The bill was read the first time, and on motion of Senator Jackson, the rules were suspended, the bill was read the second time by title, ordered printed and referred to the Committee on Elections and Privileges.

MOTION

On motion of Senator Drumheller, the Senate referred back to the fifth order of business for the purpose of hearing a committee report.

The Secretary read:

MR. PRESIDENT:

At the last session of the Senate, a special committee of five Senators, composed of the undersigned, was appointed to analyze and study the Rules of the Senate, particularly with regard to the standing committees, and directed to make a report of its conclusions to the 1941 Session of the State Senate.

This committee made a careful analysis of each of the standing committees of the Senate during the last session, to ascertain the amount of work required from each, with a view to reducing, if possible, the number of committees. A preliminary report of the work of this committee was sent out on November 25 to all of the members of the 1939 Senate which had directed the committee to undertake this work. The report included proposals for reduction of the committees in number and in size. Comments have been received from most of the Senators, with the result that your committee now feels reassured in its conclusions and, therefore, recommends that Rule 6 of the 1939 Senate Rules be amended by striking the list of standing committees of the Senate,

as contained therein, and substituting in lieu thereof, the list of committees given below, each committee to have the number of members indicated.

This change would reduce the number of standing committees from fifty-three, as it stood in 1939, to forty, and would result in the reduction of the committee assignments to be carried by each member to approximately seven committees instead of nine.

We also recommend that six of the larger standing committees have designated not only a chairman but a vice-chairman for each, those committees being as follows: Appropriations, Agriculture, Judiciary, Revenue and Taxation, Roads and Bridges, and Social Security.

We regret to have to report that after considerable of the work of this committee was done, Senator Ralph Metcalf, a member of the committee, died, and Senator H. I. Kyle, of the committee, filed his resignation from the Senate. The remaining members of the committee report for the whole committee.

Your committee, therefore, recommends that Rule 6 of the Senate Rules of the 1939 Session be amended by dropping therefrom the list of standing committees, and substituting in lieu thereof, the following as the standing committees of the Senate, with the number of members for each committee:

Senator Duggan moved that the report of the Interim Committee be received and entered in the Journal.

The motion was carried.

Senator Duggan moved that the Senate rules and joint rules as printed in the 1939 manual be adopted as the rules of the present session, except that the list of standing committees in Senate Rule No. 6 be stricken and the list of standing committees as recommended in the report of the Interim Committee be substituted in lieu thereof.

The motion was carried.

At this time, Members of the Senate and House, Ladies and Gentlemen of the radio audience, it is my pleasure to present to you His Excellency, the Governor of the State of Washington." (Applause.)

MESSAGE OF GOVERNOR CLARENCE D. MARTIN TO THE LEGISLATURE

Mr. President, Mr. Speaker, Members of the Legislature, and all of you, my Fellow Citizens, who have pride and faith in our great State of Washington:

Public responsibility and personal privilege are merged in my heart today as I present this, my seventh message to the legislature, to you, senators and representatives, and through you to the people of my beloved State of Washington.

In presenting this message I am mindful of the circumstances and proprieties of the day.

BRINGS COURAGE AND DEVOTION TO TASK

Tomorrow our state will have a new governor, and I do not wish to trespass upon his responsibilities, nor presume to give him advice. This young man, Arthur B. Langlie, undoubtedly will propose a program to reflect the wishes and spirit of the substantial majority of our people, and will support it with courage and devotion.

He takes up a big job, a wearing and trying task, and I wish him well. I am sure you join me in pledging full cooperation in all of those things which will be for the common welfare and the continued progress of our great commonwealth.

HELPFUL TO REVIEW THE RECORD

On the other hand I am mindful of my obligation to the state—the definite obligation of giving to the legislature and the people the full benefit of my eight years of experience as chief executive. Also it will be helpful to all of us if we review the record, and refer to it frequently, because the past never is useless and not entirely powerless. Looking back and refreshing our minds tends to temper our ambitions; and our experiences, if remembered, tend to restrain us from making uncertain departures from our ways of life and government.

Let us look back to the first days of 1933. I remember that solemn day in January when I took the oath of office, and many of you members of this legislature were here and remember, too. You recall that we turned to look out upon a state that was sorely distressed, almost flat on its back. Dire conditions prevailed at every turn.

Industries were down. Others were struggling to keep going on reduced basis. Business hit bottom and merchants were greatly depressed. Banks were closing. Savings were frozen, if not lost forever. Other financial institutions were shaky.

SERIOUS CONDITIONS CONFRONTED EVERYONE

Thousands and thousands of men were without work. Thousands upon thousands of men, women and children were in distress—many short of food, many going hungry. Counties, cities and other local communities were unable to provide for their own. They all turned toward Olympia. There were pathetic appeals. There were so-called hunger marches. There were defiant threats.

But the state itself also was in financial difficulty. Revenue was falling rapidly instead of rising to meet the situation. Property tax payments were down, and thousands upon thousands of property owners were unable to meet their assessments. There was little revenue in sight for the legislature to appropriate.

This was an emergency, a real emergency, shaking and straining the minds and hearts of the strongest of men. It is one thing to worry over money for a building or a highway, but it is something else again to worry over money and food for the immediate relief of hungry men, women and children!

EMERGENCY MEASURES ARE WORKING OUT

Fortunately, our humanitarian President, Franklin D. Roosevelt, extended the helping hand—the federal government providing millions of dollars to relieve hunger and distress. In turn, we, this administration and a majority of the legislature, cooperated with the federal government by doing our part. We enacted the ten million dollar emergency relief bill—which is being retired on schedule by a diversion from the gasoline tax—and we enacted emergency taxes on business and utilities. These steps, together with other measures which did not relate so directly to human needs, enabled us to overcome the critical situation and to put our state back on the upward track.

My friends, I remind you of those difficult days and their troublesome problems so you may accurately measure and appreciate the steady and far progress we have made during the intervening years; and that you may more accurately estimate the needs of these times. And also that you may, when inclined to be discouraged by the requests and demands upon this legislature, look back to the sessions of 1933 and 1935, take heart and be really encouraged and cheered by the outlook of today.

SUBSTANTIAL PROGRESS MARKS EACH YEAR

For we have made progress, substantial progress, year by year since 1933. Notwithstanding the difficult years and the uphill fight, Washington did not go backward in any respect. On the contrary, Washington made definite gains in many directions, all converging for the common good—all contributing to the economic, social and moral betterment of our great state.

Our most remarkable progress was in the new field of social security. Before 1933 our state did nothing in the way of social security. Before we took a hand in the 1933 legislature, the state did not appropriate one dollar for the relief of the unemployed, for old-age pensions, for child welfare, or for anything of that sort. Today it is proposed that this legislature shall appropriate approximately \$59,000,000, including federal contributions, for these things which make up our balanced social security program.

FROM NOTHING TO \$59,000,000 IN 8 YEARS

Think of that: In eight years from nothing to \$59,000,000! Why, that is exactly the cost of all state government in 1925!

Now of course there have been misunderstandings, disagreements, mistakes, criticisms and harsh untruths during the building of this program—but after all is said and done, and the balance is struck, Washington still stands near the top among all states in the way of social welfare. You have only to preserve this humane program, and strengthen it here and there as experience and available funds will determine.

OUR INSTITUTIONAL SYSTEM RANKS WITH THE BEST

We made definite progress by improving our system of state institutions, especially in our custodial schools and mental hospitals. This has been an uphill struggle because the stress of the depression years caused abnormal increase in population, which now totals 11,500, an increase of more than 2,000 in eight years. Nevertheless we kept pace and even moved ahead by adding new facilities and new buildings, reducing fire hazards, improving treatments, extending services, and raising general standards until today our institutional system ranks with the best in the United States. This is attested, I am proud to tell you, by the fact that now our three mental hospitals are among the very few state hospitals recognized and accredited by the American Medical Association. I am confident this legislature will have no worries over state institutions and the welfare of the patients.

We have gone forward in a broad way in the educational field, and today Washington need not take a secondary place among the states of the union in public provision for common education and higher learning.

SCHOOL PROGRAMS RECEIVE SUPPORT

Eight years ago our common schools faced a general breakdown. Emergency steps and enactment of the sales tax stopped the downward trend. Two years ago money was provided from the general fund, even though the general fund already was strained to its limits, to enable the school districts to further liquidate their debts and to carry on their programs nearer the levels contemplated by our present school law—a standard that is not excelled in any state. Money also was provided for equalization which means that the poorer districts have been raised a notch or two nearer to the top standard of the state. We also provided state funds to complete hundreds of buildings and other facilities in nearly all of the 39 counties.

Likewise our university, state college and three normal colleges have been enabled to keep pace with growing demands. The trend of higher education in our state schools is clearly shown by this fact: Eight years ago the total enrolment of the five schools was 10,684. Today it is 17,239. Today the university alone has as many students as all five schools had in 1933. This remarkable expansion called for closer management, new buildings and new facilities, and all were provided without proportionate increase in costs and without impairing educational standards.

BROADER HIGHWAY PROGRAM

You know, of course, there has been no backward turn in our highway program. On the contrary, the state highway system has been broadened to include all secondary roads and has been advanced in all directions, steadily improving travel

and safety facilities in all counties. Our highway system has gained ranking in the United States.

Two years ago I was proud to tell the legislature of plans for the early construction of two of the world's most distinctive and noteworthy bridges. Last summer we held joyful celebrations, dedicating to the service of the people the Lake Washington floating bridge in Seattle and the Narrows bridge at Tacoma.

Today the Lake Washington floating bridge is serving well, facilitating transportation and travel between the Puget Sound country and the great agricultural areas of Eastern Washington. It stands as a marked gain in the economic and social life of Washington, and continues to arouse the interest of tourists and engineers of the world. We have every reason to be proud of that distinct and magnificent structure.

NEEDS FOR NARROWS BRIDGE IS PROVED

But unfortunately the Narrows bridge failed and lies wrecked at the bottom of Puget Sound. This bridge withstood terrific twisting and bending before it fell, and its collapse shocked our state and nation. Plans for both of these great bridges were made by the best engineers available, approved by federal authorities and recognized consulting engineers, and even today nobody is capable to explain the tragic collapse of the Narrows bridge, which was designed to resist the most angry winds that might rage through the Narrows gorge. They agree only that the Narrows bridge was great—even in death.

It is likely, however, that a satisfactory explanation will be available to the legislature within a few weeks. Two boards of outstanding engineers—one named by the state and the other by the federal government—have made investigations, now are compiling their findings, and their reports should be available to you before long. Regardless of where they place the blame, if there be any, the fact will remain that there is a definite need for a bridge at the Narrows. This was demonstrated by the few months of operation, during which time travel and transportation over the bridge exceeded all estimates and expectations.

May I suggest that this legislature recognize the Narrows bridge situation and give it consideration from every angle. This is important from the standpoint of public confidence and for the early construction of a new bridge. I am confident that a larger and safe bridge soon will span the Narrows, not only for the sake of public convenience but also for the purpose of national defense. I already have made inquiries in regard to the national defense phase and I can assure you that the federal authorities are interested and that this possibility is susceptible of early development.

MUST MAINTAIN SERVICE

In the meanwhile I recognized the emergency and authorized emergency funds to establish state ferry service between Tacoma and the Olympic Peninsula. We have acquired two ferryboats, contracted for their operation, and expect to maintain satisfactory service under the state department of highways. You should give this program your immediate consideration.

\$24,000,000 GOES INTO BUILDINGS

With only the failure of the Narrows bridge to mar our record of steady progress, we have pushed and practically completed the most extensive building program ever undertaken by our state. Since 1933 we have completed permanent buildings to the value of nearly \$24,000,000, of which \$4,300,000 came from the federal government. This program included new buildings and permanent improvements for the state institutions, university and colleges; hundreds of school houses, public buildings, recreational halls, playgrounds and other facilities for the health and development of our children throughout the state. Here in Olympia we completed three buildings, including the Social Security and Transportation buildings as two major units of the capitol group; remodeled and saved the old downtown capitol; paved and landscaped the capitol grounds.

By going forward with this building program, we not only provided a large measure of work relief, but we put our state in top physical shape. In fact it put our state well within its needs, if not a few years ahead in many respects, and this legislature should not be confronted by any unusual demands for capitol improvements.

COST OF GOVERNMENT AT PREVIOUS LEVEL

It is important to understand that all of those things have been done and all of this progress has been made without increasing the total cost of government to the people of Washington. In 1931, before the days of state social security, the people of this state contributed revenues, in all forms and for all purposes of state, county and local governments, to the grand total of \$100,714,000. In 1939, revenues for the same purposes totaled \$98,853,000. This noteworthy record is due to our wholehearted cooperation with the federal government, the practice of strict economy, and the willingness of our people to accept changing taxes and changing conditions. It is a record that I am proud to leave written in the permanent books of the state of Washington.

PEOPLE OF STATE DESIRE FORWARD STANDARD

Frankly, despite talk of cutting and slashing the cost of state government, I believe the people of this state want this standard of government, which we may term the \$100,000,000 standard. This standard of government reflects the progressive ways of our people and our state. It is our kind of government, not the kind of backward states where they are behind in social security, schools, institutions, highways, and other useful services and conveniences. My departing counsel to you, my fellow citizens, is this: Maintain our high standard of government, so we may continue to truthfully say that out here in the state of Washington we are a thoughtful and progressive people, forward in schools, forward in social security, forward in all things that make everyday life easier and happier for all of our people.

CONDITIONS JUSTIFY HIGH STANDARD

Our financial condition justifies such a standard of government. Today our permanent investment funds hold securities and cash to the total of \$55,473,000. Cash balances in the current or operating funds total \$17,906,000. This gives us financial resources totaling more than \$73,000,000.

On the other hand our general obligation bonded indebtedness is insignificant. Today the outstanding emergency relief bonds of 1933 total \$7,496,000, which is offset in part by the sinking fund now containing \$1,052,000 cash and \$2,809,000 in securities. This leaves a net bonded indebtedness of only \$3,635,000, which at this rate should be fully retired well within two and a half years.

You will recall that in the fall and winter of 1937 an unemployment emergency overtook us, and, as a result, we incurred a deficit of nearly \$5,000,000 in the general fund. This matter was presented to the 1939 legislature, but it was not wiped out by that session. The deficit continues, and I should like to review and discuss it at this time because it is something you should understand and keep in mind.

SECOND EMERGENCY CREATES DEFICIT

Let us go back to the winter of 1937-38 again for a moment: The previous legislature ruled that the counties should provide \$7,000,000 for public relief. Suddenly industry fell off, the federal W. P. A. program was temporarily curtailed, thousands of men were thrown out of work and their families forced on relief. Naturally business slumped, cutting down state revenues urgently needed for relief.

It was a critical situation—a second emergency. More than 195,000 men, women and children were facing hunger and other hardships.

STATE ASSUMES BURDEN

We called county commissioners to Olympia, conferred, and they told us they were helpless—they did not have the money to provide for their share of the added relief load. It was then I decided the state would take over the whole burden and provide for the 195,000 distressed people, even though it mean incurring a deficit, rather than call the legislature into special session to create new taxes.

REVENUES SUFFER LOSSES

When the 1939 legislature convened I cautioned against new taxes to retire the deficit, suggesting it could be reduced materially by the removal of exemptions within the existing tax structure and equalization of existing taxes and funds. This would have been accomplished, but it was deemed advisable to make further

and increased appropriations from the general fund for the benefit of the schools, school equalization, counties, cities and the teachers' retirement fund. These funds totaled approximately \$6,000,000—more than enough to have wiped out the deficit. Later the general fund was given another hard blow when the supreme court ruled out the fuel oil tax and counties failed to remit payments for institutional care of their patients, depriving the general fund of nearly \$5,000,000.

NO CAUSE FOR ALARM

Now I do not view with alarm this deficit. It may be that it is well that we have a genuine appreciation that there is a limit to the amount of government that can be supported by present tax revenues. We have felt that with a general improvement in business—resulting in a lessened demand for general relief and with increased revenues from present enactments, that gradually this overdraft would be eliminated. Already this tendency has been evidenced in our current receipts.

Obviously this legislature is confronted with the responsibility of carrying out the mandate of the people in which \$40 maximum old age assistance payments are to be made available. At this time, efforts are being made to promptly clarify the scope of this program as covered by the recently adopted initiative 141. This plan will undoubtedly involve the expenditure of sizeable increases of state funds in our social security program.

SOCIAL SECURITY WILL NEED MORE FUNDS

Based on estimates given at this time however, it would appear—and it is to be hoped—that the several million dollars involved in this enlarged program can be obtained from slight changes and/or modifications in our present tax schedules.

We cannot make an estimate or contemplate such major functions as schools and social security without realizing and appreciating the great service rendered by the sales tax. It was a life-saver in the emergency and continues to measurably meet the needs of changing conditions. The sales tax is so certain, so lightly spread among all the people, so generally accepted, that probably it should be regarded as a permanent part of our tax structure. I suggest, therefore, that you give little or no consideration to proposals to either repeal or devitalize it.

INCOME TAX WILL BALANCE SYSTEM

Yet it is only fair to remind you that many people would feel more kindly toward the sales tax if it were accompanied by an income tax. They feel that the income tax is the missing link in our tax system; and that a combination of a limited property tax, sales tax and an income levy toward the higher brackets would make a more balanced and equitable tax program. And I dare say their argument has substantial merit. I understand that another proposal for a workable income tax will be made during this session, and will be supported by considerable sentiment throughout the state.

Now, senators and representatives, there are four or five further suggestions and reminders which I feel obliged to leave with you, matters which seemingly are worthy of your attention.

SCHOOLS MUST TRAIN SKILLED WORKERS

Our school system should have definite provisions for vocational, craft and trade training. Development and improvement in the industry of our state, especially in connection with national defense work, have confirmed the lack of trained and skilled workers, young men who can do things with their hands. We recognized this condition and cooperated financially for vocational training in schools of Tacoma, Seattle and Spokane, there is a need for a more certain and extensive program, and it should be established without delay.

We also have a growing problem in regard to school facilities in crowded areas, notably near Fort Lewis, McChord, the Bremerton navy yard and other places suddenly popularized by national defense work. We cooperated to meet these demands during the last year, but the situation requires definite provision by the legislature. A study of this problem has just been completed under the direction of the state planning and defense councils, and I shall have this report transmitted to you because I believe you will find it informative and helpful.

CONSIDER CENTRALIZED CONTROL FOR HIGHER EDUCATION

It appears to me you might well consider more centralized control of our schools of higher learning. Practical experience has convinced me that a separate board for each institution tends toward operation and financial demands on the basis of local pride and local enthusiasms, not always on the basis of actual need. More centralized control undoubtedly would result in recommendations to the governor and legislature on the basis of comparative needs. I am sure that such a change would make for a more businesslike administration.

UNIFY FOREST ADMINISTRATION

Responsibilities over state forests and the sales of state timber now are divided among four different agencies, and that is neither wholesome nor businesslike. Our forests and timber sales are a big business, too valuable to be handled by different agencies as a sideline. You will benefit the state and help the incoming governor and land commissioner by placing forests and timber under one agency of administration.

CONSERVATION AND INDUSTRY DESERVE CONSIDERATION

Stream pollution is a growing and vital problem in our state and it deserves your immediate attention. The conflict between industrial development and stream conservation is sharp and uncompromising, and, unless the state enacts a fair and workable pollution program, either industry or stream life or both will suffer. Our state needs both industrial development and the conservation of salmon and trout. Therefore, I suggest that this problem be recognized and treated by this legislature.

I should like to suggest that you establish uniform hours for state offices and uniform or standardized wage scales for state employees. It would be beneficial to all if code and elective offices were required to open and close at the same time, not only in Olympia but also throughout the state; and if wages and salaries were fixed on the same basis according to classification. The prevailing differences in office hours is confusing to the public, and the prevailing differences in salaries and wages is costly and provoking.

COMMENDS SERVICES OF PUBLIC SPIRITED CITIZENS

Now I should like to urge that you do not move hastily to throw away valuable services given freely to the state by many public-spirited citizens—members of the planning council, defense council, progress commission, and regents and trustees. For instance there have been proposals, and probably will be renewed during this session, to reorganize the planning council and progress commission to include state officials as ex-officio members. My experience convinces me that such changes would be inadvisable. Both of these agencies have proven highly beneficial to our state, and this success is due largely to the fact that the members, who serve without pay, are proud to serve and therefore contribute time and energy without measure. Such men, busy and successful in their own affairs, cannot be hired, but they will respond and serve freely so long as there is prestige and freedom in their work. And I know that such men now serving and others who might be called will not respond with the same pride and spirit if they are to sit as subordinate members of ex-officio commissions.

Finally, my fellow citizens, you should be proud and grateful for the opportunity to serve our state at this particular time. Never has the state of Washington faced a more alluring prospect.

Nowhere in the country, if not the world, is there a more favored region—favored with untold natural resources, climate and other essentials—for men to build, create and grow according to their abilities and spirit. And as men build, create and grow, so will our commonwealth go forward economically, socially and spiritually.

NEW ERA BEGINNING

Today we are seeing the beginning of this new era of great progress—the coming of an abundance of power from the mighty Grand Coulee and Bonneville projects, the expansion of established industries, and the coming of substantial eastern concerns to locate new plants in different sections of our state. These

things have been of primary interest to me and naturally I am glad that this administration always gave that timely cooperation which made them possible.

Today our state is flush with optimism. The national defense program is bringing new industry and new life to all parts of our state. All of our industries are on the upgrade, reducing unemployment. Our farmers are cheered by a rising home market. Business is reaching to the highest levels of all times.

True Americanism and the spirit of cooperation, always essential to progress, are burning brighter than ever within the borders of our loyal commonwealth.

EXCEPTIONAL OPPORTUNITY IS OFFERED

So it is that this legislature and the incoming administration face an exceptional opportunity. The people are hopeful, expecting you to work together in the things that count. I am sure you will.

We who step aside at this time will proudly remember that we held the line when the going was of the hardest.

And on the sidelines we will be cheering as you do your part to keep Washington moving toward her glorious destiny, bringing a larger measure of the good things of life and happiness to all of the people.

The President announced that the special committee would escort His Excellency, Governor Clarence D. Martin, to the Governor's chambers.

The special committee thereupon escorted the Governor from the House Chamber.

The President of the Senate announced that the Joint Session would be at ease subject to the call of the Chair, which would be at 3:00 o'clock this afternoon.

The Speaker of the House called the Joint Session to order at 4:20 p. m.

The Secretary of the Senate called the roll of the Senate and all Senators were present except Senators Drumheller, Farquharson and Murphy.

The Clerk called the roll of the House and all members were present except Representative Richmond.

Mr. Armstrong (H. C.) moved that the Joint Session recess to 9:00 p. m.

The motion was lost.

(21) years at the time of service of the Notice of Election Contest by him upon Arthur B. Langlie.

NO. _____

NOTICE OF ELECTION CONTEST

vs

ARTHUR B. LANGLIE,

Contestee

Comes now Ben S. Sawyer, in his own behalf and on behalf of other Electors, and hereby gives notice to Arthur B. Langlie that he contests the alleged election of Arthur B. Langlie as Governor of the State of Washington, and respectfully alleges and shows:

(1) That whereas under and by virtue of authority of the Constitution of the State of Washington the matter of election contests for all executive officers, and therefore for Governor, has been exclusively lodged with the Legislature as a special judicial body to jointly hear and determine such contests.

(3) That said Ben S. Sawyer is now and was at all time herein inferred and/or mentioned a regular qualified elector of the State of Washington. That said Sawyer voted as such in Olympia, Thurston County, State of Washington, in said General Election on November 5, 1940, and among the officers voted for included that of Governor.

(4) That in all the precincts in all the counties of the State of Washington valid votes for said C. C. Dill, were erroneously not counted for him by the Judges and Inspectors of Election and/or by the Canvassing Boards.

(5) That these errors were patent and readily apparent on the face of the ballots but nevertheless and notwithstanding were not counted for said Dill. That if said valid votes had been added to the votes received by and accredited to Dill, they would have changed the result of the election by giving said Dill a greater number of votes than those received by said Langlie.

(6) That in said precincts many ballots showed a cross in the circle at the head of the Democratic ticket; and also on the same ballots showed a cross in the square after the name of said Langlie on the Republican ticket. That many of said ballots were not counted on the ground that it was double-voting, while many of said votes were counted for said Langlie.

(7) That were all the votes thus cast to be determined by this Honorable Judicial Body to be double-voting, and therefore that such votes were invalid, then and in that event the grand total of votes received by said Langlie would be less than the grand total of votes received by said Dill.

(8) That if it should be determined by this Judicial Body that such votes as described, is not double-voting, but a vote that should be accredited to said Dill, then and in that event it would change the result of the election in that amount of such votes added to those received by and accredited to candidate Dill would result in said Dill receiving more votes than those received by said Langlie and if those votes, which were erroneously accredited to Langlie were counted for said Dill and deducted from the votes Langlie was erroneously given it would give to candidate Dill a further larger vote than that received by said Langlie.

Wherefore said Contestant asks that a recount of the votes as aforesaid be ordered so that it may be determined, who in law and fact, has been elected Governor of this state and who is entitled to be inducted into office thereof. And that no

Certificate of Election issue to either candidate, nor neither be inducted into office or declared elected until this contest has been fully heard and determined.

And that said Elector has such other plenary aid and relief, as such Elector, in the interest of the Sovereign State of Washington as is meet and just in the premises.

BEN S. SAWYER,
Attorney Pro se. et al.

Ben S. Sawyer on oath says, that he is the party named in the foregoing notice of contest as Contestant. That he has heard read the same, knows the contents thereof and varily believes the same to be true.

Senator Rosellini moved that the notice of election contest be referred to a special joint committee composed of nine members, three to be appointed from the Senate and six from the House of Representatives, the committee to report on the protest at ten o'clock tomorrow morning.

Mr. Hurley:

"Mr. Speaker, point of order. The joint rules provide that no other business than that for which the Joint Session was called may be acted upon during the Joint Session. I respectfully submit to you that this Joint Session was called for the purpose of canvassing the vote of the constitutional elective State officers as provided in Article III, Section 4, of the State Constitution. This relates to certifying the results of the election, and that is all the business this Joint Session can do at this time. I do not doubt but that another Joint Session can be called for the consideration of this protest, but I do not believe the protest can be considered at this Joint Session."

The Speaker:

"Mr. Hurley, I will have to rule you out of order. The Joint Session was called for the purpose of canvassing the vote of the constitutional election of the State officers and the consideration of all matters pertaining thereto."

Mr. Hurley:

"Mr Speaker, I appeal from the decision of the Chair."

The Speaker:

"An appeal has been made from the decision of the Chair. Shall the decision of the Chair be the judgment of the House? As many as are in favor of it will say 'Aye'. As many as are opposed will say 'No'."

The appeal from the ruling of the Chair was lost on a voice vote.

The Speaker announced that the question before the Joint Session was the motion by Senator Rosellini that the protest of the election of Arthur B. Langlie as Governor of the State of Washington be referred to a committee of nine members, three to be chosen from the Senate and six from the House of Representatives, and that the committee report back at a Joint Session at 10:00 a. m. tomorrow.

A roll call was demanded, and the demand was sustained.

Mr. Todd:

"Mr. Speaker, point of order. We are operating under joint rules of the House and Senate, and there is no provision for a roll call in the joint rules."

The Speaker:

"The Chair will rule that if we are to be called together on any business whatsoever, there is an implied authority that we can vote on that business which is brought before the Joint Session. The Secretary will call the roll of the Senate on the motion by Senator Rosellini."

The Secretary called the roll of the Senate, and the motion by Senator Rosellini to refer to a committee of nine members the protest of the election of Arthur B. Langlie as Governor of the State of Washington failed to pass the Senate by the following vote: Yeas, 15; nays, 30; absent or not voting, 1.

Those voting yea were: Senators Atkinson, Balfour, Bargreen, Black, Farquharson, Jackson, Malstrom, Mohler, Neal, Ray, Rosellini, Shorett, Sullivan, Thomas, Voyce—15.

Those absent or not voting were: Senator Westman—1.

The Speaker instructed the Clerk to call the roll of the House on the motion by Senator Rosellini.

Mr. Richmond:

"Mr. Speaker, on the roll call I appear as an official member of the twenty-sixth district of Pierce County. I have been trying for about an hour and a half to resign, and to have my colleague, Mr. Trombley, appointed in my place. He is here, and I would like a ruling from the Chair as to whether or not he would have the right to vote. For the information of the Speaker, I have not as yet been sworn in as a member of this House."

The Speaker:

"The Speaker will rule, Mr. Richmond, that because of the fact you have not taken the oath of office of a legislator, you are not entitled to vote. This ruling is applicable also to Mr. Trombley."

The Clerk proceeded to call the roll of the House, and the motion by Senator Rosellini to refer to a committee of nine members the protest of the election of Arthur B. Langlie as Governor of the State of Washington failed to pass the House by the following vote: Yeas, 30; nays, 68; absent or not voting, 1.

Those voting yea were: Representatives Armstrong (H. C.), Bierlein, Bernethy, Dootson, Dore, Ford (U. S., M.D.), Hall, Hansen (Julia Butler), Henson (Harry F.), McPherson, Miller (Floyd C.), Murphy, O'Gorman, Pennock, Pettus, Pitt, Riley (Edward F.), Rosellini, Ryan, Sandegren, Savage, Sexton, Smith (Jurie B.), Sweeny, Taylor, Tisdale, Van Buskirk, Vane, Watkins, Wenberg—30.

Those voting nay were: Representatives Armstrong (Ralph L. J.), Backman, Bienz, Boede, Broome, Callow, Carty, Chervenka, Clark, Cowen, Custer, Devenish, Doherty, Eaton, Eddy, Erdahl, Ford (Robert M.), Foster, French, Gallagher, Gates, Graham, Hanks, Hanson (Alfred J.), Henry, Hurley, Isenhardt, Johnson (Walter A.), Johnston (Geo. bolt, Sisson, Smith (Vernon A.), Taft, Thomas, Todd, Trunkey, Turner, Twidwell, Underwood, Warnica, Wiggen, Woodall, Zent, Mr. Speaker—68.

Those absent or not voting were: Representative Richmond—1.

The motion by Senator Rosellini to refer the protest of the election of Arthur B. Langlie as Governor of the State of Washington to a committee composed of nine members, three to be appointed from the Senate and six from the House of Representatives, having failed to receive the constitutional majority of both the Senate and the House, was declared lost.

The Speaker announced he was about to sign the election certificate of Arthur B. Langlie as Governor of the State of Washington.

The Speaker announced that the President of the Senate was about to sign the election certificate of Arthur B. Langlie as Governor of the State of Washington.

The Speaker announced that he was about to sign the election certificate of Victor A. Meyers as Lieutenant-Governor of the State of Washington.

The Secretary read:

SENATE RESOLUTION

By Senator Atkinson:

WHEREAS, The United States of America and many other nations have indicated Japan as the violator of the Nine-Power Treaty and the Kellogg Pact in the present Sino-Japanese conflict, fomented by the Military Party of Japan, and have repeatedly protested against the bombings of undefended Chinese cities and the unnecessary slaughter of Chinese non-combatants; and

WHEREAS, The American Chambers of Commerce in China have repeatedly pointed out that American Oriental trade and investment within a few years will have many

times the field in China that it now has in Japan; and that supplying Japan, in the hope it will leave the tin and oil supplies further south to American interests, is the same sort of policy that led to the spread of Nazism; and

WHEREAS, American raw materials are being used to manufacture weapons of war for Japan; American planes are being used to carry American-made bombs for the destruction of Chinese civilian population; American shells are loading Japanese guns; and America is supplying Japan with huge quantities of iron, steel, oil, trucks and other materials used in the furtherance of the war, over and above the amounts of our normal trade of recent years; and

WHEREAS, The present licensing system for such products is not a true embargo and merely makes this bloody traffic more profitable to the munitioneers; and

WHEREAS, The present scale of loans to the Chinese Government suffices merely to slow up Japanese aggression on the Asiatic mainland in order to enable American monopoly interests seek to extend their influence over the oil, tin and other essential war resources in the Dutch East Indies; and

WHEREAS, We sympathize with the Chinese people in their desire to build up an independent state responsive to the needs of the farmers and laborers, an end gravely threatened by the present aggression of Japan, and deplore the traffic which involves all of us, wittingly or unwittingly, in the wanton destruction of the innocent victims of Japanese aggression;

Now Therefore Be It Resolved, by the Senate of the State of Washington, that we favor replacing the present licensing system with a complete embargo on all products that may be used to continue the war against the Chinese people; and of extending sufficient, immediate, and decisive aid to bring a Chinese victory within the next few months.

And Be It Further Resolved, That copies of this resolution be sent to the Department of State and to the Washington State Congressional delegation.

Senator Atkinson moved that the resolution be adopted.

Senator Maxwell moved that the resolution be referred to the Committee on Judiciary.

Senator Farquharson moved to amend the motion by referring the resolution to the Resolutions Committee.

REPORT AND FINDINGS OF SPECIAL ELECTION COMMITTEE

IN THE MATTER OF THE CONTEST BY

T. C. BLOOMER,

Contestant,

vs.

AGNES M. GEHRMAN,

Contestee.

MR. PRESIDENT: We, your Special Election Committee, appointed to investigate the contest filed by T. C. Bloomer, against Agnes M. Gehrman in the above entitled cause, beg leave to report as follows:

We, your committee, met on January 13th, 1941, immediately after the session of the Senate and heard testimony from T. C. Bloomer and Agnes M. Gehrman relative to the contest.

After hearing this testimony, your committee decided that in order to have the proper investigation of the charges in the complaint, it would be necessary to secure the ballots, poll books and other election records of Grays Harbor and Pacific counties pertaining to the nineteenth Senatorial District. There upon a subpoena duces tecum was issued by your committee for Ross Nielson, Auditor of Pacific county and Lota King Wiley, Auditor of Grays Harbor county, ordering them to appear before the Committee on January 13, 1941 at 9 p. m. and to bring with them all the books, ballot records, documents and papers relating to the election of State Senator which was held in each county on November 5th, 1940.

The subpoena was turned over to the Sergeant-at-Arms of the Senate for service and he, along with T. C. Bloomer and Agnes M. Gehrman and Officers of the State Patrol and Jess Rosenberg, State Superintendent of Elections, went to the County Seats of the above mentioned counties, served said subpoenas and brought back with them both County Auditors and the documents asked for in the subpoena.

At 9 p. m., the Committee reconvened and took testimony from Lota King Wiley, who testified that the ballots, records and other documents present in the committee room, were in the same condition that they were when they left her office, in Grays Harbor county.

Testimony was taken of Ross Nielson, Auditor of Pacific county, who testified that the ballots and documents were in the same condition in the committee room as they had been when removed from his office in Pacific county.

He Further Testified that he had kept no record of the number of absentee ballots issued by him prior to the election.

His testimony also showed that he had failed to destroy approximately seventy-five (75) blank ballots which had been left over after the election. His testimony was that it was customary to destroy these ballots, but he neglected to do so in this instance.

Jess Rosenberg testified that the ballots and other documents were in the same condition upon arrival in the committee room as when they were taken from the respective counties.

The Committee then proceeded to count the absentee ballots in Grays Harbor county.

After counting said ballots, they were checked with both the Tally Poll book and the sworn application of the absentee voter.

The Committee then proceeded to count the absentee ballots of Pacific County.

These were also checked with the Tally Poll book and the application of the absentee voter.

The Committee Adjourned at 2:30 a. m., January 14th, 1941. Prior to adjournment, the ballots and documents were placed in the vault of the Secretary of State, which vault was sealed in the presence of the two parties to this contest.

At Subsequent Meetings of the Committee, in the presence of the two contestants, the ballots from the following precincts in Pacific county were counted:

Nemah,
Seaview,
Long Beach,
Ward one precinct one South Bend.
Ward two precinct one South Bend.
Ward one precinct three Raymond.
Ward two precinct two Raymond.
Ward three precinct one Raymond.
Ward two precinct three Raymond.

The above precincts were those that were specifically set out in the complaint of the contestant.

The Committee also counted three precincts in Grays Harbor county.

As the ballots were counted, both contestants and at least one member of the committee were present.

During the counting of these ballots, seventeen ballots were considered doubtful and were held out for subsequent action by the Committee.

After the counting of all of the ballots, except the seventeen held out and in the presence of both contestants, it was agreed by all members present, including the two contestants, that on the basis of the recount in those various precincts, Agnes M. Gehrman had made a net gain of five votes.

The Committee then went into Executive Session and considered the seventeen ballots which had been held out. These ballots consisted of several which had been marked both in the Republican and Democratic Straight Party circle and in which the voter had also marked the names of the individual candidates.

The Committee decided to cast that type of ballot for the individual whose name was individually marked.

After counting these held out ballots, the Committee decided to hear further from T. C. Bloomer as to whether he had any further evidence to submit at that time.

It was suggested that T. C. Bloomer be brought into the committee room.

Mr. Bloomer met with the Committee and agreed that the total tabulation showed a net gain for Mrs. Gehrman of five votes.

Mr. Bloomer agreed with the Committee that Mrs. Gehrman should be given her seat in the Senate without further delay.

Mr. Bloomer asked that the Committee be not dissolved until some future time and that he be permitted to supply any further information that he might subsequently find which might be of such merit as to deserve further consideration by the committee.

Mr. Bloomer thanked the Committee for its cooperation and assured them that he did not want the seat unless he was fully entitled to it.

A Motion was made by Senator Sullivan and seconded by Senator McQuesten, that the Committee recommend to the Senate that Mrs. Gehrman be given her seat in the Senate; that the ballots and documents be removed to the Secretary of State's vault for a period of thirty days from the date of this report; that at the end of that time the ballots and other documents be returned to the respective counties and that the Committee at that time be dissolved.

The Motion was carried.

The Committee thereupon called Mrs. Gehrman and notified her of the action the Committee was going to take.

The Committee thanked both Mr. Bloomer and Mrs. Gehrman for their sincere cooperation shown during the investigation.

On the basis of the above proceedings, Your Committee wishes to report the following findings and recommendations:

1. That Your Committee counted some 2,220 ballots, including absentee ballots, which resulted in a net gain of five (5) votes for Mrs. Gehrman.

Your Committee criticizes Ross Nielson, Auditor of Pacific County and the two remaining members of the Election Board of Pacific County for—

1. Failure to destroy approximately seventy five (75) blank ballots immediately after the election of November 5th, 1940, which ballots had not been used in said election.

2. For not keeping an accurate list of the people to whom these absentee ballots had been issued.

Such procedure gives rise to many opportunities for fraudulent voting and is severely condemned.

Your Committee believes from the testimony presented and their investigation, that the present laws in regard to the type of ballots used and the handling, care and custody of the ballots, is inadequate and may at times lead to fraud.

We recommend that a study be made of the election laws with a view to revising some of them to eliminate the possibility that exists under the present laws for fraudulent voting.

Your Committee believes that T. C. Bloomer's contest was in good faith and that there were sufficient errors and irregularities found in its investigation to have justified this investigation.

On the basis of this investigation, which shows that there were errors in tabulation in more than half of the twelve precincts counted by your Committee, we believe and recommend that in order to protect the sanctity of the ballot and to protect the faith of the people in our system of balloting, that whenever in any reasonably close election a contest is filed on the basis of error, fraud or irregularities, a committee as was done in this instance, should be appointed to investigate the same, even though, as in this instance, there be a delay in taking the Oath of Office of a public official for a period of time.

Wherefore on the basis of the findings, your Committee recommends that the contest of T. C. Bloomer against Agnes M. Gehrman be denied and that Agnes M. Gehrman be allowed to take the Oath of Office and be seated as a member of the State Senate from the Nineteenth District.

We Further Recommend that the pay for *Agnes M. Gehrman* start as and of the date of January thirteenth (13th), 1941.

Respectfully submitted,
SPECIAL ELECTION COMMITTEE,
 ALBERT D. ROSELLINI, *Chairman*
 GUY M. BALFOUR, *Member*
 THOMAS VOYCE, *Member*
 G. DOWE McQUESTEN, *Member*
 JAMES T. SULLIVAN, *Member*

Senator Rosellini moved that the Report and Findings of the Special Election Committee be adopted and spread on the Journal of the Senate and that the Sergeant-at-Arms be instructed to bring Senator Gehrman before the bar of the Senate to be sworn in and that she be given her seat in the Senate.

The Committee Report and Findings were adopted.

REPORT OF SELECT COMMITTEE

January 24, 1941.

To the Honorable President and Members of the Senate:

Your special committee, appointed to investigate the charges against Senator-elect Lenus Westman, respectfully reports as follows:

That your committee met informally with Senator-elect Westman and discussed the charges against him and the procedure for investigating the same and for conducting a hearing at which witnesses were to be sworn, and it was agreed with Senator-elect Westman, upon his request, that he should have Senator Frank Morgan as his counsel and should have Senator N. P. Atkinson and Representative Jack Dootson as observers

and advisors, and that the committee should have the services of one of the assistant attorneys general to assist in this matter. It was also agreed that the testimony of witnesses should be recorded, and so George Harrigan was secured as a reporter during the investigation.

During the examination all of the members of the committee were present and Senator-elect Westman, Senator Frank Morgan, Senator N. P. Atkinson and Representative Jack Dootson were all present, and the testimony of all witnesses was taken by reporter George Harrigan.

From the investigation and the testimony of witnesses under oath, your committee finds the following to be the facts:

FIRST: That Senator-elect Lenus Westman became a citizen of the United States by naturalization on July 27, 1936; that he was then a resident of Snohomish County; that during the month of May, 1938, he joined the Communist Party, and admits that he remained a member of that party until September, 1939, at which time he states he was dropped from membership for non-payment of dues; that his statement in this regard is supported by the testimony of Arthur L. Johnson of Everett, Washington, who is and has been for the past four years the organizer of the Communist party in Snohomish County. Mr. Johnson states that he personally knows that Mr. Westman dropped out of the party in the latter part of 1939, he being at that time approximately four months in arrears in his dues. The testimony of Henry P. Huff, Route 1, Olympia, Washington, who is the chairman of the Northwest District of the Communist party, is to the effect that one may be dropped from the Communist party for non-payment of dues for four months or more. This witness claims not to be personally acquainted with Westman and states that he personally does not have knowledge as to whether or not Westman is a Communist, because the district office does not keep any membership records.

SECOND: Your committee further finds that Senator-elect Westman did not leave the Communist party through expulsion at the hands of the party, and that he did not request to leave the party, and his only explanation to your committee is that his social and economic beliefs can be better furthered outside of the Communist party.

THIRD: That Senator-elect Lenus Westman during the period he admitted being a Communist received Communist literature through the mails, circulars consisting of quantities of papers and pamphlets devoted to the Communist cause; that similar papers and pamphlets were found distributed in Snohomish County in the area surrounding Mr. Westman's home. There is no testimony before your committee that Mr. Westman was seen distributing such literature.

FOURTH: That Senator-elect Lenus Westman was seated as a delegate from the teachers' union to the Central Labor Council of Everett, Washington, and took the pledge of the American Federation of Labor during the time he admits he was an active member of the Communist party; that at the same time the American Federation of Labor was strongly opposed to Communism and had a provision in its constitution forbidding a Communist or any member of the Communist party to be a member of the American Federation of Labor or to have a voice in any of its deliberations. A number of communications from President Green of the American Federation of Labor, in which Communism was discussed and which communications showed the American Federation in opposition to Communism were read and discussed in the presence of Lenus Westman, then a delegate to said Central Labor Council, and at no time did he disclose to that body that he was a member of the Communist party and he, in this manner, jeopardized the charter and standing of the Central Labor Council of Everett and acted in total disregard of his pledge, and oath to that body.

FIFTH: There has been no testimony presented to your committee which in any way attacks or reflects on the character and program of Senator-elect Lenus Westman in regard to social legislation, and his record of work in the P. U. D., the Old Age Pension Union, and other organizations having a similar policy and program, has been entirely praiseworthy and sincere.

SIXTH: We find that the Communist party, in its constitution, endorses and incorporates the teachings of Stalin, Lenin, Marx, and Engels, and that it is devoted to the principle of world revolution. That Mr. Westman states he does not believe in force and violence and has never advocated the same. That no witnesses were presented who testified that Mr. Westman ever advocated a forceful or violent overthrow of government. That witnesses Johnson and Huff deny that the Communist party stands for force and violence.

SEVENTH: That during the campaign, Senator-elect Westman was charged with being a Communist, and he denied the same publicly.

That the foregoing is a fair summary of the evidence presented to your committee.

SHIRLEY R. MARSH, *Chairman*,
 FRED S. DUGGAN, *Member*,
 TED F. SCHROEDER, *Member*,
 A. M. MURFIN, *Member*,
 DON T. MILLER, *Member*.

Based on the foregoing facts, your committee recommends as follows:

FIRST: That Senator-elect Westman be seated. This recommendation is made for the reason that the undersigned believe that the proof does not establish that Westman is now a Communist.

SHIRLEY R. MARSH,
 A. M. MURFIN,
 TED F. SCHROEDER,

SECOND: That Senator-elect Westman not be seated.

FRED S. DUGGAN,
 DON T. MILLER.

The following statements were submitted:

"The following Senators state that the question in issue is whether Senator-elect Lenus Westman is or is not a Communist and that their vote is based on the failure to produce credible evidence that the accused is now a Communist. That there is no issue here between Communism and Americanism, all Senators being in agreement that Communism is an evil and a danger against which we stand staunchly allied. (Signed) Senators Marsh, Voyce, Schroeder, Malstrom, Ray, Percival, Neal, Balfour, Morgan, Jackson, Thomas and Mohler."

"I voted no on the proposition to refuse Senator Westman his seat because I believe that the people are entitled to the representatives of their own choice.

"If someone had said a year ago that such a thing might happen in free America, we would have replied that it might happen in the dictatorships across the sea, but it can't happen here. Now, it is happening here. We may well inquire what group has set itself up as the arbiter and judge of its fellow men in tolerant America.

"Are our candidates so rabid for the spoils of office that they cannot abide the decisions of the people? Are there cliques so avid for power that they are the very same force and coercion which they condemn in others?"

"The people of Westman's district, and liberal trade unionists all over, are stronger for him than ever. The Seattle Industrial Labor Union Council representing 15,000 CIO members in Seattle and vicinity, the Washington District Council, a number one maritime fraction of the Pacific, The Inland Boatman's Union, The International Fisherman and allied workers of America, The United Fisherman's Union, Alaska Fisherman's Union, Cannery Workers Local 7, IOWU, 109 American Communications Association, Marine Cooks and Stewards—all have wired demanding Westman be seated.

"I ask what Westman's opponents fear. Is it Communism they are really attacking or is it Westman's social and progressive program?"

"I believe this is a flank attack upon the pension and other progressive movements, and that is why I voted no." N. P. ATKINSON.

MESSAGE FROM THE SECRETARY OF STATE

Department of State, Office of the Secretary,
Olympia, Washington, January 13, 1941.

To the Honorable, The President of the Senate, The Legislature of the State of Washington, Olympia, Washington.

SIR: I have the honor to transmit herewith pursuant to Section 12, Article III of the Constitution of the State of Washington, for the consideration of the Senate, the following bills passed by the House and Senate in the Legislative Session of 1939, and vetoed by the Governor, together with his veto message attached thereto.

They are Senate Bills Nos. 150, 204, 357 and 382.

Very truly yours,

BELLE REEVES, *Secretary of State.*

At 1:20 p. m., on motion of Senator Drumheller, the Special Order of business set for 1:30 p. m., was ordered set ahead to be considered at this time.

The Secretary read:

MESSAGES FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, March 12, 1939.

*To the Honorable, The Senate of the State of Washington
(Through the Secretary of State)*

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to section 24, Senate Bill No. 409 entitled:

"An Act relating to the manufacture and distribution of candy and other confectionery products, and regulating the same; providing for the protection of public health and the prevention of frauds; defining terms; providing for permits and certificates and the procedure for revocation or suspension thereof; and prescribing penalties."

This bill is, in part at least, a pure food and health measure. When it becomes a law it will necessarily supersede all laws or parts of laws in conflict therewith. This will be sufficient and will accomplish the same purpose as section 24 without the possible danger of effecting any of the salutary laws now on the books designed for the safety and health of our people.

For this reason, section 24 is vetoed and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

On motion of Senator Percival, section 24, Senate Bill No. 409, vetoed by the Governor was sustained.

The Secretary read:

State of Washington, Executive Department,
Olympia, March 16, 1939.

To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to section 2, Senate Bill No. 78 entitled:
"An Act relating to the health, welfare and care of children in attendance at public schools; and repealing all acts or parts of acts in conflict therewith."

Section 2 is unnecessary since the enactment of section 1 into law will supersede any conflicting statutory provisions. The section can result only in confusion and might conceivably act as a repeal of some salutary provision of law.

For this reason section 2 is vetoed and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor*.

On motion of Senator Murfin, the veto by the Governor of section 2, Senate Bill No. 78, was sustained.

The Secretary read:

State of Washington, Executive Department,
Olympia, March 19, 1939.

To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to section 4, Senate Bill No. 467, entitled:

"An Act relating to unemployment; providing for the relief of unemployed persons by making available funds for the sponsoring of public works and work relief projects on the part of the state and its political subdivisions, and by emergency grants-in-aid to counties for general assistance purposes; defining the duties of certain officers in relation thereto; making an appropriation, and declaring an emergency whereby the act shall take effect April 1, 1939."

The condition of the general fund of the state at this time does not justify this sizable appropriation on an emergency basis.

For this reason section 4 is vetoed and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor*.

On motion of Senator Farquharson, the veto by the Governor of Section 4, Senate Bill No. 467, was sustained.

The Secretary read:

State of Washington, Executive Department,
Olympia, March 20, 1939.

To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to all that portion of section 16 down to and including subdivision (d), and also subdivision (f), Substitute Senate Bill No. 219, entitled:

"An Act relating to unemployment compensation, amending chapter 162 of the Laws of 1937, providing for the transfer of certain funds to the railroad unemployment insurance account in the United States treasury, making an appropriation."

This bill makes many changes in our unemployment compensation law, which, in the main, I approve. I do not, however, believe that we should at this time reduce

the employing unit from eight to more employees to one or more employees. The provision making such change is found in section 16 and is so tied into the remainder of the bill that a veto of that portion only is extremely difficult.

I have always believed that this state should not be backward in the matter of those social security laws relating to unemployment compensation. Prior to the enactment of the Federal unemployment compensation act I proposed a law to the 1935 Legislature, intended to bring our state into conformity with the contemplated Federal act. Our 1935 law was subsequently held invalid by the Supreme Court. I again proposed a similar bill, which was enacted by the 1937 Legislature and which I approved. I do not, however, feel that this state should attempt to go beyond the scope of the Federal law, which is still limited to employing units of eight or more employees. I am advised that, seemingly, there is no immediate prospect that the Federal law will be amended in this respect and the tendency in Congress seems to be not to expand the social security program at this time. If the Federal law should extend its coverage, provision is already made in our state law to make the same conform with such extension. Provision is also made so that any of the smaller groups who wish may bring themselves under the act through voluntary action.

I wish again to state that my sole purpose in vetoing those portions of section 16 which I have disapproved is to keep our unemployment compensation law, in so far as it governs the size of the employing unit, in conformity with the Federal law. At the same time I wish to preserve unimpaired the other provisions contained in this bill. I believe that the only way this can be accomplished is through the action I have taken.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor*.

On motion of Senator Farquharson, the veto by the Governor of section 16 down to and including subdivision (d), and also subdivision (f), Substitute Senate Bill No. 219, was sustained.

The Secretary read:

State of Washington, Executive Department,
Olympia, March 20, 1939.

To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to sections 22 and 23, Senate Bill No. 427, entitled:

"An Act relating to the care, support and relief of needy persons; defining terms; providing necessary means and procedure for the furnishing of public assistance to such persons; defining need and resources to govern the determination of eligibility of persons to assistance under this act, and fixing the responsibility of certain relatives with respect to support of needy persons; creating and/or defining the powers and duties of certain state and county officers in connection with the administration of public assistance; providing for appeals in certain cases; imposing penalties for violations of the act; providing for the levy of taxes; making appropriations; creating the Washington Welfare Survey Commission, defining its powers and duties and providing for its expenses; repealing chapter 180, Laws of 1937 excepting section 11, and all acts or parts of acts in conflict herewith, and declaring an emergency whereby the act shall become effective April 1, 1939."

The Federal Social Security Board recommends that sections 22 and 23 of the bill be vetoed, in order to permit and facilitate cooperation with the Federal Government. I have accordingly disapproved these sections.

For these reasons sections 22 and 23 are vetoed and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor*.

On motion of Senator Murphy, the veto by the Governor of sections 22 and 23, Senate Bill No. 427, was sustained.

The Secretary read:

State of Washington, Executive Department,
Olympia, March 20, 1939.

To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to certain items, Senate Bill No. 433 entitled:

"An Act making appropriations for the purchase of land, construction of buildings and improvements at designated state institutions; for the payment of salaries of certain officers and employees of the state and for the operation, maintenance and other expenses of certain state institutions, departments and offices; for the relief of certain individuals, corporations, counties and municipalities, for refunds and for deficiencies and for emergencies, including deficiencies and appropriation of revolving funds, and for purposes specified in certain acts of Congress, and for miscellaneous purposes designated for the fiscal biennium beginning April 1, 1939, and ending March 31, 1941, except as otherwise provided, defining terms, limiting allowances and compensation, and providing this act shall take effect immediately."

I disapprove and veto the item "Taylor, Ben F., compensation for expense account of undulant fever contracted while employed at the Washington State Penitentiary, \$600.00" for the reason that we have no information available concerning this claim. The claim was not submitted to the Director of Finance, Budget and Business for investigation, consequently, we are unable to pass upon the validity of this item. If a proper investigation shows that there is merit to this claim, it can be resubmitted through the proper channels to the next session of the Legislature.

I disapprove and veto the item "Burns, Lloyd T., in full settlement for injuries received in an accident in the Metropolitan Garage, Seattle, December 24, 1926, \$1,000.00." This is a claim that originated under the Industrial Insurance Act. Where claimants have exhausted their full legal rights under the Industrial Insurance Act, it does not seem a sound policy to ask for additional compensation from the General Fund of the State. For this reason this item is vetoed.

I disapprove and veto the item "Dorsch, F. W., reimbursement for expenses incident to the illness and death of his son, Warren E. Dorsch, formerly a member of the Washington National Guard, who was injured during military drill October 14, 1939, \$507.50," for the reason that a doubt exists as to the liability of the state for claims of this nature. This claim has been consistently disapproved by former sessions of the Legislature during the ten years since the illness was incurred.

I disapprove and veto the item "Gates, Roy G., account of injured sustained June 25, 1923 (Appropriated from wrong fund in 1937) \$1,000.00" for the reason that this is another claim where the claimant has exhausted his rights under the Industrial Insurance laws and in my opinion claim should not now be paid from the General Fund of the State.

I disapprove and veto the item "Glasgow, Robert B., compensation for injuries received June 24, 1927, while on active duty as a member of the Washington National Guard, \$350.00" for the reason that this is another claim for injuries happening years ago that have been consistently disapproved by previous sessions of the Legislature.

I disapprove and veto the item "Meyers, John, injuries sustained October 18, 1934 (appropriated from wrong fund in 1937), \$750.00" for the reason that this is another case where the remedies under the Industrial Insurance Act have been exhausted and in my opinion no payment should be made from the General Fund for such cases.

I disapprove and veto the item "For the State Treasurer: Salaries and Wages, \$1,000.00" for the reason that in my opinion other appropriations made for the State Treasurer will have to be sufficient for carrying on the work of this office during the coming biennium.

I disapprove and veto the item "For the Department of Agriculture: For the Division of Dairy and Livestock, for enforcement of branding laws, \$8,263.00" for the reason that all activities of the Division of Dairy and Livestock have been included in the regular budget and appropriation acts incident thereto.

I disapprove and veto the item "For the Department of Licenses: To carry out the provisions of Senate Bill No. 213, \$25,000.00 (Expenditures not to exceed receipts)" for the reason that Senate Bill No. 213 failed of passage, therefore this appropriation will be unnecessary.

I disapprove and veto the item "For Inheritance Tax and Escheat Division: Salaries, Wages and Operations, \$6,000.00" for the reason that means will be found whereby this division can operate within the regular appropriation included in House Bill No. 450.

I disapprove and veto the item "For the University of Washington: To train teachers of physically and mentally handicapped children as required by the State Board of Education according to the provisions of Chapter 179, Laws of 1937, \$12,000.00" for the reason that a separate appropriation for this purpose from the General Fund is not necessary. I am instructing the regents of the University of Washington to make available \$12,000.00 or such portion thereof as is necessary for this purpose from the regular appropriation to the University.

With the exception of the foregoing items which are vetoed, the remainder of Senate Bill No. 433 is approved.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

On motion of Senator Murphy, the veto by the Governor of certain items, Senate Bill No. 433, as above set forth, was sustained.

The Secretary read:

State of Washington, Executive Department,
Olympia, March 21, 1939.

To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith to be transmitted to the Senate at the next session of the Legislature, without my approval as to item (f) of Section 9 and Section 33, Senate Bill No. 113, entitled:

"An Act relating to taxation; amending Sections 4, 5, 6, 11, 15 (a), 16, 17, 18, 19, 21, 25, 27, 31, 32, 34, 35, 36, 37, 45, 47, 82, 84, 87, 89, 188, 193, 199, 210(a), 211 and 219 of Chapter 180, Laws of 1935 (Sections 8370-4, 8370-5, 8370-6, 8370-11, 8370-15(a), 8370-16, 8370-17, 8370-18, 8370-19, 8370-21, 8370-25, 8370-27, 8370-31, 8370-32, 8370-34, 8370-35, 8370-36, 8370-37, 8370-45, 8370-47, 8370-82, 8370-84, 8370-87, 8370-89, 8370-188, 8370-193, 8370-199, 8370-210(a), 8370-211 and 8370-219, Remington's Revised Statutes), as amended by Chapter 191, Laws of 1937, and Chapter 227, Laws of 1937; repealing Section 8 of Chapter 180, Laws of 1935 (Section 8370-8, Remington's Revised Statutes) and Chapter 9, Laws of 1939; adding two sections to Chapter 180, Laws of 1935, to be designated Sections 8-a and 33 thereof; adding a new title to said Chapter 180, Laws of 1935, to be designated Title XIII thereof, imposing a tax with respect to the operation of certain coin-operated machines and devices and providing for the collection and enforcement thereof; and declaring an emergency whereby the act shall take effect May 1, 1939."

The exemption contained in item (f) of Section 9 is intended to encourage ship construction and repair work in this state. However, as the act is worded, the exemption applies to materials, equipment, parts of articles used in the construction or repair of commercial vessels moving in interstate commerce and does not apply to any service such as the labor going into such construction or repair. Therefore, the exemption would have little practical effect and would result in considerable confusion. I also doubt the propriety of the exemption when the main purpose of this amendatory act is to remove numerous other articles and services from sales tax exemption.

Section 33 may be readily construed as the opening wedge toward the legalizing and licensing of gambling devices by the state, and, while the state is in urgent need of revenue, I do not believe we need revenue badly enough to become a party to such a questionable business. Until the legal status of these devices has been definitely established by the courts, I feel the state should not give any gambling operation such indirect license or implied protection.

For these reasons, item (f) of Section 9 and Section 33 are vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

Senator Murfin moved that the Senate do not sustain the Governor's veto of Section 33, Senate Bill No. 113.

Senators Drumheller, Keller and Duggan demanded the previous question. The previous question was ordered.

The President announced that the question before the Senate is, shall the provisions of Section 33, Senate Bill No. 113, pass notwithstanding the veto of the Governor.

Senator Orndorff, moved that the veto of the Governor be sustained.

The President ruled that the motion by Senator Orndorff was out of order.

The Secretary called the roll and Section 33, Senate Bill No. 113, failed to pass the Senate, notwithstanding the veto of the Governor, by the following vote: Yeas, 12; nays, 32; absent or not voting, 1.

Those voting yea were: Senators Atkinson, Bargreen, Black, Jackson, Lovejoy, Malstrom, Morgan, Murfin, Percival, Ray, Thomas and Voyce—12.

Those voting nay were: Senators Baldwin, Balfour, Copeland, Dawson, Drumheller, Duggan, Edwards, Egbert, Farquharson, Gehrman, Haddon, Huntley, Keller, Lindsay, Marsh, Maxwell, McDonald, McGavick, McMillan, Miller, Moe, Mohler, Murphy, Neal, Orndorff, Roberts, Rosellini, Schroeder, Shorett, Stinson, Sullivan and Wall—22.

Those absent or not voting were: Senator McQuesten—1.

Senator Murfin moved that the Governor's veto as to item (f) of Section 9 and Section 33, Senate Bill No. 113, be sustained in its entirety.

The motion by Senator Murfin was carried.

The Secretary read:

MESSAGES FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, March 17, 1939.

*To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)*

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next Session of the Legislature, without my approval, Senate Bill No. 150, entitled:

"An Act relating to the reimbursement of the mayor and city councilmen of third and fourth class cities for expenses incurred in the discharge of their official duties, and to the payment of salaries to said officers, and amending section 7 of Chapter 184 of the Laws of 1915 and section 6 of Chapter 7, page 346, Laws of 1889-90."

There does not seem to be any general demand for this bill and it would necessarily result in increased tax burdens upon the taxpayers in our smaller cities and towns. Those public officials who would be affected by this bill are, in the main, people who willingly devote their time and effort to public service without thought or expectation of financial reward, and I believe such principle should be preserved. The offices of mayor and city councilmen in our third and fourth class cities and towns are not the type of public office to which a salary should attach, but rather are the type of public office which should be sought only by those who are willing to serve the public good.

For these reasons Senate Bill No. 150 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, Governor.

On motion of Senator Farquharson, the veto by the Governor of Senate Bill No. 150 was sustained.

The Secretary read:

State of Washington, Executive Department,
Olympia, March 16, 1939.

To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next Session of the Legislature, without my approval, Senate Bill No. 204, entitled:

"An Act Relating to the establishment of an unpaid commission to facilitate the cooperation of the State of Washington with other units of government."

At the last session of the Legislature I vetoed House Bill No. 551, which was identical in purpose and not materially different in detail from this bill. I am not aware of any change in conditions to justify a change in my action. The purpose of this bill may be worth while, but there would seem to be sufficient state agencies now created to carry out such purposes without creating another state commission, and without additional cost.

For these reasons, Senate Bill No. 204 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, Governor.

On motion of Senator McDonald, the veto by the Governor of Senate Bill No. 204 was sustained.

The Secretary read:

State of Washington, Executive Department,
Olympia, March 20, 1939.

To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 357, entitled:

"An Act relating to admission to the practice of law, amending section 8 of chapter 94 of the Laws of 1933 (section 138-8 of Remington's Revised Statutes)."

In 1933 legislation was enacted designed to raise the standard of the legal profession. The principle involved in this bill runs counter to the principle involved in the 1933 act by making service in the legislature the equivalent of training in college, accredited law school or law office, as qualification for eligibility to take the bar examinations. If the existing restrictions now placed upon eligibility to take the bar examinations are to be liberalized, there would seem no sound reason why such liberalization should be limited to legislative services only.

For these reasons, Senate Bill No. 357 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, Governor.

Senator Lovejoy moved that the Governor's veto of Senate Bill No. 357 be not sustained, and that the act become a law notwithstanding the veto of the Governor.

The President announced that the question before the Senate is, shall Senate Bill No. 357 pass notwithstanding the veto of the Governor.

The Secretary called the roll and Senate Bill No. 357 passed the Senate, notwithstanding the veto of the Governor, by the following vote: Yeas, 30; nays, 13; absent or not voting, 2.

Those voting yea were: Senators Atkinson, Balfour, Bargreen, Black, Drumheller, Edwards, Haddon, Jackson, Keller, Lindsay, Lovejoy, Malstrom, Marsh, Maxwell, McGavick, McMillan, Miller, Moe, Mohler, Morgan, Murphy, Neal, Percival, Ray, Roberts, Schroeder, Stinson, Sullivan, Thomas and Voyce—30.

Those voting nay were: Senators Baldwin, Copeland, Dawson, Duggan,

Egbert, Gehrman, Huntley, McDonald, Murfin, Orndorff, Rosellini, Shorett and Wall—13.

Those absent or not voting were: Senators Farquharson and McQuesten—2.

The Secretary read:

MESSAGE FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, March 19, 1939.

To the Honorable, The Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval, Senate Bill No. 382, entitled:

"An Act Relating to the taking and reduction of pilchards, amending section 1, chapter 137, Laws of 1935 (section 5721-1 Remington's Revised Statutes) and providing penalties for the violation hereof, and declaring that this act shall take effect January 1, 1940."

In 1935 an act was passed which permitted the operation of pilchard reduction plants. Senate Bill 382 would forbid operation of floating reduction plants which have been operated in this state as a result of the 1935 act. This has become a highly controversial subject. It seems to me that more study should be given to this subject before action is taken barring this type of plant. In view of the fact that the act would not take effect until January 1, 1940, I disapprove the same, believing that proper legislation may be enacted at the next session of the legislature if further study determines that such action is necessary. In the meantime, I shall ask that a definite survey, both from a conservation and business standpoint, be made of the industry so that the next session of the legislature may take whatever action may be found necessary.

For these reasons, Senate Bill 382 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

On motion of Senator Edwards, the Governor's veto of Senate Bill No. 382 was sustained.

MR. PRESIDENT:

The House has passed House Bill No. 257 of the Twenty-sixth Regular Session, notwithstanding the veto of Governor Clarence D. Martin, and said bill, together with the Governor's veto message, is herewith transmitted.

S. R. HOLCOMB, *Chief Clerk.*

The Secretary read:

MESSAGE FROM THE GOVERNOR

Executive Department,
Olympia, March 17, 1939.

To the Honorable, The House of Representatives of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the House of Representatives at the next Session of the Legislature, without my approval, House Bill No. 257, entitled:

"An Act creating a state library commission and prescribing its powers and duties."

This bill would result in the creation of another state commission. We are not convinced that it would result in any improvement in the management of the state library. The commission method of management was rejected by the Legislature after an extended trial, and it seems to me that any necessary improvements in the state library can be worked out by existing state officials without the additional expense necessarily incident to the operation of any commission.

For these reasons, House Bill No. 257 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

Senator Mohler moved that the communication from the House concerning House Bill No. 257, be referred to the Committee on Education.

Senator Farquharson moved that the motion of Senator Mohler be laid on the table.

The motion by Senator Farquharson was carried.

Senator Percival moved that House Bill No. 257 become a law notwithstanding the veto of the Governor.

Senator Lovejoy raised the point of order that no motion is necessary.

The President stated that the question now before the Senate is, shall House Bill No. 257 of the Twenty-sixth Regular Session pass, notwithstanding the veto of the Governor.

The Secretary called the roll and House Bill No. 257 of the Twenty-sixth Regular Session passed the Senate by the following vote, notwithstanding the veto of Governor Clarence D. Martin: Yeas, 35; nays, 7; absent or not voting, 3.

COMMUNICATION

Washington State Senate,
Olympia, February 4, 1941.

TO ALL SENATE MEMBERS:

There appears to be an excessive number of bills being introduced for additions and changes in the State Highway System, as well as bills appropriating funds for construction of particular routes.

It has been suggested that rather than to have all bills printed and considered separately, that any bills proposing changes, additions or appropriations for highways, be submitted to the Committee on Roads and Bridges for consideration, and that the Committee after considering all proposals will then prepare a bill incorporating any and all proposals of merit. This procedure will eliminate the cost in printing of an enormous number of bills, and at the same time will be just as effective in procuring the desirable Highway Legislative program. This same manner of procedure is being used by the House of Representatives.

J. P. KELLER,

Chairman, Roads and Bridges.

Senator Paul G. Thomas delivered the following eulogy on the life of former Senator George Clark Chamberlain:

George Clark Chamberlain was born in Chicago, Illinois on December 12, 1897. He came with his family to Seattle at the age of three years and lived there until the great war drew him into the service and he was with our army overseas for two years. After that time and until the beginning of the depression, he was engaged in the hardware business in West Seattle.

In 1932 George Chamberlain was selected by the Democrats in the 34th District as a candidate for the State Senate. He was nominated, elected, and served in the session of 1933 and the Special Session of 1934 as the first Democrat from his district.

In 1937 Senator Chamberlain went on business to Alaska and was killed in an airplane trip from Ketchikan to Juneau on February 12, 1939. George Chamberlain was a Past Commander of the West Seattle Post 160 of the American Legion. He has always been a model citizen, a staunch democrat, a credit to his district and to his party.

Senator Chamberlain leaves a wife and family, residing in Anchorage, Alaska.

Senator Frank L. Morgan delivered the following eulogy on the life of former Senator Easton C. Bratt:

It has been my fortune, my good fortune, to have grown up with the law of the State of Washington, and in doing so it has also been my good fortune to know many of the pioneer legislators who shaped the course and gave direction to our laws. These early legislators had a clear and opportune field to shape the course and destiny of the State as they saw fit. They labored earnestly and faithfully to build a commonwealth, and they did build a commonwealth of which we are justly proud.

Among these early legislators was the Honorable Easton C. Bratt. He was born in South Bend, Indiana, many years ago and came to California in 1873. In 1879 he came to Spokane County and took up a homestead near Plaza, and up to the time of his retirement was engaged in wheat raising in that community.

In 1923 he retired, and at the time of his death he was a resident of Greenacres in Spokane County. In 1905 and 1907 he represented the 5th Legislative District in Spokane County in the Senate.

He is survived by his wife Lucinda at the home, a son, Clem Bratt in Waverly, three daughters, Mrs. M. B. Chamberlain in Greenacres, Mrs. R. V. Grainger, in Centralia, and Mrs. T. C. Jones in Carlisle, Pennsylvania, a stepson, J. L. Hardesty in Vancouver, Washington, ten grandchildren and three great-grandchildren.

He was buried at Spangle in Spokane County. He lived a long and useful life in his community and had his share in forming the early course of the State of Washington.

Senator Harry Wall delivered the following eulogy on the life of former Senator E. C. Davis:

It is my privilege to say a few words in memory of former Senator E. C. Davis, who passed away of a heart ailment at his home in Yakima on September 26, 1940.

Senator Davis was a banker by profession, who lived in Waterville and Ephrata for 26 years before taking up residence at Yakima in 1928. He served one term in the House of Representatives in 1907 and was a member of the Senate during the 1909 and 1911 sessions, having played a great part in dividing one large county into the present three counties of Douglas, Ferry and Grant.

Senator Davis, a life-long Republican, was a valued citizen, devoting his ability and loyalty to the interests of his community and state.

He is survived by his widow, three daughters, two brothers and two sisters.

Senator H. N. "Barney" Jackson delivered the following eulogy on the life of former Senator G. B. Kerstetter:

The late Senator G. B. Kerstetter was fifty-eight years old at his untimely death. His family came to the state in 1889, settling in Aberdeen.

He was employed as an exclusive Agent in freight and passenger service for the Northern Pacific Railroad for twenty-two years at Cle Elum and South Tacoma.

Senator Kerstetter was second president of the South Tacoma Booster Club.

He gained a state-wide reputation in his profession as a chiropractor and was named to the State Board of Examiners in 1932, which position he held until his death.

He was elected to the Legislature in 1935 and served from that time until his friends sought him to run for Mayor of the City of Tacoma to which he would have been elected had it not been for his untimely death on March 8, 1940, five days before the general election.

Senator Kerstetter was Charter Member No. 1 of the Tacoma Fire Fighters Union.

Senator Kerstetter was a man loved by all his friends, not only in Tacoma, but over the State of Washington as well. Survived by his wife Lottie and one brother.

Senator Lulu D. Haddon delivered the following eulogy on the life of former Senator Paul Mehner:

Senator Paul Mehner, a life-long democrat, a pioneer of the State of Washington, died November 24, 1940, leaving a widow, five daughters and a son; and thus closing another career of the builders of Washington.

He was born in Saxony, Germany, on June 22, 1872, and came with his parents to Ohio when he was nine years old. Four years later they came to Seattle, where they resided a short time before moving to a farm near Tracerton.

About forty-two years ago he came to Bremerton and began to take an active part in the development of that city. He was the first Clerk of the city, holding the position for ten years. He served as Mayor for two years, many years as a school director and one term as port commissioner.

He was a member of the Methodist Church and a trustee for many years, and was affiliated with the Eagles, I. O. O. F. and Woodman's Lodges.

And one more of our pioneers has passed to his reward.

You have given up the toils and trials of this world to move on to a higher destiny . . . but you leave behind beloved ones to carry on . . . and in the citadel of their hearts your memory shall always linger . . . and your legion of friends bow in respect of the memory that you give. Well done, now rest, Senator Paul Mehner, a lowly immigrant boy who rose to the heights of a most humble and worthy American!

As an immigrant boy to these shores, you, by industry, honesty and faithfulness to work and duty found your life's niche, and the vast circle of your friends you made in your brief but active span of life attests to the high character which was yours.

Manette and its area you helped so much, now say Adieu, Farewell.

Senator Leo A. McGavick delivered the following eulogy on the life of former Senator Ralph Metcalf:

Not yet two years ago, a similar joint service was conducted in this chamber. The chairman of the Senate Committee on Memorial Services, the Dean of the Senate, was escorted to his seat on that rostrum. He was the late Senator Ralph Metcalf—striking in carriage, a gentleman in truth, who then knew his remaining days of life were very few and who died shortly following the close of the last session, on Friday, April 14, 1939.

This man, Ralph Metcalf, who was honored by Republicans and Democrats alike, was born November 2, 1861 in Providence, Rhode Island, the son of Mr. and Mrs. Alfred Metcalf, a pioneer, substantial and well known family of New England. He received his Bachelor of Arts Degree in 1883 from the University of Michigan at Ann Arbor. Subsequently he studied law and medicine and was admitted to the Bar at Tacoma in 1902. From 1885 to 1889, he was Editor of the Winona Herald and

while in Winona, he married Edith Simpson who followed him in death December, 12, 1939.

With his bride, the Senator came to Washington in 1889, where he and an associate purchased the Tacoma Globe. In 1894 he became Secretary-Treasurer of the Metcalf Shingle Company which at one time operated the largest shingle mill in the world.

He began his long and distinguished career as a member of this Legislature, in the session of 1907, and without a break, attended seventeen regular and three special sessions, giving him the honor of having served longer than any other man.

Of most men we can well say in the words of the poet:

"A Prince once said of a King struck down
Taller he seems in death
And the word holds good, for now as then
It is after death that we measure men."

But in this man, Senator Metcalf, we recognized greatness even prior to death. He was a Progressive Republican and during the thirty-two years of his service here, was either actively identified with or sponsored himself most of the progressive legislation of this State. He introduced the direct primary law; he was especially interested in requiring compulsory attendance of children in school, in the Womens Suffrage Amendment, the Workmens Industrial Insurance Act, the eight hour law for women, and although a man of wealth, the State Inheritance Tax Law.

In addition to his career as State Senator, he was often given national recognition. He was a confidential adviser of Theodore Roosevelt. He was an authority on rural credits and agricultural cooperative unions, and twice served on United States Commissions for the study of European economics. From his studies came the Federal Farm Loan Act.

You who served with him in the Senate know he held no bitter hates or resentments but was always moderate and considerate in his attitude toward political opponents.

Even while he traveled, he shared his trips with thousands by writing extensive travelogues.

We realize that it was his devotion to duty that shortened his life. He was warned by his doctors that attendance at the last session would be a serious drain upon his health. Yet his sense of duty compelled him to participate in the deliberations. "Greater love than this no man hath than that he lay down his life for a friend."

In Senator Ralph Metcalf's passing, his daughter Mrs. Elizabeth Metcalf Fogg lost a beloved father, the 26th District, Tacoma, and the State of Washington, lost a beloved citizen who had given years of service to his fellowmen.

Senator Roderick A. Lindsay delivered the following eulogy on the life of former Senator John H. Smithson:

John H. Smithson was a member of the House of Representatives from Kittitas County in 1893, and later served as a member of the Senate from Chelan and Kittitas Counties in 1909 and 1911.

He was born in London, Canada, September 29, 1856. At the age of fourteen he lost both his father and mother, and two years later left school and moved to Oregon Territory, where he began farming. In 1879 he moved to Ellensburg, where he lived until the time of his death. There he became extensively interested in stock and farming, and later became president of the Washington State Bank of Ellensburg. As one of the promotors of the Ellensburg Irrigation Company he did a great deal to enhance the value of real estate throughout the valley and invite new settlers to become residents. He was one of the promotors of the Cascade Canal. In addition to serving in the state legislature, Mr. Smithson served the city either as a councilman or mayor for twelve consecutive years, and worked diligently for the location of the state normal school at Ellensburg.

A life-long Republican, Mr. Smithson was active in public affairs all during his career and devoted his time and energy untiringly to the interests of the state of Washington and the community in which he lived.

He died December 22, 1940, at the age of 84.

Senator W. R. Orndorff delivered the following eulogy on the life of former Senator William J. Sutton:

William J. Sutton was born on a farm in Lapeer County, Michigan on September 29, 1865. He obtained his early education in the public school in his district, and alternately taught school, and from the meager salaries of those early days, saved sufficient money to pursue his studies in the normal school in Fenton, Michigan, from which he graduated in 1886. The following year he came to Washington, settling in Cheney, and from the time the Cheney Normal School was established to the very close of his life, he was actively identified with that school—as teacher, as president, or as an influential friend.

He served four terms in the State Senate, the last being in 1931, during which time he was President pro tempore. He was a stalwart Republican and exerted a powerful influence in the councils of his party and in our present educational system.

He died at his home in Cheney, December 2, 1940, at the age of 75.

It is worthy of note that notwithstanding the lack of higher institutions of learning in those early days, so many of our leaders in the business, professional and political life of our country, by alternately working and studying, rose to prominence and often to eminence in their chosen occupations and left an impression on our institutions and on our form of government, which I pray God may endure until time merges into eternity.

Senator Don T. Miller delivered the following eulogy on the life of former Senator Dr. J. I. Pogue:

A few months ago there passed on in Okanogan County a man, who for more than half a century, exerted a magnificently constructive influence on the development of Okanogan County and of the State of Washington. I feel very keenly the honor accorded me in being allowed to speak today a brief eulogy to Dr. J. I. Pogue. Dr. Pogue was a member of the Lower House in 1903; and in 1905 and 1907 he was a distinguished member of the Senate.

Dr. Pogue was born in Hillsborough, Ohio, on August 14, 1848, and was well past 91 at the time of his passing.

He graduated from medical school at Northwestern University with the class of 1877 and practiced medicine for a considerable time in the mid-west before coming to Washington in 1886.

He settled on the large flat above the present towns of Okanogan and Omak, and this area which produces a sizable part of the apple tonnage of Okanogan County bears the name of Pogue Flat.

He was the moving spirit behind the development of the Okanogan Irrigation district which was the first irrigation district constructed in the United States under the Reclamation Act, and he was one of the earliest shippers of fruit from the Okanogan Country.

Although Dr. Pogue intended to give up the practice of medicine when he came to Washington, physicians were scarce in those days and on many occasions he rode on horseback many miles to attend the sick or to usher new babies in the world. Tales of his devotion to the ideals of his profession are frequently told in Okanogan County.

Dr. Pogue was a life-long member of the Presbyterian Church. He was instrumental in the establishment of churches of that denomination in both Okanogan and Omak. It was a matter of great pride to him that his two sons-in-law, the Rev. David Brown and Dr. James Thomson, are ministers of the Presbyterian Church, Dr. Thomson being Superintendent for the State of Washington at this time.

Dr. Pogue is survived by Mrs. Pogue, who at 85 maintains a keen interest in public affairs, and by his two daughters, Leta and Grace.

Words are not adequate to express the gratitude which the people of Okanogan County owe to this sterling pioneer. All of us who are residents of that county were glad, however, that he was spared to us for many years during which we were able on many occasions to express to him the high regard in which we held him.

Senator Fred S. Duggan delivered the following eulogy on the life of former Senator Warren W. Tolman:

Time would not permit on an occasion such as this, nor shall I attempt, to make any adequate presentation of the facts concerning the late Warren W. Tolman which

entitle him to the high place he enjoys in our esteem. He was known throughout the state throughout his later years as a judge of the Supreme Court of the state of Washington, but he is honored here on this occasion because of the fact that, in his earlier life, he was a member of this body. He served as a member of the Senate in the sessions of 1901 and 1903.

Many of the members of the legislature come to contribute what they can from their many years of experience and their maturity of judgment to the solutions of the momentous problems of government. Many others, younger men, make the contribution of their youthful energy, their zeal, and their patriotism to the same end. They all appreciate the opportunity of serving the state, but this latter group has a further opportunity, and that is to learn in the finest school of all the many divisions and ramifications that the state has erected for the purpose of serving its people.

Judge Tolman came as a comparatively young man and, through his earnestness and zeal, acquired a thorough knowledge of the many kinds of service that the state needs, and, through it, he found his particular niche and, thereafter, devoted himself to what became his main life work. He became a judge of the Supreme Court of this state and served thereon continuously for nineteen years, until his failing health made it impossible for him to contribute more. It is fair to say he contributed the best years of his life to the service of the state in the particular field which best fitted him.

We honor him today for his various public services, but, on this occasion, because of the fact that he was one of us and found his first acquaintance with the opportunities to serve in this way in this legislature. It is very proper that we honor him as one of us.

(For eulogies on the lives of former members of the House of Representatives, see House Journal of this date.)

Senator Moe:

"I would like to call upon Representative Zent to come forward and make an announcement."

Mr. Zent:

"Mr. Chairman, I just received a dispatch a few moments ago, and this being a memorial service for deceased legislators, I would like to convey this message to you.

"Spokane, Washington, February 10. Fred A. Adams, pioneer Spokane resident and Washington legislator, died in his sleep of heart attack sometime last night, it was announced today.

"Adams served as Speaker of the House during the 1919 legislative session."

"Due to the shock and suddenness of the message, I am not prepared to deliver an eulogy but with your permission, Mr. Chairman, I would appreciate the opportunity to prepare a proper eulogy to be included in the minutes of the proceedings of this day."

Senator Moe:

"It has indeed been a privilege and an honor for us to gather here today and pay our respects to those members of both houses of the Legislature who have died during the last two years.

"This completes our memorial services, and I will now turn the gavel over to Senator Lovejoy, President pro tempore of the Senate."

By Senator Atkinson:

WHEREAS, since the estimates of the Governor and the Social Security Department, for old age assistance for the ensuing biennium, were made and transmitted before the state plan was approved by the Federal Social Security Board, and

WHEREAS, the figure of forty-three million dollars (\$43,000,000) is barely sufficient to provide for the present forty thousand pensioners on the rolls, at even the average of thirty-four dollars (\$34.00) a month, plus medical care and funerals, and

WHEREAS, the state auditor has estimated a budget of fifty-eight million five hundred thousand dollars (\$58,500,000), based upon sixty thousand pensioners, and the Washington Old Age Pension Union, sponsors of Initiative No. 141, has estimated sixty-six million dollars (\$66,000,000) as the bare minimum, and

WHEREAS, even a larger sum than sixty-six million dollars (\$66,000,000) will be required if the courts uphold the full provisions of Initiative No. 141 which had the approval of 358,000 voters in the state, a 100,000 majority;

Now, Therefore, Be It Resolved, that the Senate of the State of Washington call upon the State Social Security Department to revise its estimate of old age assistance needs for the ensuing biennium, to provide for at least twenty thousand additional pensioners, who will be eligible under the present plan approved by the Federal Social Security Board, and

Merle Chessman, Astoria Publisher and member of Oregon Fish Commission.
M. T. Hoy, Master Fish Warden for the Oregon Fish Commission.

Senator Thomas Joyce of Washington acting as chairman pro tem after a brief statement as to the purpose of the conference, introduced Mr. Loyd A. Royal, Chief Biologist of the Department of Fisheries of Washington as the first speaker.

Mr. Royal presented a discussion of the conditions and effects of the Columbia River salmon fisheries. It was stated, that the spring closed season had protected the spring run of Chinook salmon by permitting 30 to 50% escapement of that population. No closed seasons have been provided for the summer run and 10% or less of these fish escaped the commercial gear. He stated that 10% was not sufficient and that additional closures were absolutely necessary. The fall run has been protected by a 15 day closed season which allowed approximately 50% escapement. Catch records show that the spring run regardless of the fairly high escapement had shown a decline in abundance of approximately 10 to 1 and had declined 40% in the past ten or eleven years. The summer run also has declined approximately 40% in the past 10 years. The fall run has approximately stabilized itself at a fairly high level and the late fall run has actually increased 10 to 12% each year. Royal stated that the reason for the serious

depletion in the spring runs was primarily the result of spawning ground conditions rather than over fishing. The decline in the summer run was caused almost entirely by over fishing and the high abundance of the fall run was caused by the maintenance of favorable spawning conditions. He stated that the spring run above the Bonneville dam always was and is now the most important portion of the Columbia river spring Chinook run. He pointed out that the Willamette, Cowlitz and Lewis River spring Chinook runs entered the river prior to the opening of the commercial season and had never been taken by the commercial fishermen, at least in recent years. A brief description of the spawning tributaries above the Bonneville dam and the condition of the spawning grounds therein was presented. Deschutes: Not affected by dams at present, but several unscreened diversion ditches are present and considerable Indian fishing is carried on. John Day: No serious dams but many unscreened diversions. Umatilla: Stream bed dried up and rendered worthless to salmon propagation because of Federal reclamation projects and dams not equipped with proper fish protective facilities. Grand Ronde: Many ditches with no screens and the dam at Wallowa Lake not being equipped with fish ladders has destroyed a valuable Blueback run. Malheur and Owyhee: Both of these streams, have been ruined as salmon producers by federal reclamation projects and water diversions. No fish protective facilities were provided. Klickitat: No dams or diversions but serious Indian fishing located near the mouth. Yakima: Over 100 ditches and 10 dams have been constructed on this stream which have seriously depleted the Chinook, Steelhead and destroyed the Blueback run. Several reclamation dams are not yet equipped with fish ways but most of the river has been rehabilitated by mechanical fish screens and fish ways. Wenatchee: This river has also been seriously injured by lack of fish ways and fish screens, but it is now completely protected. Methow: Has 40 water diversions, many of which are now screened. Entiat: Several dams and water diversions which are just now being protected. Spokane: Salmon runs destroyed by power dams. Upper Columbia not affected in any way until the construction of the Grand Coulee dam. This stream was represented as one of the principal spawning grounds of the summer run of Chinook. Tucannon: One dam and many water diversions which are now being screened. Clearwater: The Clearwater has been seriously injured by a dam at the mouth without adequate fish ladders. This dam has now been equipped with modern fish ladders and is awaiting a restocking program. Salmon River: *Mr. Royal stated that the Salmon River in Idaho is the only stream above the Bonneville dam that still produces a substantial run of spring Chinook.* There are no existing dams of any importance although there are a few water diversions that are unscreened. Payette: A dam 96 feet high constructed by the U. S. Reclamation Service near the mouth of this river has completely destroyed a valuable Blueback and spring Chinook run. Boise: River dried up by power and reclamation projects, salmon runs completely destroyed. Weiser: One dam and several unscreened water diversions. Royal stated that the state of Washington had obtained fish ladders and fish screens in recent years from the Federal Government on their projects located in the state of Washington through the vociferous demand of the commercial fishermen and sportsmen. He also stated that the United States Fish and Wild Life Service could through the Federal Power Commission obtain adequate fish protective facilities on all federal projects, but such facilities had not been obtained in Idaho and Oregon because of the lack of coordinated demand on the part of the districts affected.

Discussing the condition of the other species, he stated that the Steelhead had not shown signs of depletion prior to 1926 but that a 40% decline in abundance had been registered since that date, caused primarily by conditions on the spawning grounds. The Blueback run had declined to 10% of its original abundance and today only one run remains in the entire Columbia River watershed, that run being dependent on the efficiency of the Leavenworth Hatchery operations being carried on by the Federal Fish and Wildlife Service. He stated that there was no indication of depletion in the Chum salmon runs, but pointed out that all of the races of this species spawned in the unaffected areas below Bonneville Dam. The lower river races of Silver salmon also have not shown any signs of depletion, but the upper river races have been almost completely destroyed by water diversions. In conclusion, Mr. Royal stated that regardless of what action might be taken at this time or regardless of how drastic that action might be, the Columbia River salmon would continue to decline in abundance for possibly the next ten years. He said that unless action was taken to coordinate the conservation activities of the three states and to bring about a co-ordinated stream improvement program with congressional support, that the commercial salmon industry sup-

ported by the runs of salmon spawning above the Bonneville Dam, was doomed to rapid extinction.

Senator Voyce thanked Mr. Royal for the very constructive information and then introduced Mr. Joe Craig, Biologist of the United States Fish and Wild Life Service as the next speaker.

Mr. Craig gave an outline of their records for the Columbia River fisheries as they are recorded in the files of his office. He stated that salmon were first taken in the Columbia River in 1860, primarily for salt or mild curing. In 1866 the first salmon canning operations commenced and by 1883 over 40 million pounds of Chinook salmon were taken annually. Because of the high quality of the spring and summer fish, the catch of 40 million pounds was taken almost entirely from these runs. Because of the poorer quality of the fall runs, the latter were not utilized. Over-fishing occurred and the increasing civilization brought about the construction of dams and water diversions for irrigation uses. These two factors combine to decimate the Spring Chinook runs to considerable extent. Depletion was observed even prior to 1890 and with the exception of a short period of apparent stability, have continued to decline to date. In recent years these runs have produced less than 4 million pounds annually. Mr. Craig stated that there had been considerable increase in efficiency of the gear used in catching these fish since the beginning of operations on the Columbia river and on the basis of existing conditions it was evident that the remaining runs of salmon in the Columbia river represented a very resistant stock. His records on the Blueback salmon indicated that its greatest value was obtained between 1887 to 1900 and since 1923 there had been a pronounced fall in the catch to less than 1 million pounds annually from the original high of 4 million pounds annually. The first reason for the reduction of the Blueback stocks was over fishing, but since then dams and diversions have seriously injured their natural spawning grounds.

He referred to pollution on the Willamette river especially as a contributing menace to the future abundance of salmon and revealed that off-shore trolling between California and Southeastern Alaska took a substantial number of Chinook and Silver salmon originating in the Columbia river and that this fishery was completely unregulated. Referring to the lack of fish protection facilities on the Federal projects on the Columbia river, constructed in earlier years, Mr. Craig stated that their Bureau had been advised that there would be no further dams or diversions built by any agency of the government without adequate fish ways and other necessary fish protective devices. He stated that there were large areas in the three states which could be rehabilitated by restocking but that it was necessary to have proper escapement through the commercial gear before permanent rehabilitation could be accomplished.

Senator Pearson of Oregon asked Mr. Craig what he thought of the efficiency of commercial salmon hatcheries. In answer to that question, Mr. Craig stated that he was not in the fish hatchery division of the Fish and Wild Life Service, but that it was his personal opinion that in order to produce a large number of salmon by this method it would take an expenditure of a considerable sum of money, since taking of eggs and rearing the fish in rearing ponds required considerable economic outlay. He stated further, however, that it would be necessary to carry on at least limited fish cultural operations if the now barren areas were to again produce the salmon of the race and species that originally existed in that area.

Senator Voyce thanked Mr. Craig in behalf of the Joint Committee for his comments and then asked if there was anyone present who would like to talk. No one responded.

Senator Franciscovich then suggested that the joint committee go into executive session and the guests were excused from the room, with the exception of Mr. Maclay of Idaho who was unanimously invited to sit in on the executive session.

Senator Franciscovich then called the attention of those present to Section 5 a of the proposed outline procedure of the Joint Fisheries Committee, which read as follows: "Suggested program for Oregon adoption to match efforts of Washington.

"Grant flexible regulative power to Oregon Fish Commission to permit closing of seasons during periods of intensive migrations for mutual benefit to both states. Seasons to be opened or closed only with the concurrence of the duly constituted fisheries authorities of both states."

He pointed out that Oregon had not accepted his bill which would have granted such regulative powers inasmuch as it had been unanimously defeated in the Senate the previous day, and that he doubted the advisability of trying to revive it during the present session. He stated that he believed the bill's defeat was due to a lack of

understanding and information on the part of the members of the Oregon legislature but nevertheless he felt it was not wise to push the matter this session. He suggested that an interim committee be appointed by both Oregon and Washington to jointly investigate the Columbia river situation which would report its findings to the next session of the legislature.

Representative Lonergan said that he very strongly favored cooperating with the state of Idaho so that she could have some trout hatcheries in consideration for her protection of the spawning grounds and this was met with the approval of the entire group.

Mr. David J. Maclay, Director of the Department of Fish and Game for Idaho, stated that even though the state of Idaho had little interest in the salmon industry as a whole she would go all the way in cooperating to preserve the industry. He stated, however, that his department thought that the escapement through the Lower Columbia was not sufficient to allow Idaho to carry on good propagation.

Senator Franciscovich then brought up for discussion the matter of establishing an interim joint committee or commission to work out details for recommendations to the respective states.

Senator Voyce showed Senator Franciscovich the legal opinion of the Attorney General for the state of Washington showing that a tri-state interim committee could be set up.

Motion was then made by Senator Franciscovich that an interim committee be appointed, comprising two members of the Senate to be selected by the President of the Senate and three members from the House to be selected by the Speaker of the House, with not more than a total of six members from each state, said committees to report back their findings to their respective legislatures at their next session of the legislature.

It was suggested that Senator Franciscovich include in his motion the invitation for Idaho to have the same representation if she so desired.

Senator Franciscovich restated his motion so as to include this invitation.

The motion was seconded by Representative Lonergan and was passed unanimously.

Senator P. J. Stadelman asked if he might make a few comments to which Chairman Voyce replied that he could.

Senator Stadelman stated that he had been in the fish business since he was 12 years of age and some of the same Indians were still fishing there at The Dalles at the present time. He stated that 80% of the fish are being taken by Indians and they are allowed to sell them to make a living; otherwise, they would be on relief and he did not wish to see this happen.

He made it quite plain that if the interim committee were appointed that the upper river district be represented so that the river above Bonneville dam would be adequately cared for. He also suggested the curbing of troll fishing outside the river mouth. He said that all gear with the exception of one gill net was closed above the Bonneville and the remaining piece of gear would be taken out this year. He said that Indian fishing was all that remained and that advancing the season ten days would put the Indians out of business. He stated that last year showed the largest fall run in the history of the river.

Mr. Lonergan assured Senator Stadelman that those interests would be provided for in the appointment of the committee.

General discussion followed as to the proper membership to constitute the committees. Senator Jackson stated that this question would be left to the respective legislatures.

Senator Jackson advised the group that Washington would introduce her resolution as a committee bill.

Senator Franciscovich said that Oregon would follow the suggestion of Washington in the matter and that they would like to see the resolution to be presented.

Senator Jackson also suggested that the two states send a memorial to Congress regarding this pact, requesting that a sufficient appropriation be earmarked for the State of Idaho for additional hatcheries; said memorial to be first submitted to the Oregon legislature for its consideration and approval.

The meeting adjourned.

COMMUNICATION

UNITED STATES SENATE
Committee on Interstate Commerce
Washington, D. C.
February 18, 1941.

The Honorable Victor A. Meyers,
Lieutenant Governor,
Olympia, Washington,

Dear Governor:

Enclosed is a letter addressed by your delegation in Congress to the State Senate. The delegation will appreciate it if you will present this letter to the Senate and have it read into the Record as a petition from the members of Congress representing our state.

We consider the problem discussed in this letter as of great importance.

With kind regards,

Yours sincerely,

HOMER T. BONE.

UNITED STATES SENATE
Washington, D. C.
February 20, 1941.

Washington State Senate,
Olympia, Washington.

GENTLEMEN:

The members of your entire delegation in Congress have, in and out of season, energetically fought to secure the necessary appropriations to complete the Grand Coulee and Columbia Basin developments and appurtenant electrical systems. In the entire history of our state no fact has been more widely publicized than the truthful assertion that these plants would supply our people with the cheapest electric energy in the United States. We faced a universal demand for their completion. That demand has been met by the Federal Government.

Now we confront the fact that unless this power is brought to the people without compelling them to pay a tribute of profit to eastern-owned power companies, the dream and the hope of power at actual cost will, in a large measure, have to be abandoned. It is our sincere conviction that the people of our state never contemplated that these vast Federal projects should be used as adjuncts of, or to sustain existing private power companies. On the contrary, our people fully expected that these great pools of public power would deliver electric energy to the people of our state free from the inescapable burden of profit exacted by the power trust to sustain its capital structure.

This issue must be met head-on. The problem of distribution of this public power presses for solution and it will not admit of further delay. These great Federal power projects will soon be ready to deliver the vast quantity of cheap power promised to the people. If any sort of barriers stand in the way, it is our duty, as members of Congress, to enlighten the people concerning them, and try to remove them.

A case in point is the dilemma now confronting the people of Spokane, who face the imminent possibility of the council of that city again granting a long-term electric franchise to the Washington Water Power Company. Such a franchise was recently granted by the city council and would be effective now save for a recent court decision which does not prevent the city council from renewing the grant.

Since the council saw fit to grant a private power franchise, it is a fair assumption that it will act favorably on another application by the Washington Water Power Company where the power franchise application is not coupled with an application for another and different type of franchise, as in the former case. It was this blending of the two applications that brought the suit, which temporarily held the matter in abeyance. That difficulty is now eliminated and the way is paved for a long-term power franchise to be granted by the city council.

Every lawyer in our state is familiar with certain statutory provisions which have been subject to interpretation by the Supreme Court of Washington. These apply to franchises granted by cities to private power companies. The statutory language confers upon the "legislative authority" of a city (the city council) the exclusive power to grant such franchises, and these decisions deny to the people of a city a right of referendum on the franchise granted by the council.

Since the people of Spokane were so unanimously in favor of the building of the Grand Coulee power project and were repeatedly assured that they would be the beneficiaries of its cheap power, why deny them the right to determine the course their city is to pursue in the handling of the power question? Unless the legislature changes the law in this slight particular, this right will be completely denied, and the action of the city council in dealing with a power franchise will be final.

Without going into the reason for the adoption of a law or laws containing such language, the judicial interpretation of the words "legislative authority" actually translates these words into about as clever a power-trust joker as can be found in any statutory language. So long as these words remain in the law the people of our cities will be denied the right to pass on power franchises. The issue presented goes to the very heart of the power problem in our state. The legislature should, and we believe it will, immediately remove this joker from our statute books. City councils can now lawfully farm out long-term franchises to private power concerns in our state and thus, in a large measure, effectively tie the hands of cities, possibly for a quarter of a century. In light of our present development, this situation has become intolerable. It is a barrier to the fullest utilization of power resources which we created. We want the people of Spokane and every other community to enjoy the full benefits that will flow from the unobstructed use of Grand Coulee power. It is impossible to find

justification for a denial of the right of voters to pass judgment on every aspect of the question of public or private operation.

We now urge the Washington State legislature immediately to amend these statutory provisions and by such amendment expressly grant to the people of every city in our state the right of popular referendum on any franchise granted to a private power company. We are convinced that a refusal to grant this simple relief will merely intensify the power controversy. The cities belong to the people and not to a few men, however wise and well intentioned they may be. The world faces a great struggle to determine whether democratic processes shall survive, and we hope that the legislature will not repudiate the democratic principle of the referendum.

Sincerely yours,

THE WASHINGTON DELEGATION IN CONGRESS,

United States Senator.

United States Senator.

MESSAGE FROM THE GOVERNOR

State of Washington, Executive Department,
Olympia, February 21, 1941.

To the Honorable, The Senate of the State of Washington:

LADIES AND GENTLEMEN:

I am returning herewith, without my approval as to a certain section, Senate Bill No. 51, entitled:

"An Act relating to school district elections and providing for the qualifications of electors."

This bill is approved with the exception of Section 2, which is vetoed.

Section 2 is unnecessary since the enactment of Section 1 into law will supersede any conflicting statutory provisions. In addition, the provisions of Section 2 are not mentioned in the title of the act. This section can result only in confusion and might conceivably act as a repeal of some salutary provision of law which would be desirable to retain at the present time or to have available for operation if, at some future time, the legislature should repeal this act.

For this reason, Section 2 is vetoed, and the remainder of the bill is approved.

Respectfully submitted,

ARTHUR B. LANGLIE,
Governor.

MOTION

Senator Lovejoy moved that the Governor's veto of section 2 of Senate Bill No. 51 be sustained.

The motion of Senator Lovejoy was carried.

MR. PRESIDENT:

We, your Committee on Claims and Auditing, in compliance with the Senate Rules, have audited the claims and accounts of the Senate up to and including February 23, and report as follows:

Warrants issued and bills outstanding up to and including the 42nd legislative day for the Senate total the sum of \$54,187.42. Warrants issued and claims outstanding in the House amount to approximately \$74,000. The grand total of legislative expenses to this date is approximately \$128,000, which is in excess of the appropriation included in Senate Bill No. 1 by approximately \$3,000.

It is the opinion of your committee that to overcome this deficit and maintain the legislature with its present staff of employees until the adjournment of the 27th Legislative Session, and to properly provide for the necessary expenses of closing the business of said session will require an appropriation of an additional \$75,000.

The committee retired.

The special committee announced the arrival of His Excellency, Governor Arthur B. Langlie, and escorted him to a seat upon the rostrum.

The President:

"Members of the Legislature, His Excellency, the Governor of the State of Washington."

Governor Arthur B. Langlie addressed the Joint Session of the Legislature as follows:

ADDRESS OF GOVERNOR ARTHUR B. LANGLIE

Mr. President, Mr. Speaker, Ladies and Gentlemen of the Legislature:

When I addressed you in joint session on January 13th last, I said that this is a time for honestly facing the facts, and for acting fearlessly with a full knowledge of the facts, and that only in this way can we measure up to our full obligations and duties as citizens and as representatives of the people of this state.

It is in that spirit that I appear before you today,—to honestly face most vital facts that have been disclosed by new and important information which has come into my possession,—and to ask you to join with me in meeting the situation which those facts create.

When I appeared before you six weeks ago yesterday I presented what I then believed would constitute a complete and practicable program for meeting all of the financial requirements of the state during the next two years. In carrying out this program, there have been four tax measures introduced by executive request. These measures together with operating economies and increased revenues from the existing tax structure would have provided a balanced operating budget for the coming biennium on the basis of expense estimates then available.

Of course the big question mark at the time the original program was prepared was the sum of money which would be needed to carry out the provisions of Initiative Measure No. 141. There being no actual experience upon which to predicate those financial estimates, it was necessary to depend upon conclusions and deductions which could be drawn only from meager sources of information then available.

The Federal Social Security Board approved the state's revised old age assistance plan in time so that the State Social Security Department was able to put Initiative 141 into operation on March 1st, 1941.

This has meant that the Department has had an opportunity to adjust its present accounts to fit the new plan, and to accept and consider new applications. From this activity the department has been able to assemble some very detailed and comprehensive data to replace the conjecture and guess-work which was necessarily their only basis of computation heretofore.

To summarize this new information briefly, we now find that instead of having 120,000 persons of the age of 65 years or older living in this state, we have approximately 140,000; instead of having an original enrollment of 40,000 qualified for old age assistance, we will have approximately 52,000; instead of having a final enrollment of 50,000 pensioners at the end of the biennium, we will have 65,000; and instead of having an average old age assistance enrollment of 45,000, we will have an average enrollment of 60,000!

The old age assistance program, under Initiative Measure No. 141 will therefore require \$54,400,000, instead of the \$42,800,000 figure previously used. This means a further increase of \$11,600,000 in state and federal funds. As for state funds alone, this new data indicates that, over and above the sums mentioned in my January message to you, old age assistance benefit must be increased \$5,000,000; medical care benefits must be increased \$1,000,000 and the burial expense item must be increased \$180,000. The total increase in state funds for the forthcoming biennium is, therefore, approximately \$6,180,000.

It is recognized that Initiative Measure 141 constitutes a mandate from the people to provide the funds which will make possible the full payment of benefits which that measure contemplates. The imposition of new taxes is not a pleasant thing, but the people of our state have placed upon us the responsibility of carrying their will into effect. We must assume that the people intended us to provide the funds with which to pay these old age benefits. The task was left to us to say how those funds should be raised; what sources of revenue are available; which method of raising these funds will be adequate, practical and fair. The previous measures which I have submitted were, in my opinion, adequate, practical and fair to meet the financial needs of the state as they were then known. They are not adequate to meet those needs in the light of the facts now available.

I believe that it is my responsibility, as Governor, to indicate what further revenue measures will be necessary to meet this situation. It is a responsibility which I have always recognized and which I wish to discharge at this time. I have with me here, and will present copies thereof to your respective presiding officers for introduction, a bill embodying the following provisions:

First: Declaring that Initiative Measure No. 141, approved by the people at the general election of November 5, 1940, provides for greatly increased grants and other benefits to citizens over the age of 65 years. That, to obtain funds, necessary to meet this mandate of the people and to carry on all other state functions, it becomes essential for the state to provide a practical and adequate means for raising substantial additional revenues and that it is recognized that the only practical and adequate source of revenue to meet these financial requirements is either a Graduated Personal Net Income Tax, or an increased Retail Sales Tax and Compensating Tax.

Second: Declaring that while under existing constitutional provisions the Retail Sales Tax and Compensating Tax may be increased, it is not known whether a Graduated Personal Net Income Tax enacted at this legislative session would be declared constitutional by the courts without a validating constitutional amendment. That for the purpose of assuring the adoption of a valid method of providing such increased revenue and at the same time allowing the people to decide which type of taxation they prefer, there shall be enacted an increase in the Retail Sales Tax and Compensating Tax from 2% to 3% after the effective date of the act. That such increase remain in force and effect unless and until the state enacts a graduated personal net income tax and such tax is judicially sustained.

Third: Abolishing the tax token and providing that the buyer will not pay a retail sales tax on purchases of less than fifteen cents.

Fourth: Authorizing the Tax Commission to adopt rules and regulations prescribing methods and schedules for the collection of the tax.

Fifth: Providing that the rate of tax shall be reduced from 3% to 2%, if and when this state enacts a graduated personal net income tax and such tax is declared valid by the Supreme Court of Washington.

This tax, if made effective at once, would result in additional revenue of \$18,000,000 for the biennium. If tax measures now proposed are adopted, we would not need that amount of revenue to satisfy our needs during the next two years. In order that we might not produce more revenue than necessary from the sales tax—providing present revenue measures are adopted—the effective date of the increase in the sales tax could be deferred until October or November or perhaps even later. For the balance of the biennium, or until such time as an income tax becomes effective, the increased sales tax would produce the necessary revenue to meet the obligations we are called upon to incur. The \$6,000,000 anticipated revenues from present proposed revenue measures may not, in their entirety, be adopted by the Legislature. If they are not, then the effective date of this sales tax measure should be fixed at a correspondingly earlier time. For this reason I have left the effective date of this proposed act blank, so that your honorable bodies may specify the effective date, based upon the total tax program which you enact.

In my opinion, and in the opinion of the tax commission, an increase in the retail sales tax is the only sure and certain method available at this time to guarantee the required funds. But if and when the legislature or the people of this state enact a graduated net income tax, and such a tax is declared valid and enforceable by the courts, the increase in sales tax will no longer be necessary. Until and unless that time arrives, our only course is to work with the only adequate tax source which we now know is legally unassailable.

In urging you to join with me in adopting this solution to our most vexing problem, permit me also to say that our right purpose in following this course can only be proven if we at the same time adopt and cling with tenacity to principles of strict economy in all of our legislative and administrative program. The revenue from this increased sales tax will provide the means of meeting our obligations under Initiative Measure No. 141; it will completely wipe out our general fund deficit and balance our budget by the end of the biennium; it will provide the funds for the several substantial appropriations which the legislature has already made or may make for meritorious and needed projects; it will leave our state in first class financial condition to meet and withstand the strain of business recession which is likely to occur at the conclusion of the national defense program. But this new tax measure will not justify us in indulging in one single dollar's worth of unneeded, unuseful or unwise expenditures. Our determination in this respect should and must be just as strong as our determination to find a way of meeting the old age assistance needs of the state.

In giving consideration to the recommendations which I have here made, let me invite you to make full use of the facilities of the department of social security and the tax commission in ascertaining the facts and determining the best way to solve our problem. I believe that you will find, as did I, that the need for this course is clear and certain, and that the solution lies in no other direction than I have indicated.

The President announced that the Committee would escort His Excellency, Governor Arthur B. Langlie, to the Governor's chambers.

On motion of Mr. O'Brien, the Joint Session was dissolved.

SPECIAL ORDER OF BUSINESS

The Secretary read:

REPORT OF SPECIAL COMMITTEE ON THE INVESTIGATION OF THE METROPOLITAN LEASE

Senate Chamber,
Olympia, Washington.

We, your special committee on the investigation of the Metropolitan Lease, appointed at the last session of the Legislature, having made such an investigation as was possible under the limited funds available and geographical division of our membership, wish to report the following:

The Old University Tract located in the heart of downtown Seattle, containing approximately 8.10 acres and the lease on said tract held by the Metropolitan Building Company of that City have long been a subject of public interest and concern.

This lease was entered into between the Board of Regents of the University of Washington and one James A. Moore in 1904 for a term of fifty years and assigned to the present holder in 1907.

The lease calls for a graduated rental which at the present time is \$100,000 per annum, and which will be increased to \$140,000 per annum in the latter part of 1942 and remain at that figure until the end of the lease. The first sum is fixed on the basis of four per cent of a fixed land value of \$2,500,000 and the increased sum in 1942 and subsequent years will be on the basis of four per cent of a fixed land value of \$3,500,000.

The actual value of the land and of the buildings, which under the lease become a part thereof, has been variously estimated by the local assessor, university officials, and others, as being in excess of \$10,000,000. However, in view of the fact that the land is owned by the State of Washington, the lessee is not required to pay taxes on them.

The above situation, as can readily be seen, gives this lessee a distinct advantage over other companies in the rental business in the same locality. Whether or not it is passed on to the tenants is a matter of conjecture but the committee has found no evidence of the fact that it is. Several efforts have been made in the past by various public officials and interested citizens through court action and otherwise to have the valuation of the leasehold increased, but without any material success.

The fact that the State will take over these buildings at the end of the lease may or may not make up for the loss of taxes. In this connection, it should be noted, that some of them have already been depreciated approximately 50% by the local County Assessor. It also is rumored that the lessee has made arrangements to amortize all of them by the end of the lease. According to some authorities, all of them will have outlived their usefulness as revenue producers prior to the end of the lease unless they are modernized and their physical equipment replaced from time to time.

In view of the fact that this lease expires in 1954, and that the lessee will have to know a long time in advance whether its lease is going to be renewed or not, if it is to put any considerable amount of money in modernization and replacements during the latter years, and in view of the further fact that the University will probably not care to take over the operation of the enterprise at the end of the lease, it is neces-

sary that the lease and the manner in which it has been carried out be carefully investigated before any present or future action in regard to this property is taken.

The above is especially true in so far as this body is concerned, in view of the fact that by Chapter 44, Laws of 1923, page 106, the Legislature assumed supervision of this lease and the tract covered thereby, and prohibited the Board of Regents of the University of Washington from selling, leasing, or modifying the existing lease without its approval.

Your committee, having only \$100.00 to work with has been seriously handicapped in securing necessary legal, expert, and clerical help to carry on the task assigned to it. However, it has been able to delve into the matter far enough to determine that there have been violations of the lease in the past and that some of them still continue. It has not, however, been able to get all the information or advice necessary to recommend any definite action or policy at this time.

In order that the situation may be better understood, the committee wishes to briefly mention the violations and purported violations of the lease which have come to its attention. As could be expected, most of them occurred during the building era on this tract which ended about a decade and a half ago.

Although the lease provides that all buildings erected on the land shall immediately become a part thereof and belong absolutely to the state, the lessee, when required to remove certain temporary buildings under the temporary building modification of the lease, not only removed the same, but disposed of them and kept the proceeds. In this connection, it is claimed that the lessee received \$68,500 for the temporary buildings on the site now occupied by the Olympic Hotel and \$2,650 for the old Exhibition Building on the site now occupied by the Stimson Building. Whether they had a right to this money is a question on which legal opinions could easily differ. However, the regents apparently received an opinion to the effect that the building company had such a right and no action was taken.

One of the noticeable violations of the original lease is the manner in which University Street is laid out between Fourth and Fifth Avenues. Although the lease provides that all streets on this tract shall be laid out on the line of the present streets of the City of Seattle, this section of the street was made fifteen feet wider on each side and consequently does not conform with the balance of the street. In spite of the fact the regents were given notice by the lessee of its intention to lay out the street in this manner, the committee has been unable to find anywhere in the records where the regents authorized it to do so. Whether this provision was waived by the subsequent acceptance of buildings set back on these lines, the committee is not in a position to state at this time. Anyway, the State has lost many feet of valuable building space by this change in the street lines.

One of the violations of the lease which the general public never sees, is the tunnel connecting the Stimson and Cobb Buildings. The right to construct such a tunnel is not given by the lease, nor was permission for this additional right ever sought or given by the State. However, the regents have a legal opinion to the effect that this is more beneficial than harmful and that in the absence of any showing of damage it probably would not be considered a material violation.

On the question of whether the old Arena Building, as altered and remodeled, conforms to the requirements of the lease, the answering of which was one of the principal reasons for the creation of this committee, we have the following to report: This question was the subject of much controversy at one time and has been the subject of considerable speculation since. It seems quite clear that the building did not so conform at the time the notice mentioned in the resolution creating this committee was sent. In fact the lessee put an additional story on it within a few days in an effort to get under the wire. They now say, however, that such action on their part was unnecessary and that the building does conform. The regents, have had architectural, engineering and legal opinions to the effect that the building as finally reconstructed conforms to the lease. Just what powers the regents had in regard to this whole controversy after the passage of the 1923 act mentioned supra, is not clear. In the opinion of your committee this question is still an open one, but it cannot be answered without the aid of expert engineering, architectural and legal advice which the committee, of course, could not secure on a \$100.00 appropriation.

Before leaving the question of violations of the lease, the committee wishes to report that at one time the insurance taken out by the lessee did not comply with the lease, but this matter was subsequently straightened out. Also, the lessee did not comply with the provision of the lease requiring it to post a bond when construct-

ing buildings on the tract to protect the State from labor and material men's liens, etc., until near the close of the building era. However, when the matter was called to their attention during the construction of the Olympic Hotel and the Stimson Building, and the alteration of the Arena Building, they did post bonds on those projects. This violation was probably of no consequence however, in view of the fact that the State is not subject to such liens anyway. One of the admitted violations of the lease which was discontinued years ago, was the erection and maintenance of a gas station in the center of University Street between Fourth and Fifth Avenues.

As far as payment of the rent is concerned, there has been no trouble in recent years and the lessee pays promptly when the same becomes due.

A further subject of inquiry, if this body sees fit to continue the investigation, is the subject of the Yellow Taxi Cab Company's exclusive right to use the west side of Fifth Avenue between Seneca and University Streets as a parking space for their cabs. At one time, it was claimed that they paid the lessee \$10,000 a year for this privilege. Payment was supposed to have stopped during the depression, but the cabs are still there with the same exclusive right. What they are paying at this time and whether the lessee is entitled to the same, the committee is not in a position to answer at this time.

We therefore recommend that the investigation of this lease be continued in order that the Legislature may secure further information on the tax situation and on the several violations of this lease and in order that it may be fully advised as to all matters pertaining to this tract so that when the question of renewing the present lease, or the execution of a new lease comes before it, something that will happen in the near future, it will be fully advised as to the situation.

EXPLANATION OF VOTES

By Senators Voyce and Sullivan:

"In explanation of my vote against Engrossed House Bill No. 423, a bill intended solely to take care of the unfortunate blind people of our State, I wish to make this statement:

"The amendment that was offered from the floor taking the entire contents of a bill that was defeated in the House that was extraneous from the concepts of this blind bill, was then placed on this blind bill as an amendment. I fully believe that something should be done in this State to prevent any unfortunate group of people whose sole means of livelihood comes from Social Security funds from being milked dry of their pitiful amounts by a group of people whose sole purpose is not to assist these folks but rather to exploit them. But in order to get to these few unscrupulous ones this amendment would work a hardship upon many honest people doing much good amongst the unfortunate people of our State in various pension and sundry organizations that they belong to. Had Engrossed House Bill No. 423 been left in the same shape as it was when it arrived from the House it would have received the unanimous support of the Senate as it did in the House."

GOVERNOR'S MESSAGES ON SENATE BILLS VETOED

March 21, 1941

Senate Bill No. 8

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 8, entitled:

"An Act relating to community property, and amending section 2409, Code of Washington of 1881 (section 6892 of Remington's Revised Statutes; section 1433 of Pierce's Code) to limit the power of a husband in dealing with community personal property."

"This bill has the effect of amending the long-standing community property laws of this state by adding a proviso to the effect that any grant or delegation of the management and control of the community personal property by the husband to another shall be void unless it is by instrument in writing signed and acknowledged by both husband and wife.

"There is probably a need for some revision in the community property laws so that a way may be found to protect wives against occasional improvident and incompetent husbands due to the control vested in the latter with regard to community personal property. However it is my opinion and this is the view supported by some of the outstanding lawyers of the state and by members of the faculty of the University of Washington Law School, that this particular bill constitutes a far-reaching change in the concept of the community property law as it has been long established in the state; that it would, in effect, deprive the husband of the ability to carry on ordinary community business affairs.

"The language 'grant or delegation of management or control' is broad enough to cover any agency no matter how narrow its scope or how temporary its purpose. Moreover, the transaction requiring the wife's authority may by this bill be construed to become the wife's transaction and not solely a community undertaking, thus imposing upon the wife's separate estate a direct obligation.

"The present community property law of the state has become well settled as a result of a long line of Supreme Court decisions. To now alter this statutory law in this fundamental respect would be to open the door to endless litigation in the process of establishing the court's interpretation of the new provision. In the meantime the full significance of the change would be a question of doubt, which would seriously hamper the ordinary and general commercial activity of the state.

"For the above reasons, Senate Bill No. 8 is vetoed."

Respectfully submitted,

ARTHUR B. LANGLIE,
Governor.

March 21, 1941

Senate Bill No. 154

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to Section 1, Senate Bill No. 154, entitled:

"An Act relating to the leasing of county property, apportioning the rentals, amending section 1, chapter LXXXVII, Laws of 1901 (section 4019, Remington's Revised Statutes) and amending section 1, chapter 162, Laws of 1913 (section 4022 of Remington's Revised Statutes) and declaring an emergency."

"Section 1 of the above bill amends the present law relative to the authority of boards of county commissioners to lease county owned property by making the same applicable to tax acquired property as well as property owned by the county in its own right.

"In the ownership of tax acquired property, the county holds the same as trustee and the proceeds of the sale of such property become trust funds for the benefit of the various tax distribution branches of the government.

"I believe that it is in the public interest that tax title property be returned as rapidly as possible to the tax rolls and that this bill giving authority to county commissioners to lease such property for a year or term of years would serve to seriously retard return of such property to the tax rolls.

"By vetoing Section 1 of this bill, Section 2 thereof, which extends the authority to lease county lands to cover sites for military purposes or for emergency housing, will still be operative in so far as lands owned outright by the county are concerned.

"For this reason, Section 1 is vetoed and the remainder of the bill is approved."

Respectfully submitted,

ARTHUR B. LANGLIE,

Governor.

March 21, 1941

Senate Bill No. 171

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 171, entitled:

"An Act relating to intoxicating liquors, permitting the sale of beer and wine during the hours from midnight to 1 o'clock a. m. on Sundays, and amending chapter 62 of the Laws of 1933, Extraordinary Session, by adding a new section to be known as section 79-A."

"I cannot give this proposed law my approval because I am convinced that any liberalization of the existing regulations governing the sale of wine and beer would be against the public welfare. I am convinced that this measure must be regarded as an opening wedge for the eventual breakdown of the law preventing the sale of wine and beer on Sundays.

"In disapproving this bill, I cannot disregard that the legislature wisely rejected repeated efforts during the session to remove all limitations on the sale of beer and wine on Sunday. In doing so, the legislators showed a keen appreciation for the reverence with which the people of the State of Washington regard the Sabbath. I feel that Senate Bill 171 is a compromise after

the failure of the original attacks on the Sunday limitations. There can be no compromise with the principle that Sunday should be kept apart as a day of worship and wholesome diversion.

"For these reasons I cannot approve Senate Bill No. 171, and it is hereby vetoed."

Respectfully submitted,

ARTHUR B. LANGLIE,

Governor.

March 21, 1941

Senate Bill No. 262

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to Section 15, Senate Bill No. 262, entitled:

"An Act relating to revenue and taxation; providing for the levying and collection of an excise tax on the privilege of transferring property by gift, providing for penalties, and providing that this act shall take effect immediately."

"Section 15 of the act provides 'claims in abatement may be filed in respect of any assessment in respect of any tax imposed by this act.'

"As originally drawn by the Tax Commission, Section 15 actually provided 'No claim in abatement may be filed in respect of any assessment in respect of any tax imposed by this act.'

"An adequate remedy is afforded to the taxpayer by the act itself if he desires to question any gift tax assessment. The bill thus preserves to him his day in court and the method provided in the original form of the bill was intended to be exclusive.

"If Section 15, as amended subsequent to introduction of the bill, became a part of the law, any taxpayer could reopen his case after the assessment has become final.

"For this reason, Section 15 is vetoed, and the remainder of the bill is approved."

Respectfully submitted,

ARTHUR B. LANGLIE,

Governor.

March 21, 1941

Senate Bill No. 391

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 391, entitled:

"An Act relating to the removal of housing authority commissioners; and amending section 7, chapter 23, Laws of 1939 (section 6889-7, Remington's Revised Statutes; section 2746-107, Pierce's Code), and declaring an emergency."

"Under the existing law, housing authority commissioners may be removed for inefficiency, neglect of duty, or misconduct in office by the appointing authority (the Mayor, or Board of County Commissioners, as the case may be) only after such appointees shall have been given a copy of the charges at least ten days prior to the hearing thereon and has had an opportunity to be heard in person or by counsel. A record of the proceedings, together with the charges and findings thereon, must be filed in the office of the clerk.

"The above bill changes this procedure by providing that before any such housing authority commissioner can be removed there must be a summons and complaint filed in the Superior Court setting forth the facts charging the Commissioner with inefficiency, neglect of duty or misconduct and unless such charges are judicially sustained the appointing authority has no power to remove such appointees.

"No similar provision is in force anywhere in the United States, the present law being in accordance with the statutes in general use on this subject. It would seem that housing authority commissioners should be responsible to their appointing officers, inasmuch as they are not responsible to the people through election. This bill would make it extremely difficult to remove such commissioners, and there might be many cases where removal would be justified, but where proof thereof could not be established through judicial proceedings.

"While under the present law there is, of course, the possibility that competent housing authority commissioners might be removed for political or other insufficient reasons, the enactment of this bill might do more harm in the other direction by making it possible for incompetent housing authority commissioners to remain in office long past the term of office of the men who appointed them. By leaving such housing authority commissioners responsible to their appointing officers, as at present, the appointing authorities who are elected by the people will be responsible to the people for the competency and honesty of such appointees, a result which is certainly to be desired.

"For the above reasons, Senate Bill No. 391 is vetoed."

Respectfully submitted,

ARTHUR B. LANGLIE,

Governor.

Senate Bill No. 299

"I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval as to Section 4, Senate Bill No. 299, entitled:

"An Act relating to the administration of public lands of the state, reconstituting the board of state land commissioners and prescribing the powers and duties thereof, amending section 10, chapter 255, Laws of 1927 (section 7797-10, Remington's Revised Statutes) and section 23, chapter 255, Laws of 1927, as amended by section 1, chapter 136, Laws of 1935 (section 7797-23, Remington's Revised Statutes), making an appropriation and declaring an emergency."

"Section 4 appropriates from the general fund the sum of \$25,000 to carry out the provisions of Section 3 of the bill.

"It appears to me that the general budget for the office of the State Land Commissioner will be ample to care for any expenses incurred under Section 3 and that it will not be necessary to make this special additional appropriation.

"For this reason Section 4 is vetoed and the remainder of the bill is approved."

Respectfully submitted,

ARTHUR B. LANGLIE,

Governor.

March 25, 1941

Senate Bill No. 17

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 17, entitled:

"An Act relating to intoxicating liquors and providing for the control and regulation of the traffic thereof."

"I cannot give my approval to this measure because it is apparent that it eventually would inject political consideration into the purchase of liquors by the Washington State Liquor Control Board. There can be no valid reason to require manufacturers or importers to employ local representatives or 'middlemen' because purchase orders are placed for deliveries over considerable periods of time and can be made directly with the liquor board.

"The only basis for a company requiring a local representative would be because such agent had contacts with the board or one of its members. This would open the door to political abuses as well as increase retail prices paid by consumers.

"For these reasons Senate Bill No. 17 is vetoed."

Respectfully submitted,

ARTHUR B. LANGLEIE,

Governor.

March 25, 1941

Senate Bill No. 30

"I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval as to certain items, Senate Bill No. 30, entitled:

"An Act making appropriations for the payment of salaries of certain officers and employees of the state and for the operation, maintenance and other expenses of certain state institutions, departments and offices, for the purchase and improvement of land, the construction of buildings and improvements for the various state institutions designated and mentioned and for emergencies, and for refunds, and for sundry civil expenses of the state government, and for public assistance, and for purposes specified in certain acts of Congress, and for miscellaneous purposes, for the fiscal biennium beginning April 1, 1941, and ending March 31, 1943, except as otherwise provided, and declaring that this act shall take effect immediately."

"I disapprove and veto the item 'Codifying and Printing Laws \$6,000.00' for the reason that in my opinion sufficient funds are included in the increased appropriations for the State Auditor to carry on this work.

"I disapprove and veto the item 'National Defense and Other Activities: Salaries, Wages and Operations \$30,600.00' as it is my understanding that this appropriation was to cover the supervisory and planning activities of the Superintendent of Public Instruction in connection with House Bill No. 1, which appropriated \$3,000,000 for school buildings. The legislature, by amendment, has transferred the responsibility of administering such fund to the Social Security Board. This item is therefore vetoed.

"I disapprove and veto the item 'Testing Blood Samples for Bang's Disease, Washington State College: Equipment and Operations, including salaries and wages \$10,000.00.' The Director of Agriculture advises me that the state has no need that would justify the establishment of such a laboratory at the Washington State College. At the present time blood samples are analyzed either at Puyallup or Olympia, and the facilities are adequate for the purpose.

"I disapprove and veto the item 'For the Social Security Committee \$2,000,000.00. To be expended in accordance with the provisions of Chapter 205, Laws of 1939.' This appropriation in the past has been expended largely for the construction of school buildings. The legislature by the enactment of House Bill No. 1, has provided \$3,000,000 for such purpose.

"I disapprove and veto the items 'Legal Services: Salaries and Wages \$13,600.00, Operations \$750.00' for the reason that in my opinion the appropriation of \$23,200 for salaries and wages and \$1,500 for operations for legal services of the Tax Commission are sufficient to cover any probable expenditure for such services to this department.

"With the exception of the foregoing items, which are vetoed, the remainder of Senate Bill No. 30 is approved."

Respectfully submitted,

ARTHUR B. LANGLIE,
Governor.

March 25, 1941

Senate Bill No. 37

"I am filing herewith to be transmitted to the Senate at the next session of the Legislature without my approval, Senate Bill No. 37, entitled:

"An Act relating to scholarships in the University of Washington and the State College of Washington; providing that certain students may be exempted from the payment of tuition and incidental fees."

"It is my opinion that Senate Bill No. 37 sets up a scholarship program which adds to the financial burden of the state and sets up an improper basis for awarding scholarships, if a student's scholarship record, ability for leadership, and financial need is taken into consideration.

"Assuming that the remission of tuition and incidental fees accomplished by such scholarships would average \$60 per year, the total expense to the state, if this program was put into maximum operation would be \$37,440 for the two higher educational institutions of the state annually.

"This appears to me to be too great a sum to make available for this purpose, especially when these institutions have requirements in the way of equipment and other additional facilities which we are finding difficulty in meeting.

"For these reasons, Senate Bill No. 37 is vetoed."

Respectfully submitted,

ARTHUR B. LANGLIE,
Governor.

March 25, 1941

Senate Bill No. 135

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to Section 1, Senate Bill No. 135, entitled:

"An Act authorizing investments in obligations issued pursuant to the provisions of the Federal Home Loan Bank Act and of Title IV of the National Housing Act, and in shares, deposits, or accounts of any institution having the insurance protection provided by Title IV of the National Housing Act, and providing that such obligations, shares, deposits, or accounts may be used as collateral security for reserve funds and in lieu of bonds, recognizances, or undertakings."

"Section 1 of the above bill reads in part as follows:

"Section 1. Every * * * bank, trust company and * * * shall have power to invest * * * in the shares, deposits or accounts of any institution wherever located to the extent insurance protection is provided by Title IV of the National Housing Act. * * * ."

"Under the present law, banks are not permitted to purchase the shares of a savings and loan association. The above quoted portion of Section 1 would change the law and permit such purchases to be made. I am advised that the Acting Chief of the Division of Examination of the Federal Deposit Insurance Corporation has taken the position that such shares are not eligible bank assets and in instances where it has been found that such shares had been purchased by insured banks, the banks have been criticized because of such acquisition and instructed to dispose of them.

"I am of the opinion that no wholesome purpose can be served by permitting commercial banks or trust companies to purchase shares in savings and loan associations as originally acquired investments and that the public would not be benefited thereby. Such reciprocal transactions between banks and savings and loan associations might bring about an inflationary tendency with respect to each type of institution.

"For these reasons, Section 1 is vetoed and the remainder of the bill is approved."

Respectfully submitted,

ARTHUR B. LANGLIE,

Governor.

Senate Bill No. 196

March 25, 1941

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 196, entitled:

"An Act relating to motor vehicles; providing for truck and trailer fees, and amending section 17, chapter 188, Laws of 1937 as amended by section 3, chapter 182, Laws of 1939 (section 6312-17 Remington's Revised Statutes, section 2696-708 Pierce's Code)."

"Senate Bill No. 196 and House Bill No. 18 duplicate one another on many points. I have signed House Bill No. 18 and, therefore, believe that Senate Bill No. 196 is not essential, and am vetoing it."

Respectfully submitted,

ARTHUR B. LANGLIE,

Governor.

March 25, 1941

Senate Bill No. 212

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 212, entitled:

"An Act relating to maintenance of indigent non-violently insane persons committed to state hospitals for the insane, relieving counties of certain liabilities therefor and declaring an emergency, to take effect April 1, 1941."

"This bill seeks to circumvent effect of recent Supreme Court decisions holding the counties liable for payment for nonviolent insane.

"Some counties have been making regular payments for the years this bill seeks to set aside. Most of the other counties have funds on hand to pay amount due for the period. Some counties have collected statutory charges from relatives in cases where the court had previously held such relatives unable to pay and these counties have even failed, and refused, to turn in such funds to the state.

"For these reasons, Senate Bill No. 212 is vetoed."

Respectfully submitted,

ARTHUR B. LANGLEIE,
Governor.

March 25, 1941

Senate Bill No. 273

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 273, entitled:

"An Act relating to Firemen's Relief and Pension funds and creating an association in certain incorporated cities and towns; providing for the maintenance and distribution of such funds and designating the beneficiaries thereof, defining the powers and duties of certain officials and repealing chapter 50, Laws of 1909, chapter 196, Laws of 1919, chapter 86, Laws of 1929, and chapter 39, Laws of 1935 (sections 9559 to 9578, inclusive, Remington's Revised Statutes)."

"Senate Bill No. 273 sets up a new and general firemen's relief and pension system for all of the cities and towns of the state. It attempts to finance the payments of pensions by means of a tax upon fire insurance premiums, a levy upon real property and contributions by firemen. I am convinced that the bill is not actuarially sound and if enacted into law new legislation would be required within six years to provide additional revenues.

"The imposition of a new and additional tax through the 2 per cent surcharge on fire insurance premiums would constitute an addition financial burden upon every home owner and every building owner in the State of Washington.

"Section 19 of the bill providing for a property levy of not to exceed one mill 'in addition to the levy otherwise authorized' would seem to me to be in conflict with the 40-Mill-Limit law and therefore of no force and effect, since the 40-Mill-Limit law was enacted by initiative and may not be repealed or modified at this session of the legislature. If this portion of the revenue

provisions of the bill is invalidated, the workability of the entire bill is of course seriously jeopardized.

"It appears to me that several provisions of the bill are open to very serious legal objection. I make reference particularly to the provision for the 2 per cent tax on gross premiums of fire insurance collected in each city having a pension fund. It is entirely possible that this would be regarded as an unreasonable classification of property for taxation. Other provisions of the bill purport to preempt all assets of existing funds, to assume all debts of existing funds, and to bring all present pensioners of existing funds under its terms. These provisions are of doubtful legality and would undoubtedly be the subject of extended litigation.

"For these reasons, Senate Bill No. 273 is vetoed."

Respectfully submitted,

ARTHUR B. LANGLIE,
Governor.

March 25, 1941

Substitute Senate Bill No. 275

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to certain sections, Substitute Senate Bill No. 275, entitled:

"An Act relating to unemployment compensation, amending chapter 162 of the Laws of 1937, as amended by chapter 214 of the Laws of 1939, repealing sections 19, 22 and 23 of chapter 162 of the Laws of 1937 and section 17 of chapter 214 of the Laws of 1939, establishing liens and providing for the enforcement thereof."

"Subparagraphs 19(g) (1) and 19(g) (5) of Section 14 appear to me to be too broad to permit of practicable administration. After these subparagraphs are vetoed, it is necessary to have the 1937 act with respect to this particular subject matter remain in force and effect. It is, therefore, also necessary to veto Section 13 of the above bill, which section repeals Section 19 of Chapter 162 of the Laws of 1937.

"For these reasons I veto Section 13, and subparagraphs 19(g) (1) and 19(g) (5) of Section 14, and approve the remainder of the bill."

Respectfully submitted,

ARTHUR B. LANGLIE,
Governor.

March 25, 1941

Senate Bill No. 323

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature with my approval, except as to Section 5, Senate Bill No. 323, entitled:

"An Act relating to and providing for aid to dependent children; and amending sections 1, 4 and 6 of chapter 114, Laws of 1937 (sections 9992-101, 9992-104, 9992-106, Remington's Revised Statutes) and declaring an emergency."

"Section 5, which amends Section 3 of Chapter 114, Laws of 1937, has the effect of assigning a flat \$17.50 rate as a basic need to each eligible child. Careful analysis of this amendment indicates that the mandatory assignment of \$17.50 to each child will result in the State Department of Social Security spending approximately 50% of its appropriation on 40% of the case load, and consequently 50% on the other 60% of the case load.

"The 40% case load, spoken of above, are families in which there are three or more children, oftentimes resulting in total grants to families far in excess of the budget used by the department in determining need, and because these larger amounts are required to be expended in these families, there is no opportunity to provide in excess of \$17.50 for a one-child family, or in excess of \$35.00, where there are two children. This may result in considerable hardship as it is quite obvious that a child and the relative with whom it lives, cannot be expected to live on \$17.50 per month. In other words, this amendment allows the Department of Social Security no flexibility which is vitally necessary in meeting need where need exists. Moreover, the amendment does not make it possible to receive any additional federal funds, resulting in what would seem to be an undesirable practice in the administration of the Aid to Dependent Children program.

"I am advised that with the appropriation which is now available to the children's division from the state and federal funds, the Department of Social Security will be able, without the amendment provided in Section 5, to meet the need where need exists and show at the end of the biennium that assistance has gone to dependent families on the basis of an average of \$17.50 per child.

"For these reasons, Section 5 is vetoed, and the remainder of the bill is approved."

Respectfully submitted,

ARTHUR B. LANGLIE,
Governor.

March 25, 1941

Senate Bill No. 357

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 357, entitled:

"An Act directing the Washington Toll Bridge Authority to reconstruct the Tacoma Narrows Bridge, and declaring an emergency."

"This bill authorizes and directs the Washington Toll Bridge Authority to 'reconstruct the Tacoma Narrows Bridge.' Reconstruction of the old bridge and utilization of any of the remaining parts of that bridge may not be advisable and this bill, passed by the legislature, only complicates the problem of dealing with the claims arising out of the insurance contracts.

"The Washington Toll Bridge Authority has all of the power necessary to carry forward the construction of a new bridge as soon as such construction is possible and inasmuch as this bill may retard rather than promote such new construction, I am vetoing Senate Bill No. 357."

Respectfully submitted,

ARTHUR B. LANGLIE,
Governor.

March 25, 1941

Senate Bill No. 362

"I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to certain items, Senate Bill No. 362, entitled:

"An Act relating to public highways and ferries; making appropriations therefor from the motor vehicle fund, the highway equipment fund and the highway safety fund, and declaring an emergency and that this act shall take effect April 1, 1941."

"I disapprove and veto the item on page two, reading: 'Puyallup to Sumner—\$50,000.' This item provides an appropriation for a section of Primary State Highway No. 5 now graded for a four-lane highway and on which pavement has been placed for two lanes. To provide for an additional two lanes of paving on this section would result in an isolated portion on the state system of four-lane pavement which should lead from the metropolitan center of Tacoma. Also additional facilities for bridging the Puyallup River in order to prevent a bottleneck should be constructed before constructing the additional two lanes between Puyallup and Sumner.

"I disapprove and veto the item on page two, reading: 'Discovery Bay-Admiral Point-Hood Canal (for survey, right of way, construction vicinity South Discovery Bay to vicinity Admiral Point on Hood Canal opposite Lofall)—\$253,500.' This item provides an appropriation for an entirely new road not a part of the state highway system or the existing county road system. The appropriation is insufficient to complete the construction between the termini indicated and no provision is made for maintenance after construction which must necessarily be performed by the county under existing statutes. The additional burden for maintenance on the county is not warranted as no definite service will be provided by the partial construction of the proposed road.

"I disapprove and veto the item on page two—'Primary State Highway No. 17, Marblemount East—\$100,000,' which provides an appropriation to extend construction easterly from the end of present construction. No traffic can be accommodated through this expenditure and nothing of immediate value accomplished thereby. This expenditure is unnecessary at this time.

"With the exception of the foregoing items, which are vetoed, the remainder of Senate Bill No. 362 is approved."

Respectfully submitted,

ARTHUR B. LANGLIE,
Governor.

February 21, 1941

Senate Bill No. 51

"I am returning herewith, without my approval as to a certain section, Senate Bill No. 51, entitled:

"An Act relating to school district elections and providing for the qualifications of electors."

"This bill is approved with the exception of Section 2, which is vetoed.

"Section 2 is unnecessary since the enactment of Section 1 into law will supersede any conflicting statutory provisions. In addition, the provisions of Section 2 are not mentioned in the title of the act. This section can result only in confusion and might conceivably act as a repeal of some salutary provision of law which would be desirable to retain at the present time or to have available for operation if, at some future time, the legislature should repeal this act.

"For this reason, Section 2 is vetoed, and the remainder of the bill is approved."

Respectfully submitted,

ARTHUR B. LANGLIE,
Governor.
