**PART XII
HUMAN SERVICES
SUPPLEMENTAL**

Sec. 1201. 2022 c 297 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, the department of corrections, and the department of children, youth, and families shall work together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that projects are planned for in a manner that ensures the efficient use of state resources, support the adoption of a cohesive technology and data architecture, and maximize federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in section 701 of this act.

(8)(a) The appropriations to the department of social and health services in this act must be expended for the programs and in the amounts specified in this act. However, after May 1, ~~((2022))~~2023, unless prohibited by this act, the department may transfer general fund—state appropriations for fiscal year ~~((2022))~~2023 among programs and subprograms after approval by the director of the office of financial management. However, the department may not transfer state appropriations that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year ~~((2022))~~2023 in response to the COVID-19 pandemic or caseload forecasts and utilization assumptions in the long-term care, developmental disabilities, and public assistance programs, the department may transfer state appropriations that are provided solely for a specified purpose. The department may not transfer funds, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of the office of financial management shall notify the appropriate fiscal committees of the legislature in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(9) The department may not transfer appropriations for the developmental disabilities program to any other program or subprograms of the department of social and health services.

~~((12))~~ (9) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

~~((13))~~ (10) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

~~((14))~~ (11) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

~~((15))~~ (12) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

~~((16))~~ (13) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

~~((17))~~ (14) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

~~((19))~~ (16) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

~~((20))~~ (17) \$7,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

~~((21))~~ (18) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2021-2023 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2021, and by November 1, 2022, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2022 and fiscal year 2023, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. For the purpose of determining the amount of any state grant under this subsection, payments will include the federal portion of medicaid program supplemental payments received by the hospitals. Inpatient

medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2021-2023 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$425,000 of the general fund—state appropriation for fiscal year 2022 and (~~(\$391,000)~~)\$273,000 of the general fund—state appropriation for fiscal year 2023 are provided solely for state grants for the participating hospitals.

The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

((24)) (21) The authority shall submit reports to the governor and the legislature by September 15, 2021, and no later than September 15, 2022, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

((25)) (22) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

((26)) (23) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

((27)) (24) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

((28)) (25) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

~~((32))~~ (29) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

~~((33))~~ (30) The authority shall use revenue appropriated from the dedicated ~~((marijuana fund))~~ cannabis account for contracts with community health centers under RCW 69.50.540 in lieu of general fund—state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

The authority is directed to:

(i) Made statistically significant improvement in the seven performance measures as compared to the preceding plan year; or

(ii) Scored in the top national medicaid quartile of the performance measures.

(f) The amount of withhold annually paid to each managed care organization shall be proportional to findings of statistically significant improvement or top national medicaid quartile scoring by a managed care organization.

(g) For no more than two of the four quality focus performance measures, the authority may use an alternate methodology to approximate top national medicaid quartile performance where top quartile performance data is unavailable.

(h) For the purposes of this subsection, "external quality improvement organization" means an organization that meets the competence and independence requirements under 42 C.F.R. Sec. 438.354, as it existed on the effective date of this section.

Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (7) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

This methodology must be linked to the caseload forecast produced by the caseload forecast council and must include estimates of the number of slots needed at each school district and the corresponding facility needs required to meet the entitlement in accordance with RCW 43.216.556. FOR THE OFFICE OF FINANCIAL MANAGEMENT—OFFICE SPACE USE REDUCTIONS

General Fund—State Appropriation (FY 2023).	(\$3,031,000)
TOTAL APPROPRIATION	(\$3,031,000)

The appropriations in this section are subject to the following conditions and limitations:

(1) In response to the COVID-19 pandemic, Washington state agencies rapidly implemented telework for employees whose job duties did not require on-site presence. This shift in state government operations has led to agencies' reevaluation of the amount of physical office space they will require as they implement hybrid work environments and adopt expanded telework opportunities. The appropriations in this section reflect adjustments in agency appropriations related to office space reductions to be achieved from hybrid work, telework, and the strategy provided in this section. The office of financial management shall adjust allotments in the amounts specified, and to the state agencies specified, in LEAP omnibus document LSSV-2023, dated April 22, 2023, and adjust appropriation schedules accordingly.

(2) To meet the goal of efficient use of state funds and office space, state agencies, institutions of higher education, and separately elected officials must adhere to the office of financial management's statewide space use policy, data integrity and system access policy, inventory policy, and the human resource management system data validation guide to ensure space use data is complete, accurate, and consistent for reporting and analysis.

(3) State agencies, institutions of higher education, and separately elected officials with leases expiring in fiscal years 2024 and 2025 must work toward reducing leased office space a minimum of 20 percent upon lease renewal or when requesting office relocation. Reductions in lease costs will be reflected in subsequent budgets.

(4) It is the intent of the legislature that state agencies, institutions of higher education, and separately elected officials with leases expiring in fiscal years 2026 and 2027 work to reduce their office space portfolio a minimum of 30 percent upon lease renewal

or when requesting office relocation. The reductions in costs will be reflected in subsequent budgets.

(5) State agencies must:

(a) Work with the office of financial management's facilities oversight and planning program and the department of enterprise services to backfill office space and reduce full leases;

(b) Update monthly the office of financial management's facilities portfolio management tool to maximize collocation opportunities and better inform decision making;

(c) Update telework and employee location data monthly in the human resource management system to reflect office space use and needs; and

(d) Maintain a telework policy in accordance with executive order 16-07, building a modern work environment.

(2) The allocation of funding under subsection (1) of this section must adhere to the following principles, additional to the requirements of RCW 70A.02.080: (a) Benefits and programs should be directed to areas and targeted to vulnerable populations and overburdened communities to reduce statewide disparities; (b) investments and benefits should be made roughly proportional to the health disparities that a specific community experiences, with a goal of eliminating the disparities; (c) investments and programs should focus on creating environmental benefits, including eliminating health burdens, creating community and population resilience, and raising the quality of life of those in the community; and (d) efforts should be made to balance investments and benefits across the state and within counties, local jurisdictions, and unincorporated areas as appropriate to reduce disparities by location and to ensure efforts contribute to a reduction in disparities that exist based on race or ethnicity, socioeconomic status, or other factors.

(3) ~~((State))~~ Except as provided in subsection (4) of this section, state agencies allocating funds or administering grants or programs from the carbon emissions reduction account created in RCW 70A.65.240, the climate commitment account created in RCW 70A.65.260, the natural climate solutions account created in RCW 70A.65.270, the climate investment account created in RCW 70A.65.250, the air quality and health disparities improvement account created in RCW 70A.65.280, the climate transit programs account created in RCW 46.68.500, or the climate active transportation account created in RCW 46.68.490, must:

(ii) The plan must include methods for outreach and communication with those who face barriers, language or otherwise, to participation.

(4) During the 2021-2023 fiscal biennium, the requirements of subsection (3)(c) of this section for agencies other than covered agencies to create and adopt community engagement plans apply only to executive branch agencies and institutions of higher education, as defined in RCW 28B.10.016, receiving total appropriations of more than \$2,000,000 for the 2021-2023 fiscal biennium from the accounts listed in subsection (1) of this section.

Sec. 1903. RCW 74.46.561 and 2022 c 297 s 966 are each amended to read as follows:

(1) The legislature adopts a new system for establishing nursing home payment rates beginning July 1, 2016. Any payments to nursing homes for services provided after June 30, 2016, must be based on the new system. The new system must be designed in such a manner as to decrease administrative complexity associated with the payment methodology, reward nursing homes providing care for high acuity residents, incentivize quality care for residents of nursing homes, and establish minimum staffing standards for direct care.

(2) The new system must be based primarily on industry-wide costs, and have three main components: Direct care, indirect care, and capital.

(3)(a) The direct care component must include the direct care and therapy care components of the previous system, along with food, laundry, and dietary services. ~~((Direct))~~ Except as provided in (b) of this subsection, direct care must be paid at a fixed rate, based on one hundred percent or greater of statewide case mix neutral median costs, but ((for fiscal year 2023)) shall be capped so that a nursing home provider's direct care rate does not exceed ((165))118 percent of its base year's direct care allowable costs except if the provider is below the minimum staffing standard established in RCW 74.42.360(2). The legislature intends to remove the cap on direct care rates by June 30, 2027. Direct care must be performance-adjusted for acuity every six months, using case mix principles. Direct care must be regionally adjusted using countywide wage index information available through the United States department of labor's bureau of labor statistics. There is no minimum occupancy for direct care. The direct care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(b) Unless a nursing home provider is below the minimum staffing standard established in RCW 74.42.360(2), a provider's direct care rate relative to its base year's direct care allowable costs must be capped as follows: For fiscal year 2023, the cap must not exceed 165 percent.

(4)(a) The indirect care component must include the elements of administrative expenses, maintenance costs, and housekeeping services from the previous system. ~~((A))~~ Except as provided in (b) of this subsection, a minimum occupancy assumption of ninety percent must be applied to indirect care((, except during fiscal year 2023 when the minimum occupancy assumption must be 75 percent)). Indirect care must be paid at a fixed rate, based on ninety percent or greater of statewide median costs. The indirect care component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(b) A minimum occupancy assumption must be applied to indirect care as follows: For fiscal year 2023, the assumption must be 75 percent.

(5) The capital component must use a fair market rental system to set a price per bed. The capital component must be adjusted for the age of the facility, and must use a minimum occupancy assumption of ninety percent.

(a) Beginning July 1, 2016, the fair rental rate allocation for each facility must be determined by multiplying the allowable nursing home square footage in (c) of this subsection

by the RSMMeans rental rate in (d) of this subsection and by the number of licensed beds yielding the gross unadjusted building value. An equipment allowance of ten percent must be added to the unadjusted building value. The sum of the unadjusted building value and equipment allowance must then be reduced by the average age of the facility as determined by (e) of this subsection using a depreciation rate of one and one-half percent. The depreciated building and equipment plus land valued at ten percent of the gross unadjusted building value before depreciation must then be multiplied by the rental rate at seven and one-half percent to yield an allowable fair rental value for the land, building, and equipment.

(b) The fair rental value determined in (a) of this subsection must be divided by the greater of the actual total facility census from the prior full calendar year or imputed census based on the number of licensed beds at ninety percent occupancy.

(c) For the rate year beginning July 1, 2016, all facilities must be reimbursed using four hundred square feet. For the rate year beginning July 1, 2017, allowable nursing facility square footage must be determined using the total nursing facility square footage as reported on the medicaid cost reports submitted to the department in compliance with this chapter. The maximum allowable square feet per bed may not exceed four hundred fifty.

(d) Each facility must be paid at eighty-three percent or greater of the median nursing facility RSMMeans construction index value per square foot. The department may use updated RSMMeans construction index information when more recent square footage data becomes available. The statewide value per square foot must be indexed based on facility zip code by multiplying the statewide value per square foot times the appropriate zip code based index. For the purpose of implementing this section, the value per square foot effective July 1, 2016, must be set so that the weighted average fair rental value rate is not less than ten dollars and eighty cents per patient day. The capital component rate allocations calculated in accordance with this section must be adjusted to the extent necessary to comply with RCW 74.46.421.

(e) The average age is the actual facility age reduced for significant renovations. Significant renovations are defined as those renovations that exceed two thousand dollars per bed in a calendar year as reported on the annual cost report submitted in accordance with this chapter. For the rate beginning July 1, 2016, the department shall use renovation data back to 1994 as submitted on facility cost reports. Beginning July 1, 2016, facility ages must be reduced in future years if the value of the renovation completed in any year exceeds two thousand dollars times the number of licensed beds. The cost of the renovation must be divided by the accumulated depreciation per bed in the year of the renovation to determine the equivalent number of new replacement beds. The new age for the facility is a weighted average with the replacement bed equivalents reflecting an age of zero and the existing licensed beds, minus the new bed equivalents, reflecting their age in the year of the renovation. At no time may the depreciated age be less than zero or greater than forty-four years.

(f) A nursing facility's capital component rate allocation must be rebased annually, effective July 1, 2016, in accordance with this section and this chapter.

(g) For the purposes of this subsection (5), "RSMMeans" means building construction costs data as published by Gordian.

(6) A quality incentive must be offered as a rate enhancement beginning July 1, 2016.

(a) An enhancement no larger than five percent and no less than one percent of the statewide average daily rate must be paid to facilities that meet or exceed the standard established for the quality incentive. All providers must have the opportunity to earn the full quality incentive payment.

(b) The quality incentive component must be determined by calculating an overall facility quality score composed of four to six quality measures. For fiscal year 2017 there shall be four quality measures, and for fiscal year 2018 there shall be six quality measures. Initially, the quality incentive component must be based on minimum data set quality measures for the percentage of long-stay residents who self-report moderate to severe pain, the percentage of high-risk long-stay residents with pressure ulcers, the percentage of long-stay residents experiencing one or more falls with major injury, and the percentage of long-stay residents with a urinary tract infection. Quality measures must be reviewed on an annual basis by a stakeholder work group established by the department. Upon review, quality measures may be added or changed. The department may risk adjust individual quality measures as it deems appropriate.

(c) The facility quality score must be point based, using at a minimum the facility's most recent available three-quarter average centers for medicare and medicaid services quality data. Point thresholds for each quality measure must be established using the corresponding statistical values for the quality measure point determinants of eighty quality measure points, sixty quality measure points, forty quality measure points, and twenty quality measure points, identified in the most recent available five-star quality rating system technical user's guide published by the centers for medicare and medicaid services.

(d) Facilities meeting or exceeding the highest performance threshold (top level) for a quality measure receive twenty-five points. Facilities meeting the second highest performance threshold receive twenty points. Facilities meeting the third level of performance threshold receive fifteen points. Facilities in the bottom performance threshold level receive no points. Points from all quality measures must then be summed into a single aggregate quality score for each facility.

(e) Facilities receiving an aggregate quality score of eighty percent of the overall available total score or higher must be placed in the highest tier (tier V), facilities receiving an aggregate score of between seventy and seventy-nine percent of the overall available total score must be placed in the second highest tier (tier IV), facilities

receiving an aggregate score of between sixty and sixty-nine percent of the overall available total score must be placed in the third highest tier (tier III), facilities receiving an aggregate score of between fifty and fifty-nine percent of the overall available total score must be placed in the fourth highest tier (tier II), and facilities receiving less than fifty percent of the overall available total score must be placed in the lowest tier (tier I).

(f) The tier system must be used to determine the amount of each facility's per patient day quality incentive component. The per patient day quality incentive component for tier IV is seventy-five percent of the per patient day quality incentive component for tier V, the per patient day quality incentive component for tier III is fifty percent of the per patient day quality incentive component for tier V, and the per patient day quality incentive component for tier II is twenty-five percent of the per patient day quality incentive component for tier V. Facilities in tier I receive no quality incentive component.

(g) Tier system payments must be set in a manner that ensures that the entire biennial appropriation for the quality incentive program is allocated.

(h) Facilities with insufficient three-quarter average centers for medicare and medicaid services quality data must be assigned to the tier corresponding to their five-star quality rating. Facilities with a five-star quality rating must be assigned to the highest tier (tier V) and facilities with a one-star quality rating must be assigned to the lowest tier (tier I). The use of a facility's five-star quality rating shall only occur in the case of insufficient centers for medicare and medicaid services minimum data set information.

(i) The quality incentive rates must be adjusted semiannually on July 1 and January 1 of each year using, at a minimum, the most recent available three-quarter average centers for medicare and medicaid services quality data.

(j) Beginning July 1, 2017, the percentage of short-stay residents who newly received an antipsychotic medication must be added as a quality measure. The department must determine the quality incentive thresholds for this quality measure in a manner consistent with those outlined in (b) through (h) of this subsection using the centers for medicare and medicaid services quality data.

(k) Beginning July 1, 2017, the percentage of direct care staff turnover must be added as a quality measure using the centers for medicare and medicaid services' payroll-based journal and nursing home facility payroll data. Turnover is defined as an employee departure. The department must determine the quality incentive thresholds for this quality measure using data from the centers for medicare and medicaid services' payroll-based journal, unless such data is not available, in which case the department shall use direct care staffing turnover data from the most recent medicaid cost report.

(7) Reimbursement of the safety net assessment imposed by chapter 74.48 RCW and paid in relation to medicaid residents must be continued.

(8)(a) The direct care and indirect care components must be rebased in even-numbered years, beginning with rates paid on July 1, 2016. Rates paid on July 1, 2016, must be based on the 2014 calendar year cost report. On a percentage basis, after rebasing, the department must confirm that the statewide average daily rate has increased at least as much as the average rate of inflation, as determined by the skilled nursing facility market basket index published by the centers for medicare and medicaid services, or a comparable index. If after rebasing, the percentage increase to the statewide average daily rate is less than the average rate of inflation for the same time period, the department is authorized to increase rates by the difference between the percentage increase after rebasing and the average rate of inflation.

(b) It is the intention of the legislature that direct and indirect care rates paid in fiscal year 2022 will be rebased using the calendar year 2019 cost reports. For fiscal year 2021, in addition to the rates generated by (a) of this subsection, an additional adjustment is provided as established in this subsection (8)(b). Beginning May 1, 2020, and through June 30, 2021, the calendar year costs must be adjusted for inflation by a twenty-four month consumer price index, based on the most recently available monthly index for all urban consumers, as published by the bureau of labor statistics. It is also the intent of the legislature that, starting in fiscal year 2022, a facility-specific rate add-on equal to the inflation adjustment that facilities received solely in fiscal year 2021, must be added to the rate.

(c) To determine the necessity of regular inflationary adjustments to the nursing facility rates, by December 1, 2020, the department shall provide the appropriate policy and fiscal committees of the legislature with a report that provides a review of rates paid in 2017, 2018, and 2019 in comparison to costs incurred by nursing facilities.

(9) The direct care component provided in subsection (3) of this section is subject to the reconciliation and settlement process provided in RCW 74.46.022(6). Beginning July 1, 2016, pursuant to rules established by the department, funds that are received through the reconciliation and settlement process provided in RCW 74.46.022(6) must be used for technical assistance, specialized training, or an increase to the quality enhancement established in subsection (6) of this section. The legislature intends to review the utility of maintaining the reconciliation and settlement process under a price-based payment methodology, and may discontinue the reconciliation and settlement process after the 2017-2019 fiscal biennium.

(10) Compared to the rate in effect June 30, 2016, including all cost components and rate add-ons, no facility may receive a rate reduction of more than one percent on July 1, 2016, more than two percent on July 1, 2017, or more than five percent on July 1, 2018. To ensure that the appropriation for nursing homes remains cost neutral, the department is authorized to cap the rate increase for facilities in fiscal years 2017, 2018, and 2019.

Part III - Providing Opportunities for Pretrial Diversion Pursuant to RCW 71.24.115, 36.28A.450, and 71.24.589 and Vacating Convictions

NEW SECTION. **Sec. 9.** A new section is added to chapter 69.50 RCW to read as follows:

(1) Nothing in this section prevents the defendant, with the consent of the prosecuting attorney as required by RCW 2.30.030, from seeking to resolve charges under RCW 69.50.4011(1) (b) or (c), 69.50.4013, 69.50.4014, or 69.41.030(2) (b) or (c) through available therapeutic courts or other alternatives to prosecution including, but not limited to, a stipulated order of continuance or deferred prosecution. Nothing in this section prevents the defendant or the prosecuting attorney from seeking or agreeing to, or the court from ordering, any other resolution of charges or terms of supervision that suit the circumstances of the defendant's situation and advance stabilization, recovery, crime reduction, and justice.

(2) In any jurisdiction with a recovery navigator program established under RCW 71.24.115, an arrest and jail alternative program established under RCW 36.28A.450, or a law enforcement assisted diversion program established under RCW 71.24.589, any defendant charged with a violation of RCW 69.50.4011(1) (b) or (c), 69.50.4013, 69.50.4014, or 69.41.030(2) (b) or (c) may make a motion to participate in pretrial diversion and agree to waive his or her right to a speedy trial if the motion is granted, subject to the following:

(a) In any case where the defendant is only charged with a violation of RCW 69.50.4011(1) (b) or (c), 69.50.4013, 69.50.4014, or 69.41.030(2) (b) or (c), and the defendant has not been convicted of any offenses committed after the effective date of this section, the court shall grant the motion, continue the hearing, and refer the defendant to a recovery navigator program established under RCW 71.24.115, an arrest and jail alternative program established under RCW 36.28A.450, or a law enforcement assisted diversion program established under RCW 71.24.589.

(b) In any case where the defendant does not meet the criteria described in (a) of this subsection, the court may grant the motion, continue the hearing, and refer the defendant to a recovery navigator program established under RCW 71.24.115, an arrest and jail alternative program established under RCW 36.28A.450, or a law enforcement assisted diversion program established under RCW 71.24.589.

(c) The prosecuting attorney is strongly encouraged to agree to pretrial diversion options in any case where the defendant is only charged with a violation of RCW 69.50.4011(1) (b) or (c), 69.50.4013, 69.50.4014, or 69.41.030(2) (b) or (c).

(3) Prior to granting the defendant's motion to participate in pretrial diversion under this section, the court shall provide the defendant and the defendant's counsel with the following information:

(a) A full description of the procedures for pretrial diversion;

(b) A general explanation of the roles and authority of the probation department, the prosecuting attorney, the recovery navigator program under RCW 71.24.115, arrest and jail alternative program under RCW 36.28A.450, or law enforcement assisted diversion program under RCW 71.24.589, and the court in the process;

(c) A clear statement that the court may grant pretrial diversion with respect to any offense under RCW 69.50.4011(1) (b) or (c), 69.50.4013, 69.50.4014, or 69.41.030(2) (b) or (c) that is charged, provided that the defendant pleads not guilty to the charge or charges and waives his or her right to a speedy trial, and that upon the defendant's successful completion of pretrial diversion, as specified in subsection (1) of this section, and motion of the defendant, prosecuting attorney, court, or probation department, the court must dismiss the charge or charges against the defendant;

(d) A clear statement that if the defendant has not made substantial progress with treatment or services provided that are appropriate to the defendant's circumstances or, if applicable, community service, the prosecuting attorney may make a motion to terminate pretrial diversion and schedule further proceedings as otherwise provided in this section;

(e) An explanation of criminal record retention and disposition resulting from participation in pretrial diversion and the defendant's rights relative to answering questions about his or her arrest and pretrial diversion following successful completion; and

(f) A clear statement that under federal law it is unlawful for any person who is an unlawful user of or addicted to any controlled substance to ship or transport in interstate or foreign commerce, or possess in or affecting commerce, any firearm or ammunition, or to receive any firearm or ammunition which has been shipped or transported in interstate or foreign commerce.

(4) If the court grants the defendant's motion to participate in pretrial diversion under this section, the recovery navigator program established under RCW 71.24.115, the arrest and jail alternative program established under RCW 36.28A.450, or the law enforcement assisted diversion program established under RCW 71.24.589, shall provide the court written confirmation of completion of the assessment and a statement indicating the defendant's enrollment or referral to any specific service or program. The confirmation and statement of the recovery navigator program established under RCW 71.24.115, the arrest and jail alternative program established under RCW 36.28A.450, or the law enforcement assisted diversion program established under RCW 71.24.589 shall be filed under seal with the court, and a copy shall be given to the prosecuting attorney, defendant, and defendant's counsel. The confirmation and statement are confidential and exempt from disclosure under chapter 42.56 RCW. The court shall endeavor to avoid public discussion of the circumstances, history, or

diagnoses that could stigmatize the defendant.

(5) Subject to the availability of funds appropriated for this specific purpose, the assessment and recommended treatment or services must be provided at no cost for defendants who have been found to be indigent by the court.

(6) If the assessment conducted by the recovery navigator program established under RCW 71.24.115, the arrest and jail alternative program established under RCW 36.28A.450, or the law enforcement assisted diversion program established under RCW 71.24.589 includes a referral to any treatment or services, the recovery navigator program established under RCW 71.24.115, the arrest and jail alternative program established under RCW 36.28A.450, the law enforcement assisted diversion program established under RCW 71.24.589, or service provider shall provide the court with regular written status updates on the defendant's progress on a schedule acceptable to the court. The updates must be provided at least monthly and be filed under seal with the court, with copies given to the prosecuting attorney, defendant, and defendant's counsel. The updates and their copies are confidential and exempt from disclosure under chapter 42.56 RCW. The court shall endeavor to avoid public discussion of the circumstances, history, or diagnoses that could stigmatize the defendant.

(7) If the assessment conducted by the recovery navigator program established under RCW 71.24.115, the arrest and jail alternative program established under RCW 36.28A.450, or the law enforcement assisted diversion program established under RCW 71.24.589 does not recommend any treatment or services, the defendant must instead complete an amount of community service as determined by the court, but not to exceed 120 hours of community service, in order to complete pretrial diversion.

(8) Admissions made by the individual in the course of receiving services from the recovery navigator program established under RCW 71.24.115, the arrest and jail alternative program established under RCW 36.28A.450, or the law enforcement assisted diversion program established under RCW 71.24.589 may not be used against the individual in the prosecution's case in chief.

(9) A defendant's participation in pretrial diversion under this section does not constitute a conviction, a stipulation to facts, or an admission of guilt for any purpose.

(10) If it appears to the prosecuting attorney that the defendant is not substantially complying with the recommended treatment or services as reflected by a written status update, the prosecuting attorney may make a motion for termination from pretrial diversion.

(a) After notice to the defendant, the court must hold a hearing to determine whether pretrial diversion shall be terminated.

(b) Before the hearing, the defendant and the defendant's counsel shall be advised of the nature of the alleged noncompliance and

provided discovery of evidence supporting the allegation, including names and contact information of witnesses.

(c) At the hearing, the court must consider the following factors:

(i) The nature of the alleged noncompliance; and

(ii) Any other mitigating circumstances, including, but not limited to, the defendant's efforts and due diligence, the availability of services in the geographic area, and the treatment and services offered to the defendant.

(d) If the court finds the defendant is not substantially complying with the recommended treatment or services and thereafter terminates pretrial diversion, it shall state the grounds for its decision succinctly in the record and provide the prosecuting attorney, the defendant, and the defendant's counsel with a written order.

(11) If the defendant successfully completes pretrial diversion, including in one of the following ways, the charge or charges under RCW 69.50.4011(1) (b) or (c), 69.50.4013, 69.50.4014, or 69.41.030(2) (b) or (c) must be dismissed:

(a) If the assessment prepared by the recovery navigator program, arrest and jail alternative program, or law enforcement assisted diversion program included a recommendation for treatment or services, the defendant successfully completes pretrial diversion either by having 12 months of substantial compliance with the assessment and recommended treatment or services and progress toward recovery goals as reflected by the written status updates or by successfully completing the recommended treatment or services, whichever occurs first; or

(b) If the assessment prepared by the recovery navigator program, arrest and jail alternative program, or law enforcement assisted diversion program did not include a recommendation for treatment or services, the defendant successfully completes pretrial diversion by completing the community service described in subsection (7) of this section and submitting proof of completion to the court.

(12) Beginning January 1, 2025, the recovery navigator programs established under RCW 71.24.115, arrest and jail alternative programs established under RCW 36.28A.450, and law enforcement assisted diversion programs established under RCW 71.24.589 shall input data and information in the data integration platform under section 22 of this act for each case where the defendant participates in pretrial diversion under this section, including but not limited to the following:

(a) Whether the pretrial diversion was terminated or was successfully completed and resulted in a dismissal;

(b) The race, ethnicity, gender, gender expression or identity, disability status, and age of the defendant; and

(c) Any other appropriate data and information as determined by the health care authority.

NEW SECTION. Sec. 10. A new section is added to chapter 69.50 RCW to read as follows:

When sentencing an individual for a violation of RCW 69.50.4011(1) (b) or (c), 69.50.4013, 69.50.4014, or 69.41.030(2) (b) or (c), the court is encouraged to utilize any other resolution of the charges or terms of supervision that suit the circumstances of the defendant's situation and advance stabilization, recovery, crime reduction, and justice.

Sec. 11. RCW 9.96.060 and 2022 c 16 s 7 are each amended to read as follows:

(1) When vacating a conviction under this section, the court effectuates the vacation by: (a) (i) Permitting the applicant to withdraw the applicant's plea of guilty and to enter a plea of not guilty; or (ii) if the applicant has been convicted after a plea of not guilty, the court setting aside the verdict of guilty; and (b) the court dismissing the information, indictment, complaint, or citation against the applicant and vacating the judgment and sentence.

(2) Every person convicted of a misdemeanor or gross misdemeanor offense may apply to the sentencing court for a vacation of the applicant's record of conviction for the offense. If the court finds the applicant meets the requirements of this subsection, the court may in its discretion vacate the record of conviction. Except as provided in subsections (3), (4), ~~((and))~~ (5), and (6) of this section, an applicant may not have the record of conviction for a misdemeanor or gross misdemeanor offense vacated if any one of the following is present:

(a) The applicant has not completed all of the terms of the sentence for the offense;

(b) There are any criminal charges against the applicant pending in any court of this state or another state, or in any federal or tribal court, at the time of application;

(c) The offense was a violent offense as defined in RCW 9.94A.030 or an attempt to commit a violent offense;

(d) The offense was a violation of RCW 46.61.502 (driving while under the influence), 46.61.504 (actual physical control while under the influence), 9.91.020 (operating a railroad, etc. while intoxicated), or the offense is considered a "prior offense" under RCW 46.61.5055 and the applicant has had a subsequent alcohol or drug violation within ten years of the date of arrest for the prior offense or less than ten years has elapsed since the date of the arrest for the prior offense;

(e) The offense was any misdemeanor or gross misdemeanor violation, including attempt, of chapter 9.68 RCW (obscenity and pornography), chapter 9.68A RCW (sexual exploitation of children), or chapter 9A.44 RCW (sex offenses), except for failure to register as a sex offender under RCW 9A.44.132;

(f) The applicant was convicted of a misdemeanor or gross misdemeanor offense as defined in RCW 10.99.020, or the court determines after a review of the court file

that the offense was committed by one family or household member against another or by one intimate partner against another, or the court, after considering the damage to person or property that resulted in the conviction, any prior convictions for crimes defined in RCW 10.99.020, or for comparable offenses in another state or in federal court, and the totality of the records under review by the court regarding the conviction being considered for vacation, determines that the offense involved domestic violence, and any one of the following factors exist:

(i) The applicant has not provided written notification of the vacation petition to the prosecuting attorney's office that prosecuted the offense for which vacation is sought, or has not provided that notification to the court;

(ii) The applicant has two or more domestic violence convictions stemming from different incidents. For purposes of this subsection, however, if the current application is for more than one conviction that arose out of a single incident, none of those convictions counts as a previous conviction;

(iii) The applicant has signed an affidavit under penalty of perjury affirming that the applicant has not previously had a conviction for a domestic violence offense, and a criminal history check reveals that the applicant has had such a conviction; or

(iv) Less than five years have elapsed since the person completed the terms of the original conditions of the sentence, including any financial obligations and successful completion of any treatment ordered as a condition of sentencing;

(g) For any offense other than those described in (f) of this subsection, less than three years have passed since the person completed the terms of the sentence, including any financial obligations;

(h) The offender has been convicted of a new crime in this state, another state, or federal or tribal court in the three years prior to the vacation application; or

(i) The applicant is currently restrained by a domestic violence protection order, a no-contact order, an antiharassment order, or a civil restraining order which restrains one party from contacting the other party or was previously restrained by such an order and was found to have committed one or more violations of the order in the five years prior to the vacation application.

(3) If the applicant is a victim of sex trafficking, prostitution, or commercial sexual abuse of a minor; sexual assault; or domestic violence as defined in RCW 9.94A.030, or the prosecutor applies on behalf of the state, the sentencing court may vacate the record of conviction if the application satisfies the requirements of RCW 9.96.080. When preparing or filing the petition, the prosecutor is not deemed to be providing legal advice or legal assistance on behalf of the victim, but is fulfilling an administrative function on behalf of the state in order to further their responsibility to seek to reform and improve the administration of criminal justice. A record of conviction vacated using the process in RCW 9.96.080 is subject to

subsections ~~((6) and)~~ (7) and (8) of this section.

(4) Every person convicted prior to January 1, 1975, of violating any statute or rule regarding the regulation of fishing activities, including, but not limited to, RCW 75.08.260, 75.12.060, 75.12.070, 75.12.160, 77.16.020, 77.16.030, 77.16.040, 77.16.060, and 77.16.240 who claimed to be exercising a treaty Indian fishing right, may apply to the sentencing court for vacation of the applicant's record of the misdemeanor, gross misdemeanor, or felony conviction for the offense. If the person is deceased, a member of the person's family or an official representative of the tribe of which the person was a member may apply to the court on behalf of the deceased person. Notwithstanding the requirements of RCW 9.94A.640, the court shall vacate the record of conviction if:

(a) The applicant is a member of a tribe that may exercise treaty Indian fishing rights at the location where the offense occurred; and

(b) The state has been enjoined from taking enforcement action of the statute or rule to the extent that it interferes with a treaty Indian fishing right as determined under *United States v. Washington*, 384 F. Supp. 312 (W.D. Wash. 1974), or *Sohappy v. Smith*, 302 F. Supp. 899 (D. Oregon 1969), and any posttrial orders of those courts, or any other state supreme court or federal court decision.

(5) Every person convicted of a misdemeanor cannabis offense, who was ~~((twenty-one))~~ 21 years of age or older at the time of the offense, may apply to the sentencing court for a vacation of the applicant's record of conviction for the offense. A misdemeanor cannabis offense includes, but is not limited to: Any offense under RCW 69.50.4014, from July 1, 2004, onward, and its predecessor statutes, including RCW 69.50.401(e), from March 21, 1979, to July 1, 2004, and RCW 69.50.401(d), from May 21, 1971, to March 21, 1979, and any offense under an equivalent municipal ordinance. If an applicant qualifies under this subsection, the court shall vacate the record of conviction.

(6) If a person convicted of violating RCW 69.50.4011(1) (b) or (c), 69.50.4013, 69.50.4014, or 69.41.030(2) (b) or (c) completes a substance use disorder program and files proof of completion with the court, or obtains an assessment from a recovery navigator program established under RCW 71.24.115, an arrest and jail alternative program established under RCW 36.28A.450, or a law enforcement assisted diversion program established under RCW 71.24.589, and has six months of substantial compliance with recommended treatment or services and progress toward recovery goals as reflected by a written status update, upon verification the court must vacate the conviction or convictions.

(7) A person who is a family member of a homicide victim may apply to the sentencing court on the behalf of the victim for vacation of the victim's record of conviction for prostitution under RCW 9A.88.030. If an applicant qualifies under

this subsection, the court shall vacate the victim's record of conviction.

~~((7))~~(8) (a) Except as provided in (c) of this subsection, once the court vacates a record of conviction under this section, the person shall be released from all penalties and disabilities resulting from the offense and the fact that the person has been convicted of the offense shall not be included in the person's criminal history for purposes of determining a sentence in any subsequent conviction. For all purposes, including responding to questions on employment or housing applications, a person whose conviction has been vacated under this section may state that he or she has never been convicted of that crime. However, nothing in this section affects the requirements for restoring a right to possess a firearm under RCW 9.41.040. Except as provided in (b) of this subsection, nothing in this section affects or prevents the use of an offender's prior conviction in a later criminal prosecution.

(b) When a court vacates a record of domestic violence as defined in RCW 10.99.020 under this section, the state may not use the vacated conviction in a later criminal prosecution unless the conviction was for: (i) Violating the provisions of a restraining order, no-contact order, or protection order restraining or enjoining the person or restraining the person from going on to the grounds of or entering a residence, workplace, school, or day care, or prohibiting the person from knowingly coming within, or knowingly remaining within, a specified distance of a location, a protected party's person, or a protected party's vehicle (RCW 10.99.040, 10.99.050, 26.09.300, 26.26B.050, 26.44.063, 26.44.150, or 26.52.070, or any of the former RCW 26.50.060, 26.50.070, 26.50.130, and 74.34.145); (ii) stalking (RCW 9A.46.110); or (iii) a domestic violence protection order or vulnerable adult protection order entered under chapter 7.105 RCW. A vacated conviction under this section is not considered a conviction of such an offense for the purposes of 27 C.F.R. 478.11.

The uniform program standards must incorporate the law enforcement assisted diversion framework for diversion at multiple points of engagement with the criminal legal system, including prearrest, prebooking, prefiling, and for ongoing case conferencing with law enforcement, prosecutors, community stakeholders, and program case managers. The authority must adopt the uniform program standards from the components of the law enforcement assisted diversion program to accommodate an expanded population of persons with substance use disorders, including persons with co-occurring substance use disorders and mental health conditions, ((and allow)) provide for referrals from a broad range of sources, and require prioritization of those who are or likely will be exposed to the criminal legal system related to their behavioral health challenges. In addition to accepting referrals from law enforcement and courts of limited jurisdiction, the uniform program standards must provide guidance for accepting referrals on behalf of persons with substance use disorders, including persons with co-occurring substance use disorders and mental health conditions, from various sources including, but not limited to, self-referral, family members of the individual, emergency department personnel, persons engaged with serving homeless persons, including those living unsheltered or in encampments, fire department personnel, emergency medical service personnel, community-based organizations, members of the business community, harm reduction program personnel, faith-based organization staff, and other sources within the criminal legal system, ((as outlined)) so that individuals are engaged as early as possible within the sequential intercept model. In developing response time requirements within the statewide program standards, the authority shall require, subject to the availability of amounts appropriated for this specific purpose, that responses to referrals from law enforcement occur immediately for in-custody referrals and shall strive for rapid response times to other appropriate settings such as emergency departments and courts of limited jurisdiction.

~~((3))~~ (4) Subject to the availability of amounts appropriated for this specific purpose, the authority shall provide funding

to each behavioral health administrative services organization for the ((development of its)) continuation of and, as required by this section, the revisions to and reorganization of the recovery navigator ((program)) programs they fund. Before receiving funding for implementation and ongoing administration, each behavioral health administrative services organization must submit a program plan that demonstrates the ability to fully comply with statewide program standards. The authority shall establish a schedule for the regular review of recovery navigator programs funded by behavioral health administrative services ((organizations' programs)) organizations. The authority shall arrange for technical assistance to be provided by the LEAD national support bureau to all behavioral health administrative services organizations, the authority, contracted providers, and independent stakeholders and partners, such as prosecuting attorneys and law enforcement.

~~((4))~~ (5) Each behavioral health administrative services organization must have a substance use disorder regional administrator for its recovery navigator program. The regional administrator shall be responsible for assuring compliance with program standards, including staffing standards. Each recovery navigator program must maintain a sufficient number of appropriately trained personnel for providing intake and referral services, conducting comprehensive biopsychosocial assessments, providing intensive case management services, and making warm handoffs to treatment and recovery support services along the continuum of care. Program staff must include people with lived experience with substance use disorder to the extent possible. The substance use disorder regional administrator must assure that staff who are conducting intake and referral services and field assessments are paid a livable and competitive wage and have appropriate initial training and receive continuing education.

~~((5))~~ (6) Each recovery navigator program must submit quarterly reports to the authority with information identified by the authority and the substance use recovery services advisory committee. The reports must be provided to the substance use recovery services advisory committee for discussion at meetings following the submission of the reports.

(7) No civil liability may be imposed by any court on the state or its officers or employees, an appointed or elected official, public employee, public agency as defined in RCW 4.24.470, combination of units of government and its employees as provided in RCW 36.28A.010, nonprofit community-based organization, tribal government entity, tribal organization, or urban Indian organization, based on the administration of a recovery navigator program except upon proof of bad faith or gross negligence.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** A new section is added to chapter 28A.300 RCW to read as follows:

(1) The intent of the legislature is to continue and rename transitional kindergarten as the transition to kindergarten program and that the program be established in statute with the goal of assisting eligible children in need of

additional preparation to be successful kindergarten students in the following school year. The transition to kindergarten program is not part of the state's statutory program of basic education under RCW 28A.150.200.

(2)(a) The office of the superintendent of public instruction shall administer the transition to kindergarten program and shall adopt rules under chapter 34.05 RCW for the administration of, the allocation of state funding for, and minimum standards and requirements for the transition to kindergarten program. Initial rules, which include expectations for school districts, charter schools as allowed by subsection (7) of this section, and state-tribal education compact schools transitioning existing programs to the new requirements established in this section must be adopted in time for the 2023-24 school year, and permanent rules must be adopted by the beginning of the 2024-25 school year.

(b) School districts, charter schools as allowed by subsection (7) of this section, and state-tribal education compact schools operating a transition to kindergarten program shall adopt policies regarding eligibility, recruitment, and enrollment for this program that, at a minimum, meet the requirements of subsection (3) of this section.

(3) The rules adopted under subsection (2) of this section must include, at a minimum, the following requirements for school districts, charter schools as allowed by subsection (7) of this section, and state-tribal education compact schools operating a transition to kindergarten program:

(a)(i) A limitation on program enrollment to eligible children. Eligible children include only those who:

(A) Have been determined to benefit from additional preparation for kindergarten; and

(B) Are at least four years old by August 31st of the school year they enroll in the transition to kindergarten program.

(ii) A requirement, as practicable, for school districts, charter schools as allowed by subsection (7) of this section, and state-tribal education compact schools to prioritize families with the lowest incomes and children most in need for additional preparation to be successful in kindergarten when enrolling eligible children in a transition to kindergarten program;

(iii) Access to the transition to kindergarten program does not constitute an individual entitlement for any particular child.

(b) Except for children who have been excused from participation by their parents or legal guardians, a requirement that the Washington kindergarten inventory of developing skills as established by RCW 28A.655.080 be administered to all eligible children enrolled in a transition to kindergarten program at the beginning of the child's enrollment in the program and at least one more time during the school year.

(c) A requirement that all eligible children enrolled in a transition to kindergarten program be assigned a statewide student identifier and that the transition to kindergarten program be considered a

separate class or course for the purposes of data reporting requirements in RCW 28A.320.175.

(d) A requirement that a local child care and early learning needs assessment is conducted before beginning or expanding a transition to kindergarten program that considers the existing availability and affordability of early learning providers, such as the early childhood education and assistance programs, head start programs, and licensed child care centers and family home providers in the region. Data available through the regionalized data dashboard maintained by the department of children, youth, and families or any other appropriate sources may be used to inform the needs assessment required by this subsection.

(e)(i) A requirement that school districts, charter schools as allowed by subsection (7) of this section, and state-tribal education compact schools adhere to guidelines, as developed by the office of the superintendent of public instruction, related to:

(A) Best practices for site readiness of facilities that are used for the program;

(B) Developmentally appropriate curricula designed to assist in maintaining high quality programs; and

(C) Professional development opportunities.

(ii) The office of the superintendent of public instruction must develop a process for conducting site visits of any school district, charter school as allowed by subsection (7) of this section, or state-tribal education compact school operating a transition to kindergarten program and provide feedback on elements listed in this subsection (3)(e).

(f) A prohibition on charging tuition or other fees to state-funded eligible children for enrollment in a transition to kindergarten program.

(g) A prohibition on establishing a policy of excluding an eligible child due only to the presence of a disability.

(4)(a) The office of the superintendent of public instruction, in collaboration with the department of children, youth, and families, shall develop statewide coordinated eligibility, recruitment, enrollment, and selection best practices and provide technical assistance to those implementing a transition to kindergarten program to support connections with local early learning providers.

(b) School districts, charter schools as allowed by subsection (7) of this section, and state-tribal education compact schools must consider the best practices developed under this subsection (4) when adopting the policies required under subsection (2)(b) of this section.

(5) Nothing in this section prohibits school districts, charter schools as allowed by subsection (7) of this section, and state-tribal education compact schools from blending or colocating a transition to kindergarten program with other early learning programs.

(6)(a) Funding for the transition to kindergarten program must be based on the following:

(i) The distribution formula established under RCW 28A.150.260 (4)(a), (5), (6), (8), and (10)(a) and (b), calculated using the actual number of annual average full-time equivalent eligible children enrolled in the program. A transition to kindergarten child must be counted as a kindergarten student for purposes of the funding calculations referenced in this subsection, but must be reported separately.

(ii) The distribution formula developed in RCW 28A.160.150 through 28A.160.192, calculated using reported ridership for eligible children enrolled in the program.

(b) Funding provided for the transition to kindergarten program is not part of the state's statutory program of basic education under RCW 28A.150.200 and must be expended only for the support of operating a transition to kindergarten program.

(7) Charter schools authorized under RCW 28A.710.080(2) are immediately permitted to operate a transition to kindergarten program under this section. Beginning with the 2025-26 school year, any charter school authorized under RCW 28A.710.080 (1) or (2) is permitted to operate a transition to kindergarten program under this section.

Sec. 2. RCW 28A.225.160 and 2009 c 380 s 3 are each amended to read as follows:

(1) Except as provided in subsection ~~((2))~~(3) of this section and otherwise provided by law, it is the general policy of the state that the common schools shall be open to the admission of all persons who are five years of age and less than ~~(twenty-one)~~21 years residing in that school district. Except as otherwise provided by law or rules adopted by the superintendent of public instruction, districts may establish uniform entry qualifications, including but not limited to birthdate requirements, for admission to kindergarten and first grade programs of the common schools. Such rules may provide for individualized exceptions based upon the ability, or the need, or both, of an individual student. Nothing in this section authorizes school districts, public schools, or the superintendent of public instruction to create state-funded programs based on entry qualification exceptions except as otherwise expressly provided by law.

(2) For the purpose of complying with any rule adopted by the superintendent of public instruction that authorizes a preadmission screening process as a prerequisite to granting individualized exceptions to the uniform entry qualifications, a school district may collect fees to cover expenses incurred in the administration of any preadmission screening process: PROVIDED, That in so establishing such fee or fees, the district shall adopt rules for waiving and reducing such fees in the cases of those persons whose families, by reason of their low income, would have difficulty in paying the entire amount of such fees.

~~((2))~~(3) A student who meets the definition of a child of a military family in transition under Article II of RCW 28A.705.010 shall be permitted to continue enrollment at the grade level in the common schools commensurate with the grade level of

the student when attending school in the sending state as defined in Article II of RCW 28A.705.010, regardless of age or birthdate requirements.

NEW SECTION. Sec. 3.

(1) The department of children, youth, and families must make administrative changes to better align early childhood education and assistance program implementation with state-funded early learning programs serving three through five-year old children offered by school districts, charter schools authorized under RCW 28A.710.080(2), and state-tribal education compact schools. The department must submit a report, in compliance with RCW 43.01.036, of the administrative changes to the appropriate committees of the legislature by July 1, 2024.

(2) This section expires August 30, 2025.

Sec. 4. RCW 43.88C.010 and 2022 c 219 s 2 are each amended to read as follows:

(1) The caseload forecast council is hereby created. The council shall consist of two individuals appointed by the governor and four individuals, one of whom is appointed by the chairperson of each of the two largest political caucuses in the senate and house of representatives. The chair of the council shall be selected from among the four caucus appointees. The council may select such other officers as the members deem necessary.

(2) The council shall employ a caseload forecast supervisor to supervise the preparation of all caseload forecasts. As used in this chapter, "supervisor" means the caseload forecast supervisor.

(3) Approval by an affirmative vote of at least five members of the council is required for any decisions regarding employment of the supervisor. Employment of the supervisor shall terminate after each term of three years. At the end of the first year of each three-year term the council shall consider extension of the supervisor's term by one year. The council may fix the compensation of the supervisor. The supervisor shall employ staff sufficient to accomplish the purposes of this section.

(4) The caseload forecast council shall oversee the preparation of and approve, by an affirmative vote of at least four members, the official state caseload forecasts prepared under RCW 43.88C.020. If the council is unable to approve a forecast before a date required in RCW 43.88C.020, the supervisor shall submit the forecast without approval and the forecast shall have the same effect as if approved by the council.

(5) A councilmember who does not cast an affirmative vote for approval of the official caseload forecast may request, and the supervisor shall provide, an alternative forecast based on assumptions specified by the member.

(6) Members of the caseload forecast council shall serve without additional compensation but shall be reimbursed for travel expenses in accordance with RCW 44.04.120 while attending sessions of the council or on official business authorized

by the council. Nonlegislative members of the council shall be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(7) "Caseload," as used in this chapter, means:

(a) The number of persons expected to meet entitlement requirements and require the services of public assistance programs, state correctional institutions, state correctional noninstitutional supervision, state institutions for juvenile offenders, the common school system, long-term care, medical assistance, foster care, and adoption support;

(b) The number of students who are eligible for the Washington college bound scholarship program and are expected to attend an institution of higher education as defined in RCW 28B.92.030;

(c) The number of students who are eligible for the Washington college grant program under RCW 28B.92.200 and 28B.92.205 and are expected to attend an institution of higher education as defined in RCW 28B.92.030; and

(d) The number of children who are eligible, as defined in RCW 43.216.505, to participate in, and the number of children actually served by, the early childhood education and assistance program.

(8) The caseload forecast council shall forecast the temporary assistance for needy families and the working connections child care programs as a courtesy.

(9) By January 1, 2023, the caseload forecast council shall present the number of individuals who are assessed as eligible for and have requested a service through the individual and family services waiver and the basic plus waiver administered by the developmental disabilities administration as a courtesy. The caseload forecast council shall be presented with the service request list as defined in RCW 71A.10.020 to aid in development of this information.

(10) Beginning with the official forecast submitted in November 2022 and subject to the availability of amounts appropriated for this specific purpose, the caseload forecast council shall forecast the number of individuals who are assessed as eligible for and have requested supported living services, a service through the core waiver, an individual and family services waiver, and the basic plus waiver administered by the developmental disabilities administration as a courtesy. The caseload forecast council shall be presented with the service request list as defined in RCW 71A.10.020 to aid in development of this information.

(11) As a courtesy, beginning with the official forecast submitted in November 2022, the caseload forecast council shall forecast the number of individuals who are expected to reside in state-operated living alternatives administered by the developmental disabilities administration.

(12) The caseload forecast council shall forecast youth participating in the extended foster care program pursuant to RCW 74.13.031 separately from other children who are residing in foster care and who are under eighteen years of age.

(13) The caseload forecast council shall forecast the number of youth expected to receive behavioral rehabilitation services while involved in the foster care system and the number of screened in reports of child abuse or neglect.

(14) The caseload forecast council shall forecast eligible children participating in the transition to kindergarten program under section 1 of this act.

SIXTY EIGHTH LEGISLATURE - 1ST SPECIAL SESSION

FIRST DAY

House Chamber, Olympia, Tuesday, May 16, 2023

The House was called to order at 10:00 a.m. by the Speaker.

There being no objection, the House advanced to the third order of business.

MESSAGE

PROCLAMATION BY THE

GOVERNOR 23-02

WHEREAS, in accordance with Article II, Section 12 (Amendment 68) of the Washington State Constitution, the Legislature adjourned its 2023 regular session on April 23, 2023, the 105th day of the session; and

WHEREAS, work remains to be done with respect to approving a "Blake fix" before July 1, 2023, to ensure that knowing and unlawful drug possession is not decriminalized, establish a pretrial diversion program, and provide additional treatment facilities and services for people with substance use disorders; and

WHEREAS, if lawmakers fail to approve a statewide "Blake fix" before July 1, 2023, local jurisdictions may fill the void by passing

their own drug possession regulations, resulting in an unwieldy patchwork of drug possession regulations that will vary from one local jurisdiction to the next; and

WHEREAS, funding for diversion and treatment is attached to the "Blake fix" bill, and failure to timely pass the bill will reduce the much needed financial support to establish and enhance these programs.

NOW, THEREFORE, I, Jay Inslee, Governor of the state of Washington, by virtue of the authority vested in me by Article II, Section 12 (Amendment 68) and Article III, Section 7 of the Washington State Constitution, do hereby convene the Washington State Legislature in Special Session in the Capitol at Olympia on Tuesday, May 16, 2023, at 10:00 a.m. for the purpose of enacting legislation as described above.

Signed and sealed with the official seal of the state of Washington this 4th day of May, A.D. Two thousand Twenty-three at Olympia, Washington.

STATE OF WASHINGTON
— OFFICE OF GOVERNOR JAY INSLEE —

April 21, 2023

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 2, House Bill No. 1259 entitled:

"AN ACT Relating to updating the executive team of the office of the secretary of state by adding signing authority to the chief of staff position."

This bill authorizes the Secretary of State's chief of staff to have signing authority and the power to act on behalf of the Office of the Secretary of State, expanding the number of specified senior staff who have this authority from two to three. Section 2 is an emergency clause, making this bill effective immediately. However, in light of the existing staff who have signing authority for the Office, this bill is not necessary for the immediate preservation of the public peace, health, or safety, or support of state government.

For these reasons I have vetoed Section 2 of House Bill No. 1259.

With the exception of Section 2, House Bill No. 1259 is approved.

Respectfully submitted,

Jay Inslee
Governor

STATE OF WASHINGTON
— OFFICE OF GOVERNOR JAY INSLEE —

April 21, 2023

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 3, House Bill No. 1730 entitled:

"AN ACT Relating to allowing youth ages 18 and older to work in establishments traditionally classified as off-limits to persons under the age of 21 in certain specific and limited circumstances."

This bill would make permanent certain temporary emergency provisions adopted in response to the COVID pandemic, but those emergency provisions lapsed in September of 2022. Section 3 is an emergency clause, which would make this bill effective immediately. This legislation is not necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions.

For these reasons I have vetoed Section 3 of House Bill No. 1730.

With the exception of Section 3, House Bill No. 1730 is approved.

Respectfully submitted,

Jay Inslee
Governor

STATE OF WASHINGTON
— OFFICE OF GOVERNOR JAY INSLEE —

April 23, 2023

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute House Bill No. 1590 entitled:

"AN ACT Relating to the membership and subcommittees of the oversight board for children, youth, and families."

HB 1590 revises the membership of the Department of Children, Youth, and Families Oversight Board. The bill adds a new seat to the Board and requires the Governor to nominate an individual with subject-matter expertise in educating youth in juvenile institutions or educating youth in foster care. The bill also expands eligibility for three existing Board seats.

However, a separate bill passed by the Legislature this year makes the Office of the Superintendent of Public Instruction (OSPI) responsible for the delivery and oversight of basic education services to justice-involved students who are served through certain institutional education programs. Starting this year, OSPI is required to submit annual reports on its progress in developing the timeline and plan for assuming these responsibilities. Rather than adding a single subject-matter expert to the Board, it will be more productive for the Board to engage periodically with the range of experts at OSPI who will be developing the required plan and timeline.

While I am vetoing this bill, I am encouraging the Board to engage with both OSPI and the Partnership Council on Juvenile Justice around institutional education and related issues.

For these reasons I have vetoed Substitute House Bill No. 1590 in its entirety.

Respectfully submitted,

Jay Inslee
Governor

May 10, 2023

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 3 and 9, Engrossed Substitute House Bill No. 1173 entitled:

"AN ACT Relating to reducing light pollution associated with certain energy infrastructure."

This bill generally provides clear requirements for installation of FAA-approved light-mitigation systems on both existing and new wind energy facilities. However, Section 3 adds a confusing layer of direction for local governments by stating that they may adopt ordinances that may include specifications for light-mitigating systems. The provision is confusing because it states such ordinances may contain criteria including "conditions under which light mitigation is required", but the underlying bill makes clear that all wind energy facilities require light mitigation. Additionally, such ordinances could dictate which particular light mitigation system a facility-operator must use and could create a patchwork of different requirements that vary by jurisdiction. The bill delivers clearer and more consistent light-mitigation benefits for communities without Section 3.

Section 9 is an emergency clause. However, the requirements of this bill are not "necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions".

For these reasons I have vetoed Sections 3 and 9 of Engrossed Substitute House Bill No. 1173.

With the exception of Sections 3 and 9, Engrossed Substitute House Bill No. 1173 is approved.

Respectfully submitted,

Jay Inslee
Governor

May 10, 2023

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 5, Engrossed House Bill No. 1337 entitled:

"AN ACT Relating to expanding housing options by easing barriers to the construction and use of accessory dwelling units."

Section 5 of the bill gives local governments authority to waive or defer fees, defer payment of taxes, or waive other regulations for the development of accessory dwelling units (ADUs) if specified conditions are met. The specified conditions are that the ADU must be located within an urban growth area, and the ADU must be subject to a locally adopted covenant program ensuring that the ADU will be primarily utilized for long-term housing. Current law allows local governments to waive fees, taxes, and to establish various incentives for the construction of ADUs without requiring the creation of a local covenant program. The administrative costs necessary to administer a new covenant program for ADUs may cause some cities to discontinue current incentive programs.

For these reasons I have vetoed Section 5 of Engrossed House Bill No. 1337.

With the exception of Section 5, Engrossed House Bill No. 1337 is approved.

Respectfully submitted,

Jay Inslee
Governor

May 10, 2023

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 3, Substitute House Bill No. 1500 entitled:

"AN ACT Relating to increasing the cap on gross sales for cottage food operations."

This bill revitalizes the cottage food program and ensures that the annual gross sales cap is maintained with inflationary adjustments. Cottage food products are important for Washingtonians, and I applaud the merits of these updates.

Section 3 requires that sufficient full-time equivalent staff are maintained to ensure timely processing of permits and to provide improved service levels. One additional full-time staff position was funded in the final budget for this purpose, which satisfies the current state of "sufficient" support. However, requiring the maintenance of sufficient staff regardless of funding puts the Department of Agriculture at risk of needing to reduce higher priorities if appropriations are reduced in future biennia.

For these reasons I have vetoed Section 3 of Substitute House Bill No. 1500.

With the exception of Section 3, Substitute House Bill No. 1500 is approved.

Respectfully submitted,

Jay Inslee
Governor

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 2, Engrossed Substitute House Bill No. 1436 entitled:

"AN ACT Relating to special education funding."

Section 2 requires the Joint Legislative Audit and Review Committee and the State Auditor to conduct a performance audit of the state's special education system. Subsection 5 of Section 2 provides that these entities shall be considered authorized representatives of relevant state education authorities, including the Superintendent of Public Instruction and the Department of Children, Youth, and Families, for the purpose of accessing student records for this evaluation. This provision conflicts with policies that favor the protection of student records and individual student privacy, without a corresponding need for that confidential, personal information.

For these reasons I have vetoed Section 2 of Engrossed Substitute House Bill No. 1436.

With the exception of Section 2, Engrossed Substitute House Bill No. 1436 is approved.

Respectfully submitted,

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 3, Second Substitute House Bill No. 1580 entitled:

"AN ACT Relating to creating a system to support children in crisis."

Section 3 is an emergency clause. The funding for this bill is not available until fiscal year 2024. Therefore, there is not a strong justification for an emergency clause.

For these reasons I have vetoed Section 3 of Second Substitute House Bill No. 1580.

With the exception of Section 3, Second Substitute House Bill No. 1580 is approved.

Respectfully submitted,

Jay Inslee

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Section 1 , Engrossed House Bill No. 1846 entitled:

"AN ACT Relating to addressing vessel procurement at the Washington state ferries."

Section 1 is an intent section that expresses the environmental and labor values of our state. The bill includes a 13 percent in-state credit which is designed to reflect the environmental and labor values of our state in the procurement process. As a result, Section 1 is not necessary.

For these reasons I have vetoed Section 1 of Engrossed House Bill No. 1846.

With the exception of Section 1 , Engrossed House Bill No. 1846 is approved.

Respectfully submitted,

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 1002, 1006, 1008, 1018, 2021, 2024, 2027, 2040, 2041, 2070, 2071, 2095, 2102, 3003, 3012, and 3020, House Bill No. 1066 entitled:

"AN ACT Relating to making technical corrections and removing obsolete language from the Revised Code of Washington pursuant to RCW 1.08.025."

Sections 1002, 1006, 1008, 1018, 2021, 2024, 2027, 2040, 2041, 2070, 2071, 2095, 2102, 3003, 3012, and 3020 of this bill amend statutes that were also amended in other bills enacted by the Legislature this session. Therefore, I am vetoing those sections to avoid any confusion that may arise from these double amendments.

For these reasons I have vetoed Sections 1002, 1006, 1008, 1018, 2021, 2024, 2027, 2040, 2041, 2070, 2071, 2095, 2102, 3003, 3012, and 3020 of House Bill No. 1066.

With the exception of Sections 1002, 1006, 1008, 1018, 2021, 2024, 2027, 2040, 2041, 2070, 2071, 2095, 2102, 3003, 3012, and 3020, House Bill No. 1066 is approved.

May 16, 2023

To the Honorable Speaker and Members,
 The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 204(3), 207(5), 208(10), 211(1), 215(3), 217(6), 218(5), 219(2), 221(18), 223(3), 224(4), 208(29), 208(31), 213(5), 214(7), 215(4), 217(10), 219(11), 219(12), 224(3), 701(1), 804, 1102(1), 1102(14), 208(17), 208(18), 208(19), and 208(33), Engrossed Substitute House Bill No. 1125 entitled:

"AN ACT Relating to transportation funding and appropriations."

Section 204(3), pages 15-16, Joint Transportation Committee, Oversight of Ferry Procurement

This section directs the Joint Transportation Committee to hire a consultant to provide oversight of ferry documents and procedures relating to the procurement of hybrid-electric ferry vessels. This extra step to require the Joint Transportation Committee to hire a consultant will create inefficiencies in the ferry procurement process. Also, because there is a third-party consultant required in Engrossed House Bill 1846, this work could be duplicative. For these reasons, I have vetoed Section 204(3). However, I am directing Washington State Ferries to regularly engage with legislators as it works to implement a new ferry vessel procurement process.

Section 223(3), page 85, Department of Transportation, Rail

Section 224(4), page 87, Department of Transportation, Local Programs

These sections identify the Legislature's intent to monitor and adjust appropriations in the future. The proviso language suggests that agencies should hire staff beyond their appropriation authority. The law prohibits agencies from spending more than their authorized appropriation levels. For this reason, I have vetoed Sections 207(5), 208(10), 211(1), 215(3), 217(6), 218(5), 219(2), 221(18), 223(3), and 224(4).

Section 208(29), page 40, Department of Licensing, Per-Mile Fee Program Study

This section directs the Department of Licensing to study, in consultation with the Washington State Transportation Commission, the feasibility of implementing and administering a per-mile fee program. This work pre-supposes a per-mile fee program will be adopted despite the need to consider broader options for alternative funding sources for transportation. For this reason, I have vetoed Section 208(29).

Section 208(31), page 41, Department of Licensing, Vehicle Odometer Readings

This section provides appropriations to implement Engrossed Substitute House Bill 1736 (vehicle odometer readings). Previously, I vetoed ESHB 1736; therefore, the funding to implement this bill is no longer necessary. For this reason, I have vetoed Section 208(31).

Section 213(5), pages 47-48, Department of Transportation, Aviation Impacts

This section directs the Department of Transportation to evaluate and report on the operational and technological enhancements addressing the environmental impacts from commercial aviation activities. The appropriation is insufficient to conduct a thorough evaluation. For this reason, I have vetoed Section 213(5).

Section 214(7), pages 49-50, Department of Transportation, State Route 532 Surplus Parcel

This section requires the Department of Transportation to certify that the property located south of State Route 532 and west of Interstate 5 in the vicinity of the intersection of SR 532 and 19th Avenue NW is no longer needed for the state highway system, and to convey the roadway and access rights to the county. The conveyance of access rights to the state highway would improperly delegate to the county the important responsibility of ensuring the safety and operation of a state limited access facility, contrary to the department's existing statutory authority under chapter 47.52 RCW. This raises significant safety concerns of increasing access to SR 532 at this location. For this reason, I have vetoed Section 214(7).

ESHB 1125

Page 3

Section 215(4), page 51, Department of Transportation, Hydrogen Refueling Stations

The department is directed to pursue federal funding for hydrogen fueling stations for passenger and light-truck vehicles as well as medium and heavy-duty vehicles. While there is a stated intent to provide state matching funds for federal grants, the budget provides no such funding nor is funding provided for staff to pursue federal grants. In addition, green hydrogen is best suited for medium and heavy-duty vehicles, rather than passenger and light-duty vehicles. For these reasons, I have vetoed Section 215(4).

Section 217(10), pages 60-61, Department of Transportation, Weigh Station Preclearance Program

Requirements in this section contradict the existing Weigh Station Strategic Plan adopted by the Washington State Patrol and Department of Transportation and the existing weigh station preclearance system. For this reason, I have vetoed Section 217(10).

Section 219(11), pages 69-70, Department of Transportation, State Route 904 Corridor Study

This section requires the Department of Transportation to plan for improvements on State Route 904. Given the limited availability of funds for the department to perform basic operations, it is not prudent for the state to undertake new work at this time. For this reason, I have vetoed Section 219(11).

Section 219(12), page 70, Department of Transportation, U.S. Highway 12 Safety Improvement Study

This section requires the Department of Transportation to perform an analysis of the state and local transportation network around an interchange on US 12. Given the limited availability of funds for the department to perform basic operations, it is not prudent for the state to undertake new work at this time. For this reason, I have vetoed Section 219(12).

Section 224(3), page 87, Department of Transportation, Active Transportation Program

This section requires the Department of Transportation to examine and report on the feasibility of creating a new program for active transportation. Although I support the department evaluating its program structures, I have vetoed Section 224(3) because it only focuses on one program. However, I am directing the department to develop options and recommendations to address the restructuring or creation of programs, particularly related to active transportation.

This work is important but should be comprehensive and funded.

Section 701(1), page 139, Washington State Patrol, Aerial Criminal Investigation Tools

This section places the purchase of replacement "aerial criminal investigation tools" for the Washington State Patrol under the oversight of the Office of the Chief Information Officer (OCIO). The term "aerial criminal investigation tools" is broad and could apply to both unmanned aerial vehicles, as well as other items such as Cessna airplanes that are funded in the budget. In addition, management of unmanned aerial vehicles or airplanes under the OCIO's information technology oversight requirements is inappropriate. For these reasons, I have vetoed Section 701(1).

Section 804, page 162, lines 11-12, 14-15, 20-25, and 32-34, and Section 1102(1), page 258, Department of Licensing, Appropriation and Repeal Section

These sections reduce appropriations for the Department of Licensing in the 2021-23 biennium. The department needs these appropriations to close the fiscal year. For this reason, I have vetoed changes to the appropriations in Section 804 and Section 1102(1). However, because this will result in more appropriation authority than the department needs to close the fiscal year, I am directing the Department of Licensing to place any excess authority in unallotted status.

Section 1102(14), page 258, Department of Transportation, 2022 Project List

This section repeals the 2022 project list and associated funding in Program I - Improvements. Repealing this section from Chapter 187, Laws of 2022 removes the department's authority to spend on capital projects for which work has already started. This authority is necessary for the department to close the current biennium. For this reason, I have vetoed Section 1102(14). However, because this will result in more appropriation authority than the department needs to close the fiscal year, I am directing the Department of Transportation to place any excess authority in unallotted status.

The following sections provided funding to the Department of Licensing to implement bills which did not pass the Legislature. Because the funding has lapsed, I have vetoed Section 208(17), Section 208(18), Section 208(19), and Section 208(33).

Section 208(17), page 36, Department of Licensing, Senate Bill 5333, State Sport Special License Plate

For these reasons I have vetoed Sections 204(3), 207(5), 208(10), 211(1), 215(3), 217(6), 218(5), 219(2), 221(18), 223(3), 224(4), 208(29), 208(31), 213(5), 214(7), 215(4), 217(10), 219(11), 219(12), 224(3), 701(1), 804, 1102(1), 1102(14), 208(17), 208(18), 208(19), and 208(33) of Engrossed Substitute House Bill No. 1125.

With the exception of Sections 204(3), 207(5), 208(10), 211(1), 215(3), 217(6), 218(5), 219(2), 221(18), 223(3), 224(4), 208(29), 208(31), 213(5), 214(7), 215(4), 217(10), 219(11), 219(12), 224(3), 701(1), 804, 1102(1), 1102(14), 208(17), 208(18), 208(19), and 208(33), Engrossed Substitute House Bill No. 1125 is approved.

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Engrossed Substitute House Bill No. 1736 entitled:

"AN ACT Relating to requiring the department of licensing to collect vehicle odometer readings at the time of original vehicle registration and registration renewal."

Engrossed Substitute House Bill 1736 directs the Department of Licensing to request drivers to voluntarily provide their vehicle odometer reading upon registration or renewal. Although voluntary, requesting this information from vehicle owners presupposes a future per-mile program as an alternative transportation funding mechanism. Yet, there is a need to consider both a per-mile fee program as well as broader options for alternative funding sources for transportation. I encourage the legislature to continue considering a variety of funding sources, including but not limited to, a per-mile fee before requesting odometer readings from vehicle owners.

For these reasons I have vetoed Engrossed Substitute House Bill No. 1736 in its entirety.

Respectfully submitted,

Jay Inslee
Governor

To the Honorable Speaker and Members,
The House of Representatives of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to Sections 3, 5, 7 and 8, Engrossed Substitute House Bill No. 1791 entitled:

"AN ACT Relating to studying the need for increased commercial aviation services."

Engrossed Substitute House Bill 1791 bill creates a new State Commercial Aviation Work Group and directs them to study the need for additional airport capacity in Washington, including siting a new airport. Section 3 directs the Work Group to simultaneously consider expanding capacity at existing airports and siting a new airport. However, it is important for the state to first fully consider increasing capacity at existing airports throughout the state, excluding SeaTac, before it considers siting a new airport.

Section 5 amends the 2022 supplemental transportation budget and redirects funds that have already been spent.

Section 7 repeals three uncodified sections from the 2021 - 2023 budgets that would reinstate an expiration date for the current workgroup of July 1, 2022. Since the current workgroup has been conducting the activities authorized by law subsequent to that date, the authority to carry out those activities cannot be retroactively removed.

Section 8 is an emergency clause. The current Commercial Aviation Coordinating Commission will expire June 30, 2023. The existing Commission is required to report a single site to the legislature by June 15 and that report should reflect the findings of the Commission that they do not have a single site recommendation at this time. Therefore, an emergency clause is not needed.

For these reasons I have vetoed Sections 3, 5, 7 and 8 of Engrossed Substitute House Bill No. 1791.

With the exception of Sections 3, 5, 7 and 8, Engrossed Substitute House Bill No. 1791 is approved.

Respectfully submitted,
