(1) The University of Washington, in conjunction with child and adolescent licensed mental health professionals at Seattle children's hospital, shall coordinate with medical schools, hospitals, clinics, and independent providers to develop a directory of child and adolescent licensed mental health professionals who have access to the technology necessary to provide telemedicine to students who are determined to be at risk for substance abuse, violence, or suicide.

Every junior high or middle school and high school in each of the selected school districts must participate as described in section 6 of this act.

(2) The pilot program must begin at the start of the 2020-21 school year and must conclude at the end of the 2024-25 school year.

(3) (a) The selected school districts shall require that all certificated

employees at each school receive training based on the curriculum developed under section 2 of this act prior to the 2020-21 school year and to otherwise follow the provisions described in section 6 of this act.

(b) The training required under this section may be incorporated within existing school district and educational service district training programs and related resources.

(4) By August 1st of each year that the pilot program is active, the University of Washington, in conjunction with child and adolescent licensed mental health professionals at Seattle children's hospital and the office of the superintendent of public instruction, shall submit a report to the governor, the education committees of the legislature, and the joint select committee on health care oversight. The report must include: Information about the number of students who were identified as potentially at risk for substance abuse, violence, or suicide; the number of students who received a telemedicine consultation or visit in school; the number of students who were referred and received further treatment outside of the two authorized visits in the school; and information on the progress of the at-risk students who were identified and received treatment in the pilot program, if available.

The policy and procedure must include provisions related to parent notification, student consent, and parent involvement.

**NEW SECTION. Sec. 6.** (1)(a) This section applies to school districts selected for participation in the pilot program established in section 4 of this act.

(b) Prior to participating as described in this section, school districts shall adopt the policy and procedure regarding the use of telemedicine in schools developed under section 5 of this act.

(2) If a certificated employee trained under section 4 of this act identifies a student who may be at risk for substance abuse, violence, or suicide, the certificated employee must notify a school counselor, school psychologist, school social worker, or school nurse. The school counselor, school psychologist, school social worker, or school nurse must screen the identified student to determine if the student is at risk for substance abuse, violence, or suicide.

(3) If a school counselor, school psychologist, school social worker, or school nurse determines that a student is at risk for substance abuse, violence, or suicide, the student's school district may schedule a telemedicine consultation or visit for the student, based upon the assessed risk, within thirty days of the determination.

(4) Any telemedicine consultations or visits must be scheduled and conducted in accordance with the following requirements:

(c) The school district must allow the student to participate in the telemedicine consultation or visit during normal school hours.

(5) If after the initial telemedicine consultation or visit the licensed mental health professional recommends a second telemedicine visit, then the student's school district must schedule a second telemedicine visit for the student. The scheduling of the second telemedicine visit must be based upon the risk assessment from the initial consultation or visit and must be urged to be scheduled beyond thirty days of the initial consultation or visit.

(6) Following a second telemedicine visit, the school district must work with the licensed mental health professional to refer the student to any appropriate medical, mental health, or behavioral health services.

**MAJORITY recommendation:** Do pass as amended.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 3.72.005 and 2017 c 9 s 1 are each amended to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Court" when used without further qualification means the district court under chapter 3.30 RCW, the municipal department under chapter 3.46 RCW, or the municipal court under chapter 3.50 or 35.20 RCW.

(2) "Traffic infraction" means those acts defined as traffic infractions by RCW 46.63.020.

(3) "Transit infraction" means an infraction issued by a transit authority as defined in RCW 9.91.025(2)(c), including those infractions authorized under RCW 35.58.580, 36.57A.230, and 81.112.220.

(4) "Youth court" means an alternative method of hearing and disposing of traffic infractions, transit infractions, or civil infractions for juveniles age sixteen or seventeen.

**Sec. 2.** RCW 3.72.010 and 2017 c 9 s 2 are each amended to read as follows:

(1) A court created under chapter 3.30, 3.46, 3.50, or 35.20 RCW may create a youth court. The youth court shall have jurisdiction over civil, traffic, and transit infractions alleged to have been committed by juveniles age sixteen or seventeen. The court may refer a juvenile to the youth court upon request of any party or upon its own motion. However, a juvenile shall not be required under this section to have his or her civil, traffic, or transit infraction referred to or disposed of by a youth court.

(2) To be referred to a youth court pursuant to this chapter, a juvenile:

(a) ~~((May not have had a prior traffic or transit infraction referred to a youth court,~~

~~(b))~~ May not be under the jurisdiction of any court for a civil infraction or for a violation of any provision of Title 46 RCW or for unlawful transit conduct under RCW 9.91.025;

~~((d))~~ (c) Must acknowledge that there is a high likelihood that he or she would be found to have committed the civil, traffic, or transit infraction.

(3) (a) Nothing in this chapter shall interfere with the ability of juvenile courts to refer matters to youth courts that have been established to provide a diversion for matters involving juvenile offenders who are eligible for diversion pursuant to RCW 13.40.070 (6) and (8) and who agree, along with a parent, guardian, or legal custodian, to comply with the provisions of RCW 13.40.600.

(b) Nothing in this chapter shall interfere with the ability of student courts to work with students who violate school rules and policies pursuant to RCW 28A.300.420.

(4) A youth court under this chapter may accept referrals of traffic infractions, transit infractions, and civil infractions committed by juveniles age twelve through fifteen from a juvenile court diversion unit under RCW 13.40.250(5), provided that the youth court follows all conditions of RCW 13.40.250(5). In this circumstance, the youth court shall maintain concurrent jurisdiction with the juvenile court only for the purpose of supervision of the diversion agreement.

**Sec. 3.** RCW 3.72.020 and 2017 c 9 s 3 are each amended to read as follows:

(1) A youth court agreement shall be a contract between a juvenile accused of a traffic ~~((or))~~ infraction, transit infraction, or civil infraction and a court whereby the juvenile agrees to fulfill certain conditions imposed by a youth court in lieu of a determination that ~~((a traffic or transit))~~ the infraction occurred. Such agreements may be entered into only after the law enforcement authority has determined that probable cause exists to believe that a traffic ~~((or))~~ infraction, transit infraction, or civil infraction has been committed and that the juvenile committed it. A youth court agreement shall be reduced to writing and signed by the court and the youth accepting the terms of the agreement. Such agreements shall be entered into as expeditiously as possible.

(2) Conditions imposed on a juvenile by a youth court shall be limited to one or more of the following:

(a) Community service not to exceed one hundred fifty hours, not to be performed during school hours if the juvenile is attending school;

(b) Attendance at defensive driving school or driver improvement education classes or, in the discretion of the court, a like means of fulfilling this condition. The state shall not be liable for costs resulting from the youth court or the conditions imposed upon the juvenile by the youth court;

(c) A monetary penalty, not to exceed one hundred dollars. All monetary penalties assessed and collected under this section shall be deposited and distributed in the same manner as costs, fines, forfeitures, and penalties are assessed and collected under RCW 2.68.040, 3.46.120, 3.50.100, 3.62.020, 3.62.040, 35.20.220, and 46.63.110(7), regardless of the juvenile's successful or unsuccessful completion of the youth court agreement;

(d) Requirements to remain during specified hours at home, school, or work, and restrictions on leaving or entering specified geographical areas;

(e) Participating in law-related education classes;

(f) Providing periodic reports to the youth court or the court;

(g) Participating in mentoring programs;

(b) The court, as specified in RCW 3.72.010, shall monitor the successful or unsuccessful completion of the disposition.

(4) A youth court agreement may extend beyond the eighteenth birthday of the youth.

(5) Any juvenile who is, or may be, referred to a youth court shall be afforded due process in all contacts with the youth court regardless of whether the juvenile is accepted by the youth court or whether the youth court program is successfully completed. Such due process

shall include, but not be limited to, the following:

(a) A written agreement shall be executed stating all conditions in clearly understandable language and the action that will be taken by the court upon successful or unsuccessful completion of the agreement;

(b) Violation of the terms of the agreement shall be the only grounds for termination.

(6) The youth court shall, subject to available funds, be responsible for providing interpreters when juveniles need interpreters to effectively communicate during youth court hearings or negotiations.

(7) The court shall be responsible for advising a juvenile of his or her rights as provided in this chapter.

(8) When a juvenile enters into a youth court agreement, the court may receive only the following information for dispositional purposes:

(a) The fact that a traffic (~~(or)~~) infraction, transit infraction, or civil infraction was alleged to have been committed;

(b) The fact that a youth court agreement was entered into;

(c) The juvenile's obligations under such agreement;

(d) Whether the juvenile performed his or her obligations under such agreement; and

(e) The facts of the alleged (~~traffic or transit~~) infraction.

(9) A court may refuse to enter into a youth court agreement with a juvenile. When a court refuses to enter a youth court agreement with a juvenile, it shall set the matter for hearing in accordance with all applicable court rules and statutory provisions governing the hearing and disposition of traffic (~~and~~) infractions, transit infractions, and civil infractions.

(10) If a monetary penalty required by a youth court agreement cannot reasonably be paid due to a lack of financial resources of the youth, the court may convert any or all of the monetary penalty into community service. The modification of the youth court agreement shall be in writing and signed by the juvenile and the court. The number

of hours of community service in lieu of a monetary penalty shall be converted at the rate of the prevailing state minimum wage per hour.

**Sec. 4.** RCW 3.72.040 and 2017 c 9 s 5 are each amended to read as follows:

The administrative office of the courts shall encourage the courts to work with cities, counties, and schools to implement, expand, or use youth court programs for juveniles who commit traffic (~~(or)~~) infractions, transit infractions, or civil infractions. Program operations of youth court programs may be funded by government and private grants. Youth court programs are limited to those that:

(1) Are developed using the guidelines for creating and operating youth court programs developed by nationally recognized experts in youth court projects;

(2) Target youth (~~(ages sixteen and seventeen)~~) who are alleged to have committed a traffic (~~(or)~~) infraction, transit infraction, or civil infraction; and

(3) Emphasize the following principles:

(a) Youth must be held accountable for their problem behavior;

(b) Youth must be educated about the impact their actions have on themselves and others including their victims, their families, and their community;

(c) Youth must develop skills to resolve problems with their peers more effectively; and

(d) Youth should be provided a meaningful forum to practice and enhance newly developed skills.

**Sec. 5.** RCW 13.40.250 and 2002 c 237 s 19 and 2002 c 175 s 28 are each reenacted and amended to read as follows:

A traffic infraction, transit infraction, or civil infraction case involving a juvenile under the age of sixteen may be diverted in accordance with the provisions of this chapter or filed in juvenile court.

(1) If a notice of a traffic infraction, transit infraction, or civil infraction is filed in juvenile court, the juvenile named in the notice shall be afforded the same due process afforded to adult defendants in traffic infraction cases.

(2) A monetary penalty imposed upon a juvenile under the age of sixteen who is found to have committed a traffic infraction, transit infraction, or civil infraction may not exceed one hundred dollars. At the juvenile's request, the court may order performance of a number of hours of community restitution in lieu of a monetary penalty, at the rate of the prevailing state minimum wage per hour.

(3) A diversion agreement entered into by a juvenile referred pursuant to this section shall be limited to thirty hours of community restitution, or educational or informational sessions.

(4) Traffic infractions, transit infractions, or civil infractions referred to a youth court pursuant to this section are subject to the conditions imposed by RCW 13.40.630.

(5) ~~((If a case involving the commission of a traffic or civil infraction or offense by a juvenile under the age of sixteen has been referred to a diversion unit, an abstract of the action taken by the diversion unit may be forwarded to the department of licensing in the manner provided for in RCW 46.20.270(2)-))~~ A diversion agreement entered into by a juvenile referred pursuant to this section may include a requirement that the juvenile participate in a district or municipal youth court program under chapter 3.72 RCW, provided the youth court program accepts the referral and only subject to the following conditions:

(a) Upon entering the diversion agreement, the juvenile shall be referred to the youth court program, the completion of which shall be the only condition of the diversion agreement;

(b) The juvenile shall not serve more than thirty hours of participation in the youth court program;

(c) Other than filing a petition for termination of the diversion agreement in juvenile court, nothing concerning the juvenile's participation in the youth court program shall be filed in any public court file concerning the juvenile's participation or presence in the youth court program. The only written record of participation shall be the diversion agreement entered into with the juvenile court, subject to confidentiality under chapter 13.50 RCW. No court cause number shall be assigned to the case against the juvenile while he or she participates in the youth court

program. The proceedings in the youth court program shall be on open record and may be recorded if necessary;

(d) Nothing concerning the alleged offense or the diversion shall be reported to the department of licensing;

(e) The youth court program may refer the juvenile back to the juvenile diversion unit for termination of the diversion agreement due to noncompliance at any time prior to completion; and

(f) The juvenile court diversion unit shall maintain primary jurisdiction over supervision of the juvenile during his or her participation in the youth court program. The youth court shall notify the diversion unit upon completion of the youth court program and the diversion agreement shall be complete."

ESSB 5759 Prime Sponsor, Committee on Health & Long Term Care: Increasing opportunities for the use of remote technology in corrective lens prescriptions. Reported by Committee on Appropriations

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. This act may be known and cited as the consumer protection in eye care act.

NEW SECTION. Sec. 2. INTENT. (1) The legislature recognizes the importance of allowing licensed practitioners to use their professional judgment, based on their education, training, and expertise, to determine the appropriate use of current and future technologies to enhance patient care. Guidelines for providing health care services through remote technology have been addressed by the medical community, and the legislature intends to complement and clarify those guidelines with respect to using remote technology to provide prescriptions for corrective lenses.

(2) The legislature also recognizes that health care consumers, including eye health care consumers, can benefit from developments in technology that offer advantages such as increased convenience or increased speed in delivery of services. However, the legislature recognizes that health care consumers can be misled or harmed by the use of developments in technology that are not properly supervised by qualified providers.

(3) The legislature recognizes that the use of technology that permits a consumer to submit data to an entity for the purposes of obtaining a prescription for corrective lenses, including contact lenses, may fail to detect serious eye health issues resulting in permanent vision loss if the patient is not also receiving comprehensive eye care according to standard of care.

(4) Therefore, the legislature concludes that consumers should be protected from improper or unsupervised use of technology for purposes of obtaining a prescription for corrective lenses, without unduly restricting the development and implementation of technology and without unduly restricting licensed practitioners from using such technology where appropriate.

NEW SECTION. **Sec. 3.** DEFINITIONS. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Contact lens" means any lens placed directly on the surface of the eye, regardless of whether or not it is intended to correct a visual defect. Contact lens includes, but is not limited to, cosmetic, therapeutic, and corrective lenses that are a federally regulated medical device.

(2) "Corrective lenses" means any lenses, including lenses in spectacles and contact lenses, that are manufactured in accordance with the specific terms of a valid prescription for an individual patient for the purpose of correcting the patient's refractive or binocular error.

(3) "Department" means the department of health.

(4) "Diagnostic information and data" mean any and all information and data, including but not limited to photographs and scans, generated by or through the use of any remote technology.

(5) "Patient-practitioner relationship" means the relationship between a provider of medical services, the practitioner, and a receiver of medical services, the patient, based on mutual understanding of their shared responsibility for the patient's health care.

(6) "Prescription" means the written or electronic directive from a qualified provider for corrective lenses and consists of the refractive power as well as contact lens parameters in the case of contact lens prescriptions.

(7) "Qualified provider" means a physician licensed under chapter 18.71 RCW or an osteopathic physician licensed under chapter 18.57 RCW practicing ophthalmology, or a person licensed under chapter 18.53 RCW to practice optometry.

(8) "Remote qualified provider" means any qualified provider who is not physically present at the time of the examination.

(9) "Remote technology" means any automated equipment or testing device and any application designed to be used on or with a phone, computer, or internet-based device that is used without the physical presence and participation of a qualified provider that generates data for purposes of determining an individual's refractive error. Remote technology does not include the use of telemedicine as defined in RCW 48.43.735 for purposes other than determining an individual's refractive error.

(10) "Spectacles" means any device worn by an individual that has one or more lenses through which the wearer looks. Spectacles are commonly known and referred to as glasses, and may include cosmetic or corrective lenses.

(11) "Standard of care" means those standards developed and defined by the American academy of ophthalmology preferred practice pattern "Comprehensive Adult Medical Eye Evaluation" (Appendix 1), as the preferred practice pattern existed on the effective date of this act.

(12) "Standard of care for contact lenses" means the frequency of eye examinations as recommended for contact lens wearers in the American academy of ophthalmology publication "Refractive Errors & Refractive Surgery Preferred Practice Pattern" (Appendix 2), as the

preferred practice pattern existed on the effective date of this act.

NEW SECTION. Sec. 4. USE OF REMOTE TECHNOLOGY FOR CORRECTIVE LENS PRESCRIPTIONS. A qualified provider may prepare a prescription for corrective lenses intended to correct an individual's refractive error by remote technology if:

(1) The prescribing qualified provider is held to the same standard of care applicable to qualified providers providing corrective lens prescriptions in traditional in-person clinical settings;

(2) A patient-practitioner relationship is clearly established by the qualified provider agreeing to provide a corrective lens prescription, whether or not there was an in-person encounter between the parties. The parameters of the patient-practitioner relationship for the use of remote technology must mirror those that would be expected for similar in-person encounters to provide corrective lens prescriptions;

(3) The remote technology is only offered to patients who meet appropriate screening criteria. A review of the patient's medical and ocular history that meets standard of care is required to determine who may or may not be safely treated with refraction without a concurrent comprehensive eye exam. Patients must also be informed that a refraction alone, whether utilizing remote technology or in person, does not substitute for a comprehensive eye exam;

(4) Continuity of care is maintained. Continuity of care requires but is not limited to:

(a) A qualified provider addressing an adverse event that occurs as a result of the prescription written by the qualified provider by:

(i) Being available to address the patient's vision or medical condition directly, either in-person or remotely, if it is possible to address the adverse event remotely;

(ii) Having an agreement with another qualified provider or licensed medical provider who is available to address the patient's vision or medical condition, either in-person or remotely; or

(iii) Referring the patient to a qualified provider or licensed medical

provider who is capable of addressing the patient's condition;

(b) Retaining patient exam documentation for a minimum of ten years and retaining communication between the remote qualified provider who evaluated the patient and prescribed corrective lenses and any applicable providers as they normally would in an in-person setting; and

(5) When prescribing for contact lenses, the examination of the eyes is performed in accordance with the standard of care and standard of care for contact lenses. The components of the eye examination, if done remotely, must be to the same evaluation and standard of care the qualified provider would typically do in an in-person setting for the same condition. If the eye examination is performed by someone other than the prescribing qualified provider, the prescribing qualified provider must obtain written, faxed, or electronically communicated affirmative verification of the results of that eye examination from the provider who performed the examination. The absence of receipt of affirmative verification within any specified time period cannot be used as presumed affirmative verification.

NEW SECTION. Sec. 5. REMOTE TECHNOLOGY STANDARDS FOR USE. It is unlawful for any person to offer or otherwise make available to consumers in this state remote technology under this chapter without fully complying with the following:

(1) The remote technology must be approved by the United States food and drug administration when applicable;

(2) The remote technology must be designed and operated in a manner that provides any accommodation required by the Americans with disabilities act of 1990, 42 U.S.C. Sec. 12101 et seq. when applicable;

(3) The remote technology, when used for the collection and transmission of diagnostic information and data, must gather and transmit any protected health information in compliance with the federal health insurance portability and accountability act of 1996 and related regulations;

(4) The remote technology, when used for the collection and transmission of diagnostic information and data, may only transmit the diagnostic information and

data to a qualified provider, their staff, contracted support staff, or another licensed health care provider for the purposes of collaboration in providing care to the patient. When diagnostic information and data are collected and transmitted through remote technology, that information must be read and interpreted by a qualified provider in order to release a corrective lens prescription to the patient or other entity. Contracted support staff must comply with all requirements of this chapter. Contract support staff and the supervising provider retain personal and professional responsibility for any violation of this chapter by the contracted support staff; and

(5) The owner, lessee, or operator of the remote technology must maintain liability insurance in an amount reasonably sufficient to cover claims which may be made by individuals diagnosed or treated based on information and data by the automated equipment, including but not limited to photographs and scans.

**NEW SECTION. Sec. 6. ENFORCEMENT.**

(1) The relevant disciplinary authority for the qualified provider shall review any written complaint alleging a violation, or attempted violation, of this chapter or rules adopted pursuant to this chapter, and conduct an investigation.

(2) If the disciplinary authority finds that a person has violated or attempted to violate this chapter, it may:

(a) Upon the first violation or attempted violation that did not result in significant harm to an individual's health, issue a written warning; or

(b) In all other cases, impose a civil penalty of not less than one thousand dollars and not more than ten thousand dollars for each violation.

(3) At the request of the department, the attorney general may file a civil action seeking an injunction or other appropriate relief to enforce this chapter and the rules adopted pursuant to this chapter.

(4) For the purposes of this section, "disciplinary authority" means the same as in RCW 18.130.020.

**NEW SECTION. Sec. 7. RULE MAKING.**  
The department shall adopt any rules necessary to implement this chapter.

**NEW SECTION. Sec. 8.** Sections 2 through 7 of this act constitute a new chapter in Title 18 RCW."

**"NEW SECTION. Sec. 1.** A new section is added to chapter 49.17 RCW to read as follows:

(1) Before the assignment of an employee to a worksite employer, a staffing agency must:

(a) Inquire about the worksite employer's safety and health practices and hazards, and when five or more employees will be assigned to a single worksite, also make reasonable efforts to visit the worksite employer's actual workplace where the employees will be working to assess the safety conditions, observe workers engaged in their tasks, and review the worksite employer's safety program;

(b) Provide training to the employee for general industry hazards the employee may encounter at the worksite employer. Industry training must be completed annually, in the preferred language of the employee, and must be provided at no expense to the employee. The training date and training content must be maintained by the staffing agency and provided to the employee upon request;

(c) Transmit training documentation to the worksite employer;

(d) Provide the department's hotline number for the employee to call to report safety hazards and concerns as part of the employment materials provided to the employee; and

(e) Inform the employee who the employee should report safety concerns to at the workplace.

(2) Before the employee engages in work for the worksite employer, the worksite employer must:

(a) Document and inform the staffing agency about anticipated job hazards likely encountered by the staffing agency employee;

(b) Review industry training provided by the staffing agency to determine if the training is appropriate for hazards encountered in the worksite employer's jobsite location. If the worksite employer determines that the training is not appropriate, the worksite employer must provide all necessary training;

(c) Document if the determination is made that the training is adequate for

the expected hazards likely encountered by the staffing agency employees; and

(d) Document and maintain records of supplemental training and provide the training records to the staffing agency and the employee within forty-eight hours of providing the training.

(3) If the worksite employer changes the job tasks and new hazards may be encountered, the worksite employer must:

(a) Inform both the staffing agency and the employee; and

(b) Inform both the staffing agency and the employee of job hazards not previously covered before the employee undertakes the new tasks and update personal protective equipment and training for the new job tasks, if necessary.

(4) A staffing agency and employee may refuse a new job task at the worksite when the task has not been reviewed or if the employee has not had appropriate training to do the new task.

(5) A worksite employer must allow a staffing agency to visit any worksite where the staffing agency's employees are working to observe and confirm the information related to job tasks and hazards.

(6) A worksite employer that supervises an employee of a staffing agency must provide worksite specific training to the employee and must allow a staffing agency to visit any worksite where the staffing agency's employees are or will be working to observe and confirm the worksite employer's training and information related to the worksite's safety and health practices and hazards.

(7) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Staffing agency" means an individual, company, corporation, or partnership, that procures or provides temporary employment to a person who then works under the supervision or direction of a worksite employer. "Staffing agency" does not include a "farm labor contractor" as defined in RCW 19.30.010.

(b) "Worksite employer" means an individual, company, corporation, or partnership with which a staffing agency contracts or otherwise agrees to furnish persons for temporary employment in the

industries described in sectors 23 and 31 through 33 of the North American industry classification system.

(8) This section does not change any existing worksite employer or staffing agency responsibility as an employer to provide a place of employment free from recognized hazards or to otherwise comply with this chapter and other employment laws.

(9) A staffing agency or worksite employer may not retaliate against a staffing agency employee who reports safety concerns.

NEW SECTION. **Sec. 2.** (1) The department of labor and industries must review three years of industrial injury claims related to staffing agencies' employees. By December 1, 2023, the department of labor and industries must provide a report to the appropriate committees of the legislature with its findings regarding the claims and a recommendation for a financial assessment charged to the worksite employers so that worksite employers are also impacted financially from claims related to their worksites by staffing agencies' employees. The financial assessment is separate from industrial insurance premiums and experience rating calculations.

(2) For the purposes of this section, the definitions in section 1(7) of this act apply unless the context clearly requires otherwise."

ESSB 6141 Prime Sponsor, Committee on Higher Education & Workforce Development: Expanding access to higher education. Reported by Committee on College & Workforce Development

MAJORITY recommendation: Do pass as amended.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature recognizes the increasing importance of postsecondary education as a tool for economic resilience and mobility, as well as the financial barriers many students in our state face in pursuing postsecondary education. In light of the 2019 expansion of the Washington college grant, it is also important to share information about new financial aid opportunities available to prospective postsecondary students. The legislature also acknowledges Washington's low completion rate of the free application for federal student aid in comparison with other states, as well as other states' successes in increasing these rates by expanding supports for students and their families. Research has shown that increased completion of student aid applications in other states has led to increases in high school graduation and college matriculation, especially for students in underrepresented groups. Given these facts, the legislature intends to undertake several actions to improve financial aid awareness and to increase coordination in this area among schools, districts, agencies, and institutions of higher education.

NEW SECTION. **Sec. 2.** A new section is added to chapter 28B.77 RCW to read as follows:

(1) The council shall adopt a centralized online statewide calculator tool for the purposes of estimating federal Pell grant and Washington college grant awards for all public four-year institutions of higher education in Washington state.

(2) The tool must provide an estimate of state and federal aid based on student and family financial circumstances.

(3) The calculator tool must be published on a web site managed by the council.

(4) The financial aid calculator must be for estimation purposes only and is not a guarantee of state aid. Neither this section nor the estimates provided by the financial aid calculator constitute an entitlement on the part of the state, and no institution, agency, or their agents or employees may be held liable for any estimates created through its usage.

(5) The financial aid calculator must be designed for anonymous use and may not be used to collect or share any data.

**NEW SECTION. Sec. 3.** A new section is added to chapter 28B.77 RCW to read as follows:

(1) In collaboration with financial aid experts from public four-year and two-year institutions of higher education, as well as independent colleges in Washington state, the Washington student achievement council shall develop clear, consistent definitions for institutions of higher education to adopt regarding financial aid package award letters.

(2) By July 1, 2021, all public four-year and two-year institutions of higher education, as well as all independent colleges in Washington state, must adopt uniform terminology and a standardized template for financial aid award packages so that students may easily compare them.

**NEW SECTION. Sec. 4.** A new section is added to chapter 28A.230 RCW to read as follows:

(1)(a) Beginning with the 2020-21 school year, all school districts with a high school must provide a financial aid advising day, as defined in section 5 of this act.

(b) Districts must provide both a financial aid advising day and notification of financial aid opportunities at the beginning of each school year to parents and guardians of any student entering the twelfth grade. The notification must include information regarding:

(i) The eligibility requirements of the Washington college grant;

(ii) The requirements of the financial aid advising day;

(iii) The process for opting out of the financial aid advising day; and

(iv) Any community-based resources available to assist parents and guardians in understanding the requirements of and how to complete the free application for federal student aid and the Washington application for state financial aid.

(2) Districts may administer the financial aid advising day, as defined in section 5 of this act, in accordance with information-sharing requirements set in the high school and beyond plan in RCW 28A.230.090.

(3) The Washington state school directors' association, with assistance from the office of the superintendent of public instruction and the Washington student achievement council, shall develop a model policy and procedure that school district board of directors may adopt. The model policy and procedure must describe minimum standards for a financial aid advising day as defined in section 5 of this act.

(4) School districts are encouraged to engage in the Washington student achievement council's financial aid advising training.

(5) The office of the superintendent of public instruction may adopt rules for the implementation of this section.

**NEW SECTION. Sec. 5.** A new section is added to chapter 28A.300 RCW to read as follows:

(1)(a) Beginning with the 2020-21 school year, within existing resources, and in collaboration with the Washington student achievement council, the office of the superintendent of public instruction shall coordinate a financial aid advising day with all school districts with a high school.

(b) For the purposes of this section and section 4 of this act, a "financial aid advising day" means a day or series of days between September 1st and December 1st of each year that includes, but is not limited to, dedicated time during regular school hours for staff to:

(i) Provide information to twelfth grade students on the free application for federal student aid, the Washington application for state financial aid, and the college board's CSS profile;

(ii) As appropriate and whenever possible, assist twelfth grade students in completing the free application for federal student aid and the Washington application for state financial aid; and

(iii) In conjunction with the Washington student achievement council, distribute information on the Washington college grant and demonstrate the use of the college financial aid calculator created in section 2 of this act.

(c) Each school district may choose the date or series of dates on which to hold a financial aid advising day.

(2) The office of the superintendent of public instruction shall coordinate

with the Washington student achievement council whenever possible to assist districts in facilitating opportunities outside of regular school hours for parents to take part in seminars on completing the free application for federal student aid and the Washington application for state financial aid. Whenever possible, districts shall provide spoken language interpreter services for limited English-speaking families.

(3) Schools must allow students over the age of eighteen to opt out and parents or guardians of students under the age of eighteen to opt their student out of scheduled financial aid advising day activities.

(4) A student may not be penalized for failing to complete financial aid applications or for opting out of activities under subsection (3) of this section.

(5) Educational staff, including instructional, administrative, and counseling staff, may not be assessed or penalized on the basis of students' completion of financial aid forms or students' decisions to opt out under subsection (3) of this section.

(6) In the administration of the financial aid advising day, personally identifiable student or family information must be protected in accordance with state and federal privacy laws.

**Sec. 6.** RCW 28A.230.090 and 2019 c 252 s 103 are each amended to read as follows:

(1) The state board of education shall establish high school graduation requirements or equivalencies for students, except as provided in RCW 28A.230.122 and 28A.655.250 and except those equivalencies established by local high schools or school districts under RCW 28A.230.097. The purpose of a high school diploma is to declare that a student is ready for success in postsecondary education, gainful employment, and citizenship, and is equipped with the skills to be a lifelong learner.

(a) Any course in Washington state history and government used to fulfill high school graduation requirements shall consider including information on the culture, history, and government of

the American Indian peoples who were the first inhabitants of the state.

(b) Except as provided otherwise in this subsection, the certificate of academic achievement requirements under RCW 28A.655.061 or the certificate of individual achievement requirements under RCW 28A.155.045 are required for graduation from a public high school but are not the only requirements for graduation. The requirement to earn a certificate of academic achievement to qualify for graduation from a public high school concludes with the graduating class of 2019. The obligation of qualifying students to earn a certificate of individual achievement as a prerequisite for graduation from a public high school concludes with the graduating class of 2021.

(c) (i) Each student must have a high school and beyond plan to guide the student's high school experience and inform course taking that is aligned with the student's goals for education or training and career after high school.

(ii) (A) A high school and beyond plan must be initiated for each student during the seventh or eighth grade. In preparation for initiating that plan, each student must first be administered a career interest and skills inventory.

(B) For students with an individualized education program, the high school and beyond plan must be developed in alignment with their individualized education program. The high school and beyond plan must be developed in a similar manner and with similar school personnel as for all other students.

(iii) (A) The high school and beyond plan must be updated to reflect high school assessment results in RCW 28A.655.070(3)(b) and to review transcripts, assess progress toward identified goals, and revised as necessary for changing interests, goals, and needs. The plan must identify available interventions and academic support, courses, or both, that are designed for students who are not on track to graduate, to enable them to fulfill high school graduation requirements. Each student's high school and beyond plan must be updated to inform junior year course taking.

(B) For students with an individualized education program, the high school and beyond plan must be

updated in alignment with their school to postschool transition plan. The high school and beyond plan must be updated in a similar manner and with similar school personnel as for all other students.

(iv) School districts are encouraged to involve parents and guardians in the process of developing and updating the high school and beyond plan, and the plan must be provided to the students' parents or guardians in their native language if that language is one of the two most frequently spoken non-English languages of students in the district. Nothing in this subsection (1)(c)(iv) prevents districts from providing high school and beyond plans to parents and guardians in additional languages that are not required by this subsection.

(v) All high school and beyond plans must, at a minimum, include the following elements:

(A) Identification of career goals, aided by a skills and interest assessment;

(B) Identification of educational goals;

(C) Identification of dual credit programs and the opportunities they create for students, including eligibility for automatic enrollment in advanced classes under RCW 28A.320.195, career and technical education programs, running start programs, AP courses, international baccalaureate programs, and college in the high school programs;

(D) Information about the college bound scholarship program established in chapter 28B.118 RCW;

(E) A four-year plan for course taking that:

(I) Includes information about options for satisfying state and local graduation requirements;

(II) Satisfies state and local graduation requirements;

(III) Aligns with the student's secondary and postsecondary goals, which can include education, training, and career;

(IV) Identifies course sequences to inform academic acceleration, as described in RCW 28A.320.195 that include dual credit courses or programs and are aligned with the student's goals; and

(V) Includes information about the college bound scholarship program, the Washington college grant, and other scholarship opportunities;

(F) Evidence that the student has received the following information on federal and state financial aid programs that help pay for the costs of a postsecondary program:

(I) Information about the documentation necessary for completing the applications; application timeliness and submission deadlines; the importance of submitting applications early; information specific to students who are or have been in foster care; information specific to students who are, or are at risk of being, homeless; information specific to students whose family member or guardians will be required to provide financial and tax information necessary to complete applications; and

(II) Opportunities to participate in sessions that assist students and, when necessary, their family members or guardians, fill out financial aid applications; and

(G) By the end of the twelfth grade, a current resume or activity log that provides a written compilation of the student's education, any work experience, and any community service and how the school district has recognized the community service pursuant to RCW 28A.320.193.

(d) Any decision on whether a student has met the state board's high school graduation requirements for a high school and beyond plan shall remain at the local level. Effective with the graduating class of 2015, the state board of education may not establish a requirement for students to complete a culminating project for graduation. A district may establish additional, local requirements for a high school and beyond plan to serve the needs and interests of its students and the purposes of this section.

(e)(i) The state board of education shall adopt rules to implement the career and college ready graduation requirement proposal adopted under board resolution on November 10, 2010, and revised on January 9, 2014, to take effect beginning with the graduating class of 2019 or as otherwise provided in this subsection (1)(e). The rules must include authorization for a school district to waive up to two credits for individual

students based on a student's circumstances, provided that none of the waived credits are identified as mandatory core credits by the state board of education. School districts must adhere to written policies authorizing the waivers that must be adopted by each board of directors of a school district that grants diplomas. The rules must also provide that the content of the third credit of mathematics and the content of the third credit of science may be chosen by the student based on the student's interests and high school and beyond plan with agreement of the student's parent or guardian or agreement of the school counselor or principal.

(ii) School districts may apply to the state board of education for a waiver to implement the career and college ready graduation requirement proposal beginning with the graduating class of 2020 or 2021 instead of the graduating class of 2019. In the application, a school district must describe why the waiver is being requested, the specific impediments preventing timely implementation, and efforts that will be taken to achieve implementation with the graduating class proposed under the waiver. The state board of education shall grant a waiver under this subsection (1)(e) to an applying school district at the next subsequent meeting of the board after receiving an application.

(iii) A school district must update the high school and beyond plans for each student who has not earned a score of level 3 or level 4 on the middle school mathematics assessment identified in RCW 28A.655.070 by ninth grade, to ensure that the student takes a mathematics course in both ninth and tenth grades. This course may include career and technical education equivalencies in mathematics adopted pursuant to RCW 28A.230.097.

(2) (a) In recognition of the statutory authority of the state board of education to establish and enforce minimum high school graduation requirements, the state board shall periodically reevaluate the graduation requirements and shall report such findings to the legislature in a timely manner as determined by the state board.

(b) The state board shall reevaluate the graduation requirements for students enrolled in vocationally intensive and rigorous career and technical education

programs, particularly those programs that lead to a certificate or credential that is state or nationally recognized. The purpose of the evaluation is to ensure that students enrolled in these programs have sufficient opportunity to earn a certificate of academic achievement, complete the program and earn the program's certificate or credential, and complete other state and local graduation requirements.

(c) The state board shall forward any proposed changes to the high school graduation requirements to the education committees of the legislature for review. The legislature shall have the opportunity to act during a regular legislative session before the changes are adopted through administrative rule by the state board. Changes that have a fiscal impact on school districts, as identified by a fiscal analysis prepared by the office of the superintendent of public instruction, shall take effect only if formally authorized and funded by the legislature through the omnibus appropriations act or other enacted legislation.

(3) Pursuant to any requirement for instruction in languages other than English established by the state board of education or a local school district, or both, for purposes of high school graduation, students who receive instruction in American sign language or one or more American Indian languages shall be considered to have satisfied the state or local school district graduation requirement for instruction in one or more languages other than English.

(4) Unless requested otherwise by the student and the student's family, a student who has completed high school courses before attending high school shall be given high school credit which shall be applied to fulfilling high school graduation requirements if:

(a) The course was taken with high school students, if the academic level of the course exceeds the requirements for seventh and eighth grade classes, and the student has successfully passed by completing the same course requirements and examinations as the high school students enrolled in the class; or

(b) The academic level of the course exceeds the requirements for seventh and eighth grade classes and the course would qualify for high school credit, because the course is similar or equivalent to a

course offered at a high school in the district as determined by the school district board of directors.

(5) Students who have taken and successfully completed high school courses under the circumstances in subsection (4) of this section shall not be required to take an additional competency examination or perform any other additional assignment to receive credit.

(6) At the college or university level, five quarter or three semester hours equals one high school credit.

**Sec. 7.** RCW 28A.230.215 and 2019 c 252 s 504 are each amended to read as follows:

(1) The legislature finds that fully realizing the potential of high school and beyond plans as meaningful tools for articulating and revising pathways for graduation will require additional school counselors and family coordinators. The legislature further finds that the development and implementation of an online electronic platform for high school and beyond plans will be an appropriate and supportive action that will assist students, parents and guardians, educators, and counselors as the legislature explores options for funding additional school counselors.

(2) Subject to the availability of amounts appropriated for this specific purpose, the office of the superintendent of public instruction shall facilitate the creation of a list of available electronic platforms for the high school and beyond plan. Platforms eligible to be included on the list must meet the following requirements:

(a) Enable students to create, personalize, and revise their high school and beyond plan as required by RCW 28A.230.090;

(b) Grant parents or guardians, educators, and counselors appropriate access to students' high school and beyond plans;

(c) Employ a sufficiently flexible technology that allows for subsequent modifications necessitated by statutory changes, administrative changes, or both, as well as enhancements to improve the features and functionality of the platform;

(d) Include a sample financial aid letter and a link to the financial aid

calculator created in section 2 of this act, at such a time as those materials are finalized;

(e) Comply with state and federal requirements for student privacy;

~~((e))~~ (f) Allow for the portability between platforms so that students moving between school districts are able to easily transfer their high school and beyond plans; and

~~((f))~~ (g) To the extent possible, include platforms in use by school districts during the 2018-19 school year.

(3) Beginning in the 2020-21 school year, each school district must ensure that an electronic high school and beyond plan platform is available to all students who are required to have a high school and beyond plan.

(4) The office of the superintendent of public instruction may adopt and revise rules as necessary to implement this section.

**NEW SECTION. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Board" means the indeterminate sentence review board created under chapter 9.95 RCW.

(2) "Collect," or any derivative thereof, "collect and remit," or "collect and deliver," when used with reference to the department, means that the department, either directly or through a collection agreement authorized by RCW 9.94A.760, is responsible for monitoring and enforcing the offender's sentence with regard to the legal financial obligation, receiving payment thereof from the offender, and, consistent with current law, delivering daily the entire payment to the superior court clerk without depositing it in a departmental account.

(3) "Commission" means the sentencing guidelines commission.

(4) "Community corrections officer" means an employee of the department who is responsible for carrying out specific duties in supervision of sentenced offenders and monitoring of sentence conditions.

(5) "Community custody" means that portion of an offender's sentence of confinement in lieu of earned release time or imposed as part of a sentence under this chapter and served in the community subject to controls placed on the offender's movement and activities by the department.

(6) "Community protection zone" means the area within eight hundred eighty feet of the facilities and grounds of a public or private school.

(7) "Community restitution" means compulsory service, without compensation, performed for the benefit of the community by the offender.

(8) "Confinement" means total or partial confinement.

(9) "Conviction" means an adjudication of guilt pursuant to Title 10 or 13 RCW and includes a verdict of guilty, a finding of guilty, and acceptance of a plea of guilty.

(10) "Crime-related prohibition" means an order of a court prohibiting conduct that directly relates to the circumstances of the crime for which the offender has been convicted, and shall not be construed to mean orders directing an offender affirmatively to participate in rehabilitative programs or to otherwise perform affirmative conduct. However, affirmative acts necessary to monitor compliance with the order of a court may be required by the department.

(11) "Criminal history" means the list of a defendant's prior convictions and juvenile adjudications, whether in this state, in federal court, or elsewhere, and any issued certificates of restoration of opportunity pursuant to RCW 9.97.020.

(a) The history shall include, where known, for each conviction (i) whether the defendant has been placed on probation and the length and terms thereof; and (ii) whether the defendant has been incarcerated and the length of incarceration.

(b) A conviction may be removed from a defendant's criminal history only if it is vacated pursuant to RCW 9.96.060, 9.94A.640, 9.95.240, or a similar out-of-state statute, or if the conviction has been vacated pursuant to a governor's pardon. However, when a defendant is charged with a recidivist offense, "criminal history" includes a vacated prior conviction for the sole purpose of establishing that such vacated prior conviction constitutes an element of the present recidivist offense as provided in RCW 9.94A.640(3)(b) and 9.96.060(~~(4)~~) (6)(c).

(c) The determination of a defendant's criminal history is distinct

from the determination of an offender score. A prior conviction that was not included in an offender score calculated pursuant to a former version of the sentencing reform act remains part of the defendant's criminal history.

(b) According to the northwest tribal epidemiology center and the department of health, American Indians and Alaska Natives in the state experience some of the greatest health disparities compared to other groups, including (~~excessively high rates of~~):

(i) ~~((Premature))~~ Disproportionately high rates of premature mortality due to ~~((suicide, overdose, unintentional injury, and various))~~ chronic diseases and unintentional injury; ~~((and))~~

(ii) ~~((Asthma))~~ Disproportionately high rates of asthma, coronary heart disease, hypertension, diabetes, prediabetes, obesity, dental caries, poor mental health, youth depressive feelings, cigarette smoking and vaping, and cannabis use;

(iii) A drug overdose death rate in 2016 in this state that is three times higher than the national American Indian and Alaska Native rate and has increased thirty-six percent since 2012 and almost three hundred percent since 2000 in contrast to a relatively stable rate for the state overall population. Over seventy-two percent of these overdose deaths involved an opioid;

(iv) A suicide mortality rate in this state that is more than one and four-fifths times higher than the rate for non-American Indians and Alaska Natives. Since 2001, the suicide mortality rate for American Indians and Alaska Natives in this state has increased by fifty-eight percent which is more than three times the rate of increase among non-American Indians and Alaska Natives. Nationally, the highest suicide rates among American Indians and Alaska Natives are for adolescents and young adults, while rates among non-Hispanic whites are highest in older age groups, suggesting that different risk factors might contribute to suicide in these groups; and

(v) A rate of exposure to significant adverse childhood experiences between 2009 and 2011 that is nearly twice the rate of non-Hispanic whites;

(c) These health disparities are a direct result of both historical trauma, leading to adverse childhood experiences across multiple generations, and inadequate levels of federal funding to the Indian health service;

(d) Under a 2016 update in payment policy from the centers for medicare and medicaid services, the state has the opportunity to shift more of the cost of care for American Indian and Alaska Native medicaid enrollees from the state general fund to the federal government if all of the federal requirements are met;

(e) Because the federal requirements to achieve this cost shift and obtain the new federal funds place significant administrative burdens on Indian health service and tribal health facilities, the state has no way to shift these costs of care to the federal government unless the state provides incentives for tribes to take on these administrative burdens; and

(f) The federal government's intent for this update in payment policy is to help states, the Indian health service, and tribes to improve delivery systems for American Indians and Alaska Natives by increasing access to care, strengthening continuity of care, and improving population health.

(2) The legislature, therefore, intends to:

(a) Establish that it is the policy of this state and the intent of this chapter, in fulfillment of the state's unique relationships and shared respect between sovereign governments, to:

(i) Recognize the United States' special trust responsibility to provide quality health care and allied health services to American Indians and Alaska Natives, including those individuals who are residents of this state; and

(ii) Implement the national policies of Indian self-determination with the goal of reducing health inequities for American Indians and Alaska Natives;

(b) Establish the governor's Indian health advisory council to:

(i) Adopt a biennial Indian health improvement advisory plan, developed by the reinvestment committee;

(ii) Address issues with tribal implications that are not able to be resolved at the agency level; ~~((and))~~

(iii) Provide oversight of the Indian health improvement reinvestment account; and

(iv) Draft recommended legislation to address Indian health improvement needs including, but not limited to, crisis coordination between Indian health care providers and the state's behavioral health system;

(c) Establish the Indian health improvement reinvestment account in order to provide incentives for tribes to assume the administrative burdens created by the federal requirements for

the state to shift health care costs to the federal government;

(d) Appropriate and deposit into the reinvestment account all of the new state savings, subject to federal appropriations and less agreed upon administrative costs to maintain fiscal neutrality to the state general fund; (~~and~~)

(e) Require the funds in the reinvestment account to be spent only on costs for projects, programs, or activities identified in the advisory plan;

(f) Address the ongoing suicide and addiction crisis among American Indians and Alaska Natives by:

(i) Including Indian health care providers among entities eligible to receive available resources as defined in RCW 71.24.025 for the delivery of behavioral health services to American Indians and Alaska Natives;

(ii) Strengthening the state's behavioral health system crisis coordination with tribes and Indian health care providers by removing barriers to the federal trust responsibility to provide for American Indians and Alaska Natives; and

(g) Recognize the sovereign authority of tribal governments to act as public health authorities in providing for the health and safety of their community members including those individuals who may be experiencing a behavioral health crisis.

Before filing the petition, the designated crisis responder must personally interview the person, unless the person refuses an interview, and determine whether the person will voluntarily receive appropriate evaluation and treatment at an evaluation and treatment facility, crisis stabilization unit, triage facility, or approved substance use disorder treatment program.

(2)(a) An order to detain a person with a mental disorder to a designated evaluation and treatment facility, or to detain a person with a substance use disorder to a secure withdrawal management and stabilization facility or approved substance use disorder treatment program, for not more than a seventy-two-hour evaluation and treatment period may be issued by a judge of the superior court upon request of a designated crisis responder, subject to (d) of this subsection, whenever it appears to the satisfaction of a judge of the superior court:

(i) That there is probable cause to support the petition; and

(ii) That the person has refused or failed to accept appropriate evaluation and treatment voluntarily.

(b) The petition for initial detention, signed under penalty of perjury, or sworn telephonic testimony may be considered by the court in determining whether there are sufficient grounds for issuing the order.

(c) The order shall designate retained counsel or, if counsel is appointed from a list provided by the court, the name, business address, and telephone number of the attorney appointed to represent the person.

(d) A court may not issue an order to detain a person to a secure withdrawal

management and stabilization facility or approved substance use disorder treatment program unless there is an available secure withdrawal management and stabilization facility or approved substance use disorder treatment program that has adequate space for the person.

The designated crisis responder shall notify the court and the prosecuting attorney that a probable cause hearing will be held within seventy-two hours of the date and time of outpatient evaluation or admission to the evaluation and treatment facility, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program. The person shall be permitted to be accompanied by one or more of his or her relatives, friends, an attorney, a personal physician, or other professional or religious advisor to the place of evaluation. An attorney accompanying the person to the place of evaluation shall be permitted to be present during the admission evaluation. (7) In any investigation and evaluation of an individual under RCW 71.05.150 or 71.05.153 in which the designated crisis responder knows, or has reason to know, that the individual is an American Indian or Alaska Native who receives medical or behavioral health services from a tribe within this state, the designated crisis responder shall notify the tribe or Indian health care provider regarding whether or not a petition for initial detention or involuntary outpatient treatment will be filed. 71.05.148. Before filing the petition, the designated crisis responder must personally interview the person, unless the person refuses an interview, and determine whether the person will voluntarily receive appropriate evaluation and treatment at an evaluation and treatment facility, crisis stabilization unit, triage facility, or approved substance use disorder treatment program.

(i) That there is probable cause to support the petition; and

(ii) That the person has refused or failed to accept appropriate evaluation and treatment voluntarily.

After service on such person the designated crisis responder shall file the return of service in court and provide copies of all papers in the court file to the evaluation and treatment facility, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program, and the designated attorney. The designated crisis responder shall notify the court and the prosecuting attorney that a probable cause hearing will be

held within seventy-two hours of the date and time of outpatient evaluation or admission to the evaluation and treatment facility, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program. The person shall be permitted to be accompanied by one or more of his or her relatives, friends, an attorney, a personal physician, or other professional or religious advisor to the place of evaluation. An attorney accompanying the person to the place of evaluation shall be permitted to be present during the admission evaluation. Any other individual accompanying the person may be present during the admission evaluation. The facility may exclude the individual if his or her presence would present a safety risk, delay the proceedings, or otherwise interfere with the evaluation.

(4) The designated crisis responder may notify a peace officer to take such person or cause such person to be taken into custody and placed in an evaluation and treatment facility, secure withdrawal management and stabilization facility, or approved substance use disorder treatment program. At the time such person is taken into custody there shall commence to be served on such person, his or her guardian, and conservator, if any, a copy of the original order together with a notice of rights and a petition for initial detention.

(5) An Indian tribe shall have jurisdiction exclusive to the state as to any involuntary commitment of an American Indian or Alaska Native to an evaluation and treatment facility located within the boundaries of that tribe, unless the tribe has consented to the state's concurrent jurisdiction, or the tribe has expressly declined to exercise its exclusive jurisdiction.

(6) Tribal court orders for involuntary commitment shall be recognized and enforced in accordance with superior court civil rule 82.5.

(7) In any investigation and evaluation of an individual under RCW 71.05.150 or 71.05.153 in which the designated crisis responder knows, or has reason to know, that the individual is an American Indian or Alaska Native who receives medical or behavioral health services from a tribe within this state, the designated crisis responder shall notify the tribe or Indian health care

provider regarding whether or not a petition for initial detention or involuntary outpatient treatment will be filed. Notification shall be made in person or by telephonic or electronic communication to the tribal contact listed in the authority's tribal crisis coordination plan as soon as possible but no later than three hours subject to the requirements in RCW 70.02.230 (2) (dd) and (3). A designated crisis responder may restrict the release of information as necessary to comply with 42 C.F.R. Part 2.

(1) If a designated crisis responder decides not to detain a person for evaluation and treatment under RCW 71.05.150 or 71.05.153 or forty-eight hours have elapsed since a designated crisis responder received a request for investigation and the designated crisis responder has not taken action to have the person detained, an immediate family member or guardian or conservator of the person, or a federally recognized Indian tribe if the person is a member of such tribe, may petition the superior court for the person's initial detention.

(2) A petition under this section must be filed within ten calendar days following the designated crisis responder investigation or the request for a designated crisis responder investigation. If more than ten days have elapsed, the immediate family member, guardian, or conservator may request a new designated crisis responder investigation.

(3) (a) The petition must be filed in the county in which the designated crisis responder investigation occurred or was requested to occur and must be submitted on forms developed by the administrative office of the courts for this purpose. The petition must be accompanied by a sworn declaration from the petitioner, and other witnesses if desired, describing why the person should be detained for evaluation and treatment. The description of why the person should be detained may contain, but is not limited to, the information identified in RCW 71.05.212.

(b) The petition must contain:

(i) A description of the relationship between the petitioner and the person; and

(ii) The date on which an investigation was requested from the designated crisis responder.

(4) The court shall, within one judicial day, review the petition to determine whether the petition raises sufficient evidence to support the allegation. If the court so finds, it shall provide a copy of the petition to the designated crisis responder agency with an order for the agency to provide the court, within one judicial day, with a written sworn statement describing the basis for the decision not to seek initial detention and a copy of all information material to the designated crisis responder's current decision.

(5) Following the filing of the petition and before the court reaches a decision, any person, including a mental health professional, may submit a sworn declaration to the court in support of or in opposition to initial detention.

(6) The court shall dismiss the petition at any time if it finds that a designated crisis responder has filed a petition for the person's initial detention under RCW 71.05.150 or 71.05.153 or that the person has voluntarily accepted appropriate treatment.

(7) The court must issue a final ruling on the petition within five judicial days after it is filed. After reviewing all of the information provided to the court, the court may enter an order for initial detention or an order instructing the designated crisis responder to file a petition for assisted outpatient behavioral health treatment if the court finds that: (a) There is probable cause to support a petition for detention or assisted outpatient behavioral health treatment; and (b) the person has refused or failed to accept appropriate evaluation and treatment voluntarily. The court shall transmit its final decision to the petitioner.

(8) If the court enters an order for initial detention, it shall provide the order to the designated crisis responder agency and issue a written order for apprehension of the person by a peace officer for delivery of the person to a facility or emergency room determined by the designated crisis responder. The designated crisis responder agency serving the jurisdiction of the court must collaborate and coordinate with law enforcement regarding apprehensions and

detentions under this subsection, including sharing of information relating to risk and which would assist in locating the person. A person may not be detained to jail pursuant to a written order issued under this subsection. An order for detention under this section should contain the advisement of rights which the person would receive if the person were detained by a designated crisis responder. An order for initial detention under this section expires one hundred eighty days from issuance.

(9) Except as otherwise expressly stated in this chapter, all procedures must be followed as if the order had been entered under RCW 71.05.150. RCW 71.05.160 does not apply if detention was initiated under the process set forth in this section.

The designated crisis responder or prosecutor shall

provide notice of the date, time, and location of the probable cause hearing to such a witness.

(3) Symptoms and behavior of the respondent which standing alone would not justify civil commitment may support a finding of grave disability or likelihood of serious harm, or a finding that the person is in need of assisted outpatient behavioral health treatment, when:

(a) Such symptoms or behavior are closely associated with symptoms or behavior which preceded and led to a past incident of involuntary hospitalization, severe deterioration, or one or more violent acts;

(b) These symptoms or behavior represent a marked and concerning change in the baseline behavior of the respondent; and

(c) Without treatment, the continued deterioration of the respondent is probable.

(4) When conducting an evaluation for offenders identified under RCW 72.09.370, the designated crisis responder or professional person shall consider an offender's history of judicially required or administratively ordered antipsychotic medication while in confinement.

**"Sec. 1.** RCW 9.94A.589 and 2015 2nd sp.s. c 3 s 13 are each amended to read as follows:

(1)(a) Except as provided in (b), (c), or (d) of this subsection, whenever a person is to be sentenced for two or more current offenses, the sentence range for each current offense shall be determined by using all other current and prior convictions as if they were prior convictions for the purpose of the offender score: PROVIDED, That if the court enters a finding that some or all of the current offenses encompass the same criminal conduct then those current offenses shall be counted as one crime. Sentences imposed under this subsection shall be served concurrently. Consecutive sentences may only be imposed under the exceptional sentence provisions of RCW 9.94A.535. "Same criminal conduct," as used in this subsection, means two or more crimes that require the same criminal intent, are committed at the same time and place, and involve the same victim. This definition applies in cases involving vehicular assault or vehicular homicide even if the victims occupied the same vehicle.

(b) Whenever a person is convicted of two or more serious violent offenses arising from separate and distinct criminal conduct, the standard sentence range for the offense with the highest seriousness level under RCW 9.94A.515 shall be determined using the offender's prior convictions and other current convictions that are not serious violent offenses in the offender score and the standard sentence range for other serious violent offenses shall be determined by using an offender score of zero. The standard sentence range for any offenses that are not serious violent offenses

shall be determined according to (a) of this subsection. All sentences imposed under this subsection (1)(b) shall be served consecutively to each other and concurrently with sentences imposed under (a) of this subsection. Even if the court orders the confinement terms to run consecutively to each other, the terms of community custody shall run concurrently to each other, unless the court expressly orders the community custody terms to run consecutively to each other.

(c) If an offender is convicted under RCW 9.41.040 for unlawful possession of a firearm in the first or second degree and for the felony crimes of theft of a firearm or possession of a stolen firearm, or both, the standard sentence range for each of these current offenses shall be determined by using all other current and prior convictions, except other current convictions for the felony crimes listed in this subsection (1)(c), as if they were prior convictions. The offender shall serve consecutive sentences for each conviction of the felony crimes listed in this subsection (1)(c), and for each firearm unlawfully possessed.

(d) All sentences imposed under RCW 46.61.502(6), 46.61.504(6), or 46.61.5055(4) shall be served consecutively to any sentences imposed under RCW 46.20.740 and 46.20.750.

(2) (a) ~~((Except as provided in (b) of this subsection,))~~ Whenever a person while under sentence for conviction of a felony commits another felony and is sentenced to another term of confinement, the latter term of confinement shall not begin until expiration of all prior terms of confinement. However, any terms of community custody shall run concurrently to each other, unless the court pronouncing the current sentence expressly orders that they be served consecutively.

(b) Whenever a second or later felony conviction results in consecutive community ~~((supervision))~~ custody with conditions not currently in effect, under the prior sentence or sentences of community ~~((supervision))~~ custody the court may require that the conditions of community ~~((supervision))~~ custody contained in the second or later sentence begin during the immediate term of community ~~((supervision))~~ custody and continue throughout the duration of the consecutive term of community ~~((supervision))~~ custody.

(3) Subject to subsections (1) and (2) of this section, whenever a person is sentenced for a felony that was committed while the person was not under sentence for conviction of a felony, the sentence shall run concurrently with any felony sentence which has been imposed by any court in this or another state or by a federal court subsequent to the commission of the crime being sentenced unless the court pronouncing the current sentence expressly orders that ~~((they))~~ the confinement terms be served consecutively to each other. Even if the court orders the confinement terms to run consecutively to each other, the terms of community custody shall run concurrently to each other, unless the court expressly orders the community custody terms to run consecutively to each other.

(4) Whenever any person granted probation under RCW 9.95.210 or 9.92.060, or both, has the probationary sentence revoked and a prison sentence imposed, that sentence shall run consecutively to any sentence imposed pursuant to this chapter, unless the court pronouncing the subsequent sentence expressly orders that they be served concurrently.

(5) In the case of consecutive sentences, all periods of total confinement shall be served before any partial confinement, community restitution, community supervision, or any other requirement or conditions of any of the sentences. Except for exceptional sentences as authorized under RCW 9.94A.535, if two or more sentences that run consecutively include periods of community supervision, the aggregate of the community supervision period shall not exceed twenty-four months.

**Sec. 2.** RCW 9.94B.050 and 2003 c 379 s 4 are each amended to read as follows:

When a court sentences an offender to a term of total confinement in the custody of the department for any of the offenses specified in this section, the court shall also sentence the offender to a term of community placement as provided in this section. Except as provided in RCW 9.94A.501, the department shall supervise any sentence of community placement imposed under this section.

(1) The court shall order a one-year term of community placement for the following:

(a) A sex offense or a serious violent offense committed after July 1, 1988, but before July 1, 1990; or

(b) An offense committed on or after July 1, 1988, but before July 25, 1999, that is:

(i) Assault in the second degree;

(ii) Assault of a child in the second degree;

(iii) A crime against persons where it is determined in accordance with RCW ((9.94A.602)) 9.94A.825 that the offender or an accomplice was armed with a deadly weapon at the time of commission; or

(iv) A felony offense under chapter 69.50 or 69.52 RCW not sentenced under RCW 9.94A.660.

(2) The court shall sentence the offender to a term of community placement of two years or up to the period of earned release awarded pursuant to RCW 9.94A.728, whichever is longer, for:

(a) An offense categorized as a sex offense committed on or after July 1, 1990, but before June 6, 1996, including those sex offenses also included in other offense categories;

(b) A serious violent offense other than a sex offense committed on or after July 1, 1990, but before July 1, 2000; or

(c) A vehicular homicide or vehicular assault committed on or after July 1, 1990, but before July 1, 2000.

(3) The community placement ordered under this section shall begin either upon completion of the term of confinement or at such time as the offender is transferred to community custody in lieu of earned release. When the court sentences an offender to the statutory maximum sentence then the community placement portion of the sentence shall consist entirely of the community custody to which the offender may become eligible. Any period of community custody actually served shall be credited against the community placement portion of the sentence. The community placement shall run concurrently to any period of probation, parole, community supervision, community placement, or community custody previously imposed by any court in any jurisdiction, unless the court pronouncing the current sentence

expressly orders that they be served consecutively to each other.

(4) Unless a condition is waived by the court, the terms of any community placement imposed under this section shall include the following conditions:

(a) The offender shall report to and be available for contact with the assigned community corrections officer as directed;

(b) The offender shall work at department-approved education, employment, or community restitution, or any combination thereof;

(c) The offender shall not possess or consume controlled substances except pursuant to lawfully issued prescriptions;

(d) The offender shall pay supervision fees as determined by the department; and

(e) The residence location and living arrangements shall be subject to the prior approval of the department during the period of community placement.

(5) As a part of any terms of community placement imposed under this section, the court may also order one or more of the following special conditions:

(a) The offender shall remain within, or outside of, a specified geographical boundary;

(b) The offender shall not have direct or indirect contact with the victim of the crime or a specified class of individuals;

(c) The offender shall participate in crime-related treatment or counseling services;

(d) The offender shall not consume alcohol; or

(e) The offender shall comply with any crime-related prohibitions.

(6) An offender convicted of a felony sex offense against a minor victim after June 6, 1996, shall comply with any terms and conditions of community placement imposed by the department relating to contact between the sex offender and a minor victim or a child of similar age or circumstance as a previous victim.

(7) Prior to or during community placement, upon recommendation of the department, the sentencing court may remove or modify any conditions of

community placement so as not to be more restrictive.

NEW SECTION. **Sec. 3.** The legislature declares that the department of corrections' recalculations of community custody terms pursuant to sections 1 and 2 of this act do not create any expectations that a particular community custody term will end before June 1, 2020, and offenders have no reason to conclude that the recalculation of their community custody terms before June 1, 2020, is an entitlement or creates any liberty interest in their community custody term ending before June 1, 2020. The department of corrections is authorized to take the time reasonably necessary to complete the recalculations of community custody terms after the effective date of this section.

NEW SECTION. **Sec. 4.** The department of corrections has the authority to begin implementing this act upon the effective date of this section.

NEW SECTION. **Sec. 5.** Sections 1 and 2 of this act apply retroactively and prospectively regardless of the date of an offender's underlying offense.

"(16) The Washington State Patrol is directed to terminate its "Agreement for Utility Connection and Reimbursement of Water Extension Expenses" with the City of Shelton, executed on June 12, 2017, subject to the City of Shelton's consent to terminate the agreement. The legislature finds that the water connection extension constructed by the Washington State Patrol from the City of Shelton's water facilities to the Washington State Patrol Academy was necessary to meet the water supply needs of the Academy. The legislature also finds that the water connection provides an ongoing water supply that is necessary to the operation of the training facility, that the state is making use of the water connection for these public activities, and that any future incidental use of the municipal infrastructure put in place to support these activities will not impede the Washington State Patrol's ongoing use of the water connection extension. Therefore, the legislature determines that under the public policy of this state, reimbursement by any other entity is not required, notwithstanding any prior condition regarding contributions of other entities that Washington State Patrol was required to satisfy prior to expenditure of the funds for construction of the extension, and that the Washington State Patrol shall terminate the agreement."

#### SECOND READING

**ENGROSSED SUBSTITUTE SENATE BILL NO. 6168, by Senate Committee on Ways & Means (originally sponsored by Rolfes and Braun)**

**Making 2019-2021 fiscal biennium supplemental operating appropriations.**

The bill was read the second time.

With the consent of the House, amendments (1701) and (1700) to the striking amendment (1686) were withdrawn.

Representative Stokesbary moved the adoption of the striking amendment (1684):

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1. INTENT.** Under the February forecast of the economic and revenue forecast council, for the accounts subject to the outlook process and four-year balanced budget requirement in RCW 43.88.055, revenues are expected to increase by \$606,000,000 for the remainder of the 2019-2021 fiscal biennium and by an additional \$535,700,000 in the 2021-2023 biennium.

Rather than spend this windfall in the 2020 supplemental budget, it is the intent of the legislature to return this revenue increase to the taxpayers by: (1) Reducing taxes on motor vehicles and family necessities as provided in House Bill No. 2946 (reducing the financial costs imposed by the state government on working Washington families); and (2) funding the working families tax credit under RCW 82.08.0206, which was enacted in 2008 but has never previously been funded. For this reason, the legislature intends to enact a supplemental operating budget based on the lower state revenues assumed by the governor when he prepared his supplemental budget request. The total appropriations in this supplemental operating budget therefore consist of the 2020 supplemental appropriations proposed by the governor, revised for updated caseload and other maintenance level adjustments, with certain transfers eliminated, with the governor's proposed appropriations from the budget stabilization account replaced by appropriations from the state general fund, and with additional appropriations provided to implement the working families tax credit. The appropriations in this act for funds subject to the four-year balanced budget requirement total \$188.2 million less than the appropriations in Proposed Substitute House Bill No. 2325 (H-5077.1/20).

**Sec. 201.** 2019 c 415 s 201 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES**

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of

state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to

meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6) (a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. By October 31, 2019, the coalition must submit a report to the governor and the legislature that describes the coalition's plan for projects affecting the coalition organizations. The report must include any information technology projects impacting coalition organizations and, in collaboration with the office of the chief information officer, provide: (a)

The status of any information technology projects currently being developed or implemented that affect the coalition; (b) funding needs of these current and future information technology projects; and (c) next steps for the coalition's information technology projects. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that the development of projects identified in this report are planned for in a manner that ensures the efficient use of state resources and maximizes federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in (~~section 719 of this act~~) section 701 of this act.

(8) (a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, 2020, unless prohibited by this act, the department may transfer general fund-state appropriations for fiscal year 2020 among programs and subprograms after approval by the director of the office of financial management. However, the department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2020 caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose. The department may not transfer funds, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the legislature in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and

after any allotment modifications or transfers.

The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the health care authority receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any

In order to effectuate these goals, the authority shall: (a) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (b) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location

in exchange for additional out-of-pocket savings; (c) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (d) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. By federal standard, the medicaid transformation demonstration waiver shall not exceed the duration originally granted by the centers for medicare and medicaid services and any programs created or funded by this waiver do not create an entitlement. Beginning May 15, 2019, and continuing through December 15, 2019, by the 15th of each month, the director in consultation with the secretary shall report to the fiscal chair of the appropriate committees of the legislature in the manner and form requested the status of the medicaid transformation waiver, including any anticipated or proposed changes to accruals or expenditures.

Under this initiative, the authority shall take into account local input regarding community needs. In order to ensure transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not increase general fund—state expenditures under this initiative. The director shall also report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form

requested by the legislative fiscal committees. By December 15, 2019, the authority in collaboration with each accountable community of health shall demonstrate how it will be self-sustaining by the end of the demonstration waiver period, including sources of outside funding, and provide this reporting to the joint select committee on health care oversight. If by the third year of the demonstration waiver there are not measurable, improved patient outcomes and financial returns, the Washington state institute for public policy will conduct an audit of the accountable communities of health, in addition to the process set in place through the independent evaluation required by the agreement with centers for medicare and medicaid services.

(3) (a) No more than \$79,829,000 of the general fund-federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third party administrator. The authority and the department in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund-state expenditures under this initiative. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(b) No more than \$169,676,000 of the general fund-federal appropriation and no more than \$69,306,000 of the general fund-local appropriation may be expended for the medicaid quality improvement program. Under federal regulations, the medicaid quality improvement program is authorized and allows states to design quality improvement programs for the medicaid population in ways that support the state's quality goals. Medicaid

quality improvement program payments will not count against initiative 1 of the medicaid transformation demonstration waiver spending limit and are excluded from the waiver's budget neutrality calculation. Apple health managed care organizations and their partnering providers will receive medicaid quality improvement program payments as they meet designated milestones. Partnering providers and apple health managed care organizations will work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. (6) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient

to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(7) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(8) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(9) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(10) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

The health care authority shall submit reports to the governor and legislature by November 1, 2020, and by November 1, 2021, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for

this program. During fiscal year 2020 and fiscal year 2021, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2019-2021 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as

described in this subsection, the hospital must repay the excess amounts to the state when requested. (~~(\$537,000)~~) \$754,000 of the general fund-state appropriation for fiscal year 2020 and (~~(\$522,000)~~) \$739,000 of the general fund-state appropriation for fiscal year 2021 are provided solely for state grants for the participating hospitals.

TOTAL APPROPRIATION...	<del>\$3,236,834,000</del>
	<u>\$3,486,876,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) For the purposes of this section, "behavioral health entities" means managed care organizations and administrative services organizations in regions where the authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380, and behavioral health organizations in regions that have not yet transitioned to fully integrated managed care.

(2) Within the amounts appropriated in this section, funding is provided for implementation of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. In addition to amounts provided solely for implementation of the settlement agreement, class members must have access to supports and services funded throughout this section for which they meet eligibility and medical necessity requirements. The authority must include language in contracts that requires regional behavioral health entities to develop and implement plans for improving access to timely and appropriate treatment for individuals with behavioral health needs and current or prior criminal justice involvement who are eligible for services under these contracts.

(3) \$15,605,000 of the general fund-state appropriation for fiscal year 2020, \$15,754,000 of the general fund-state appropriation for fiscal year 2021, and \$4,789,000 of the general fund-federal appropriation are provided solely for the phase-in of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. The department, in collaboration with the health care authority and the criminal justice training commission, must implement the provisions of the settlement agreement pursuant to the timeline and implementation plan provided for under the settlement agreement. This includes implementing provisions related to competency evaluations, competency restoration, crisis diversion and

supports, education and training, and workforce development.

(4) \$8,777,000 of the general fund-state appropriation for fiscal year 2020, \$10,424,000 of the general fund-state appropriation for fiscal year 2021, and \$20,197,000 of the general fund-federal appropriation are provided solely for the authority and behavioral health entities to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health entities with PACT teams, the authority shall consider the differences between behavioral health entities in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (7) of this section. The authority and behavioral health entities shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(5) From the general fund-state appropriations in this section, the authority shall assure that behavioral health entities reimburse the department of social and health services aging and long term support administration for the general fund-state cost of medicaid personal care services that enrolled behavioral health entity consumers use because of their psychiatric disability.

(6) \$3,520,000 of the general fund-federal appropriation is provided solely for the authority to maintain a pilot project to incorporate peer bridging staff into behavioral health regional teams that provide transitional services to individuals returning to their communities.

(7) (~~(\$81,930,000)~~) \$83,978,000 of the general fund-state appropriation for fiscal year 2020 and (~~(\$81,930,000)~~) \$86,027,000 of the general fund-state appropriation for fiscal year 2021 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of behavioral health entity spending must be maintained in the following priority order: Crisis

and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health entities proportionate to the fiscal year 2019 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health entities unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(8) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health entities for children's long-term inpatient facility services.

(9) \$1,204,000 of the general fund-state appropriation for fiscal year 2020 and \$1,204,000 of the general fund-state appropriation for fiscal year 2021 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting one hundred eighty-day commitment hearings at the state psychiatric hospitals.

(10) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (7) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(11) \$2,291,000 of the general fund-state appropriation for fiscal year 2020 and \$2,291,000 of the general fund-state appropriation for fiscal year 2021 are

provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must collect information from the behavioral health entities on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(12) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(13) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization and administrative services organization contracts and include contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization and administrative services organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health organization or administrative services organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization or administrative services organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan.

(14) During the 2019-2021 fiscal biennium, any amounts provided in this section that are used for case management

services for pregnant and parenting women must be contracted directly between the authority and providers rather than through contracts with behavioral health organizations.

(15) Within the amounts appropriated in this section, the authority may contract with the University of Washington and community-based providers for the provision of the parent-child assistance program or other specialized chemical dependency case management providers for pregnant, post-partum, and parenting women. For all contractors: (a) Service and other outcome data must be provided to the authority by request; and (b) indirect charges for administering the program must not exceed ten percent of the total contract amount.

(16) \$3,500,000 of the general fund-federal appropriation (from the substance abuse prevention and treatment federal block grant) is provided solely for the continued funding of existing county drug and alcohol use prevention programs.

(17) Within the amounts provided in this section, behavioral health entities must provide outpatient chemical dependency treatment for offenders enrolled in the medicaid program who are supervised by the department of corrections pursuant to a term of community supervision. Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(18) The criminal justice treatment account-state appropriation is provided solely for treatment and treatment support services for offenders with a

substance use disorder pursuant to RCW 71.24.580. The authority must offer counties the option to administer their share of the distributions provided for under RCW 71.24.580(5)(a). If a county is not interested in administering the funds, the authority shall contract with behavioral health entities to administer these funds consistent with the plans approved by local panels pursuant to RCW 71.24.580(5)(b). The authority must provide a report to the office of financial management and the appropriate committees of the legislature which identifies the distribution of criminal justice treatment account funds by September 30, 2019.

(19) No more than \$27,844,000 of the general fund-federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the authority or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund-state expenditures under this initiative. The secretary in collaboration with the director of the authority shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The secretary in cooperation with the director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(20) \$6,858,000 of the general fund-state appropriation for fiscal year 2020, \$6,858,000 of the general fund-state appropriation for fiscal year 2021, and \$8,046,000 of the general fund-federal appropriation are provided solely to maintain new crisis triage or stabilization centers. Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support,

medication management, education, and referral assistance. The authority shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.

(21) \$1,125,000 of the general fund—federal appropriation is provided solely for the authority to develop a memorandum of understanding with the department of health for implementation of chapter 297, Laws of 2017 (opioid treatment programs). The authority must use these amounts to reimburse the department of health for costs incurred through the implementation of the bill.

(22) \$6,655,000 of the general fund—state appropriation for fiscal year 2020, \$10,015,000 of the general fund—state appropriation for fiscal year 2021, and \$12,965,000 of the general fund—federal appropriation are provided solely for the operation of secure withdrawal management and stabilization facilities. The authority may not use any of these amounts for services in facilities that are subject to federal funding restrictions that apply to institutions for mental diseases, unless they have received a waiver that allows for full federal participation in these facilities. Within these amounts, funding is provided to increase the fee for service rate for these facilities up to \$650 per day. The authority must require in contracts with behavioral health entities that, beginning in calendar year 2020, they pay no lower than the fee for service rate. The authority must coordinate with regional behavioral health entities to identify and implement purchasing strategies or regulatory changes that increase access to services for individuals with complex behavioral health needs at secure withdrawal management and stabilization facilities.

(23) \$23,090,000 of the general fund—state appropriation for fiscal year 2020, \$23,090,000 of the general fund—state appropriation for fiscal year 2021, and \$92,444,000 of the general fund—federal appropriation are provided solely to maintain the enhancement of community-based behavioral health services that was funded in fiscal year 2019. Twenty percent of the general fund—state appropriation amounts for each regional service area must be used to increase their nonmedicaid funding and the remainder must be used to increase medicaid rates above FY 2018 levels.

Effective January 2020, the medicaid funding is intended to increase rates for behavioral health services provided by licensed and certified community behavioral health agencies as defined by the department of health. This funding must be allocated to the managed care organizations proportionate to their medicaid enrollees. The authority must require the managed care organizations to provide a report on their implementation of this funding. The authority must submit a report to the legislature by December 1, 2020, summarizing how this funding was used and provide information for future options of increasing behavioral health provider rates through directed payments. The report must identify different mechanisms for implementing directed payment for behavioral health providers including but not limited to minimum fee schedules, across the board percentage increases, and value-based payments. The report must provide a description of each of the mechanisms considered, the timeline that would be required for implementing the mechanism, and whether and how the mechanism is expected to have a differential impact on different providers. The report must also summarize the information provided by managed care organizations in implementing the funding provided under this section.

(24) \$27,917,000 of the general fund—state appropriation for fiscal year 2020, \$36,095,000 of the general fund—state appropriation for fiscal year 2021, and \$60,644,000 of the general fund—federal appropriation are provided solely for the department to contract with community hospitals or freestanding evaluation and treatment centers to provide long-term inpatient care beds as defined in RCW 71.24.025. Within these amounts, the authority must meet the requirements for reimbursing counties for the judicial services for patients being served in these settings in accordance with RCW 71.05.730. The authority must coordinate with the department of social and health services in developing the contract requirements, selecting contractors, and establishing processes for identifying patients that will be admitted to these facilities. Sufficient amounts are provided in fiscal year 2020 for the authority to reimburse community hospitals serving medicaid clients in long-term inpatient care beds as defined in RCW 71.24.025 at a rate of \$1,171 per day, or the hospital's current

psychiatric inpatient per diem rate, whichever is higher. The rate paid to hospitals in this subsection cannot exceed one-hundred percent of the hospitals eligible costs based on their most recently completed medicare cost report. The authority in collaboration with the Washington state hospital association must convene a work group to develop a methodology for reimbursing community hospitals serving these clients. In developing this methodology, the authority must account for cost structure differences between teaching hospitals and other hospital types. The authority must provide a report to the appropriate committees of the legislature by December 1, 2019. The report must:

(a) Describe the methodology developed by the work group;

(b) Identify cost differences between teaching hospitals and other hospital types;

(c) Provide options for incentivizing community hospitals to offer long-term inpatient care beds day beds including a rate recommendation;

(d) Identify the cost associated with any recommended changes in rates or rate setting methodology; and

(e) Outline an implementation plan.

(25) \$1,455,000 of the general fund-state appropriation for fiscal year 2020, \$1,401,000 of the general fund-state appropriation for fiscal year 2021, and \$3,210,000 of the general fund-federal appropriation are provided solely for the implementation of intensive behavioral health treatment facilities within the community behavioral health service system pursuant to Second Substitute House Bill No. 1394 (behavioral health facilities).

(26) \$21,000 of the general fund-state appropriation for fiscal year 2020, \$152,000 of the general fund-state appropriation for fiscal year 2021, and \$173,000 of the general fund-federal appropriation are provided solely to implement chapter 70, Laws of 2019 (SHB 1199) (health care/disability).

(27) (a) \$12,878,000 of the dedicated marijuana account-state appropriation for fiscal year 2020 and \$12,878,000 of the dedicated marijuana account-state appropriation for fiscal year 2021 are provided for:

(i) A memorandum of understanding with the department of children, youth, and families to provide substance abuse treatment programs;

including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iv) Services at the sixteen-bed evaluation and treatment facility.

(b) At least annually, the Spokane county behavioral health entities shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(29) \$24,819,000 of the general fund-state appropriation for fiscal year 2020 is provided solely to assist behavioral health entities with the costs of providing services to medicaid clients receiving services in psychiatric facilities classified as institutions of mental diseases. The authority must distribute these amounts proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from behavioral health organization calendar year 2019 capitation rates because they exceeded the amounts allowed under federal regulations. The authority must also use these amounts to directly pay for costs that are ineligible for medicaid reimbursement in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive behavioral health services on a fee-for-service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program. The authority must submit an application for a waiver to allow, by July 1, 2020, for full federal participation for medicaid clients in mental health facilities

classified as institutions of mental diseases. The authority must submit a report on the status of the waiver to the office of financial management and the appropriate committees of the legislature by December 1, 2019.

(30) The authority must require all behavioral health organizations transitioning to full integration to either spend down or return all reserves in accordance with contract requirements and federal and state law. Behavioral health organization reserves may not be used to pay for services to be provided beyond the end of a behavioral health organization's contract or for startup costs in full integration regions except as provided in this subsection. The authority must ensure that any increases in expenditures in behavioral health reserve spend-down plans are required for the operation of services during the contract period and do not result in overpayment to providers. If the nonfederal share of reserves returned during fiscal year 2020 exceeds \$35,000,000, the authority shall use some of the amounts in excess of \$35,000,000 to support the final regions transitioning to full integration of physical and behavioral health care. These amounts must be distributed proportionate to the population of each regional area covered. The maximum amount allowed per region is \$3,175 per 1,000 residents. These amounts must be used to provide a reserve for nonmedicaid services in the region to stabilize the new crisis services system.

(31) \$1,850,000 of the general fund-state appropriation for fiscal year 2020, \$1,850,000 of the general fund-state appropriation for fiscal year 2021, and \$13,312,000 of the general fund-federal appropriation are provided solely for the authority to implement a medicaid state plan amendment which provides for substance use disorder peer support services to be included in behavioral health capitation rates beginning in fiscal year 2020 in accordance with section 213(5)(ss), chapter 299, Laws of 2018. (5) Within the funds appropriated in this section, eligibility for the state need grant includes students with family incomes at or below 70 percent of the state median family income (MFI), adjusted for family size, and shall include students enrolled in three to five credit-bearing quarter credits, or the equivalent semester credits. Awards for students with incomes between 51 and 70 percent of the state median shall be prorated at the following percentages of the award amount granted to those with incomes below 51 percent of the MFI: 70 percent for students with family incomes between 51 and 55 percent MFI; 65 percent for students with family incomes between 56 and 60 percent MFI; 60 percent for students with family incomes between 61 and 65 percent MFI; and 50 percent for students with family incomes between 66 and 70 percent MFI. These eligible college bound students whose family incomes are in the 0-65 percent median family income ranges must be awarded the maximum state need grant for which they are eligible under state policies and may not be denied maximum state need grant funding due to institutional policies or delayed awarding of college bound scholarship students. The council shall provide directions to institutions to maximize the number of college bound scholarship students receiving the maximum state need grant for which they are eligible with a goal of 100 percent coordination. Institutions shall identify all college bound scholarship students to receive state need grant priority. If an institution is unable to identify all college bound scholarship students at the

time of initial state aid packaging, the institution should reserve state need grant funding sufficient to cover the projected enrollments of college bound scholarship students.

provided solely for expenditure into the health professionals loan repayment and scholarship program account. The office shall also work to prioritize loan repayments to professionals working at health care delivery sites that demonstrate a commitment to serving uninsured clients. It is the intent of the legislature to provide funding to maintain the current number and amount of awards for the program in the 2021-2023 fiscal biennium on the basis of these contractual obligations.

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations in this section are provided solely for expenditure into the information technology investment revolving account created in RCW 43.41.433. Funds in the account are provided solely for the information technology projects shown in LEAP omnibus document IT-2019, dated April 25, 2019, which is hereby incorporated by reference. To facilitate the transfer of moneys from other funds and accounts that are associated with projects contained in LEAP omnibus document IT-2019, dated April 25, 2019, the state treasurer is directed to transfer moneys from other funds and accounts to the information technology investment revolving account in accordance with schedules provided by the office of financial management. However, restricted federal funds and qualified employee benefit and pension funds may be transferred only to the extent permitted by law, and will otherwise remain outside the information technology investment account. The projects affected remain subject to the other provisions of this section.

(2) Agencies must apply to the office of financial management and the office of the chief information officer to receive funding from the information technology investment revolving account. The office of financial management must notify the fiscal committees of the legislature of the receipt of each application and may not approve a funding request for ten business days from the date of notification.

(3) Allocations and allotments of information technology investment revolving account must be made for discrete stages of projects as determined by the technology budget approved by the

(b) As part of the development of a technology budget and at each request for funding, the agency shall submit detailed financial information to the office of financial management and the office of the state chief information officer. The technology budget must describe the total cost of the project by fiscal month to include and identify:

(v) Ongoing maintenance and operations cost of the project post implementation and close out delineated by agency staffing, contracted staffing, and service level agreements; and

(vi) Financial budget coding to include at least discreet program index and subobject codes.

- (i) Project changes each fiscal month;
- (ii) Noting if the project has a completed market requirements document;

- (b) The dashboard must contain a statewide project technology budget roll up that includes each affected agency at the subproject level.

(9) For any project that exceeds two million dollars in total funds to complete, requires more than one biennium

to complete, or is financed through financial contracts, bonds, or other indebtedness:

(a) Quality assurance for the project must report independently to the office of the chief information officer;

(b) The office of the chief information officer must review, and, if necessary, revise the proposed project to ensure it is flexible and adaptable to advances in technology;

(c) The technology budget must specifically identify the uses of any financing proceeds. No more than thirty percent of the financing proceeds may be used for payroll-related costs for state employees assigned to project management, installation, testing, or training;

(d) The agency must consult with the office of the state treasurer during the competitive procurement process to evaluate early in the process whether products and services to be solicited and the responsive bids from a solicitation may be financed; and

(e) The agency must consult with the contracting division of the department of enterprise services for a review of all contracts and agreements related to the project's information technology procurements.

(10) The office of the state chief information officer must evaluate the project at each stage and certify whether the project is planned, managed, and meeting deliverable targets as defined in the project's approved technology budget and investment plan.

(11) The office of the state chief information officer may suspend or terminate a project at any time if it determines that the project is not meeting or not expected to meet anticipated performance and technology outcomes. Once suspension or termination occurs, the agency shall unallot any unused funding and shall not make any expenditure for the project without the approval of the office of financial management.

(12) The office of the state chief information officer, in consultation with the office of financial management, may identify additional projects to be subject to this section, including projects that are not separately identified within an agency budget.

(13) Any cost to administer or implement this section for projects listed in subsection (1) of this section, must be paid from the information technology investment revolving account. The new system must be designed in such a manner as to decrease administrative complexity associated with the payment methodology, reward nursing homes providing care for high acuity residents, incentivize quality care for residents of nursing homes, and establish minimum staffing standards for direct care.

(2) The new system must be based primarily on industry-wide costs, and have three main components: Direct care, indirect care, and capital.

(3) The direct care component must include the direct care and therapy care components of the previous system, along with food, laundry, and dietary services. Direct care must be paid at a fixed rate, based on one hundred percent or greater of statewide case mix neutral median costs, but shall be set so that a nursing home provider's direct care rate does not exceed one hundred eighteen percent of its base year's direct care allowable costs except if the provider is below the minimum staffing standard established in RCW 74.42.360(2). Direct care must be performance-adjusted for acuity every six months, using case mix principles. Direct care must be regionally adjusted using county wide wage index information available through the United States department of labor's bureau of labor statistics. There is no minimum occupancy for direct care. The direct care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(4) The indirect care component must include the elements of administrative expenses, maintenance costs, and housekeeping services from the previous system. A minimum occupancy assumption of ninety percent must be applied to indirect care. Indirect care must be paid at a fixed rate, based on ninety percent or greater of statewide median costs. The indirect care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(5) The capital component must use a fair market rental system to set a price per bed. The capital component must be adjusted for the age of the facility, and must use a minimum occupancy assumption of ninety percent.

(a) Beginning July 1, 2016, the fair rental rate allocation for each facility must be determined by multiplying the allowable nursing home square footage in (c) of this subsection by the RSMean rental rate in (d) of this subsection and by the number of licensed beds yielding the gross unadjusted building value. An equipment allowance of ten percent must be added to the unadjusted building value. The sum of the unadjusted building value and equipment allowance must then be reduced by the average age of the facility as determined by (e) of this subsection using a depreciation rate of one and one-half percent. The depreciated building and equipment plus land valued at ten percent of the gross unadjusted building value before depreciation must then be multiplied by the rental rate at seven and one-half percent to yield an allowable fair rental value for the land, building, and equipment.

(b) The fair rental value determined in (a) of this subsection must be divided by the greater of the actual total facility census from the prior full calendar year or imputed census based on the number of licensed beds at ninety percent occupancy.

(c) For the rate year beginning July 1, 2016, all facilities must be reimbursed using four hundred square feet. For the rate year beginning July 1, 2017, allowable nursing facility square footage must be determined using the total nursing facility square footage as reported on the medicaid cost reports submitted to the department in compliance with this chapter. The maximum allowable square feet per bed may not exceed four hundred fifty.

(d) Each facility must be paid at eighty-three percent or greater of the median nursing facility RSMean construction index value per square foot. The department may use updated RSMean construction index information when more recent square footage data becomes available. The statewide value per square foot must be indexed based on facility zip code by multiplying the statewide value per square foot times the appropriate zip code based index. For the purpose of implementing this section, the value per square foot effective July 1, 2016, must

be set so that the weighted average fair rental value rate is not less than ten dollars and eighty cents per patient day. The capital component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(e) The average age is the actual facility age reduced for significant renovations. Significant renovations are defined as those renovations that exceed two thousand dollars per bed in a calendar year as reported on the annual cost report submitted in accordance with this chapter. For the rate beginning July 1, 2016, the department shall use renovation data back to 1994 as submitted on facility cost reports. Beginning July 1, 2016, facility ages must be reduced in future years if the value of the renovation completed in any year exceeds two thousand dollars times the number of licensed beds. The cost of the renovation must be divided by the accumulated depreciation per bed in the year of the renovation to determine the equivalent number of new replacement beds. The new age for the facility is a weighted average with the replacement bed equivalents reflecting an age of zero and the existing licensed beds, minus the new bed equivalents, reflecting their age in the year of the renovation. At no time may the depreciated age be less than zero or greater than forty-four years.

(f) A nursing facility's capital component rate allocation must be rebased annually, effective July 1, 2016, in accordance with this section and this chapter.

(g) For the purposes of this subsection (5), "RSMean" means building construction costs data as published by Gordian.

(6) A quality incentive must be offered as a rate enhancement beginning July 1, 2016.

(a) An enhancement no larger than five percent and no less than one percent of the statewide average daily rate must be paid to facilities that meet or exceed the standard established for the quality incentive. All providers must have the opportunity to earn the full quality incentive payment.

(b) The quality incentive component must be determined by calculating an overall facility quality score composed of four to six quality measures. For fiscal year 2017 there shall be four quality measures, and for fiscal year 2018 there

shall be six quality measures. Initially, the quality incentive component must be based on minimum data set quality measures for the percentage of long-stay residents who self-report moderate to severe pain, the percentage of high-risk long-stay residents with pressure ulcers, the percentage of long-stay residents experiencing one or more falls with major injury, and the percentage of long-stay residents with a urinary tract infection. Quality measures must be reviewed on an annual basis by a stakeholder work group established by the department. Upon review, quality measures may be added or changed. The department may risk adjust individual quality measures as it deems appropriate.

(c) The facility quality score must be point based, using at a minimum the facility's most recent available three-quarter average centers for medicare and medicaid services quality data. Point thresholds for each quality measure must be established using the corresponding statistical values for the quality measure point determinants of eighty quality measure points, sixty quality measure points, forty quality measure points, and twenty quality measure points, identified in the most recent available five-star quality rating system technical user's guide published by the center for medicare and medicaid services.

(d) Facilities meeting or exceeding the highest performance threshold (top level) for a quality measure receive twenty-five points. Facilities meeting the second highest performance threshold receive twenty points. Facilities meeting the third level of performance threshold receive fifteen points. Facilities in the bottom performance threshold level receive no points. Points from all quality measures must then be summed into a single aggregate quality score for each facility.

(e) Facilities receiving an aggregate quality score of eighty percent of the overall available total score or higher must be placed in the highest tier (tier V), facilities receiving an aggregate score of between seventy and seventy-nine percent of the overall available total score must be placed in the second highest tier (tier IV), facilities receiving an aggregate score of between sixty and sixty-nine percent of the overall available total score must be placed in the third highest tier (tier III), facilities receiving an aggregate score of between fifty and fifty-nine percent of

the overall available total score must be placed in the fourth highest tier (tier II), and facilities receiving less than fifty percent of the overall available total score must be placed in the lowest tier (tier I).

(f) The tier system must be used to determine the amount of each facility's per patient day quality incentive component. The per patient day quality incentive component for tier IV is seventy-five percent of the per patient day quality incentive component for tier V, the per patient day quality incentive component for tier III is fifty percent of the per patient day quality incentive component for tier V, and the per patient day quality incentive component for tier II is twenty-five percent of the per patient day quality incentive component for tier V. Facilities in tier I receive no quality incentive component.

(g) Tier system payments must be set in a manner that ensures that the entire biennial appropriation for the quality incentive program is allocated.

(h) Facilities with insufficient three-quarter average centers for medicare and medicaid services quality data must be assigned to the tier corresponding to their five-star quality rating. Facilities with a five-star quality rating must be assigned to the highest tier (tier V) and facilities with a one-star quality rating must be assigned to the lowest tier (tier I). The use of a facility's five-star quality rating shall only occur in the case of insufficient centers for medicare and medicaid services minimum data set information.

(i) The quality incentive rates must be adjusted semiannually on July 1 and January 1 of each year using, at a minimum, the most recent available three-quarter average centers for medicare and medicaid services quality data.

(j) Beginning July 1, 2017, the percentage of short-stay residents who newly received an antipsychotic medication must be added as a quality measure. The department must determine the quality incentive thresholds for this quality measure in a manner consistent with those outlined in (b) through (h) of this subsection using the centers for medicare and medicaid services quality data.

(k) Beginning July 1, 2017, the percentage of direct care staff turnover must be added as a quality measure using the centers for medicare and medicaid

services' payroll-based journal and nursing home facility payroll data. Turnover is defined as an employee departure. The department must determine the quality incentive thresholds for this quality measure using data from the centers for medicare and medicaid services' payroll-based journal, unless such data is not available, in which case the department shall use direct care staffing turnover data from the most recent medicaid cost report.

(7) Reimbursement of the safety net assessment imposed by chapter 74.48 RCW and paid in relation to medicaid residents must be continued.

(8) (a) The direct care and indirect care components must be rebased in even-numbered years, beginning with rates paid on July 1, 2016. Rates paid on July 1, 2016, must be based on the 2014 calendar year cost report. On a percentage basis, after rebasing, the department must confirm that the statewide average daily rate has increased at least as much as the average rate of inflation, as determined by the skilled nursing facility market basket index published by the centers for medicare and medicaid services, or a comparable index. If after rebasing, the percentage increase to the statewide average daily rate is less than the average rate of inflation for the same time period, the department is authorized to increase rates by the difference between the percentage increase after rebasing and the average rate of inflation.

(b) It is the intention of the legislature that direct and indirect care rates paid in fiscal year 2022 will be rebased using the calendar year 2019 cost reports. For fiscal year 2021, in addition to the rates generated by (a) of this subsection, an additional adjustment is provided as established in this subsection (8) (b). For fiscal year 2021, the calendar year costs must be adjusted for inflation by a twenty-four month consumer price index, based on the most recently available monthly index for all urban consumers, as published by the bureau of labor statistics. It is also the intent of the legislature that, starting in fiscal year 2022, a facility-specific rate add-on equal to the inflation adjustment that facilities received in fiscal year 2021, must be added to the rate.

(c) To determine the necessity of regular inflationary adjustments to the nursing facility rates, by December 1,

2020, the department shall provide the appropriate policy and fiscal committees of the legislature with a report that provides a review of rates paid in 2017, 2018, and 2019 in comparison to costs incurred by nursing facilities.

(9) The direct care component provided in subsection (3) of this section is subject to the reconciliation and settlement process provided in RCW 74.46.022(6). Beginning July 1, 2016, pursuant to rules established by the department, funds that are received through the reconciliation and settlement process provided in RCW 74.46.022(6) must be used for technical assistance, specialized training, or an increase to the quality enhancement established in subsection (6) of this section. The legislature intends to review the utility of maintaining the reconciliation and settlement process under a price-based payment methodology, and may discontinue the reconciliation and settlement process after the 2017-2019 fiscal biennium.

(10) Compared to the rate in effect June 30, 2016, including all cost components and rate add-ons, no facility may receive a rate reduction of more than one percent on July 1, 2016, more than two percent on July 1, 2017, or more than five percent on July 1, 2018. To ensure that the appropriation for nursing homes remains cost neutral, the department is authorized to cap the rate increase for facilities in fiscal years 2017, 2018, and 2019."

**MOTION**

Strike everything after the enacting clause and insert the following:

**"NEW SECTION. Sec. 1. INTENT.** Under the February forecast of the economic and revenue forecast council, for the accounts subject to the outlook process and four-year balanced budget requirement in RCW 43.88.055, revenues are expected to increase by \$606,000,000 for the remainder of the 2019-2021 fiscal biennium and by an additional \$535,700,000 in the 2021-2023 biennium.

Rather than spend this windfall in the 2020 supplemental budget, it is the intent of the legislature to return this revenue increase to the taxpayers in the form of a state property tax reduction of approximately \$300 million in the 2019-2021 fiscal biennium and \$1.3 billion in the 2021-2023 fiscal biennium as required by House Bill No. 2954. For this reason, the legislature intends to enact a supplemental operating budget based on the lower state revenues assumed by the governor when he prepared his supplemental budget request. The total appropriations in this supplemental operating budget therefore consist of the 2020 supplemental appropriations proposed by the governor, revised for updated caseload and other maintenance level adjustments, with certain transfers eliminated, and with the governor's proposed appropriations from the budget stabilization account replaced by appropriations from the state general fund. The appropriations in this act for funds subject to the four-year balanced budget requirement total \$283.6 million less than the appropriations in Proposed Substitute House Bill No. 2325 (H-5077.1/20).

## PART II

### HUMAN SERVICES

**Sec. 201.** 2019 c 415 s 201 (uncodified) is amended to read as follows:

#### FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the

appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6) (a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public

assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. By October 31, 2019, the coalition must submit a report to the governor and the legislature that describes the coalition's plan for projects affecting the coalition organizations. The report must include any information technology projects impacting coalition organizations and, in collaboration with the office of the chief information officer, provide: (a) The status of any information technology projects currently being developed or implemented that affect the coalition; (b) funding needs of these current and future information technology projects; and (c) next steps for the coalition's information technology projects. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that the development of projects identified in this report are planned for in a manner that ensures the efficient use of state resources and maximizes federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in ~~((section 719 of this act))~~ section 701 of this act.

(8)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, 2020, unless prohibited by this act, the department may transfer general fund-state appropriations for fiscal year 2020 among programs and subprograms after approval by the director of the office of financial management. However, the

department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2020 caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose. The department may not transfer funds, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the legislature in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

The model shall incorporate factors for capacity in state hospitals as well as contracted facilities, which provide similar levels of care, referral patterns, wait lists, lengths of stay, and other factors identified as appropriate for predicting the number of beds needed to meet the demand for civil and forensic state hospital services. Factors should include identification of need for the services and analysis of the effect of community investments in behavioral health services and other types of beds that may reduce the need for long-term civil commitment needs. The department must submit a report to the legislature by October 1, 2019, with an update of the model and the estimated civil and forensic state hospital bed need by November 1, 2020, and each November 1st thereafter through the end of fiscal year 2027. **Sec. 210.** 2019 c 415 s 210 (uncodified) is amended to read as follows:

**FOR THE STATE HEALTH CARE AUTHORITY**

During the 2019-2021 fiscal biennium, the health care authority shall provide support and data as required by the office of the state actuary in providing the legislature with health care actuarial analysis, including providing any information in the possession of the health care authority or available to the health care authority through contracts with providers, plans, insurers, consultants, or any other entities contracting with the health care authority.

Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the health care authority are subject to technical oversight by the office of the chief information officer.

The health care authority shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the health care authority receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

The health care authority, the health benefit exchange, the department of social and health services, the department of health, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. By October 31, 2019, the coalition must submit a report to the governor and the legislature that describes the coalition's plan for projects affecting the coalition organizations. The report must include any information technology projects impacting coalition organizations and,

in collaboration with the office of the chief information officer, provide: (1) The status of any information technology projects currently being developed or implemented that affect the coalition; (2) funding needs of these current and future information technology projects; and (3) next steps for the coalition's information technology projects. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that the development of projects identified in this report are planned for in a manner that ensures the efficient use of state resources and maximizes federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in ~~((section 719 of this act))~~ section 701 of this act.

The appropriations to the health care authority in this act shall be extended for the programs and in the amounts specified in this act. However, after May 1, 2020, unless prohibited by this act, the authority may transfer general fund-state appropriations for fiscal year 2020 among programs after approval by the director of the office of financial management. To the extent that appropriations in this section are insufficient to fund actual expenditures in excess of caseload forecast and utilization assumptions, the authority may transfer general fund-state appropriations for fiscal year 2020 that are provided solely for a specified purpose. The authority may not transfer funds, and the director of the office of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the legislature in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification must include a narrative explanation and justification of changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications and transfers.

The appropriations in this section are subject to the following conditions and limitations:

(1) The authority shall not accept or expend any federal funds received under a medicaid transformation waiver under healthier Washington except as described in subsections (2) and (3) of this section until specifically approved and appropriated by the legislature. To ensure compliance with legislative directive budget requirements and terms

and conditions of the waiver, the authority shall implement the waiver and reporting requirements with oversight from the office of financial management. The legislature finds that appropriate management of the innovation waiver requires better analytic capability, transparency, consistency, timeliness, accuracy, and lack of redundancy with other established measures and that the patient must be considered first and foremost in the implementation and execution of the demonstration waiver. In order to effectuate these goals, the authority shall: (a) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. The joint select committee on health care oversight will evaluate the measures chosen by the collaborative and the health technology assessment program for effectiveness and appropriateness; (b) develop a patient satisfaction survey with the goal to gather information about whether it was beneficial for the patient to use the center of excellence location in exchange for additional out-of-pocket savings; (c) ensure patients and health care providers have significant input into the implementation of the demonstration waiver, in order to ensure improved patient health outcomes; and (d) in cooperation with the department of social and health services, consult with and provide notification of work on applications for federal waivers, including details on waiver duration, financial implications, and potential future impacts on the state budget, to the joint select committee on health care oversight prior to submitting waivers for federal approval. By federal standard, the medicaid transformation demonstration waiver shall not exceed the duration originally granted by the centers for medicare and medicaid services and any programs created or funded by this waiver do not create an entitlement. Beginning May 15, 2019, and continuing through December 15, 2019, by the 15th of each month, the director in consultation with the secretary shall report to the fiscal chair of the appropriate committees of the legislature in the manner and form requested the status of the medicaid transformation waiver, including any anticipated or proposed changes to accruals or expenditures.

(2) No more than (~~(\$305,659,000)~~) \$236,792,000 of the general fund-federal appropriation and no more than (~~(\$157,284,000)~~) \$169,627,000 of the general fund-local appropriation may be expended for transformation through accountable communities of health described in initiative 1 of the medicaid transformation demonstration waiver under healthier Washington, including preventing youth drug use, opioid prevention and treatment, and physical and behavioral health integration. Under this initiative, the authority shall take into account local input regarding community needs. In order to ensure transparency to the appropriate fiscal committees of the legislature, the authority shall provide fiscal staff of the legislature query ability into any database of the fiscal intermediary that authority staff would be authorized to access. The authority shall not increase general fund-state expenditures under this initiative. The director shall also report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees. By December 15, 2019, the authority in collaboration with each accountable community of health shall demonstrate how it will be self-sustaining by the end of the demonstration waiver period, including sources of outside funding, and provide this reporting to the joint select committee on health care oversight. If by the third year of the demonstration waiver there are not measurable, improved patient outcomes and financial returns, the Washington state institute for public policy will conduct an audit of the accountable communities of health, in addition to the process set in place through the independent evaluation required by the agreement with centers for medicare and medicaid services.

(3) (a) No more than \$79,829,000 of the general fund-federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the department or its third party administrator. The authority

and the department in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund-state expenditures under this initiative. The director shall report to the joint select committee on health care oversight no less than quarterly on financial and health outcomes. The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(b) No more than \$169,676,000 of the general fund-federal appropriation and no more than \$69,306,000 of the general fund-local appropriation may be expended for the medicaid quality improvement program. Under federal regulations, the medicaid quality improvement program is authorized and allows states to design quality improvement programs for the medicaid population in ways that support the state's quality goals. Medicaid quality improvement program payments will not count against initiative 1 of the medicaid transformation demonstration waiver spending limit and are excluded from the waiver's budget neutrality calculation. Apple health managed care organizations and their partnering providers will receive medicaid quality improvement program payments as they meet designated milestones. Partnering providers and apple health managed care organizations will work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. The authority shall only utilize the medicaid quality improvement program to support the transformation waiver and shall not pursue its use for other purposes. Any programs created or funded by the medicaid quality improvement program do not create an entitlement. The authority shall not increase general fund-state expenditures under this program. The director shall report to the joint select committee on health care oversight not less than quarterly on financial and health outcomes. The director shall report to the fiscal committees of the legislature all of the expenditures under this subsection and shall provide such

fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(4) Annually, no later than November 1st, the authority shall report to the governor and appropriate committees of the legislature: (a) Savings attributed to behavioral and physical integration in areas that are scheduled to integrate in the following calendar year, and (b) savings attributed to behavioral and physical health integration and the level of savings achieved in areas that have integrated behavioral and physical health.

(5) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a) (10) (A) (i) (VIII).

(6) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(7) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(8) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(9) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically

viable component of the state's health care system.

(10) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(11) \$4,261,000 of the general fund-state appropriation for fiscal year 2020, \$4,261,000 of the general fund-state appropriation for fiscal year 2021, and \$8,522,000 of the general fund-federal appropriation are provided solely for low-income disproportionate share hospital payments.

(12) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(13) \$6,000,000 of the general fund-federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that

exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(14) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2019-2021 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2020, and by November 1, 2021, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2020 and fiscal year 2021, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2019-2021 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and

retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. (~~(\$537,000)~~) \$754,000 of the general fund-state appropriation for fiscal year 2020 and (~~(\$522,000)~~) \$739,000 of the general fund-state appropriation for fiscal year 2021 are provided solely for state grants for the participating hospitals.

(15) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(16) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism

to increase federal funding for maternity support services by leveraging local public funding for those services.

(17) The authority shall submit reports to the governor and the legislature by September 15, 2020, and no later than September 15, 2021, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(22) \$90,000 of the general fund-state appropriation for fiscal year 2020, \$90,000 of the general fund-state appropriation for fiscal year 2021, and

(26) The authority shall use revenue appropriated from the dedicated marijuana fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund-state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(27) Beginning no later than January 1, 2018, for any service eligible under the medicaid state plan for encounter payments, managed care organizations at the request of a rural health clinic shall pay the full published encounter rate directly to the clinic. At no time will a managed care organization be at risk for or have any right to the supplemental portion of the claim. Payments will be reconciled on at least an annual basis between the managed care organization and the authority, with final review and approval by the authority.

(28) Sufficient funds are provided for the authority to remove payment and billing limitations identified during the review process required for implementation of chapter 226, Laws of 2017 (behavioral health care - primary

Additional funding is provided to increase the rates for the health and behavior codes and psychotherapy codes identified through the stakeholder work group process required under chapter 226, Laws of 2017 (SSB 5779) by ten percent.

(29) By October 15, 2019, the authority shall report to the governor and relevant committees of the legislature the status of rural health clinic reconciliations for calendar years 2011-2013, including any use of available unliquidated prior period accrual balances to refund the federal government for those calendar years. Additionally, the report shall include the status of rural health clinic reconciliations for calendar years 2014-2017, including anticipated amounts owed to or from rural health clinics from the reconciliation process for those fiscal years. The authority shall not recover the state portion of rural health reconciliations for calendar years 2011-2013 for which no general fund state accrual was made. The authority shall not pursue recoveries for calendar years 2014-2017 until after the legislature has an opportunity to take action during the 2020 legislative session. If the legislature does not take any action on rural health clinic reconciliations for calendar years 2014-2017, recoveries shall commence per administrative rule.

(30) Sufficient amounts are appropriated in this section for the authority to provide a medicaid equivalent adult dental benefit to clients enrolled in the medical care service program.

Payments for state and federal medical assistance programs for services provided by such a hospital, regardless of the beneficiary's managed care enrollment status, must be increased to one hundred fifty percent of the hospital's fee-for-service rates. The authority must discontinue this rate increase after June 30, 2021, and return to the payment levels and methodology for these hospitals that were in place as of January 1, 2018. The appropriations in this section are subject to the following conditions and limitations:

(1) For the purposes of this section, "behavioral health entities" means managed care organizations and administrative services organizations in regions where the authority is purchasing medical and behavioral health services through fully integrated contracts pursuant to RCW 71.24.380, and behavioral health organizations in regions that have not yet transitioned to fully integrated managed care.

(2) Within the amounts appropriated in this section, funding is provided for implementation of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. In addition to amounts provided solely for implementation of the settlement agreement, class members must have access to supports and services funded throughout this section for which they meet eligibility and medical necessity requirements. The authority must include language in contracts that requires regional behavioral health entities to develop and implement plans for improving access to timely and appropriate treatment for individuals with behavioral health needs and current or prior criminal justice involvement who are eligible for services under these contracts.

(3) \$15,605,000 of the general fund—state appropriation for fiscal year 2020,

\$15,754,000 of the general fund—state appropriation for fiscal year 2021, and \$4,789,000 of the general fund—federal appropriation are provided solely for the phase-in of the settlement agreement under *Trueblood, et al. v. The department, in collaboration with the health care authority and the criminal justice training commission, must implement the provisions of the settlement agreement pursuant to the timeline and implementation plan provided for under the settlement agreement. This includes implementing provisions related to competency evaluations, competency restoration, crisis diversion and supports, education and training, and workforce development.

(4) \$8,777,000 of the general fund—state appropriation for fiscal year 2020, \$10,424,000 of the general fund—state appropriation for fiscal year 2021, and \$20,197,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health entities to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health entities with PACT teams, the authority shall consider the differences between behavioral health entities in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (7) of this section. The authority and behavioral health entities shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(5) From the general fund—state appropriations in this section, the authority shall assure that behavioral health entities reimburse the department of social and health services aging and long term support administration for the general fund—state cost of medicaid personal care services that enrolled

To the extent possible, levels of behavioral health entity spending must be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health entities proportionate to the fiscal year 2019 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health entities unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically allowed under federal law or an approved waiver."

(8) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health entities for children's long-term inpatient facility services.

(9) \$1,204,000 of the general fund–state appropriation for fiscal year 2020 and \$1,204,000 of the general fund–state appropriation for fiscal year 2021 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting one hundred eighty-day commitment hearings at the state psychiatric hospitals.

(10) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the

locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (7) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

The authority must collect information from the behavioral health entities on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(12) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(13) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization and administrative services organization contracts and include contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization and administrative services organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health organization or administrative services organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its

reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization or administrative services organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan.

(14) During the 2019-2021 fiscal biennium, any amounts provided in this section that are used for case management services for pregnant and parenting women must be contracted directly between the authority and providers rather than through contracts with behavioral health organizations.

(15) Within the amounts appropriated in this section, the authority may contract with the University of Washington and community-based providers for the provision of the parent-child assistance program or other specialized chemical dependency case management providers for pregnant, post-partum, and parenting women. For all contractors: (a) Service and other outcome data must be provided to the authority by request; and (b) indirect charges for administering the program must not exceed ten percent of the total contract amount.

(16) \$3,500,000 of the general fund-federal appropriation (from the substance abuse prevention and treatment federal block grant) is provided solely for the continued funding of existing county drug and alcohol use prevention programs.

(17) Within the amounts provided in this section, behavioral health entities must provide outpatient chemical dependency treatment for offenders enrolled in the medicaid program who are supervised by the department of corrections pursuant to a term of community supervision. Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The

department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(18) The criminal justice treatment account-state appropriation is provided solely for treatment and treatment support services for offenders with a substance use disorder pursuant to RCW 71.24.580. The authority must offer counties the option to administer their share of the distributions provided for under RCW 71.24.580(5)(a). If a county is not interested in administering the funds, the authority shall contract with behavioral health entities to administer these funds consistent with the plans approved by local panels pursuant to RCW 71.24.580(5)(b). The authority must provide a report to the office of financial management and the appropriate committees of the legislature which identifies the distribution of criminal justice treatment account funds by September 30, 2019.

(19) No more than \$27,844,000 of the general fund-federal appropriation may be expended for supported housing and employment services described in initiative 3a and 3b of the medicaid transformation demonstration waiver under healthier Washington. Under this initiative, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the authority or its providers or third party administrator. The department and the authority in consultation with the medicaid forecast work group, shall ensure that reasonable reimbursements are established for services deemed necessary within an identified limit per individual. The authority shall not increase general fund-state expenditures under this initiative. The secretary in collaboration with the director of the authority shall report to the joint

select committee on health care oversight no less than quarterly on financial and health outcomes. The secretary in cooperation with the director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(20) \$6,858,000 of the general fund-state appropriation for fiscal year 2020, \$6,858,000 of the general fund-state appropriation for fiscal year 2021, and \$8,046,000 of the general fund-federal appropriation are provided solely to maintain new crisis triage or stabilization centers. Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance. The authority shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.

(21) \$1,125,000 of the general fund-federal appropriation is provided solely for the authority to develop a memorandum of understanding with the department of health for implementation of chapter 297, Laws of 2017 (opioid treatment programs). The authority must use these amounts to reimburse the department of health for costs incurred through the implementation of the bill.

(22) \$6,655,000 of the general fund-state appropriation for fiscal year 2020, \$10,015,000 of the general fund-state appropriation for fiscal year 2021, and \$12,965,000 of the general fund-federal appropriation are provided solely for the operation of secure withdrawal management and stabilization facilities. The authority may not use any of these amounts for services in facilities that are subject to federal funding restrictions that apply to institutions for mental diseases, unless they have received a waiver that allows for full federal participation in these facilities. Within these amounts, funding is provided to increase the fee for service rate for these facilities up to \$650 per day. The authority must require in contracts with behavioral health entities that, beginning in calendar year 2020, they pay no lower than the fee for service rate. The authority must coordinate with regional behavioral health entities to identify

and implement purchasing strategies or regulatory changes that increase access to services for individuals with complex behavioral health needs at secure withdrawal management and stabilization facilities.

(23) \$23,090,000 of the general fund-state appropriation for fiscal year 2020, \$23,090,000 of the general fund-state appropriation for fiscal year 2021, and \$92,444,000 of the general fund-federal appropriation are provided solely to maintain the enhancement of community-based behavioral health services that was funded in fiscal year 2019. Twenty percent of the general fund-state appropriation amounts for each regional service area must be used to increase their nonmedicaid funding and the remainder must be used to increase medicaid rates above FY 2018 levels. Effective January 2020, the medicaid funding is intended to increase rates for behavioral health services provided by licensed and certified community behavioral health agencies as defined by the department of health. This funding must be allocated to the managed care organizations proportionate to their medicaid enrollees. The authority must require the managed care organizations to provide a report on their implementation of this funding. The authority must submit a report to the legislature by December 1, 2020, summarizing how this funding was used and provide information for future options of increasing behavioral health provider rates through directed payments. The report must identify different mechanisms for implementing directed payment for behavioral health providers including but not limited to minimum fee schedules, across the board percentage increases, and value-based payments. The report must provide a description of each of the mechanisms considered, the timeline that would be required for implementing the mechanism, and whether and how the mechanism is expected to have a differential impact on different providers. The report must also summarize the information provided by managed care organizations in implementing the funding provided under this section.

(24) \$27,917,000 of the general fund-state appropriation for fiscal year 2020, \$36,095,000 of the general fund-state appropriation for fiscal year 2021, and \$60,644,000 of the general fund-federal appropriation are provided solely for the department to contract with community

hospitals or freestanding evaluation and treatment centers to provide long-term inpatient care beds as defined in RCW 71.24.025. Within these amounts, the authority must meet the requirements for reimbursing counties for the judicial services for patients being served in these settings in accordance with RCW 71.05.730. The authority must coordinate with the department of social and health services in developing the contract requirements, selecting contractors, and establishing processes for identifying patients that will be admitted to these facilities. Sufficient amounts are provided in fiscal year 2020 for the authority to reimburse community hospitals serving medicaid clients in long-term inpatient care beds as defined in RCW 71.24.025 at a rate of \$1,171 per day, or the hospital's current psychiatric inpatient per diem rate, whichever is higher. The rate paid to hospitals in this subsection cannot exceed one-hundred percent of the hospitals eligible costs based on their most recently completed medicare cost report. The authority in collaboration with the Washington state hospital association must convene a work group to develop a methodology for reimbursing community hospitals serving these clients. In developing this methodology, the authority must account for cost structure differences between teaching hospitals and other hospital types. The authority must provide a report to the appropriate committees of the legislature by December 1, 2019. The report must:

- (a) Describe the methodology developed by the work group;
- (b) Identify cost differences between teaching hospitals and other hospital types;
- (c) Provide options for incentivizing community hospitals to offer long-term inpatient care beds day beds including a rate recommendation;

Such services must include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

The authority must

also use these amounts to directly pay for costs that are ineligible for medicaid reimbursement in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive behavioral health services on a fee-for-service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program. The authority must submit an application for a waiver to allow, by July 1, 2020, for full federal participation for medicaid clients in mental health facilities classified as institutions of mental diseases. The authority must submit a report on the status of the waiver to the office of financial management and the appropriate committees of the legislature by December 1, 2019.

(30) The authority must require all behavioral health organizations transitioning to full integration to either spend down or return all reserves in accordance with contract requirements and federal and state law. Behavioral health organization reserves may not be used to pay for services to be provided beyond the end of a behavioral health organization's contract or for startup costs in full integration regions except as provided in this subsection. The authority must ensure that any increases in expenditures in behavioral health reserve spend-down plans are required for the operation of services during the contract period and do not result in overpayment to providers. If the nonfederal share of reserves returned during fiscal year 2020 exceeds \$35,000,000, the authority shall use some of the amounts in excess of \$35,000,000 to support the final regions transitioning to full integration of physical and behavioral health care. These amounts must be distributed proportionate to the population of each regional area covered. The maximum amount allowed per region is \$3,175 per 1,000 residents.
