GEO. MURPHY, *Chairman.*

We concur in this report: Homer L. Post, Wm. Bishop, J. R. Oman.

On motion of Senator Murphy, the report of the committee was adopted. Senator Murphy reported, as Chairman of the Committee on Printing, that that committee had decided to purchase printed letterheads for the Senate instead of embossed letterheads.

On motion of Senator Murphy, the report of the committee was adopted. Senator Johnson stated, that as a preliminary inquiry, he desired to know under what rule the President referred his resolution to the Appropriations Committee.

The President stated that Senator Johnson made no objection.

Senator Groff stated that Senator Johnson was just arising to make a motion that the rules be suspended, the resolution read the third time and placed on final passage at the time the President referred the resolution to the Appropriations Committee.

Senator Johnson moved that Senate Concurrent Resolution No. 1 be recalled from the Appropriations Committee.

Senator Wray moved that Senate Concurrent Resolution No. 1 be not returned from the Appropriations Committee.

Senator Houser stated that as a preliminary inquiry he desired to know under what rule Senator Johnson's motion to recall the resolution from the Appropriations Committee was entertained.

The President stated that it was under Senate Rule 8; that a majority of the Senate could recall a bill from a standing committee.

The President stated that Senate Concurrent Resolution No. 1 was still in the hands of the Appropriations Committee.

Senator Hall rose to a point of order, stating that the introduction of Senate Concurrent Resolution No. 1 was out of order under the resolution passed yesterday requiring that all bills be on the Secretary's desk twelve hours before being introduced.

The President held the point of order to be well taken.

Senator Wray rose to a point of order stating that there was nothing before the Senate.

The President held the point of order to be well taken.

INTRODUCTION OF BILLS.

Senate Bill No. 3, by Senator Davis, entitled "An act relating to the operation of vehicles and the use of the public highways and providing for the licensing of persons operating motor vehicles, providing for the enforcement thereof; and of other highway and motor vehicle laws, and prescribing penalties for violation thereof; and making appropriations; and amending Section 9, Chapter 108, Laws of 1921."

The bill was read the first time, and on motion of Senator Davis, the rules were suspended, the bill was read the second time by title and referred to the Committee on Judiciary.

Senate Bill No. 4, by Senator Houser, entitled "An act to regulate the payment of wages or compensation for labor in private employments, establishing regular pay days, providing penalties for the violation of its provisions, authorizing the Director of Labor to enforce this act, defining the duties of prosecuting attorneys relative to its enforcement, providing for the collection of certain penalties by civil action, at the direction of said Director of Labor and for the disposition of penalties so collected."

The bill was read the first time and on motion of Senator Houser, the rules were suspended, the bill was read the second time by title and referred to the Committee on Labor and Labor Statistics.

The President stated that he desired Senator Houser to raise his point of order about the taking of bills from committee tomorrow.

Senator Sinclair moved that the Senate return to the presentation of petitions, memorials and resolutions.

The motion carried.

The Secretary read:

SENATE JOINT RESOLUTION NO. 1.

By Senator Sinclair:

Be It Resolved, By the Legislature of the State of Washington in legislative session assembled that we most earnestly request our Senators and Representatives in Congress to in every way aid Senator McNary of Oregon in securing the adoption of his resolution for an appropriation of the sum of one million and sixty-three thousand

dollars for the reconstruction of the sewer and water systems and other public improvements in the city of Astoria, Oregon, damaged in the recent fire, as recommended by the War Department.

The resolution was referred to the Committee on Federal Relations.

Senator Sinclair moved that the rules be suspended and Senate Joint Resolution No. 1 be read the second and third time and placed on final passage.

The President stated that according to the rules, Senate Joint Resolution No. 1 could not come up today.

Senator Cornwell moved a substitute motion that Senate Joint Resolution No. 1 be referred to the proper committee.

Senator Lambert moved that the rules be suspended and the resolution considered immediately.

Senator Houser rose to a point of order, stating that the present motion and the one preceding it were both out of order.

The President stated: "We are getting into an impassable morass. The first motion requires a two-thirds vote to carry the motion."

Senator Conner rose to a point of order, stating that he contended that the motion of Senator Sinclair was in order, because a motion to suspend the rules was in order at all times.

The President held the point of order to be well taken.

Senator Carlyon rose to a point of order, stating that the proceeding in the matter should be to suspend the rules to introduce the resolution, for the purpose of consideration.

The President stated that this had been done.

Senator Johnson rose to a point of order and inquired if the resolution had been referred to a committee.

The President stated that it had been so referred but the Senator had moved that the rules be suspended, the resolution taken from the committee and placed on final passage.

The President stated that the question was on the motion of Senator Sinclair.

Senator Morthland rose to a point of order, inquiring if the President had ruled on the point of order by Senator Houser.

The President stated that Senator Sinclair's motion required a two-thirds vote; that the point of order raised by Senator Houser was well taken; that then Senator Conner raised a point of order that a motion to suspend the rules is always in order and that was well taken, and that the question is now on the motion of Senator Sinclair that the rules be suspended, the resolution read the second and third time and placed on final passage, which requires a two-thirds vote.

Senator Groff rose to a point of order and stated that a motion to suspend the rules is not debatable.

The President held the point of order to be well taken.

Senator Conner rose to a point of order, and stated that it was his contention that resolutions and bills were acted on and handled in the same way and that he did not think the Senate could suspend the rule which requires a bill to be twelve hours on the Secretary's desk before being introduced, even by a two-thirds vote; that he believed it would require a withdrawal or a change in the resolution and believed it to be a bad precedent

to allow matters to be brought into the Senate, suspend the rules and shoot them through; that he thought the resolution should lay on the desk twelve hours before being introduced.

The President ruled that Senate Joint Resolution No. 1 take the same course as a bill, that a two-thirds vote of the Senate can change a rule at any time, and that the question was on the motion made by Senator Sinclair.

Senator Sinclair's motion carried.

Senate Joint Resolution No. 1 was read the third time.

The Secretary called the roll on the final passage of Senate Joint Resolution No. 1 and it passed the Senate by the following vote:

Those voting aye were: Senators Adamson, Barnes, Bishop, Carlyon, Christensen, Cleary, Conner, Cornwell, Cox, Davis, Grass, Groff, Hall, Harrison, Hastings, Houser, Hurn, Johnson, Lambert, Landon, Lunn, McCauley, McCoy, McMillen, Morris, Morthland, Murphy, Myers, Oman, Phipps, Post, Rust, Sinclair, Sutton, Swofford, Westfall, Wilmer, Wray—38.

Voting nay: Senators Karshner, Metcalf, Palmer—3.

Absent or not voting: Senator Ryan—1.

Senate Joint Resolution No. 1, having received the constitutional majority, was declared passed.

Senator Groff moved that the rules be further suspended, Senate Joint Resolution No. 1 be considered engrossed and immediately transmitted to the House.

The motion carried.

Senator Johnson moved that the rules be suspended, and Senate Concurrent Resolution No. 1 read the second and third time and placed on final passage.

The President stated that had already been voted on, and was therefore out of order.

At 11 o'clock a. m., on motion of Senator Carlyon, a recess was taken awaiting a message from the House.

At 11:40 a. m. the Senate reconvened.

The Secretary read:

The Secretary read:

Governor Louis F. Hart addressed the joint session as follows:

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASHINGTON, January 10, 1923.

Members of the Senate and the House of Representatives:

The Constitution of the State makes it the duty of the Governor to present to the Legislature by message "the condition of the affairs of the State, and recommend such measures as he shall deem expedient for their action."

Complying with the constitutional requirement I present the following facts and recommendations:

The Financial Condition of the State.

At the opening of the Seventeenth session of the Legislature, numerous funds in the State Treasury were overdrawn and the several State institutions clamored for deficiency appropriations which it was found necessary to make to the extent of nearly one and a quarter million dollars from an already depleted treasury. Among the funds overdrawn on December 31, 1920, was the General Fund, with an overdraft of \$1,016,860.79.

At the opening of this, the Eighteenth session of the Legislature, we have a totally changed condition. There are no overdrafts in any fund. No department or institution asks or needs a deficiency appropriation. The balance to the credit of the General Fund, cash and bonds, amounts to \$3,984,325.81.

Excluding from consideration the unusual revenue of \$3,001,202.00 collected from the poll tax, and taking into account only the usual revenues of the State, the General Fund shows at the end of two years an improved condition amounting to \$1,999,984.60.

The Civil Administrative Code.

Two years ago the Legislature enacted the Civil Administrative Code.

It was then believed that this form of administration would give greater efficiency and economy in the conduct of the State's affairs than the old system, which was rapidly increasing governmental costs beyond the ability of the State to pay with its ordinary revenues. We have now had twenty-one months of experience with State Government under the Civil Administrative Code. In that time a million dollar deficit in the General Fund has been changed to a million dollar balance, from ordinary revenues, with all overdrafts and deficiencies wiped out.

Two years ago I asked that the Code be passed as a consistent whole, suggesting that it might be amended more effectively after actual trial and experience.

With its practical workings clearly before you I again present to you for your consideration the Civil Administrative Code that you may consider and make such changes as in the light of experience you may deem advisable.

I recommend that the Supervisor of Highways be taken out of the Department of Public Works and that officer be appointed by the Governor, and the Division of Highways retained under the State Highway Committee; that subdivision 1 of Section 47 and all of Sections 52 and 55 of the Administrative Code be repealed; and that such other and further changes and modifications and amendments be made as to the Legislature may appear proper.

Taxation Investigation.

Acting under direction of the 1921 session of the Legislature, I appointed a special committee to investigate the vexatious question of taxation.

The men chosen were men of large practical affairs, leaders in their respective communities, as well as in their business activities, and with a public spiritedness which permitted them to make the sacrifice of time and money to give to the State for a thorough study by public hearings in the various communities of the State, and a thorough study of the experiences in other States, in order to properly and intelligently advise the Legislature as to the measures that would bring relief to our overburdened people. They have had to deal with a question that has disturbed the people since government began and one which disturbs them greatly now. The subject is

highly controversial, one in which it is difficult to get general agreement on special measures for reform. The results of the Committee's deliberations are presented to you in a formal report. I ask you to read the entire report with the utmost care. The detailed discussions of the taxation question are needed to understand the difficulties of the problem and to comprehend the Committee's reasons for arriving at their particular recommendations. The last Legislature realized fully the nature of the tax burden and looked to this Legislature to provide practical relief after deliberate thought upon the question. In no question coming before this session are the people of the entire State so deeply interested and I trust that the Legislature will evolve and enact such legislation as will distribute the burdens of government more equitably. The distinguished members of the Tax Committee who gave so freely of their time and energy, and whose discussions and counsels are now before you, are

Nathan Eckstein, Seattle;
 D. W. Twohy, Spokane;
 Alex Polson, Hoquiam;
 George M. Elliott, Tacoma;
 Frank D. Oakley, Tacoma;
 W. W. Robertson, Yakima;
 Peter McGregor, Hooper;
 S. B. L. Penrose, Walla Walla;
 Robert H. Harlin, Seattle.

Inheritance Tax.

I know no form of taxation that can bring in so large a fund with so light a burden upon the citizens as a properly adjusted inheritance tax.

The right to make testamentary disposition of property is purely a statutory right. For many years our laws have recognized two of the agencies in acquiring. Our community property law makes the spouses equal owners of property acquired during married life. But the third agency, the State, has been largely ignored.

Without the State, its laws and various agencies guaranteeing and protecting life and property, it would not be possible for a citizen or for a husband and wife working jointly to acquire and own property to the extent now common.

When a man dies he cannot take his property with him. He cannot give it away to strangers, regardless of the rights of the surviving spouse or family dependents. He should not be permitted to disregard the interests of the State which has protected him in and made possible his accumulation.

I believe that this Legislature may, with great propriety, devote some time and much careful study to the matter of modifying the present right of a citizen to make testamentary disposition of his property to strangers to the blood.

Official Fees.

I believe that when a service is performed by a public official for the personal benefit of an individual firm or corporation, that a fee should be collected somewhat commensurate with the service rendered. I therefore recommend that a careful revision of all fee lists, State and County, be made by the Legislature, to the end that some offices and departments be made self-supporting.

Gasoline Tax.

At a conference of Governors of States west of the Rocky Mountains called for the purpose of establishing uniformity of laws and regulations affecting the automobile traveling public, it was decided to recommend to the Legislature of each State a tax of two cents per gallon on gasoline, the proceeds to be used exclusively for construction and maintenance of highways. I recommend such increase in our gasoline tax.

The present gasoline tax law is working very satisfactorily and there should be no amendment to the general policy except to change the rate of tax to be collected.

Stages and Auto Busses.

I recommend that a gross earnings tax be charged auto busses and auto trucks used as public utilities.

Budget Law.

I recommend a carefully prepared budget law not only to control State expenditures, but also one that will keep a proper check on expenditures of counties, cities and other expending agencies.

Veterans' Compensation.

Immediately after the last Legislative session, the State Finance Committee sold bonds to provide the funds for the compensation of the veterans. The State Auditor immediately began the distribution of these funds, giving it his close personal attention and supervision so that uniform accuracy of transaction might be coupled with expeditious relief of the veterans.

When it was obvious that the \$11,000,000.00 voted by the people was insufficient to pay all the claims, a case was submitted to the Supreme Court and that tribunal held that the people meant what they said when they voted \$11,000,000.00 *or so much as might be required* to pay the additional compensation; whereupon the State Finance Committee issued \$1,500,000.00 additional bonds and, believing that it was not good business to sell long-time bonds when the State had idle funds, they bought these bonds for the General Fund. This transaction is submitted to the Legislature, expecting your approval, without which the Finance Committee will sell the bonds under the decision of the Supreme Court and return the cash to the General Fund.

Two other cases were brought before and decided by the Supreme Court affecting the disbursement of these funds.

In one case the Supreme Court held that under the language of the Act, the widow and children of a veteran, who died after the signing of the Armistice and before the Act went into effect, were not entitled to participate as beneficiaries of this legislation.

In the other case, it was held that only soldiers, sailors and marines who entered the service during the World War, that is, after the declaration of war, could participate.

I recommend that the Veterans' Compensation Act be so amended as to allow the payment of all of the last mentioned veterans and of the widows and orphans of those first referred to.

Protection of Forests.

During the last session of the Legislature the Olympic Peninsula was visited by the worst storm known to our State.

The Legislature appropriated \$100,000.00 and imposed upon the Governor the duty of protecting from damage by fire the timber in and adjacent to the storm zone.

Before the adjournment of the Legislature, I began perfecting an organization and preparing plans to protect the area during the year 1921, endeavoring to so plan that the first year's work would not have to be wholly repeated in 1922. Not in many years has the State experienced a drouth so long, and a fire hazzard so great, as the year 1922. Yet, I am pleased to report that since the storm of 1921, there has been no loss of timber by fire in the storm zone and that of the amount appropriated I return unexpended about \$45,000.00.

Columbia River Basin Survey.

Through the Director of Conservation and Development a full report will be made on this great project, which has been brought to the attention of the Congress of the United States.

It is confidently believed that through the continued effort of our people this project will soon be placed on the continuing program of the Federal Reclamation Bureau.

Land Settlement.

I direct your attention to the report of the Director of Conservation and Development on the problem of Land Settlement. While the matter is still in a experimental stage, want of time not making it possible to determine positively the success of our plans, I believe that sufficient results have been shown to justify a continuance of our efforts in other units.

Seed Wheat.

For several years some localities in the State have suffered from partial crop failures and conditions are such in places that farmers will find it difficult to obtain seed for next year's crop. This is a matter that I think you may well consider, possibly granting some relief, without expense to the State, by providing a revolving fund to be used under proper regulations.

Maintenance of State Highways.

The Federal Bureau of Roads requires the State Highway Department to maintain all roads upon which Federal Funds are expended, and believing that it is good policy for the State to take care of its own business, I recommend that the maintenance of the State public highway system be placed under the direction of the State Highway Committee.

Under the present law all unexpended funds for the maintenance of State highways by the County reverts to the county funds on the 31st day of December. I recommend very early consideration of the responsibility for the maintenance of the State highways and providing funds for such purpose. Our roads cannot be neglected in mid-winter.

Donohue Road Law.

Our local improvement road law, commonly known as the Donohue law, has been the means of building many miles of highway and no doubt has been very beneficial in several instances, but I believe the law is no longer necessary and as it is subject to some abuse, I recommend its repeal.

The Narcotic Evil.

Nothing is so demoralizing to character so destructive of every manly trait and womanly virtue, as the narcotic habit; and nothing has made such stupendous growth in our State in recent years.

I recommend the enactment of stringent laws limiting to the last degree the ability of the addict to obtain narcotics aiding every way possible in the arresting and successfully prosecuting those engaged in the illegal sale of opium and its derivatives and assuring to convicted "dope" peddlers swift and severe punishment.

Sheppard-Towner Law.

Congress has passed what is commonly known as the Sheppard-Towner Act, or a maternity law which carries a provision that the Governor of the State may accept its terms for the State if he is authorized so to do.

Many of the good women of our State requested me to accept the provisions of this law on behalf of the State, but the Legislature never having extended such authority to the Governor, I was compelled to decline to usurp such authority. This subject is submitted for your consideration.

U. S. Child Labor Law.

With the best child labor law of any State in the Union, it seems appropriate that the State of Washington be among the first to memorialize Congress to take all the steps necessary for the enactment of an effective child labor law that will be constitutional. I recommend that this Legislature memorialize Congress on this subject early in the session.

Normal Schools.

In 1917 the Legislature, in providing a course of study for the Institutions of higher learning, provided a three years' course for our normal schools, and also authorized an advanced four-year course, effective in 1920.

The autumn enrolment for the three normal schools as reported by the Board of Higher Curricula shows that in 1920 there were enrolled in the third year course seventeen students, and in the fourth year course three students. In 1921, there were fourteen students in the third year course and none in the fourth year course. And in 1922 there were thirty-one in the third year course and two in the fourth year course.

It would therefore appear that there is no great demand for the advanced third and fourth year college work in our normal schools.

The report of the Board of Higher Curricula shows that last year, besides those taking a general course with the expectation of receiving a teacher's diploma, there were enrolled and majoring in educational theory and practice in the University of Washington 309 students and in the Washington State College 133. All of these have the advantage of the full four years of college work. If the third and fourth year advanced courses are continued in normal schools, it means the changing of these schools into teachers' training colleges, conferring degrees, and adding all of the extra expense and cost of the advanced college work.

Until it is made to appear that the University and State College are unable to successfully and properly care for the teachers' training college work, we ought to retain our normals as normal schools for the preparation of elementary teachers.

I therefore recommend the repeal of that part of Chapter 10 of the Laws of 1917 authorizing the advanced third and fourth year courses in our normal schools.

Centralia Normal School.

In 1919 the Legislature established a normal school at Centralia and directed the Governor to elect a site, but provided no funds for the school.

In 1921 the site was approved, the tax, one-tenth of a mill, was ordered levied and an appropriation was made for the purchase of additional land for campus under an option theretofore had. The appropriation for operation was vetoed, as I was then and still am of the opinion that whatever the need for this institution, we are not justified in attempting to operate this school without buildings.

At the time of establishing this school, there was a carrying load in our three normal schools of 1,380 students, which has now increased to approximately 3,000.

If it is the desire of the Legislators that the Centralia Normal School should begin to function, a sufficient appropriation to construct the first one or two units of the plant should be made. The land for the campus is already provided, about fifteen acres being donated by the citizens of Centralia and about forty acres more purchased as directed by and reported to the Legislature, the whole constituting an appropriate and beautiful school site, lying directly east of the business center of the City of Centralia.

Old University Campus.

While it is generally believed that the lessees have a very valuable asset in the present lease of the old University campus in Seattle, and while it is true the present rental is small, I think the Regents did a splendid thing in leasing this land for a term of fifty years, thus tying it up and preventing its sale before the people learned the great value of the property. Only recently much pressure was brought to bear on the Board of Regents in an effort to bring about a modification of the present lease, and they were severely criticized for their refusal to yield to the importunings. It is exceedingly fortunate for the State that we had a Board of Regents fearless in the performance of duty. We may not at all times be equally fortunate in the personnel of the Board of Regents of the State University. That there may be no doubt of this property and its income being conserved for the coming generations, I recommend legislation that will make any act of the Regents concerning the sale, lease, extension of lease, or other disposition of this property that might in any way interfere with the full and complete use and occupancy of it by the University at the end of the lease as it now stands, a nullity until after the same has been approved, confirmed, and ratified by an enacted statute of the Legislature.

Blue Sky Law.

I recommend the enactment of a good law that will protect the innocent investor from the machinations of a corrupt and fraudulent vendor of stocks and other securities, but so safeguarded as not to retard the development of our latent resources, nor interfere with legitimate investments.

Capitol Building.

The foundation of the Administration Building of the Capitol Group is now completed and the Capitol Committee is desirous of continuing the work on this building.

All bonds against the Capitol Building Fund have been paid and as this fund is no longer necessary, I recommend that it be abolished and that the proceeds of the sale of Capitol lands and timber be placed by the Treasurer in the Capitol Building Construction Fund.

State Penitentiary.

The demand for some work or exercise for the inmates of the Penitentiary to turn their thoughts from their condition is quite essential.

Some time ago forty acres of the Penitentiary grounds was set aside for a game farm which has been supported, in so far as labor is concerned, by the Penitentiary.

Inasmuch as the game farm is supported by a fund raised independent of State taxes, I recommend that the Penitentiary be compensated for the labor thereon, at least to the extent of the cost of maintenance of the workmen.

I further recommend that additional farming land be purchased for the Penitentiary and that the game fund pay for a portion thereof to the extent of the value of the game farm when it was turned over to that department.

Industrial Work in State Institutions.

The industrial work in State institutions has been partly installed, but some inconvenience has arisen by reason of a statute which limits the charge for the product of one State institution to another State institution at actual cost. I recommend that this statute be amended so as to permit a reasonable charge for the expense of labor.

I am of the opinion that our manufactured products ought never to be sold in the open market where they would compete with the products of the manufacturers in the State.

Accident Fund.

In my message in the 1921 Session, I recommended "That the administrative expense of the Industrial Insurance Department, including Medical Aid and Safety Board, be paid from the Accident Fund." Question has arisen as to the validity of this appropriation from the Accident Fund and, in order to remove any doubt as to the right of the legislature to require this department to pay its own administrative expenses, I recommend that Section 3 of Chapter 131 of the Laws of 1919, being an amendment to Section 6604-4, Rem. & Bal. Code, be amended, and that the appropriation for the administrative expense of the Department of Labor and Industries be made from the Accident Fund.

I further recommend that the rate of awards be revised and adjusted to more nearly conform to present economic conditions.

Conclusion.

Greeted as you are with a financial condition of the treasury never before equaled in the history of the State; with an efficiency of State government never excelled, and meeting these with a sincere desire to still further improve the administration of affairs and lower to the minimum the burdens of government, I sincerely trust that your work, though arduous, may be pleasant, and result in the solution of social and economic problems that will stand out preeminently as monuments to your zeal and integrity.

The Secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASH., March 19, 1921.

To the Honorable, the Senate of the State of Washington.

GENTLEMEN: I am filing herewith to be transmitted to you at the convening of the next regular session of the Legislature of Washington, Senate Bill No. 120, entitled: "An act relating to the acquirement and designation of lands to be known as state forest lands and to be used for the development and growth of timber, and making an appropriation," which I have approved with the exception of Section 7, which is vetoed.

In Sections 2 and 3 of this act, the lands hereinmentioned are referred to and designated as, "state forest lands," and are expressly so named in Section 3.

Section 7 designates and provides for their classification as "State Granted School Lands." As State Granted School Lands are subject to sale, I think that this classification and designation would entirely defeat the object of this bill.

Believing that the designation state forest land is the proper one, Section 7 of Senate Bill 120 is vetoed and the remainder of the bill is approved.

Your respectfully,

LOUIS F. HART, *Governor.*

The Secretary read Senate Bill No. 120.

On motion of Senator Groff, the Governor's message on the vetoed sections of Senate Bill No. 120 was referred to the Rules Committee and ordered spread upon the journal, and the vetoed sections of Senate Bill No. 120 were laid on the table.

The Secretary read:

J. GRANT HINKLE, *Secretary of State.*

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASH., March 16, 1921.

To the Honorable, The Senate of the State of Washington.

GENTLEMEN: I am filing herewith to be transmitted to you at the next regular session of the legislature of Washington, Senate Bill No. 243, entitled: "An act mak-

ing an appropriation for the maintenance of and sundry expenses of the various state institutions and state offices, and for the sundry civil expenses of the state government and for miscellaneous purposes, and for the payment of interest on bonds, and making an appropriation for certain deficiencies, and declaring this act shall take effect immediately," which I have approved with the following exceptions:

1. "For Pacific International Sstock Show: For payment of premiums to Washington exhibitors, \$10,000.00."

2. "For salaries and wages and all other expenses to carry out the provisions of Substitute Senate Bill No. 3, Legislative Session 1921, \$13,500.00."

3. "For the Ellensburg Normal: To complete dormitory, \$12,000.00."

The item "for Pacific International Stock Show: For payment of premiums to Washington Exhibitors, \$10,000.00," is vetoed for the following reasons:

The appropriation for the Washington State Fair, a State institution, is \$40,000.00 for the biennium. The entire premiums paid at the State Fair last fall for cattle were about \$7,000.00.

If the State can afford only \$20,000.00 a year for its own fair and can only devote \$7,000.00 for premiums for cattle exhibited at said State Fair, I do not believe it is fair to the State, to the State Fair or to the stock growers of the State to appropriate \$10,000.00 for a stock show in Portland, Oregon.

For this reason this item is vetoed.

The item "for salaries and wages and all other expenses to carry out the provisions of Substitute Senate Bill No. 3, Legislative session 1921 \$13,500.00" is vetoed for the following reason:

Substitute Senate Bill No. 3, Legislative Session 1921, is vetoed and consequently there can be no need of this appropriation. For this reason said item is vetoed.

The item "for the Ellensburg Normal, to complete Dormitory, \$12,000.00" is vetoed for the reason that the Legislative Session of 1919 made an appropriation, in my opinion, largely in excess of the need of the State Normal School at Ellensburg for Dormitory purposes, and that with the other increased appropriations at this session for State Normal School, this \$12,000 is not necessary, and said item is for the reason vetoed.

With the exception of the items above enumerated, Senate Bill No. 243 is approved.

Very truly yours,

LOUIS F. HART, *Governor.*

The Secretary read Senate Bill No. 243.

On motion of Senator Groff, the Governor's message on the vetoed sections of Senate Bill No. 243 was referred to the Rules Committee and ordered spread upon the journal and the vetoed sections of Senate Bill 243 were laid on the table.

The Secretary read:

J. GRANT HINKLE, *Secretary of State.*

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASHINGTON, March 17, 1921.

To the Honorable, the Senate of the State of Washington:

GENTLEMEN: I am filing herewith, to be delivered to you at the convening of the next session of the Legislature, Substitute Senate Bill No. 3, entitled:

"An act providing for the regulation and supervision of the issuance and sale of certain securities, as the same are herein defined, to prevent fraud in the sale thereof, and providing penalties",
without my approval.

This bill is designated as the "Securities Act" and has been known, during the course of its passage through the houses of the legislature, as the "Blue Sky Law."

Blue Sky Laws of this character are intended to regulate the sale of stocks, bonds and other securities and the manner of advertising, soliciting, etc., for the sale of such securities, stocks and bonds. Perhaps the most widely sold stocks, bonds and securities of any class or corporation in this State, both by domestic and foreign corporations are those of mining and oil companies. There is, perhaps, no class of stocks and securities sold in this state in which there is as much opportunity for fraud as in that class of stock. Millions of dollars are taken from this state annually by "wild-cat" oil companies from other states, and if there is need for regulation in any instance, there certainly is in this particular one.

From a careful reading of this bill, it will be found that all foreign and domestic companies engaged in mining and the development of gas and oil lands are excluded from the provisions of this act applying to other classes of corporations therein named, and specific provision is contained in section 6 of the bill requiring the Secretary of State, without any investigation, or without the exercise of any discretion, to issue to any mining or oil company, foreign or domestic, applying therefor, a certificate authorizing such companies to sell their shares within the State of Washington. It would be difficult to imagine a more serious or obnoxious provision than this. The purpose of laws of this kind is, among other things, to protect the uninformed and perhaps ignorant investor, yet by this provision the doors have been opened to fraud, for should such certificates be issued under the signature and seal of an officer of the State of Washington authorizing the sale of such stock, what more natural supposition would there be in the mind of the investor than that this officer knew the company to be engaged in a legitimate business of selling stocks or bonds or other securities with some real and tangible value.

Should this law become effective and these certificates be issued, which they undoubtedly would, within thirty days every mining and oil broker, promoter or speculator operating in the State of Washington would have photographic copies of the certificate issued as to his particular company, which would be used as an argument in selling the stock, and would be worth more to such companies, no matter how unscrupulous they might be, than all the paid advertising they could secure in every daily paper in the State.

This is particularly obnoxious for the reason that provision is made in section 13 of the bill that before the Secretary of State shall issue certificates to other corporations than mining or oil companies, he must make an investigation of the proposed plan of business of the applicant and determine that they are fair, just and equitable, and that the securities which it proposes to issue and the methods to be used by it in issuing and disposing of the same are not such as will work a fraud upon the purchaser. Authority is also vested in the Secretary of State with reference to other corporations whereby he may, if he deems the proposed plan of business to be unfair, unjust and unequitable, deny the application or permit and thereby protect the public against unscrupulous promoters and speculators.

The House and Senate have said that there should be appropriated the sum of \$13,500.00 to carry out the provisions of this act, and believing as I do, that the results of the act would be as above indicated, I could not approve this bill and feel that I had not been a party to foisting upon an innocent public such a measure, and in addition thereto, contributing thousands of dollars to assist in this nefarious work.

For the above reasons, and on account of certain ambiguities appearing in the bill, I cannot approve the same, and Substitute Bill No. 3 is returned herewith with my veto.

Yours respectfully,

LOUIS F. HART, Governor.

The Secretary read Substitute Senate Bill No. 3.

On motion of Senator Groff, the Governor's message on Substitute Senate Bill No. 3 was referred to the Rules Committee and ordered spread upon the journal and Substitute Senate Bill No. 3 was laid on the table.

The Secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASHINGTON, March 19, 1921.

To the Honorable, the Senate of the State of Washington:

GENTLEMEN: I am filing herewith, to be transmitted to you at the next regular session of the Legislature of Washington, Substitute Senate Bill No. 15, entitled:

"An act defining the term 'real estate broker' providing for the regulation, supervision and licensing of real estate brokers, providing for the enforcement of this act and penalties for its violation; establishing the office of real estate director, defining his powers and duties and providing for the maintenance of his office from fees collected and not otherwise," without my approval.

By this bill it is proposed to require persons dealing in real estate to file with the director of licenses a surety company bond and to have licenses permitting them to engage in their occupation or profession.

It occurs to me that we have about reached that point in regulating the affairs of society where it would be well to stop and consider the limits to which we may go.

While there is reason for, and there should be, restrictions upon personal liberty, we must not forget that this nation was founded upon principles of freedom and it is history that our forefathers came to this new land to escape and to free themselves from over-regulation.

When one stops to consider the number of permits, licenses, laws and ordinances which now hedge about the affairs of our domestic and commercial life, it makes one wonder if we are not regulating those affairs to such an extent that we may have to back a few pages.

I am convinced that citizens who, by taxes, support the State and government, are entitled to engage in lawful occupations without being hedged about with the unreasonable restrictions and limitations which some might place upon them.

Believing, as I do, that we should still be allowed to travel the highways and streets of our State and nation without an enameled and numbered license plate upon our collar, I return Substitute Senate Bill No. 15, without my approval.

Very respectfully,

LOUIS F. HART, *Governor.*

The Secretary read Substitute Senate Bill No. 15.

On motion of Senator Groff, the Governor's message on Substitute Senate Bill No. 15 was referred to the Rules Committee and ordered spread upon the journal and Substitute Senate Bill No. 15 was laid on the table.

The Secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASHINGTON, March 18, 1921.

To the Honorable, the Senate of the State of Washington:

GENTLEMEN: I am filing herewith, to be transmitted to you at the next regular session of the Legislature of Washington, Senate Bill No. 22, entitled:

"An act relating to interstate bridges, the collection and disbursement of tolls therefor and amending Section 22 of the Laws of 1915," without my approval.

This bill is so indefinite and uncertain as to render it wholly inoperative and is therefore vetoed.

Yours respectfully,

LOUIS F. HART, *Governor.*

The Secretary read Senate Bill No. 22.

On motion of Senator Groff, the Governor's message on Senate Bill No. 22 was referred to the Rules Committee and ordered spread upon the journal and Senate Bill No. 22 was laid on the table.

The Secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASHINGTON, March 18, 1921.

To the Honorable, the Senate of the State of Washington:

GENTLEMEN: I am filing herewith, to be transmitted to you at the next regular session of the Legislature of Washington, Senate Bill No. 66, entitled:

"An act relating to actions for personal injuries brought or maintained against Public Play Ground Associations, Municipal or Private Corporations or Individuals maintaining Public Play Grounds," without my approval.

I have no doubt the author had in mind some condition that this bill would relieve, but inasmuch as it appears to have no limitations except "contractual obligations," I feel that its possible injustice and injury would far outweigh any benefits that might accrue to the public.

The Constitution prohibits the enactment of laws "For limitation of civil or criminal action."

I have no doubt the author intended to modify the rule of the Supreme Court regarding liability of municipal and quasi-municipal corporations for personal injuries arising from negligence and carelessness of their agents in furnishing unsafe and dangerous apparatus for athletic and amusement purposes; but even if they ought to be relieved of this liability, and this I do not admit, still there are other rights of which the citizen should not be deprived.

Senate Bill No. 66 therefore is vetoed.

Yours respectfully,
LOUIS F. HART, *Governor.*

The Secretary read Senate Bill No. 66.

On motion of Senator Groff, the Governor's message on Senate Bill No. 66 was referred to the Rules Committee and ordered spread upon the journal and Senate Bill No. 66 was laid on the table.

The Secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASHINGTON, March 19, 1921.

To the Honorable, the Senate of the State of Washington:

GENTLEMEN: I am filing herewith, to be transmitted to you at the next regular session of the Legislature of Washington, Senate Bill No. 75, entitled:

"An act making an appropriation for the relief of Union High School District No. 1 of Kitsap County," without my approval.

There is no doubt regarding the burden the people of Bremerton are carrying in providing schools and school facilities for the children residing there. Whether the Navy Yard is an asset or a liability, I have no doubt there are numerous localities in the State that would be willing to accent the plant with all the things that go with it, even to the extent of furnishing school facilities as required.

In fact only three or four years ago, Pierce County paid two million dollars to locate an Army Cantonment in that County, and at the same time permanently took from their tax rolls real estate of that value. I do not cite this with intent to express any opinion as to the profitableness of the bargain but merely to show what different localities will do. It is claimed that the Federal Government has many millions of dollars worth of property in Bremerton not on the tax rolls. Grant it. The Government put all the wealth there, while in Pierce County the people deliberately took the property off the tax roll. I cannot believe this is a fair disbursement of State funds. I cannot see wherein the taxpayers of distant parts of the State can be justly taxed for this appropriation.

Besides, this is a most dangerous precedent and opens the vaults of the Treasury to every locality that makes some kind of a showing of need of assistance.

In fact, this bill scarcely had been introduced before a half dozen other more or less deserving and somewhat similarly situated communities had dozen like measures, and one of them passed one House of the Legislature and came near passing the other.

For these reasons Senate Bill No. 75 is vetoed.

Very respectfully,
LOUIS F. HART, *Governor.*

The Secretary read Senate Bill No. 75.

On motion of Senator Groff, the Governor's message on Senate Bill No. 75 was referred to the Rules Committee and ordered spread upon the journal and Senate Bill No. 75 was laid on the table.

The Secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASHINGTON, March 19, 1921.

To the Honorable, the Senate of the State of Washington:

GENTLEMEN: I am filing herewith, to be transmitted to you at the next regular session of the Legislature of Washington, Senate Bill No. 80, entitled:

"An act making farm loan bonds a lawful investment and a lawful deposit for certain purposes," without my approval.

There are two reasons that might be given for making any class of bonds eligible for investment of public funds.

First. On account of a shortage of this class of securities to supply such demand.

Second. To stabilize and raise the price of such securities.

Surely the first condition does not exist at this time, nor will it for some time to come.

I cannot see any reason for rushing in to make Federal Farm Loan Bonds eligible for investment of our school funds, at a time when we cannot take care of our bonds and when the Federal Farm Loan Bank is not functioning and the validity of its bonds has not been established by the courts.

We had better continue to invest our trust funds in unquestioned and unquestionable securities.

Senate Bill No. 80 therefore is vetoed.

Yours respectfully,
LOUIS F. HART, *Governor.*

The Secretary read Senate Bill No. 80.

On motion of Senator Groff, the Governor's message on Senate Bill No. 80 was referred to the Rules Committee and ordered spread upon the journal, and Senate Bill No. 80 was laid on the table.

The Secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASHINGTON, March 16, 1921.

To the Honorable, the Senate of the State of Washington.

GENTLEMEN: I am filing herewith, to be delivered to you when the Legislature again convenes, Senate Bill No. 111, entitled:

"An act providing for the registering of pharmacists and assistant pharmacists and repealing sections 8446, 8447, 8448 and 8449 of Remington and Ballinger's Annotated Codes and Statutes of Washington," without my approval.

Section 4 of this act fixes the standard for educational qualifications upon an outside or foreign association.

I cannot give my official sanction to hold up above or in any manner require a higher standard of pharmaceutical education than that of the College of Pharmacy in our State University or the School of Pharmacy in our Washington State College.

If we do not admit that our own educational institutions rank with any in the country, then we ought not to maintain such institutions.

Section 8 of this bill provides for associate counsel and advisors to the Director of Licenses as provided in the Civil Administrative Code.

This act, like several others that were introduced, appears to me to be an effort on the part of members of former examining boards to amend the Administrative Code, or change its workings, before we have had an opportunity to try it out. I believe that at the convening of the Legislature in 1923, after two years experience with the Civil Administrative Code, the Legislature will be more thoroughly advised and better fitted to enact legislation along these lines.

For the foregoing reasons Senate Bill No. 111 is vetoed.

Yours respectfully,
LOUIS F. HART, *Governor.*

The Secretary read Senate Bill No. 111.

On motion of Senator Groff, the Governor's message on Senate Bill No. 111 was referred to the Rules Committee and ordered spread upon the journal and Senate Bill No. 111 was laid on the table.

The Secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASHINGTON, March 21, 1921.

To the Honorable, the Senate of the State of Washington.

GENTLEMEN: I am filing herewith, to be transmitted to you at the next regular session of the Legislature of Washington, Senate Bill No. 172, entitled:

"An act relating to the certification of the bonds of irrigation, diking, drainage, or diking and drainage districts, providing conditions under which such bonds shall be legal investment for certain funds enumerated therein and under which said bonds shall be available for use as security for the deposit of certain public moneys and for the performance of certain acts and prescribing the duties of certain officers in relation thereto and creating a commission," without my approval.

I am in receipt of the following advice from the Attorney General:

"Inasmuch as this bill is not subject to any legal objections, it would not ordinarily be the province of this office to suggest any objections of policy thereto. The bill, however, is so far reaching in its effect that this seems to be a proper case for the making of an exception to this rule.

In the final analysis the bill is intended to facilitate the sale of irrigation, diking and drainage district securities by the execution of a certificate of legality under the seal of the state. You will observe from section 5 that the commission in whom is vested the enforcement of the provisions of the bill consists of the director of agriculture, the supervisor of hydraulics and the supervisor of banks. It is very possible that in practice this bill will result in somewhat the same way as did the operations of the state reclamation board during the past biennium. The officers named in section 5 have large and important duties to perform under existing statutes which are ample to take their entire time and attention. This is particularly true of the supervisor of banks. The practical result will probably be that the members of the commission will either be forced to rely almost entirely upon the reports of subordinate engineers, agents, etc., or else will be compelled to neglect their other duties to investigate these various projects. The recent banking crisis through which the state has just passed is a sufficient commentary upon the necessity of the supervisor of banking giving his entire attention to banking matters.

It is also a matter of some doubt as to whether districts will receive a benefit from the act commensurate with the cost. Section 3 of the act requires five separate certificates to be filed. These certificates embrace a large number of matters which can only be ascertained after the expenditure of a considerable amount of money. That expenditure could only be justified upon the ground that the certificate would enable the district to sell its bonds or securities upon terms which would take care of this expense as compared with the terms which it might obtain without this act. It is, of course, not the particular province of the state to assist bond houses in selling securities now in their possession which they have doubtless bought at a liberal discount. The act includes both outstanding bonds and those proposed to be hereafter issued.

Attention is also directed to section 7, which makes these bonds a legal investment for banks and insurance companies, and also allows them to be deposited by public depositories. In so far as banks are concerned, this might prove to be a matter of considerable importance in eastern portions of the state where the officers of country banks are very often involved in reclamation projects. This is a matter, however, concerning which I am not in a position to give you any information."

For the reasons therein set out, Senate Bill No. 172 is vetoed.

Very truly yours,

LOUIS F. HART, Governor.

The Secretary read Senate Bill No. 172.

On motion of Senator Groff, the Governor's message on Senate Bill No. 172 was referred to the Rules Committee and ordered spread upon the journal and Senate Bill No. 172 was laid on the table.

The Secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASH., March 15, 1921.

To the Honorable, the Senate of the State of Washington, Capitol Building.

GENTLEMEN: I am filing herewith to be delivered to you at the incoming of the next Session of the legislature, Senate Bill No. 189, entitled: "An act relating to the keeping and deposit of public moneys, and amending Sections 5066, 5071-3, 5073 and 5079 of Remington & Ballinger's Annotated Codes and Statutes of Washington," without my approval.

To relieve the banks of the expense of premium on surety bonds, the legislation now in effect provides that depositaries may deposit in lieu of surety bonds certain securities with the treasurer to secure the amount of the deposits. This imposes upon the treasurer of city, county or state the burden of clipping the coupons and collecting and remitting the interest on these securities, as well as relieving the depositary of the expense of a surety bond. The present act, in addition to this, attempts to make the city, county and state, as the case may be, responsible not only for the safe keeping of these securities while in the hands of the city, county or state treasurer, but also makes the city, county or state responsible for such securities in transmission.

I am of the opinion that this is a burden and an obligation imposed on the cities, counties and state not demanded by the general public and not necessary for the proper transaction of the state's business.

Believing that this is an unwarranted burden, Senate Bill No. 189 is vetoed.

Very truly yours,

LOUIS F. HART, *Governor.*

The Secretary read Senate Bill No. 189.

On motion of Senator Groff, the Governor's message on Senate Bill No. 189 was referred to the Rules Committee and ordered spread upon the journal and Senate Bill No. 189 was laid on the table.

Senator Wray stated that there seemed to be a difference of opinion as to what would happen if the Governor's veto is sustained on Senate Bill No. 243 with reference to the introduction of a similar bill in the Senate, and if the position is taken that the subject-matter of the bill has been acted upon in sustaining the veto, it would bar the introduction of another bill on the same subject-matter.

Senator Carlyon stated that if the Senate indefinitely postponed the bill, the question might arise, but under the motion made and carried to lay the bill on the table, it can be brought up at any time for action by the Senate.

The President stated that Senator Carlyon's position is correct and the President will hold that any of the bills vetoed by the Governor can be introduced again at this session.

At 11:32 o'clock a. m., on motion of Senator Palmer, the Senate adjourned untly 9 o'clock tomorrow morning.

SENATE JOINT MEMORIAL NO. 4.

By Senator Phipps:

To the Honorable Senate and House of Representatives of the United States in Congress Assembled:

Your memorialists, the Governor and Legislature of the State of Washington, respectfully represent that:

WHEREAS, The production of silver is an important industry of the United States, and affords employment directly to many thousands of persons and indirectly to thousands of other, and

WHEREAS, On account of its association with other metals, especially lead and zinc, in ores, an inadequate price for silver increases the cost of production of lead and zinc, and thereby adds to the cost of materials essential to many construction activities, and

WHEREAS, It is also desirable to maintain silver mining operations in the United States, so as to meet the coinage requirements of various countries in which commerce and industry are in process of rehabilitation and cannot be fully re-established without additional supplies of metallic money, and

WHEREAS, The prospective early completion of silver repurchases under the provisions of the Pittman Act is liable to disrupt the silver mining industry of the United States and in part suspend silver production unless measures be taken to preserve the industry;

Now Therefore, The Governor and Legislature of the State of Washington respectfully petition the Congress of the United States to give sympathetic and early consideration to this phase of the silver mining industry and enact such legislation as may be necessary in the premises.

And your memorialists will ever pray.

The memorial was referred to the Committee on Memorials.

To the Senate and House of Representatives:

At the seventeenth biennial session of the Legislature there was passed the following:

"SENATE JOINT RESOLUTION NO. 4."

"WHEREAS, The present state primary and secondary highways were largely designated by the 1913 session of the Legislature; and

"WHEREAS, New agriculture sections have been developed, cities and towns of varying size have been built since the present system was adopted; and

"WHEREAS, Petitions for new state roads are being presented from many sections of the state;

"Therefore, Be It Resolved by the Senate and the House of Representatives of the Legislature of the State of Washington, That the state highway board (or their successors in office) be authorized and directed to make a complete survey or study of the state as to any necessary revision of existing highways to ascertain if any eliminations, corrections or additions should be made to the present state system and report their findings to the 1923 session of the Legislature, and that until such survey and report is complete, no new highways be added to the present system."

Complying with said joint resolution, the State Highway Committee has made a complete survey and study of the state and of its existing highways and beg to submit the following recommendations:

Eliminations.

1. That the State Highway System conform to the Federal Aid System in this state.
2. That the Kettle River extension of State Road No. 4 be stricken from the State Highway System.
3. That that part of State Road No. 4 between Tonasket and the town of Loomis in Okanogan county be stricken from the State Highway System.
4. That State Roads Nos. 11 and 12, known as the Roosevelt Highway, be stricken from the State Highway System.
5. That State Highway No. 5, Naches Pass Highway, and the National Park Highway be consolidated and established and known as the "National Park Highway System."
6. That State Road No. 22 be stricken from the State Highway System.
7. That the Cascade Highway be stricken from the State Highway System.
8. That that portion of the eastern route of the Inland-Empire Highway between the towns of Rosalia and Pullman in Whitman county be stricken from the State Highway System.

Additions.

1. That the eastern route of the Inland-Empire Highway be established leading from the town of Colfax to the town of Pullman and continuing in a southerly direction as at present established.
2. That the Navy Yard Highway be extended to Gig Harbor and that the construction of said extension follow the completion of the work now under construction between Union City and Holyoke Creek, as funds are made available by the Legislature.
3. That the Pend d'Oreille Highway be extended from Newport to the British Columbia line.

Recommendations.

1. We recommend that an appropriation be made for construction work on State Road No. 22 between Detillion Bridge and Chalk Grade.
2. We recommend that an appropriation be made for grading the present eastern division of the Inland-Empire Highway from Palouse to Pullman.
3. We recommend that an appropriation be made for construction work on the Roosevelt Highway between Pateros and Twisp.
4. Owing to the insufficiency of the Pacific Highway to care for the rapidly increasing volume of traffic in the congested districts, we recommend the establishment

of a new highway between Tacoma and Seattle and between Seattle and Everett, the same to be located by the State Highway Committee along the most direct, feasible and practical route.

Respectfully submitted,

LOUIS F. HART,
C. W. CLAUSEN,
C. L. BABCOCK,

State Highway Committee.

Approved: James Allen, Supervisor of Highways.

At 11:31 a. m., on motion of Senator Palmer, the Senate took a recess until 1:55 p. m.

AFTERNOON SESSION.

The Senate was called to order at 1:55 p. m. by the President.

The President announced the Senate would at once retire to the House, where joint memorial services would be held.

JOINT SESSION.

The Sergeant-at-Arms announced the arrival of the Senate at the door of the House, and they were invited to seats within the bar of the House.

The joint session was called to order at 2 p. m., by Lieutenant-Governor Coyle, President of the Senate, who presided.

The clerk of the joint session called the roll, all members of the legislature being present except Senators Christensen, Cleary, Groff, Houser, Johnson, Lambert, Morris, Murphy, Ryan, Sinclair, and Wray, and Messrs. Bone, Dunn, McPherson, Meachem, Mess, Miller and Moulton.

Representative Hanks offered prayer.

The President announced the appointment of Senators Hurn and Phipps, and Representatives Deselle and Kastner as a committee to escort the Governor to a seat upon the rostrum.

The President announced that the joint session was called for the purpose of holding memorial services as a mark of respect to the memories of former state officials and legislators who had departed this life.

On behalf of the artist, Mrs. Irene McHugh, of Tacoma, Washington, the President presented to the State of Washington an oil painting of former President of the United States Theodore Roosevelt. Governor Louis F. Hart, on behalf of the State accepted the gift and returned thanks to the donor.

Senator Chas. E. Myers delivered the memorial address as follows:

Following the honored custom, we are assembled in joint session in this chamber for the purpose of honoring the memory of the deceased members of these bodies who within the last biennial period have been removed from the stage of life and are now sleeping with their fathers. They have passed out of our presence and some of you have been chosen by the electorate of your districts to occupy their places.

We meet here with a deep sense of our mutability and are conscious of the brevity and frailty of life. We meet to pay tribute to them, to cherish their virtues and forget their faults. They have yielded to the same inexorable law of dissolution that will overtake us, for someone has said, "Time knows not the weight of sleep or weariness, and night's sleep darkness has no chain to bind his rushing pinion." Time is the great leveler and Father Time swings his deadly bludgeon upon the rich and poor, high and low, great and small, humble and imperious. These men whom we honor today have answered the last roll call as you and I must do.

While our words of eulogy can not benefit them, their good example and good deeds may live to be a guide to us to a more splendid citizenship. By mathematics we may be able to measure volume and space and find unknown quantities, but who can measure the value of example.

Some of these men came from the lowly walks of life and hewed their way aloft through the labyrinth of ignorance and poverty and bore with honor and patience the load that true citizenship imposes. They may not have impressed their fellows in these halls nor the onlookers in the galleries with their eloquence, but with plain and unstudied diction expressed their honest convictions and at roll call invariably announced the single and only vote that they sought to absolutely control in a manner that won for them our highest admiration. That is the type of legislator that I commend to you. It has not been the one who spoke often and much that challenges the admiration of the members of these bodies, but the one who stood steadfastly for what in his judgment is honest, fair and equitable.

He may have been on the losing side but bowed to the will of the majority. The whole world loves a good loser and despises a poor one. We don't judge men by how they behave when they have won a victory, but rather gauge them by their conduct when defeated. Roosevelt said, "A man who can not stand defeat is not fit for victory." This type of legislator I am speaking about may not be acquainted with the finesse of parliamentary practice and at times is painfully confused as to the status of a motion, but a summary of the roll calls as recorded in the journals of these Houses will show that he was generally able to align himself upon the side that ought to win.

Love of justice, devotion to the public welfare, indifference to the insidious, eloquent pleadings of special interests and resistance to the appeals of sectional sentiment, is the creed of the ideal legislator.

Representative E. H. Guie delivered a eulogy on the life of former Representative Wallace Mount as follows:

It is befitting that this legislature meet today to celebrate our last formal testimonies of respect to the lives and memories of former members who have passed away during the last biennium.

Wallace Mount was a true product of the West. Born in Oregon City in 1859, he came to Washington in 1886. He was a member of the House of Representatives in 1889, the sixth legislature. Shortly before his coming to Olympia he had finished a term of service as Superior Court Judge in a district comprising a group of counties in Eastern Washington. His travels from one county seat to the other, by boat, on horseback, by stage, through desert land and sand dunes to hold court entitled him to be classed among the judicial circuit riders that our early legal history has made famous. With his wealth of experience as a judge and lawyer of extensive practice and a ready debater, he was a most valuable legislator.

That session of the legislature had scarcely convened when we were engaged in about the fiercest and most bitter three-cornered U. S. Senatorial contest that has ever occurred in the State of Washington. We were supporting different candidates. We were opposed to one another, negotiating for our principals up to the last minute of that contest, up to the time when the houses of our respective candidates began to topple up to the time when the break was made to the candidate from Pierce County. I remember with a sense of pleasure and satisfaction, while other partisans indulged in vituperative language of one to the other that Judge Mount, endowed by nature with those qualities of steadiness and firmness in action, was the embodiment of courtesy and consideration towards those with whom that contest brought him in contact.

It was his ambition, I learned, in that session, that sometime he might be on the Supreme Court Bench. But because of the fierce factional party strife then existing, there seemed little likelihood of that ambition being soon realized. The same senatorial contest for the next vacancy continued to be waged. The National Convention of the Republican party for presidential nominations in 1900 was to be held in Philadelphia. Washington would send her quota of delegates. Political prestige and position must be maintained by the senatorial contestants by controlling the State Convention at Ellensburg. The night preceding the convention was spent in eliminating and contriving and agreeing on delegates so that when day dawned the opposition of which Judge Mount was a part, was completely routed.

The naming of delegates went through according to schedule.

The delegates to the National Convention were named—salt was being rubbed into the evening's wounds; when, immediately before adjournment, Judge Mount asked for recognition and it was accorded. He arose from among his discouraged delegation with a sincerity that could not be questioned, he addressed that convention from the point of view of a defeated delegation, on the necessity of party loyalty and adherence to party principles and he assured the convention that the defeated delegates were still an integral part of the Republican party and would continue to function, yielding only to a majority vote, that they would rise up from their defeat.

He immediately captured the good will of the convention, which could not but appreciate his sterling character and sportsman-like conduct. I believe that was the first time Judge Mount was generally recognized throughout the state as a coming man. For at the next fall State Convention he was nominated without opposition for the Supreme Bench and took his seat as a Supreme Judge in January, 1901, and held this office until his death.

Judge Mount came to the Supreme Court in the prime of life, with a vigorous constitution, trained in the ways of the law, and the courts by his practice and service as a Superior Court Judge. The results of his labors are seen in the volumes of reports covering a period of over 20 years. His style was eminently judicial, terse, vigorous and clear. No one who reads his decisions ever doubts what is meant or what the court decided. By his urbanity and kindness of heart he won the affections of those with whom he came in contact. He was "rich in saving common sense, and as the greatest only are, in his simplicity sublime."

Senator F. J. Wilmer delivered the eulogy on the life of former Senator R. C. McCroskey as follows:

That man was placed on earth for a purpose; that he best fulfills the destiny of his race by the activity called work; that the fullness of life can be best realized by useful application; that when work itself becomes the objective rather than the fruits

of it, then the spiritual in men dominates the physical and the nearest approach to human happiness has been reached.

This, I believe, was the philosophy of life of Robert C. McCroskey. Born March 10, 1845, in Monroe County, Tennessee, he enlisted as a private in the Confederate Army in 1862. He was under fire in the battles of Nashville and Bentonville, rose from the ranks and at 19 years of age commanded two regiments and a battalion leading the center in the Confederate charge in the bloody battle of Franklin. At the close of the war he resumed his collegiate work and graduated from Croton College, Tennessee, in 1868.

Attracted by the lure of the west, he moved to Monterey County, California, in 1870, where he taught school until 1874, when he was elected Superintendent of Schools of that county.

In 1882, he married Blanche Houston of Madisonville, Tennessee, and returned with his bride to California to the farm he had purchased adjoining the San Juan Mission, near Hollister, California.

Learning of the fame of the fertile Palouse Hills in Whitman County, he visited Eastern Washington in 1887, and the following year moved with his family to Garfield, Washington, where he had purchased a section of land.

He was extraordinarily successful in his farming operations, and his land holdings soon reached several thousand acres of the choicest land of the Palouse. In 1907 he raised a crop of wheat of which a single field of 1,000 acres averaged in yield 46½ bushels per acre, the largest authenticated yield for 1,000 acres of wheat ever recorded in the Department of Agriculture at Washington, D. C.

In 1913 he retired from active farming, renting his land to two of his sons. But his immense model wheat farm almost surrounding the town of Garfield was the pride of his life and he spent most of his time not otherwise engaged in riding over his land in a light buggy, assisting and counseling his sons in their farming.

Besides his farming interests he had acquired important bank holdings. He was president of the State Bank of Pullman, the National Bank of Palouse and a director of the Olympian National Bank at the time of his death.

Of the South, in the Civil War, and in the stormy days of reconstruction, he was naturally Democratic in politics, but he was too broad of mind for partisanship. He served in the State Senate of Washington from the 9th district in the sessions of 1891 and 1893. The title "Senator" which he honored rather than was honored by the title, always clung to him during the remaining 30 years of his life.

He subsequently held no elective office, but was constantly in the public service, receiving appointment from Republican and Democratic Governors alike.

In 1895 he was appointed member of the State Grain Commission by Governor McGraw. He was appointed to the Board of Regents of the State College of Washington, of which he was a member at the time of his death, first by Governor Rogers and reappointed in succession by Governors Hay, Lister and Governor Hart.

The State College of Washington was an object of almost paternal solicitude to him. At all times he gave to it unreservedly of his time and thought. This was his greatest service and required on his part devoted courage and many sacrifices. In his latter years scarcely a week passed that he did not visit the college. He made a generous endowment to the "R. C. McCroskey Permanent Fellowship Fund," the interest of which each year is to be awarded to some State College graduate of superior ability who desires to undertake important scientific investigation, and also a handsome gift to the "Student Loan Fund" of the College, to help worthy young men and women to continue their education. In many ways the State College of Washington stands today as a monument to his useful and splendid life.

His social interests were most pronounced and gripped him to the lives of other men. His friendly attitude was ever manifest to all, and was a dominant trait in his everyday life. Some one has said that the high art of life is to be friendly. This disposition inclined him to the association of fraternal orders. He was a Mason, and Knight of Pythias, and was Past Grand Chancellor and Past Supreme Representative of the latter order.

His keen intelligence and broad public spirit was attracted to all lines of public endeavor and he was conspicuous and influential at all public gatherings in Eastern Washington.

He was a fluent speaker and most entertaining conversationalist, drawing freely from his ample store of knowledge and experience, seasoned by a rich fund of mildly ironic humor.

He had the innate breeding of the Southern gentleman, always courteous, he met graciousness with grace and effrontery with biting courtesy. The true test of character is adversity. In 1916 he became totally blind. To a man of his active habits this was a staggering affliction. But he did not sit down with folded hands to commiserate with his misfortunes. He bravely adjusted his life to the changed condition, gently repulsed all offers of sympathy and pursued all his former activities so far as possible. Two days before his death he attended a meeting of the Board of Regents of the State College at Pullman.

Virginia Keating MacCraig penned the following beautiful lines dedicated to "the Blind Senator."

To the late widely beloved Senator Robert C. McCroskey—"The Blind Senator." In appreciation of his valued friendship, his great personality, and his unflinching interest in humanity:

They say he was blind
But he saw:
The dew on the rose, and the dawn on the hill:
The tint of the dove's iris breast in the spring:
And the velvet-soft dusk,
When the twilight fell still.

He knew when the sunlight dropped out of a face:
When sadness came quivering into an eye:
And never the tear of a child fell, but he
Saw it, and lovingly soothed it, 'till dry.

Yet they say he was blind—
And he was:
In his eyes, but his soul,
Lit by full lamps of Christ's tenderest flame
Searching deep to the heart of Humanity's All,
Saw so clearly, that blindness was merely a name.

He died at Garfield, April 10, 1922, 77 years old, measured by years, but had long passed the century mark in service and achievement.

At his obseques were gathered Governors and high dignitaries of State, of learning and the professions, of representatives and leaders in all walks of life.

The ceremonies were most impressive, but the occasion did not seem *all* of sorrow and mourning. One rather felt that it was a gathering of his multitude of friends and admirers to felicitate with him upon the glorious completion of a difficult and important task exceedingly well performed.

If his philosophy of life was correct, if man gets the most out of life by the utmost of his usefulness, then indeed Robert C. McCroskey lived his life to the fullest measure.

Senator Robert Grass delivered a eulogy on the life of former Senator Frank H. Renick as follows:

I arise to say a few words in memory of my good and true friend, the late Senator Frank H. Renick, who passed from this life a few months after the adjournment of our last session.

To the older members of the Legislature, especially those who have been members for the past fifteen years, Frank Renick was so well known, little need be said in his praise, for all who knew Frank loved him as a loyal, sincere enthusiastic friend.

Frank Renick was born in Connecticut about fifty-two years ago. He passed his young manhood period in the state of Michigan, and from there went to Kansas, where he pioneered for several years. Later he came to the city of Seattle, and to the time of his death considered that his home and residence.

During the Klondike days, Frank joined the gold rush and came out from Alaska with a considerable competence. Since that time he engaged in the general real estate, insurance and loan business. He was very successful in his work, and at one time was rated as worth three-quarters of a million.

He was a sincere, conservative man in all matters of legislation, and represented the biggest business district of the city of Seattle. His predominating quality was his enthusiasm upon any matter of legislation in which he was interested.

He served five terms in the House and one term in the Senate. In his passing this Legislature lost a valuable, sincere, enthusiastic worker in all matters pertaining to the general welfare of the state. We who knew Frank intimately lost a good and true friend.

Representative Willis E. Mahoney delivered a eulogy on the life of former Representative David F. Trimble as follows:

I am indeed grateful for this opportunity to pay homage to the sacred memory of my distinguished fellow citizen of Whitman County and former member of this august body.

David Frank Trimble was born in the state of Ohio in the year 1853, in which state he grew to manhood. He came west to the state of Washington in the year 1888, locating in Whitman County. He engaged in farming near the city of Palouse in that county, and as in all things that he applied himself to was very successful in his undertaking. Some ten years previous to his death he retired to private life and devoted all his energy and time to community affairs and furthering the development of the community in which he lived. He was an active member of the Palouse Chamber of Commerce, the Baptist Church and Odd Fellows Lodge. No man rendered a greater service to his community than he.

The four outstanding qualities of the man were his love for his home, his devotion to his church, his loyalty to his friends, and his simplicity and frugality. The loss of his valuable service and counsel is a distinct loss not only to the county in which he lived but to the entire state. He was elected to the State Legislature, from the 8th Legislative District of Whitman County, in 1917. Re-elected in 1919, during which session he was taken ill, the cause which later caused his death.

Oh, for the need of men of his sterling character and sober judgment to meet the great problems that are facing the State of Washington today.

"God give us men! A time like this demands
Strong minds, great hearts, true faith and ready hands,
Men whom the lust of lucre does not kill;
Men whom the spoils of office cannot buy;
Men who possess opinions and a will;
Men who have honor; men who will not lie;
Men who can stand before a demagogue
And dam his treacherous flatteries without winking,
Tall men, sun-crowned, who live above the fog
In public duty and in private thinking;
For while the rabble with their thumb-worn creeds,
Mingle in selfish strife, lo! freedom weeps,
Wrong rules the land, and waiting justice sleeps."

My friends and colleagues, would it not be fitting, that on this occasion dedicated to the sacred memories of the distinguished men we have met here to honor, that we again reaffirm our faith and allegiance to our Flag, our Country and our State, "that from these honored dead we will take increased devotion to that cause for which they gave their last full measure of devotion, that we here highly resolve that these dead shall not have died in vain;" that this Legislature under God, will have a new birth of freedom; that we, its members, firmly resolve that we pledge our all to the duties and work that is before us; that at the close of this Legislative Session we will leave behind us achievements of constructive legislation that will bring to the people of this State the relief they are praying for, and holding close to our hearts the ideals of the distinguished men whose memories we are honoring. We can in justice do no other.

Representative J. B. Bassett delivered a eulogy on the life of former Representative Tom Brown as follows:

I never come to an occasion like this without thinking how kind providence has been to all of us members here assembled. As the years pass by, more and more of our friends pass away to that other life, which reason and instinct lead us to feel must be awaiting us all, until now those of us who sit here with whitening heads feel that we are surrounded by the few, while the majority of our friends have already gone to the mysterious realm of the other world.

It becomes my duty to say a word for one lately passed away, known to nearly all old members of the Legislature, dear old Tom Brown of Whatcom County.

Mr. Brown was born October 10th, 1846, in Cumberland, England. His parents were so poor that he was obliged with a very little preliminary education, to help support the family when fourteen years old, by working in a coal mine. He seemed determined to get more education and acquired it by hard work in night schools after working hours. To his great pleasure, soon after reaching his maturity, he was found competent to teach others. He divided his time between teacher and iron worker in England and Scotland until in 1885 he was induced to immigrate to North Bend, in this state, to work in an iron foundry, which never commenced business. This left him in a serious financial condition. He taught school in Issaquah, Blaine and Sumas and worked at his trade for some years. In 1908 he discontinued teaching and thereafter lived in Sumas, developing various lime propositions.

He died with hardly a moment's warning on May 27th, 1921, leaving a wife to whom he was married in Lanark, Scotland, and three children. He was a Mason and faithful member of the Episcopal Church.

In his business life Mr. Brown was reasonably successful. He was always more concerned to do his duty than to be famous, to serve the state and its friends than himself, to be rich in the coin of the other world rather than of this. He was a kind neighbor and a good friend. He brought up his family well. In his early years as a teacher he imparted knowledge thoroughly, but cared more to turn the lives of the young people into better channels. He was often chosen by his fellow citizens for various lines of duty which he always performed faithfully. He acted for some time as school director in his district and was Mayor of Sumas and served in the Legislature four times, from 1915 to 1921, being re-elected with less and less opposition each time.

Mr. Brown was a very efficient legislator. He was especially interested in appropriations, tax reform and education. He knew the institutions of the state as very few did, always wanted them properly cared for and caught with an eagle eye every undesirable request for money. He was much interested in the improvement of the state system of taxation and would have been of great usefulness in the tax discussions of the present session.

Perhaps his greatest service was in the educational field. He was a very useful member of the special commission to study higher education, in 1915 and 1917. He watched, with especial care, the interests of the normal school in his own county. He was a pioneer fighter for the county unit in schools and in plans for a better preparation for entrance into higher institutions. His clear, bright mind, large experience and conscientious habits made him a most valuable member of committees.

I would like to say a personal word in closing. During the last session Mr. Brown was the closest friend I had. It happened that the three committees to which each of us devoted the most attention were the same. We sat together whenever we could. We served on several sub-committees together. Difficult problems were lightened by the pleasure we felt in solving them together. Hardly a day passed without a visit at the desk of one or the other. Plainly I remember our last parting in the small hours of the final night of the session when our families were shaking hands at his desk, and he said, "Let's both come back next year. School support and tax adjustment will very likely be settled then." It was not so to be. The young man of seventy-five, more youthful than I by almost every standard except years, in apparently perfect health, and full of longing for added usefulness, was to be suddenly called higher in but a few short weeks.

I believe in immortality. I do not know where, or in what form, but I am sure that somewhere, and in some form, the immortal part of Tom Brown lives today.

I think he has the same aspirations and thoughts as when with us, only quickened and made more effective. I cannot think he has lost his old interest in the State of Washington. Some times when the goal I aim at here seems hard to reach, and again when new thoughts need inspiration to the struggle, I close my eyes and almost feel as though there is about me the moving of the wings of the spirits of old friends like him, heard almost as plainly as the rustle of the wings of birds in the summer time. Good influence, good deeds, good thoughts never die. Like the sound of the sunset angelus in the old world in olden times, taken up from one church tower to another, may you and I, and those after us, so live as to carry on the work of friends as they drop out, one after another, that our communities and our state may be better for our living.

Representative R. D. Deselle delivered a eulogy on the life of former Representative Hyrcanus Blackman as follows:

I have been asked to say something in memory of Hyrcanus Blackman, one of our deceased members, and while my duty is naturally intermingled with sadness, nevertheless, on account of the influence left on the community by the life and service of this man, I feel that we are justified in eliminating from our minds the feeling of loss or sadness, and hold in mind the character, influence and ideals that this loyal and honored citizen left as an inheritance to the people of his community and the state.

I knew Mr. Blackman, personally, and basing my judgment on my knowledge of this man in his community, I unhesitatingly say, that he was a citizen of ability, honesty and integrity, and entitled, under our rules of citizenship, to be called "A MAN."

The Snohomish County Tribune of June 3rd, 1921, gives briefly but quite accurately, the community's estimate of the value of this esteemed citizen. As an expression of the citizens of the community where Mr. Blackman resided, I wish to read this brief article:

A Noted Man Passes Away.

All classes and conditions of people are sincere in their expression of sorrow at the great loss our city has sustained in the death of Hyrcanus Blackman, aged 74, a pioneer of this city since the early seventies and was the first mayor of Snohomish.

What a splendid type of manhood he presented. I doubt if anyone ever heard him speak unkindly of his neighbor. He was a manly man, a man of deep conviction, and a man who did not care for self-praise, for him the important question was righteousness. He did not care simply for majorities, but could stand in the minority of one, if need be. He stood ready at any moment to help. These are a few of the elements of the goodness that made him loved by old and young.

Then there was that other trait; he was a man of faith in men; faith in himself and faith in his community. "I never saw him other than optimistic," said a friend who had known him for 40 years.

Was his life lived in vain? Go along the streets of Snohomish, and you will know that it was not, for on street corners wherever a few gathered together you will find them discussing the genial Hyrcanus Blackman. There moved among us a *man*.

Mr. Blackman was born January 4, 1847, and died at his palatial home on Avenue B, at 4:15 Wednesday afternoon. He is survived by his wife, Mrs. H. Blackman, three brothers, Alanson A. Blackman and Elhanan Blackman of Everett, and William Blackman of Seattle, and one sister, Mrs. E. Lenfest of this city, and one daughter, Mrs. W. S. Ford, also of Snohomish.

His fatherly love for his son, Clifford, carried such strength that when the son died about 18 months ago the shock was too great and Mr. Blackman has been gradually faltering until about five weeks ago, when he was taken to his bed, but up to the very last, was in his right mind, and knew all that was going on. Truly he has gone from among us, but his kindly face will never be forgotten.

These words of honor and esteem are justly and fittingly given to Hyrcanus Blackman, who for a half century has stood by his neighbors, community and state as a friend and citizen.

Senator W. W. Conner delivered a eulogy on the life of former Senator T. D. Rockwell as follows:

Thomas Dewit Rockwell came to the State of Washington not quite thirty years ago. He was born on September 27, 1859, in Milledyeville, Georgia. He attended school at Griffin, Georgia, and was admitted to the bar at the age of 21 years. He arrived in the State of Washington holding a commission in the service of his government under President Cleveland. In 1896 the election of President McKinley resulted in the loss of Senator Rockwell's position, he being, of course, a Democrat. He then entered the practice of his profession, law, in Spokane, and was assistant corporation counsel of that city, where he made an enviable record for services. Later on, in keeping with many others who were of the old-fashioned gold standard kind of Democrats, he became a Republican and took part in building up the Tax and Division Department of the State of Washington. His services in that department were characterized by both zeal for the State's interests and an earnest and continuous endeavor to see that the citizens received fair treatment from the State.

After leaving this office he entered into the practice of law in Olympia, later removing to the city of Seattle, where he was practicing his profession at the time of his death.

He was elected to the State Senate from the 34th Senatorial District in King County and served in the legislatures of 1919 and 1921.

Senator Rockwell left surviving him two children, a young man and a young woman—their mother having predeceased him some years.

Senator Rockwell, or rather "T. D." as his friends called him, was a man of most lovable character. He was fair to his political opponents and firm in the defense of what he deemed to be right. His outstanding traits were his hospitality and generosity. He was a typical Southern gentleman. His untimely death left a vacancy in State political affairs, and especially in the Legislature, which will never be filled. May his soul rest in peace.

Representative Nils Anderson delivered a eulogy on the life of former Representative F. A. LeSourd as follows:

It is with deep respect and sense of privilege for me to be permitted for a few moments to relate a few salient points on the life and career of that respected and beloved citizen and public servant, Francis A. LeSourd, a member of our Legislature during the sessions of 1911 and 1913.

Francis A. LeSourd was born in Kokomo, Indiana, on July 8, 1843. His early life was spent in that state where, at the age of nineteen, he joined the Union forces in the Civil War, being identified with the 12th Indiana Cavalry, in which capacity he served during the duration of the war.

In 1884 he joined the pioneer forces that came to this great state and located on Ebeys' Prairie, Whidby Island, where, true to the spirit of the pioneers, he settled on a farm and became one of the most beloved and respected citizens. He continued his public service as a commissioner of Island County for six years and was elected to our Legislature in 1911 and 1913, respectively.

He was a member of the Grand Army of the Republic. He passed away at his farm at Coupeville, Whidby Island, on September 28, 1921, leaving a wife, one daughter and three sons to mourn his loss. To many it will be difficult to realize that he is gone. So long had he held to the course of life in his serene and stately manner that his going on the long journey hardly seems real. He stood before us like a patriarch, yet humble as the humblest in our human brotherhood. When a smile lit up his face it made radiant the features of one whose soul was spotless and glowed within. When a word was spoken it came as gently, yet so strong, that we felt its power was from a hidden source, deeper than most of us mortals enjoy. His mastery of every situation in life without cunning or guile led us to believe he was one "on whom even God did set his seal to give the world assurance of a man." Through diligence, and with honor cautiously guarded, he gathered his maintenance in storehouse and home. Never once could the world challenge what he gained or the system by which he wrought in the business forum with his fellow man. So tolerant of all and generous to hear he found the circle of his friendship widening through each successive year.

The most interesting study in this wonderful world is the study of a human character. And when you meet a character like that of Mr. LeSourd you are in the presence of that sublime opportunity. Many times have I watched him to gather some fresh hint as to the uncommon riches of his life. Slowly it grew upon you that you were dealing with more than an ordinary man. His wearing qualities were of the best. "None knew him but to love him; none named him but to praise." Gentle and firm, cautious and faithful, generous and just, tolerant and strict, courageous and reserved, every act a worthy pattern, every word like that of a prophet, every motive above question, and you have found our noble friend a princely chieftain of the human clans.

He has left the beautiful home where he gave full measure of loving devotion; he has departed from our sanctuary where he worshipped with Christian dignity; broken has he left the noble circle of friendship. But with leaving all these behind he had no regrets. His hold on the eternal realities was of such a nature that the most fascinating of earthly endearments and rewards could not persuade him to linger. His life was an interpretation of the Christ; his whole unaffected personality showed his communion with God. Truly it could have been his motto to live in such a faith that:

"The stars shall shine for a thousand years,
A thousand years and a day;
But God and I will love and live
When the stars are passed away."

Representative M. T. Brislawn delivered eulogies on the lives of former Representatives John Raymer and Dr. Fred B. Teeter as follows:

I stand before you this afternoon to represent Lincoln County and speaking on behalf of the citizens of that great county, which bears his name, I feel that as a preface to my remarks, nothing else I could say would be as fitting and appropriate to this occasion as those simple and significant words of the "Great Emancipator," when he stood on the historic field of Gettysburg nearly sixty years ago. With a modesty characteristic of this great man he referred to his part in those memorable exercises in these words: "The world will little note nor long remember what we say here, but it can never forget what they did here." The same statement may well be applied to the men in whose memory we are holding these exercises today.

Dr. Fred B. Teeter and Mr. John Raymer both occupied seats in this House at different times and each so acquitted himself as to merit the general satisfaction of his constituents and reflect credit upon the community which he represented.

Further than this I have little to say about their public careers, but will confine my remarks to what I have been able to learn of their everyday lives. If you want to know the real facts about a man's life, go among his neighbors and if you should go over there in Lincoln County, where they lived and labored, you would hear only good things about those two men who have but lately gone to take their places among Washington's illustrious dead.

Dr. Teeter was born in Indiana, but, animated by that same adventurous spirit which, for more than three-quarters of a century, has sent thousands of the best citizens of the eastern states to assist in the upbuilding of this great empire, he came to Washington as a young man and cast his lot in this land of promises.

His struggle for an education is one of the interesting chapters of his life and carries a useful lesson to every ambitious man or woman who finds himself beset with difficulties in that direction.

It is interesting to note that he grew to manhood without completing the grades, but Dr. Teeter was a man who recognized no obstacle in the path of the thing which he set out to attain. After winning out in the struggle for an education he was making good in business when the greatest cross of his life was laid upon him and he was stricken blind. Still undaunted, "the blind optimist" of Lincoln County set out once more to find a place in which a man without eyes could earn a livelihood and be of service to his community.

Then it was that, in spite of this great handicap, he took up the study of osteopathy, assisted by his faithful wife, and after three years of unremitting toil and

sacrifices, he was ready to return to Davenport and enter upon the practice of his new profession. In professional life he was very successful and his reputation for fair dealing, together with a never-failing spirit of optimism, made his name a household word throughout the community in which he lived.

But it seemed that his life was still destined to be one of struggle and disappointment for, during his second term in the Legislature, about two years ago, Mrs. Teeter died and once more "the blind optimist of Lincoln County" was robbed of his eyesight. Dr. Teeter died about a year later.

Turning now to the other man, Mr. John Raymer, we are once more called upon to pay tribute to the memory of one of the builders of our great inland empire. Mr. Raymer was born in Michigan and started out as a boy to carve for himself a fortune in the big, unsettled west.

He came to Washington in 1884 and after residing for a short time in several different places in this state, finally settled at Reardan, Lincoln County, in 1890. During that same year he was sent to the Legislature. Mr. Raymer was a man beloved by his family and friends and respected by all who knew him. He was identified with every movement for the upbuilding of his community and state. He was just the type of citizen which alone could have made possible the unprecedented development we have achieved in this glorious young state.

Within the last biennium, Lincoln County has buried two of its faithful servants and the State of Washington has lost two of its highly respected citizens. It is a most beautiful custom we have established, of pausing here for one hour in the midst of our labors, to pay this tribute of love and respect to the memories of all those who have gone before.

Once again, quoting the immortal Lincoln: "It is altogether fitting and proper that we should do this." But let us not overlook the practical lesson to be learned from this biennial event. It should serve to remind us all that our relationships here are only temporary. They quickly pass and are forgotten.

Then let us try to keep this thought in mind and scatter a few roses by the way-side as we go about our daily duties. Let us not hold back all those kind words and beautiful sentiments until ears are deaf and lips are dumb.

Rather, let us, in the words of one of our living poets, try to remember that:

A rose to the living is more
Than sumptuous wreaths to the dead;
In filling love's infinite store
A rose to the living is more
If graciously given before
The hungering spirit is fled.
A rose to the living is more
Then sumptuous wreaths to the dead.

Senator Harve Phipps delivered a eulogy on the life of former Senator Richard A. Hutchinson as follows:

Among many friends and some enemies, for almost a half century, Senator Richard A. Hutchinson lived, worked, fought and ended the battle of life, and left an appreciable impression on the State of Washington.

He was a hardy type of pioneer; a type that fitted into the early life of this great West. He was born in Mississippi in 1853 and came to Washington in 1872. Senator Hutchinson did not ask for the easy side of life when he came here to become a citizen, neither did he waste his time in non-productive occupations. He accepted and demanded the harder things of life, and from his young manhood until his death he was a worker and a producer. In the early 70's, in Western Washington, he was a logger, coal miner and railroader. In 1879 he went to the open prairies of eastern Washington and took up a homestead near Mondovia, which was then Stevens County but which was later divided into Spokane County and still later divided into Lincoln County. He had the unusual distinction of being a citizen of three counties without changing his residence.

He was a successful pioneer in the grain and stock business in eastern Washington, and in the early days was a terror to the cattle and horse thieves of the Inland

Empire. Under the direction of General Miles he had charge of Chief Joseph and his band of warriors, and not only kept them safely, but served in a general way as a peace maker between the Nes Perce Indians and their pale face conquerors.

The mining interests of the west are further advanced by the expenditures of his money, time and energy, and thousands of acres of orchard and garden lands have come to fruition and are now dotted with happy homes because of his vision of reclamation.

His heart always reached out in the interest of the blind, deaf and dumb, feeble-minded, insane and helpless, and his work as chairman of the Committee on Charitable Institutions in the State Senate will remain as one of the chief monuments to his many years of service to the State of Washington. He leaves an honored and respected family.

These few reasons, among many others of which we have not the time to mention, amply justify us in saying that the State of Washington is a better state because Senator Hutchinson lived.

Representative E. E. Dale delivered a eulogy on the life of former Representative L. M. Sims as follows:

The Hon. L. M. Sims was an honored and respected citizen of Kalama, Cowlitz County, where he lived over thirty years. Dr. Sims was elected Representative to the Legislature from the 24th District in 1899, in 1901 and in 1917. He was a loyal and faithful member. Dr. Sims, as he was known in Kalama, was a life-time member of the Congregational church until his death, April 1, 1921; he was a Past Master of the Masonic lodge, Past Patron of the Eastern Star, a member of the White Shrine, a member of the Knights of Pythias; he was also an active member of the Kalama Business Men's Club. Dr. Sims' kindly public-spirited soul enriched the community by his unselfish, sympathetic and loving ministrations in his profession for many years, and by his exemplary home life, his true Americanism, his loyalty to the cause of righteousness, and his progressiveness in the interest of the community, state and nation's welfare. Dr. Sims leaves to mourn his death his wife, Mrs. Charlotte Sims, his daughter, Miss Dorothy Sims. The remains of the Hon. L. M. Sims were laid to rest in Kalama, under a mound of flowers, on the hilltop overlooking valleys on all sides, open to all sunshine that falls, and swept by every wind that blows.

Representative J. H. Davis delivered a eulogy on the life of former Representative Wm. J. Hughes as follows:

I have been assigned the privilege of recalling to memory the service of a very worthy and honorable member of this House, session of 1913. I do not know of his early life, but I do know of his work in this House.

We all regarded it a privilege to know Hon. Wm. J. Hughes, of Whatcom County. He was a man of high ideals, unimpeachable character, and had an earnest desire to make the world a better place in which to live.

He was not of my political faith, he was a Democrat, and was the Minority House Leader, but no one ever suspicioned him of attempting to use his position for personal or party advantage. He was a staunch friend of our public schools, a Christian gentleman, and believer in the Fatherhood of God and the brotherhood of men. His memory and friendship will ever be cherished by all who knew him.

On the shores of Bellingham Bay, as the sun sank beneath the western horizon, as twilight let its curtain down and pinned it with a star, he past to rest, and our State of Washington gave back to God a noble soul who had fought a good fight and had kept the faith, and his work was done.

God's finger touched him and he slept.

Representative Walter Hufford delivered a eulogy on the life of former Senator E. M. Rands as follows:

On this occasion it is well we pause and give a few minutes of our time as a tribute to the memory of those former members who have passed beyond. It is with deepest respect that I am at this time impelled to say a few words to the memory of former Senator E. M. Rands, one whom I had learned from years of association to admire and respect.

E. M. Rands was born in Marshalltown, Iowa, in 1857, where he grew to manhood, later teaching school in the town where he received his education. Coming west, he located in Oregon City, Oregon, where he was postmaster for two years. He then moved to Vancouver, Washington, where he edited the "Vancouver Columbian," and during this time he was made Secretary of the State Republican Club. Afterwards being admitted to the bar, he began the practice of law and in the election of 1900 he was elected to the Senate from Clarke County, serving in the 1901-03-05 and 07 sessions of that body, and it was during the latter session that he requested that his remarks on his vote be recorded in the Senate Journal on his opposition to the direct primary law.

"I am opposed," said he, "to the bill for the following reasons:

1. A direct primary election law, no matter how well guarded, favors the rich man at the expense of his poor neighbor. No poor man, no matter how efficient and capable, can afford the expense of a campaign for a state office.

2. The ultimate result of a direct primary election law will be to give all state offices to the big cities, and the majority of the county offices to the most populous centers of the county. No small county or sparsely settled rural community in a county can hope to secure an office under that act.

3. This law tends to break up and destroy party lines, and in my judgment will ultimately wipe out not only the Republican, but every other party in this state. I believe in party organization. This government and its affairs have been dominated by party politics since the organization of our government. I believe that a responsible party will give better government than any chaotic conglomeration of individuals elected in a free-for-all squabble, where every candidate and office-holder represents only himself.

4. I am opposed to this bill because it is vouched for and has been forced upon the state by political hacks, who have been repudiated o'er and o'er.

The only commendable features of this bill to my mind, is that those same political hacks will ultimately find that they will be repudiated under a law, which they have advocated in hopes only of personal exaltation."

Senator Rands made it a custom to attend every session of the Legislature after he had ceased to be a member, to renew acquaintances, and his counsel was often sought by his former associates from both Houses.

He spent the last ten years of his life in Skamania County, where he lived in a home surrounded by lakes and standing virgin timber in the heart of the Cascades. Here he lived in the great, big outdoors, where he loved to spend his time hunting and fishing, and it was my personal pleasure to share his company in his pastime for a number of years. In the late winter of 1922 he contracted the cold that caused his death a few weeks later. His body lies in Vancouver, Washington, and in his passing the State of Washington has lost one of its foremost citizens.

Representative J. D. Phillips delivered a eulogy on the life of former Representative Francis Albert Bartlett as follows:

Francis Albert Bartlett was born in Kennebuck, Me., March 9, 1851. He was a direct descendant of Joshua Bartlett, signer of the Declaration of Independence.

At the age of sixteen years he became a seaman and in 1868 signed for the Pacific Coast, where he joined his brother, C. C. Bartlett, at Port Townsend.

Later he operated a general store at Coupeville. From 1875 to 1880 he was manager of his brother's store at New Dungeness and while residing there he married Imogene Whitacre. From 1880 to 1888, Mr. Bartlett was in business with his brother under the firm name of Bartlett and Co.

Retiring from the mercantile business, he engaged in shipping and brokerage in Port Townsend. In 1910 he moved to Seattle and engaged in the shipping and brokerage in the firms of Bartlett and Co. and Rothchilds & Co.

He was elected a member of the Legislature from Jefferson County in 1905 and served one term. He died September 21, 1921.

At the time of his death he was a member of the Masonic Order, and the Benevolent and Protective Order of Elks.

Coming from New England stock, he was an ideal type of American. He loved his country and its glorious history to which we all are inseparably linked.

Kind nature was generous to our deceased brother. She gave him a heart and mind in proportion to the athletic development of his body, and she gave him opportunity and a vast amount of saving common sense. He was a product of those forces which we designate, in their composite character, as American and worthy of the honor we now do to his memory.

As was said of the noblest Roman of them all, we too can say of him, "His life was gentle and the elements so mixed in him that all the world might rise up and say, 'This was a man!'"

Representative Mrs. Frank Reeves delivered a eulogy on the life of former Representative William H. Kennedy as follows:

William H. Kennedy was born in Ohio in 1851, was of Scotch-Irish extraction, was educated in Chicago and was married in Iowa in 1872. He cast his first vote for U. S. Grant for President, moved west from Iowa and settled near Tirzville in Adams County as a homesteader in 1885. Like most early settlers in Adams County, his capital was very limited. He farmed intelligently, worked hard, added to his holdings and became a very successful wheat farmer. He gave special attention to scientific farming and greatly aided in bringing better methods into the county. He represented Adams County in the State Legislature in 1889-1891. As a legislator he represented especially well the interests of the new county from which he was elected. He was a strong Republican, active church member and Sunday school worker and was much respected. In 1908 he sold his holdings in Adams County and moved to Wenatchee, in Chelan County. There he grew apples with the same intelligence and industry as he farmed in Adams County. He also entered into the life and activities of this county.

His wife passed on from this life three years previous to his death in the spring of 1922. He left three sons and a daughter, all married and living in Washington and California. It was my privilege to have known this kind father during his residence in our valley and from his daughter-in-law, Mrs. Robert Kennedy, with whom he lived for the last three years of his life, I quote: "He is the grandest old man I have ever known. Bob and I could not keep house without Father Kennedy," and she never kept house without him, for Mrs. Robert Kennedy passed away the same day with the same dread disease—that of cancer.

He gave a touch of truth to all with whom he came in contact, and was an inspiration for good to innumerable boys and young men. In his demise humanity lost a friend and the state a most worthy and intelligent servant. His reward at the throne of Divinity is a consoling thought to all who knew him.

Representative J. D. Phillips delivered a eulogy on the life of former Representative J. M. Lockheart as follows:

J. M. Lockheart was born seventy years ago in Nova Scotia. He settled in Port Townsend in 1888, where he resided until the time of his death.

He was a devoted Christian and a member of the M. E. Church. For many years he served as a member of the city council of Port Townsend and at the time of his death was active in the work of the Woodmen of the World, the American Yeomen and the Order of Redmen.

He was elected a member of the special session of the Legislature in March, 1920.

Senator L. L. Westfall delivered a eulogy on the life of former Representative Dr. W. H. Hare as follows:

Dr. William H. Hare was born at Barnesville, Ohio, on May 13, 1853, graduated from Ohio Dental College at Cincinnati in 1874 and went to Sacramento, California, to practice dentistry the same year. He practiced dentistry in Sacramento from 1874 until 1882, and then went to Yakima (then North Yakima) Wash., where he practiced dentistry until 1889, when he was appointed receiver of the Land Office at Yakima by Benjamin Harrison, then President of the United States.

Dr. Hare was elected to the Seventh Washington Legislature in 1901 from Yakima and was re-elected again in 1903, being chosen Speaker of the House for the Eighth Washington Legislature, Session of 1903.

In March 1905 Dr. Hare was appointed Clerk of the U. S. District Court for the Eastern District of Washington, with offices in Spokane, by Theodore Roosevelt, then

President of the United States and took office April 1, 1905, in which capacity he served until the time of his death, on November 21, 1921.

Dr. Hare was married on June 21, 1906, to Mrs. Katherine Hynds Dunham.

Dr. Hare, during his lifetime, always took a keen interest in national and local politics, being an active member of the Republican Party, and was one of the original backers of Wesley L. Jones, when he first became a candidate for the United States Senate.

Mr. Sam Kiefer delivered a eulogy on the life of former Representative W. H. Hare as follows:

Hon. W. H. Hare was born at Barnesville, Belmont County, Ohio, in 1853 and died at Spokane in 1921. He was educated in the public schools of Ohio and West Virginia and graduated from the Ohio Dental College in 1875. He came West in the same year, and began the practice of his profession in Sacramento, California, where he made his home until 1883. He came to the state of Washington and settled in Yakima, continuing the practice of the dental profession until 1889, when he engaged in the stock business.

He was receiver of the United States land office from 1891 to 1894, and was president of the Washington State Agriculture Association in 1902, when he was elected as a member of the state legislature from Yakima County. When the Eighth Session convened in 1903, he was elected Speaker, serving with ability and distinction. He was re-elected to the House and served in the Ninth Regular Session of 1905. Following the close of that session he was appointed Clerk of the Federal Court by the late Judge Whitson, and continued in that position under Judge Rudkin until his death in the city of Spokane.

Your memorialist, Mr. Speaker, knew W. H. Hare as a fellow citizen in Yakima County for many years, knew him as a member of the Legislature, as receiver of the land office and clerk of the federal court. The field of public service was an attractive one to Dr. Hare, attractive in that it was a field in which he loved to serve and gathered his reward in what that service brought, not to himself, but to those he loved—his God, his country and a host of loyal friends.

The principles that we love and admire in those whose memories we cherish are those of charity, justice, and a fellowship in the brotherhood of man. Dr. Hare lived a life moulded by those virtues. His was not only the charity of a well filled purse, but that sweeter charity of tenderness, compassion and tolerance for those less talented than himself, his was a charity that found expression in word, in thought and in action, in his daily contact with his fellowmen.

He believed in and lived a spirit of justice that brought "hope to those who suffer and dread to those who wrong." His was not that stern and unrelenting justice of an "eye for an eye and a tooth for a tooth." Rather that more poetic justice, that finds its crown and glory in the matchless jewel of mercy.

His fellowship in the brotherhood of man did not manifest itself only to the important and influential members of society. He was no galley slave bound to any class or clan by the chains of timeworn superstition, but an American freeman who subscribed to the doctrine that life, liberty and the pursuit of happiness were the birth-right of every man.

Dr. W. H. Hare was a man and an American—upon the stage of our day and age he played his part.

And then one day, when the Sun was low,
When the train of time as the schedules show
Was slowing up at the station gate
And the clock hand points at the hour of fate
When the love and the laughter that lived in him
Were hushed in the station lights so dim
When some one whispers the end is near
A faint goodbye, and he's gone from here.

Representative Charles I. Roth delivered a eulogy on the life of former House Enrolling Clerk Captain C. D. Allen as follows:

Precedent limits these memorial services to the memory of deceased members. Some of the older members who have served in previous sessions are not unmindful of the services of one who served the state in a very important and responsible capacity in this Legislature for many years.

Captain C. D. Allen had charge of the enrolling and engrossing of all of our work of the House, beginning with the sessions of 1911 and ending with the session of 1921. The responsibilities of this position are not fully recognized. As we grow in service we learn to appreciate the importance of this position—mindful of the fact that it is the enrolled bill that becomes the law. His honesty and integrity were never questioned and his ability was recognized by all.

Not only did he serve his state well, but in the hour of need he served his nation. In the Spanish-American war as a captain, he saw active service and he did his full duty well.

“Cap” Allen, as he was familiarly called, passed away at Bellingham last spring and I was with him during his last illness. He leaves a loving and devoted wife, children and grandchildren, who miss him—as do we all. He was a lovable man.

Captain Allen’s memory will always be cherished by his friends. Therefore, I deem it fitting that we at this time pay our respects to his memory.

Your memorialists, the Senate and House of Representatives of the State of Washington in legislative session assembled, most respectfully represent and petition as follows:

WHEREAS, By Section 19a of the Interstate Commerce Act, providing for the valuation by the Interstate Commerce Commission of the properties of common carriers, it is provided that such investigation "shall show the value of its property in each of the several states and territories and the District of Columbia, classified and in detail as herein required," and

WHEREAS, The said Commission in its valuation reports thus far made, has shown the values of the properties covered by such reports in each case as a whole only, and has failed to show the values thereof "in each of the several states and territories and the District of Columbia"; and

WHEREAS, The Bureau of Valuation of the said Commission has recommended to the Commission that it requests Congress to relieve it from showing the values of said properties by states, and

WHEREAS, It is desirable for various uses and purposes that such valuation shall be shown separately by states as aforesaid,

Be It Resolved. That the Senate and House of Representatives of the State of Washington now in session, express its view that the Interstate Commerce Commission should show as to each interstate carrier the value of its property in each of the several states in which such property exists, and that no change in the law, relieving the Interstate Commerce Commission from such duty, should be sought or made.

By Committee on Harbors and Waterways:

To the Honorable Senate and House of Representatives of the United States in Congress Assembled:

Your memorialists, the Senate and House of Representatives of the State of Washington in legislative session assembled, most respectfully represent and petition as follows:

WHEREAS, It is impracticable for the Interstate Commerce Commission to attempt to supervise the distribution of cars as between individual shippers throughout the United States; and

WHEREAS, There should be some governmental authority within reasonable reach to which appeal can be made to require equitable distribution of cars without regard to whether the same are to be used for shipments interstate or intrastate;

Therefore, Be It Resolved, That we respectfully urge upon Congress the amendment of the Interstate Commerce Act in such way that the regulatory authorities of the States may make reasonable orders and regulations not in conflict with federal law, or with lawful orders of the Interstate Commerce Commission, requiring cars within the respective borders of such states to be equitably distributed to shippers desiring the same, without regard to whether they are desired for use in shipments that are interstate or intrastate.

And Be It Further Resolved, That we urge upon Congress such amendment of Section 15a of the Interstate Commerce Act as amended by the Esch-Cummins Act as shall clearly limit and define the power as exists between the Interstate Commerce Commission and State Commission that there may be no misunderstanding that the

State Commissions definitely have the same authority over rates as existed before the enactment of the Transportation Act.

And Be It Further Resolved. That a copy of this resolution be mailed to each United States Senator and each Member of Congress from the State of Washington.

And your memorialists will ever pray.

That at the general election to be held in this state on the Tuesday next succeeding the first Monday in November, 1924, there shall be submitted to the qualified electors of the state, for their adoption and approval or rejection, an amendment to Article XI of the Constitution of the State of Washington, so that Sections 4, 5, 7 and 8 of said Article XI shall, when amended, read as follows:

Section 4. The Legislature by general laws shall provide for the government of counties under which any county may organize whenever a majority of the qualified electors of such county, voting at a general election, shall so determine and the business of such county shall be managed and transacted in the manner prescribed by such general law.

Section 5. The Legislature by general laws shall provide for the election in the several counties of boards of county commissioners, sheriffs, county clerks, treasurers, prosecuting attorneys and other county precinct and district officers, as public convenience may require, and shall prescribe their duties and fix their term of office. It shall regulate the compensation of all such officers, in proportion to their duties, and for that purpose may classify the counties by population. The Legislature shall also, by general law, provide a system of county government for such of the counties of the state as shall elect to be organized thereunder by a majority vote of the electors voting thereon at a general or special election, whereby there shall be elected by the electors of the county only boards of county commissioners, and whereby all other county officers shall be chosen by such county commissioners, and whereby such officers so chosen shall hold their offices during the pleasure of the commissioners, who shall fix their compensation. By such general law the Legislature shall provide for the

time and manner of the election of such county commissioners, fix their terms of office and regulate their compensation in proportion to their duties and for such purpose may classify counties by population, and may provide for the abolition of any one or more of the offices specified in this section; may consolidate any two or more of such offices, or create new and additional offices, and may grant to the county commissioners power to so abolish, consolidate or create offices so long as provision is made for carrying out the functions of the county as prescribed by general law: *Provided*, That the proposition to accept the provisions of and become organized under such general law shall not be submitted oftener than once in every four years, nor if a county shall vote to accept the provisions of and become organized under such general law shall the proposition to abandon the same be submitted to the voters until at least four years from the time effecting such organization. And furthermore, the Legislature by general laws shall provide that any county may frame a charter for its own government, consistent with and subject to the Constitution and laws of this state, and for such purpose the board of county commissioners of such county may, upon a majority vote of its members, and shall upon the presentation to it of a petition signed by a number of qualified electors of the county equal to ten per cent of the total vote cast in such county for governor at the last preceding general election at which a governor was elected, cause to be entered upon its records a resolution calling an election at which there shall be chosen a board of fifteen freeholders who shall have been residents of the county for at least two years preceding their election, and who shall be qualified electors. It shall be the duty of said freeholders to convene within ten days after their election and to prepare and propose a charter for such county, within ninety days. Such proposed charter shall be submitted to the qualified electors of said county at the next general election, or at a special election called by the county commissioners, and if a majority of such qualified electors voting thereon ratify the same, it shall become the charter of said county and shall become the organic law thereof and supersede any existing charter including amendments thereto, and all special and general laws inconsistent therewith, so far as the provisions of such charter relate to subjects hereinafter specified, which subjects, under the authority given by this Constitution, may be provided for in said charter. Said proposed charter shall be published in two daily newspapers published in said county, or if there be no daily newspapers, in one or more weekly newspapers published in said county, or, if there are no weekly newspapers, said proposed charter shall be posted in at least five conspicuous places within the county, for at least thirty days prior to the day submitting the same to the electors for their approval, as above provided. Said elections may be general or special elections, and except as herein provided shall be governed by the law regulating or controlling general or special elections in said county. Such charter may be amended by proposals therefor submitted by the board of county commissioners of such county to the electors thereof at any general election after notice of said submission published as above specified, and ratified by a majority of the qualified electors voting thereon. In submitting any such charter amendment thereto, any alternative article or proposition may be presented for the choice of the voters, and may be voted on separately without prejudice to others. Any charter framed under the authority given by this section in addition to any other provision allowable under this Constitution, shall provide for a board of county commissioners which shall consist of not less than three members, and for the election of said board. Any charter framed under the authority given by this section, in addition to the matters hereinabove specified, may provide as follows: For the selection of any officer or officers or all officers, except as hereinabove specified, by election or appointment, and if by appointment for the manner of such appointment, for the compensation of any such officer or the method of fixing such compensation, and for the removal of any county officer; for officers other than those required by the Constitution and laws of this state, for the election of any or all of such officers by the boards of county commissioners, for the election or appointment of persons to fill such offices, for the manner of such appointment, for the times at which and the terms for which such persons shall be elected or appointed, for the compensation of such persons, and for the method of fixing such compensation.

Any provisions of any charter which shall relate to the powers and duties of any county officer shall be subject to and controlled by general laws, except in regard to

the matters hereinabove specified, and except that said chapter may provide for the transfer of the powers and duties of any other office and for the consolidation and segregation of county offices. Whenever any county has framed and adopted a charter in pursuance of this section, the general laws adopted by the Legislature shall as to such county be superseded by said charter as to matters for which under this section, it is competent to make provision in such charter. Except that any such charter shall not affect the tenure of office of the elective officers of the county, or of any district or division thereof, in office at the time when such charter goes into effect; and such officers shall continue to hold their respective offices until the expiration of the term for which they shall have been elected, unless sooner removed in the manner provided by law.

Section 7. The Legislature by general laws may provide that any county officer in counties that do not elect to adopt the county commission form of government or to frame their own charter, shall be eligible to hold office more than two terms in succession, and by general laws shall provide for the strict accountability of county, precinct and district officers for all fees which may be collected by them, and for all public moneys which may be paid to them or officially come into their possession.

Section 8. The Legislature shall fix the compensation by salaries of all county officers, except in counties that shall elect to adopt the commission form of government, or to frame their own charter, and of constables in cities having a population of five thousand and upwards, except that public administrators, surveyors and coroners may or may not be salaried officers. SENATE JOINT MEMORIAL NO. 8.

By Senator Conner:

To the Honorable, The President, The Senate, The House of Representatives, The Secretary of War, and The Chief of the Corps of Engineers of the United States Army:

Your memorialists, the Senate and the House of Representatives, of the State of Washington, do respectfully submit for your consideration:

That the Alaska Road Commission, since its creation under the Act of Congress approved January 27th, 1905, has constructed more than 5,000 miles of military and post roads, and trails, in the Territory of Alaska, which have resulted in great benefit to the territory, and contributed largely to its development; that such roads and trails are not merely local improvements, but form the basis of a comprehensive system of transportation; that, however, the mileage built is only the nucleus of a large system that is necessary; that the roads and trails already built are of such character as require a large sum of money annually for maintenance, and the funds available during the past two years have been barely sufficient for maintenance; that the government has completed, at an expense of over fifty million dollars (\$50,000,-

000.00), a railroad from the coastal harbor at Seward to Fairbanks and the Yukon Valley in the interior, which road is now in operation, but cannot serve its purpose of development or meet its own operating costs unless feeders are built; that with the development of motor truck transportation the most desirable feeders are wagon roads over which motor trucks can be operated, and the same should be built to the various mining and agricultural regions naturally tributary to such railroad; that the Alaska road commission receives from the "Alaska Fund" much less than sufficient for the maintenance of the roads and trails already built, and therefore, further construction depends entirely upon appropriations by Congress; that further road construction is absolutely essential to the development of the territory, and the resources of the great interior, and indeed of all parts of the territory, except a narrow fringe along the coast, cannot be developed without further road construction; that the plans of the Alaska Road Commission are complete and comprehensive, based upon a most extended study of the territory; that the Alaska Road Commission has developed an organization of splendid men who have been wonderfully successful with the work, especially when consideration be given to the vast area to be covered and the small amount of funds allotted, which for that vast territory is less than the amount expended in the average county of the United States; that Alaska is denied the benefits of the Federal Highway Act, and is not permitted to share at all in the funds thereby provided from the Federal Treasury; that such denial is unjust and inequitable, because the people of Alaska are subject to every tax levied by the Federal Government, and those people and the large corporations of the territory have contributed vast sums to the Federal Government through the income tax, capital stock tax and excess profits tax, but unfortunately, most of those revenues are paid at the principal offices of those corporations in New York City, Chicago, San Francisco and elsewhere in the States, so that the Territory of Alaska is not credited with the funds thereby paid; that it should also be noted that the Federal Government is receiving about four million dollars (\$4,000,000.00) annually as net profits from the fur seals of Alaska; that in view of all these facts, and in simple justice to the brave people of Alaska who are as nobly engaged in that pioneer development as were those who landed at Plymouth Rock or Jamestown, and the hardy pioneers who wrought the great development in the Mississippi Valley, the Rocky Mountain region, and the Pacific Coast, they should be extended the same benefits of the Federal Highway Act as is given to the people of the various states of this union.

Therefore, We, the Senate and the House of Representatives of the State of Washington, hereby endorse and approve the program of the Alaska Road Commission as one of the most important plans projected for the development of the territory, and we earnestly request that the Federal Highway Act be extended to Alaska, and the benefits of that fund be accorded to the territory on the same basis as to the several states of the union, not only because the construction of roads and trails in Alaska is of primal importance, and absolutely essential to the development of the territory, but also as an act of simple justice to the people of the territory, who contribute in taxes to the Federal Government, and to the funds provided for the Federal Highway Act, precisely on the same basis as the people of the various states of the union, and much greater in proportion to the population of the territory, and further, that pending the extension of the Federal Highway Act to the territory, we urge that Congress grant liberal appropriations to enable the Alaska Road Commission to perform the most valuable work for which it has been created, and in which it has been so successfully engaged.

The memorial was read the first time, and on motion of Senator Conner, the rules were suspended, the memorial was read the second time by title, ordered printed and referred to the Committee on Memorials.

House Joint Resolution No. 2, by Mrs. Miller, relating to the purchase of a group picture of the members of the legislature.

The resolution was read the first time, and on motion of Senator Landon, the rules were suspended, the resolution was read the second time by title, ordered printed and referred to the Committee on Appropriations.

MESSAGE FROM THE HOUSE.

HOUSE OF REPRESENTATIVES,
OLYMPIA, WASH., February 23, 1923.

MR. PRESIDENT:

The House has passed over the veto of the Governor, House Bill No. 34, entitled "An act relating to unplatted tide and shore lands and amending Section 8005 of Remington's Compiled Statutes."

And said bill and the Governor's message on the same are herewith transmitted.

C. R. MAYBURY, *Chief Clerk.*

OLYMPIA, WASH., February 21, 1923.

To the Honorable, the House of Representatives of the State of Washington, Olympia.

GENTLEMEN: I am returning you herewith without my approval House Bill No. 34, entitled "An act relating to unplatted tide and shore lands and amending Section 8005 of Remington's Compiled Statutes."

In line 7 of the enrolled bill, the word "of" is interpolated. There does not appear anything in the original bill, the printed bill, or the record to indicate any intention to add this word to the statute.

In line 8 of the enrolled bill is found the term "boom purposes". In the present law, this provision reads "booming purposes". There is no indication in the original bill, printed bill, or the record, to indicate any intention to change the word "boom" to "booming."

While in some instances the words "boom" and "booming" may be used interchangeably, I am of the opinion that in the present instance the word "booming" has a well defined meaning and clearly expresses the act of gathering, confining and booming into rafts, logs and other timber products, and holding them together with the aid of boom sticks for towing to market. On the other hand, the word "boom" as here used might be construed to mean merely a place where boom sticks are anchored or stored, and this would no doubt be the construction placed upon it by the courts by reason of the fact that the Legislature had changed the word "boom" to "booming."

Believing that the Legislature had no intention of any such change, this bill is vetoed.

Yours very truly,

(Signed) LOUIS F. HART, Governor.

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASH., February 23, 1923.

To the Honorable, the House of Representatives of the State of Washington, Olympia.

GENTLEMEN: On the 21st instant I returned to you without my approval, House Bill No. 34, entitled "An act relating to unplatted tide and shore lands and amending Section 8005 of Remington's Compiled Statutes."

The reason for vetoing this bill was the changes made without amendment, or intended amendment, to the law as contained in Section 8005 of Remington's Compiled Statutes.

Since delivering the bill with my veto message to the Chief Clerk of the House, I have ascertained that the author of this bill, Mr. Spencer, had properly drawn the bill to amend Section 2 of Chapter 118 of the Laws of 1921, but that an amendment was adopted by the House of Representatives changing it to amend Section 8005 of Remington's Compiled Statutes.

If the enrolled bill had contained the proposed amendment to the Session Laws of 1921, that act would have been compared with the enrolled bill, instead of comparison being made with Remington's compilation.

Reply upon the compilation by Mr. Remington as approved by this session of the Legislature, which ought never to be done, I vetoed this measure.

I sincerely trust that the Legislature will promptly pass this bill over my veto, as the veto was clearly erroneous and based upon Remington's Compiled Statutes.

Very truly yours,

(Signed) LOUIS F. HART, Governor.

House Bill No. 34.

An act relating to unplatted tide and shore lands and amending Section 8005 of Remington's Compiled Statutes.

Be it enacted by the Legislature of the State of Washington:

Section 1. That Section 8005 of Remington's Compiled Statutes be amended to read as follows:

Section 8005. Any lease under this act shall not be granted for a longer term than ten (10) years from the date thereof and shall be subject to termination upon a ninety (90) day notice in the event that the commissioner of public lands shall decide that said tide or shore lands are to be surveyed and platted. The commissioner of public lands shall, prior to the issuance of any such lease, fix an annual rental for

the lands so leased and prescribe the terms and conditions of said lease. Failure to use any of such lands leased for booming purposes under the provisions of this act, for boom purposes, for a period of more than one (1) year shall work a forfeiture of such lease and such land shall revert to the state without any notice or declaration of forfeiture.

At the expiration of any lease issued under the provisions of this section the lessee, his successor or assignee, shall have a preference right to re-lease the lands covered by the original lease (or such portions thereof as the commissioner of public lands shall determine, if he deems it for the best interest of the state to re-lease said lands for a further term) same may be re-leased for succeeding periods not to exceed five (5) years each at such rental and upon such terms and conditions as may be prescribed by said state commissioner of public lands.

Passed the House, February 1, 1923.

(Signed) MARK E. REED,
Speaker of the House.

Passed the Senate, February 7, 1923.

MESSAGE FROM THE HOUSE.

HOUSE OF REPRESENTATIVES,
OLYMPIA, WASH., March 2, 1923.

MR. PRESIDENT:

The House has passed Senate Bill No. 51, with the following amendments:

Amend the title, strike the period after the word "Code" and insert in lieu thereof a comma and the words and figures "and Section 3823 of Remington's Compiled Statutes, being Section 4524 of Pierce's Code."

Amend Section 1, strike everything after and including line 4 of the original bill, and insert in lieu thereof the following:

"Section 3805. Any two or more persons, who may desire to form a company for one or more of the purposes specified in either of the next two preceding sections, shall make and subscribe written articles of incorporation in triplicate, and acknowledge the same before any officer authorized to take the acknowledgement of deeds, and file one of such articles in the office of the Secretary of State, and another in the office of the County Auditor of the county in which the principal place of business of the company is intended to be located, and retain the third in the possession of the corporation. Said articles shall state the corporate name of the company, the objects for which the same shall be formed, the amount of its capital stock, the time of its existence, not to exceed fifty years: *Provided*, That this limit of existence shall not apply to any life, accident and health insurance company, the number of shares of which the capital stock shall consist, the number of trustees and their names, who shall manage the concerns of the company for such length of time (not less than two nor more than six months) as may be designated in such certificate, and the name of the city, town or locality and county in which the principal place of business of the company is to be located: *Provided Further*, That any corporation other than the one organized for banking savings and loan, trust company, insurance, guaranty or surety purposes, may have and issue shares of either common or preferred stock without any nominal or par value, subject to the provisions of this act. The articles of incorporation may provide that the stock of the corporation (except in the case of the corporations excepted in the last preceding proviso) shall consist wholly of stock having a par value or wholly of stock without nominal or par value, or partly of one class of stock and partly of the other class, and, in the case of non-par-value stock, they shall state the total number of shares of such stock. Non-par-value stock, where

authorized, may be issued by the corporation from time to time for such consideration, in labor, services, money or property, as may be fixed by the board of trustees pursuant to the articles of incorporation, or, if such articles shall not so provide, then by the consent of the holders of two-thirds of every class of stock then outstanding and entitled to vote. In case the articles of incorporation provide, in whole or in part, for non-par-value stock, the articles shall state the amount of capital (herein called "Initial Non-Par-Capital"), with which the corporation will begin to carry on business, which amount shall not be less than Five Hundred Dollars and shall be in addition to any amount of capital which may be designated for stock having par value, if any. Subscription of the amount of designated "Initial Non-Par-Capital" together with the subscription of the full amount of stock having par value, if any, shall be sufficient to authorize the corporation to commence business and, in the case of corporations having the power of eminent domain, to condemn land for corporate purposes. The liability of each subscriber to non-par-value stock, prior to the receipt by the corporation of the consideration to be received therefor as aforesaid, shall be his proportion (according to the number of shares) of the said designated "Initial Non-Par-Capital," and no more, unless a greater liability is stated in the subscription contract. After the "Initial Non-Par-Capital" shall have been paid up, the liability of a subscriber to non-par-value stock shall be such as shall be, or shall have been, mutually agreed upon between the corporation and the subscriber of the stock. The number of shares of non-par-value stock may be increased or diminished by the corporation from time to time by complying with the provisions of law relating to increase and reduction in capital stock, so far as the same may be applicable. Amendments may be made to the articles of incorporation by a majority vote of its trustees and the vote or written assent of two-thirds of the capital stock of such corporation. If the written assent of two-thirds of the capital stock has not been obtained then the vote of said stock may be taken at any regular meeting of the stockholders, or at any special meeting of the stockholders called for that purpose in the manner provided in the by-laws of such corporation for special meetings of the stockholders. The president and secretary of said corporation shall certify said amendments in triplicate under the seal of said corporation to be correct and file and keep the same as in the case of original articles and from the time of filing said amendments such corporation shall have the same powers and it and the stockholders thereof shall be subject to the same liabilities as if such amendments had been embraced in the original articles of incorporation.

Nothing contained in this section shall be construed to cure or amend any defect existing in any original articles of incorporation in that such articles did not set forth the matters required to make the same valid at the time of filing, nor to cure or amend any defect in the execution thereof. If the articles of incorporation of any corporation state a time of existence less than fifty years, its time of existence may be extended by amendment but not beyond a period of fifty years from the date of its incorporation.

Provided, That when valid articles of incorporation have heretofore been duly filed with the Secretary of State and errors have been made in the duplicate filed with the county auditor, such defects may be cured by filing with said county auditor, a certified copy of the original articles filed with the Secretary of State, and when said certified copy is filed, it shall have the same force and effect as though the duplicate had been filed with the county auditor at the same time the original was filed with the Secretary of State. Under the provisions of this section relating to amendments any corporation already existing at the time of making such amendment may avail itself of the provisions of this act relating to non-par-value stock, having due regard to the provisions of laws limiting the reduction of capital stock. In the case of a corporation whose stock is wholly or partly without par value, there shall be filed with the articles of incorporation the affidavit of one of the incorporators, or other representative of the corporation, stating that, to the best of his knowledge and belief, the value of the assets received and to be received by such corporation in return for the issuance of its non-par-value stock does not exceed a certain sum therein named, and the sum so named in such affidavit shall be assumed *prima facie* as the amount of capitalization represented by such non-par-value stock for the purpose of fixing the filing fees and annual license fees to be paid by such corporation under the laws of this state; *Provided*, That at any time within two years after the filing of such articles of incorporation, the Secretary of State may investigate and make a finding as to the value of such assets, and if the value of the assets received in consideration of the issuance of such non-par-value stock is found by him to exceed the amount stated in such affidavit,

such corporation shall pay to the Secretary of State the additional filing and license fees payable under the laws of this state, based on the excess of the true valuation, as so found, over the value stated in such affidavit, together with interest on such additional sum at the rate of eight (8) per cent per annum from the date when the same became due, such payment to be made within sixty (60) days after notice mailed by the Secretary of State addressed to such corporation at its last known address; and *Provided, further*, That such finding of the Secretary of State shall be subject to review on such evidence as the parties may submit to the court, if an action for such review be begun by such corporation in the superior court of Thurston county within said sixty (60) days. If such action be begun, such corporation shall be allowed sixty (60) days, after judgment of the court finally adjudging the matter, in which to pay any additional fees that may be payable.

Amend Senate Bill No. 51 by adding thereto a new section to be known as Section 2, as follows:

Sec. 2. That Section 3823 of Remington's Compiled Statutes, being Section 4524 of Pierce's Code, be amended to read as follows:

Section 3823. It shall not be lawful for the trustees to make any dividend except from the next profits arising from the business of the corporation, nor divide, withdraw, or in any way pay to the stockholders, or any of them, any part of the capital stock of the company, nor to reduce the capital stock of the company unless in the manner prescribed in this chapter, or the articles of incorporation or by-laws; and in case of any violation of the provisions of this section, the trustees, under whose administration the same may have happened, except those who may have caused their dissent therefrom to be entered at large on the minutes of the board of trustees at the time, or were not present when the same did happen, shall, in their individual or private capacities, be jointly or severally liable to the corporation and the creditors thereof in the event of its dissolution, to the full amount so divided, or reduced, or paid out: *Provided*, That this section shall not be construed to prevent a division and distribution of the capital stock of the company which shall remain after the payment of all its debts upon the dissolution of the corporation or the expiration of its charter:

Provided, further, That in the case of corporations whose stock is wholly or partly without any nominal or par value, the provisions of this section shall not apply to so much of the capital stock as is represented by such non-par-value stock, except in the amount of the designated "Initial Non-Par-Capital." The rights of creditors shall not be limited by the provisions of this section.

And the same is herewith transmitted.

C. R. MAYBURY, *Chief Clerk*.

On motion of Senator Wray, the Senate resolved itself into a committee of the whole to consider Senate Bill No. 292.

During the sitting in the committee of the whole, President pro tem Carlyon took the chair for the purpose of receiving the following message from the Governor:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASH., March 3, 1923.

Honorable Wm. J. Coyle, Lieutenant Governor, Ex Officio President of the Senate, Olympia, Wash.

Honorable Mark E. Reed, Speaker of the House of Representatives, Olympia, Wash.

GENTLEMEN: At the opening of the present session of the Legislature, in my message I directed the attention of the Legislature to the fact that there was on the 31st day of December, 1922, a balance in the General Fund of \$3,984,325.81.

On the 28th of February, 1923, there was a balance in the General Fund of the State Treasury of \$3,808,276.56.

If House Bill No. 215 passes both houses of the Legislature and the payments therein provided for are made; when all the payments authorized under Senate Bill No. 143 are made, and all the appropriations contemplated under Senate Bill No. 292, together with all other expenditures authorized and that will probably be authorized by this Legislature, are made, and the revenues for the first half of the coming biennium already provided for are collected, there should be in the General Fund, under a continuation of the present efficient management of the State departments and institutions, a sum in excess of \$2,000,000.00, on March 31, 1924.

Representatives of many of the good women of the State have presented to members of the Legislature, and especially to the members of the Appropriations Committees of the two houses, what they deemed the necessity of establishing a custodial school in Western Washington.

The Department of Business Control has likewise directed the attention of the members of the Appropriations Committees to the condition of the custodial school at Medical Lake.

I feel that I would be remiss in my duty if I allowed you to take up for consideration the supplemental budget without personally directing your attention to the financial condition of the State, as well as to the overcrowded population in the custodial school.

During the last two years with the erection of a new building, the population of the custodial school at Medical Lake has increased more than 200, or about 35 per cent. The present population of the school is 801 and it is filled to its utmost capacity. There are at the present time under commitment from constituted authorities in this State and applications for 121 mentally deficient children who cannot be accepted or admitted to the custodial school for the simple reason that we have no room for them.

For many years it has been the policy of this State to care for these unfortunate wards of the State and while I fully appreciate the demands for economy, I cannot believe that those demands justify us in ignoring the humane duty of taking care of these unfortunate children.

Very respectfully yours,

LOUIS F. HART, *Governor.*

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
 OLYMPIA, WASH., March 3, 1923.

To the Honorable, the Senate of the State of Washington, Olympia, Wash.

GENTLEMEN: I am returning to you herewith, without my approval, Senate Bill No. 61, entitled "An act granting the right of eminent domain to any state university, college or normal school, and to state penal, reformatory and charitable institutions."

Section 891, *et seq.*, Remington's Compiled Statutes, grants the power of eminent domain for acquiring property for the use of the state and all of its institutions, and in my opinion is ample for such purposes.

If it is the intention of the Legislature that the regents or board of trustees of the educational institutions shall have the right to exercise this power in acquiring title of any lands which they may deem it advisable to obtain for the use of such institutions, regardless of specific authority from the Legislature, then the bill should be vetoed.

If it is the intention to discriminate between the governing bodies of the various state institutions in the exercise of this power, then the bill should be vetoed.

If it is the intention of the Legislature to take the educational institutions from under the supervisory control of the chief executive of the state, then the bill should be vetoed.

Believing that this bill can serve no good purpose and for the reasons intimated above, Senate Bill No. 61 is vetoed.

Very truly yours,

LOUIS F. HART, *Governor.*

To the Senate and House of Representatives of the States of Washington and Oregon:

We, your Joint Committee, heretofore appointed to confer concerning legislation with reference to the fishing industry in the waters and streams over which said states have concurrent rights and jurisdiction, beg leave to submit the following report:

Your Joint Committee met in Seattle, Saturday, February 3, 1923, and after due deliberation we recommend:

That all laws appertaining to commercial fishing in the waters and streams over which said states have concurrent jurisdiction shall remain unchanged except in the following particulars, to-wit:

It is recommended that every purchaser or receiver of fish be required to take out a license, the fee of which shall be two dollars (\$2.00) per year; and that each buyer, purchaser or receiver of fish shall be required to pay a poundage fee of $\frac{3}{8}$ of a cent per pound on all species of fish except smelt, and that each buyer, purchaser or receiver of said fish shall keep a record in a form to be prescribed by the fish commissions of each state of the names and license number and kind of gear operated, of the persons from whom said fish are purchased, bought or received, and that any buyer, purchaser or receiver who falsifies or fails to keep such record or make such report shall have his license suspended or revoked, in addition to such other penalties that may be provided by law.

It is recommended that the mouth of the Columbia River be established by legislative enactment as follows:

Beginning at the present inshore end of the north jetty of the Columbia River to the knuckle of the south jetty on such river, which knuckle is approximately four miles westerly from the government dock at Fort Stevens. The said line will pass approximately $\frac{3}{4}$ of a mile westerly from buoy No. 10, as shown on Geodetic Survey No. 6151, dated January 5, 1917.

It is recommended that the Washington Legislature enact an alien law in conformity with the Oregon law.

It is recommended that the Oregon Legislature amend the law relating to the length of sturgeon which may be taken so that the minimum length will be four feet instead of three feet.

It is recommended that the Washington Legislature prohibit at all times fishing for salmon except with hook and line for sport fishing in the Columbia River or any of its tributaries each of its confluence with the Des Chutes River.

It is recommended that no trap or other fixed appliance shall be located within one mile below the mouth of the Cowlitz River nor shall any gill net be permitted to operate within a quarter of a mile from the mouth thereof.

It is recommended that the State of Washington fix a uniform gill net license fee of \$7.50.

It is recommended that the Legislature of both Oregon and Washington enact a law prohibiting the use of whip seines and trammel nets within the waters of the Columbia River.

It is recommended that the present laws of the State of Oregon prohibiting purse seining, trolling and other ocean fishing shall be continued and that the regulation or order of the fisheries board of the State of Washington prohibiting fishing in the waters within the three mile limit off the shores of Washington be continued and we further recommend that the legislature of the State of Washington grant to the fisheries board of the State the further right, power and authority to prohibit the importation into any given districts of said state fish caught outside the jurisdiction of said state by gear prohibited in the waters of said district.

It is recommended that the legislature of the States of Oregon and Washington enact laws permitting bass to be taken at any time in the Columbia River with any and all appliances licensed by law.

It is recommended that the legislatures of Oregon and Washington memorialize the legislature of the State of California to co-operate with the other Pacific Coast States in the conservation of the salmon fishing industry by prohibiting salmon fishing in the Pacific Ocean.

In conclusion, we suggest and recommend that a suitable bill, or suitable bills, be drawn immediately to present to the legislatures of the states hereinbefore made, and that said bills, carry an emergency clause so that the same shall be immediately effective as the fishing industry of the states mentioned will be hindered and injured unless such laws as we have suggested shall go into immediate effect, and that this report be immediately adopted, by resolution of both houses of each legislature.

Respectfully submitted,

REPORT OF CONFERENCE COMMITTEE.

SENATE CHAMBER,
OLYMPIA, WASH., March 8, 1923.

MR. PRESIDENT:

We, your Committee on Conference, to whom was referred Engrossed Senate Bill No. 292, entitled "An act making an appropriation for the maintenance of, and sundry expenses at the various state institutions and state offices, and for the sundry civil expenses of the state government and for miscellaneous purposes, and for the relief of certain individuals, firms and municipalities, for the fiscal term beginning April 1, 1923, and ending March 31, 1925, except as otherwise provided, and declaring that this act shall take effect April 1, 1923," have had the same under consideration, and we respectfully report the same back to the Senate with the recommendation that the Senate concur in the House amendments.

Reba J. Hurn, Daniel Landon, O. L. Olsen, W. M. Karshner, J. H. Davis, H. E. Goldsworthy.

On motion of Senator Swofford, the Senate adopted the report of the conference committee on Engrossed Senate Bill No. 292.

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 292 as amended, and it passed the Senate by the following vote:

Those voting aye were: Senators Adamson, Bishop, Christensen, Cornwall, Cox, Davis, Grass, Groff, Hall, Harrison, Hastings, Houser, Hurn, Johnson, Karshner, Lambert, Landon, McCauley, McMillen, Morthland, Murphy, Myers, Oman, Palmer, Post, Ryan, Sutton, Swofford, Westfall, Wilmer—30.

Absent or not voting: Senators Barnes, Carlyon, Cleary, Conner, Lunn, McCoy, Metcalf, Morris, Phipps, Rust, Sinclair, Wray—12.

When the name of Senator Karshner was called, he explained his vote as follows:

"The facts show conclusively that the items of \$4,200, for 'printing expert,' was previously allowed in the original budget for the office of secretary of state. To again allow this amount in the supplemental budget is only a subterfuge used to increase the funds of this department by that amount.

"The 'inheritance tax' item of \$20,000 00, introduced by House amendment, was taken care of in the original budget by an allowance of \$18,100.00 in the budget of the attorney general. This item, therefore, also appears twice in our appropriations, and to avoid duplication, \$18,100.00 should have been deducted from the budget allowance of the attorney general.

I concurred in the conference report to the above duplications rather than subject the supplemental budget to the dangers incident to free conference."

The bill, having received the constitutional majority, was declared passed.

There being no objection, the title of the bill was ordered to stand as the title of the act.

The Secretary read:

We, members of the conference committee on behalf of the Senate, still feel that those counties in which the municipally-owned utilities operate and which lose their plants from the tax rolls are entitled to half of the gross earnings tax to be paid under the provisions of this bill. However, we have been advised by the attorney general that we cannot make such a provision in this bill without jeopardizing the

constitutionality of the excise tax provision. Therefore, in recommending the passage of House Bill No. 126 as amended in the free conference, we also recommend that future legislatures, keeping in mind the loss of taxes by the counties in which the municipally-owned utilities operate, meet this situation by passing appropriate relief bills.
