LETTER OF RESIGNATION

January 11, 1988

Honorable John A. Cherberg
President of the Senate and Members of the Senate
Senate Chamber
Olympia, Washington

Dear Mr. President and Members of the Senate:

This is to submit my resignation as President Pro Tempore of the Senate, effective with the convening of the 1988 session of the 50th Legislature.

It has been a great pleasure for me to serve the Senate in this capacity.

Sincerely yours,
A. L. RASMUSSEN, State Senator,
29th District

There being no objection, the resignation of Senator A. L. Rasmussen as President Pro Tempore was accepted.

ELECTION OF PRESIDENT PRO TEMPORE

The President declared nominations to be open for President Pro Tempore of the Senate.

REMARKS BY SENATOR ZIMMERMAN

Senator Zimmerman: "Mr. President, I would like to place in nomination the name of Senator Alan Bluechel as President Pro Tempore, and I'd like to speak to that motion. Mr. President and members of the Senate, historical research tells us that since 1889, there have been fourteen Speakers Pro Tempore from King County and there have been eleven Presidents Pro Tempore from Clark, Skamania and Klickitat Counties. Most of the strength has been, of course, in two big men—one from King County who was Senator Victor Zednick—years ago—and another big man was Senator Al Henry from Klickitat County.

"Now, these two men were a very dominant factor in terms of the number from their particular areas, but I think at this point we need to recognize that there was also a factor at least in two of the men who have served in this office. The name Al, Alan—Al is a factor. Al Henry was a Senator from White Salmon; A. L.—Al—"Slim" Rasmussen has an obvious Al to it. We now turn to Senator Alan Bluechel. He has been noted as a winter recreation leader and a lot of other things, but I want to recall for you who remember, Senator Bluechel was first elected Representative Alan Bluechel in the House of Representatives in the majority in 1966. At that time, he spent his evenings in the cafeteria learning about how to pass legislation from, then majority floor leader, Slade Gorton. He was later appointed to the State Committee Chairmanship and very productively—he was an extremely energetic man—worked evenings and produced. At that time, it was quite a feat to do that, but he had more legislation than any other chairman in the House of Representatives.

"We've changed our views on quality versus quantity since then. He was also a prime mover in the very, very important Washington Futures Program. He was one of the real leaders in that program and that probably did more for the environment for the state of Washington than any program we've probably done since. He was a leader in the Washington State Planning Commission and toured the country talking about the subject of land planning and land use and he proposed a measure that passed the House rather extensively, but did fail in the Senate Chamber.

"Senator Bluechel was also the patient architect of the SEPA bill, the State Environmental Policy Act which, those of you who've been around here for these many years recognize, was a measure that passed these two bodies after considerable effort on the part of a great ad hoc group and very, very extensive work on the part of Senator Bluechel. He led our Senate Republican Caucus in the fields of the Clean Water Act and the Superfund Act and he has the background of having been captain of the University of British Columbia ski team. He is obviously well qualified to assume the present chairmanship of the Washington Recreation Commission and he is a leader in that field, as we all well know, and he is going to bring the potential of that to this state.

"His four terms in the House and in the Senate and with his observation of Senator Henry, Senator Guess, Senator Goltz and Senator Rasmussen, I'm sure that Senator Bluechel will be able to serve this office with dignity and dispatch and I recommend him for your approval as President Pro Tempore."

REMARKS BY SENATOR CANTU

Senator Cantu: "Thank you, Mr. President. I rise to second the nomination of Senator Bluechel. Senator Zimmerman, thank you very much. You covered his background very well and I won't go into that, but I think it is important though to touch on the fact that after four terms in the House and now on his fourth term in the Senate, Senator Bluechel has developed the skills that he will need to run this place. I've known Alan—Senator Bluechel—for a long time. I think one of the things that has been very important to me and very impressive to me has been the dignity of this body and Senator Bluechel will continue that tradition. He is highly respected in his community; he is highly respected in this group and in this body. I have always known him to be fair; he always has time to listen. When I was new

here, he was always available to me if I had questions--always helping me to do a better job here and a better job of serving the public. He has conducted himself in an exemplary manner. He has always been very professional and he has always been dedicated and always been very fair. I think those characteristics will serve him well as President Pro Tempore of this Senate."

MOTION

On motion of Senator Newhouse, the nominations for President Pro Tempore were closed.

ROLL CALL

The Secretary called the roll and Senator Alan Bluechel was elected President Pro Tempore of the Senate by the following vote: Yeas, 47; absent, 2.

Voting yea: Senators Anderson, Bailey, Barr, Bauer, Benitz, Bluechel, Cantu, Conner, Craswell, Deccio, DeJamatt, Garrett, Gaspard, Halsan, Hansen, Hayner, Johnson, Kiskaddon, Kreidler, Lee, Madsen, McCaslin, McDonald, McMullen, Metcalf, Moore, Nelson, Newhouse, Niemi, Owen, Patterson, Pullen, Rasmussen, Rinehart, Saling, Sellar, Smith, Smitherman, Stratton, Talmadge, Vognild, von Reichbauer, Warnke, West, Williams, Wojahn, Zimmerman - 46.

Absent: Senators Bender, Fleming - 2.

APPOINTMENT OF SPECIAL COMMITTEE

The President appointed a committee of honor consisting of Senators McDonald and Garrett to escort Senator Bluechel to the rostrum.

Justice Robert F. Brachtenbach of the Washington State Supreme Court administered the oath of office to President Pro Tempore Bluechel.

REMARKS BY THE PRESIDENT

President Cherberg: "It is indeed a pleasure to present to you at this time, the Honorable Senator Alan Bluechel."

REMARKS BY PRESIDENT PRO TEMPORE BLUECHEL

Senator Bluechel: "Thank you, President Cherberg. I stand here with a little amazement because twenty-two years ago when I was first elected to the House of Representatives and sitting in the second row from the back with Tim Hill on one side and Senator Zimmerman on the other, little did I ever think I would be up here addressing the Senate of the state of Washington as President Pro Tempore. You have done me a great honor. It is something I will never forget, even though as Senator Rasmussen says the life span may or may not be extended or shortened depending on the vagaries of life. To all of you, I intend to try and do the best job I am capable of. I have two masters to follow. Senator Rasmussen, you have done a great job. We all sit back and look in amazement with your handling of this body and Governor Cherberg, you are the ultimate master. I don't think, in the history of this state, there is anyone who has been able to say that they've patrolled the Senate like Governor Cherberg. You'll go down in history as the best there ever was."

"There's only one minor question that I have and that is, I understand that the Lieutenant Governor, when he assumes the office of Governor, gets paid as the Governor. I wonder if that applies to the President Pro Tempore? Thank you very much for this great honor."

REMARKS BY THE PRESIDENT

President Cherberg: "I wish to thank you, Senator Bluechel, for your very generous remarks and also the members the Senate, and to wish you very well. I'm sure you'll be a great success in your new position. Thank you so very much."

The committee of honor escorted President Pro Tempore Bluechel to his seat in the Senate Chamber and the committee was discharged.

MOTION

On motion of Senator Bauer, Senators Bender and Fleming were excused.

LETTER OF RESIGNATION

January 11, 1988

The Honorable John A. Cherberg
Lt. Governor, State of Washington

Members, Washington Senate
Legislative Building
Olympia, Washington

Dear Lt. Governor Cherberg and Fellow Members:

I hereby resign my position as Vice President Pro Tempore of the Washington Senate, effective January 11, 1988.

Please know that I fully enjoyed and respected the honor of serving in this office and extend my best wishes to my successor.

There being no objection, the resignation of Senator Al Bauer as Vice President Pro Tempore was accepted.

ELECTION OF VICE PRESIDENT PRO TEMPORE

The President declared nominations to be open for Vice President Pro Tempore of the Senate.

REMARKS BY SENATOR McCASLIN

Senator McCaslin: "Mr. President, ladies and gentlemen of the Senate, it's with honor and a great pleasure to place in nomination, for the office of Vice President Pro Tempore, Senator Ellen Craswell. I must apologize to the body and President that I don't have the expertise and historical perspective of Senator Zimmerman. When Senator Zimmerman finishes, I always feel like I've been on vacation or through the halls of the state library or the halls of the political history of the state of Washington, so I beg your forgiveness.

"Senator Craswell has represented the Twenty-third District in the Senate for eight years. This is her eighth year and she represented the Twenty-third District in the House for two terms or four years and to borrow some words from our most honorable President, 'She is most gracious, beautiful and charming,' and I would add intelligent, dedicated and motivated to serve this Senate. I would ask you for your support and vote for Senator Craswell."

REMARKS BY SENATOR DECCIO

Senator Deccio: "Senator McCaslin took half of what I was going to say, but I'll finish with the other half. Ellen is very much appreciated and is very much respected in our caucus. She has been a real team player and we recommend to you the approval of her as Assistant Pro Tempore. I know that she will honorably and respectfully represent this body."

REMARKS BY SENATOR METCALF

Senator Metcalf: "Thank you, Mr. President, and members of the Senate. It's a real pleasure to second the nomination of Senator Ellen Craswell. It's been a pleasure to serve with her, now eight years, in the Senate. She's a good friend; she has served this state well with vision, integrity, and compassion and I urge you to vote for her."

MOTION

On motion of Senator Newhouse, the nominations for Vice President Pro Tempore were closed.

ROLL CALL

The Secretary called the roll and Senator Ellen Craswell was elected Vice President Pro Tempore of the Senate by the following vote: Yeas, 47; excused, 2.

Voting yea: Senators Anderson, Bailey, Barr, Bauer, Benitz, Bluechel, Cantu, Conner, Craswell, Deccio, DeJarnatt, Garrett, Gaspard, Halsan, Hansen, Hayner, Johnson, Kiskaddon, Kreidler, Lee, Madsen, McCaslin, McDonald, McMullen, Metcalf, Moore, Nelson, Newhouse, Niemi, Owen, Patterson, Pullen, Rasmussen, Rinehart, Saling, Sellar, Smith, Smitherman, Stratton, Talmadge, Vognild, von Reichbauer, Warnke, West, Williams, Wojahn, Zimmerman - 46.

President Cherberg: "Honored members of the Senate, ladies and gentlemen, it's indeed an honor to present Ellen Craswell as Vice President Pro Tempore. You have my heartiest congratulations and it is quite evident everyone else is pleased with you. I believe you have to be the first lady elected Vice President Pro Tempore. If not, you're at least the loveliest."

REMARKS BY VICE PRESIDENT PRO TEMPORE CRASWELL

Senator Craswell: "Thank you very much. It truly is an honor and a privilege for me to have your support to serve in this office. It's been a special time for me. I've spent eight years sitting and looking at the back of all of your heads. Perhaps now, I'll have a chance to see the other side. Thank you again. It really is a pleasure for me and truly an honor. Thanks for your support."

The committee of honor escorted Vice President Pro Tempore Craswell to her seat in the Senate Chamber and the committee was discharged.

LETTER OF RESIGNATION

January 11, 1988

Lieutenant Governor John A. Cherberg
and Members of the Washington State Senate

Ladies and Gentlemen:

I hereby resign my position as Secretary of the Senate effective January 11, 1988, at 12:00 o'clock noon.

I am honored to have had the opportunity to serve in this capacity, and I wish my successor the very best.

Sincerely,
SID SNYDER

There being no objection, the resignation of Sid Snyder as Secretary of the Senate was accepted.

ELECTION OF SECRETARY OF THE SENATE

The President declared nominations to be open for Secretary of the Senate.

REMARKS BY SENATOR HAYNER

Senator Hayner: "Mr. President, I would like to place in nomination the name of Gordon Golob for the office of Secretary of the Senate. I think most of the Senators on this floor know Gordon Golob very well, with the possible exception of a few of the very new ones who have just been recognized today, but Gordon has been here for sixteen years. He was first employed on January 19, 1973, by former Senator Perry Woodall. He first served in the capacity as a monitor for the Judiciary Committee for the Republican Caucus. He was not in that position very long when he became the caucus attorney and from there he has served in a variety of legal positions.

"What you probably do not know, are some of his other contributions to his community and to the United States. He was a deputy prosecutor. He has been in a law firm--a private law firm--in Tacoma for eleven years, the law firm of McCarthy, Holum, Golob, Causseaux and Rourke. He has served for twenty-five years in the United States military service and was in active duty in Vietnam during which time he flew fifty combat missions. He is now a full Colonel in the United States Air Force Reserves at McChord and is the Deputy Commander of six squadrons with six hundred personnel. He is the author of three books which he has written since he's been around these halls. One was a manual on the District Court, one was an analysis of the Revised Criminal Code of Washington, and the third was as

the result of the Juvenile Justice Act which was passed in 1977—and it was a manual to provide the information on how to implement that.

"Gordon is a man of great integrity, honesty and sincerity. He is a workaholic. If you've ever been around him, and regardless of the party, you can depend on him to be your friend and to give you straight answers when you ask for them. I certainly am very pleased to have the opportunity to make this nomination."

REMARKS BY SENATOR SELLAR

Senator Sellar: "Thank you, Mr. President, I would like to take this opportunity to second the nomination of Gordon Golob for the Secretary of the Senate. Certainly, Senator Hayner has gone over his qualifications. I think we are fortunate, because Secretary Snyder's shoes are difficult to fill. We all have a great deal of reverence for Sid Snyder and the job that he has done. We think we are fortunate in having Gordon Golob to attempt to fill those shoes—and besides that, Gordon speaks fast."

REMARKS BY SENATOR VOGNILD

Senator Vognild: "Thank you, Mr President, while I might question the wisdom of changing the Secretary of the Senate, that decision has in fact been made and I'd like to say, that based on the actions of the Secretary of the Senate designee over the last three weeks, I think that the choice is a good choice and would encourage support of this nomination."

REMARKS BY SENATOR METCALF

Senator Metcalf: "Thank you, Mr. President and members of the Senate. I would like to also second the nomination of Gordon Golob. I was here when Gordon came to the Senate. In fact, I was sitting in this same seat, which shows that I haven't progressed very much. You've done better than I have. I've gotten good legal advise every time I've asked Gordon for legal advise and I think that is pretty exceptional for a lawyer. I urge your support for Gordon Golob."

MOTION

On motion of Senator Newhouse, the nominations for Secretary of the Senate were closed.

ROLL CALL

The Secretary called the roll and Gordon Golob was elected Secretary of the Senate by the following vote: Yeas, 47; excused, 2.

Voting yea: Senators Anderson, Bailey, Barr, Bauer, Benitz, Bluechel, Cantu, Conner, Craswell, Deccio, DeJarnatt, Garrett, Gaspard, Halsan, Hansen, Hayner, Johnson, Kiskaddon, Kreidler, Lee, Madsen, McCaslin, McDonald, McMullen, Metcalf, Moore, Nelson, Newhouse, Niemi, Owen, Patterson, Pullen, Rasmussen, Rinehart, Saling, Sellar, Smith, Smitherman, Stratton, Talmadge, Vognild, von Reichbauer, Warnke, West, Williams, Wojahn, Zimmerman - 46.

Excused: Senator Bender, Fleming - 2.

APPOINTMENT OF SPECIAL COMMITTEE

The President appointed a committee of honor consisting of Senators McCaslin and Gaspard to escort Gordon Golob to the rostrum.

Justice Robert F. Brachtenbach of the Washington State Supreme Court administered the oath of office to Secretary of the Senate Gordon Golob.

REMARKS BY THE PRESIDENT

President Cherberg: "It is indeed a pleasure to present to you one of the finest men I have ever met, Gordon Golob. Heartiest congratulations to you."

REMARKS BY SECRETARY OF THE SENATE GOLOB

Gordon Golob: "Thank you, Governor, and thank you all for your vote of confidence. I know this was a difficult vote for some to take. Sid Snyder has been with us, I think, since 1949, through some fifty-two to fifty-three sessions. I've got sixteen years and I think I'm on my twentieth session. In order to take over for Sid, you know I have to fine tune my managerial and my administrative skills, my legislative skills and my political skills, but I will enroll in Story Telling and Memorization

101 as soon as possible. I know I will never be able to fill that man's shoes. Thank you for your vote of confidence."

The committee of honor escorted Secretary of the Senate Gordon Golob to his place on the rostrum.

PERSONAL PRIVILEGE

Senator McCaslin: "Mr. President, a point of personal privilege. I think it would be inappropriate not to say a few words about Sid Snyder--being of opposite parties, but not really being as opposite as some people might think. When I arrived here in 1981, I wasn't house-broken, in fact, not even Senate-broken, but I've been working on it. I was told by a fellow named Jim Feeney to be sure and look up Sid Snyder, because Sid was one of the most knowledgeable and one of the most cooperative people in the State Senate--and Sid, your jokes are getting worse, so I think it's time. Sid, I look forward to working with you for another sixty days and, hopefully, we will always be friends. I think I speak for everyone on the floor here. Thank you very much for your years of service."

LETTER OF RESIGNATION

January 11, 1988

Lieutenant Governor John A. Cherberg
and Members of the Senate

Ladies and Gentlemen:

I hereby resign my position as Sergeant at Arms of the Senate effective January 11, 1988, at 12:00 o'clock noon.

There being no objection, the resignation of O. F. "Ole" Scarpelli as Sergeant at Arms was accepted.

ELECTION OF SERGEANT AT ARMS

The President declared nominations to be open for Sergeant at Arms of the Senate.

REMARKS BY SENATOR ANDERSON

Senator Anderson: "Thank you, Mr. President. Ladies and gentlemen of the Senate, I would like to place the name of Mr. George LaPold in nomination for the office of Sergeant at Arms and I would like to speak to that point, please. Mr. LaPold comes to us in Olympia with thirty-three years of military experience to his credit. These include twenty-two years as an Army Reserve officer and Mr. LaPold has also had a top secret military clearance. From 1952 until the present, George has been employed in the area of law enforcement and security. George has had experience in the juvenile division, narcotics division and traffic analysis. He was an aide to the chief of police and has worked in labor relations within the law enforcement field. Mr. LaPold has served in eight different officer positions within the Alhambra, California, Police Officers Association. He, being in law enforcement though, is not new to the legislative process. He has worked within the legislative arena in California as a legislative contact for the police officers association and he has also lobbied legislative bills affecting law enforcement.

"Mr. LaPold, in 1984, was listed in Who's Who in Law Enforcement. I'm proud to announce that he is now a resident of Whatcom County. Ladies and gentlemen of the Senate, I commend to you, George LaPold, as the Sergeant at Arms."

MOTION

On motion of Senator Newhouse, the nominations for Sergeant at Arms were closed.

ROLL CALL

The Secretary called the roll and George LaPold was elected Sergeant at Arms of the Senate by the following vote: Yeas, 47; excused, 2.

Voting yea: Senators Anderson, Bailey, Barr, Bauer, Benitz, Bluechel, Cantu, Conner, Craswell, Deccio, DeJarnatt, Garrett, Gaspard, Halsan, Hansen, Hayner, Johnson, Kiskaddon, Kreidler, Lee, Madsen, McCaslin, McDonald, McMullen, Metcalf, Moore, Nelson, Newhouse, Niemi, Owen, Patterson, Pullen, Rasmussen, Rinehart, Saling, Sellar, Smith, Smitherman, Stratton, Talmadge, Vognild, von Reichbauer, Warnke, West, Williams, Wojahn, Zimmerman - 46.

Excused: Senator Bender, Fleming - 2.

The President appointed a committee of honor consisting of Senators Metcalf and Conner to escort George LaPold to the rostrum.

Justice Robert F. Brachtenbach of the Washington State Supreme Court administered the oath of office to Sergeant at Arms George LaPold.

President Cherberg: "Congratulations George, won't you say a few remarks here? You're big and strong."

REMARKS BY SERGEANT AT ARMS LAPOLD

Sergeant at Arms LaPold: "Ladies and gentlemen, I feel very honored to be working with and for you in the Senate of the state of Washington. We will try our best to improve the security for you, your aides and the people working for you. Thank you."

The committee retired to the House of Representatives.

There being no objection, the President reverted the Senate to the fourth order of business.

The House said you could have more. If you adopt the resolution, it's limited to three. You're going to have a special dispensation? Thank you."

I'm sorry that a little intervening business has passed, but I would be remiss if I didn't say how much we have appreciated the diligence and the work of Mr. "Ole" Scarpelli as Sergeant at Arms. He has been really responsive to every member of this body and I think we owe him a debt of gratitude for the service he has given to the Senate. Thank you."

PERSONAL PRIVILEGE

Senator Hansen: "Mr. President, a point of personal privilege. It's my privilege to talk on our centennial that's coming up. I just became conscious of the Admission's Convention that will be held in Ellensburg in 1989. There was a posse that took invitations for the Admission's Convention from Ellensburg to the airport at Yakima and sent them to our national delegation and also to the President of the United States. They rode into Olympia yesterday at 2 o'clock and presented us with a packet of invitations and then invited the Governor and the Governor's wife, who is co-chairperson of the Centennial Commission.

"It's my duty to invite the Senate, the first week of January, 1989, for our Centennial Convention or centennial acceptance that was accepted—I think it was November 11, 1889—that Washington became the 42nd state. This Admission's Convention honoring this event takes place January 3, 1989.

"There were delegates from Washington Territory that met in Ellensburg. The result was one of the most important and by far the most representative convention ever held in the territory of Washington. It was called the 'Admission's Convention.' The outcome was a resolution that asked that the Washington Territory become a state and that it be called Washington. Congress passed the appropriate legislation November 11, 1889, and Washington became the 42nd state to join the Union. You'll be getting a follow up invitation to the 'Admission's Convention' to be held in Ellensburg the first weekend in 1989. I hope you mark it on your calendar. Thank you."

STATE OF THE STATE ADDRESS
BY GOVERNOR BOOTH GARDNER

Governor Gardner: "Mr. President, Mr. Speaker, Mr. Chief Justice, distinguished Justices of the Supreme Court, members of the Legislature, honored elected officials and fellow citizens of the state of Washington. Tonight marks the beginning of my fourth year on the job. The long hours that come with this job seldom give you the time you'd like to have with your family. I am fortunate to have an understanding and equally hardworking partner, my wife Jean. She is co-chairing the Centennial Celebration with Secretary of State Ralph Munro, and devoting countless hours to improving the quality of children's television and family viewing practices. I don't say it often enough, but I'll say it tonight, "Thank you, Jean, this job would be impossible without you."

"In six days, our state will join the nation in celebrating the birthday of a truly great American. Dr. Martin Luther King never held public office. He was not interested in accumulating wealth. He had something much greater, much stronger than position or riches—he had a dream, and an unparalleled ability to articulate that dream. His dream was dedicated to the ideals of freedom and justice for all. It was a dream based on his desire to leave the world a better place for our children.

"Let us use the occasion of Dr. King's 59th birthday, not only to remember the man and his many contributions, but also to rededicate ourselves to a common purpose. Let us use this opportunity to remember the importance of having a dream—a vision that we use to measure all of our actions—an overriding vision, like Dr. King's, that places children at the top of this state's social agenda. Many children are at serious risk today because the structure that historically supports them—family, education and the economy—is undergoing dramatic change. We must make sure that our children are not victims of this change.

"Which brings me to tonight's topic, my vision for Washington's future, a future that is only as healthy and as bright as our children. It is a vision that is probably shared by everyone of us in this room. I dream of an education system that is the finest in the world, of a safe and clean environment, of a government that is a waste-free service organization, one that can provide vital services wherever they are needed. I hope for a business climate that offers employment to every citizen that wants a job, because the best welfare program is a job. I hope for a strengthening of the family, because the best social service system in the world is a strong, healthy family.

"This isn't just my dream; it's the dream of people throughout this state. In Othello and Sedro Woolley, Sunnyside and Port Angeles, and countless other communities across our state, I have heard people articulate this dream. From the day care center operator in Mt. Vernon, struggling to make ends meet, to the unemployed logger in Raymond wanting to go back to work, to a farmer in Ritzville with bushels of surplus wheat on the ground, I have heard this dream. We all have different needs and aspirations, but there is one dream, one concern we all share. That is a concern for our children, an overwhelming desire to provide them with an even richer quality of life and greater opportunity to succeed, than we enjoy today. Achieving this dream will take time and effort, cooperation and commitment. Here in Washington, we are blessed with a solid foundation for making our dreams a reality.

"Tonight, I'm going to give you an open appraisal of the state of our state. On balance, we are in fairly good economic condition. I say on balance, because there is both good and bad. There is still hunger, poverty and illiteracy in Washington. Walk the streets of any city in this state, visit a crowded mission, go to a mill town where they have twenty percent unemployment, and you will better understand that the challenge of offering the American dream to every citizen is still a distant goal. We have thirty-nine counties in this state. Twenty-one, over half, meet the definition of 'economically distressed areas.' In Washington, D.C., those numbers are statistics. In Washington State, those numbers represent real human beings, with real human needs. The challenge is to help provide the opportunity for every one of us to make the most of our lives.

"There is reason for optimism tonight. Statewide employment in 1987 hit an all-time high. For the first time in our state's history, we employ over two million people. Unemployment hit its lowest annual average since 1980. The timber industry is once again growing, and our aerospace industry is coming off a record breaking year. Despite growing national trade deficits, our exports are up. Our number one industry, agriculture, is coming off a generally good year and the promise of an even better year in 1988 is on the horizon. Washington farmers are diversifying their crops and are finding new markets in Asia and around the world. Finally, we have a developing advanced technology industry that is rapidly moving Washington to the cutting edge of world research and technology--technologies that will not only provide more jobs, but have a major influence in keeping our natural resource industries, like timber and agriculture, competitive.

"Those are a few of the reasons why I speak with optimism tonight, but much of my optimism comes as a result of what we've been able to accomplish over the last three years. Accomplishments that were the result of a collective effort by all of us, including legislators, concerned citizens and state employees. Everything we have accomplished has occurred because we were able to replace partisanship with partnership. That continues to be our challenge, to raise the policy debate beyond petty partisanship to a plateau that will allow us to focus on the future. We must find, through debate, discussion and disagreement, a common ground and the courage to do whatever it takes to get us there.

"Since the first day of my administration, I have had three goals, all critical to the future of our state. They are quality education, a clean and safe environment, and economic opportunity for all Washington citizens.

"Education is the fuel that propels democracy. The most important investment a state can make is in its human resources, and the best time to make that investment is at the front end of a person's life. Without quality education, a child faces overwhelming odds against success. It is literally like trying to run a fifty-yard dash with one hundred pound weights on your ankles. You'll be lucky to finish, let alone win. If you find that hard to believe, go down to your local jail, go to your local drug abuse center, go to your welfare office and ask how many of them have a high school diploma. During the past three years, we have embarked on the most ambitious education effort this state has ever seen. We created, funded and then doubled a state early childhood education program for children in poverty, and we reduced class sizes in kindergarten through third grade. We provided funding for dropout prevention, as well as drug and alcohol abuse prevention programs. We've established new competency test requirements and we've increased salaries for beginning teachers. We increased higher education salaries to stop the brain drain from our colleges and universities, and have embarked on the largest construction and renovation program in the history of the community college system. With our ground breaking Schools for the 21st Century program and a higher education master plan, we are establishing a road map that will lead the entire state's education system into the 21st Century.

"We still have a long way to go. Last year was not the end of our educational improvement efforts. It was a tremendous beginning to a long-term effort which, we all hope, will lead to the day when our school system is the best in the country. Our children must leave our school system with the ability to think critically and self teach. Further, we must instill in our children a respect for human dignity, give them a sense of history, explain to them the responsibilities of living in a democracy, and make sure that they recognize the importance of honesty, integrity and hard work. Our future as a state is only as bright as our children. That's why we put education in its rightful position as the number-one priority.

"Washington is probably the most environmentally conscious state in the country and the reason is as obvious as Mount Rainier. Our natural environment is one of the most breathtaking in the world. It is an environment that is critical to our quality of life, to our economy and to our future, but it is a natural heritage at constant risk. For too long, the environment was taken for granted. Raw sewage was poured into our waterways, chemicals were used on our forests and fields without discretion, and garbage was dumped wherever it was convenient. Now, we recognize that those practices have endangered our way of life.

"Today, we are taking swift and sure action to turn the tide on yesterday's environmental mistakes. Through careful planning, we can balance economic goals and environmental protection, but when balancing the two concerns, the scale must always tip in the direction of the environment. We owe that to our children.

"We have achieved many environmental successes. We have established ongoing financing to clean and protect our state's valuable water resources--from Puget Sound to the Spokane Aquifer. We have established a state superfund law which is expediting cleanup of hundreds of hazardous waste hotspots all over Washington and, even more importantly, the bill funds a prevention program that will enable us to avoid new hazardous waste problems in the years to come. We have reached an historic timber, fish and wildlife agreement--an alliance among environmentalists, fishing interests, the timber industry and Indian tribes to protect and improve our rivers, our streams and our wildlife. With a strong, unified voice, we helped persuade the federal government to take Washington off their list as a site for the nation's high-level nuclear waste repository.

"Economic development--every single one of our economic development programs is based on one simple truth, 'Washington won't work, if her people aren't working.' We've created a welfare reform program for family independence which is the model in this country, one that will improve the lives of countless children in poverty and give their parents the dignity and economic stability of employment. I am pleased to report that the program was approved by Congress, the only state program approved by Congress, and with the help of this Legislature, the Family Independence Program will begin on schedule later this year.

"We authorized and have begun work on agricultural trade centers in Spokane and Yakima and we have significantly expanded our efforts to market Washington products abroad. We have created economic development incentives for businesses, in-state as well as out-of-state incentives that have already led to investments in areas such as Anacortes, Goldendale, Longview, Pend Oreille County, Port Angeles, Chehalis, and many other communities across the state--investments which have saved or created jobs--jobs that preserve the stability for countless Washington families.

"In addition to these successes, we have made other gains in other areas. The Legislature created a pilot health-care program for those who cannot afford health-care coverage, the first program of its kind in this country. We have improved consumer protection laws and strengthened penalties for numerous crimes from drunk driving to child abuse and we will continue to strengthen them. We have also taken numerous steps to cut waste out of government. One simple fact, if we are to effectively provide critical services in the years to come, we must spend the taxpayers' money as wisely and as efficiently as possible.

"I could spend this entire speech listing other steps we've taken to improve government services and efficiency. Instead, I've given each legislator a list of some of our major improvement efforts over the last three years and I extend an invitation to everyone watching tonight to write or call my office for your own copy. These accomplishments make an impressive foundation for our future. Our challenge is to continue building on that foundation and to do so within existing revenues.

"During this session, I am proposing that we increase penalties for sex crimes involving children, including child rape. The bill recognizes that many criminals don't use force to intimidate a defenseless child into a sex act. This legislation is a moral imperative for 1988. Further, I'm asking the Legislature for one million dollars to finance AIDS education in our schools, other public education efforts and to finance case management recommendations that came from the AIDS Task Force. It is absolutely necessary to do all we can, within fiscal reality, to ensure that our children and the general public fully understand this deadly virus.

"I am submitting a bill that will allow the state to supervise intensely some of the most hardened and dangerous criminals, including sex offenders, murderers and drug dealers. Currently, the state has no authority to monitor them after they are released from prison. That must change, and that will change, with the passage of this bill. There are numerous other items that deserve attention this session.

They include the state employees health benefits system, wetlands protection and restoring funds to fight forest fires. Each of these items is important.

"As I mentioned earlier, I spend a great deal of time with private citizens across this state. One thing is clear, they are tired of partisan, squabbling politics. They want a state government that will see beyond the end of its political nose—the next election. They want leaders who are willing to set priorities, to make tough choices and to prepare this state for the future.

"Tonight, let us commit ourselves and this legislative session, to a common purpose, to a general good. Let us judge legislation by how it affects our future as a state. The choices we make during the next few years will dramatically influence Washington's position in the years to come. Let us use the occasion of Washington's Centennial Celebration to reflect upon the past and to redouble our efforts to establish our state as an international trade center for the Pacific. Let us use the Pacific Celebration activities to promote Pacific Rim cultural and political exchanges and international friendship. Let us use our 100th birthday celebration to step up to the challenges that will influence the second century—challenges such as successfully competing in a rapidly expanding global economy.

"We know that to succeed in the 21st Century, we have to have a quality education system, because our kids in this state are not competing against kids from Oregon and Idaho for jobs. They are competing for jobs against children from countries like Japan, Korea, West Germany and Canada. One man who fully understood this challenge was Western Washington University's President, Bob Ross. His vision, his dedication, resulted in Western's recent selection as one of the finest universities in the country. In Bob's memory, I would like to announce tonight the formation of the G. Robert Ross Memorial Scholarship to assist talented community college graduates to recognize their dreams of a four-year college education. I encourage businesses and individuals to join me in contributing to this worthy cause.

"We must develop a viable transportation system in this state. Our traffic problems, which are already interminable, will do nothing but get worse as we progress into the next century. I want to see the day when we can walk down the steps of this building and step onto a mass transit system which will take us to Tacoma, Seattle and beyond. Planning isn't enough. In the not-so-distant future it will be mandatory that we build a rail system that spans most, if not all, of the I-5 corridor.

"We must prepare for a rapidly growing senior citizen population. We must find better ways to utilize the skills, the perspectives that their vast experience provides. Tonight, I want to announce the formation of Washington's Senior Environmental Corps. There is a large reservoir of talented, retired individuals who are committed to the protection of the environment. The Corps would be made up of retired persons willing to serve as park guides, scientific researchers, and visiting teachers in our schools.

"Now, a final challenge, one that I know you've all heard me talk about before, and you'll hear again, it is time we have a reasoned, bipartisan discussion about how this state collects and spends revenue. In other words, tax and spending reform. I don't believe anyone would seriously argue that our current tax system is a good one. Any tax system that puts the greatest burden on those least able to pay is a bad system, and that is exactly what ours does. It discriminates against middle income families and those on fixed incomes.

"Let me give you an example. In Washington State, a person making \$90,000 a year pays approximately three percent of his or her total income in state taxes, while a person making \$20,000 a year pays on the average nine percent. That's unfair, but our tax system is more than unfair. It's a tremendous handicap to our economic development efforts. Think about this for a moment. Before a new business makes a single dollar in this state, we are already collecting taxes from it. That's not right and it is an obvious disincentive for doing business in this state.

"Our tax system has not withstood the test of scrutiny in nearly fifteen years, and that is too long. It is time we take an exhaustive, bipartisan look at that system. Going into the process, there must be no sacred cows. Every part of our current tax system must be placed on the table. Each of us must drop our own personal favorite tax proposal and pledge commitment to a process that leads to reform that is in

everyone's best interest. There should be few restrictions on reform, but I will only support tax reform that meets these standards. We do not use tax reform to raise taxes. Any tax reform package must substantially improve our state's overall business climate and when I say business climate, I'm not talking about corporate profit margins, I'm talking about jobs, new jobs, well-paying jobs. We must squarely address the issue of government spending controls and develop firm limits on tax rates and we must create a system that doesn't require constant tinkering and more and more nuisance taxes.

"Tonight, I ask you to join this debate. Next to a quality education system we can do nothing that will have greater impact on Washington's economic future and that challenge isn't limited to elected officials. It commands the effort of every citizen in this state. Tonight, I ask every person watching to accept that challenge. Don't for one minute believe that you can't impact the direction of this state. You can. The decisions we make during the next few years will in large measure influence our second one hundred years.

"Tonight, by asking you to help me, I'm not suggesting you agree with every element of my agenda. I only ask that you actively participate in a discussion of where we need to go, what we need to do to ensure that our future is bright. We are all Washington citizens. We might not agree on the same path to the future, but we all share a goal of a secure future, a future that provides children an even greater quality of life than we enjoy today—a future that is safe and liveable for all—a future that lives up to Dr. King's dream of equal opportunity for all. To ensure that future, we must leave our children two things—roots and wings. The roots of a strong family, a quality education, a clean environment and economic opportunity, and the wings of dreams and goals and ideals. That's our challenge. I hope you'll help.

"Good night and best wishes for a prosperous 1988."

MESSAGE FROM THE GOVERNOR

April 20, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 22, Senate Bill No. 5427, entitled:

"AN ACT Relating to simplifying and clarifying procedures of the department of ecology, local air pollution control authorities, and the pollution control hearings board."

Section 22 of this bill amends RCW 70.107.050 relating to noise pollution penalties. I have signed into law today Substitute Senate Bill No. 5389, entitled:

"AN ACT relating to noise control."

Signing both laws would constitute a double amendment to existing law and create confusion. For this reason, I have vetoed section 22.

With the exception of section 22, Senate Bill No. 5427 is approved.

Respectfully submitted,
Booth Gardner, Governor

IN TESTIMONY WHEREOF, I have set my hand and affixed the seal of the state of Washington at Olympia, this twenty-first day of May, 1987.

MESSAGES FROM THE GOVERNOR

May 18, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute Senate Bill No. 5088, entitled:

"AN ACT Relating to custodial interference."

This bill would amend criminal provisions relating to custodial interference to include interference with visitation rights. First, while I believe non-custodial parents deserve fair treatment when their visitation rights are abused or denied, I am sensitive to those who are concerned that involving the police in settling non-violent visitation disputes is not the best approach. Police experience has shown that disputes over dates, times and conditions of child visitation are so common that any effort on behalf of the police to respond to calls for assistance in such disputes would very seriously affect police and sheriff department resources and ability to respond to life-threatening and criminal law situations. Police intervention should be reserved for when there are threats to the physical well-being of a child.

Secondly, there are remedies under existing law to protect "relatives", including parents, when their visitation rights are denied.

Third, Substitute House Bill No. 48, the Parenting Act, is intended to improve the way child custody is determined and will provide for an alternative dispute resolution process to settle parental disputes over such concerns as visitation. We need to give this new parenting/custody determination procedure in Substitute House Bill No. 48 a chance to work.

Substitute Senate Bill No. 5088 would also limit the current defense to a prosecution of custodial interference by adding several more conditions, all of which must be met. There are many who are concerned that this amendment narrows the defense to the degree that routine problems that cause a delay in delivering a child would subject parents to unnecessary criminal action. Furthermore, Substitute House Bill No. 48 provides for a civil action for custodial interference if either custodial or non-custodial parents interfere with custody or visitation.

For these reasons, I have vetoed Substitute Senate Bill No. 5088.

Respectfully submitted,
Booth Gardner, Governor

May 19, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval, Senate Bill No. 5956, entitled:

"AN ACT Relating to the taxation by a county of persons residing outside the state who are employed inside the county."

This bill would permit counties bordering Idaho to impose an excise tax on persons residing outside the state who are employed inside the county. The amount of the tax would be based on actual government service benefits received by such

persons, and the revenues would be allocated to cities and towns. The proposed law would expire if Idaho exempts non-resident common carrier employees from Idaho income taxes.

In short, this bill retaliates against Idaho for taxing the incomes of railroad workers and truckers who pass through the state of Idaho in the course of their business.

I am vetoing this bill for three reasons: First, it is unneighborly for Washington to enact such a retaliatory tax without first engaging in good faith discussions to try to resolve the issue. Second, based on conversations with local government officials, this tax is unlikely to be imposed by Washington counties, even if this bill were to become law. And third, it is unlikely that the technical aspects of implementing such a tax would be feasible, should a county seek to impose the proposed tax.

I have talked with Governor Andrus, and we have agreed to work together to ensure that the issue of taxation of interstate common carrier workers does not become an issue of confrontation between our states. It is my understanding that the Idaho State Legislature has already enacted legislation exempting most interstate truckers from the tax in dispute, and they have expressed a willingness to work cooperatively on any remaining problems. Together we will seek fair tax treatment for Washington and Idaho residents and the elimination of any harassment level of taxation.

For these reasons, Senate Bill No. 5956 is vetoed.

Respectfully submitted,
Booth Gardner, Governor

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute Senate Bill No. 6010, entitled:

"AN ACT Relating to the disposal of hazardous waste pesticides."

Substitute Senate Bill No. 6010 directs the Department of Agriculture to set up the administrative structure necessary to implement a pesticide waste disposal program. For this purpose, the bill allows the department to become licensed as a hazardous waste generator.

Pesticide disposal is a growing problem for the agriculture industry of our state. Allowing the department to become licensed as a hazardous waste generator, however, causes the state to assume the long-term liability for the waste. The costs of this liability have not been well considered and could be substantial. It is also not clear that such an action is necessary or even useful in light of various regulations issued by the Environmental Protection Agency.

In addition, the Department of Energy has recently released the Agricultural Hazardous Waste Study which examines the problem of pesticide disposal. The study raises several issues that should be investigated before we design a statewide collection program.

Finally, funding for all hazardous waste disposal programs has been severely reduced. Although there is funding for this program in the budget approved by the Legislature, I believe other factors cited above are more important and require a veto of Substitute Senate Bill No. 6010.

For these reasons, I have vetoed Substitute Senate Bill No. 6010.

Respectfully submitted,
Booth Gardner, Governor

MESSAGE FROM THE GOVERNOR

April 25, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 143 and 214, Senate Bill No. 5017, entitled:

"AN ACT Relating to conforming the statutes involving district courts to reflect modern terminology and practices."

Sections 143 and 214 are identical to sections 4 and 18 of Senate Bill No. 5015. Since I have signed Senate Bill No. 5015, sections 143 and 214 of this bill are duplicative.

With the exceptions of sections 143 and 214, Senate Bill No. 5017 is approved.

MESSAGES FROM THE GOVERNOR

May 11, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 1(2), Substitute Senate Bill No. 5113, entitled:

"AN ACT Relating to motor vehicle passenger safety device usage."

Substitute Senate Bill No. 5113 in section 1(1) provides that any anticipated change in losses that may be attributed to usage of seatbelts, child restraints, and

other lifesaving devices should be reflected in the credits or discounts provided by automobile insurers. I endorse this idea.

Section 1(2) involves a double amendment and duplication to Substitute House Bill No. 920, section 1(3) and is identical. I have therefore vetoed section 1(2) to avoid duplication in the statute.

With the exception of section 1(2), Substitute Senate Bill No. 5113 is approved.

Respectfully submitted,
Booth Gardner, Governor

May 11, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 11, 16, 21(6) and 21(9), Substitute Senate Bill No. 5124, entitled:

"AN ACT Relating to impoundment and disposition of unauthorized, abandoned, junk, and other vehicles."

Sections 11, 16, 21(6) and 21(9) conflict with amendments to RCW 46.61.567, 46.55.170, RCW 46.61.563 and RCW 46.61.567, respectively, contained in sections 744, 741, 743 and 744 of Substitute House Bill No. 454. These sections are not vetoed for their substance, but are vetoed to avoid confusion with Substitute House Bill No. 454. Substitute Senate Bill No. 5124 specifies certain duties to be carried out by the state commission on equipment. The state commission on equipment is abolished under Substitute House Bill No. 454 and the commission's responsibilities are transferred to the Washington State Patrol.

References are made to the state commission on equipment in sections 11 and 16 of Substitute Senate Bill No. 5124. Substitute House Bill No. 454 establishes the Legislature's clear intention that the Washington State Patrol, and not the state commission on equipment, carry out the responsibilities set forth in the above-referenced sections of Substitute Senate Bill No. 5124.

With the exception of sections 11, 16, 21(6) and 21(9), Substitute Senate Bill No. 5124 is approved.

Respectfully submitted,
Booth Gardner, Governor

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 3, Substitute Senate Bill No. 5206 entitled:

"AN ACT Relating to superior court judges."

Section 3 of this bill requires the office of the administrator for the courts to conduct a weighted caseload analysis of Superior and District Court judge positions. Duplicate language is contained in section 6 of Engrossed Substitute House Bill No. 217.

With the exception of section 3, Substitute Senate Bill No. 5206 is approved.

Respectfully submitted,
Booth Gardner, Governor

May 12, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to two sections, Substitute Senate Bill No. 5608 entitled:

"AN ACT Relating to abused and injured animals."

The bill amends the cruelty to animals statutes to allow law enforcement officials to remove an animal for a medical examination to determine if the animal is neglected and in need of restoration. The bill also prescribes penalties for violations of these statutes.

Sections 4 and 5, amendments to the original bill, specifically allow dogs to be transported in the open bed of a pickup truck. Current statute allows this to occur

but requires that the animal be suitably harnessed or otherwise protected from falling or being thrown from the vehicle. Testimony before the House pointed out that nationally every year over 100,000 dogs die after being thrown from pickup truck beds. In keeping with the intent of the bill to encourage humane treatment of animals, I am vetoing sections 4 and 5.

With the exception of sections 4 and 5, Substitute Senate Bill No. 5608 is approved.

Respectfully submitted,
Booth Gardner, Governor

MESSAGE FROM THE GOVERNOR

April 19, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 601, Substitute Senate Bill No. 6048, entitled:

"AN ACT Relating to mandatory arbitration."

Substitute Senate Bill No. 6048 makes a number of technical and substantive changes to the Tort Reform Act of 1986.

Section 601 requires the state Risk Manager to conduct or contract for a feasibility study on the cost and benefits of the State of Washington providing excess liability and property insurance to political subdivisions of the state. No appropriation is provided for this study and the Risk Manager currently faces the possibility of budgetary reductions. In order to conduct the study, it would require an experienced actuary and such personnel are not available on staff.

Also, local governments currently have the opportunity of establishing joint cooperative self-insurance funds under the provisions of RCW 48.62. I would encourage them to pursue the possibilities of establishing excess coverage through such a mechanism in a joint cooperative effort.

With the exception of section 601 and the reference to it in section 1903, Substitute Senate Bill No. 6048 is approved.

MESSAGES FROM THE GOVERNOR

May 15, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, with my approval as to section 5, Engrossed Substitute Senate Bill No. 5850, entitled:

"AN ACT Relating to traffic infractions."

Section 5 of the bill directs the Department of Licensing to suspend individuals with two or more "failures to appear" on their record. Substitute Senate Bill No. 5061, which I have already signed into law, contains a similar provision. It allows the arrest and conviction of a person with two or more charges of "failure to appear" on his or her driving record in any four-year period from a traffic infraction. It also grants the officer the authority to arrest the person on the spot after receiving radio verification of their driving record from the Department of Licensing.

We have addressed this issue in two different ways in two separate bills. In order to avoid confusion and additional administrative cost to the public and state, I have vetoed section 5. The provisions contained in Substitute Senate Bill No. 5061 will have a much greater impact on this problem without a negative fiscal impact.

With the exception of section 5, Engrossed Substitute Senate Bill No. 5850 is approved.

Respectfully submitted,
Booth Gardner, Governor

May 18, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 2, Engrossed Substitute Senate Bill No. 5143, entitled:

"AN ACT Relating to exemption from public disclosure of the contents of public employment applications and the addresses and telephone numbers of natural persons."

This bill adds provisions to the public disclosure law to exempt from public inspection and copying applications for public employment, residential addresses and telephone numbers of employees and volunteers of a public agency, and residential addresses and telephone numbers of public utility customers. A separate section makes public employment and applications materials if the application is for an executive position.

I support the exemptions from disclosure for residential addresses and telephone numbers. Concerns have been raised regarding public safety where such information is available to the public. There appears to be no compelling public policy reason why this personal information should be generally available.

Under state law, personal information regarding public employees maintained in public agency files, is not disclosable if disclosure violates a right to privacy. Further, the Open Public Meetings Act (Chapter 42.30 RCW) allows public entities to evaluate qualifications of an applicant for public employment in an executive session, so long as the final hiring and salary setting is done in an open meeting. This bill would specifically exempt public employment applications, resumes and other materials submitted from disclosure, unless the application is for an executive position.

Section 2 of the bill causes particular concern to me given the broad access to information about executive position job applicants. It would require disclosure of "all applications and resumes" of executive position applicants. Applications and resumes for this level of position by their nature must be very complete and thorough.

Most top executives are reluctant to jeopardize their present employment position and, more importantly, the relationships that go with that position, which would result from publicizing their application for another position. The disclosure requirement would seriously impact the size and, more importantly, the quality of the pool of applicants. I believe this is true of both the business world as well as the public sector world of executive employment.

I have vetoed section 2 because it will frustrate efforts by public elected and appointed officials and managers to recruit and hire the best at all levels of government. I remain committed to trying to attract the best people to public employment and feel this section would only frustrate the efforts of the many elected officials and managers who share this goal.

With the exception of section 2, Engrossed Substitute Senate Bill No. 5143 is approved.

Respectfully submitted,
Booth Gardner, Governor

May 18, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 5, Engrossed Substitute Senate Bill No. 5857, entitled:

"AN ACT Relating to the professional discipline of physicians."

I support this legislation which develops a rehabilitation program for health care professionals impaired by alcohol or drugs. Section 5, however, restricts the ability of the Department of Licensing to provide the best possible protection to the public. By limiting the use of the committee's records in legal proceedings, it would prohibit the Medical Disciplinary Board from being able to use the records when a physician had failed to cooperate or complete a treatment program. This would pose an unnecessary threat to the consumer. Section 6, which I am leaving in the bill, does protect the physician from general public disclosure.

With the exception of section 5, Engrossed Substitute Senate Bill No. 5857 is approved.

Respectfully submitted,
Booth Gardner, Governor

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 2, Substitute Senate Bill No. 5846 entitled:

"AN ACT Relating to boating safety."

This measure would have the Parks and Recreation Commission undertake some additional duties with respect to boating safety on this state's waters.

I have vetoed section 2 which creates a new statutory advisory committee. After reviewing this matter, I find that the purposes and functions of this bill can be fulfilled without creating, in statute, an additional advisory body.

With the exception of section 2, Substitute Senate Bill No. 5846 is approved.

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to a portion of section 10(6), Engrossed Second Substitute Senate Bill No. 5074 entitled:

"AN ACT Relating to mental health."

I support the revisions of the involuntary commitment procedures. They will provide a more comprehensive approach to the treatment of mentally-ill adults in intensive and less restrictive settings.

However, the last sentence of section 10(6) which reads "In the event of a revocation of a less restrictive alternative treatment, the subsequent treatment period may be no longer than fourteen days", will cause the subsequent treatment period after a revocation to be restricted.

State hospitals would be required to file a new ninety day petition for persons whose original involuntary treatment plan was revoked and who require care beyond the fourteen day period. This would create a significant workload. Additionally, it would require a duplicative hearing process by mandating that a hearing on the new treatment plan be held in addition to the hearing revoking the existing plan.

With the exception of a portion of section 10(6), Engrossed Second Substitute Senate Bill No. 5074 is approved.

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 2(5) and 15(9), Engrossed Substitute Senate Bill No. 5299, entitled:

"AN ACT Relating to massage therapy."

This bill makes a number of changes to the statute relating to the licensing of massage businesses and massage therapists. Sections 2(5) and 15(9) would have the effect, if signed into law, of prohibiting cities and counties from licensing and regulating massage businesses. It is important that local governments are allowed to license and regulate all massage businesses.

While most massage practices provide a valuable and needed service, there is still a need for some local authority over these businesses. The personal contact involved in this type of business brings with it the opportunity for business fronts for criminal activity which require law enforcement attention. Local regulation provides involvement by local officials and citizens who become justifiably concerned about the character of their community.

With the exception of sections 2(5) and 15(9), Engrossed Substitute Senate Bill No. 5299 is approved.

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 4, Substitute Senate Bill No. 5123 entitled:

"AN ACT Relating to highway advertising control."

Section 4 waives the restriction that on-premise signs of facilities advertised on highway information panels extend less than fifteen feet above the roof of the building when those signs are not visible from the rural primary system and scenic system. In addition, these sections allow the Department of Transportation to waive the height restriction on a case-by-case basis even when a sign is visible from the roadway.

The purposes of highway sign restrictions are both safety related and aesthetic. An excess of signs visible from a highway leads to motorist confusion and distracts the driver from full attention to traffic. For this reason, the federal government and the state have adopted standards for the design, placement and purposes of signs in order to minimize unnecessary clutter.

Furthermore, the state has adopted the scenic highway system to "attract visitors to this state by conserving the natural beauty of areas adjacent to the interstate system, and of scenic areas adjacent to state highways upon which they travel in great numbers, and to ensure that information in the specific interest of the traveling public is presented safely and effectively" (RCW 47.42.010). To that end, the Legislature has provided guidance to the Department of Transportation for determining which types of signs meet with statutory intent.

Section 4 of this bill attempts to provide the Department with flexibility to meet the needs of businesses located along the state's highway systems. However, by allowing unrestricted waivers from the statutory height requirements, we may eventually thwart the purposes of sign restrictions. Without statutory guidance, the Department of Transportation is left without grounds for denial of waivers and may be forced to grant all such requests. I do not believe this outcome was intended.

With the exception of section 4, Substitute Senate Bill No. 5123 is approved.

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 1, 2, 3, 4 in part, and 12, Senate Bill No. 5739, entitled:

"AN ACT Relating to escrow."

This bill would eliminate in section 1, the \$200,000 fidelity bond requirement for officers and employees engaged in escrow transactions. The complete elimination of a fidelity bond requirement would unnecessarily expose the consumer to substantial losses resulting from any fraudulent or dishonest acts by escrow employees or officers. Even though these bonds presently do not run directly to the public, they provide a financial asset to the corporation which the public can sue. This is particularly important in that many of these escrow businesses are incorporated and the nature of the business does not require any substantial capital assets.

The errors and omissions policy alone, which is required in the amount of \$50,000, would not in many cases be in an amount enough to cover the average home sale transaction, nor by its terms would it cover fraud or dishonesty. The sale of a family residence is often the biggest financial transaction people are likely to be involved with and it is essential that adequate protection be available for those unfortunate cases where a loss results from fraud or dishonesty.

Sections 2, 3, 4 in part, and 12 are vetoed because they merely amend other sections of the chapter to reflect the change made in section 1 which deleted the fidelity bond requirement.

I note that the remaining amendments contained in this bill allow an association comprised of certificated escrow agents to organize a mutual corporation with the consent of the director, for the purpose of insuring or self-insuring against claims arising out of escrow transactions, upon a showing that insurance availability is cost-prohibitive or that such bond or policy is not reasonably available.

With the exception of sections 1, 2, 3, 4 in part, and 12, Senate Bill No. 5739 is approved.

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 18, Substitute Senate Bill No. 5911, entitled:

"AN ACT Relating to state government."

This bill establishes natural resource conservation areas and imposes a temporary surcharge of 0.06 percent on the state real estate excise tax, RCW 82.45, to fund acquisition of such areas. This surcharge is repealed effective July 1, 1989.

Additionally, the bill repeals the conveyance tax, RCW 82.20, on real estate property transfers and increases the state real estate excise tax rate by 0.21 percent as a replacement for the conveyance tax revenues. The present state real estate excise tax rate is 1.07 percent and would be increased to 1.34 percent by this bill, including the temporary natural resource conservation surcharge. The bill has an emergency clause and becomes effective on the Governor's signature.

Section 18 affects only sections 14 through 17, which repeal the conveyance tax and increase the rate of the real estate excise tax. If section 18 becomes law, it would require conveyance stamps on old instruments which have previously been processed but were held in escrow for recording at a future date. The loss of revenue by removing this section will be minimal compared to the time, effort and confusion it would create for the public and county treasurers by leaving the provision in the law. It would be very difficult to collect this increased tax on old deeds

where the escrow had been figured on the rate in effect at the time the transaction took place, prior to the effective date of this bill.

With the exception of section 18, Substitute Senate Bill No. 5911 is approved.

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 2(2)(g) and 12, Substitute Senate Bill No. 5606, entitled:

"AN ACT Relating to budget and accounting."

Section 2(2)(g) requires that the Governor's budget document display specific objects of expenditures for major programs. Current practice is to display all objects at the agency level, and selected objects at the program level.

By creating additional statutory requirements, the Legislature will increase the cost and size of what is already a 900-page document. Detailed object information is available from the Office of Financial Management; it is not necessary that this same information be incorporated into the published budget. For these reasons, I am vetoing Section 2(2)(g).

Section 12 specifies that the bill will be effective on August 1, 1987, except for section 7, which is to take effect immediately.

The immediate implementation of section 7 is impractical. Section 7 places restrictions on fund and account deficiencies. The restrictions are complex and comprehensive. Additional time is required to fully implement the provisions of this section. Accordingly, I am vetoing section 12 so that the entire bill will become effective 90 days after the adjournment of the regular session.

With the exceptions of sections 2(2)(g) and 12, Substitute Senate Bill No. 5606 is approved.

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 23, Second Substitute Senate Bill No. 5555, entitled:

"AN ACT Relating to state information technology."

Section 23 of this bill would require that a study of state budgets and expenditures for information systems be conducted by the legislative evaluation and accountability program administration. This study would be conducted over a period of two years, while the new Department of Information Services is being formed.

I believe that this section is unnecessary. The Legislature has the general oversight authority for state agencies and may undertake studies of state operations without implementing legislation.

Furthermore, this study would be taking place while a great many changes are made in the organization of state information systems, as required by the remainder of this bill. It may be more difficult to get accurate baseline data during this period than at other times. To ensure that the Legislature is fully informed about the development and operations of this new agency, I will be instructing its director to make periodic reports to appropriate legislative committees.

With the exception of section 23, Second Substitute Senate Bill No. 5555 is approved.

Ladies and Gentlemen:

I am returning herewith, without my approval as to section 1, Senate Bill No. 6053, entitled:

AN ACT Relating to educational service districts."

Section 1 of this bill would allow Educational Service Districts to borrow money to purchase real or personal property for their operations.

Educational Service Districts are not local entities and are not accountable to local constituencies. They are agencies with no guaranteed source of income or revenue with which to secure borrowed funds. The primary source of revenue for Educational Service Districts comes from local school district participation. School districts do have accountability to local constituencies. They also have the authority to borrow funds, and could do so cooperatively in support of Educational Service Districts, should such a need arise.

With the exception of section 1, Senate Bill No. 6053 is approved.

of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to the second paragraph of section 1 and all of section 3, Engrossed Substitute Senate Bill No. 5801, entitled:

"AN ACT Relating to industrial insurance."

This bill would change the rules under which certain firefighters and law enforcement officers may qualify for workers' compensation benefits when they suffer from respiratory disease or have heart attacks. It stipulates that for those firefighters under the LEOFF II pension system, respiratory disease will be presumed to be job related, unless the employer can prove otherwise. It also changes the definition of injury for LEOFF II firefighters and police officers. They would no longer have to prove that a heart attack was due to unusual exertion on the job to qualify for workers' compensation.

I recognize the need to ease the burden of proof required for firefighters who contract respiratory diseases. The establishment of a rebuttable presumption that a respiratory disease is occupationally related for those employees will address a major problem for those who incur legitimate work place respiratory diseases.

However, I do not believe that it is appropriate to change the definition of injury, as proposed in the second paragraph of section 1 and affected in section 3, so that a heart attack is presumed to be job related. While the definition of injury has been the topic of considerable study and discussion for the past two years, there is no conclusive evidence to demonstrate that there is a higher incidence of job-related heart problems in firefighters and law enforcement officers than those in other professions.

With the exception of second paragraph of section 1 and all of section 3, Engrossed Substitute Senate Bill No. 5801 is approved.

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 10 and 14, Engrossed Senate Bill No. 5556, entitled:

"AN ACT Relating to flood control."

Section 10 is a technical amendment to a section of the code that was repealed by Senate Bill 5427, already signed into law. I have eliminated this section of the bill to avoid confusion.

Section 14 would allow the Department of Ecology to grant an exemption for certain towns from statutory prohibitions against some types of construction and rehabilitation within designated floodways. Section 4 of the bill includes language that allows repairs, reconstruction and improvements to an existing structure. Since the state supplements the national flood insurance program, any exemptions from

this prohibition that go beyond the examples allowed under section 4 would represent a needless risk of public funds.

With the exception of sections 10 and 14, Engrossed Senate Bill No. 5556 is approved.

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 7 and 8, Engrossed Second Substitute Senate Bill No. 5659, entitled:

"AN ACT Relating to child protective services."

This bill is the result of a lot of hard work by legislators and citizens to improve protective services for the children of our state. However, Section 7, which amends RCW 13.34.190, would allow the Department of Social and Health Services to terminate parental custody in any case having dependency status with the department. Department of Social and Health Services does not seek this greater authority. This is a technical error that the Legislature did not intend to make. If passed, this section would result in all dependency cases being held until this language could be changed. Therefore, I have vetoed section 7 of Engrossed Second Substitute Senate Bill No. 5659 to preserve current law.

Section 8 of Engrossed Second Substitute Senate Bill No. 5659 amends RCW 26.44.010. It articulates the paramount goal of child protective services as being the safety of the child. However, the impact of this language is receiving vastly different interpretations by attorneys, child advocates and legislators.

It is clear that in the past year, child protective service workers have become increasingly aware of the need to put the welfare of the child above all other concerns. I feel confident that no matter what language is put in this section, those workers are putting the needs of children first. The confusion surrounding this language compels me to recommend that in the interim the interested parties come together and agree on what the best standard is for guiding protective services in safeguarding the general welfare of children. For this reason, I have vetoed section 8 of Engrossed Second Substitute Senate Bill No. 5659.

With the exception of sections 7 and 8, Engrossed Second Substitute Senate Bill No. 5659 is approved.

of the State of Washington
Ladies and Gentlemen:

I am returning herewith without my approval as to sections 117 through 122, 219, 221 through 224, 229 through 232, and 302, Engrossed Substitute Senate Bill No. 5479 entitled:

"AN ACT Relating to improving the educational system."

This measure was introduced at my request. Its provisions provide for enhanced teacher preparation standards and a pilot school program. These measures are intended to improve teaching to meet the needs of children who must live in the challenging economy of the 21st century.

A number of amendments which created new programs were added to this bill during the legislative process. While I believe most of these programs are meritorious, I am vetoing those for which the legislature provided no funding. Adding unfunded programs to substantive law gives false hope to those who would benefit from them. For this reason, I have vetoed sections which would have created a primary block education program (sections 117 through 122), a principals' academy (sections 219, 221 through 224), and an award program for teacher preparation (sections 229 through 232).

In addition, I vetoed section 302 which requires the Superintendent of Public Instruction to create a paperwork reduction task force. This provision duplicates

paperwork reduction duties already existing in the Basic Education Act and, thus, contributes only a statutory requirement for a task force. I am confident that the Superintendent can meet his paperwork reduction responsibilities without this provision.

With the exception of sections 117 through 122, 219, 221 through 224, 229 through 232 and 302 which I have vetoed, Engrossed Substitute Senate Bill No. 5479 is approved.

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 8, Engrossed Substitute Senate Bill No. 5570, entitled:

"AN ACT Relating to disposal of incinerator ash residues."

This legislation would exempt municipal solid waste incinerator ash residue from the state's hazardous waste law and create a new category of waste and a new regulatory procedure.

Section 8 of the bill would allow any aggrieved person to bring an action in law or equity to the pollution control hearings board related to this new regulatory process. Currently, the board only hears appeals from department orders, permits, penalties, and other decisions. The language of this section could potentially confer new jurisdiction by allowing persons who feel the department is not processing permits or adopting regulations pursuant to this bill as it should to seek relief from the board rather than through the state court system.

The intent of this section was to assure a route for citizen appeals. A route for citizen appeals of any department decision exists in section 10 of Senate Bill No. 5427, already signed into law. Thus, elimination of this section does not affect the ability of citizens to challenge the department's decisions. For this reason, I have vetoed section 8.

I am concerned that a wholesale exemption of a category of waste from the hazardous waste law could set a bad precedent and send an incorrect message by implying that the door is open for exempting other categories of hazardous waste. The toxicity of a waste, and thus, viable alternatives for its safe disposal should be determined on the basis of scientific tests. Because of these factors, I am signing this legislation reluctantly.

In developing the rules, regulations and policies necessary to implement Engrossed Substitute Senate Bill No. 5570, I am asking the Department of Ecology to give primary emphasis to the long-term protection of public health and environmental values. The Department also needs to develop effective disposal alternatives and address such issues as the risk of mixing fly and disposal ash, immobilizing ash and transportation.

With the exception of section 8, Engrossed Substitute Senate Bill No. 5570 is approved.

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to section 10, Engrossed Substitute Senate Bill No. 5901, entitled:

"An Act Relating to fiscal matters."

The main thrust of this legislation provides additional programmatic and budgetary authorities for the State Convention and Trade Center that are necessary to ensure the timely completion of its construction and its fiscally responsible operation. I support the intent and purpose of these sections of the bill.

As a technical matter, I am vetoing section 10 of this bill, which repeals section 317 — an appropriation for convention center operations — in Engrossed Substitute

House Bill No. 1221, the 1987-89 biennial state budget bill. I am taking separate action to veto section 317 of Engrossed Substitute House Bill No. 1221. Thus, the more current appropriation language contained in this bill, Engrossed Substitute Senate Bill No. 5901, should and will go into effect.

As a separate issue, I have received certain requests to veto sections 7 and 8 of this bill. These sections impose additional conditions on the use of proceeds from two special purpose taxes which the Legislature previously has authorized the City of Bellevue to levy on hotel room sales. The conditions would prohibit the use of those proceeds to finance construction of a facility to house a professional sports team.

This issue arises, in part, as a legislative response to the City of Bellevue's current consideration of a plan to develop a major downtown civic complex, including possibly an arena that could be utilized in the future by the Seattle Supersonics professional basketball team. The Supersonics have several years remaining in their lease at the Seattle Center Coliseum, which is owned and managed by the City of Seattle. However, the Supersonics have recently expressed their potential interest in developing and utilizing a new arena somewhere in the Central Puget Sound region.

The City of Bellevue has not yet made a final decision on whether, or how, it will proceed to develop the project. However, the City would like, in the event that it decides to proceed, to be able to use its portion of state authorized hotel tax proceeds to help finance such a civic complex, including a possible arena. On the other hand, sections 7 and 8 of Engrossed Substitute Senate Bill No. 5901 are a clear statement from the Legislature that it is not appropriate for the proceeds from Bellevue's state-authorized hotel tax to be used to construct a public arena that becomes part of a competition among jurisdictions in the region to secure an existing professional sports franchise tenant.

The question has been raised as to whether prohibiting the City's use of hotel tax proceeds in this manner constitutes an unwarranted state intrusion into local government affairs. After careful consideration, I have concluded that sections 7 and 8 represent the Legislature's further clarification of its intent concerning the use of special purpose hotel tax revenues. I agree with that intent. Therefore, I am signing Engrossed Substitute Senate Bill No. 5901 leaving sections 7 and 8 intact.

I have reached my conclusions on the appropriateness of retaining sections 7 and 8 based on several considerations. First of all, it is the Legislature which authorizes these special purpose hotel taxes that local governments may levy. Further, one of the two special hotel taxes at issue is Bellevue's 2% levy, which is a credit against the state's 6.5% sales tax. In this case, the state is authorizing Bellevue to collect a local tax which would otherwise be revenue to the State General Fund. Also, the Legislature has modified the local authority to levy these taxes, or has imposed new conditions on their use, frequently since original enactment twenty years ago. The most recent such change prior to this year was during the 1986 session. The Legislature then modified King County's authority to use proceeds from its 2% hotel tax, which is also a credit against the state sales tax, in order to provide subsidies in the Kingdome's leases with professional sports teams. Other new conditions were also imposed. In this later instance, the Legislature became highly sensitized to the issue of public subsidies to professional sports franchises through lease concessions in publicly-owned facilities.

I also have concerns about the potential impact a new taxpayer-financed arena would have on other existing taxpayer-financed facilities in the region. I also concur with the Sonics professional basketball team, whose officers have said that, should they decide they need a new facility, they would prefer to develop one as a totally private venture.

Bellevue officials have indicated that they may pursue construction of such a facility in spite of the prohibitions in sections 7 and 8 in Engrossed Substitute Senate Bill No. 5901. However, I am encouraged that discussions on this issue are involving public officials from throughout the region to consider the regional impact of such a decision. The parties at interest may need to bring this issue back before the Legislature next year.

With the exception of section 10, Engrossed Substitute Senate Bill No. 5901 is approved.

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 8(9), 9 and 10, Engrossed Substitute Senate Bill No. 6016, entitled:

"AN ACT Relating to transportation revenue and taxation."

Section 8(9), Page 12, Transfer of Excess Mass Transit funds

This section would require, beginning with the 1989-91 biennium, that unmatched local mass transit funds be transferred into the Puget Sound Ferry Operations Account. These unmatched funds have historically reverted to the General Fund. The June 30, 1989 sunset clause on the .1% MVET increase which is dedicated to ferry systems operations creates a need in the 1989-91 biennium for additional funding. Given the demands the operating budget places on the General Fund in future biennia, this transfer is not fiscally responsible.

Section 9 and 10, Page 12, Ferry System Fuel Tax Exemption

These sections exempt the ferry system from paying the fuel tax. This exemption has a biennial fiscal impact of \$1 million on the General Fund. The funding to pay the fuel tax is in the Department of Transportation 1987-89 budget.

With the exception of sections 8(9), 9 and 10, Engrossed Substitute Senate Bill No. 6016 is approved.

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval as to sections 9(4), 10(4), 25(2) and 41, Engrossed Substitute Senate Bill No. 6076, entitled:

"AN ACT Relating to transportation appropriations."

Section 9(4), Page 3, Curbstone Program

This section, while not prescriptive, allows for expansion of the "Curbstone" program. The numbers and language are contradictory in that the amount identified for expansion erroneously includes the base, while expenditures are limited to funding source revenues, which would not be sufficient to support the specified expansion.

Section 10(4), Page 4, Public Safety and Education Account Transfer

This section transfers funds out of the Public Safety and Education Account into the Highway Safety Fund. In recent years, the legislature has expressed a desire for an open process in determining the levels of appropriations to various agencies from the Public Safety and Education Account. This transfer circumvents that process by dedicating a portion of the revenues accrued to the Public Safety and Education Account to the Highway Safety Fund. Also, the amount developed in the March, 1987, forecast is less than the amount appropriated, which appears to be unintended and could result in the account being over-extended.

Section 25(2), Page 11, Increased Appropriation for Highway Stores

This section allows the Department of Transportation's appropriation to be increased by an unspecified amount. This is in violation of Article 8, section 4 of the Constitution because it fails to distinctly specify the amount of the appropriation.

Section 41, Page 20, Service Fund Charges

This section puts caps on revolving fund payments by the Washington State Patrol, the Department of Licensing and the Department of Transportation. The section references assumed budgeted amounts for revolving funds which have not been established. This section creates an inconsistency relative to other state agencies in the matter of revolving fund charges.

With the exception of sections 9(4), 10(4), 25(2) and 41, Engrossed Substitute Senate Bill No. 6076 is approved.

FURTHER MESSAGES FROM THE GOVERNOR

April 20, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval, Senate Bill No. 5442, entitled:
"AN ACT Relating to forest fires."

This legislation would direct the Department of Natural Resources to do the following:

"Upon arriving at the scene of a forest fire, the employees or agents of the department shall have the first priority to attempt to extinguish the fire, and attempts to conduct a survey of contiguous property to ascertain the necessity to remove individuals or property from the area of the fire shall be secondary to that responsibility: PROVIDED, HOWEVER, That this requirement does not mean that individuals in immediate danger from the fire may not be assisted."

The legislation appears to be confusing in its direction to the Department of Natural Resources and inconsistent with the normal values we place upon preserving and protecting human life. On a practical level, fighting forest fires is a situational, fast-moving, and complicated job. It may be difficult to predict the speed or direction of a fire or fires, and it is not unusual for several fires to be burning simultaneously. Even though other entities probably have a statutory duty to protect human life, their resources can be very strained and the Department of Natural Resources should always help protect human life. I am sure that we would all feel remorse if this legislation were adopted and subsequently resulted in the loss of human life because our firefighting crews did not feel they should try to protect human life at least on the same level as fighting the forest fire.

Senate Bill No. 5442 is vetoed in its entirety.

April 20, 1987

To the Honorable, the Senate
of the State of Washington
Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute Senate Bill No. 5944, entitled:

"AN ACT Relating to certified public accountants."

This legislation eliminates the continuing education requirement for certified (nonlicensed) public accountants, and allows that category of accountants to use the title of "Certified Public Accountant" or "CPA" if their activities do not require a CPA license.

The certified public accountant statute in our state historically has provided for a two-tier system, "certified" and "licensed." Under current law, only licensed CPAs are authorized to represent themselves to the public as "CPAs." In 1986, the Legislature passed Chapter 295, Laws of 1986, which created an educational requirement for the "certificated" or nonlicensed CPAs.

This legislation removes the continuing education requirement only for the nonlicensed CPAs. Additionally, it allows the same nonlicensed CPAs to represent themselves to the public as "CPAs" as long as they don't practice in subjects reserved for licensed CPAs.

The bill, as it is presently drafted, will confuse the public as far as who is or is not a CPA. Also, it is not in the public interest to remove an educational requirement and at the same time allow the same people to hold themselves out as CPAs in their dealings with the public.

I would hope that the Legislature in future sessions would again address this issue to remove or clarify the differences in the two-tiered system regarding licensed and nonlicensed CPAs and to amend the statute in such a fashion that the

public will not be confused by the differing categories of accountants who are able to use the title "CPA."

Substitute Senate Bill No. 5944 is vetoed in its entirety.

Booth Gardner, Governor

WHEREAS, His death at the hands of an assassin in 1968 shocked and saddened the world, that a man of peace, a man of God, a man who espoused pacifism and peaceful change could be struck down so violently; and

WHEREAS, Despite his death, the "Dream" goes on, and grows each year, encouraging all of us, in our public and private lives, to do all we can to provide for the needs of the poor and the disadvantaged, to strive for a world without conflict, and to promote the concept of the nobility of every individual; and

WHEREAS, Dr. King taught that since human dignity is not a matter of race, gender, faith, or geography, then there really is no place in this world for racism, anti-semitism, sexual exploitation, or apartheid; and

WHEREAS, Dr. King held that people are entitled to freedom from oppression wherever they live, just as we are morally obligated to resist oppressive systems such as "apartheid" wherever they occur, so long as we resist them in a dignified, non-violent manner; and

SENATE RESOLUTION 1988-8702

by Senators Gaspard, von Reichbauer, Madsen, Johnson and Rasmussen

WHEREAS, The Puyallup Vikings football team has proven itself to be the best in the state by defeating Gonzaga Prep 27-21 on December 5, 1987, to win Kingbowl XI, the Washington State AAA High School Football Championship; and

WHEREAS, It is the first time in the history of Puyallup High School that the football team has won the state championship; and

WHEREAS, The team's remarkable string of victories over South Puget Sound League rivals, and playoff foes number-one-ranked Renton, previously undefeated Kelso, and Snohomish, brought victory and a strong sense of pride not only to the team, but to the entire school and community of Puyallup; and

WHEREAS, Head Coach Mike Huard has been named the 1987 Washington Coach of the Year for his efforts in molding the talents of the fine young men who wore the Purple and Gold; and

WHEREAS, This great success of winning the state championship was achieved through teamwork, determination, dedication, and the belief that any goal is attainable;

NOW, THEREFORE, BE IT RESOLVED, That the Washington State Senate salutes and applauds the triumph of the players, Dan Thurston, Bill Hobert, Mike Beckman, Troy Nikolao, Tim Alden, Ross Simmons, Jason Rogge, Brian Schanz, Ozzie Williams, Kurt DeVries, Lee Campbell, Shawn Gilbert, Jim Ford, Ken Fleisch, Jim Schulz, John Bachner, Brent Ericksen, Matt Ledbetter, Howie Campbell, Tim Hanson, Mike Meggyesy, Jeff Powloski, Carlos Andrade, Dean Pierce, Manuel Soto, Brian Sandstrom, J.R. Sosky, Nick Salesky, Rich Klos, Greg Jones, Ted White, Zak

Prebilsky, Barry Jardine, Chris Weiss, Shawn O'Leary, Steve Wolfe, Tom Gallagher, Mike Six, Joe Kobeski, Nick Olsen, Rob Roscoe, Shawn Brown, Aaron Savage, Scott Dille and Paul Griffin, Team Managers Tim Goodwin and Steve Volland, Assistant Coaches Bob Dore, Bill Griffin, Bruce Ledbetter, Rod Iverson, Chris Jorgensen and George Wilfong, and Head Coach Mike Huard; and

BE IT FURTHER RESOLVED, That the Secretary of the Senate transmit copies of this resolution to the coaches and players of the Puyallup High School football team.

Senator Stratton spoke to Senate Resolution 1988-8702.

INTRODUCTION OF SPECIAL GUESTS

Senator Gaspard introduced Puyallup High School Football coaches, Mike Huard, Bill Griffin, Rod Iverson, Bob Dore and George Wilfong; as well as the team co-captains, Dan Thurston, Dean Pierce, Jim Schultz and Ted White; High School Principal, Dale Mitchell and Dr. Frank Brouillet, Superintendent of Public Schools, and a former member of the Puyallup High School Football team, all of whom were seated on the Senate Rostrum.

Senator Gaspard then introduced the members of the Puyallup Vikings Championship Football team, who were seated in the gallery.

With permission of the Senate, business was suspended to permit Coach Huard, Dr. Brouillet and Principal Mitchell to address the Senate.

POINT OF INQUIRY

Senator DeJarnatt: "Senator Gaspard, there's been some talk here about putting Puyallup on the map. When you mention Buster Brouillet's great career as a Puyallup athlete, I'm not going to ask you how many games he played without a helmet, but I would like to ask you a question about a statement that Dr. Brouillet has made many times, that Puyallup is the largest city in the United States whose name begins with 'P' and ends with 'P.' Could you affirm or deny that assertion?"

Senator Gaspard: "I'm not an authority on that, but I can certainly verify Dr. Brouillet on that and say that must be accurate."

Before this body, there is presently a bill that's been filed—Senate Bill 6095—that deals with a proposed optional method of regulating telecommunications companies in the state of Washington. This measure is presently before a standing committee in which I serve and I also, by my giving you information ahead of time, acknowledge that I work for one of those telephone companies that in this state might wish to come under such legislation if this bill were to become law. I'd like, Mr. President, for your ruling relative to any potential conflict of interest that you envision that would cause me to refrain from voting on such a measure and I would appreciate the President's advise."

PARLIAMENTARY INQUIRY

Senator Talmadge: "Mr. President, a point of parliamentary inquiry—an inquiry with respect to conflict of interest. Would that ordinarily be entrusted to the President or would that be something that would be subject to the jurisdiction of the Joint Committee on Ethics?"

REPLY BY THE PRESIDENT

President Cherberg: "The President believes that his ruling will cover that particular point, Senator."

RULING BY THE PRESIDENT

President Cherberg: "Senator Nelson, and other honored members of the Senate, Senate Rule 22 and Joint Rule 1 requires that a legislator shall only be excused from voting when a personal interest is direct and the legislator has reason to believe or expect that a direct monetary gain or loss will be derived by reason of the legislator's official activity.

"The President believes that the rules contemplate the member must make the decision himself or herself based upon the facts as the member believes them to exist.

"Joint Rule 1 clearly states that a legislator does not have a personal interest which is in conflict with the proper discharge of legislative duties if no benefit or detriment accrues to the legislator as a member of a business, profession, occupation or group to a greater extent than any other member of such business, occupation or group.

"The President hopes that this explanation will help the Senator and all members in decisions about potential conflicts of interest."

REMARKS BY SENATOR NELSON

Senator Nelson: "Thank you, Mr. President. I did want to advise the President and members of this body that at any time should there be a vote taken on any

measure dealing with my employment or anything that I would envision on a personal basis would be in conflict that I would honor and respect my ability to abstain from voting. Thank you, Mr. President."

For those who were at the Dental Association reception last night, you may know that a good colleague and friend of ours on both sides, Featherstone Reid, who happens to be on the Ways and Means Committee staff collapsed and went to St. Peter Hospital. He had an aneurysm in his abdomen, which is a fairly serious operation. He is in critical, but stable condition now in intensive care. He did go through some fifteen pints of blood last night, so if any of you would like to donate to the Black Hills Community Hospital—that is where the Puget Sound Blood Bank is, they are open from twelve to six tonight, and if you want to do that and donate it in his name, I think it would be appreciated.

"As you know, he's a valued counselor on both sides of the aisle—a guy who has a lot of respect and I think we all wish him well and I suspect that cards would be appreciated. He cannot receive either calls or visits for the next week, but our thoughts and prayers will be with him."

On page 5, line 27, after "skiing" insert ", except in cases where the ski area operator has actual knowledge of a life-threatening but hidden defect or condition on improved trails or improved runs, and then only when shown by clear, cogent and convincing evidence that the failure to eliminate, alter or control the hidden deadly defect or condition amounted to willful and wanton misconduct by the ski area operator"

POINT OF INQUIRY

Senator Halsan: "Senator Talmadge, in regard to the statement in this bill that--I believe it's in Section 5--I'm not quite sure, that there's no duty to prevent or protect against the inherent risks of skiing. How do you interpret that?"

Senator Talmadge: "I think that's Section 4, sub (5), Senator Halsan. The way I read that is that it deals solely and exclusively with the inherent risks of skiing which are defined in New Section 2 of the bill. Section 3 of the bill provides certain standards in the law with respect to activities a ski operator must undertake to perform, some relating to signing, some relating to the closure of certain trails and runs, etc.

"Now, those duties that are set forth in Section 3, I think the operator still has a duty to perform as a reasonable person would in undertaking to perform their duty and a duty still exists to deal with those. Further, where an area operator undertakes to do anything with respect to a groomed run or an improved trail by way of the inherent risks of skiing, that is if they have grooming equipment on the slopes, if they purport to sign with respect to stumpage that may be there, if they put signs on towers or equipment, they have an obligation to do that properly. Should they fail to do so, they are and should be liable."

Further debate ensued.

Senator Halsan demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the adoption of the amendment by Senators Halsan and Madsen to Substitute Senate Bill No. 6103.

SENATE BILL NO. 6157, by Senator Bailey

Providing for the expiration in 1994 of the student learning objectives programs.

MOTIONS

On motion of Senator Bailey, the rules were suspended, Substitute Senate Bill No. 6157 was substituted for Senate Bill No. 6157 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Bailey, the rules were suspended, Substitute Senate Bill No. 6157 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Smitherman: "Senator Bailey, I'm a little concerned about eliminating the student learning objectives. I understood you to say that they're considered to be an onerous burden, I guess, by some of the districts. Was it something that the districts came to you about or the Superintendent of Public Instruction's office or was this just something that sort of emanated from the committee on its own?"

Senator Bailey: "What this program will do, will be to change it from a mandatory program to a voluntary program. The school districts may still use the program, but it puts it on a voluntary basis."

Senator Smitherman: "I understand that, but I was just wondering if this is something that emanated as a result of the request from the Superintendent of Public Instruction or from pressure from various school districts asking that these things be removed or what? The reason I ask that is that while it's laudable to try to get rid of onerous paper work and things like that, the state is asked more and more to be responsible for funding education and with that type of responsibility and the increasing amount we have to put into education, it occurs to me that one of the things we talk about in terms of our dollar expenditure is accountability, and if we begin removing things like mandatory student learning objectives, where we get some feeling for where the various school districts are going with their programs, and we remove things like the measurements that they have to make--measurements of objectives--then we really have no idea what's going on in those districts. That does concern me and that's why I wanted to know where this emanated. What was it origin? Was it a matter of pressure from communities or what? I'm trying to--I'm very sincere about that."

Senator Bailey: "Well, thank you again. Again, it places, rather than mandatory, it places voluntary regulations. I think as we move into a new phase in education--remember last year we passed the schools for the 21st Century--we

passed other measures that will allow for the people in the local districts to make some policy matters and we still will allow, on a voluntary basis, the student learning objectives."

POINT OF INQUIRY

Senator Fleming: "Senator Bailey, I didn't quite understand your answer and I'm not sure, because we remodeled the Chamber and maybe changed some of the acoustics in here, whether you were hard of hearing. I think Senator Smitherman asked the question as to where this emanated from. Did it fall out of the sky, did someone request this of you such as the Superintendent of Public Instruction or the Washington Association of School Directors or the Washington Education Association? Did some organization affiliated with education come and ask, 'Senator Bailey, it's not necessary, but we'd like to know, would you please introduce this measure, because we'd like to get rid of these learning objectives; we don't really want this accountability?' Where did it emanate from? Is this your idea?"

Senator Bailey: "Thank you, Senator Fleming, for the question. It was various groups and I don't know if I've heard not from groups that say, 'Yes, we want to remove student learning objectives,' but I've heard from various people—teachers, people on school boards, various association members—that would like to have this removed, because we do have this new phase in education."

Senator Fleming: "So, what you are saying, is that none of the organized groups in education have come to you and said, 'We need to do away with this,' but you had heard from some constituents and people of that nature that said, 'Hey, I think it would be a good idea to get rid of this accountability aspect of reporting and that kind of thing there.' Then, you as a legislator decided to introduce a measure, as it is your prerogative, and being the Chairman of Education, you felt as though it was a good idea?"

Senator Bailey: "And I think I also should comment on the thought that when we heard this measure before Education, there were no organized groups in the education community that objected to this bill."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 6157.

SECOND READING

SENATE BILL NO. 6184, by Senators Craswell, Conner, Metcalf, Smith, Rasmussen and Pullen

Authorizing the director of fisheries to extend fishing seasons if storms prevent fishing.

The bill was read the second time.

MOTION

On motion of Senator Metcalf, the rules were suspended, Senate Bill No. 6184 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Stratton: "Senator Metcalf, are we opening an opportunity here for lawsuits if someone does go out and something happens to them and the Department of Fisheries has said, 'Yah, it's a storm, but you can go out.' Are we opening this to lawsuits?"

Senator Metcalf: "I'm not an attorney, but I can't see whether this would be a lawsuit or not. I think we're probably more liable the way we are. We're saying there's one day you either fish, regardless of weather or else. What we're proposing to say is if the weather conditions are too bad, then an alternative day would be provided and thus giving them a chance to avoid the kind of hazards that they now face. That would be my opinion, but I'm not an attorney."

POINT OF INQUIRY

Senator Smitherman: "Senator Metcalf, I was wondering, during the testimony on this, what type of reaction did you get from say--the sports groups--because one of the things I understood was that they were very concerned about commercial fishermen and the number of days that they have, particularly fishing within the enclosed areas of the Sound? Now, does this affect the sports fishermen in an adverse manner and if they reacted?"

Senator Metcalf: "I don't believe it has any adverse effect on the sports fishermen, because all these fisheries are regulated relative to the number of fish they can take and if they have a stormy day that cuts down their chance to take the fish that they have been allotted, so an alternative day would allow them to catch fish up to their allotment, but they are already under a specific number allotment, so I've heard no complaint, and in the testimony we heard around the state we didn't hear any sports fishermen in any way objecting to this. This is basically a safety measure."

Further debate ensued.

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Senate Bill No. 6184.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 6184, and the bill passed the Senate by the following vote: Yeas, 43; nays, 1; absent, 2; excused, 3.

MOTION

On motion of Senator Metcalf, the rules were suspended, Engrossed Substitute Senate Bill No. 6190 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Stratton: "Senator Metcalf, it says that the Legislature appropriated funds for this channel in 1979, but the Department failed to construct it. I guess I'd like to know whether that money reverted back to the general fund or whether it was used for something else or just what went on and whether the forty-eight thousand that we're appropriating today in this bill is going to cover the construction? I understand that it's going to cover the study. I think we have some questions that we do need to clarify on this bill."

Senator Metcalf: "Thank you, Mr. President. I would like the opportunity to answer that. I can answer one part of it; I can't the other. The original appropriation in 1979 was made, I believe it was a line item. It is my opinion and has been my opinion that it reverted back when the money was not spent. I do not know that and I will get the answer and I'll provide it to you on that, because I think that's a question we really need to answer. On the other part, the forty-eight thousand dollars will pay for the study. They'll have to take an in-depth study and that's what it pays for. It does not pay for construction, but the construction will come later."

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Engrossed Substitute Senate Bill No. 6190.

PERSONAL PRIVILEGE

Senator Madsen: "Mr. President, a point of personal privilege. Senator Vogndil announced the other day that I need to, for the privilege of speaking on the floor, provide some small gratuity to each member of the Senate. On your desk is a chocolate heart. I know it's traditional to hand out cigars, but I didn't do that for two reasons. Firstly, Senator McCaslin asked that I get something for him to eat, and I understand that's not an uncommon request of his. Second reason is, I was afraid Senator Niemi would smoke the cigar, so to acquiesce to Senator McCaslin's need for something to eat, and to protect the health of Senator Niemi, I got you a chocolate heart. Thank you."

MOTION

On motion of Senator Lee, the rules were suspended, Engrossed Senate Bill No. 6272 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Vognild: "Senator Lee, I note there is no fiscal note on this and I noted in your presentation that you indicated that it would not cost us any money. Did the Department testify that they could pay the necessary, I think, rather heavy expenses of this bill out of their present budget?"

Senator Lee: "The Department did testify that they could cover the cost of this particular new enterprise within the present budget. The reason they can is because we appropriated funds for the Small Business Finance Assistance Center for the full two-year period, and they've really only been in existence for about a month, and so they say they figured it would cost about ninety thousand and that they do have that money. It will mean that when we look at the budget a year and a half from now and that if this is working, that there may need to be an additional appropriation."

Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Lee, are we going to subsidize the businesses in any way—that are being helped with getting the investors and the entrepreneurs together?"

Senator Lee: "The answer to your question is 'no,' we are not paying anybody to put their name on a list, nor are we necessarily considering spending money to send out such a list, but we are trying to provide a focal point within state government for the kind of information that somebody who has never been in business for themselves before, can come to the state government and find that information, as well as those who want to invest within our state can put them together with a person that needs a little capital."

Senator Rasmussen: "Senator Lee, that sounds like a worthwhile purpose. Another question, do you think we can get some investors interested in the Convention Center in Seattle and possibly could we get some investors interested in Barry Ackery's Sonics where they are going to ask for a million dollars a year subsidy and could we possibly get some investors interested in the Mariners, so that they could be on their own feet rather than on the backs of the general taxpaying public? It bothers me that with all of these good small enterprises that the taxpayer ends up paying for them—subsidizing them heavily. This bill would not do that, then?"

Senator Lee: "This bill does not subsidize anyone, and I really can't answer your questions as to who will invest in what."

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Senate Bill No. 6272.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 6272 and the bill passed the Senate by the following vote: Yeas, 49.

SECOND READING

SENATE BILL NO. 6222, by Senators Anderson, Fleming, Conner and Smitherman

Changing the powers and duties of the small business export finance assistance center.

MOTIONS

On motion of Senator Lee, Substitute Senate Bill No. 6222 was substituted for Senate Bill No. 6222 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Lee, the rules were suspended, Substitute Senate Bill No. 6222 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Lee, since this law has been in effect, how is it working? It says on page one, 'Loans by the Small Business Export Finance Assistance Center under this chapter shall not compete with nor be a substitute for available loans by a bank or other financial institutions and shall only be considered upon a financial institution's assurance that such loan is not available.' My question now that the law has been in effect, what kind of statement do we get from the banks that they won't make a loan and then they say, 'Well, we just don't want to.' Do we get the guarantees on all the bad loans that the banks don't want to handle? It's in the bill; it's not in the digest."

Senator Lee: "Senator Rasmussen, I think the main reason that we can be assured that they're not making loans is because we haven't given any money to make loans with, but the particular program that they have developed—in the Export Assistance Center—is a program where they have developed their own software—their own computer program—so that the input on where the assistance is available and the kind of instruments that you need when you're going into international finance is readily available for the small businesses that come into them."

"One of the things they've discovered, even with this databank that they have developed, is that there has to be some individual tailoring. In fact, one of their success stories is—a couple of their success stories are in distressed counties—where they've helped individuals, where they didn't have a local market, get into a foreign market. Grays Harbor is one of the ones that they often bring to our attention as one of their success stories."

"I don't have copies of those particular success stories, but I would be pleased to have them provided to you, Senator Rasmussen, so that you could look over them carefully and see how they did handle the advice as far as obtaining either financial assistance or being able to work with financial institutions overseas, because that's one of the problems that people who are exporting have to understand—how to get their money from that other country."

Senator Rasmussen: "Senator Lee, you didn't really answer the question. The law, as it passed in '87, said, 'Make loans to Washington businesses with annual sales of twenty-five million dollars or less for the purpose of financing the export of

goods or services by those businesses to buyers in foreign countries. Loans by the Small Business Export Finance Assistance Center under this chapter--' and this is the one we are amending now, 'shall not compete with nor be a substitute for available loans by a bank or other financial institution and shall only be considered upon a financial institution's assurance that such loan is not available.' This, in effect, is saying that the bank says we won't make the loan and this Export Center will guarantee it, apparently. I'm asking you, how is it working, when the bank sends a letter and says, 'We won't participate in this loan or letter of credit?' Then, does the state come in? It isn't clear to me where we'd have enough money to finance all of the exports that possibly would need assistance."

Senator Lee: "Senator Rasmussen, even though we put that language in the bill to allow such a thing, we did not provide funds to make such loans, so there is no state money being loaned to any of these particular kinds of businesses. One of the things that it does apply to, however, relates to the size of the business which you also read which are those with twenty-five million dollars or less as far as their annual sales are concerned. That is a significant inclusion, because it does say that they are only to assist the smaller businesses and not the billion dollars businesses that can quite easily do things on their own. That's why it is the Small Business Export Finance Center and that's the major reason for having that figure in there. The loan guarantees have a slightly higher figure, but those are only loans that are made by financial institutions."

Senator Rasmussen: "Senator Lee, it goes on and you referred to it, 'Provides loan guarantees on loans made by financial institutions to businesses with annual sales of one hundred million dollars or less for the purpose of financing exports of goods or services by those businesses to buyers in foreign countries.' The words that I'm reading there, in effect, say that the state, through this small business center and export office, will make the guarantees. I will remind you that we had some guarantees from Westside Savings and Loan on the Convention Center. It failed and we had the indemnity company which also came in with a thirty million dollar guarantee and it would have failed if they would have been required to pay it right now."

"I'm concerned with the wording that's in this bill, which says that the state will guarantee. Many of these exports loans, of course, go bad and particularly in some of the countries where we only have to refer to the big banks—Chase Manhattan and City Corp—and the rest of them are writing off billions of dollars in these loans, but here this says, in effect, that the state will guarantee. We don't have the capacity that City Corp has or Chase Manhattan or any of the rest of the big ones. Aren't you concerned with that, Senator Lee? But if you would just say there is no intent by the state to guarantee any of these loans with state taxpayer's money, that would relieve my mind."

Senator Lee: "Yes, that is true, Senator Rasmussen. There is no intent for the state to guarantee loans with state taxpayer's money, particularly in the export field. Customer and seller do have to execute instruments that say, 'Yes, the money behind each of these transactions is sound,' and that is the only function that this particular agency performs."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 6222.

SENATE RESOLUTION 1988-8704

by Senator Talmadge

BE IT RESOLVED, That Senate Resolution No. 1987-8602, the Senate Rules of the 50th Legislature, be amended to read as follows:

On page 5, line 190, after "journal," insert:

"6. No senator shall accept any gift, favor, service or gratuity, in excess of twenty-five dollars in value, under circumstances in which it could be reasonably inferred that such acceptance might influence the senator in the discharge of legislative duties, or was a reward."

On page 6, after line 211, insert the following:

"SENATE SPONSORED MEETINGS

RULE 10. There shall be no admission fee or charge of any kind whatsoever to the public for any meeting sponsored by the Senate."

Renumber the remaining rules consecutively

On page 6, after line 211, insert the following:

"OPEN MEETINGS

RULE 10. Subject to the executive sessions provisions of the Open Public Meetings Act (RCW 42.30.110), all meetings in which members of the Senate are required to participate, with the exception of caucuses, shall be open to the public."

Renumber the remaining rules consecutively

MOTION

On motion of Senator Talmadge, the question was divided, the first part to be the proposed rule change on page 5, line 190; the second part to be the rule change on page 6, after line 211 - Senate Sponsored Meetings and the third part to be the rule change on page 6, line 211 - Open Meetings.

Senator Talmadge spoke to part one of the resolution.

Debate ensued.

POINT OF INQUIRY

Senator West: "Senator Talmadge, your rule has a condition that says, 'This item must be presented under circumstances in which it could be reasonably inferred that such acceptance might influence the Senator in discharge of legislative duties or was a reward.' Now your rule limits that to gifts over twenty-five dollars. Does that mean that a Senator on this floor could accept a gift for twenty-four dollars in exchange for a vote or in exchange for a favor, or take a reward of twenty-four dollars?"

Senator Talmadge: "Senator, under the criminal statute, 'no.' Under this rule change however, it's calculated to deal with those circumstances in which members of the Senate are in conversation, for example, with a lobbyist over the dinner table or over the luncheon table, whatever, and there might be some concern on the part of some members of the Senate that any implication that they were sitting down to dinner or sitting down to lunch with a lobbyist would be in violation of this rule or in violation of anything else."

Further debate ensued.

The President declared the question before the Senate to be the adoption of part one of Senate Resolution 1988-8704.

Part one of Senate Resolution 1988-8704 was not adopted.

The President declared the question before the Senate to be the adoption of part two of Senate Resolution 1988-8704.

Senator Talmadge spoke to part two of the resolution.

POINT OF INQUIRY

Senator Vognild: "Senator Talmadge, in the event of an all-day meeting, and a lunch was being offered and there was a charge for that lunch and if the lunch was not mandatory to attend, would your amendment, in any way, affect the charging of a fee for lunch?"

Senator Talmadge: "The answer is 'no,' Senator Vognild, so long as the payment of the fee was not a condition upon which somebody could participate in the meeting of the regularly sponsored activity."

Further debate ensued.

Senator Talmadge demanded a roll call and the demand was sustained.

Further debate ensued.

The President declared the question before the Senate to be the roll call on the adoption of part two of Senate Resolution 1988-8704.

ROLL CALL

The Secretary called the roll and part two of Senate Resolution 1988-8704 was not adopted by the following vote: Yeas, 23; nays, 26.

Voting nay: Senators Anderson, Bailey, Barr, Benitz, Bluechel, Cantu, Craswell, Deccio, Hayner, Johnson, Kiskaddon, Lee, McCaslin, McDonald, Metcalf, Nelson, Newhouse, Patterson, Pullen, Saling, Sellar, Smith, von Reichbauer, West, Williams, Zimmerman - 26.

The President declared the question before the Senate to be the adoption of part three of Senate Resolution 1988-8704.

SECOND READING

SENATE BILL NO. 6276, by Senators Lee, Warnke, Fleming, Smitherman, Conner, Deccio, McMullen and Johnson

Creating an interagency task force on entrepreneurial development.

MOTIONS

On motion of Senator Lee, Substitute Senate Bill No. 6276 was substituted for Senate Bill No. 6276 and the substitute bill was placed on second reading and read the second time.

Senator Lee moved that the following amendment be adopted:

On page 1, line 17, after "department;" add "the department of labor and industries; the department of social and health services;"

POINT OF INQUIRY

Senator Rasmussen: "Senator Lee, I'm wondering if you don't need a little addition to the amendment. Adding these departments is fine, but when you come down to line 21, below your amendment, it says, 'The chair of the task force shall be the director or an assistant director of the Department of Trade and Economic Development.' Then further down it says, 'Clearly define the problems.' My question is where you say, 'shall be the director or an assistant director,' it leaves it rather vague. Usually we say, 'The director or his designee,' so that you have some person that's at the head of responsibility."

Senator Lee: "Senator Rasmussen, it is true, we sometimes do use the director or designee when we're looking at persons who are serving on a particular task

force. In this case, it was decided, with the agreement of the department, that it shouldn't be just any designee, but it should be someone who is an assistant director. Now, the person that they have in mind, in fact, is the person who is the assistant director for the Business Assistance Center that has newly been created. It seems very logical that that person, if not the director himself, who is interested in this interagency procedure, then would probably be someone that was in the hierarchy and not just somebody's person way down the line."

The President declared the question before the Senate to be the adoption of the amendment by Senator Lee to Substitute Senate Bill No. 6276.

The motion by Senator Lee carried and the amendment was adopted.

MOTION

On motion of Senator Lee, the rules were suspended, Engrossed Substitute Senate Bill No. 6276 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Substitute Senate Bill No. 6276.

ROLL CALL

On motion of Senator Lee, the rules were suspended, Substitute Senate Bill No. 6290 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Vognild: "Senator Lee, I notice we have a fiscal note on this bill at forty-three thousand with the eighty-six thousand dollar biennial 'bow wave' on it. There's no appropriation in the bill. Is this money going to be appearing in the budget or are we going to pass the bill without any money?"

Senator Lee: "What does the source of fund indicate on your fiscal note? I'm sorry I don't have a copy of the fiscal note. What does the source of funds indicate on your fiscal note?"

Senator Vognild: "State general fund."

Senator Lee: "It's my understanding, that this, since it's already authorized through this next year, that it is already in the budget, but if we pass this, we've got to continue to put it in the budget. If we don't pass this, it goes out of existence and, therefore, there would be no need for funds in the ensuing years. It's not a new program nor a new cost."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 6290.

ROLL CALL

Repealing authority for public utility and transportation corridors.

MOTIONS

On motion of Senator Patterson, the rules were suspended, Substitute Senate Bill No. 5147 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Kreidler: "Senator Hansen, because this bill is, in a sense, responding to a court decision, does this measure, in any way, go beyond the strict interpretation of compliance with that court decision?"

Senator Hansen: "No, it doesn't. When we passed the bill originally, we had no thought that the railroad had an easement across a lot of private land and that wasn't even given consideration. We were taken to court and a determination was made by the State Supreme Court that if you don't have reversionary rights to the land that was taken for the rail line, then it reverts back to the land owner. If it has to be taken for public use, then they do that by condemnation or private treaty to pay for the reversionary rights."

Senator Kreidler: "So, this, in no way, takes away the authority that may have been possible previously to maintain those rights of keeping that property from reverting to the private property owners?"

Senator Hansen: "There's no way that you can supersede private property rights. Being that it was brought to our attention that we were--in the legislation we passed--taking away private property rights, the Supreme Court said that you're responsible on reversionary rights, you'd have to make compensation for those."

Further debate ensued.

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 5147.

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 5147, and the bill passed the Senate by the following vote: Yeas, 45; absent, 1; excused, 3.

Voting yea: Senators Anderson, Bailey, Bauer, Bender, Benitz, Bluechel, Conner, Craswell, Deccio, DeJarnatt, Garrett, Gaspard, Halsan, Hansen, Hayner, Johnson, Kiskaddon, Kreidler, Lee, Madsen, McCaslin, McDonald, McMullen, Metcalf, Moore, Newhouse, Niemi, Owen, Patterson, Pullen, Rasmussen, Rinehart, Saling, Sellar, Smith, Smitherman, Stratton, Talmadge, Vognild, von Reichbauer, Warnke, West, Williams, Wojahn, Zimmerman - 45.

Absent: Senator Fleming - 1.

Excused: Senators Barr, Cantu, Nelson - 3.

SUBSTITUTE SENATE BILL NO. 5147, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

SECOND READING

SENATE BILL NO. 6139, by Senators McCaslin and Garrett

Eliminating boundary review boards.

MOTIONS

On motion of Senator McCaslin, Substitute Senate Bill No. 6139 was substituted for Senate Bill No. 6139 and the substitute bill was placed on second reading and read the second time.

On motion of Senator McCaslin, the rules were suspended, Substitute Senate Bill No. 6139 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Hansen: "Senator McCaslin, for a little information, are the counties asking for the reduction in the Boundary Review Boards or is it the cities that are trying to throw the Boundary Review Boards out?"

Senator McCaslin: "Senator Hansen, the counties represented by Jim Williams did not support the bill; the cities represented by Stan Finkelstein did support the bill. The problem seems to arise with cities that the BRBs are delaying implementation of agreed to annexations and that they're a stumbling block more than an assistance. In fact, in Senator Pullen's district, where a city wanted to dissolve and had the votes to do it on a petition, the BRB denied them the right to dissolve."

"So, what we've got is, on the one hand, they are denying the right of the people to vote on incorporation and the other hand when a city has been incorporated, they are denying them the right to dissolve. The peoples wishes are not being recognized here, Senator Hansen."

POINT OF INQUIRY

SENATE BILL NO. 6148, by Senators Pullen, Halsan, Garrett, Johnson and Barr

Revising certain procedures for applying for concealed pistol licenses.

MOTIONS

On motion of Senator Pullen, Substitute Senate Bill No. 6148 was substituted for Senate Bill No. 6148 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Nelson, the following amendment was adopted:

On page 2, line 26, after "citizenship." insert "An applicant who is not a citizen shall provide documentation showing resident alien status and the applicant's intent to become a citizen."

On motion of Senator Pullen, the rules were suspended, Engrossed Substitute Senate Bill No. 6148 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Talmadge: "Senator Pullen, really I have two questions. The first relates to the provisions of the bill that exempt from disclosure a list of applicants for concealed weapons permits. Is there any intention on the part of the proponents of the legislation to exempt from disclosure to law enforcement agencies the identity of applicants for concealed weapons permits?"

Senator Pullen: "No, absolutely not."

Senator Talmadge: "Secondly, I have a question that was raised in the course of the hearing of this bill and the bill that was related to weapons that were not detectable by normal kinds of metal detectors and other security devices used in jails and courthouses and airports. Senator Pullen, Mr. Judy, from the National Rifle Association, testified that fully twenty percent of the present firearms can get through the normal kind of magnetometer or other kinds of security detection device in an airport, a jail, or a courthouse facility. That twenty percent figure has been gnawing at the back of my mind and the question I have for you as chairman of the Law and Justice Committee, is it your intention to take up the issue of security devices of the sort to which Mr. Judy referred and the fact that a significant number of weapons of a variety of manufactures can get through those kinds of security devices?"

Senator Pullen: "Yes, Senator Talmadge, your question is an excellent question. In fact, we've already begun to take the issue up through the hearing that we previously called and through the discussion that your particular bill that you introduced was able to generate. We hope to continue this effort. It's not the kind of area that can be decided upon immediately or instantaneously. There are many,

many questions that have to be answered. For example, under what circumstances are twenty percent of the firearms getting past the detection devices? Now, some of that is due to lack of vigilance by the human operators of the system. Some of it is due to firearms of a certain composition, particularly stainless steel, or below a certain mass, usually below the range of eight to twelve ounces not being as easily detected. Some of it is also due to the sensitivity setting that the magnetometers are set.

"These are important questions that need to be answered. We have requested some of the officials at Sea-Tac Airport to provide us with a demonstration and I was hoping to set up a committee hearing at Sea-Tac, so that we could actually do some tests ourselves. When I made that inquiry, they were kind of nervous and said they had to go to federal officials to further discuss the issue and we're waiting for them to get back to us, and as soon as they get back to us, we hope to pursue this with considerable effort."

Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Pullen, I'm concerned. You, as chairman of the Law and Justice Committee, and Senator Talmadge have done an excellent job and are doing an excellent job. Is it your intent to preserve the right of the people of the United States to preserve the constitutional right to bear arms in defense of themselves and their country?"

Senator Pullen: "Senator Rasmussen, I stand by my oath of office where I swore before God that I would defend the Constitution, and the Constitution very clearly guarantees the citizens the right to keep and bear arms."

Senator Rasmussen: "Thank you, Senator Pullen. I wanted to bring that out because Senator Pullen said some people may think that everything is flying through that committee. That's known as the graveyard of the Senate—the Law and Justice Committee. Senator Talmadge well knows that more bills stay in there than come out. Senator Pullen is doing the same excellent job of screening the bills that go through there and Senator Pullen deserves commendation for the fact that he is preserving—and he paid a little attention when he took that oath of office that he would support the laws in the state of Washington, so that when we change the law, he supports it. He supports the Constitution of the state of Washington and the United States and I think that is very important.

"I have known sometimes—not with these present elegant or exquisitely law-abiding members of the Senate—I've heard people say on the floor of this Senate, 'So what, the Constitution means what I say,' and the Constitution doesn't, the Constitution means what the people say and we should listen to our oath of office. Senator Pullen does and should be commended. I think this is excellent legislation, though it is minor. Senator Nelson made it a little clearer and that's good. Thank you very much, Senator Pullen, for the excellent job you are doing."

Further debate ensued.

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Engrossed Substitute Senate Bill No. 6148.

MOTIONS

On motion of Senator Metcalf, the rules were suspended, Substitute Senate Bill No. 5653 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Zimmerman: "Senator Metcalf, in connection with a fiscal note that has been asked for on January 19, I wondered if you could give us the predicted fiscal impact of the bill?"

Senator Metcalf: "The fiscal note was not provided at the time that it came before the committee. We assumed that it's a relatively small fiscal note, but there would be some. No, I do not have it. It may have come through by now, but I'm sorry I do not have it at this time."

Further debate ensued.

SUBSTITUTE SENATE BILL NO. 5653, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

STATEMENT FOR THE JOURNAL

February 8, 1988

SENATE BILL NO. 5653

I voted against this bill which dealt with free fishing and hunting licenses for disabled veterans because the fiscal note requested January 19, 1988, had not been provided. The vote on February 8, 1988, seemed like ample time. We need to know the fiscal impact on agencies and state government, therefore, this bill should not have been passed.

POINT OF INQUIRY

Senator Pullen: "Senator Metcalf, is there any thing in this particular amendment or is there any language in the bill that would increase exposure of the state to liability?"

SECOND READING

SENATE BILL NO. 5036, by Senator Rasmussen

Restricting sale of surplus salmon eggs by the department of fisheries.

MOTIONS

On motion of Senator Metcalf, Substitute Senate Bill No. 5036 was substituted for Senate Bill No. 5036 and the substitute bill was placed on second reading and read the second time.

Senator Metcalf moved that the following amendment by Senators Metcalf, Rasmussen, Smith and DeJarnatt be adopted:

Strike everything after the enacting clause and insert the following:

"Sec. 1. Section 4, chapter 35, Laws of 1971 as last amended by section 25, chapter 46, Laws of 1983 1st ex. sess. and RCW 75.08.245 are each amended to read as follows:

The department may supply, at a reasonable charge, surplus salmon eggs to a person for use in the cultivation of salmon. The department shall not intentionally create a surplus of salmon to provide eggs for sale. Subject to the department egg transfer and disease policy guidelines, the department shall only sell salmon eggs from stocks that are not suitable for salmon population rehabilitation or enhancement in state waters in Washington. Prior to department determination that eggs of a salmon stock are surplus and available for sale, the department shall assess the productivity of each watershed that is suitable for receiving eggs.

The salmon enhancement advisory council, created in RCW 75.48.120, shall consider egg sales at each meeting."

POINT OF INQUIRY

Senator Warnke: "Senator Metcalf, in reading the amendment, I'm a little confused. It says, 'The department shall only sell salmon eggs from stocks that are not suitable for salmon population rehabilitation or enhancement.' If eggs are not suitable for rehabilitation or enhancement, what would they be good for?"

Senator Metcalf: "Well, what that sentence means is that you can't sell salmon eggs from the Columbia River, for example, into the Skagit River. That is, you can't use them, because of disease problems between the various districts of the state. You only use salmon eggs in a nearby river system. You don't take them clear across the state and that's what we're saying. The eggs will hatch--they can take them to Peru or Chile or wherever and they will hatch and raise salmon--but we would not want to transfer certain eggs clear across the state. Every egg, however, that is suitable for planting anywhere within those constrictions, those we want to use in our state and that's the purpose of the bill."

Further debate ensued.

The President Pro Tempore declared the question before the Senate to the adoption of the amendment by Senators Metcalf, Rasmussen, Smith and DeJarnatt to Substitute Senate Bill No. 5036.

The motion by Senator Metcalf carried and the amendment was adopted.

SECOND READING

SENATE BILL NO. 6247, by Senators Metcalf, Owen and Rasmussen
Prohibiting the taking of herring spawn in any commercial fishery.

MOTIONS

On motion of Senator Metcalf, Substitute Senate Bill No. 6247 was substituted for Senate Bill No. 6247 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Nelson, the rules were suspended, Substitute Senate Bill No. 6247 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Williams: "Senator Metcalf, I'm having a little trouble understanding the last sentence of the bill. I don't understand. If you are trying to prohibit the taking of herring, in other words, save them, why should the whole section or the law that you are passing here not be applicable if the Indian fisheries takes more than fifty percent of the herring? I don't quite understand that."

Senator Metcalf: "Senator Williams, this was Senator Owen's amendment. What the bill intended to do was to say, 'nobody is allowed to take the herring roe for food.' Senator Owen was intending to say, in my opinion—he isn't here today—and if I misstate, Senator DeJarnatt or whomever, can correct me, but I think Senator Owen was trying to say if it is found that the Indians who are working on this herring roe, as well as the others, if the Indians are allowed to harvest the fertilized roe, then other people—that is the American fishermen will be allowed also to harvest herring roe."

"It is my opinion that that was the intent of the amendment. I don't like the wording very well. I would like to have had it differently worded, but that's the wording that Senator Owen felt would do the job and we went along with it. I am concerned as you are about this wording, because it doesn't seem to do quite what Senator Owen wanted to do, in my opinion."

Senator Williams: "What would you predict then would likely happen? In other words, are the Indian fisheries people going to be taking the herring and is there a likelihood that they would take fifty percent?"

Senator Metcalf: "Well, there's a likelihood that they would be taking more than fifty percent. It depends on how the Fisheries Department views it when they look at it with their attorneys to see the effect of this. It would be my hope and to establish the purpose of the bill, I believe this was Senator Owen's purpose to say, 'You can't harvest the herring roe, the fertilized roe.' If, however, you find by a court ruling or whatever, that the Indians have a right to harvest the roe to sell or to eat, then the other people also have that right."

Senator Williams: "And thus we will totally deplete the herring if you allow everybody to go at it?"

Senator Metcalf: "I am in total agreement with you that any harvest of fertilized roe set by the herring is wrong and the bill declares that this is a conservation measure, because we must conserve this vital food fish for the use that nature intended it. I believe it is wrong to take the roe to eat and I hope that that is the intent of the bill. That was my intent in introducing the bill."

Further debate ensued.

POINT OF INQUIRY

Senator Kreidler: "Senator Metcalf, one concern I have is that in the harvesting of herring roe, one of the practices that has been utilized and to the best of my knowledge, exclusively by the Indians, so far, is to net the herring and put them into pens with kelp, and then once the eggs are laid on the kelp to release the herring. I believe they are the only ones that have employed that particular practice. In that case, there is not a true harvesting of the herring. Wouldn't that, in fact, then potentially lead to a situation where the Indians were in a position to harvest more than fifty percent, but at the same time, the herring would not be killed and therefore not a true harvesting, and therefore the access to the herring resource could be considerably more for the Indians than the non-Indians?"

Senator Metcalf: "The answer to that is number one, I don't agree that this isn't a true harvest. When you pen the herring up in a restricted area and force them to spawn on the kelp there in order then to turn the herring loose and harvest the roe, you are harvesting that roe and I believe that that is not proper regardless of who does it. Now, the Indians are the ones that are doing it right now, but the Department's proposal, as I understand it, if there were no bill to allow others to do it, and those are still herring that if you didn't pen them up and harvest their roe, they would spawn elsewhere and that roe would be then fertilized and become little herring. It is my opinion that in the immediate future you may have the Indians harvesting more than fifty percent, but if we continue to let others do it too, we would probably have a balance. I think it is wrong for anyone to harvest that roe."

Further debate ensued.

MOTION

On motion of Senator Metcalf, further consideration of Substitute Senate Bill No. 6247 was deferred.

SECOND READING

SENATE BILL NO. 6349, by Senators Smith, Kreidler, Benitz, Metcalf, Barr and Patterson

Requiring licenses for professional salmon fishing guides.

The bill was read the second time.

MOTION

On motion of Senator Nelson, the rules were suspended, Senate Bill No. 6349 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Senate Bill No. 6349.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 6349, and the bill passed the Senate by the following vote: Yeas, 46; nays, 2; excused, 1.

Voting yea: Senators Anderson, Bailey, Barr, Bauer, Bender, Benitz, Bluechel, Cantu, Conner, Craswell, Deccio, DeJarnatt, Fleming, Garrett, Gaspard, Halsan, Hansen, Hayner, Johnson, Kiskaddon, Kreidler, Lee, Madsen, McCaslin, McDonald, Metcalf, Moore, Nelson, Newhouse, Niemi, Patterson, Pullen, Rasmussen, Rinehart, Saling, Sellar, Smith, Smitherman, Stratton, Talmadge, Vognlid, von Reichbauer, Warnke, West, Wojahn, Zimmerman - 46.

Voting nay: Senators McMullen, Williams - 2.

Excused: Senator Owen - 1.

SENATE BILL NO. 6349, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

POINT OF INQUIRY

Senator Kreidler: "Senator Sellar, I have a question regarding a particular report that was generated by some consultants for the Legislature and it was a report that deals with the State Employees Insurance Board--SEIB--that deals with the contract with Coopers and Lybrand, who generated a preliminary report and I believe delivered it here to the Legislature on Friday. I have a concern and I ask you the question because you are chairman of Facilities and Operations.

"I have a concern about how that report was released to the members of the Legislature. My question really deals with the question of the fact that that was a report that was essentially commissioned by the Legislature--the House and Senate--at least by the chairman of Ways and Means in the House and you, before the session began. I believe that report was available in rough draft on Friday. My staff attempted to get a copy on Friday and was told it was unavailable. I attempted to get a copy yesterday afternoon and was told that it would not be released to me and now I understand that it was in the possession of the Ways and Means Committee as of Friday, and that report is one that has been paid for by

public money and should be available to all of the members as soon as it was generated and, in fact, that was withheld.

"I find that personally an affront and I object to it most strenuously that that report should have been made available immediately to—certainly to both caucuses and leadership of both caucuses immediately and not withheld. This is not a report that was generated by private funds. It was public funds and I'm wondering if this is standard operating procedure or if this is something that is going to happen in isolation?"

Senator Sellar: "Senator Kreidler, I will try to make my answer shorter than the question. Yes, you are correct that was delivered. There is a meeting set for 12:30 today for that to be discussed and everyone has been invited to that meeting. As to the actual releasing of that particular thing, I think maybe I would defer to Dan McDonald, the chairman of the committee."

REMARKS BY SENATOR McDONALD

Senator McDonald: "Senator Kreidler, originally they had said that the report would be to us on the fifth of February, which was Friday. They later amended that and said that it would be here on Monday, the seventh or eighth, whatever, and indeed that's what happened. We received the report in my office, I think, like about one o'clock. There were eight copies—four to the House Ways and Means and four to the Senate Ways and Means. We, Representative Grimm and myself—and I talked to Senator Gaspard last night at the end of the Ways and Means Committee meeting—but he was not able to do it, but a number of us got together and decided on how we were going to distribute the report. The decision was that at 12:30 today, we are going to have a briefing by both the House and Senate Ways and Means Committees. At which time, you will have a copy of the draft report and I want to emphasize 'draft report,' because it is just that, a 'draft report.'

"There will be a briefing not by Coopers and Lybrand, because they are not here available to do that, but by our staff of their reading of it. After that meeting, then there will be copies—well even at that meeting—there will be copies available to the entire one hundred forty-seven legislators, plus the press and the public. I want to emphasize to you that this is a draft report and we will make comments back to them to be incorporated into it. We have not tried to be secretive about this. It obviously deals with a subject that has an awful lot of fiscal impact, probably some emotional impact as well. We've tried to do it in a responsible way and do it as quickly as we can. We are not trying to hide anything from you, Senator Kreidler."

REMARKS BY SENATOR GASPARD

Senator Gaspard: "Mr. President, and members of the Senate. I think it is important to note here that this is not a report that was just being requested by the two chairmen of the respective House and Senate Ways and Means Committees. This is a report by the Legislature, by members of all of this body. Now, if the report was actually submitted to Senator McDonald's desk yesterday at one o'clock or two o'clock or whatever you said Dan, it was interesting to note that there was no report given to the Democratic party members, who are members of this Legislature and members of Ways and Means, also.

"You mentioned about me being informed of a meeting between you and Representative Grimm. After a five hour meeting in Ways and Means, I asked to see a report and you said, 'Oh yes, by the way, I'm meeting with Representative Grimm in just a few minutes, can you join me?' That was the only notice that I had that the report was in—the only notice I had that you were having a meeting—so don't let the people here think that I knew of a meeting that was going on. There was evidently a meeting that you and Representative Grimm wanted to put together, but you didn't inform us until we had to ask. This is an important decision that we're all going to have to make a decision on. We all want to be informed. I think we all want to be informed on a timely basis. It certainly, I think, is incumbent upon the majority party, in this case, to share that information that is supposed to be bi-partisan information on a timely basis. I don't think you've done that yet.

"Now, is there a notice, is there a meeting that is taking place today? If so, I have not seen a meeting notice that went through here. Is there actually going to be an announcement? Is there a Ways and Means meeting?"

REMARKS BY SENATOR McDONALD

Senator McDonald: "Mr. President, yes indeed, there is a notice that there will be a meeting of the Ways and Means—a joint meeting of the Ways and Means Committees of both the House and Senate in HOB-A at 12:30 to 1:30."

REMARKS BY SENATOR VOGNILD

Senator Vognild: "I was sitting here listening to this and understanding part of the problem and it suddenly is getting much worse. There's a joint meeting of Ways and Means scheduled for 12:30 today, is that correct? When was that decision made? This is the first indication—about four minutes ago Senator Newhouse told me there'd be a meeting at 12:30 today of Ways and Means. It would appear to me, if there was a joint meeting with the House and Senate, that must have taken some organizational structure somehow. Was that meeting just now set?"

REPLY BY SENATOR McDONALD

Senator McDonald: "Senator Vognild, I guess you can look for problems in this. We have attempted, to the best of our ability, within the constraints and the time that I had. As you remember, from two o'clock until seven o'clock, we were a little bit busy in the Ways and Means Committee. Representative Grimm and myself—and if Senator Gaspard had been available—sat down and tried to decide, how we were going to get this information out in the most timely fashion and to the people as quickly as possible and in a coordinated manner. We decided at that time to have a meeting at lunch time of both of our bodies and that was at 12:30 to 1:30. Now, if you want to read into that some kind of malicious intent, you certainly can avail yourself to do that, but there certainly wasn't. This is the attempt to get it out as quickly and in as timely a manner as possible."

PARLIAMENTARY INQUIRY

Senator Newhouse: "Mr. President, may I ask what is before the body at this time?"

REPLY BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Bluechel: "The next bill before the body is Senate Bill No. 6571."

Senator Newhouse: "I move we proceed."

SENATOR VOGNILD CONTINUES

Senator Vognild: "Did I not have the floor? I asked Senator McDonald a question and he responded. If I may just continue, and I'll make it very quick, Senator, I guess the only thing that concerns me, and I do not question the intent of what you are doing, what concerns me is that had this question not come up on this floor, then a majority of our members would not have known of a 12:30 meeting. That's my only concern. It's cleared up now. There is a 12:30 meeting. The report is out and we appreciate it and we hope that it won't happen to us, either side, in the future."

PERSONAL PRIVILEGE

Senator Kreidler: "Mr. President, a point of personal privilege. I take extreme objection, personally and individually, to this process. Now, I was just told in the wings that this report—and I was informed of this by the majority leader—that this report was available on Friday. I want to clarify that this is not a timely dealing with this particular issue. It is an issue of strict importance to my district and I find it extremely important that we deal with it in a timely fashion.

"If it was available on Friday, as the Senate majority leader has informed me, then indeed we are not dealing with it in a timely fashion. This is a report that should have been available to me as an individual of this body, and I take extreme exception of the process that's being involved here."

REMARKS BY SENATOR HAYNER

Senator Hayner: "Mr. President. I think we're making a mountain out of a mole hill here and we've got more important things to do. I thought that the report was delivered on Friday. It was intended that it be delivered on Friday, but as Senator McDonald has said, they delayed it two days. So, I was wrong, but I think there has been no attempt to hide this in any way shape or form. We have been so open with you in every way and all you had to do was walk across to my office and express your concern and it would have been taken care of. We have tried to keep this on a smooth, even keel as well as possible, and I hope that you realize that. We will go forward now."

SENATE BILL NO. 6571, by Senators Smith and Zimmerman

Providing for a special senior citizen salmon and steelhead bank fishing recreation area.

The bill was read the second time.

MOTION

Senator Warnke moved that the following amendments by Senators Warnke, Talmadge, Rasmussen, Smitherman, Vognlid, Fleming, Bender and Garrett be considered simultaneously and adopted:

On page 1, after line 7, strike all material down to and including "area" on line 10 and insert "areas on each river of the state deemed appropriate for such use by the director. The purpose of establishing such bank fishing areas"

On page 1, line 16, after "fishing" strike all material down to and including "area" on line 19, and insert "areas on each river of the state deemed appropriate for such use by the director. The purpose of establishing such bank fishing areas"

Debate ensued.

POINT OF INQUIRY

Senator Smitherman: "Senator Metcalf has spoken elegantly about the need for the Director of Fisheries to be involved in the decision making process. Senator Metcalf, is this a departmental request bill?"

Senator Metcalf: "No, it is not."

Further debate ensued.

Senator Talmadge demanded a roll call.

POINT OF INQUIRY

Senator Fleming: "Senator Metcalf, I know you have a great amount of concern about fish."

POINT OF ORDER

Senator Nelson: "I believe that there was no action on the request for a roll call."

REPLY BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Bluechel: "I have not called for the roll call. I will do so after Senator Metcalf speaks."

SENATOR FLEMING POINT OF INQUIRY CONTINUES

Senator Fleming: "And I know that you have a great amount of concern for seniors, too. You are not suggesting that some seniors were more deserving than other seniors in this particular area?"

Senator Metcalf: "No, I have not suggested that at any time."

Senator Fleming: "That is not what you were suggesting?"

Senator Metcalf: "No, I was saying we're dealing with a particular bank of the Columbia River for a limited area and that this amendment extends to all the rivers of the state, and the Department has vast powers in this area, so I wasn't talking about restricting anyone."

Senator Fleming: "Well, I would suggest they would have the powers to do this, if they wanted to."

Senator Metcalf: "They certainly do"

Senator Fleming: "And you are putting in a bill to allow them to do it to this area? Then I would think it's more than fair to do it for the other seniors in the state."

Further debate ensued.

POINT OF ORDER

Senator Zimmerman: "Mr. President, a point of order. I think I wish to challenge the amendment on the scope and object of it, please. I'd appreciate your having some legal look at it. The bill speaks of a specific recreation area, obviously very specifically and talks about one spot. It also is a very narrow, narrow bill in the sense of what the two sections deal with and quite obviously the amendment does expand it greatly. I mean it expands it by about ten thousand percent if you want to count the rivers of the state. I guess that I would feel that needs to be given some consideration from that standpoint."

MOTION

Senator Nelson moved that further consideration of Senate Bill No. 6571 be deferred.

POINT OF ORDER

Senator Warnke: "Mr. President, a point of order. I was not allowed to speak on the motion of the scope and object and it's my amendment."

Debate ensued.

POINT OF INQUIRY

Senator Anderson: "Senator DeJarnatt, could you give me a clarification--if this would apply to people going in like scattering elk herds before the season started?"

Senator DeJarnatt: "Now, that gets into a sticky-wicket, because they are not directly interfering with someone who is lawfully engaged in the practice, but I think it could possibly be so construed. You're getting into some real gray area now."

Senator Anderson: "That would be the distinction between interfering with a person hunting though and interfering with what they hunt?"

Senator DeJarnatt: "I think it could, but that raises a gray area in that such activity would be conducted before the season has started. This bill deals with the rights of hunting and fishing legally. As you can't hunt or fish legally out of season, I don't believe the practice of scattering elk before the season would apply."

Further debate ensued.

The Vice President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Senate Bill No. 6480.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 6480, and the bill passed the Senate by the following vote: Yeas, 44; nays, 3; absent, 1; excused, 1.

RULING BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Bluechel: "In ruling upon the point of order raised by Senator Zimmerman, the President finds that Senate Bill No. 6571 is a measure providing for a special senior citizen salmon and steelhead bank fishing recreation area in the Columbia River from six hundred feet below Bonneville Dam Fishway to the Megler-Astoria Bridge.

"The amendments proposed by Senators Warnke, Talmadge, Rasmussen, Smitherman, Vognild, Fleming, Bender and Garrett provide for similar areas on each river in the state deemed appropriate by the Director of Fisheries.

"The President, therefore, finds that the proposed amendments do change the scope and object of the bill and that the point of order is well taken."

The amendments by Senators Warnke, Talmadge, Rasmussen, Smitherman, Vognild, Fleming, Bender and Garrett to Senate Bill No. 6571 were ruled out of order.

MOTION

On motion of Senator Nelson, the rules were suspended, Senate Bill No. 6571 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

MOTION

On motion of Senator Nelson, the rules were suspended, Senate Joint Memorial No. 8022 was advanced to third reading, the second reading considered the third and the memorial was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Fleming: "Senator Metcalf, does the resolution suggest where this money is going to come from? I know that they have certain money, but you want additional money. Did you suggest a revenue source to get that additional money in view of the budget deficit that we have on the national level that you so strongly oppose?"

Senator Metcalf: "No, Senator Fleming, you misunderstood my previous remarks. We are not asking for additional money. As you know, the federal money that's coming for these various programs is decreasing as their problems escalate, so we are not asking for additional money. We're saying, 'the money that you send, please develop, so that we can count on it, so that we know about how much you're going to send.' We're not asking for additional money."

Senator Fleming: "Senator, are you saying you would like for them to reprioritize?"

Senator Metcalf: "No, Senator Fleming, they have their priorities. They have federal legislation and they have made the decision to help to fund parks and recreation. They considered that a legitimate national expenditure and I do, too."

"What they're doing, is saying, 'we can't get you as much as we did,' but what we've said is, 'Fine, we appreciate whatever you can send, but if you send a lot of money one year and a little bit the next year, then a lot of instability just fouls up our system. We would like to know what we can count on.'"

Senator Fleming: "I understand you. In other words, you'd be willing to accept less money, as long as you knew that less amount of money was coming at a predicted time. Is that what you're suggesting?"

POINT OF ORDER

Senator Newhouse: "A point of order. I think we should object to the dialogue going on under the guise of question and answer. I suspect questions should be one short question and I hope the answer is short, also."

REPLY BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Bluechel: "I would request the members to address the chair when they want to ask a second question."

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Senate Joint Memorial No. 8022.

On page 3, following line 5, delete all material down to and including the period on line 8
On page 4, following "(4)" on line 36, insert

"Before November 1 of each year, the department shall develop and submit to the chairs of the ways and means committees of the senate and the house of representatives a prioritized list of projects or activities which are recommended for loans under this section, including one copy to the staff of each committee. The list shall include, but not be limited to, a description of each project or activity and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction, demonstration of the jurisdiction's critical need for the project or activity and documentation of local funds being used to finance the project or activity. The list shall also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

POINT OF INQUIRY

Senator Williams: "Senator Metcalf, I'm reading the bill and my English may not be the best in the world, but if you read the bill, there's something wrong with the grammar of this particular bill. The section speaks; it's a sub-section, and it starts out 'aquifer protection areas may impose fees to fund a preparation of a comprehensive plan to protect, preserve, and rehabilitate subterranean water. This plan may be prepared as a portion of county sewerage and/or water general plan pursuant to RCW 36.94.030; (2) The construction of facilities for,' and it goes on. If you'll read it, it doesn't read right. I would suggest that maybe there's some amendatory language that needs to be corrected in there."

MOTIONS

On motion of Senator Lee, Substitute Senate Bill No. 5708 was substituted for Senate Bill No. 5708 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Lee, the rules were suspended, Substitute Senate Bill No. 5708 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator McCaslin: "Senator Lee, is this broad enough to cover institutional industries of the Department of Corrections? I notice sub three identifies statutes and policies of state and local government, etc. Let me tell you why I'm asking that question. In Walla Walla, they are producing the concrete covers for caskets when they bury you and there's also a private sector company that produces those, so if we're training people in prisons to make concrete covers and we put the private people out of business, when the inmate gets out there's no business to go to, so the training is for naught."

Senator Lee: "Senator McCaslin, that could be one of the issues they're looking at, when both the private sector and the public sector are in the same business, so with your example it would be one of the things they could examine. We're not looking at the other side of the coin, where one sector is not in the business to see whether they should be in it or not, but those things where there is either an apparent or real conflict. Sometimes, in getting these folks together, you find that maybe the conflict is more imagined than real."

POINT OF INQUIRY

Senator Smitherman: "Senator Lee and others really worked very hard to get this measure before us in a form that could be supported by both business and government agencies and private not-for-profit groups. It was quite a task, really. I worked on a similar measure last year for higher education. This goes in a little different direction though, than what I established as a model for higher education. Higher education, I believe, and I could ask this, is not covered under this, Senator Lee? May I ask that?"

Senator Lee: "Senator Smitherman, in the bill we originally had before our committee, we had specifically designated that a couple of higher education persons would be among that public group, and they asked not to be singled out, so we removed that and we also specifically mentioned that one of the things that this group should do was to look at the effectiveness of the measure that you worked so hard on last year. With those two changes, they are agreeable to the bill."

Further debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Lee, I like the purpose of the bill. The question I have is related, I guess, to the idea of having a commission do this. Why couldn't we do this by a joint select committee of the Legislature or by the Economic Development and Labor Committee of this body and its counterpart in the House?"

Senator Lee: "That's an excellent question, Senator Talmadge. Those committees probably have got their plate full with more than they can handle right now--of an issue that's as complex as this particular one is. The other advantage to having such a commission designated is that the Governor actually chooses some folks from outside the legislative group--four from the private sector and four from the public sector--and those chairs are always filled by the same people at each meeting, so that the recommendations can have a little bit more consistency, a little bit more historical build-up and so on. I think we've reached the point in time that we need to do this. In this kind of commission, you do notice that we did put a sunset clause on it. I think that's important, too."

Further debate ensued.

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 5708.

SECOND READING

SENATE BILL NO. 6115, by Senators Kiskaddon and Saling

Providing for programs to enhance parenting skills and strengthen families.

MOTIONS

On motion of Senator Kiskaddon, Substitute Senate Bill No. 6115 was substituted for Senate Bill No. 6115 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Kiskaddon, the rules were suspended, Substitute Senate Bill No. 6115 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Talmadge: "Senator Kiskaddon, I read in the preamble of the bill that this proposed substitute bill is designed to encourage children to be raised in a positive atmosphere, which will develop self-esteem. Then it goes on to define various kinds of parenting skills which would provide for such activities for children and it defines parenting skills as consistency in parenting, providing children with positive discipline that provides firm order without hurting children physically or emotionally and preserving and nurturing the family unit. It requires programs that teach positive methods of disciplining children and requires programs to enhance the skills of parents in providing their children's learning and development. Could you give me an example, since I don't believe it is defined anywhere else in the RCWs, what is meant by positive discipline?"

Senator Kiskaddon: "One book that is entitled Positive Discipline by Jane Nelsen is an example of a system that is put together in that way. Positive discipline, to me, is discipline in which the emotions of everyone stay in a positive way—if you stay away from the anger, hurt and those kinds of emotions. So, for me, positive discipline is discipline that happens with a sense of order and a sense of good feeling all around."

Senator Talmadge: "That is nowhere else defined in the RCWs, I assume?"

Senator Kiskaddon: "I don't know of it being defined anywhere else."

Senator Talmadge: "It's meant to be this one single book that you read?"

Senator Kiskaddon: "Not at all, there are many other ways and many other books and processes out there, but this is one book that epitomizes in what you were saying, because that is the actual title."

Senator Talmadge: "I've always been aware of educational curricula relating to home and family life that really amounted to what I thought was the parenting skills effort that we're talking about in this bill. That is teaching people what it's like to be parents, the financial, social, and moral obligations of parents to their children, those kinds of things. Is that something that this bill is designed to do, or is it just this positive discipline idea?"

Senator Kiskaddon: "That is all part of positive discipline. The programs that are in place now actually, also, will include all of the other parts that you mention." Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Kiskaddon, I see in the digest that they wish to publish and distribute a brochure on parenting education in Spanish language?"

Senator Kiskaddon: "That is correct. The Department of Social and Health Services now does have a brochure on parenting that they print in English and they felt it would be very useful to also have that printed in Spanish."

Senator Rasmussen: "My question would be, why do you pick out particularly Hispanics, to say that they are the ones that have problems with their children that you have to print the book in Spanish?"

Senator Kiskaddon: "The Department believes that that was the second largest language that would expand the usefulness of their publication to the most people in the state."

Senator Rasmussen: "Well, it kind of pinpoints that particular group. I notice the driver's license have a Spanish booklet and Laotian, Chinese, Cambodian, Vietnamese. I wonder why you're only aiming at the one group? It kind of infers that they are the people that don't take care of their children and actually that's the reverse. Could you explain that Senator Kiskaddon? Were you aware of all the other booklets? I don't think it's desirable to pinpoint just one group. Can you explain why?"

Senator Kiskaddon: "I believe I already explained it."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 6115.

The Secretary called the roll on the final passage of Substitute Senate Bill No. 6115, and the bill passed the Senate by the following vote: Yeas, 45; nays, 2; absent, 1; excused, 1.

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Kiskaddon, I've read over this bill and I guess what I'm trying to puzzle through is the question of what happens if the report is not

made within twenty-four hours? Does it mean the report to the Department or the law enforcement agency is no longer valid? Does it mean the officer or CPS case worker is subject to discipline? What is the impact if the twenty-four hour provision is not complied with?"

Senator Kiskaddon: "The bill basically, as I said, there is no penalty clause that we put in the bill, so it would be basically a major policy statement."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 6174.

SECOND READING

SENATE BILL NO. 6207, by Senators Craswell, Owen, Kiskaddon and Stratton

Increasing out-of-home placement alternatives for victims of child abuse.

MOTIONS

On motion of Senator Newhouse, Substitute Senate Bill No. 6207 was substituted for Senate Bill No. 6207 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Craswell, the following amendment by Senators Craswell, Stratton, Kiskaddon and Owen was adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION, Sec. 1. The department shall immediately establish an advisory task force to examine current procedures regarding the use of out-of-home placements with relatives, identify barriers to increased and early placement of children with relatives, and recommend procedures to encourage immediate placement of children with relatives, when appropriate, if removal from parental custody is necessary. The task force shall prepare a report which sets forth findings and recommendations and the results of any department innovations or programs which have been implemented to encourage placement of children with relatives. The final report shall be submitted to the legislature prior to December 15, 1988.

Sec. 2, Section 4, chapter 188, Laws of 1984 and RCW 13.34.130 are each amended to read as follows:

If, after a fact-finding hearing pursuant to RCW 13.34.110, as now or hereafter amended, it has been proven by a preponderance of the evidence that the child is dependent within the meaning of RCW 13.34.030(2); after consideration of the predisposition report prepared pursuant to RCW 13.34.110 and after a disposition hearing has been held pursuant to RCW 13.34.110, the court shall enter an order of disposition pursuant to this section.

(1) The court shall order one of the following dispositions of the case:

(a) Order a disposition other than removal of the child from his or her home, which shall provide a program designed to alleviate the immediate danger to the child, to mitigate or cure any damage the child has already suffered, and to aid the parents so that the child will not be endangered in the future. In selecting a program, the court should choose those services that least interfere with family autonomy, provided that the services are adequate to protect the child.

(b) Order that the child be removed from his or her home and ordered into the custody, control, and care of a relative or the department of social and health services or a licensed child placing agency for placement in a foster family home or group care facility licensed pursuant to chapter 74.15 RCW or in a home not required to be licensed pursuant to chapter 74.15 RCW. ((Such)) Unless there is reasonable cause to believe that the safety or welfare of the child would be jeopardized or that efforts to reunite the parent and child will be hindered, such child shall be placed with a grandparent, brother, sister, stepbrother, stepsister, uncle, aunt, or

first cousin with whom the child has a relationship and is comfortable, and who is willing and available to care for the child. An order for out-of-home placement may be made only if the court finds that reasonable efforts have been made to prevent or eliminate the need for removal of the child from the child's home and to make it possible for the child to return home and that:

- (i) There is no parent or guardian available to care for such child;
 - (ii) The child is unwilling to reside in the custody of the child's parent, guardian, or legal custodian;
 - (iii) The parent, guardian, or legal custodian is not willing to take custody of the child;
 - (iv) A manifest danger exists that the child will suffer serious abuse or neglect if the child is not removed from the home; or
 - (v) The extent of the child's disability is such that the parent, guardian, or legal custodian is unable to provide the necessary care for the child and the parent, guardian, or legal custodian has determined that the child would benefit from placement outside of the home.
- (2) Whenever a child is ordered removed from the child's home, the agency charged with his or her care shall provide the court with a specific plan as to where the child will be placed, what steps will be taken to return the child home, and what actions the agency will take to maintain parent-child ties.

(a) The agency plan shall specify what services the parents will be offered in order to enable them to resume custody and what requirements the parents must meet in order to resume custody.

(b) The agency shall be required to encourage the maximum parent-child contact possible, including regular visitation and participation by the parents in the care of the child while the child is in placement.

(c) A child shall be placed as close to the child's home as possible, preferably in the child's own neighborhood, unless the court finds that placement at a greater distance is necessary to promote the child's or parents' well-being.

(d) The agency charged with supervising a child in placement shall provide all reasonable services that are available within the agency, or within the community, or those services which the department of social and health services has existing contracts to purchase. It shall report to the court if it is unable to provide such services.

(3) If there is insufficient information at the time of the disposition hearing upon which to base a determination regarding the suitability of a proposed placement with a relative, the child shall remain in foster care and the court shall direct the supervising agency to conduct necessary background investigations as provided in chapter 74.15 RCW and report the results of such investigation to the court within thirty days. Any placements with relatives, pursuant to this section, shall be contingent upon cooperation by the relative with the agency case plan and compliance with court orders related to the care and supervision of the child including, but not limited to, court orders regarding parent-child contacts and any other conditions imposed by the court. Noncompliance with the case plan or court order shall be grounds for removal of the child from the relative's home, subject to review by the court.

(4) The status of all children found to be dependent shall be reviewed by the court at least every six months at a hearing in which it shall be determined whether court supervision should continue.

(a) A child shall not be returned home at the review hearing unless the court finds that a reason for removal as set forth in this section no longer exists. The parents, guardian, or legal custodian shall report to the court the efforts they have made to correct the conditions which led to removal. If a child is returned, casework supervision shall continue for a period of six months, at which time there shall be a hearing on the need for continued intervention.

(b) If the child is not returned home, the court shall establish in writing:

- (i) Whether reasonable services have been provided to or offered to the parties to facilitate reunion;
- (ii) The extent to which the parents have visited the child and any reasons why visitation has not occurred or has been infrequent;
- (iii) Whether the agency is satisfied with the cooperation given to it by the parents;
- (iv) Whether additional services are needed to facilitate the return of the child to the child's parents; if so, the court shall order that reasonable services be offered; and
- (v) When return of the child can be expected.

(c) The court at the review hearing may order that a petition seeking termination of the parent and child relationship be filed.

Sec. 3. Section 3, chapter 172, Laws of 1967 as last amended by section 14, chapter 486, Laws of 1987 and by section 13, chapter 524, Laws of 1987 and RCW 74.15.030 are each reenacted and amended to read as follows:

The secretary shall have the power and it shall be the secretary's duty:

- (1) In consultation with the children's services advisory committee, and with the advice and assistance of persons representative of the various type agencies to be licensed, to designate categories of facilities for which separate or different requirements shall be developed as may be appropriate whether because of variations in the ages, sex and other characteristics of

persons served, variations in the purposes and services offered or size or structure of the agencies to be licensed hereunder, or because of any other factor relevant thereto;

(2) In consultation with the children's services advisory committee, and with the advice and assistance of persons representative of the various type agencies to be licensed, to adopt and publish minimum requirements for licensing applicable to each of the various categories of agencies to be licensed.

The minimum requirements shall be limited to:

(a) The size and suitability of a facility and the plan of operation for carrying out the purpose for which an applicant seeks a license;

(b) The character, suitability and competence of an agency and other persons associated with an agency directly responsible for the care and treatment of children, expectant mothers or developmentally disabled persons. In consultation with law enforcement personnel, the secretary shall investigate the conviction record or pending charges and dependency record information under chapter 43.43 RCW of each agency and its staff seeking licensure or relicensure. The secretary shall use the information solely for the purpose of determining eligibility for a license and for determining the character, suitability, and competence of those persons or agencies, excluding parents, not required to be licensed who are authorized to care for children, expectant mothers, and developmentally disabled persons. Criminal justice agencies shall provide the secretary such information as they may have and that the secretary may require for such purpose;

(c) The number of qualified persons required to render the type of care and treatment for which an agency seeks a license;

(d) The safety, cleanliness, and general adequacy of the premises to provide for the comfort, care and well-being of children, expectant mothers or developmentally disabled persons;

(e) The provision of necessary care, including food, clothing, supervision and discipline; physical, mental and social well-being; and educational, recreational and spiritual opportunities for those served;

(f) The financial ability of an agency to comply with minimum requirements established pursuant to chapter 74.15 RCW and RCW 74.13.031; and

(g) The maintenance of records pertaining to the admission, progress, health and discharge of persons served;

(3) To investigate any person, including relatives by blood or marriage except for parents, for character, suitability, and competence in the care and treatment of children, expectant mothers, and developmentally disabled persons prior to authorizing that person to care for children, expectant mothers, and developmentally disabled persons. However, if a child is placed with a relative under RCW 13.34.060 or 13.34.130, the criminal history background check required by this section need not be completed before placement, but shall be completed as soon as possible after placement;

(4) On reports of child abuse and neglect, to investigate agencies in accordance with chapter 26.44 RCW, including day care centers and family day care homes, to determine whether the abuse or neglect has occurred, and whether child protective services or referral to a law enforcement agency is appropriate;

(5) To issue, revoke, or deny licenses to agencies pursuant to chapter 74.15 RCW and RCW 74.13.031. Licenses shall specify the category of care which an agency is authorized to render and the ages, sex and number of persons to be served;

(6) To prescribe the procedures and the form and contents of reports necessary for the administration of chapter 74.15 RCW and RCW 74.13.031 and to require regular reports from each licensee;

(7) To inspect agencies periodically to determine whether or not there is compliance with chapter 74.15 RCW and RCW 74.13.031 and the requirements adopted hereunder;

(8) To review requirements adopted hereunder at least every two years and to adopt appropriate changes after consultation with the children's services advisory committee; and

(9) To consult with public and private agencies in order to help them improve their methods and facilities for the care of children, expectant mothers and developmentally disabled persons."

On motion of Senator Newhouse, Engrossed Senate Bill No. 6440 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Rinehart: "Senator Metcalf, it is my understanding that Initiative 97 has been certified for the ballot and now is officially assigned to the Environment and Natural Resources Committee. Is that correct?"

Senator Metcalf: "That is my understanding."

Senator Rinehart: "As the chair of that committee, is it your intention to bring Initiative 97 before the committee for a vote?"

Senator Metcalf: "Well, Senator Rinehart, a similar question came up in the committee, and I said at that time that I was certainly willing to have I-97 come before the committee for a vote. Since then, I've polled the committee and the majority said that they would prefer not to take any committee action since if we do take no action, I-97 will automatically go on the 1988 General Election Ballot. Exceeding to that request, it is my intention not to have the issue come before us."

Further debate ensued.

POINT OF INQUIRY

Senator Nelson: "Senator Kreidler, I noticed in this bill, as was addressed in October of 1987 by this Legislature, the establishment of a Toxics Control Account. I have a two part question. One, the citizens of this state have now had money going into this Toxics Control Account and I was wondering if you might be able to give an approximation of how many dollars will be in that Toxics Control Account by, say November of 1988, when the people will act on this measure and that of Initiative 97?"

Senator Kreidler: "Senator Nelson, I believe that probably an amount of approximately twenty-five million dollars would be in the account or would have been collected by the program as of, let's say November of this year, because of the effective date being last October--during this period of time."

Senator Nelson: "Senator Kreidler, a follow-up if I may. Because we now find that the state has available approximately twenty-five million dollars by, say November of 1988, is there any provision in Initiative 97 to have those funds automatically transferred to whatever account is established in Initiative 97 from the already established account by this Legislature--the Toxics Control Account, that we acted on in October of 1987?"

Senator Kreidler: "No, there is not."

Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Bluechel, I was listening intently to your speech on the bill. Did I hear you say that on Initiative 97, because of litigation, only five percent would be spent on cleanup?"

Senator Bluechel: "Senator Rasmussen, no one knows exactly what percent of cleanup would be affected under any of these bills. The history of the federal Superfund Bill has shown that about sixteen percent of all of the money applied, both public and private, was actually used for cleanup. The Initiative is written in a tighter manner than the federal Superfund Bill. In other words, there's less ability to adjust to the actualities of the situation. As far as we could determine, and this was a difficult determination, there would be no on-site cleanup during the time required to take it through the local court, the appellate court, the state supreme court, and maybe even the U.S. supreme court. Each case could take between five and ten years to process before any on-site cleanup is started.

"Because the penalties and the problems, especially with the large majority of people who may be affected, so far supersede their ability to actually stand up and pay for it, the only recourse the person charged with the violation would have, would be to declare bankruptcy or Chapter Eleven and go through those procedures."

Senator Rasmussen: "And Senate Bill No. 6440 would solve that problem? I think you also said, that with this bill, hopefully thirty percent would be spent on cleanup and that would be practically double the national standard or the sample for the national cleanup. The general public would expect somewhere around ninety percent of the money to go to cleanup. I'm sure the general public doesn't know that of all the monies collected, seventy percent would be going for paperwork and presumably there may be some litigation, but I doubt it.

"The bill is pretty well accepted by the business community out there. Why is there so much waste between the monies collected and the monies that are spent on actual cleanup? It seems like we're polluting more with all the paper that would be put out with that other seventy percent. You indicated that only thirty percent would be spent on cleanup. The public would surely hope for a much better percentage. They want everything cleaned up that possibly can, but now this thirty percent figure alarms me. We must not have very much efficiency then, in either the Department or the government in general."

Senator Bluechel: "Senator Rasmussen, the main problem is that these are very litigious bills, probably the most litigious bills that have ever been passed and the cost of the legal fees is the dominate cost factor in all of this."

Senator Rasmussen: "Possibly the House should put a limit in there that would be spent on studying and paperwork and limit that, so we'll get a better percentage of the dollar spent for the actual cleanup. I would hope that the House does that."

POINT OF INQUIRY

Senator Bailey: "Senator Kreidler, on page 9, Section B, line a, it allows for an exemption for agriculture producers who use pesticides and insecticides in a proper manner according to federal and state standards. Does this exemption to agriculture and applicators extend all the way through this bill? In other words, are agriculture producers exempt from this bill if they follow these rules?"

Senator Kreidler: "Senator Bailey, indeed agriculture as specified in the section that you referenced, as long as it's without negligence and in accordance with federal and state requirements, they are going to be exempt for the application of pesticides."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Senate Bill No. 6440.

PERSONAL PRIVILEGE

Senator McMullen: "Mr. President, I rise to a point of personal privilege. We're passing out on your desk today a little sample of our token for having given our first speech on the floor. This is a cheese made by the Washington Cheese Company of Mount Vernon. This happens to be what we call 'squeaky cheese.' If you eat it, you'll see why we call it and sell it as 'squeaky cheese.' Washington Cheese is the only cheese company in the state that makes 'squeaky cheese,' so I thought it might be appropriate.

"It occurred to me that it has several applications here for what we do. First of all, I think it somewhat symbolizes my voice when I gave my first speech. I think it also symbolizes for each one of us how clean our last campaigns were, no matter what our margin. It also symbolizes, I think, how close our last race was, so I wish to pass those out and thank you for the honor of allowing me to speak."

Authorizing residential confinement of an offender.

MOTIONS

On motion of Senator Vognild, Substitute Senate Bill No. 6194 was substituted for Senate Bill No. 6194 and the substitute bill was placed on second reading and read the second time.

Senator Vognild moved that the following amendment be adopted:

On page 4, line 10, after "government," insert "or, if home detention has been ordered by the court, in the residence of either the defendant or a member of the defendant's immediate family."

POINT OF INQUIRY

Senator Pullen: "Senator Vognild, what type of residential confinement or home detention are you talking about here? What kind of accountability is there or protection for the public?"

Senator Vognild: "Senator, when we get into the bill, I will be explaining all of that, but I can start with it now. Basically, this is an electronic system that utilizes a transmitter which is attached to the individual and by the use of this transmitter, there are signals transmitted back to a main computer. Any time that signal is broken, then an alarm is sounded to the officers monitoring it. This usage will be limited only to felonies which do not involve violent crime, sex crimes of any kind, or drug related crimes."

POINT OF INQUIRY

Senator Rasmussen: "Senator Vognild, does the use of this device keep a person from being in jail?"

Senator Vognild: "If they are not convicted of a violent crime, a sex crime, or drug related crime, they may be--may be--if the court so deems it, released to home confinement. If they are released to home confinement, then the type of device I have on my desk is utilized to monitor their movements and to know where they are."

Senator Rasmussen: "The reason I asked that question, Senator Vognild, we've had several criminals that have scammed on senior citizens amounting to thousands of dollars. Committing them to home confinement would seem just like putting them down on a federal country club that they have in various parts of the state for detention. A few months in jail brings it to their attention a little bit more that they possibly should not engage in those efforts. I think there's nothing like a little while in jail to make them think a little bit more. When you confine them to their home, their thoughts are, 'What am I going to do when I get out of here' and that's all. I'm not so sure this is a good device even though it will relieve the jail of some pressure for holding people."

Senator Vognild: "Senator Rasmussen, rare indeed would be the time, that an individual would be placed on this program without spending some time in jail. This program basically relates to an expansion and a way to control the work release program."

POINT OF INQUIRY

Senator McCaslin: "Senator Pullen, in the Law and Justice Committee, we had a bill dealing with the same subject and I wonder about the similarities between the bill we passed and the bill we are addressing at the present time."

Senator Pullen: "Well, that's a very good question, Senator McCaslin, and I'm trying to determine that. The one that came out of the Law and Justice Committee was sponsored by Senator Craswell, which had a number of important protections in the bill. Her bill, also, provided significant changes with regard to restitution. I guess I would like to have a little time to compare the two bills, so that we can see if indeed all the work we put into it is encompassed in this bill."

MOTION

On motion of Senator Newhouse, further consideration of Substitute Senate Bill No. 6194 was deferred.

Why wouldn't it be appropriate to continue to permit other interested relations of the child to petition the court to terminate the parental relationship if, in fact, they've been the ones with whom the child's been placed?"

Senator Kiskaddon: "To be able to answer that question, I'd like to check with my staff and get a firm answer from them."

Senator Talmadge: "I'd be happy, if this would be acceptable, to have the bill put down for a minute, because it seems to me that if we're going to encourage the placement of children with relatives and grandparents, etc., that it might make some sense to continue to permit those people to be the ones to seek permanent placement of the child."

POINT OF INQUIRY REGARDING SENATE BILL NO. 6259

Senator Warnke: "Senator Metcalf, a few minutes ago, we passed a bill—Senate Bill No. 6259. That bill lowered the license fee from fifteen to five dollars for a person under fifteen years old."

Senator Metcalf: "For a punch card license for steelhead."

Senator Warnke: "A punchcard for steelhead. It also lowered that down to the number of steelhead that card will hold. It's five dollars now for five steelhead. The question that was raised in my mind was this: Presently, it is fifteen dollars for a punchcard for thirty fish, so we have just lowered it to five dollars for five fish. That same person that qualifies for the five dollar card will now pay thirty dollars to catch the same amount of fish that a person over fifteen is going to pay fifteen dollars."

Senator Metcalf: "In answer to your question, Senator Warnke, the purpose of the bill is for the young people. We don't charge a license, but they have to buy a steelhead card.

"Now, most of those young people beginning are not going to catch five steelhead in any one year. If they catch one, they'll be doing somewhat better than I've done the last several years, but what we're doing is allowing them to start to go and to fish five steelhead, which is probably more than very many of them will. If they get real good at it, they'll soon figure out that they want to buy the fifteen dollar card instead of three, four or five five dollar cards. What this does, is let them get into the business of fishing and the joy of it for five dollars instead of fifteen."

Senator Warnke: "Thank you Senator, but in my calculations, we have just raised the cost to thirty dollars for the same number of fish that they were catching for fifteen dollars."

Further debate on Senate Bill No. 6259 ensued.

SECOND READING

SENATE CONCURRENT RESOLUTION NO. 8429, by Senators Saling, Smitherman, Patterson, Hansen, McMullen, Anderson and von Reichbauer

Approving the master plan for higher education and establishing a study group.

MOTIONS

On motion of Senator Saling, Substitute Senate Concurrent Resolution No. 8429 was substituted for Senate Concurrent Resolution No. 8429 and the substitute resolution was placed on second reading and read the second time.

Senator Kiskaddon moved that the following amendment be adopted:

On page 2, following line 12, insert the following new paragraph:

"BE IT FURTHER RESOLVED, That the Higher Education Coordinating Board shall include in its biennial update to the governor and the legislature an enumeration of the steps taken by the board and the institutions to identify and eliminate any and all barriers to the implementation of the board's recommendation that all higher education degree programs should provide curricula that (1) help students become independent, self-reliant citizens, while instilling a sense of community; (2) broaden cultural horizons and social awareness; (3) develop the capacity for interesting, meaningful and satisfying lives; (4) develop an appreciation for the shared values of discipline, cooperation, toleration of differences, and respect for truth; and (5) develop the ability to think creatively, analytically, and independently through inquiry, analysis and evaluation."

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Kiskaddon, on the bottom of your amendment there, I don't have the line number, but it says, 'Develop the capacity for interesting, meaningful and satisfying lives.' The HEC Board is going to do that? Let me ask a further question here, so that you can answer it all at once. It says, 'Develop an appreciation for the shared values of discipline.' We all want to have discipline, but then you go on to say, 'Cooperation, toleration of differences and respect for truth.' You're just repeating things that everybody has a respect for the truth. Some don't use it all the time. Then it says, 'Develop the ability to think creatively, analytically and independently through inquiry, analysis and evaluation.' Are you going to put all of us in analysis so we can--I mean--it is something that sounds

like you'd have in a bill sponsored for the psychologists and psychiatrists and Senator McDermott is gone to South Africa. Why would you charge the board with this duty?"

Senator Kiskaddon: "Senator Rasmussen, this is one of the recommendations of the Board and I think the analysis you're talking about here is to think creatively and independently with analysis. When I was an engineer, I took every problem and I started to analyze the problem. The analytical method is one of the major parts of learning, and the ability to have interesting, meaningful, and satisfying life. That's half the curriculum, taught in a way that's interesting to students in meaning and so they can get a sense of how it is a part of satisfying their life. These are all parts of what a good teacher and what a good program actually will accomplish. I believe it's a great part of what will really keep us in the forefront of the world in terms of our ability to handle it, so these are good things to have within the structure of the programs and I've answered your question."

Senator Talmadge demanded a roll call and the demand was not sustained.

The President declared the question before the Senate to be the adoption of the amendment by Senator Kiskaddon to Substitute Senate Concurrent Resolution No. 8429.

The motion by Senator Kiskaddon failed and the amendment was not adopted.

POINT OF INQUIRY

Senator Vognild: "Senator Smitherman, you are the Democratic lead member on the Higher Ed Committee and you've worked this. In your opinion, does this resolution, if adopted, constitute a final and total approval of the HEC Board report by the Legislature?"

Senator Smitherman: "Thank you, Mr. President, ladies and gentlemen of the Senate. Senator Vognild, the plan in itself is a dynamic plan. It's an ongoing process, so our approval today I don't believe could constitute a final approval of the plan per se, because there are elements of that plan that are not complete right now—that are ongoing. So, my answer would be 'no.'"

POINT OF INQUIRY

Senator Talmadge: "Senator Smitherman, I've had distributed a copy of RCW 28B.83.30 which says, 'The Legislature shall by concurrent resolution approve or recommend changes to the initial plan and then upon that approval by concurrent resolution, the plan shall become the state higher education policy unless legislation is enacted to alter the policy set forth in the plan.' Is this resolution that's before us, the resolution that is specified in the statute?"

Senator Smitherman: "I believe that the resolution before us approves of certain broad goals, but I don't think that, Senator Talmadge, again as I answered Senator Vognild, that it constitutes a final approval, as this is an ongoing process."

MOTION

Senator Talmadge moved that the following amendment be adopted:

On page 2, line 12, insert the following:

"BE IT FURTHER RESOLVED, That nothing in this resolution shall be construed as authorizing the Higher Education Coordinating Board or any institution in Washington's system of higher education to adopt by rule or regulation any aspect of the master plan until such time as the master plan has been approved specifically by the Legislature as required by Section 4, Chapter 370, Laws of 1985; and"

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Saling, the question I've been casting about for, as you can tell, is just the question, is this the resolution that's contemplated by the statute or is it not?"

Senator Saling: "I have to give you the same answer that Senator Smitherman gave you. It certainly is responding to the law that set up the HEC Board with a continuing resolution. I don't believe that it is the final say on all of the recommendations that the HEC Board is making. The resolution, itself, points out that there are some concerns, particularly funding concerns, that must be looked at and so the

resolution is establishing a committee to do that prior to any recommendation back to the Legislature next year concerning the funding.

"So, I would have to say it is not a final approval. It's not a final approval in that the state--the HEC Board--has to come back every two years to tell us what they're doing about the HEC Board plan and it gives us an opportunity to change their minds in statute whenever we so desire. Of course, any problem that they bring to us that they want to initiate that costs money will have to be enacted by the Legislature."

Further debate ensued.

The President declared the question before the Senate to be the adoption of the amendment by Senator Talmadge to Substitute Senate Concurrent Resolution No. 8429.

The motion by Senator Talmadge failed and the amendment was not adopted.

MOTION

Senator Saling moved that the following amendment by Senators Saling, Bauer, Smitherman, Rinehart and Patterson be adopted:

On page 2, line 18, after "include" strike ", but are not limited to"

Debate ensued.

The President declared the question before the Senate to be the adoption of the amendment by Senators Saling, Bauer, Smitherman, Rinehart and Patterson to Substitute Senate Concurrent Resolution No. 8429.

The motion by Senator Saling carried and the amendment was adopted.

MOTION

On motion of Senator Saling, the rules were suspended, Engrossed Substitute Senate Concurrent Resolution No. 8429 was advanced to third reading, the second reading considered the third and the resolution was placed on final passage.

POINT OF INQUIRY

Senator Kiskaddon: "Senator Saling, just so I can become clear in my mind, it looks to me like what this resolution does is approve of the goals of the plan. It does not approve of the plan itself. Is that an accurate reading of this resolution?"

Senator Saling: "It does state in the resolution that it approves the goals of the master plan. As you are aware, the master plan suggests a six-year period of time to increase funding up to a par level of the peer institutions with which we judge where we are against other institutions, so it does say that it is a goal and it is not the policy statement that will never ever be corrected or adjusted or something else."

Senator Kiskaddon: "So, it does this and also includes the approval of the initial implementation of these goals that would be written in that document or did that document only lay out goals? Did it lay out steps for implementation?"

Senator Saling: "The Higher Education Coordinating Board already has the authority to establish everything that's in this plan except the additional funding and that must come back to the Legislature anyway."

Further debate ensued.

POINT OF INQUIRY

Senator Smitherman: "Senator Saling, is it true that under the present statute, the offering of any off-campus program, or the acquisition of any major off-campus facility, is subject to the evaluation and approval of the Higher Education Coordinating Board?"

Senator Saling: "Yes, Senator, that is true. RCW 28B.80.340 directs the Higher Education Coordinating Board to review and evaluate and approve, modify, consolidate, initiate, or eliminate off-campus programs at the four-year institutions. They are to perform this function in consultation with the colleges and universities. They are also granted authority, by the same statute, to approve the purchase or lease of major off-campus facilities for the four year institutions and community colleges. Finally, they are granted the authority to establish campus service areas and define on-campus and off-campus activities and major facilities."

Senator Smitherman: "If I might continue, would you consider this a strict limitation on the ability of any institution to establish a branch campus or an off-campus program without the prior approval of the Higher Education Coordinating Board as to the nature and location of that campus or program?"

Senator Saling: "Most definitely. As a matter of fact, the legislation which established the Higher Education Coordinating Board and set forth its powers and duties went so far in this area as to amend and strictly limit the powers and authority of the Boards of Regents and Trustees. This change limited the authority of the governing boards of the institutions over the offering of off-campus programs and the acquisition of major off-campus facilities. Any off-campus program, as defined by the Higher Education Coordinating Board, which is offered by an institution of higher education is subject to the prior approval of the HEC Board. The same is true of the acquisition of any major off-campus facility."

Further debate ensued.

POINT OF INQUIRY

Senator Vognild: "Senator Saling, I'm basically supportive of this report, but I do have a concern on the hundreds of millions of dollars that Senator Bluechel was talking about that the future brings. By the adoption of this resolution, would it be your belief that any part of the report or anything that the HEC Board may determine in the future, should ever become an entitlement program in the state of Washington?"

Senator Saling: "No, Senator Vognild, there is no intent that this would be an entitlement program. Any entitlement would have to come back through the Legislature for approval separately than this report."

POINT OF INQUIRY

Senator Vognild: "Senator Smitherman, I would like to pose the same exact question to the Democratic lead member of that committee."

Senator Smitherman: "Senator Vognild, I'm sorry I missed your question."

Senator Vognild: "My question was, with the adoption of this resolution, would you consider that any portion of the HEC Board report or any action by the Board should ever be considered as an entitlement program within the state of Washington?"

Senator Smitherman: "No."

Further debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Saling, right or wrong, we all become very provincial with issues like this. I guess I'm particularly disinterested in the HEC Board's report because for some reason or other, they excluded Yakima and Yakima Valley. I haven't read the resolution, because I haven't been that interested in it, but I guess from what I hear everybody saying is, and I wanted to ask you, are you saying to the HEC Board, 'Thank you very much for your report; we're going to lay it aside and when we get ready, we'll do something about it,' or did you tell them to go back to the drawing board and take another look at the issue? As Senator Fleming pointed out, that nobody gets discriminated against and is this the message we're giving the HEC Board?"

Senator Saling: "Senator Deccio, I'm really sorry that Yakima was not recommended for a branch campus, but we can't all have branch campuses in our back yards we were told. The resolution is not something that tried to ignore the Yakima Valley or the plan did not try to ignore the Yakima Valley. It tried to look at the entire state and tried to offer a recommendation where additional services ought to be provided. It is not just something that is going to say, 'Thanks a lot, but we're going to go on our way.' It's a resolution that says, 'Thanks a lot for the hard work you have done, continue that work, come back to us with other ideas and recommendations and we're going to keep track of what you're doing and we're not going to vote the money for what you recommend unless we agree with what you recommend.' That's what the resolution is really saying."

POINT OF INQUIRY

Senator Rasmussen: "Senator Bailey, this says, 'Provides that if the school district and employees by written agreement wish to continue the use compensation model beyond the expiration date of the field test, the state must continue to provide a required level of funding.' My question, now, relates to if we must continue the required level of funding. Is that to the extent of the appropriation in the bill, forty-nine thousand, five hundred?"

Senator Bailey: "No, the appropriation is for this biennium of forty-nine thousand, five hundred. That begins the pilot study. We anticipate, as I mentioned earlier, that the total cost of the study and to implement the program will be about two hundred and fifty thousand dollars. That's the best estimate I have at this time. That will go into the next biennium."

Senator Rasmussen: "A further question, that would continue only for that district that had been the chosen district?"

Senator Bailey: "That is correct."

Senator Rasmussen: "And would block out all other districts from engaging in the test?"

Senator Bailey: "If the state, in it's infinite wisdom, decided the career ladder was the way to go, of course, then other districts would receive that same funding. We're only asking for the pilot study in one district at this time."

Senator Rasmussen: "And this appropriation would be the limit for now?"

Senator Bailey: "For now, yes, and it will require a report to the Legislature at the next session."

On page 3, line 28, after "judgment" insert "; and

(8) Additional costs to local governments occasioned by this section shall be borne by the public safety and education account"

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Pullen, have you referenced Referendum 62 in which the counties say, 'well, you can't put any more load on us.' I think that's what Senator Talmadge is having in mind that they can't raise that question. Counties, when you give them a couple of new judges, you say, 'well if you want them,' and then they have to agree to accept the expense, so I think that this amendment probably fits in all right. You've mentioned that it doesn't cost a great deal and will not really damage the bill. Have you thought about that, Senator Pullen?"

Senator Pullen: "Yes, was that a question? Senator Rasmussen, I share your sincerity and your interest in the matter, too, and I know that you've long worked very diligently on behalf of victims of crime and witnesses and other people that have been hurt deeply by crime. At the same time, the effect on local government, as I've indicated, is quite murky and it may be more sending a request to local government and other government officials that they perhaps reorder their priorities a little bit instead of spending extra money."

The President declared the question before the Senate to be the adoption of the amendments by Senators Talmadge to Substitute Senate Bill No. 6551.

The motion by Senator Talmadge failed and the amendments were not adopted.

MOTIONS

On motion of Senator Smith, Substitute Senate Bill No. 6625 was substituted for Senate Bill No. 6625 and the substitute bill was placed on second reading and read the second time.

Senator Smith moved that the following amendment be adopted:

On page 2, line 13, after "examination." insert "shall not be compensated in any manner except for language interpreters."

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Smith, the question that I had with respect to this amendment is that the normal circumstance in an industrial insurance claim where you've hired an attorney, is that the attorney will be hired on a contingency basis. You will not be paying the attorney for specific activity such as attendance at a medical conference or going to one of these independent medical examinations, but rather that attorney will be compensated from the outcome of the case should the worker prevail at the time of the claim. Is your amendment designed to deal only with compensation specifically for the examination itself or is it meant to be any compensation of any sort however derived?"

Senator Smith: "It is designed, Senator Talmadge, to not hire someone to go to the exam. In talking to the Department, they are allowing and will continue to allow under this, people into exams as they do now. They do not make it mandatory except on the second--if a panel says, 'no,' on the first one--they'll go to a second panel and if that panel says, 'no,' they won't always go to a third panel in allowing someone in. This wouldn't change existing process, but it would stop you from hiring someone to go in."

Senator Talmadge: "So, it would be permissible to bring your attorney and your independent medical witness, provided that they were not compensated for attendance at that independent medical examination?"

Senator Smith: "If you are paying them and you are bringing someone in and you are paying them to bring them in, that's right."

The President declared the question before the Senate to the adoption of the amendment by Senator Smith to Substitute Senate Bill No. 6625.

The motion by Senator Smith carried and the amendment was adopted.

MOTION

On motion of Senator Smith, the rules were suspended, Engrossed Substitute Senate Bill No. 6625 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Senator DeJarnatt: "No, I am saying they are, but we didn't think about smelt when we were concentrating on salmon, sturgeon, ling cod, halibut, and so on. I don't think we intended to include smelt in there. We should have exempted smelt a year ago. That's what I'm trying to say."

Senator Rasmussen: "Well, that's why I voted 'no,' but I thought all you people voted 'yes.'"

Senator DeJarnatt: "Well, we didn't realize that smelt was in there."

Senator Rasmussen: "And I voted 'no,' also Senator, because food fish are bottom fish—perch, flounder, all of those things that the poor people fish for. They are

food fish. Are you going to leave the license on those people and take it off of the dippers?"

Senator DeJarnatt: "Taking it off smelt--a year ago Senator Barr was astute enough and perceptive enough to exempt carp and having eaten a lot of carp back in the Mid-West during the depression, I understood it as a food fish, but since smelt didn't appear in the bill, I didn't think about smelt, but we should have exempted it a year ago."

SECOND READING

SENATE BILL NO. 6376, by Senators Nelson, McMullen, Metcalf and Bender (by request of Governor Gardner)

Perpetuating the additional motor vehicle excise tax credited to the Puget Sound ferry operations account.

MOTIONS

On motion of Senator Newhouse, Substitute Senate Bill No. 6376 was substituted for Senate Bill No. 6376 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Patterson, the rules were suspended, Substitute Senate Bill No. 6376 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Nelson, could you advise what's contemplated on the long-range planning on the ferry system? This is going to be a study committee to make long-range plans. Do you know if they're contemplating doing any bridging which we must have?"

Senator Nelson: "Senator Rasmussen, this study is intended to only address the uses of the motor vehicle excise taxes—their level and the recipients as to how much they're receiving in relationship to the other sources of revenue that they receive.

"May I give you an example, sir? An example would be the amount of motor vehicle excise tax that is used to support the marine division in relationship to other funds whether they be general fund revenues or passenger fares. The same thing would be analyzed with respect to the transit systems of the state of Washington.

"There is no study requirement relative to bridging or any other alternative as far as trying to establish, for the department or local government, the needs for some alternative means of transportation. We simply want to analyze exactly how much the motor vehicle excise tax is as a burden on each of the respective vehicle owners across the state of Washington, whether they're trucks or passenger automobiles and then how much money is coming in and where it's going."

Senator Rasmussen: "Thank you, Senator Nelson. Apparently we're not going to have long range planning and I think that we should. The ferry system, of course, is costing more and more. There should be some long range planning, because this twenty-one million is only a drop in the bucket that this gas tax is raising now and will go up more and more, as transportation and the ability to bridge it is very great.

"It used to be, back in the days when we used to consider bridging, it was very expensive and couldn't be accomplished, but now with the engineering and the technical improvements that we have, they can do that. I would hope that some place along the line that somebody would make that study."

REMARKS BY SENATOR PATTERSON

Senator Patterson: "Thank you, Mr. President. Senator Rasmussen, I would like to respond to your concern. It's very legitimate. Many of us in the transportation area have, for a number of years, and primarily Senator Sam Guess—who's no longer here—have discussed those possibilities of once again taking a look at the probability and where you might place a bridge across the Sound and thereby, hopefully, eliminating some of the problems that we have in the maintenance of the ferry fleet.

"There is a bill coming from the House, this time, that is a study of the ferry system as well as what some of the alternatives might be to expansion of the fleet to accommodate the traffic that is going across the Sound. I would suggest that we are aware of it and that I'm hopeful that we can get into it in a real way within the

next couple of years and possibly come up with something that will take care of a deteriorating situation in Puget Sound with our ferry system. I hope that can happen, Senator."

Further debate ensued.

POINT OF INQUIRY

Senator Warnke: "Senator Patterson, this is a tax increase of about one hundred twenty-five million through 1995. Is there any study or a solution being researched to try and make the ferries self-supporting, rather than coming out of the budget like this?"

Senator Patterson: "Senator Warnke, that's what the whole study is about. I think all of you are aware of the fact that there is a motor vehicle excise tax. The primary use that comes out of the general fund on an annual basis is the subsidy that goes to the operation of our transit systems in this state. They get a call on one percent of the motor vehicle excise tax that goes into the general fund. That call means that the transit systems are being subsidized in this state at the rate of about eighty/twenty. The ferry system in this state--at the fare box--is operating at seventy/thirty. Many of us feel that this is not an equitable way to address the issue of two transit systems: one, the state's ferry system and the other, the transit systems of this state. That is the purpose of the study--to take a look at the use of the motor vehicle excise tax in the various ways that this Legislature has established through the years as a way of helping the transit systems.

"We have a study coming over from the House, as I understand it, which will take a look at some of the ways that we might be able to reduce the cost of operation of the ferry system. Through this study, the one we're talking about now, and the study of the House, hopefully we can make some sense out of all of the subsidies that are going on in this state. I just think that it's unfair to suggest to the people that live across Puget Sound, that they have to pay at the gate--at the fare box--eighty percent or seventy percent of their costs of operation where people can ride transit systems in this state for eighteen percent at the fare box. That just doesn't seem right to me and that's the purpose, at this point in time, to take a look at that motor vehicle excise tax. It's a study that will be between the two Transportation Committees--Senate and House--and the two Ways and Means Committees and OFM.

"In other words, we hope to have everyone involved, so that when we come out of this thing that we may be able to make a recommendation to this body that provides for equity and treatment of our transit systems in this state. I hope that you would certainly go along with what we are trying to do on this particular bill, at this time. Thank you."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 6376.

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 6376, and the bill passed the Senate by the following vote: Yeas, 27; nays, 20; excused, 2.

On motion of Senator Nelson, the rules were suspended, Senate Bill No. 6192 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Patterson, this sounds familiar. Didn't we pass this?"

Senator Patterson: "Senator Rasmussen, the answer is yes, we did."

Senator Rasmussen: "What happened to it?"

Senator Patterson: "Well, it went through the House and it went to the Governor's office. The Governor felt that was too much of a bite out of the general fund of the state of Washington, so he vetoed it and that's why it is back before you today."

Senator Rasmussen: "Is this a request bill then of the Governor? Has he changed his mind?"

Senator Patterson: "I have no idea. All I'm trying to do is to make the ferry system operate a little bit more in the black than so much in the red. That's all I'm trying to do."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Senate Bill No. 6192.

SECOND READING

SENATE BILL NO. 6723, by Senators Patterson and Garrett

The bill was read the second time.

MOTION

On motion of Senator Patterson, the rules were suspended, Senate Bill No. 6723 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Rasmussen: "Senator Patterson, I don't understand that cost. Maybe you could enlighten us. On the personalized plates, I thought they were making money on them. Of course, the profits are going into the game fund for the bird watching. What other plates do we have? I know that you proposed that we have mascot plates for Washington State and you—"

Senator Patterson: "I didn't propose that."

Senator Rasmussen: "Somebody did."

Senator Patterson: "Senator West proposed that."

Senator Rasmussen: "West did? It was my understanding that we were going to pay just like personalized plates and always we've been informed that the cost—I guess they're still making them over at the work house—that the cost there was running only about, at the most fifty or sixty cents a plate. Now, where do the other costs come in? As we have gone through, we did give the ham operators and the disabled, but they pay and then, also, the prisoner of war ones were passed last time. That's sort of an honor for them in the services, which the figure I have on that is a very minimal amount. What other ones and where does the cost come from? That I fail to understand because each time we—"

Senator Patterson: "Well Senator, I guess, you know I'm not an expert in determining the cost on these. All I know, is that the department has indicated to us—they gave us two different figures. OFM gave us two different figures on the costs of the requests to have the National Guard license plates. One of them was ninety-five thousand dollars and then later on a substantially greater figure came in. So, we just felt rather than just moving ahead on this thing, we ought to try to determine—just slow down a little bit—and determine exactly what the costs would be so the department can kind of get organized and know what information will be available to organizations.

"Frankly, I don't think that it should be necessary once you know the rules of the game. I don't think it should be necessary for us to make a determination on every group that should receive a license plate.

"In other words, if it's at no cost to the state of Washington, I think we ought to accommodate as many people as we can, but we can't do that until the department does a study and takes a look at what some other states are doing in this. That's all—we're trying to take a breath here before we launch into several others. We had seven requests this time and it's very difficult to determine who should get them and who shouldn't and what the cost should be."

The President declared the question before the Senate to be the roll call on the final passage of Senate Bill No. 6723.

The Secretary called the roll on the final passage of Senate Bill No. 6723, and the bill passed the Senate by the following vote: Yeas, 45; absent, 1; excused, 3.

SECOND READING

Revising provisions for motor vehicle license fees.

The bill was read the second time.

MOTION

On motion of Senator Patterson, the rules were suspended, Senate Bill No. 6494 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Garrett, my understanding is that the application comes from the state for your tabs?"

Senator Garrett: "That's right, Senator Rasmussen. You get this in the mail and, incidentally, you get it about two to three months before you have to pay it, so if you don't look too close at the date, you'll pay this and they get their money back in, so they'll be using it a long time before you do. You get this from the Department of Licensing, you sign your name on the back of it and that's all you have to do. If you mail it in to the County Auditor, they'll mail you the sticker, but if you go to the sub-agent, then it costs you four dollars."

Senator Rasmussen: "Well, that was my question. This tab comes from the state to us at our home or business, then it's sent by us to the County Auditor--a twenty-two cent stamp--then he, in turn, puts a stamp on it and sends it back. Where is the tremendous cost involved in the handling of that?"

Senator Garrett: "I didn't hear too much defense of that in the Transportation Committee, Senator Rasmussen. They admitted that in the large counties like King, Pierce, and large counties, that it was a profit and they were making out all right. Apparently, in some of the smaller counties, maybe they don't own enough automobiles, I don't know, but they also said they had to keep the crew there, whether they're doing anything or not."

Senator Rasmussen: "It's a revenue source rather than a cost?"

Senator Garrett: "No question."

POINT OF INQUIRY

Senator Warnke: "Senator Garrett, how much do you think, or do you know, will it cost the consumers and auto owners in the state of Washington, annually, with this increase?"

Senator Garrett: "I don't know. I'm sure the proponents of the bill must, but however many cars there are licensed in the state of Washington, why that's how many dollars that is out of the consumer's pocket. I wouldn't hazard a guess on that. Senator Bender says about a million dollars a year, so this would be about a million dollars a year increase in taxes."

The President declared the question before the Senate to be the roll call on the final passage of Senate Bill No. 6494.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 6494, and the bill passed the Senate by the following vote: Yeas, 25; nays, 20; absent, 1; excused, 3.

Voting nay: Senators Bauer, Cantu, Craswell, Fleming, Garrett, Gaspard, Halsan, Kreidler, Madsen, McCaslin, Niemi, Pullen, Rasmussen, Rinehart, Smitherman, Stratton, Talmadge, Warnke, Williams, Wojahn - 20.

The Speaker instructed the Sergeants at Arms to escort the President of the Senate John A. Cherberg, the President Pro Tempore Alan Bluechel, the Vice President Pro Tempore Ellen Craswell, the Majority Leader Jeannette Hayner and the Democratic Leader Larry Vognil to seats on the rostrum.

The Speaker invited the Senators to seats within the House Chamber.

Speaker King: "Welcome. It is a pleasure for me to give to you, Governor Cherberg, the gavel to preside over this Joint Session. It is indeed our pleasure again to host the award ceremony for the winners of the Washington State Medal of Merit. We welcome you, Governor Cherberg, our colleagues from the Senate, the state elected officials, the members of the Supreme Court, the medal recipients and all other guests who are with us today. At this point, again, it gives me a great deal of pleasure to turn the gavel over to Lieutenant Governor John A. Cherberg."

The Speaker presented the gavel to President Cherberg.

The Clerk of the Senate called the roll of the Senate.

The Clerk of the House called the roll of the House.

The President appointed Senators McCaslin, Stratton, Cantu and DeJarnatt and Representatives Anderson, Fisher, Bumgarner and Fuhrman as a special committee to advise His Excellency, Governor Booth Gardner, that the Joint Session had assembled and to escort him to a seat on the Rostrum of the House.

The President appointed Senators Benitz, Garrett and Barr and Representatives Locke, Holm and Doty as a special committee to escort the State Elected Officials from the State Reception Room to seats within the House Chamber.

The President of the Senate introduced the Supreme Court Justices and the State Elected Officials.

The President introduced distinguished guests seated in the gallery including Mrs. Nell H. Carlson, wife of Mr. Edward E. Carlson; Ms. Lynn Himmelman, friend of Mr. Edward E. Carlson and former United Airlines board member; Ms. Barbara Himmelman; Mrs. Charlotte Hutchinson, wife of Dr. William B. Hutchinson; Ms. Mary Duphorne, Pacific Northwest Research Foundation associate; Ms. Virginia Iverson, Pacific Northwest Research Foundation associate; Mr. Peter Jackson, son of Senator Henry M. Jackson; Mr. Brian Corcoran, former Press Secretary to Senator Henry M. Jackson; and Mrs. Melvia Corcoran.

The President introduced Governor Booth Gardner.

President Cherberg: "The purpose of the Joint Session is to present the Medal of Merit Awards for the second time to three deserving Washington State citizens who have been distinguished by exceptionally meritorious conduct in performing outstanding services to the people and the state of Washington."

The President introduced Representative Joseph E. King, Speaker of the House of Representatives.

Speaker King: "Thank you, Governor Cherberg. Ladies and gentlemen, distinguished guests and members of the House and Senate. Before I introduce the first Medal of Merit award winner today, I would like to say a special word of thanks to Speaker John O'Brien, who had the vision to pass the original legislation that called for the establishment of this Medal of Merit. The Legislature was originally skeptical about the effort, but as I remember last year when we had the first Medal

of Merit Award Ceremony, it was one of the most proud moments, one of the nicest moments, in the hectic sessions we sometimes face. Let's all give thanks to Speaker John O'Brien.

"Today's first recipient of the Medal of Merit Award is a living example of America's spirit, ambition and tireless commitment to the public good. Most of us in this Chamber are trying to make a contribution to society through elective office. Ed Carlson has demonstrated that a private citizen can do more for his fellow man than many of us would ever dream of. For most of his life, Ed Carlson has given his time and vision to helping make Washington a better, more liveable state. Through his considerable accomplishments in the business world and in the effort he has given to many civic activities, Mr. Carlson has established himself as one of the true leaders, in every sense of the word, of this state.

"Upon graduating from the University of Washington, Mr. Carlson worked his way up in the hotel business to become the President and Board Chairman of what is now the Westin Hotel chain. He later became President and Chief Executive Officer of United Airlines. His business and civic accomplishments have earned him many honors and awards over the years. Putting Seattle on the map as Chairman of the 1962 Seattle World's Fair helped earn him the city's First Citizen Award in 1966. He is also the past recipient of the Horatio Alger Award, the Legion of Honor Award, the American Tourism Award and many others, too numerous to mention here.

"He has now supposedly retired, and I'm not sure how many retirements Ed Carlson has been through. He remains an active participant in public affairs. He continues to serve on various advisory boards and panels, including the University of Washington Board of Regents. Ladies and gentlemen, will you join me in welcoming and honoring one of Washington's foremost citizens, Edward E. Carlson."

The Speaker presented the Medal of Merit to Mr. Edward E. Carlson.

Mr. Carlson: "Thank you, Mr. Speaker. Governor Gardner, Lieutenant Governor Cherberg, Mr. Speaker, distinguished members of the Legislature, ladies and gentlemen. At a time like this, Mrs. Carlson and I have much to be thankful for—a host of friends across the country, good health, with my many commitments and opportunities for extensive travel across the world, and always the fascinating and sometimes frustrating challenges of an active life in the corporate world. Now, in what I call the harvest years of my life, I am honored to share this podium with Dr. William Hutchinson, Mrs. Henry Jackson and Governor Gardner before a joint meeting of the State Legislature as one of the recipients of the Medal of Merit.

"Forgive me now for a few moments of reflection. I have often thought how fortunate I am to have been born in this country where there is no limit on opportunities, where—with a little luck and the willingness to work—men and women can enjoy the mental stimulation and the satisfaction of successes in the business world and civic affairs, where people can dream and make things happen, where the doers and the doubters can be separated. I have often said the doers make things happen; the doubters sit on the sidelines and carp with seldom any positive thoughts, yet always ready to say, 'I told you so.'"

"Opportunities and challenges come in different ways. Although I have never been elected to a public office, I have been privileged to respond to the invitations of Governors of this state and to Presidents of the United States to serve as a member of a number of commissions. Those experiences give me the greatest admiration for those of you in public life who commit your skills, your energy and your intellect to matters essential to the public good. In my judgment, these commitments and your debates are essential to continued emphasis on a number of things, but may I mention particularly education and a sense of compassion to the disadvantaged of our society. I wish you well in that continued effort.

"Governor Gardner, on behalf of my family, let me express my sincerest appreciation for this recognition today. I am deeply humbled and forever grateful to you. Thank you."

President Cherberg: "Honorable ladies and gentlemen, it is indeed a rare and wonderful honor at this point to present the Medal of Merit to Dr. William B. Hutchinson as a pioneer in the field of medical research. As President and Founding Director of the Pacific Northwest Research Foundation, Dr. Hutchinson has

earned international recognition in research on bio-medical problems not currently understood, which relate to human disease. As the builder, the organizer and the President of the Fred Hutchinson Cancer Center--which honors his brother Fred, the great baseball player--Dr. Hutchinson established a facility which has further widened medical research programs in our region. I happen to know that Dr. Hutchinson was also a terrific baseball player in his own right and one who could have been a great success in major league baseball had he chosen to do so. Dr. Bill is a true son of Washington State and a remarkable organizer and research genius and well deserving of this honor, the Medal of Merit. It is my great honor and high pleasure to present to this distinguished audience, Dr. William Hutchinson."

President Cherberg presented the Medal of Merit to Dr. William B. Hutchinson.

Dr. Hutchinson: "Lieutenant Governor Cherberg, distinguished members of the Supreme Court, the Senate and House of Representatives, members of the selection committee, and ladies and gentlemen. As I receive the Medal of Merit, I feel most humble, as I represent that wonderful group of people from all strata of our society who have given so liberally of their precious time, effort and financial substance to what I consider an important reality.

"In my opinion, it has been my duty, as a knowledgeable person in surgery and in the bio-medical sciences, to see that their trust in me has not been misplaced. We have put together two private bio-medical research institutions, the Pacific Northwest Research Foundation in 1955, which is the parent organization of the Fred Hutchinson Cancer Research Center founded in 1972, from which I resigned in January 1, 1985. Senator Magnuson, the champion for cancer research, obtained five million dollars from the U.S. Senate, which was to be matched by two million dollars from the Pacific Northwest Research Foundation, to construct that facility. We also hosted the Thirteenth International Cancer Congress at Pacific Auditorium in Seattle in 1982 where ninety-one hundred delegates from eighty-nine countries assembled for one week of study. Over two thousand Washington State citizen volunteers helped make this a memorial event, illustrating the cooperative nature of our citizens. The state gift from Governor Ray made this event the success for which it is remembered. At present, we, the citizens of this state, can for a variety of reasons take our rightful place with Massachusetts, New York, Texas and Washington, D.C., as leaders in medical advancements.

"We must work diligently and intelligently to maintain this posture. I shall attempt to do this. God willing, in my small niche at the Pacific Northwest Research Foundation. As we mature in life, we recognize how fortunate we have been to be the recipients of the tremendous sacrifices our not-too-distant forebearers made on our behalf. Thus recognized, it must create an inner desire in most of us to want to leave our successors a more decent and healthy society. This body of dedicated people is a living example of this truth. Often unappreciated, maligned and ridiculed, you push forward, attempting to make our democratic system work. You are the leaders, and we must all hold you in the highest esteem, for you often put personal considerations and gain--both financial and political--aside if the system and you are to succeed. It is self-evident that no one wants an increase in taxes, but if we are to enjoy improvements, they must be paid for. Morally, our duty in the research field is to be certain that such tax money is well directed and prudently used when the research programs are fortunate enough to be the recipients. Washington State has produced some outstanding legislators.

"Again, I wish to thank you all for honoring me. I will humbly accept this honor on behalf of all those who made it happen to me. Thank you."

The President of the Senate introduced Governor Booth Gardner.

Governor Gardner: "To the rest of the county, he was Senator Henry Jackson, one of the most powerful men ever to walk the floor of the United States Senate. But here in Washington, he was always 'Scoop.' His well-earned reputation as one of this nation's greatest foreign policy experts, his chairmanship of the Senate Interiors Committee and almost forty-three years in the U.S. Congress gave Senator Jackson political power that we will likely never see again. Despite the fact that he was a valued advisor to eight different Presidents, Scoop never lost his down-home

charm, a charm that won the hearts of citizens throughout this state. It didn't matter whether you were a Democrat or a Republican, conservative or liberal, white collar or blue collar, woman or man, you were attracted to Scoop for his combination of fairness and sensibility. Senator Jackson left us more than four years ago, but his legacy will live in Washington State for centuries--in the forests he saved, in the students he enabled to obtain a college education, to thousands upon thousands of jobs that he brought to the state of Washington. He was a man both bigger than life and down to earth, a rare combination, but a combination that worked to make this state a tremendous place to live. To you, Helen, Peter and Ann Marie, who couldn't be with us today, thank you for sharing Scoop with all of us in the state of Washington."

Governor Gardner presented the Medal of Merit to Mrs. Henry Jackson for the late U.S. Senator Henry M. Jackson.

Mrs. Jackson: "Governor Gardner, Lieutenant Governor Cherberg, Mr. Speaker, members of the Senate and the House. I am very pleased to accept this award on behalf of my husband. Scoop loved the Northwest, and he would be proud that the state of Washington honors him with its highest award, the Medal of Merit.

"Born in Everett, Scoop--as many of you know--was the son of Norwegian immigrants. His parents were drawn to this state by its promise of a better life, its natural beauty so reminiscent of their homeland, and by its resourceful and strong-minded people who shared a sense of caring and community responsibility. Growing up in Everett, Scoop learned the values of hard work, frugality and self-reliance. He witnessed firsthand the toil of working men and women, the pain of economic hard times, and the courage and strength of his fellow citizens. His greatest joys in those days were to explore the back roads of Snohomish County and to camp in the wilderness around Monte Cristo.

"So deep were his roots in Washington State, that many of Scoop's legislative achievements can be traced to his experiences as a young man coming of age in the Pacific Northwest. For example, his championship of the major economic and social legislation of the post-war period grew out of his early career as a social worker during the Depression when, as he used to tell me, he saw women with good faces rummaging in garbage cans to feed their families. His unwavering support for the cause of labor can be traced to his father's strong union loyalty as a mason and cement worker in Snohomish County. Scoop's leadership, in advancing social justice and human rights at home and abroad, reflect his Scandinavian heritage of equality and independence. His pioneering role in the major environmental legislation of this century was influenced by the memory of those halcyon days spent climbing Mount Pilchuck and fishing in Puget Sound. Thus, he was determined to preserve our state's national parks and wilderness areas for future generations to enjoy and explore.

"Over the years, Scoop assumed an increasingly important role as an international statesman, as a defender of freedom and democracy throughout the world, as the national chairman of his party and as a candidate for the Presidency. Yet, never did he forget his paramount duty as representative of the people of Washington State. How well I remember the many evenings Scoop would come home with a stack of telephone messages, and sit up until late in the evening returning calls to people back home, or the long weekends in Everett, he would spend helping widows solve problems they had with Social Security, advising young people on their future careers, raising funds for scholarships in memory of his sister Gertrude, or visiting old friends in nursing homes.

"At the time of Scoop's death, I received more than seven thousand letters of condolence from people all over Washington, from places like Chimacum, Republic, Walla Walla, Tenino and Aberdeen, each relating to me some special kindness that Scoop had done for them. Even now, I am often approached by individuals who have a story to share about how Scoop had taken the time to help them with a personal problem, but then Scoop considered that to be his principle responsibility. His love for this state and its people was unending.

"The award of merit would have made Scoop very proud, and I thank you sincerely on his behalf."

President Cherberg: "Governor Gardner, you are certainly entitled to all the praise in the world for participating in the Medal of Merit Award Ceremony. We have such a wonderful group to receive the awards. Thank you so very much. Also, on behalf of the Legislature, thank you Eddie, Bill and Helen for being here today and for all of the wonderful things that you have done for the people, not only of this state, but internationally. Mr. Speaker, thank you and your group for the proceedings and the wonderful manner in which you have greeted us."

The President of the Senate instructed the special committee to escort Governor Gardner from the House Chamber.

***NEW SECTION.** Sec. 15. The legislature finds that the agricultural sector of the state's economy is under severe financial stress due to low farm commodity prices, continuing high interest rates, and reduced net farm income. It is the declared purpose of this chapter to establish an emergency program which will serve and promote the public welfare of the state of Washington by assuring the viability of farm operations, preventing erosion of the tax base in rural areas, reducing foreclosures on farm property, and enhancing the financial stability of the agricultural industry.

(2) The college board shall take reasonable measures to inform agricultural lenders and borrowers of this program.

(3) The college shall submit a mediation process, to be established at that college, to the college board for approval. As part of the mediation process, the college shall make available to farmers the following types of assistance:

(a) Financial consulting, farm management consulting, and voluntary debt mediation as provided for in section 22 of this act; and

(b) Referral services for mental health assistance and support counseling.

NEW SECTION. Sec. 18. For the purpose of establishing the program, the college may:

(1) Provide training for financial consultants and mediators who are to provide services under this chapter; and

(2) Compile a directory of services available through the program.

NEW SECTION. Sec. 20. The college board may accept monetary or in-kind contributions, gifts, and grants provided to support the program.

NEW SECTION. Sec. 21. The college board may establish reasonable fees to defray the cost of providing financial consulting services under this chapter. The college board shall apply to the United States secretary of agriculture for a matching grant for this program under Title V, subtitle A of the agricultural credit act of 1987.

NEW SECTION. Sec. 22. (1) A farmer who is in danger of foreclosure on agricultural property may apply for entrance into the mediation process by filing an application with the college on a form prescribed by the college board.

(3) Upon receipt of a properly completed application into the mediation process, the college may assign the farmer to a financial consultant. If this action relieves the financially distressed situation, mediation shall not be sought.

(4) If, upon completion of the financial consulting program, mediation is desired and recommended by the financial consultant, the college shall direct a mediator to meet with the farmer and creditor to assist in mediation. For purposes of this section, a financial consultant may also act as mediator if trained under section 19 of this act.

(5) Subject to the provisions of subsection (6) of this section, the college shall immediately terminate an attempt at mediation if at any time it finds that a creditor does not agree to participate in mediation.

(6) If mediation involves more than one creditor and any one creditor does not agree to participate in mediation, the college shall terminate mediation only insofar as it relates to that creditor.

On motion of Senator Barr, the rules were suspended, Engrossed Substitute Senate Bill No. 6344 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Warnke: "Senator Barr, we just adopted an amendment to your bill that you have been explaining, which sets up an entire new program of counseling--contract services--with our community colleges for farmers including the use of mental health experts. Do you have any idea how many people this is going to involve and what the cost of the establishment of this program is going to be in our community colleges?"

Senator Barr: "Thank you, Senator Warnke. That bill, without an appropriation on it, I assume would accomplish only what they could see fit to fit in, because it has no appropriation on it. That is probably a down-sight for the legislation. It originally started out with, I believe, three hundred thousand, but it doesn't have that on there, so it will just have to go on its merits and they can do it as authorized and they'll really just have to accomplish what they can accomplish, I guess."

REMARKS BY SENATOR ANDERSON

Senator Anderson: "Thank you, Mr. President. Senator Warnke, perhaps I could help clarify the situation a little bit. In discussing this program with the people of the community colleges, they felt with the monies that they are already expending at the community colleges in agriculture, that would be sufficient to attract the federal dollars for matching for this program."

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Hansen, I was looking at the bill, and I was wondering. There's a provision in the bill that says that these funds that are provided for in the referendum shall not be used for non-agriculture drought relief purposes unless there are no other capital budget funds available for these purposes. Does this mean that somehow, if we have the drought conditions that we've talked about on the West side, in a very serious way, that we're going to be precluded from access to money that used to be available to us before the passage of this bill?"

Senator Hansen: "No, this is referendum money. I think there was fifty million dollars put in for the purpose that you're looking at and that has been used. They used a higher percentage to participate. This one we have had a fifteen percent participation in. Now, they expanded the use, and so, I think, out of the four million dollars, there's--we agreed--that ten percent of it would be used for your purposes, the balance of it that was put out would be for the agriculture purposes and raise the percentage that agriculture could use and limiting it to ten percent of the funds available."

Senator Talmadge: "So, the monies that used to be available for non-agricultural drought relief were exhausted up until the time this bill became available and even with this, we are going to devote a little bit to non-agricultural drought?"

Senator Hansen: "Yes, that's right."

Further debate ensued.

The bill was read the second time.

MOTION

Senator Saling moved that the following amendment be adopted:

On page 1, line 25, after "districts" insert "and chief administrative officers of church-approved private schools"

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Craswell, one of the things that has troubled me about this bill, is the absence of a definition of what constitutes a church for purposes of this bill. What is meant in this bill when you talk about a church approved private school—one that is approved by the governing body of a sponsoring church. What would qualify as a church under this legislation?"

Senator Craswell: "Senator Talmadge, I believe the term church is used throughout our RCWs, in fact, throughout other laws, too. The IRS has no difficulty deciding what a church is, but once you start trying to define a church, then you get into all kinds of difficulty. That has been interpreted by federal government and state government and I think we can go with that."

Senator Talmadge: "So, if I understand your answer correctly, Senator Craswell, if you had the Bhagwan, which is apparently recognized as a church by some, if you had Reverend Moon's Unification Church, if you had the New Age Ministry or something like that, all of those would qualify as a church insofar as they qualify as churches for purposes of the Internal Revenue Code?"

Senator Craswell: "That's true, Senator Talmadge. All of those would be able to start schools under the state approved private school law right now. They could be approved and still qualify."

Senator Talmadge: "But, under this legislation, they would qualify under the terms of this particular bill?"

Senator Craswell: "I believe that's probably true, although there are criteria for sham schools which are spelled out very clearly. The prosecuting attorneys have given me those criteria, and so if they're not truly educating the children, they said they would have no problem closing them down under present law or under this kind of a law."

Further debate ensued.

Senator Gaspard demanded a roll call and the demand was sustained.

The President declared the question before the Senate to be the roll call on the adoption of the amendment by Senator Saling to Senate Bill No. 6695.

PARLIAMENTARY INQUIRY

REPLY BY THE PRESIDENT

President Cherberg: "To lay on the table is not debatable. A motion to suspend the rules is. One on each side."

PARLIAMENTARY INQUIRY

Senator Gaspard: "Mr. President, a point of parliamentary inquiry, please. Doesn't a motion to suspend the rules have precedence over a motion to lay on the table?"

REPLY BY THE PRESIDENT

President Cherberg: "A motion to lay on the table is superior."

PARLIAMENTARY INQUIRY

Senator Pullen: "Is a motion to suspend the rules a privileged motion?"

REPLY BY THE PRESIDENT

President Cherberg: "Would you repeat your question?"

Senator Pullen: "I believe a motion to suspend the rules is a privileged motion. I just want to check."

President Cherberg: "Wait, I have too much confusion here."

PARLIAMENTARY INQUIRY

Senator Gaspard: "Mr. President, am I able to speak on the suspension of the rules?"

REPLY BY THE PRESIDENT

President Cherberg: "Your motion is not debatable, Senator, and Senator Newhouse's is not debatable."

Senator Fleming: "Senator Gaspard made a motion to suspend the rules. Does he or does he not have an opportunity to explain why he made the motion, before the motion can be laid on the table?"

The Senate was called to order at 5:04 p.m. by President Cherberg.

On the motion to suspend the rules, one speaker on each side of the question will be permitted to speak."

Debate ensued.

POINT OF ORDER

Senator Newhouse: "The Senator should address the motion, not talk about the issue that was before us before."

REMARKS BY SENATOR GASPARD

Senator Gaspard: "Mr. President, if Senator Newhouse would be a little more patient, he would know that I would be getting to that very shortly."

Further debate ensued.

Senator Bender demanded a roll call and the demand was sustained.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Zimmerman, how do you define treasure troves?"

Senator Zimmerman: "Treasure troves? I really don't know a precise definition, but the general term treasure trove--meaning valuable items found in one place--would be considered in a ship as in this particular case. A treasure trove has just generally been a phrase that has been rather a generic phrase for valuable items all found in one place."

Senator Rasmussen: "Something that was valuable?"

Senator Zimmerman: "Yes."

Senator Rasmussen: "Then, this, as I read it, is anything that is abandoned for thirty years belongs to the state?"

Senator Zimmerman: "In terms of the bill, that's the way it states it."

Senator Rasmussen: "Well, that's why I'm reading it, leading up to the question that I wish an answer. A large barge sunk someplace in Puget Sound with 600,000 gallons of oil in it. It's been there for a great number of years. This would constitute a treasure trove and would, then, belong to the state of Washington after thirty years. Then, when it starts leaking, it is a leaking treasure trove, but still a treasure trove, so the state is responsible for the cleaning up. Is this correct?"

Senator Zimmerman: "You've gone beyond my ability to adequately respond to the details of this, but I think that is what we could well look ahead to see."

Senator Rasmussen: "I just forgot the exact figure, but I recall reading that divers had been down there many years ago and they just decided to leave it at

the bottom—600,000 gallons—a little more than what they have up at Rosario Strait. And the state wants to take possession of it after thirty years? I think we better take a look at that."

Senator Zimmerman: "I think the salvagers were available to participate in whether they thought there was a way in which they could benefit in whatever would be dug out. Of course, if it were this other matter and it became a problem, I'm sure that we would want somebody to see that it was properly handled."

Senator Rasmussen: "It is the same kind of a problem that Senator Benitz had when the tanks eventually started leaking. It is a treasure trove and maybe you better take another look on whether you want to take ownership of it."

The President declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 6298.

NEW SECTION. Sec. 9. A new section is added to chapter 19.27 RCW to read as follows:

(1) The state building code council shall adopt rules pursuant to chapter 34.04 RCW incorporating a revised state plumbing code. The revised code shall be designed to achieve the maximum water conservation benefits relative to buildings constructed or remodeled in the state. The council shall adopt a revised code which requires low-volume plumbing fixtures in all new construction and all remodeling or repair involving replacement of plumbing fixtures. The revised code shall apply to all residential, hotel, motel, industrial, or commercial use buildings.

(2) The council shall publish the revised code as proposed rules pursuant to chapter 34.04 RCW and provide for the rules to become effective July 1, 1989. All cities, towns, and counties shall thereafter enforce the revised plumbing standards.

(3) The revisions adopted under this section shall supersede all local government codes. However, cities, towns, and counties may adopt more efficient water conservation plumbing fixture requirements.

NEW SECTION. Sec. 10. A new section is added to chapter 43.21A RCW to read as follows:

(1) The department of ecology, in cooperation with the departments of social and health services, fisheries, wildlife, and agriculture, and appropriate user groups shall develop model programs to guide the state's evaluation of conservation plans, economic incentives to promote conservation, and instream flow management options as they relate to water use and beneficial use studies. The model programs shall include the following:

(a) Methods to evaluate and implement water conservation programs for use by municipal and industrial water supply users. This analysis shall include preliminary estimates of future municipal and industrial water needs and the benefits to be gained from conservation.

(b) Methods to evaluate and implement water conservation programs for irrigation and other major out-of-stream water uses. This analysis shall include options to provide economic incentives for existing users to implement new irrigation technology.

(c) Methods to evaluate and implement instream conservation programs through seasonal flow management programs for all instream users. This analysis shall identify standard stream flow measurement and instream beneficial use evaluation procedures, and typical seasonal or use requirements for fisheries, recreation, aesthetic, and other instream use considerations. This analysis shall also include recommended procedures for a state, regional, and local priority use ranking system.

(2) The departments listed under subsection (1) of this section shall, under the coordination of the department of ecology, hold public hearings in developing the model programs. The first draft of the model programs shall be available for public review and comment by July 1, 1989. A user group committee shall be appointed by the director of ecology to advise the department of ecology in the development of manuals containing the program elements in each of subsections (1) (a), (b), and (c) of this section. The user groups shall advise the department on definitions, format, and methods to establish the framework for the continuation of data collection, management, and analysis. This information shall be integrated into the state's water resource management and allocation activities. If no agreement is reached among the agencies involved for each of the programs under subsections (1) (a), (b), and (c) of this section, a mediation method for establishing a state model program shall be used.

NEW SECTION, Sec. 11. A new section is added to chapter 43.20 RCW to read as follows:

(1) The department of social and health services shall develop elements relating to water conservation to be included in water system plans required under RCW 43.20.050. These elements shall be adopted by rule and shall include the provisions of the model program developed under section 10 of this act.

(2) The department of ecology shall require by rule the adoption of a water conservation program as an element of any sewer plan submitted by governmental agencies. In developing this requirement, the department shall use the provisions of the model program developed under section 10 of this act.

(3) For the purposes of this section, "conservation" means those measures that limit the amount of water used only to that which is reasonably necessary for the beneficial use to be served.

NEW SECTION, Sec. 12. A new section is added to chapter 43.21A RCW to read as follows:

The department of ecology shall annually prepare, and submit to the legislature, a report summarizing the status of water use and availability in each county and each of the state's sixty-two water resource inventory areas. The report shall be based on best available information. The first report shall be submitted in 1989. Each annual report shall include:

(1) A list of all valid water rights by size, source of supply, and use.

(2) An annual report on water right certificates that authorize the instantaneous withdrawal of one cubic foot per second, or 0.65 million gallons per day, or greater. The annual report shall include the total annual, maximum month total, and estimated maximum instantaneous peak withdrawal from each well or surface water diversion structure.

(3) An estimate of the aggregate total water use by user category for water right certificate holders not required to submit an annual report.

(4) An inventory of the annual, maximum and minimum month, and instantaneous yield of water availability from all surface and groundwater supplies from which one cubic foot per second, or 0.65 million gallons per day, of water withdrawal is authorized.

(5) An estimated 1990 inventory of available state water resources, and compare the availability with allocated water rights, existing use, and projected demand for the years 1990, 1995, 2000, 2010, and 2035."

POINT OF INQUIRY

Senator Rasmussen: "Senator Rinehart, I read quite an article --well it was two articles--that we're forcing children into early childhood education much too fast. I don't know if you read that article or not. Would this be part of the program, forcing them into early education, when they should be maturing more? Well, what they claimed was, that we were driving children to become hyperactive by pounding this education into them too early. What is your answer?"

Senator Rinehart: "My answer is absolutely not. The articles to which you refer have to do with programs and with sets of plans for parents--flash cards, those kinds of things and rote sort of things--to try and teach children multiplication tables early, to try and get them to read early. That's totally different from the idea of the Early Childhood Assistance Program and the Headstart Program. These programs work with families and with the children.

"The idea is that a child in poverty is not going to have the opportunity, for instance, to know what the inside of a doctors office looks like. They're not going to have the opportunity, before the age of five, to be screened for hearing problems. There are wonderful examples from the Headstart right here in Olympia of children who had, with their parents, health screening. They had, for instance, hearing problems discovered, so that they could get the help that they need and not be forced to sit in school through kindergarten or first grade before anybody discovered the problem.

"So, I'm aware of the concern that you're expressing and it's one that I share with you, but this is a program done through the Department of Community Development. It's one of the few programs that we know for sure works. When you give a child and their family this experience, they will not be drop-outs, they will not be pregnant when they shouldn't be, they won't be in jail. It's a very different kind of program from that which you have expressed concern."

Further debate ensued.

POINT OF INQUIRY

Senator Smitherman: "Senator Lee, in reading through the bill, I concur with your remarks, but I was wondering with the new collection procedure they were talking about that they say would require, I think it was a couple of FTEs or a FTE and a half, and I could see how we would be spending money, but I don't see how any money is coming into the state from this. In other words, we're setting up procedures and it's good, but in fact does it pay for itself or what?"

Senator Lee: "The testimony before the committee from the agency said that it would pay for itself, because of the deposits that are made by those who are applying for the licenses themselves. In other words, it doesn't take any tax money."

Senator Smitherman: "I understand that, but the deposits being there, are we able to get the interest from the deposits or something like that to pay the administrative costs, because otherwise this would have a fiscal impact over a period of six years of six hundred twenty-one thousand dollars."

Senator Lee: "But, it's other than from the general fund—all of these licensing bills. A few years ago, we set it up in a manner so that we would not have to use general fund tax money in order to support these particular activities."

Further debate ensued.

RULING BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Bluechel: "In ruling upon the point of order raised by Senator Barr, the President finds that Second Substitute Senate Bill No. 6724 is a measure providing for a study to assess and recommend to the Legislature the requirements of a water resource policy for the state of Washington.

"The amendment proposed by Senators Talmadge and Hansen provides for the state building code council to adopt rules to assure maximum water conservation and for the Department of Ecology to develop programs to evaluate conservation plans.

"The President, therefore, finds that the proposed amendment does change the scope and object of the bill and that the point of order is well taken."

The amendment by Senators Talmadge and Hansen to Second Substitute Senate Bill No. 6724 was ruled out of order.

MOTION

On motion of Senator Nelson, the rules were suspended, Engrossed Second Substitute Senate Bill No. 6724 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Hayner: "Senator Barr, I'm very much in favor of this bill and I think you handled it very well. One of the things that concerns me though, is that I know that the Department of Ecology has a plan already developed. In the event that this bill, for some reason or other, does not get through the Legislature, do they have the authority to adopt the plan—a plan—right now?"

Senator Barr: "They cannot. They agreed and it's spelled out in this legislation, that they cannot adopt water policy plans and do it by the WACs until the Legislature has acted on this measure."

Senator Hayner: "What you're saying, is that it's very important to get this bill through both houses of the Legislature?"

Senator Barr: "That's right, it is extremely important and I urge the passage."

POINT OF INQUIRY

Senator Talmadge: "Senator Barr, the question I have about freezing the authority of the Department of Ecology to do anything, is if there is an emergency as we all anticipate this summer on the west side of the mountains and on the east side of the mountains. To what extent, can the Department of Ecology really take any meaningful action to deal with those drought conditions that may be experienced by people on both sides of the mountains?"

Senator Barr: "This measure does not deal with that kind of an issue at all. This just deals with long-range basic priority policies for the state of Washington. The drought that's coming up next year, and like I said in the presentation, it will not interfere, in any way, with the ongoing process under current law, including any drought situation. The drought bill, that we passed yesterday, set up a cooperative method by all people who may be affected--the municipalities, the industry--and that set that up and gave them all a piece of the limited amount of money that will be available for that, but this bill will not in any way affect that."

Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Hansen, you rang a bell when you mentioned cloud seeding. I recently read where the Russians were having a festival or something in the city and they seeded the clouds outside of the city, so it would not rain. What ever happened to our cloud seeding program? I remember a few years back we had quite a lot of activity in it? Could you tell me?"

Senator Hansen: "Well, where it has been used and monitored, it raised the rainfall from about eleven inches a year to seventeen inches a year which was pretty good. The biggest part of it--the rainfall falls more in Idaho and Montana than stops here when we seed."

Senator Rasmussen: "We still have a program though?"

Senator Hansen: "I haven't heard anything about it since Dixie Lee Ray was Governor and we had that seeding program at that time."

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Engrossed Second Substitute Senate Bill No. 6724.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Second Substitute Senate Bill No. 6724, and the bill passed the Senate by the following vote: Yeas, 41; nays, 6; excused, 2.

Voting yea: Senators Anderson, Bailey, Barr, Bauer, Benitz, Bluechel, Cantu, Conner, Craswell, Deccio, DeJarnatt, Fleming, Garrett, Gaspard, Halsan, Hansen, Hayner, Johnson, Kiskaddon, Lee, Madsen, McCaslin, McDonald, McMullen, Metcalf, Nelson, Newhouse, Owen, Patterson, Pullen, Rasmussen, Saling, Sellar, Smith, Stratton, von Reichbauer, Warnke, West, Williams, Wojahn, Zimmerman - 41.

Voting nay: Senators Kreidler, Moore, Niemi, Rinehart, Talmadge, Vognild - 6.

Excused: Senators Bender, Smitherman - 2.

ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 6724, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

The motion by Senator Williams failed and the amendment was not adopted.

MOTION

Strike everything after the enacting clause and insert the following:

"Sec. 1. Section 3, chapter 383, Laws of 1985 as amended by section 2, chapter 2, Laws of 1986 and RCW 70.98.085 are each amended to read as follows:

((†)) The agency is empowered to suspend and reinstate site use permits consistent with current regulatory practices and in coordination with the department of ecology, for generators, packagers, or brokers using the Hanford low-level radioactive waste disposal facility.

(2) ~~Until January 1, 1988, the agency shall collect a surveillance fee ((as an added charge on each cubic foot of low-level radioactive waste disposed of at the disposal site in this state which shall be set at a level that is sufficient to fund completely the radiation control activities of the agency which are not otherwise covered by cost recovery programs including, but not limited to, any funds from federal sources: PROVIDED, That the surveillance fee shall not exceed four percent of the basic minimum fee charged by an operator of a low-level radioactive waste disposal site in this state. The basic minimum fee consists of the disposal fee for the site operator, the fee for the perpetual care and maintenance fund administered by the state, the fee for the state closure fund, and the tax collected pursuant to chapter 82.04 RCW. Site use~~

permit fees and surcharges collected under chapter 43-260 RCW are not part of the basic minimum fee. The fee shall also provide funds for other state agencies that incur expenses as a result of the control and management of the disposal of low-level radioactive waste in the state of Washington. Disbursements for these purposes to other state agencies shall be by authorization of the secretary of the department of social and health services or the secretary's designee. The agency may adopt such rules as are necessary to carry out its responsibilities under this section).

NEW SECTION. Sec. 2. A new section is added to chapter 70.98 RCW to read as follows:

(1) Beginning January 1, 1988, the agency shall charge a license fee to the operator of a low-level radioactive waste disposal site in the state. The license fee shall be set so as to recover, but shall not exceed, the state's low-level radioactive waste surveillance costs.

(2) As used in this section, "low-level radioactive waste surveillance costs" means the costs to the state related to or caused by the operation of a low-level radioactive waste disposal site in the state. The costs include, but are not limited to, the costs of issuing, amending, and ensuring compliance with the license of the site operator, suspending and reinstating site use permits, inspecting waste shipments, monitoring the disposal site, and related administrative and technical costs.

(3) The fee in subsection (1) of this section shall apply retroactively from the effective date of this section to January 1, 1988. Its implementation shall be coincident with the elimination of the surveillance fee in RCW 70.98.085.

NEW SECTION. Sec. 3. A new section is added to chapter 82.04 RCW to read as follows:

In computing tax there may be deducted from the measure of tax the amount paid by the operator of a low-level radioactive waste disposal site as license fees under section 2 of this act.

NEW SECTION. Sec. 4. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately."

POINT OF ORDER

Senator Benitz: "Mr. President, members, a point of order. I'd challenge this amendment on scope and object. This is a totally different approach. It goes to a license fee and has some new language in there, which exempts the license fee from the B&O tax, and I suggest that is not appropriate."

MOTION

On motion of Senator Benitz, and there being no objection, the point of order on scope and object of the striking amendment by Senator Williams to Substitute Senate Bill No. 6545 was withdrawn.

Debate ensued.

The President Pro Tempore declared the question before the Senate to be the adoption of the amendment by Senator Williams to Substitute Senate Bill No. 6546.

SECOND READING

SENATE BILL NO. 6438, by Senators Benitz, Stratton, Newhouse, Bluechel, Owen, Nelson, Pullen, Madsen, Williams and Talmadge

Permitting banded rate tariffs for natural gas and electric services.

CONFLICT OF INTEREST

Senator Madsen: "Senate Bill No. 6438 would allow regulated utilities a system of imposing banded rates. I presently work for a regulated utility which can take advantage of the banded rates. If I vote on this bill, is that conflict of interest?"

RULING BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Bluechel: "Senator Madsen, Senate Rule 22 and Joint Rule 1 requires that a legislator shall only be excused from voting when a personal interest is direct and the legislator has reason to believe or expect that a direct monetary gain or loss will be derived by reason of the legislator's official activity.

"The President believes that the rules contemplate the member must make the decision his or herself based upon the facts as the member believes them to exist.

"Joint Rule 1 clearly states that a legislator does not have a personal interest which is in conflict with the proper discharge of legislative duties if no benefit or detriment accrues to the legislator as a member of a business, profession, occupation or group to a greater extent than any other member of such business, occupation or group.

"The President hopes that this explanation will help the Senator and all members in decisions about potential conflicts of interest."

MOTIONS

On motion of Senator Nelson, Substitute Senate Bill No. 6438 was substituted for Senate Bill No. 6438 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Nelson, the rules were suspended, Substitute Senate Bill No. 6438 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Williams: "Senator Benitz, competitively-driven arrangements are one step in the transition to a more competitive marketplace. Such pricing flexibility can benefit all utility customers and are appropriate, even in an otherwise regulated industry. What standards would be used to determine the minimum and maximum rate?"

Senator Benitz: "Senator Williams, the standards will be set by the UTC based on input from the parties. At the low end of the rate ban, the rate should be at least cover-cost so that monopoly rate payers do not subsidize competitive service. At the high end, the rate should prevent monopoly pricing."

Senator Williams: "Senator Benitz, I want to clarify something. The bill indicates that to prove effective competition, a utility must show competition from energy sources not regulated by the UTC. Is that intended to include consumer-owned utilities such as municipals, public utility districts, cooperatives or mutuals?"

*Senator Benitz: "It does not."

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 6438.

Excused: Senators Bender, Smitherman - 2.

SUBSTITUTE SENATE BILL NO. 6438, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

PERSONAL PRIVILEGE

*Senator Benitz: "The second question which Senator Williams asked me for the record, I did not have a description of, and the answer is the opposite that I gave, so that we have it clear on the record, 'it does not.'"

EDITOR'S NOTE: "The correction was made in the printed colloquy by Senators Williams and Benitz.

The President Pro Tempore introduced Miss Roxanne Bare, a special guest of Senators Warnke and Gaspard who was seated on the rostrum. Miss Bare is a senior at White River High School and the Pierce County League Cross-County Champion.

The bill was read the second time.

MOTION

On motion of Senator Nelson, the rules were suspended, Senate Bill No. 6515 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Williams: "Senator Pullen, is the Senate Energy Committee the correct committee to deal with Senate Bill No. 6515?"

Senator Pullen: "The Law and Justice Committee staff did look the bill over and, admittedly, attorneys can disagree among themselves so one should not necessarily take one attorney's opinion or the opinion of a staff as necessarily the final answer or even one hundred percent correct answer. When the Law and Justice Committee staff looked the issue over, they did not see a problem with the bill or with the immunity question."

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Senate Bill No. 6515.

Debate ensued.

POINT OF INQUIRY

Senator Garrett: "Senator Williams, you said the telephone companies used to say that there was a tremendous cost on this. Now, they say there's no cost or that the rest of the customers in the state will absorb whatever cost that does come from this?"

Senator Williams: "Several years ago when we proposed this kind of legislation, I don't remember the exact figures, but they projected some very high costs for implementing the blocking-kind of system. Since then, costs, certainly, in California for instance, have been shown to be much lower than they said the costs were. In any case, obviously, I think there's some cost involved. What those costs are exactly, I don't know, but my understanding would be that would go into the whole rate base, so that all of us would pay for that blocking service. An individual who wants the blocking service, would not be required to pay for it."

Further debate ensued.

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 6676.

MOTION

On motion of Senator Pullen, the rules were suspended, Engrossed Substitute Senate Bill No. 6316 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Talmadge: "Senator Pullen, this bill requires that there be a substantial nexus between the commercial production or sale of the controlled substance and the real property before there can be a seizure and forfeiture of the property. Could you offer examples of activities that would create a substantial nexus between the illegal production or sale and the real property? Could you also describe a scenario that would not constitute the kind of substantial nexus intended by the language in the bill?"

Senator Pullen: "Two especially clear examples come to mind, Senator Talmadge, with respect to illegal drug production or sale that would result in a substantial nexus between the activity and the property. The first would be the situation where the home contains a laboratory operation for the manufacturing or processing of substances like amphetamines, hallucinogens, or cocaine. In addition, if there were a large grow operation on the property, either in the house or on the surrounding land, that would certainly result in the substantial nexus required for the forfeiture of the property.

"Secondly, if the house were being used as a sanctuary for the ongoing illegal sale of drugs, then the substantial nexus would be established between the drug-dealing and the property in question. As for a situation that would not constitute a substantial nexus, I would use the example of the well-intentioned, but somewhat overzealous, law enforcement agent who might get himself or herself invited into someone's home, and there ensues a casual sale involving a controlled substance. This would not constitute the substantial nexus required for forfeiture."

Further debate ensued.

"Sec. 2. Section 16, chapter 219, Laws of 1979 ex. sess. and RCW 7.68.240 are each amended to read as follows:

Upon a showing by any convicted person or the state that five years have elapsed from the establishment of such escrow account and further that no actions are pending against such convicted person pursuant to ~~((this act))~~ RCW 7.68.200 through 7.68.280, the department shall immediately pay over fifty percent of any moneys in the escrow account to such person or his legal representatives and fifty percent of any moneys in the escrow account to the fund under RCW 7.68.035(4)."

POINT OF ORDER

Senator Pullen: "Madam President, I rise to the point of order that this amendment expands the scope and object of the bill. It may fit within the title of the bill, but it certainly doesn't fit within the scope of the bill. I see several other good amendments coming. Some of these look like good amendments, but they, too, exceed the scope and object of the bill. Sometimes, we just have to scope amendments that otherwise would be good amendments, just because they otherwise could end up sending the bill into that deep, black hole known as the Ways and Means Committee. I suggest we put the bill down and that the President have time to look at all the other amendments, too, on which I will raise scope and object at this time, if that's in order. Then, that will save time when we can get back to the bill."

POINT OF ORDER

Senator Halsan: "A point of order, Madam President. In regards to the, I guess, the claim by Senator Pullen, that the amendments that are not before the body, exceed the scope and object. I would believe when, in fact, they are before the body, that would be in order to raise that question and that would allow, on each amendment, the proponent of the amendment and the proponent of the scope and object objection to speak on each amendment as to the scope and object. I would request that privilege."

REPLY BY THE VICE PRESIDENT PRO TEMPORE

Vice President Pro Tempore Craswell: "That is correct, Senator Halsan."
Further debate ensued.

POINT OF ORDER

Senator Halsan: "Madam President, I fail to see how if we reserve the argument on the point of order question until after the President has reviewed them to determine what the result of the point of order questions are--that is an appropriate point of order. I would think that the arguments relative to the points of order should precede the determination of the answer to the question."

REMARKS BY SENATOR NEWHOUSE

Senator Newhouse: "Madam President, I just want to make clear that we're trying to give you every courtesy and yet not preclude you from presenting all of your amendments. If we were to take one today and wait a day and come back, then you present another one and then we challenge that one, the bill would be

beyond the deadline for its consideration. We're just serving notice, according to the maker of the motion, that he is asking the attorneys to view all amendments."

REMARKS BY SENATOR HALSAN

Senator Halsan: "I'm certain the President will keep an open mind and, if in fact, after the review, the arguments are quite valid, that will be taken into consideration in the making of the determination."

Further debate ensued.

MOTION

On motion of Senator Newhouse, further consideration of Substitute Senate Bill No. 6364 was deferred.

POINT OF INQUIRY

Senator McCaslin: "Senator Pullen, sub (10) on page 3, lines 4 and 5, where it says, 'Or labor for which the individual is not compensated by any person and performed outside of the person's normal employment hours if any.' That would mean somebody who had a sign shop—a local business—could do all your work during normal working hours and it would not be a contribution. Is that correct?"

Senator Pullen: "You're suggesting that a person who has a sign shop who donates his labor, would not have to be reported? In a situation like that, I would say that it would have to be reported, because the labor plus the materials together are going into producing signs which is something that has tangible value. Like any other in-kind contribution, that would have to be reported. The intent of this particular language is to deal with a person who comes in to support you by—like doorbelling for you, or stuffing envelopes or other similar types of labor."

Senator McCaslin: "Well, I can understand where the sign material and the paint and the silk screen might be charged off as a contribution, but it specifically states that the labor will not be charged as a contribution."

Senator Pullen: "In this particular situation, the labor would be lumped in to the final fair-value cost for the production of the signs."

Senator McCaslin: "You think it would under the way this is written?"

Senator Pullen: "I believe it would be."

MOTION

On motion of Senator Zimmerman, Senators Benitz and Kiskaddon were excused.

On motion of Senator Pullen, the rules were suspended, Substitute Senate Bill No. 6451 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Metcalf: "Senator Pullen, would it presently be illegal for an individual or registered lobbying group to spend money to influence voters on a ballot proposition, if they failed to report the expenditures under the provision of the Public Disclosure Act pertaining to ballot issues or is an amendment to this bill necessary to make it illegal?"

Senator Pullen: "Senator Metcalf, you are correct, it would be illegal if they failed to report. The current law provides that any person who works for or against the ballot proposition must disclose expenditures in the manner provided by the Public Disclosure Act. Consequently, no amendment is necessary since it's already covered."

Further debate ensued.

The Vice President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 6451.

POINT OF ORDER

Senator McDonald: "Mr. President, a point of order. I raise the question of scope and object on the amendments by Senator Halsan. This bill deals with extending the credits—the tax credits, for both the B&O tax and the sales tax deferral on a program for expansion of plants. The amendments that Senator Halsan has proposed refer to a section of RCW that is totally outside of the scope—scope referring to RCW 82.61 and 82.62. This refers to RCW 50.04, that is employment security and has to do with employment benefits, or unemployment benefits. The object is certainly expanded and the scope is expanded. Therefore, I would argue that these amendments should not be before us."

Further debate ensued.

MOTION

On motion of Senator Newhouse, further consideration of Substitute Senate Bill No. 6379 was deferred.

Debate ensued.

(c) Convicted of an offense involving hypodermic syringes, needles, or other objects used, or intended for use, or designed for use in parenterally injecting controlled substances into the human body under chapter 69.50 RCW"

POINT OF INQUIRY

Senator Pullen: "Senator Williams, at the end of the third line of your amendment to page 11, line 3, you use a word, 'parenterally.' What does that word mean?"

Senator Williams: "You know when the amendment was drafted for me, it was explained to me and I frankly can't remember what it means. It's good language though, I can tell you. Marty Brown drafted it for me and it's intended to do exactly what I said, but I quite frankly can't tell you what the definition is."

Senator Pullen: "Maybe one of the Senators that graduated from an Ivy League college can clarify that. I hate to vote on an amendment which has a word that I don't know what it means. Does any one know what it means?"

REMARKS BY PRESIDENT PRO TEMPORE BLUECHEL

President Pro Tempore Bluechel: "For Senator Pullen's sake, the word means not digested."

POINT OF INQUIRY

Senator Rasmussen: "Senator Owen, at the present time the Secretary of the Department of Corrections can segregate if he wants to. Would the adoption of this amendment mean that he couldn't until we had a report?"

Senator Owen: "It wouldn't be, in my opinion, that this would change anything that's status quo right now. It would just provide for more direct attention on that particular issue."

Senator Rasmussen: "It's not your intention to stop him from segregating at the present time?"

Senator Owen: "It's not my intent to stop anything that is presently status quo."

Further debate ensued.

The President declared the question before the Senate to be the adoption of the amendment by Senators Owen, Conner and Bailey to Second Substitute Senate Bill No. 6221.

On page 16, line 25, strike "actual or perceived HIV infection status of an individual" and insert "any sensory, mental, or physical handicap which is caused by any sexually transmitted disease, including HIV infection"

Debate ensued.

POINT OF INQUIRY

Senator Deccio: "Senator Rasmussen, how would your striking of those three words, 'actual or perceived,' apply to innocent victims who acquire AIDS--hemophiliacs, children through transfusions, or any other person in that category--someone who is not knowingly or should have known that they could get the disease through a certain act? How does that apply to those innocent victims?"

Senator Rasmussen: "They would still be physically handicapped and would have all the benefits of a physically handicapped or disabled person."

POINT OF INQUIRY

Senator Niemi: "Senator Talmadge, does the Anti-Discrimination Law, at this time, apply to perceived disabilities?"

Senator Talmadge: "My understanding, Senator Niemi, is that it does. There is case law from the Washington Appellate Court system which suggests that in circumstances where someone is perceived to have a disability, even if they don't have it, they are covered by the law against discrimination."

Further debate ensued.

The President Pro Tempore declared the question before the Senate to be the adoption of the amendment by Senator Rasmussen to Second Substitute Senate Bill No. 6221.

The motion by Senator Rasmussen carried and the amendment was adopted.

MOTION

On page 23, line 1, before "reasonable" strike "all"

Debate ensued.

The President Pro Tempore declared the question before the Senate to be the adoption of the amendment by Senator Smith to Second Substitute Senate Bill No. 6221.

The motion by Senator Smith carried and the amendment was adopted.

MOTION

Senator Smith moved that the following amendment be adopted:

On page 26, line 13, after "delay," insert

"The court after issuing an order of continuance shall place a temporary restraining order upon the applicant. The applicant shall be restrained from engaging in conduct which has been determined by the board in rule to endanger the public health. The restraining order shall remain in effect until the conclusion of the hearing."

POINT OF INQUIRY

Senator Talmadge: "Senator Smith, could you tell me how this restraining order would be enforced?"

Senator Smith: "Actually, like any other restraining order. If the public health officer found out this person was acting in a way, such as prostitution, going to public bath houses, whatever they've been told not to do, then they would be told they would probably be put in jail or restrained as simple as that."

Senator Talmadge: "So we'd have the public health officers in the bedrooms or in the bath houses or wherever, doing the examination to make sure that the restraining order was being complied with?"

Senator Smith: "I think it's like any other restraining order. It's when it's brought to the attention of the court or the public health officer. Throughout the bill, the public health officer would not be following these people around, it would be after a report or substantial information was given on the infraction. Most likely, what you would find, is the person out on the street corner again, or around the school yard again, and this is what would bring about the judge filing a restraining order or bringing them back in on a restraining order."

Further debate ensued.

The President Pro Tempore declared the question before the Senate to be the adoption of the amendment by Senator Smith to Second Substitute Senate Bill No. 6221.

The motion by Senator Smith carried and the amendment was adopted.

MOTION

Senator Talmadge moved that the following amendment be adopted:

On page 28, beginning on line 31, strike all material down to and including line 6 on page 29 and insert the following:

"Sec. 917. Section 4, chapter 257, Laws of 1986 and RCW 9A.36.011 are each amended to read as follows:

(1) A person is guilty of assault in the first degree if he or she, with intent to inflict great bodily harm:

(a) Assaults another with a firearm or any deadly weapon or by any force or means likely to produce great bodily harm or death; or

(b) Administers to or causes to be taken by another, poison, the human immunodeficiency virus as defined in chapter 70.24 RCW, or any other destructive or noxious substance; or

(c) Assaults another and inflicts great bodily harm.

(2) Assault in the first degree is a class A felony.

POINT OF INQUIRY

Senator Deccio: "Senator Talmadge, as I understand it, you struck line 29. It isn't struck on the back and I assume that it should have been."

Senator Talmadge: "It should have been, Senator Deccio. I noticed that you and some others have worked on a different criminal section and that looked to be far more acceptable than what I was working on."

Senator Deccio: "My question is, the way the bill reads now, it says, 'It shall be a class A felony for among other things, (d) transmits the AIDS virus to another.' I guess I haven't made up my mind as to whether your amendment makes this penalty, or this part of the bill, stronger or makes it weaker."

Senator Talmadge: "It actually makes this part of the bill narrower. As you can see from the amendment, it provides for Class A felony status only when someone with intent to inflict great bodily harm administers to or causes to be taken by another, poison, the human immunodeficiency virus as defined in Chapter 70.24 RCW, or any other destructive or noxious substance. It's basically the section of the Class A felony assault of provisions in the code that deal with situations like the adulterated Tylenol capsule that occurred in south King County."

Senator Deccio: "Well, let me ask you, would this also include AIDS transmitted by sexual intercourse or by IV—someone forced with an IV injection and the other things that clearly stand out in sub (d) where transmits means in any way—transmits the AIDS virus to another."

Senator Talmadge: "My sense is, that it would not. The next section that you've been working on, deals with the circumstances where someone transmits it through

sexual intercourse. This is calculated to deal only with circumstances where somebody, for example, introduces the AIDS virus into blood with the knowledge that it was going to be injected into another person, which was an actual case that some prosecutors had to deal with."

Senator Deccio: "Senator Talmadge, I guess I'm just reading the last line of my amendment, which I forgot. We've accepted the HIV or AIDS virus, so with that, provided you adopt my next amendment, I'll go along with yours."

POINT OF INQUIRY

Senator Pullen: "Senator Talmadge, I just wanted to clarify your amendment. You had two amendments, the first one dealt with Sections 917 and 918. You now have a second amendment marked 'revised' and at the bottom of page 1, the first several lines of Section 918 are crossed out and on the back page, nothing is crossed out."

Senator Talmadge: "That should be deleted also, Senator Pullen, as I mentioned to Senator Deccio."

Senator Pullen: "So, your intent is to just amend Section 917 with your revised amendment?"

Senator Talmadge: "Exactly."

The President Pro Tempore declared the question before the Senate to be the adoption of the amendment by Senator Talmadge to Second Substitute Senate Bill No. 6221.

The motion by Senator Talmadge carried and the amendment was adopted.

MOTIONS

On motion of Senator Deccio, the following amendment by Senators Deccio and Kreidler was adopted:

On page 29, beginning on line 7, strike all material down through "person." on line 11
Renumber the remaining sections consecutively

Senator Barr moved that the following amendment be adopted:

On page 32, line 5, strike "including" and insert "excluding"

Debate ensued.

The President Pro Tempore declared the question before the Senate to be the adoption of the amendment by Senator Barr to Second Substitute Senate Bill No. 6221.

The motion by Senator Barr failed and the amendment was not adopted.

MOTION

Senator Craswell moved that the following amendment be adopted:

On page 31, after line 10, insert the following:

"NEW SECTION, Sec. 1003. The results of any HIV testing performed on a newborn infant shall be reported to the parents or legal guardian of the infant."

Renumber the remaining sections consecutively

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Kreidler, you are as close to the medical doctor that we have here on the floor. I would like to ask you this. You said it would take more than a year before it would show up in a baby diagnosed as having AIDS. If it takes that long, how can they test blood where it shows--what they tell us will determine if blood has the AIDS virus. Of course, there were a lot of people transfused with blood that had the AIDS virus that was supposed to be tested, but that didn't turn out to be perfect. Can they tell immediately when they test a baby for AIDS or do they have to wait for the year that you said?"

Senator Kreidler: "The fact of the matter is, the infant at birth could test positive or it wouldn't. The tests we have available right now, might not reveal a positive test for up to a year after the birth of that child. That's one of the unfortunate aspects of this particular virus."

Senator Rasmussen: "The same thing would be true of testing blood? That's a blood test they take from the baby, isn't it?"

Senator Kreidler: "That's true for any of the standard tests that are available today. We don't have a way of detecting the virus when it's at certain levels. It has to have been present a certain length of time before a person will test positive."

POINT OF INQUIRY

Senator Williams: "Senator Craswell, based on this newspaper article, I was curious if you had talked with Doctor William Lafferty about this program and knew whether he would approve of this particular amendment or not?"

Senator Craswell: "No, I have not. I only saw the article late last night and I talked with attorneys early this morning and they were trying to find out for me more information on it and whether or not there was some sort of prohibition. To this point, we have not found there was any prohibition and I noticed, if the article is accurate, that the test that they are doing is all tests with blood that's left over from other medical tests that they are already running. I can't see that it would interfere at all with what he is doing. It's just a matter of--since he's got the results--of letting the parents know."

Further debate ensued.

The President Pro Tempore declared the question before the Senate to be the adoption of the amendment by Senator Craswell.

The motion by Senator Craswell carried and the amendment was adopted.

MOTIONS

Senator Nelson moved that the following amendment be adopted:

On page 29, line 7, insert the following:

NEW SECTION, Sec. 918. A new section is added to chapter 70.24 RCW to read as follows:

It is unlawful for any person who has a sexually transmitted disease, when such person knows he or she is infected with such a disease and when such person has been informed that he or she may communicate the disease to another person through sexual intercourse, to have sexual intercourse with any other person, unless such other person has been informed of the presence of the sexually transmitted disease."

Senator Hayner moved that the following amendment to the amendment by Senator Nelson be adopted:

On line 6 of the Nelson amendment, after "any other person", delete all material down to "disease." on line 9.

POINT OF ORDER

Senator Pullen: "Mr. President, my point of order is that I cannot tell from the basic amendment by Senator Nelson, whether he intends to supplant Section 918 with the language he is proposing or whether he is intending to add a New Section 918 and renumbering the other sections accordingly."

REMARKS BY SENATOR NELSON

Senator Nelson: "Thank you, Senator Pullen, for asking that question. It turns out that in the preceding activity of this body that we have already stricken Section 918 and I'm simply putting in a new Section 918. I believe that the Senate Majority Leader has, in fact, strengthened the amendment. In the hurried process of trying to get something before the bar of the Senate, I took the existing language that had been there. I believe that the language is cleared up and I would certainly adopt the amendment to the amendment as presented orally."

Further debate ensued.

MOTION

On motion of Senator Hayner, further consideration of the amendment to the amendment by Senator Nelson was deferred.

Debate ensued.

There being no objection, further consideration of Second Substitute Senate Bill No. 6221 was deferred.

PARLIAMENTARY INQUIRY

Senator Rasmussen: "A parliamentary inquiry, Mr. President. Would it be possible to give the help a pit stop for five minutes?"

REPLY BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Bluechel: "Good suggestion. With the consent of the Senate, we will have a five minute recess."

At 4:04 p.m., and there being no objection, the Senate was declared to be at ease.

The Senate was called to order at 4:12 p.m. by President Pro Tempore Bluechel.

There being no objection, the Senate resumed consideration of Second Substitute Senate Bill No. 6221, and the pending amendment by Senator Hayner on line 6, to the amendment by Senator Nelson on page 29, line 7, deferred just before the Senate went at ease.

MOTION

On motion of Senator Nelson, and there being no objection, the amendment by Senator Hayner and the amendment by Senator Nelson were withdrawn.

MOTION FOR RECONSIDERATION

Debate ensued.

The amendment by Senator Talmadge, on reconsideration, failed on a rising vote.

MOTION

Senator Deccio moved that the following title amendment be adopted:

Debate ensued.

MOTION

POINT OF INQUIRY

Senator Barr: "Senator Deccio, where the section says that it shall be taught in public schools as part of the curriculum, what is the intent of this measure through--"

Senator Deccio: "Give me the reference, Senator Barr. Where are you reading from, Senator Barr? Would you give me the reference?"

Senator Barr: "I just had a simple question. What is the intent for the funding to the schools if they are mandated to do certain things? Where are they going to get the money?"

Senator Deccio: "Senator Barr, Bruce Mrkwicka from the SPI's office came to see me the other day and indicated that they would keep the three hundred and thirty thousand dollars, which is supposedly in the supplemental budget, which would go for this purpose. It includes federal funds, which we did not address in this bill, and we did not address any other kinds of appropriation, because as I indicated

this is not an appropriations bill. The money that is in this bill is to set up a system setting up an office on AIDS and all the other things that go with it. I guess that's the explanation, Senator Barr."

Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Talmadge, if we vote, 'no,' how is the House going to be able to correct the mistakes?"

Senator Talmadge: "Well, Senator, I'm counting on you for your affirmative vote in favor of dealing with the problem of AIDS."

Senator Nelson moved that the rules be suspended and Substitute Senate Bill No. 6518 be advanced to third reading, the second reading considered the third and the bill be placed on final passage.

POINT OF ORDER

Senator Fleming: "Mr. President, my point of order is I wanted to ask a question before this bill was advanced--before it was advanced to third reading."

REPLY BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Bluechel: Senator Fleming, the bill has not been advanced. Please ask your question."

POINT OF INQUIRY

Senator Fleming: "Senator Deccio, the question is, in the substitute bill, we made a study of this measure--"

Senator Deccio: "Senator Fleming, I've been off the floor. You're going to have to give me a number."

Senator Fleming: "It's Senate Bill No. 6518, Adult Family Homes. The original bill was to license these adult family homes and the substitute is another study and I was just wondering what the reasons were behind not moving on it and making a study out of it?"

REMARKS BY SENATOR NELSON

Senator Nelson: "Senator Fleming, I think, in reading about the involvement of adult family homes, one will realize that there has not been a lot of legislative authority over these entities in the past. They are providing a form of long-term care to adults, some elderly, and those with developmentally disabled conditions, so it was felt that the Legislative Budget Committee should go in and do a performance evaluation of exactly what are the kinds of care being provided by adult family homes and put that in relationship with nursing homes and other types of medical settings and come back to this Legislature by December 30 of 1988, and provide to the Legislature some model language that would effectively provide some form of license or regulation to put them on a more even basis with the other health care providers in the state of Washington."

The President Pro Tempore declared the question before the Senate to be the motion by Senator Nelson to suspend the rules and advance Substitute Senate Bill No. 6518 to third reading and final passage.

The motion by Senator Nelson carried and Substitute Senate Bill No. 6518 was advanced to third reading and placed on final passage.

SECOND READING

SENATE BILL NO. 6523, by Senators Kiskaddon, Kreidler, Williams and Bauer
Permitting naturopaths to continue manual manipulation.

The bill was read the second time.

MOTION

Senator Vognild moved that the following amendment by Senators Vognild and Newhouse be adopted:

On page 1, line 12, after "includes" strike "manual manipulation (mechanotherapy)" and insert "~~((manual manipulation (mechanotherapy)))~~ mechanotherapy"

POINT OF INQUIRY

Senator Pullen: "Senator Vognild, I agree one hundred percent with what you're attempting to do here and you have my full support. The only technical question I have for you is whether mechanotherapy is defined anywhere. I can't see mechanotherapy defined in the bill and I would question whether it's defined anywhere else in statute. If we leave only the word mechanotherapy in there, which is undefined, it could still be construed, perhaps by some, to allow chiropractic manipulation or adjustments of the articulations of the spine. I was wondering if you knew whether mechanotherapy is defined anywhere?"

Senator Vognild: "Senator, I did not check a medical dictionary. I would assume that we would find a definition in a medical dictionary. The fact that it has been used and was, in fact, a part of law would make me believe that there is a definition, but I did not check it."

Senator Pullen: "At least we can say, that part of the intent of your amendment is to make certain that the existing language dealing with manual manipulation could in no way be construed as allowing a chiropractic adjustment or adjustments of the articulations of the spine?"

Senator Vognild: "Senator, that definitely would be my intention, unless the doctor involved completed the normal chiropractic training and the number of hours training."

Further debate ensued.

The President declared the question before the Senate to be the adoption of the amendment by Senators Vognild and Newhouse to Senate Bill No. 6523.

The motion by Senator Vognild failed and the amendment was not adopted.

MOTION

On motion of Senator Kiskaddon, the rules were suspended, Senate Bill No. 6523 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Pullen: "Senator Kiskaddon, there's been some questions to what mechanotherapy really means or involves. Could you give us some specific examples of mechanotherapy?"

Senator Kiskaddon: "I'm not well versed on their practice. Naturopaths do a deep muscle therapy and as part of that, they are working along the spine and sometimes then they will be aligning parts of the neck. It is similar to the mechanical manipulation of the spine, so with that into two words there, it is a type of manual manipulation of the spine. From there on, I don't have any other full words. It's something they've been doing in their practice for years."

Further debate ensued.

MOTION

On motion of Senator Newhouse, further consideration of Senate Bill No. 6523 was deferred.

SECOND READING

ENGROSSED SUBSTITUTE SENATE BILL NO. 5378, by Committee on Health Care and Corrections (originally sponsored by Senators Wojahn and Kreidler)

On motion of Senator Nelson, the rules were suspended, Second Substitute Senate Bill No. 5378 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Anderson: "Senator Wojahn, can you make a clarification on this bill, please? I've not followed this since we heard it last year in committee and as it appeared last year, it was asking for only certain labs in the state to be certified to do this type of test. Has the bill changed considerably since then, so we are no longer on that vein?"

Senator Wojahn: "Yes, Senator Anderson, we have chosen to go the other route, asking the various professionals to come together and write the rules and regulations to be used by the lab, so that there will be uniformity among them. Then, there will be more labs to take care of this, but not until the group has established the rules and regulations."

Senator Anderson: "Senator Wojahn, are the people that were concerned about the original labs not being able to perform accurate testing, part of the study committee now—those people that brought this to us last year?"

Senator Wojahn: "The last part of the study committee. The laboratory technicians opposed it; the gentlemen from Swedish Hospital opposed it. They are on board now and they will be a part of the study committee."

Further debate ensued.

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Second Substitute Senate Bill No. 5378.

ROLL CALL

The Secretary called the roll on the final passage of Second Substitute Senate Bill No. 5378, and the bill passed the Senate by the following vote: Yeas, 41; nays, 8.

Debate ensued.

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Senate Bill No. 6638.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 6638, and the bill passed the Senate by the following vote: Yeas, 48; excused, 1.

SECOND READING

SENATE CONCURRENT RESOLUTION NO. 8432, by Senators Lee, Conner, Warnke, Smitherman, McMullen, Deccio, Fleming and Zimmerman

Directing a joint legislative study of state programs for development of international trade, tourism, and investment.

MOTIONS

On motion of Senator Lee, Substitute Senate Concurrent Resolution No. 8432 was substituted for Senate Concurrent Resolution No. 8432 and the substitute resolution was placed on second reading and read the second time.

On motion of Senator Lee, the rules were suspended, Substitute Senate Concurrent Resolution No. 8432 was advanced to third reading, the second reading considered the third and the resolution was placed on final passage.

POINT OF INQUIRY

Senator Fleming: "Senator Lee, what is the difference in this Joint International Trade Committee versus the one that was already in statute, other than the fact that you have the entire committee of each House serving on here?"

Senator Lee: "Senator Fleming, I think you have put your finger on the major difference as this really involves the committees that will have to hear the pieces of legislation and it is just an ad hoc group, also."

Senator Fleming: "Just an ad hoc group? So, the Lieutenant Governor and the International Trade Committee, which he chairs--he will no longer chair that committee and is removed by this legislation?"

Senator Lee: "No sir, we do not change any of the existing statutory committees. This is an adjunct to that particular group to look at legislation specifically for the next session."

POINT OF INQUIRY

Senator Fleming: "Senator Warnke, you know we serve on a committee and the Lieutenant Governor is the chair of it. Does this do away--replace that? Are you going to have two committees looking at the same thing?"

Senator Warnke: "Senator Fleming, no, I don't believe there is any conflict between the two committees. I view the statutory committee that is chaired by Governor Cherberg to be a long-term, long-viewing committee, that will bring us back and help establish a long-term state policy. This is a joint select committee that is only going to be in operation for two years--well one year now--and will come back to us with what we hope will be some cooperative efforts among the agencies on a short-term basis."

POINT OF INQUIRY

Senator Moore: "Senator Lee, on one of those, I think it's on line 16 of the bill, it talks about, 'The legislative committees shall by majority vote establish sub-committees to review in detail specific work force issues and advisory committees to obtain the expertise of individuals from the public and private sector.' Is it the intention of this legislation to appoint people from the private sector who can really make this thing go or is this another one of these situations where we're going to be chasing our tails again?"

Senator Lee: "Senator Moore, I wouldn't be supporting a measure, particularly one in which I'd be likely to serve, if I didn't feel it was going to be an effective group. It is intended that it be effective and that we come back and expedite legislation that might otherwise take us a long period of time to get up to speed on, if we did not do this during the interim."

Senator Moore: "So, this will be purely a legislative committee, I take it?"

Senator Lee: "As it is established in the statute it is, but it does quite clearly have the ability to ask other individuals to be advisory to us, as we do in our standing committees, we quite frequently do that."

Senator Moore: "They would behave in an ad hoc position, I suppose?"

Senator Lee: "That is correct."

Further debate ensued.

MOTION

On motion of Senator Anderson, Senator McCaslin was excused.

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Substitute Senate Concurrent Resolution No. 8432.

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Concurrent Resolution No. 8432, and the resolution passed the Senate by the following vote: Yeas, 48; excused, 1.

RULING BY THE PRESIDENT PRO TEMPORE

President Pro Tempore Bluechel: "In ruling upon the point of order raised by Senator McDonald, the President finds that Substitute Senate Bill No. 6379 is a measure which extends until 1990 the sales and use tax and business and occupation tax deferrals for construction of new buildings and acquisition of new equipment for qualifying businesses and extends the number of reports due on the effects of these particular deferral programs.

"The amendment proposed by Senator Halsan, on page 4, line 21, would add a reporting requirement for tax deferrals for investment projects in distressed areas.

"The amendment proposed by Senator Halsan, on page 4, after line 26, would, among other things, define individuals who have been terminated from employment as a result of modernization activity due to tax deferrals as 'dislocated workers' for the purposes of the unemployment compensation statutes.

"The President, therefore, finds that the proposed amendments do change the scope and object of the bill and the point of order is well taken."

Senator Lee: "There is appropriated from the'---lets see, I'd better get the substitute bill and not the original. The original bill was from the Federal Interest Trust Fund, but we changed that to, 'There is appropriated from the Unemployment Compensation Administration Fund to the Employment Securities Department for the period ending June 30, 1989, the sum of one million seven hundred six thousand eighty-nine dollars or so much thereof as may be necessary.'"

The bill was read the third time and placed on final passage.
Debate ensued.

POINT OF INQUIRY

Senator Vognild: "Senator Kiskaddon, I want to make sure I clearly understand this. In your presentation earlier, you indicated that with the passage of this bill, that you would restore exactly what they've been doing, and you indicated that they have been doing and are doing, manipulations of the neck--the upper back and neck?"

Senator Kiskaddon: "A manipulation, in terms of the manual manipulation, is working on the back of the neck. The term--it's a different style from what the chiropractor does. It's part of a complete whole body massage working with the whole body that does include manipulating the back of the neck."

Senator Vognild: "It does include manipulating of the upper back and neck?"

Senator Kiskaddon: "That manual manipulation is part of that, yes."

POINT OF INQUIRY

Senator Warnke: "Senator Kiskaddon, I was trying to find one of the definitions that are in the bill. I am somewhat confused on--and I don't have the bill in front of me--I'm sorry, because I was working some other bills on the agenda. Under manipulation, in the RCWs or in the WACs, is there any conflict or definition of those terms now of the manipulation, in statute and if so, what is this going to do to DL&I and the medical area of DL&I?"

Senator Kiskaddon: "In the statute now, the one that we passed last year, there was a recodification of their 1919 Act. Manual manipulation or mechano therapy means manipulation of a part or the whole of the body by hand or mechanical means. That is the definition that's in the WACs or that's in the statute as this present time."

Senator Warnke: "And the second part of my question, what is that going to do then under the DL&I on the medical claims?"

Senator Kiskaddon: "It does not change anything from this current status quo. This is what's been happening with the profession for years and years."

Further debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Warnke, you spoke of the impact on the L&I with the naturopathic doctors. What's been the impact in the past years? This has been in effect all along."

Senator Warnke: "The information that I'm trying to gather, Senator, and I had a phone call on it, and I was trying to gather the information on the definitions to see whether or not there was an impact. In the changing of this statute and striking and inserting that terminology, there are two sections now in the RCWs or WACs that do define the manipulation and I was trying to find out whether or not this bill really was going to place under DL&I medication, a broadening of the scope of claims under DL&I--certainly no intention to hold up the bill. I simply want to find out the amount that was going to affect the DL&I claim fund before I voted on the bill. It's obvious I'm not going to be able to get that, but I just wanted to caution people here that my first information is, there may be an impact on DL&I."

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Senate Bill No. 6523.

POINT OF INQUIRY

Senator Rasmussen: "Senator Lee, we once had a Governor that could read legislation and understood it very well. She declared that unless it was a real emergency, she was not going to agree to the emergency clause and vetoed the emergency clause off of several bills. She read the bills very carefully. Could you tell me what was the real emergency on this that has to go into effect immediately?"

Senator Lee: "Yes, I can. It's because of Section two being repealed. Section two, in the bill, is repealing the Act which was passed last year which was only for snack food items. With that kind of repealer, there would then be a hiatus, a period in which they wouldn't have any kind of procedure, so the Liquor Board actually asked to have the emergency clause put on, so that they could have a uniform procedure for the whole plethora of things that are non-liquor items that can be purchased. It was at their request that this was done so that they would all come under the same rules and regulations and not have two separate ones—one for peanuts and one for pretzels."

POINT OF INQUIRY

Senator Rasmussen: "Senator Cantu, you indicated you thought that this was an unconstitutional loaning of the state's credit. Is that correct?"

Senator Cantu: "Senator Rasmussen, that is my opinion. Last year we had a bill and I asked for an Attorney General's opinion on the bill. They said that in their opinion, it was unconstitutional. The bill went out of here anyway. This year it has been tightened up some. In my opinion, when the state puts up fifty percent into a reserve to make up in the event of a default on the loan, we're putting up state money. In my opinion sir, that is the lending of the state credit."

Further debate ensued.

The President Pro Tempore declared the question before the Senate to be the roll call on the final passage of Engrossed Second Substitute Senate Bill No. 6275.

POINT OF ORDER

Senator Vognild: "Mr. President, we've checked two of our floor books here and we do not have this bill. We have some rather substantial amendments coming up and I cannot find a copy of the bill."

After some study, the location of the bill in the floor books was announced.

MOTIONS

MOTION

Senator Halsan moved that the following amendment by Senators Halsan and McMullen be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION, Sec. 1. The legislature finds that:

(1) Structural changes in the state's economy have resulted in the permanent loss of forty-four to fifty-five thousand jobs per year as a result of plant closures, business failures, and layoffs between 1979 to 1985.

(2) These permanent job losses and major changes in the state's industries and occupations has led to a large increase in the number of unemployment compensation claimants who

exhaust their benefits without finding a job. In 1979 less than 27,000 claimants exhausted their benefits without finding work. By 1986 the number of unemployment compensation exhaustees rose to more than 51,000.

(3) High levels of permanent job losses and unemployed workers exhausting their unemployment benefits have resulted in large increases in social costs such as unemployment compensation, public assistance, health programs, and lost taxes normally paid by workers and businesses. Local communities also suffer from increased social costs resulting from rising demands for services by long-term unemployed workers and their families.

(4) A significant percentage of the increase in the public assistance caseloads results from unemployed workers who exhaust their unemployment benefits without finding employment.

(5) Rising long-term unemployment increases the number of families with social, medical, emotional, and financial problems which require outside assistance and intervention.

(6) Many communities in the state have inadequate and poorly coordinated resources and programs to assist the unemployed in coping with their problems that are associated with unemployment.

(7) The lack of coordinated and effective services for the unemployed seriously hampers their ability to conduct an effective work search and may have the effect of prolonging their unemployment and increasing the possibility of exhausting their unemployment benefits and entering the public assistance caseloads.

(8) Businesses also suffer from rising levels of long-term unemployment as many of their customers are forced into bankruptcy and mortgage foreclosures.

NEW SECTION. Sec. 2. It is the intent of the legislature to develop a comprehensive, state-wide policy to reduce the levels of permanent job losses and the number of unemployment compensation exhaustees. It is the purpose of this act to:

(1) Authorize and fund the creation of a state-wide business and job retention program which places primary reliance on locally based business and job retention teams to assist businesses which are likely to close, fail, or experience a permanent mass layoff. The state's primary role in the business and job retention program is to provide continuing financial and technical assistance and training to the locally based business and job retention teams to ensure their success; and

(2) Develop a comprehensive policy to reduce the number of unemployment compensation exhaustees and the long-term unemployed. This goal can be achieved by providing an array of services to the long-term unemployed and older unemployed workers as defined in RCW 50.62.020.

NEW SECTION. Sec. 3. There is established within the department of trade and economic development the business and job retention program. An exempt position is hereby created at the division director level within the department of trade and economic development for the managing director of the business and job retention program. The managing director shall be appointed by the governor and shall serve under the direction of the director of trade and economic development at the governor's pleasure. In carrying out the purposes of this chapter, the managing director shall solicit volunteer assistance, work with the business assistance center, the small business development center, the department of community development's employee ownership program, local early warning programs, local reemployment centers, labor representatives, and other appropriate public and private agencies and organizations, and contract with private consultants, with the approval of the director of trade and economic development, for such services as the managing director deems advisable.

NEW SECTION. Sec. 4. The managing director shall appoint an advisory committee having equal representation from local businesses, local government, and local labor organizations, and representatives of higher education, community colleges, vocational technical institutes, associate development organizations, community based economic development organizations, private industry councils, local early warning programs, local reemployment centers, and other advocates for dislocated and unemployed workers. The managing director shall consult with the advisory committee in developing implementation plans for carrying out this chapter and shall monitor implementation and operations of the state and regional components of the program. Staff assistance shall be provided to the committee by the departments of trade and economic development, employment security, and community development. Members of the advisory committee shall receive no compensation but shall be reimbursed for travel expenses under RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 5. The managing director, after consultation with the advisory committee, shall:

(1) Designate service delivery regions in the state, each of which shall have no less than one county and no more than six counties.

(2) Establish business and job retention teams for each region. The managing director shall designate an associate development organization or other appropriate locally based organization as the team coordinator for each regional business and job retention team. Each team shall have equal representation from local businesses, local government, and local labor organizations. In addition, each team shall have representatives from local associate development organizations, local reemployment centers, local businesses, local labor organizations,

local educational institutions, community based organizations, advocates for the dislocated and unemployed workers, local private industry councils, and local governments. The team coordinator shall select appropriate marketing, management, training, and technical specialists to assist the team on any given project or group of projects. The department may subcontract with existing early warning or job retention programs to avoid duplication of effort in any region. The teams shall initiate contact with those firms or employees indicating the potential for closure, mass layoff, or relocation. For firms or employees not indicating such potential, the provision of services from the teams will be in response to direct requests from firms, labor unions, employee groups, community groups, local governments, and port districts. The team coordinator shall be responsible for conducting an initial assessment of firms or work forces to determine viability, problems, and skill levels, in cooperation with any early warning programs, reemployment centers, and associate development organizations. The assessment shall include but not be limited to the public and private costs of any potential closure or layoff, the potential for preventing a closure, business failure, business relocation, or mass lay-off, the potential for a change in ownership, including worker and community buy-outs of the firm, and the costs of keeping the facility in operation. (2) Assess the number and causes of permanent mass layoffs and closures using a modified permanent mass layoff and plant closure data base which is presently funded by the federal government.

(3) Supply the managing director with data under subsections (1) and (2) of this section, which will allow the state and local components of the program to prioritize delivery of service to distressed, mature, and cyclical industries.

(4) Provide information and assistance to the program on training resources available through the department.

(5) Offer any businesses assisted by the program its first source hiring services.

(6) Work with the department of social and health services to track dislocated workers who exhaust their unemployment compensation benefits and begin collecting public assistance.

NEW SECTION. Sec. 12. A new section is added to chapter 42.17 RCW to read as follows:

Notwithstanding the provisions of RCW 42.17.260 through 42.17.340, no financial or proprietary information supplied by businesses to the department of trade and economic development may be made available to the public.

NEW SECTION. Sec. 13. Sections 3 through 11 and 29 of this act shall constitute a new chapter in Title 43 RCW.

Sec. 14. Section 1, chapter 5, Laws of 1985 ex. sess. as amended by section 1, chapter 171, Laws of 1987 and by section 1, chapter 284, Laws of 1987 and RCW 50.62.010 are each reenacted and amended to read as follows:

The legislature finds and declares that:

(1) The number of persons unemployed in the state is significantly above the national average.

(2) Persons who are unemployed represent a skilled resource to the economy and the quality of life for all persons in the state.

(3) There are jobs available in the state that can be filled by unemployed persons.

(4) A public labor exchange can appreciably expedite the employment of unemployed job seekers and filling employer vacancies thereby contributing to the overall health of the state and national economies.

(5) The Washington state job service of the employment security department has provided a proven service of assisting persons to find employment for the past fifty years.

(6) Expediting the reemployment of unemployment insurance claimants will reduce payment of claims drawn from the state unemployment insurance trust fund.

(7) Increased emphasis on assisting in the reemployment of claimants and monitoring claimants' work search efforts will positively impact employer tax rates resulting from the recently enacted experience rating legislation, chapter 205, Laws of 1984.

(8) Special employment service efforts are necessary to adequately serve agricultural employers who have unique needs in the type of workers, recruitment efforts, and the urgency of obtaining sufficient workers.

(9) Study and research of issues related to employment and unemployment provides economic information vital to the decision-making process.

(10) Older workers and the long-term unemployed experience greater difficulty finding new employment at wages comparable to their prelayoff earnings relative to all unemployment insurance claimants who return to work.

(11) After a layoff, older unemployed workers and the long-term unemployed workers fail to find unemployment insurance-covered employment at a much higher rate than other groups of unemployment insurance claimants.

(12) Many older workers and the long-term unemployed are unable to find new employment at wages comparable to their prelayoff earnings due to a lack of job skills which are currently in demand or poor reading or writing skills.

The legislature finds it necessary and in the public interest to have a program of job service to assist persons drawing unemployment insurance claims to find employment, to assist the long-term unemployed and older unemployed workers who are unable to find employment at wages comparable to their prelayoff wages in obtaining the training and education necessary

to find new employment at wages comparable to their prelayoff earnings, to provide employment assistance to the agricultural industry, and to conduct research into issues related to employment and unemployment.

Sec. 15. Section 2, chapter 5, Laws of 1985 ex. sess. as amended by section 2, chapter 284, Laws of 1987 and RCW 50.62.020 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

Job service resources shall be used to assist with the reemployment of unemployed workers using the most efficient and effective means of service delivery. The job service program of the employment security department may undertake any program or activity for which funds are available and which furthers the goals of this chapter. These programs and activities shall include, but are not limited to:

(1) Giving older unemployed workers and the long-term unemployed the highest priority for all services made available under this section. The employment security department shall make the services provided under this chapter available to the older unemployed workers and the long-term unemployed as soon as they register under the employment assistance program;

The centers are intended to supplement but not supplant the efforts of the local job service centers of the employment security department. The legislature intends that the local reemployment support centers established by this chapter shall give first priority to those unemployed persons most likely to exhaust their unemployment compensation benefits or to become long-term unemployed.

(6) The contribution rate for each employer not qualified to be in the array shall be a rate equal to the average industry tax rate as determined by the commissioner; however, the rate may not be less than one percent: PROVIDED, That employers who do not meet the definition of "qualified employer" by reason of failure to pay contributions when due shall be assigned the contribution rate of five and four-tenths percent. Assignment of employers by the commissioner to industrial classification, for purposes of this subsection, shall be in accordance with established classification practices found in the "Standard Industrial Classification Manual" issued by the federal office of management and budget to the third digit provided in the Standard Industrial Classification code.

Sec. 32, Section 7, chapter 13, Laws of 1983 1st ex. sess. and RCW 50.16.070 are each amended to read as follows:

The federal interest payment fund shall consist of contributions payable by each employer (except employers as described in RCW 50.44.010 and 50.44.030 who have properly elected to make payments in lieu of contributions, employers who are required to make payments in lieu of contributions, and employers paying contributions under RCW 50.44.035) for any calendar quarter which begins on or after January 1, 1984, and for which the commissioner determines that the department will have an outstanding balance of accruing federal interest at the end of the calendar quarter. The amount of wages subject to tax shall be determined according to

RCW 50.24.010. The tax rate applicable to wages paid during the calendar quarter shall be determined by the commissioner and shall not exceed fifteen one-hundredths of one percent. In determining whether to require contributions as authorized by this section, the commissioner shall consider the current balance in the federal interest payment fund and the projected amount of interest which will be due and payable as of the following September 30. Unless otherwise provided by legislative appropriation, any excess moneys in the federal interest payment fund shall be retained in the fund for future interest payments.

Contributions under this section shall become due and be paid by each employer in accordance with such rules as the commissioner may prescribe and shall not be deducted, in whole or in part, from the remuneration of individuals in the employ of the employer. Any deduction in violation of this section is unlawful.

In the payment of any contributions under this section, a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to one cent.

NEW SECTION. Sec. 33. If any part of this act shall be found to be in conflict with federal requirements which are a prescribed condition to the allocation of federal funds to the state, such conflicting part of this act is hereby declared to be inoperative solely to the extent of such conflict, and such finding or determination shall not affect the operation of the remainder of this act. The rules under this act shall meet federal requirements which are a necessary condition to the receipt of federal funds by the state.

NEW SECTION. Sec. 34. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 35. The department of community development shall submit a report to the governor and to the commerce and labor committees of the house of representatives and the senate prior to the start of the 1989 legislative session. The report shall assess the effectiveness of the centers under sections 19 through 25 of this act and their service delivery approaches.

NEW SECTION. Sec. 36. Sections 19 through 25 of this act shall constitute a new chapter in Title 50 RCW."

To explain, the bill is a simple bill relating to the circumstances under which building permits may be granted and acculturating to building permits expands the costs from five hundred to fifteen hundred dollars for that purpose. This amendment, as has been explained by Senator McCaslin and Senator Rasmussen, is calculated to get us into the whole land use issue with respect to so called mother-in-law apartments. *REMARKS BY SENATOR VOGNLILD

Senator Vognlild: "Thank you, Mr. President. I guess I'm disappointed, especially disappointed, this morning in the way this whole bill has been handled. This is the first time in this session that I feel as though the minority has absolutely and totally been shut out of this process. Basically, what has happened here is a bill was brought out here with a title on it that absolutely forbid amendments. When an amendment was placed on this side, which would have made this a good bill, it was ruled out of scope and object. The President had no choice because of the title. At that point in time, I made a motion to go to the ninth order of business, so that we could bring a title out here that we could actually debate a minimum wage on. At that point in time, this body adjourned.

"I came in this morning—we've been here twenty-two minutes—the first thing I looked at was the order of bills for floor action today to see where we were. I discovered that this bill is down about ten or twelve bills, so I felt we had a little bit of time to talk about it and determine what to do about it. No, that doesn't happen. We just suddenly jump to it and here we are and it's on third reading and we're running it.

"I hope we understand what we are doing. A minimum wage of \$4.70 an hour is required to simply bring a full time employee up to the poverty level. Now, we spend a lot of time on this floor and we hear a lot of rhetoric about how we want to get people off of welfare, about how we want to reduce our social programs, and what do we do? We come out with this bill at \$3.35, knowing full well the federal government, right now, is debating a minimum wage bill that will go higher than this. In other words, what we're doing is nothing. That's exactly what this bill does—nothing. Now, it's going to be extremely difficult for people to vote against it, because it increases the state's minimum wage from \$2.35 to \$3.35. Of course, we all know that the federal wage right now is \$3.35, which supercedes in this state, and covers a large number of our people, not all, but an extremely large number.

"Well, I, for one, am going to vote against it. I'm going to vote against it as a protest to the way it has been handled. I repeat, I'm extremely disappointed in this. I will vote against it for the way it's handled and because I think it's just a back door way to shut down this discussion and not really discuss what the people in this state, the workers in this state need. They need no less than \$4.24, which is what was sent over here from the House, but we were prevented from debating it. Senator Lee indicates we will have a hearing. Senator, I hope we'll also have a vote. I hope we'll have an opportunity to bring that bill to this floor and discuss what we really need if we mean to get people off of social programs."

Further debate ensued.

*REMARKS BY SENATOR MOORE

Senator Moore: "Mr. President, ladies and gentlemen. March 23, 1934, I started to work. I had one of the few jobs that remains the same today as it was then. For that work that I did, which was reading meters for Puget Sound Power and Light, I got a little less than fifty cents an hour. It figured out to maybe forty-eight or forty-nine cents.

"In those days, a loaf of bread was ten cents, eggs were ten cents and butter was ten to twelve cents. I bought my first automobile two years later—\$600—a new Ford. Now, anyway you want to cut this, if you look back, you'll notice that there's a twelve to thirteen times inflation factor, plus the fact that I got to take home all of my money, because there were no deductions in those days.

"Today, I calculate that the minimum wage should be somewhere in the neighborhood of \$8.00 to compensate for the deductions plus the multiplier of inflation. Although I'm going to vote for this, I'm ashamed to be in a society that is so greedy that we cannot allow people to have even a living wage, a minimum living wage."

The President declared the question before the Senate to be the roll call on the final passage of Senate Bill No. 6674.

*Sec. 3. Section .19.03, chapter 79, Laws of 1947 and RCW 48.19.030 are each amended to read as follows:

Rates shall be used, subject to the other provisions of this chapter, only if made in accordance with the following provisions:

(1) In the case of insurances under standard fire policies and that part of marine and transportation insurances not exempted under RCW 48.19.010, manual, minimum, class or classification rates, rating schedules or rating plans, shall be made and adopted; except as to specific rates on inland marine risks individually rated, which risks are not reasonably susceptible to manual or schedule rating, and which risks by general custom of the business are not written according to manual rates or rating plans.

(2) In the case of casualty and surety insurances:

(a) The systems of expense provisions included in the rates for use by any insurer or group of insurers may differ from those of other insurers or groups of insurers to reflect the requirements of the operating methods of any such insurer or group with respect to any kind of insurance, or with respect to any subdivision or combination thereof for which subdivision or combination separate expense provisions are applicable.

(b) Risks may be grouped by classifications for the establishment of rates and minimum premiums. Classification rates may be modified to produce rates for individual risks in accordance with rating plans which establish standards for measuring variations in hazards or expense provisions, or both. Such standards may measure any differences among risks that can be demonstrated to have a probable effect upon losses or expenses.

(3) Due consideration in making rates for all insurances shall be given to:

(a) ~~Past and prospective loss experience within ((and outside)) this state((and in the case of rates for fire insurance, to the loss experience of insurers as to insurance against fire during a period of not less than the most recent five-year period for which such experience is available)) for a period of not less than five years, except for private passenger auto which shall be for a period of not less than three years. If the information is not available or is not statistically credible, an insurer may use loss experience for those states which the commissioner finds are likely to produce experience similar to that which would reasonably be expected to be produced in this state.~~

(b) Conflagration and catastrophe hazards, where present.

(c) A reasonable margin for underwriting profit and contingencies.

(d) Dividends, savings and unabsorbed premium deposits allowed or returned by insurers to their policyholders, members, or subscribers.

(e) All other relevant factors within and outside this state.

(4) In addition to other factors required by this section, rates filed by an insurer on its own behalf may also be related to the insurer's plan of operation and plan of risk classification.

(5) Except to the extent necessary to comply with RCW 48.19.020 uniformity among insurers in any matter within the scope of this section is neither required nor prohibited.

Sec. 4. Section .19.04, chapter 79, Laws of 1947 as amended by section 14, chapter 32, Laws of 1983 1st ex. sess. and RCW 48.19.040 are each amended to read as follows:

(1) Every insurer shall, before using, file with the commissioner every manual of classifications, manual of rules and rates, and every rating plan as to surety insurances, and every rating schedule, minimum rate, class rate, and rating rule as to other insurances, and every modification of any of the foregoing which it proposes. The insurer need not so file any rate on individually rated risks as described in subdivision (1) of RCW 48.19.030; except that any such specific rate made by a rating organization shall be filed.

(2) Every such filing shall state its proposed effective date and shall indicate the character and extent of the coverage contemplated. ~~((When)) A filing ((is not)) shall be accompanied by ((the information upon which the insurer supports such filing, and the commissioner does not have sufficient information to determine whether the filing meets the requirements of this chapter, he may require the insurer to furnish the information upon which it supports the filing)) sufficient supporting information to enable the commissioner to determine whether the filing meets the requirements of this chapter. An insurer ((may)) or rating organization shall offer in support of any filing:~~

(a) ~~((the)) its experience ((or judgment of the insurer or rating organization making the filing)) within the state of Washington;~~

(b) ~~its experience in other states reasonably expected to produce results similar to Washington;~~

(c) Its judgment;

(d) The experience of other insurers or rating organizations((:)); or

((c)) (e) Any other factors which the insurer or rating organization deems relevant. A filing and any supporting information shall be open to public inspection only after the filing becomes effective.

(3) When a filing is not accompanied by the information upon which the insurer supports the filing, and the commissioner does not have sufficient information to determine whether the filing meets the requirements of this chapter, the commissioner may require the insurer to furnish the information upon which it supports the filing.

(4) Where a filing is required no insurer shall make or issue an insurance contract or policy except in accordance with its filing then in effect, except as is provided by RCW 48.19.090."

On motion of Senator von Reichbauer, the rules were suspended, Engrossed Substitute Senate Joint Resolution No. 8230 was advanced to third reading, the second reading considered the third and the resolution was placed on final passage. Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator West, if I understand what you're doing here, if the assessments that are paid by the stockholders to the guarantee fund go into the guarantee fund and the guarantee fund is adequate to satisfy all of the outstanding obligations of the policyholders, then the stockholders are off the hook. If the guarantee fund does not fully compensate the person who is the life insurance policy holder or other policy holder, I would presume that the stockholder would be liable to the extent that the guarantee fund did not cover that."

Senator West: "That's the way the bill report reads. Now, it's my understanding that the guarantee fund is made up by all the other insurance companies in the state of Washington and so if an insurance company fails, they all pay assessments into the guarantee fund and then they get that back as a deduction on their insurance premium tax."

Senator Talmadge: "I just wanted to make sure if the guarantee fund was not adequate to cover everybody, that the stockholders would still be liable and that your understanding was the same as mine."

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Substitute Senate Joint Resolution No. 8230.

SENATE BILL NO. 6430, by Senators McDonald, Gaspard and Patterson

Revising provisions concerning property tax levy rates.

MOTIONS

On motion of Senator Newhouse, Substitute Senate Bill No. 6430 was substituted for Senate Bill No. 6430 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Nelson, the rules were suspended, Substitute Senate Bill No. 6430 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator McDonald, I've heard that this has a potential of ballooning into a twenty million dollar deal in a few years and in effect, it's sort of a blackmail deal on the junior taxing districts--you don't do this or you'll have to pay. I'm not concerned with their fight with the cities and counties, but with the potential for the state entering into the blackmail deal and it costing a lot of money in future years. Is this correct?"

Senator McDonald: "Senator Rasmussen, if every city, and it's basically only cities that are grandfathered in this, were pre-LEOFF cities they can do this. If all of them did this and all of the counties were to the maximum and all of the junior taxing districts were bumping up against the \$9.15 limit, then the maximum we could go to is about four hundred thousand dollars per year. The potential that you eluded to--the twenty million dollar reduction--was if we don't do this bill. If we don't do this bill, and Raymond did as they did, then the reduction, because of uniformity, would cost us about twenty million dollars presently.

"Right now, Pacific County bought out that increase that they had. I'm having difficulty explaining this, because it is very complex, but Raymond bought out

what we're going to be authorized to do in this bill. If they had not, the reduction of our revenues, because of uniformity across the state, would be about twenty million dollars, so this bill prevents what you eluded to originally."

POINT OF INQUIRY

Senator Madsen: "Senator McDonald, if this is a way to solve the small counties fiscal problems by the state using general fund money, because this is interest that's going to be used, the general fund would be subsidizing and directing money to local governments. My question is, with local fire districts that have three different fifty cent levies, does this protect all of the three fire district fifty cent levies or only the fifty cent levy that's within the \$9.15?"

Senator McDonald: "Senator Madsen, I can't answer that question. If you need the answer to that question before you want to vote on this bill, I could ask Senator Newhouse to set it down, but I could not answer that question."

Further debate ensued.

FURTHER REMARKS BY SENATOR MCDONALD

Senator McDonald: "Senator Madsen, I do have a partial answer for that question. The first fifty cents is within the \$9.15."

Further debate ensued.

MOTION

On motion of Senator Gaspard, Senator Fleming was excused.

The President declared the question before the Senate to be the roll call on the final passage of Substitute Senate Bill No. 6430.

ROLL CALL

The Secretary called the roll on the final passage of Substitute Senate Bill No. 6430, and the bill passed the Senate by the following vote: Yeas, 45; nays, 2; excused, 2.

Voting yea: Senators Anderson, Bailey, Barr, Bauer, Benitz, Bluechel, Cantu, Craswell, Deccio, DeJarnatt, Gaspard, Halsan, Hansen, Hayner, Johnson, Kiskaddon, Kreidler, Lee, Madsen, McCaslin, McDonald, McMullen, Meicall, Moore, Nelson, Newhouse, Niemi, Owen, Patterson, Pullen, Rasmussen, Rinehart, Saling, Sellar, Smith, Smitherman, Stratton, Talmadge, Vognild, von Reichbauer, Warnke, West, Williams, Wojahn, Zimmerman - 45.

Voting nay: Senators Conner, Garrett - 2.

There being no objection, the Senate resumed consideration of Substitute Senate Bill No. 6703 and the pending amendment by Senators Talmadge and Lee on page 2, after line 29, deferred February 15, 1988.

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the point of order raised by Senator Benitz, the President finds that Substitute Senate Bill No. 6703 is a measure requiring owners of underground facilities to subscribe to one-number locator services and exempting excavators from damages to underground facilities in certain circumstances.

"The amendment proposed by Senators Talmadge and Lee requires cities or towns to bury certain high voltage transmission lines.

"The President, therefore, finds that the proposed amendment does change the scope and object of the bill and that the point of order is well taken."

The amendment by Senators Talmadge and Lee to Substitute Senate Bill No. 6703 was ruled out of order.

MOTION

On motion of Senator Nelson, the rules were suspended, Substitute Senate Bill No. 6703 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Benitz, the concern I have about the bill and the immunity that's conferred is that if you break into one of these underground wires and cut off electricity for a whole area and damage is done to property owners in the immediate area and damage is done in a variety of different ways, and I could give you some specific cases with which I'm familiar, this would immunize the person who is doing the excavation from any liability to any of those people, other than the person for whom they are actually doing the work?"

Senator Benitz: "Senator Talmadge, the PA system is not the best, so I don't think I heard all of the question, but I don't think it relieves anyone of the responsibility that's in the statutes now, but they do have to pay damages. Under these fibre optic cables, this thing is getting so that you could run into some tremendous law suits and I think this is a start by saying that they must be responsible and that they must have made application for the locators and all of those things. Now, I don't believe that it will do anything other than a bit more of what we've been doing with perhaps a little bit of protection."

Further debate ensued.

On motion of Senator Bauer, Senator Gaspard was excused.

On page 17, after line 22, strike all of section 19 and insert the following:

Debate ensued.

POINT OF INQUIRY

Senator Talmadge: "Senator Craswell, this is a question with respect to the last of the amendments on page 6, line 29, where it says, 'After it becomes final.' There is one error in that amendment on the next to last line where there is a double the, which I assume the secretary will remove. The question I had of a more substantive nature, was about the circumstances under which the parents may request the expedited review. I presume that these amendments permit them only one request for an expedited review during that thirty to one hundred eighty-day period after the child is removed from the home, not a multiplicity of these kinds of requests."

Senator Craswell: "That was my intent, Senator Talmadge. Then, the child will be reviewed every six months as long as they are in the foster care system."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Second Substitute Senate Bill No. 6191.

PERSONAL PRIVILEGE

Senator Fleming: "Mr. President, a point of personal privilege. Just briefly, as most of you on this floor have witnessed, I'm a go along, get along type of individual. I have, more than once, as a matter of fact, more than I'd like to, complimented Republican Senators on this floor. Senator McCaslin, you just haven't deserved that compliment yet."

MOTION

"NEW SECTION, Sec. 2. If specific funding for the purposes of this act, referencing this act by bill number, is not provided by June 30, 1988, in the omnibus appropriations act, this act shall be null and void."

POINT OF INQUIRY

Senator Rasmussen: "Senator McDonald, the purpose of this is to identify this particular place where an injustice was made and it's only this? I understood there

was some rumor that there were numerous homes involved, apparently only this one was tied down to this one case."

Senator McDonald: "Senator Rasmussen, this is not a hostile amendment. It is simply saying that we need to look at the entire appropriation and that we ought to be able to make a decision at that time, so it is not a hostile amendment. It's one that allows this bill to remain alive and then lets us have a decision sometime down the line."

The President declared the question before the Senate to be the adoption of the amendment by Senators McDonald and Anderson to Senate Bill No. 6519.

The motion by Senator McDonald carried and the amendment was adopted.

MOTION

POINT OF INQUIRY

Senator Fleming: "Senator Talmadge, Senate Bill No. 6519 provides that a nursing home operator who can document in writing an agreement for the purchase of a nursing home dated prior to August 1, 1984, is entitled to have his Medicaid rate increased to reflect the fair market value of the assets at the date of purchase. I have distributed to the members a copy of a letter dated July 17, 1984, from Mr. Durwin Peterson to Mr. Everett Gimmake and Ms. Eileen Hansen regarding the possible purchase--possible purchase--of Pioneer Ridge Healthcare, Inc. In your opinion, does this letter constitute an agreement for the purchase of a nursing home within the meaning of this bill?"

Senator Talmadge: "Senator, I've had an opportunity to look at the letter and the letter would not constitute a formal contract. In the first instance, the letter does not contain a specific reference to the property, as is required by the Statute of Fraud in the state of Washington and second by its terms, the letter contemplates a further agreement beyond that which is contained in the letter, which must be entered into sometime in the future. The letter really amounts to an agreement to agree sometime in the future to convey the property. It does not appear to be what would normally be an enforceable contract under the law of this state."

Further debate ensued.

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Senate Bill No. 6519.

ROLL CALL

The Secretary called the roll on the final passage of Engrossed Senate Bill No. 6519, and the bill passed the Senate by the following vote: Yeas, 45; nays, 3; absent, 1.

Voting nay: Senators Fleming, Kreidler, Niemi - 3.

Absent: Senator Owen - 1.

ENGROSSED SENATE BILL NO. 6519, having received the constitutional majority, was declared passed. There being no objection, the title of the bill was ordered to stand as the title of the act.

MOTIONS

Senator McDonald moved that the following amendment by Senators McDonald and Deccio be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION, Sec. 1. A new section is added to chapter 67.28 RCW to read as follows:

(1) The legislative body of a county that qualified under RCW 67.28.180(2)(b) other than a class AA county and the legislative bodies of cities in such a county are each authorized to levy and collect a special excise tax of two percent on the sale of or charge made for the furnishing of lodging by a hotel, rooming house, tourist court, motel, trailer camp, and the granting of any similar license to use real property, as distinguished from the renting or leasing of real property. For the purposes of this tax, it shall be presumed that the occupancy of real property for a continuous period of one month or more constitutes a rental or lease of real property and not a mere license to use or to enjoy the same.

(2) No city may impose the special excise tax authorized in subsection (1) of this section during the time the city is imposing the tax under RCW 67.28.180, and no county may impose the special excise tax authorized in subsection (1) of this section until such time as those cities within the county containing at least one-half of the total incorporated population have imposed the tax.

(3) Any county ordinance or resolution adopted under this section shall contain, in addition to all other provisions required to conform to this chapter, a provision allowing a credit against the county tax for the full amount of any city tax imposed under this section upon the same taxable event.

(4) Any seller, as defined in RCW 82.08.010, who is required to collect any tax under this section shall pay over such tax to the county or city as provided in RCW 67.28.200. The deduction from state taxes under RCW 67.28.190 does not apply to taxes imposed under this section.

Sec. 2. Section 13, chapter 236, Laws of 1967 as last amended by section 3, chapter 483, Laws of 1987 and RCW 67.28.200 are each amended to read as follows:

The legislative body of any county or city may establish reasonable exemptions and may adopt such reasonable rules and regulations as may be necessary for the levy and collection of the taxes authorized by RCW 67.28.180 ~~((and))~~; 67.28.182, and section 1 of this 1988 act. The department of revenue shall perform the collection of such taxes on behalf of such county or city at no cost to such county or city.

Sec. 3. Section 14, chapter 236, Laws of 1967 as last amended by section 1, chapter 308, Laws of 1986 and RCW 67.28.210 are each amended to read as follows:

All taxes levied and collected under RCW 67.28.180 and section 1 of this 1988 act shall be credited to a special fund in the treasury of the county or city imposing such tax. Such taxes shall be levied only for the purpose of paying all or any part of the cost of acquisition, construction, or operating of stadium facilities, convention center facilities, performing arts center facilities, and/or visual arts center facilities or to pay or secure the payment of all or any portion of general obligation bonds or revenue bonds issued for such purpose or purposes under this chapter, or to pay for advertising, publicizing, or otherwise distributing information for the purpose of attracting visitors and encouraging tourist expansion when a county or city has imposed such tax for such purpose, or as one of the purposes hereunder, and until withdrawn for use, the moneys accumulated in such fund or funds may be invested in interest bearing securities by the county or city treasurer in any manner authorized by law. In addition such taxes may be used to develop strategies to expand tourism in distressed areas, as defined in RCW 43.165.010: PROVIDED, That any county, and any city within a county, bordering upon Grays Harbor may use the proceeds of such taxes for construction and maintenance of a movable tall ships tourist attraction in cooperation with a tall ships restoration society, except to the extent that such proceeds are used for payment of principal and interest on debt incurred prior to June 11, 1986."

Senator Halsan moved that the following amendment to the amendment by Senators McDonald and Deccio be adopted:

On page 4, line 15 of the Deccio Amendment, after "1986" insert "PROVIDED FURTHER, That any city or county may use the proceeds of such taxes for the refurbishing and operation of a steam railway for tourism promotion purposes"

SECOND READING

SENATE BILL NO. 6574, by Senators Metcalf and Kreidler (by request of Washington State Parks and Recreation Commission)

Limiting liability of the parks and recreation commission regarding winter recreation activities.

The bill was read the second time.

MOTION

On motion of Senator Metcalf, the rules were suspended, Senate Bill No. 6574 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Talmadge: "Senator Metcalf, as I understand it, the immunity that's now provided in the case of recreational property is provided where someone does not charge a fee for the use of that recreational property such as for hunting and a number of other kinds of outdoor activities. Is it contemplated that the lands about which we're talking, in this bill, are lands for which the owner will charge a fee to someone for their use?"

Senator Metcalf: "I think that Senator Bluechel might be better to answer that one. It is my opinion that the answer is 'no.'"

REMARKS BY SENATOR BLUECHEL

Senator Bluechel: "Senator Talmadge, the primary purpose of the bill is to address itself to forest service land. Under the present arrangement, the majority of the trails, both snowmobile and cross country ski trails that are put out along with the snow parks are on forest service land—or the major part of the land is forest service land. They may go through other lands, because—say a trail is twenty or thirty miles long—you may pick up a whole series of lands. Wherever the people agree to use their land, there's no liability. There are some cases where the Parks Department actually pays to go over a certain section of land there, but their connection is basically on either the park and recreation lands, state land or forest service lands. The major issue here is forest service land and the Parks Department feels that it doesn't have a clean issue on that type of land."

Senator Talmadge: "What I'm getting at, I guess, is the question of whether somebody will be leasing these forest service lands and somebody will be charging someone else a fee for the opportunity to use snowmobiles or to do cross country skiing on this land."

Senator Bluechel: "This issue deals solely with Parks and Recreation groomed trails; it doesn't deal with private trails."

Senator Talmadge: "Well, will somebody be leasing that, though, and then in turn, charge someone a fee for using the land that has been leased, is what I'm getting at?"

Senator Bluechel: "To the best of my knowledge, 'no.'"

The President declared the question before the Senate to be the roll call on the final passage of Senate Bill No. 6574.

ROLL CALL

The Secretary called the roll on the final passage of Senate Bill No. 6574, and the bill passed the Senate by the following vote: Yeas, 46; nays, 3.

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the point of order raised by Senator Lee, the President finds that Second Substitute Senate Bill No. 6277 is a measure establishing the business and job retention program in the Department of Trade and Economic Development and providing funds for a study of state responses to plant closures and layoffs.

"The amendment proposed by Senators Halsan and McMullen provides for a similar business and job retention program and creates local reemployment support centers funded by a revised employer contribution rate for unemployment taxes.

"The President, therefore, finds that the proposed amendment does change the scope and object of the bill and that the point of order is well taken."

The amendment by Senators Halsan and McMullen to Second Substitute Senate Bill No. 6277 was ruled out of order.

SENATE BILL NO. 6741, by Senators Metcalf, Kreidler and Sellar

Relating to storage tanks.

MOTIONS

On motion of Senator Metcalf, Substitute Senate Bill No. 6741 was substituted for Senate Bill No. 6741 and the substitute bill was placed on second reading and read the second time.

On motion of Senator Metcalf, the following amendment by Senators Metcalf and Kreidler was adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. It is the intent of the legislature to develop a comprehensive storage tank management and cleanup program for tanks containing petroleum and regulated substances. The legislature finds that planning and development of these programs must begin as early as possible in order to meet federal and state requirements and address public health and safety issues related to underground storage tanks. The legislature further finds that the economic well-being of small businesses in the state that own or operate petroleum storage tanks is dependent on a clear state policy and an adequate state program.

Further, the legislature finds that additional information is necessary before developing specific standards for a regulatory and cleanup program and addressing the requirements for financial responsibility mandated in 42 U.S.C. Sec. 6991b.(d). The legislature intends for a state underground petroleum storage tank program to include at a minimum, requirements for tank installation, leak detection, operational recordkeeping, reporting of leaks, corrective action, upgrading of existing underground storage tanks, tank closure, sufficient funding to meet federal financial responsibility requirements and any other provision necessary for compliance with federal underground storage tank laws.

In addition, the legislature finds that affordable private methods of ensuring financial responsibility are likely to not be available and it is necessary to study the development of risk retention pools to aid underground petroleum storage tank owners and operators to meet federal financial responsibility requirements and provide moneys for corrective action.

It is the intent of this act to develop and implement these programs by June 1, 1989.

NEW SECTION. Sec. 2. There is hereby created the joint select committee on storage tanks. The committee shall consist of six members from the senate appointed by the president of the senate and six members from the house of representatives, appointed by the speaker of the house of representatives. The committee shall include equal numbers of members from the majority and minority parties of each house.

The committee shall seek input from persons and organizations representing major petroleum companies, agriculture, environmental protection, petroleum jobbing, vehicle sales and repair firms, insurance underwriting, gasoline retailing, cities, counties, other units of local government, fuel oil retailing, the general business community, and the public. The committee shall use staff from the senate committees on environment and natural resources and ways and means and the house of representatives committees on environmental affairs and ways and means. The department of ecology, department of general administration, and the insurance commissioner shall provide necessary staff and resources to assist the committee in carrying

out its purpose and preparing to implement programs recommended by the joint select committee on or before June 1, 1989.

The committee shall report its findings and recommendations to the senate committees on environment and natural resources and ways and means and the house of representatives committees on environmental affairs and ways and means by December 10, 1988.

NEW SECTION. Sec. 3. The committee shall make recommendations on topics including, but not limited to the following:

(1) Elements of an underground storage tank regulatory program necessary to meet the requirements of 42 U.S.C. Sec. 6991b.(d) and to allow full delegation of the federal program to the state. The committee shall determine and report on any circumstances under which it may be advisable to develop standards and requirements more stringent than those provided in federal regulations;

(2) Provisions necessary to implement a state-wide underground petroleum storage tank program including preemption of local laws governing the regulation of tanks, but which allow for local programs that address environmentally sensitive areas;

(3) Financial responsibility requirements for underground petroleum storage tanks. The requirements shall meet federal financial responsibility provisions mandated pursuant to 42 U.S.C. Sec. 6991b.(d);

(4)(a) The cost of administering a state storage tank program;

(b) The method of funding program administration and limitations on fees charged by local governments for tank operating regulations; and

(c) Revenue sharing by the department of ecology with local governments for local administration of a program;

(5) The method by which implementation and operation of storage tank programs will be coordinated between state and local government; and

(6) A timetable for implementing a state program by June 1, 1989.

NEW SECTION. Sec. 4. The committee shall also make recommendations on topics including, but not limited to, the following:

(1) Methods of providing owners and operators of underground petroleum storage tanks with a tank owner or operator funded program to assure compliance with federal financial responsibility requirements under 42 U.S.C. Sec. 6991b.(d) and to limit the state's liability;

(2) One or more risk retention pools designed to provide financial responsibility for owners and operators who cannot obtain adequate and reasonably priced private insurance;

(3) Estimates of the costs of administering any risk retention pools recommended by the joint select committee;

(4) Ways to ensure that owners and operators of tanks eligible to obtain funds from the risk retention pools will comply with the applicable state storage tank standards;

(5) Adequate means of ensuring that the state will have the necessary resources to address the obligation of the risk retention pools in the event that regular contributions are insufficient, including but not limited to a petroleum products tax;

(6) Adequate yet reasonable contributions from the owner or operator to ensure that there will be adherence to the standards for federal financial responsibility developed under 42 U.S.C. Sec. 6991b.(d); and

(7) A timetable for implementation of the risk retention pools by June 1, 1989.

NEW SECTION. Sec. 5. (1) By December 10, 1988, the department of ecology shall provide a report to the legislature on the following:

(a) An inventory of above-ground tanks containing petroleum in existence in this state, their sizes, location, types, and products stored therein;

(b) An analysis of the current practices and requirements applicable to above-ground storage tanks containing petroleum, including an examination of any causes of releases from such tanks and appropriate response;

(c) Recommendations for a cleanup program, if necessary, to protect the public health and environment, along with proposals for adequate funding sources; and

(d) Recommendations for a state program, if necessary for the installation, operation, and closure of above-ground storage tanks.

(2) For the purposes of this study and notwithstanding the provisions of chapter 34.04 RCW, the department, with the advice of the joint select committee established in section 2 of this act, shall develop a definition of above-ground petroleum storage tanks except that the definition shall not include barrels or drums commonly used for the transportation and temporary storage of petroleum products.

(3) In carrying out the study, the department may require a person, firm, corporation, or government entity other than a federal government entity, to respond to requests for information necessary to meet the requirements of this study.

NEW SECTION. Sec. 6. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately."

MOTIONS

On motion of Senator Metcalf, the following title amendment was adopted:

On page 1, line 1 of the title, after "tanks;" strike the remainder of the title and insert "creating new sections; and declaring an emergency."

On motion of Senator Metcalf, the rules were suspended, Engrossed Substitute Senate Bill No. 6741 was advanced to third reading, the second reading considered the third and the bill was placed on final passage.

POINT OF INQUIRY

Senator Patterson: "Senator Metcalf, in just perusing the first part of the bill, there are many references to business storage tanks--this sort of thing. What I'm wondering about, is whether or not the study will address the question of many home owners that have buried storage tanks in their back yards? I just want to make sure that that is taken into consideration in the study, if it is not."

Senator Metcalf: "It is my opinion that it is, but I will let Senator Kreidler respond."

REMARKS BY SENATOR KREIDLER

Senator Kreidler: "Senator Patterson, this is a very encompassing study that is going to consider not only the private business storage tanks, but it will also include those of cities, counties, local government, and will also include the ones that are the private home owners oil storage tanks. It's a very encompassing study, because underground storage tank leakage is a very profound problem in our society, and the study and recommendations are going to be inclusive of all of those factors."

Senator Patterson: "The reason I raised the question, Senator Kreidler, is that if it's determined through the study that something is going to have to be done about all those back yard storage tanks, there's going to be some major costs involved for home owners. I think they ought to recognize that fact, because I know of many in my community that have large thousand gallon tanks buried for use of home fuel oil and that the cost of doing something about that will be expensive."

The President declared the question before the Senate to be the roll call on the final passage of Engrossed Substitute Senate Bill No. 6741.

POINT OF INQUIRY

Senator Hansen: "Senator McCaslin, where do you take this thirty hours--at a convention in Hawaii--to qualify for that thirty hours? We have to pay the hotel/motel tax some way, so with all these conventions, is that where you are taking your studies or do you go to a legitimate school for your thirty hours of study?"

Senator McCaslin: "The last course I took was in a wheat field in Ritzville, but I don't want to get into that, Senator. No, I've been to Seattle. When I was a realtor, which I am no longer a realtor, I'm a real estate broker. I don't belong to the realtors, the Washington Association of Realtors, but when I was, I took three courses in Seattle. I also have taken courses at the community college in Spokane--that was offered by the community college. You also have private schools that you can attend to take these courses, so it's both the public sector and a private sector opportunity. Does that answer your question, Senator? I have never--never--taken a course in Hawaii, darn it."

POINT OF INQUIRY

Senator Pullen: "Senator Lee, what is the definition of a non-profit professional organization? The words in the bill on line 6, refer to a non-profit trade or professional organization. Is there a distinction between a non-profit trade organization and a non-profit professional organization and if so, could you give me an example of one of each?"

Senator Lee: "There is not necessarily a difference as far as the application of this particular proposed statute is concerned. The difference between a trade and a professional organization—a professional organization would be something like a group of dentists, doctors, chemists, something of this sort, mechanical engineers. A trade organization would be something that is a group of persons such as those who are in retail clothing, motor boats, those sorts of things."

Senator Pullen: "So, this bill would not pick up other kinds of non-profit organizations such as charitable organizations or educational non-profit organizations?"

Senator Lee: "In my opinion, it would not. It is really addressing itself to those two kinds and in those situations where they are actually holding trade shows."

Senator Rasmussen: "We passed the time for accepting that motion. You can't make a special order for 4:59, when it is now 5:03 or 5:04."

President Cherberg: "That is true, but on many occasions, through precedent, we have permitted one bill."

Senator Rasmussen: "Begging the President's pardon, the time is gone by, and he's saying he wants a special order for 4:59, now it's 5:04. It would be out of order anyway."

President Cherberg: "Well, the Democrats were just a little smoother than the Republicans, in that particular matter."

The President has customarily ruled that if we were working on a bill before five o'clock, we could, in fact, finish not more than one bill. Is that correct?"

MOTION

Senator Newhouse moved that the Senate commence consideration of Substitute Senate Bill No. 6410.

PARLIAMENTARY INQUIRY

PARLIAMENTARY INQUIRY

Senator Rasmussen: "Mr. President, concurring with your past rulings, if we were working on a bill, which would be Substitute Senate Bill No. 6495, I would agree with Senator Hansen, that that would be—it isn't the case where we could pull it out of the hat, we were working on that bill. Senator Talmadge moved that the following amendment be adopted:

On page 8, after line 33, insert the following:

NEW SECTION. Sec. 11. The legislature finds that county and city governments are in need of funding to offset the costs of the enforcement of laws prohibiting driving while intoxicated or impaired. The legislature further finds that it is necessary for some cities and counties to receive additional funds in the form of state grants to provide for the equal administration of justice to traffic offenders and to ensure the safety of persons using the public highways of the state. It is the intent of the legislature that the state grants shall be awarded on the basis of the local jurisdiction's rate of performance in completing adjudication of arrests.

NEW SECTION. Sec. 12. From funds appropriated in section 15 of this act, the traffic safety commission shall distribute grants to cities and counties to enhance the apprehension, prosecution, and adjudication of serious traffic offenses. "Serious traffic offenses," as used in sections 12 through 14 of this act, means driving or being in physical control of a motor vehicle while under the influence of or impaired by intoxicating liquor or drugs. "Commission" means the traffic safety commission.

NEW SECTION. Sec. 13. (1) The commission shall establish an advisory committee to establish eligibility and evaluation criteria for the distribution of grants made under section 12 of this act. The committee shall consist of:

(a) Two prosecuting attorneys selected by the Washington association of prosecuting attorneys;

(b) One municipal attorney and one elected municipal official selected by the association of Washington cities;

(c) One elected county official selected by the Washington state association of counties;

(d) The administrator for the courts or the administrator's designee;

(e) A representative selected by the Washington state patrol; and

(f) A representative of law enforcement selected by the Washington association of sheriffs and police chiefs.

(2) Members of the advisory committee shall be appointed within thirty days of the effective date of this section.

(3) Members of the advisory committee shall be reimbursed for travel expenses in accordance with RCW 43.03.050 and 43.03.060.

NEW SECTION. Sec. 14. (1) The criteria developed by the commission and the advisory committee under section 13 of this act shall not be based on need. Instead, the criteria shall be based on reliable data measuring performance in the apprehension, prosecution, and adjudication of serious traffic offenses. The criteria shall recognize the higher relative enforcement costs borne by smaller units of government. The criteria shall also include a minimum grant amount to eliminate jurisdictions in which case volume and funding need is minimal. Cities not operating a municipal court are not eligible for grants under section 12 of this act.

(2) Before adoption by the commission, the criteria shall be presented to the appropriate committees of the legislature for review and comment. After adoption, the criteria shall be applied to performance data for the period August 1988 through December 1988. The grants shall be distributed before June 30, 1989.

(3) The grants shall be made to the legislative authority of the city or county for appropriation by the legislative authority to enhance effective apprehension, prosecution, and adjudication of serious traffic offenses. Each jurisdiction receiving a grant under this section shall establish an advisory committee to recommend expenditures from the grant moneys. The advisory committee shall include representatives of the executive, legislative, and judicial branches of the local government.

NEW SECTION. Sec. 15. (1) There is appropriated from the public safety and education account for the biennium ending June 30, 1989, the sum of one million dollars, or so much thereof as may be necessary, for the purposes of section 12 of this act. It is the intent of the legislature that the amount appropriated under this section not exceed the remaining balance in the public safety and education account on June 30, 1989.

(2) Not more than thirty-five thousand dollars of this appropriation may be spent by the commission for administrative purposes.

NEW SECTION. Sec. 16. Sections 11 through 14 of this act shall expire on December 31, 1989.

NEW SECTION. Sec. 17. Sections 11 through 16 of this act are necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately."

Renumber the section following consecutively.

POINT OF ORDER

Senator Smith: "Mr. President, I rise to a point of order. I'd like to have you rule on scope on this amendment. I believe it's out of scope. It appropriates monies that are to be given counties and it relates to new programs not mentioned in the bill."

The Senate was called to order at 5:41 p.m. by President Cherberg.

RULING BY THE PRESIDENT

President Cherberg: "In ruling upon the point of order raised by Senator Smith, the President finds that Substitute Senate Bill No. 6410 is a measure which revokes the driving privileges of certain juveniles found to have committed an offense involving the unlawful use of intoxicating liquor, controlled substances, legend drugs or imitation controlled substances.

"The amendment proposed by Senator Talmadge would appropriate funds to the Traffic Safety Commission to distribute grants to cities and counties to apprehend, prosecute and adjudicate the offenses of driving a motor vehicle while under the influence of intoxicating liquor or drugs.

"The President, therefore, finds that the proposed amendment does change the scope and object of the bill and that the point of order is well taken."

The amendment by Senator Talmadge to Substitute Senate Bill No. 6410 was ruled out of order.

THIRTY-NINTH DAY

NOON SESSION

Senate Chamber, Olympia, Thursday, February 18, 1988

The Senate was called to order at 12:00 noon by President Cherberg. No roll call was taken.

The Sergeant at Arms Color Guard, consisting of Pages Jeremy Smith and Jeff Young, presented the Colors. Reverend Richard Hart, senior pastor of the Olympia Baptist Church, offered the prayer.

MOTION

On motion of Senator Newhouse, the reading of the Journal of the previous day was dispensed with and it was approved.

APPOINTMENT OF SPECIAL COMMITTEE

The President announced the presence in the Senate Chamber of legislators from the state of Idaho and appointed Senators Newhouse, Kiskaddon, West, Bauer and Hayner to escort the honored guests to the Senate Rostrum.

The President introduced Butch Otter, the Lieutenant Governor of Idaho, who then introduced the other Idaho legislators: Tom Boyd, Speaker of the House; Bruce Sweeney, Senate Minority Leader, Dean Haagenson, Chairman, of the House Natural Resources Committee, Jerry Deckard, Chairman of the House Ways and Means Committee, Tom Giovanelli, a member of the House of Representatives and Terry Sverdston, Chairman of the Senate Education Committee.

With permission of the Senate, business was suspended to permit Lieutenant Governor Otter to address the Senate.

Senators Hayner, McCaslin and Metcalf gave remarks of welcome to the visiting legislators.

POINT OF INQUIRY

Senator Rasmussen: "Lieutenant Governor Otter, I note in our map that you are surrounded by states, Montana and Oregon who have only an income tax. Washington does not have the income tax by all means. It is a clean state, also. Nevada does have the income tax--you are pretty well surrounded. You have the income tax and the sales tax. You're in a very fortunate position. You have no problem with money. Is that correct?"

Lieutenant Governor Otto: "What's the Senator's question?"

Senator Rasmussen: "Well, that was my question. You have the sales tax and the income tax. There shouldn't be any shortage of money. All you do is make a few adjustments. In this state, of course--we're one of the white states here. Washington, Wyoming and Montana which surrounds your state--you are surrounded by states with different opinions, but it would seem that you are more fortunate than most. Your leadership must be quite advanced, if you have no problem supplying the peoples needs. Is that true?"

Lieutenant Governor Otto: "Mr. President and Senator Rasmussen, I would point out to you, in the first place, that Idaho is about one fourth or maybe even a little smaller in size and population compared to our sister state which we are now in. Therefore, we only have about one-tenth the budget on an annualized basis, in fact, less than that. I would suggest to you that perhaps there is a remedy to that problem. As the good Senator from District Sixteen mentioned earlier on, that the two states become one and if we could agree that we would call this Idaho and if we could agree that, also, we would remain respective in our taxing structures within those boundries that possibly we could overcome your question."

Senator Bluechel gave additional remarks of welcome to the visiting legislators.

APPOINTMENT OF SPECIAL COMMITTEE

The President appointed Senators West and Rasmussen to escort the Honorable Joe King, Speaker of the House of Representatives, to the Senate Rostrum.

With permission of the Senate, business was suspended to permit Speaker King the opportunity to greet the Idaho legislators.

The honored guests remained on the rostrum to observe the legislative process of the Senate.

NEW SECTION. Sec. 5. A new section is added to chapter 48.07 RCW to read as follows:

(1)(a) Any insurer duly organized under the laws of any other state and admitted to transact insurance business in this state may become a domestic insurer upon complying with all requirements of law for the organization of a domestic insurer in this state and by designating its principal place of business at a location in this state. Such domestic insurer is entitled to a certificate of authority to transact insurance in this state, subject to the conditions set forth in (b) of this subsection, and is subject to the authority and the jurisdiction of this state.

(b) Before being eligible to become a domestic insurer under this section, an admitted insurer shall advise the commissioner, in writing, thirty days in advance of the proposed date of its plan to become a domestic insurer. The commissioner must approve the plan in advance of the proposed date. The commissioner shall not approve any such plan unless, after a hearing, pursuant to such notice as the commissioner may require, the commissioner finds that the plan is consistent with law, and that no reasonable objection to the plan exists. If the commissioner fails to approve the plan, the commissioner shall state his or her reasons for failure to approve the plan in an order issued at the hearing.

(2) After providing thirty days advance written notice of its plan to the commissioner and upon the written approval of the commissioner in advance of the proposed transfer date, any domestic insurer of this state may transfer its domicile to any other state in which it is admitted to transact the business of insurance. Upon transfer of domicile, the insurer ceases to be a domestic insurer of this state. If otherwise qualified under the laws of this state, the commissioner shall admit the insurer to do business in this state as a foreign insurer. The commissioner shall approve any proposed transfer of domicile unless the commissioner determines after a hearing, pursuant to such notice as the commissioner may require, that the transfer is not in the best interests of the public or the insurer's policyholders in this state. If the commissioner fails to approve a proposed transfer of domicile, the commissioner shall state his or her reasons for failure to approve the transfer in an order issued at the hearing.

(3) When a foreign insurer, admitted to transact business in this state, transfers its corporate domicile to this state or to any other state, the certificate of authority, appointment of statutory agent, and all approved licenses, policy forms, rates, filings, and other authorizations and approvals in existence at the time the foreign insurer transfers its corporate domicile shall continue in effect.

(4) Any insurer transferring its corporate domicile under this section shall file any amendments to articles of incorporation, bylaws, or other corporate documents that are required to be filed in this state before the insurer may receive approval of its proposed plan by the commissioner."

On motion of Senator von Reichbauer, the following Committee on Financial Institutions and Insurance amendment was adopted:

On page 14, line 25, insert the following new sections, and renumber the remaining sections accordingly:

NEW SECTION. Sec. 18. A new section is added to chapter 48.30 RCW to read as follows:

(1) If an insurer prepares an estimate based on use of any aftermarket crash parts, the estimate shall identify the aftermarket crash parts and shall include the following notice in no smaller than ten-point type:

"This estimate has been prepared based on the use of motor vehicle crash parts that were not manufactured or supplied by the manufacturer of your motor vehicle. Such parts must be certified in accordance with RCW 48.30.—(5) (subsection (5) of this section) to be at least the same quality as the parts being replaced, unless you agree to accept noncertified parts. Upon request, we will provide you with a copy of any warranty for such parts for comparison purposes."

(2) The insurer shall provide the estimate to the registered owner or duly authorized representative and upon request shall provide the registered owner or duly authorized representative with a copy of any warranty for the aftermarket crash parts listed in the estimate.

(4) For purposes of this section, "aftermarket crash part" means a motor vehicle replacement part, sheet metal or plastic, that constitutes the visible exterior of the vehicle, including an inner or outer panel, is generally installed as the result of a collision, and is not supplied by the original equipment manufacturer.

(5) For purposes of this section, "certified" means tested and approved by an independent test facility having the capability to scientifically analyze automotive parts to be the same kind of part as the part being replaced and at least the same quality with respect to fit, finish, function, and corrosion resistance.

(6) A violation of this section constitutes an unfair act or practice affecting the public interest under chapter 19.86 RCW.

NEW SECTION. Sec. 19. A new section is added to chapter 46.71 RCW to read as follows:

An original equipment manufacturer supplying a crash part shall warrant that the part meets the same quality standards used in manufacturing the original equipment being replaced."

POINT OF ORDER

Senator Newhouse: "Mr. President, I rise to the point of order that the amendment expands the scope and title of the bill. The original bill is what's known as a departmental omnibus bill, in this case for the Insurance Commissioner. Last year the Insurance Commissioner had this same bill before this body and the same thing happened to it. Some controversial amendments were added and the net effect was to kill the bill. I don't want to see that happen again. I suggest that departments should be entitled to corrective legislation, without being loaded down with controversial amendments. I'd like to suggest that this is beyond the scope of even an omnibus bill."

MOTION

On motion of Senator Warnke, and there being no objection, the amendment was withdrawn.

MOTION

Senator Wojahn moved that the following amendment by Senators Wojahn, Johnson and Rasmussen be adopted:

On page 16, after line 3, insert the following and renumber the remaining sections accordingly:

NEW SECTION. Sec. 21. (1) The insurance commissioner shall establish a committee to review health care coverage relating to temporomandibular joint disorder. This committee shall include one member from each of the four caucuses of the legislature to be appointed by

the appropriate presiding officer in the House or Senate, representatives of the commissioner, the medical and dental professions, insurers, health care service contractors, health maintenance organizations, health care providers and those representing persons with temporomandibular joint disorder.

(2) Not later than November 1, 1988, the commissioner shall receive a report from the committee established under this section. This report shall include any recommendations for legislation, if needed.

(3) Any legislative recommendations presented to the commissioner pursuant to this section shall be referred to the state health coordinating council for its review and recommendation.

(4) The committee established under this section shall be dissolved on January 1, 1989."

On motion of Senator Newhouse, the rules were suspended, Substitute House Bill No. 1297, as amended by the Senate, was advanced to third reading, the second reading considered the third and the bill was placed on final passage. Debate ensued.

POINT OF INQUIRY

Senator Rasmussen: "Senator Barr, under the bill, these irrigation assessments do not constitute a lien under the Homestead Act, do they?"

Senator Barr: "I don't think so, but I'm not clear on that. I don't think they do. I didn't hear it in the committee activities and in all of the discussion, that was not brought out—anything about the assessments—so I'm pretty sure that it does not, but I could stand corrected."

Senator Rasmussen: "Thank you, one other question. I note that after they pay the assessment, that a treasurer's deed is issued. Is this the land registration under the Torrens Title Act that the treasurer issues?"

Senator Barr: "I didn't understand your question."

Senator Rasmussen: "It indicates that a treasurer's deed—a treasurer's deed is not title insurance—the issue is under land registration or the Torrens Title?"

Senator Barr: "I think that is right, yes."

Senator Rasmussen: "Quite a bit of that farm land is registered under the Torrens Title, but I raised the question the other day in committee and a couple of insurance people or financial loan people indicated they'd never heard of land registration or the Torrens Title, which of course is very much cheaper than title insurance."

Senator Barr: "The treasurer's deed—that's part of this complicated process where the treasurer would have to provide the deed. I assume that the title insurance is a part of that and the title insurance would be provided."

Senator Rasmussen: "I don't think they provide title insurance, but thank you anyway."

Senator Barr: "Yes, I'm not clear on that."

PERSONAL PRIVILEGE

Senator Benitz: "Mr. President, a point of personal privilege. Members of the Senate and our friends in the gallery, you have on your desk a rather sizable apple. It's called a Forty-eight, which means it's forty-eight apples to the box--almost a pound apiece. They didn't get that size by the process they've been through. These are irradiated apples which means that they are absolutely sterile. They can go any place in the world. It's a process by which we hope we can get in Japan, in a tremendous export market. There are a couple of other things. The reason I wanted to do it today is that we only have this day, one year in four, so we wanted something new for February 29th, and that is the new apple that you have before you. Further, there's a little scratch pad that goes with it and that logo at the top of the scratch pad is the international symbol for irradiated foods. I hope that you become better acquainted with it as the years roll along.

"Further, there's a story by Battelle, who has provided this irradiation, and has provided me with the apples that go along with it. It's a very interesting one. Some of you may have some concern. Many people are concerned about irradiated foods, but if you'll notice on that sheet, that's all our astronauts have when they're in space--the irradiated foods. People who are concerned, I guess I would draw the likeness that my father told, about the turn of the century, when the automobile came in. The people in the German community where I grew up made organizations to make sure they got rid of that automobile, because it was scaring the horses to death and having run-aways and wrecking their equipment. Besides that, the Dutchmen said, 'Those automobiles can't go over these muddy roads; we'd never have roads to accommodate them.' That's the kind of situation that we have with some people that are overly concerned about irradiation. Enjoy the fine apple."
