43 in fiscal year 2013 to cover the cost of the license fee increase for publicly funded beds.

(ii) Beginning in fiscal year 2012, a processing fee of \$2,750 shall be charged to each adult family home when the home is initially licensed. This fee is nonrefundable.

(j) The department shall assess and determine whether it would be cost-efficient for the state to exercise the option made available under section 1915(k) of the federal social security act (42 U.S.C. Sec. 1396n(k)). If the department determines that it would be cost-efficient for the state to exercise the federal option, it shall prepare a proposal to provide home- and community-based attendant services and supports that include assistance with activities of daily living (ADL's), instrumental activities of daily living (IADL's), and health-related tasks pursuant to section 1915(k) of the federal social security act (42 U.S.C. Sec. 1396n(k)) and submit that plan to the legislature during the next legislative session.

(k) Clients with developmental disabilities have demonstrated a need and a desire for a day services program as verified by over 900 clients currently accessing day programs through a long-term care service model. In addition, every individual, to include those with a developmental disability, should have the opportunity for meaningful employment which allows them to contribute to their communities and to become as self-sufficient as possible. Providing choice empowers recipients of publicly funded services and their families by expanding their degree of control over the services and supports they need.

The department shall work with legislators and stakeholders to develop a new approach to employment and day services. The objective of this plan is to ensure that adults with developmental disabilities have optimum choices, and that employment and day offerings are comprehensive enough to meet the needs of all clients currently served on a home and community based waiver. The proposal shall be submitted to the 2012 legislature for consideration and shall be constructed such that a client ultimately receives employment, community access, or the community day option but not more than one service at a time. The proposal shall include options for program efficiencies within the current employment and day structure and shall provide details on the plan to implement a consistent, statewide outcome-based vendor contract for employment and day services as specified in (c) of this subsection.

**NEW SECTION. Sec. 206. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--AGING AND ADULTSERVICES PROGRAM**

General Fund--State Appropriation (FY 2012) .....	\$783,305,000
General Fund--State Appropriation (FY 2013) .....	\$811,670,000
General Fund--Federal Appropriation .....	\$1,686,010,000
General Fund--Private/Local Appropriation.....	\$27,517,000

Nursing Facility Quality Assurance Account--State Appropriation .....	\$88,000,000
.....	TOTAL APPROPRIATION
\$3,399,890,000	

The appropriations in this section are subject to the following conditions and limitations:

(1) For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall not exceed \$170.37 for fiscal year 2012 and shall not exceed \$171.43 for fiscal year 2013, including the rate add-ons described in (a) and (b) of this subsection. However, if the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is for any reason not approved and implemented, the weighted average nursing facility payment rate shall not exceed \$159.87 for fiscal year 2012 and shall not exceed \$160.93 for fiscal year 2013. There will be no adjustments for economic trends and conditions in fiscal years 2012 and 2013. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the component rate allocations established in accordance with chapter 74.46 RCW. When no economic trends and conditions factor for either fiscal year is defined in a biennial appropriations act, no economic trends and conditions factor or factors defined in any earlier biennial appropriations act shall be applied solely or compounded to the component rate allocations established in accordance with chapter 74.46 RCW.

(a) Within the funds provided, the department shall continue to provide an add-on per medicaid resident day per facility not to exceed \$1.57. The add-on shall be used to increase wages, benefits, and/or staffing levels for certified nurse aides; or to increase wages and/or benefits for dietary aides, housekeepers, laundry aides, or any other category of worker whose statewide average dollars-per-hour wage was less than \$15 in

calendar year 2008, according to cost report data. The add-on may also be used to address resulting wage compression for related job classes immediately affected by wage increases to low-wage workers. The department shall continue reporting requirements and a settlement process to ensure that the funds are spent according to this subsection.

(b) The department shall do a comparative analysis of the facility-based payment rates calculated on July 1, 2011, using the payment methodology defined in Engrossed Substitute Senate Bill No. 5581 (nursing home payments), to the facility-based payment rates in effect June 30, 2010. If the facility-based payment rate calculated on July 1, 2011, is smaller than the facility-based payment rate on June 30, 2010, then the difference shall be provided to the individual nursing facilities as an add-on payment per medicaid resident day.

(c) During the comparative analysis performed in subsection (b) of this section, if it is found that the direct care rate for any facility calculated using the payment methodology defined in Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is greater than the direct care rate in effect on June 30, 2010, then the facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.

(d) The department shall provide a medicaid rate add-on to reimburse the medicaid share of the skilled nursing facility safety net assessment as a medicaid allowable cost. The nursing facility safety net rate add-on may not be included in the calculation of the annual statewide weighted average nursing facility payment rate.

(e) If the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is for any reason not approved and implemented, subsections (b), (c), and (d) of this subsection do not apply.

(2) After examining actual nursing facility cost information, the legislature finds that the medicaid nursing facility rates calculated pursuant to Engrossed Substitute Senate Bill No. 5581 (nursing home payments) provide sufficient reimbursement to efficiently and economically operating nursing facilities and bear a reasonable relationship to costs.

(3) In accordance with chapter 74.46 RCW, the department shall issue no additional certificates of capital authorization for fiscal year 2012 and no new certificates of capital authorization for fiscal year 2013 and shall grant no rate add-ons to payment rates for capital improvements not requiring a certificate of need and a certificate of capital authorization for fiscal years 2012 and 2013.

(4) The long-term care program may develop and pay enhanced rates for exceptional care to nursing homes for persons with traumatic brain injuries who are transitioning from hospital care. The cost per patient day for caring for these clients in a nursing home setting may be equal to or less than the cost of caring for these clients in a hospital setting.

(5) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients.

(6) \$1,883,000 of the general fund--state appropriation for fiscal year 2012, \$1,883,000 of the general fund--state appropriation for fiscal year 2013, and \$3,766,000 of the general fund--federal appropriation are provided solely for state contributions for individual provider health care benefits. Pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270, the state shall contribute to the multiemployer health benefits trust fund \$1.96 per paid hour worked by individual providers.

(7) \$16,835,000 of the general fund--state appropriation for fiscal year 2012, \$17,952,000 of the general fund--state appropriation for fiscal year 2013, and \$34,786,000 of the general fund--federal appropriation are provided solely for home care agencies to purchase health coverage for home care providers. The department shall calculate and distribute payments for health care benefits to home care agencies at \$558 per month for each worker who cares for publicly funded clients at 86 hours or more per month. In order to negotiate the most comprehensive health benefits package for its employees, each agency may determine benefit levels according to the hours an employee works providing state-funded personal care. Health benefits shall be offered to all employees who care for publicly funded clients for 86 hours per month or more. At a minimum, employees who care for publicly funded clients at 140 hours a month or greater must receive a comprehensive medical benefit. Benefits shall not be provided to employees who care for publicly funded clients at 85 hours or less per month or as interim respite workers. The department shall not pay an agency for benefits provided to an employee who otherwise receives health care coverage through other family members, other employment-based coverage, or military or veteran's coverage. The department shall require annually, each home care agency to review each of its employee's available health coverage and to provide a written declaration to the department verifying that health benefits purchased with public funds are solely for employees that do not have other available coverage. Home care agencies may determine a reasonable employee co-premium not to exceed 20 percent of the total benefit cost.

(8) \$2,063,000 of the general fund--state appropriation for fiscal year 2012, \$2,195,000 of the general fund--state appropriation for fiscal year 2013, and \$4,260,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, for instructional costs associated with the training of individual providers. House Bill No. 1548 and Senate Bill No. 5473 (long-term care worker requirements) make statutory changes to the increased training requirements and therefore the state shall contribute to the partnership \$0.17 per paid hour worked by all home care workers. This amount is pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270. Expenditures for the purposes specified in this subsection shall not exceed the amounts provided in this subsection.

It is the intent of the legislature to improve the administration, transparency, and equity in delivering a K-12 employees' health benefits system. In addition, the legislature intends that any cost savings that result from changes to K-12 health benefits be dedicated to public schools.

To further this legislative intent, the state health care authority shall develop a plan to implement a consolidated health benefits' system for K-12 employees for the 2013-14 school year. The health care authority shall deliver a report to the legislature by December 15, 2011, that sets forth the implementation plan to the ways and means committees of the house of representatives and the senate.

(6) \$23,700,000 of the general fund--federal appropriation is provided solely for planning and implementation of a health benefit exchange under the federal patient protection and affordable care act. Within the amounts provided in this subsection, funds used by the authority for information technology projects are conditioned on the authority satisfying the requirements of Engrossed Second Substitute Senate Bill No. 5931 (central service agencies).

(7) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(8) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(9) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(10) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(11) \$4,261,000 of the general fund--state appropriation for fiscal year 2012, \$4,261,000 of the general fund--state appropriation for fiscal year 2013, and \$8,522,000 of the general fund--federal appropriation are provided solely for low-income disproportionate share hospital payments under RCW 74.09.730(1)(a).

(13) \$665,000 of the general fund--state appropriation for fiscal year 2012, \$665,000 of the general fund--state appropriation for fiscal year 2013, and \$1,330,000 of the general fund--federal appropriation are provided solely for small rural indigent assistance disproportionate share hospital payments in accordance with RCW 74.09.730(1).

(14) \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(15) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2011-2013 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2011, and by November 1, 2012, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2012 and fiscal year 2013, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2011-13 biennial operating appropriations act and in effect on July 1, 2011, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2011-13 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. The appropriations in this section are subject to the following conditions and limitations:

(2)(a) For the 2011-12 and 2012-13 school years, the superintendent shall allocate funding to school districts for transitional bilingual programs as provided in RCW 28A.150.260(10)(b). In calculating the allocations, the superintendent shall assume the following averages: (i) Additional instruction of 4.7780 hours per week per transitional bilingual program student; (ii) fifteen transitional bilingual program students per teacher; (iii) 36 instructional weeks per year; (iv) 900 instructional hours per teacher; and (v) the district's average staff mix and compensation rates as provided in sections 503 and 504 of this act.

(b) From July 1, 2011, to August 31, 2011, the superintendent shall allocate funding to school districts for transitional bilingual instruction programs as provided in section 514, chapter 564, Laws of 2009, as amended through section 1411 of this act.

The funding model shall also provide up to two years of bonus funding upon successful exit from the bilingual program to facilitate successful transition to a standard program of education.

(b) It is expected that per-pupil funding for level 2 proficiency will be set at the same level as would have been provided statewide prior to establishing differential per-pupil amounts; level 1 will be 125 percent of level 2; level 3 through the level prior to exit will be 75 percent of level 2; and two bonus years upon successful demonstration of proficiency will be 100 percent of level 2. Prior to implementing in school year 2012-13, the office of the superintendent of public instruction shall provide to the senate and house of representatives ways and means committees recommended rates based on the results of proficiency test procurement, expressed as both per-pupil rates and hours of instruction as provided in RCW 28A.150.260(10)(b).

## PART VI

### HIGHER EDUCATION

**NEW SECTION. Sec. 601.** The appropriations in sections 605 through 611 of this act are subject to the following conditions and limitations:

(1) "Institutions" means the institutions of higher education receiving appropriations under sections 605 through 611 of this act.

(2) The legislature, the office of financial management, and other state agencies need consistent and accurate personnel data from institutions of higher education for policy planning purposes. Institutions of higher education shall report personnel data to the department of personnel for inclusion in the department's data warehouse. Uniform reporting procedures shall be established by the department of personnel for use by the reporting institutions, including provisions for common job classifications and common definitions of full-time equivalent staff. Annual contract amounts, number of contract months, and funding sources shall be consistently reported for employees under contract.

(3) In addition to waivers granted under the authority of RCW 28B.15.910, the governing boards and the state board may waive all or a portion of operating fees for any student. State general fund appropriations shall not be provided to replace tuition and fee revenue foregone as a result of waivers granted under this subsection.

(4) The institutions of higher education receiving state appropriations under sections 605 through 611 of this act shall allot anticipated state and tuition expenditures by budget program and fiscal year.

(5) To the extent permitted by the applicable personnel system rules, and to the extent collectively bargained with represented employees, institutions of higher education are encouraged to achieve the reductions in full-time-equivalent employment and payroll levels necessary to operate within this budget through strategies that will minimize impacts on employees, their families, their communities, and short- and longer-term accomplishment of institutional mission. Institutions are encouraged to utilize strategies such as reduced work- hours per day or week, voluntary leave without pay, and temporary furloughs that enable employees to maintain permanent employment status. Institutions are further encouraged to implement such strategies in ways that will enable employees to maintain full insurance benefits, full retirement service credit, and a living wage.

(6)(a) For institutions receiving appropriations in section 605 of this act the only allowable salary increases provided are those with normally occurring promotions and increases related to faculty and staff retention. In fiscal year 2012 and fiscal year 2013, the state board for community and technical colleges may use salary and benefit savings from faculty turnover to provide salary increments and associated benefits for faculty who qualify through professional development and training.

(b) For employees under the jurisdiction of chapter 41.56 RCW, salary increases will be in accordance with the applicable collective bargaining agreement. However, an increase shall not be provided to any classified employee whose salary is above the approved salary range maximum for the class to which the employee's position is allocated.

(c) For each institution of higher education receiving appropriations under sections 606 through 611 of this act:

(i) The only allowable salary increases are those associated with normally occurring promotions and increases related to faculty and staff retention; and

(ii) Institutions may provide salary increases from other sources to instructional and research faculty at the universities and The Evergreen State College, exempt professional staff, teaching and research assistants, as classified by the office of financial management, and all other

nonclassified staff, but not including employees under RCW 28B.16.015. Any salary increase granted under the authority of this subsection (6)(c)(ii) shall not be included in an institution's salary base for future state funding. It is the intent of the legislature that state general fund support for an institution shall not increase during the current or any future biennium as a result of any salary increases authorized under this subsection (6)(c)(ii).

**NEW SECTION. Sec. 602.** (1) Within the funds appropriated in this act, each institution of higher education is expected to enroll and educate at least the following numbers of full-time equivalent state- supported students per academic year:

- (b) Maintain and to the extent possible increase enrollment opportunities at university centers and other partnership programs that enable students to earn baccalaureate degrees on community college campuses; and
- (c) Eliminate and consolidate programs of study for which there is limited student or employer demand, or that are not areas of core academic strength for the institution, particularly when such programs duplicate offerings by other in-state institutions.

**Sec. 928.** RCW 28B.15.068 and 2009 c 540 s 1 are each amended to read as follows:

(1) Beginning with the 2007-08 academic year and ending with the 2016-17 academic year, tuition fees charged to full-time resident undergraduate students, except in academic years 2009-10 and 2010-11, may increase no greater than seven percent over the previous academic year in any institution of higher education. Annual reductions or increases in full-time tuition fees for resident undergraduate students shall be as provided in the omnibus appropriations act, within the seven percent increase limit established in this section. For academic years 2009-10 and 2010-11 the omnibus appropriations act may provide tuition increases greater than seven percent. To the extent that state appropriations combined with tuition and fee revenues are insufficient to achieve the total per-student funding goals established in subsection (2) of this section, the legislature may revisit state appropriations, authorized enrollment levels, and changes in tuition fees for any given fiscal year. In order to facilitate the full implementation of chapter . . . (Engrossed Second Substitute House Bill No. 1795), Laws of 2011 1st sp. sess. for the 2011-12 academic year and thereafter, the institutions of higher education are authorized to adopt tuition levels that are less than, equal to, or greater than the tuition levels assumed in the omnibus appropriations act, subject to the conditions and limitations in this chapter and the omnibus appropriations act.

(2) The state shall adopt as its goal total per-student funding levels, from state appropriations plus tuition and fees, of at least the sixtieth percentile of total per-student funding at similar public institutions of higher education in the global challenge states. In defining comparable per-student funding levels, the office of financial management shall adjust for regional cost-of-living differences; for differences in program offerings and in the relative mix of lower division, upper division, and graduate students; and for accounting and reporting differences among the comparison institutions. The office of financial management shall develop a funding trajectory for each four-year institution of higher education and for the community and technical college system as a whole that when combined with tuition and fees revenue allows the state to achieve its funding goal for each four-year institution and the community and technical college system as a whole no later than fiscal year 2017. The state shall not reduce enrollment levels below fiscal year 2007 budgeted levels in order to improve or alter the per-student funding amount at any four-year institution of higher education or the community and technical college system as a whole. The state recognizes that each four-year institution of higher education and the community and technical college system as a whole have different funding requirements to achieve desired performance levels, and that increases to the total per-student funding amount may need to exceed the minimum funding goal.

(3) By September 1st of each year beginning in 2008, the office of financial management shall report to the governor, the higher education coordinating board, and appropriate committees of the legislature with updated estimates of the total per-student funding level that represents the sixtieth percentile of funding for comparable institutions of higher education in the global challenge states, and the progress toward that goal that was made for each of the public institutions of higher education.

(4) As used in this section, "global challenge states" are the top performing states on the new economy index published by the progressive policy institute as of July 22, 2007. The new economy index ranks states on indicators of their potential to compete in the new economy. At least once every five years, the office of financial management shall determine if changes to the list of global challenge states are appropriate. The office of financial management shall report its findings to the governor and the legislature.

(5) During the 2009-10 and the 2010-11 academic years, institutions of higher education shall include information on their billing statements notifying students of tax credits available through the American opportunity tax credit provided in the American recovery and reinvestment act of 2009.

When conditions in RCW 28B.116.070 are met, the higher education coordinating board shall deposit state matching moneys from the trust fund into the foster care scholarship endowment fund.

(3) No appropriation is required for expenditures from the trust fund.

(4) During the 2011-2013 fiscal biennium, the legislature may transfer from the foster care endowed scholarship trust fund to the state general fund such amounts as reflect the excess fund balance of the account.

**Sec. 930.** RCW 28C.04.535 and 1995 1st sp.s. c 7 s 4 are each amended to read as follows:

Fees paid under this subsection shall be deposited in the retirement system expense fund.

If those reports were not both timely and accurate the department may prospectively assess an additional fee under this subsection.

(b) An additional fee assessed by the department under this subsection shall not exceed fifty percent of the standard fee.

(c) The department shall adopt rules implementing this section.

(6) Expenses other than those under RCW 41.34.060(3) shall be paid pursuant to subsection (1) of this section.

The legislature shall appropriate from the department of personnel service fund for the payment of administrative costs of the productivity board. **Sec. 938.** RCW 41.80.010 and 2010 c 104 s 1 are each amended to read as follows:

(1) For the purpose of negotiating collective bargaining agreements under this chapter, the employer shall be represented by the governor or governor's designee, except as provided for institutions of higher education in subsection (4) of this section.

(2)(a) If an exclusive bargaining representative represents more than one bargaining unit, the exclusive bargaining representative shall negotiate with each employer representative as designated in subsection (1) of this section one master collective bargaining agreement on behalf of all the employees in bargaining units that the exclusive bargaining representative represents. For those exclusive bargaining representatives who represent fewer than a total of five hundred employees each, negotiation shall be by a coalition of all those exclusive bargaining representatives. The coalition shall bargain for a master collective bargaining agreement covering all of the employees represented by the coalition. The governor's designee and the exclusive bargaining representative or representatives are authorized to enter into supplemental bargaining of agency-specific issues for inclusion in or as an addendum to the master collective bargaining agreement, subject to the parties' agreement regarding the issues and procedures for supplemental bargaining. This section does not prohibit cooperation and coordination of bargaining between two or more exclusive bargaining representatives.

(b) This subsection (2) does not apply to exclusive bargaining representatives who represent employees of institutions of higher education, except when the institution of higher education has elected to exercise its option under subsection (4) of this section to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section.

(c) If five hundred or more employees of an independent state elected official listed in RCW 43.01.010 are organized in a bargaining unit or bargaining units under RCW 41.80.070, the official shall be consulted by the governor or the governor's designee before any agreement is reached under (a) of this subsection concerning supplemental bargaining of agency specific issues affecting the employees in such bargaining unit.

(3) The governor shall submit a request for funds necessary to implement the compensation and fringe benefit provisions in the master collective bargaining agreement or for legislation necessary to implement the agreement. Requests for funds necessary to implement the provisions of bargaining agreements shall not be submitted to the legislature by the governor unless such requests:

(a) Have been submitted to the director of the office of financial management by October 1 prior to the legislative session at which the requests are to be considered; and

(b) Have been certified by the director of the office of financial management as being feasible financially for the state.

The legislature shall approve or reject the submission of the request for funds as a whole. The legislature shall not consider a request for funds to implement a collective bargaining agreement unless the request is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060. If the legislature rejects or fails to act on the submission, either party may reopen all or part of the agreement or the exclusive bargaining representative may seek to implement the procedures provided for in RCW 41.80.090.

(4)(a)(i) For the purpose of negotiating agreements for institutions of higher education, the employer shall be the respective governing board of each of the universities, colleges, or community colleges or a designee chosen by the board to negotiate on its behalf.

(ii) A governing board of a university or college may elect to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section, except that:

(A) The governor or the governor's designee and an exclusive bargaining representative shall negotiate one master collective bargaining agreement for all of the bargaining units of employees of a university or college that the representative represents; or

(B) If the parties mutually agree, the governor or the governor's designee and an exclusive bargaining representative shall negotiate one master collective bargaining agreement for all of the bargaining units of employees of more than one university or college that the representative represents.

(iii) A governing board of a community college may elect to have its negotiations conducted by the governor or governor's designee under the procedures provided for general government agencies in subsections (1) through (3) of this section.

(b) Prior to entering into negotiations under this chapter, the institutions of higher education or their designees shall consult with the director of the office of financial management regarding financial and budgetary issues that are likely to arise in the impending negotiations.

(c)(i) If appropriations are necessary to implement the compensation and fringe benefit provisions of the bargaining agreements reached between institutions of higher education and exclusive bargaining representatives agreed to under the provisions of this chapter, the governor shall submit a request for such funds to the legislature according to the provisions of subsection (3) of this section, except as provided in (c)(ii) of this subsection.

(ii) In the case of a bargaining unit of employees of institutions of higher education in which the exclusive bargaining representative is certified during or after the conclusion of a legislative session, the legislature may act upon the compensation and fringe benefit provisions of the unit's initial collective bargaining agreement if those provisions are agreed upon and submitted to the office of financial management and legislative budget committees before final legislative action on the biennial or supplemental operating budget by the sitting legislature.

(5) There is hereby created a joint committee on employment relations, which consists of two members with leadership positions in the house of representatives, representing each of the two largest caucuses; the chair and ranking minority member of the house appropriations committee, or its successor, representing each of the two largest caucuses; two members with leadership positions in the senate, representing each of the two largest caucuses; and the chair and ranking minority member of the senate ways and means committee, or its successor, representing each of the two largest caucuses. The governor shall periodically consult with the committee regarding appropriations necessary to implement the compensation and fringe benefit provisions in the master collective bargaining agreements, and upon completion of negotiations, advise the committee on the elements of the agreements and on any legislation necessary to implement the agreements.

(6) If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement.

(7) After the expiration date of a collective bargaining agreement negotiated under this chapter, all of the terms and conditions specified in the collective bargaining agreement remain in effect until the effective date of a subsequently negotiated agreement, not to exceed one year from the expiration date stated in the agreement. Thereafter, the employer may unilaterally implement according to law.

(8) For the 2011-2013 fiscal biennium, a collective bargaining agreement related to employee health care benefits negotiated between the employer and coalition pursuant to RCW 41.80.020(3) regarding the dollar amount expended on behalf of each employee shall be a separate agreement for which the governor may request funds necessary to implement the agreement. If such an agreement is negotiated and funded by the legislature, this agreement will supersede any terms and conditions of an expired 2009-2011 biennial master collective bargaining agreement under this chapter regarding health care benefits.

**Sec. 939.** RCW 41.80.020 and 2010 c 283 s 16 are each amended to read as follows:

(1) Except as otherwise provided in this chapter, the matters subject to bargaining include wages, hours, and other terms and conditions of employment, and the negotiation of any question arising under a collective bargaining agreement.

(3) Matters subject to bargaining include the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits. However, except as provided otherwise in this subsection for institutions of higher education, negotiations regarding the number of names to be certified for vacancies, promotional preferences, and the dollar amount expended on behalf of each employee for health care benefits shall be conducted between the employer and one coalition of all the exclusive bargaining representatives subject to this chapter. The exclusive bargaining representatives for employees that are subject to chapter 47.64 RCW shall bargain the dollar amount expended on behalf of each employee for health care benefits with the employer as part of the coalition under this subsection. Any such provision agreed to by the employer and the coalition shall be included in all master collective bargaining agreements negotiated by the parties. For institutions of higher education, promotional preferences and the number of names to be certified for vacancies shall be bargained under the provisions of RCW 41.80.010(4). For agreements covering the 2011-2013 fiscal biennium, any agreement between the employer and the coalition regarding the dollar amount expended on behalf of each employee for health care benefits is a separate agreement and shall not be included in the master collective bargaining agreements negotiated by the parties.

(4) The employer and the exclusive bargaining representative shall not agree to any proposal that would prevent the implementation of approved affirmative action plans or that would be inconsistent with the comparable worth agreement that provided the basis for the salary changes implemented beginning with the 1983-1985 biennium to achieve comparable worth.

(5) The employer and the exclusive bargaining representative shall not bargain over matters pertaining to management rights established in RCW 41.80.040.

(6) Except as otherwise provided in this chapter, if a conflict exists between an executive order, administrative rule, or agency policy relating to wages, hours, and terms and conditions of employment and a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with the terms of a statute is invalid and unenforceable.

(7) This section does not prohibit bargaining that affects contracts authorized by RCW 41.06.142.

**Sec. 940.** RCW 43.07.129 and 2007 c 523 s 4 are each amended to read as follows:

The allocation shall precede the distribution of the remaining earnings as prescribed under RCW 43.79A.040 and 43.84.092. The state treasurer shall establish a uniform allocation rate for all funds and accounts; except that the state treasurer may negotiate a different allocation rate with any state agency that has independent authority over funds not statutorily required to be held in the state treasury or in the custody of the state treasurer. In no event shall the rate be less than the actual costs incurred by the state treasurer's office. If no rate is separately negotiated, the default rate for any funds held shall be the rate set for funds held pursuant to statute.

During the 2009-2011 fiscal biennium and the 2011-2013 fiscal biennium, the legislature may transfer from the state treasurer's service fund to the state general fund such amounts as reflect the excess fund balance of the fund.

Only the state auditor or the state auditor's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. During the 2009-2011 fiscal biennium, the legislature may transfer from the performance audits of government account to the state general fund such amounts as deemed to be appropriate or necessary. (2) The department, through the sole authority of the office or its successor organization, shall maintain a program where telecommunications relay services of a human or electronic nature will be provided to connect hearing impaired, deaf-blind, or speech impaired persons with persons who do not have a hearing or speech impairment. Such telecommunications relay services shall provide the ability for an individual who has a hearing or speech impairment to engage in voice, tactile, or visual communication by wire or radio with a hearing individual in a manner that is functionally equivalent to the ability of an individual who does not have a hearing or speech impairment to communicate using voice or visual communication services by wire or radio subject to subsection (4)(b) of this section.

(3) The telecommunications relay service and equipment distribution program may operate in such a manner as to provide communications transmission opportunities that are capable of incorporating new technologies that have demonstrated benefits consistent with the intent of this chapter and are in the best interests of the citizens of this state.

(4) The office shall administer and control the award of money to all parties incurring costs in implementing and maintaining telecommunications services, programs, equipment, and technical support services according to this section. The relay service contract shall be awarded to an individual company registered as a telecommunications company by the utilities and transportation commission, to a group of registered telecommunications companies, or to any other company or organization determined by the office as qualified to provide relay services, contingent upon that company or organization being approved as a registered telecommunications company prior to final contract approval. The relay system providers and telecommunications equipment vendors shall be selected on the basis of cost-effectiveness and utility to the greatest extent possible under the program and technical specifications established by the office.

(a) To the extent funds are available under the then-current rate and not otherwise held in reserve or required for other purposes authorized by this chapter, the office may award contracts for communications and related services and equipment for hearing impaired or speech impaired individuals accessing or receiving services provided by, or contracted for, the department to meet access obligations under Title 2 of the federal Americans with disabilities act or related federal regulations.

(5) The program shall be funded by a telecommunications relay service (TRS) excise tax applied to each switched access line provided by the local exchange companies. The office shall determine, in consultation with the office's program advisory committee, the budget needed to fund the program on an annual basis, including both operational costs and a reasonable amount for capital improvements such as equipment upgrade and replacement. The budget proposed by the office, together with documentation and supporting materials, shall be submitted to the office of financial management for review and approval. The approved budget shall be given by the department in an annual budget to the department of revenue no later than March 1st prior to the beginning of the fiscal year. The department of revenue shall then determine the amount of telecommunications relay service excise tax to be placed on each switched access line and shall inform local exchange companies and the utilities

and transportation commission of this amount no later than May 1st. "Switched access line" has the meaning provided in RCW 82.14B.020.

(6) The telecommunications relay service program and equipment vendors shall provide services and equipment consistent with the requirements of federal law for the operation of both interstate and intrastate telecommunications services for the hearing impaired or speech impaired. The department and the utilities and transportation commission shall be responsible for ensuring compliance with federal requirements and shall provide timely notice to the legislature of any legislation that may be required to accomplish compliance.

(3) The moneys deposited in the municipal criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under subsection (7) of this section, ~~((shall))~~ must be distributed at such times as distributions are made under RCW 82.44.150. The distributions ~~((shall))~~ must be made as follows:

(a) Unless reduced by this subsection, thirty percent of the moneys ~~((shall))~~ must be distributed ratably based on population as last determined by the office of financial management to those cities eligible under subsection (2) of this section that have a crime rate determined under subsection (2)(a) of this section which is greater than one hundred seventy-five percent of the statewide average crime rate. No city may receive more than fifty percent of any moneys distributed under this subsection (a) but, if a city distribution is reduced as a result of exceeding the fifty percent limitation, the amount not distributed ~~((shall))~~ must be distributed under (b) of this subsection.

(b) The remainder of the moneys, including any moneys not distributed in subsection (2)(a) of this section, ~~((shall))~~ must be distributed to all cities eligible under subsection (2) of this section ratably based on population as last determined by the office of financial management.

(4) No city may receive more than thirty percent of all moneys distributed under subsection (3) of this section.

(5) Notwithstanding other provisions of this section, the distributions to any city that substantially decriminalizes or repeals its criminal code after July 1, 1990, and that does not reimburse the county for costs associated with criminal cases under RCW 3.50.800 or 3.50.805(2), ~~((shall))~~ must be made to the county in which the city is located.

(6) Moneys distributed under this section ~~((shall))~~ must be expended exclusively for criminal justice purposes and ~~((shall))~~ may not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020, and publications and public educational efforts designed to provide information and assistance to parents in dealing with runaway or at-risk youth. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to

reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

(7) Not more than five percent of the funds deposited to the municipal criminal justice assistance account ~~((shall))~~ may be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements. Funds appropriated from this account for such enhancements ~~((shall))~~ may not supplant existing funds from the state general fund.

(8) During the 2011-2013 fiscal biennium, the amount that would otherwise be transferred into the municipal criminal justice assistance account from the general fund under subsection (1) of this section must be reduced by 3.4 percent.

**Sec. 972.** RCW 82.14.330 and 2003 c 90 s 1 are each amended to read as follows:

(1)(a) Beginning in fiscal year 2000, the state treasurer ~~((shall))~~ must transfer into the municipal criminal justice assistance account for distribution under this section from the general fund the sum of four million six hundred thousand dollars divided into four equal deposits occurring on July 1, October 1, January 1, and April 1. For each fiscal year thereafter, the state treasurer ~~((shall))~~ must increase the total transfer by the fiscal growth factor, as defined in RCW 43.135.025, forecast for that fiscal year by the office of financial management in November of the preceding year. The moneys deposited in the municipal criminal justice assistance account for distribution under this section, less any moneys appropriated for purposes under subsection (4) of this section, ~~((shall))~~ must be distributed to the cities of the state as follows:

~~((a))~~ (i) Twenty percent appropriated for distribution ~~((shall))~~ must be distributed to cities with a three-year average violent crime rate for each one thousand in population in excess of one hundred fifty percent of the statewide three-year average violent crime rate for each one thousand in population. The three-year average violent crime rate ~~((shall))~~ must be calculated using the violent crime rates for each of the preceding three years from the annual reports on crime in Washington state as published by the Washington association of sheriffs and police chiefs. Moneys ~~((shall))~~ must be distributed under this subsection (1)(a) ratably based on population as last determined by the office of financial management, but no city may receive more than one dollar per capita. Moneys remaining undistributed under this subsection at the end of each calendar year ~~((shall))~~ must be distributed to the criminal justice training commission to reimburse participating city law enforcement agencies with ten or fewer full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training, as provided in RCW 43.101.200.

~~((b))~~ (ii) Sixteen percent ~~((shall))~~ must be distributed to cities ratably based on population as last determined by the office of financial management, but no city may receive less than one thousand dollars.

(b) The moneys deposited in the municipal criminal justice assistance account for distribution under this subsection ~~((shall))~~ (1) must be distributed at such times as distributions are made under RCW 82.44.150.

(c) Moneys distributed under this subsection ~~((shall))~~ (1) must be expended exclusively for criminal justice purposes and ~~((shall))~~ may not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

(2)(a) In addition to the distributions under subsection (1) of this section:

~~((a))~~ (i) Ten percent ~~((shall))~~ must be distributed on a per capita basis to cities that contract with another governmental agency for the majority of the city's law enforcement services. Cities that subsequently qualify for this distribution ~~((shall))~~ must notify the department of ~~((community, trade, and economic development))~~ commerce by November 30th for the upcoming calendar year. The department of ~~((community, trade, and economic development))~~ commerce must provide a list of eligible cities to the state treasurer by December 31st. The state treasurer ~~((shall))~~ must modify the distribution of these funds in the following year. Cities have the responsibility to notify the department of ~~((community, trade, and economic development))~~ commerce of any changes regarding these contractual relationships. Adjustments in the distribution formula to add or delete cities may be made only for the upcoming calendar year; no adjustments may be made retroactively.

~~((b))~~ (ii) The remaining fifty-four percent ~~((shall))~~ must be distributed to cities and towns by the state treasurer on a per capita basis. These funds ~~((shall))~~ must be used for: ~~((i))~~ (A) Innovative law enforcement strategies; ~~((ii))~~ (B) programs to help at-risk children or child abuse victim response programs; and ~~((iii))~~ (C) programs designed to reduce the level of domestic violence or to provide counseling for domestic violence victims.

(b) The moneys deposited in the municipal criminal justice assistance account for distribution under this subsection (2), less any moneys appropriated for purposes under subsection (4) of this section, ~~((shall))~~ must be distributed at the times as distributions are made under RCW 82.44.150. Moneys remaining undistributed under this subsection at the end of each calendar year ~~((shall))~~ must be distributed to the criminal justice training commission to reimburse participating city law enforcement agencies with ten or fewer full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training, as provided in RCW 43.101.200.

(c) If a city is found by the state auditor to have expended funds received under this subsection (2) in a manner that does not comply with the criteria under which the moneys were received, the city ~~((shall be))~~ is ineligible to receive future distributions under this subsection (2) until the use of the moneys are justified to the satisfaction of the director or are repaid to the state general fund.

(3) Notwithstanding other provisions of this section, the distributions to any city that substantially decriminalizes or repeals its criminal code after July 1, 1990, and that does not reimburse the county for costs associated with criminal cases under RCW 3.50.800 or 3.50.805(2), ~~((shall))~~ must be made to the county in which the city is located.

(4) Not more than five percent of the funds deposited to the municipal criminal justice assistance account ~~((shall))~~ may be available for appropriations for enhancements to the state patrol crime laboratory system and the continuing costs related to these enhancements. Funds appropriated from this account for such enhancements ~~((shall))~~ may not supplant existing funds from the state general fund.

(5) During the 2011-2013 fiscal biennium, the amount that would otherwise be transferred into the municipal criminal justice assistance account from the general fund under subsection (1) of this section must be reduced by 3.4 percent.

**Sec. 973.** RCW 82.14.390 and 2008 c 48 s 1 are each amended to read as follows:

(1) Except as provided in subsection (7) of this section, the governing body of a public facilities district (a) created before July 31, 2002, under chapter 35.57 or 36.100 RCW that commences construction of a new regional center, or improvement or rehabilitation of an existing new regional center, before January 1, 2004; (b) created before July 1, 2006, under chapter 35.57 RCW in a county or counties in which there are no other public facilities districts on June 7, 2006, and in which the total population in the public facilities district is greater than ninety thousand that commences construction of a new regional center before February 1, 2007; (c) created under the authority of RCW 35.57.010(1)(d); or (d) created before September 1, 2007, under chapter 35.57 or 36.100 RCW, in a county or counties in which there are no other public facilities districts on July 22, 2007, and in which the total population in the public facilities district is greater than seventy thousand, that commences construction of a new regional center before January 1, 2009, or before January 1, 2011, in the case of a new regional center in a county designated by the president as a disaster area in December 2007, may impose a sales and use tax in accordance with the terms of this chapter. The tax is in addition to other taxes authorized by law and ~~((shall))~~ must be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the public facilities district. The rate of tax ~~((shall))~~ may not exceed 0.033 percent of the selling price in the case of a sales tax or value of the article used in the case of a use tax.

(2)(a) The governing body of a public facilities district imposing a sales and use tax under the authority of this section may increase the rate of tax up to 0.037 percent if, within three fiscal years of July 1, 2008, the department determines that, as a result of RCW 82.14.490 and the chapter 6, Laws of 2007 amendments to RCW 82.14.020, a public facilities district's sales and use tax collections for fiscal years after July 1, 2008, have been reduced by a net loss of at least 0.50 percent from the fiscal year before July 1, 2008. The fiscal year in which this section becomes effective is the first fiscal year after July 1, 2008.

(b) The department ~~((shall))~~ must determine sales and use tax collection net losses under this section as provided in RCW 82.14.500 (2) and (3). The department ~~((shall))~~ must provide written notice of its determinations to public facilities districts. Determinations by the department of a public facilities district's sales and use tax collection net losses as a result of RCW 82.14.490 and the chapter 6, Laws of 2007 amendments to RCW 82.14.020 are final and not appealable.

(c) A public facilities district may increase its rate of tax after it has received written notice from the department as provided in (b) of this subsection. The increase in the rate of tax must be made in 0.001 percent increments and must be the least amount necessary to mitigate the net loss in sales and use tax collections as a result of RCW 82.14.490 and the chapter 6, Laws of 2007 amendments to RCW 82.14.020. The increase in the rate of tax is subject to RCW 82.14.055.

(3) The tax imposed under subsection (1) of this section ~~((shall))~~ must be deducted from the amount of tax otherwise required to be collected or paid over to the department of revenue under chapter 82.08 or 82.12 RCW. The department of revenue ~~((shall))~~ must perform the collection of such taxes on behalf of the county at no cost to the public facilities district. During the 2011-2013 fiscal biennium, distributions by the state to a public facilities district based on the additional rate authorized in subsection (2) of this section must be reduced by 3.4 percent.

(4) No tax may be collected under this section before August 1, 2000. The tax imposed in this section ~~((shall))~~ expires when the bonds issued for the construction of the regional center and related parking facilities are retired, but not more than twenty-five years after the tax is first collected.

(5) Moneys collected under this section ~~((shall))~~ may only be used for the purposes set forth in RCW 35.57.020 and must be matched with an amount from other public or private sources equal to thirty-three percent of the amount collected under this section ~~((, provided that))~~; however, amounts generated from nonvoter approved taxes authorized under chapter 35.57 RCW or nonvoter approved taxes authorized under chapter 36.100 RCW ~~((shall))~~ do not constitute a public or private source. For the purpose of this section, public or private sources includes, but is not limited to cash or in-kind contributions used in all phases of the development or improvement of the regional center, land that is donated and used for the siting of the regional center, cash or in-kind contributions from public or private foundations, or amounts attributed to private sector partners as part of a public and private partnership agreement negotiated by the public facilities district.

(6) The combined total tax levied under this section ~~((shall))~~ may not be greater than 0.037 percent. If both a public facilities district created under chapter 35.57 RCW and a public facilities district created under chapter 36.100 RCW impose a tax under this section, the tax imposed by a public facilities district created under chapter 35.57 RCW ~~((shall))~~ must be credited against the tax imposed by a public facilities district created under chapter 36.100 RCW.

(7) A public facilities district created under chapter 36.100 RCW is not eligible to impose the tax under this section if the legislative authority of the county where the public facilities district is located has imposed a sales and use tax under RCW 82.14.0485 or 82.14.0494.

**Sec. 974.** RCW 82.14.500 and 2007 c 6 s 903 are each amended to read as follows:

(1)(a) In order to mitigate local sales tax revenue net losses as a result of the sourcing provisions of the streamlined sales and use tax agreement under this title, the state treasurer ~~((shall)), on July 1, 2011, and each July 1st thereafter, must~~ transfer into the streamlined sales and use tax mitigation account from the general fund ~~((the sum of thirty one million six hundred thousand dollars on July 1, 2008. On July 1, 2009, and each July 1st thereafter, the state treasurer shall transfer into the streamlined sales and use tax mitigation account from the general fund))~~ the sum required to mitigate actual net losses as determined under this section.

(b) During the 2011-2013 fiscal biennium, the amount that would otherwise be transferred under (a) of this subsection must be reduced by 3.4 percent.

(2) Beginning July 1, 2008, and continuing until the department determines annual losses under subsection (3) of this section, the department ~~((shall))~~ must determine the amount of local sales tax net loss each local taxing jurisdiction experiences as a result of the sourcing provisions of the streamlined sales and use tax agreement under this title each calendar quarter. The department ~~((shall))~~ must determine losses by analyzing and comparing data from tax return information and tax collections for each local taxing jurisdiction before and after July 1, 2008, on a calendar quarter basis. The department's analysis may be revised and supplemented in consultation with the oversight committee as provided in subsection (4) of this section. To determine net losses, the department ~~((shall))~~ must reduce losses by the amount of voluntary compliance revenue for the calendar quarter analyzed. Beginning December 31, 2008, distributions ~~((shall))~~ must be made quarterly from the streamlined sales and use tax mitigation account by the state treasurer, as directed by the department, to each local taxing jurisdiction, other than public facilities districts for losses in respect to taxes imposed under the authority of RCW 82.14.390, in an amount representing its net losses for the previous calendar quarter. Distributions ~~((shall))~~ must be made on the last working day of each calendar quarter and ~~((shall))~~ must cease when distributions under subsection (3) of this section begin.

(3)(a) By December 31, 2009, or such later date the department in consultation with the oversight committee determines that sufficient data is available, the department ~~((shall))~~ must determine each local taxing jurisdiction's annual loss. The department ~~((shall))~~ must determine annual

losses by comparing at least twelve months of data from tax return information and tax collections for each local taxing jurisdiction before and after July 1, 2008. The department ~~((shall))~~ is not ~~((be))~~ required to determine annual losses on a recurring basis, but may make any adjustments to annual losses as it deems proper as a result of the annual reviews provided in (b) of this subsection. Beginning the calendar quarter in which the department determines annual losses, and each calendar quarter thereafter, distributions ~~((shall))~~ must be made from the streamlined sales and use tax mitigation account by the state treasurer on the last working day of the calendar quarter, as directed by the department, to each local taxing jurisdiction, other than public facilities districts for losses in respect to taxes imposed under the authority of RCW 82.14.390, in an amount representing one-fourth of the jurisdiction's annual loss reduced by voluntary compliance revenue reported during the previous calendar quarter.

(b) The department's analysis of annual losses ~~((shall))~~ must be reviewed by December 1st of each year and may be revised and supplemented in consultation with the oversight committee as provided in subsection (4) of this section.

(4) The department ~~((shall))~~ must convene an oversight committee to assist in the determination of losses. The committee ~~((shall))~~ includes one representative of one city whose revenues are increased, one representative of one city whose revenues are reduced, one representative of one county whose revenues are increased, one representative of one county whose revenues are decreased, one representative of one transportation authority under RCW 82.14.045 whose revenues are increased, and one representative of one transportation authority under RCW 82.14.045 whose revenues are reduced, as a result of RCW 82.14.490 and the chapter 6, Laws of 2007 amendments to RCW 82.14.020. Beginning July 1, 2008, the oversight committee ~~((shall))~~ must meet quarterly with the department to review and provide additional input and direction on the department's analyses of losses. Local taxing jurisdictions may also present to the oversight committee additional information to improve the department's analyses of the jurisdiction's loss. Beginning January 1, 2010, the oversight committee ~~((shall))~~ must meet at least annually with the department by December 1st.

(5) The rule-making provisions of chapter 34.05 RCW do not apply to this section.

**Sec. 975.** RCW 82.45.060 and 2005 c 450 s 1 are each amended to read as follows:

There is imposed an excise tax upon each sale of real property at the rate of one and twenty-eight one-hundredths percent of the selling price. An amount equal to six and one-tenth percent of the proceeds of this tax to the state treasurer ~~((shall))~~ must be deposited in the public works assistance account created in RCW 43.155.050. Except as otherwise provided in this section, an amount equal to one and six-tenths percent of the proceeds of this tax to the state treasurer ~~((shall))~~ must be deposited in the city-county assistance account created in RCW 43.08.290. During the 2011-2013 fiscal biennium, 1.546 percent of the proceeds of this tax to the state treasurer must be deposited in the city-county assistance account.

**PART XI**

**HUMAN SERVICES**

**Sec. 1101.** 2010 1st sp.s. c 37 s 201 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.** (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act.

(4) The department is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP), the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county, during the 2009-2011 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot project, times the number of clients enrolled in the pilot project. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(5)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, ~~((2010))~~ 2011, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year ~~((2010))~~ 2011 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year ~~((2010))~~ 2011 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoptions support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(6) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

The appropriations in this section are subject to the following conditions and limitations:

(1) \$937,000 of the general fund--state appropriation for fiscal year 2010 and \$696,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to contract for the operation of one pediatric interim care facility. The facility shall provide residential care for up to thirteen children through two years of age. Seventy-five percent of the children served by the facility must be in need of special care as a result of substance abuse by their mothers. The facility shall also provide on-site training to biological, adoptive, or foster parents. The facility shall provide at least three months of consultation and support to parents accepting placement of children from the facility. The facility may recruit new and current foster and adoptive parents for infants served by the facility. The department shall not require case management as a condition of the contract.

(2) \$369,000 of the general fund--state appropriation for fiscal year 2010, \$343,000 of the general fund--state appropriation for fiscal year 2011, and \$306,000 of the general fund--federal appropriation are provided solely for up to three nonfacility-based programs for the training, consultation, support, and recruitment of biological, foster, and adoptive parents of children through age three in need of special care as a result of substance abuse by their mothers, except that each program may serve up to three medically fragile nonsubstance-abuse- affected children. In selecting nonfacility-based programs, preference shall be given to programs whose federal or private funding sources have expired or that have successfully performed under the existing pediatric interim care program.

(3) \$2,500,000 of the general fund--state appropriation for fiscal year 2010 and \$46,000 of the general fund--state appropriation for fiscal year 2011, and \$2,098,000 of the home security fund--state appropriation are provided solely for secure crisis residential centers. Within appropriated amounts, the department shall collaborate with providers to maintain no less than forty-five beds that are geographically representative of the state. The department shall examine current secure crisis residential staffing requirements, flexible payment options, center specific waivers, and other appropriate methods to accomplish this outcome.

(4) A maximum of \$69,190,000 of the general fund--state appropriations and \$54,443,000 of the general fund--federal appropriations for the 2009-11 biennium shall be expended for behavioral rehabilitative services and these amounts are provided solely for this purpose. The department shall work with behavioral rehabilitative service providers to safely keep youth with emotional, behavioral, or medical needs at home, with relatives, or with other permanent placement resources and decrease the length of service through improved emotional, behavioral, or medical outcomes for children in behavioral rehabilitative services in order to achieve the appropriated levels.

(a) Contracted providers shall act in good faith and accept the hardest to serve children, to the greatest extent possible, in order to improve their emotional, behavioral, or medical conditions.

(b) The department and the contracted provider shall mutually agree and establish an exit date for when the child is to exit the behavioral rehabilitative service provider. The department and the contracted provider should mutually agree, to the greatest extent possible, on a viable placement for the child to go to once the child's treatment process has been completed. The child shall exit only when the emotional, behavioral, or medical condition has improved or if the provider has not shown progress toward the outcomes specified in the signed contract at the time of exit. This subsection (b) does not prevent or eliminate the department's responsibility for removing the child from the provider if the child's emotional, behavioral, or medical condition worsens or is threatened.

(c) The department is encouraged to use performance-based contracts with incentives directly tied to outcomes described in this section. The contracts should incentivize contracted providers to accept the hardest to serve children and incentivize improvement in children's emotional, mental, and medical well-being within the established exit date. The department is further encouraged to increase the use of behavioral rehabilitative service group homes, wrap around services to facilitate and support placement of youth at home with relatives, or other permanent resources, and other means to control expenditures.

(d) The total foster care per capita amount shall not increase more than four percent in the 2009-11 biennium and shall not include behavioral rehabilitative service.

(5) Within amounts provided for the foster care and adoption support programs, the department shall control reimbursement decisions for foster care and adoption support cases such that the aggregate average cost per case for foster care and for adoption support does not exceed the amounts assumed in the projected caseload expenditures.

The department shall establish a measurable goal and report progress toward meeting that goal to the legislature by January 15 of each fiscal year of the 2009-11 fiscal biennium. To the extent that actual caseloads exceed those assumed in this section, it is the intent of the legislature to address those issues in a manner similar to all other caseload programs.

The department shall provide an update to the appropriate legislative committees and governor on the status of the pilot project implementation by December 1, 2010.

(2) \$3,408,000 of the general fund--state appropriation for fiscal year 2010 and \$2,716,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the implementation of chapter 338, Laws of 1997 (juvenile code revisions). The amounts provided in this subsection are intended to provide funding for county impacts associated with the implementation of chapter 338, Laws of 1997 and shall be distributed to counties as prescribed in the current consolidated juvenile services (CJS) formula.

(3) \$3,716,000 of the general fund--state appropriation for fiscal year 2010 and \$3,482,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to implement community juvenile accountability grants pursuant to chapter 338, Laws of 1997 (juvenile code revisions). Funds provided in this subsection may be used solely for community juvenile accountability grants, administration of the grants, and evaluations of programs funded by the grants.

(4) \$1,427,000 of the general fund--state appropriation for fiscal year 2010 and \$1,130,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to implement alcohol and substance abuse treatment programs for locally committed offenders. The juvenile rehabilitation administration shall award these moneys on a competitive basis to counties that submitted a plan for the provision of services approved by the division of alcohol and substance abuse. The juvenile rehabilitation administration shall develop criteria for evaluation of plans submitted and a timeline for awarding funding and shall assist counties in creating and submitting plans for evaluation.

(5) \$3,066,000 of the general fund--state appropriation for fiscal year 2010 and \$2,873,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to county juvenile courts for the following programs identified by the Washington state institute for public policy (institute) in its October 2006 report: "Evidence-Based Public Policy Options to Reduce Future Prison Construction, Criminal Justice Costs and Crime Rates": Functional family therapy, multi-systemic therapy, aggression replacement training and interagency coordination programs, or other programs with a positive benefit-cost finding in the institute's report. County juvenile courts shall apply to the juvenile rehabilitation administration for funding for program-specific participation and the administration shall provide grants to the courts consistent with the per-participant treatment costs identified by the institute.

(6) \$1,287,000 of the general fund--state appropriation for fiscal year 2010 and \$1,287,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for expansion of the following treatments and therapies in juvenile rehabilitation administration programs identified by the Washington state institute for public policy in its October 2006 report: "Evidence-Based Public Policy Options to Reduce Future Prison Construction, Criminal Justice Costs and Crime Rates": Multidimensional treatment foster care, family integrated transitions, and aggression replacement training. The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

(7)(a) For the fiscal year ending June 30, 2011, the juvenile rehabilitation administration shall administer a block grant, rather than categorical funding, of consolidated juvenile service funds, community juvenile accountability act grants, the chemical dependency disposition alternative funds, the mental health disposition alternative, and the sentencing disposition alternative for the purpose of serving youth adjudicated in the juvenile justice system. In making the block grant, the juvenile rehabilitation administration shall follow the following formula and will prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for moderate and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency disposition alternative; and (vi) two percent for the mental health and sentencing dispositional alternatives. Funding for the special sex offender disposition alternative (SSODA) shall not be included in the block grant, but allocated on the average daily population in juvenile courts. Funding for the evidence-based expansion grants shall be excluded from the block grant formula. Funds may be used for promising practices when approved by the juvenile rehabilitation administration and juvenile courts, through the community juvenile accountability act committee, based on the criteria established in consultation with Washington state institute for public policy and the juvenile courts.

(b) It is the intent of the legislature that the juvenile rehabilitation administration phase the implementation of the formula provided in subsection (1) of this section by including a stop-loss formula of three percent in fiscal year 2011, five percent in fiscal year 2012, and five percent in fiscal year 2013. It is further the intent of the legislature that the evidence-based expansion grants be incorporated into the block grant formula by fiscal year 2013 and SSODA remain separate unless changes would result in increasing the cost benefit savings to the state as identified in (c) of this subsection.

(c) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. The committee will be cochaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. Initial members will include one juvenile court representative from the finance

committee, the community juvenile accountability act committee, the risk assessment quality assurance committee, the executive board of the Washington association of juvenile court administrators, the Washington state center for court research, and a representative of the superior court judges association; two representatives from the juvenile rehabilitation administration headquarters program oversight staff, two representatives of the juvenile rehabilitation administration regional office staff, one representative of the juvenile rehabilitation administration fiscal staff and a juvenile rehabilitation administration division director. The committee may make changes to the formula categories other than the evidence-based program and disposition alternative categories if it is determined the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost benefit savings to the state. Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. These outcomes will also be considered in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(d) The juvenile courts and administrative office of the courts shall be responsible for collecting and distributing information and providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts will work collaboratively to develop program outcomes that reinforce the greatest cost benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(e) By December 1, 2010, the Washington state institute for public policy shall report to the office of financial management and appropriate committees of the legislature on the administration of the block grant authorized in this subsection. The report shall include the criteria used for allocating the funding as a block grant and the participation targets and actual participation in the programs subject to the block grant.

(8) \$3,700,000 of the Washington auto theft prevention authority account--state appropriation is provided solely for competitive grants to community-based organizations to provide at-risk youth intervention services, including but not limited to, case management, employment services, educational services, and street outreach intervention programs. Projects funded should focus on preventing, intervening, and suppressing behavioral problems and violence while linking at-risk youth to pro-social activities. The department may not expend more than \$1,850,000 per fiscal year. The costs of administration must not exceed four percent of appropriated funding for each grant recipient. Each entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of those services upon the youth and the community.

(9) The appropriations in this section assume savings associated with the transfer of youthful offenders age eighteen or older whose sentences extend beyond age twenty-one to the department of corrections to complete their sentences. Prior to transferring an offender to the department of corrections, the juvenile rehabilitation administration shall evaluate the offender to determine the offender's physical and emotional suitability for transfer.

Appropriation .....	\$3,476,000
	TOTAL APPROPRIATION
(\$1,078,092,000)	
\$1,078,708,000	

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$113,689,000 of the general fund--state appropriation for fiscal year 2010 and \$101,089,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for persons and services not covered by the medicaid program. This is a reduction in fiscal year 2010 of \$11,606,000 (~~each fiscal year~~) and in fiscal year 2011 of \$24,206,000 from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2009 prior to supplemental budget reductions. (~~This \$11,606,000~~) These reductions shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) \$10,400,000 of the general fund--state appropriation for fiscal year 2010, \$8,814,000 of the general fund--state appropriation for fiscal year 2011, and \$1,300,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to contract for implementation of high-intensity program for active community treatment (PACT) teams. The department shall work with regional support networks and the center for medicare and medicaid services to integrate eligible components of the PACT service delivery model into medicaid capitation rates no later than January 2011, while maintaining consistency with all essential elements of the PACT evidence-based practice model.

(c) \$6,500,000 of the general fund--state appropriation for fiscal year 2010 and \$6,091,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 617 per day during the first quarter of fiscal year 2010, 587 per day through the second quarter of fiscal year 2011, and 557 per day thereafter. Beds in the program for adaptive living skills (PALS) are not included in the preceding bed allocations. The department shall separately charge regional support networks for persons served in the PALS program.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) \$4,582,000 of the general fund--state appropriation for fiscal year 2010 and \$4,582,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(h) \$750,000 of the general fund--state appropriation for fiscal year 2010 and \$703,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(i) \$1,500,000 of the general fund--state appropriation for fiscal year 2010 and \$1,500,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(j) The department shall return to the Spokane regional support network fifty percent of the amounts assessed against the network during the last six months of calendar year 2009 for state hospital utilization in excess of its contractual limit. The regional support network shall use these funds for operation during its initial months of a new sixteen-bed evaluation and treatment facility that will enable the network to reduce its use of the state hospital, and for diversion and community support services for persons with dementia who would likely otherwise require care at the state hospital.

(k) The department is directed to identify and implement program efficiencies and benefit changes in its delivery of medicaid managed-care services that are sufficient to operate within the state and federal appropriations in this section. Such actions may include but are not limited to methods such as adjusting the care access standards; improved utilization management of ongoing, recurring, and high-intensity services; and increased uniformity in provider payment rates. The department shall ensure that the capitation rate adjustments necessary to accomplish these efficiencies and changes are distributed uniformly and equitably across all regional support networks statewide. The department is directed to report to the relevant legislative fiscal and policy committees at least thirty days prior to implementing rate adjustments reflecting these changes.

(l) In developing the new medicaid managed care rates under which the public mental health managed care system will operate during the five years beginning in fiscal year 2011, the department should seek to estimate the reasonable and necessary cost of efficiently and effectively providing a comparable set of medically necessary mental health benefits to persons of different acuity levels regardless of where in the state they live. Actual prior period spending in a regional administrative area shall not be a key determinant of future payment rates. The department shall report to the office of financial management and to the relevant fiscal and policy committees of the legislature on its proposed new waiver and mental health managed care rate-setting approach by October 1, 2009, and again at least sixty days prior to implementation of new capitation rates.

(m) In implementing the new public mental health managed care payment rates for fiscal year 2011, the department shall to the maximum extent possible within each regional support network's allowable rate range establish rates so that there is no increase or decrease in the total state and federal funding that the regional support network would receive if it were to continue to be paid at its October 2009 through June 2010 rates. The department shall additionally revise the draft rates issued January 28, 2010, to more accurately reflect the lower practitioner productivity inherent in the delivery of services in extremely rural regions in which a majority of the population reside in frontier counties, as defined and designated by the national center for frontier communities.

(n) \$1,529,000 of the general fund--state appropriation for fiscal year 2010 and \$1,529,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(o) The legislature intends and expects that regional support networks and contracted community mental health agencies shall make all possible efforts to, at a minimum, maintain current compensation levels of direct care staff. Such efforts shall include, but not be limited to, identifying local funding that can preserve client services and staff compensation, achieving administrative reductions at the regional support network level, and engaging stakeholders on cost-savings ideas that maintain client services and staff compensation. For purposes of this section, "direct care staff" means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and support to people with mental illness, or whose primary responsibility is providing direct support to such staff in areas such as client scheduling, client intake, client reception, client records-keeping, and facilities maintenance.

(p) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

<del>(\$1,519,374,000)</del>	
\$1,507,219,000	

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(b)(i) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.

(ii) \$508,000 of the general fund--state appropriation for fiscal year 2011 and \$822,000 of the general fund--federal appropriation are provided solely for the department to partially restore the reductions to in-home care that are taken in (b)(i) of this subsection. The department will use the same formula to restore personal care hours that it used to reduce personal care hours.

(c) Amounts appropriated in this section are sufficient to develop and implement the use of a consistent, statewide outcome-based vendor contract for employment and day services by April 1, 2011. The rates paid to vendors under this contract shall also be made consistent. In its description of activities the agency shall include activity listings and dollars appropriated for: Employment services, day services, child development services and county administration of services to the developmentally disabled. The department shall begin reporting to the office of financial management on these activities beginning in fiscal year 2010.

(d) \$302,000 of the general fund--state appropriation for fiscal year 2010, \$831,000 of the general fund--state appropriation for fiscal year 2011, and \$1,592,000 of the general fund--federal appropriation are provided solely for health care benefits pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

(e)(i) \$682,000 of the general fund--state appropriation for fiscal year 2010, \$1,651,000 of the general fund--state appropriation for fiscal year 2011, and \$1,678,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.

(ii) The federal portion of the amounts in this subsection (~~((€))~~) is contingent upon federal approval of participation in contributions to the trust and shall remain unallotted and placed in reserve status until the office of financial management and the department of social and health services receive federal approval.

(iii) Expenditures for the purposes specified in this subsection (~~((€))~~) shall not exceed the amounts provided in this subsection.

(f) Within the amounts appropriated in this subsection (1), the department shall implement all necessary rules to facilitate the transfer to a department home and community-based services (HCBS) waiver of all eligible individuals who (i) currently receive services under the existing state-only employment and day program or the existing state-only residential program, and (ii) otherwise meet the waiver eligibility requirements. The amounts appropriated are sufficient to ensure that all individuals currently receiving services under the state-only employment and day and state-only residential programs who are not transferred to a department HCBS waiver will continue to receive services.

(g) In addition to other reductions, the appropriations in this subsection reflect reductions targeted specifically to state government administrative costs. These administrative reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

(i) Within the appropriations of this section, the department shall reduce all seventeen payment levels of the seventeen-level payment system from the fiscal year 2009 levels for boarding homes, boarding homes contracted as assisted living, and adult family homes. Excluded from the reductions are exceptional care rate add-ons. The long-term care program may develop add-ons to pay exceptional care rates to adult family homes and boarding homes with specialty contracts to provide support for the following specifically eligible clients:

(i) Persons with AIDS or HIV-related diseases who might otherwise require nursing home or hospital care;

(ii) Persons with Alzheimer's disease and related dementia who might otherwise require nursing home care; and

(iii) Persons with co-occurring mental illness and long-term care needs who are eligible for expanded community services and who might otherwise require state and local psychiatric hospital care.

Within amounts appropriated, exceptional add-on rates for AIDS/HIV, dementia specialty care, and expanded community services may be standardized within each program.

(j) The amounts appropriated in this subsection reflect a reduction in funds available for employment and day services. In administering this reduction the department shall negotiate with counties and their vendors so that this reduction, to the greatest extent possible, is achieved by reducing vendor rates and allowable contract administrative charges (overhead) and not through reductions to direct client services or direct service delivery or programs.

(k) As part of the needs assessment instrument, the department may collect data on family income for minor children with developmental disabilities and all individuals who are receiving state-only funded services. The department may ensure that this information is collected as part of the client assessment process.

(l) \$116,000 of the general fund--state appropriation for fiscal year 2010, \$2,133,000 of the general fund--state appropriation for fiscal year 2011, and \$1,772,000 of the general fund--federal appropriation are provided solely for employment services and required waiver services. Priority consideration for this new funding shall be young adults with developmental disabilities living with their family who need employment opportunities and assistance after high school graduation. (m) \$81,000 of the general fund--state appropriation for fiscal year 2010, \$599,000 of the general fund--state appropriation for fiscal year 2011, and \$1,111,000 of the general fund--federal appropriation are provided solely for the department to provide employment and day services for eligible students who are currently on a waiver and will graduate from high school during fiscal years 2010 and 2011.

(n) The automatic award of additional hours of personal care for people with special meal preparation or incontinence needs is eliminated. Authorization of service hours will be based upon the individual's assessed needs.

(o) \$75,000 of the general fund--state appropriation for fiscal year 2011 is provided solely for the restoration of direct support to local organizations that utilize parent-to-parent networks and communication to promote access and quality of care for individuals with developmental disabilities and their families.

However, funds provided in this subsection shall not be transferred elsewhere within the department nor used for any other purpose.

(28) The department is authorized to place long-term care clients residing in nursing homes and paid for with state only funds into less restrictive community care settings while continuing to meet the client's care needs.

(29) In accordance with RCW 43.135.055, the department is authorized to adopt and increase the fees set forth in and previously authorized in section 206(19), chapter 37, Laws of 2010 1st sp.s.

The legislature intends to work with the governor to design and implement fiscal and programmatic modifications to provide for the sustainability of the program. The funding in this subsection assumes that no other expenditure reductions will be made prior to January 2011 other than those assumed in the appropriation levels in this act.

((~~4~~)) (5) \$94,322,000 of the general fund--state appropriation for fiscal year 2010 and ((~~\$76,979,000~~)) \$94,104,000 of the general fund--state appropriation for fiscal year 2011, net of recoveries, are provided solely for cash assistance and other services to recipients in the cash program pursuant to chapter 8, Laws of 2010 1st sp. sess. (security lifeline act), including persons in the unemployable, expedited, and aged, blind, and disabled components of the program. It is the intent of the legislature that the lifeline incapacity determination and progressive evaluation process regulations be carefully designed to accurately identify those persons who have been or will be incapacitated for at least ninety days. The incapacity determination and progressive evaluation process regulations in effect on January 1, 2010, cannot be amended until at least September 30, 2010; except that provisions related to the use of administrative review teams may be amended, and obsolete terminology and

functional assessment language may be updated on or after July 1, 2010, in a manner that only minimally impacts the outcome of incapacity evaluations. After September 30, 2010, the incapacity determination and progressive evaluation process regulations may be amended only if the reports under (a) and (b) of this subsection have been submitted, and find that expenditures will exceed the appropriated level by three percent or more.

(a) The department and the caseload forecast council shall, by September 21, 2010, submit a report to the legislature based upon the most recent caseload forecast and actual expenditure data available, as to whether expenditures for the lifeline-unemployable grants in fiscal year 2011 will exceed \$69,648,000 for fiscal year 2011 in the 2010 supplemental operating budget by three percent or more. If expenditures will exceed the appropriated amount for lifeline-unemployable grants by three percent or more, the department may adopt regulations modifying incapacity determination and progressive evaluation process regulations after September 30, 2010.

(b) On or before September 21, 2010, the department shall submit a report to the relevant policy and fiscal committees of the legislature that includes the following information regarding any regulations proposed for adoption that would modify the lifeline incapacity determination and progressive evaluation process:

(i) A copy of the proposed changes and a concise description of the changes;

(ii) A description of the persons who would likely be affected by adoption of the regulations, including their impairments, age, education, and work history;

(iii) An estimate of the number of persons who, on a monthly basis through June 2013, would be denied lifeline benefits if the regulations were adopted, expressed as a number, as a percentage of total applicants, and as a percentage of the number of persons granted lifeline benefits in each month;

(iv) An estimate of the number of persons who, on a monthly basis through June 2013, would have their lifeline benefits terminated following an eligibility review if the regulations were adopted, expressed as a number, as a percentage of the number of persons who have had an eligibility review in each month, and as a percentage of the total number of persons currently receiving lifeline-unemployable benefits in each month; and

(v) Intended improvements in employment or treatment outcomes among persons receiving lifeline benefits that could be attributable to the changes in the regulations.

(c) Within these amounts:

(i) The department shall aggressively pursue opportunities to transfer lifeline clients to general assistance expedited coverage and to facilitate client applications for federal supplemental security income when the client's incapacities indicate that he or she would be likely to meet the federal disability criteria for supplemental security income. The department shall initiate and file the federal supplemental security income interim agreement as quickly as possible in order to maximize the recovery of federal funds;

(ii) The department shall review the lifeline caseload to identify recipients that would benefit from assistance in becoming naturalized citizens, and thus be eligible to receive federal supplemental security income benefits. Those cases shall be given high priority for naturalization funding through the department;

(iii) The department shall actively coordinate with local workforce development councils to expedite access to worker retraining programs for lifeline clients in those regions of the state with the greatest number of such clients;

(iv) By July 1, 2009, the department shall enter into an interagency agreement with the department of veterans' affairs to establish a process for referral of veterans who may be eligible for veteran's services. This agreement must include outstationing department of veterans' affairs staff in selected community service office locations in King and Pierce counties to facilitate applications for veterans' services; and

(v) In addition to any earlier evaluation that may have been conducted, the department shall intensively evaluate those clients who have been receiving lifeline benefits for twelve months or more as of July 1, 2009, or thereafter, if the available medical and incapacity related evidence indicates that the client is unlikely to meet the disability standard for federal supplemental security income benefits. The evaluation shall identify services necessary to eliminate or minimize barriers to employment, including mental health treatment, substance abuse treatment and vocational rehabilitation services. The department shall expedite referrals to chemical dependency treatment, mental health and vocational rehabilitation services for these clients.

(vi) The appropriations in this subsection reflect a change in the earned income disregard policy for lifeline clients. It is the intent of the legislature that the department shall adopt the temporary assistance for needy families earned income policy for the lifeline program.

~~((5))~~ (6) \$750,000 of the general fund--state appropriation for fiscal year 2010 and \$500,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for naturalization services.

~~((6))~~ (7) \$3,550,000 of the general fund--state appropriation for fiscal year 2010 is provided solely for refugee employment services, of which \$2,650,000 is provided solely for the department to pass through to statewide refugee assistance organizations for limited English proficiency pathway services; and \$2,050,000 of the general fund--state appropriation for fiscal year 2011 is provided solely for refugee employment services, of which \$1,540,000 is provided solely for the department to pass through to statewide refugee assistance organizations for limited English proficiency pathway services.

~~((7))~~ (8) The appropriations in this section reflect reductions in the appropriations for the economic services administration's administrative expenses. It is the intent of the legislature that these reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or program.

~~((8))~~ (9) \$855,000 of the general fund--state appropriation for fiscal year 2011, \$719,000 of the general fund--federal appropriation, and \$2,907,000 of the general fund--private/local appropriation are provided solely for the implementation of the opportunity portal, the food stamp employment and training program, and the disability lifeline program under Second Substitute House Bill No. 2782 (security lifeline act). If the bill is not enacted by June 30, 2010, the amounts provided in this subsection shall lapse.

~~((9))~~ (10) \$100,000 of the general fund--state appropriation for fiscal year 2011 is provided solely for the department to award grants to small mutual assistance or small community-based organizations that contract with the department for immigrant and refugee assistance services. The funds shall be awarded to provide funding for community groups to provide transitional assistance, language skills, and other resources to improve refugees' economic self-sufficiency through the effective use of social services, financial services, and medical assistance.

~~((10))~~ (11) To ensure expenditures remain within available funds appropriated in this section, the legislature establishes the benefit under the state food assistance program, made pursuant to RCW 74.08A.120, to be fifty percent of the federal supplemental nutrition assistance program benefit amount.

\$9,726,413,000	

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(4) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(5) ~~(In accordance with RCW 74.46.625,)~~ \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the

nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) \$649,000 of the general fund--federal appropriation and \$644,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) \$5,729,000 of the general fund--state appropriation for fiscal year 2011, and \$5,776,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2009-11 biennial operating appropriations act (chapter 564, Laws of 2009) and in effect on July 1, 2009, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2009-11 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$20,403,000 of the general fund--state appropriation for fiscal year 2010, of which \$6,570,000 is appropriated in section ~~((204(1)))~~ 1104(1) of this act, and ~~(((\$29,480,000))~~ \$15,113,000 of the general fund--state appropriation for fiscal year 2011, of which \$6,570,000 is appropriated in section ~~((204(1)))~~ 1104(1) of this act, are provided solely for state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in section 9 and rate increases in section 10(1)(b) of Engrossed Second Substitute House Bill No. 2956 (hospital safety net assessment) funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this subsection.

(9) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

(10) \$93,000 of the general fund--state appropriation for fiscal year 2010 and \$93,000 of the general fund--federal appropriation are provided solely for the department to pursue a federal Medicaid waiver pursuant to Second Substitute Senate Bill No. 5945 (Washington health partnership plan). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(11) The department shall require managed health care systems that have contracts with the department to serve medical assistance clients to limit any reimbursements or payments the systems make to providers not employed by or under contract with the systems to no more than the medical assistance rates paid by the department to providers for comparable services rendered to clients in the fee-for-service delivery system.

(12) A maximum of ~~(((\$241,141,000))~~ \$247,809,000 in total funds from the general fund--state, general fund--federal, and tobacco and prevention control account--state appropriations may be expended in the fiscal biennium for the medical program pursuant to chapter 8, Laws of 2010 1st sp. sess. (security lifeline act), and these amounts are provided solely for this program. Of these amounts, \$10,749,000 of the general fund--state appropriation for fiscal year 2010 and \$10,892,000 of the general fund--federal appropriation are provided solely for payments to hospitals for providing outpatient services to low income patients who are recipients of lifeline benefits. Pursuant to RCW 74.09.035, the department shall not expend for the lifeline medical care services program any amounts in excess of the amounts provided in this subsection.

(13) Mental health services shall be included in the services provided through the managed care system for lifeline clients under chapter 8, Laws of 2010 1st sp. sess. In transitioning lifeline clients to managed care, the department shall attempt to deliver care to lifeline clients through medical homes in community and migrant health centers. The department, in collaboration with the carrier, shall seek to improve the transition rate of lifeline clients to the federal supplemental security income program. The department shall renegotiate the contract with the managed care plan that provides services for lifeline clients to maximize state retention of future hospital savings as a result of improved care coordination. The department, in collaboration with stakeholders, shall propose a new name for the lifeline program.

(14) The department shall evaluate the impact of the use of a managed care delivery and financing system on state costs and outcomes for lifeline medical clients. Outcomes measured shall include state costs, utilization, changes in mental health status and symptoms, and involvement in the criminal justice system.

(15) The department shall report to the governor and the fiscal committees of the legislature by June 1, 2010, on its progress toward achieving a twenty percentage point increase in the generic prescription drug utilization rate.

(16) State funds shall not be used by hospitals for advertising purposes.

(17) \$24,356,000 of the general fund--private/local appropriation and \$35,707,000 of the general fund--federal appropriation are provided solely for the implementation of professional services supplemental payment programs. The department shall seek a medicaid state plan amendment to create a professional services supplemental payment program for University of Washington medicine professional providers no later than July 1, 2009. The department shall apply federal rules for identifying the shortfall between current fee-for-service medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program will be the responsibility of the participating providers. Participating providers will retain the full amount of supplemental payments provided under this program, net of any potential costs for any related audits or litigation brought against the state. The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. The department will create a process for expansion of the program to other qualifying providers as soon as it is determined feasible by both the department and providers but no later than June 30, 2010.

(18) \$9,075,000 of the general fund--state appropriation for fiscal year 2010, \$8,588,000 of the general fund--state appropriation for fiscal year 2011, and \$39,747,000 of the general fund--federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system. The amounts provided in this subsection are conditioned on the department satisfying the requirements of section 902 of this act.

(19) \$506,000 of the general fund--state appropriation for fiscal year 2011 and \$657,000 of the general fund--federal appropriation are provided solely for the implementation of Second Substitute House Bill No. 1373 (children's mental health). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(20) Pursuant to 42 U.S.C. Sec. 1396(a)(25), the department shall pursue insurance claims on behalf of medicaid children served through its in-home medically intensive child program under WAC 388-551-3000. The department shall report to the Legislature by December 31, 2009, on the results of its efforts to recover such claims.

(21) The department may, on a case-by-case basis and in the best interests of the child, set payment rates for medically intensive home care services to promote access to home care as an alternative to hospitalization. Expenditures related to these increased payments shall not exceed the amount the department would otherwise pay for hospitalization for the child receiving medically intensive home care services.

(22) \$425,000 of the general fund--state appropriation for fiscal year 2010 and \$790,000 of the general fund--federal appropriation are provided solely to continue children's health coverage outreach and education efforts under RCW 74.09.470. These efforts shall rely on existing relationships and systems developed with local public health agencies, health care providers, public schools, the women, infants, and children program, the early childhood education and assistance program, child care providers, newborn visiting nurses, and other community-based organizations. The department shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(23) The department, in conjunction with the office of financial management, shall implement a prorated inpatient payment policy.

(24) The department will pursue a competitive procurement process for antihemophilic products, emphasizing evidence-based medicine and protection of patient access without significant disruption in treatment.

(25) The department will pursue several strategies towards reducing pharmacy expenditures including but not limited to increasing generic prescription drug utilization by 20 percentage points and promoting increased utilization of the existing mail-order pharmacy program.

(26) The department shall reduce reimbursement for over-the-counter medications while maintaining reimbursement for those over-the-counter medications that can replace more costly prescription medications.

(27) The department shall seek public-private partnerships and federal funds that are or may become available to implement health information technology projects under the federal American recovery and reinvestment act of 2009.

(28) The department shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The department shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the department shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(29) \$260,036,000 of the hospital safety net assessment fund--state appropriation and \$255,448,000 of the general fund--federal appropriation are provided solely for the implementation of Engrossed Second Substitute House Bill No. 2956 (hospital safety net assessment). If the bill is not enacted by June 30, 2010, the amounts provided in this subsection shall lapse.

(30) \$79,000 of the general fund--state appropriation for fiscal year 2010 and \$53,000 of the general fund--federal appropriation are provided solely to implement Substitute House Bill No. 1845 (medical support obligations).

(31) \$63,000 of the general fund--state appropriation for fiscal year 2010, \$583,000 of the general fund--state appropriation for fiscal year 2011, and \$864,000 of the general fund--federal appropriation are provided solely to implement Engrossed House Bill No. 2194 (extraordinary medical placement for offenders). The department shall work in partnership with the department of corrections to identify services and find placements for offenders who are released through the extraordinary medical placement program. The department shall collaborate with the department of corrections to identify and track cost savings to the department of corrections, including medical cost savings, and to identify and track expenditures incurred by the aging and disability services program for community services and by the medical assistance program for medical expenses. A joint report regarding the identified savings and expenditures shall be provided to the office of financial management and the appropriate fiscal committees of the legislature by November 30, 2010. If this bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

The appropriations in this section are subject to the following conditions and limitations:

- (1) The department of health shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department of health and the state board of health shall not implement any new or amended rules pertaining to primary and secondary school facilities until the rules and a final cost estimate have been presented to the legislature, and the legislature has formally funded implementation of the rules through the omnibus appropriations act or by statute. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation that provides appropriation authority, and an equal amount of appropriated state moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.
- (2) In accordance with RCW 43.70.250 and 43.135.055, the department is authorized to establish and raise fees in fiscal year 2011 as necessary to meet the actual costs of conducting business and the appropriation levels in this section. This authorization applies to fees for the review of sewage tank designs, fees related to regulation and inspection of farmworker housing, and fees associated with the following professions: Acupuncture, dental, dentist, mental health counselor, nursing, nursing assistant, optometry, radiologic technologist, recreational therapy, respiratory therapy, social worker, cardiovascular invasive specialist, and practitioners authorized under chapter 18.240 RCW.
- (3) Pursuant to RCW 43.135.055 and RCW 43.70.250, the department is authorized to establish fees by the amount necessary to fully support the cost of activities related to the administration of long-term care worker certification. The department is further authorized to increase fees by the amount necessary to implement the regulatory requirements of the following bills: House Bill No. 1414 (health care assistants), House Bill No. 1740 (dental residency licenses), and House Bill No. 1899 (retired active physician licenses).
- (4) \$764,000 of the health professions account--state appropriation is provided solely for the medical quality assurance commission to maintain disciplinary staff and associated costs sufficient to reduce the backlog of disciplinary cases and to continue to manage the disciplinary caseload of the commission.
- (5) \$57,000 of the general fund--state appropriation for fiscal year 2010 and \$54,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the midwifery licensure and regulatory program to offset a reduction in revenue from fees. The department shall convene the midwifery advisory committee on a quarterly basis to address issues related to licensed midwifery. The appropriations in this section assume that the current application and renewal fee for midwives shall be increased by fifty dollars and all other fees for midwives be adjusted accordingly.
- (6) Funding for the human papillomavirus vaccine shall not be included in the department's universal vaccine purchase program in fiscal year 2010. Remaining funds for the universal vaccine purchase program shall be used to continue the purchase of all other vaccines included in the program until May 1, 2010, at which point state funding for the universal vaccine purchase program shall be discontinued.
- (7) Beginning July 1, 2010, the department, in collaboration with the department of social and health services, shall maximize the use of existing federal funds, including section 317 of the federal public health services act direct assistance as well as federal funds that may become available under the American recovery and reinvestment act, in order to continue to provide immunizations for low-income, nonmedicaid eligible children up to three hundred percent of the federal poverty level in state-sponsored health programs.
- (8) The department shall eliminate outreach activities for the health care directives registry and use the remaining amounts to maintain the contract for the registry and minimal staffing necessary to administer the basic entry functions for the registry.
- (9) Funding in this section reflects a temporary reduction of resources for the 2009-11 fiscal biennium for the state board of health to conduct health impact reviews.

(10) Pursuant to RCW 43.135.055 and 43.70.125, the department is authorized to adopt rules to establish a fee schedule to apply to applicants for initial certification surveys of health care facilities for purposes of receiving federal health care program reimbursement. The fees shall only apply when the department has determined that federal funding is not sufficient to compensate the department for the cost of conducting initial certification surveys. The fees for initial certification surveys may be established as follows: Up to \$1,815 for ambulatory surgery centers, up to \$2,015 for critical access hospitals, up to \$980 for end stage renal disease facilities, up to \$2,285 for home health agencies, up to \$2,285 for hospice agencies, up to \$2,285 for hospitals, up to \$520 for rehabilitation facilities, up to \$690 for rural health clinics, and up to \$7,000 for transplant hospitals.

(11) Funding for family planning grants for fiscal year 2011 is reduced in the expectation that federal funding shall become available to expand coverage of services for individuals through programs at the department of social and health services. In the event that such funding is not provided, the legislature intends to continue funding through a supplemental appropriation at fiscal year 2010 levels. \$4,360,000 of the general fund--state appropriation is provided solely for the department of health-funded family planning clinic grants due to federal funding not becoming available.

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2010) .....	\$632,136,000
General Fund--State Appropriation (FY 2011) .....	(\$626,099,000)
\$627,316,000

Education Legacy Trust Account--State	
Appropriation .....	\$756,000
.....	TOTAL APPROPRIATION
(\$1,923,592,000)	
\$1,935,826,000	

The appropriations in this section are subject to the following conditions and limitations:

- (1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.
  - (2)(a) The superintendent of public instruction shall ensure that:
    - (i) Special education students are basic education students first;
    - (ii) As a class, special education students are entitled to the full basic education allocation; and
    - (iii) Special education students are basic education students for the entire school day.
  - (b) The superintendent of public instruction shall continue to implement the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006.
- (3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.
- (4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the mandatory special education program and who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.
- (5)(a) For the 2009-10 and 2010-11 school years, the superintendent shall make allocations to each district based on the sum of:
  - (i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and
  - (ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.
- (b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools in the 2009-

10 school year. In the 2010-11 school year, the per student allocation under this subsection (5)(b) shall include the same factors as in the 2009-10 school year, but shall also include the classified staff enhancements included in section 502(3)(b).

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, \$19,512,000 of the general fund--state appropriation and \$29,574,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in this subsection (8) in any fiscal year, the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state and federal revenues related to services for special education-eligible students. Awards associated with (b) and (c) of this subsection shall not exceed the total of a district's specific determination of need.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services. The safety net awards to school districts shall be adjusted to reflect amounts awarded under (b) of this subsection.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999. The state safety net oversight committee shall ensure that safety net documentation and awards are based on current medicaid revenue amounts.

(g) Beginning with the 2010-11 school year award cycle, the office of the superintendent of public instruction shall make award determinations for state safety net funding in August of each school year. Determinations on school district eligibility for state safety net awards shall be based on analysis of actual expenditure data from the current school year.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) The office of the superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process.

(12) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(14) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

(15) \$262,000 of the general fund--state appropriation for fiscal year 2010 and \$251,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for two additional full-time equivalent staff to support the work of the safety net committee and to provide training and support to districts applying for safety net awards.

(16) \$50,000 of the general fund--state appropriation for fiscal year 2010, \$50,000 of the general fund--state appropriation for fiscal 2011, and \$100,000 of the general fund--federal appropriation shall be expended to support a special education ombudsman program within the office of superintendent of public instruction.

The department shall transfer a portion of this grant to the department of social and health services to partially fund the child care subsidies paid by the department of social and health services on behalf of the department of early learning.

(10) The department shall use child care development fund money to satisfy the federal audit requirement of the improper payments act (IPIA) of 2002. **Warehousing and distribution of spirits, including the lease and modernization of the state's spirits warehousing and distribution facilities and related operations. Revised for 1st Substitute: Concerning the warehousing and distribution of liquor, including the lease and modernization of the state's liquor warehousing and distribution facilities.**

The bill was read the second time.

With the consent of the house, amendment (851) was withdrawn.

Representative Ormsby moved the adoption of amendment (850).

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1. FINDINGS.** The legislature finds that it is in the public interest to seek revenue opportunities through leasing and modernizing the state's liquor warehousing and distribution facilities and related operations. The legislature finds that it is also in the public interest to conduct a competitive process to select a private sector lessee for this purpose. Nothing in this act is intended to affect the private distribution or sale of beer or wine, the operation by the state of state liquor stores, or the authority of the Washington state liquor control board to oversee, manage, and enforce state liquor sales.

**NEW SECTION. Sec. 2. COMPETITIVE PROCUREMENT.** (1) Within one hundred twenty days after the effective date of this section, the office of financial management, in consultation with the Washington state liquor control board and the liquor distribution advisory committee, must establish and conduct a competitive process for the selection of a private sector entity to lease and modernize the state's liquor warehousing and distribution facilities and related operations. The competitive process must assume that the Washington state liquor control board retains its existing exclusive retail spirits sales business, be designed to encourage the participation of private sector entities with previous wholesale distribution experience with a public partner excluding licensees engaged in the

manufacture of liquor or the retail sale of liquor in the state, and be designed to encourage competition among such entities.

(2)(a) To implement the competitive process required under subsection (1) of this section, the office of financial management must, after consultation with the Washington state liquor control board and the liquor distribution advisory committee, request proposals for:

(i) The lease of or other contract for the entire state liquor warehousing and distribution business, including the facilities, operations, and other assets associated with the warehousing of liquor and the distribution of liquor; and

(ii) The exclusive right to warehouse spirits and to distribute spirits in the state.

(b) The request for proposals must include without limitation:

(i) A requirement that proposals demonstrate to the satisfaction of the office of financial management relevant previous experience as well as the financial capacity to perform obligations under the contract;

(ii) A requirement that proposals demonstrate, to the satisfaction of the office of financial management, a net positive financial benefit to the state and local government over the term of the proposed lease or contract taking into account: An initial up-front payment to the state during the 2011-2013 biennium; proposed profit sharing payments to the state; projected business and occupation and liquor tax revenues; and changes to retail profits generated as a result of the lease or contract. The office of financial management, in consultation with the liquor distribution advisory committee and interested stakeholders, must develop a definition and criteria on how to determine "positive financial benefit to the state and local government";

(iii) A requirement that the prevailing proponent deposit into an escrow account, within fifteen business days after the announcement of selection of that proposal and definitive resolution of any appeals to such selection, the full amount of the initial up-front payment offered in the proponent's response to the request for proposals, pending and subject to successful negotiation of a mutually acceptable lease or other contract;

(iv) A requirement that proposals include a quantified commitment to invest in capital improvements to warehousing and distribution facilities and a mechanism to ensure that such investments are timely made, consistent with requirements in a mutually acceptable lease or contract;

(v) A requirement that proposals include a commitment to assume responsibility for the costs associated with the operation of liquor warehousing and distribution;

(vi) A requirement that proposals demonstrate to the satisfaction of the office of financial management a commitment to improved distribution including without limitation logistics and delivery improvements to improve margins, ensure regularity of deliveries to state or contract liquor stores to reduce out-of-stock problems, improve service to stores located in geographically remote areas of the state, expand liquor selection, provide for bottle rather than minimum case purchasing and stocking of state or contract liquor stores, if practicable, and enable electronic funds transfer of payments;

(vii) A requirement that proposals include a commitment to offer employment to the state employees currently in positions relating to the wholesale distribution of liquor and to recognize and bargain with any existing bargaining representative of such employees with respect to terms and conditions of employment;

(viii) A requirement that the variety of brands and types of liquor available to licensees, contract liquor stores, and state liquor stores must be equal to or greater than what is being distributed by the Washington state liquor control board; and

(ix) Measurable standards for the performance of the contract.

(c) Prior to conducting the competitive process outlined in this section, the request for proposals developed by the office of financial management must be reviewed by the house and senate fiscal committees. Opportunity for public comment regarding the request for proposal must be provided. The review must be completed within fourteen days of the office of financial management providing the request for proposals to the house and senate fiscal committees.

(d) The office of financial management must publicly disclose an analysis of the fiscal impacts to state and local government of each of the offers in the procurement process.

(e) After consultation with the Washington state liquor control board, local government, and the liquor distribution advisory committee, the office of financial management is authorized to recommend to the Washington state liquor control board the proposal that in the determination of the office of financial management best meets the criteria required under this subsection (2), in the best interests of the state. If, in the determination of the office of financial management, there is no proposal that meets the best interest of the state, the office of financial management must notify the Washington state liquor control board to not accept any of the proposals.

(3) Any challenge to or protest of the recommendation of the office of financial management and the acceptance by the liquor control board of the recommended proposal must be filed by a respondent that submitted a proposal with the office of financial management within five days after such recommendation and acceptance. The grounds for such challenge or protest are limited to claims that the recommendation and acceptance were arbitrary and capricious. The office of financial management must, within five days, render its decision on the protest. The respondent that filed the protest may, within five days after such decision, appeal to the superior court of Thurston county by petition setting forth objections to the decision. A copy of the petition on appeal together with a notice that an appeal has been taken must be served upon the secretary of state, the attorney general, the office of financial management, the liquor control board, and the respondent that submitted the recommended and accepted proposal. The court must accord first priority to examining the objections, may hear arguments, and must, within ten days, render its decision. The decision of the superior court is final.

**NEW SECTION. Sec. 3. CONTRACT.** (1) Within sixty days after the recommendation of a proposal under section 2 of this act, the Washington state liquor control board may accept that proposal and enter into a long-term contract with that entity for the lease of the business, facilities, and assets associated with the warehousing and distribution of liquor in the state. The contract must grant the exclusive right to distribute spirits in the state for the period of the contract. The contract must include enforceable performance standards and minimum financial returns to the state. The contract must provide a provision that allows the state to terminate the contract should specific performance standards or financial returns to the state not be realized. The contract must provide for a reasonable termination notification process as well as financial terms of termination should termination of contract take place.

(2) If the state receives an up-front payment of one hundred million dollars or more as a result of accepting a proposal from the procurement process in section 2 of this act, the contract must provide that the private entity place the up-front payment into irrevocable trust with the state being the beneficiary. The contract must provide that the trust be created in a manner that the state may not receive more than one-sixth of the up-front payment placed into the trust in any fiscal year.

(3) The contract must contain provisions that the Washington state liquor control board maintains the exclusive authority to select products and determine which products will be carried in state and contract liquor stores.

(4) The contract must contain provisions that the Washington state liquor control board must set the prices of liquor for sales in state and contract liquor stores as well as sales to licensees.

(5) The contract must contain a provision that any financial deficiencies or losses of the private entity contracting for the warehousing and distribution of liquor in the state must not be compensated for in any way by the state, contract stores, consumers, or licensees.

**NEW SECTION. Sec. 4.** (1) The director of the office of financial management must appoint a liquor distribution advisory committee. The purpose of the committee is to assist and make recommendations to the office of financial management and the Washington state liquor control board regarding the provisions of this act including, but not limited to, setting requirements for the competitive procurement process, selection of a private entity or recommendation that no entity be selected, and creating the terms of a contract with a selected private entity. The advisory committee's recommendations and assistance to the office of financial management and Washington state liquor control board in regards to the provisions of this act are advisory in nature and do not prohibit the office of financial management and Washington state liquor control board from performing their duties under this act as they deem fit.

(2) The liquor distribution advisory committee is composed of the Washington state treasurer or his or her designee, a designee from each of the two largest caucuses of the senate determined by the leaders of each caucus, and a designee from each of the two largest caucuses of the house of representatives determined by the leaders of each caucus.

**NEW SECTION. Sec. 5.** Contracting for services under this chapter is not subject to the processes of RCW 41.06.142 (1), (4), and (5).

**NEW SECTION. Sec. 6. DEFINITIONS.** For the purposes of this chapter, unless the context clearly requires otherwise:

#### **POINT OF PARLIAMENTARY INQUIRY**

Representative Jinkins rose for a point of parliamentary inquiry and was recognized by the Speaker: "Mr. Speaker, what is the number of votes required for final passage of Substitute House Bill No. 2078?"

#### **SPEAKER'S RULING**

Mr. Speaker: "Article 2, section 22 of the Washington State Constitution requires the affirmative vote of a constitutional majority of the membership of the House, or 50 votes, for final passage of bills. Separate constitutional provisions provide for higher voting requirements in certain cases not relevant here, such as for constitutional amendments. RCW 43.135.034 imposes a supermajority requirement of 2/3 of the members for final passage of a measure that "raises taxes". Subsection (6) of that section defines "raises taxes" as "any action or combination of actions by the legislature that increases state tax revenue deposited in any fund, budget, or account, regardless of whether the revenues are deposited into the general fund." In determining whether a measure raises taxes as defined by the statute, the Speaker considers whether the money raised is revenue for general government purposes, which would be a tax, or a charge to a specific class of payors to provide a specific service or program related to that class, which would be a fee. Substitute House Bill No. 2078 repeals a business and occupation tax exemption on interest from first mortgages and directs the proceeds to class size reduction in kindergarten through third grade of our public schools, as contemplated by Initiative 728. The fiscal note for the bill indicates that its passage would result in an increase in state business and occupation tax revenues deposited in the state's education legacy trust fund account. The funds would benefit the general public as a whole, and are properly characterized as a tax. RCW 43.135.034 therefore requires the affirmative vote of 2/3 of the members, or 66 votes, for final passage."

#### **POINT OF PARLIAMENTARY INQUIRY**

Representative Pedersen rose for a point of parliamentary inquiry and was recognized by the Speaker: "Mr. Speaker, your previous ruling referenced the different vote requirements of Article 2, section 22 of the Washington State Constitution and RCW 43.135.034. Mr. Speaker, do you, as presiding officer of the House of Representatives, have the authority to determine whether the supermajority requirement of the statute violates the constitutional majority requirement of Article 2, section 22?"

#### **SPEAKER'S RULING**

Mr. Speaker: "Under long-standing precedent in this body, the Speaker does not have the authority to rule on the constitutionality of any statutory requirement. This institutional precedent is

supported by centuries of American legal jurisprudence holding that only the courts may determine the constitutionality of a statute. In addition, if the Speaker were on his own authority to disregard a statute that has not been declared unconstitutional by the courts, doing so might constitute malfeasance for purposes of RCW 29A.56.110, potentially subjecting the Speaker to recall. Having personally faced this ambiguity for thirteen years, the Speaker would welcome clarification from the courts about how to resolve the differences between the provisions of the constitution and the statute."

#### **POINT OF PARLIAMENTARY INQUIRY**

Representative Frockt rose for a point of parliamentary inquiry and was recognized by the Speaker: "Mr. Speaker, would an appeal under House Rule 22 authorize the members of this body to overturn the ruling you issued and determine that the supermajority requirement of RCW 43.35.034 is unconstitutional?"

#### **SPEAKER'S RULING**

Mr. Speaker: "No. House Rule 22 provides that any member of the House may appeal the ruling of the presiding officer to the body, which may sustain or overrule the Speaker's ruling by a simple majority vote. However, neither House Rule 22 nor any other parliamentary device would authorize the members of this body to determine the constitutionality of the statutory supermajority requirement. The Speaker is aware of only one instance in Washington legislative history where the members of a legislative body have appealed and overturned the ruling of the presiding officer. In that instance, the President of the Senate ruled that a measure embraced multiple subjects in violation of Senate Rule 59. The members of the Senate appealed the ruling and overturned it. In Power, Inc. v. Huntley, 39 Washington Second 191, decided in 1951, the Washington Supreme Court found the measure to embrace multiple subjects in violation of Article 2, Section 19 of the Washington State Constitution and voided it in its entirety. The Supreme Court considered this issue de novo, without any deference to the previous procedural history in the Senate. This case illustrates a fundamental precept of the doctrine of separation of powers, that is, that determinations of constitutionality are solely within the province of the courts. While the Speaker and the members of this body have sworn an oath to uphold our state constitution, only the courts have the power to enforce its provisions."

Representatives Jinkins, Billig, Ladenburg, Reykdal, Ryu, Eddy, Springer, Frockt, Dickerson and Sullivan spoke in favor of the passage of the bill.

Representatives DeBolt, Orcutt, Chandler, Parker, Armstrong, Hinkle, Alexander, Klippert and Ross spoke against the passage of the bill.

Strike everything after the enacting clause and insert the following: *Formatting changed to accommodate text*

**"NEW SECTION. Sec. 1.** (1) The legislature finds that:

(a) The capital budget includes appropriations for the construction and repair of public schools, colleges and universities, prisons and juvenile rehabilitation facilities, state office buildings, housing for low-income and disabled persons, farm workers and others, parks, public infrastructure, and for other capital facilities and programs;

(b) The size of the capital budget is determined by the available bond capacity under the constitutional debt limit and by moneys available from dedicated accounts, trust revenue, and other funding sources; .....

(c) Approximately half of the capital budget is financed with state-issued general obligation bonds, which pledge the full faith, credit and taxing power of the state toward payment of debt service; and

(d) The capital budget has limited purpose if there is no bond authorization bill to finance appropriations.

(2) The legislature therefore intends to increase the transparency and clarity of the uses and sources of the capital budget for the 2011 supplemental and 2011-2013 fiscal biennium by combining in one bill the authorization of state general obligation bonds with the appropriations that they support.

**NEW SECTION. Sec. 2.** (1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this act and ending June 30, 2013, out of the several funds specified in this act.

(2) The appropriations in this act are appropriations for capital purposes from proceeds of general obligation and other bonds. Appropriations in this act may not necessarily represent all expenditures authorized for a particular project for the 2011-2013 fiscal biennium. For some projects receiving appropriations in this act, additional appropriations from other sources for those projects may also be contained in chapter . . . , Laws of 2011 (House Bill No. 1497).

(3) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.

(a) "Fiscal year 2012" or "FY 2012" means the period beginning July 1, 2011, and ending June 30, 2012.

(b) "Fiscal year 2013" or "FY 2013" means the period beginning July 1, 2012, and ending June 30, 2013.

(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(d) "Provided solely" means the specified amount may be spent only for the specified purpose.

(4) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.

(5) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2011-2013 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

(6) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2011, from the 2009-2011 biennial appropriations for each project.

 Kittitas Groundwater Study (30000029)

The reappropriation in this section is subject to the following conditions and limitations:

(1) Funds may be provided to develop and implement water banking and transfer methods and agreements that are fully protective of senior water rights and that protect domestic groundwater users and improve the profitability of farming operations. The legislature finds such activities to be in the public interest because they can help sustain the viability of the agricultural economy and enhance the certainty of water supplies for domestic groundwater users.

(2) Funds may be provided to lease or purchase water rights to create a reserve water supply for domestic groundwater users that have a groundwater right with a priority date later than May 10, 1905, as well as for all out-of-priority groundwater users. In securing water for such domestic groundwater users, strong preference shall be given to the use of water banking and transfer methods that provide alternatives to permanent purchase and dry-up of agricultural water rights in the basin, including dry-year options, water banking, long- term water supply lease agreements, long-term agricultural land fallowing agreements, and reduced consumptive use through efficiency or alternative cropping arrangements while maintaining historic return flows.

(3) A portion of the reappropriation may be used for administrative costs, not to exceed four percent, and other costs associated with leasing or acquiring and transferring the water rights. All costs shall be fully recovered from participating domestic water users for their prorated portion of the cost, including but not limited to the costs of securing a water right or rights for this purpose, costs associated with the development and implementation of alternative agricultural water transfer methods, associated annual operational costs, and federal water service contract costs owed to the United States bureau of reclamation. Funds recovered in this manner shall be deposited in the state and local improvement revolving fund and may be used for any purpose provided in this section.

Watershed Plan Implementation and Flow Achievement (30000213)

The appropriation in this section is provided solely for grants for projects that improve water supplies and help achieve instream flows by implementing watershed plans, as follows:

(1) Surface or groundwater storage feasibility projects, where such projects are consistent with the recommendations of the water storage task force report to the legislature, February 2001 (Ecology Publication # 01 11 2002). The department shall consult the department of fish and wildlife before issuing water storage grants.

(2) Infrastructure or water management projects that resolve conflicts among water needs for municipal, agricultural, rural, and fish restoration purposes. The stream flow improvements and other public benefits secured from these projects must be commensurate with the investment of state funds.

(3) Purchase and installation of water measuring devices in salmon critical basins and areas participating in the department of fish and wildlife fish screening and cooperative compliance program, and basins where watershed plans call for additional water use or stream flow measurement.

(4) Acquisition of water to achieve instream flows or to establish water banks, water exchanges or similar tools. The department of ecology shall give priority to water acquisitions in salmon critical basins and in basins with adopted watershed plans (chapter 90.82 RCW). The department shall place acquired water into the state's trust water rights program (chapters 90.38 and 90.42 RCW). \$2,000,000 of the appropriation is provided solely for acquisition of water rights that will be placed into the state's trust water rights program specifically and only for instream flow purposes and not for water banks, water exchanges and similar tools that are for mitigation of existing or future water supply needs and other beneficial uses other than instream flows.

**NEW SECTION. Sec. 3111. FOR THE DEPARTMENT OF NATURAL RESOURCES**  
Trust Land Transfer (30000200)

The appropriation in this section is subject to the following conditions and limitations:

(1) The total appropriation is provided solely to the department to transfer from trust status, or enter into fifty year leases for, certain trust lands of statewide significance deemed appropriate for state park, fish and wildlife habitat, natural area preserve, natural resources conservation area, open space, or recreation purposes. The approved list of properties for lease or transfer is identified in the LEAP capital document No. 2011-4B, developed April 11, 2011.

(2) Property transferred under this section must be appraised and transferred at fair market value. No later than September 30, 2011, the department must deposit in the common school construction account the portion of the appropriation in this section that represents the estimated value of the timber on the transferred properties. This transfer must be made in the same manner as timber revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. The portion of the appropriation in this section that represents the value of the land transferred must be deposited in the natural resources real property replacement account.

(3) Property subject to lease agreements under this section must be appraised at fair market value. Lease terms must be fifty years with options to renew for an additional fifty years. Lease payments must be lump sum payments for the entire term of the lease at the beginning of the lease. The department shall calculate such lump sum payments using professional appraisal standards. These lease payments may not exceed the fee simple purchase price based on current fair market value and must be deposited by the department to the common school construction account in the same manner as lease revenues from other common school trust lands. No deduction may be made for the resource management cost account under RCW 79.64.040. No later than September 30, 2011, the department must transfer to the common school construction account the portion of the appropriation in this section that is attributable to receipts from lease payments.

(4) All reasonable costs incurred by the department to implement this section are authorized to be paid out of the appropriations. Authorized costs include the actual cost of appraisals, staff time, environmental reviews, surveys, and other similar costs and shall not exceed one and nine-tenths percent of the appropriation.

(5) Intergrant exchanges between common school and other trust lands of equal value may occur if the exchange is in the interest of each trust, as determined by the board of natural resources.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer and lease agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose. Transfer and lease agreements may include provisions for receiving agencies to request alternative uses of the property, provided the alternative uses are compatible with the original intended public purpose and the department and legislature approves such uses.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) \$53,231,000 of the appropriation must be deposited in the common school construction account by September 30, 2011. The department shall execute trust land transfers so that after the deduction of reasonable costs as provided in subsection (4) of this section on an aggregate basis eighty percent of the total value of transferred property is timber value or lease payments and is deposited in the common school construction account. To achieve the eighty percent requirement, the department may choose to lease properties originally intended as transfers or transfer properties originally intended as leases.

(9) By June 30, 2013, the state treasurer shall transfer to the common school construction account any unexpended balance of the appropriation in this section.

(10) \$500,000 of the appropriation is provided solely for the department to process the fee transfer of properties leased to the department of fish and wildlife through the trust land transfer program during the current or previous biennium.

**NEW SECTION. Sec. 3112. FOR THE DEPARTMENT OF NATURAL RESOURCES**

Replacing State Forest Lands with Productive Forests (91000029)

The appropriation in this section is subject to the following conditions and limitations:

(1) The total appropriation is provided solely to the department to transfer from state forest land status to natural resources conservation area status certain state forest lands in counties with a population of 25,000 or less which are subject to timber harvest deferrals greater than thirty years due to the presence of wildlife species listed as endangered or threatened under the federal endangered species act. The approved list of properties for transfer is identified in the LEAP capital document No. 2011-5A, developed March 24, 2011.

(2) Property transferred under this section must be appraised and transferred at fair market value, without consideration of management or regulatory encumbrances associated with wildlife species listed under the federal endangered species act. The value of the timber and other valuable materials transferred must be distributed as provided in RCW 79.64.110, in the same manner as valuable material revenues from other state forest lands in the applicable counties. The value of the land transferred must be deposited in the park land trust revolving account and be solely used to buy replacement state forest land within the same county as the property transferred, consistent with RCW 79.22.060.

(3) Prior to or concurrent with conveyance of these properties, the department shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose.

(4) The department and applicable counties shall work in good faith to carry out the intent of this section. However, the department or applicable counties may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the state forest trust or the natural resources conservation area program.

**NEW SECTION. Sec. 5011. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION**  
 Energy Operational Savings Project Grants (30000097)

The appropriation in this section is subject to the following conditions and limitations:

(1) The appropriation is provided solely for energy operational cost savings improvements to school facilities.

(2) Grants shall be awarded for projects using the energy savings performance contracting method under chapter 39.35C RCW or an equivalent method of evaluating and delivering energy operational costs savings improvements. Projects that do not use energy savings performance contracting must: (a) Verify energy and operational cost savings for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of general administration's energy savings performance contracting method guidelines; and (c) employ a licensed engineer for the energy audit, design, and construction. The office of the superintendent of public instruction may require third-party verification of savings if a project is not implemented by an energy savings performance contracting method as outlined in chapter 39.35C RCW. If required, third-party verification must be conducted either by an energy savings performance contractor qualified by the department of general administration, or a licensed engineer that is a certified energy manager.

(3) Projects must be weighted and prioritized based on the following criteria and in the following order:

(a) Prior grant award: Priority consideration shall be given to applicants that did not receive grant awards from appropriations provided in sections 1016 and 5007, chapter 36, Laws of 2010 1st sp. sess.;

(b) Leverage ratio: The higher the leverage ratio of guaranteed energy savings and utility or other incentives to state grant, the higher the project ranking;

(c) Energy savings: The higher the simple payback for energy savings, not to exceed the useful life of the energy conservation measure, the higher the project ranking; and

(d) Persistence: The more extensively a project ensures the persistence of energy operational cost savings through ongoing measurement, verification, and reporting over the life of a project, the higher the project ranking.

(4) In order to be eligible for energy cost savings grants under this section, school districts must complete an investment grade audit prior to application, or have completed an audit in the 2009-2011 biennium.

(5)(a) The superintendent of public instruction must use bond proceeds to pay one-half of the preliminary audit, up to five cents per square foot, if the project does not meet the school district's predetermined cost-effectiveness criteria. Public school districts must pay the other one-half of the cost of the preliminary audit if the project does not meet their predetermined cost-effectiveness criteria.

(b) The energy savings performance contractor shall not charge for an investment grade audit if the project does not meet the school district's predetermined cost-effectiveness criteria. Public school districts must pay the full price of an investment grade audit if they do not proceed with a project that meets the school district's predetermined cost-effectiveness criteria.

(6) Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of the energy equipment and improvements. The energy savings analysis shall be performed by a licensed engineer, and the documentation must include, but is not limited to, the following:

(i) A description of the energy equipment and improvements; and

(ii) A description of the energy and operational cost savings.

(7) Each school district is limited to one grant award and no more than \$1,000,000.

(8) The office of the superintendent of public instruction may charge projects administrative fees.

(9) The superintendent of public instruction must report to the appropriate committees of the legislature and the office of financial management on the timing and use of the funds by the end of each fiscal year, until the funds are fully expended.

Temporary Public Works Grant Program (92000021)

The appropriation in this section is subject to the following conditions and limitations: The appropriation is provided solely for grants for the specified public works projects and competitive public works grant programs specified below. The public works board (board) shall administer the following competitive public works grant programs within the amounts specified, provided that up to ten percent of the amounts provided for competitive grant programs may be transferred to other competitive grant categories if acceptable applications for any category do not total the amount available.

(1) \$9,531,000 is provided solely for a competitive public works grant program for local governments serving communities in rural counties as defined in RCW 43.160.020. The board shall prioritize applications for funding for this small community jobs program based on the following criteria:

- The unemployment rate of the community;
- The ability of the applicant to complete the project promptly; and
- The value the project presents to the community in lasting improvements to public safety, environmental quality, recreation and community life, or economic development.

(2) \$9,531,000 is provided solely for a competitive public works grant program for local governments serving high density urban communities. The board shall prioritize applications for funding from this urban vitality program based on the following criteria:

(a) The proposed project's ability to decrease the per capita vehicle miles driven in the community by increasing access to mass transit, supporting residential density in proximity to employment opportunities, and improving the safety and appeal of walking and biking in a community;

- The ability of the applicant to complete the project promptly; and

(c) The local support for the project as indicated by the level of local matching funds devoted to the project. Local matching funds do not include funds from other state sources.

(3) The state taxable building construction account--state appropriation is provided solely for emergency loans under RCW 43.155.065.

(4) (~~(\$23,535,000)~~) \$21,528,000 is provided solely for the following list of projects. The appropriation for Airway Heights wastewater treatment plant is contingent upon a capacity agreement with the Kalispel Tribe that precludes the need to build multiple wastewater treatment facilities on the West Plains. If any project on the following list is unable to show reasonable progress towards accomplishing the intended project by December 31, 2010, the board may transfer the amount allocated for the project to the competitive grant categories in subsections (1) and (2) of this section.

**Sec. 6017.** 2010 1st. sp.s. c 36 s 1016 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF COMMERCE

Jobs Act for K-12 Public Schools and Higher Education Institutions (91000085)

The appropriation in this section is subject to the following conditions and limitations:

(1) The appropriation is provided solely for grants to public school districts and public higher education institutions for operational cost savings improvements to public school district and higher education facilities and related projects that result in energy and operational cost savings. Related projects are those projects that must be completed in order for the energy efficiency improvements to be effective. Grants may also be used for loan interest payments over the term of a loan.

(2) The department of commerce, in consultation with the department of general administration, the office of the superintendent of public instruction, and the Washington State University energy program shall establish a competitive process to solicit and evaluate applications from public school districts and public higher education institutions. Final grant awards shall be determined by the department of commerce.

(3) The definitions in this section apply throughout this section.

(a) "Cost-effectiveness" means that the present value to public school districts and public higher education institutions of the energy reasonably expected to be saved or produced by a facility, activity, measure, or piece of equipment over its useful life, including any compensation received from a utility or the Bonneville power administration, is greater than the net present value of the costs of implementing, maintaining, and operating such facility, activity, measure, or piece of equipment over its useful life, when discounted at the cost of public borrowing.

(b) "Energy equipment" means energy management systems and any equipment, materials, or supplies that are expected, upon installation, to reduce the energy use or energy cost of an existing building or facility, and the services associated with the equipment, materials, or supplies, including but not limited to design, engineering, financing, installation, project management, guarantees, operations, and maintenance. Reduction in energy use or energy cost may also include reductions in the use or cost of water, wastewater, or solid waste.

(c) "Energy cost savings" means savings realized in expenses for energy use and expenses associated with water, wastewater, or solid waste systems.

(d) "Energy savings performance contracting" means the process authorized by chapter 39.35C RCW by which a company contracts with a public agency to conduct energy audits and guarantee energy savings from energy efficiency.

(e) "Operational cost savings" means savings realized from parts, service fees, capital renewal costs, and other measurable annual expenses to maintain and repair systems. This definition does not mean labor savings related to existing facility staff.

(f) "Public facilities" means buildings, building components, and major equipment or systems owned by public school districts and public higher education institutions.

(g) "Innovative measures" means advanced or emerging technologies, systems or approaches that may not yet be in common practice but improve energy efficiency, accelerate deployment, or reduce energy usage, and become widely commercially available in the future if proven successful in demonstration programs without compromising the guaranteed performance or measurable energy and operational cost savings anticipated. Examples of innovative measures include, but are not limited to, advanced energy and systems operations monitoring, diagnostics and controls systems for buildings; novel heating, cooling, ventilation and water heating systems; advanced windows and insulation technologies, highly efficient lighting technologies, designs, and controls; and integration of renewable energy sources into buildings, and energy savings verification technologies and solutions.

(4) Grants must be awarded in competitive rounds, based on demand and capacity, with at least five percent of each grant round awarded to small public school districts with fewer than 1,000 full-time equivalent students, based on demand and capacity.

(5) Within each competitive round, projects must be weighted and prioritized based on the following criteria and in the following order:

(a) Leverage ratio: In each round, the higher the leverage ratio of nonstate funding sources to state jobs act grant, the higher the project ranking.

(b) Energy savings: In each round, the higher the energy savings, the higher the project ranking. Applicants must submit documentation that demonstrates energy and operational cost savings resulting from the installation of the energy equipment and improvements. The energy savings analysis shall be performed by a licensed engineer, and the documentation must include but is not limited to the following:

(i) A description of the energy equipment and improvements;

(ii) A description of the energy and operational cost savings; and

(iii) A description of the extent to which the project employs collaborative and innovative measures and encourages demonstration of new and emerging technologies with high energy-savings or energy cost- reductions.

(c) Expediency of expenditure: Project readiness to spend funds must be prioritized so that the legislative intent to expend funds quickly is met.

(6) Projects that do not use energy savings performance contracting must: (a) Verify energy and operational cost savings for ten years or until the energy and operational costs savings pay for the project, whichever is shorter; (b) follow the department of general administration's energy savings performance contracting project guidelines; and (c) employ a licensed engineer for the energy audit and construction. The department of commerce may require third-party verification of savings if a project is not implemented by an energy savings performance contractor selected by the department of general administration through the request of qualifications process. Third- party verification must be conducted either by an energy savings performance contractor selected by the department of general administration through a request for qualifications, a licensed engineer that is a certified energy manager, a project resource conservation manager, or educational service district resource conservation manager.

(7) To intensify competition, the department of commerce may only award funds to the top eighty-five percent of projects applying in a round until the department of commerce determines a final round is appropriate. Projects that do not receive a grant award in one round may reapply in subsequent rounds.

(8) To match federal grants and programs that require state matching funds and produce significantly higher efficiencies in operations and utilities, the level of innovation criteria may be increased for the purposes of weighted scoring to capture those federal dollars for selected projects that require a higher level of innovation and regional collaboration.

(9) Grant amounts awarded to each project must allow for the maximum number of projects funded with the greatest energy and cost benefit.

(10)(a) The department of commerce must use bond proceeds to pay one-half of the preliminary audit, up to five cents per square foot, if the project does not meet the school district's and higher education institution's predetermined cost-effectiveness criteria. Public school districts and public higher education institutions must pay the other one-half of the cost of the preliminary audit if the project does not meet their predetermined cost-effectiveness criteria.

(b) The energy savings performance contractor shall not charge for an investment grade audit if the project does not meet the school district's and higher education institution's predetermined cost- effectiveness criteria. Public school districts and public higher education institutions must pay the full price of an investment grade audit if they do not proceed with a project that meets the school district's and higher education institution's predetermined cost- effectiveness criteria.

No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

NEW SECTION. Sec. 7002. (1) The proceeds from the sale of the bonds authorized in section 7001 of this act shall be deposited in the state building construction account created by RCW 43.83.020. The proceeds shall be transferred as follows:

- (a) One billion seven million dollars to remain in the state building construction account created by RCW 43.83.020;
- (b) Twenty million two hundred thousand dollars to the outdoor recreation account created by RCW 79A.25.060;
- (c) Twenty million two hundred thousand dollars to the habitat conservation account created by RCW 79A.15.020;
- (d) Eight hundred thousand dollars to the riparian protection account created by RCW 79A.15.120;
- (e) Eight hundred thousand dollars to the farmlands preservation account created by RCW 79A.15.130;

(f) Fifty-one million dollars to the state taxable building construction account. All receipts from taxable bond issues are to be deposited into the account. If the state finance committee deems it necessary or advantageous to issue more than the amount specified in this subsection (1)(f) as taxable bonds in order to comply with federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds or in order to reduce the total financing costs for bonds issued, the proceeds of such additional taxable bonds shall be transferred to the state taxable building construction account in lieu of any transfer otherwise provided by this section. If the state finance committee determines that a portion of the amount specified in this subsection (1)(f) as taxable bonds may be issued as nontaxable bonds in compliance with federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds, then such bond proceeds shall be transferred to the state building construction account in lieu of the transfer to the state taxable building construction account otherwise provided by this subsection (1)(f). The state treasurer shall submit written notice to the director of financial management if it is determined that any such additional transfer to the state taxable building construction account is necessary or that a transfer from the state taxable building construction account to the state building construction account may be made. Moneys in the account may be spent only after appropriation.

(2) These proceeds shall be used exclusively for the purposes specified in this section and for the payment of expenses incurred in the issuance and sale of the bonds issued for the purposes of this section, and shall be administered by the office of financial management subject to legislative appropriation.

**NEW SECTION. Sec. 7003.** (1) The debt-limit general fund bond retirement account shall be used for the payment of the principal of and interest on the bonds authorized in section 7002(1) (a) through (f) of this act.

(2) The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount needed in the ensuing twelve months to meet the bond retirement and interest requirements on the bonds authorized in section 7002(1) (a) through (f) of this act.

(3) On each date on which any interest or principal and interest payment is due on bonds issued for the purposes of section 7002(1) (a) through (f) of this act, the state treasurer shall withdraw from any general state revenues received in the state treasury and deposit in the debt-limit general fund bond retirement account an amount equal to the amount certified by the state finance committee to be due on the payment date.

**NEW SECTION. Sec. 7004.** (1) Bonds issued under sections 7001 through 7003 of this act shall state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay the principal and interest as the same shall become due.

(2) The owner and holder of each of the bonds or the trustee for the owner and holder of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of funds as directed in this section.

**NEW SECTION. Sec. 7005.** The legislature may provide additional means for raising moneys for the payment of the principal of and interest on the bonds authorized in section 7001 of this act, and sections 7002 and 7003 of this act shall not be deemed to provide an exclusive method for the payment.

**NEW SECTION. Sec. 7006.** A new section is added to chapter 43.99I RCW to read as follows:

If any bonds authorized in this chapter have not been issued by June 30, 2013, the authority of the state finance committee to issue such remaining unissued bonds shall expire June 30, 2013.

**NEW SECTION. Sec. 7007.** A new section is added to chapter 43.99N RCW to read as follows:

If any bonds authorized in this chapter have not been issued by June 30, 2013, the authority of the state finance committee to issue such remaining unissued bonds shall expire June 30, 2013.

**NEW SECTION. Sec. 7008.** A new section is added to chapter 43.99P RCW to read as follows:

If any bonds authorized in this chapter have not been issued by June 30, 2013, the authority of the state finance committee to issue such remaining unissued bonds shall expire June 30, 2013.

**Sec. 7009.** RCW 43.99Q.130 and 2009 c 500 s 10 are each amended to read as follows:

(1) For the purpose of providing funds for the planning, design, construction, and other necessary costs for the rehabilitation of the state legislative building, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of eighty-two million five hundred ten thousand dollars or as much thereof as may be required to finance the rehabilitation and improvements to the legislative building and all costs incidental thereto. The approved rehabilitation plan includes costs associated with earthquake repairs and future earthquake mitigation and allows for associated relocation costs and the acquisition of appropriate relocation space. Bonds authorized in this section may be sold at a price the state finance committee determines. No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds. The proceeds of the sale of the bonds issued for the purposes of this section shall be deposited in the capitol historic district construction account hereby created in the state treasury. These proceeds shall be used exclusively for the purposes specified in this section and for the payment of expenses incurred in the issuance and sale of the bonds issued for the purposes of this section, and shall be administered by the office of financial management subject to legislative appropriation.

(2) If any bonds authorized in this chapter have not been issued by June 30, 2013, the authority of the state finance committee to issue such remaining unissued bonds shall expire June 30, 2013.

**NEW SECTION. Sec. 7010.** A new section is added to chapter 43.99Q RCW to read as follows:

If any bonds authorized pursuant to RCW 43.99Q.020(5) have not been issued by June 30, 2013, the authority of the state finance committee to issue such remaining unissued bonds shall expire June 30, 2013.

**NEW SECTION. Sec. 7011.** Sections 7001 through 7005 of this act constitute a new chapter in Title 43 RCW.

## PART 8

### MISCELLANEOUS PROVISIONS

**NEW SECTION. Sec. 8001.** (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management and in compliance with RCW 43.88.110. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110.

(2) Each project is defined as proposed in the legislative budget notes or in the governor's budget document.

**NEW SECTION. Sec. 8002.** To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

**NEW SECTION. Sec. 8003.** (1) To ensure minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(c) Minor works preservation projects may include program improvements of no more than twenty-five percent of the individual minor works preservation project cost.

(3) It is generally not the intent of the legislature to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

**NEW SECTION. Sec. 8004.** (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) The office of financial management shall report any transfer effected under this section to the house of representatives capital budget committee, the senate ways and means committee, and the legislative evaluation and accountability program committee, at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer. The governor's capital budget request following any transfer shall reflect that transfer in the affected agency.

**NEW SECTION. Sec. 8005.** (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

**NEW SECTION. Sec. 8006.** State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

**NEW SECTION. Sec. 8007.** Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

**NEW SECTION. Sec. 8008. PUGET SOUND PROTECTION AND RESTORATION**

Consistent with RCW 90.71.340, when expending appropriations under this act that contribute to Puget Sound protection and recovery, agencies shall consult with the Puget Sound partnership to ensure that projects and expenditures are either in, or consistent with the 2020 action agenda. These consultations shall include the exchange of information on specific actions, projects, associated funding, performance measures, and other information necessary to track project implementation and ensure alignment with the action agenda. In situations where the Puget Sound partnership finds that a project is not in, or is not consistent with the action agenda Puget Sound partnership shall document this finding and report back to the governor and legislative fiscal committees.

**NEW SECTION. Sec. 8009. FOR THE ARTS COMMISSION--ART WORK ALLOWANCE POOLING**

(1) One-half of one percent of moneys appropriated in this act for original construction of school plant facilities may be expended for the purposes of RCW 28A.335.210. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the superintendent of public instruction and representatives of school district boards.

(2) One-half of one percent of moneys appropriated in this act for original construction or any major renovation or remodel work exceeding two hundred thousand dollars by colleges or universities may be expended for the purposes of RCW 28B.10.027. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the board of regents or trustees.

(3) One-half of one percent of moneys appropriated in this act for original construction of any public building by a state agency as defined in RCW 43.17.020 may be expended for the purposes of RCW 43.17.200. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the state agency.

(4) At least eighty-five percent of the moneys spent by the Washington state arts commission during the 2011-2013 biennium for the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended solely for direct acquisition of works of art. The commission may use up to \$100,000 of this amount to conserve or maintain existing pieces in the state art collection pursuant to chapter 36, Laws of 2005.

**NEW SECTION. Sec. 8010.** To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

**NEW SECTION. Sec. 8011.** (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

**NEW SECTION. Sec. 8012. SALARY ADJUSTMENT**

The appropriations in this act shall be expended solely for the purposes designated in this act and are subject to the following conditions and limitations:

(1) Appropriations in this act are provided solely for a 3.0 percent salary reduction effective July 1, 2011, through June 29, 2013, for all employees of the executive, legislative, and judicial branches, including those employees in the Washington management service, and including employees exempt from merit system rules, except for:

(a) Elected officials whose salaries are set by the commission on salaries for elected officials;

(b) Student employees at state institutions of higher education;

(c) Faculty employees at state institutions of higher education: PROVIDED, HOWEVER, That appropriations to higher education institutions are reduced in an amount reflecting a 3.0 percent reduction in faculty salary expenditures;

(d) Certificated employees of the state school for the blind and the center for childhood deafness and hearing loss;

(e) Commissioned officers of the Washington state patrol represented by the state patrol troopers' association and the Washington state patrol lieutenants' association;

(f) Represented ferry workers of the Washington state department of transportation, provided, however, that other reductions are included in section 504 of the 2011-2013 transportation appropriations act;

(g) Employees whose salary is less than \$2,500 per month; and

(h) Employees as specified in subsection (2) of this section.

(2) For employees subject to the 3.0 percent reduction in salary under subsection (1) of this section employees will receive temporary salary reduction leave of up to 5.2 hours per month. The director of personnel shall adopt rules governing the accrual and use of temporary salary reduction leave.

(3) The department of retirement systems shall include any forgone salary or lost work hours under subsections (1) and (3) of this section in the final average compensation of employees affected for purposes of calculating retirement benefits, as specified in executive request legislation Z-0211.1/11.

(4) The appropriation from dedicated funds and accounts shall be made in the amounts specified and from the dedicated funds and accounts specified in office of financial management document 2011-01, which is hereby incorporated by reference. The office of financial management shall allocate the moneys appropriated in this section in the amounts specified and to the state agencies specified in office of financial management document 2011-01 and adjust appropriation schedules accordingly.

**NEW SECTION. Sec. 8013.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

**NEW SECTION. Sec. 8014.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

*Formatting changed to accommodate text*

"NEW SECTION. Sec. 1. (1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this act and ending June 30, 2013, out of the several funds specified in this act.

(2) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.

(a) "Fiscal year 2012" or "FY 2012" means the period beginning July 1, 2011, and ending June 30, 2012.

(b) "Fiscal year 2013" or "FY 2013" means the period beginning July 1, 2012, and ending June 30, 2013.

(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(d) "Provided solely" means the specified amount may be spent only for the specified purpose.

(3) The appropriations in this act are appropriations for capital purposes from sources other than bond proceeds. Appropriations in this act may not necessarily represent all expenditures authorized for a particular project for the 2011-2013 fiscal biennium. For some projects receiving appropriations in this act, additional appropriations from other sources for those projects may also be contained in chapter . . . , Laws of 2011 (House Bill No. 2020).

(4) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.

(5) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2011-2013 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

(6) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2011, from the 2009-2011 biennial appropriations for each project.

The reappropriations in this section are subject to the following conditions and limitations:

**PART 7**

**MISCELLANEOUS PROVISIONS**

**NEW SECTION. Sec. 7001.** (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management and in compliance with RCW 43.88.110. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110.

(2) Each project is defined as proposed in the legislative budget notes or in the governor's budget document.

**NEW SECTION. Sec. 7002.** To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

**NEW SECTION. Sec. 7003.** (1) To ensure minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on

their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(c) Minor works preservation projects may include program improvements of no more than twenty-five percent of the individual minor works preservation project cost.

(3) It is generally not the intent of the legislature to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

**NEW SECTION. Sec. 7004.** (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) The office of financial management shall report any transfer effected under this section to the house of representatives capital budget committee, the senate ways and means committee, and the legislative evaluation and accountability program committee, at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer. The governor's capital budget request following any transfer shall reflect that transfer in the affected agency.

**Sec. 7005.** RCW 39.35B.050 and 2007 c 506 s 3 are each amended to read as follows:

The office of financial management shall:

(1) Design and implement a cost-effective life-cycle cost model by October 1, 2008, based on the work completed by the joint legislative audit and review committee in January 2007 and in consultation with legislative fiscal committees;

(2) Deploy the life-cycle cost model for use by state agencies once completed and tested;

(3) Update the life-cycle cost model periodically in consultation with legislative fiscal committees;

(4) Establish clear policies, standards, and procedures regarding the use of life-cycle cost analysis by state agencies including:

(a) When state agencies must use the life-cycle cost analysis, including the types of proposed capital projects and leased facilities to which it must be applied;

(b) Procedures state agencies must use to document the results of required life-cycle cost analyses;

(c) Standards regarding the discount rate and other key model assumptions; (~~and~~)

(d) A process to document and justify any deviation from the standard assumptions;

(e) Establish a requirement that agencies conduct the analysis comparing a thirty-year and fifty-year building life when using the life-cycle cost model; and

(f) Establish a requirement that agencies include renovation, system replacement, and remodel costs in maintenance costs for use in the life-cycle cost model.

**NEW SECTION. Sec. 7006.** (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

**NEW SECTION. Sec. 7007.** State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

**NEW SECTION. Sec. 7008.** The department of general administration shall not charge the facility depreciation component of lease charges for nonprofit tenants in the building adjoining Capitol Way and 11th avenue during the 2011-2013 biennium.

**NEW SECTION. Sec. 7009.** Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

**NEW SECTION. Sec. 7010.** The capital projects advisory review board and the department of general administration, in consultation with the office of superintendent of public instruction, shall develop a performance-based school construction pilot program. The pilot program must consist of a minimum of two new K-12 school construction projects and two K-12 modernization projects, for consideration under the school construction assistance grant program. Performance-based contracting as allowed in chapter 39.35A RCW shall be the means of project delivery for all applicable systems or structural improvements. The program shall at a minimum include the following: (1) Guidelines for developing a prequalified list of energy services contractors eligible for selection to lead or participate on a team to design and construct a new building, or renovate a building; (2) a process for evaluating the projects submitted by school districts to determine if they are candidates for the pilot; (3) a model contract that requires a guarantee of system performance by way of ongoing monitoring and verification of energy measures to be used in the building; and (4) any rule making or oversight that the department of general administration considers necessary for the success of the pilot program. The pilot program recommendations shall be delivered to the house capital budget committee and the senate ways and means committee by January 1, 2012.

#### POINT OF PARLIAMENTARY INQUIRY

Representative Ross rose for a point of parliamentary inquiry and was recognized by the Speaker. "Mr. Speaker, as you know we have explored the question recently on whether or not an extraction made over the past few years for these programs are really taxes or fees. These document recording fees have moved in the last 9 years from the \$5 that it actually costs to process the paper to the current amount which is \$62. This bill before us moves the cost to \$72 while still providing only \$5 to cover the actual cost of processing the paper. Mr. Speaker I know that these changes in the past have been called fees, but as the total charges for the recording of a document continue to climb and the purpose continues to expand that we use the money for, have we not finally reached a point at which these extractions are now a tax? I ask this for review under initiative 1053, and if so, if it were deemed to be a tax it would require a 2/3 vote for approval. Thank you Mr. Speaker."

#### SPEAKER'S RULING

Mr. Speaker (Representative Moeller presiding): "Engrossed Substitute House Bill No. 2048 imposes a temporary surcharge on real property related documents that are required to be recorded or filed, with the proceeds used to fund programs that provide housing for the homeless. In determining whether a measure raises taxes as defined by Initiative 1053, codified at RCW 43.135.034, the Speaker considers whether the money raised is revenue for general government purposes, which is a tax, or a charge to a specific class of payors to provide a specific service or program related to that class, which is a fee. In prior rulings on a similar but smaller surcharge, the Speaker and the President of the Senate have both found the surcharge to be a fee for purposes of Initiative 1053 and its predecessors. This conclusion was based on the real and demonstrable nexus between activity in the real estate market, the cost of housing, and the availability of housing for those of very limited means. The extension of and increase in the surcharge proposed in Engrossed Substitute House Bill No. 2048 does not change that conclusion. Engrossed Substitute House Bill No. 2048 requires a constitutional majority of 50 for final passage."

Representatives Kenney, Maxwell, Angel, Frockt, Miloscia and Finn spoke in favor of the passage of the bill.

Representatives Ross, Orcutt, Smith, Takko, Walsh and DeBolt spoke against the passage of the bill.

The Speaker (Representative Moeller presiding) stated the question before the House to be the final passage of Engrossed Substitute House Bill No. 2048.

Representative Clibborn moved the adoption of amendment (840).

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1.** The legislature recognizes that for ensuing biennia, the Washington state patrol, ferry operations, as well as state and local roadway preservation and maintenance activities will soon experience significant funding shortfalls. The legislature further recognizes that existing law, enacted in 2002, requires the department of licensing to submit a fee study every two years to the transportation committees of the house of representatives and the senate, the purpose of which is to ensure cost recovery for transportation services. Based on the review of the department of licensing's fee study, the legislature will review and adjust fees accordingly each biennium to ensure that fees are adjusted and brought up-to-date. The legislature further recognizes that previous studies conducted by the joint transportation committee have

recommended various fees adjustments. The legislature finds that many of the fee adjustments identified in these studies have not been made for several years. Therefore, it is the intent of the legislature to adjust certain fees for the sole purposes of addressing funding shortfalls in certain transportation programs, providing gap funding for local transportation entities along with roadway preservation for cities and counties, and bringing fees in-line with costs. Accordingly, the legislature intends to provide additional funding solely for: The Washington state patrol; the Washington state ferry operating and

capital programs; the department of transportation highway maintenance and preservation programs; the department of transportation public transportation program; the transportation improvement board; the county road administration board; the freight mobility strategic investment board; the safe routes to schools program; and the state treasurer, for the purposes of debt service and ancillary costs related to bonds issued to fund the construction of a ferry boat vessel.

(2) **Design and term.** The identicard must:

- (a) Be distinctly designed so that it will not be confused with the official driver's license; and
- (b) Expire on the fifth anniversary of the applicant's birthdate after issuance.

(3) **Renewal.** An application for identicard renewal may be submitted by means of:

- (a) Personal appearance before the department; or
- (b) Mail or electronic commerce, if permitted by rule of the department and if the applicant did not renew his or her identicard by mail or by electronic commerce when it last expired. However, the department may accept an application for renewal of an identicard submitted by means of mail or electronic commerce only if specific authority and funding is provided for this purpose by June 30, 2004, in the omnibus transportation appropriations act.

An identicard may not be renewed by mail or by electronic commerce unless the renewal issued by the department includes a photograph of the identicard holder.

(4) **Cancellation.** The department may cancel an identicard if the holder of the identicard used the card or allowed others to use the card in violation of RCW 46.20.0921.

**Sec. 16.** RCW 46.20.120 and 2005 c 314 s 306 and 2005 c 61 s 2 are each reenacted and amended to read as follows:

An applicant for a new or renewed driver's license must successfully pass a driver licensing examination to qualify for a driver's license. The department shall give examinations at places and times reasonably available to the people of this state.

(1) **Waiver.** The department may waive:

(a) All or any part of the examination of any person applying for the renewal of a driver's license unless the department determines that the applicant is not qualified to hold a driver's license under this title; or

(b) All or any part of the examination involving operating a motor vehicle if the applicant:

- (i) Surrenders a valid driver's license issued by the person's previous home state; or
- (ii) Provides for verification a valid driver's license issued by a foreign driver licensing jurisdiction with which the department has an informal agreement under RCW 46.20.125; and
- (iii) Is otherwise qualified to be licensed.

(2) **Fee.** Each applicant for a new license must pay an examination fee of ~~((twenty))~~ thirty-five dollars.

(a) The examination fee is in addition to the fee charged for issuance of the license.

(b) "New license" means a license issued to a driver:

- (i) Who has not been previously licensed in this state; or
- (ii) Whose last previous Washington license has been expired for more than five years.

(3) An application for driver's license renewal may be submitted by means of:

- (a) Personal appearance before the department; or
- (b) Mail or electronic commerce, if permitted by rule of the department and if the applicant did not renew his or her license by mail or by electronic commerce when it last expired. ~~((However, the department may accept an application for renewal of a driver's license submitted by means of mail or electronic commerce only if specific authority and funding is provided for this purpose by June 30, 2004, in the omnibus transportation appropriations act.))~~

(4) A person whose license expired or will expire while he or she is living outside the state, may:

- (a) Apply to the department to extend the validity of his or her license for no more than twelve months. If the person establishes to the department's satisfaction that he or she is unable to return to Washington before the date his or her license expires, the department shall extend the person's license. The department may grant consecutive extensions, but in no event may the cumulative total of extensions exceed twelve months. An extension granted under this section does not change the expiration date of the license for purposes of RCW 46.20.181. The department shall charge a fee of five dollars for each license extension;

(b) Apply to the department to renew his or her license by mail or, if permitted by rule of the department, by electronic commerce even if subsection (3)(b) of this section would not otherwise allow renewal by that means. If the person establishes to the department's satisfaction that he or she is unable to return to Washington within twelve months of the date that his or her license expires, the department shall renew the person's license by mail or, if permitted by rule of the department, by electronic commerce.

(5) If a qualified person submits an application for renewal under subsection (3)(b) or (4)(b) of this section, he or she is not required to pass an examination nor provide an updated photograph. A license renewed by mail or by electronic commerce that does not include a photograph of the licensee must be labeled "not valid for identification purposes."

**Sec. 17.** RCW 46.20.200 and 2002 c 352 s 14 are each amended to read as follows:

(1) If an instruction permit, identicard, or a driver's license is lost or destroyed, the person to whom it was issued may obtain a duplicate of it upon furnishing proof of such fact satisfactory to the department and payment of a fee of ~~((fifteen))~~ twenty dollars to the department.

(2) A replacement permit, identicard, or driver's license may be obtained to change or correct material information upon payment of a fee of ten dollars and surrender of the permit, identicard, or driver's license being replaced.

**Sec. 18.** RCW 46.20.308 and 2008 c 282 s 2 are each amended to read as follows:

(1) Any person who operates a motor vehicle within this state is deemed to have given consent, subject to the provisions of RCW 46.61.506, to a test or tests of his or her breath or blood for the purpose of determining the alcohol concentration or presence of any drug in his or her breath or blood if arrested for any offense where, at the time of the arrest, the arresting officer has reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while under the influence of intoxicating liquor or any drug or was in violation of RCW 46.61.503. Neither consent nor this section precludes a police officer from obtaining a search warrant for a person's breath or blood.

(2) The test or tests of breath shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or the person to have been driving or in actual physical control of a motor vehicle while having alcohol in a concentration in violation of RCW 46.61.503 in his or her system and being under the age of twenty-one. However, in those instances where the person is incapable due to physical injury, physical incapacity, or other physical limitation, of providing a breath sample or where the person is being treated in a hospital, clinic, doctor's office, emergency medical vehicle, ambulance, or other similar facility or where the officer has reasonable grounds to believe that the person is under the influence of a drug, a blood test shall be administered by a qualified person as provided in RCW 46.61.506(5). The officer shall inform the person of his or her right to refuse the breath or blood test, and of his or her right to have additional tests administered by any qualified person of his or her choosing as provided in RCW 46.61.506. The officer shall warn the driver, in substantially the following language, that:

(a) If the driver refuses to take the test, the driver's license, permit, or privilege to drive will be revoked or denied for at least one year; and

(b) If the driver refuses to take the test, the driver's refusal to take the test may be used in a criminal trial; and

(c) If the driver submits to the test and the test is administered, the driver's license, permit, or privilege to drive will be suspended, revoked, or denied for at least ninety days if the driver is age twenty-one or over and the test indicates the alcohol concentration of the

driver's breath or blood is 0.08 or more, or if the driver is under age twenty-one and the test indicates the alcohol concentration of the driver's breath or blood is 0.02 or more, or if the driver is under age twenty-one and the driver is in violation of RCW 46.61.502 or 46.61.504; and

(d) If the driver's license, permit, or privilege to drive is suspended, revoked, or denied the driver may be eligible to immediately apply for an ignition interlock driver's license.

(3) Except as provided in this section, the test administered shall be of the breath only. If an individual is unconscious or is under arrest for the crime of vehicular homicide as provided in RCW 46.61.520 or vehicular assault as provided in RCW 46.61.522, or if an individual is under arrest for the crime of driving while under the influence of intoxicating liquor or drugs as provided in RCW 46.61.502, which arrest results from an accident in which there has been serious bodily injury to another person, a breath or blood test may be administered without the consent of the individual so arrested.

(4) Any person who is dead, unconscious, or who is otherwise in a condition rendering him or her incapable of refusal, shall be deemed not to have withdrawn the consent provided by subsection (1) of this section and the test or tests may be administered, subject to the provisions of RCW 46.61.506, and the person shall be deemed to have received the warnings required under subsection (2) of this section.

(5) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested refuses upon the request of a law enforcement officer to submit to a test or tests of his or her breath or blood, no test shall be given except as authorized under subsection (3) or (4) of this section.

(6) If, after arrest and after the other applicable conditions and requirements of this section have been satisfied, a test or tests of the person's blood or breath is administered and the test results indicate that the alcohol concentration of the person's breath or blood is 0.08 or more if the person is age twenty-one or over, or 0.02 or more if the person is under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose direction any test has been given, or the department, where applicable, if the arrest results in a test of the person's blood, shall:

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, or deny the person's license, permit, or privilege to drive as required by subsection (7) of this section;

(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (8) of this section and that the person waives the right to a hearing if he or she receives an ignition interlock driver's license;

(c) Mark the person's Washington state driver's license or permit to drive, if any, in a manner authorized by the department;

(d) Serve notice in writing that the marked license or permit, if any, is a temporary license that is valid for sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person's license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit that it replaces; and

(e) Immediately notify the department of the arrest and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by RCW 9A.72.085 that states:

(i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle

while having an alcohol concentration in violation of RCW 46.61.503;

(ii) That after receipt of the warnings required by subsection (2) of this section the person refused to submit to a test of his or her blood or breath, or a test was administered and the results indicated that the alcohol concentration of the person's breath or blood was 0.08 or more if the person is age twenty-one or over, or was 0.02 or more if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(7) The department of licensing, upon the receipt of a sworn report or report under a declaration authorized by RCW 9A.72.085 under subsection (6)(e) of this section, shall suspend, revoke, or deny the person's license, permit, or privilege to drive or any nonresident operating privilege, as provided in RCW 46.20.3101, such suspension, revocation, or denial to be effective beginning sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first.

(8) A person receiving notification under subsection (6)(b) of this section may, within twenty days after the notice has been given, request in writing a formal hearing before the department. The person shall pay a fee of ~~((two))~~ three hundred seventy-five dollars as part of the request. If the request is mailed, it must be postmarked within twenty days after receipt of the notification. Upon timely receipt of such a request for a formal hearing, including receipt of the required ~~((two))~~ three hundred seventy-five dollar fee, the department shall afford the person an opportunity for a hearing. The department may waive the required ~~((two))~~ three hundred seventy-five dollar fee if the person is an indigent as defined in RCW 10.101.010. Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license marked under subsection (6)(c) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more if the person was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered without express consent as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was 0.08 or more if the person was age twenty-one or over at the time of the arrest, or 0.02 or more if the person was under the age of twenty-one at the time of the arrest. The sworn report or report under a declaration authorized by RCW 9A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under

the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, or denial either be rescinded or sustained.

(9) If the suspension, revocation, or denial is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, or denied has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner as an appeal from a decision of a court of limited jurisdiction. Notice of appeal must be filed within thirty days after the date the final order is served or the right to appeal is waived. Notwithstanding RCW 46.20.334, RALJ 1.1, or other statutes or rules referencing de novo review, the appeal shall be limited to a review of the record of the administrative hearing. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, or denial. A petition filed under this subsection must include the petitioner's grounds for requesting review. Upon granting petitioner's request for review, the court shall review the department's final order of suspension, revocation, or denial as expeditiously as possible. The review must be limited to a determination of whether the department has committed any errors of law. The superior court shall accept those factual determinations supported by substantial evidence in the record: (a) That were expressly made by the department; or (b) that may reasonably be inferred from the final order of the department. The superior court may reverse, affirm, or modify the decision of the department or remand the case back to the department for further proceedings. The decision of the superior court must be in writing and filed in the clerk's office with the other papers in the case. The court shall state the reasons for the decision. If judicial relief is sought for a stay or other temporary remedy from the department's action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, or denial it may impose conditions on such stay.

(10)(a) If a person whose driver's license, permit, or privilege to drive has been or will be suspended, revoked, or denied under subsection (7) of this section, other than as a result of a breath or blood test refusal, and who has not committed an offense for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (7) of this section, or notifies the department of licensing of the intent to seek such a deferred prosecution, then the license suspension or revocation shall be stayed pending entry of the deferred prosecution. The stay shall not be longer than one hundred fifty days after the date charges are filed, or two years after the date of the arrest, whichever time period is shorter. If the court stays the suspension,

revocation, or denial, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license marked under subsection (6) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary marked license or extension of a temporary license issued under this subsection.

(b) A suspension, revocation, or denial imposed under this section, other than as a result of a breath or blood test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

(c) The provisions of (b) of this subsection relating to a stay of a suspension, revocation, or denial and the cancellation of any suspension, revocation, or denial do not apply to the suspension, revocation, denial, or disqualification of a person's commercial driver's license or privilege to operate a commercial motor vehicle.

(11) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license.

The twenty dollar fee must be deposited in the multimodal transportation account created in RCW 47.66.070.

(c) A ten dollar license plate transfer fee, as required under RCW 46.16A.200(8)(a), when transferring standard issue license plates from one vehicle to another, unless the owner or type of vehicle is exempt from payment. (2) The department may, upon request, provide license plates that have been used and returned to the department to individuals for nonvehicular use. The department may charge a fee of up to five dollars per license plate to cover costs or recovery for postage and handling. The department may waive the fee for license plates used in educational projects and may, by rule, provide standards for the fee waiver and restrictions on the number of license plates provided to any one person. The fee must be deposited in the motor vehicle fund created in RCW 46.68.070.

### IV. MISCELLANEOUS FEES

**Sec. 23.** RCW 46.52.130 and 2010 c 253 s 1 are each amended to read as follows:

Upon a proper request, the department may furnish an abstract of a person's driving record as permitted under this section.

(1) **Contents of abstract of driving record.** An abstract of a person's driving record, whenever possible, must include:

(a) An enumeration of motor vehicle accidents in which the person was driving, including:

A pending case includes criminal cases that have not reached a disposition by plea, stipulation, trial, or amended charge. An open infraction or criminal case includes cases on probation, payment agreement or subject to, or in collections. Courts may charge a reasonable fee for the production and copying of the abstract for the individual.

(b) **Employers or prospective employers.** (i) An abstract of the full driving record maintained by the department may be furnished to an employer or prospective employer or an agent acting on behalf of an employer or prospective employer of the named individual for purposes related to driving by the individual as a condition of employment or otherwise at the direction of the employer.

(ii) Release of an abstract of the driving record of an employee or prospective employee requires a statement signed by: (A) The employee or prospective employee that authorizes the release of the record; and (B) the employer attesting that the information is necessary for employment purposes related to driving by the individual as a condition of employment or otherwise at the direction of the employer. If the employer or prospective employer authorizes an agent to obtain this information on their behalf, this must be noted in the statement.

(iii) Upon request of the person named in the abstract provided under this subsection, and upon that same person furnishing copies of court records ruling that the person was not at fault in a motor vehicle accident, the department must indicate on any abstract provided under this subsection that the person was not at fault in the motor vehicle accident.

Any insurance company or its agent, for underwriting purposes relating to the operation of noncommercial motor vehicles, may not use any information contained in the abstract relative to any person's operation of commercial motor vehicles.

(v) The director may enter into a contractual agreement with an insurance company or its agent for the limited purpose of reviewing the driving records of existing policyholders for changes to the record during specified periods of time. The department shall establish a fee for this service, which must be deposited in the highway safety fund. The fee for this service must be set at a level that will not result in a net revenue loss to the state. There being no objection, Substitute House Bill No. 1410 was substituted for House Bill No. 1410 and the substitute bill was placed on the second reading calendar.

SUBSTITUTE HOUSE BILL NO. 1410 was read the second time.

With the consent of the house, amendments (780), (787), (802), (793), (807), (853), (823), (800), (801), (805), (806), (815) and (824) were withdrawn.

Representative Dammeier moved the adoption of amendment (822).

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 29.** (1) The legislature continues to support end-of-course assessments as a fair and practical way to measure students' knowledge and skills in high school science, but the legislature also recognizes that there are important scientific concepts, principles, and content that are not able to be captured in a single course or a single assessment. The legislature also does not wish to narrow the high school science curriculum to a singular focus on biology.

(2) However, the legislature finds that the financial resources for developing additional end-of-course assessments for high school science are not available in the 2011-13 biennium. Nevertheless, the legislature intends to revisit this issue in the future and further intends at an appropriate time to direct the superintendent of public instruction to develop one or more end-of-course assessments in additional science subjects.

**Sec. 30.** RCW 28A.655.061 and 2010 c 244 s 1 are each amended to read as follows:

(1) The high school assessment system shall include but need not be limited to the ~~((Washington))~~ statewide student assessment ~~((of student learning))~~, opportunities for a student to retake the content areas of the assessment in which the student was not successful, and, if approved by the legislature pursuant to subsection (10) of this section, one or more objective alternative assessments for a student to demonstrate achievement of state academic standards. The objective alternative assessments for each content area shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the ~~((Washington))~~ statewide student assessment ~~((of student learning))~~ for each content area.

(2) Subject to the conditions in this section, a certificate of academic achievement shall be obtained by most students at about the age of sixteen, and is evidence that the students have successfully met the state standard in the content areas included in the certificate. With the exception of students satisfying the provisions of RCW 28A.155.045 or 28A.655.0611, acquisition of the certificate is required for graduation from a public high school but is not the only requirement for graduation.

(3) Beginning with the graduating class of 2008, with the exception of students satisfying the provisions of RCW 28A.155.045, a student who meets the state standards on the reading, writing, and mathematics content areas of the high school ~~((Washington))~~ statewide student assessment ~~((of student learning))~~ shall earn a certificate of academic achievement. If a student does not successfully meet the state standards in one or more content areas required for the certificate of academic achievement, then the student may retake the assessment in the content area up to four times at no cost to the student. If the student successfully meets the state standards on a retake of the assessment then the student shall earn a certificate of academic achievement. Once objective alternative assessments are authorized pursuant to subsection (10) of this section, a student may use the objective alternative assessments to demonstrate that the student successfully meets the state standards for that content area if the student has taken the ~~((Washington))~~ statewide student assessment ~~((of student learning))~~ at least once. If the student successfully meets the state standards on the objective alternative assessments then the student shall earn a certificate of academic achievement.

(4) Beginning ~~((no later than))~~ with the graduating class of ~~((2013))~~ 2015, a student must meet the state standards in science in addition to the other content areas required under subsection (3) of this section on the ~~((Washington))~~ statewide student assessment ~~((of student learning))~~ or the objective alternative assessments in order to earn a certificate of academic achievement. ~~((The state board of education may adopt a rule that implements the requirements of this subsection (4) beginning with a graduating class before the graduating class of 2013, if the state board of education adopts the rule by September 1st of the freshman school year of the graduating class to~~

~~which the requirements of this subsection (4) apply. The state board of education's authority under this subsection (4) does not alter the requirement that any change in performance standards for the tenth grade assessment must comply with RCW 28A.305.130.)~~

(5) The state board of education may not require the acquisition of the certificate of academic achievement for students in home-based instruction under chapter 28A.200 RCW, for students enrolled in private schools under chapter 28A.195 RCW, or for students satisfying the provisions of RCW 28A.155.045.

(6) A student may retain and use the highest result from each successfully completed content area of the high school assessment.

(7) School districts must make available to students the following options:

(a) To retake the ~~((Washington)) statewide student~~ assessment ((of student learning)) up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a public school; or

(b) To retake the ~~((Washington)) statewide student~~ assessment ((of student learning)) up to four times in the content areas in which the student did not meet the state standards if the student is enrolled in a high school completion program at a community or technical college. The superintendent of public instruction and the state board for community and technical colleges shall jointly identify means by which students in these programs can be assessed.

(8) Students who achieve the standard in a content area of the high school assessment but who wish to improve their results shall pay for retaking the assessment, using a uniform cost determined by the superintendent of public instruction.

(9) Opportunities to retake the assessment at least twice a year shall be available to each school district.

(10)(a) The office of the superintendent of public instruction shall develop options for implementing objective alternative assessments, which may include an appeals process for students' scores, for students to demonstrate achievement of the state academic standards. The objective alternative assessments shall be comparable in rigor to the skills and knowledge that the student must demonstrate on the ~~((Washington)) statewide student~~ assessment ((of student learning)) and be objective in its determination of student achievement of the state standards. Before any objective alternative assessments in addition to those authorized in RCW 28A.655.065 or (b) of this subsection are used by a student to demonstrate that the student has met the state standards in a content area required to obtain a certificate, the legislature shall formally approve the use of any objective alternative assessments through the omnibus appropriations act or by statute or concurrent resolution.

(b)(i) A student's score on the mathematics, reading or English, or writing portion of the SAT or the ACT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the relevant portion of the SAT or ACT to meet or exceed the state standard in the relevant content area on the ~~((Washington)) statewide student~~ assessment ((of student learning. The state board of education shall identify the first scores by December 1, 2007)). A student's score on the science portion of the ACT or the science subject area tests of the SAT may be used as an objective alternative assessment under this section as soon as the state board of education determines that sufficient data is available to identify reliable equivalent scores for the science content area of the statewide student assessment. After the first scores are established, the state board may increase but not decrease the scores required for students to meet or exceed the state standards.

(ii) (Until August 31, 2008, a student's score on the mathematics portion of the PSAT may be used as an objective alternative assessment under this section for demonstrating that a student has met or exceeded the state standard for the certificate of academic

achievement. The state board of education shall identify the score students must achieve on the mathematics portion of the PSAT to meet or exceed the state standard in that content area on the Washington assessment of student learning.

(iii)) A student who scores at least a three on the grading scale of one to five for selected AP examinations may use the score as an objective alternative assessment under this section for demonstrating that a student has met or exceeded state standards for the certificate of academic achievement. A score of three on the AP examinations in calculus or statistics may be used as an alternative assessment for the mathematics portion of the ~~((Washington)) statewide student~~ assessment ((of student learning)). A score of three on the AP examinations in English language and composition may be used as an alternative assessment for the writing portion of the ~~((Washington)) statewide student~~ assessment ((of student learning)). A score of three on the AP examinations in English literature and composition, macroeconomics, microeconomics, psychology, United States history, world history, United States government and politics, or comparative government and politics may be used as an alternative assessment for the reading portion of the ~~((Washington)) statewide student~~ assessment ((of student learning)). A score of three on the AP examination in biology, physics, chemistry, or environmental science may be used as an alternative assessment for the science portion of the statewide student assessment.

(11) By December 15, 2004, the house of representatives and senate education committees shall obtain information and conclusions from recognized, independent, national assessment experts regarding the validity and reliability of the high school Washington assessment of student learning for making individual student high school graduation determinations.

(12) To help assure continued progress in academic achievement as a foundation for high school graduation and to assure that students are on track for high school graduation, each school district shall prepare plans for and notify students and their parents or legal guardians as provided in this subsection. Student learning plans are required for eighth grade students who were not successful on any or all of the content areas of the state assessment during the previous school year or who may not be on track to graduate due to credit deficiencies or absences. The parent or legal guardian shall be notified about the information in the student learning plan, preferably through a parent conference and at least annually. To the extent feasible, schools serving English language learner students and their parents shall translate the plan into the primary language of the family. The plan shall include the following information as applicable:

- (a) The student's results on the state assessment;
- (b) If the student is in the transitional bilingual program, the score on his or her Washington language proficiency test II;
- (c) Any credit deficiencies;
- (d) The student's attendance rates over the previous two years;
- (e) The student's progress toward meeting state and local graduation requirements;
- (f) The courses, competencies, and other steps needed to be taken by the student to meet state academic standards and stay on track for graduation;
- (g) Remediation strategies and alternative education options available to students, including informing students of the option to continue to receive instructional services after grade twelve or until the age of twenty-one;
- (h) The alternative assessment options available to students under this section and RCW 28A.655.065;
- (i) School district programs, high school courses, and career and technical education options available for students to meet graduation requirements; and

(j) Available programs offered through skill centers or community and technical colleges, including the college high school diploma options under RCW 28B.50.535.

**NEW SECTION. Sec. 31.** A new section is added to chapter 28A.655 RCW to read as follows:

(1) Beginning in the 2011-12 school year, the statewide high school assessment in science shall be an end-of-course assessment for biology that measures the state standards for life sciences, in addition to systems, inquiry, and application as they pertain to life sciences.

(2) The superintendent of public instruction may develop science end-of-course assessments in subjects in addition to biology for purposes of RCW 28A.655.061, when so directed by the legislature.

(3) The superintendent of public instruction may participate with consortia of multiple states as common student learning standards and assessments in science are developed. The superintendent of public instruction, in consultation with the state board of education, may modify the essential academic learning requirements and statewide student assessments in science, including the high school assessment, according to the multistate common student learning standards and assessments as long as the education committees of the legislature have opportunities for review before the modifications are adopted, as provided under RCW 28A.655.070.

(4) The statewide high school assessment under this section shall be used to demonstrate that a student meets the state standards in the science content area of the statewide student assessment for purposes of RCW 28A.655.061."

Correct the title.

Representative Hunt moved the adoption of amendment (852) to amendment (822).

On page 1, after line 17 of the striking amendment, insert the following:

**"NEW SECTION. Sec. 2.** A new section is added to chapter 28A.655 RCW to read as follows:

Beginning with the graduating class of 2014, students may graduate from high school without earning a certificate of academic achievement or a certificate of individual achievement if they:

(1) Have not successfully met the science standard on the statewide high school science assessment, an approved objective alternative assessment, or an alternate assessment developed for eligible special education students;

(2) Have successfully met the state standard in the other content areas required for a certificate under RCW 28A.655.061 or 28A.155.045;

(3) Have met all other state and school district graduation requirements; and

(4) Successfully earn, after the school year in which they took the statewide high school science assessment for the first time, one high school science credit or credit that integrates science with technology, engineering, or mathematics, including career and technical course equivalents or courses offered at skill centers, that is intended to increase the student's science proficiency toward meeting or exceeding the science standards assessed on the statewide high school science assessment."

The certificate may be earned using multiple ways to demonstrate skills and abilities commensurate with their individual education programs. The determination of whether the high school assessment system is appropriate shall be made by the student's individual education program team. Except as provided in RCW 28A.655.0611 and section 2 of this act, for these students, the certificate of individual achievement is required for graduation from a public high school, but need not be the only requirement for graduation. When measures other than the high school assessment system as defined in RCW 28A.655.061 are used, the measures shall be in agreement with the appropriate educational opportunity provided for the student as required by this chapter. The superintendent of public instruction shall develop the guidelines for determining which students should not be required to participate in the high school assessment system and which types of assessments are appropriate to use.

When measures other than the high school assessment system as defined in RCW 28A.655.061 are used for high school graduation purposes, the student's high school transcript shall note whether that student has earned a certificate of individual achievement.

#### DEPARTMENT OF ENTERPRISE SERVICES CREATED

**NEW SECTION. Sec. 101.** To maximize the benefits to the public, state government should be operated in an efficient and effective manner. The department of enterprise services is created to provide centralized leadership in efficiently and cost-effectively managing resources necessary to support the delivery of state government services. The mission of the department is to implement a world-class, customer-focused organization that provides valued products and services to government and state residents.

**NEW SECTION. Sec. 102.** A new section is added to chapter 43.19 RCW to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Department" means the department of enterprise services.

(2) "Director" means the director of enterprise services.

**NEW SECTION. Sec. 103.** A new section is added to chapter 43.19 RCW to read as follows:

(1) The department of enterprise services is created as an executive branch agency. The department is vested with all powers and duties transferred to it under this act and such other powers and duties as may be authorized by law.

(2) In addition to the powers and duties as provided in this act, the department shall:

(a) Provide products and services to support state agencies, and may enter into agreements with any other governmental entity or a public benefit nonprofit organization, in compliance with RCW 39.34.055, to furnish such products and services as deemed appropriate by both parties. The agreement shall provide for the reimbursement to the department of the reasonable cost of the products and services furnished. All governmental entities of this state may enter into such agreements, unless otherwise prohibited; and

(b) Make available to state, local, and federal agencies, local governments, and public benefit nonprofit corporations on a full cost-recovery basis information and printing services to include equipment acquisition assistance, including leasing, brokering, and establishing master contracts. For the purposes of this section "public benefit

nonprofit corporation" means a public benefit nonprofit corporation as defined in RCW 24.03.005 that is receiving local, state, or federal funds either directly or through a public agency other than an Indian tribe or political subdivision of another state.

**NEW SECTION. Sec. 104.** A new section is added to chapter 43.19 RCW to read as follows:

(1) The executive powers and management of the department shall be administered as described in this section.

(2) The executive head and appointing authority of the department is the director. The director is appointed by the governor, subject to confirmation by the senate. The director serves at the pleasure of the governor. The director is paid a salary fixed by the governor in accordance with RCW 43.03.040. If a vacancy occurs in the position of director while the senate is not in session, the governor shall make a temporary appointment until the next meeting of the senate at which time he or she shall present to that body his or her nomination for the position.

(3) The director may employ staff members, who are exempt from chapter 41.06 RCW, and any additional staff members as are necessary to administer this chapter, and such other duties as may be authorized by law. The director may delegate any power or duty vested in him or her by this act or other law, including authority to make final decisions and enter final orders in hearings conducted under chapter 34.05 RCW.

(4) The internal affairs of the department are under the control of the director in order that the director may manage the department in a flexible and intelligent manner as dictated by changing contemporary circumstances. Unless specifically limited by law, the director has complete charge and supervisory powers over the department. The director may create the administrative structures as the director deems appropriate, except as otherwise specified by law, and the director may employ personnel as may be necessary in accordance with chapter 41.06 RCW, except as otherwise provided by law.

(5) Until June 30, 2018, at the beginning of each fiscal biennium, the office of financial management shall conduct a review of the programs and services that are performed by the department to determine whether the program or service may be performed by the private sector in a more cost-efficient and effective manner than being performed by the department. In conducting this review, the office of financial management shall:

(a) Examine the existing activities currently being performed by the department, including but not limited to an examination of services for their performance, staffing, capital requirements, and mission. Programs may be broken down into discrete services or activities or reviewed as a whole; and

(b) Examine the activities to determine which specific services are available in the marketplace and what potential for efficiency gains or savings exist.

(i) As part of the review in this subsection (5), the office of financial management shall select up to six activities or services that have been determined as an activity that may be provided by the private sector in a cost-effective and efficient manner, including for the 2011-2013 fiscal biennium the bulk printing services. The office of financial management may consult with affected industry stakeholders in making its decision on which activities to contract for services. Priority for selection shall be given to agency activities or services that are significant, ongoing functions.

(ii) The office of financial management must consider the consequences and potential mitigation of improper or failed performance by the contractor.

(iii) For each of the selected activities, the department shall use a request for information, request for proposal, or other procurement process to determine if a contract for the activity would result in the activity being provided at a reduced cost and with greater efficiency.

(iv) The request for information, request for proposal, or other procurement process must contain measurable standards for the performance of the contract.

(v) The department may contract with one or more vendors to provide the service as a result of the procurement process.

(vi) If the office of financial management determines via the procurement process that the activity cannot be provided by the private sector at a reduced cost and greater efficiency, the department of enterprise services may cancel the procurement without entering into a contract and shall promptly notify the legislative fiscal committees of such a decision.

(vii) The department of enterprise services, in consultation with the office of financial management, must establish a contract monitoring process to measure contract performance, costs, service delivery quality, and other contract standards, and to cancel contracts that do not meet those standards. No contracts may be renewed without a review of these measures.

(viii) The office of financial management shall prepare a biennial report summarizing the results of the examination of the agency's programs and services. In addition to the programs and services examined and the result of the examination, the report shall provide information on any procurement process that does not result in a contract for the services. During each regular legislative session held in odd-numbered years, the legislative fiscal committees shall hold a public hearing on the report and the department's activities under this section.

(ix) The joint legislative audit and review committee shall conduct an audit of the implementation of this subsection (5), and report to the legislature by January 1, 2018, on the results of the audit. The report must include an estimate of additional costs or savings to taxpayers as a result of the contracting out provisions.

**NEW SECTION. Sec. 105.** (1) The department of enterprise services has powers and duties related to state contracting as provided in chapters 43.19 and 39.29 RCW. The process and procedures in each chapter differ from each other in many respects. In addition, the process and procedures may not represent the best practices for the agency or the public.

(2) In order to effect reform and consolidation of procurement practices, the department shall review current state procurement practices, not including public works, and provide a report to the governor with procurement reform recommendations. The department should review national best practices and the procedures used in other states and by the federal government. The department may also review private sector procedures and model codes such as the American bar association model procurement code. The department shall seek input from stakeholders and interested parties. The department shall submit a report to the governor and the office of financial management by December 31, 2011. The report shall include any draft legislation needed to accomplish the report's recommendations.
