**RESOLUTION****HOUSE RESOLUTION NO. 2011-4627, by Representatives Santos and Hasegawa**

WHEREAS, On February 19, 1942, President Franklin D. Roosevelt issued Executive Order 9066, which authorized the forced assembly, evacuation, and internment of approximately 12,000 Japanese-Americans residing in the state of Washington; and

WHEREAS, The order for assembly and detention at Camp Harmony in Puyallup, Washington, prior to evacuation and subsequent internment, caused Japanese-Americans from the state of Washington to lose millions of dollars in property and assets, to suffer immeasurable physical and psychological damage, and to be deprived of their constitutional liberties without due process of law; and

WHEREAS, The alleged purpose of this drastic course of action was to prevent Japanese-Americans, all of whom were deemed disloyal and untrustworthy, from committing acts of espionage and sabotage against the United States during its involvement in World War II; and

WHEREAS, An overwhelming number of Japanese-Americans from the state of Washington responded to questions of their loyalty and patriotism by volunteering from within barbed wire camps to serve in the United States Military Intelligence Service and the United States Army's 442nd Regimental Combat Team, the latter of which became the most decorated unit of its size in American history with 7 Presidential Unit Citations, 21 Congressional Medals of Honor, 52 Distinguished Service Crosses, 1 Distinguished Service Medal, 588 Silver Stars, 4,000 Bronze Stars, 9,486 Purple Hearts, and a total of 18 decorations from France and Italy; and

WHEREAS, A few equally patriotic Japanese-Americans such as Fred Korematsu, Minoru Yasui, and Gordon Hirabayashi, who was then a student at the University of Washington, were willing to face imprisonment to seek justice by challenging the constitutionality of the evacuation and internment orders; and

WHEREAS, Through the fact-finding work of the Commission on Wartime Relocation and Internment of Civilians, the United States Congress later found that "there was no military or security reason for the internment" of individuals of Japanese ancestry and that the internment "was caused by racial prejudice, war hysteria, and a failure of political leadership"; and

WHEREAS, On August 10, 1988, President Ronald Reagan signed H.R. 442, the Civil Liberties Act, which recognized the injustice of the relocation and internment of American citizens of Japanese ancestry; and

WHEREAS, Japanese-American internees from the state of Washington endured economic, physical, and psychological hardship and suffered in silence for more than forty years before the state of Washington issued a formal apology for the unjust treatment of municipal and state employees who were summarily dismissed without cause during the war;

NOW, THEREFORE, BE IT RESOLVED, That the House of Representatives, along with the people of Washington, pause to acknowledge the sixty-ninth anniversary of the signing of Executive Order 9066, to recognize the Japanese-American internees and WWII veterans from the state of Washington, to honor their patience, heroism, sacrifice, and patriotic loyalty, and to remember the lessons and blessings of liberty and justice for all; and

BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Chief Clerk of the House of Representatives to the Nisei Veterans Committee, the Military Intelligence Service - Northwest Association, the Japanese-American Citizens League, the Japanese Cultural & Community Center of Washington State, and the Wing Luke Asian Museum.

The facility shall provide at least three months of consultation and support to parents accepting placement of children from the facility. (2) \$369,000 of the general fund--state appropriation for fiscal year 2010, ~~(\$366,000)~~ \$343,000 of the general fund--state appropriation for fiscal year 2011, and ~~(\$316,000)~~ \$306,000 of the general fund--federal appropriation are provided solely for up to three nonfacility-based programs for the training, consultation, support, and recruitment of biological, foster, and adoptive parents of children through age three in need of special care as a result of substance abuse by their mothers, except that each program may serve up to three medically fragile nonsubstance-

abuse-affected children. In selecting nonfacility-based programs, preference shall be given to programs whose federal or private funding sources have expired or that have successfully performed under the existing pediatric interim care program.

(3) \$2,500,000 of the general fund--state appropriation for fiscal year 2010 and (~~(\$88,000)~~) \$46,000 of the general fund--state appropriation for fiscal year 2011, and (~~(\$2,256,000)~~) \$2,098,000 of the home security fund--state appropriation are provided solely for secure crisis residential centers. (4) A maximum of (~~(\$73,209,000)~~) \$69,190,000 of the general fund--state appropriations and (~~(\$54,596,000)~~) \$54,443,000 of the general fund--federal appropriations for the 2009-11 biennium shall be expended for behavioral rehabilitative services and these amounts are provided solely for this purpose. The department shall work with behavioral rehabilitative service providers to safely keep youth with emotional, behavioral, or medical needs at home, with relatives, or with other permanent placement resources and decrease the length of service through improved emotional, behavioral, or medical outcomes for children in behavioral rehabilitative services in order to achieve the appropriated levels.

(a) Contracted providers shall act in good faith and accept the hardest to serve children, to the greatest extent possible, in order to improve their emotional, behavioral, or medical conditions.

The department and the contracted provider should mutually agree, to the greatest extent possible, on a viable placement for the child to go to once the child's treatment process has been completed. The child shall exit only when the emotional, behavioral, or medical condition has improved or if the provider has not shown progress toward the outcomes specified in the signed contract at the time of exit. This subsection (b) does not prevent or eliminate the department's responsibility for removing the child from the provider if the child's emotional, behavioral, or medical condition worsens or is threatened.

(c) The department is encouraged to use performance-based contracts with incentives directly tied to outcomes described in this section. The contracts should incentivize contracted providers to accept the hardest to serve children and incentivize improvement in children's emotional, mental, and medical well-being within the established exit date. The department is further encouraged to increase the use of behavioral rehabilitative service group homes, wrap around services to facilitate and support placement of youth at home with relatives, or other permanent resources, and other means to control expenditures.

(d) The total foster care per capita amount shall not increase more than four percent in the 2009-11 biennium and shall not include behavioral rehabilitative service.

The following services are included in the prevention and early intervention block grant: Crisis family intervention services, family preservation services, intensive family preservation services, evidence-based programs, public health nurses, and early family support services. The legislature intends for the department to maintain and build on existing evidence-based and research-based programs with the goal of utilizing contracted prevention and intervention services to keep children safe at home and to safely reunify families. Priority shall be given to proven intervention models, including evidence-based prevention and early intervention programs identified by the Washington state institute for public policy and the department. The department shall include information on the number, type, and outcomes of the evidence-based programs being implemented in its reports on child welfare reform efforts and shall provide the legislature and governor a report regarding the allocation of resources in this subsection by September 30, 2010. The administration may concentrate delivery of these treatments and therapies at a limited number of programs to deliver the treatments in a cost-effective manner.

(7)(a) For the fiscal year ending June 30, 2011, the juvenile rehabilitation administration shall administer a block grant, rather than categorical funding, of consolidated juvenile service funds, community juvenile accountability act grants, the chemical dependency disposition alternative funds, the mental health disposition alternative, and the sentencing disposition alternative for the purpose of serving youth adjudicated in the juvenile justice system. In making the block grant, the juvenile rehabilitation administration shall follow the following formula and will prioritize evidence-based programs and disposition alternatives and take into account juvenile courts program-eligible youth in conjunction with the number of youth served in each approved evidence-based program or disposition alternative: (i) Thirty-seven and one-half percent for the at-risk population of youth ten to seventeen years old; (ii) fifteen percent for moderate and high-risk youth; (iii) twenty-five percent for evidence-based program participation; (iv) seventeen and one-half percent for minority populations; (v) three percent for the chemical dependency disposition alternative; and (vi) two percent for the mental health and sentencing dispositional alternatives. Funding for the special sex offender disposition alternative (SSODA) shall not be included in the block grant, but allocated on the average daily population in juvenile courts. Funding for the evidence-based expansion grants shall be excluded from the block grant formula. Funds may be used for promising practices when approved by the juvenile rehabilitation administration and juvenile courts, through the community juvenile accountability act committee, based on the criteria established in consultation with Washington state institute for public policy and the juvenile courts.

(b) It is the intent of the legislature that the juvenile rehabilitation administration phase the implementation of the formula provided in subsection (1) of this section by including a stop-loss formula of three percent in fiscal year 2011, five percent in fiscal year 2012, and five percent in fiscal year 2013. It is further the intent of the legislature that the evidence-based expansion grants be incorporated into the block grant

formula by fiscal year 2013 and SSODA remain separate unless changes would result in increasing the cost benefit savings to the state as identified in (c) of this subsection.

(c) The juvenile rehabilitation administration and the juvenile courts shall establish a block grant funding formula oversight committee with equal representation from the juvenile rehabilitation administration and the juvenile courts. The purpose of this committee is to assess the ongoing implementation of the block grant funding formula, utilizing data-driven decision making and the most current available information. Initial members will include one juvenile court representative from the finance committee, the community juvenile accountability act committee, the risk assessment quality assurance committee, the executive board of the Washington association of juvenile court administrators, the Washington state center for court research, and a representative of the superior court judges association; two representatives from the juvenile rehabilitation administration headquarters program oversight staff, two representatives of the juvenile rehabilitation administration regional office staff, one representative of the juvenile rehabilitation administration fiscal staff and a juvenile rehabilitation administration division director. The committee may make changes to the formula categories other than the evidence-based program and disposition alternative categories if it is determined the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost benefit savings to the state. Long-term cost benefit must be considered. Percentage changes may occur in the evidence-based program or disposition alternative categories of the formula should it be determined the changes will increase evidence-based program or disposition alternative delivery and increase the cost benefit to the state. These outcomes will also be considered in determining when evidence-based expansion or special sex offender disposition alternative funds should be included in the block grant or left separate.

(d) The juvenile courts and administrative office of the courts shall be responsible for collecting and distributing information and providing access to the data systems to the juvenile rehabilitation administration and the Washington state institute for public policy related to program and outcome data. The juvenile rehabilitation administration and the juvenile courts will work collaboratively to develop program outcomes that reinforce the greatest cost benefit to the state in the implementation of evidence-based practices and disposition alternatives.

(e) By December 1, 2010, the Washington state institute for public policy shall report to the office of financial management and appropriate committees of the legislature on the administration of the block grant authorized in this subsection. The report shall include the criteria used for allocating the funding as a block grant and the participation targets and actual participation in the programs subject to the block grant.

(8) \$3,700,000 of the Washington auto theft prevention authority account--state appropriation is provided solely for competitive grants to community-based organizations to provide at-risk youth intervention services, including but not limited to, case management, employment services, educational services, and street outreach intervention programs. Projects funded should focus on preventing, intervening, and suppressing behavioral problems and violence while linking at-risk youth to pro-social activities. The department may not expend more than \$1,850,000 per fiscal year. The costs of administration must not exceed four percent of appropriated funding for each grant recipient. Each entity receiving funds must report to the juvenile rehabilitation administration on the number and types of youth served, the services provided, and the impact of those services upon the youth and the community.

(9) The appropriations in this section assume savings associated with the transfer of youthful offenders age eighteen or older whose sentences extend beyond age twenty-one to the department of corrections to complete their sentences. Prior to transferring an offender to the department of corrections, the juvenile rehabilitation administration shall evaluate the offender to determine the offender's physical and emotional suitability for transfer.

\$1,078,092,000	

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$113,689,000 of the general fund--state appropriation for fiscal year 2010 and ((~~\$113,689,000~~)) **\$101,089,000** of the general fund--state appropriation for fiscal year 2011 are provided solely for persons and services not covered by the medicaid program. This is a reduction of \$11,606,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2009 prior to supplemental budget reductions. This \$11,606,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) \$10,400,000 of the general fund--state appropriation for fiscal year 2010, ((~~\$9,400,000~~)) **\$8,814,000** of the general fund--state appropriation for fiscal year 2011, and \$1,300,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to contract for implementation of high-intensity program for active community treatment (PACT) teams. The department shall work with regional support networks and the center for medicare and medicaid services to integrate eligible components of the PACT service delivery model into medicaid capitation rates no later than January 2011, while maintaining consistency with all essential elements of the PACT evidence-based practice model.

(c) \$6,500,000 of the general fund--state appropriation for fiscal year 2010 and (~~(\$6,500,000)~~) \$6,091,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 617 per day during the first quarter of fiscal year 2010, (~~and~~) 587 per day through the second quarter of fiscal year 2011, and 557 per day thereafter. Beds in the program for adaptive living skills (PALS) are not included in the preceding bed allocations. The department shall separately charge regional support networks for persons served in the PALS program.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) \$4,582,000 of the general fund--state appropriation for fiscal year 2010 and \$4,582,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(h) \$750,000 of the general fund--state appropriation for fiscal year 2010 and (~~(\$750,000)~~) \$703,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(i) \$1,500,000 of the general fund--state appropriation for fiscal year 2010 and \$1,500,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(j) The department shall return to the Spokane regional support network fifty percent of the amounts assessed against the network during the last six months of calendar year 2009 for state hospital utilization in excess of its contractual limit. The regional support network shall use these funds for operation during its initial months of a new sixteen-bed evaluation and treatment facility that will enable the network to reduce its use of the state hospital, and for diversion and community support services for persons with dementia who would likely otherwise require care at the state hospital.

(k) The department is directed to identify and implement program efficiencies and benefit changes in its delivery of medicaid managed-care services that are sufficient to operate within the state and federal appropriations in this section. Such actions may include but are not limited to methods such as adjusting the care access standards; improved utilization management of ongoing, recurring, and high-intensity services; and increased uniformity in provider payment rates. The department shall ensure that the capitation rate adjustments necessary to accomplish these efficiencies and changes are distributed uniformly and equitably across all regional support networks statewide. The department is directed to report to the relevant legislative fiscal and policy committees at least thirty days prior to implementing rate adjustments reflecting these changes.

(l) In developing the new medicaid managed care rates under which the public mental health managed care system will operate during the five years beginning in fiscal year 2011, the department should seek to estimate the reasonable and necessary cost of efficiently and effectively providing a comparable set of medically necessary mental health benefits to persons of different acuity levels regardless of where in the state they live. Actual prior period spending in a regional administrative area shall not be a key determinant of future payment rates. The department shall report to the office of financial management and to the relevant fiscal and policy committees of the legislature on its proposed new waiver and mental health managed care rate-setting approach by October 1, 2009, and again at least sixty days prior to implementation of new capitation rates.

(m) In implementing the new public mental health managed care payment rates for fiscal year 2011, the department shall to the maximum extent possible within each regional support network's allowable rate range establish rates so that there is no increase or decrease in the total state and federal funding that the regional support network would receive if it were to continue to be paid at its October 2009 through June 2010 rates. The department shall additionally revise the draft rates issued January 28, 2010, to more accurately reflect the lower practitioner productivity inherent in the delivery of services in extremely rural regions in which a majority of the population reside in frontier counties, as defined and designated by the national center for frontier communities.

(n) \$1,529,000 of the general fund--state appropriation for fiscal year 2010 and \$1,529,000 of the general fund--state appropriation for fiscal year 2011 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(o) The legislature intends and expects that regional support networks and contracted community mental health agencies shall make all possible efforts to, at a minimum, maintain current compensation levels of direct care staff. Such efforts shall include, but not be limited to, identifying local funding that can preserve client services and staff compensation, achieving administrative reductions at the regional support network level, and engaging stakeholders on cost-savings ideas that maintain client services and staff compensation. For purposes of this section, "direct care staff" means persons employed by community mental health agencies whose primary responsibility is providing direct treatment and

support to people with mental illness, or whose primary responsibility is providing direct support to such staff in areas such as client scheduling, client intake, client reception, client records-keeping, and facilities maintenance.

(p) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

The appropriations in this subsection are subject to the following conditions and limitations:

- (a) Individuals receiving services as supplemental security income (SSI) state supplemental payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.
- (b)(i) Amounts appropriated in this section reflect a reduction to funds appropriated for in-home care. The department shall reduce the number of in-home hours authorized. The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients. In doing so, the department shall comply with all maintenance of effort requirements contained in the American reinvestment and recovery act.
- (ii) \$508,000 of the general fund--state appropriation for fiscal year 2011 and \$822,000 of the general fund--federal appropriation are provided solely for the department to partially restore the reductions to in-home care that are taken in (b)(i) of this subsection. The department will use the same formula to restore personal care hours that it used to reduce personal care hours.
- (c) Amounts appropriated in this section are sufficient to develop and implement the use of a consistent, statewide outcome-based vendor contract for employment and day services by April 1, 2011. The rates paid to vendors under this contract shall also be made consistent. In its description of activities the agency shall include activity listings and dollars appropriated for: Employment services, day services, child development services and county administration of services to the developmentally disabled. The department shall begin reporting to the office of financial management on these activities beginning in fiscal year 2010.
- (d) \$302,000 of the general fund--state appropriation for fiscal year 2010, \$831,000 of the general fund--state appropriation for fiscal year 2011, and \$1,592,000 of the general fund--federal appropriation are provided solely for health care benefits pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.
- (e)(i) \$682,000 of the general fund--state appropriation for fiscal year 2010, \$1,651,000 of the general fund--state appropriation for fiscal year 2011, and \$1,678,000 of the general fund--federal appropriation are provided solely for the state's contribution to the training partnership, as provided in RCW 74.39A.360, pursuant to a collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.
- (ii) The federal portion of the amounts in this subsection (g) is contingent upon federal approval of participation in contributions to the trust and shall remain unallotted and placed in reserve status until the office of financial management and the department of social and health services receive federal approval.
- (iii) Expenditures for the purposes specified in this subsection (g) shall not exceed the amounts provided in this subsection.
- (f) Within the amounts appropriated in this subsection (1), the department shall implement all necessary rules to facilitate the transfer to a department home and community-based services (HCBS) waiver of all eligible individuals who (i) currently receive services under the existing state-only employment and day program or the existing state-only residential program, and (ii) otherwise meet the waiver eligibility requirements. The amounts appropriated are sufficient to ensure that all individuals currently receiving services under the state-only employment and day and state-only residential programs who are not transferred to a department HCBS waiver will continue to receive services.
- (g) In addition to other reductions, the appropriations in this subsection reflect reductions targeted specifically to state government administrative costs. These administrative reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or programs.

- (i) Within the appropriations of this section, the department shall reduce all seventeen payment levels of the seventeen-level payment system from the fiscal year 2009 levels for boarding homes, boarding homes contracted as assisted living, and adult family homes. Excluded from the reductions are exceptional care rate add-ons. The long-term care program may develop add-ons to pay exceptional care rates to adult family homes and boarding homes with specialty contracts to provide support for the following specifically eligible clients:

  - (ii) Persons with Alzheimer's disease and related dementia who might otherwise require nursing home care; and

Within amounts appropriated, exceptional add-on rates for AIDS/HIV, dementia specialty care, and expanded community services may be standardized within each program.

(j) The amounts appropriated in this subsection reflect a reduction in funds available for employment and day services. In administering this reduction the department shall negotiate with counties and their vendors so that this reduction, to the greatest extent possible, is achieved by reducing vendor rates and allowable contract administrative charges (overhead) and not through reductions to direct client services or direct service delivery or programs.

(k) As part of the needs assessment instrument, the department may collect data on family income for minor children with developmental disabilities and all individuals who are receiving state-only funded services. The department may ensure that this information is collected as part of the client assessment process.

The appropriations in this section are subject to the following conditions and limitations:

(1) \$303,393,000 of the general fund--state appropriation for fiscal year 2010, \$285,057,000 of the general fund--state appropriation for fiscal year 2011 net of child support pass-through recoveries, \$24,336,000 of the administrative contingency account--state appropriation, and \$778,606,000 of the general fund-- federal appropriation are provided solely for all components of the WorkFirst program. The department shall use moneys from the administrative contingency account for WorkFirst job placement services provided by the employment security department. Within the amounts provided for the WorkFirst program, the department may provide assistance using state-only funds for families eligible for temporary assistance for needy families. In addition, within the amounts provided for WorkFirst the department shall:

- (a) Establish a career services work transition program;
- (b) Continue to implement WorkFirst program improvements that are designed to achieve progress against outcome measures specified in RCW 74.08A.410. Outcome data regarding job retention and wage progression shall be reported quarterly to appropriate fiscal and policy committees of the legislature for families who leave assistance, measured after 12 months, 24 months, and 36 months. The department shall also report the percentage of families who have returned to temporary assistance for needy families after 12 months, 24 months, and 36 months;
- (c) Submit a report electronically by October 1, 2009, to the fiscal committees of the legislature containing a spending plan for the WorkFirst program. The plan shall identify how spending levels in the 2009-2011 biennium will be adjusted to stay within available federal grant levels and the appropriated state-fund levels;
- (d) Provide quarterly fiscal reports to the office of financial management and the legislative fiscal committees detailing information on the amount expended from general fund--state and general fund--federal by activity.

(2) The department and the office of financial management shall electronically report quarterly the expenditures, maintenance of effort allotments, expenditure amounts, and caseloads for the WorkFirst program to the legislative fiscal committees.

(3) \$16,783,000 of the general fund--state appropriation for fiscal year 2011 and \$62,000,000 of the general fund--federal appropriation are provided solely for all components of the WorkFirst program in order to maintain services to January 2011. The legislature intends to work with the governor to design and implement fiscal and programmatic modifications to provide for the sustainability of the program. The funding in this subsection assumes that no other expenditure reductions will be made prior to January 2011 other than those assumed in the appropriation levels in this act.

(4) \$94,322,000 of the general fund--state appropriation for fiscal year 2010 and (~~(\$84,904,000)~~) \$76,979,000 of the general fund--state appropriation for fiscal year 2011, net of recoveries, are provided solely for cash assistance and other services to recipients in the cash program pursuant to chapter 8, Laws of 2010 1st sp. sess. (security lifeline act), including persons in the unemployable, expedited, and aged, blind, and disabled components of the program. It is the intent of the legislature that the lifeline incapacity determination and progressive evaluation process regulations be carefully designed to accurately identify those persons who have been or will be incapacitated for at least ninety days. The incapacity determination and progressive evaluation process regulations in effect on January 1, 2010, cannot be amended until at least September 30, 2010; except that provisions related to the use of administrative review teams may be amended, and obsolete terminology and functional assessment language may be updated on or after July 1, 2010, in a manner that only minimally impacts the outcome of incapacity evaluations. After September 30, 2010, the incapacity determination and progressive evaluation process regulations may be amended only if the reports under (a) and (b) of this subsection have been submitted, and find that expenditures will exceed the appropriated level by three percent or more.

(a) The department and the caseload forecast council shall, by September 21, 2010, submit a report to the legislature based upon the most recent caseload forecast and actual expenditure data available, as to whether expenditures for the lifeline-unemployable grants in fiscal year 2011 will exceed \$69,648,000 for fiscal year 2011 in the 2010 supplemental operating budget by three percent or more. If expenditures will exceed the appropriated amount for lifeline-unemployable grants by three percent or more, the department may adopt regulations modifying incapacity determination and progressive evaluation process regulations after September 30, 2010.

(b) On or before September 21, 2010, the department shall submit a report to the relevant policy and fiscal committees of the legislature that includes the following information regarding any regulations proposed for adoption that would modify the lifeline incapacity determination and progressive evaluation process:

(i) A copy of the proposed changes and a concise description of the changes;

(ii) A description of the persons who would likely be affected by adoption of the regulations, including their impairments, age, education, and work history;

(iii) An estimate of the number of persons who, on a monthly basis through June 2013, would be denied lifeline benefits if the regulations were adopted, expressed as a number, as a percentage of total applicants, and as a percentage of the number of persons granted lifeline benefits in each month;

(iv) An estimate of the number of persons who, on a monthly basis through June 2013, would have their lifeline benefits terminated following an eligibility review if the regulations were adopted, expressed as a number, as a percentage of the number of persons who have had an eligibility review in each month, and as a percentage of the total number of persons currently receiving lifeline-unemployable benefits in each month; and

(v) Intended improvements in employment or treatment outcomes among persons receiving lifeline benefits that could be attributable to the changes in the regulations.

(c) Within these amounts:

(i) The department shall aggressively pursue opportunities to transfer lifeline clients to general assistance expedited coverage and to facilitate client applications for federal supplemental security income when the client's incapacities indicate that he or she would be likely to meet the federal disability criteria for supplemental security income. The department shall initiate and file the federal supplemental security income interim agreement as quickly as possible in order to maximize the recovery of federal funds;

(ii) The department shall review the lifeline caseload to identify recipients that would benefit from assistance in becoming naturalized citizens, and thus be eligible to receive federal supplemental security income benefits. Those cases shall be given high priority for naturalization funding through the department;

(iii) The department shall actively coordinate with local workforce development councils to expedite access to worker retraining programs for lifeline clients in those regions of the state with the greatest number of such clients;

(iv) By July 1, 2009, the department shall enter into an interagency agreement with the department of veterans' affairs to establish a process for referral of veterans who may be eligible for veteran's services. This agreement must include outstationing department of veterans' affairs staff in selected community service office locations in King and Pierce counties to facilitate applications for veterans' services; and

(v) In addition to any earlier evaluation that may have been conducted, the department shall intensively evaluate those clients who have been receiving lifeline benefits for twelve months or more as of July 1, 2009, or thereafter, if the available medical and incapacity related evidence indicates that the client is unlikely to meet the disability standard for federal supplemental security income benefits. The evaluation shall identify services necessary to eliminate or minimize barriers to employment, including mental health treatment, substance abuse treatment and vocational rehabilitation services. The department shall expedite referrals to chemical dependency treatment, mental health and vocational rehabilitation services for these clients.

(vi) The appropriations in this subsection reflect a change in the earned income disregard policy for lifeline clients. It is the intent of the legislature that the department shall adopt the temporary assistance for needy families earned income policy for the lifeline program.

(5) \$750,000 of the general fund--state appropriation for fiscal year 2010 and (~~(\$750,000)~~) \$500,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for naturalization services.

(6)(~~(a)~~) \$3,550,000 of the general fund--state appropriation for fiscal year 2010 is provided solely for refugee employment services, of which \$2,650,000 is provided solely for the department to pass through to statewide refugee assistance organizations for limited English proficiency pathway services; and (~~(\$3,550,000)~~) \$2,050,000 of the general fund--state appropriation for fiscal year 2011 is provided solely for refugee employment services, of which (~~(\$2,650,000)~~) \$1,540,000 is provided solely for the department to pass through to statewide refugee assistance organizations for limited English proficiency pathway services.

((b) The legislature intends that the appropriation in this subsection for the 2009-11 fiscal biennium will maintain funding for refugee programs at a level at least equal to expenditures on these programs in the 2007-09 fiscal biennium.))

(7) The appropriations in this section reflect reductions in the appropriations for the economic services administration's administrative expenses. It is the intent of the legislature that these reductions shall be achieved, to the greatest extent possible, by reducing those administrative costs that do not affect direct client services or direct service delivery or program.

(8) \$855,000 of the general fund--state appropriation for fiscal year 2011, \$719,000 of the general fund--federal appropriation, and \$2,907,000 of the general fund--private/local appropriation are provided solely for the implementation of the opportunity portal, the food stamp employment and training program, and the disability lifeline program under Second Substitute House Bill No. 2782 (security lifeline act). If the bill is not enacted by June 30, 2010, the amounts provided in this subsection shall lapse.

(9) ~~(\$200,000)~~ \$100,000 of the general fund--state appropriation for fiscal year 2011 is provided solely for the department to award grants to small mutual assistance or small community-based organizations that contract with the department for immigrant and refugee assistance services. The funds shall be awarded to provide funding for community groups to provide transitional assistance, language skills, and other resources to improve refugees' economic self-sufficiency through the effective use of social services, financial services, and medical assistance.

(10) To ensure expenditures remain within available funds appropriated in this section, the legislature establishes the benefit under the state food assistance program, made pursuant to RCW 74.08A.120, to be fifty percent of the federal supplemental nutrition assistance program benefit amount.

\$9,800,016,000	

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(3) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(4) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(5) In accordance with RCW 74.46.625, \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the department's discretion. During either the interim cost settlement or the final cost settlement, the department shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The department shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(6) (~~(\$1,140,000)~~) \$649,000 of the general fund--federal appropriation and (~~(\$1,105,000)~~) \$644,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(7) (~~(\$9,818,000)~~) \$5,729,000 of the general fund--state appropriation for fiscal year 2011, and (~~(\$9,865,000)~~) \$5,776,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients, and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) The department shall continue the inpatient hospital certified public expenditures program for the 2009-11 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The department shall submit reports to the governor and legislature by November 1, 2009, and by November 1, 2010, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the department shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2010 and fiscal year 2011, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2009-11 biennial operating appropriations act (chapter 564, Laws of 2009) and in effect on July 1, 2009, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2009-11 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$20,403,000 of the general fund--state appropriation for fiscal year 2010, of which \$6,570,000 is appropriated in section 204(1) of this act, and \$29,480,000 of the general fund--state appropriation for fiscal year 2011, of which \$6,570,000 is appropriated in section 204(1) of this act, are provided solely for state grants for the participating hospitals. CPE hospitals will receive the inpatient and outpatient reimbursement rate restorations in section 9 and rate increases in section 10(1)(b) of Engrossed Second Substitute House Bill No. 2956 (hospital safety net assessment) funded through the hospital safety net assessment fund rather than through the baseline mechanism specified in this subsection.

(9) The department is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the department determines it is cost-effective to do so.

(10) \$93,000 of the general fund--state appropriation for fiscal year 2010 and \$93,000 of the general fund--federal appropriation are provided solely for the department to pursue a federal Medicaid waiver pursuant to Second Substitute Senate Bill No. 5945 (Washington health partnership plan). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(11) The department shall require managed health care systems that have contracts with the department to serve medical assistance clients to limit any reimbursements or payments the systems make to providers not employed by or under contract with the systems to no more than the medical assistance rates paid by the department to providers for comparable services rendered to clients in the fee-for-service delivery system.

(12) A maximum of \$241,141,000 in total funds from the general fund--state, general fund--federal, and tobacco and prevention control account--state appropriations may be expended in the fiscal biennium for the medical program pursuant to chapter 8, Laws of 2010 1st sp. sess.

(security lifeline act), and these amounts are provided solely for this program. Of these amounts, \$10,749,000 of the general fund--state appropriation for fiscal year 2010 and \$10,892,000 of the general fund--federal appropriation are provided solely for payments to hospitals for providing outpatient services to low income patients who are recipients of lifeline benefits. Pursuant to RCW 74.09.035, the department shall not expend for the lifeline medical care services program any amounts in excess of the amounts provided in this subsection.

(13) Mental health services shall be included in the services provided through the managed care system for lifeline clients under chapter 8, Laws of 2010 1st sp. sess. In transitioning lifeline clients to managed care, the department shall attempt to deliver care to lifeline clients through medical homes in community and migrant health centers. The department, in collaboration with the carrier, shall seek to improve the transition rate of lifeline clients to the federal supplemental security income program. The department shall renegotiate the contract with the managed care plan that provides services for lifeline clients to maximize state retention of future hospital savings as a result of improved care coordination. The department, in collaboration with stakeholders, shall propose a new name for the lifeline program.

(14) The department shall evaluate the impact of the use of a managed care delivery and financing system on state costs and outcomes for lifeline medical clients. Outcomes measured shall include state costs, utilization, changes in mental health status and symptoms, and involvement in the criminal justice system.

(15) The department shall report to the governor and the fiscal committees of the legislature by June 1, 2010, on its progress toward achieving a twenty percentage point increase in the generic prescription drug utilization rate.

(16) State funds shall not be used by hospitals for advertising purposes.

(17) \$24,356,000 of the general fund--private/local appropriation and \$35,707,000 of the general fund--federal appropriation are provided solely for the implementation of professional services supplemental payment programs. The department shall seek a medicaid state plan amendment to create a professional services supplemental payment program for University of Washington medicine professional providers no later than July 1, 2009. The department shall apply federal rules for identifying the shortfall between current fee-for-service medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program will be the responsibility of the participating providers. Participating providers will retain the full amount of supplemental payments provided under this program, net of any potential costs for any related audits or litigation brought against the state. The department shall report to the governor and the legislative fiscal committees on the prospects for expansion of the program to other qualifying providers as soon as feasibility is determined but no later than December 31, 2009. The report will outline estimated impacts on the participating providers, the procedures necessary to comply with federal guidelines, and the administrative resource requirements necessary to implement the program. The department will create a process for expansion of the program to other qualifying providers as soon as it is determined feasible by both the department and providers but no later than June 30, 2010.

(18) \$9,075,000 of the general fund--state appropriation for fiscal year 2010, \$8,588,000 of the general fund--state appropriation for fiscal year 2011, and \$39,747,000 of the general fund--federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system. The amounts provided in this subsection are conditioned on the department satisfying the requirements of section 902 of this act.

(19) \$506,000 of the general fund--state appropriation for fiscal year 2011 and \$657,000 of the general fund--federal appropriation are provided solely for the implementation of Second Substitute House Bill No. 1373 (children's mental health). If the bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(20) Pursuant to 42 U.S.C. Sec. 1396(a)(25), the department shall pursue insurance claims on behalf of medicaid children served through its in-home medically intensive child program under WAC 388-551-3000. The department shall report to the Legislature by December 31, 2009, on the results of its efforts to recover such claims.

(21) The department may, on a case-by-case basis and in the best interests of the child, set payment rates for medically intensive home care services to promote access to home care as an alternative to hospitalization. Expenditures related to these increased payments shall not exceed the amount the department would otherwise pay for hospitalization for the child receiving medically intensive home care services.

(22) \$425,000 of the general fund--state appropriation for fiscal year 2010 and \$790,000 of the general fund--federal appropriation are provided solely to continue children's health coverage outreach and education efforts under RCW 74.09.470. These efforts shall rely on existing relationships and systems developed with local public health agencies, health care providers, public schools, the women, infants, and children program, the early childhood education and assistance program, child care providers, newborn visiting nurses, and other community-based organizations. The department shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(23) The department, in conjunction with the office of financial management, shall implement a prorated inpatient payment policy.

(24) The department will pursue a competitive procurement process for antihemophilic products, emphasizing evidence-based medicine and protection of patient access without significant disruption in treatment.

(25) The department will pursue several strategies towards reducing pharmacy expenditures including but not limited to increasing generic prescription drug utilization by 20 percentage points and promoting increased utilization of the existing mail-order pharmacy program.

(26) The department shall reduce reimbursement for over-the-counter medications while maintaining reimbursement for those over-the-counter medications that can replace more costly prescription medications.

(27) The department shall seek public-private partnerships and federal funds that are or may become available to implement health information technology projects under the federal American recovery and reinvestment act of 2009.

(28) The department shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The department shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the department shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(29) \$260,036,000 of the hospital safety net assessment fund--state appropriation and \$255,448,000 of the general fund--federal appropriation are provided solely for the implementation of Engrossed Second Substitute House Bill No. 2956 (hospital safety net assessment). If the bill is not enacted by June 30, 2010, the amounts provided in this subsection shall lapse.

(30) \$79,000 of the general fund--state appropriation for fiscal year 2010 and \$53,000 of the general fund--federal appropriation are provided solely to implement Substitute House Bill No. 1845 (medical support obligations).

(31) \$63,000 of the general fund--state appropriation for fiscal year 2010, \$583,000 of the general fund--state appropriation for fiscal year 2011, and \$864,000 of the general fund--federal appropriation are provided solely to implement Engrossed House Bill No. 2194 (extraordinary medical placement for offenders). The department shall work in partnership with the department of corrections to identify services and find placements for offenders who are released through the extraordinary medical placement program. The department shall collaborate with the department of corrections to identify and track cost savings to the department of corrections, including medical cost savings, and to identify and track expenditures incurred by the aging and disability services program for community services and by the medical assistance program for medical expenses. A joint report regarding the identified savings and expenditures shall be provided to the office of financial management and the appropriate fiscal committees of the legislature by November 30, 2010. If this bill is not enacted by June 30, 2009, the amounts provided in this subsection shall lapse.

(32) \$73,000 of the general fund--state appropriation for fiscal year 2011 and \$50,000 of the general fund--federal appropriation is provided solely for supplemental services that will be provided to offenders in lieu of a prison sentence pursuant to chapter 224, Laws of 2010 (Substitute Senate Bill No. 6639).

- (1) The department of health shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department of health and the state board of health shall not implement any new or amended rules pertaining to primary and secondary school facilities until the rules and a final cost estimate have been presented to the legislature, and the legislature has formally funded implementation of the rules through the omnibus appropriations act or by statute. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation that provides appropriation authority, and an equal amount of appropriated state moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.
- (2) In accordance with RCW 43.70.250 and 43.135.055, the department is authorized to establish and raise fees in fiscal year 2011 as necessary to meet the actual costs of conducting business and the appropriation levels in this section. The department is further authorized to increase fees by the amount necessary to implement the regulatory requirements of the following bills: House Bill No. 1414 (health care assistants), House Bill No. 1740 (dental residency licenses), and House Bill No. 1899 (retired active physician licenses).

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2010) .....	\$632,136,000
General Fund--State Appropriation (FY 2011) .....	<del>(\$650,856,000)</del>

Appropriation .....	\$756,000
.....	<b>TOTAL APPROPRIATION</b>
<del>(\$1,948,349,000)</del>	
\$1,923,592,000	

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall ensure that:

- (i) Special education students are basic education students first;
- (ii) As a class, special education students are entitled to the full basic education allocation; and
- (iii) Special education students are basic education students for the entire school day.

(b) The superintendent of public instruction shall continue to implement the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state funds to school districts based on two categories: (a) The first category includes (i) children birth through age two who are eligible for the optional program for special education eligible developmentally delayed infants and toddlers, and (ii) students eligible for the mandatory special education program and who are age three or four, or five and not yet enrolled in kindergarten; and (b) the second category includes students who are eligible for the mandatory special education program and who are age five and enrolled in kindergarten and students age six through 21.

(5)(a) For the 2009-10 and 2010-11 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of students ages birth through four and those five year olds not yet enrolled in kindergarten, as defined in subsection (4) of this section, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools in the 2009-10 school year. In the 2010-11 school year, the per student allocation under this subsection (5)(b) shall include the same factors as in the 2009-10 school year, but shall also include the classified staff enhancements included in section 502(3)(b).

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age four enrollment and those five year olds not yet enrolled in kindergarten, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, (~~(\$44,269,000)~~) \$19,512,000 of the general fund--state appropriation and \$29,574,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If the federal safety net awards based on the federal eligibility threshold exceed the federal appropriation in this subsection (8) in any fiscal year, the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards. In the determination of need, the committee shall require that districts demonstrate that they are maximizing their eligibility for all state and federal revenues related to services for special education-eligible students. Awards associated with (b) and (c) of this subsection shall not exceed the total of a district's specific determination of need.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) Using criteria developed by the committee, the committee shall then consider extraordinary costs associated with communities that draw a larger number of families with children in need of special education services. The safety net awards to school districts shall be adjusted to reflect amounts awarded under (b) of this subsection.

(d) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999. The state safety net oversight committee shall ensure that safety net documentation and awards are based on current medicaid revenue amounts.

(g) ((The office of the superintendent of public instruction, at the conclusion of each school year, shall recover safety net funds that were distributed prospectively but for which districts were not subsequently eligible)) Beginning with the 2010-11 school year award cycle, the office of the superintendent of public instruction shall make award determinations for state safety net funding in August of each school year. Determinations on school district eligibility for state safety net awards shall be based on analysis of actual expenditure data from the current school year.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor who shall be nonvoting members of the committee; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) The office of the superintendent of public instruction shall review and streamline the application process to access safety net funds, provide technical assistance to school districts, and annually survey school districts regarding improvement to the process.

(12) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(13) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(14) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carryover funds shall be expended in the special education program.

(15) \$262,000 of the general fund--state appropriation for fiscal year 2010 and \$251,000 of the general fund--state appropriation for fiscal year 2011 are provided solely for two additional full-time equivalent staff to support the work of the safety net committee and to provide training and support to districts applying for safety net awards.

(16) \$50,000 of the general fund--state appropriation for fiscal year 2010, \$50,000 of the general fund--state appropriation for fiscal 2011, and \$100,000 of the general fund--federal appropriation shall be expended to support a special education ombudsman program within the office of superintendent of public instruction.

WHEREAS, Everyone's life is touched by a child at one time or another, in ways big and small, and each of us has the responsibility to set a good example for the children we meet; and

WHEREAS, Parents are a child's first and most important teacher, whose unconditional love, enduring support, and gentle guidance are the greatest treasure they can give; and

(a) Reimburse such holder or purchaser for part or all of any taxes or assessments levied on the real property during the period the prevailing party was in possession of the real property in question and which are proven by competent evidence to have been paid by such holder or purchaser; and

(b) Pay to the treasurer of the county in which the real property is located part or all of any taxes or assessments levied on the real property after the filing of the adverse possession claim and which are due and remain unpaid at the time judgment on the claim is entered.

(2) If the court orders reimbursement for taxes or assessments paid or payment of taxes or assessments due under subsection (1) of this section, the court shall determine how to allocate taxes or assessments between the property acquired by adverse possession and the property retained by the title holder. SSB 5700 Prime Sponsor, Committee on Transportation:  
Concerning certain toll facilities. Reported by  
Committee on Transportation

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 925.** The legislature recognizes that Washington voters strongly supported Initiative Measure No. 1053 during the 2010 general election, which indicates the clear desire on the part of the state's citizens that legislators approve any new fees or increases to existing fees. The legislature further recognizes that during the 2009 legislative session tolling was authorized on the state route number 520 corridor, bonds were authorized to finance construction of corridor projects, and the legislature committed to continue imposing tolls on the corridor in amounts sufficient to pay the principal and interest on those bonds. As tolling is scheduled to begin on the corridor in early April 2011, the legislature intends to honor the voters' clear direction as identified in Initiative Measure No. 1053 by reviewing the transportation commission's recommended schedule for tolling charges and explicitly approving those rates applicable to the state route number 520 corridor. The legislature also intends to review the transportation commission's recommended schedule for photo toll charges and explicitly approve those rates applicable to the Tacoma Narrows bridge.

**NEW SECTION. Sec. 926.** A new section is added to chapter 47.56 RCW to read as follows:

(1) Consistent with RCW 43.135.055 and 47.56.805 through 47.56.876, the legislature approves the action taken by the transportation commission on January 5, 2011, adopting amended rules to set the schedule of toll rates applicable to the state route number 520 corridor. The legislature further authorizes the transportation commission, as the tolling authority for the state, to set and adjust toll rates on the state route number 520 corridor in accordance with the authorization, requirements, and guidelines set forth in RCW 47.56.830, 47.56.850, and 47.56.870. The transportation commission may adjust the toll rates, as identified in the adopted schedule of toll rates, only in amounts not greater than those sufficient to meet (a) the operating costs of the state route number 520 corridor, including necessary maintenance, preservation, renewal, replacement, administration, and toll enforcement by public law enforcement and (b) obligations for the timely payment of debt service on bonds issued under chapter 498, Laws of 2009 and this act, and any other associated financing costs including, but not limited to, required reserves, minimum debt coverage or other appropriate contingency funding, insurance, and compliance with all other financial and other covenants made by the state in the bond proceedings. Prior to the convening of each regular session of the legislature, the transportation commission must provide the transportation committees of the legislature with a detailed report regarding any increase or decrease in any toll rate approved by the commission that has not been described in a previous report provided pursuant to this subsection (1), along with a detailed justification for each such increase or decrease.

(2) Consistent with RCW 43.135.055 and 47.46.100, the legislature approves the action taken by the transportation commission on January 25, 2011, adopting amended rules to set the schedule of photo toll, or "pay by mail," charges applicable to the Tacoma Narrows bridge. Prior to the convening of each regular session of the legislature, the transportation commission must provide the transportation committees of the legislature with a detailed report regarding any increase or decrease in any toll rate approved by the commission that has not been described in a previous report provided

pursuant to this subsection (2), along with a detailed justification for each such increase or decrease.

(3) Consistent with RCW 43.135.055 and 47.56.795(6), the legislature approves the action taken by the transportation commission on January 5, 2011, adopting amended rules concerning the assessment of administrative fees for toll collection processes. The administrative fees must not exceed toll collection costs.

**Sec. 927.** RCW 47.10.882 and 2009 c 498 s 11 are each amended to read as follows:

The toll facility bond retirement account is created in the state treasury for the purpose of payment of the principal of and interest and premium on bonds. Both principal of and interest on the bonds issued for the purposes of chapter 498, Laws of 2009 and this act shall be payable from the toll facility bond retirement account. The state finance committee may provide that special subaccounts be created in the account to facilitate payment of the principal of and interest on the bonds. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings.

**Sec. 928.** RCW 47.10.886 and 2009 c 498 s 16 are each reenacted to read as follows:

If and to the extent that the state finance committee determines, in consultation with the department of transportation and the tolling authority, that it will be beneficial for the state to issue any bonds authorized in RCW 47.10.879 and 47.10.883 through 47.10.885 as toll revenue bonds rather than as general obligation bonds, the state finance committee is authorized to issue and sell, upon the request of the department of transportation, such bonds as toll revenue bonds and not as general obligation bonds. Notwithstanding RCW 47.10.883, each such bond shall contain a recital that payment or redemption of the bond and payment of the interest and any premium thereon is payable solely from and secured solely by a direct pledge, charge, and lien upon toll revenue and is not a general obligation of the state to which the full faith and credit of the state is pledged.

Toll revenue is hereby pledged to the payment of any bonds and the interest thereon issued under the authority of this section, and the legislature agrees to continue to impose these toll charges on the state route number 520 corridor, and on any other eligible toll facility designated by the legislature and on which the imposition of tolls is authorized by the legislature in respect of the bonds, in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of this section.

**Sec. 929.** RCW 47.10.887 and 2009 c 498 s 17 are each amended to read as follows:

The state finance committee may determine and include in any resolution authorizing the issuance of any bonds under chapter 498, Laws of 2009 and this act, such terms, provisions, covenants, and conditions as it may deem appropriate in order to assist with the marketing and sale of the bonds, confer rights upon the owners of bonds, and safeguard rights of the owners of bonds including, among other things:

- (1) Provisions regarding the maintenance and operation of eligible toll facilities;
- (2) The pledges, uses, and priorities of application of toll revenue;
- (3) Provisions that bonds shall be payable from and secured solely by toll revenue as provided by RCW 47.10.886, or shall be payable from and secured by both toll revenue and by a pledge of excise taxes on motor vehicle and special fuels and the full faith and credit of the state as provided in RCW 47.10.879 and 47.10.883 through 47.10.885;
- (4) In consultation with the department of transportation and the tolling authority, financial covenants requiring that the eligible toll facilities must produce specified coverage ratios of toll revenue to debt service on bonds;

(5) The purposes and conditions that must be satisfied prior to the issuance of any additional bonds that are to be payable from and secured by any toll revenue on an equal basis with previously issued and outstanding bonds payable from and secured by toll revenue;

(6) Provisions that bonds for which any toll revenue are pledged, or for which a pledge of any toll revenue may be reserved, may be structured on a senior, parity, subordinate, or special lien basis in relation to any other bonds for which toll revenue is pledged, with respect to toll revenue only; and

(7) Provisions regarding reserves, credit enhancement, liquidity facilities, and payment agreements with respect to bonds.

Notwithstanding the foregoing, covenants and conditions detailing the character of management, maintenance, and operation of eligible toll facilities, insurance for eligible toll facilities, financial management of toll revenue, and disposition of eligible toll facilities must first be approved by the department of transportation.

The owner of any bond may by mandamus or other appropriate proceeding require and compel performance of any duties imposed upon the tolling authority and the department of transportation and their respective officials, including any duties imposed upon or undertaken by them or by their respective officers, agents, and employees, in connection with the construction, maintenance, and operation of eligible toll facilities and in connection with the collection, deposit, investment, application, and disbursement of the proceeds of the bonds and toll revenue.

**Sec. 930.** RCW 47.10.888 and 2009 c 498 s 18 are each amended to read as follows:

(1) For the purposes of chapter 498, Laws of 2009 and this act, "toll revenue" means all toll receipts, all interest income derived from the investment of toll receipts, and any gifts, grants, or other funds received for the benefit of transportation facilities in the state, including eligible toll facilities. However, for the purpose of any pledge of toll revenue to the payment of particular bonds issued under chapter 498, Laws of 2009 and this act, "toll revenue" means and includes only such toll revenue or portion thereof that is pledged to the payment of those bonds in the resolution authorizing the issuance of such bonds. Toll revenue constitutes "fees and revenues derived from the ownership or operation of any undertaking, facility, or project" as that phrase is used in Article VIII, section 1(c)(1) of the state Constitution.

(2) For the purposes of chapter 498, Laws of 2009 and this act, "tolling authority" has the same meaning as in RCW 47.56.810.

**Sec. 931.** RCW 47.56.810 and 2008 c 122 s 3 are each amended to read as follows:

The definitions in this section apply throughout this subchapter unless the context clearly requires otherwise:

(1) "Tolling authority" means the governing body that is legally empowered to review and adjust toll rates. Unless otherwise delegated, the transportation commission is the tolling authority for all state highways.

(2) "Eligible toll facility" or "eligible toll facilities" means portions of the state highway system specifically identified by the legislature including, but not limited to, transportation corridors, bridges, crossings, interchanges, on-ramps, off-ramps, approaches, bistate facilities, and interconnections between highways.

(3) "Toll revenue" or "revenue from an eligible toll facility" means toll receipts, all interest income derived from the investment of toll receipts, and any gifts, grants, or other funds received for the benefit of ~~((the))~~ transportation facilities in the state, including eligible toll ~~((facility))~~ facilities.

**NEW SECTION. Sec. 932.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

With the consent of the house, amendment (97) was withdrawn.

Representative Condotta moved the adoption of amendment (85).

Strike everything after the enacting clause and insert the following:

"Sec. 4. RCW 51.36.010 and 2007 c 134 s 1 are each amended to read as follows:

(1) The legislature finds that high quality medical treatment and adherence to occupational health best practices can prevent disability and reduce loss of family income for workers, and lower labor and insurance costs for employers. Injured workers deserve high quality medical care in accordance with current health care best practices. To this end, the department shall establish minimum standards for providers who treat workers from both state fund and self-insured employers. The department shall establish a health care provider network to treat injured workers, and shall accept providers into the network who meet those minimum standards. The department shall convene an advisory group made up of representatives from or designees of the workers' compensation advisory committee and the industrial insurance medical and chiropractic advisory committees to consider and advise the department related to implementation of this section, including development of best practices treatment guidelines for providers in the network. The department shall also seek the input of various health care provider groups and associations concerning the network's implementation. Network providers must be required to follow the department's evidence-based coverage decisions and treatment guidelines, policies, and must be expected to follow other national treatment guidelines appropriate for their patient. The department, in collaboration with the advisory group, shall also establish additional best practice standards for providers to qualify for a second tier within the network, based on demonstrated use of occupational health best practices. This second tier is separate from and in addition to the centers for occupational health and education established under subsection (5) of this section.

(2)(a) Upon the occurrence of any injury to a worker entitled to compensation under the provisions of this title, he or she shall receive proper and necessary medical and surgical services at the hands of a physician or licensed advanced registered nurse practitioner of his or her own choice, if conveniently located, except as provided in (b) of this subsection, and proper and necessary hospital care and services during the period of his or her disability from such injury.

(b) Once the provider network is established in the worker's geographic area, an injured worker may receive care from a nonnetwork provider only for an initial office or emergency room visit. However, the department or self-insurer may limit reimbursement to the department's standard fee for the services. The provider must comply with all applicable billing policies and must accept the department's fee schedule as payment in full.

(c) The department, in collaboration with the advisory group, shall adopt policies for the development, credentialing, accreditation, and continued oversight of a network of health care providers approved to treat injured workers. Health care providers shall apply to the network by completing the department's provider application which shall have the force of a contract with the department to treat

injured workers. The advisory group shall recommend minimum network standards for the department to approve a provider's application, to remove a provider from the network, or to require peer review such as, but not limited to:

(i) Current malpractice insurance coverage exceeding a dollar amount threshold, number, or seriousness of malpractice suits over a specific time frame;

(ii) Previous malpractice judgments or settlements that do not exceed a dollar amount threshold recommended by the advisory group, or a specific number or seriousness of malpractice suits over a specific time frame;

(iii) No licensing or disciplinary action in any jurisdiction or loss of treating or admitting privileges by any board, commission, agency, public or private health care payer, or hospital;

(iv) For some specialties such as surgeons, privileges in at least one hospital;

(v) Whether the provider has been credentialed by another health plan that follows national quality assurance guidelines; and

(vi) Alternative criteria for providers that are not credentialed by another health plan.

The department shall develop alternative criteria for providers that are not credentialed by another health plan or as needed to address access to care concerns in certain regions.

(d) Network provider contracts will automatically renew at the end of the contract period unless the department provides written notice of changes in contract provisions or the department or provider provides written notice of contract termination. The industrial insurance medical advisory committee shall develop criteria for removal of a provider from the network to be presented to the department and advisory group for consideration in the development of contract terms.

(e) In order to monitor quality of care and assure efficient management of the provider network, the department shall establish additional criteria and terms for network participation including, but not limited to, requiring compliance with administrative and billing policies.

(f) The advisory group shall recommend best practices standards to the department to use in determining second tier network providers. The department shall develop and implement financial and nonfinancial incentives for network providers who qualify for the second tier. The department is authorized to certify and decertify second tier providers.

(3) The department shall work with self-insurers and the department utilization review provider to implement utilization review for the self-insured community to ensure consistent quality, cost-effective care for all injured workers and employers, and to reduce administrative burden for providers.

(4) The department for state fund claims shall pay, in accordance with the department's fee schedule, for any alleged injury for which a worker files a claim, any initial prescription drugs provided in relation to that initial visit, without regard to whether the worker's claim for benefits is allowed. In all accepted claims, treatment shall be limited in point of duration as follows:

In the case of permanent partial disability, not to extend beyond the date when compensation shall be awarded him or her, except when the worker returned to work before permanent partial disability award is made, in such case not to extend beyond the time when monthly allowances to him or her shall cease; in case of temporary disability not to extend beyond the time when monthly allowances to him or her shall cease: PROVIDED, That after any injured worker has returned to his or her work his or her medical and surgical treatment may be continued if, and so long as, such continuation is deemed necessary by the supervisor of industrial insurance to be necessary to his or her more complete recovery; in case of a permanent total disability not to extend beyond the date on which a lump sum settlement is made with him or her or he or she is placed

upon the permanent pension roll: PROVIDED, HOWEVER, That the supervisor of industrial insurance, solely in his or her discretion, may authorize continued medical and surgical treatment for conditions previously accepted by the department when such medical and surgical treatment is deemed necessary by the supervisor of industrial insurance to protect such worker's life or provide for the administration of medical and therapeutic measures including payment of prescription medications, but not including those controlled substances currently scheduled by the state board of pharmacy as Schedule I, II, III, or IV substances under chapter 69.50 RCW, which are necessary to alleviate continuing pain which results from the industrial injury. In order to authorize such continued treatment the written order of the supervisor of industrial insurance issued in advance of the continuation shall be necessary.

The supervisor of industrial insurance, the supervisor's designee, or a self-insurer, in his or her sole discretion, may authorize inoculation or other immunological treatment in cases in which a work-related activity has resulted in probable exposure of the worker to a potential infectious occupational disease. Authorization of such treatment does not bind the department or self-insurer in any adjudication of a claim by the same worker or the worker's beneficiary for an occupational disease.

(5)(a) The legislature finds that the department and its business and labor partners have collaborated in establishing centers for occupational health and education to promote best practices and prevent preventable disability by focusing additional provider-based resources during the first twelve weeks following an injury. The centers for occupational health and education represent innovative accountable care systems in an early stage of development consistent with national health care reform efforts. Many Washington workers do not yet have access to these innovative health care delivery models.

(b) To expand evidence-based occupational health best practices, the department shall establish additional centers for occupational health and education, with the goal of extending access to at least fifty percent of injured and ill workers by December 2013 and to all injured workers by December 2015. The department shall also develop additional best practices and incentives that span the entire period of recovery, not only the first twelve weeks.

(c) The department shall certify and decertify centers for occupational health and education based on criteria including institutional leadership and geographic areas covered by the center for occupational health and education, occupational health leadership and education, mix of participating health care providers necessary to address the anticipated needs of injured workers, health services coordination to deliver occupational health best practices, indicators to measure the success of the center for occupational health and education, and agreement that the center's providers shall, if feasible, treat certain injured workers if referred by the department or a self-insurer.

(d) Health care delivery organizations may apply to the department for certification as a center for occupational health and education. These may include, but are not limited to, hospitals and affiliated clinics and providers, multispecialty clinics, health maintenance organizations, and organized systems of network physicians.

(e) The centers for occupational health and education shall implement benchmark quality indicators of occupational health best practices for individual providers, developed in collaboration with the department. A center for occupational health and education shall remove individual providers who do not consistently meet these quality benchmarks.

(f) The department shall develop and implement financial and nonfinancial incentives for center for occupational health and education providers that are based on progressive and measurable gains in occupational health best practices, and that are applicable

throughout the duration of an injured or ill worker's episode of care.

(g) The department shall develop electronic methods of tracking evidence-based quality measures to identify and improve outcomes for injured workers at risk of developing prolonged disability. In addition, these methods must be used to provide systematic feedback to physicians regarding quality of care, to conduct appropriate objective evaluation of progress in the centers for occupational health and education, and to allow efficient coordination of services.

(6) If a provider fails to meet the minimum network standards established in subsection (2) of this section, the department is authorized to remove the provider from the network or take other appropriate action regarding a provider's participation. The department may also require remedial steps as a condition for a provider to participate in the network. The department, with input from the advisory group, shall establish waiting periods that may be imposed before a provider who has been denied or removed from the network may reapply.

(7) The department may permanently remove a provider from the network or take other appropriate action when the provider exhibits a pattern of conduct of low quality care that exposes patients to risk of physical or psychiatric harm or death. Patterns that qualify as risk of harm include, but are not limited to, poor health care outcomes evidenced by increased, chronic, or prolonged pain or decreased function due to treatments that have not been shown to be curative, safe, or effective or for which it has been shown that the risks of harm exceed the benefits that can be reasonably expected based on peer-reviewed opinion.

(8) The department may not remove a health care provider from the network for an isolated instance of poor health and recovery outcomes due to treatment by the provider.

(9) When the department terminates a provider from the network, the department or self-insurer shall assist an injured worker currently under the provider's care in identifying a new network provider or providers from whom the worker can select an attending or treating provider. In such a case, the department or self-insurer shall notify the injured worker that he or she must choose a new attending or treating provider.

(10) The department may adopt rules related to this section.

(11) The department shall report to the workers' compensation advisory committee and to the appropriate committees of the legislature on each December 1st, beginning in 2012 and ending in 2016, on the implementation of the provider network and expansion of the centers for occupational health and education. The reports must include a summary of actions taken, progress toward long-term goals, outcomes of key initiatives, access to care issues, results of disputes or controversies related to new provisions, and whether any changes are needed to further improve the occupational health best practices care of injured workers.

**NEW SECTION. Sec. 5.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2011."

(b) Subsection (3) of this section shall continue to apply for a period of one year from the date a new individual or small group product filing is submitted or until the next rate filing for the product, whichever occurs earlier, if the commissioner determines that the proposed rate filing is for a new product that is distinct and unique from any of the carrier's currently or previously offered health benefit plans. A carrier must make a written request for a product classification as a new product under this subsection (4)(b) and must receive subsequent written approval by the commissioner for this subsection (4)(b) to apply.

(5) Unless the commissioner has determined that a filing is for a new product pursuant to subsection (4) of this section, for individual or small group health benefit rate filings with an effective date on or after January 1, 2012, the commissioner shall:

(a) Make the portions of each rate filing that are open to public inspection available for public inspection on the tenth calendar day after the commissioner determines that the rate filing is complete and accepts the filing for review through the electronic rate and form filing system;

(b) Prepare a rate disclosure summary form in a standard format that is written in plain language easily understood by the general public. The summary must allow carriers to explain the relationship between premium and health care cost drivers. The summary must set forth, at a minimum, the following: (i) The rate increase, year over year, for annual increases, including historic rate adjustments for at least the past three years; (ii) any percent increase to current rates attributed to mandated changes, not including changes due to demographics; (iii) the number of members impacted by the rate; (iv) the impact of benefit changes on the rate; (v) the products' filed health care trend; (vi) the projected medical loss ratio for the rating period; (vii) the top three drivers contributing to the change in premiums; and (viii) other information added to the summary form by rule that the commissioner, in consultation with carriers, finds reasonably necessary to help consumers understand the reasons for proposed and accepted rates. A carrier shall complete the disclosure summary form and submit it electronically to the commissioner along with each individual or small group health benefit plan rate filing; and

(c) Prepare a standardized rate summary form to explain his or her findings after the rate review process is completed. The commissioner's summary form must be included as part of the rate filing documentation available to the public electronically.

(6) The commissioner shall adopt rules to implement and administer this section. The rules must include, but are not limited to, a process for updating the summary form content in subsection (5)(b) of this section. In adopting rules under this section, the commissioner

shall consult with carriers, as defined in RCW 48.43.005, and consumers in the development of the summary forms."

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 4.** (1) The legislature finds that the "deepwater horizon" wellhead blowout, explosion, and oil spill in the Gulf of Mexico on April 20, 2010, resulted in the release of two hundred million gallons of crude oil into the environment. Impacts after the spill have included deaths and injuries, extensive damage to the marine environment and wildlife habitats, as well as large socioeconomic damages to local citizens, commercial fishing, tourism, businesses, and recreation. As late as six months after the spill, four thousand two hundred square miles of the Gulf of Mexico were closed to commercial shrimp harvest. The incident in the Gulf of Mexico is a reminder that the threat of major spills to Washington's environment, natural resources, economy, quality of life, and private property is significant.

(2) The legislature further finds that during the fall of 2010 the department of ecology compiled lessons learned from the Gulf of Mexico spill and the Puget Sound partnership convened an oil spill work group in an effort to ensure there is a rapid and aggressive response to a large scale spill in Washington and that oversight of spills is well coordinated among different levels of government and industry. The legislature intends to build upon these efforts, and other recent studies, to improve Washington's prevention and response capabilities. While current oil spill contingency plans are required to address worst case spills, it is also clear that the state may be underprepared for a large scale oil spill of the magnitude possible by failures of an oil tanker or a tank barge, particularly within the confined waters of Puget Sound. Lessons learned from the 2010 deepwater horizon incident demonstrate that improvements to Washington's existing oil spill prevention, preparedness, and response capabilities are both necessary and possible.

**Sec. 5.** RCW 88.46.010 and 2009 c 11 s 7 are each reenacted and amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Best achievable protection" means the highest level of protection that can be achieved through the use of the best achievable technology and those staffing levels, training procedures, and operational methods that provide the greatest degree of protection achievable. - (c) The cost of the measures.

(2)(a) "Best achievable technology" means the technology that provides the greatest degree of protection taking into consideration:

((a)) (i) Processes that are being developed, or could feasibly be developed, given overall reasonable expenditures on research and development(;;); and

((b)) (ii) Processes that are currently in use.

(b) In determining what is best achievable technology, the director shall consider the effectiveness, engineering feasibility, and commercial availability of the technology.

**NEW SECTION. Sec. 6.** A new section is added to chapter 88.46 RCW to read as follows:

(1)(a) The owner or operator of a tank vessel transiting to or from a Washington marine facility shall establish or fund a vessels of opportunity response system to supplement the timely and effective response to spills in the vessel's area of operation.

(b) Except for tank vessels with an area of operation limited to the Columbia river, the vessels of opportunity response system must be composed of an adequate number of regional vessels of opportunity response groups so as to be prepared to respond to a spill anywhere within the tank vessel's area of operation within twelve hours after notification of a spill event, to the extent that a twelve-hour spill response is determined to be safe and effective. For tank vessels with an area of operation limited to the Columbia river, the vessels of opportunity system may be limited to one regional vessels of opportunity response group located near the mouth of the river.

(c) Each regional vessels of opportunity response group must be composed of a sufficient number of participating vessels to satisfy a planning standard of having at least six capable vessels available at any one time during a spill response incident. To achieve the planning standard of deploying six individual nondedicated vessels at any one time, a regional vessels of opportunity response group must include a total of more than six participating nondedicated vessels.

(2) A vessels of opportunity response system must include the maintenance of active contracts with an adequate sized fleet of capable, nondedicated vessels that ensures the following:

(a) Participating vessels can be rapidly equipped, consistent with subsection (3) of this section, with dedicated response equipment that represents the best achievable technology, given the expected operating environment, for the booming, storage, and recovery of oil. The best achievable technology may vary among regional vessels of opportunity response groups and the individual participating vessels based on whether or not the expected response area is open marine water, harbor areas, Puget Sound, or river environments; however, the vessels participating in an individual response group must, at a minimum, collectively have access to equipment that includes containment boom and oil recovery systems capable of operating in currents of at least four knots;

(b) The appropriate response equipment is readily available to the individual vessels participating in a regional vessels of opportunity response group; and

(c) Crews of the participating vessels are:

(i) Equipped with adequate personal protection gear; and

(ii) Properly trained to utilize response equipment that represents the highest level of available oil spill response technology for the expected operating environment. Crew training may be limited to safe response equipment utilization and deployment and not the maintenance of response equipment.

(3)(a) The dedicated response equipment actually provided to individual participating vessels in a regional vessels of opportunity system may differ among participating vessels; however, the equipment provided collectively to the individual participants in a response group must satisfy the requirements of this section. As such, when necessary to satisfy the requirements of this section, not all participating vessels are, individually, required to be equipped with technology representing the best achievable protection.

(b) The dedicated response equipment provided to individual participating vessels in a regional vessels of opportunity system may be dedicated equipment owned and maintained by the contingency plan holder and not by the owner or operator of the participating vessel as long as the participating vessels have access to, and can be equipped with, the equipment as required in this section. Equipment that is required to be available to dedicated responders under section 5 of this act may supplement but not substitute for equipment available to regional vessels of opportunity response groups.

(4) In addition to meeting requirements specified in RCW 88.46.060, contingency plans for tank vessels operating in Washington waters must provide for the organization and contracting of a vessels of opportunity response system as required by this section.

(5)(a) The requirements of this section may be fulfilled by one or more private organizations or nonprofit corporations providing

umbrella coverage under contract to single or multiple tank vessels. Any organization or corporation providing coverage to satisfy the requirements of this section must ensure that the vessels of opportunity response system being provided includes the establishment of a minimum of six distinct regional vessels of opportunity response groups that are located strategically to ensure a timely response in any of Washington's marine waters or the Columbia river.

(b) Unless otherwise directed by the department, the response groups must at a minimum be stationed so as to be able to respond to incidents occurring in the following locations:

(i) The outer coast;

(ii) The Strait of Juan de Fuca;

(iii) Northern Puget Sound;

(iv) Central Puget Sound;

(v) Southern Puget Sound; and

(vi) The mouth of the Columbia river.

(c) The department may require a private organization or nonprofit corporation providing umbrella coverage to satisfy the requirements of this section to station regional vessels of opportunity response groups in areas that are in addition to the minimum required response areas of this subsection based on risk and need.

(6) Each regional vessel of opportunity response group must undergo a minimum of two drills a year to ensure that the overall vessels of opportunity response system is maintained at an appropriate level of readiness and that the actual number of participating vessels is sufficient to meet the planning goal of deploying a minimum of six capable vessels at any one time during a spill response incident. The department may award credit to the plan holder for practice drills accordingly. Each successful activation of the vessels of opportunity response system may be considered by the department to satisfy a drill covering this portion of the contingency plan.

(7) The decision to activate a vessels of opportunity response system during a spill response, and provide direction as to how and where the regional vessels of opportunity response groups should respond, is the sole responsibility of the designated incident commander or the unified command. The incident commander or unified command is the only entity empowered to direct which of the response equipment available to a regional vessels of opportunity response group is appropriate for the operating environment and for the capabilities of the specific individual responding vessels.

**NEW SECTION. Sec. 7.** A new section is added to chapter 88.46 RCW to read as follows:

(1) The department shall establish a volunteer coordination system. The volunteer coordination system may be included as a part of the state's overall oil spill response strategy, and may be implemented by local emergency management organizations, in coordination with any analogous federal efforts, to supplement the state's timely and effective response to spills.

(2) The department should consider how the volunteer coordination system will:

(a) Coordinate with the incident commander or unified command of an oil spill and any affected local governments to receive, screen, and register volunteers who are not affiliated with the emergency management organization or a local nongovernmental organization;

(b) Coordinate the management of volunteers with local nongovernmental organizations and their affiliated volunteers;

(c) Coordinate appropriate response operations with different classes of volunteers, including pretrained volunteers and convergent volunteers, to fulfill requests by the department or an oil spill incident commander or unified command;

(d) Coordinate public outreach regarding the need for and use of volunteers;

(e) Determine minimum participation criteria for volunteers; and

(f) Identify volunteer training requirements and, if applicable, provide training opportunities for volunteers prior to an oil spill response incident.

(2) An act or omission by any volunteer participating in a spill response or training as part of a volunteer coordination system, while engaged in such activities, does not impose any liability on the department, any participating local emergency management organization, or the volunteer for civil damages resulting from the act or omission. However, the immunity provided under this subsection does not apply to an act or omission that constitutes gross negligence or willful or wanton misconduct.

(3) The decisions to utilize volunteers in an oil spill response, which volunteers to utilize, and to determine which response activities are appropriate for volunteer participation in any given response are the sole responsibilities of the designated incident commander or unified command.

**NEW SECTION. Sec. 8.** A new section is added to chapter 88.46 RCW to read as follows:

(1) In addition to meeting the requirements specified in this chapter applicable to all covered vessels, contingency plans for tank vessels must provide for:

(a) Rapid access to equipment located within the state that reflects the best achievable protection for the expected operating environment in the vessel's area of operation without requiring equipment with capabilities that exceeds the response requirements for the expected operating environment; and

(b) Continuous operation of oil spill response activities without regard to the operating environment to the maximum extent practicable and without unreasonably jeopardizing crew safety.

(2) In reviewing tank vessel contingency plans to measure compliance with this section, the department must ensure that, at a minimum, plans:

(a) Provide access to dedicated equipment appropriate for the operating environment as needed to achieve oil recovery, to the maximum extent practicable and without unreasonably jeopardizing crew safety; including, at minimum, equipment that includes containment boom and oil recovery systems capable of operating in currents of at least four knots. Equipment intended to be used for response activities on the outer coast or the Strait of Juan de Fuca must also be capable of open water operations;

(b) Include a technical analysis of best achievable technology and best achievable protection for the expected operating environment in the vessel's area of operation, and incorporate best achievable protection; and

(c) Provide adequate capacity for storage or proper disposal of the volume and type of oil considered by the contingency plan so as to achieve continuous operation of oil recovery to the maximum extent practicable.

(3) Contingency plans for tank vessels must provide for the ability of the tank vessel to have access, either directly or through an assured contract with a third party, to multispectrum scanning technologies that enhance the ability of responders to detect and respond to oil spills in times of low visibility and at night, including technology that is capable of aerial oil identification, location mapping, and downloading of the information in real time to response vessels and the command post. This technology is not required to be stationed in Washington, but must be capable of being operational at the site of an incident within four hours of plan activation.

**NEW SECTION. Sec. 9.** A new section is added to chapter 88.46 RCW to read as follows:

(1) The department is responsible for ordering joint large-scale, multiple plan equipment deployment drills of tank vessels to determine the adequacy of the owner's or operator's compliance with the contingency plan requirements of this chapter. The department must order at least one drill as outlined in this section every three years.

(2) The tank vessel equipment deployment drills must focus on, at a minimum, the following:

(a) The functional ability for multiple contingency plans to be simultaneously activated with the purpose of testing the ability for dedicated equipment and trained personnel cited in multiple contingency plans to be activated in a large scale spill; and

(b) The operational readiness during both the first six hours of a spill and, at the department's discretion, over multiple operational periods of response.

(3) Joint drills ordered under this section may be incorporated into other drill requirements under this chapter when deemed beneficial by the department for enabling larger scale drills within the overall drill management framework.

(4) Each successful large-scale, multiple plan equipment deployment drill conducted under this section may be considered by the department as a drill of the underlying contingency plan and credit may be awarded to the plan holder accordingly.

(5) The department shall, when practicable, coordinate with applicable federal agencies, the state of Oregon, and the province of British Columbia to establish a drill incident command and to help ensure that lessons learned from the drills are evaluated with the goal of improving the underlying contingency plans.

**Sec. 10.** RCW 88.46.060 and 2005 c 78 s 2 are each amended to read as follows:

(1) Each covered vessel shall have a contingency plan for the containment and cleanup of oil spills from the covered vessel into the waters of the state and for the protection of fisheries and wildlife, shellfish beds, natural resources, and public and private property from such spills. The department shall by rule adopt and periodically revise standards for the preparation of contingency plans. Subject to conditions imposed by the department, the person may submit a single plan for more than one covered vessel.

(4) A contingency plan prepared for an agency of the federal government or another state that satisfies the requirements of this

section and rules adopted by the department may be accepted by the department as a contingency plan under this section. The department shall ensure that to the greatest extent possible, requirements for contingency plans under this section are consistent with the requirements for contingency plans under federal law.

(5) In reviewing the contingency plans required by this section, the department shall consider at least the following factors:

(a) The adequacy of containment and cleanup equipment, personnel, communications equipment, notification procedures and call down lists, response time, and logistical arrangements for coordination and implementation of response efforts to remove oil spills promptly and properly and to protect the environment;

(b) The department must notify the plan holder in writing within sixty-five days of an initial or amended plan's submittal to the department as to whether the plan is disapproved, approved, or conditionally approved. If a plan is conditionally approved, the department must clearly describe each condition and specify a schedule for plan holders to submit required updates.

(7) The approval of the contingency plan shall be valid for five years. Upon approval of a contingency plan, the department shall provide to the person submitting the plan a statement indicating that the plan has been approved, the vessels covered by the plan, and other information the department determines should be included.

(8) An owner or operator of a covered vessel shall notify the department in writing immediately of any significant change of which it is aware affecting its contingency plan, including changes in any factor set forth in this section or in rules adopted by the department. The department may require the owner or operator to update a contingency plan as a result of these changes.

(9) The department by rule shall require contingency plans to be reviewed, updated, if necessary, and resubmitted to the department at least once every five years.

(10) Approval of a contingency plan by the department does not constitute an express assurance regarding the adequacy of the plan nor constitute a defense to liability imposed under this chapter or other state law.

**NEW SECTION. Sec. 11.** A new section is added to chapter 88.46 RCW to read as follows:

(1) When submitting a contingency plan to the department under RCW 88.46.060, any umbrella plan holders that enroll both tank vessels and covered vessels that are not tank vessels must, in addition to satisfying the other requirements of this chapter, specify:

(a) The maximum worst case discharge volume from covered vessels that are not tank vessels to be covered by the umbrella plan holder's contingency plan; and

(b) The maximum worst case discharge volume from tank vessels to be covered by the umbrella plan holder's contingency plan.

(2) Tank vessel owners or operators that are enrolled with an umbrella plan holder and that have worse case discharge volumes larger than the maximum volume covered by the contingency plan of the umbrella plan holder must demonstrate to the satisfaction of the department that the owner or operator of the tank vessel has access to the necessary additional response capabilities.

**Sec. 12.** RCW 88.46.100 and 2000 c 69 s 10 are each amended to read as follows:

((1)) In ((order to assist the state in identifying areas of the navigable waters of the state needing special attention, the owner or operator of a covered vessel shall notify the)) addition to any notifications that the owner or operator of a covered vessel must provide to the United States coast guard ((within one hour:

(a) Of the disability of the covered vessel if the disabled vessel is within twelve miles of the shore of the state; and

(b) Of a collision or a near miss incident within twelve miles of the shore of the state.

(2) The state military department and the department shall request the coast guard to notify the state military department as soon as possible after the coast guard receives notice of a disabled covered vessel or of a collision or near miss incident within twelve miles of the shore of the state. The department shall negotiate an agreement with the coast guard governing procedures for coast guard notification to the state regarding disabled covered vessels and collisions and near miss incidents.

(3) The department shall prepare a summary of the information collected under this section and provide the summary to the regional marine safety committees, the coast guard, and others in order to identify problems with the marine transportation system.

(4) For the purposes of this section:

(a) A tank vessel or cargo vessel is considered disabled if any of the following occur:

(i) Any accidental or intentional grounding;

(ii) The total or partial failure of the main propulsion or primary steering or any component or control system that causes a reduction in the maneuvering capabilities of the vessel;

(iii) An occurrence materially and adversely affecting the vessel's seaworthiness or fitness for service, including but not limited to, fire, flooding, or collision with another vessel;

(iv) Any other occurrence that creates the serious possibility of an oil spill or an occurrence that may result in such a spill.

(b) A barge is considered disabled if any of the following occur:

(i) The towing mechanism becomes disabled;

(ii) The towboat towing the barge becomes disabled through occurrences defined in (a) of this subsection.

(c) A near miss incident is an incident that requires the pilot or master of a covered vessel to take evasive actions or make significant course corrections in order to avoid a collision with another ship or to avoid a grounding as required by the international rules of the road.

(5) Failure of any person to make a report under this section shall not be used as the basis for the imposition of any fine or penalty)) regarding a vessel emergency, the owner or operator of a covered vessel must notify the state of any vessel emergency that results in the discharge or substantial threat of discharge of oil to state waters or that may affect the natural resources of the state. The purpose of this notification is to enable the department to coordinate with the vessel operator, contingency plan holder, and the United States coast guard to protect the public health, welfare, and natural resources of the state and to ensure all reasonable spill preparedness and response measures are in place prior to a spill occurring.

**Sec. 13.** RCW 88.46.090 and 2000 c 69 s 9 are each amended to read as follows:

(1) Except as provided in subsection (4) of this section, it shall be unlawful for a covered vessel to enter the waters of the state without

an approved contingency plan required by ((RCW 88.46.060)) this chapter, a spill prevention plan required by RCW 88.46.040, or financial responsibility in compliance with chapter 88.40 RCW and the federal oil pollution act of 1990. The department may deny entry onto the waters of the state to any covered vessel that does not have a required contingency or spill prevention plan or financial responsibility.

(2) Except as provided in subsection (4) of this section, it shall be unlawful for a covered vessel to transfer oil to or from an onshore or offshore facility that does not have an approved contingency plan required under RCW 90.56.210, a spill prevention plan required by RCW 90.56.200, or financial responsibility in compliance with chapter 88.40 RCW and the federal oil pollution act of 1990.

(3) The director may assess a civil penalty of up to ((one)) three hundred thousand dollars against the owner or operator of a vessel who is in violation of subsection (1) or (2) of this section. Each day that the owner or operator of a covered vessel is in violation of this section shall be considered a separate violation.

(4) It shall not be unlawful for a covered vessel to operate on the waters of the state if:

(a) A contingency plan, a prevention plan, or financial responsibility is not required for the covered vessel;

(b) A contingency plan and prevention plan has been submitted to the department as required by this chapter and rules adopted by the department and the department is reviewing the plan and has not denied approval; or

(c) The covered vessel has entered state waters after the United States coast guard has determined that the vessel is in distress.

(5) Any person may rely on a copy of the statement issued by the department to RCW 88.46.060 as evidence that the vessel has an approved contingency plan and the statement issued pursuant to RCW 88.46.040 as evidence that the vessel has an approved spill prevention plan.

(6) Except for violations of subsection (1) or (2) of this section, any person who violates the provisions of this chapter or rules or orders adopted or issued pursuant ((hereto)) to this chapter, shall incur, in addition to any other penalty as provided by law, a penalty in an amount of up to ten thousand dollars a day for each violation. Each violation is a separate offense, and in case of a continuing violation, every day's continuance is a separate violation. Every act of commission or omission which procures, aids, or abets in the violation shall be considered a violation under the provisions of this subsection and subject to penalty. The penalty amount shall be set in consideration of the previous history of the violator and the severity of the violation's impact on public health and the environment in addition to other relevant factors. The penalty shall be imposed pursuant to the procedures set forth in RCW 43.21B.300.

**Sec. 14.** RCW 90.48.366 and 2007 c 347 s 1 are each amended to read as follows:

(1) The department, in consultation with the departments of fish and wildlife and natural resources, and the parks and recreation commission, shall adopt rules establishing a compensation schedule for the discharge of oil in violation of this chapter and chapter 90.56 RCW. The amount of compensation assessed under this schedule shall be:

(a) For spills totaling one thousand gallons or more in any one event, no less than ((one dollar)) three dollars per gallon of oil spilled and no greater than ((one)) three hundred dollars per gallon of oil spilled; and

(b) For spills totaling less than one thousand gallons in any one event, no less than one dollar per gallon of oil spilled and no greater than one hundred dollars per gallon of oil spilled.

(2) The compensation schedule adopted under this section shall reflect adequate compensation for unquantifiable damages or for damages not quantifiable at reasonable cost for any adverse

environmental, recreational, aesthetic, or other effects caused by the spill and shall take into account:

~~((4))~~ ~~(a)~~ Characteristics of any oil spilled, such as toxicity, dispersibility, solubility, and persistence, that may affect the severity of the effects on the receiving environment, living organisms, and recreational and aesthetic resources;

Subject to such general policies as may be promulgated by the committee and to the general supervision of the committee, the reviser shall:

(c) Substitute for the term "this act," where necessary, the term "section," "part," "code," "chapter," or "title," or reference to specific section or chapter numbers, as the case may require.

### COLLOQUY

Representative Rodne: Will the member from the 43rd district yield to a question?

Representative Pedersen: I will.

Rep Rodne: This legislation adopts the 2010 changes to the text of Article 9 adopted by the National Conference of Commissioners on Uniform State Laws. Is it the intent that the 2010 revisions to the Official Comments to Article 9 be incorporated as part of the legislative history for this act?

Representative Pedersen: Yes, that is the intent. The 2010 revisions to the Official Comments include changes not only to the sections being amended by this bill, but also to the Official Comments for sections of the Article where the underlying text was not amended. It is the intent that all revisions to the Official Comments be incorporated by reference as legislative intent regarding the explanation and interpretation of Washington's Article 9.

It is important to have uniformity across the 50 states in this area of the law. In order to maintain uniformity, Article 9 must be interpreted and applied consistently by the states. The Official Comments to Article 9 explain the purposes and intent of the provisions of the Article and are a helpful aid in interpreting and applying the act so that uniformity may be maintained.

Representative Alexander moved the adoption of amendment (203).

On page 4, line 8, after "program," insert the following:

"If an act of the legislature sets income eligibility for children who are not eligible for coverage under the federally funded children's health insurance program or medicaid at a level below three hundred percent of the federal poverty level, the department shall continue to provide coverage to children with family incomes between the new income standard and three hundred percent of the federal poverty level if the families pay premiums in an amount equal to the per capita cost of coverage under the state-funded children's health program."

**POINT OF ORDER**

Representative Van De Wege requested a scope and object ruling on amendment (203) to House Bill No. 2003.

**SPEAKER'S RULING**

Madame Speaker (Representative Orwall presiding): The title of House Bill 2003 is narrow, "an act relating to premium payments for children's health coverage for children in families with income greater than two hundred percent of the federal poverty level who are not eligible for the federal children's health insurance program." Amendment 203 concerns premium payments for children whose family income is below three hundred percent of the federal poverty level. Because the amendment applies to income below two hundred percent of the federal poverty level and the title limits the bill to income greater than two hundred percent, the amendment is beyond the scope and object of the bill. The point of order is well taken.

There being no objection, the rules were suspended, the second reading considered the third and the bill was placed on final passage.

Representatives Pettigrew, Alexander and Hinkle spoke in favor of the passage of the bill.

The Speaker (Representative Orwall presiding) stated the question before the House to be the final passage of House Bill No. 2003.

(1) Subject to the limitations of this section, any alien offender committed to the custody of the department under the sentencing reform act of 1981, chapter 9.94A RCW, who has been found by the United States attorney general to be subject to a final order of deportation or exclusion, may be placed on conditional release status and released to the immigration and ~~((naturalization service))~~ customs enforcement agency for deportation at any time prior to the expiration of the offender's term of confinement. The legal determination and deportation is an activity of the federal government exclusively. Neither the department nor its staff shall be delegated nor shall the department or its staff assume a decision-making role in this process. Conditional release shall continue until the expiration of the statutory maximum sentence provided by law for the crime or crimes of which the offender was convicted. If the offender has multiple current convictions, the statutory maximum sentence allowed by law for each crime shall run concurrently.

(2) Offenders placed on conditional release status from Washington state correctional facilities are in a program specific to Washington. Placement on conditional release status does not constitute participation in the immigration and customs enforcement agency's rapid removal of eligible parolees accepted for transfer program.

~~(3) No offender may be released under this section unless:~~

~~(a) The secretary or the secretary's designee ~~((find [finds] that such release is in the best interests of the state of Washington. Further, releases under this section may occur only with the approval of the sentencing court and the prosecuting attorney of the county of conviction))~~ has confirmed that the detention facilities in Washington state operated by the immigration and customs enforcement agency, or operated under contract with the immigration and customs enforcement agency, have written guidelines in place that comport with the international and domestic human rights laws regarding the detention of offenders, due process, and personnel training and that these facilities meet Washington state and federal constitutional standards for correctional facilities;~~

~~(b) The immigration and customs enforcement agency will permit the secretary of the department or his or her designee to periodically review the conditions and procedures at its facilities, including due process, personnel training, and the treatment of detained offenders, as they affect offenders placed on conditional release status;~~

~~(c) The secretary or the secretary's designee has reached an agreement with the immigration and customs enforcement agency that the alien offender placed on conditional release status will be detained in total confinement at a facility operated by the immigration and customs enforcement agency pending the offender's return to the country of origin or other location designated in the final deportation or exclusion order;~~

(d) The alien offender, prior to stipulating to an order of removal prior to the issuance of a final deportation order by the United States attorney general, has been provided access to information regarding his or her due process rights and has had an opportunity to consult with an attorney or legal representative; and

(e) The secretary or the secretary's designee finds that such release is in the best interests of the state of Washington.

(4) If the secretary determines that state or federal constitutional standards are not being met at the detention facilities described in this section, the secretary shall immediately report the same to the governor and the legislature and shall immediately refrain from releasing offenders pursuant to this section.

(5) The secretary, in consultation with a representative from an immigration legal advocacy organization, shall report biannually to the governor and the legislature regarding the substance of the secretary's review described in subsection (3)(b) of this section and any conclusions and recommendations made pursuant to that review. Such report shall make recommendations for modifications of policies or procedures, if appropriate. The first report shall be due on December 10, 2011.

~~((3))~~ (6) No offender may be released under this section who is serving a sentence for a violent offense or sex offense, as defined in RCW 9.94A.030, or any other offense that is a crime against a person.

~~((4))~~ (7) The unserved portion of the term of confinement of any offender released under this section shall be tolled at the time the offender is released to the immigration and ~~((naturalization service))~~ customs enforcement agency for deportation. Upon the release of an offender to the immigration and ~~((naturalization service))~~ customs enforcement agency, the department shall issue a warrant for the offender's arrest within the United States. This warrant shall remain in effect until the expiration of the offender's conditional release.

~~((5))~~ (8) Upon arrest of an offender, the department shall, upon making a finding that it is in the best interest of the state, seek extradition as necessary and the offender ~~((shall))~~ may be returned to the department for completion of the unserved portion of the offender's term of total confinement. If returned, the offender shall also be required to fully comply with all the terms and conditions of the sentence.

~~((6))~~ (9) Alien offenders released to the immigration and ~~((naturalization service))~~ customs enforcement agency for deportation under this section are not thereby relieved of their obligation to pay restitution or other legal financial obligations ordered by the sentencing court.

~~((7))~~ (10) Any offender released pursuant to this section who returns illegally to the United States may not thereafter be released again pursuant to this section.

~~((8))~~ (11) The secretary is authorized to take all reasonable actions to implement this section and shall assist federal authorities in prosecuting alien offenders who may illegally reenter the United States and enter the state of Washington."

WHEREAS, Abraham Lincoln was inaugurated as President of the United States on March 4, 1861; and

WHEREAS, Lincoln was a champion of the American experiment in self-government, a student of the Declaration of Independence and the Constitution, who said in his First Inaugural Address, "This country, with its institutions, belongs to the people who inhabit it"; and

WHEREAS, Lincoln was a child of the frontier, a self-taught lawyer, and an Illinois legislator whose example of honesty, work, and discipline epitomize the American character; and

WHEREAS, Lincoln found that the practice of slavery violated the equal rights of human beings, and sought through reasoned debate to persuade his fellow citizens of its injustice; and

WHEREAS, Lincoln subsequently led the nation through Civil War, giving himself to the cause of national Union, and displaying throughout those terrible days the virtues of wisdom, courage, justice, and moderation; and

WHEREAS, Lincoln proclaimed emancipation for slaves in the American South and maintained throughout his public service a steady defense of human equality; and

WHEREAS, Lincoln looked forward from his Inauguration to a time when "the mystic chords of memory, stretching from every battlefield and patriot grave to every living heart and hearthstone all over this broad land, will yet swell the chorus of the Union, when again touched, as surely they will be, by the better angels of our nature";

Strike everything after the enacting clause and insert the following:

"**Sec. 637.** RCW 48.02.120 and 1985 c 264 s 2 are each amended to read as follows:

(1) The commissioner shall preserve in permanent form records of his or her proceedings, hearings, investigations, and examinations, and shall file such records in his or her office.

(2) The records of the commissioner and insurance filings in his or her office shall be open to public inspection, except as otherwise provided by this code.

(3) Except as provided in subsection (4) of this section, actuarial formulas, statistics, and assumptions submitted in support of a rate or form filing by an insurer, health care service contractor, or health maintenance organization or submitted to the commissioner upon his or her request shall be withheld from public inspection in order to preserve trade secrets or prevent unfair competition.

(4)(a) Except as provided in (b) of this subsection, for a rate filing for an individual or small group health benefit plan with an effective date on or after January 1, 2012, subsection (3) of this section applies only to the numeric values of each rating factor used by a health carrier. The remainder of the rate filing shall be open to public inspection subject to subsection (5) of this section.

(b) Subsection (3) of this section shall continue to apply for a period of one year from the date a new individual or small group product filing is submitted or until the next rate filing for the product, whichever occurs earlier, if the commissioner determines that the proposed rate filing is for a new product that is distinct and unique from any of the carrier's currently or previously offered health benefit plans. A carrier must make a written request for a product classification as a new product under this subsection (4)(b) and must receive subsequent written approval by the commissioner for this subsection (4)(b) to apply.

(5) Unless the commissioner has determined that a filing is for a new product pursuant to subsection (4) of this section, for individual

or small group health benefit rate filings with an effective date on or after January 1, 2012, the commissioner shall:

(a) Make the portions of each rate filing that are open to public inspection available for public inspection on the tenth calendar day after the commissioner determines that the rate filing is complete and accepts the filing for review through the electronic rate and form filing system;

(b) Prepare a rate disclosure summary form in a standard format that is written in plain language easily understood by the general public. The summary must allow carriers to explain the relationship between premium and health care cost drivers. The summary must set forth, at a minimum, the following: (i) The rate increase, year over year, for annual increases, including historic rate adjustments for at least the past three years; (ii) any percent increase to current rates attributed to mandated changes, not including changes due to demographics; (iii) the number of members impacted by the rate; (iv) the impact of benefit changes on the rate; (v) the products' filed health care trend; (vi) the projected medical loss ratio for the rating period; (vii) the top three drivers contributing to the change in premiums; and (viii) other information added to the summary form by rule that the commissioner, in consultation with carriers, finds reasonably necessary to help consumers understand the reasons for proposed and accepted rates. A carrier shall complete the disclosure summary form and submit it electronically to the commissioner along with each individual or small group health benefit plan rate filing; and

(c) Prepare a standardized rate summary form to explain his or her findings after the rate review process is completed. The commissioner's summary form must be included as part of the rate filing documentation available to the public electronically.

(6) The commissioner shall adopt rules to implement and administer this section. The rules must include, but are not limited to, a process for updating the summary form content in subsection (5)(b) of this section. In adopting rules under this section, the commissioner shall consult with carriers, as defined in RCW 48.43.005, and consumers in the development of the summary forms."

"**NEW SECTION. Sec. 644.** The legislature finds that the affordable care act requires the states to establish health benefit exchanges. The legislature intends to establish an exchange, including a governance structure that will be in place no later than July 1, 2012. There are many policy decisions associated with establishing an exchange that need to be made that will take a great deal of effort and expertise. It is therefore the intent of the legislature to establish a process through which these policy decisions can be made by the legislature and the governor by the deadline established in the affordable care act.

**NEW SECTION. Sec. 645.** A new section is added to chapter 41.05 RCW to read as follows:

The state shall establish, by statute, a health benefit exchange consistent with the federal affordable care act, P.L. 111-148, to begin operations no later than January 1, 2014, and intended to:

(1) Increase access to quality affordable health care coverage, reduce the number of uninsured persons in Washington state, and increase the availability of health care coverage through the private health insurance market to qualified individuals and small employers;

(2) Provide consumer choice and portability of health insurance, regardless of employment status;

(3) Create an organized, transparent, and accountable health insurance marketplace for Washingtonians to purchase affordable, quality health care coverage, to claim available federal refundable premium tax credits and cost-sharing subsidies, and to meet the

personal responsibility requirements for minimum essential coverage as provided under the federal affordable care act;

(4) Promote consumer literacy and empower consumers to compare plans and make informed decisions about their health care and coverage;

(5) Effectively and efficiently administer health care subsidies and determination of eligibility for participation in publicly subsidized health care programs, including the exchange;

(6) Create a health insurance market that competes on the basis of price, quality, service, and other innovative efforts;

(7) Operate in a manner compatible with efforts to improve quality, contain costs, and promote innovation;

(8) Recognize the need for a private health insurance market to exist outside of the exchange and the need for a regulatory framework that applies both inside and outside of the exchange; and

(9) Recognize that the regulation of the health insurance market, both inside and outside the exchange, should continue to be performed by the insurance commissioner.

**NEW SECTION. Sec. 646.** A new section is added to chapter 41.05 RCW to read as follows:

(1) The health benefit exchange board shall be established as a nonprofit, public-private partnership, composed of nine persons with expertise in the Washington state health care system and private and public health care coverage. (f) The insurance commissioner or designee as a nonvoting ex officio member; and

(g) Two appointments from a list of recommendations submitted by the legislature. Each chamber of the legislature shall forward two recommendations representing mutually agreed on names from each caucus. Each person appointed to the board under this subsection (1)(g) must have demonstrated and acknowledged expertise in at least one of the following areas:

(6) The board shall conduct its business consistent with the provisions of chapter 42.30 RCW, the open public meetings act. Consistent with the open public meetings act, the board may hold

executive sessions to consider proprietary or confidential nonpublished information.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 8.** The legislature finds that the state loses over one hundred million dollars a year in taxes due to underground economy construction activity, causing great inequity to law-abiding businesses and taxpayers. The legislature further finds that an employer in construction is required to pay industrial insurance and unemployment taxes for a worker unless a seven-part independent contractor test is met, which test includes that the worker is free from direction and control and has his or her own books and records. The legislature finds that some contractors avoid taxes by engaging multiple contractors to work on the same task and treating the contractors as exempt independent contractors rather than hiring and paying taxes on these persons as covered workers. The legislature finds, however, that if multiple contractors are working on the same task on a job site, the contractors must be working under direction and control such that they are not exempt independent contractors but are, in fact, covered workers.

The legislature finds that the seven-part test is and should continue to be applied in investigations of underground economy activity in the construction industry. However, the legislature also finds that prohibiting up front certain contracting which by its nature creates a situation in which taxes due are not paid will provide clarity to contractors and provide an additional cost-effective means to reduce the underground economy. By enacting section 2 of this act, the legislature intends to define the prohibited contracting narrowly to assure no legitimate contracting is prohibited. The legislature intends that nothing in section 2 of this act prohibits a contractor from engaging more than two independent contractors who have no covered workers to work on the same task so long as those contractors are treated as covered workers.

**NEW SECTION. Sec. 9.** A new section is added to chapter 18.27 RCW to read as follows:

(1) It is a violation under this chapter and an infraction for any contractor to engage more than two independent contractors to work on or in a single building who:

- (a) Are working on the same task involving a similar material;
- (b) Bring no workers to work on or in the building subject to the mandatory coverage of Title 51 RCW; and
- (c) Are not being treated by the contractor as covered workers under Title 51 RCW.

(2)(a) A contractor found to have committed an infraction under this section shall be assessed a fine of:

(i) Five hundred dollars for a first offense. However, the director shall waive the fine if the contractor registers for a department-approved training class within ten days of receiving a notice of infraction, completes the class within one hundred twenty days of receiving the notice of infraction, and pays the class fees upon class registration;

- (ii) Two thousand five hundred dollars for a second offense; and
- (iii) Five thousand dollars for a third or subsequent offense.

(b) For a third or subsequent offense under this section, the director shall also suspend the contractor's certificate of registration for one year.

(c) In addition to any other penalty, the director shall suspend the registration of the contractor until payment of penalties assessed under this section that have become final are paid in full.

(3) For purposes of this section, "task" means a single risk classification as defined in rule under Title 51 RCW.

(4) Classes offered under subsection (2) of this section may be conducted or approved by the department. Registrants must pay a fee to cover the cost of administering the class.

(5) This section does not apply to work performed on residential wood frame construction up to four stories in height.

**Sec. 3.** 2009 c 432 s 13 (uncodified) is amended to read as follows:

The department of labor and industries, the employment security department, and the department of revenue shall coordinate and report

to the appropriate committees of the legislature by December 1st of each year on the effectiveness of efforts implemented since July 1, 2008, to address the underground economy. Beginning on December 1, 2012, the report shall include the effectiveness of section 2 of this act. The agencies shall use benchmarks and measures established by the institute for public policy and other measures it determines appropriate.

**Sec. 4.** Section 3 of this act is codified as a new section in chapter 18.27 RCW."

(4) The owner of the underground facility shall have the right to receive compensation for costs incurred in responding to excavation notices given less than two business days prior to the excavation from the excavator.

(5) An owner of underground facilities is not required to indicate the presence of existing service laterals or appurtenances if the presence of existing service laterals or appurtenances on the site of the construction project can be determined from the presence of other visible facilities, such as buildings, manholes, or meter and junction boxes on or adjacent to the construction site.

(6) Emergency excavations are exempt from the time requirements for notification provided in this section.

(7) If the excavator, while performing the contract, discovers underground facilities which are not identified, the excavator shall cease excavating in the vicinity of the facility and immediately notify the owner or operator of such facilities, or the one-number locator service.) Upon receipt of the notice provided for in this section, the facility operator shall provide the excavator with reasonably accurate information as to its locatable underground facilities by marking the location of the facilities. If there are identified but unlocatable underground facilities, the facility operator responsible for the facilities must provide the excavator with the best available information as to the location of the underground facilities. The facility operator providing the information must respond no later than two business days after the receipt of the notice or before the excavation time, at the option of the facility operator, unless otherwise agreed by the parties. Excavators shall not excavate until all known facilities have been marked. Once marked by the facility operator, the excavator is responsible for maintaining the accuracy of the original markings for the lesser of forty-five calendar days from the date notice was provided to the one-number locator service or the life of the project. Markings expire forty-five calendar days from the date notice was provided to the one-number locator service. For excavation occurring more than forty-five calendar days from the date notice was provided to the one-number locator service, a second notice must be provided in accordance with the provisions of subsection (1) of this section. (a) Marking the location of service, water, or sewer laterals in accordance with the procedures in subsection (2) of this section; or

(b) If a service, water, or sewer lateral is unlocatable, marking within the proposed excavation area that there is an unlocatable service, water, or sewer lateral.

(5) Facility operators, water, and sewer system owners or operators must indicate the presence of service or sewer laterals only to the extent that they exist within a right-of-way or easement. This assistance does not constitute ownership or operation of service laterals or sewer laterals by the facility operator or sewer system owner or operator. Service or sewer laterals existing on private property are the responsibility of the property owner. Nothing in this section may be interpreted to require property owners to subscribe to the one-number locator service or to locate service laterals within a right-of-way or easement. Good faith compliance with the provisions of this subsection in response to a locate request constitutes full compliance with this chapter, and no person may be found liable to any party for damages or injuries as a result of performing in compliance with the requirements of this subsection.

(7) If the excavator discovers underground facilities that are not identified in plans or contract documents, the excavator shall cease excavating in the vicinity of the facility and immediately notify the facility operator or the one-number locator service. If the excavator uncovers identified but unlocatable underground facilities, the excavator shall notify the facility operator and the facility operator must take action under subsection (8) of this section.

(8) Upon notification by an excavator or the one-number locator service in accordance with subsection (7) of this section, a facility operator must take action to allow for the accurate future location of the uncovered portion of the underground facility identified by the excavator. A facility operator may accept facility location information from the excavator for the future marking of an underground facility.

Pipeline companies shall have the same rights and responsibilities as owners of underground facilities under RCW 19.122.030 regarding excavation work. Excavators have the same rights and responsibilities under this section as they have under RCW 19.122.030.

(2) Project owners, excavators, and pipeline companies have the same rights and responsibilities relating to excavation near pipelines that they have for excavation near underground facilities as provided in RCW 19.122.040.

(3) The state or any of its political subdivisions undertaking or permitting construction or excavation activity under chapter 19.27 RCW within one hundred feet, or greater distance if defined by local ordinance, of a right-of-way or easement that contains a transmission pipeline must:

(a) Notify the transmission pipeline company of the proposed construction activity before such a permit is approved; or

(b) Require consultation between the person proposing the construction activity and the transmission pipeline company as a condition of receiving the permit.

**Sec. 15.** RCW 19.122.035 and 2000 c 191 s 19 are each amended to read as follows:

(1) After a pipeline company has been notified by an excavator pursuant to RCW 19.122.033 that excavation work will uncover any portion of the pipeline, the pipeline company shall ensure that the pipeline section in the vicinity of the excavation is examined for damage prior to being reburied.

(2) Immediately upon receiving information of third-party damage to a hazardous liquid pipeline, the company that operates the pipeline shall terminate the flow of hazardous liquid in that pipeline until it has visually inspected the pipeline. After visual inspection, the ~~((operator of the hazardous liquid))~~ pipeline company shall determine whether the damaged pipeline section should be replaced or repaired, or whether it is safe to resume pipeline operation. Immediately upon receiving information of third-party damage to a gas pipeline, the ~~((company that operates the))~~ pipeline company shall conduct a visual inspection of the pipeline to determine whether the flow of gas through that pipeline should be terminated, and whether the damaged pipeline should be replaced or repaired. A record of the pipeline company's inspection report and test results shall be provided to the utilities and transportation commission consistent with reporting requirements under 49 C.F.R. 195 Subpart B.

(3) Pipeline companies shall immediately notify local first responders and the department of any reportable release of a hazardous liquid from a pipeline. Pipeline companies shall immediately notify local first responders and the commission of any blowing gas leak from a gas pipeline that has ignited or represents a probable hazard to persons or property. Pipeline companies shall take all appropriate steps to ensure the public safety in the event of a release of hazardous liquid or gas under this subsection.

(4) No damaged pipeline may be buried until it is repaired or relocated. The pipeline company shall arrange for repairs or relocation of a damaged pipeline as soon as is practical or may permit the excavator to do necessary repairs or relocation at a mutually acceptable price.

(2) An excavator shall use reasonable care to avoid damaging underground facilities. An excavator shall:

(b) Plan the excavation to avoid damage to or minimize interference with underground facilities in and near the excavation area; and

(c) Provide such support for underground facilities in and near the construction area, including during backfill operations, as may be reasonably necessary for the protection of such facilities.

(3) If an underground facility is damaged and such damage is the consequence of the failure to fulfill an obligation under this chapter, the party failing to perform that obligation shall be liable for any damages. Any clause in an excavation contract which attempts to allocate liability, or requires indemnification to shift the economic consequences of liability, different from the provisions of this chapter

is against public policy and unenforceable. Nothing in this chapter prevents the parties to an excavation contract from contracting with respect to the allocation of risk for changed or differing site conditions.

(4) In any action brought under this section, the prevailing party is entitled to reasonable attorneys' fees.

**Sec. 17.** RCW 19.122.050 and 1984 c 144 s 5 are each amended to read as follows:

No damaged underground facility may be buried until it is repaired or relocated.

(2) ~~((The owner of the underground facilities damaged))~~ A facility operator notified in accordance with subsection (1) of this section shall arrange for repairs or relocation as soon as is practical or may permit the excavator to do necessary repairs or relocation at a mutually acceptable price.

All penalties recovered in such actions shall be deposited in the general fund))~~ an initial violation, and not more than five thousand dollars for each subsequent violation within a three-year period. All penalties recovered in such actions must be used for education and training of excavators and facility operators regarding best practices and compliance with this chapter. All penalties recovered in such actions must be deposited into the damage prevention account created in section 10 of this act.

(2) Any excavator who willfully or maliciously damages a field-marked underground facility shall be liable for treble the costs incurred in repairing or relocating the facility. In those cases in which an excavator fails to notify known underground facility ~~((owners))~~ operators or the one-number locator service, any damage to the underground facility shall be deemed willful and malicious and shall be subject to treble damages for costs incurred in repairing or relocating the facility.

(3) This chapter does not affect any civil remedies for personal injury or for property damage, including that to underground facilities, nor does this chapter create any new civil remedies for such damage.

**NEW SECTION. Sec. 19.** A new section is added to chapter 19.122 RCW to read as follows:

"**Sec. 2.** RCW 36.70A.130 and 2010 c 216 s 1 and 2010 c 211 s 2 are each reenacted and amended to read as follows:

(1)(a) Each comprehensive land use plan and development regulations shall be subject to continuing review and evaluation by

the county or city that adopted them. Except as otherwise provided, a county or city shall take legislative action to review and, if needed, revise its comprehensive land use plan and development regulations to ensure the plan and regulations comply with the requirements of this chapter according to the deadlines in subsections (4) and (5) of this section.

(b) Except as otherwise provided, a county or city not planning under RCW 36.70A.040 shall take action to review and, if needed, revise its policies and development regulations regarding critical areas and natural resource lands adopted according to this chapter to ensure these policies and regulations comply with the requirements of this chapter according to the deadlines in subsections (4) and (5) of this section. Legislative action means the adoption of a resolution or ordinance following notice and a public hearing indicating at a minimum, a finding that a review and evaluation has occurred and identifying the revisions made, or that a revision was not needed and the reasons therefor.

(c) ~~((The review and evaluation required by this subsection may be combined with the review required by subsection (3) of this section.))~~ The review and evaluation required by this subsection shall include, but is not limited to, consideration of critical area ordinances and, if planning under RCW 36.70A.040, an analysis of the population allocated to a city or county from the most recent ten-year population forecast by the office of financial management.

(d) Any amendment of or revision to a comprehensive land use plan shall conform to this chapter. Any amendment of or revision to development regulations shall be consistent with and implement the comprehensive plan.

(2)(a) Each county and city shall establish and broadly disseminate to the public a public participation program consistent with RCW 36.70A.035 and 36.70A.140 that identifies procedures and schedules whereby updates, proposed amendments, or revisions of the comprehensive plan are considered by the governing body of the county or city no more frequently than once every year. "Updates" means to review and revise, if needed, according to subsection (1) of this section, and the deadlines in subsections (4) and (5) of this section or in accordance with the provisions of subsection (6) of this section. Amendments may be considered more frequently than once per year under the following circumstances:

(i) The initial adoption of a subarea plan. Subarea plans adopted under this subsection (2)(a)(i) must clarify, supplement, or implement jurisdiction-wide comprehensive plan policies, and may only be adopted if the cumulative impacts of the proposed plan are addressed by appropriate environmental review under chapter 43.21C RCW;

(ii) The development of an initial subarea plan for economic development located outside of the one hundred year floodplain in a county that has completed a state-funded pilot project that is based on watershed characterization and local habitat assessment;

(iii) The adoption or amendment of a shoreline master program under the procedures set forth in chapter 90.58 RCW;

(iv) The amendment of the capital facilities element of a comprehensive plan that occurs concurrently with the adoption or amendment of a county or city budget; or

(v) The adoption of comprehensive plan amendments necessary to enact a planned action under RCW 43.21C.031(2), provided that amendments are considered in accordance with the public participation program established by the county or city under this subsection (2)(a) and all persons who have requested notice of a comprehensive plan update are given notice of the amendments and an opportunity to comment.

(b) Except as otherwise provided in (a) of this subsection, all proposals shall be considered by the governing body concurrently so the cumulative effect of the various proposals can be ascertained. However, after appropriate public participation a county or city may adopt amendments or revisions to its comprehensive plan that conform with this chapter whenever an emergency exists or to resolve

an appeal of a comprehensive plan filed with the growth management hearings board or with the court.

(3)(a) Each county that designates urban growth areas under RCW 36.70A.110 shall review, ~~((at least every ten years))~~ according to the schedules established in subsection (5) of this section, its designated urban growth area or areas, and the densities permitted within both the incorporated and unincorporated portions of each urban growth area. In conjunction with this review by the county, each city located within an urban growth area shall review the densities permitted within its boundaries, and the extent to which the urban growth occurring within the county has located within each city and the unincorporated portions of the urban growth areas.

(b) The county comprehensive plan designating urban growth areas, and the densities permitted in the urban growth areas by the comprehensive plans of the county and each city located within the urban growth areas, shall be revised to accommodate the urban growth projected to occur in the county for the succeeding twenty-year period. The review required by this subsection may be combined with the review and evaluation required by RCW 36.70A.215.

(4) Except as provided in subsection (6) of this section, counties and cities shall take action to review and, if needed, revise their comprehensive plans and development regulations to ensure the plan and regulations comply with the requirements of this chapter as follows:

(5) Except as otherwise provided in subsection (6) of this section, following the review of comprehensive plans and development regulations required by subsection (4) of this section, counties and cities shall take action to review and, if needed, revise their comprehensive plans and development regulations to ensure the plan and regulations comply with the requirements of this chapter as follows:

(a) On or before ~~((December 1, 2014))~~ June 30, 2015, and every ~~((seven))~~ ten years thereafter, for ~~((Clallam,))~~ Clark, ~~((Jefferson,))~~ and King~~((, Kitsap, Pierce, Snohomish, Thurston, and Whatcom))~~ counties and the cities within those counties;

Counties and cities may begin this process early and may be eligible for grants from the department, subject to available funding, if they elect to do so.

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 4.** A new section is added to chapter 28B.30 RCW to read as follows:

(1) The legislature finds that access to baccalaureate and graduate degree programs continues to be limited for residents of north Snohomish, Island, and Skagit counties. Studies conducted by the state board for community and technical colleges, the higher education coordinating board, and the council of presidents confirm that enrollment in higher education compared to demand in this geographic region lags behind enrollment in other parts of the state, particularly for upper-division courses leading to advanced degrees.

(2) The legislature also finds that access to high employer demand programs of study is imperative for the state's global competitiveness and economic prosperity, particularly those degrees in the science, technology, engineering, and math (STEM) fields that align with the workforce skill demands of the regional economy, that support the aerospace industry, and provide skilled undergraduate and graduate-degree engineers required by the largest employers in the aerospace industry cluster.

(3) The legislature finds that meeting the long-range goal of greatly expanded access for the population of the region to the widest array of baccalaureate and graduate programs can best be accomplished by assigning responsibility to a research university with multiple experiences in similar settings.

(4) Management and leadership of the University Center of North Puget Sound is assigned to Washington State University to meet the needs of the Everett metropolitan area and the north Snohomish, Island, and Skagit county region and the state of Washington for baccalaureate and graduate degrees offered by a state university. The chief executive officer of the University Center of North Puget Sound is the director who reports to the president of Washington State University. The director shall manage the activities and logistics of operating the center, make policy and planning recommendations to the council in subsection (5) of this section, and implement decisions of the council.

(5)(a) Washington State University and Everett Community College must collaborate with community leaders, and other four-year institutions of higher education that offer programs at the University Center of North Puget Sound to serve the varied interests of students in the region. To this end, a coordinating and planning council must be established to be responsible for long-range and strategic planning, interinstitutional collaboration, collaboration with the community served, and dispute resolution for the center. The following individuals shall comprise the coordinating and planning council:

- (i) The president of Washington State University, or his or her designee;
- (ii) The provost of Washington State University, or his or her designee;

- (iii) The president of Everett Community College;
- (iv) A representative of one other institution of higher education that offers baccalaureate or graduate degree programs at the center;
- (v) The director of the council, as the nonvoting chair;
- (vi) A community leader appointed by the president of Everett Community College;

(vii) A community leader appointed by the president of Washington State University; and

- (viii) A community leader appointed by the mayor of Everett.
- (b) The coordinating and planning council may appoint other groups, as appropriate, to advise on administration and operations, and may alter its own composition by agreement of all the members.

(6)(a) Washington State University shall assume leadership of the center upon completion of a strategic plan for meeting the academic needs of the region and successful establishment of an engineering degree program. The strategic plan must build on the strengths of the institutions, reflecting each institution's mission, in order to provide the region with the highest standard of educational programs, research, and service to the community. The strategic plan must include a multibiennium budget that addresses both operating and capital expenses required to effectively implement the plan. The strategic plan shall be developed with the collaboration of the University Center at Everett Community College and all the institutions of higher education that provide baccalaureate degrees at the University Center, and community leaders.

(b) Center partners must implement the strategic plan with careful attention to the academic and professional standards established and maintained by each institution and by the appropriate accrediting bodies, and to the historic role of each institution's governing board in setting policy.

(c) The strategic plan must address expansion of the range and depth of educational opportunities in the region and include strategies that:

- (i) Build upon baccalaureate and graduate degree offerings at the center;
- (ii) Meet projected student enrollment demands for baccalaureate, graduate, and certificate programs in the region;
- (iii) Meet employers' needs for skilled workers by expanding high employer demand programs of study, with an initial emphasis by Washington State University on undergraduate and graduate engineering degree programs in a variety of engineering disciplines such as civil, mechanical, aeronautical, and aerospace manufacturing;
- (iv) Coordinate delivery of lower and upper division courses to maximize student opportunities and resources; and
- (v) Transfer budget support and resources for the center from Everett Community College to Washington State University.

(d) The strategic plan must be completed by July 1, 2013. The transfer of the responsibility for the management and operation of the University Center of North Puget Sound to Washington State University must occur by July 1, 2014.

(7)(a) Academic programming and delivery at the center must be developed in accordance with the missions of Washington State University, Everett Community College, and other institutions of higher education that have a presence at the center.

- (b) Each institution shall abide by the guidelines for university centers adopted by the higher education coordinating board.
- (c) Each institution shall award all degrees and certificates granted in the programs it delivers at the center.

(d) The coordinating council described in subsection (5) of this section shall establish a process for prioritizing new programs and revising existing programs that facilitates timeliness of new offerings, recognizes the internal processes of the proposing institutions, and addresses each proposal's fit with the needs of the region.

(8)(a) Washington State University shall review center expansion needs and consider capital facilities funding at least annually. Washington State University and Everett Community College must

cooperate in preparing funding requests and bond financing for submission to the legislature on behalf of development at the center, in accordance with each institution's process and priorities for advancing legislative requests.

(b) Washington State University shall design, construct, and manage any facility developed at the center. Any facility developed at the center with Everett Community College capital funding must be designed by Everett Community College in consultation with Washington State University. Building construction may be managed by Washington State University via an interagency agreement which details responsibility and associated costs. Building operations and management for all facilities at the center must be governed by the infrastructure and operating cost allocation method described in subsection (9) of this section.

(9) Washington State University has responsibility for infrastructure development and maintenance for the center. All infrastructure operating and maintenance costs are to be shared in what is deemed to be an equitable and fair manner based on space allocation, special cost, and other relevant considerations. Washington State University may make infrastructure development and maintenance decisions in consultation with the council described in subsection (5) of this section.

(10) In the event that conflict cannot be resolved through the coordinating council described in subsection (5) of this section the higher education coordinating board dispute resolution must be employed.

**Sec. 5.** RCW 28B.50.795 and 2010 1st sp.s. c 25 s 1 are each amended to read as follows:

(1) ~~(RCW 28B.50.901 assigns responsibility for the north Snohomish, Island, and Skagit counties' higher education consortium to Everett Community College. In April of 2009, Everett Community College opened Gray Wolf Hall, the new home of the University Center of North Puget Sound. The University Center currently offers over twenty bachelor's and master's degrees from six partner universities.~~

—(2)) Although Everett Community College offers an associate degree nursing program that graduates approximately seventy to ninety students per year, the University Center does not offer a bachelor of science in nursing. Some graduates of the Everett Community College program are able to articulate to the bachelor of science in nursing program offered by the University of Washington-Bothell at its Bothell campus or in Mt. Vernon but current capacity is not sufficient for all of the graduates who are both interested and qualified.

((3)) (2) Despite recent growth in nursing education capacity, shortages still persist for registered nurses. According to a June 2007 study by the Washington, Wyoming, Alaska, Montana, and Idaho center for health workforce studies, the average age of Washington's registered nurses was forty-eight years. More than a third were fifty-five years of age or older. Consequently, the high rate of registered nurses retiring from nursing practice over the next two decades will significantly reduce the supply. This reduction comes at the same time as the state's population grows and ages. The registered nurse education capacity in Washington has a large impact on the supply of registered nurses in the state. If the rate of graduation in registered nursing does not increase, projections show that supply in Washington will begin to decline by 2015. In contrast, if graduation rates increased by four hundred per year, the supply of registered nurses would meet estimated demand by the year 2021.

((4)) (3) Subject to specific funding to support up to fifty full-time equivalent students in a bachelor of nursing program, the University Center ~~((at Everett Community College))~~ of North Puget Sound, in partnership with the University of Washington-Bothell, shall offer a bachelor of science in nursing program with capacity for up to fifty full-time students.

**NEW SECTION. Sec. 6.** (1) This act takes effect only after the higher education coordinating board determines whether a needs assessment and analysis is required and, if so, conducts a needs assessment and viability determination under RCW 28B.76.230 and recommends that the provisions in section 1 of this act occur.

(2) The higher education coordinating board shall notify the office of financial management, the legislature, and the code reviser's office of the board's recommendations regarding the provisions in section 1 of this act.

**NEW SECTION. Sec. 7.** RCW 28B.50.901 (Regional higher education consortium management and leadership--Everett Community College-- Educational plan) and 2005 c 258 s 13 are each repealed."

"Sec. 8. RCW 82.02.050 and 1994 c 257 s 24 are each amended to read as follows:

(1) It is the intent of the legislature:

(a) To ensure that adequate facilities are available to serve new growth and development;

(b) To promote orderly growth and development by establishing standards by which counties, cities, and towns may require, by ordinance, that new growth and development pay a proportionate share of the cost of new facilities needed to serve new growth and development; and

(c) To ensure that impact fees are imposed through established procedures and criteria so that specific developments do not pay arbitrary fees or duplicative fees for the same impact.

(2) Counties, cities, and towns that are required or choose to plan under RCW 36.70A.040 are authorized to impose impact fees on development activity as part of the financing for public facilities, provided that the financing for system improvements to serve new development must provide for a balance between impact fees and other sources of public funds and cannot rely solely on impact fees.

(3)(a) Counties, cities, and towns collecting impact fees must adopt a permanent system for the collection of impact fees from applicants for residential building permits issued for a lot or unit created by a subdivision, short subdivision, site development permit, binding site plan, or condominium that includes one or more of the following:

(i)(A) A process by which an applicant for any development permit that requires payment of an impact fee may record a covenant against title to the lot or unit subject to the impact fee obligation. A covenant under this subsection (3)(a)(i) must also serve as a lien. The covenant must require payment equal to one hundred percent of the impact fee applicable to the lot or unit at the rates in effect at the time the building permit was issued, less a credit for any deposits paid.

(B) Covenants recorded in accordance with this subsection (3)(a)(i) must provide for payment of the impact fee through escrow at the earlier of the following: The time of closing of sale of the applicable lot or unit; or in accordance with the applicable county, city, or town ordinance, eighteen or more months after the building permit is issued. Payment of impact fees due at closing of a sale must, unless an agreement to the contrary is reached between buyer and seller, be made from the seller's proceeds. In the absence of an agreement to the contrary, the seller bears strict liability for the payment of the impact fees.

(C) Either a seller or a seller's agent, or both, of property subject to a deferral covenant authorized under this subsection (3)(a)(i) must provide written disclosure of the covenant to a purchaser or prospective purchaser. Disclosure of the covenant must include the amount of impact fees payable and the entities to which fees are to be paid at closing.

(D) Upon receiving payment of impact fees due, the applicable county, city, or town must remove the covenant recorded in accordance with this subsection (3)(a)(i); or

(ii) A process by which an applicant may apply for a deferral of the impact fee payment until final inspection or certificate of occupancy, or equivalent certification.

(b) Counties, cities, and towns may adopt local systems for the collection of impact fees that differ from the requirements of this subsection (3) if the payment timing provisions are consistent with those of this subsection.

(4) The impact fees:

(a) Shall only be imposed for system improvements that are reasonably related to the new development;

(b) Shall not exceed a proportionate share of the costs of system improvements that are reasonably related to the new development; and

(c) Shall be used for system improvements that will reasonably benefit the new development.

~~((4))~~ (5)(a) Impact fees may be collected and spent only for the public facilities defined in RCW 82.02.090 which are addressed by a capital facilities plan element of a comprehensive land use plan

adopted pursuant to the provisions of RCW 36.70A.070 or the provisions for comprehensive plan adoption contained in chapter 36.70, 35.63, or 35A.63 RCW. After the date a county, city, or town is required to adopt its development regulations under chapter 36.70A RCW, continued authorization to collect and expend impact fees ((shall be)) is contingent on the county, city, or town adopting or revising a comprehensive plan in compliance with RCW 36.70A.070, and on the capital facilities plan identifying:

((~~a~~)) (i) Deficiencies in public facilities serving existing development and the means by which existing deficiencies will be eliminated within a reasonable period of time;

((~~b~~)) (ii) Additional demands placed on existing public facilities by new development; and

((~~c~~)) (iii) Additional public facility improvements required to serve new development.

(b) If the capital facilities plan of the county, city, or town is complete other than for the inclusion of those elements which are the responsibility of a special district, the county, city, or town may impose impact fees to address those public facility needs for which the county, city, or town is responsible.

With the consent of the house, amendments (124), (57) and (99) were withdrawn.

Representative Tharinger moved the adoption of amendment (243).

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 4.** (1) The legislature finds that since the 1980s, about seventeen percent of Washington's commercial forests have been converted to other land uses.

(2) The legislature further finds that as these forests vanish, so do the multiple benefits they provide to our communities such as local timber jobs, clean air and water, carbon storage, fish and wildlife habitat, recreation areas, and open space.

(3) The legislature further finds that it has provided policy direction to the department of natural resources to protect working forest and natural resource lands at risk of conversion, while maintaining the department's obligation to manage the state's fiduciary trust lands and financial assets in the interest of the beneficiaries of the respective trust lands and assets.

(4) The legislature further finds that there are numerous tools available to acquire open space and recreation lands, but limited tools to protect working forest lands.

(5) The legislature further finds that currently the department of natural resources lacks a full complement of policy and management tools necessary to protect or manage working forest lands at high risk of conversion.

(6) The legislature further finds that through modest enhancements to existing department of natural resources' programs and authorities, the legislature can expand Washington's ability to protect communities' working forest lands, while simultaneously improving the revenue generating performance of fiduciary trust lands managed by the department of natural resources.

(7) The legislature further finds that there has been past and present legislative intent to ensure continued public access for recreation compatible with the purposes of the lands involved.

(8) The legislature further finds that there exists an interest by local communities, governments, and conservation organizations in cooperating in the establishment of working community forests.

**NEW SECTION. Sec. 5.** (1) If deemed practicable by the commissioner, the department is authorized to create and manage, consistent with the provisions of this chapter, a discrete category of natural resource lands in a nonfiduciary community forest land trust. The department is authorized to assemble, hold title to, and manage directly or through mutual agreement with other landowners land suitable for sustainable forest management, to be held in the community forest trust.

(2) All land held in the community forest trust must be held by the department and actively managed, consistent with a community working forest management plan developed under section 8 of this act, to generate financial support for the management of the community forest trust and to advance and sustain the working forest conservation objectives established in the management plan.

**NEW SECTION. Sec. 6.** (1) The department must identify lands for inclusion into the community forest trust, and manage the resulting community forest trust lands, in furtherance of goals that must be identified by the department prior to the creation of a community forest.

(2) In addition to any goals for a community forest identified by the department, the community forest trust program must satisfy the following minimum program management principles:

(a) Protecting in perpetuity working forest lands that are at a significant risk of conversion to another land use;

(b) Securing financial and social viability through sound management plans and objectives that are consistent with the values of the local community;

(c) Maintaining the land in a working status, through traditional forestry, management of specialized forest products harvest consistent with chapter 76.48 RCW, land leases, renewable energy opportunities, ecosystem services such as clean water protection or carbon storage, and other sources of revenue appropriate for the community forest to generate;

(d) Generating revenue at levels that are, at a minimum, capable of reimbursing the department for management costs and providing for some reinvestment into the management objectives of the community forest;

(e) Providing for ongoing, sustainable public recreational access, local timber jobs, clean air and water, carbon storage, fish and wildlife habitat, and open space in a manner that is compatible with management plans and objectives adopted for the community forest; and

(f) Providing educational opportunities for local communities regarding the benefits that working forests provide to Washington's economy, communities, environment, and quality of life.

**NEW SECTION. Sec. 7.** (1)(a) Except as limited by section 7 of this act, the department is authorized to acquire by purchase, gift, donation, grant, transfer, or other means other than eminent domain fee interest or a partial interest, including conservation easements, in lands or other real property suitable for management as part of the community forest trust and that are appropriate to further the goals of the community forest trust.

(b) The fair market value of any real property, and the associated valuable materials, of any land transferred into the community forest trust from state lands must be provided to the beneficiaries of the transferee trust or used for the furtherance of the transferee trust.

(2) The department is authorized to receive funds for purposes of establishing the community forest trust from grants, gifts, bequests, or loans, whether public or private, as well as from legislative appropriation.

(3) All acquisitions of real property for the community forest trust must be approved by the board.

**NEW SECTION. Sec. 8.** (1) The department shall, if it establishes a community forest trust program, develop criteria to be used for the identification and prioritization of forest land that is suitable for potential inclusion in the community forest trust due to its ability to most closely satisfy the goals of the community forest trust outlined in section 3 of this act.

(2) In prioritizing forest land for inclusion in the community forest trust, the department shall give priority consideration to lands that are:

(a) The subject of established management and revenue production objectives of potential local community partners;

(b) At greatest risk of conversion;

(c) Helping buffer commercial public or private forest lands from encroaching development;

(d) Helping to block up other community forest assets to be managed consistently with the community forest trust acquisition;

(e) Able to be managed, considering surrounding current or expected future land use, as economically sustainable working forest land either alone or in combination with adjacent and nearby working forest land, including other lands incorporated into a community forest by the department, a local governmental entity, or a not-for-profit conservation organization managing forest lands;

(f) Eligible for trust land transfer capital appropriations;

(g) Available for acquisition through existing or new programs or funding;

(h) Supporting existing or expanded forest product manufacturing infrastructure;

(i) Useful in leveraging funds to match available acquisition moneys;

(j) Positioned to have their development rights extinguished through transfer, purchase, conservation easement, lease, or by some other comparable mechanism; or

(k) Enhancing state fiduciary trust land revenues by repositioning underperforming state trust lands to provide short and long-term revenues to that trust.

**NEW SECTION. Sec. 9.** (1) The department shall, if it establishes a community forest trust program, submit biennially to the office of financial management and the appropriate committees of the legislature a prioritized list that identifies nominated parcels of state land or state forest land that are suitable for transfer into the community forest trust, where such a transfer is also in the best interest of the respective trust. The department shall solicit and consider input from the board on a draft list before submitting a final prioritized list.

(2) The list of nominated parcels must reflect consideration of local nominations and the priorities outlined in section 5 of this act and be delivered to the required recipients by November 1st of each even-numbered year.

**NEW SECTION. Sec. 10.** (1) The department must, prior to using the authority provided in section 4 of this act to acquire land for inclusion in a community forest, obtain from the local community a commitment to preserving the land as a working forest.

(2) Following initial agreement between potential local community partners and the department regarding management and revenue production objectives for the lands in question, the local commitment to preserving the land as a working forest must be demonstrated by the county, city, or other local entity providing a financial contribution to the specific community forest of at least fifty percent of the difference between the parcel's appraised fair market value and the parcel's timber and forest land value. The local community contribution may be provided through any means deemed acceptable by the department and the local contributor, including:

(a) Traditional financing or bonding;

(b) The purchase of conservation easements; or

(c) The purchase or transfer of development rights.

(3) The local financial contribution must be deposited into the park land trust revolving fund created in RCW 43.30.385 and used solely for acquisition of the community forest trust land parcel or parcels for which it is intended.

**NEW SECTION. Sec. 11.** (1) All lands transferred into community forest trust status must be managed in accordance with a postacquisition management plan developed by the department consistent with this section.

(2) After exercising the authority provided in section 4 of this act to acquire land for inclusion in a community forest, the department must establish a local advisory committee in cooperation with any interested and affected local government.

(3) The department must use the local advisory committee as a source of advice and comment on a postacquisition management plan. Comments and advice should, at a minimum, include plans for how the department will maintain the land's working status and economic viability objectives through revenue-generating activities that are sufficient to generate ongoing revenue at a level that reimburses administrative costs, while satisfying, or contributing to, identified community conservation and recreation objectives.

(4)(a) If, after a good faith effort by all parties, the department and the local advisory committee fail to reach a consensus on a conceptual postacquisition management plan for the parcel in question, the department may either adopt a management plan informed by the community or recommend to the board that the parcel be divested through the existing authority of the department

and the board. If the parcel is divested, then, except as otherwise provided in this subsection, proceeds must return to the park land trust revolving fund created in RCW 43.30.385.

(b) Prior to depositing the proceeds of a land divestiture under this subsection to the park land trust revolving fund, the department must first reimburse local entities that have made financial contributions to the parcel's acquisition as provided in section 7(2) of this act. However, local entities are only eligible for reimbursement upon divestiture under this subsection if the board determines that:

(i) The subsequent parcel use is likely to remain a working forest, the department secures full fair market value for the parcel, and the local entity's contribution was not provided by a state or federal grant; or

(ii) The funds used as part of the local contribution were originally provided through a grant that requires, as a condition of the grant, the repayment of granted dollars if the purposes of the grant are not or cannot be fulfilled and the decision to divest the land creates an inability for the purposes of the grant to be fulfilled.

**NEW SECTION. Sec. 12.** (1) Any revenue produced on community forest trust lands must be, consistent with RCW 79.64.040, allocated as follows:

(a) All costs incurred by the department in managing the parcel must be fully reimbursed; and

(b) After the department's management costs are reimbursed, any remaining revenue must then be prioritized to fulfill the management objectives for the specific parcel as identified in the postacquisition management plan developed under section 8 of this act consistent with the management principles outlined in section 3 of this act.

(2)(a) If, by the determination of the board, there is revenue remaining in any given biennium after fulfilling the requirements of subsection (1) of this section, then the board has the discretion to reimburse any local entities' eligible financial contributions for acquisition of the parcel under section 7(2) of this act and any state contribution to the acquisition of the parcel up to an amount that represents fifty percent of the difference between the parcel's original appraised fair market value and the parcel's timber and forest land value. However, any funds used as part of the local contribution may not be reimbursed if the funds were originally provided through a state or federal grant, provided through a fully compensated transfer of development rights at fair market value, or provided by a donation of funds or property.

(b) If the board decides to reimburse the state and local contribution, then it must allocate the reimbursement so that fifty percent is provided to the state general fund and fifty percent is provided to any eligible partnering local entities.

(c) Nothing in this section creates an expectation, requirement, or fiduciary duty for the board or the associated community forest trust lands to generate revenue in excess of amounts as provided in subsection (1)(a) of this section.

**NEW SECTION. Sec. 13.** By September 1, 2014, and periodically, but at least once every ten years thereafter, the department shall provide to the board a review and update of the community forest trust program. The review must include updates on the performance of the community forest trust statewide and notification of any community forest trust parcels not performing according to their management plan. The department is authorized to, consistent with this chapter, recommend to the board action to divest itself of nonperforming community forest trust parcels using existing policies and mechanisms available to the department and the board.

**NEW SECTION. Sec. 14.** (1) The commissioner may establish and maintain a statewide advisory committee to assist the department in the implementation of this chapter.

(2) If a statewide advisory committee is established, the commissioner shall appoint a balanced representation of interests on the committee, including representatives of state fiduciary trust land beneficiaries, tribal governments, local governments, relevant state

agencies, commercial forest landowners, land trusts, and conservation organizations.

(3) The statewide advisory committee shall provide consultation on issues and questions presented by the commissioner and may be dissolved by the commissioner at any time.

(4) Participation on the statewide advisory committee is voluntary and members are not eligible for any form of compensation nor for reimbursement for expenses incurred due to service on the committee.

**NEW SECTION. Sec. 15.** (1) The commissioner may, if deemed practicable and beneficial by the commissioner, cooperate with interested local governments in establishing community forest districts or local working forest districts that are compatible with the goals identified in this chapter for the community forest trust. Cooperative districts would attempt to voluntarily synchronize the management of community forest trust lands, other public lands, and private lands located within a certain geographic area to further a common set of community goals. If a working forest district encompasses state lands or state forest lands, then their voluntary management to further a common set of community goals must be consistent with the department's fiduciary and other legal obligations to the trust, including the multiple use act in chapter 79.10 RCW.

(2)(a) The department may, in its sole discretion and if it deems sufficient funding to be available, provide technical assistance grants to local communities for the purpose of enabling or furthering the development of community forest management plans consistent with this chapter.

(b) This subsection does not create a private right of action.

**Sec. 16.** RCW 79.17.210 and 2003 c 334 s 118 are each amended to read as follows:

(1) The legislature finds that the department has a need to maintain the real property asset base it manages and needs an accounting mechanism to complete transactions without reducing the real property asset base.

(2) The natural resources real property replacement account is created in the state treasury. This account shall consist of funds transferred or paid for the disposal or transfer of real property by the department under RCW 79.17.200 and the transfer of state lands or state forest lands into community forest trust lands under section 4 of this act. The funds in this account shall be used solely for the acquisition of replacement real property and may be spent only when, and as, authorized by legislative appropriation.

**Sec. 17.** RCW 43.30.385 and 2009 c 354 s 9 are each amended to read as follows:

(1) The park land trust revolving fund is to be utilized by the department for the purpose of acquiring real property, including all reasonable costs associated with these acquisitions, as a replacement for the property transferred to the state parks and recreation commission, as directed by the legislature in order to maintain the land base of the affected trusts or under RCW 79.22.060 and to receive voluntary contributions for the purpose of operating and maintaining public use and recreation facilities, including trails, managed by the department.

(2) In addition to the other purposes identified in this section, the park land trust revolving fund may be utilized by the department to hold funding for future acquisition of lands for the community forest trust program from willing sellers under section 4 of this act.

(3)(a) Proceeds from transfers of real property to the state parks and recreation commission or other proceeds identified from transfers of real property as directed by the legislature shall be deposited in ~~(this)~~ the park land trust revolving fund.

(b) The proceeds from real property transferred or disposed under RCW 79.22.060 must be used solely to purchase replacement forest land, that must be actively managed as a working forest, within the same county as the property transferred or disposed.

(c) Disbursement from the park land trust revolving fund to acquire replacement property and for operating and maintaining

public use and recreation facilities shall be on the authorization of the department. ~~((The proceeds from real property transferred or disposed under RCW 79.22.060 must be solely used to purchase replacement forest land, that must be actively managed as a working forest, within the same county as the property transferred or disposed.))~~

(4) In order to maintain an effective expenditure and revenue control, the park land trust revolving fund is subject in all respects to chapter 43.88 RCW, but no appropriation is required to permit expenditures and payment of obligations from the fund.

~~((2))~~ (5) The department is authorized to solicit and receive voluntary contributions for the purpose of operating and maintaining public use and recreation facilities, including trails, managed by the department. The department may seek voluntary contributions from individuals and organizations for this purpose. Voluntary contributions will be deposited into the park land trust revolving fund and used solely for the purpose of public use and recreation facilities operations and maintenance. Voluntary contributions are not considered a fee for use of these facilities.

**Sec. 18.** RCW 79.64.020 and 2008 c 328 s 6004 are each amended to read as follows:

A resource management cost account in the state treasury is created to be used solely for the purpose of defraying the costs and expenses necessarily incurred by the department in managing and administering state lands, community forest trust lands, and aquatic lands and the making and administering of leases, sales, contracts, licenses, permits, easements, and rights-of-way as authorized under the provisions of this title. Appropriations from the resource management cost account to the department shall be expended for no other purposes. Funds in the resource management cost account may be appropriated or transferred by the legislature for the benefit of all of the trusts from which the funds were derived. ~~((For the 2007-2009 biennium, moneys in the account may be used for the purposes identified in section 3044, chapter 328, Laws of 2008.))~~

**Sec. 19.** RCW 79.64.040 and 2009 c 564 s 957 are each amended to read as follows:

(1) The board shall determine the amount deemed necessary in order to achieve the purposes of this chapter and shall provide by rule for the deduction of this amount from the moneys received from all leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting state lands, community forest trust lands, and aquatic lands, provided that no deduction shall be made from the proceeds from agricultural college lands.

(2) Moneys received as deposits from successful bidders, advance payments, and security under RCW 79.15.100, 79.15.080, and 79.11.150 prior to December 1, 1981, which have not been subjected to deduction under this section are not subject to deduction under this section.

(4) Deductions authorized under this section for transactions pertaining to community forest trust lands must be established at a level sufficient to defray over time the management costs for activities prescribed in a parcel's management plan adopted pursuant to section 8 of this act, and, if deemed appropriate by the board consistent with section 9 of this act, to reimburse the state and any local entities' eligible financial contributions for acquisition of the parcel.

(5) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530,

**Sec. 24.** RCW 28A.220.030 and 2000 c 115 s 9 are each amended to read as follows:

(1) The superintendent of public instruction is authorized to establish a section of traffic safety education, and through such section shall: Define a "realistic level of effort" required to provide an effective traffic safety education course, establish a level of driving competency required of each student to successfully complete the course, and ensure that an effective statewide program is implemented and sustained, administer, supervise, and develop the traffic safety education program and shall assist local school districts in the conduct of their traffic safety education programs. The superintendent shall adopt necessary rules and regulations governing the operation and scope of the traffic safety education program; and each school district shall submit a report to the superintendent on the condition of its traffic safety education program: PROVIDED, That the superintendent shall monitor the quality of the program and carry out the purposes of this chapter.

(2) The board of directors of any school district maintaining a secondary school which includes any of the grades 10 to 12, inclusive, may establish and maintain a traffic safety education course. If a school district elects to offer a traffic safety education course and has within its boundaries a private accredited secondary school which includes any of the grades 10 to 12, inclusive, at least one class in traffic safety education shall be given at times other than regular school hours if there is sufficient demand therefor.

(3) The board of directors of a school district, or combination of school districts, may contract with any drivers' school licensed under the provisions of chapter 46.82 RCW to teach the laboratory phase of the traffic safety education course. Instructors provided by any such contracting drivers' school must be properly qualified teachers of traffic safety education under the joint qualification requirements adopted by the superintendent of public instruction and the director of licensing.

(4) The superintendent shall establish a required minimum number of hours of continuing traffic safety education for traffic safety education instructors. The superintendent may phase in the requirement over not more than five years.

(5) School districts that offer a traffic safety education program under this chapter may administer the portions of the driver licensing examination that test the applicant's knowledge of traffic laws and ability to safely operate a motor vehicle as authorized under RCW 46.20.120(7). The superintendent shall work with the department of licensing, in consultation with school districts that offer a traffic safety education program, to develop standards and requirements for administering each portion of the driver licensing examination that are comparable to the standards and requirements for driver training schools under section 11 of this act.

(6) Before a school district may provide a portion of the driver licensing examination, the school district must, after consultation with the superintendent, enter into an agreement with the department of licensing that, at a minimum, contains provisions that:

- (a) Allow the department of licensing to conduct random examinations, inspections, and audits without prior notice;
- (b) Allow the department of licensing to conduct on-site inspections at least annually;
- (c) Allow the department of licensing to test, at least annually, a random sample of the drivers approved by the school district for licensure and to cancel any driver's license that may have been issued to any driver selected for testing who refuses to be tested; and
- (d) Reserve to the department of licensing the right to take prompt and appropriate action against a school district that fails to comply with state or federal standards for a driver licensing examination or to comply with any terms of the agreement.

**NEW SECTION. Sec. 25.** A new section is added to chapter 46.01 RCW to read as follows:

A civil suit or action may not be commenced or prosecuted against the director, the state of Washington, any driver training school licensed by the department, any other government officer or entity, including a school district or an employee of a school district, or against any other person, by reason of any act done or omitted to be done in connection with administering the portions of the driver licensing examination that test the applicant's knowledge of traffic laws and ability to safely operate a motor vehicle. This section does not bar the state of Washington or the director from bringing any action, whether civil or criminal, against any driver training school licensed by the department.

**Sec. 26.** RCW 46.20.049 and 2005 c 314 s 309 are each amended to read as follows:

There shall be an additional fee for issuing any class of commercial driver's license in addition to the prescribed fee required for the issuance of the original driver's license. The additional fee for each class shall be ~~((thirty))~~ thirty-six dollars for the original commercial driver's license or subsequent renewals. If the commercial driver's license is renewed or extended for a period other than ~~((five))~~ six years, the fee for each class shall be six dollars for each year that the commercial driver's license is renewed or extended. The fee shall be deposited in the highway safety fund.

**Sec. 27.** RCW 46.20.117 and 2005 c 314 s 305 are each amended to read as follows:

- (1) **Issuance.** The department shall issue an identicard, containing a picture, if the applicant:
  - (a) Does not hold a valid Washington driver's license;
  - (b) Proves his or her identity as required by RCW 46.20.035; and
  - (c) Pays the required fee. The fee is ~~((twenty))~~ twenty-four dollars unless an applicant is a recipient of continuing public assistance grants under Title 74 RCW, who is referred in writing by the secretary of social and health services. For those persons the fee must be the actual cost of production of the identicard.
- (2) **Design and term.** The identicard must:
  - (a) Be distinctly designed so that it will not be confused with the official driver's license; and
  - (b) Expire on the ~~((fifth))~~ sixth anniversary of the applicant's birthdate after issuance.

(3) **Renewal.** An application for identicard renewal may be submitted by means of:

- (a) Personal appearance before the department; or
- (b) Mail or electronic commerce, if permitted by rule of the department and if the applicant did not renew his or her identicard by mail or by electronic commerce when it last expired. ~~((However, the department may accept an application for renewal of an identicard submitted by means of mail or electronic commerce only if specific authority and funding is provided for this purpose by June 30, 2004, in the omnibus transportation appropriations act.))~~

An identicard may not be renewed by mail or by electronic commerce unless the renewal issued by the department includes a photograph of the identicard holder.

(4) **Cancellation.** The department may cancel an identicard if the holder of the identicard used the card or allowed others to use the card in violation of RCW 46.20.0921.

(5) From the effective date of this section to July 1, 2020, the department may issue or renew an identicard for a period other than six years, or may extend by mail an identicard that has already been issued, in order to evenly distribute, as nearly as possible, the yearly renewal rate of identicard holders; however, the department may not issue or renew an identicard for a period that exceeds six years. The fee for an identicard issued or renewed for a period other than six years, or that has been extended by mail, is four dollars for each year that the identicard is issued, renewed, or extended. The department may adopt rules as necessary to administer this subsection.

**Sec. 28.** RCW 46.20.120 and 2005 c 314 s 306 and 2005 c 61 s 2 are each reenacted and amended to read as follows:

An applicant for a new or renewed driver's license must successfully pass a driver licensing examination to qualify for a driver's license. The department ~~((shall give))~~ must ensure that examinations are given at places and times reasonably available to the people of this state. If the department does not administer driver licensing examinations as a routine part of its licensing services within a department region because adequate testing sites are provided by driver training schools or school districts within that region, the department shall, at a minimum, administer driver licensing examinations by appointment to applicants eighteen years of age and older in at least one licensing office within that region.

- (1) **Waiver.** The department may waive:
  - (a) All or any part of the examination of any person applying for the renewal of a driver's license unless the department determines that the applicant is not qualified to hold a driver's license under this title; or
  - (b) All or any part of the examination involving operating a motor vehicle if the applicant:
    - (i) Surrenders a valid driver's license issued by the person's previous home state; or
    - (ii) Provides for verification a valid driver's license issued by a foreign driver licensing jurisdiction with which the department has an informal agreement under RCW 46.20.125; and
    - (iii) Is otherwise qualified to be licensed.
- (2) **Fee.** Each applicant for a new license must pay an examination fee of twenty dollars.
  - (a) The examination fee is in addition to the fee charged for issuance of the license.
  - (b) "New license" means a license issued to a driver:
    - (i) Who has not been previously licensed in this state; or
    - (ii) Whose last previous Washington license has been expired for more than ~~((five))~~ six years.
- (3) An application for driver's license renewal may be submitted by means of:
  - (a) Personal appearance before the department; or
  - (b) Mail or electronic commerce, if permitted by rule of the department and if the applicant did not renew his or her license by mail or by electronic commerce when it last expired. ~~((However, the~~

department may accept an application for renewal of a driver's license submitted by means of mail or electronic commerce only if specific authority and funding is provided for this purpose by June 30, 2004, in the omnibus transportation appropriations act.)

(4) A person whose license expired or will expire while he or she is living outside the state, may:

(a) Apply to the department to extend the validity of his or her license for no more than twelve months. If the person establishes to the department's satisfaction that he or she is unable to return to Washington before the date his or her license expires, the department shall extend the person's license. The department may grant consecutive extensions, but in no event may the cumulative total of extensions exceed twelve months. An extension granted under this section does not change the expiration date of the license for purposes of RCW 46.20.181. The department shall charge a fee of five dollars for each license extension;

(b) Apply to the department to renew his or her license by mail or, if permitted by rule of the department, by electronic commerce even if subsection (3)(b) of this section would not otherwise allow renewal by that means. If the person establishes to the department's satisfaction that he or she is unable to return to Washington within twelve months of the date that his or her license expires, the department shall renew the person's license by mail or, if permitted by rule of the department, by electronic commerce.

(5) If a qualified person submits an application for renewal under subsection (3)(b) or (4)(b) of this section, he or she is not required to pass an examination nor provide an updated photograph. A license renewed by mail or by electronic commerce that does not include a photograph of the licensee must be labeled "not valid for identification purposes."

(6) Driver training schools licensed by the department under chapter 46.82 RCW may administer the portions of the driver licensing examination that test the applicant's knowledge of traffic laws and ability to safely operate a motor vehicle.

(7) School districts that offer a traffic safety education program under chapter 28A.220 RCW may administer the portions of the driver licensing examination that test the applicant's knowledge of traffic laws and ability to safely operate a motor vehicle.

**Sec. 29.** RCW 46.20.161 and 2000 c 115 s 6 are each amended to read as follows:

The department, upon receipt of a fee of ~~((twenty-five))~~ thirty dollars, unless the driver's license is issued for a period other than ~~((five))~~ six years, in which case the fee shall be five dollars for each year that the license is issued, which includes the fee for the required photograph, shall issue to every qualifying applicant a driver's license. A driver's license issued to a person under the age of eighteen is an intermediate license, subject to the restrictions imposed under RCW 46.20.075, until the person reaches the age of eighteen. The license must include a distinguishing number assigned to the licensee, the name of record, date of birth, Washington residence address, photograph, a brief description of the licensee, and either a facsimile of the signature of the licensee or a space upon which the licensee shall write his or her usual signature with pen and ink immediately upon receipt of the license. No license is valid until it has been so signed by the licensee.

**Sec. 30.** RCW 46.20.181 and 1999 c 308 s 3 are each amended to read as follows:

(1) Except as provided in subsection (4) of this section, every driver's license expires on the ~~((fifth))~~ sixth anniversary of the licensee's birthdate following the issuance of the license.

(2) A person may renew his or her license on or before the expiration date by submitting an application as prescribed by the department and paying a fee of ~~((twenty-five))~~ thirty dollars. This fee includes the fee for the required photograph. The department may waive five dollars of the renewal fee under this subsection if a person

renews his or her driver's license through the mail or through online services.

(3) A person renewing his or her driver's license more than sixty days after the license has expired shall pay a penalty fee of ten dollars in addition to the renewal fee, unless his or her license expired when:

(a) The person was outside the state and he or she renews the license within sixty days after returning to this state; or

(b) The person was incapacitated and he or she renews the license within sixty days after the termination of the incapacity.

(4) ~~((During the period from July 1, 2000, to July 1, 2006))~~ From the effective date of this section to July 1, 2020, the department may issue or renew a driver's license for a period other than ~~((five))~~ six years, or may extend by mail a license that has already been issued, in order to evenly distribute, as nearly as possible, the yearly renewal rate of licensed drivers; however, the department may not issue or renew a driver's license for a period that exceeds six years. The fee for a driver's license issued or renewed for a period other than ~~((five))~~ six years, or that has been extended by mail, is five dollars for each year that the license is issued, renewed, or extended. The department may adopt any rules as are necessary to carry out this subsection.

**Sec. 31.** RCW 46.20.505 and 2007 c 97 s 1 are each amended to read as follows:

Every person applying for a special endorsement of a driver's license authorizing such person to drive a two or three-wheeled motorcycle or a motor-driven cycle shall pay a fee of five dollars, which is not refundable. In addition, the endorsement fee for the initial motorcycle endorsement shall not exceed ~~((ten))~~ twelve dollars, and the subsequent renewal endorsement fee shall not exceed ~~((twenty-five))~~ thirty dollars, unless the endorsement is renewed or extended for a period other than ~~((five))~~ six years, in which case the subsequent renewal endorsement fee shall not exceed five dollars for each year that the endorsement is renewed or extended. Fees collected under this section shall be deposited in the motorcycle safety education account of the highway safety fund.

**Sec. 32.** RCW 46.20.515 and 2003 c 41 s 3 are each amended to read as follows:

(1) The motorcycle endorsement examination must emphasize maneuvers necessary for on-street operation, including emergency braking and turning as may be required to avoid an impending collision.

(2) The examination for a two-wheeled motorcycle endorsement and the examination for a three-wheeled motorcycle endorsement must be separate and distinct examinations emphasizing the skills and maneuvers necessary to operate each type of motorcycle.

(3) The department may authorize an entity that has entered into a contract under RCW 46.20.520 to administer the motorcycle endorsement examination.

(4) The department may waive all or part of the examination for persons who satisfactorily complete the voluntary motorcycle operator training and education program authorized under RCW 46.20.520 or who satisfactorily complete a private motorcycle skills education course that has been certified by the department under RCW 46.81A.020.

**NEW SECTION. Sec. 33.** A new section is added to chapter 46.82 RCW to read as follows:

(1) Driver training schools may administer the portions of the driver licensing examination that test the applicant's knowledge of traffic laws and ability to safely operate a motor vehicle as authorized under RCW 46.20.120(6).

- (g) Requirements for retesting and expiring examination results;

The examination fees must be limited to an amount that does not exceed the amount that is sufficient for driver training schools to recover the costs of administering each examination;
- (i) Requirements for the department to monitor outcomes for applicants who take a driver licensing examination through a driver training school and to make the outcomes available to the public;
- (j) Requirements for annual auditing, which must include the collection of current information regarding insurance, curriculums, instructors' names and licenses, and a selection of random student files to review for accuracy; and
- (k) Sanctions for violations of the rules adopted under this section.
- (3) Before a driver training school may provide a portion of the driver licensing examination, it must enter into an agreement with the department that, at a minimum, contains provisions that:
- (a) Allow the department to conduct random examinations, inspections, and audits without prior notice;
- (b) Allow the department to conduct on-site inspections at least annually;

Strike everything after the enacting clause and insert the following:

**NEW SECTION. Sec. 35.** It is the intent of the legislature to improve mobility for people and goods by maximizing the effectiveness of the freeway system. The ability of the state to provide an efficient transportation system will be enhanced by a public-private partnership in which private entities undertake the study, planning, design, development, acquisition, installation, construction, or improvement of existing transportation systems. A public-private partnership using toll lanes is one approach for generating funds to improve the Interstate 405 and state route number 167 corridor. The legislature acknowledges that as one of the most congested freeway sections in the state, the Interstate 405 and state route number 167 corridor serves as an ideal candidate for the use of a public-private partnership.

Therefore, it is the intent of the legislature to direct the department of transportation to explore improving the movement of vehicles and people through the use of a public-private partnership on Interstate 405 between the city of Bellevue on the north end and state route number 167 on the south end and to determine the feasibility of financing capacity improvements through tolls.

**NEW SECTION. Sec. 36.** A new section is added to chapter 47.56 RCW under the subchapter heading "toll facilities created after July 1, 2008" to read as follows:

(1) The department shall conduct a traffic and revenue analysis that would be informative to potential partners in a public-private partnership with the goal of completing planned throughput and

capacity improvements on state route number 167 and Interstate 405. Information included in the analysis must help evaluate the viability of a public-private partnership model for completing improvements to state route number 167 and Interstate 405 that will most effectively improve congestion and provide reliable travel times. The department shall also develop a corridor-wide project management plan to develop a strategy for phasing the completion of improvements in the Interstate 405 and state route number 167 corridor.

(2) The department shall use the information from the traffic and revenue analysis and the corridor-wide project management plan to develop a finance plan to fund improvements in the Interstate 405 and state route number 167 corridor. The department must include the following elements in the finance plan:

(a) Current state and federal funding contributions for projects in the Interstate 405 and state route number 167 corridor;

(b) A potential future state and federal funding contribution to leverage toll revenues;

(c) Financing mechanisms to optimize the revenue available for capacity improvements including, but not limited to, using the full faith and credit of the state; and

(d) Private financing to further state and federal funding contributions.

(3) The department must consult with a committee consisting of local and state elected officials from the Interstate 405 and state route number 167 corridor and representatives from the transit agencies that operate in the Interstate 405 and state route number 167 corridor while developing the traffic and revenue analysis and finance plan.

(4) The department must provide the traffic and revenue analysis plan and finance plan to the governor and the legislature by January 2012.

**NEW SECTION. Sec. 37.** A new section is added to chapter 46.68 RCW to read as follows:

(1) The Interstate 405 toll lanes account is created in the motor vehicle fund in the state treasury. Money in the account may be spent only after appropriation. Expenditures from the account must be used only for the improvements specified in a public-private partnership agreement for projects on the Interstate 405 corridor.

(2) Deposits to the account must include:

(a) All proceeds of bonds issued for construction of Interstate 405 improvements, including any capitalized interest;

(b) All of the tolls and other revenues received from the operation of Interstate 405 as a toll facility when authorized by the legislature, to be deposited at least monthly;

(c) Any interest that may be earned from the deposit or investment of those revenues;

(d) Notwithstanding RCW 47.12.063, proceeds from the sale of any surplus real property acquired for the Interstate 405 corridor improvement program; and

(e) All damages, liquidated or otherwise, collected under any contract involving the Interstate 405 corridor improvement program.

**Sec. 38.** RCW 43.84.092 and 2010 1st sp.s. c 30 s 20, 2010 1st sp.s. c 9 s 7, 2010 c 248 s 6, 2010 c 222 s 5, 2010 c 162 s 6, and 2010 c 145 s 11 are each reenacted and amended to read as follows:

(1) All earnings of investments of surplus balances in the state treasury shall be deposited to the treasury income account, which account is hereby established in the state treasury.

(2) The treasury income account shall be utilized to pay or receive funds associated with federal programs as required by the federal cash management improvement act of 1990. The treasury income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for refunds or allocations of interest earnings required by the cash management improvement act. Refunds of interest to the federal treasury required under the cash management improvement act fall under RCW 43.88.180 and shall not require appropriation. The office of financial management shall

determine the amounts due to or from the federal government pursuant to the cash management improvement act. The office of financial management may direct transfers of funds between accounts as deemed necessary to implement the provisions of the cash management improvement act, and this subsection. Refunds or allocations shall occur prior to the distributions of earnings set forth in subsection (4) of this section.

(3) Except for the provisions of RCW 43.84.160, the treasury income account may be utilized for the payment of purchased banking services on behalf of treasury funds including, but not limited to, depository, safekeeping, and disbursement functions for the state treasury and affected state agencies. The treasury income account is subject in all respects to chapter 43.88 RCW, but no appropriation is required for payments to financial institutions. Payments shall occur prior to distribution of earnings set forth in subsection (4) of this section.

(4) Monthly, the state treasurer shall distribute the earnings credited to the treasury income account. The state treasurer shall credit the general fund with all the earnings credited to the treasury income account except:

Strike everything after the enacting clause and insert the following:

"**Sec. 39.** RCW 49.17.140 and 1994 c 61 s 1 are each amended to read as follows:

(1) If after an inspection or investigation the director or the director's authorized representative issues a citation under the authority of RCW 49.17.120 or 49.17.130, the department, within a reasonable time after the termination of such inspection or investigation, shall notify the employer by certified mail of the penalty to be assessed under the authority of RCW 49.17.180 and shall state that the employer has fifteen working days within which to notify the director that the employer wishes to appeal the citation or assessment of penalty. If, within fifteen working days from the communication of the notice issued by the director the employer fails to notify the director that the employer intends to appeal the citation or assessment penalty, and no notice is filed by any employee or representative of employees under subsection (3) of this section within such time, the citation and the assessment shall be deemed a final order of the department and not subject to review by any court or agency.

(2) If the director has reason to believe that an employer has failed to correct a violation for which ((a citation has been issued within the period permitted in the citation for its correction, which period shall not begin to run until the entry of a final order in the case of any appeal proceedings under this section initiated by the employer in good faith and not solely for delay or avoidance of penalties)) the employer was previously cited and which has become a final order, the director shall notify the employer by certified mail of such failure to correct the violation and of the penalty to be assessed under RCW 49.17.180 by reason of such failure, and shall state that the employer has fifteen working days from the communication of such notification and assessment of penalty to notify the director that the employer wishes to appeal the director's notification of the assessment of penalty. If, within fifteen working days from the receipt of notification issued by the director the employer fails to notify the director that the employer intends to appeal the notification of assessment of penalty, the notification and assessment of penalty shall be deemed a final order of the department and not subject to review by any court or agency.

(3) If any employer notifies the director that the employer intends to appeal the citation issued under either RCW 49.17.120 or 49.17.130 or notification of the assessment of a penalty issued under subsections (1) or (2) of this section, or if, within fifteen working days from the issuance of a citation under either RCW 49.17.120 or 49.17.130 any employee or representative of employees files a notice with the director alleging that the period of time fixed in the citation for the abatement of the violation is unreasonable, the director may reassume jurisdiction over the entire matter, or any portion thereof upon which notice of intention to appeal has been filed with the director pursuant to this subsection. If the director reassumes jurisdiction of all or any portion of the matter upon which notice of appeal has been filed with the director, any redetermination shall be completed and corrective notices of assessment of penalty, citations, or revised periods of abatement completed within a period of thirty working days. The thirty-working-day redetermination period may be extended up to fifteen additional working days upon agreement of all parties to the appeal. The redetermination shall then become final subject to direct appeal to the board of industrial insurance appeals within fifteen working days of such redetermination with service of notice of appeal upon the director. In the event that the director does not reassume jurisdiction as provided in this subsection, the director shall promptly notify the state board of industrial insurance appeals of all notifications of intention to appeal any such citations, any such notices of assessment of penalty and any employee or representative of employees notice of intention to appeal the period of time fixed for abatement of a violation and in addition certify a full copy of the

record in such appeal matters to the board. The director shall adopt rules of procedure for the reassumption of jurisdiction under this subsection affording employers, employees, and employee representatives notice of the reassumption of jurisdiction by the director, and an opportunity to object or support the reassumption of jurisdiction, either in writing or orally at an informal conference to be held prior to the expiration of the redetermination period. Except as otherwise provided under subsection (4) of this section, a notice of appeal filed under this section shall stay the effectiveness of any citation or notice of the assessment of a penalty pending review by the board of industrial insurance appeals, but such appeal shall not stay the effectiveness of any order of immediate restraint issued by the director under the authority of RCW 49.17.130. The board of industrial insurance appeals shall afford an opportunity for a hearing in the case of each such appellant and the department shall be represented in such hearing by the attorney general and the board shall in addition provide affected employees or authorized representatives of affected employees an opportunity to participate as parties to hearings under this subsection. The board shall thereafter make disposition of the issues in accordance with procedures relative to contested cases appealed to the state board of industrial insurance appeals.

Upon application by an employer showing that a good faith effort to comply with the abatement requirements of a citation has been made and that the abatement has not been completed because of factors beyond the employer's control, the director after affording an opportunity for a hearing shall issue an order affirming or modifying the abatement requirements in such citation.

(4) An appeal of any violation classified and cited as serious, willful, repeated serious violation, or failure to abate a serious violation does not stay abatement dates and requirements except as follows:

(a) An employer may request a stay of abatement for any serious, willful, repeated serious violation, or failure to abate a serious violation in a notice of appeal under subsection (3) of this section;

(b) When the director reassumes jurisdiction of an appeal under subsection (3) of this section, it will include the stay of abatement request. The issued redetermination decision will include a decision on the stay of abatement request. The department shall stay the abatement for any serious, willful, repeated serious violation, or failure to abate a serious violation where the department cannot determine that the preliminary evidence shows a substantial probability of death or serious physical harm to workers. The decision on stay of abatement will be final unless the employer renews the request for a stay of abatement in any direct appeal of the redetermination to the board of industrial insurance appeals under subsection (3) of this section;

(c) The board of industrial insurance appeals shall adopt rules necessary for conducting an expedited review on any stay of abatement requests identified in the employer's notice of appeal, and shall issue a final decision within forty-five working days of the board's notice of filing of appeal. This rule making shall be initiated in 2011;

(d) Affected employees or their representatives must be afforded an opportunity to participate as parties in an expedited review for stay of abatement;

(e) The board shall grant a stay of an abatement for a serious, willful, repeated serious violation, or failure to abate a serious violation where there is good cause for a stay unless based on the preliminary evidence it is more likely than not that a stay would result in death or serious physical harm to a worker;

(f) As long as a motion to stay abatement is pending all abatement requirements will be stayed.

(5) When the board of industrial insurance appeals denies a stay of abatement and abatement is required while the appeal is adjudicated, the abatement process must be the same process as the process required for abatement upon a final order.

(6) The department shall develop rules necessary to implement subsections (4) and (5) of this section. In an application for a stay of abatement, the department will not grant a stay when it can determine that the preliminary evidence shows a substantial probability of death or serious physical harm to workers. The board will not grant a stay where based on the preliminary evidence it is more likely than not that a stay would result in death or serious physical harm to a worker. This rule making shall be initiated in 2011."

Representative Springer moved the adoption of amendment (383).

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 40.** A new section is added to chapter 51.18 RCW to read as follows:

(1) In addition to those general powers and rights deemed appropriate by the department, retrospective rating plan employers and groups who administer their plans with an approved claims administrator shall have the authority to assist the department in the processing of claims when approved by the department. However, the department retains the final authority over decisions with respect to any individual claim. Under this authority, retrospective rating plan employers and groups may do any or all of the following:

(a) Schedule medical examinations and consultations, using only qualified persons from the department's approved examiner list. No more than two independent medical examinations for each claim may be scheduled by the claims administrator within any twenty-four month period. An independent medical examination may be scheduled when the claim file includes medical reports indicating that an examination may be necessary for any of the following reasons: Establishing a diagnosis, outlining a program of treatment, evaluating

what, if any, conditions are related to the claimed industrial injury or occupational disease, determining whether an industrial injury or occupational disease has aggravated a preexisting condition, establishing an impairment rating when the claim file medical reports indicate that the worker's claim-related condition is at maximum medical improvement, evaluating whether the industrial injury or occupational disease has worsened, or evaluating the worker's mental or physical restrictions as well as the worker's ability to work. The results of any independent medical examination scheduled under this subsection must be sent by the examiner or independent medical examination panel directly to the department for the claimant's claim file. The department shall enforce penalties under RCW 51.32.110 for refusals to submit to medical examinations scheduled by retrospective rating plan employers or groups or obstruction of the same.

(b) Schedule vocational assessments using only qualified providers from a qualified provider list developed by the department. Providers may be selected based on department quality or performance indicators and based on industry experience. Any vocational assessment resulting from a referral under this section must be sent by the vocational rehabilitation counselor directly to the department for the claimant's claim file.

(c) Close claims as provided by this subsection. Closure of claims shall be conducted under the standards and procedures as provided in this title, except as provided in this section. If a claim with date of injury or manifestation of occupational disease on or after January 1, 2012: (i) Involves only medical treatment and/or the payment of temporary disability compensation under RCW 51.32.090 for a period of thirty days or less; (ii) at the time medical treatment is concluded, does not involve permanent disability; (iii) is one with respect to which the department has not intervened under subsection (2) of this section; and (iv) concerns an injured worker who has returned to work with the retrospective rating plan employer or employer within the group at the worker's previous job or at a job that has at least ninety-five percent of at-injury wages as calculated under RCW 51.08.178, the claim may be closed by the retrospective rating plan employer or group, subject to reporting of claims to the department in a manner prescribed by department rules adopted under chapter 34.05 RCW. No later than at the time of closure for such claims, the retrospective rating plan employer or group shall issue and send to the department and the worker a written order and forward to the worker a notification developed by the department describing in nontechnical language the worker's rights under this title.

(2) If a dispute arises from the handling of any claim under this section, the injured worker, or retrospective rating plan employer or group, may request the department to intervene. When exercising any authority under subsection (1) of this section, a retrospective rating plan employer or group must inform a worker in writing that the worker may request the department to intervene at any time.

(3) The department shall require the retrospective rating plan employer or group to notify the department prior to exercising any authority authorized by this section. Rules adopted under this section must minimize the department's need to respond and ensure that any delay in response by the department does not impede the timely administration of the claim. Charges incurred by the retrospective rating plan employer or group for independent medical examinations or vocational rehabilitation assessments shall be charged against the claim.

(4) For the purposes of this section, "approved claims administrator" means a person who meets department qualifications to manage industrial insurance claims for retrospective rating plan employers and groups. Any claims managers employed by the approved claims administrator to manage retrospective rating plan claims must pass a certification

test approved by the department as established in rule. The department may audit or review the claims management process of a retrospective rating plan employer or group that has received authority to assist the department with the processing of claims. The director shall take corrective action, subject to appeal to the board of industrial insurance appeals, against a retrospective rating plan employer or group, if the director determines that a claims manager under its direction is not following proper industrial insurance claims procedures. Corrective actions taken by the director may include:

- (a) Probationary period of time for the claims manager;
- (b) Additional mandatory training for claims management personnel; and
- (c) Monitoring of the activities of the employer or group to determine progress towards compliance.

The director shall adopt rules defining the corrective actions which may be taken in response to a given condition. If the director determines that compliance has been attained, no further action shall be taken. If compliance has not been attained, the director may take additional corrective action including the removal of the additional authority to assist the department in the processing of claims under this section. The withdrawal of approval revokes the ability of the approved claims administrator to exercise authority under this section, but does not otherwise affect the administrator's status or the retrospective rating plan employer or group's status in the retrospective rating program.

(5) The department may adopt rules to implement this section.

**NEW SECTION. Sec. 41.** A new section is added to chapter 51.18 RCW to read as follows:

Payment by an employer for direct primary care services as defined in RCW 48.150.010 does not disqualify: (1) An employer from participating in the retrospective rating plan; (2) a group sponsor from promoting a retrospective rating plan; or (3) a plan administrator from administering a retrospective rating plan. The department may adopt rules requiring a direct practice to provide such information as the department requires to establish refunds or assessments for employers or groups under this chapter. Any billing rule requiring a provider to bill for services does not apply to a direct practice. For purposes of this section, "direct practice" shall have the meaning in RCW 48.150.010.

**NEW SECTION. Sec. 3.** A new section is added to chapter 51.18 to read as follows:

(1) When a retrospective rating plan employer or group or its representative communicates with a medical provider, the employer must provide to the worker and send to the claim file a copy of any written communication received and a memorandum describing any oral communication. The copy of the written communication and memorandum describing an oral communication must be provided within seventy-two hours of receiving the information.

(2) The information required to be provided under subsection (1) of this section must be provided regardless of the source of the information and any claim of privilege or work product.

(3) The employer must send the information required to be provided under subsection (1) of this section to the claim file electronically. If the worker chooses, the information must be sent to the worker electronically.

**NEW SECTION. Sec. 4.** A new section is added to chapter 51.18 RCW to read as follows:

A retrospective rating plan employer or group must maintain complete records of all claims administered under this chapter. The records may be maintained by service companies or at an out of state location under conditions and procedures established by the director. The retrospective rating plan employer or group must make the records available for inspection upon request by the department, worker or beneficiary, or their representative within

five business days of the request at a location within the state requested by the department, worker or beneficiary, or representative. The expense of producing the records must be borne by the retrospective rating plan employer or group.

**NEW SECTION. Sec. 5.** The joint legislative audit and review committee shall conduct a study of the impact of section 1 of this act on the state's workers' compensation system, including the impact on the retrospective rating plan performance and refunds, the department's processes, and worker outcomes and satisfaction. The joint legislative audit and review committee shall submit the study to the appropriate committees of the legislature by July 1, 2015.

**NEW SECTION. Sec. 6.** Sections 1 and 4 of this act expire July 1, 2016."

SUBSTITUTE HOUSE BILL NO. 1716 was read the second time.

Representative Asay moved the adoption of amendment (224).

Strike everything after the enacting clause and insert the following:

**NEW SECTION. Sec. 42.** The legislature finds:

(1) The market price of gold has increased significantly in recent years and there has been a proliferation of secondhand dealers, including temporary, transient secondhand businesses, engaging in "cash for gold" type precious metal transactions. Frequently, these "cash for gold" type operations are operated by persons desiring to exploit unsuspecting consumers based on current market conditions;

(2) The increasing number of "cash for gold" type transactions in communities and neighborhoods throughout Washington has been linked to increased crimes involving the theft of gold and other precious metal objects, including home burglaries, robberies, and other crimes, resulting in depressed home values and other threats to the health, safety, and welfare of Washington state residents; and

(3) With the growing number of precious metal transactions, there is a corresponding significant increase in the number of "cash for gold" type storefront businesses, including temporary, transient secondhand businesses, in Washington state which may not be consistent with the quality of life and personal security sought by communities and neighborhoods and the state as a whole.

Therefore, to better protect legitimate owners, consumers, and secondhand dealers, the legislature intends to establish and implement stricter standards relating to transactions involving property consisting of gold and other precious metals.

If a blood test is administered, the blood must be tested for both alcohol concentration and the presence of other drugs.

(5) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested refuses upon the request of a law enforcement officer to submit to a test or tests of his or her breath or blood, no test shall be given except as authorized under subsection (3) or (4) of this section.

(6) If, after arrest and after the other applicable conditions and requirements of this section have been satisfied, a test or tests of the person's blood or breath is administered and the test results indicate that the alcohol concentration of the person's breath or blood is 0.08 or more if the person is age twenty-one or over, or 0.02 or more if the person is under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose direction any test has been given, or the department, where applicable, if the arrest results in a test of the person's blood, shall:

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, or deny the person's license, permit, or privilege to drive as required by subsection (7) of this section;

(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (8) of this section and that the person waives the right to a hearing if he or she receives an ignition interlock driver's license;

(c) Mark the person's Washington state driver's license or permit to drive, if any, in a manner authorized by the department;

(d) Serve notice in writing that the marked license or permit, if any, is a temporary license that is valid for sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person's license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit that it replaces; and

(e) Immediately notify the department of the arrest and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by RCW 9A.72.085 that states:

(i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle while having an alcohol concentration in violation of RCW 46.61.503;

(ii) That after receipt of the warnings required by subsection (2) of this section the person refused to submit to a test of his or her blood or breath, or a test was administered and the results indicated that the alcohol concentration of the person's breath or blood was 0.08 or more if the person is age twenty-one or over, or was 0.02 or more if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(7) The department of licensing, upon the receipt of a sworn report or report under a declaration authorized by RCW 9A.72.085 under subsection (6)(e) of this section, shall suspend, revoke, or deny the person's license, permit, or privilege to drive or any nonresident operating privilege, as provided in RCW 46.20.3101, such suspension, revocation, or denial to be effective beginning sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first.

(8) A person receiving notification under subsection (6)(b) of this section may, within twenty days after the notice has been given, request in writing a formal hearing before the department. The person shall pay a fee of two hundred dollars as part of the request. If the request is mailed, it must be postmarked within twenty days after

receipt of the notification. Upon timely receipt of such a request for a formal hearing, including receipt of the required two hundred dollar fee, the department shall afford the person an opportunity for a hearing. The department may waive the required two hundred dollar fee if the person is an indigent as defined in RCW 10.101.010.

Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license marked under subsection (6)(c) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more if the person was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered without express consent as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was 0.08 or more if the person was age twenty-one or over at the time of the arrest, or 0.02 or more if the person was under the age of twenty-one at the time of the arrest. The sworn report or report under a declaration authorized by RCW 9A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, or denial either be rescinded or sustained.

(9) If the suspension, revocation, or denial is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, or denied has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner as an appeal from a decision of a

court of limited jurisdiction. Notice of appeal must be filed within thirty days after the date the final order is served or the right to appeal is waived. Notwithstanding RCW 46.20.334, RALJ 1.1, or other statutes or rules referencing de novo review, the appeal shall be limited to a review of the record of the administrative hearing. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, or denial. A petition filed under this subsection must include the petitioner's grounds for requesting review. Upon granting petitioner's request for review, the court shall review the department's final order of suspension, revocation, or denial as expeditiously as possible. The review must be limited to a determination of whether the department has committed any errors of law. The superior court shall accept those factual determinations supported by substantial evidence in the record: (a) That were expressly made by the department; or (b) that may reasonably be inferred from the final order of the department. The superior court may reverse, affirm, or modify the decision of the department or remand the case back to the department for further proceedings. The decision of the superior court must be in writing and filed in the clerk's office with the other papers in the case. The court shall state the reasons for the decision. If judicial relief is sought for a stay or other temporary remedy from the department's action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, or denial it may impose conditions on such stay.

(10)(a) If a person whose driver's license, permit, or privilege to drive has been or will be suspended, revoked, or denied under subsection (7) of this section, other than as a result of a breath or blood test refusal, and who has not committed an offense for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (7) of this section, or notifies the department of licensing of the intent to seek such a deferred prosecution, then the license suspension or revocation shall be stayed pending entry of the deferred prosecution. The stay shall not be longer than one hundred fifty days after the date charges are filed, or two years after the date of the arrest, whichever time period is shorter. If the court stays the suspension, revocation, or denial, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license marked under subsection (6) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary marked license or extension of a temporary license issued under this subsection.

(b) A suspension, revocation, or denial imposed under this section, other than as a result of a breath or blood test refusal, shall be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

(c) The provisions of (b) of this subsection relating to a stay of a suspension, revocation, or denial and the cancellation of any suspension, revocation, or denial do not apply to the suspension, revocation, denial, or disqualification of a person's commercial driver's license or privilege to operate a commercial motor vehicle.

(11) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license."

**"NEW SECTION. Sec. 12.** (1) The legislature finds that locating acceptable housing and appropriate care for vulnerable adults is an important aspect of providing an appropriate continuity of care for senior citizens.

(2) The legislature further finds that locating appropriate and quality housing alternatives sometimes depends on elder and vulnerable adult referral agencies attempting to assist with referral.

(3) The legislature further finds that vulnerable adult referral professionals should be required to meet certain minimum requirements to promote better integration of vulnerable adult housing choices.

(4) The legislature further finds that the requirement that elder and vulnerable adult referral agencies meet minimum standards of conduct is in the interest of public health, safety, and welfare.

**NEW SECTION. Sec. 13.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Care services" means any combination of services, including in-home care, private duty care, or private duty nursing designed for or with the goal of allowing vulnerable adults to receive care and related services at home or in a home-like setting. Care service providers must include home health agencies and in-home service agencies licensed under chapter 70.127 RCW.

(2) "Client" means an elder person or a vulnerable adult, and his or her representative if any, seeking a referral or assistance with entering into an arrangement for supportive housing or care services through an elder and vulnerable adult referral agency. For purposes of this chapter, the "client's representative" means the person authorized under RCW 7.70.065 or other laws to provide informed consent for an individual unable to do so.

(3) "Elder and vulnerable adult referral agency" or "agency" means a business or person who receives a fee from or on behalf of a vulnerable adult seeking a referral to care services or supportive housing, or who receives a fee from a care services provider or supportive housing provider because of any referral provided to or on behalf of a vulnerable adult. "Elder and vulnerable adult referral agency" or "agency" includes government agencies that provide referrals to care services or supportive housing and geriatric case and care managers that receive a fee from a client to whom they have provided a referral.

vulnerable adults without giving the person the names of specific providers of care services or supportive housing, or giving a provider the name of the person or vulnerable adult. Information also means the provision by an agency of the names of specific providers to a social worker, discharge planner, case manager, professional guardian, nurse, or other professional who is assisting a vulnerable adult locate supportive housing or care services, where the agency does not request or receive any fee.

(7) "Provider" means any entity or person that both provides supportive housing or care services to a vulnerable adult for a fee and provides or is required to provide such housing or services under a state or local business license specific to such housing or services.

(8) "Referral" means the act of an agency giving a client the name or names of specific providers of care services or supportive housing that may meet the needs of the vulnerable adult identified in the intake form described in section 7 of this act, or the agency gives a provider the name of a client for the purposes of enabling the provider to contact the client regarding care services or supportive housing provided by that provider.

(9) "Supportive housing" means any type of housing that includes services for care needs and is designed for prospective residents who are vulnerable adults. Supportive housing includes, but is not limited to, nursing homes licensed under chapter 18.51 RCW, boarding homes licensed under chapter 18.20 RCW, adult family homes licensed under chapter 70.128 RCW, and continuing care retirement communities under RCW 70.38.025.

**NEW SECTION. Sec. 14.** (1) As of January 1, 2012, a business or person may not operate or maintain an agency in this state without complying with the provisions of this chapter. An agency must maintain liability insurance to cover the acts and services of the agency. The combined single limit liability insurance coverage required is one million dollars.

(2) The agency may not create an exclusive agreement between the agency and the client, or between the agency and a provider. The agency cannot provide referral services to a client where the only names given to the client are of providers in which the agency or its personnel or immediate family members have an ownership interest in those providers. An agreement entered into between an agency and a provider must allow either the provider or the agency to cancel the agreement with specific payment terms regarding pending fees or commissions outlined in the agreement.

(3) The marketing materials, informational brochures, and web sites owned or operated by an agency, and concerning information or referral services for elderly or vulnerable adults, must include a clear identification of the agency.

(2) Government entities providing information and assistance to vulnerable adults unless making a referral in which a fee is received from a client;

**NEW SECTION. Sec. 16.** (1) Each agency shall keep records of all referrals rendered to or on behalf of clients. These records must contain:

(2) Each agency shall also keep records of any contract or written agreement entered into with any provider for services rendered to or on behalf of a vulnerable adult, including any referrals to a provider. Any provision in a contract or written agreement not consistent with this chapter is void and unenforceable.

(3) The agency must maintain the records covered by this chapter for a period of six years. The agency's records identifying a client are considered "health care information" and the provisions of chapter 70.02 RCW apply. The client must have access upon request to the agency's records concerning the client and covered by this chapter.

**NEW SECTION. Sec. 17.** (1) An agency must provide a disclosure statement to each client prior to making a referral. A disclosure statement is not required when the agency is only providing information to a person. The disclosure statement must be acknowledged by the client prior to the referral and the agency shall retain a copy of the disclosure statement and acknowledgment. Acknowledgment may be in the form of:

(a) A signature of the client or legal representative on the exact disclosure statement;

(b) An electronic signature that includes the date, time, internet provider address, and displaying the exact disclosure statement document;
