**PART II
HUMAN SERVICES**

NEW SECTION. **Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES**

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, the department of corrections, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that projects are planned for in

a manner that ensures the efficient use of state resources, support the adoption of a cohesive technology and data architecture, and maximize federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in section 701 of this act.

The director shall also report to the fiscal committees of the legislature all of the expenditures of this subsection and shall provide such fiscal data in the time, manner, and form requested by the legislative fiscal committees.

(b) The authority and the department shall seek additional flexibilities for housing supports through the centers for medicare and medicaid services and shall coordinate with the office of financial management and the department of commerce to ensure that services are not duplicated.

(c) The director shall report to the joint select committee on health care oversight no less than quarterly on utilization and caseload statistics for both supportive housing and employment services and its progress toward increasing uptake and availability for these services.

(5) \$1,432,000 of the general fund—state appropriation for fiscal year 2024 and \$3,008,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for supported employment services and \$1,478,000 of the general fund—state appropriation for fiscal year 2024 and \$3,162,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for supported housing services, similar to the services described in initiatives 3a and 3b of the 1115 demonstration waiver to individuals who are ineligible for medicaid. Under these initiatives, the authority and the department of social and health services shall ensure that allowable and necessary services are provided to eligible clients as identified by the authority or its third-party administrator. Before authorizing services, eligibility for initiative 3a or 3b of the 1115 demonstration waiver must first be determined.

(6) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(7) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population

in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(8) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(9) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(10) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(13) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(14) \$7,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(15) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2023-2025 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2023, and by November 1, 2024, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2024 and fiscal year 2025, hospitals in the program shall be paid and shall retain 100 percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and 100 percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. For the purpose of determining the amount of any state grant under this subsection, payments will include the federal portion of medicaid program supplemental payments received by the hospitals. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2023-2025 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in

monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within 11 months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$237,000 of the general fund—state appropriation for fiscal year 2024 and \$218,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for state grants for the participating hospitals.

(16) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide ongoing support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(18) The authority shall submit reports to the governor and the legislature by September 15, 2023, and no later than September 15, 2024, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(23) \$90,000 of the general fund—state appropriation for fiscal year 2024, \$90,000 of the general fund—state appropriation for fiscal year 2025, and \$180,000 of the general fund—federal appropriation are provided solely to continue operation by a nonprofit organization of a toll-free hotline that assists families to learn about and enroll in the apple health for kids program.

The appropriations in this section are subject to the following conditions and limitations:

(1) For the purposes of this section, "behavioral health entities" means managed care organizations and behavioral health administrative services organizations that reimburse providers for behavioral health services.

(2) Within the amounts appropriated in this section, funding is provided for implementation of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. In addition to amounts provided solely for implementation of the settlement agreement, class members must have access to supports and services funded throughout this section for which they meet eligibility and medical necessity requirements. The authority must include language in contracts that requires regional behavioral health entities to develop and implement plans for improving access to timely and appropriate treatment for individuals with behavioral health needs and current or prior criminal justice involvement who are eligible for services under these contracts.

(3) (a) \$44,320,000 of the general fund—state appropriation for fiscal year 2024, \$49,525,000 of the general fund—state appropriation for fiscal year 2025, and \$17,368,000 of the general fund—federal appropriation are provided solely to continue the phase-in of the settlement agreement under *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. The authority, in collaboration with the department of social and health services and the criminal justice training commission, must implement the provisions of the settlement agreement pursuant to the timeline and implementation plan provided for under the settlement agreement. This includes implementing provisions related to competency evaluations, competency restoration, crisis diversion and supports, education and training, and workforce development. Within these amounts, sufficient funding is provided to implement Engrossed Second Substitute Senate Bill No. 5440 (competency evaluations).

(b) Of the amounts provided in this subsection, \$5,108,000 of the general fund—state appropriation for fiscal year 2024 and \$6,341,000 of the general fund—state appropriation for fiscal year 2025 are provided for implementation of Engrossed Second Substitute Senate Bill No. 5440 (competency evaluations). Of these amounts, \$186,000 of the general fund—state appropriation for fiscal year 2024 and \$186,000 of the general fund—state appropriation for fiscal year 2025 are provided solely to increase compensation for staff in outpatient competency restoration programs pursuant to Engrossed Second Substitute Senate Bill No. 5440 (competency evaluations).

(4) \$8,000,000 of the general fund—state appropriation for fiscal year 2024 is provided solely to continue diversion grant programs funded through contempt fines pursuant to *Trueblood, et al. v. Department of Social and Health Services, et al.*, United States District Court for the Western District of Washington, Cause No. 14-cv-01178-MJP. The authority must consult with the plaintiffs and court monitor to determine, within the amounts provided, which of the programs will continue to receive funding through this appropriation. The programs shall use this funding to provide assessments, mental health treatment, substance use disorder treatment, case management, employment, and other social services. By December 1, 2023, the authority, in consultation with the plaintiffs and the court monitor, must submit a report to the office of financial management and the appropriate fiscal committees of the legislature which includes: Identification of the programs that receive funding through this subsection; a narrative description of each program model; the number of individuals being served by each program on a monthly basis; metrics or outcomes reported as part of the contracts; and recommendations related to further support of these programs in the 2023-2025 fiscal biennium.

(5) \$12,359,000 of the general fund—state appropriation for fiscal year 2024, \$12,359,000 of the general fund—state appropriation for fiscal year 2025, and \$23,444,000 of the general fund—federal appropriation are provided solely for the authority and behavioral health entities to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health entities with PACT teams, the authority shall consider the differences between behavioral health entities in the percentages of services and other

costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (7) of this section. The authority and behavioral health entities shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(6) \$3,520,000 of the general fund—federal appropriation is provided solely for the authority to maintain a pilot project to incorporate peer bridging staff into behavioral health regional teams that provide transitional services to individuals returning to their communities.

To the extent possible, levels of behavioral health entity spending must be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health entities as follows:

Within these amounts, behavioral health administrative service organizations must provide a 15 percent rate increase to providers receiving state funds for nonmedicaid services under this section effective January 1, 2024.

(b) \$35,716,000 of the general fund—state appropriation for fiscal year 2024 and \$38,375,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for the authority to contract with medicaid managed care organizations for wraparound services to medicaid enrolled individuals that are not covered under the medicaid program. Within the amounts provided in this subsection:

(i) Medicaid managed care organizations must provide a 15 percent rate increase to providers receiving state funding for nonmedicaid services under this section effective January 1, 2024.

(ii) The authority shall assure that managed care organizations reimburse the department of social and health services, aging and long-term support administration for the general fund—state cost of exceptional behavioral health personal care services for medicaid enrolled individuals who require these because of a psychiatric disability. Funding for the federal share of these services is separately appropriated to the department of social and health services.

(iii) Pursuant to RCW 41.56.029, during fiscal year 2024, the authority may work with the office of financial management to negotiate a tiered rate structure for behavioral health personal care services for adult family home providers serving medicaid enrollees. An agreement reached with the adult family home council must be submitted to the director of financial management by October 1, 2023, and certified as financially feasible in order to be considered for funding during the 2024 legislative session. Upon completion of bargaining, the authority shall coordinate with the department of social and health services to develop and submit to the centers for medicare and medicaid services an application to provide a 1915(i) state plan home and community-based services benefit. The application shall be developed to allow for the delivery of wraparound supportive behavioral health services for individuals with mental illnesses who also have a personal care need. The 1915(i) state plan shall be developed to standardize coverage and administration, improve the current benefit design, and clarify roles in administration of the behavioral health personal care services benefit.

(8) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health entities for children's long-term inpatient facility services.

(9) \$1,204,000 of the general fund—state appropriation for fiscal year 2024 and \$1,204,000 of the general fund—state appropriation for fiscal year 2025 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(10) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (7) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(11) \$2,291,000 of the general fund—state appropriation for fiscal year 2024 and \$2,291,000 of the general fund—state appropriation for fiscal year 2025 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must collect information from the behavioral health entities on their plan for using these funds, the numbers of individuals served, and the types of services provided.

(12) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(13) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health administrative service organization contracts and include contract language that clearly states the requirements and limitations. The reserve levels must be informed by the types of risk carried by behavioral health administrative service organizations for mandatory services and also consider reasonable levels of operating reserves. The authority must monitor and ensure that behavioral health administrative service organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health administrative service organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health administrative service organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan. The authority must submit to the office of financial management and the appropriate committees of the legislature, each December of the biennium, the minimum and maximum reserve levels established in contract for each of the behavioral health administrative service organizations for the prior fiscal year and the actual reserve levels reported at the end of the fiscal year.

(14) During the 2023-2025 fiscal biennium, any amounts provided in this section that are used for case management services for pregnant and parenting women must be contracted directly between the authority and pregnant and parenting women case management providers.

(15) \$3,500,000 of the general fund—federal appropriation is provided solely for the continued funding of existing county drug and alcohol use prevention programs.

(16) Within the amounts appropriated in this section, the authority may contract with the University of Washington and community-based providers for the provision of the parent-child assistance program or other specialized chemical dependency case management providers for pregnant, postpartum, and parenting women. For all contractors: (a) Service and other outcome data must be provided to the authority by request; and (b) indirect charges for administering the program must not exceed 10 percent of the total contract amount.

(17) Within the amounts provided in this section, behavioral health entities must provide outpatient chemical dependency treatment for offenders enrolled in the medicaid program who are supervised by the department of corrections pursuant to a term of community supervision. Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(18) The criminal justice treatment account—state appropriation is provided solely for treatment and treatment support services for offenders with a substance use disorder pursuant to RCW 71.24.580. The authority must offer counties the option to administer their share of the distributions provided for under RCW 71.24.580(5)(a). If a county is not interested in administering the funds, the authority shall contract with behavioral health entities to administer these funds consistent with the plans approved by local panels pursuant to RCW 71.24.580(5)(b). Funding from the criminal justice treatment account may be used to provide treatment and support services through the conclusion of an individual's treatment plan to individuals participating in a drug court program as of February 24, 2021, if that individual wishes to continue treatment following dismissal of charges they were facing under RCW 69.50.4013(1). Such participation is voluntary and contingent upon substantial compliance with drug court program requirements. The authority must provide a report to the office of financial management and the appropriate committees of the legislature that identifies the distribution of criminal justice treatment account funds by September 30, 2023.

Services in these facilities may include crisis stabilization and intervention, individual counseling, peer support, medication management, education, and referral assistance. The authority shall monitor each center's effectiveness at lowering the rate of state psychiatric hospital admissions.

(b) Within these amounts, the health care authority shall convene representatives from medicaid managed care organizations, behavioral health administrative organizations, private insurance carriers, self-insured organizations, crisis providers, and the office of the insurance commissioner to assess gaps in the current funding model for crisis services and recommend options for addressing these gaps including, but not limited to, an alternative

funding model for crisis services. The assessment must consider available data to determine to what extent the costs of crisis services for clients of private insurance carriers, medicaid managed care organizations, and individuals enrolled in medicaid fee-for-service are being subsidized through state funded behavioral health administrative services organization contracts. The analysis shall examine crisis services provided by mobile crisis teams as well as facility-based services such as crisis triage and crisis stabilization units. In the development of an alternative funding model, the authority and office of the insurance commissioner must explore mechanisms that: (i) Determine the annual cost of operating crisis services and collect a proportional share of the program cost from each health insurance carrier; and (ii) differentiate between crisis services eligible for medicaid funding from other nonmedicaid eligible activities. The authority must submit a preliminary report to the office of financial management and the appropriate committees of the legislature by December 1, 2023, and a final report by December 1, 2024. Up to \$300,000 of the general fund—state appropriation for fiscal year 2024, and \$300,000 of the general fund—state appropriation for fiscal year 2025 may be used for the assessment and reporting activities required under this subsection.

The authority may not use any of these amounts for services in facilities that are subject to federal funding restrictions that apply to institutions for mental diseases, unless they have received a waiver that allows for full federal participation in these facilities. Within these amounts, funding is provided to increase the fee for service rate for these facilities up to \$650 per day. The authority must require in contracts with behavioral health entities that they pay no lower than the fee for service rate. The authority must coordinate with regional behavioral health entities to identify and implement purchasing strategies or regulatory changes that increase access to services for individuals with complex behavioral health needs at secure withdrawal management and stabilization facilities.

NEW SECTION. Sec. 701. FOR THE OFFICE OF FINANCIAL MANAGEMENT—INFORMATION TECHNOLOGY INVESTMENT POOL

General Fund—State Appropriation (FY 2024)	\$26,470,000
General Fund—State Appropriation (FY 2025)	\$9,022,000
Other Appropriated Funds	\$6,559,000
TOTAL APPROPRIATION	\$42,051,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations are provided solely for expenditure into the information technology investment revolving account created in RCW 43.41.433. Amounts in the account are provided solely for the information technology projects shown in LEAP omnibus document IT-2023, dated April 22, 2023, which is hereby incorporated by reference. To facilitate the transfer of moneys from other funds and accounts that are associated with projects contained in LEAP omnibus document IT-2023, dated April 22, 2023, the state treasurer is directed to transfer moneys from other funds and accounts to the information technology investment revolving account in accordance with schedules provided by the office of financial management. Restricted federal funds may be transferred only to the extent permitted by law, and will otherwise remain outside the information technology investment account. The projects affected remain subject to the other provisions of this section.

(2) Agencies must apply to the office of the chief information officer for certification and release of funding for each gate of the project. When the office of the chief information officer certifies the key deliverables of the gate have been met, a current technology budget is approved; and if applicable to the stage or gate of the project, that the project is putting functioning software into production that addresses user needs, is in compliance with the quality assurance plan, and meets a defined set of industry best practices for code quality that the office of the chief information officer will post to their website by July 1, 2023, it must notify the office of financial management and the fiscal committees of the legislature. The office of financial management may not approve funding for the certified project gate any earlier than ten business days from the date of notification to the fiscal committees of the legislature.

(3) (a) Allocations and allotments of information technology investment revolving account must be made for discrete stages of projects as determined by the technology budget approved by the office of the chief information officer and the office of financial management.

(b) Fifteen percent of total funding allocated by the office of financial management, or another amount as defined jointly by the office of financial management and the office of the chief information officer, will be retained in the account, but remain allocated to that project. The retained funding will be released to the agency only after successful completion of that stage of the project and only after the office of the chief information officer certifies the stage as required in subsection (2) of this section. For the one Washington project, the amount retained is increased to at least twenty percent of total funding allocated for any stage of that project.

(4) (a) Each project must have a technology budget. The technology budget must have the detail by fiscal month for the 2023-2025 fiscal biennium. The technology budget must use a method similar to the state capital budget, identifying project costs, each fund source, and anticipated deliverables through each stage of the entire project investment and across fiscal periods and biennia from project onset through implementation and close out, as well as at least five years of maintenance and operations costs.

(b) As part of the development of a technology budget and at each request for funding, the agency shall submit an updated technology budget, if changes occurred, to include detailed financial information to the office of financial management and the office of the chief information officer. The technology budget must describe the total cost of the project, as well as maintenance and operations costs, to include and identify at least:

(i) Fund sources:

(A) If the project is funded from the information technology revolving account, the technology budget must include a worksheet that provides the fund sources that were transferred into the account by fiscal year;

(B) If the project is by a central service agency, and funds are driven out by the central service model, the technology budget must provide a statewide impact by agency by fund as a worksheet in the technology budget file;

(ii) Full time equivalent staffing level to include job classification assumptions. This is to assure that the project has adequate state staffing and agency support to ensure success, ensure user acceptance, and adequately test the functionality being delivered in each sprint before it is accepted by the agency's contracting officer or their representative. Key project functions that are deemed "critical" must be retained by state personnel and not outsourced, to ensure that knowledge is retained within state government and that the state can self-sufficiently support the system and make improvements without long-term dependence on a vendor;

(iii) Discrete financial budget codes to include at least the appropriation index and program index;

(iv) Object and subobject codes of expenditures;

(v) Anticipated deliverables to include software demonstration dates;

(vi) Historical budget and expenditure detail by fiscal year; and

(vii) Maintenance and operations costs by fiscal year for at least five years as a separate worksheet.

(c) If a project technology budget changes and a revised technology budget is completed, a comparison of the revised technology budget to the last approved technology budget must be posted to the dashboard, to include a narrative rationale on what changed, why, and how that impacts the project in scope, budget, and schedule.

(5) (a) Each project must have a project charter. The charter must include:

(i) An organizational chart of the project management team that identifies team members and their roles and responsibilities, and shows that the project is adequately staffed by state personnel in key functions to ensure success;

(ii) The office of the chief information officer staff assigned to the project;

(iii) A project roadmap that includes the problems the team is solving and the sequence in which the team intends to take on those problems, updated periodically to reflect what has been learned;

(iv) Metrics to support the project strategy and vision, to determine that the project is incrementally meeting user needs;

(v) An implementation schedule covering activities, critical milestones, and deliverables at each stage of the project for the life of the project at each agency affected by the project;

(vi) Performance measures used to determine that the project is on time, within budget, and meeting expectations for quality of work product;

(vii) Ongoing maintenance and operations cost of the project post implementation and close out delineated by agency staffing, contracted staffing, and service level agreements; and

(viii) Financial budget coding to include at least discrete financial coding for the project.

(b) If required by the office of the chief information officer, a project may also need to have an investment plan. The office of the chief information officer must:

(i) Base the requirement of an agency needing to have an investment plan on the complexity and risk of the project;

(ii) Establish requirements by project risk level in statewide technology policy, and publish the requirements by September 30, 2023; and

(iii) In collaboration with the department of enterprise services, define the circumstances under which the vendor will be terminated or replaced and establish the process by which the agency will transition to a new vendor with a minimal reduction in project productivity.

(6)(a) Projects with estimated costs greater than \$100,000,000 from initiation to completion and implementation may be divided into discrete subprojects as determined by the office of the chief information officer, except for the one Washington project which must be divided into the following discrete subprojects: Core financials, expanding financials and procurement, budget, and human resources. Each subproject must have a technology budget as provided in this section.

(b) If the project affects more than one agency:

(i) A separate technology budget and investment plan must be prepared by each agency; and

(ii) There must be a budget roll up that includes each affected agency at the subproject level.

(7) The office of the chief information officer shall maintain a statewide information technology project dashboard that provides updated information each fiscal month on projects subject to this section. The statewide dashboard must meet the requirements in section 155 of this act.

(8) For any project that exceeds \$2,000,000 in total funds to complete, requires more than one biennium to complete, or is financed through financial contracts, bonds, or other indebtedness:

(a) Independent quality assurance services for the project must report independently to the office of the chief information officer;

(b) The office of the chief information officer, based on project risk assessments, may require additional quality assurance services and independent verification and validation services;

(c) The office of the chief information officer must review, and, if necessary, revise the proposed project to ensure it is flexible and adaptable to advances in technology;

(d) The technology budget must specifically identify the uses of any financing proceeds. No more than thirty percent of the financing proceeds may be used for payroll-related costs for state employees assigned to project management, installation, testing, or training;

(e) The agency must consult with the office of the state treasurer during the competitive procurement process to evaluate early in the process whether products and services to be solicited and the responsive bids from a solicitation may be financed;

(f) The agency must consult with the contracting division of the department of enterprise services for a review of all contracts and agreements related to the project's information technology procurements;

(g) The agency and project must use an agile development model holding live demonstrations of functioning software, developed using incremental user research, held at the end of every two-week sprint;

(h) The project solution must be capable of being continually updated, as necessary; and

(i) The agency and project must deploy usable functionality into production for users within 180 days from the date of an executed procurement contract in response to a competitive request for proposal.

(9) The office of the chief information officer must evaluate the project at each stage and certify whether the project is putting functioning software into production that addresses user needs, is projected to be completed within budget, is in compliance with the quality assurance plan, and meets a defined set of industry best practices for code quality, and whether the project is planned, managed, and meeting deliverable targets as defined in the project's approved technology budget and investment plan.

(10) The office of the chief information officer may suspend or terminate a project at any time if it determines that the project is not meeting or not expected to meet anticipated performance and technology outcomes. Once suspension or termination occurs, the agency shall unallot any unused funding and shall not make any expenditure for the project without the approval of the office of financial management. The office of the chief information officer must report on December 1 each calendar year any suspension or termination of a project in the previous 12-month period to the legislative fiscal committees.

(11) The office of the chief information officer, in consultation with the office of financial management, may identify additional projects to be subject to this section, including projects that are not separately identified within an agency budget. The office of the chief information officer must report on December 1 each calendar year any additional projects to be subjected to this section that were identified in the previous 12-month period to the legislative fiscal committees.

(12) Any cost to administer or implement this section for projects listed in subsection (1) of this section, must be paid from the information technology investment revolving

account. For any other information technology project made subject to the conditions, limitations, and review of this section, the cost to implement this section must be paid from the funds for that project.

(13) The following information technology projects are subject to the conditions, limitations, and review of this section:

- (a) The state network firewall replacement of the consolidated technology services agency;

The report must be submitted each January 1st, beginning January 1, 2024, for the prior fiscal year. In addition to this high-level reporting requirement, the office must also report on each lease that was set to expire in the prior fiscal year, starting with fiscal year 2023, to provide actual detail for each lease by impacted state agency, institution of higher education, and separately elected office. (c) No registered entity may buy more than the entity's bid guarantee; and

(d) No registered entity may buy allowances that would exceed the entity's holding limit at the time of the auction.

The department may conduct auctions jointly with linked jurisdictions.

(12) In setting the number of allowances offered at each auction, the department shall consider the allowances in the marketplace due to the marketing of allowances issued as required under RCW 70A.65.110, 70A.65.120, and 70A.65.130 in the department's determination of the number of allowances to be offered at auction. Sec. 941. RCW 71.24.580 and 2022 c 297 s 964 and 2022 c 157 s 18 are each reenacted and amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance use disorder treatment and treatment support services for offenders with a substance use disorder that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of substance use disorder treatment services and treatment support services for nonviolent offenders within a drug court program and, during the 2021-2023 and 2023-2025 fiscal ~~((biennium))~~ biennia, for 180 days following graduation from the drug court program; and (c) the administrative and overhead costs associated with the operation of a drug court. Amounts provided in this subsection must be used for treatment and recovery support services for criminally involved offenders and authorization of these services shall not be subject to determinations of medical necessity. During the 2019-2021 and 2021-2023 fiscal biennia, funding from the criminal justice treatment account may be used to provide treatment and support services through the conclusion of an individual's treatment plan to individuals participating in a drug court program as of February 24, 2021, if that individual wishes to continue treatment following dismissal of charges they were facing under RCW 69.50.4013(1). Such participation is voluntary and contingent upon substantial compliance with drug court program requirements. The legislature may appropriate from the account for municipal drug courts and increased treatment options. During the 2019-2021 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the home security fund account created in RCW 43.185C.060. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:

(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance use disorder treatment program, including but not limited to the recovery support and other programmatic elements outlined in RCW 2.30.030 authorizing therapeutic courts; and

(b) "Treatment support" includes transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4) (a) For the fiscal year beginning July 1, 2005, and each subsequent fiscal year, the state treasurer shall transfer eight million two hundred fifty thousand dollars from the general fund to the criminal justice treatment account, divided into four equal quarterly payments. For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the department for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the authority from the criminal justice treatment account shall be distributed as specified in this subsection. The authority may retain up to three percent of the amount appropriated under subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the authority from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The authority, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the authority to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the authority from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The authority shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, and substance use disorder treatment providers. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under

this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The submitted plan should incorporate current evidence-based practices in substance use disorder treatment. The funds shall be used solely to provide approved alcohol and substance use disorder treatment pursuant to RCW 71.24.560 and treatment support services. No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) If a region or county uses criminal justice treatment account funds to support a therapeutic court, the therapeutic court must allow the use of all medications approved by the federal food and drug administration for the treatment of opioid use disorder as deemed medically appropriate for a participant by a medical professional. If appropriate medication-assisted treatment resources are not available or accessible within the jurisdiction, the health care authority's designee for assistance must assist the court with acquiring the resource.

(10) Counties must meet the criteria established in RCW 2.30.030(3).

(11) The authority shall annually review and monitor the expenditures made by any county or group of counties that receives appropriated funds distributed under this section. Counties shall repay any funds that are not spent in accordance with the requirements of its contract with the authority.

Sec. 942. RCW 74.46.561 and 2023 c ... s 1903 (section 1903 of this act) are each amended to read as follows:

(1) The legislature adopts a new system for establishing nursing home payment rates beginning July 1, 2016. Any payments to nursing homes for services provided after June 30, 2016, must be based on the new system. The new system must be designed in such a manner as to decrease administrative complexity associated with the payment methodology, reward nursing homes providing care for high acuity residents, incentivize quality care for residents of nursing homes, and establish minimum staffing standards for direct care.

(2) The new system must be based primarily on industry-wide costs, and have three main components: Direct care, indirect care, and capital.

(3) (a) The direct care component must include the direct care and therapy care components of the previous system, along with food, laundry, and dietary services. Except as provided in (b) of this subsection, direct care must be paid at a fixed rate, based on one hundred percent or greater of statewide case mix neutral median costs, but shall be capped so that a nursing home provider's direct care rate does not exceed 118 percent of its base year's direct care allowable costs except if the provider is below the minimum staffing standard established in RCW 74.42.360(2). (~~The legislature intends to remove the cap on direct care rates by June 30, 2027.~~) Direct care must be performance-adjusted for acuity every six months, using case mix principles. Direct care must be regionally adjusted using countywide wage index information available through the United States department of labor's bureau of labor statistics. There is no minimum occupancy for direct care. The direct care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(b) Unless a nursing home provider is below the minimum staffing standard established in RCW 74.42.360(2), a provider's direct care rate relative to its base year's direct care allowable costs must be capped as follows:

(i) For fiscal year 2023, the cap must not exceed 165 percent;

(ii) For fiscal year 2024, the cap must not exceed 153 percent; and

(iii) For fiscal year 2025, the cap must not exceed 142 percent.

(4) (a) The indirect care component must include the elements of administrative expenses, maintenance costs, and housekeeping services from the previous system. Except as provided in (b) of this subsection, a minimum occupancy assumption of ninety percent must be applied to indirect care. Indirect care must be paid at a fixed rate, based on ninety percent or greater of statewide median costs. The indirect care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(b) A minimum occupancy assumption must be applied to indirect care as follows:

(i) For fiscal year 2023, the assumption must be 75 percent;

(ii) For fiscal year 2024, the assumption must be 80 percent; and

(iii) For fiscal year 2025, the assumption must be 80 percent.

(5) The capital component must use a fair market rental system to set a price per bed. The capital component must be adjusted for the age of the facility, and must use a minimum occupancy assumption of ninety percent.

(a) Beginning July 1, 2016, the fair rental rate allocation for each facility must be determined by multiplying the allowable nursing home square footage in (c) of this subsection by the RSMean rental rate in (d) of this subsection and by the number of licensed beds yielding the gross unadjusted building value. An equipment allowance of ten percent must be added to the unadjusted building value. The sum of the unadjusted building value and equipment allowance must then be reduced by the average age of the facility as determined by (e) of this subsection using a depreciation rate of one and one-half percent. The depreciated building and equipment plus land valued at ten percent of the gross unadjusted building value before depreciation must then be multiplied by the rental rate at seven and one-half percent to yield an allowable fair rental value for the land, building, and equipment.

(b) The fair rental value determined in (a) of this subsection must be divided by the greater of the actual total facility census from the prior full calendar year or imputed census based on the number of licensed beds at ninety percent occupancy.

(c) For the rate year beginning July 1, 2016, all facilities must be reimbursed using four hundred square feet. For the rate year beginning July 1, 2017, allowable nursing facility square footage must be determined using the total nursing facility square footage as reported on the medicaid cost reports submitted to the department in compliance with this chapter. The maximum allowable square feet per bed may not exceed four hundred fifty.

(d) Each facility must be paid at eighty-three percent or greater of the median nursing facility RSMean construction index value per square foot. The department may use updated RSMean construction index information when more recent square footage data becomes available. The statewide value per square foot must be indexed based on facility zip code by multiplying the statewide value per square foot times the appropriate zip code based index. For the purpose of implementing this section, the value per square foot effective July 1, 2016, must be set so that the weighted average fair rental value rate is not less than ten dollars and eighty cents per patient day. The capital component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(e) The average age is the actual facility age reduced for significant renovations. Significant renovations are defined as those renovations that exceed two thousand dollars per bed in a calendar year as reported on the annual cost report submitted in accordance with this chapter. For the rate beginning July 1, 2016, the department shall use renovation data back to 1994 as submitted on facility cost reports. Beginning July 1, 2016, facility ages must be reduced in future years if the value of the renovation completed in any year exceeds two thousand dollars times the number of licensed beds. The cost of the renovation must be divided by the accumulated depreciation per bed in the year of the renovation to determine the equivalent number of new replacement beds. The new age for the facility is a weighted average with the replacement bed equivalents reflecting an age of zero and the existing licensed beds, minus the new bed equivalents, reflecting their age in the year of the renovation. At no time may the depreciated age be less than zero or greater than forty-four years.

(f) A nursing facility's capital component rate allocation must be rebased annually, effective July 1, 2016, in accordance with this section and this chapter.

(g) For the purposes of this subsection (5), "RSMean" means building construction costs data as published by Gordian.

(6) A quality incentive must be offered as a rate enhancement beginning July 1, 2016.

(a) An enhancement no larger than five percent and no less than one percent of the statewide average daily rate must be paid to facilities that meet or exceed the standard established for the quality incentive. All providers must have the opportunity to earn the full quality incentive payment.

(b) The quality incentive component must be determined by calculating an overall facility quality score composed of four to six quality measures. For fiscal year 2017 there shall be four quality measures, and for fiscal year 2018 there shall be six quality measures. Initially, the quality incentive component must be based on minimum data set quality measures for the percentage of long-stay residents who self-report moderate to severe pain, the percentage of high-risk long-stay residents with pressure ulcers, the percentage of long-stay residents experiencing one or more falls with major injury, and the percentage of long-stay residents with a urinary tract infection. Quality measures must be reviewed on an annual basis by a stakeholder work group established by the department. Upon review, quality measures may be added or changed. The department may risk adjust individual quality measures as it deems appropriate.

(c) The facility quality score must be point based, using at a minimum the facility's most recent available three-quarter average centers for medicare and medicaid services quality data. Point thresholds for each quality measure must be established using the corresponding statistical values for the quality measure point determinants of eighty quality measure points, sixty quality measure points, forty quality measure points, and twenty quality measure points, identified in the most recent available five-star quality rating system technical user's guide published by the centers for medicare and medicaid services.

(d) Facilities meeting or exceeding the highest performance threshold (top level) for a quality measure receive twenty-five points. Facilities meeting the second highest performance threshold receive twenty points. Facilities meeting the third level of performance threshold receive fifteen points. Facilities in the bottom performance threshold level receive no points. Points from all quality measures must then be summed into a single aggregate quality score for each facility.

(e) Facilities receiving an aggregate quality score of eighty percent of the overall available total score or higher must be placed in the highest tier (tier V), facilities

receiving an aggregate score of between seventy and seventy-nine percent of the overall available total score must be placed in the second highest tier (tier IV), facilities receiving an aggregate score of between sixty and sixty-nine percent of the overall available total score must be placed in the third highest tier (tier III), facilities receiving an aggregate score of between fifty and fifty-nine percent of the overall available total score must be placed in the fourth highest tier (tier II), and facilities receiving less than fifty percent of the overall available total score must be placed in the lowest tier (tier I).

(f) The tier system must be used to determine the amount of each facility's per patient day quality incentive component. The per patient day quality incentive component for tier IV is seventy-five percent of the per patient day quality incentive component for tier V, the per patient day quality incentive component for tier III is fifty percent of the per patient day quality incentive component for tier V, and the per patient day quality incentive component for tier II is twenty-five percent of the per patient day quality incentive component for tier V. Facilities in tier I receive no quality incentive component.

(g) Tier system payments must be set in a manner that ensures that the entire biennial appropriation for the quality incentive program is allocated.

(h) Facilities with insufficient three-quarter average centers for medicare and medicaid services quality data must be assigned to the tier corresponding to their five-star quality rating. Facilities with a five-star quality rating must be assigned to the highest tier (tier V) and facilities with a one-star quality rating must be assigned to the lowest tier (tier I). The use of a facility's five-star quality rating shall only occur in the case of insufficient centers for medicare and medicaid services minimum data set information.

(i) The quality incentive rates must be adjusted semiannually on July 1 and January 1 of each year using, at a minimum, the most recent available three-quarter average centers for medicare and medicaid services quality data.

(j) Beginning July 1, 2017, the percentage of short-stay residents who newly received an antipsychotic medication must be added as a quality measure. The department must determine the quality incentive thresholds for this quality measure in a manner consistent with those outlined in (b) through (h) of this subsection using the centers for medicare and medicaid services quality data.

(k) Beginning July 1, 2017, the percentage of direct care staff turnover must be added as a quality measure using the centers for medicare and medicaid services' payroll-based journal and nursing home facility payroll data. Turnover is defined as an employee departure. The department must determine the quality incentive thresholds for this quality measure using data from the centers for medicare and medicaid services' payroll-based journal, unless such data is not available, in which case the department shall use direct care staffing turnover data from the most recent medicaid cost report.

(7) Reimbursement of the safety net assessment imposed by chapter 74.48 RCW and paid in relation to medicaid residents must be continued.

(8) (a) The direct care and indirect care components must be rebased in even-numbered years, beginning with rates paid on July 1, 2016. Rates paid on July 1, 2016, must be based on the 2014 calendar year cost report. On a percentage basis, after rebasing, the department must confirm that the statewide average daily rate has increased at least as much as the average rate of inflation, as determined by the skilled nursing facility market basket index published by the centers for medicare and medicaid services, or a comparable index. If after rebasing, the percentage increase to the statewide average daily rate is less than the average rate of inflation for the same time period, the department is authorized to increase rates by the difference between the percentage increase after rebasing and the average rate of inflation.

(b) It is the intention of the legislature that direct and indirect care rates paid in fiscal year 2022 will be rebased using the calendar year 2019 cost reports. For fiscal year 2021, in addition to the rates generated by (a) of this subsection, an additional adjustment is provided as established in this subsection (8)(b). Beginning May 1, 2020, and through June 30, 2021, the calendar year costs must be adjusted for inflation by a twenty-four month consumer price index, based on the most recently available monthly index for all urban consumers, as published by the bureau of labor statistics. It is also the intent of the legislature that, starting in fiscal year 2022, a facility-specific rate add-on equal to the inflation adjustment that facilities received solely in fiscal year 2021, must be added to the rate. For fiscal year 2024, the direct care and indirect care components shall be rebased to the 2021 calendar year cost report plus a 4.7 percent adjustment for inflation. For fiscal year 2025, the direct and indirect care components shall be rebased to the 2022 calendar year cost report plus a five percent adjustment for inflation.

(c) To determine the necessity of regular inflationary adjustments to the nursing facility rates, by December 1, 2020, the department shall provide the appropriate policy and fiscal committees of the legislature with a report that provides a review of rates paid in 2017, 2018, and 2019 in comparison to costs incurred by nursing facilities.

(9) The direct care component provided in subsection (3) of this section is subject to the reconciliation and settlement process provided in RCW 74.46.022(6). Beginning July 1, 2016, pursuant to rules established by the department, funds that are received through the reconciliation and settlement process provided in RCW 74.46.022(6) must be used for technical assistance, specialized training, or an increase to the quality enhancement established in subsection (6) of this section. The legislature intends to review the utility of maintaining the reconciliation and settlement process under a price-based payment methodology, and may discontinue the reconciliation and settlement process after the 2017-2019 fiscal biennium.

(10) Compared to the rate in effect June 30, 2016, including all cost components and rate add-ons, no facility may receive a rate reduction of more than one percent on July 1, 2016,

more than two percent on July 1, 2017, or more than five percent on July 1, 2018. To ensure that the appropriation for nursing homes remains cost neutral, the department is authorized to cap the rate increase for facilities in fiscal years 2017, 2018, and 2019.

(11) It is the intent of the legislature that a rate add-on be applied to the weighted average nursing facility payment rate referenced in the omnibus operating appropriations act in an amount necessary to ensure that the weighted average nursing facility payment rate for fiscal year 2026 is equal to the weighted average nursing facility payment rate for fiscal year 2025.

Sec. 943. RCW 79.64.040 and 2021 c 334 s 994 are each amended to read as follows:

However, in order to test county flexibility in distributing state forestland revenue, a county may in its discretion pay, distribute, and prorate payments made under this subsection of moneys derived from state forestlands acquired by exchange between July 28, 2019, and June 30, 2020, for lands acquired through RCW 79.22.040, within the same county, in the same manner as general taxes are paid and distributed during the year of payment for the former state forestlands that were subject to the exchange.
