Unofficial or "hand-carried" education records – In the event that official education records cannot be released to the parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial educational records containing uniform information as determined by the interstate commission. Upon receipt of the unofficial education records by a school in the receiving state, the school shall enroll and appropriately place the

student based on the information provided in the unofficial records pending validation by the official records, as quickly as possible.

B. Official education records and transcripts – Simultaneous with the enrollment and conditional placement of the student, the school in the receiving state shall request the student's official education record from the school in the sending state. Upon receipt of this request, the school in the sending state will process and furnish the official education records to the school in the receiving state within ten days or within such time as is reasonably determined under the rules promulgated by the interstate commission. However, if the student has an unpaid fine at a public school or unpaid tuition, fees, or fines at a private school, then the sending school shall send the information requested but may withhold the official transcript until the monetary obligation is met.

C. Immunizations – On or before the first day of attendance, the parent or guardian must meet the immunization documentation requirements of the Washington board of health. Compacting states shall give thirty days from the date of enrollment or within such time as is reasonably determined under the rules promulgated by the interstate commission, for students to obtain any immunizations required by the receiving state. For a series of immunizations, initial vaccinations must be obtained within thirty days or within such time as is reasonably determined under the rules promulgated by the interstate commission.

D. Kindergarten and first grade entrance age – Students shall be allowed to continue their enrollment at grade level in the receiving state commensurate with their grade level (including kindergarten) from a local education agency in the sending state at the time of transition, regardless of age. A student who has satisfactorily completed the prerequisite grade level in the local education agency in the sending state shall be eligible for enrollment in the next highest grade level in the receiving state, regardless of age. ARTICLE V PLACEMENT AND ATTENDANCE

A. Course placement - When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school and/or educational assessments conducted at the school in the sending state if the courses are offered and if space is available, as determined by the school district. Course placement includes but is not limited to honors, international baccalaureate, advanced placement, vocational, technical, and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the courses.

B. Educational program placement – The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation and placement in like programs in the sending state and if space is available, as determined by the school district. Such programs include, but are not limited to: (1) Gifted and talented programs; and (2) English as a second language (ESL). This does not preclude the school in the receiving state from performing

subsequent evaluations to ensure appropriate placement of the student.

C. Special education services – (1) In compliance with the federal requirements of the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. Sec. 1400 et seq., the receiving state shall initially provide comparable services to a student with disabilities based on his or her current Individualized Education Program (IEP); and (2) in compliance with the requirements of section 504 of the rehabilitation act, 29 U.S.C. Sec. 794, and with Title II of the Americans with disabilities act, 42 U.S.C. Secs. 12131-12165, the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

D. Placement flexibility – Local education agency administrative officials shall have flexibility in waiving course and program prerequisites, or other preconditions for placement in courses and programs offered under the jurisdiction of the local education agency.

E. Absence as related to deployment activities – A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by this compact, and has been called to duty for, is on leave from, or immediately returned from deployment to a combat zone or combat support posting, shall be granted additional excused absences at the discretion of the local education agency superintendent to visit with his or her parent or legal guardian relative to such leave or deployment of the parent or guardian.

ARTICLE VI ELIGIBILITY

A. Eligibility for enrollment

1. Special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

2. A local education agency shall be prohibited from charging local tuition to a transitioning military child placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

3. A transitioning military child, placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent, may continue to attend the school in which he or she was enrolled while residing with the custodial parent.

Eligibility for extracurricular participation - Under RCW 28A.225.280, the Washington interscholastic activities association and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified and space is available, as determined by the school district.

ARTICLE VII GRADUATION

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall incorporate the following procedures:

A. Waiver requirements – Local education agency administrative officials shall waive specific courses required for graduation if similar coursework has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending

school, the local education agency shall use best efforts to provide an alternative means of acquiring required coursework so that graduation may occur on time.

B. Exit exams - For students entering high school in eleventh or twelfth grade, states shall accept: (1) Exit or end-of-course exams required for graduation from the sending state; or (2) national norm-referenced achievement tests; or (3) alternative testing, in lieu of testing requirements for graduation in the receiving state. In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in his or her senior year, then the provisions of section C of this article shall apply.

C. Transfers during senior year – Should a military student transferring at the beginning or during his or her senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with sections A and B of this article.

ARTICLE VIII STATE COORDINATION

A. Each member state shall, through the creation of a state council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the state's participation in, and compliance with, this compact and interstate commission activities. While each member state may determine the membership of its own state council, its membership must include at least: The state superintendent of public instruction, a superintendent of a school district with a high concentration of military children, a representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups the state council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the state council.

B. The state council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

C. The compact commissioner responsible for the administration and management of the state's participation in the compact shall be appointed by the governor or as otherwise determined by each member state. The governor is strongly encouraged to appoint a practicing K-12 educator as the compact commissioner.

D. The compact commissioner and the military family education liaison designated herein shall be ex officio members of the state council, unless either is already a full voting member of the state council.

4. The bylaws may provide for meetings of the interstate commission to be conducted by telecommunication or electronic communication;

C. Consist of ex officio, nonvoting representatives who are members of interested organizations. Such ex officio members, as defined in the bylaws, may include but not be limited to, members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. department of defense, the education commission of the states, the interstate agreement on the qualification of educational personnel, and other interstate compacts affecting the education of children of military members;

Members of the executive committee shall serve a one-year term. Members of the executive committee shall be entitled to one vote each. The executive committee shall have the power to act on behalf of the interstate commission, with the exception of rule making, during periods when the interstate commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact including enforcement and compliance with the provisions of the compact, its bylaws and rules, and other such duties as deemed necessary. The U.S. department of defense shall serve as an ex officio, nonvoting member of the executive committee;

F. Establish bylaws and rules that provide for conditions and procedures under which the interstate commission shall make its information and official records available to the public for inspection or copying. The interstate commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests;

G. Give public notice of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The interstate commission and its committees may close a meeting, or portion thereof, where it determines by two-thirds vote that an open meeting would be likely to:

7. Specifically relate to the interstate commission's participation in a civil action or other legal proceeding;

H. Cause its legal counsel or designee to certify that a meeting may be closed and shall reference each relevant exemptible provision for any meeting, or portion of a meeting, which is closed pursuant to this provision. The interstate commission shall keep minutes which shall fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the interstate commission;

I. Collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection, and data exchange and reporting requirements. Such methods of data collection, exchange, and reporting shall, in so far as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules;

J. Create a process that permits military officials, education officials, and parents to inform the interstate commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section shall not be construed to create a private right of action against the interstate commission or any member state.

ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

A. The interstate commission shall, by a majority of the members present and voting, within twelve months after the first interstate commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact, including, but not limited to:

1. Establishing the fiscal year of the interstate commission;
2. Establishing an executive committee, and such other committees as may be necessary;
3. Providing for the establishment of committees and for governing any general or specific delegation of authority or function of the interstate commission;
4. Providing reasonable procedures for calling and conducting meetings of the interstate commission, and ensuring reasonable notice of each such meeting;
5. Establishing the titles and responsibilities of the officers and staff of the interstate commission;
6. Providing a mechanism for concluding the operations of the interstate commission and the return of surplus funds that may exist upon the termination of the compact after the payment and reserving of all of its debts and obligations; and
7. Providing "start-up" rules for initial administration of the compact.

B. The interstate commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice chairperson, and a treasurer, each of whom shall have such

authority and duties as may be specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice chairperson, shall preside at all meetings of the interstate commission. The officers so elected shall serve without compensation or remuneration from the interstate commission; provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the interstate commission.

C. Executive committee, officers, and personnel

1. The executive committee shall have such authority and duties as may be set forth in the bylaws, including but not limited to:

a. Managing the affairs of the interstate commission in a manner consistent with the bylaws and purposes of the interstate commission;

b. Overseeing an organizational structure within, and appropriate procedures for the interstate commission to provide for the creation of rules, operating procedures, and administrative and technical support functions; and

c. Planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the interstate commission.

2. The executive committee may, subject to the approval of the interstate commission, appoint or retain an executive director for such period, upon such terms and conditions and for such compensation, as the interstate commission may deem appropriate. The executive director shall serve as secretary to the interstate commission, but shall not be a member of the interstate commission. The executive director shall hire and supervise such other persons as may be authorized by the interstate commission.

D. The interstate commission's executive director and its employees shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of interstate commission employment, duties, or responsibilities; provided, that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

1. The liability of the interstate commission's executive director and employees or interstate commission representatives, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state may not exceed the limits of liability set forth under the Constitution and laws of that state for state officials, employees, and agents. The interstate commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

2. The interstate commission shall defend the executive director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an interstate commission representative, shall defend such interstate commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or

responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

3. To the extent not covered by the state involved, member state, or the interstate commission, the representatives or employees of the interstate commission shall be held harmless in the amount of a settlement or judgment, including attorneys' fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

ARTICLE XII

RULE-MAKING FUNCTIONS OF THE INTERSTATE COMMISSION

A. Rule-making authority - The interstate commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the interstate commission exercises its rule-making authority in a manner that is beyond the scope of the purposes of this compact, or the powers granted hereunder, then such an action by the interstate commission shall be invalid and have no force or effect.

B. Rule-making procedure - Rules shall be made pursuant to a rule-making process that substantially conforms to the "model state administrative procedure act," of 1981, Uniform Laws Annotated, Vol. 15, p.1 (2000) as amended, as may be appropriate to the operations of the interstate commission.

C. Not later than thirty days after a rule is promulgated, any person may file a petition for judicial review of the rule; provided, that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the interstate commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the interstate commission's authority.

D. If a majority of the legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

ARTICLE XIII

OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION

A. Oversight

1. The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law.

2. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the interstate commission.

3. The interstate commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the interstate commission shall render a judgment or order void as to the interstate commission, this compact, or promulgated rules.

B. Default, technical assistance, suspension, and termination - If the interstate commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or promulgated rules, the interstate commission shall:

1. Provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default, and any action taken by the interstate commission. The interstate commission shall specify the conditions by which the defaulting state must cure its default;

2. Provide remedial training and specific technical assistance regarding the default;

3. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges, and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default;

4. Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the interstate commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states;

5. The state which has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination including obligations the performance of which extends beyond the effective date of suspension or termination;

6. The interstate commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state;

7. The defaulting state may appeal the action of the interstate commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the interstate commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorneys' fees.

C. Dispute Resolution

1. The interstate commission shall attempt, upon the request of a member state, to resolve disputes which are subject to the compact and which may arise among member states and between member and nonmember states.

2. The interstate commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

D. Enforcement

1. The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

2. The interstate commission, may by majority vote of the members, initiate legal action in the United ((State(s))) States District Court for the District of Columbia or, at the discretion of the interstate commission, in the federal district where the interstate commission has its principal offices, to enforce compliance with the provisions of the compact, and its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary the prevailing party shall be awarded all costs of such litigation including reasonable attorneys' fees.

3. The remedies herein shall not be the exclusive remedies of the interstate commission. The interstate commission may avail

EIGHTY SEVENTH DAY, APRIL 5, 2023

itself of any other remedies available under state law or the regulation of a profession.

ARTICLE XIV

FINANCING OF THE INTERSTATE COMMISSION

A. The interstate commission shall pay, or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

B. The interstate commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the interstate commission and its staff which must be in a total amount sufficient to cover the interstate commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the interstate commission, which shall promulgate a rule binding upon all member states.

C. The interstate commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the interstate commission pledge the credit of any of the member states, except by and with the authority of the member state.

D. The interstate commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the interstate commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the interstate commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the interstate commission.

ARTICLE XV

MEMBER STATES, EFFECTIVE DATE, AND AMENDMENT

A. Any state is eligible to become a member state.

B. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than ten of the states. The effective date shall be no earlier than December 1, 2007.

Thereafter it shall become effective and binding as to any other member state upon enactment of the compact into law by that state. The governors of nonmember states or their designees shall be invited to participate in the activities of the interstate commission on a nonvoting basis prior to adoption of the compact by all states.

C. The interstate commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the interstate commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

ARTICLE XVI

WITHDRAWAL AND DISSOLUTION

A. Withdrawal

1. Once effective, the compact shall continue in force and remain binding upon each and every member state; provided that a member state may withdraw from the compact by specifically repealing the statute, which enacted the compact into law.

2. Withdrawal from this compact shall be by the enactment of a statute repealing the same, but shall not take effect until one year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member jurisdiction.

3. The withdrawing state shall immediately notify the chairperson of the interstate commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The interstate commission shall notify the

other member states of the withdrawing state's intent to withdraw within sixty days of its receipt thereof.

4. The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

5. Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the interstate commission.

B. Dissolution of compact

1. This compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to one member state.

2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the interstate commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

ARTICLE XVII

SEVERABILITY AND CONSTRUCTION

A. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

B. The provisions of this compact shall be liberally construed to effectuate its purposes.

C. Nothing in this compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

ARTICLE XVIII

BINDING EFFECT OF COMPACT AND OTHER LAWS

2. All member states' laws conflicting with this compact are superseded to the extent of the conflict.

B. Binding effect of the compact

1. All lawful actions of the interstate commission, including all rules and bylaws promulgated by the interstate commission, are binding upon the member states.

(1) A political subdivision that conducts an election pursuant to state, county, or local law, is authorized to change its electoral system, including, but not limited to, implementing a district-based election system, to remedy a potential violation of RCW 29A.92.020.

(2) If a political subdivision invokes its authority under this section to implement a district-based election system, the districts shall be drawn in a manner consistent with RCW 29A.92.050.

(3) A political subdivision that changes its electoral system under this section must utilize the same method of election for its primary and general elections.

Sec. 2. RCW 29A.92.110 and 2019 c 454 s 2 are each amended to read as follows:

(1) The court may order appropriate remedies including, but not limited to, the imposition of a district-based election system. The court may order the affected jurisdiction to draw or redraw district boundaries or appoint an individual or panel to draw or redraw district lines. The proposed districts must be approved by the court prior to their implementation.

(2) Implementation of a district-based remedy is not precluded by the fact that members of a protected class do not constitute a numerical majority within a proposed district-based election district. If, in tailoring a remedy, the court orders the implementation of a district-based election district where the members of the protected class are not a numerical majority, the court shall do so in a manner that provides the protected class an equal opportunity to elect candidates of their choice. The court may also approve a district-based election system that provides the protected class the opportunity to join in a coalition of two or more protected classes to elect candidates of their choice if there is demonstrated political cohesion among the protected classes.

(3) In tailoring a remedy after a finding of a violation of RCW 29A.92.020:

(a) If the court's order providing a remedy or approving proposed districts, whichever is later, is issued during the period of time between the first Tuesday after the first Monday of November and on or before January 15th of the following year, the court shall order new elections, conducted pursuant to the remedy, to occur at the next succeeding general election. If a special filing period is required, filings for that office shall be reopened for a period of three business days, such three-day period to be fixed by the filing officer.

(b) If the court's order providing a remedy or approving proposed districts, whichever is later, is issued during the period of time between January 16th and on or before the first Monday of November, the next election will occur as scheduled and organized under the current electoral system, but the court shall

order new elections to occur pursuant to the remedy at the general election the following calendar year.

(c) The remedy may provide for the political subdivision to hold elections for the members of its governing body at the same time as regularly scheduled elections for statewide or federal offices. All positions on the governing body must stand for election at the next election for the governing body, scheduled pursuant to this subsection (3). The governing body may subsequently choose to stagger the terms of its positions.

(d) The remedy must require that the political subdivision use the same method of election for its primary and general elections.

(4) Within thirty days of the conclusion of any action filed under RCW 29A.92.100, the political subdivision must publish on the subdivision's website, the outcome and summary of the action, as well as the legal costs incurred by the subdivision. If the political subdivision does not have its own website, then it may publish on the county website.

Sec. 3. RCW 35A.12.180 and 2019 c 454 s 7 are each amended to read as follows:

At any time not within three months previous to a municipal general election the council of a noncharter code city organized under this chapter may divide the city into wards or change the boundaries of existing wards. Unless the city is dividing into wards or changing the boundaries of existing wards under RCW 29A.92.040 or 29A.92.110, no change in the boundaries of wards shall affect the term of any councilmember, and councilmembers shall serve out their terms in the wards of their residences at the time of their elections: PROVIDED, That if this results in one ward being represented by more councilmembers than the number to which it is entitled those having the shortest unexpired terms shall be assigned by the council to wards where there is a vacancy, and the councilmembers so assigned shall be deemed to be residents of the wards to which they are assigned for purposes of those positions being vacant. The representation of each ward in the city council shall be in proportion to the population as nearly as is practicable.

If the city is dividing into wards or changing the boundaries of existing wards under RCW 29A.92.040 or 29A.92.110, all council positions are subject to election at the next regular election.

Wards shall be redrawn as provided in chapter 29A.76 RCW. Wards shall be used as follows: (1) Only a resident of the ward may be a candidate for, or hold office as, a councilmember of the ward; and (2) only voters of the ward may vote ~~((at a primary))~~ to nominate or elect candidates for a councilmember of the ward. ~~((Voters of the entire city may vote at the general election to elect a councilmember of a ward, unless the city had prior to January 1, 1994, limited the voting in the general election for any or all council positions to only voters residing within the ward associated with the council positions. If a city had so limited the voting in the general election to only voters residing within the ward, then the city shall be authorized to continue to do so.))~~

Sec. 4. RCW 35.23.051 and 2019 c 454 s 5 are each amended to read as follows:

General municipal elections in second-class cities shall be held biennially in the odd-numbered years and shall be subject to general election law.

The terms of office of the mayor, city attorney, clerk, and treasurer shall be four years and until their successors are elected and qualified and assume office in accordance with RCW 29A.60.280: PROVIDED, That if the offices of city attorney, clerk, and treasurer are made appointive, the city attorney, clerk, and treasurer shall not be appointed for a definite term: PROVIDED FURTHER, That the term of the elected treasurer shall not commence in the same biennium in which the term of

the mayor commences, nor in which the terms of the city attorney and clerk commence if they are elected.

Council positions shall be numbered in each second-class city so that council position seven has a two-year term of office and council positions one through six shall each have four-year terms of office. Each councilmember shall remain in office until a successor is elected and qualified and assumes office in accordance with RCW 29A.60.280.

In its discretion the council of a second-class city may divide the city by ordinance, into a convenient number of wards, not exceeding six, fix the boundaries of the wards, and change the ward boundaries from time to time and as provided in RCW 29A.76.010. No change in the boundaries of any ward shall be made within one hundred twenty days next before the date of a general municipal election, nor within twenty months after the wards have been established or altered unless pursuant to RCW 29A.92.040 or 29A.92.110. However, if a boundary change results in one ward being represented by more councilmembers than the number to which it is entitled, those having the shortest unexpired terms shall be assigned by the council to wards where there is a vacancy, and the councilmembers so assigned shall be deemed to be residents of the wards to which they are assigned for purposes of determining whether those positions are vacant.

Whenever such city is so divided into wards, the city council shall designate by ordinance the number of councilmembers to be elected from each ward, apportioning the same in proportion to the population of the wards. Thereafter the councilmembers so designated shall be elected by the voters resident in such ward (~~or by general vote of the whole city as may be designated in such ordinance~~). Council position seven shall not be associated with a ward and the person elected to that position may reside anywhere in the city and voters throughout the city may vote at a primary to nominate candidates for position seven, when a primary is necessary, and at a general election to elect the person to council position seven. Additional territory that is added to the city shall, by act of the council, be annexed to contiguous wards without affecting the right to redistrict at the expiration of twenty months after last previous division. The removal of a councilmember from the ward for which he or she was elected shall create a vacancy in such office.

Wards shall be redrawn as provided in chapter 29A.76 RCW. Wards shall be used as follows: (1) Only a resident of the ward may be a candidate for, or hold office as, a councilmember of the ward; and (2) only voters of the ward may vote (~~(at a primary)~~) to nominate or elect candidates for a councilmember of the ward. (~~(Voters of the entire city may vote at the general election to elect a councilmember of a ward, unless the city had prior to January 1, 1994, limited the voting in the general election for any or all council positions to only voters residing within the ward associated with the council positions. If a city had so limited the voting in the general election to only voters residing within the ward, then the city shall be authorized to continue to do so.)~~) The elections for the remaining council position or council positions that are not associated with a ward shall be conducted as if the wards did not exist.

Sec. 5. RCW 36.32.050 and 2018 c 301 s 7 are each amended to read as follows:

~~((1) Except as provided otherwise in subsection (2) of this section or this chapter, county commissioners shall be elected by the qualified voters of the county and the person receiving the highest number of votes for the office of commissioner for the district in which he or she resides shall be declared duly elected from that district.~~

~~(2) Beginning in 2022, in any noncharter county with a population of four hundred thousand or more, county) County~~

The person receiving the highest number of votes at a general election for the office of commissioner for the district in which he or she resides must be declared duly elected from that district.

Sec. 6. RCW 52.14.013 and 2019 c 454 s 8 are each amended to read as follows:

The board of fire commissioners of a fire protection district may adopt a resolution by unanimous vote causing a ballot proposition to be submitted to voters of the district authorizing the creation of commissioner districts. The board of fire commissioners shall create commissioner districts if the ballot proposition authorizing the creation of commissioner districts is approved by a simple majority vote of the voters of the fire protection district voting on the proposition. Three commissioner districts shall be created for a fire protection district with three commissioners, five commissioner districts shall be created for a fire protection district with five commissioners, and seven commissioner districts shall be created for a fire protection district with seven commissioners. No two commissioners may reside in the same commissioner district.

No change in the boundaries of any commissioner district shall be made within one hundred twenty days next before the date of a general district election, nor within twenty months after the commissioner districts have been established or altered unless pursuant to RCW 29A.92.040 or 29A.92.110. However, if a boundary change results in one commissioner district being represented by two or more commissioners, those commissioners having the shortest unexpired terms shall be assigned by the commission to commissioner districts where there is a vacancy, and the commissioners so assigned shall be deemed to be residents of the commissioner districts to which they are assigned for purposes of determining whether those positions are vacant.

The population of each commissioner district shall include approximately equal population. Commissioner districts shall be redrawn as provided in chapter 29A.76 RCW. Commissioner districts shall be used as follows: (1) Only a registered voter who resides in a commissioner district may be a candidate for, or serve as, a commissioner of the commissioner district; and (2) only voters of a commissioner district may vote (~~(at a primary)~~) to nominate or elect candidates for a commissioner of the commissioner district. (~~(Voters of the entire fire protection district may vote at a general election to elect a person as a commissioner of the commissioner district.)~~)

When a board of fire commissioners that has commissioner districts has been increased to five or seven members under RCW 52.14.015, the board of fire commissioners shall divide the fire protection district into five or seven commissioner districts before it appoints the two or four additional fire commissioners. The two or four additional fire commissioners who are appointed shall reside in separate commissioner districts in which no other fire commissioner resides.

Sec. 7. RCW 53.12.010 and 2022 c 47 s 1 are each amended to read as follows:

Every port district that is not coextensive with a county having a population of five hundred thousand or more shall be divided into the same number of commissioner districts as there are commissioner positions, each having approximately equal population, unless provided otherwise under subsection (2) of this section. Where a port district with three commissioner positions is coextensive with the boundaries of a county that has a population of less than five hundred thousand and the county has three county legislative authority districts, the port commissioner

In other instances where a port district is divided into commissioner districts, the port commission shall divide the port district into commissioner districts unless the commissioner districts have been described pursuant to RCW 53.04.031. The commissioner districts shall be altered as provided in chapter 53.16 RCW.

Commissioner districts shall be used as follows: (a) Only a registered voter who resides in a commissioner district may be a candidate for, or hold office as, a commissioner of the commissioner district; and (b) only the voters of a commissioner district may vote ~~((at a primary))~~ to nominate or elect candidates for a commissioner of the commissioner district. ~~((Voters of the entire port district may vote at a general election to elect a person as a commissioner of the commissioner district.))~~

(2)(a) In port districts with five commissioners, two of the commissioner districts may include the entire port district if approved by the voters of the district either at the time of formation or at a subsequent port district election at which the issue is proposed pursuant to a resolution adopted by the board of commissioners and delivered to the county auditor.

(b) In a port district with five commissioners, where two of the commissioner districts include the entire port district, the port district may be divided into five commissioner districts if proposed pursuant to a resolution adopted by the board of commissioners or pursuant to a petition by the voters and approved by the voters of the district at the next general or special election occurring sixty or more days after the adoption of the resolution. A petition proposing such an increase must be submitted to the county auditor of the county in which the port district is located and signed by voters of the port district at least equal in number to ten percent of the number of voters in the port district who voted at the last general election.

Upon approval by the voters, the commissioner district boundaries shall be redrawn into five districts prior to the first day of January in the year in which the two additional commissioners shall be elected and submitted to the county auditor pursuant to RCW 53.16.015. The new commissioner districts shall be numbered one through five and the three incumbent commissioners representing the three former districts shall represent commissioner districts one through three. The two at large incumbent commissioners shall represent commissioner districts four and five. If, as a result of redrawing the district boundaries more than one of the incumbent commissioners resides in one of the new commissioner districts, the commissioners who reside in the same commissioner district shall determine by lot which of the numbered commissioner districts they shall represent for the remainder of their respective terms.

Sec. 8. RCW 54.12.010 and 2018 c 113 s 210 are each amended to read as follows:

The powers of the public utility district shall be exercised through a commission consisting of three members in three commissioner districts, and five members in five commissioner districts.

(1) If the public utility district is countywide and the county has three county legislative authority districts, then, at the first election of commissioners and until any change is made in the boundaries of public utility district commissioner districts, one public utility district commissioner shall be chosen from each of the three county legislative authority districts.

(2) If the public utility district comprises only a portion of the county, with boundaries established in accordance with chapter 54.08 RCW, or if the public utility district is countywide and the county does not have three county legislative authority districts, three public utility district commissioner districts, numbered consecutively, each with approximately equal population and following precinct lines, as far as practicable, shall be described in the petition for the formation of the public utility district, subject to appropriate change by the county legislative authority if and when it changes the boundaries of the proposed public utility district. One commissioner shall be elected as a commissioner of each of the public utility district commissioner districts.

(3) Only a registered voter who resides in a commissioner district may be a candidate for, or hold office as, a commissioner of the commissioner district. Only voters of a commissioner district may vote ~~((at a primary))~~ to nominate or elect candidates for a commissioner of the commissioner district. ~~((Voters of the entire public utility district may vote at a general election to elect a person as a commissioner of the commissioner district.))~~

(4) The term of office of each public utility district commissioner other than the commissioners at large shall be six years, and the term of each commissioner at large shall be four years. Each term shall be computed in accordance with RCW 29A.60.280 following the commissioner's election. All public utility district commissioners shall hold office until their successors shall have been elected and have qualified and assume office in accordance with RCW 29A.60.280.

(5) A vacancy in the office of public utility district commissioner shall occur as provided in chapter 42.12 RCW or by nonattendance at meetings of the public utility district commission for a period of sixty days unless excused by the public utility district commission. Vacancies on a board of public utility district commissioners shall be filled as provided in chapter 42.12 RCW.

(6) The boundaries of the public utility district commissioner districts may be changed only by the public utility district commission or by a court order issued pursuant to RCW 29A.92.110, and shall be examined every ten years to determine substantial equality of population in accordance with chapter 29A.76 RCW. Except as provided in this section, RCW 29A.92.110, RCW 54.04.039, or in the case of an intervening census, the boundaries shall not be changed more often than once in four years. Boundaries may only be changed when all members of the commission are present. Whenever territory is added to a public utility district under RCW 54.04.035, or added or withdrawn under RCW 54.04.039, the boundaries of the public utility commissioner districts shall be changed to include the additional or exclude the withdrawn territory. Unless the boundaries are changed pursuant to RCW 54.04.039, the proposed change of the boundaries of the public utility district commissioner district must be made by resolution and after public hearing. Notice of the time of the public hearing shall be published for two weeks before the hearing. Upon a referendum petition signed by ten percent of the qualified voters of the public utility district being filed with the county auditor, the county legislative authority shall submit the proposed change of boundaries to the voters of the public utility district for their approval or rejection. SECOND READING

HOUSE BILL NO. 1308, by Representatives Stonier, Dye, Ortiz-Self, Tharinger, Riccelli, Reed and Pollet

Concerning high school graduation pathway options.

The measure was read the second time.

MOTION

Senator Wellman moved that the following committee striking amendment by the Committee on Early Learning & K-12 Education be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) In 2019 the legislature created a system of multiple graduation pathway options, which took effect beginning with the class of 2020. The legislature intended for the graduation pathways to be student-focused, adaptable, rigorous, and meaningful ways for students to demonstrate appropriate readiness in support of their individualized career and college goals.

(2) The legislature anticipated that school districts might face barriers to implementing the pathways and students might face barriers to accessing the pathway options. The legislature charged the state board of education with research on the first three years of implementation to identify barriers and provide recommendations for changes to the existing pathways and additional pathway options.

(3) While implementation of the graduation pathway options was significantly disrupted by the COVID-19 pandemic, the research on early implementation identified access and equity barriers that would exist even without the pandemic. The research shows that the initial set of graduation pathway options do not meet the needs of all students. The research found some students completing pathways that do not align with their individual goals for after high school, in which case the pathway is not serving its intended purpose. Overall, students, families, and educators report a need for additional relevant and authentic options.

(4) The legislature recognizes that students can demonstrate readiness in multiple ways and recognizes the need to expand graduation pathways in order to provide options that are student-focused, individualized, relevant, and that support all student needs. Research shows that performance-based assessments are valid ways of measuring students' readiness for success in college and careers. Further, research shows that performance-based assessments are associated with increased student engagement, skill development, critical thinking, and postsecondary success. The legislature recognizes that a performance-based graduation pathway option supports the state's transition to mastery-based learning.

(5) Therefore, the legislature intends to create graduation pathway options that allow students to demonstrate their readiness in performance-based ways, in addition to the existing test-based and course-based options. Further, the legislature intends to create ongoing requirements to monitor the graduation pathway options implementation at both the state and local levels to ensure accountability and equitable offerings. In providing a wider variety of graduation pathway options, the state maintains

its commitment to high standards for earning a meaningful high school diploma that prepares students for success in postsecondary education, gainful employment, civic engagement, and lifelong learning.

Sec. 2. RCW 28A.655.250 and 2021 c 7 s 3 are each amended to read as follows:

(1)(a) Beginning with the class of 2020, except as provided in RCW 28A.230.320, graduation from a public high school and the earning of a high school diploma must include the following:

(i) Satisfying the graduation requirements established by the state board of education under RCW 28A.230.090 and any graduation requirements established by the applicable public high school or school district;

(ii) Satisfying credit requirements for graduation;

(iii) Demonstrating career and college readiness through completion of the high school and beyond plan as required by RCW 28A.230.090; and

(iv) Meeting the requirements of at least one graduation pathway option established in this section.

(b) Successful completion of the components in (a) of this subsection together signals a student's readiness to graduate with a meaningful high school diploma that fulfills the diploma purpose established in RCW 28A.230.090.

(2) The pathway options established in this section are intended to provide a student with multiple ((pathways to graduating with a meaningful high school diploma that are tailored to the goals of the student)) ways, including test-based, course-based, and performance-based options, to demonstrate readiness in furtherance of the student's individual goals for high school and beyond. For the purposes of this section, "demonstrate readiness" means the student meets or exceeds state learning standards addressed in the pathway option. A student may choose to pursue one or more of the pathway options under ((b)) subsection (3) of this ((subsection)) section, but any pathway option used by a student to demonstrate career and college readiness must be in alignment with the student's high school and beyond plan.

(((b))) (3) The following graduation pathway options may be used to demonstrate career and college readiness in accordance with (((a)(iv))) subsection (1)(a)(iv) of this ((subsection)) section:

(((i))) (a) Meet or exceed the graduation standard established by the state board of education under RCW 28A.305.130 on the statewide high school assessments in English language arts and mathematics as provided for under RCW 28A.655.070;

(((ii))) (b) Complete and qualify for college credit in dual credit courses in English language arts and mathematics. For the purposes of this subsection, "dual credit course" means a course in which a student qualifies for college and high school credit in English language arts or mathematics upon successfully completing the course;

(((iii))) (c) Earn high school credit in a high school transition course in English language arts and mathematics, an example of which includes a bridge to college course. For the purposes of this subsection (((1)(b)(iii))) (3)(c), "high school transition course" means an English language arts or mathematics course offered in high school where successful completion by a high school student ensures the student college-level placement at participating institutions of higher education as defined in RCW 28B.10.016. High school transition courses must satisfy core or elective credit graduation requirements established by the state board of education. A student's successful completion of a high school transition course does not entitle the student to be admitted to an institution of higher education as defined in RCW 28B.10.016;

(((iv))) (d) Earn high school credit, with a C+ grade((, or receiving a three or higher on the AP exam, or equivalent,)) or

higher in AP, international baccalaureate, or Cambridge international courses in English language arts and mathematics; or ((receiving a four or higher on international baccalaureate exams. For English language arts, successfully completing any of the following courses meets the standard: AP English language and composition literature, macroeconomics, microeconomics, psychology, United States history, world history, United States government and politics, or comparative government and politics; or any of the international baccalaureate individuals and societies courses. For mathematics, successfully completing any of the following courses meets the standard: AP statistics, computer science, computer science principles, or calculus; or any of the international baccalaureate mathematics courses)) earn at least the minimum scores outlined in RCW 28B.10.054(1) on the corresponding exams. The state board of education shall establish by rule the list of AP, international baccalaureate, and Cambridge international courses of which successful completion meets the standard in this subsection for English language arts and for mathematics;

(((v))) (e) Meet or exceed the scores established by the state board of education for the mathematics portion and the reading, English, or writing portion of the SAT or ACT;

(((vi))) (f)(i) Complete a performance-based learning experience through which the student demonstrates knowledge and skills in a real-world context, providing evidence that the student meets or exceeds state learning standards in English language arts and mathematics. The performance-based learning experience may take a variety of forms, such as a project, practicum, work-related experience, community service, or cultural activity, and may result in a variety of products that can be evaluated, such as a performance, presentation, portfolio, report, film, or exhibit.

(ii) The performance-based learning experience must conform to state requirements established in rule by the state board of education addressing the safety and quality of the performance-based learning experience and the authentic performance-based assessment criteria for determining the student has demonstrated the applicable learning standards. The rules adopted by the state board of education may allow external parties, including community leaders and professionals, to participate in the evaluation of the student's performance and must include at least one certificated teacher with an endorsement in each relevant subject area or with other applicable qualifications as permitted by the professional educator standards board.

(iii) To support implementation of the performance-based learning experience graduation pathway option, the state board of education shall establish graduation proficiency targets and associated rubrics aligned with state learning standards in English language arts and mathematics.

(iv) Prior to offering the performance-based learning experience graduation pathway option in this subsection (3)(f) to students, the school district board of directors shall adopt a written policy in conformity with applicable state requirements;

(g) Meet any combination of at least one English language arts option and at least one mathematics option established in (((b)(i) through (v))) (a) through (f) of this subsection (((1)));

(((vii))) (h) Meet standard in the armed services vocational aptitude battery; and

(((viii))) (i) Complete a sequence of career and technical education courses that are relevant to a student's postsecondary pathway, including those leading to workforce entry, state or nationally approved apprenticeships, or postsecondary education, and that meet either: The curriculum requirements of core plus programs for aerospace, maritime, health care, information

technology, or construction and manufacturing; or the minimum criteria identified in RCW 28A.700.030. Nothing in this subsection (((1)(b)(viii))) (3)(i) requires a student to enroll in a preparatory course that is approved under RCW 28A.700.030 for the purposes of demonstrating career and college readiness under this section.

((2)) (4) While the legislature encourages school districts to make all pathway options established in this section available to their high school students, and to expand their pathway options until that goal is met, school districts have discretion in determining which pathway options under this section they will offer to students.

((3)) School districts, however, must annually provide students in grades eight through 12 and their parents or legal guardians with comprehensive information about the graduation pathway options offered by the school district and are strongly encouraged to begin providing this information beginning in sixth grade. School districts must provide this information in a manner that conforms with the school district's language access policy and procedures as required under RCW 28A.183.040.

(5) The state board of education shall adopt rules to implement the graduation pathway options established in this section.

Sec. 3. RCW 28A.655.260 and 2021 c 144 s 3 are each amended to read as follows:

(1) The superintendent of public instruction shall collect the following information from school districts: Which of the graduation pathways under RCW 28A.655.250 are available to students at each of the school districts; and the number of students using each graduation pathway for graduation purposes. This information shall be reported annually to the education committees of the legislature beginning January 10, 2021. To the extent feasible, data on student participation in each of the graduation pathways shall be disaggregated by race, ethnicity, gender, and receipt of free or reduced-price lunch.

(2) ((Beginning August 1, 2019, the state board of education shall survey interested parties regarding what additional graduation pathways should be added to the existing graduation pathways identified in RCW 28A.655.250 and whether modifications should be made to any of the existing pathways. Interested parties shall include at a minimum: High school students; recent high school graduates; representatives from the state board for community and technical colleges and four-year higher education institutions; representatives from the apprenticeship and training council; associations representing business; members of the educational opportunity gap oversight and accountability committee; and associations representing educators, school board members, school administrators, superintendents, and parents. The state board of education shall provide reports to the education committees of the legislature by August 1, 2020, and December 10, 2022, summarizing the information collected in the surveys.

(3) Using the data reported by the superintendent of public instruction under subsection (1) of this section, the state board of education shall survey a sampling of the school districts unable to provide all of the graduation pathways under RCW 28A.655.250 in order to identify the types of barriers to implementation school districts have. Using the survey results from this subsection and the survey results collected under subsection (2) of this section, the state board of education shall review the existing graduation pathways, suggested changes to those graduation pathways, and the options for additional graduation pathways, and shall provide a report to the education committees of the legislature by December 10, 2022, on the following:

(a) Recommendations on whether changes to the existing pathways should be made and what those changes should be;

(b) The barriers school districts have to offering all of the graduation pathways and recommendations for ways to eliminate or reduce those barriers for school districts;

(c) Whether all students have equitable access to all of the graduation pathways and, if not, recommendations for reducing the barriers students may have to accessing all of the graduation pathways; and

(d) Whether additional graduation pathways should be included and recommendations for what those pathways should be)
The state board of education shall review and monitor the implementation of the graduation pathway options to ensure school district compliance with requirements established under RCW 28A.655.250 and subsection (3) of this section. The reviews and monitoring required by this subsection may be conducted concurrently with other oversight and monitoring conducted by the state board of education. The information shall be collected annually and reported to the education committees of the legislature by January 10, 2025, and biennially thereafter.

(3)(a) At least annually, school districts shall examine data on student groups participating in and completing each graduation pathway option offered by the school district. At a minimum, the data on graduation pathway participation and completion must be disaggregated by the student groups described in RCW 28A.300.042 (1) and (3), and by:

(i) Gender;

(ii) Students who are the subject of a dependency proceeding pursuant to chapter 13.34 RCW;

(iii) Students who are experiencing homelessness as defined in RCW 28A.300.542(4); and

(iv) Multilingual/English learners.

(b) If the results of the analysis required under (a) of this subsection show disproportionate participation and completion rates by student groups, then the school district shall identify reasons for the observed disproportionality and implement strategies as appropriate to ensure the graduation pathway options are equitably available to all students in the school district."

(1) Beginning August 1, 2023, public schools must:

This requirement as it relates to students and families may be satisfied by using the model student handbook language in section 1 of this act.

(2) Public schools are encouraged to comply with both subsection (1)(b)(i) and (ii) of this section.

(3) By July 1, 2022, the office of the education ombuds must develop a template of the information described in subsection (1) of this section. The template must be translated into Spanish and into other languages as resources allow. The template must be made available upon request and updated as needed.

(4) For the purposes of this section, "public schools" has the same meaning as in RCW 28A.150.010.

NEW SECTION. Sec. 7. A new section is added to chapter 28A.600 RCW to read as follows:

(1) The legislature recognizes that public schools have the authority to immediately remove a student from school if the student poses an immediate and continuing danger to other students or to school staff, or if the student poses an immediate and continuing threat of material and substantial disruption of the education process. The legislature acknowledges that emergency expulsion is limited to 10 consecutive school days, the school must provide an opportunity for the student to receive educational services during the emergency expulsion, and both the emergency expulsion and any suspension or expulsion that the emergency expulsion is converted to can be appealed. However, the legislature finds that emergency expulsion tarnishes a student's reputation and self-image, which can result in school staff, fellow students, or the student's families making

assumptions about the student, and, in some cases, these assumptions result in harassment, intimidation, or bullying of the student. Therefore, the legislature intends to discontinue the use of the prejudicial term "emergency expulsion," and replace it with the term "emergency removal," which is a more accurate description of the temporary removal of a student from school to assess and properly respond to an emergent situation involving the student.

(2) As soon as possible after the effective date of this section, the office of the superintendent of public instruction must publish a bulletin to notify school districts and public schools that the term "emergency removal" must be used instead of the term "emergency expulsion" in the context of student discipline and as required by RCW 28A.300.042 and 28A.600.015. The legislature's intent as described in subsection (1) of this section must be included in the bulletin. The bulletin must also include guidance about student discipline data collection and historical data comparison.

(3) A student who was emergency expelled between September 1, 2019, and the effective date of this section may request that any reference to "emergency expulsion" in the student's education record be revised to "emergency removal."

Sec. 8. RCW 28A.300.042 and 2016 c 72 s 501 are each amended to read as follows:

(1) Beginning with the 2017-18 school year, and using the phase-in provided in subsection (2) of this section, the superintendent of public instruction must collect and school districts must submit all student-level data using the United States department of education 2007 race and ethnicity reporting guidelines, including the subracial and subethnic categories within those guidelines, with the following modifications:

(a) Further disaggregation of the Black category to differentiate students of African origin and students native to the United States with African ancestors;

(b) Further disaggregation of countries of origin for Asian students;

(c) Further disaggregation of the White category to include subethnic categories for Eastern European nationalities that have significant populations in Washington; and

(d) For students who report as multiracial, collection of their racial and ethnic combination of categories.

(2) Beginning with the 2017-18 school year, school districts shall collect student-level data as provided in subsection (1) of this section for all newly enrolled students, including transfer students. When the students enroll in a different school within the district, school districts shall resurvey the newly enrolled students for whom subracial and subethnic categories were not previously collected. School districts may resurvey other students.

(3) All student data-related reports required of the superintendent of public instruction in this title must be disaggregated by at least the following subgroups of students: White, Black, Hispanic, American Indian/Alaskan Native, Asian, Pacific Islander/Hawaiian Native, low income, transitional bilingual, migrant, special education, and students covered by section 504 of the federal rehabilitation act of 1973, as amended (29 U.S.C. Sec. 794).

(4) All student data-related reports prepared by the superintendent of public instruction regarding student suspensions and expulsions as required under this title are subject to disaggregation by subgroups including:

(a) Gender;

(b) Foster care;

(c) Homeless, if known;

(d) School district;

(e) School;

Sec. 9. RCW 28A.600.015 and 2016 c 72 s 105 are each amended to read as follows:

(1) The superintendent of public instruction shall adopt and distribute to all school districts lawful and reasonable rules prescribing the substantive and procedural due process guarantees of pupils in the common schools. Such rules shall authorize a school district to use informal due process procedures in connection with the short-term suspension of students to the extent constitutionally permissible: PROVIDED, That the superintendent of public instruction deems the interest of students to be adequately protected. When a student suspension or expulsion is appealed, the rules shall authorize a school district to impose the suspension or expulsion temporarily after an initial hearing for no more than ~~((ten))~~ 10 consecutive school days or until the appeal is decided, whichever is earlier. Any days that the student is temporarily suspended or expelled before the appeal is decided shall be applied to the term of the student suspension or expulsion and shall not limit or extend the term of the student

suspension or expulsion. An expulsion or suspension of a student may not be for an indefinite period of time.

(2) Short-term suspension procedures may be used for suspensions of students up to and including, ~~((ten))~~ 10 consecutive school days.

(3) Emergency ~~((expulsions))~~ removals must end or be converted to another form of corrective action within ten school days from the date of the emergency removal from school. Notice and due process rights must be provided when an emergency ~~((expulsion))~~ removal is converted to another form of corrective action.

(4) School districts may not impose long-term suspension or expulsion as a form of discretionary discipline.

(5) Any imposition of discretionary and nondiscretionary discipline is subject to the bar on suspending the provision of educational services pursuant to subsection (8) of this section.

(6) As used in this chapter, "discretionary discipline" means a disciplinary action taken by a school district for student behavior that violates rules of student conduct adopted by a school district board of directors under RCW 28A.600.010 and this section, but does not constitute action taken in response to any of the following:

(a) A violation of RCW 28A.600.420;

(b) An offense in RCW 13.04.155;

(c) Two or more violations of RCW 9A.46.120, 9.41.280, 28A.600.455, 28A.635.020, or 28A.635.060 within a three-year period; or

(d) Behavior that adversely impacts the health or safety of other students or educational staff.

(7) Except as provided in RCW 28A.600.420, school districts are not required to impose long-term suspension or expulsion for behavior that constitutes a violation or offense listed under subsection (6)(a) through (d) of this section and should first consider alternative actions.

(8) School districts may not suspend the provision of educational services to a student as a disciplinary action. A student may be excluded from a particular classroom or instructional or activity area for the period of suspension or expulsion, but the school district must provide an opportunity for a student to receive educational services during a period of suspension or expulsion.

(9) Nothing in this section creates any civil liability for school districts, or creates a new cause of action or new theory of negligence against a school district board of directors, a school district, or the state."

Allotment modifications may not permit moneys that are provided solely for a specified purpose to be used for another purpose. However, between October 1, 2023, and March 1, 2024, subject to subsection (2)(a) of this section, the department of transportation may transfer state appropriation authority for the 2023-2025 fiscal biennium among operating programs after approval by the director of the office of financial management.

(2)(a) To ensure that staffing vacancy savings assumed in this act do not impair the ability of each individual program to fill authorized staffing positions, maintain operational capacity, and provide anticipated service delivery levels, the department of

transportation may, after approval by the director of the office of financial management: (i) Transfer state motor vehicle fund and multimodal transportation account appropriation authority among operating programs, up to the amount of the assumed vacancy savings in each program receiving the transfer; and (ii) make associated staffing-related allotment modifications associated with expenditures for fiscal year 2024. However, transfers authorized in this section may not include the toll operations and maintenance program (program B) or the marine operations program (program X) appropriation authority or allotments, and transfers may only be made within each specific fund source. The department may not transfer appropriation authority, and the director of the office of financial management may not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds and not federal funds.

(b) The director of the office of financial management shall notify in writing the transportation committees of the legislature seven days before approving any allotment modifications or transfers under this section. The written notification must include a narrative explanation and justification of the changes, along with expenditures and allotments by programs and appropriation, both before and after any allotment modifications or transfers.

Freight Mobility Investment Account—State Appropriation	\$20,808,000
Freight Mobility Multimodal Account—State Appropriation	\$23,453,000
TOTAL APPROPRIATION	\$44,261,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as otherwise provided in this section, the entire appropriations in this section are provided solely for the projects by amount, as listed in the LEAP Transportation Document 2023-2 ALL PROJECTS as developed March 29, 2023, Freight Mobility Strategic Investment Board (FMSIB).

(2) It is the intent of the legislature to continue to make strategic investments in a statewide freight mobility transportation system with the help of the freight mobility strategic investment board, including projects that mitigate the impact of freight movement on local communities. To that end, and in coordination with the department of transportation as it updates its federally compliant freight plan, the board is directed to identify the highest priority freight investments for the state, across freight modes, state and local jurisdictions, and regions of the state.

(3)(a) For the 2023-2025 project appropriations, unless otherwise provided in this act, the director of the office of financial management may authorize a transfer of appropriation authority between projects managed by the freight mobility strategic investment board in order for the board to manage project spending and support the efficient and timely delivery of all projects in the program. The office of financial management may authorize a transfer of appropriation authority between projects under the following conditions and limitations:

(i) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;

(ii) Each transfer between projects may only occur if the director of the office of financial management finds that any resulting change will not hinder the completion of the projects on LEAP Transportation Document 2023-2 ALL PROJECTS as developed March 29, 2023;

(iii) Transfers between projects may be made by the board without the formal written approval provided under this subsection (3)(a), provided that the transfer amount does not exceed \$250,000 or 10 percent of the total project, whichever is less. These transfers must be reported to the director of the office of financial management and the chairs of the house of representatives and senate transportation committees; and

(iv) Except for transfers made under (a)(iii) of this subsection, transfers may only be made in fiscal year 2024.

(b) At the time the board submits a request to transfer funds under this section, a copy of the request must be submitted to the chairs and ranking members of the transportation committees of the legislature.

(c) Before approval, the office of financial management shall work with legislative staff of the house of representatives and senate transportation committees to review the requested transfers in a timely manner and consider any concerns raised by the chairs and ranking members of the transportation committees.

(d) No fewer than 10 days after the receipt of a project transfer request, the director of the office of financial management must provide written notification to the board of any decision regarding project transfers, with copies submitted to the transportation committees of the legislature.

(4) \$12,000,000 of the freight mobility investment account—state appropriation is provided solely for further refinement, and actual implementation, of the 2021 joint transportation committee truck parking action plan in the 2023-2025 fiscal biennium. A report identifying a proposed phased implementation, including specific action steps for the 2023-2025 fiscal biennium, must be transmitted to the office of financial management and the transportation committees of the legislature by June 30, 2024. The refined truck parking action plan must include, but is not limited to:

(a) Establishment of a truck parking implementation work group;

(b) Comprehensive identification of Washington state department of transportation and private land parcels for potential development as potential truck parking sites;

(c) A list of options to support increased truck parking including: (i) Incentives for expanding truck parking locations, including an emphasis on alternative fuel infrastructure; and (ii) creating state supported shuttle service to provide access to food, restrooms, and shower facilities at some locations;

(d) Conversion of vacant land adjacent to an existing rest area on state route number 906 to allow additional truck parking near Snoqualmie Pass. The refinement of the truck parking action plan must not prevent progress on this specific action step during the 2023-2025 fiscal biennium;

(e) Feasibility analysis of sites adjacent to Interstate 90 in the vicinity of the city of North Bend as a truck stop facility with the potential for 400 to 600 truck parking spaces;

(f) Evaluation and commencement of improvements reconfiguring public rest areas to increase truck parking availability. The refinement of the truck parking action plan and the development of the rest area strategic plan must not prevent progress on this specific action step during the 2023-2025 fiscal biennium;

(g) Additional outreach to state, local, and regional partners, and integration of truck parking considerations into state and local growth management and land use decision-making processes;

(h) Specific review of potential restroom facility improvements at weigh stations for truck driver use; and

(i) A feasibility analysis of expanding the truck parking availability system beyond the current locations and possibly

integrating parking availability in private lots that voluntarily allow truck parking.

TOTAL APPROPRIATION\$25,564,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$4,025,000 of the motor vehicle account—state appropriation is provided solely for payments of a financing contract issued pursuant to chapter 39.94 RCW for the department facility located at 15700 Dayton Ave N in Shoreline. In using the funds appropriated in this subsection, the department, with periodic reporting to the joint transportation committee, must develop and implement a prioritization of facility capital preservation needs and repair projects. The legislature intends these to be reasonable, forward-thinking investments that consider potential future space efficiency measures and consolidations, including those assessed as having high commercial value and potential returns to state transportation funds associated with the sale of the property. Prioritization must be based on, but not limited to, the following criteria: (i) Employee safety and facility security; (ii) state and federal regulatory and statutory requirements and compliance issues; (iii) quality of work issues; (iv) facility condition assessment evaluations and scoring; (v) asset preservation; and (vi) amount of operational support provided by the facility to the achievement of the department's performance measures and outcomes, including facility utilization based on field operations work supported at the location. The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire connecting Washington account—state appropriation, the entire move ahead WA account—federal appropriation, the entire move ahead WA account—state appropriation, and the entire transportation partnership account—state appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document 2023-1 as developed March 29, 2023, Program - Highway Improvements Program (I). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 601 of this act.

(2) Except as provided otherwise in this section, the entire motor vehicle account—state appropriation and motor vehicle account—federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document 2023-2 as developed March 29, 2023, Program - Highway Improvements Program (I). Any federal funds gained through efficiencies, adjustments to the federal funds forecast, or the federal funds redistribution process must then be applied to bridge preservation activities.

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer appropriation authority between programs I and P, except for appropriation authority that is otherwise restricted in this act, as follows:

(a) Ten days prior to any transfer, the department must submit its request to the office of financial management and the transportation committees of the legislature and consider any concerns raised.

(b) The director of the office of financial management must first provide written authorization for such transfer to the department and the transportation committees of the legislature.

(c) The department shall submit a report on appropriation authority transferred in the prior fiscal year using this subsection as part of the department's annual budget submittal.

(6) The transportation partnership account—state appropriation includes up to \$32,643,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

(7) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(8) By June 30, 2025, to the extent practicable, the department shall decommission the facilities for the Lacey project engineering office and the Tumwater project engineering office at the end of their lease terms and consolidate the Lacey project engineering office and the Tumwater project engineering office into the department's Olympic regional headquarters.

(9) The legislature intends that any savings realized on the following projects will not be attributable to the application of practical design, retired risk, or unused contingency funding for the purposes of RCW 47.01.480:

(a) I-5/Marvin Road/SR 510 Interchange (L1100110); and

(b) I-82/EB WB On and Off Ramps (L2000123).

(10) \$300,000,000 of the coronavirus state fiscal recovery fund—federal appropriation, \$390,771,000 of the motor vehicle account—federal appropriation, \$349,341,000 of the move ahead WA account—state appropriation, and \$1,293,000 of the motor vehicle account—state appropriation are provided solely for the Fish Passage Barrier Removal project (OB14001) with the intent of fully complying with the federal *U.S. v. Washington* court injunction by 2030. The fish passage barrier removal program, in consultation with the office of innovative partnerships, shall explore opportunities to employ innovative delivery methods to ensure compliance with the court injunction including, but not limited to, public-private partnerships and batched contracts. It is the intent of the legislature that appropriations for this purpose may be used to jointly leverage state and local funds for match requirements in applying for competitive federal aid grants provided in the infrastructure investment and jobs act for removals of fish passage barriers under the national culvert removal, replacement, and restoration program. State funds used for the purpose described in this subsection must not compromise full compliance with the court injunction by 2030.

(11)(a) \$6,000,000 of the move ahead WA account—state appropriation is provided solely for the Stormwater Retrofits and Improvements project (L4000040). It is the intent of the legislature, over the 16-year move ahead WA investment program, to provide \$500,000,000 for this project.

(b) The appropriation in this subsection is provided solely for the Urban Stormwater Partnership - I-5 Ship-Canal Bridge Pilot (Seattle) project.

(c) The funding provided for stormwater retrofits and improvements must enhance stormwater runoff treatment from existing roads and infrastructure with an emphasis on green infrastructure retrofits. Projects must be prioritized based on benefits to salmon recovery and ecosystem health, reducing toxic pollution, addressing health disparities, and cost-effectiveness. The department of transportation must submit progress reports on its efforts to reduce the toxicity of stormwater runoff from existing infrastructure, recommendations for addressing barriers

to innovative solutions, and anticipated demand for funding each fiscal biennium.

(12) \$35,465,000 of the connecting Washington account—state appropriation is provided solely for the SR 3 Freight Corridor (T30400R) project. The legislature intends to provide a total of \$78,910,000 for this project, including an increase of \$12,000,000 in future biennia to safeguard against inflation and supply/labor interruptions and ensure that:

(a) The northern terminus remains at Lake Flora Road and the southern terminus at the intersection of SR 3/SR 302;

(b) Multimodal safety improvements at the southern terminus remain in the project to provide connections to North Mason school district and provide safe routes to schools; and

(c) Intersections on the freight corridor are constructed at Romance Hill and Log Yard road.

(13) \$6,000,000 of the move ahead WA account—state appropriation and \$10,000,000 of the move ahead WA account—federal appropriation are provided solely for the SR 3/Gorst Area - Widening project (L4000017). Tribal consultation with the Suquamish tribe must begin at the earliest stage of planning, including, without limitation, all funding decisions and funding programs, to provide a government-to-government mechanism for the tribe to evaluate, identify, and expressly notify governmental entities of any potential impacts to tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which the tribe possesses rights reserved or protected by federal treaty, statute, or executive order. The consultation is independent of, and in addition to, any public participation process required under state law, or by a state agency, including the requirements of Executive Order 21-02 related to archaeological and cultural resources, and regardless of whether the agency receives a request for consultation from the Suquamish tribe. Regularly scheduled tribal consultation meetings with the Suquamish tribe must continue throughout the duration of any funding program and proposed project approval.

(14)(a) \$84,500,000 of the move ahead WA account—federal appropriation, \$137,500,000 of the move ahead WA account—private/local appropriation, and \$53,000,000 of the move ahead WA account—state appropriation are provided solely for the I-5 Columbia river bridge project (L4000054). The legislature finds that the replacement of the I-5 Columbia river bridge is a project of national significance and is critical for the movement of freight. One span is now 105 years old, at risk for collapse in the event of a major earthquake, and no longer satisfies the needs of commerce and travel. Replacing the aging interstate bridge with a modern, seismically resilient, multimodal structure that provides improved mobility for people, goods, and services is a high priority. Therefore, the legislature intends to support the replacement of the I-5 Columbia river bridge with an investment of \$1,000,000,000 over the 16-year move ahead WA investment program.

(b) The legislature recognizes the importance of the I-5/Mill Plain Boulevard project (L2000099) and intends to provide funding for reconstruction of the existing interchange in conjunction with construction of the Interstate 5 bridge over the Columbia river.

(15) Consistent with section 607 of this act, the department must adjust the scope of the I-5 JBLM Corridor Improvements project (M00100R) through the application of value engineering, practical design, or other planning techniques to match the funding provided for this project in the LEAP transportation document referenced in subsection (1) of this section.

(16) \$19,000,000 of the connecting Washington account—state appropriation is provided solely for the I-5/116th

EIGHTY SEVENTH DAY, APRIL 5, 2023

Street NE, 88th Street NE, and SR 528/Marine Drive Interchange project (T20700SC). It is the intent of the legislature that this amount be added to the amount provided for this project on the LEAP lists referenced in this section.

(17) The legislature recognizes the importance of the US-12/Walla Walla Corridor Improvements project (T20900R) and intends to advance funding to provide matching funds if competitive federal funding is awarded for the final remaining four-lane section between Wallula and Nine Mile Hill. The department, in consultation with local governments in the vicinity, must pursue any federal funding available.

(18) \$2,642,000 of the move ahead WA account—state appropriation is provided solely for the US 101/Simdars Bypass project (L4000013).

(19)(a) \$394,963,000 of the connecting Washington account—state appropriation, \$400,000 of the state route number 520 corridor account—state appropriation, and \$4,496,000 of the motor vehicle account—private/local appropriation are provided solely for the SR 520 Seattle Corridor Improvements - West End project (M00400R).

(b) Upon completion of the Montlake Phase of the West End project (current anticipated contract completion of 2023), the department shall sell that portion of the property not used for permanent transportation improvements and initiate a process to convey that surplus property to a subsequent owner.

(c) Of the amounts provided in this subsection, \$400,000 of the state route number 520 corridor account—state appropriation is provided solely for noise mitigation activities. It is the intent of the legislature to provide an additional \$600,000 for noise mitigation activities.

(20) \$25,000,000 of the motor vehicle account—federal appropriation is provided solely for a federal fund exchange pilot program. The pilot program must allow exchanges of federal surface transportation block grant population funding and state funds at an exchange rate of 90 cents in state funds per \$1.00 in federal funds. The projects receiving the exchanged federal funds must adhere to all federal requirements, including the applicable disadvantaged business enterprise goals. The entirety of the appropriation in this subsection must be held in unallotted status until surface transportation block grant population funding has been offered to the state, and the department determines that a federalized project or projects funded in this section is eligible to spend the surface transportation block grant population funding. \$22,500,000 from existing state appropriations identified elsewhere within this section are available to be used as part of the exchange. Upon determination that a project or projects funded in this section is eligible to spend the offered surface transportation block grant population funding, state funds appropriated in this section for the eligible state project or projects in an amount equal to 100 percent of the offered surface transportation block grant population funding must be placed in unallotted status.

By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all traffic operations capital project investments completed in the prior fiscal biennium. The legislature finds that the section of public roadway owned by the department that is located south of state route number 532 and west of Interstate 5 in the vicinity of the intersection of state route number 532 and 19th Avenue NW is no longer necessary for the state highway system. Therefore, pursuant to RCW 36.75.090, the department shall certify that the roadway is no longer needed by the state and convey the roadway to the county for continued use as a public highway for motor vehicle use. In consideration of the value of maintenance services provided by the county on the roadway during the time of department ownership, the department shall also convey to the county any access rights owned by the department limiting access to state route number 532 from 19th Avenue NW.

Sec. 714. RCW 47.12.063 and 2022 c 186 s 710 are each amended to read as follows:

(1) It is the intent of the legislature to continue the department's policy giving priority consideration to abutting property owners in agricultural areas when disposing of property through its surplus property program under this section.

(2) Whenever the department determines that any real property owned by the state of Washington and under the jurisdiction of the department is no longer required for transportation purposes and that it is in the public interest to do so, the department may sell the property or exchange it in full or part consideration for land or building improvements or for construction of highway improvements at fair market value to any person through the solicitation of written bids through public advertising in the manner prescribed under RCW 47.28.050 or in the manner prescribed under RCW 47.12.283.

(3) The department may forego the processes prescribed by RCW 47.28.050 and 47.12.283 and sell the real property to any of the following entities or persons at fair market value:

- (g) Any abutting private owner but only after each other abutting private owner (if any), as shown in the records of the county assessor, is notified in writing of the proposed sale. If more than one abutting private owner requests in writing the right to purchase the property within 15 days after receiving notice of the proposed sale, the property shall be sold at public auction in the manner provided in RCW 47.12.283;
- (h) To any other owner of real property required for transportation purposes;

(i) In the case of property suitable for residential use, any nonprofit organization dedicated to providing affordable housing to very low-income, low-income, and moderate-income households as defined in RCW 43.63A.510 and is eligible to

(4) When selling real property pursuant to RCW 47.12.283, the department may withhold or withdraw the property from an auction when requested by one of the entities or persons listed in subsection (3) of this section and only after the receipt of a nonrefundable deposit equal to 10 percent of the fair market value of the real property or \$5,000, whichever is less. This subsection does not prohibit the department from exercising its discretion to withhold or withdraw the real property from an auction if the department determines that the property is no longer surplus or chooses to sell the property through one of the other means listed in subsection (2) of this section. If a transaction under this subsection is not completed within 60 days, the real property must be put back up for sale.

(5) Sales to purchasers may, at the department's option, be for cash, by real estate contract, or exchange of land or highway improvements. Sec. 715. RCW 47.56.870 and 2010 c 248 s 2 are each amended to read as follows:

(1) The initial imposition of tolls on the state route number 520 corridor is authorized, the state route number 520 corridor is designated an eligible toll facility, and toll revenue generated in the corridor must only be expended as allowed under RCW 47.56.820.

(2) The state route number 520 corridor consists of that portion of state route number 520 between the junctions of Interstate 5 and state route number 202. The toll imposed by this section shall be charged only for travel on the floating bridge portion of the state route number 520 corridor. However, during the 2023-2025 fiscal biennium, a toll may also be charged for travel on the westbound state route number 520 on-ramp at 84th Avenue NE, subject to the conditions and limitations described in the pilot program and toll rates authorized under sections 205(6) and 209(6) of this act.

(3)(a) In setting the toll rates for the corridor pursuant to RCW 47.56.850, the tolling authority shall set a variable schedule of toll rates to maintain travel time, speed, and reliability on the corridor and generate the necessary revenue as required under (b) of this subsection.

(b) The tolling authority shall initially set the variable schedule of toll rates, which the tolling authority may adjust at least annually to reflect inflation as measured by the consumer price index or as necessary to meet the redemption of bonds and

interest payments on the bonds, to generate revenue sufficient to provide for:

(i) The issuance of general obligation bonds, authorized in RCW 47.10.879, first payable from toll revenue and then excise taxes on motor vehicle and special fuels pledged for the payment of those bonds in the amount necessary to fund the state route number 520 bridge replacement and HOV program, subject to subsection (4) of this section; and

(ii) Costs associated with the project designated in subsection (4) of this section that are eligible under RCW 47.56.820.

(4)(a) The proceeds of the bonds designated in subsection (3)(b)(i) of this section must be used only to fund the state route number 520 bridge replacement and HOV program; however, ~~((two hundred million dollars))~~ \$200,000,000 of bond proceeds, in excess of the proceeds necessary to complete the floating bridge segment and necessary landings, must be used only to fund the state route number 520, Interstate 5 to Medina bridge replacement and HOV project segment of the program, as identified in applicable environmental impact statements, and may be used to fund effective connections for high occupancy vehicles and transit for state route number 520, but only to the extent those connections benefit or improve the operation of state route number 520.

(b) The program must include the following elements within the cost constraints identified in section 1, chapter 472, Laws of 2009, consistent with the legislature's intent that cost savings applicable to the program stay within the program and that the bridge open to vehicular traffic in 2014:

(i) A project design, consistent with RCW 47.01.408, that includes high occupancy vehicle lanes with a minimum carpool occupancy requirement of three-plus persons on state route number 520;

(ii) High occupancy vehicle lane performance standards for the state route number 520 corridor established by the department. The department shall report to the transportation committees of the legislature when average transit speeds in the two lanes that are for high occupancy vehicle travel fall below ~~((forty five))~~ 45 miles per hour at least ten percent of the time during peak hours;

(iii) A work group convened by the mayor and city council of the city of Seattle to include sound transit, King county metro, the Seattle department of transportation, the department, the University of Washington, and other persons or organizations as designated by the mayor or city council to study and make recommendations of alternative connections for transit, including bus routes and high capacity transit, to the university link light rail line. The work group must consider such techniques as grade separation, additional stations, and pedestrian lids to effect these connections. The recommendations must be alternatives to the transit connections identified in the supplemental draft environmental impact statement for the state route number 520 bridge replacement and HOV program released in January 2010, and must meet the requirements under RCW 47.01.408, including accommodating effective connections for transit. The recommendations must be within the scope of the supplemental draft environmental impact statement. For the purposes of this section, "effective connections for transit" means a connection that connects transit stops, including high capacity transit stops, that serve the state route number 520/Montlake interchange vicinity to the university link light rail line, with a connection distance of less than ~~((one thousand two hundred))~~ 1,200 feet between the stops and the light rail station. The city of Seattle shall submit the recommendations by October 1, 2010, to the governor and the transportation committees of the legislature. However, if the city of Seattle does not convene the work group required under this subsection before July 1, 2010, or does not

submit recommendations to the governor and the transportation committees of the legislature by October 1, 2010, the department must convene the work group required under this subsection and meet all the requirements of this subsection that are described as requirements of the city of Seattle by November 30, 2010;

(iv) A work group convened by the department to include sound transit and King county metro to study and make recommendations regarding options for planning and financing high capacity transit through the state route number 520 corridor. The department shall submit the recommendations by January 1, 2011, to the governor and the transportation committees of the legislature;

(v) A plan to address mitigation as a result of the state route number 520 bridge replacement and HOV program at the Washington park arboretum. As part of its process, the department shall consult with the governing board of the Washington park arboretum, the Seattle city council and mayor, and the University of Washington to identify all mitigation required by state and federal law resulting from the state route number 520 bridge replacement and HOV program's impact on the arboretum, and to develop a project mitigation plan to address these impacts. The department shall submit the mitigation plan by December 31, 2010, to the governor and the transportation committees of the legislature. Wetland mitigation required by state and federal law as a result of the state route number 520 bridge replacement and HOV program's impacts on the arboretum must, to the greatest extent practicable, include on-site wetland mitigation at the Washington park arboretum, and must enhance the Washington park arboretum. This subsection (4)(b)(v) does not preclude any other mitigation planned for the Washington park arboretum as a result of the state route number 520 bridge replacement and HOV program;

(vi) A work group convened by the department to include the mayor of the city of Seattle, the Seattle city council, the Seattle department of transportation, and other persons or organizations as designated by the Seattle city council and mayor to study and make recommendations regarding design refinements to the preferred alternative selected by the department in the supplemental draft environmental impact statement process for the state route number 520 bridge replacement and HOV program. To accommodate a timely progression of the state route number 520 bridge replacement and HOV program, the design refinements recommended by the work group must be consistent with the current environmental documents prepared by the department for the supplemental draft environmental impact statement. The department shall submit the recommendations to the legislature and governor by December 31, 2010, and the recommendations must inform the final environmental impact statement prepared by the department; and

(vii) An account, created in section 5 of this act, into which civil penalties generated from the nonpayment of tolls on the state route number 520 corridor are deposited to be used to fund any project within the program, including mitigation. However, this subsection (4)(b)(vii) is contingent on the enactment by June 30, 2010, of either chapter 249, Laws of 2010 or chapter . . . (Substitute House Bill No. 2897), Laws of 2010, but if the enacted bill does not designate the department as the toll penalty adjudicating agency, this subsection (4)(b)(vii) is null and void.

(5) The department may carry out the improvements designated in subsection (4) of this section and administer the tolling program on the state route number 520 corridor.

Sec. 716. RCW 47.56.876 and 2022 c 157 s 17 are each amended to read as follows:

(1) A special account to be known as the state route number 520 civil penalties account is created in the state treasury. All

Moneys in the account may be spent only after appropriation. Expenditures from the account must be used to fund legal obligations associated with bonds and loans associated with the construction and operation of state route number 520 under circumstances where the toll revenue collections at the time are not sufficient to fully cover such legal obligations, and then may be used to fund any project within the state route number 520 bridge replacement and HOV program, including mitigation. The legislature may direct the state treasurer to make transfers of moneys in the state route number 520 civil penalties account to the state route number 520 corridor account. During the 2021-2023 and 2023-2025 fiscal ~~((biennium))~~ biennia, the legislature may direct the state treasurer to transfer moneys in the state route number 520 civil penalties account to the motor vehicle account.

Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for the construction or purchase of ferry vessels and to pay the principal and interest on bonds authorized for the construction or purchase of ferry vessels. reimbursement under the state Constitution. (20) \$14,788,000 of the state patrol highway account—state appropriation is provided solely for contingency funding to address emergent issues related to mitigating negative impacts of the high level of commissioned and noncommissioned staff vacancies. Potential uses of the funding include, but are not limited to, the following: Operating a miniacademy and training opportunities for lateral transfers from other agencies; increased overtime, travel, and other related costs; increased contracting to maintain adequate service levels; and unanticipated facility and equipment needs. By January 1, 2023, the state patrol must submit a report to the governor and the transportation committees of the legislature detailing the specific expenditures made from the contingency funding provided in this subsection. The report must also include a description of the miniacademy training, including the number of lateral transfers that entered the training, the number which completed training, the cost of the miniacademy, and a comparison of how the training was different from a conventional academy class.

Consistent with chapter 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that transferring portions of WSDOT Inventory Control (IC) No. 2-09-04686 containing the trail and associated buffer areas to the Washington state parks and recreation commission is consistent with the public interest. The legislature directs the department to transfer the property to the Washington state parks and recreation commission.

(a) The department must be paid fair market value for any portions of the transferred real property that is later abandoned, vacated, or ceases to be publicly maintained for trail purposes.

(3) The department shall report to the transportation committees of the legislature by December 1, 2021, on the status of its efforts to consolidate franchises for broadband facilities across the state, including plans for increasing the number of consolidated franchises in the future.

which a purchase agreement was executed between Unocal and the department in 2005 (Tax Parcel Number 262703-2-003-0009), and if the department confirms that the property is still no longer needed for transportation purposes, the department shall provide the city of Edmonds with the right of first purchase at fair market value in accordance with RCW 47.12.063(3) for the city's intended use of the property to rehabilitate near-shore habitat for salmon and related species.

By January 1, 2023, the department must submit a report to the governor and the transportation committees of the legislature detailing the specific expenditures made from the contingency funding provided in this subsection.

(1) \$6,000,000 of the motor vehicle account—state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects completed in the prior fiscal biennium.

(2)(a) During the 2021-2023 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle: (i) Auto transportation company vehicles regulated under chapter 81.68 RCW; (ii) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (iii) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (iv) private employer transportation service vehicles. For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. Nothing in this subsection is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or other claim by private users to public infrastructure.

(b) The department shall expand the high occupancy vehicle lane access pilot program to vehicles that deliver or collect blood, tissue, or blood components for a blood-collecting or distributing establishment regulated under chapter 70.335 RCW. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, blood-collecting or distributing establishment vehicles that are clearly and identifiably marked as such on all sides of the vehicle are considered emergency vehicles and must be authorized to use the reserved portion of the highway.

Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, organ transport vehicles that are clearly and identifiably marked as such on all sides of the vehicle are considered emergency vehicles and must be authorized to use the reserved portion of the highway.

(d) The department shall expand the high occupancy vehicle lane access pilot program to private, for hire vehicles regulated under chapter 81.72 RCW that have been specially manufactured, designed, or modified for the transportation of a person who has a mobility disability and uses a wheelchair or other assistive device. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, wheelchair-accessible taxicabs that are clearly and identifiably marked as such on all sides of the vehicle are considered public transportation vehicles and must be authorized to use the reserved portion of the highway.

(e) The department shall expand the high occupancy vehicle lane access pilot program to for hire nonemergency medical transportation vehicles, when in use for medical purposes, as described in section 208, chapter 333, Laws of 2021. (f) Nothing in this subsection (2) is intended to exempt these vehicles from paying tolls when they do not meet the occupancy requirements established by the department for express toll lanes.

(3) \$2,574,000 of the motor vehicle account—state appropriation is provided solely for contingency funding to address emergent issues related to mitigating negative impacts of the high level of staff vacancies. Potential uses of the funding include, but are not limited to, the following: Increased overtime, travel, and other related costs; increased contracting to maintain adequate service levels; and unanticipated facility and equipment needs. By January 1, 2023, the department must submit a report to the governor and the transportation committees of the legislature detailing the specific expenditures made from the contingency funding provided in this subsection.

(4) The appropriations in this section assume implementation of additional cost recovery mechanisms to recoup at least \$100,000 in credit card and other financial transaction costs related to the collection of fees imposed under RCW 46.44.0941 for driver and vehicle fee transactions beginning January 1, 2023. The department may recover transaction fees incurred through credit card transactions. At the direction of the office of financial management, the department shall develop a method of tracking the additional amount of credit card and other financial cost-recovery revenues. In consultation with the office of financial management, the department shall notify the office of the state treasurer of these amounts and the state treasurer must deposit these revenues in the agency financial transaction account created in RCW 46.01.385 on a quarterly basis. The department shall also submit, as part of its 2023-2025 budget submittal, an overview of the credit card cost recovery approach, including fee rates and the amount of revenue expected to be generated in the 2021-2023 and 2023-2025 biennia.

(5) The department shall promote safety messages encouraging drivers to slow down and move over and pay attention when emergency lights are flashing on the side of the road and other suitable safety messages on electronic message boards the department operates across the state. The messages must be promoted multiple times each month through June 30, 2023. The department may coordinate such messaging with any statewide

public awareness campaigns being developed by the department of licensing or the Washington state traffic safety commission or both.

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire connecting Washington account—state appropriation and the entire transportation partnership account—state appropriation are provided solely for the projects and activities as listed by fund, project, and amount in LEAP Transportation Document ~~((2022-1))~~ 2023-1 as developed March ~~((9, 2022))~~ 29, 2023, Program - Highway Improvements Program (I). However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section 601 ~~((, chapter 333, Laws of 2021))~~ of this act.

(2) Except as provided otherwise in this section, the entire motor vehicle account—state appropriation and motor vehicle account—federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document ~~((2022-2))~~ 2023-2 ALL PROJECTS as developed March ~~((9, 2022))~~ 29, 2023, Program - Highway Improvements Program (I). Any federal funds gained through efficiencies, adjustments to the federal funds forecast, or the federal funds redistribution process must then be applied to highway and bridge preservation activities or fish passage barrier corrections (OBI4001) ~~((, as long as the application of the funds is not inconsistent with subsection (26) of this section))~~.

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer ~~((funds))~~ appropriation authority between programs I and P, except for ~~((funds))~~ appropriation authority that ~~((are))~~ is otherwise restricted in this act. Ten days prior to any transfer, the department must submit its request to the office of financial management and the transportation committees of the legislature and consider any concerns raised. The department shall submit a report on fiscal year funds transferred in the prior fiscal year using this subsection as part of the department's annual budget submittal.

(4) ~~((The connecting Washington account—state appropriation includes up to \$326,594,000 in proceeds from the sale of bonds authorized in RCW 47.10.889.~~

~~((5))~~ The special category C account—state appropriation includes up to \$51,460,000 in proceeds from the sale of bonds authorized in RCW 47.10.812.

~~((6))~~ (5) The transportation partnership account—state appropriation includes up to ~~(((\$124,629,000))~~ \$32,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

~~(((\$161,792,000))~~ (6) \$106,947,000 of the transportation partnership account—state appropriation, \$3,882,000 of the motor vehicle account—private/local appropriation, ~~(((\$9,000,000))~~ \$4,880,000 of the motor vehicle account—state appropriation, ~~(((\$1,000 of the transportation 2003 account (nickel account)—state appropriation,))~~ and ~~(((\$985,000))~~ \$987,000 of the multimodal transportation account—state appropriation are provided solely for the SR 99/Alaskan Way Viaduct Replacement project (809936Z). It is the intent of the legislature that any legal damages paid to the state as a result of a lawsuit related to contractual provisions for construction and delivery of the Alaskan Way viaduct replacement project be used to repay project cost increases paid from the transportation partnership account—state funds and motor vehicle account—state funds.

~~(((\$186,820,000))~~ (7) \$168,662,000 of the connecting Washington account—state appropriation, \$1,000 of the Special Category C account—state appropriation, and \$488,000 of the motor vehicle account—local appropriation are provided solely for the US 395 North Spokane Corridor project (M00800R). If the department expects the original scope of this project to be

completed under budget when a final design is approved for the interchange with I-90 and nearby on ramp access, then the scope of work for this project must also include constructing a land bridge in the vicinity of Liberty Park in Spokane, if appropriations are sufficient. It is the intent of the legislature, consistent with the move ahead WA proposal, to advance future funding for this project in order to accelerate delivery by up to two years.

~~((9))~~ (8)(a) ~~(((\$177,982,000))~~ \$20,962,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation is provided solely for the I-405/SR 522 to I-5 Capacity Improvements project (L2000234) for activities related to adding capacity on Interstate 405 between state route number 522 and Interstate 5, with the goals of increasing vehicle throughput and aligning project completion with the implementation of bus rapid transit in the vicinity of the project.

(b) The department may advance the I-405/SR 522 to I-5 Capacity Improvements project (L2000234) and construct the project earlier than is scheduled in the LEAP transportation document referenced in subsection (2) of this section if additional funding is identified and submitted through the existing unanticipated receipts process by September 1, 2021. The department and the state treasurer shall pursue alternatives to toll revenue funding including but not limited to federal loan and grant programs. The department shall explore phasing and modifying the project to attempt to align project completion with the anticipated deployment of bus rapid transit on the corridor in the 2023-2025 biennium. The department shall report back to the transportation committees of the legislature on this work by September 15, 2021.

~~((10))~~ (9)(a) ~~(((\$329,681,000))~~ \$309,774,000 of the connecting Washington account—state appropriation, \$70,886,000 of the state route number 520 corridor account—state appropriation, and ~~(((\$1,021,000))~~ \$1,411,000 of the motor vehicle account—private/local appropriation are provided solely for the SR 520 Seattle Corridor Improvements - West End project (M00400R).

(b) Upon completion of the Montlake Phase of the West End project (current anticipated contract completion of 2023), the department shall sell that portion of the property not used for permanent transportation improvements and initiate a process to convey that surplus property to a subsequent owner.

(c) Of the amounts provided in this subsection ~~((10))~~ (9), \$100,000 of the state route number 520 corridor account—state appropriation is provided solely for noise mitigation activities. ~~((It is the intent of the legislature to provide an additional \$1,000,000 for noise mitigation activities over the course of the 16 year move ahead WA funding package.~~

~~((11))~~ ~~(((\$361,296,000))~~ (10) \$296,965,000 of the connecting Washington account—state appropriation, ~~(((\$4,800,000))~~ \$2,145,000 of the multimodal transportation account—state appropriation, ~~(((\$13,725,000))~~ \$4,242,000 of the motor vehicle account—private/local appropriation, \$4,000 of the motor vehicle account—state appropriation, \$7,200,000 of the move ahead WA account—federal appropriation, \$8,400,000 of the Puget Sound Gateway facility account—state appropriation, and ~~(((\$85,015,000))~~ \$84,515,000 of the motor vehicle account—federal appropriation are provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall continue to collaborate with the affected stakeholders as it implements the

EIGHTY SEVENTH DAY, APRIL 5, 2023

corridor construction and implementation plan for state route number 167 and state route number 509. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(c) It is the legislature's intent that the department shall consult with the joint executive committee and joint steering committee to determine the most appropriate interchange at the junction of state route number 161 (Meridian avenue) and state route number 167.

~~((d) Of the amounts provided in this subsection, \$2,300,000 of the multimodal transportation account—state appropriation is provided solely for the design phase of the Puyallup to Tacoma multiuse trail along the SR 167 right of way acquired for the project to connect a network of new and existing trails from Mount Rainier to Point Defiance Park.~~

~~(e) Of the amounts provided in this subsection, \$2,500,000 of the multimodal transportation account—state appropriation is provided solely for segment 2 of the state route number 167 completion project shared use path to provide connections to the interchange of state route number 167 at 54th to the intersection of state route number 509 and Taylor Way in Tacoma.~~

~~((12)) (11)(a) ((\$25,378,000)) \$25,379,000 of the motor vehicle account—state appropriation, \$10,000,000 of the move ahead WA account—state appropriation, and ~~(((\$413,000))~~ \$36,414,000 of the motor vehicle account—private/local appropriation are provided solely to support a project office and the continued work toward the I-5 Interstate Bridge Replacement project ~~((L2000370))~~ (L4000054). The legislature finds that the replacement of the I-5 Columbia river bridge is a project of national significance and is critical for the movement of freight. One span is now 104 years old, at risk for collapse in the event of a major earthquake, and no longer satisfies the needs of commerce and travel. Replacing the aging interstate bridge with a modern, seismically resilient, multimodal structure that provides improved mobility for people, goods, and services is a high priority. Therefore, the legislature intends to support the replacement of the I-5 Columbia river bridge with an investment of \$1,000,000,000 over the 16-year move ahead WA investment program.~~

(b) The project office must also study the possible different governance structures for a bridge authority that would provide for the joint administration of the bridges over the Columbia river between Oregon and Washington. As part of this study, the project office must examine the feasibility and necessity of an interstate compact in conjunction with the national center for interstate compacts.

(c) During the 2021-2023 biennium, the department shall have as a goal to:

- (i) Conduct all work necessary to prepare and publish a draft SEIS;
- (ii) Coordinate with regulatory agencies to begin the process of obtaining environmental approvals and permits;
- (iii) Identify a locally preferred alternative; and
- (iv) Begin preparing a final SEIS.

The department shall aim to provide progress reports on these activities to the governor and the transportation committees of the legislature by December 1, 2021, June 1, 2022, and December 1, 2022.

~~((13))~~ (12)(a) ((\$400,000,000)) \$100,000,000 of the coronavirus state fiscal recovery fund—federal appropriation, ~~(((\$25,327,000))~~ \$167,194,000 of the connecting Washington account—state appropriation, \$35,263,000 of the motor vehicle

account—federal appropriation, \$45,112,000 of the move ahead WA account—federal appropriation, \$5,618,000 of the motor vehicle account—local appropriation, \$9,016,000 of the transportation partnership account—state appropriation, \$38,021,000 of the move ahead WA account—state appropriation, and \$149,776,000 of the motor vehicle account—state appropriation are provided solely for the Fish Passage Barrier Removal project (0BI4001) with the intent of fully complying with the federal *U.S. v. Washington* court injunction by 2030.

(b) The department shall coordinate with the Brian Abbott fish passage barrier removal board to use a watershed approach by replacing both state and local culverts guided by the principle of providing the greatest fish habitat gain at the earliest time. The department shall deliver high habitat value fish passage barrier corrections that it has identified, guided by the following factors: Opportunity to bundle projects, tribal priorities, ability to leverage investments by others, presence of other barriers, project readiness, culvert conditions, other transportation projects in the area, and transportation impacts. The department and Brian Abbott fish barrier removal board must provide updates on the implementation of the statewide culvert remediation plan to the legislature by November 1, 2021, and June 1, 2022.

(c) The department must keep track of, for each barrier removed: (i) The location; (ii) the amount of fish habitat gain; and (iii) the amount spent to comply with the injunction.

(d) Of the amount provided in this subsection, \$142,923,000 of the motor vehicle account—federal appropriation reflects the department's portion of the unrestricted funds from the coronavirus response and relief supplemental appropriations act of 2021. If the final amount from this act changes while the legislature is not in session, the department shall follow the existing unanticipated receipt process and adjust the list referenced in subsection (1) of this section accordingly, supplanting state funds with federal funds if possible as directed in section 601, chapter 333, Laws of 2021.

~~((14) \$14,367,000))~~ (13) \$13,542,000 of the connecting Washington account—state appropriation, ~~((-\$311,000 of the motor vehicle account—state appropriation,))~~ and ~~(((\$3,149,000))~~ \$4,285,000 of the motor vehicle account—private/local appropriation are provided solely for the I-90/Barker to Harvard – Improve Interchanges & Local Roads project (L2000122). The connecting Washington account appropriation for the improvements that fall within the city of Liberty Lake may only be expended if the city of Liberty Lake agrees to cover any project costs within the city of Liberty Lake above the \$20,900,000 of state appropriation provided for the total project on the list referenced in subsection (1) of this section.

~~((15) \$16,984,000))~~ (14) \$17,071,000 of the motor vehicle account—federal appropriation, ~~(((\$269,000))~~ \$177,000 of the motor vehicle account—state appropriation, \$1,700,000 of the transportation partnership account—state appropriation, \$5,000 of the motor vehicle account—private/local appropriation, and ~~(((\$17,900,000))~~ \$13,666,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation are provided solely for the SR 167/SR 410 to SR 18 - Congestion Management project (316706C).

~~((16) \$18,915,000))~~ (15) \$17,019,000 of the Special Category C account—state appropriation is provided solely for the SR 18 Widening - Issaquah/Hobart Rd to Raging River project (L1000199) for improving and widening state route number 18 to four lanes from Issaquah-Hobart Road to Raging River.

~~((17) \$2,500,000))~~ (16) \$500,000 of the connecting Washington account—state appropriation is provided solely for the North Lewis County transportation study. The study shall

examine new, alternate routes for vehicular and truck traffic at the Harrison interchange (Exit 82) in North Centralia and shall allow for a site and configuration to be selected and feasibility to be conducted for final design, permitting, and construction of the I-5/North Lewis county Interchange project (L2000204). It is the intent of the legislature to advance future funding for this project to accelerate delivery by up to two years.

~~((18) \$1,237,000)~~ (17) \$148,000 of the motor vehicle account—state appropriation is provided solely for the US 101/East Sequim Corridor Improvements project (L2000343).

~~((19) \$2,197,000)~~ (18) \$873,000 of the motor vehicle account—state appropriation ~~((and \$749,000 of the connecting Washington account—state appropriation are))~~ is provided solely for the SR 522/Paradise Lk Rd Interchange & Widening on SR 522 (Design/Engineering) project (NPARADI).

~~((20) \$1,455,000)~~ (19) \$1,382,000 of the motor vehicle account—federal appropriation ~~((is))~~ and \$73,000 of the motor vehicle account—State appropriation are provided solely for the US 101/Morse Creek Safety Barrier project (L1000247).

~~((21) \$1,000,000)~~ (20) \$780,000 of the motor vehicle account—state appropriation is provided solely for the SR 162/410 Interchange Design and Right of Way project (L1000276).

~~((22) \$7,185,000)~~ (21) \$1,892,000 of the connecting Washington account—state appropriation ~~((is))~~, \$2,000 of the motor vehicle account—private/local appropriation, and \$7,000 of the motor vehicle account—state appropriation are provided solely for the US Hwy 2 Safety project (N00200R).

~~((23))~~ (22) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

~~((24))~~ (23) Any advisory group that the department convenes during the 2021-2023 fiscal biennium must consider the interests of the entire state of Washington.

~~((25))~~ (24) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system. To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its determination that recycled concrete aggregate and other transportation building materials are natural resource construction materials that are too valuable to be wasted and landfilled, and are a commodity as defined in WAC 173-350-100.

Further, the legislature determines construction aggregate and recycled concrete materials substantially meet widely recognized international, national, and local standards and specifications referenced in American society for testing and materials, American concrete institute, Washington state department of transportation, Seattle department of transportation, American public works association, federal aviation administration, and federal highway administration specifications, and are described as necessary and desirable products for recycling and reuse by state and federal agencies.

As these recyclable materials have well established markets, are substantially a primary or secondary product of necessary construction processes and production, and are managed as an item of commercial value, construction aggregate and recycled concrete materials are exempt from chapter 173-350 WAC.

~~((26))~~ (25) \$2,738,000 of the motor vehicle account—state appropriation is provided solely for the US 97 Wildlife Crossing

Improvements project (L2021117). It is the intent of the legislature that, to the extent possible, the department use this funding as match for competitive federal funding to make additional wildlife crossing improvements on the corridor. The department must report to the transportation committees of the legislature with additional corridors that could benefit from wildlife crossing improvements and that are likely to successfully compete for federal funding.

~~((27) \$12,635,000)~~ (26) \$2,830,000 of the connecting Washington account—state appropriation is provided solely for the SR 3 Freight Corridor (T30400R) project. The legislature intends to provide a total of \$78,910,000 for this project, including an increase of \$12,000,000 in future biennia to safeguard against inflation and supply/labor interruptions and ensure that:

(a) The northern terminus remains at Lake Flora Road and the southern terminus at the intersection of SR 3/SR 302;

(b) Multimodal safety improvements at the southern terminus remain in the project to provide connections to North Mason school district and provide safe routes to schools; and

(c) Intersections on the freight corridor are constructed at Romance Hill and Log Yard road.

~~((28) \$450,000 of the motor vehicle account—state appropriation is provided solely for the SR 900 Safety Improvements project (L2021118). The department must: (a) Work in collaboration with King county and Skyway coalition to align community assets, transportation infrastructure needs, and initial design for safety improvements along SR 900; and (b) work with the Skyway coalition to lead community planning engagement and active transportation activities.~~

~~((29) \$5,694,000)~~ (27) \$3,686,000 of the connecting Washington account—state appropriation is provided solely for the I-5/Chamber Way Interchange Vicinity Improvements project (L2000223).

~~((30) \$500,000)~~ (28) \$166,000 of the motor vehicle account—state appropriation is provided solely for SR 162/SR 161 Additional Connectivity in South Pierce County project (L1000312) to conduct a study on the need for additional connectivity in the area between SR 162, south of Military Road East and north of Orting, and SR 161 in South Pierce county.

(29) Except as otherwise provided in this section, the entire move ahead WA account—state appropriation is provided solely for the state highway projects and activities as listed in LEAP Transportation Document 2023-1 as developed March 29, 2023, Program - Highway Improvements Program (I).

(30)(a) It is the intent of the legislature, over the 16-year move ahead WA investment program, to provide \$2,435,000,000 for fish passage barrier removal with the intent of fully complying with the federal *U.S. v. Washington* court injunction by 2030. Furthermore, it is the intent of the legislature that appropriations for this purpose may be used to jointly leverage state and local funds for match requirements in applying for competitive federal aid grants provided in the infrastructure investment and jobs act for removals of fish passage barriers under the national culvert removal, replacement, and restoration program. State funds used for the purpose described in this subsection must not compromise fully complying with the court injunction by 2030.

(b) The department shall coordinate with the Brian Abbott fish passage barrier removal board and local governments to use a watershed approach by replacing both state and local culverts guided by the principle of providing the greatest fish habitat gain at the earliest time. The department shall deliver high habitat value fish passage barrier corrections that it has identified, guided by the following factors: Opportunity to bundle projects, tribal priorities, ability to leverage investments by others, presence of

other barriers, project readiness, culvert conditions, other transportation projects in the area, and transportation impacts.

(31) \$3,000,000 of the move ahead WA—state appropriation is provided solely for the US 2 Trestle Capacity Improvements & Westbound Trestle Replacement project (L4000056). It is the intent of the legislature, over the 16-year move ahead WA investment program, to provide \$210,541,000 for planning, design, right-of-way acquisition, interim improvements, and initial construction. It is the further intent of the legislature that this project enhance multimodal mobility options on the US 2 Trestle. The planning, design and engineering work must consider options to enhance transit and multimodal mobility, including bus rapid transit. The department must report to the legislature with its preliminary analysis of these options by June 30, 2023.

(32) It is the intent of the legislature, over the 16-year move ahead WA investment program, to provide \$74,298,000 for the SR 3/Gorst Area - Widening project (L4000017). Tribal consultation with the Suquamish Tribe must begin at the earliest stage of planning, including without limitation on all funding decisions and funding programs, to provide a government-to-government mechanism for the tribe to evaluate, identify, and expressly notify governmental entities of any potential impacts to tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which the tribe possesses rights reserved or protected by federal treaty, statute, or executive order. The consultation is independent of, and in addition to, any public participation process required by state law, or by a state agency, including the requirements of Executive Order 21-02 related to archaeological and cultural resources, and regardless of whether the agency receives a request for consultation from the Suquamish Tribe. Regularly scheduled tribal consultation meetings with the Suquamish Tribe must continue throughout the duration of any funding program and proposed project approval.

The department, in collaboration with the office of the chief information officer, shall identify where existing or proposed mobile radio technology investments should be consolidated, identify when existing or proposed mobile radio technology investments can be reused or leveraged to meet multiagency needs, increase mobile radio interoperability between agencies, and identify how redundant investments can be reduced over time. The department shall also provide quarterly reports to the technology services board on project progress.

(5) \$5,000,000 of the motor vehicle account—state appropriation is provided solely for extraordinary costs incurred from litigation awards, settlements, or dispute mitigation activities not eligible for funding from the self-insurance fund (L2000290). The amount provided in this subsection must be held in unallotted status until the department submits a request to the

No funds provided in this subsection may be expended on any legal fees related to the SR 99/Alaskan Way viaduct replacement project (809936Z).

(6) \$11,679,000 of the motor vehicle account—federal appropriation is provided solely for preservation projects within project L1100071 that ensure the reliable movement of freight on the national highway freight system. (2) For the 2021-2023 biennium, the marine division shall provide to the office of financial management and the legislative transportation committees the following reports on ferry capital projects:

(a) On a semiannual basis the report must include a status update on projects with funding provided in subsections (4), (5), (6), and (8) of this section including, but not limited to, the following:

- (i) Anticipated cost increases and cost savings;
- (ii) Anticipated cash flow and schedule changes; and
- (iii) Explanations for the changes.

(b) On an annual basis the report must include a status update on vessel and terminal preservation and improvement plans including, but not limited to, the following:

- (i) What work has been done;
- (ii) How have schedules shifted; and
- (iii) Associated changes in funding among projects, accompanied by explanations for the changes.

(c) On an annual basis the report must include an update on the implementation of the maintenance management system with recommendations for using the system to improve the efficiency of project reporting under this subsection.

(3) ~~((\$12,232,000))~~ \$19,940,000 of the Puget Sound capital construction account—state appropriation is provided solely for emergency capital repair costs (999910K). Funds may only be spent after approval by the office of financial management.

department may spend from the Puget Sound capital construction account—state appropriation in this section only as much as the department receives in Volkswagen settlement funds for the purposes of this subsection.

(6) ~~(\$45,668,000)~~ \$5,769,000 of the capital vessel replacement account—state appropriation is provided solely for the acquisition of a 144-car hybrid-electric vessel (L2000329). In 2019 the legislature amended RCW 47.60.810 to direct the department to modify an existing vessel construction contract to provide for an additional five ferries. As such, it is the intent of the legislature that the department award the contract for the hybrid electric Olympic class vessel #5(L2000329) in a timely manner. In addition, the legislature intends to minimize costs and maximize construction efficiency by providing sufficient funding for construction of all five vessels, including funding for long lead time materials procured at the lowest possible prices. The commencement of construction of new vessels for the ferry system is important not only for safety reasons, but also to keep skilled marine construction jobs in the Puget Sound region and to sustain the capacity of the region to meet the ongoing construction and preservation needs of the ferry system fleet of vessels. The legislature has determined that the current vessel procurement process must move forward with all due speed, balancing the interests of both the taxpayers and shipyards. To accomplish construction of vessels in accordance with RCW 47.60.810, the prevailing shipbuilder, for vessels initially funded after July 1, 2020, is encouraged to follow the historical practice of subcontracting the construction of ferry superstructures to a separate nonaffiliated contractor located within the Puget Sound region, that is qualified in accordance with RCW 47.60.690. If the department elects not to execute a new modification to an existing option contract for one or more additional 144-auto ferries under RCW 47.60.810(4), the department shall proceed with development of a new design-build request for proposals in accordance with RCW 47.60.810, 47.60.812, 47.60.814, 47.60.815, 47.60.816, 47.60.818, 47.60.820, 47.60.822, 47.60.824, and 47.60.8241. Of the amounts provided in this section, \$200,000 is provided solely for hiring an independent owner's representative to perform quality oversight, manage the change order process, and ensure contract compliance.

(7) ~~((The capital vessel replacement account—state appropriation includes up to \$45,468,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.~~

(8) ~~\$4,200,000)~~ \$2,838,000 of the connecting Washington account—state appropriation is provided solely for ferry vessel and terminal preservation (L2000110). The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire appropriations in this section are provided solely for the projects and activities as listed by project and amount in LEAP Transportation Document (~~(2022-2)~~) 2023-2 ALL PROJECTS as developed March (~~(9, 2022)~~) 29, 2023, Program - Rail Program (Y).

(2) \$5,089,000 of the transportation infrastructure account—state appropriation is provided solely for new low-interest loans approved by the department through the freight rail investment bank (FRIB) program. The department shall issue FRIB program loans with a repayment period of no more than ten years, and charge only so much interest as is necessary to recoup the department's costs to administer the loans. The department shall report annually to the transportation committees of the legislature and the office of financial management on all FRIB loans issued. FRIB program loans may be recommended by the department for 2022 supplemental transportation appropriations up to the amount provided in this appropriation that has not been provided for the projects listed in 2021-2 ALL PROJECTS, as referenced in subsection (1) of this section. The department shall submit a prioritized list for any loans recommended to the office of financial management and the transportation committees of the legislature by November 15, 2021.

(3) \$7,041,000 of the multimodal transportation account—state appropriation is provided solely for new statewide emergent freight rail assistance projects identified in the LEAP transportation document referenced in subsection (1) of this section.

(4) \$367,000 of the transportation infrastructure account—state appropriation and \$1,100,000 of the multimodal transportation account—state appropriation are provided solely to reimburse Highline Grain, LLC for approved work completed on Palouse River and Coulee City (PCC) railroad track in Spokane county between the BNSF Railway Interchange at Cheney and Geiger Junction and must be administered in a manner consistent with freight rail assistance program projects. The value of the public benefit of this project is expected to meet or exceed the cost of this project in: Shipper savings on transportation costs; jobs saved in rail-dependent industries; and/or reduced future costs to repair wear and tear on state and local highways due to fewer annual truck trips (reduced vehicle miles traveled). The amounts provided in this subsection are not a commitment for future legislatures, but it is the legislature's intent that future legislatures will work to approve biennial appropriations until the full \$7,337,000 cost of this project is reimbursed.

(5)(a) \$1,008,000 of the essential rail assistance account—state appropriation is provided solely for the purpose of the rehabilitation and maintenance of the Palouse river and Coulee City railroad line (F01111B).

(b) Expenditures from the essential rail assistance account—state in this subsection may not exceed the combined total of:

(i) Revenues and transfers deposited into the essential rail assistance account from leases and sale of property relating to the Palouse river and Coulee City railroad;

(ii) Revenues from trackage rights agreement fees paid by shippers; and

(iii) Revenues and transfers transferred from the miscellaneous program account to the essential rail assistance account, pursuant

to RCW 47.76.360, for the purpose of sustaining the grain train program by maintaining the Palouse river and Coulee City railroad.

(6) The department shall issue a call for projects for the freight rail assistance program, and shall evaluate the applications in a manner consistent with past practices as specified in section 309, chapter 367, Laws of 2011. By November 15, 2022, the department shall submit a prioritized list of recommended projects to the office of financial management and the transportation committees of the legislature.

(7) (~~(\$32,996,000)~~) \$672,000 of the multimodal transportation account—state appropriation is provided solely for Passenger Rail Equipment Replacement (project 700010C). The appropriation in this subsection include insurance proceeds received by the state. The department must use these funds only to purchase replacement equipment that has been competitively procured and for service recovery needs and corrective actions related to the December 2017 derailment.

(8) It is the intent of the legislature to encourage the department to pursue federal grant opportunities leveraging up to \$6,696,000 in connecting Washington programmed funds to be used as a state match to improve the state-owned Palouse river and Coulee City system. The amount listed in this subsection is not a commitment for future legislatures, but is the legislature's intent that future legislatures will work to approve biennial appropriations up to a state match share not to exceed \$6,696,000 of a grant award.

(9) \$500,000 of the multimodal transportation account—state appropriation is provided solely for the Chelatchie Prairie railroad for track improvement activities on the northern part of the railroad (L1000311).

(6) (~~(\$17,438,000)~~) \$16,438,000 of the motor vehicle account—federal appropriation is provided solely for national highway freight network projects identified on the project list submitted in accordance with section 218(4)(b), chapter 14, Laws of 2016 on October 31, 2016 (L1000169).

(7) When the department updates its federally-compliant freight plan, it shall consult the freight mobility strategic investment board on the freight plan update and on the investment plan component that describes how the estimated funding allocation for the national highway freight program for federal fiscal years 2022-2025 will be invested and matched. The investment plan component for the state portion of national highway freight program funds must first address shortfalls in funding for connecting Washington act projects. The department shall complete the freight plan update in compliance with federal requirements and deadlines and shall provide an update on the development of the freight plan, including the investment plan

component, when submitting its 2022 supplemental appropriations request.

(8) (~~(\$35,411,000)~~) \$10,137,000 of the motor vehicle account—federal appropriation is provided solely for acceleration of local preservation projects that ensure the reliable movement of freight on the national highway freight system (G2000100). The department will identify projects through its current national highway system asset management call for projects with applications due in February 2021. The department shall give priority to those projects that can be obligated by September 30, 2021.

(9) (~~(\$400,000)~~) \$300,000 of the multimodal transportation account—state appropriation is provided solely for a grant to the Northwest Seaport Alliance (NWSA) to lead the creation and coordination of a multistakeholder zero emissions truck collaborative that will: (a) Facilitate the development and implementation of one or more zero-emissions drayage truck demonstration projects in Washington state; and (b) develop a roadmap for transitioning the entire fleet of approximately 4,500 drayage trucks that serve the NWSA cargo gateway to zero-emissions vehicles by 2050 or sooner.

Funds may be used for predesign environmental assessment work, community engagement, design, and project cost estimation.

(14) \$6,686,000 of the climate active transportation account—state appropriation is provided solely for newly selected safe routes to school grants.

(15) \$5,496,000 of the climate active transportation account—state appropriation is provided solely for newly selected pedestrian and bicycle grants.

(16) It is the intent of the legislature that up to \$14,000,000 will be provided for the Guemes Ferry Boat Replacement project (L4000124).

(17) \$3,000,000 of the move ahead WA flexible account—state appropriation is provided solely for railroad crossing grant awards which match federal funds for city and county projects which eliminate at-grade highway-rail crossings.

(18) It is the intent of the legislature that \$25,000,000 will be provided as part of the move ahead WA investment package in a future biennium, as indicated on the list identified in subsection (1) of this section, for the Ballard and Magnolia Bridge project (L4000123). As part of the project, the Seattle department of transportation (SDOT) must consult with an independent engineering firm to verify that the costs for the type, size, and location preliminary design report (TS&L), environmental impact statement (EIS), and 60 percent design work are within industry cost range standards in advance of moving forward with construction. SDOT must ensure that funds are maximized by limiting the percentage for TS&L, EIS, and 60 percent design work to 10 percent of the total cost of the project. Of the \$25,000,000, \$12,500,000 must remain in unallotted status, and may be distributed to SDOT only upon determination by the

office of financial management that SDOT's cost estimates have been verified by an independent engineering firm as within industry cost range standards, and SDOT has secured the additional matching funding needed to complete the TS&L, EIS, and 60 percent design work.

(19)(a) It is the intent of the legislature, over the first five years of the move ahead WA program, that \$50,000,000 will be provided to SDOT to implement Aurora Avenue North Safety Improvements (L4000154). Under this program, SDOT will be required to implement strategic transportation investments for the Aurora Ave N Corridor from N 90th St to N 105th St that ensure slow vehicle speeds, walkability, multimodal mobility, safe routes to local schools, and safety for residents, which will demonstrate the benefits of similar transportation investments for other locations along Aurora Avenue and elsewhere. SDOT must convene a neighborhood oversight board consisting of residents of communities of the Aurora Ave N Corridor to prioritize investments and monitor project implementation. The oversight board should be composed of an equitable representation of local communities along the Aurora Ave N Corridor, including residents with disabilities. SDOT will ensure that the oversight board is consulted on a bimonthly basis during the prioritization process.

(b) The legislature intends, upon completion of the State Route 99/Aurora Avenue North Planning Study, that projects recommended in the study will be funded by this program. A specific focus must be on access management to consolidate driveways and improve safety for vulnerable users. This work must also include installation of full curb and sidewalks to improve safety, mobility, transit ridership, equity, and work towards the goals set forth in vision zero, target zero, and the Washington state active transportation plan. SDOT must ensure the design and implementation of an accessible sidewalk network to support users with mobility limitations, convenient and accessible transit stops, all-ages-and-abilities bicycle facilities, and safe pedestrian-activated crosswalks that puts safety over speed, balances the needs of different modes, reduces the level of traffic stress experienced by pedestrians and cyclists, connects to existing bicycle and transit networks, creates safe walking and bicycling routes to local schools including crosswalks, improves human and environmental health, and supports the surrounding neighborhoods. SDOT must coordinate with the Washington state department of transportation and King county metro in implementing the investments. SDOT must ensure that funds are maximized by limiting the percentage for planning, predesign, design, permitting, and environmental review to 10 percent of the total cost of each project.

(c) The legislature intends that all Aurora Avenue North Safety Improvement projects funded in this program be completed by December 31, 2029, and that no funds may be expended for this purpose after this date.

(20) \$800,000 of the motor vehicle account—state appropriation is provided solely for the SR 109/88 Corner Roadway project (G2000106).

(21) The entire move ahead WA account—state appropriation is provided solely for the Move Ahead WA - Road and Highway Projects as listed in LEAP Transportation Document 2023-2 ALL PROJECTS as developed March 29, 2023.

MOTION

Senator Dhingra moved that the following committee striking amendment by the Committee on Law & Justice be not adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. This act may be known and cited as the Washington my health my data act.

NEW SECTION. Sec. 2. (1) The legislature finds that the people of Washington regard their privacy as a fundamental right and an essential element of their individual freedom. Washington's Constitution explicitly provides the right to privacy. Fundamental privacy rights have long been and continue to be integral to protecting Washingtonians and to safeguarding our democratic republic.

(2) Information related to an individual's health conditions or attempts to obtain health care services is among the most personal and sensitive categories of data collected. Washingtonians expect that their health data is protected under laws like the health information portability and accountability act (HIPAA). However, HIPAA only covers health data collected by specific health care entities, including most health care providers. Health data collected by noncovered entities, including certain apps and websites, are not afforded the same protections. This act works to close the gap between consumer knowledge and industry practice by providing stronger privacy protections for all Washington consumers' health data.

(3) With this act, the legislature intends to provide heightened protections for Washingtonian's health data by: Requiring additional disclosures and consumer consent regarding the collection, sharing, and use of such information; empowering consumers with the right to have their health data deleted; prohibiting the selling of consumer health data without valid authorization signed by the consumer; and making it unlawful to utilize a geofence around a facility that provides health care services.

NEW SECTION. Sec. 3. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Abortion" means the termination of a pregnancy for purposes other than producing a live birth.

(2) "Affiliate" means a legal entity that shares common branding with another legal entity and controls, is controlled by, or is under common control with another legal entity. For the purposes of this definition, "control" or "controlled" means:

(a) Ownership of, or the power to vote, more than 50 percent of the outstanding shares of any class of voting security of a company;

(b) Control in any manner over the election of a majority of the directors or of individuals exercising similar functions; or

(c) The power to exercise controlling influence over the management of a company.

(3) "Authenticate" means to use reasonable means to determine that a request to exercise any of the rights afforded in this chapter is being made by, or on behalf of, the consumer who is entitled to exercise such consumer rights with respect to the consumer health data at issue.

EIGHTY SEVENTH DAY, APRIL 5, 2023

(4) "Biometric data" means data that is generated from the measurement or technological processing of an individual's physiological, biological, or behavioral characteristics and that identifies a consumer, whether individually or in combination with other data. Biometric data includes, but is not limited to:

(a) Imagery of the iris, retina, fingerprint, face, hand, palm, vein patterns, and voice recordings, from which an identifier template can be extracted; or

(b) Keystroke patterns or rhythms and gait patterns or rhythms that contain identifying information.

(5) "Collect" means to buy, rent, access, retain, receive, acquire, infer, derive, or otherwise process consumer health data in any manner.

(6)(a) "Consent" means a clear affirmative act that signifies a consumer's freely given, specific, informed, opt-in, voluntary, and unambiguous agreement, which may include written consent provided by electronic means.

(b) "Consent" may not be obtained by:

(i) A consumer's acceptance of a general or broad terms of use agreement or a similar document that contains descriptions of personal data processing along with other unrelated information;

(2) A regulated entity shall prominently publish a link to its consumer health data privacy policy on its homepage.

(3) A regulated entity may not collect, use, or share additional categories of consumer health data not disclosed in the consumer health data privacy policy without first disclosing the additional categories and obtaining the consumer's affirmative consent prior to the collection, use, or sharing of such consumer health data.

(4) A regulated entity may not collect, use, or share consumer health data for additional purposes not disclosed in the consumer health data privacy policy without first disclosing the additional purposes and obtaining the consumer's affirmative consent prior to the collection, use, or sharing of such consumer health data.

(5) It is a violation of this chapter for a regulated entity to contract with a processor to process consumer health data in a manner that is inconsistent with the regulated entity's consumer health data privacy policy.

NEW SECTION. Sec. 5. (1) A regulated entity may not collect any consumer health data except:

(a) With consent from the consumer for such collection for a specified purpose; or

(b) To the extent necessary to provide a product or service that the consumer to whom such consumer health data relates has requested from such regulated entity.

(2) A regulated entity may not share any consumer health data except:

(a) With consent from the consumer for such sharing that is separate and distinct from the consent obtained to collect consumer health data; or

(b) To the extent necessary to provide a product or service that the consumer to whom such consumer health data relates has requested from such regulated entity.

(3) Consent required under this section must be obtained prior to the collection or sharing, as applicable, of any consumer health data, and the request for consent must clearly and conspicuously disclose: (a) The categories of consumer health data collected or shared; (b) the purpose of the collection or sharing of the consumer health data, including the specific ways in which it will be used; (c) the categories of entities with whom the consumer health data is shared; and (d) how the consumer can withdraw consent from future collection or sharing of the consumer's health data.

(4) A regulated entity may not unlawfully discriminate against a consumer for exercising any rights included in this chapter.

NEW SECTION. Sec. 6. (1) A consumer has the right to confirm whether a regulated entity is collecting, sharing, or selling consumer health data concerning the consumer and to access such data, including a list of all third parties and affiliates with whom the regulated entity has shared or sold the consumer health data and an active email address or other online mechanism that the consumer may use to contact these third parties.

(2) A consumer has the right to withdraw consent from the regulated entity's collection and sharing of consumer health data concerning the consumer.

(3) A consumer has the right to have consumer health data concerning the consumer deleted and may exercise that right by

informing the regulated entity of the consumer's request for deletion.

(a) A regulated entity that receives a consumer's request to delete any consumer health data concerning the consumer shall:

(i) Delete the consumer health data from its records, including from all parts of the regulated entity's network, including archived or backup systems pursuant to (c) of this subsection; and

(ii) Notify all affiliates, processors, contractors, and other third parties with whom the regulated entity has shared consumer health data of the deletion request.

(b) All affiliates, processors, contractors, and other third parties that receive notice of a consumer's deletion request shall honor the consumer's deletion request and delete the consumer health data from its records, subject to the same requirements of this chapter.

(c) If consumer health data that a consumer requests to be deleted is stored on archived or backup systems, then the request for deletion may be delayed to enable restoration of the archived or backup systems and such delay may not exceed six months from authenticating the deletion request.

(4) A consumer may exercise the rights set forth in this chapter by submitting a request, at any time, to a regulated entity. Such a request may be made by a secure and reliable means established by the regulated entity and described in its consumer health data privacy policy. The method must take into account the ways in which consumers normally interact with the regulated entity, the need for secure and reliable communication of such requests, and the ability of the regulated entity to authenticate the identity of the consumer making the request. A regulated entity may not require a consumer to create a new account in order to exercise consumer rights pursuant to this chapter but may require a consumer to use an existing account.

(5) If a regulated entity is unable to authenticate the request using commercially reasonable efforts, the regulated entity is not required to comply with a request to initiate an action under this section and may request that the consumer provide additional information reasonably necessary to authenticate the consumer and the consumer's request.

(6) Information provided in response to a consumer request must be provided by a regulated entity free of charge, up to twice annually per consumer. If requests from a consumer are manifestly unfounded, excessive, or repetitive, the regulated entity may charge the consumer a reasonable fee to cover the administrative costs of complying with the request or decline to act on the request. The regulated entity bears the burden of demonstrating the manifestly unfounded, excessive, or repetitive nature of the request.

(7) A regulated entity shall comply with the consumer's requests under subsections (1) through (3) of this section without undue delay, but in all cases within 45 days of receipt of the request submitted pursuant to the methods described in this section. A regulated entity must promptly take steps to authenticate a consumer request but this does not extend the regulated entity's duty to comply with the consumer's request within 45 days of receipt of the consumer's request. The response period may be extended once by 45 additional days when reasonably necessary, taking into account the complexity and number of the consumer's requests, so long as the regulated entity informs the consumer of any such extension within the initial 45-day response period, together with the reason for the extension.

(8) A regulated entity shall establish a process for a consumer to appeal the regulated entity's refusal to take action on a request within a reasonable period of time after the consumer's receipt of the decision. The appeal process must be conspicuously available

and similar to the process for submitting requests to initiate action pursuant to this section. Within 45 days of receipt of an appeal, a regulated entity shall inform the consumer in writing of any action taken or not taken in response to the appeal, including a written explanation of the reasons for the decisions. If the appeal is denied, the regulated entity shall also provide the consumer with an online mechanism, if available, or other method through which the consumer may contact the attorney general to submit a complaint.

NEW SECTION. Sec. 7. (1) A regulated entity shall restrict access to consumer health data by the employees, processors, and contractors of such regulated entity to only those employees, processors, and contractors for which access is necessary to further the purposes for which the consumer provided consent or where necessary to provide a product or service that the consumer to whom such consumer health data relates has requested from such regulated entity.

(2) A regulated entity shall establish, implement, and maintain administrative, technical, and physical data security practices that, at a minimum, satisfy reasonable standard of care within the regulated entity's industry to protect the confidentiality, integrity, and accessibility of consumer health data appropriate to the volume and nature of the consumer health data at issue.

NEW SECTION. Sec. 8. (1)(a) A processor may process consumer health data only pursuant to a binding contract between the processor and the regulated entity that sets forth the processing instructions and limit the actions the processor may take with respect to the consumer health data it processes on behalf of the regulated entity.

(b) A processor may process consumer health data only in a manner that is consistent with the binding instructions set forth in the contract with the regulated entity.

(2) A processor shall assist the regulated entity by appropriate technical and organizational measures, insofar as this is possible, in fulfilling the regulated entity's obligations under this chapter.

(3) If a processor fails to adhere to the regulated entity's instructions or processes consumer health data in a manner that is outside the scope of the processor's contract with the regulated entity, the processor is considered a regulated entity with regard to such data and is subject to all the requirements of this chapter with regard to such data.

NEW SECTION. Sec. 9. (1) It is unlawful for any person to sell or offer to sell consumer health data concerning a consumer without first obtaining valid authorization from the consumer. The sale of consumer health data must be consistent with the valid authorization signed by the consumer. This authorization must be separate and distinct from the consent obtained to collect or share consumer health data, as required under section 5 of this act.

(2) A valid authorization to sell consumer health data is a document consistent with this section and must be written in plain language. The valid authorization to sell consumer health data must contain the following:

(a) The specific consumer health data concerning the consumer that the person intends to sell;

(b) The name and contact information of the person collecting and selling the consumer health data;

(c) The name and contact information of the person purchasing the consumer health data from the seller identified in (b) of this subsection;

(d) A description of the purpose for the sale, including how the consumer health data will be gathered and how it will be used by the purchaser identified in (c) of this subsection when sold;

(e) A statement that the provision of goods or services may not be conditioned on the consumer signing the valid authorization;

(f) A statement that the consumer has a right to revoke the valid authorization at any time and a description on how to submit a revocation of the valid authorization;

(g) A statement that the consumer health data sold pursuant to the valid authorization may be subject to redisclosure by the purchaser and may no longer be protected by this section;

(h) An expiration date for the valid authorization that expires one year from when the consumer signs the valid authorization; and

(i) The signature of the consumer and date.

(3) An authorization is not valid if the document has any of the following defects:

(a) The expiration date has passed;

(b) The authorization does not contain all the information required under this section;

(c) The authorization has been revoked by the consumer;

(d) The authorization has been combined with other documents to create a compound authorization; or

(e) The provision of goods or services is conditioned on the consumer signing the authorization.

(4) A copy of the signed valid authorization must be provided to the consumer.

(5) The seller and purchaser of consumer health data must retain a copy of all valid authorizations for sale of consumer health data for six years from the date of its signature or the date when it was last in effect, whichever is later.

NEW SECTION. Sec. 10. It is unlawful for any person to implement a geofence around an entity that provides in-person health care services where such geofence is used to: (1) Identify or track consumers seeking health care services; (2) collect consumer health data from consumers; or (3) send notifications, messages, or advertisements to consumers related to their consumer health data or health care services.

NEW SECTION. Sec. 11. The legislature finds that the practices covered by this chapter are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. A violation of this chapter is not reasonable in relation to the development and preservation of business, and is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW.

Senator Dhingra spoke in favor of the motion to not adopt the committee striking amendment.

The President declared the question before the Senate to be the motion to not adopt the committee striking amendment by the Committee on Law & Justice to Engrossed Substitute House Bill No. 1155.

The motion by Senator Dhingra carried and the committee striking amendment was not adopted by voice vote.

MOTION

Senator Dhingra moved that the following striking amendment no. 0270 by Senator Dhingra be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. **Sec. 1.** This act may be known and cited as the Washington my health my data act.

NEW SECTION. **Sec. 2.** (1) The legislature finds that the people of Washington regard their privacy as a fundamental right and an essential element of their individual freedom. Washington's Constitution explicitly provides the right to privacy. Fundamental privacy rights have long been and continue to be integral to protecting Washingtonians and to safeguarding our democratic republic.

(2) Information related to an individual's health conditions or attempts to obtain health care services is among the most personal and sensitive categories of data collected. Washingtonians expect that their health data is protected under laws like the health information portability and accountability act (HIPAA). However, HIPAA only covers health data collected by specific health care entities, including most health care providers. Health data collected by noncovered entities, including certain apps and websites, are not afforded the same protections. This act works to close the gap between consumer knowledge and industry practice by providing stronger privacy protections for all Washington consumers' health data.

(3) With this act, the legislature intends to provide heightened protections for Washingtonian's health data by: Requiring additional disclosures and consumer consent regarding the collection, sharing, and use of such information; empowering consumers with the right to have their health data deleted; prohibiting the selling of consumer health data without valid authorization signed by the consumer; and making it unlawful to utilize a geofence around a facility that provides health care services.

(3) "Authenticate" means to use reasonable means to determine that a request to exercise any of the rights afforded in this chapter is being made by, or on behalf of, the consumer who is entitled to exercise such consumer rights with respect to the consumer health data at issue.

(4) "Biometric data" means data that is generated from the measurement or technological processing of an individual's physiological, biological, or behavioral characteristics and that identifies a consumer, whether individually or in combination with other data. (2) A small business must comply with this section beginning June 30, 2024.

NEW SECTION. Sec. 6. (1)(a) Except as provided in subsection (2) of this section, beginning March 31, 2024, a consumer has the right to confirm whether a regulated entity or a small business is collecting, sharing, or selling consumer health data concerning the consumer and to access such data, including a list of all third parties and affiliates with whom the regulated entity or the small business has shared or sold the consumer health data and an active email address or other online mechanism that the consumer may use to contact these third parties.

The method must take into account the ways in which consumers normally interact with the regulated entity or the small business, the need for secure and reliable communication of such requests, and the ability of the regulated entity or the small business to authenticate the identity of the consumer making the request. A regulated entity or a small business may not require a consumer to create a new account in order to exercise consumer rights pursuant to this chapter but may require a consumer to use an existing account.

(e) If a regulated entity or a small business is unable to authenticate the request using commercially reasonable efforts, the regulated entity or the small business is not required to comply with a request to initiate an action under this section and may request that the consumer provide additional information reasonably necessary to authenticate the consumer and the consumer's request.

The response period may be extended once by 45 additional days when reasonably necessary, taking into account the complexity and number of the consumer's requests, so long as the regulated entity or the small business informs the consumer of any such extension within the initial 45-day response period, together with the reason for the extension.

(h) A regulated entity and a small business shall establish a process for a consumer to appeal the regulated entity's or the small business's refusal to take action on a request within a reasonable period of time after the consumer's receipt of the decision. The appeal process must be conspicuously available and similar to the process for submitting requests to initiate action pursuant to this section. Within 45 days of receipt of an appeal, a regulated entity or a small business shall inform the consumer in writing of any action taken or not taken in response to the appeal, including a written explanation of the reasons for the decisions. If the appeal is denied, the regulated entity or the small business shall also provide the consumer with an online mechanism, if available, or other method through which the consumer may contact the attorney general to submit a complaint.

(1)(a)(i) Except as provided in subsection (2) of this section, beginning March 31, 2024, a processor may process consumer health data only pursuant to a binding contract between the processor and the regulated entity or the small business that sets forth the processing instructions and limit the actions the processor may take with respect to the consumer health data it processes on behalf of the regulated entity or the small business.

(ii) A processor may process consumer health data only in a manner that is consistent with the binding instructions set forth in the contract with the regulated entity or the small business.

(b) A processor shall assist the regulated entity or the small business by appropriate technical and organizational measures, insofar as this is possible, in fulfilling the regulated entity's and the small business's obligations under this chapter.

(c) If a processor fails to adhere to the regulated entity's or the small business's instructions or processes consumer health data in a manner that is outside the scope of the processor's contract with the regulated entity or the small business, the processor is considered a regulated entity or a small business with regard to such data and is subject to all the requirements of this chapter with regard to such data.

(3) A regulated entity or a small business may not collect, use, or share additional categories of consumer health data not

EIGHTY SEVENTH DAY, APRIL 5, 2023

disclosed in the consumer health data privacy policy without first disclosing the additional categories and obtaining the consumer's affirmative consent prior to the collection, use, or sharing of such consumer health data.

(4) A regulated entity or a small business may not collect, use, or share consumer health data for additional purposes not disclosed in the consumer health data privacy policy without first disclosing the additional purposes and obtaining the consumer's affirmative consent prior to the collection, use, or sharing of such consumer health data.

(5) It is a violation of this chapter for a regulated entity or a small business to contract with a processor to process consumer health data in a manner that is inconsistent with the regulated entity's or the small business's consumer health data privacy policy.

NEW SECTION. Sec. 5. (1) A regulated entity or a small business may not collect any consumer health data except:

(a) With consent from the consumer for such collection for a specified purpose; or

(b) To the extent necessary to provide a product or service that the consumer to whom such consumer health data relates has requested from such regulated entity or small business.

(2) A regulated entity or a small business may not share any consumer health data except:

(a) With consent from the consumer for such sharing that is separate and distinct from the consent obtained to collect consumer health data; or

(b) To the extent necessary to provide a product or service that the consumer to whom such consumer health data relates has requested from such regulated entity or small business.

(3) Consent required under this section must be obtained prior to the collection or sharing, as applicable, of any consumer health data, and the request for consent must clearly and conspicuously disclose: (a) The categories of consumer health data collected or shared; (b) the purpose of the collection or sharing of the consumer health data, including the specific ways in which it will be used; (c) the categories of entities with whom the consumer health data is shared; and (d) how the consumer can withdraw consent from future collection or sharing of the consumer's health data.

(4) A regulated entity or a small business may not unlawfully discriminate against a consumer for exercising any rights included in this chapter.

NEW SECTION. Sec. 6. (1) A consumer has the right to confirm whether a regulated entity or a small business is collecting, sharing, or selling consumer health data concerning the consumer and to access such data, including a list of all third parties and affiliates with whom the regulated entity or the small business has shared or sold the consumer health data and an active email address or other online mechanism that the consumer may use to contact these third parties.

(2) A consumer has the right to withdraw consent from the regulated entity's or the small business's collection and sharing of consumer health data concerning the consumer.

(3) A consumer has the right to have consumer health data concerning the consumer deleted and may exercise that right by informing the regulated entity or the small business of the consumer's request for deletion.

(a) A regulated entity or a small business that receives a consumer's request to delete any consumer health data concerning the consumer shall:

(i) Delete the consumer health data from its records, including from all parts of the regulated entity's or the small business's network, including archived or backup systems pursuant to (c) of this subsection; and

(ii) Notify all affiliates, processors, contractors, and other third parties with whom the regulated entity or the small business has shared consumer health data of the deletion request.

(b) All affiliates, processors, contractors, and other third parties that receive notice of a consumer's deletion request shall honor the consumer's deletion request and delete the consumer health data from its records, subject to the same requirements of this chapter.

(c) If consumer health data that a consumer requests to be deleted is stored on archived or backup systems, then the request for deletion may be delayed to enable restoration of the archived or backup systems and such delay may not exceed six months from authenticating the deletion request.

(4) A consumer may exercise the rights set forth in this chapter by submitting a request, at any time, to a regulated entity or a small business. Such a request may be made by a secure and reliable means established by the regulated entity or the small business and described in its consumer health data privacy policy. The method must take into account the ways in which consumers normally interact with the regulated entity or the small business, the need for secure and reliable communication of such requests, and the ability of the regulated entity or the small business to authenticate the identity of the consumer making the request. A regulated entity or a small business may not require a consumer to create a new account in order to exercise consumer rights pursuant to this chapter but may require a consumer to use an existing account.

(5) If a regulated entity or a small business is unable to authenticate the request using commercially reasonable efforts, the regulated entity or the small business is not required to comply with a request to initiate an action under this section and may request that the consumer provide additional information reasonably necessary to authenticate the consumer and the consumer's request.

(6) Information provided in response to a consumer request must be provided by a regulated entity and a small business free of charge, up to twice annually per consumer. If requests from a consumer are manifestly unfounded, excessive, or repetitive, the regulated entity or the small business may charge the consumer a reasonable fee to cover the administrative costs of complying with the request or decline to act on the request. The regulated entity and the small business bear the burden of demonstrating the manifestly unfounded, excessive, or repetitive nature of the request.

(7) A regulated entity and a small business shall comply with the consumer's requests under subsections (1) through (3) of this section without undue delay, but in all cases within 45 days of receipt of the request submitted pursuant to the methods described in this section. A regulated entity and a small business must promptly take steps to authenticate a consumer request but this does not extend the regulated entity's and the small business's duty to comply with the consumer's request within 45 days of receipt of the consumer's request. The response period may be extended once by 45 additional days when reasonably necessary, taking into account the complexity and number of the consumer's requests, so long as the regulated entity or the small business informs the consumer of any such extension within the initial 45-day response period, together with the reason for the extension.

(8) A regulated entity and a small business shall establish a process for a consumer to appeal the regulated entity's or the small business's refusal to take action on a request within a reasonable period of time after the consumer's receipt of the decision. The appeal process must be conspicuously available and similar to the process for submitting requests to initiate action

pursuant to this section. Within 45 days of receipt of an appeal, a regulated entity or a small business shall inform the consumer in writing of any action taken or not taken in response to the appeal, including a written explanation of the reasons for the decisions. If the appeal is denied, the regulated entity or the small business shall also provide the consumer with an online mechanism, if available, or other method through which the consumer may contact the attorney general to submit a complaint.

NEW SECTION. Sec. 7. A regulated entity and a small business shall:

(1) Restrict access to consumer health data by the employees, processors, and contractors of such regulated entity or small business to only those employees, processors, and contractors for which access is necessary to further the purposes for which the consumer provided consent or where necessary to provide a product or service that the consumer to whom such consumer health data relates has requested from such regulated entity or small business; and

(2) Establish, implement, and maintain administrative, technical, and physical data security practices that, at a minimum, satisfy reasonable standard of care within the regulated entity's or the small business's industry to protect the confidentiality, integrity, and accessibility of consumer health data appropriate to the volume and nature of the consumer health data at issue.

NEW SECTION. Sec. 8. (1)(a) A processor may process consumer health data only pursuant to a binding contract between the processor and the regulated entity or the small business that sets forth the processing instructions and limits the actions the processor may take with respect to the consumer health data it processes on behalf of the regulated entity or the small business.

(b) A processor may process consumer health data only in a manner that is consistent with the binding instructions set forth in the contract with the regulated entity or the small business.

(2) A processor shall assist the regulated entity or the small business by appropriate technical and organizational measures, insofar as this is possible, in fulfilling the regulated entity's and the small business's obligations under this chapter.

(3) If a processor fails to adhere to the regulated entity's or the small business's instructions or processes consumer health data in a manner that is outside the scope of the processor's contract with the regulated entity or the small business, the processor is considered a regulated entity or a small business with regard to such data and is subject to all the requirements of this chapter with regard to such data.

NEW SECTION. Sec. 9. (1) It is unlawful for any person to sell or offer to sell consumer health data concerning a consumer without first obtaining valid authorization from the consumer. The sale of consumer health data must be consistent with the valid authorization signed by the consumer. This authorization must be separate and distinct from the consent obtained to collect or share consumer health data, as required under section 5 of this act.

(2) A valid authorization to sell consumer health data is a document consistent with this section and must be written in plain language. The valid authorization to sell consumer health data must contain the following:

(a) The specific consumer health data concerning the consumer that the person intends to sell;

(b) The name and contact information of the person collecting and selling the consumer health data;

(c) The name and contact information of the person purchasing the consumer health data from the seller identified in (b) of this subsection;

(d) A description of the purpose for the sale, including how the consumer health data will be gathered and how it will be used by the purchaser identified in (c) of this subsection when sold;

(e) A statement that the provision of goods or services may not be conditioned on the consumer signing the valid authorization;

(f) A statement that the consumer has a right to revoke the valid authorization at any time and a description on how to submit a revocation of the valid authorization;

(g) A statement that the consumer health data sold pursuant to the valid authorization may be subject to redisclosure by the purchaser and may no longer be protected by this section;

(h) An expiration date for the valid authorization that expires one year from when the consumer signs the valid authorization; and

(i) The signature of the consumer and date.

(3) An authorization is not valid if the document has any of the following defects:

(a) The expiration date has passed;

(b) The authorization does not contain all the information required under this section;

(c) The authorization has been revoked by the consumer;

(d) The authorization has been combined with other documents to create a compound authorization; or

(e) The provision of goods or services is conditioned on the consumer signing the authorization.

(4) A copy of the signed valid authorization must be provided to the consumer.

(5) The seller and purchaser of consumer health data must retain a copy of all valid authorizations for sale of consumer health data for six years from the date of its signature or the date when it was last in effect, whichever is later."

The following are examples of reasons not to prosecute which could satisfy the standard.

(a) Contrary to Legislative Intent - It may be proper to decline to charge where the application of criminal sanctions would be clearly contrary to the intent of the legislature in enacting the particular statute.

(b) Antiquated Statute - It may be proper to decline to charge where the statute in question is antiquated in that:

(i) It has not been enforced for many years; and

(ii) Most members of society act as if it were no longer in existence; and

(iii) It serves no deterrent or protective purpose in today's society; and

(iv) The statute has not been recently reconsidered by the legislature.

This reason is not to be construed as the basis for declining cases because the law in question is unpopular or because it is difficult to enforce.

(c) De Minimis Violation - It may be proper to decline to charge where the violation of law is only technical or insubstantial and where no public interest or deterrent purpose would be served by prosecution.

(d) Confinement on Other Charges - It may be proper to decline to charge because the accused has been sentenced on another charge to a lengthy period of confinement; and

(i) Conviction of the new offense would not merit any additional direct or collateral punishment;

(ii) The new offense is either a misdemeanor or a felony which is not particularly aggravated; and

(iii) Conviction of the new offense would not serve any significant deterrent purpose.

(e) Pending Conviction on Another Charge - It may be proper to decline to charge because the accused is facing a pending prosecution in the same or another county; and

(i) Conviction of the new offense would not merit any additional direct or collateral punishment;

(ii) Conviction in the pending prosecution is imminent;

(iii) The new offense is either a misdemeanor or a felony which is not particularly aggravated; and

(iv) Conviction of the new offense would not serve any significant deterrent purpose.

(f) High Disproportionate Cost of Prosecution - It may be proper to decline to charge where the cost of locating or transporting, or the burden on, prosecution witnesses is highly disproportionate to the importance of prosecuting the offense in question. This reason should be limited to minor cases and should not be relied upon in serious cases.

(g) Improper Motives of Complainant - It may be proper to decline charges because the motives of the complainant are improper and prosecution would serve no public purpose, would defeat the underlying purpose of the law in question or would result in decreased respect for the law.

(h) Immunity - It may be proper to decline to charge where immunity is to be given to an accused in order to prosecute another where the accused's information or testimony will reasonably lead to the conviction of others who are responsible for more serious criminal conduct or who represent a greater danger to the public interest.

(i) Victim Request - It may be proper to decline to charge because the victim requests that no criminal charges be filed and the case involves the following crimes or situations:

(i) Assault cases where the victim has suffered little or no injury;

(ii) Crimes against property, not involving violence, where no major loss was suffered;

(iii) Where doing so would not jeopardize the safety of society.

Care should be taken to insure that the victim's request is freely made and is not the product of threats or pressure by the accused.

The presence of these factors may also justify the decision to dismiss a prosecution which has been commenced.

Notification

The prosecutor is encouraged to notify the victim, when practical, and the law enforcement personnel, of the decision not to prosecute.

(2) Decision to prosecute.

(a) STANDARD:

Crimes against persons will be filed if sufficient admissible evidence exists, which, when considered with the most plausible, reasonably foreseeable defense that could be raised under the evidence, would justify conviction by a reasonable and objective fact finder. With regard to offenses prohibited by RCW 9A.44.040, 9A.44.050, 9A.44.073, 9A.44.076, 9A.44.079, 9A.44.083, 9A.44.086, 9A.44.089, and 9A.64.020 the prosecutor should avoid prefilng agreements or diversions intended to place the accused in a program of treatment or counseling, so that treatment, if determined to be beneficial, can be provided pursuant to RCW 9.94A.670.

Crimes against property/other crimes will be filed if the admissible evidence is of such convincing force as to make it probable that a reasonable and objective fact finder would convict after hearing all the admissible evidence and the most plausible defense that could be raised.

See table below for the crimes within these categories.

 Selection of Charges/Degree of Charge
 (i) The prosecutor should file charges which adequately describe the nature of defendant's conduct. Other offenses may be charged only if they are necessary to ensure that the charges:
 (A) Will significantly enhance the strength of the state's case at trial; or
 (B) Will result in restitution to all victims.
 (ii) The prosecutor should not overcharge to obtain a guilty plea. Overcharging includes:
 (A) Charging a higher degree;
 (B) Charging additional counts.
 This standard is intended to direct prosecutors to charge those crimes which demonstrate the nature and seriousness of a defendant's criminal conduct, but to decline to charge crimes which are not necessary to such an indication. Crimes which do not merge as a matter of law, but which arise from the same course of conduct, do not all have to be charged.
 (b) GUIDELINES/COMMENTARY:
 (i) Police Investigation
 A prosecuting attorney is dependent upon law enforcement agencies to conduct the necessary factual investigation which must precede the decision to prosecute. The prosecuting attorney

EIGHTY SEVENTH DAY, APRIL 5, 2023

shall ensure that a thorough factual investigation has been conducted before a decision to prosecute is made. In ordinary circumstances the investigation should include the following:

(A) The interviewing of all material witnesses, together with the obtaining of written statements whenever possible;

(B) The completion of necessary laboratory tests; and

(C) The obtaining, in accordance with constitutional requirements, of the suspect's version of the events.

If the initial investigation is incomplete, a prosecuting attorney should insist upon further investigation before a decision to prosecute is made, and specify what the investigation needs to include.

(ii) Exceptions

In certain situations, a prosecuting attorney may authorize filing of a criminal complaint before the investigation is complete if:

(A) Probable cause exists to believe the suspect is guilty; and

(B) The suspect presents a danger to the community or is likely to flee if not apprehended; or

(C) The arrest of the suspect is necessary to complete the investigation of the crime.

In the event that the exception to the standard is applied, the prosecuting attorney shall obtain a commitment from the law enforcement agency involved to complete the investigation in a timely manner. If the subsequent investigation does not produce sufficient evidence to meet the normal charging standard, the complaint should be dismissed.

(iii) Investigation Techniques

The prosecutor should be fully advised of the investigatory techniques that were used in the case investigation including:

(A) Polygraph testing;

(B) Hypnosis;

(C) Electronic surveillance;

(D) Use of informants.

(iv) Prefiling Discussions with Defendant

Discussions with the defendant or his/her representative regarding the selection or disposition of charges may occur prior to the filing of charges, and potential agreements can be reached.

(v) Prefiling Discussions with Victim(s)

Discussions with the victim(s) or victims' representatives regarding the selection or disposition of charges may occur before the filing of charges. The discussions may be considered by the prosecutor in charging and disposition decisions, and should be considered before reaching any agreement with the defendant regarding these decisions.

A physical therapy aide may directly assist in the implementation of therapeutic interventions, but may not alter or modify the plan of therapeutic interventions and may not perform any procedure or task which only a physical therapist may perform under this chapter.

(c) "Other assistive personnel" means other trained or educated health care personnel, not defined in (a) or (b) of this subsection, who perform specific designated tasks that are related to physical therapy and within their license, scope of practice, or formal education, under the supervision of a physical therapist, including but not limited to licensed massage therapists, athletic trainers, and exercise physiologists. At the direction of the supervising physical therapist, and if properly credentialed and not prohibited by any other law, other assistive personnel may be identified by the title specific to their license, training, or education.

(9) "Physical therapy" means the care and services provided by or under the direction and supervision of a physical therapist licensed by the state. Except as provided in RCW 18.74.190, the use of Roentgen rays and radium for diagnostic and therapeutic purposes, the use of electricity for surgical purposes, including cauterization, and the use of spinal manipulation, or manipulative mobilization of the spine and its immediate articulations, are not included under the term "physical therapy" as used in this chapter.

(10) "Practice of physical therapy" is based on movement science and means:

(a) Examining, evaluating, and testing individuals with mechanical, physiological, and developmental impairments, functional limitations in movement, and disability or other health and movement-related conditions in order to determine a diagnosis, prognosis, plan of therapeutic intervention, and to assess and document the ongoing effects of intervention;

(b) Alleviating impairments and functional limitations in movement by designing, implementing, and modifying therapeutic interventions that include therapeutic exercise;

functional training related to balance, posture, and movement to facilitate self-care and reintegration into home, community, or work; manual therapy including soft tissue and joint mobilization and manipulation; therapeutic massage; assistive, adaptive, protective, and devices related to postural control and mobility except as restricted by (c) of this subsection; airway clearance techniques; physical agents or modalities; mechanical and electrotherapeutic modalities; and patient-related instruction;

(c) Training for, and the evaluation of, the function of a patient wearing an orthosis or prosthesis as defined in RCW 18.200.010. Physical therapists may provide those direct-formed and prefabricated upper limb, knee, and ankle-foot orthoses, but not fracture orthoses except those for hand, wrist, ankle, and foot fractures, and assistive technology devices specified in RCW 18.200.010 as exemptions from the defined scope of licensed orthotic and prosthetic services. It is the intent of the legislature that the unregulated devices specified in RCW 18.200.010 are in the public domain to the extent that they may be provided in common with individuals or other health providers, whether unregulated or regulated under this title, without regard to any scope of practice;

(d) Performing wound care services that are limited to sharp debridement, debridement with other agents, dry dressings, wet dressings, topical agents including enzymes, hydrotherapy, electrical stimulation, ultrasound, and other similar treatments. Physical therapists may not delegate sharp debridement. A physical therapist may perform wound care services only by referral from or after consultation with an authorized health care practitioner;

(e) Performing intramuscular needling;

(f) Reducing the risk of injury, impairment, functional limitation, and disability related to movement, including the promotion and maintenance of fitness, health, and quality of life in all age populations; and

~~((f))~~ (g) Engaging in administration, consultation, education, and research.

(11) "Secretary" means the secretary of health.

(12) "Sharp debridement" means the removal of devitalized tissue from a wound with scissors, scalpel, and tweezers without anesthesia. "Sharp debridement" does not mean surgical debridement. A physical therapist may perform sharp debridement, to include the use of a scalpel, only upon showing evidence of adequate education and training as established by rule. Until the rules are established, but no later than July 1, 2006, physical therapists licensed under this chapter who perform sharp debridement as of July 24, 2005, shall submit to the secretary an affidavit that includes evidence of adequate education and training in sharp debridement, including the use of a scalpel.

(13) "Spinal manipulation" includes spinal manipulation, spinal manipulative therapy, high velocity thrust maneuvers, and grade five mobilization of the spine and its immediate articulations.

(14) "Intramuscular needling," also known as "dry needling," means a skilled intervention that uses a single use, sterile filiform needle to penetrate the skin and stimulate underlying myofascial trigger points and connective and muscular tissues for the evaluation and management of neuromusculoskeletal pain and movement impairments. Intramuscular needling requires an examination and diagnosis. Intramuscular needling does not include needle retention without stimulation or the stimulation of auricular and distal points.

(15) Words importing the masculine gender may be applied to females.

NEW SECTION. Sec. 2. A new section is added to chapter 18.74 RCW to read as follows:

(1) Subject to the limitations of this section, a physical therapist may perform intramuscular needling only after being issued an intramuscular needling endorsement by the secretary. The secretary, upon approval by the board, shall issue an endorsement to a physical therapist who has at least one year of postgraduate practice experience that averages at least 36 hours a week and consists of direct patient care and who provides evidence in a manner acceptable to the board of a total of 325 hours of instruction and clinical experience that meet or exceed the following criteria:

(ii) Intramuscular needling indications and contraindications;

(iii) Documentation and informed consent for intramuscular needling;

(iv) Management of adverse effects;

(v) Practical psychomotor competency; and

(vi) Occupational safety and health administration's bloodborne pathogens protocol.

(c) A successful clinical review of a minimum of 150 hours of at least 150 individual intramuscular needling treatment sessions by a qualified provider. A physical therapist seeking endorsement must submit an affidavit to the department demonstrating successful completion of this clinical review.

(2) A qualified provider must be one of the following:

(a) A physician licensed under chapter 18.71 RCW; an osteopathic physician licensed under chapter 18.57 RCW; a licensed naturopath under chapter 18.36A RCW; a licensed acupuncturist and Eastern medicine practitioner under chapter 18.06 RCW; or a licensed advanced registered nurse practitioner under chapter 18.79 RCW;

(b) A physical therapist credentialed to perform intramuscular needling in any branch of the United States armed forces;

(c) A licensed physical therapist who currently holds an intramuscular needling endorsement; or

(d) A licensed physical therapist who meets the requirements of the intramuscular needling endorsement.

(3) After receiving 100 hours of didactic instruction and 75 hours of in-person intramuscular needling instruction, a physical therapist seeking endorsement has up to 18 months to complete a minimum of 150 treatment sessions for review.

(4) A physical therapist may not delegate intramuscular needling and must remain in constant attendance of the patient for the entirety of the procedure.

(5) A physical therapist can apply for endorsement before they have one year of clinical practice experience if they can meet the requirement of 100 hours of didactic instruction and 75 hours of in-person intramuscular needling instruction in subsection (1)(a)(i) and (ii) of this section through their prelicensure coursework and has completed all other requirements set forth in this chapter.

(6) If a physical therapist is intending to perform intramuscular needling on a patient who the physical therapist knows is being treated by an acupuncturist or acupuncturist and Eastern medicine practitioner for the same diagnosis, the physical therapist shall make reasonable efforts to coordinate patient care with the acupuncturist or acupuncturist and Eastern medicine practitioner to prevent conflict or duplication of services.

(7) All patients receiving intramuscular needling from a physical therapist must sign an informed consent form that includes:

(a) The definition of intramuscular needling;

(b) A description of the risks of intramuscular needling;

(c) A description of the benefits of intramuscular needling;

(d) A description of the potential side effects of intramuscular needling; and

(e) A statement clearly differentiating the procedure from the practice of acupuncture.

(8) Intramuscular needling may not be administered as a stand-alone treatment within a physical therapy care plan."

On page 1, line 2 of the title, after "needling;" strike the remainder of the title and insert "amending RCW 18.74.010; and adding a new section to chapter 18.74 RCW."

Expanding housing options by easing barriers to the construction and use of accessory dwelling units.

The measure was read the second time.

MOTION

Senator Lovelett moved that the following committee striking amendment by the Committee on Local Government, Land Use & Tribal Affairs be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature makes the following findings:

(a) Washington state is experiencing a housing affordability crisis. Many communities across the state are in need of more housing for renters across the income spectrum.

(b) Many cities dedicate the majority of residentially zoned land to single detached houses that are increasingly financially out of reach for many households. Due to their smaller size, accessory dwelling units can provide a more affordable housing option in those single-family zones.

(c) Localities can start to correct for historic economic and racial exclusion in single-family zones by opening up these neighborhoods to more diverse housing types, including accessory dwelling units, that provide lower cost homes. Increasing housing options in expensive, high-opportunity neighborhoods will give more families access to schools, parks, and other public amenities otherwise accessible to only the wealthy.

(d) Accessory dwelling units are frequently rented below market rate, providing additional affordable housing options for renters.

(e) Accessory dwelling units can also help to provide housing for very low-income households. More than 10 percent of accessory dwelling units in some areas are occupied by tenants who pay no rent at all; among these tenants are grandparents, adult children, family members with disabilities, friends going through life transitions, and community members in need. Accessory dwelling units meet the needs of these people who might otherwise require subsidized housing space and resources.

(f) Accessory dwelling units can meet the needs of Washington's growing senior population, making it possible for this population to age in their communities by offering senior-friendly housing, which prioritizes physical accessibility, in walkable communities near amenities essential to successful aging in place, including transit and grocery stores, without requiring costly renovations of existing housing stock.

(g) Homeowners who add an accessory dwelling unit may benefit from added income and an increased sense of security.

(h) Accessory dwelling units provide environmental benefits. On average they are more energy efficient than single detached houses, and they incentivize adaptive reuse of existing homes and materials.

(i) Siting accessory dwelling units near transit hubs, employment centers, and public amenities can help to reduce greenhouse gas emissions by increasing walkability, shortening household commutes, and curtailing sprawl.

(2) The legislature intends to promote and encourage the creation of accessory dwelling units as a means to address the need for additional affordable housing options.

Sec. 2. RCW 36.70A.696 and 2021 c 306 s 2 are each amended to read as follows:

The definitions in this section apply throughout RCW 36.70A.697 ~~((and))~~, 36.70A.698, and sections 3 and 4 of this act unless the context clearly requires otherwise.

(1) "Accessory dwelling unit" means a dwelling unit located on the same lot as a single-family housing unit, duplex, triplex, townhome, or other housing unit.

(2) "Attached accessory dwelling unit" means an accessory dwelling unit located within or attached to a single-family housing unit, duplex, triplex, townhome, or other housing unit.

(3) "City" means any city, code city, and town located in a county planning under RCW 36.70A.040.

(4) "County" means any county planning under RCW 36.70A.040.

(5) "Detached accessory dwelling unit" means an accessory dwelling unit that consists partly or entirely of a building that is separate and detached from a single-family housing unit, duplex, triplex, townhome, or other housing unit and is on the same property.

(6) "Dwelling unit" means a residential living unit that provides complete independent living facilities for one or more persons and that includes permanent provisions for living, sleeping, eating, cooking, and sanitation.

(7) "Gross floor area" means the interior habitable area of a dwelling unit including basements and attics but not including a garage or accessory structure.

~~(8)~~ "Major transit stop" means:

(a) A stop on a high capacity transportation system funded or expanded under the provisions of chapter 81.104 RCW;

(b) Commuter rail stops;

(c) Stops on rail or fixed guideway systems, including transitways;

(d) Stops on bus rapid transit routes or routes that run on high occupancy vehicle lanes; or

(e) Stops for a bus or other transit mode providing actual fixed route service at intervals of at least fifteen minutes for at least five hours during the peak hours of operation on weekdays.

~~((8))~~ (9) "Owner" means any person who has at least 50 percent ownership in a property on which an accessory dwelling unit is located.

~~((9))~~ (10) "Principal unit" means the single-family housing unit, duplex, triplex, townhome, or other housing unit located on the same lot as an accessory dwelling unit.

(11) "Short-term rental" means a lodging use, that is not a hotel or motel or bed and breakfast, in which a dwelling unit, or portion thereof, is offered or provided to a guest by a short-term rental operator for a fee for fewer than 30 consecutive nights.

NEW SECTION. Sec. 3. A new section is added to chapter 36.70A RCW to read as follows:

(1)(a) Cities and counties planning under this chapter must adopt or amend by ordinance, and incorporate into their development regulations, zoning regulations, and other official controls the requirements of this section and of section 4 of this

act, to take effect six months after the jurisdiction's next periodic comprehensive plan update required under RCW 36.70A.130.

(3) Any action taken by a city or county to comply with the requirements of this section or section 4 of this act is not subject to legal challenge under this chapter or chapter 43.21C RCW.

(4) Nothing in this section or section 4 of this act requires or authorizes a city or county to authorize the construction of an accessory dwelling unit in a location where development is restricted under other laws, rules, or ordinances as a result of physical proximity to on-site sewage system infrastructure, critical areas, or other unsuitable physical characteristics of a property.

(5) Nothing in this section or in section 4 of this act prohibits a city or county from:

(a) Restricting the use of accessory dwelling units for short-term rentals;

(b) Applying public health, safety, building code, and environmental permitting requirements to an accessory dwelling unit that would be applicable to the principal unit, including regulations to protect ground and surface waters from on-site wastewater;

(c) Applying generally applicable development regulations to the construction of an accessory unit, except when the application of such regulations would be contrary to this section or to section 4 of this act;

(d) Prohibiting the construction of accessory dwelling units on lots that are not connected to or served by public sewers; or

(e) Prohibiting or restricting the construction of accessory dwelling units in residential zones with a density of one dwelling unit per acre or less that are within areas designated as wetlands, fish and wildlife habitats, flood plains, or geologically hazardous areas.

NEW SECTION. Sec. 4. A new section is added to chapter 36.70A RCW to read as follows:

(1) In addition to ordinances, development regulations, and other official controls adopted or amended to comply with this section and section 3 of this act, a city or county must comply with all of the following policies:

(a) The city or county may not assess impact fees on the construction of accessory dwelling units that are greater than 50 percent of the impact fees that would be imposed on the principal unit;

(b) The city or county may not require the owner of a lot on which there is an accessory dwelling unit to reside in or occupy the accessory dwelling unit or another housing unit on the same lot;

(c) The city or county must allow at least two accessory dwelling units on all lots that are located in all zoning districts within an urban growth area that allow for single-family homes in the following configurations:

(i) One attached accessory dwelling unit and one detached accessory dwelling unit;

(ii) Two attached accessory dwelling units; or

EIGHTY EIGHTH DAY, APRIL 6, 2023

(f) The city or county may not establish a maximum gross floor area requirement for accessory dwelling units that is less than 1,000 square feet;

(g) The city or county may not establish roof height limits on an accessory dwelling unit of less than 24 feet, unless the height limitation that applies to the principal unit is less than 24 feet, in which case a city or county may not impose roof height limitation on accessory dwelling units that is less than the height limitation that applies to the principal unit;

(h) A city or county may not impose setback requirements, yard coverage limits, tree retention mandates, restrictions on entry door locations, aesthetic requirements, or requirements for design review for accessory dwelling units that are more restrictive than those for principal units;

(i) A city or county must allow detached accessory dwelling units to be sited at a lot line if the lot line abuts a public alley, unless the city or county routinely plows snow on the public alley;

(j) A city or county must allow accessory dwelling units to be converted from existing structures, including but not limited to detached garages, even if they violate current code requirements for setbacks or lot coverage;

(k) A city or county may not prohibit the sale or other conveyance of a condominium unit independently of a principal unit solely on the grounds that the condominium unit was originally built as an accessory dwelling unit; and

(l) A city or county may not require public street improvements as a condition of permitting accessory dwelling units.

(2) When regulating accessory dwelling units, cities and counties may impose a limit of two accessory dwelling units, in addition to the principal unit, on a residential lot of 2,000 square feet or less.

(3) The provisions of this section do not apply to lots designated with critical areas or their buffers as designated in RCW 36.70A.060, or to a watershed serving a reservoir for potable water if that watershed is or was listed, as of the effective date of this section, as impaired or threatened under section 303(d) of the federal clean water act (33 U.S.C. Sec. 1313(d)).

NEW SECTION. Sec. 5. A new section is added to chapter 36.70A RCW to read as follows:

Cities and counties may only offer such reduced or deferred fees, deferred taxes, waivers, or other incentives for the development or construction of accessory dwelling units if:

(1) The units are located within an urban growth area; and

(2) The units are subject to a program adopted by the city or county with effective binding commitments or covenants that the units will be primarily utilized for long-term housing consistent with the public purpose for this authorization.

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 13.50.260 and 2020 c 184 s 1 are each amended to read as follows:

(1)(a) The court shall hold regular sealing hearings. During these regular sealing hearings, the court shall administratively seal an individual's juvenile record pursuant to the requirements of this subsection. Although the juvenile record shall be sealed, the social file may be available to any juvenile justice or care agency when an investigation or case involving the juvenile subject of the records is being prosecuted by the juvenile justice or care agency or when the juvenile justice or care agency is assigned the responsibility of supervising the juvenile. The juvenile respondent's presence is not required at any administrative sealing hearing.

(b) At the disposition hearing of a juvenile offender, the court shall schedule an administrative sealing hearing to take place during the first regularly scheduled sealing hearing after the latest of the following events that apply:

- (i) The respondent's eighteenth birthday;
- (ii) Anticipated end date of a respondent's probation, if ordered;
- (iii) Anticipated release from confinement at the juvenile rehabilitation administration, or the completion of parole, if the respondent is transferred to the juvenile rehabilitation administration.

(c) The court shall not schedule an administrative sealing hearing at the disposition and no administrative sealing hearing shall occur if one of the offenses for which the court has entered a disposition is at the time of commission of the offense:

- (i) A most serious offense, as defined in RCW 9.94A.030;
 - (ii) A sex offense under chapter 9A.44 RCW; or
 - (iii) A drug offense, as defined in RCW 9.94A.030.
- (d) At the time of the scheduled administrative sealing hearing, the court shall enter a written order sealing the respondent's juvenile court record pursuant to this subsection if the court finds by a preponderance of the evidence that the respondent is no longer on supervision for the case being considered for sealing and has paid the full amount of restitution owing to the individual victim named in the restitution order, excluding restitution owed to any public or private entity providing insurance coverage or health care coverage. In determining whether the respondent is on supervision or owes restitution, the court shall take judicial notice of court records, including records of the county clerk, and, if necessary, sworn testimony from a representative of the juvenile department.

(e) At the time of the administrative sealing hearing, if the court finds the respondent remains on supervision for the case being considered for sealing, then the court shall continue the administrative sealing hearing to a date within thirty days following the anticipated end date of the respondent's supervision. At the next administrative sealing hearing, the court shall again determine the respondent's eligibility for sealing his or her juvenile court record pursuant to (d) of this subsection, and, if necessary, continue the hearing again as provided in this subsection.

(f)(i) During the administrative sealing hearing, if the court finds the respondent is no longer on supervision for the case being considered for sealing, but the respondent has not paid the full amount of restitution owing to the individual victim named in the restitution order, excluding any public or private entity providing insurance coverage or health care coverage, the court shall deny sealing the juvenile court record in a written order that: (A) Specifies the amount of restitution that remains unpaid to the original victim, excluding any public or private entity providing insurance coverage or health care coverage; and (B) provides direction to the respondent on how to pursue the sealing of records associated with this cause of action.

(ii) Within five business days of the entry of the written order denying the request to seal a juvenile court record, the juvenile court department staff shall notify the respondent of the denial by providing a copy of the order of denial to the respondent in person or in writing mailed to the respondent's last known address in the department of licensing database or the respondent's address provided to the court, whichever is more recent.

(iii) At any time following entry of the written order denying the request to seal a juvenile court record, the respondent may contact the juvenile court department, provide proof of payment of the remaining unpaid restitution to the original victim, excluding any public or private entity providing insurance coverage or health care coverage, and request an administrative sealing hearing. Upon verification of the satisfaction of the restitution payment, the juvenile court department staff shall circulate for signature an order sealing the file, and file the signed order with the clerk's office, who shall seal the record.

(iv) The administrative office of the courts must ensure that sealed juvenile records remain private in case of an appeal and are either not posted or redacted from any clerks papers that are posted online with the appellate record, as well as taking any other prudent steps necessary to avoid exposing sealed juvenile records to the public.

(2) Except for dismissal of a deferred disposition under RCW 13.40.127, the court shall enter a written order immediately sealing the official juvenile court record upon the acquittal after a

fact finding or upon the dismissal of charges with prejudice, subject to the state's right, if any, to appeal the dismissal.

(4)(a) The court shall grant any motion to seal records for class A offenses made pursuant to subsection (3) of this section if:

(i) Since the last date of release from confinement, including full-time residential treatment, if any, or entry of disposition, the person has spent five consecutive years in the community without committing any offense or crime that subsequently results in an adjudication or conviction;

(ii) No proceeding is pending against the moving party seeking the conviction of a juvenile offense or a criminal offense;

(iii) No proceeding is pending seeking the formation of a diversion agreement with that person;

(iv) The person is no longer required to register as a sex offender under RCW 9A.44.130 or has been relieved of the duty to register under RCW 9A.44.143 if the person was convicted of a sex offense;

(5) The person making a motion pursuant to subsection (3) of this section shall give reasonable notice of the motion to the prosecution and to any person or agency whose records are sought to be sealed.

(6)(a) If the court enters a written order sealing the juvenile court record pursuant to this section, it shall, subject to RCW 13.50.050(13), order sealed the official juvenile court record, the social file, and other records relating to the case as are named in the order. Thereafter, the proceedings in the case shall be treated as if they never occurred, and the subject of the records may reply accordingly to any inquiry about the events, records of which are sealed. Any agency shall reply to any inquiry concerning confidential or sealed records that records are confidential, and no information can be given about the existence or nonexistence of records concerning an individual.

(b) In the event the subject of the juvenile records receives a full and unconditional pardon, the proceedings in the matter upon which the pardon has been granted shall be treated as if they never occurred, and the subject of the records may reply accordingly to any inquiry about the events upon which the pardon was received. Any agency shall reply to any inquiry concerning the records pertaining to the events for which the subject received a pardon that records are confidential, and no information can be given about the existence or nonexistence of records concerning an individual.

(c) Effective July 1, 2019, the department of licensing may release information related to records the court has ordered sealed only to the extent necessary to comply with federal law and regulation.

(7) Inspection of the files and records included in the order to seal may thereafter be permitted only by order of the court upon motion made by the person who is the subject of the information or complaint, except as otherwise provided in RCW 13.50.010(8) and 13.50.050(13).

(8)(a) Any adjudication of a juvenile offense or a crime subsequent to sealing has the effect of nullifying a sealing order; however, the court may order the juvenile court record resealed upon disposition of the subsequent matter if the case meets the sealing criteria under this section and the court record has not previously been resealed.

(b) Any charging of an adult felony subsequent to the sealing has the effect of nullifying the sealing order.

(c) The administrative office of the courts shall ensure that the superior court judicial information system provides prosecutors access to information on the existence of sealed juvenile records.

(d) The Washington state patrol shall ensure that the Washington state identification system provides Washington state criminal justice agencies access to sealed juvenile records information.

(e) The Washington state patrol shall ensure that the Washington state identification system provides non-Washington criminal justice agencies access to sealed juvenile records only for the purposes of processing and purchasing firearms, concealed pistol licenses, or alien firearms licenses, or releasing of firearms from evidence.

(f) Non-Washington criminal justice agencies that access sealed juvenile records pursuant to this subsection shall not knowingly disseminate the accessed records or any information derived therefrom to any third party. Dissemination of such records or such information shall subject the disseminating agency to the jurisdiction of the courts of Washington and a civil penalty of not more than \$1,000 per violation.

(9) If the juvenile court record has been sealed pursuant to this section, the record of an employee is not admissible in an action for liability against the employer based on the former juvenile offender's conduct to show that the employer knew or should have known of the juvenile record of the employee. The record may be admissible, however, if a background check conducted or

authorized by the employer contained the information in the sealed record.

(10) County clerks may interact or correspond with the respondent, his or her parents, restitution recipients, and any holders of potential assets or wages of the respondent for the purposes of collecting an outstanding legal financial obligation after juvenile court records have been sealed pursuant to this section.

(11) Persons and agencies that obtain sealed juvenile records information pursuant to this section may communicate about this information with the respondent, but may not disseminate or be compelled to release the information to any person or agency not specifically granted access to sealed juvenile records in this section.

(12) All criminal justice agencies must not disclose confidential information or sealed records accessed through the Washington state identification system or other means, and no information can be given to third parties, other than ((Washington state)) criminal justice agencies, about the existence or nonexistence of confidential or sealed records concerning an individual."

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1576, by House Committee on Postsecondary Education & Workforce (originally sponsored by Caldier, Schmidt, Leavitt and Volz)

Concerning the dentist and dental hygienist compact.

The measure was read the second time.

MOTION

Senator Cleveland moved that the following committee striking amendment by the Committee on Health & Long-Term Care be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. This act shall be known and cited as the dentist and dental hygienist compact. The purposes of this compact are to facilitate the interstate practice of dentistry and dental hygiene and improve public access to dentistry and dental hygiene services by providing dentists and dental hygienists licensed in a participating state the ability to practice in participating states in which they are not licensed. The compact does this by establishing a pathway for dentists and dental hygienists licensed in a participating state to obtain a compact privilege that authorizes them to practice in another participating state in which they are not licensed. The compact enables participating states to protect the public health and safety with respect to the practice of such dentists and dental hygienists, through the state's authority to regulate the practice of dentistry and dental hygiene in the state. The compact:

(1) Enables dentists and dental hygienists who qualify for a compact privilege to practice in other participating states without satisfying burdensome and duplicative requirements associated with securing a license to practice in those states;

(2) Promotes mobility and addresses workforce shortages through each participating state's acceptance of a compact privilege to practice in that state;

(3) Increases public access to qualified, licensed dentists and dental hygienists by creating a responsible, streamlined pathway for licensees to practice in participating states;

(4) Enhances the ability of participating states to protect the public's health and safety;

(5) Does not interfere with licensure requirements established by a participating state;

(6) Facilitates the sharing of licensure and disciplinary information among participating states;

(7) Requires dentists and dental hygienists who practice in a participating state pursuant to a compact privilege to practice within the scope of practice authorized in that state;

(8) Extends the authority of a participating state to regulate the practice of dentistry and dental hygiene within its borders to dentists and dental hygienists who practice in the state through a compact privilege;

(k) Have continuing professional development requirements as a condition for license renewal; and

(l) Pay a participation fee to the commission as established by commission rule.

(2) Providing alternative pathways for an individual to obtain an unrestricted license does not disqualify a state from participating in the compact.

(3) When conducting a criminal background check the state licensing authority shall:

(a) Consider that information in making a licensure decision;

(b) Maintain documentation of completion of the criminal background check and background check information to the extent allowed by state and federal law; and

(c) Report to the commission whether it has completed the criminal background check and whether the individual was granted or denied a license.

(4) A licensee of a participating state who has a qualifying license in that state and does not hold an encumbered license in any other participating state shall be issued a compact privilege in a remote state in accordance with the terms of the compact and commission rules. If a remote state imposes an adverse action against a compact privilege that limits the compact privilege, that adverse action applies to all compact privileges in all remote states. A licensee whose compact privilege in a remote state is removed for a specified period of time is not eligible for a compact privilege in any other remote state until the specific time for removal of the compact privilege has passed and all encumbrance requirements are satisfied.

(5) If a license in a participating state is an encumbered license, the licensee shall lose the compact privilege in a remote state and shall not be eligible for a compact privilege in any remote state until the license is no longer encumbered.

(6) Once an encumbered license in a participating state is restored to good standing, the licensee must meet the requirements of subsection (1) of this section to obtain a compact privilege in a remote state.

(7) If a licensee's compact privilege in a remote state is removed by the remote state, the individual shall lose or be ineligible for the compact privilege in any remote state until the following occur:

(8) Once the requirements of subsection (7) of this section have been met, the licensee must meet the requirements in subsection (1) of this section to obtain a compact privilege in a remote state.

If a remote state chooses to charge a fee for a compact privilege, it may choose to charge a reduced fee or no fee to an active military member and their spouse for a compact privilege.

NEW SECTION. Sec. 6. (1) A participating state in which a licensee is licensed shall have exclusive authority to impose

EIGHTY EIGHTH DAY, APRIL 6, 2023

adverse action against the qualifying license issued by that participating state.

(2) A participating state may take adverse action based on the significant investigative information of a remote state, so long as the participating state follows its own procedures for imposing adverse action.

(3) Nothing in this compact shall override a participating state's decision that participation in an alternative program may be used in lieu of adverse action and that such participation shall remain nonpublic if required by the participating state's laws. Participating states must require licensees who enter any alternative program in lieu of discipline to agree not to practice pursuant to a compact privilege in any other participating state during the term of the alternative program without prior authorization from such other participating state.

(4) Any participating state in which a licensee is applying to practice or is practicing pursuant to a compact privilege may investigate actual or alleged violations of the statutes and regulations authorizing the practice of dentistry or dental hygiene in any other participating state in which the dentist or dental hygienist holds a license or compact privilege.

(5) A remote state shall have the authority to:

(a) Take adverse actions as set forth in section 4(4) of this act against a licensee's compact privilege in the state;

(b) In furtherance of its rights and responsibilities under the compact and the commission's rules, issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses and the production of evidence. Subpoenas issued by a state licensing authority in a participating state for the attendance and testimony of witnesses or the production of evidence from another participating state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state where the witnesses or evidence is located; and

(c) If otherwise permitted by state law, recover from the licensee the costs of investigations and disposition of cases resulting from any adverse action taken against that licensee.

(6)(a) In addition to the authority granted to a participating state by its dentist or dental hygienist licensure act or other applicable state law, a participating state may jointly investigate licensees with other participating states.

(b) Participating states shall share any significant investigative information, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under the compact.

(7)(a) After a licensee's compact privilege in a remote state is terminated, the remote state may continue an investigation of the licensee that began when the licensee had a compact privilege in that remote state.

(b) If the investigation yields what would be significant investigative information had the licensee continued to have a compact privilege in that remote state, the remote state shall report the presence of such information to the data system as required by section 8(2)(f) of this act as if it was significant investigative information.

NEW SECTION. Sec. 7. (1) The compact participating states hereby create and establish a joint government agency whose membership consists of all participating states that have enacted the compact. The commission is an instrumentality of the participating states acting jointly and not an instrumentality of any one state. The commission shall come into existence on or after the effective date of the compact as set forth in section 11(1) of this act.

(2)(a) Each participating state shall have and be limited to one commissioner selected by that participating state's state licensing authority or, if the state has more than one state licensing authority, selected collectively by the state licensing authorities.

(b) The commissioner shall be a member or designee of such authority or authorities.

(c) The commission may by rule or bylaw establish a term of office for commissioners and may by rule or bylaw establish term limits.

(d) The commission may recommend to a state licensing authority or authorities, as applicable, removal or suspension of an individual as the state's commissioner.

(e) A participating state's state licensing authority or authorities, as applicable, shall fill any vacancy of its commissioner on the commission within 60 days of the vacancy.

(f) Each commissioner shall be entitled to one vote on all matters that are voted upon by the commission.

(g) The commission shall meet at least once during each calendar year. Additional meetings may be held as set forth in the bylaws. The commission may meet by telecommunication, videoconference, or other similar electronic means.

(3) The commission shall have the following powers:

(d) Maintain its financial records in accordance with the bylaws;

(e) Meet and take such actions as are consistent with the provisions of this compact, the commission's rules, and the bylaws;

(f) Initiate and conclude legal proceedings or actions in the name of the commission, provided that the standing of any state licensing authority to sue or be sued under applicable law shall not be affected;

(g) Maintain and certify records and information provided to a participating state as the authenticated business records of the commission, and designate a person to do so on the commission's behalf;

(h) Purchase and maintain insurance and bonds;

(i) Borrow, accept, or contract for services of personnel including, but not limited to, employees of a participating state;

(j) Conduct an annual financial review;

(k) Hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of the compact, and establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel, and other related personnel matters;

(l) As set forth in the commission rules, charge a fee to a licensee for the grant of a compact privilege in a remote state and thereafter, as may be established by commission rule, charge the licensee a compact privilege renewal fee for each renewal period in which that licensee exercises or intends to exercise the compact privilege in that remote state. Nothing herein shall be construed to prevent a remote state from charging a licensee a fee for a compact privilege or renewals of a compact privilege, or a fee for the jurisprudence requirement if the remote state imposes such a requirement for the grant of a compact privilege;

(m) Accept any and all appropriate gifts, donations, grants of money, other sources of revenue, equipment, supplies, materials, and services, and receive, utilize, and dispose of the same; provided that at all times the commission shall avoid any appearance of impropriety and/or conflict of interest;

(n) Lease, purchase, retain, own, hold, improve, or use any property, real, personal, or mixed, or any undivided interest therein;

(o) Sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal, or mixed;

(p) Establish a budget and make expenditures;

(q) Borrow money;

(r) Appoint committees, including standing committees, which may be composed of members, state regulators, state legislators or their representatives, consumer representatives, and such other interested persons as may be designated in this compact and the bylaws;

(s) Provide and receive information from, and cooperate with, law enforcement agencies;

(t) Elect a chair, vice chair, secretary, treasurer, and such other officers of the commission as provided in the commission's bylaws;

(u) Establish and elect an executive board;

(v) Adopt and provide to the participating states an annual report;

(w) Determine whether a state's enacted compact is materially different from the model compact language such that the state would not qualify for participation in the compact; and

(x) Perform such other functions as may be necessary or appropriate to achieve the purposes of this compact.

(4)(a) All meetings of the commission that are not closed pursuant to this subsection shall be open to the public. Notice of public meetings shall be posted on the commission's website at least 30 days prior to the public meeting.

(b) Notwithstanding (a) of this subsection, the commission may convene an emergency public meeting by providing at least 24 hours prior notice on the commission's website, and any other means as provided in the commission's rules, for any of the reasons it may dispense with notice of proposed rule making under section 9(12) of this act. The commission's legal counsel shall certify that one of the reasons justifying an emergency public meeting has been met.

(c) Notice of all commission meetings shall provide the time, date, and location of the meeting, and if the meeting is to be held or accessible via telecommunication, videoconference, or other electronic means, the notice shall include the mechanism for access to the meeting through such means.

(d) The commission may convene in a closed, nonpublic meeting for the commission to receive legal advice or to discuss:

(i) Noncompliance of a participating state with its obligations under the compact;

(ii) The employment, compensation, discipline, or other matters, practices, or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures;

(iii) Current or threatened discipline of a licensee or compact privilege holder by the commission or by a participating state's licensing authority;

(iv) Current, threatened, or reasonably anticipated litigation;

(ix) Investigative records compiled for law enforcement purposes;

(x) Information related to any investigative reports prepared by, on behalf of, or for use of the commission or other committee charged with responsibility of investigation or determination of compliance issues pursuant to the compact;

(xi) Legal advice;

(xii) Matters specifically exempted from disclosure to the public by federal or participating state law; and

(xiii) Other matters as promulgated by the commission by rule.

(e) If a meeting, or portion of a meeting, is closed, the presiding officer shall state that the meeting will be closed and reference each relevant exempting provision, and such reference shall be recorded in the minutes.

(f) The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken and the reasons therefore, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release only by a majority vote of the commission or order of a court of competent jurisdiction.

(5)(a) The commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.

(b) The commission may accept any and all appropriate sources of revenue, donations, and grants of money, equipment, supplies, materials, and services.

(c) The commission may levy on and collect an annual assessment from each participating state and impose fees on licensees of participating states when a compact privilege is granted to cover the cost of the operations and activities of the commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved each fiscal year for which sufficient revenue is not provided by other sources. The aggregate annual assessment amount for participating states shall be allocated based upon a formula that the commission shall promulgate by rule.

(d) The commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the commission pledge the credit of any participating state, except by and with the authority of the participating state.

(e) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the financial review and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be subject to an annual financial review by a certified or licensed public accountant, and the report of the financial review shall be included in and become part of the annual report of the commission.

(6)(a) The executive board shall have the power to act on behalf of the commission according to the terms of this compact. The powers, duties, and responsibilities of the executive board shall include:

(i) Overseeing the day-to-day activities of the administration of the compact including compliance with the provisions of the compact and the commission's rules and bylaws;

(ii) Recommending to the commission changes to the rules or bylaws, changes to this compact legislation, fees charged to compact participating states, fees charged to licensees, and other fees;

(iii) Ensuring compact administration services are appropriately provided, including by contract;

(iv) Preparing and recommending the budget;

(v) Maintaining financial records on behalf of the commission;

EIGHTY EIGHTH DAY, APRIL 6, 2023

(vi) Monitoring compact compliance of participating states and providing compliance reports to the commission;

(vii) Establishing additional committees as necessary;

(viii) Exercising the powers and duties of the commission during the interim between commission meetings, except for adopting or amending rules, adopting or amending bylaws, and exercising any other powers and duties expressly reserved to the commission by rule or bylaw; and

(ix) Other duties as provided in the rules or bylaws of the commission.

(b) The executive board shall be composed of up to seven members:

(i) The chair, vice chair, secretary, and treasurer of the commission, and any other members of the commission who serve on the executive board, shall be voting members of the executive board; and

(ii) Other than the chair, vice chair, secretary, and treasurer, the commission may elect up to three voting members from the current membership of the commission.

(c) The commission may remove any member of the executive board as provided in the commission's bylaws.

(d) The executive board shall meet at least annually.

(i) An executive board meeting at which it takes or intends to take formal action on a matter shall be open to the public, except that the executive board may meet in a closed, nonpublic session of a public meeting when dealing with any of the matters covered under subsection (4)(d) of this section.

(ii) The executive board shall give five business days' notice of its public meetings, posted on its website and as it may otherwise determine to provide notice to persons with an interest in the public matters the executive board intends to address at those meetings.

(e) The executive board may hold an emergency meeting when acting for the commission to:

- (i) Meet an imminent threat to public health, safety, or welfare;
- (ii) Prevent a loss of commission or participating state funds; or
- (iii) Protect public health and safety.

(7)(a) The members, officers, executive director, employees, and representatives of the commission shall be immune from suit and liability, both personally and in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing in this subsection (7)(a) shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful or wanton misconduct of that person. The procurement of insurance of any type by the commission shall not in any way compromise or limit the immunity granted hereunder.

(b) The commission shall defend any member, officer, executive director, employee, and representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or as determined by the commission that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining their own counsel at their own expense; and provided further, that the actual or alleged act, error, or omission did not result from that person's intentional or willful or wanton misconduct.

(c) Notwithstanding (a) of this subsection, should any member, officer, executive director, employee, or representative of the commission be held liable for the amount of any settlement or judgment arising out of any actual or alleged act, error, or omission that occurred within the scope of that individual's employment, duties, or responsibilities for the commission, or that the person to whom that individual is liable had a reasonable basis for believing occurred within the scope of the individual's employment, duties, or responsibilities for the commission, the commission shall indemnify and hold harmless such individual, provided that the actual or alleged act, error, or omission did not result from the intentional or willful or wanton misconduct of the individual.

(d) Nothing herein shall be construed as a limitation on the liability of any licensee for professional malpractice or misconduct, which shall be governed solely by any other applicable state laws.

(e) Nothing in this compact shall be interpreted to waive or otherwise abrogate a participating state's state action immunity or state action affirmative defense with respect to antitrust claims under the Sherman act, Clayton act, or any other state or federal antitrust or anticompetitive law or regulation.

(f) Nothing in this compact shall be construed to be a waiver of sovereign immunity by the participating states or by the commission.

NEW SECTION. Sec. 8. (1) The commission shall provide for the development, maintenance, operation, and utilization of a coordinated database and reporting system containing licensure, adverse action, and the presence of significant investigative information on all licensees and applicants for a license in participating states.

(2) Notwithstanding any other provision of state law to the contrary, a participating state shall submit a uniform data set to the data system on all individuals to whom this compact is applicable as required by the rules of the commission, including:

(a) Identifying information;

(b) Licensure data;

(c) Adverse actions against a licensee, license applicant, or compact privilege and information related thereto;

(d) Nonconfidential information related to alternative program participation, the beginning and ending dates of such participation, and other information related to such participation;

(e) Any denial of an application for licensure, and the reason or reasons for such denial, excluding the reporting of any criminal history record information where prohibited by law;

(f) The presence of significant investigative information; and

(g) Other information that may facilitate the administration of this compact or the protection of the public, as determined by the rules of the commission.

(3) The records and information provided to a participating state pursuant to this compact or through the data system, when certified by the commission or an agent thereof, shall constitute the authenticated business records of the commission, and shall be entitled to any associated hearsay exception in any relevant judicial, quasi-judicial, or administrative proceedings in a participating state.

(4) Significant investigative information pertaining to a licensee in any participating state will only be available to other participating states.

(5) It is the responsibility of the participating states to monitor the database to determine whether adverse action has been taken against a licensee or license applicant. Adverse action information pertaining to a licensee or license applicant in any participating state will be available to any other participating state.

(6) Participating states contributing information to the data system may designate information that may not be shared with the public without the express permission of the participating state.

(7) Any information submitted to the data system that is subsequently expunged pursuant to federal law or the laws of the participating state contributing the information shall be removed from the data system.

NEW SECTION. Sec. 9. (1) The commission shall promulgate reasonable rules in order to effectively and efficiently implement and administer the purposes and provisions of the compact. A commission rule shall be invalid and have no force or effect only if a court of competent jurisdiction holds that the rule is invalid because the commission exercised its rule-making authority in a manner that is beyond the scope and purposes of the compact, or the powers granted hereunder, or based upon another applicable standard of review.

(2) The rules of the commission shall have the force of law in each participating state, provided however that where the rules of the commission conflict with the laws of the participating state that establish the participating state's scope of practice as held by a court of competent jurisdiction, the rules of the commission shall be ineffective in that state to the extent of the conflict.

(3) The commission shall exercise its rule-making powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Rules shall become binding as of the date specified by the commission for each rule.

(4) If a majority of the legislatures of the participating states rejects a commission rule or portion of a commission rule, by enactment of a statute or resolution in the same manner used to adopt the compact, within four years of the date of adoption of the rule, then such rule shall have no further force and effect in any participating state or to any state applying to participate in the compact.

(5) Rules shall be adopted at a regular or special meeting of the commission.

(6) Prior to adoption of a proposed rule, the commission shall hold a public hearing and allow persons to provide oral and written comments, data, facts, opinions, and arguments.

(7) Prior to adoption of a proposed rule by the commission, and at least 30 days in advance of the meeting at which the commission will hold a public hearing on the proposed rule, the commission shall provide a notice of proposed rule making:

(a) On the website of the commission or other publicly accessible platform;

(b) To persons who have requested notice of the commission's notices of proposed rule making; and

(c) In such other way or ways as the commission may by rule specify.

(8) The notice of proposed rule making shall include:

(a) The time, date, and location of the public hearing at which the commission will hear public comments on the proposed rule and, if different, the time, date, and location of the meeting where the commission will consider and vote on the proposed rule;

(b) If the hearing is held via telecommunication, videoconference, or other electronic means, the commission shall include the mechanism for access to the hearing in the notice of proposed rule making;

(c) The text of the proposed rule and the reason therefor;

(d) A request for comments on the proposed rule from any interested person; and

(e) The manner in which interested persons may submit written comments.

(9) All hearings will be recorded. A copy of the recording and all written comments and documents received by the commission in response to the proposed rule shall be available to the public.

(10) Nothing in this section shall be construed as requiring a separate hearing on each commission rule. Rules may be grouped for the convenience of the commission at hearings required by this section.

(11) The commission shall, by majority vote of all commissioners, take final action on the proposed rule based on the rule-making record.

(a) The commission may adopt changes to the proposed rule provided the changes do not enlarge the original purpose of the proposed rule.

(b) The commission shall provide an explanation of the reasons for substantive changes made to the proposed rule as well as reasons for substantive changes not made that were recommended by commenters.

(c) The commission shall determine a reasonable effective date for the rule. Except for an emergency as provided in subsection (12) of this section, the effective date of the rule shall be no sooner than 30 days after the commission issuing the notice that it adopted or amended the rule.

(12) Upon determination that an emergency exists, the commission may consider and adopt an emergency rule with 24 hours' notice, with opportunity to comment, provided that the usual rule-making procedures provided in the compact and in this section shall be retroactively applied to the rule as soon as reasonably possible, in no event later than 90 days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

(a) Meet an imminent threat to public health, safety, or welfare;

(b) Prevent a loss of commission or participating state funds;

(c) Meet a deadline for the promulgation of a rule that is established by federal law or rule; or

(d) Protect public health and safety.

(13) The commission or an authorized committee of the commission may direct revisions to a previously adopted rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the commission. The revision shall be subject to challenge by any person for a period of 30 days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

(14) No participating state's rule-making requirements shall apply under this compact.

NEW SECTION. Sec. 10. (1)(a) The executive and judicial branches of state government in each participating state shall enforce this compact and take all actions necessary and appropriate to implement the compact.

(b) Venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any such similar matter.

EIGHTY EIGHTH DAY, APRIL 6, 2023

(c) The commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact or commission rule and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the commission service of process shall render a judgment or order void as to the commission, this compact, or promulgated rules.

(2)(a) If the commission determines that a participating state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall provide written notice to the defaulting state. The notice of default shall describe the default, the proposed means of curing the default, and any other action that the commission may take, and shall offer training and specific technical assistance regarding the default.

(b) The commission shall provide a copy of the notice of default to the other participating states.

(3) If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the commissioners, and all rights, privileges, and benefits conferred on that state by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(4) Termination of participation in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, the defaulting state's state licensing authority or authorities, as applicable, and each of the participating states' state licensing authority or authorities, as applicable.

(5) A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(6) Upon the termination of a state's participation in this compact, that state shall immediately provide notice to all licensees of the state, including licensees of other participating states issued a compact privilege to practice within that state, of such termination. The terminated state shall continue to recognize all compact privileges then in effect in that state for a minimum of 180 days after the date of said notice of termination.

(7) The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

(8) The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

(9)(a) Upon request by a participating state, the commission shall attempt to resolve disputes related to the compact that arise among participating states and between participating states and nonparticipating states.

(b) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

(10)(a) The commission, in the reasonable exercise of its discretion, shall enforce the provisions of this compact and the commission's rules.

(b) By majority vote, the commission may initiate legal action against a participating state in default in the United States district court for the District of Columbia or the federal district where the

commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees. The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or the defaulting participating state's law.

(c) A participating state may initiate legal action against the commission in the United States district court for the District of Columbia or the federal district where the commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

(d) No individual or entity other than a participating state may enforce this compact against the commission.

NEW SECTION. Sec. 11. (1) The compact shall come into effect on the date on which the compact statute is enacted into law in the seventh participating state.

(a) On or after the effective date of the compact, the commission shall convene and review the enactment of each of the states that enacted the compact prior to the commission convening ("charter participating states") to determine if the statute enacted by each such charter participating state is materially different than the model compact.

(i) A charter participating state whose enactment is found to be materially different from the model compact shall be entitled to the default process set forth in section 10 of this act.

(ii) If any participating state is later found to be in default, or is terminated or withdraws from the compact, the commission shall remain in existence and the compact shall remain in effect even if the number of participating states should be less than seven.

(b) Participating states enacting the compact subsequent to the charter participating states shall be subject to the process set forth in section 7(3)(w) of this act to determine if their enactments are materially different from the model compact and whether they qualify for participation in the compact.

(c) All actions taken for the benefit of the commission or in furtherance of the purposes of the administration of the compact prior to the effective date of the compact or the commission coming into existence shall be considered to be actions of the commission unless specifically repudiated by the commission.

(d) Any state that joins the compact subsequent to the commission's initial adoption of the rules and bylaws shall be subject to the commission's rules and bylaws as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the day the compact becomes law in that state.

(2) Any participating state may withdraw from this compact by enacting a statute repealing that state's enactment of the compact.

(a) A participating state's withdrawal shall not take effect until 180 days after enactment of the repealing statute.

(b) Withdrawal shall not affect the continuing requirement of the withdrawing state's licensing authority or authorities to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

(c) Upon the enactment of a statute withdrawing from this compact, the state shall immediately provide notice of such withdrawal to all licensees within that state. Notwithstanding any subsequent statutory enactment to the contrary, such withdrawing

state shall continue to recognize all compact privileges to practice within that state granted pursuant to this compact for a minimum of 180 days after the date of such notice of withdrawal.

(3) Nothing contained in this compact shall be construed to invalidate or prevent any licensure agreement or other cooperative arrangement between a participating state and a nonparticipating state that does not conflict with the provisions of this compact.

(4) This compact may be amended by the participating states. No amendment to this compact shall become effective and binding upon any participating state until it is enacted into the laws of all participating states.

NEW SECTION. Sec. 12. (1) This compact and the commission's rule-making authority shall be liberally construed so as to effectuate the purposes, and the implementation and administration, of the compact. Provisions of the compact expressly authorizing or requiring the promulgation of rules shall not be construed to limit the commission's rule-making authority solely for those purposes.

(2) The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is held by a court of competent jurisdiction to be contrary to the constitution of any participating state, a state seeking participation in the compact, or of the United States, or the applicability thereof to any government, agency, person, or circumstance is held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of this compact and the applicability thereof to any other government, agency, person, or circumstance shall not be affected thereby.

(3) Notwithstanding subsection (2) of this section, the commission may deny a state's participation in the compact or, in accordance with the requirements of section 10(2) of this act, terminate a participating state's participation in the compact, if it determines that a constitutional requirement of a participating state is a material departure from the compact. Otherwise, if this compact shall be held to be contrary to the constitution of any participating state, the compact shall remain in full force and effect as to the remaining participating states and in full force and effect as to the participating state affected as to all severable matters.

NEW SECTION. Sec. 13. (1) Nothing in this chapter shall prevent or inhibit the enforcement of any other law of a participating state that is not inconsistent with the compact.

(2) Any laws, statutes, regulations, or other legal requirements in a participating state in conflict with the compact are superseded to the extent of the conflict.

(3) All permissible agreements between the commission and the participating states are binding in accordance with their terms.

NEW SECTION. Sec. 14. Sections 1 through 13 of this act constitute a new chapter in Title 18 RCW."

If you do not reinstate the secured obligation and your Deed of Trust in the manner set forth above, or if you do not succeed in restraining the sale by court action, your property will be sold. The effect of such sale will be to deprive you and all those who hold by, through or under you of all interest in the property;

(5) In addition, the trustee shall cause a copy of the notice of sale described in subsection (2)(d) of this section (excluding the acknowledgment) to be published in a legal newspaper in each county in which the property or any part thereof is situated, once on or between the ((thirty-fifth)) 35th and ((twenty-eighth)) 28th day before the date of sale, and once on or between the ((fourteenth)) 14th and seventh day before the date of sale;

(6) In the case where no successor in interest has been established, and neither the beneficiary nor the trustee are able to ascertain the name and address of any spouse, child, or parent of the borrower or grantor in the manner described in RCW 61.24.030(10), then the trustee may, in addition to mailing notice to the property addressed to the unknown heirs and devisees of the grantor, serve the notice of sale by publication in a newspaper of general circulation in the county or city where the property is located once per week for three consecutive weeks. Upon this

(b) Upon receipt of documentation establishing a claimant as a successor in interest, the servicer must provide the information in RCW 61.24.030(11)(c). Only if the servicer or trustee receives the documentation confirming someone as successor in interest more than ((forty-five)) 45 days before the scheduled sale must the servicer then provide the information in RCW 61.24.030(11)(c) to the claimant not less than ((twenty)) 20 days prior to the sale.

(c) (b) of this subsection (7) does not apply to association beneficiaries subject to chapter 64.32, 64.34, or 64.38 RCW.

(8) On the date and at the time designated in the notice of sale, the trustee or its authorized agent shall sell the property at public auction to the highest bidder. The trustee may sell the property in gross or in parcels as the trustee shall deem most advantageous;

(9) The place of sale shall be at any designated public place within the county where the property is located and if the property is in more than one county, the sale may be in any of the counties where the property is located. The sale shall be on Friday, or if Friday is a legal holiday on the following Monday, and during the hours set by statute for the conduct of sales of real estate at execution;

(10) The trustee has no obligation to, but may, for any cause the trustee deems advantageous, continue the sale for a period or periods not exceeding a total of ((one hundred twenty)) 120 days by (a) a public proclamation at the time and place fixed for sale in the notice of sale and if the continuance is beyond the date of sale, by giving notice of the new time and place of the sale by both first class and either certified or registered mail, return receipt requested, to the persons specified in subsection (1)(b)(i) and (ii) of this section to be deposited in the mail (i) not less than four days before the new date fixed for the sale if the sale is continued for up to seven days; or (ii) not more than three days after the date of the continuance by oral proclamation if the sale is continued for more than seven days, or, alternatively, (b) by giving notice of the time and place of the postponed sale in the manner and to the persons specified in subsection (1)(b), (c), (d), and (e) of this section and publishing a copy of such notice once in the newspaper(s) described in subsection (5) of this section, more than seven days before the date fixed for sale in the notice of sale. No other notice of the postponed sale need be given;

(11) The purchaser shall forthwith pay the price bid ((and on payment)). On payment and subject to RCW 61.24.050, the trustee shall execute to the purchaser its deed((; the)). The deed shall recite the facts showing that the sale was conducted in compliance with all of the requirements of this chapter and of the deed of trust, which recital shall be prima facie evidence of such compliance and conclusive evidence thereof in favor of bona fide purchasers and encumbrancers for value, except that these recitals shall not affect the lien or interest of any person entitled to notice under subsection (1) of this section, if the trustee fails to give the required notice to such person. In such case, the lien or interest of such omitted person shall not be affected by the sale and such omitted person shall be treated as if such person was the

holder of the same lien or interest and was omitted as a party defendant in a judicial foreclosure proceeding;

(12) The sale as authorized under this chapter shall not take place less than ((one hundred ninety)) 190 days from the date of default in any of the obligations secured;

(13) If the trustee elects to foreclose the interest of any occupant or tenant of property comprised solely of a single-family residence, or a condominium, cooperative, or other dwelling unit in a multiplex or other building containing fewer than five residential units, the following notice shall be included as Part X of the Notice of Trustee's Sale:

X. NOTICE TO OCCUPANTS OR TENANTS

The purchaser at the trustee's sale is entitled to possession of the property on the 20th day following the sale, as against the grantor under the deed of trust (the owner) and anyone having an interest junior to the deed of trust, including occupants who are not tenants. After the 20th day following the sale the purchaser has the right to evict occupants who are not tenants by summary proceedings under chapter 59.12 RCW. For tenant-occupied property, the purchaser shall provide a tenant with written notice in accordance with RCW 61.24.060;

(14) Only one copy of all notices required by this chapter need be given to a person who is both the borrower and the grantor. All notices required by this chapter that are given to a general partnership are deemed given to each of its general partners, unless otherwise agreed by the parties.

Sec. 4. RCW 61.24.160 and 2012 c 185 s 5 are each amended to read as follows:

(1)(a) A housing counselor who is contacted by a borrower under RCW 61.24.031 has a duty to act in good faith to attempt to reach a resolution with the beneficiary on behalf of the borrower within the ((ninety)) 90 days provided from the date the beneficiary initiates contact with the borrower and the date the notice of default is issued. A resolution may include, but is not limited to, modification of the loan, an agreement to conduct a short sale, a deed in lieu of foreclosure transaction, or some other workout plan.

(b) Nothing in RCW 61.24.031 or this section precludes a meeting or negotiations between the housing counselor, borrower, and beneficiary at any time, including after the issuance of the notice of default.

(c) A borrower who is contacted under RCW 61.24.031 may seek the assistance of a housing counselor or attorney at any time.

(2) Housing counselors have a duty to act in good faith to assist borrowers by:

(a) Preparing the borrower for meetings with the beneficiary;

(b) Advising the borrower about what documents the borrower must have to seek a loan modification or other resolution;

(c) Informing the borrower about the alternatives to foreclosure, including loan modifications or other possible resolutions; and

(d) Providing other guidance, advice, and education as the housing counselor considers necessary.

(3) A housing counselor or attorney assisting a borrower may refer the borrower to mediation, pursuant to RCW 61.24.163, if the housing counselor or attorney determines that mediation is appropriate based on the individual circumstances and the borrower has received a notice of default. The referral to mediation may be made any time after a notice of default has been issued but no later than ((twenty days after the date a notice of sale has been recorded)) 90 days prior to the date of sale listed in the notice of trustee's sale. If an amended notice of trustee's sale is recorded after the trustee sale has been stayed pursuant to RCW 61.24.130, the borrower may be referred to mediation no

later than 25 days prior to the date of sale listed in the amended notice of trustee's sale.

(4) For borrowers who have received a letter under RCW 61.24.031 before June 7, 2012, a referral to mediation by a housing counselor or attorney does not preclude a trustee issuing a notice of default if the requirements of RCW 61.24.031 have been met.

(5) Housing counselors providing assistance to borrowers under RCW 61.24.031 are not liable for civil damages resulting from any acts or omissions in providing assistance, unless the acts or omissions constitute gross negligence or willful or wanton misconduct.

(6) Housing counselors shall provide information to the department to assist the department in its annual report to the legislature as required under RCW 61.24.163(18). The information provided to the department by the housing counselors should include outcomes of foreclosures and be similar to the information requested in the national foreclosure mortgage counseling client level foreclosure outcomes report form.

Sec. 5. RCW 61.24.163 and 2018 c 306 s 6 are each amended to read as follows:

(1) The foreclosure mediation program established in this section applies only to borrowers who have been referred to mediation by a housing counselor or attorney. The referral to mediation may be made any time after a notice of default has been issued but no later than ((twenty days after the date a notice of sale has been recorded)) 90 days prior to the date of sale listed in the notice of trustee's sale. If an amended notice of trustee's sale is recorded after the trustee sale has been stayed pursuant to RCW 61.24.130, the borrower may be referred to mediation no later than 25 days prior to the date of sale listed in the amended notice of trustee's sale. If the borrower has failed to elect to mediate within the applicable time frame, the borrower and the beneficiary may, but are under no duty to, agree in writing to enter the foreclosure mediation program. The mediation program under this section is not governed by chapter 7.07 RCW and does not preclude mediation required by a court or other provision of law.

(2) A housing counselor or attorney referring a borrower to mediation shall send a notice to the borrower and the department, stating that mediation is appropriate.

(3) Within ((ten)) 10 days of receiving the notice, the department shall:

(a) Send a notice to the beneficiary, the borrower, the housing counselor or attorney who referred the borrower, and the trustee stating that the parties have been referred to mediation. The notice must include the statements and list of documents and information described in subsections (4) and (5) of this section and a statement explaining each party's responsibility to pay the mediator's fee; and

(b) Select a mediator and notify the parties of the selection.

(4) Within ((twenty-three)) 23 days of the department's notice that the parties have been referred to mediation, the borrower shall transmit the documents required for mediation to the mediator and the beneficiary. The required documents include an initial homeowner financial information worksheet as required by the department. The worksheet must include, at a minimum, the following information:

(a) The borrower's current and future income;

(b) Debts and obligations;

(c) Assets;

(d) Expenses;

(e) Tax returns for the previous two years;

(f) Hardship information;

(g) Other applicable information commonly required by any applicable federal mortgage relief program.

(5) Within ((twenty)) 20 days of the beneficiary's receipt of the borrower's documents, the beneficiary shall transmit the documents required for mediation to the mediator and the borrower. The required documents include:

(a) An accurate statement containing the balance of the loan within ((thirty)) 30 days of the date on which the beneficiary's documents are due to the parties;

(b) Copies of the note and deed of trust;

(c) Proof that the entity claiming to be the beneficiary is the owner of any promissory note or obligation secured by the deed of trust. Sufficient proof may be a copy of the declaration described in RCW 61.24.030(7)(a);

(d) The best estimate of any arrearage and an itemized statement of the arrearages;

(e) An itemized list of the best estimate of fees and charges outstanding;

(f) The payment history and schedule for the preceding twelve months, or since default, whichever is longer, including a breakdown of all fees and charges claimed;

(g) All borrower-related and mortgage-related input data used in any net present values analysis. If no net present values analysis is required by the applicable federal mortgage relief program, then the input data required under the federal deposit insurance corporation and published in the federal deposit insurance corporation loan modification program guide, or if that calculation becomes unavailable, substantially similar input data as determined by the department;

(h) An explanation regarding any denial for a loan modification, forbearance, or other alternative to foreclosure in sufficient detail for a reasonable person to understand why the decision was made;

(i) Appraisal or other broker price opinion most recently relied upon by the beneficiary not more than ((ninety)) 90 days old at the time of the scheduled mediation; and

(j) The portion or excerpt of the pooling and servicing agreement or other investor restriction that prohibits the beneficiary from implementing a modification, if the beneficiary claims it cannot implement a modification due to limitations in a pooling and servicing agreement or other investor restriction, and documentation or a statement detailing the efforts of the beneficiary to obtain a waiver of the pooling and servicing agreement or other investor restriction provisions.

(6) Within ((seventy)) 70 days of receiving the referral from the department, the mediator shall convene a mediation session in the county where the property is located, unless the parties agree on another location. The parties may agree to extend the time in which to schedule the mediation session. If the parties agree to extend the time, the beneficiary shall notify the trustee of the extension and the date the mediator is expected to issue the mediator's certification.

(7)(a) The mediator may schedule phone conferences, consultations with the parties individually, and other communications to ensure that the parties have all the necessary information and documents to engage in a productive mediation.

(b) The mediator must send written notice of the time, date, and location of the mediation session to the borrower, the beneficiary, and the department at least ((thirty)) 30 days prior to the mediation session. At a minimum, the notice must contain:

(i) A statement that the borrower may be represented in the mediation session by an attorney or other advocate;

(ii) A statement that a person with authority to agree to a resolution, including a proposed settlement, loan modification, or dismissal or continuation of the foreclosure proceeding, must be

present either in person or on the telephone or videoconference during the mediation session; and

(iii) A statement that the parties have a duty to mediate in good faith and that failure to mediate in good faith may impair the beneficiary's ability to foreclose on the property or the borrower's ability to modify the loan or take advantage of other alternatives to foreclosure.

(8)(a) The borrower, the beneficiary or authorized agent, and the mediator must meet in person for the mediation session. However, a person with authority to agree to a resolution on behalf of the beneficiary may be present over the telephone or videoconference during the mediation session.

(b) After the mediation session commences, the mediator may continue the mediation session once, and any further continuances must be with the consent of the parties.

(9) The participants in mediation must address the issues of foreclosure that may enable the borrower and the beneficiary to reach a resolution, including but not limited to reinstatement, modification of the loan, restructuring of the debt, or some other workout plan. To assist the parties in addressing issues of foreclosure, the mediator may require the participants to consider the following:

(a) The borrower's current and future economic circumstances, including the borrower's current and future income, debts, and obligations for the previous ((sixty)) 60 days or greater time period as determined by the mediator;

(b) The net present value of receiving payments pursuant to a modified mortgage loan as compared to the anticipated net recovery following foreclosure;

(c) Any affordable loan modification calculation and net present value calculation when required under any federal mortgage relief program and any modification program related to loans insured by the federal housing administration, the veterans administration, and the rural housing service. If such a calculation is not provided or required, then the beneficiary must provide the net present value data inputs established by the federal deposit insurance corporation and published in the federal deposit insurance corporation loan modification program guide or other net present value data inputs as designated by the department. The mediator may run the calculation in order for a productive mediation to occur and to comply with the mediator certification requirement; and

(d) Any other loss mitigation guidelines to loans insured by the federal housing administration, the veterans administration, and the rural housing service, if applicable.

(10) A violation of the duty to mediate in good faith as required under this section may include:

(a) Failure to timely participate in mediation without good cause;

(b) Failure of the borrower or the beneficiary to provide the documentation required before mediation or pursuant to the mediator's instructions;

(c) Failure of a party to designate representatives with adequate authority to fully settle, compromise, or otherwise reach resolution with the borrower in mediation; and

(d) A request by a beneficiary that the borrower waive future claims he or she may have in connection with the deed of trust, as a condition of agreeing to a modification, except for rescission claims under the federal truth in lending act. Nothing in this section precludes a beneficiary from requesting that a borrower dismiss with prejudice any pending claims against the beneficiary, its agents, loan servicer, or trustee, arising from the underlying deed of trust, as a condition of modification.

(11) If the mediator reasonably believes a borrower will not attend a mediation session based on the borrower's conduct, such

EIGHTY EIGHTH DAY, APRIL 6, 2023

as the lack of response to the mediator's communications, the mediator may cancel a scheduled mediation session and send a written cancellation to the department and the trustee and send copies to the parties. The beneficiary may proceed with the foreclosure after receipt of the mediator's written confirmation of cancellation.

(12) Within seven business days after the conclusion of the mediation session, the mediator must send a written certification to the department and the trustee and send copies to the parties of:

- (a) The date, time, and location of the mediation session;
- (b) The names of all persons attending in person and by telephone or videoconference, at the mediation session;
- (c) Whether a resolution was reached by the parties, including whether the default was cured by reinstatement, modification, or restructuring of the debt, or some other alternative to foreclosure was agreed upon by the parties;
- (d) Whether the parties participated in the mediation in good faith; and
- (e) If a written agreement was not reached, a description of any net present value test used, along with a copy of the inputs, including the result of any net present value test expressed in a dollar amount.

(13) If the parties are unable to reach an agreement, the beneficiary may proceed with the foreclosure after receipt of the mediator's written certification.

(14)(a) The mediator's certification that the beneficiary failed to act in good faith in mediation constitutes a defense to the nonjudicial foreclosure action that was the basis for initiating the mediation. In any action to enjoin the foreclosure, the beneficiary is entitled to rebut the allegation that it failed to act in good faith.

(b) The mediator's certification that the beneficiary failed to act in good faith during mediation does not constitute a defense to a judicial foreclosure or a future nonjudicial foreclosure action if a modification of the loan is agreed upon and the borrower subsequently defaults.

(c) If an affordable loan modification is not offered in the mediation or a written agreement was not reached and the mediator's certification shows that the net present value of the modified loan exceeds the anticipated net recovery at foreclosure, that showing in the certification constitutes a basis for the borrower to enjoin the foreclosure.

(15) The mediator's certification that the borrower failed to act in good faith in mediation authorizes the beneficiary to proceed with the foreclosure.

(16)(a) If a borrower has been referred to mediation before a notice of trustee sale has been recorded, a trustee may not record the notice of sale until the trustee receives the mediator's certification stating that the mediation has been completed. If the trustee does not receive the mediator's certification, the trustee may record the notice of sale after ((ten)) 10 days from the date the certification to the trustee was due. If, after a notice of sale is recorded under this subsection (16)(a), the mediator subsequently issues a certification finding that the beneficiary violated the duty of good faith, the certification constitutes a basis for the borrower to enjoin the foreclosure.

(b) If a borrower has been referred to mediation after the notice of sale was recorded, the sale may not occur until the trustee receives the mediator's certification stating that the mediation has been completed.

(17) A mediator may charge reasonable fees as authorized by this subsection or as authorized by the department. Unless the fee is waived, the parties agree otherwise, or the department otherwise authorizes, a foreclosure mediator's fee may not exceed ((four hundred dollars)) \$400 for preparing, scheduling, and conducting a mediation session lasting between one hour and

three hours. For a mediation session exceeding three hours, the foreclosure mediator may charge a reasonable fee, as authorized by the department. The mediator must provide an estimated fee before the mediation, and payment of the mediator's fee must be divided equally between the beneficiary and the borrower. The beneficiary and the borrower must tender the loan mediator's fee within ((thirty)) 30 calendar days from receipt of the department's letter referring the parties to mediation or pursuant to the mediator's instructions.

(18) Beginning December 1, 2012, and every year thereafter, the department shall report annually to the legislature on:

- (a) The performance of the program, including the numbers of borrowers who are referred to mediation by a housing counselor or attorney;
- (b) The results of the mediation program, including the number of mediations requested by housing counselors and attorneys, the number of certifications of good faith issued, the number of borrowers and beneficiaries who failed to mediate in good faith, and the reasons for the failure to mediate in good faith, if known, the numbers of loans restructured or modified, the change in the borrower's monthly payment for principal and interest and the number of principal write-downs and interest rate reductions, and, to the extent practical, the number of borrowers who report a default within a year of restructuring or modification;
- (c) The information received by housing counselors regarding outcomes of foreclosures; and
- (d) Any recommendations for changes to the statutes regarding the mediation program.

(19) This section does not apply to certain federally insured depository institutions, as specified in RCW 61.24.166.

Sec. 6. RCW 61.24.165 and 2021 c 151 s 6 are each amended to read as follows:

- (1) RCW 61.24.163 applies only to deeds of trust that are recorded against residential real property of up to four units.
- (2) RCW 61.24.163 does not apply to deeds of trust:
 - (a) Securing a commercial loan;
 - (b) Securing obligations of a grantor who is not the borrower or a guarantor;
 - (c) Securing a purchaser's obligations under a seller-financed sale; or
 - (d) Where the grantor is a partnership, corporation, or limited liability company, or where the property is vested in a partnership, corporation, or limited liability company at the time the notice of default is issued.
- (3) RCW 61.24.163 does not apply to association beneficiaries subject to chapter 64.32, 64.34, or 64.38 RCW.
- (4) For purposes of referral and mediation under RCW 61.24.163, a person may be referred to mediation if the borrower is deceased and the person is a successor in interest of the deceased borrower ((who occupies the property as his or her primary residence)). The referring counselor or attorney must determine a person's eligibility under this section and indicate the grounds for eligibility on the referral to mediation submitted to the department. For the purposes of mediation under RCW 61.24.163, the person must be treated as a "borrower." This subsection does not impose an affirmative duty on the beneficiary to accept an assumption of the loan.
- (5) For purposes of referral and mediation under RCW 61.24.163, a person may be referred to mediation if the person has been awarded title to the property in a proceeding for dissolution or legal separation. The referring counselor or attorney must determine the person's eligibility under this section and indicate the grounds for eligibility on the referral to mediation submitted to the department. For the purposes of mediation under RCW 61.24.163, the person must be treated as a

"borrower." This subsection does not impose an affirmative duty on the beneficiary to accept an assumption of the loan.

Sec. 7. RCW 61.24.166 and 2021 c 151 s 7 are each amended to read as follows:

(1) Beginning on January 1, ((2023)) 2024, the provisions of RCW 61.24.163 do not apply to any federally insured depository institution, as defined in 12 U.S.C. Sec. 461(b)(1)(A), that certifies to the department under penalty of perjury that it was not a beneficiary of deeds of trust in more than ((two hundred fifty)) 250 trustee sales of residential real property of up to four units that occurred in this state during the preceding calendar year. A federally insured depository institution certifying that RCW 61.24.163 does not apply must do so annually, beginning no later than January 31, ((2023)) 2024, and no later than January 31st of each year thereafter.

(2) During the 2023 calendar year, the provisions of RCW 61.24.163 do not apply to any federally insured depository institution, as defined in 12 U.S.C. Sec. 461(b)(1)(A), that certifies to the department under penalty of perjury that it was not a beneficiary of deeds of trust in more than 250 trustee sales of owner-occupied residential real property that occurred in this state during 2019. A federally insured depository institution certifying that RCW 61.24.163 does not apply pursuant to this subsection must do so no later than 30 days after the effective date of this section.

(3) This section applies retroactively to January 1, 2023, and prospectively beginning with the effective date of this section.

Sec. 8. RCW 61.24.190 and 2021 c 151 s 11 are each amended to read as follows:

(1) Except as provided in subsections (6) and (7) of this section, beginning January 1, 2022, and every quarter thereafter, every beneficiary issuing notices of default, or causing notices of default to be issued on its behalf, on residential real property under this chapter must:

(a) Report to the department, on a form approved by the department, the total number of residential real properties for which the beneficiary has issued a notice of default during the previous quarter, together with the street address, city, and zip code;

(b) Remit the amount required under subsection (2) of this section; and

(c) Report and update beneficiary contact information for the person and work group responsible for the beneficiary's compliance with the requirements of the foreclosure fairness act created in this chapter.

(2) For each residential real property for which a notice of default has been issued, the beneficiary issuing the notice of default, or causing the notice of default to be issued on the beneficiary's behalf, shall remit \$250 to the department to be deposited, as provided under RCW 61.24.172, into the foreclosure fairness account. The \$250 payment is required per property and not per notice of default. The beneficiary shall remit the total amount required in a lump sum each quarter.

(3) Reporting and payments under subsections (1) and (2) of this section are due within 45 days of the end of each quarter.

(4) For purposes of this section, "residential real property" includes residential real property with up to four dwelling units, whether or not the property or any part thereof is owner occupied.

(5) The department, including its officials and employees, may not be held civilly liable for damages arising from any release of information or the failure to release information related to the reporting required under this section, so long as the release was without gross negligence.

(6)(a) Beginning on January 1, 2023, this section does not apply to any beneficiary or loan servicer that is a federally insured

depository institution, as defined in 12 U.S.C. Sec. 461(b)(1)(A), and that certifies under penalty of perjury that it has issued, or has directed a trustee or authorized agent to issue, fewer than 250 notices of default in the preceding year.

(b) During the 2023 calendar year, this section does not apply to any beneficiary or loan servicer that is a federally insured depository institution, as defined in 12 U.S.C. Sec. 461(b)(1)(A), and that certifies under penalty of perjury that fewer than 50 notices of trustee's sale were recorded on its behalf in 2019.

(c) This subsection (6) applies retroactively to January 1, 2023, and prospectively beginning with the effective date of this section.

(7) This section does not apply to association beneficiaries subject to chapter 64.32, 64.34, or 64.38 RCW.

NEW SECTION. Sec. 9. A new section is added to chapter 61.24 RCW to read as follows:

(1)(a) The trustee shall continue a foreclosure sale for at least 30 days upon receipt of a written notice from the homeowner assistance fund program administered by the Washington state housing finance commission that an application has been submitted to the homeowner assistance fund program on behalf of the applicant.

(b) The trustee shall continue the foreclosure sale for an additional 30-day period upon receipt of a written notice from the homeowner assistance fund program that the applicant is deemed eligible for the program.

(c) An automated notice issued by the homeowner assistance fund program does not qualify as written notice required in this section.

(2)(a) If an application to the homeowner assistance fund program is approved in the amount that would cure the default and make the beneficiary whole, a sale may not proceed while the approved application is pending for payment.

(b) A sale may proceed if the homeowner assistance fund program issues a written confirmation that an application has been denied or that no funds from the program will be paid in response to the application, and that any appeal process available to the applicant has been exhausted and is no longer pending.

(3) The trustee has no duty to delay a sale if the applicant has already received a continuance based on prior application to the homeowner assistance fund program, unless the applicant demonstrates to the trustee that a new application is pending based upon a substantial change in circumstances supporting a new application and that it has not been submitted solely for the purpose of delaying the sale.

(4)(a) The trustee must comply with the process set forth in RCW 61.24.040(1) for giving notice of the continued sale.

(b) A continuance of a sale pursuant to this section shall not be included in calculating the maximum sale continuance period of 120 days established in RCW 61.24.040(10).

(5) For purposes of this section, "applicant" means a person who:

(a) Is the borrower, a successor in interest to a deceased borrower, or a person who has been awarded title to the property; and

(b) Has submitted an application to the homeowner assistance fund program or on whose behalf an application to the program has been submitted.

NEW SECTION. Sec. 10. A new section is added to chapter 61.12 RCW to read as follows:

(1) It is unlawful for any person to seek or receive from any person or contract with any person for any fee or compensation for locating, or purporting to purchase or otherwise acquire the right to recover, funds held by a court or county that are proceeds

EIGHTY EIGHTH DAY, APRIL 6, 2023

from a foreclosure under this chapter and subject to disposition under RCW 61.12.150 in excess of:

(a) Five percent of the value thereof returned to such owner; and

(b) Reasonable attorneys' fees and costs, upon a motion and a hearing by a court of competent jurisdiction.

(2) Any person who violates this section is guilty of a misdemeanor and shall be fined not less than the amount of the fee or charge he or she has sought or received or contracted for, and not more than 10 times such amount, or imprisoned for not more than 30 days, or both.

(3) The legislature finds that the practices covered by this section are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. Any violation of this section is not reasonable in relation to the development and preservation of business and is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW. Remedies provided by chapter 19.86 RCW are cumulative and not exclusive.

(4) Every contract for any fee or compensation for locating or purporting to purchase the right to recover funds held by a court that are proceeds from a foreclosure under this chapter and subject to disposition under RCW 61.12.150 must contain the following notice in 10-point boldface type or larger directly above the space reserved in the contract for the signature of the buyer:

"NOTICE TO HOMEOWNER:

Sec. 11. RCW 61.24.135 and 2021 c 151 s 5 are each amended to read as follows:

(1) It is an unfair or deceptive act or practice under the consumer protection act, chapter 19.86 RCW, for any person, acting alone or in concert with others, to offer, or offer to accept or accept from another, any consideration of any type not to bid, or to reduce a bid, at a sale of property conducted pursuant to a power of sale in a deed of trust. The trustee may decline to complete a sale or deliver the trustee's deed and refund the purchase price, if it appears that the bidding has been collusive or defective, or that the sale might have been void. However, it is not an unfair or deceptive act or practice for any person, including a trustee, to state that a property subject to a recorded notice of trustee's sale or subject to a sale conducted pursuant to this chapter is being sold in an "as-is" condition, or for the beneficiary to arrange to provide financing for a particular bidder or to reach any good faith agreement with the borrower, grantor, any guarantor, or any junior lienholder.

(2) It is an unfair or deceptive act in trade or commerce and an unfair method of competition in violation of the consumer protection act, chapter 19.86 RCW, for any person or entity to: (a) Violate the duty of good faith under RCW 61.24.163; (b) fail to comply with the requirements of RCW 61.24.174, as it existed prior to July 1, 2016, 61.24.173, or 61.24.190; or (c) fail to initiate contact with a borrower and exercise due diligence as required under RCW 61.24.031.

(3)(a) It is unlawful for any person to seek or receive from any person or contract with any person for any fee or compensation for locating, or purporting to purchase or otherwise acquire the right to recover, funds held by a court or county that are proceeds from a foreclosure under this chapter and subject to disposition under RCW 61.24.080 in excess of:

(i) Five percent of the value thereof returned to such owner; and

(ii) Reasonable attorneys' fees and costs, upon a motion and a hearing by a court of competent jurisdiction.

(b) Any person who violates (a) of this subsection is guilty of a misdemeanor and shall be fined not less than the amount of the fee or charge he or she has sought or received or contracted for, and not more than 10 times such amount, or imprisoned for not more than 30 days, or both.

(c) The legislature finds that the practices covered by (a) of this subsection are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. Any violation of (a) of this subsection is not reasonable in relation to the development and preservation of business and is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW. Remedies provided by chapter 19.86 RCW are cumulative and not exclusive.

(4) Every contract for any fee or compensation for locating or purporting to purchase the right to recover funds held by a court that are proceeds from a foreclosure under this chapter and subject to disposition under RCW 61.24.080 must contain the following notice in 10-point boldface type or larger directly above the space reserved in the contract for the signature of the buyer:

"NOTICE TO HOMEOWNER:

(1) Do not sign this contract before you read it or if any spaces intended for the agreed terms are left blank.

(2) You are entitled to a copy of this contract at the time you sign it.

(3) You may cancel this contract within 10 days of signing by sending notice of cancellation by regular United States mail to the other party at his or her address shown on the contract, which notice shall be posted not later than midnight of the 10th day (excluding Sundays and holidays) following your signing of the contract."

(10) That, in the case where the borrower or grantor is known to the mortgage servicer or trustee to be deceased, the notice required under subsection (8) of this section must be sent to any spouse, child, or parent of the borrower or grantor known to the trustee or mortgage servicer, and to any owner of record of the property, at any address provided to the trustee or mortgage servicer, and to the property addressed to the heirs and devisees of the borrower.

(a) If the name or address of any spouse, child, or parent of such deceased borrower or grantor cannot be ascertained with use of reasonable diligence, the trustee must execute and record with the notice of sale a declaration attesting to the same.

(b) Reasonable diligence for the purposes of this subsection (10) means the trustee shall search in the county where the property is located, the public records and information for any obituary, will, death certificate, or case in probate within the county for the borrower and grantor;

(11) Upon written notice identifying the property address and the name of the borrower to the servicer or trustee by someone claiming to be a successor in interest to the borrower's or grantor's property rights, but who is not a party to the loan or promissory note or other obligation secured by the deed of trust, a trustee shall not record a notice of sale pursuant to RCW 61.24.040 until the trustee or mortgage servicer completes the following:

(a) Acknowledges the notice in writing and requests reasonable documentation of the death of the borrower or grantor from the claimant including, but not limited to, a death certificate or other written evidence of the death of the borrower or grantor. Other written evidence of the death of the borrower or grantor may include an obituary, a published death notice, or documentation of an open probate action for the estate of the borrower or grantor. The claimant must be allowed ((thirty)) 30 days from the date of this request to present this documentation. If the trustee or mortgage servicer has already obtained sufficient proof of the borrower's death, it may proceed by acknowledging the claimant's notice in writing and issuing a request under (b) of this subsection.

(b) If the mortgage servicer or trustee obtains or receives written documentation of the death of the borrower or grantor from the claimant, or otherwise independently confirms the death of the borrower or grantor, then the servicer or trustee must request in writing documentation from the claimant demonstrating the ownership interest of the claimant in the real property. A claimant has ((sixty)) 60 days from the date of the request to present this documentation. Documentation demonstrating the ownership interest of the claimant in the real property includes, but is not limited to, one of the following:

(i) Excerpts of a trust document noting the claimant as a beneficiary of a trust with title to the real property;

(ii) A will of the borrower or grantor listing the claimant as an heir or devisee with respect to the real property;

(iv) A recorded lack of probate affidavit signed by any heir listing the claimant as an heir of the borrower or grantor pursuant to the laws of intestacy;

(v) A deed, such as a personal representative's deed, trustee's deed issued on behalf of a trust, statutory warranty deed, transfer on death deed, or other deed, giving any ownership interest to the claimant resulting from the death of the borrower or grantor or executed by the borrower or grantor for estate planning purposes; and

(vi) Other proof documenting the claimant as an heir of the borrower or grantor pursuant to state rules of intestacy set forth in chapter 11.04 RCW.

The mortgage servicers shall also provide the claimant application materials and information, or a description of the process, necessary to request a loan assumption and modification.

(e) There may be more than one successor in interest to the borrower's property rights. The trustee and mortgage servicer shall apply the provisions of this section to each successor in interest. In the case of multiple successors in interest, where one or more do not wish to assume the loan as coborrowers or coapplicants, a mortgage servicer may require any nonapplicant successor in interest to consent in writing to the application for loan assumption.

(f) The existence of a successor in interest under this section does not impose an affirmative duty on a mortgage servicer or alter any obligation the mortgage servicer has to provide a loan modification to the successor in interest. If a successor in interest assumes the loan, he or she may be required to otherwise qualify for available foreclosure prevention alternatives offered by the mortgage servicer.

(g) (c), (e), and (f) of this subsection (11) do not apply to association beneficiaries subject to chapter 64.32, 64.34, or 64.38 RCW; and

(b) Upon receipt of documentation establishing a claimant as a successor in interest, the servicer must provide the information in RCW 61.24.030(11)(c). Only if the servicer or trustee receives the documentation confirming someone as successor in interest more than ((forty-five)) 45 days before the scheduled sale must the servicer then provide the information in RCW 61.24.030(11)(c) to the claimant not less than ((twenty)) 20 days prior to the sale.

In such case, the lien or interest of such omitted person shall not be affected by the sale and such omitted person shall be treated as if such person was the holder of the same lien or interest and was omitted as a party defendant in a judicial foreclosure proceeding;

Sec. 4. RCW 61.24.160 and 2012 c 185 s 5 are each amended to read as follows:

(1)(a) A housing counselor who is contacted by a borrower under RCW 61.24.031 has a duty to act in good faith to attempt to reach a resolution with the beneficiary on behalf of the borrower within the ((ninety)) 90 days provided from the date the beneficiary initiates contact with the borrower and the date the notice of default is issued. A resolution may include, but is not limited to, modification of the loan, an agreement to conduct a short sale, a deed in lieu of foreclosure transaction, or some other workout plan.

(b) Nothing in RCW 61.24.031 or this section precludes a meeting or negotiations between the housing counselor, borrower, and beneficiary at any time, including after the issuance of the notice of default.

(c) A borrower who is contacted under RCW 61.24.031 may seek the assistance of a housing counselor or attorney at any time.

(2) Housing counselors have a duty to act in good faith to assist borrowers by:

(a) Preparing the borrower for meetings with the beneficiary;

(b) Advising the borrower about what documents the borrower must have to seek a loan modification or other resolution;

(c) Informing the borrower about the alternatives to foreclosure, including loan modifications or other possible resolutions; and

(d) Providing other guidance, advice, and education as the housing counselor considers necessary.

(3) A housing counselor or attorney assisting a borrower may refer the borrower to mediation, pursuant to RCW 61.24.163, if the housing counselor or attorney determines that mediation is appropriate based on the individual circumstances and the borrower has received a notice of default. The referral to mediation may be made any time after a notice of default has been issued but no later than ((twenty days after the date a notice of sale has been recorded)) 90 days prior to the date of sale listed in the notice of trustee's sale. If an amended notice of trustee's sale is recorded after the trustee sale has been stayed pursuant to RCW 61.24.130, the borrower may be referred to mediation no later than 25 days prior to the date of sale listed in the amended notice of trustee's sale.

(4) For borrowers who have received a letter under RCW 61.24.031 before June 7, 2012, a referral to mediation by a housing counselor or attorney does not preclude a trustee issuing a notice of default if the requirements of RCW 61.24.031 have been met.

(5) Housing counselors providing assistance to borrowers under RCW 61.24.031 are not liable for civil damages resulting from any acts or omissions in providing assistance, unless the acts or omissions constitute gross negligence or willful or wanton misconduct.

(6) Housing counselors shall provide information to the department to assist the department in its annual report to the legislature as required under RCW 61.24.163(18). The information provided to the department by the housing counselors should include outcomes of foreclosures and be similar to the information requested in the national foreclosure mortgage counseling client level foreclosure outcomes report form.

Sec. 5. RCW 61.24.163 and 2018 c 306 s 6 are each amended to read as follows:

(1) The foreclosure mediation program established in this section applies only to borrowers who have been referred to mediation by a housing counselor or attorney. The referral to mediation may be made any time after a notice of default has been issued but no later than ((twenty days after the date a notice of sale has been recorded)) 90 days prior to the date of sale listed in the notice of trustee's sale. If an amended notice of trustee's

sale is recorded after the trustee sale has been stayed pursuant to RCW 61.24.130, the borrower may be referred to mediation no later than 25 days prior to the date of sale listed in the amended notice of trustee's sale. If the borrower has failed to elect to mediate within the applicable time frame, the borrower and the beneficiary may, but are under no duty to, agree in writing to enter the foreclosure mediation program. The mediation program under this section is not governed by chapter 7.07 RCW and does not preclude mediation required by a court or other provision of law.

(2) A housing counselor or attorney referring a borrower to mediation shall send a notice to the borrower and the department, stating that mediation is appropriate.

(3) Within ((ten)) 10 days of receiving the notice, the department shall:

(a) Send a notice to the beneficiary, the borrower, the housing counselor or attorney who referred the borrower, and the trustee stating that the parties have been referred to mediation. The notice must include the statements and list of documents and information described in subsections (4) and (5) of this section and a statement explaining each party's responsibility to pay the mediator's fee; and

(b) Select a mediator and notify the parties of the selection.

(4) Within ((twenty-three)) 23 days of the department's notice that the parties have been referred to mediation, the borrower shall transmit the documents required for mediation to the mediator and the beneficiary. The required documents include an initial homeowner financial information worksheet as required by the department. The worksheet must include, at a minimum, the following information:

(a) The borrower's current and future income;

(b) Debts and obligations;

(c) Assets;

(d) Expenses;

(e) Tax returns for the previous two years;

(f) Hardship information;

(g) Other applicable information commonly required by any applicable federal mortgage relief program.

(5) Within ((twenty)) 20 days of the beneficiary's receipt of the borrower's documents, the beneficiary shall transmit the documents required for mediation to the mediator and the borrower. The required documents include:

(a) An accurate statement containing the balance of the loan within ((thirty)) 30 days of the date on which the beneficiary's documents are due to the parties;

(b) Copies of the note and deed of trust;

(c) Proof that the entity claiming to be the beneficiary is the owner of any promissory note or obligation secured by the deed of trust. Sufficient proof may be a copy of the declaration described in RCW 61.24.030(7)(a);

(d) The best estimate of any arrearage and an itemized statement of the arrearages;

(e) An itemized list of the best estimate of fees and charges outstanding;

(f) The payment history and schedule for the preceding twelve months, or since default, whichever is longer, including a breakdown of all fees and charges claimed;

(g) All borrower-related and mortgage-related input data used in any net present values analysis. If no net present values analysis is required by the applicable federal mortgage relief program, then the input data required under the federal deposit insurance corporation and published in the federal deposit insurance corporation loan modification program guide, or if that calculation becomes unavailable, substantially similar input data as determined by the department;

EIGHTY EIGHTH DAY, APRIL 6, 2023

(h) An explanation regarding any denial for a loan modification, forbearance, or other alternative to foreclosure in sufficient detail for a reasonable person to understand why the decision was made;

(i) Appraisal or other broker price opinion most recently relied upon by the beneficiary not more than ((ninety)) 90 days old at the time of the scheduled mediation; and

(j) The portion or excerpt of the pooling and servicing agreement or other investor restriction that prohibits the beneficiary from implementing a modification, if the beneficiary claims it cannot implement a modification due to limitations in a pooling and servicing agreement or other investor restriction, and documentation or a statement detailing the efforts of the beneficiary to obtain a waiver of the pooling and servicing agreement or other investor restriction provisions.

(6) Within ((seventy)) 70 days of receiving the referral from the department, the mediator shall convene a mediation session in the county where the property is located, unless the parties agree on another location. The parties may agree to extend the time in which to schedule the mediation session. If the parties agree to extend the time, the beneficiary shall notify the trustee of the extension and the date the mediator is expected to issue the mediator's certification.

(7)(a) The mediator may schedule phone conferences, consultations with the parties individually, and other communications to ensure that the parties have all the necessary information and documents to engage in a productive mediation.

(b) The mediator must send written notice of the time, date, and location of the mediation session to the borrower, the beneficiary, and the department at least ((thirty)) 30 days prior to the mediation session. At a minimum, the notice must contain:

(i) A statement that the borrower may be represented in the mediation session by an attorney or other advocate;

(ii) A statement that a person with authority to agree to a resolution, including a proposed settlement, loan modification, or dismissal or continuation of the foreclosure proceeding, must be present either in person or on the telephone or videoconference during the mediation session; and

(iii) A statement that the parties have a duty to mediate in good faith and that failure to mediate in good faith may impair the beneficiary's ability to foreclose on the property or the borrower's ability to modify the loan or take advantage of other alternatives to foreclosure.

(8)(a) The borrower, the beneficiary or authorized agent, and the mediator must meet in person for the mediation session. However, a person with authority to agree to a resolution on behalf of the beneficiary may be present over the telephone or videoconference during the mediation session.

(b) After the mediation session commences, the mediator may continue the mediation session once, and any further continuances must be with the consent of the parties.

(9) The participants in mediation must address the issues of foreclosure that may enable the borrower and the beneficiary to reach a resolution, including but not limited to reinstatement, modification of the loan, restructuring of the debt, or some other workout plan. To assist the parties in addressing issues of foreclosure, the mediator may require the participants to consider the following:

(a) The borrower's current and future economic circumstances, including the borrower's current and future income, debts, and obligations for the previous ((sixty)) 60 days or greater time period as determined by the mediator;

(b) The net present value of receiving payments pursuant to a modified mortgage loan as compared to the anticipated net recovery following foreclosure;

(c) Any affordable loan modification calculation and net present value calculation when required under any federal mortgage relief program and any modification program related to loans insured by the federal housing administration, the veterans administration, and the rural housing service. If such a calculation is not provided or required, then the beneficiary must provide the net present value data inputs established by the federal deposit insurance corporation and published in the federal deposit insurance corporation loan modification program guide or other net present value data inputs as designated by the department. The mediator may run the calculation in order for a productive mediation to occur and to comply with the mediator certification requirement; and

(d) Any other loss mitigation guidelines to loans insured by the federal housing administration, the veterans administration, and the rural housing service, if applicable.

(10) A violation of the duty to mediate in good faith as required under this section may include:

(a) Failure to timely participate in mediation without good cause;

(b) Failure of the borrower or the beneficiary to provide the documentation required before mediation or pursuant to the mediator's instructions;

(c) Failure of a party to designate representatives with adequate authority to fully settle, compromise, or otherwise reach resolution with the borrower in mediation; and

(d) A request by a beneficiary that the borrower waive future claims he or she may have in connection with the deed of trust, as a condition of agreeing to a modification, except for rescission claims under the federal truth in lending act. Nothing in this section precludes a beneficiary from requesting that a borrower dismiss with prejudice any pending claims against the beneficiary, its agents, loan servicer, or trustee, arising from the underlying deed of trust, as a condition of modification.

(11) If the mediator reasonably believes a borrower will not attend a mediation session based on the borrower's conduct, such as the lack of response to the mediator's communications, the mediator may cancel a scheduled mediation session and send a written cancellation to the department and the trustee and send copies to the parties. The beneficiary may proceed with the foreclosure after receipt of the mediator's written confirmation of cancellation.

(12) Within seven business days after the conclusion of the mediation session, the mediator must send a written certification to the department and the trustee and send copies to the parties of:

(a) The date, time, and location of the mediation session;

(b) The names of all persons attending in person and by telephone or videoconference, at the mediation session;

(c) Whether a resolution was reached by the parties, including whether the default was cured by reinstatement, modification, or restructuring of the debt, or some other alternative to foreclosure was agreed upon by the parties;

(d) Whether the parties participated in the mediation in good faith; and

(e) If a written agreement was not reached, a description of any net present value test used, along with a copy of the inputs, including the result of any net present value test expressed in a dollar amount.

(13) If the parties are unable to reach an agreement, the beneficiary may proceed with the foreclosure after receipt of the mediator's written certification.

(14)(a) The mediator's certification that the beneficiary failed to act in good faith in mediation constitutes a defense to the nonjudicial foreclosure action that was the basis for initiating the

mediation. In any action to enjoin the foreclosure, the beneficiary is entitled to rebut the allegation that it failed to act in good faith.

(b) The mediator's certification that the beneficiary failed to act in good faith during mediation does not constitute a defense to a judicial foreclosure or a future nonjudicial foreclosure action if a modification of the loan is agreed upon and the borrower subsequently defaults.

(c) If an affordable loan modification is not offered in the mediation or a written agreement was not reached and the mediator's certification shows that the net present value of the modified loan exceeds the anticipated net recovery at foreclosure, that showing in the certification constitutes a basis for the borrower to enjoin the foreclosure.

(15) The mediator's certification that the borrower failed to act in good faith in mediation authorizes the beneficiary to proceed with the foreclosure.

(16)(a) If a borrower has been referred to mediation before a notice of trustee sale has been recorded, a trustee may not record the notice of sale until the trustee receives the mediator's certification stating that the mediation has been completed. If the trustee does not receive the mediator's certification, the trustee may record the notice of sale after ((ten)) 10 days from the date the certification to the trustee was due. If, after a notice of sale is recorded under this subsection (16)(a), the mediator subsequently issues a certification finding that the beneficiary violated the duty of good faith, the certification constitutes a basis for the borrower to enjoin the foreclosure.

(b) If a borrower has been referred to mediation after the notice of sale was recorded, the sale may not occur until the trustee receives the mediator's certification stating that the mediation has been completed.

(17) A mediator may charge reasonable fees as authorized by this subsection or as authorized by the department. Unless the fee is waived, the parties agree otherwise, or the department otherwise authorizes, a foreclosure mediator's fee may not exceed ((four hundred dollars)) \$400 for preparing, scheduling, and conducting a mediation session lasting between one hour and three hours. For a mediation session exceeding three hours, the foreclosure mediator may charge a reasonable fee, as authorized by the department. The mediator must provide an estimated fee before the mediation, and payment of the mediator's fee must be divided equally between the beneficiary and the borrower. The beneficiary and the borrower must tender the loan mediator's fee within ((thirty)) 30 calendar days from receipt of the department's letter referring the parties to mediation or pursuant to the mediator's instructions.

(18) Beginning December 1, 2012, and every year thereafter, the department shall report annually to the legislature on:

(a) The performance of the program, including the numbers of borrowers who are referred to mediation by a housing counselor or attorney;

(b) The results of the mediation program, including the number of mediations requested by housing counselors and attorneys, the number of certifications of good faith issued, the number of borrowers and beneficiaries who failed to mediate in good faith, and the reasons for the failure to mediate in good faith, if known, the numbers of loans restructured or modified, the change in the borrower's monthly payment for principal and interest and the number of principal write-downs and interest rate reductions, and, to the extent practical, the number of borrowers who report a default within a year of restructuring or modification;

(c) The information received by housing counselors regarding outcomes of foreclosures; and

(d) Any recommendations for changes to the statutes regarding the mediation program.

(19) This section does not apply to certain federally insured depository institutions, as specified in RCW 61.24.166.

Sec. 6. RCW 61.24.165 and 2021 c 151 s 6 are each amended to read as follows:

(2) RCW 61.24.163 does not apply to deeds of trust:

(a) Securing a commercial loan;

(b) Securing obligations of a grantor who is not the borrower or a guarantor;

(c) Securing a purchaser's obligations under a seller-financed sale; or

(3) RCW 61.24.163 does not apply to association beneficiaries subject to chapter 64.32, 64.34, or 64.38 RCW.

(4) For purposes of referral and mediation under RCW 61.24.163, a person may be referred to mediation if the borrower is deceased and the person is a successor in interest of the deceased borrower ((who occupies the property as his or her primary residence)). The referring counselor or attorney must determine a person's eligibility under this section and indicate the grounds for eligibility on the referral to mediation submitted to the department. For the purposes of mediation under RCW 61.24.163, the person must be treated as a "borrower." This subsection does not impose an affirmative duty on the beneficiary to accept an assumption of the loan.

(5) For purposes of referral and mediation under RCW 61.24.163, a person may be referred to mediation if the person has been awarded title to the property in a proceeding for dissolution or legal separation. The referring counselor or attorney must determine the person's eligibility under this section and indicate the grounds for eligibility on the referral to mediation submitted to the department. For the purposes of mediation under RCW 61.24.163, the person must be treated as a "borrower." This subsection does not impose an affirmative duty on the beneficiary to accept an assumption of the loan.

Sec. 7. RCW 61.24.166 and 2021 c 151 s 7 are each amended to read as follows:

(1) Beginning on January 1, ((2023)) 2024, the provisions of RCW 61.24.163 do not apply to any federally insured depository institution, as defined in 12 U.S.C. A federally insured depository institution certifying that RCW 61.24.163 does not apply pursuant to this subsection must do so no later than 30 days after the effective date of this section.

Sec. 8. RCW 61.24.190 and 2021 c 151 s 11 are each amended to read as follows:

(2) For each residential real property for which a notice of default has been issued, the beneficiary issuing the notice of default, or causing the notice of default to be issued on the beneficiary's behalf, shall remit \$250 to the department to be deposited, as provided under RCW 61.24.172, into the foreclosure fairness account. The \$250 payment is required per property and not per notice of default. The beneficiary shall remit the total amount required in a lump sum each quarter.

(3) Reporting and payments under subsections (1) and (2) of this section are due within 45 days of the end of each quarter.

(4) For purposes of this section, "residential real property" includes residential real property with up to four dwelling units, whether or not the property or any part thereof is owner occupied.

(5) The department, including its officials and employees, may not be held civilly liable for damages arising from any release of information or the failure to release information related to the reporting required under this section, so long as the release was without gross negligence.

(6)(a) Beginning on January 1, 2023, this section does not apply to any beneficiary or loan servicer that is a federally insured depository institution, as defined in 12 U.S.C. Sec. 461(b)(1)(A), and that certifies under penalty of perjury that it has issued, or has directed a trustee or authorized agent to issue, fewer than 250 notices of default in the preceding year.

(b) During the 2023 calendar year, this section does not apply to any beneficiary or loan servicer that is a federally insured depository institution, as defined in 12 U.S.C. Sec. 461(b)(1)(A), and that certifies under penalty of perjury that fewer than 50 notices of trustee's sale were recorded on its behalf in 2019.

(c) This subsection (6) applies retroactively to January 1, 2023, and prospectively beginning with the effective date of this section.

(7) This section does not apply to association beneficiaries subject to chapter 64.32, 64.34, or 64.38 RCW.

NEW SECTION. Sec. 9. A new section is added to chapter 61.24 RCW to read as follows:

(1)(a) The trustee shall continue a foreclosure sale for at least 30 days upon receipt of a written notice from the homeowner assistance fund program administered by the Washington state housing finance commission that an application has been submitted to the homeowner assistance fund program on behalf of the applicant.

(b) The trustee shall continue the foreclosure sale for an additional 30-day period upon receipt of a written notice from the homeowner assistance fund program that the applicant is deemed eligible for the program.

(c) An automated notice issued by the homeowner assistance fund program does not qualify as written notice required in this section.

(2)(a) If an application to the homeowner assistance fund program is approved in the amount that would cure the default and make the beneficiary whole, a sale may not proceed while the approved application is pending for payment.

(b) A sale may proceed if the homeowner assistance fund program issues a written confirmation that an application has been denied or that no funds from the program will be paid in response to the application, and that any appeal process available to the applicant has been exhausted and is no longer pending.

(3) The trustee has no duty to delay a sale if the applicant has already received a continuance based on prior application to the homeowner assistance fund program, unless the applicant demonstrates to the trustee that a new application is pending based upon a substantial change in circumstances supporting a new application and that it has not been submitted solely for the purpose of delaying the sale.

(4)(a) The trustee must comply with the process set forth in RCW 61.24.040(1) for giving notice of the continued sale.

(b) A continuance of a sale pursuant to this section shall not be included in calculating the maximum sale continuance period of 120 days established in RCW 61.24.040(10).

(5) For purposes of this section, "applicant" means a person who:

(a) Is the borrower, a successor in interest to a deceased borrower, or a person who has been awarded title to the property; and

(b) Has submitted an application to the homeowner assistance fund program or on whose behalf an application to the program has been submitted.

NEW SECTION. Sec. 10. A new section is added to chapter 61.12 RCW to read as follows:

(1) It is unlawful for any person to seek or receive from any person or contract with any person for any fee or compensation for locating, or purporting to purchase or otherwise acquire the right to recover, funds held by a court or county that are proceeds from a foreclosure under this chapter and subject to disposition under RCW 61.12.150 in excess of:

(a) Five percent of the value thereof returned to such owner; and

(b) Reasonable attorneys' fees and costs, upon a motion and a hearing by a court of competent jurisdiction.

(2) Any person who violates this section is guilty of a misdemeanor and shall be fined not less than the amount of the fee or charge he or she has sought or received or contracted for, and not more than 10 times such amount, or imprisoned for not more than 30 days, or both.

(3) The legislature finds that the practices covered by this section are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. Any violation of this section is not reasonable in relation to the development and preservation of business and is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW. Remedies provided by chapter 19.86 RCW are cumulative and not exclusive.

(4) Every contract for any fee or compensation for locating or purporting to purchase the right to recover funds held by a court that are proceeds from a foreclosure under this chapter and subject to disposition under RCW 61.12.150 must contain the following notice in 10-point boldface type or larger directly above the space reserved in the contract for the signature of the buyer:

"NOTICE TO HOMEOWNER:

(1) Do not sign this contract before you read it or if any spaces intended for the agreed terms are left blank.

(2) You are entitled to a copy of this contract at the time you sign it.

(3) You may cancel this contract within 10 days of signing by sending notice of cancellation by regular United States mail to the other party at his or her address shown on the contract, which notice shall be posted not later than midnight of the 10th day (excluding Sundays and holidays) following your signing of the contract."

Sec. 11. RCW 61.24.135 and 2021 c 151 s 5 are each amended to read as follows:

(1) It is an unfair or deceptive act or practice under the consumer protection act, chapter 19.86 RCW, for any person, acting alone or in concert with others, to offer, or offer to accept or accept from another, any consideration of any type not to bid, or to reduce a bid, at a sale of property conducted pursuant to a power of sale in a deed of trust. The trustee may decline to complete a sale or deliver the trustee's deed and refund the purchase price, if it appears that the bidding has been collusive or defective, or that the sale might have been void. However, it is not an unfair or deceptive act or practice for any person, including a trustee, to state that a property subject to a recorded notice of trustee's sale or subject to a sale conducted pursuant to this chapter is being sold in an "as-is" condition, or for the beneficiary to arrange to provide financing for a particular bidder or to reach any good faith agreement with the borrower, grantor, any guarantor, or any junior lienholder.

(2) It is an unfair or deceptive act in trade or commerce and an unfair method of competition in violation of the consumer protection act, chapter 19.86 RCW, for any person or entity to: (a) Violate the duty of good faith under RCW 61.24.163; (b) fail to comply with the requirements of RCW 61.24.174, as it existed prior to July 1, 2016, 61.24.173, or 61.24.190; or (c) fail to initiate contact with a borrower and exercise due diligence as required under RCW 61.24.031.

(3)(a) It is unlawful for any person to seek or receive from any person or contract with any person for any fee or compensation for locating, or purporting to purchase or otherwise acquire the right to recover, funds held by a court or county that are proceeds from a foreclosure under this chapter and subject to disposition under RCW 61.24.080 in excess of:

(i) Five percent of the value thereof returned to such owner; and

(ii) Reasonable attorneys' fees and costs, upon a motion and a hearing by a court of competent jurisdiction.

(b) Any person who violates (a) of this subsection is guilty of a misdemeanor and shall be fined not less than the amount of the fee or charge he or she has sought or received or contracted for, and not more than 10 times such amount, or imprisoned for not more than 30 days, or both.

(c) The legislature finds that the practices covered by (a) of this subsection are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. Any violation of (a) of this subsection is not reasonable in relation to the development and preservation of business and is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW. Remedies provided by chapter 19.86 RCW are cumulative and not exclusive.

(4) Every contract for any fee or compensation for locating or purporting to purchase the right to recover funds held by a court that are proceeds from a foreclosure under this chapter and subject to disposition under RCW 61.24.080 must contain the

following notice in 10-point boldface type or larger directly above the space reserved in the contract for the signature of the buyer:

"NOTICE TO HOMEOWNER:

(1) Do not sign this contract before you read it or if any spaces intended for the agreed terms are left blank.

(2) You are entitled to a copy of this contract at the time you sign it.

(3) You may cancel this contract within 10 days of signing by sending notice of cancellation by regular United States mail to the other party at his or her address shown on the contract, which notice shall be posted not later than midnight of the 10th day (excluding Sundays and holidays) following your signing of the contract."

NEW SECTION. **Sec. 12.** (1) Section 9 of this act expires upon the expiration and permanent closure of the homeowner assistance fund program.

(2) The Washington state housing finance commission must provide written notice of the expiration date of section 9 of this act to the chief clerk of the house of representatives, the secretary of the senate, the office of the code reviser, and others as deemed appropriate by the commission.

HOUSE BILL NO. 1301, by Representatives McClintock and Cheney

Creating license review and reporting requirements.

The measure was read the second time.

MOTION

Senator Keiser moved that the following committee striking amendment by the Committee on Labor & Commerce be adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. **Sec. 1.** (1) The legislature finds that, at times, additional protection by means of the regulation of a profession through professional licensure may be deemed necessary to ensure that the public's health, safety, and general welfare is protected. Furthermore, technological innovation continues to change the responsibilities and practices surrounding these professions, and by result, the potential harms associated with them.

(2) It is also recognized that requirements, such as educational requirements, fees, and training hours, which an individual must fulfill before receiving a license to practice in a profession, can create barriers to an individual's upward mobility and freedom to pursue their profession of choice.

(3) It is, therefore, the intent of the legislature to establish a sunset review process for all professional licensing requirements regulated by the department of licensing, to ensure that the rights and well-being of current and future practitioners of the profession be given full protection from unnecessary regulatory burden and that regulations meant to safeguard public health and safety are still warranted.

NEW SECTION. **Sec. 2.** This chapter may be known and cited as the professional license review act.

NEW SECTION. **Sec. 3.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Department" means the department of licensing.

(2) "Director" means the director of licensing.

NEW SECTION. **Sec. 4.** (1) Beginning in 2024, the department shall annually review and analyze approximately 10 percent of the professional licenses regulated by the department and prepare and submit an annual report electronically to the chief clerk of the house of representatives, the secretary of the senate, and each member of the house of representatives and senate by August 31st of each year as provided in this section. The department shall complete this process for all professional

EIGHTY EIGHTH DAY, APRIL 6, 2023

licenses within its jurisdiction within 10 years and every 10 years thereafter. Each report shall include the department's recommendations regarding whether the professional licenses should be terminated, continued, or modified.

(2) The department may require the submission of information by the affected professional board or commission and other affected or interested parties. The department shall provide notice to the relevant professional board or commission and all licensees, not regulated under a board or commission, prior to commencing the review.

(3) The department's report shall include, but not be limited to, the following:

(a) The title of the professional license and, if applicable, the name of the professional board or commission responsible for enforcement of the professional license, if any;

(b) The statutory citation or other authorization for the creation of the professional license and, if applicable, the professional board or commission;

(c) If applicable, the number of members of the professional board or commission and how the members are appointed;

(d) If applicable, the qualifications for membership on the professional board or commission;

(e) If applicable, the number of times the professional board or commission is required to meet during the year and the number of times it actually met during the preceding five calendar years;

(f) Annual budget information for the five most recently completed fiscal years;

(g) For the immediately preceding five calendar years, or for the period of time less than five years for which the information is practically available, the number of government certifications, professional licenses, and registrations the department, professional board, or commission has issued, revoked, denied, or assessed penalties against, listed anonymously and separately per type of credential, and the reasons for such revocations, denials, and other penalties;

(h) A review of the basic assumptions underlying the creation of the professional license;

(i) A comparison of whether and how other states regulate the profession;

(j) A review and analysis of the hours or other amount of education, training, or experience required to obtain the license or credential;

(k) A summary of any regulatory changes made by the department, professional board, or commission as a result of the review; and

(l) Any recommendations regarding whether the professional license should be terminated, continued, or modified.

(4) After the report in subsection (3) of this section is submitted, if the relevant legislative committee determines further analysis is needed it may request the department to conduct further analysis. Specifically, the extended report shall include:

(a) Whether the professional license meets the policies stated and the following recommended courses of action for meeting such policies:

(i) If the need is to protect consumers against fraud, the recommended course of action should be to strengthen powers under chapter 19.86 RCW, or require disclosures that will reduce misleading attributes of the specific goods or services;

(ii) If the need is to protect consumers against unclean facilities or to promote general health and safety, the recommended course of action should be to require periodic inspections of such facilities;

(iii) If the need is to protect consumers against potential damages from failure by providers to complete a contract fully or

up to standards, the recommended course of action should be to require that providers be bonded;

(iv) If the need is to protect a person who is not a party to a contract between the provider and consumer, the recommended course of action should be to require that the provider have insurance;

(v) If the need is to protect consumers against potential damages by transient providers, the recommended course of action should be to require that providers register their businesses with the state;

(vi) If the need is to protect consumers against a shortfall or imbalance of knowledge about the goods or services relative to the providers' knowledge, the recommended course of action should be to enact government certification; and

(vii) If the need is to address a systematic information shortfall such that a reasonable consumer is unable to distinguish between the quality of providers, there is an absence of institutions that provide adequate guidance to the consumer, and the consumer's inability to distinguish between providers and the lack of adequate guidance allows for undue risk of present, significant, and substantiated harms, the recommended course of action should be to enact a professional license; and

(b) If education, training, or experience is a qualification in the professional license under review, a review and analysis of the hours or other amount of education, training, or experience required to ensure such requirements are as least restrictive as necessary to protect the public's health, safety, and welfare.

(5) If a lawful profession is subject to chapter 18.120 RCW, the analysis under subsection (4)(a) of this section shall be made using the least restrictive method of regulation as set out in RCW 18.120.010.

(6) If the department finds that it is necessary to change professional licenses, the department shall recommend the least restrictive regulation consistent with the public interest and the policies in this section.

Strike everything after the enacting clause and insert the following:

"Sec. 1. RCW 64.32.200 and 2021 c 222 s 3 are each amended to read as follows:

(1) The declaration may provide for the collection of all sums assessed by the association of apartment owners for the share of the common expenses chargeable to any apartment and the collection may be enforced in any manner provided in the declaration including, but not limited to, (a) ((ten)) 10 days notice shall be given the delinquent apartment owner to the effect that unless such assessment is paid within ((ten)) 10 days any or all utility services will be forthwith severed and shall remain severed until such assessment is paid, or (b) collection of such assessment may be made by such lawful method of enforcement, judicial or extra-judicial, as may be provided in the declaration and/or bylaws.

(2) All sums assessed by the association of apartment owners but unpaid for the share of the common expenses chargeable to

any apartment shall constitute a lien on such apartment prior to all other liens except only (a) tax liens on the apartment in favor of any assessing unit and/or special district, and (b) all sums unpaid on all mortgages of record. Such lien is not subject to the ban against execution or forced sales of homesteads under RCW 6.13.080 and, subject to the provisions in subsection ((4)) (5) of this section, may be foreclosed by suit by the manager or board of directors, acting on behalf of the apartment owners, in like manner as a mortgage of real property. In any such foreclosure the apartment owner shall be required to pay a reasonable rental for the apartment, if so provided in the bylaws, and the plaintiff in such foreclosures shall be entitled to the appointment of a receiver to collect the same. The manager or board of directors, acting on behalf of the apartment owners, shall have power, unless prohibited by the declaration, to bid on the apartment at foreclosure sale, and to acquire and hold, lease, mortgage, and convey the same. Upon an express waiver in the complaint of any right to a deficiency judgment, the period of redemption shall be eight months after the sale. Suit to recover any judgment for any unpaid common expenses shall be maintainable without foreclosing or waiving the liens securing the same.

(3) Where the mortgagee of a mortgage of record or other purchaser of an apartment obtains possession of the apartment as a result of foreclosure of the mortgage, such possessor, his or her successors and assigns shall not be liable for the share of the common expenses or assessments by the association of apartment owners chargeable to such apartment which became due prior to such possession. Such unpaid share of common expenses of assessments shall be deemed to be common expenses collectible from all of the apartment owners including such possessor, his or her successors and assigns.

(4)(a) When the association, or the manager or board of directors on its behalf, mails to the apartment owner by first-class mail the first notice of delinquency for past due assessments to the apartment address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

Sec. 3. RCW 64.34.364 and 2021 c 222 s 5 are each amended to read as follows:

(1) The association has a lien on a unit for any unpaid assessments levied against a unit from the time the assessment is due.

(2) A lien under this section shall be prior to all other liens and encumbrances on a unit except: (a) Liens and encumbrances recorded before the recording of the declaration; (b) a mortgage on the unit recorded before the date on which the assessment sought to be enforced became delinquent; and (c) liens for real property taxes and other governmental assessments or charges against the unit. A lien under this section is not subject to the provisions of chapter 6.13 RCW.

(3) Except as provided in subsections (4) and (5) of this section, the lien shall also be prior to the mortgages described in subsection (2)(b) of this section to the extent of assessments for common expenses, excluding any amounts for capital

improvements, based on the periodic budget adopted by the association pursuant to RCW 64.34.360(1) which would have become due during the six months immediately preceding the date of a sheriff's sale in an action for judicial foreclosure by either the association or a mortgagee, the date of a trustee's sale in a nonjudicial foreclosure by a mortgagee, or the date of recording of the declaration of forfeiture in a proceeding by the vendor under a real estate contract.

(4) The priority of the association's lien against units encumbered by a mortgage held by an eligible mortgagee or by a mortgagee which has given the association a written request for a notice of delinquent assessments shall be reduced by up to three months if and to the extent that the lien priority under subsection (3) of this section includes delinquencies which relate to a period after such holder becomes an eligible mortgagee or has given such notice and before the association gives the holder a written notice of the delinquency. This subsection does not affect the priority of mechanics' or material suppliers' liens, or the priority of liens for other assessments made by the association.

(5) If the association forecloses its lien under this section nonjudicially pursuant to chapter 61.24 RCW, as provided by subsection (9) of this section, the association shall not be entitled to the lien priority provided for under subsection (3) of this section.

(6) Unless the declaration otherwise provides, if two or more associations have liens for assessments created at any time on the same real estate, those liens have equal priority.

(7) Recording of the declaration constitutes record notice and perfection of the lien for assessments. While no further recording of any claim of lien for assessment under this section shall be required to perfect the association's lien, the association may record a notice of claim of lien for assessments under this section in the real property records of any county in which the condominium is located. Such recording shall not constitute the written notice of delinquency to a mortgagee referred to in subsection (2) of this section.

(8) A lien for unpaid assessments and the personal liability for payment of assessments is extinguished unless proceedings to enforce the lien or collect the debt are instituted within three years after the amount of the assessments sought to be recovered becomes due.

(9) The lien arising under this section may be enforced judicially by the association or its authorized representative in the manner set forth in chapter 61.12 RCW. The lien arising under this section may be enforced nonjudicially in the manner set forth in chapter 61.24 RCW for nonjudicial foreclosure of deeds of trust if the declaration (a) contains a grant of the condominium in trust to a trustee qualified under RCW 61.24.010 to secure the obligations of the unit owners to the association for the payment of assessments, (b) contains a power of sale, (c) provides in its terms that the units are not used principally for agricultural or farming purposes, and (d) provides that the power of sale is operative in the case of a default in the obligation to pay assessments. The association or its authorized representative shall have the power, unless prohibited by the declaration, to purchase the unit at the foreclosure sale and to acquire, hold, lease, mortgage, or convey the same. Upon an express waiver in the complaint of any right to a deficiency judgment in a judicial foreclosure action, the period of redemption shall be eight months. Nothing in this section shall prohibit an association from taking a deed in lieu of foreclosure.

(10) From the time of commencement of an action by the association to foreclose a lien for nonpayment of delinquent assessments against a unit that is not occupied by the owner thereof, the association shall be entitled to the appointment of a

EIGHTY NINTH DAY, APRIL 7, 2023

receiver to collect from the lessee thereof the rent for the unit as and when due. If the rental is not paid, the receiver may obtain possession of the unit, refurbish it for rental up to a reasonable standard for rental units in this type of condominium, rent the unit or permit its rental to others, and apply the rents first to the cost of the receivership and attorneys' fees thereof, then to the cost of refurbishing the unit, then to applicable charges, then to costs, fees, and charges of the foreclosure action, and then to the payment of the delinquent assessments. Only a receiver may take possession and collect rents under this subsection, and a receiver shall not be appointed less than ((ninety)) 90 days after the delinquency. The exercise by the association of the foregoing rights shall not affect the priority of preexisting liens on the unit.

(11) Except as provided in subsection (3) of this section, the holder of a mortgage or other purchaser of a unit who obtains the right of possession of the unit through foreclosure shall not be liable for assessments or installments thereof that became due prior to such right of possession. Such unpaid assessments shall be deemed to be common expenses collectible from all the unit owners, including such mortgagee or other purchaser of the unit. Foreclosure of a mortgage does not relieve the prior owner of personal liability for assessments accruing against the unit prior to the date of such sale as provided in this subsection.

(12) In addition to constituting a lien on the unit, each assessment shall be the joint and several obligation of the owner or owners of the unit to which the same are assessed as of the time the assessment is due. In a voluntary conveyance, the grantee of a unit shall be jointly and severally liable with the grantor for all unpaid assessments against the grantor up to the time of the grantor's conveyance, without prejudice to the grantee's right to recover from the grantor the amounts paid by the grantee therefor. Suit to recover a personal judgment for any delinquent assessment shall be maintainable in any court of competent jurisdiction without foreclosing or waiving the lien securing such sums.

(13) The association may from time to time establish reasonable late charges and a rate of interest to be charged on all subsequent delinquent assessments or installments thereof. In the absence of another established nonusurious rate, delinquent assessments shall bear interest from the date of delinquency at the maximum rate permitted under RCW 19.52.020 on the date on which the assessments became delinquent.

(14) The association shall be entitled to recover any costs and reasonable attorneys' fees incurred in connection with the collection of delinquent assessments, whether or not such collection activities result in suit being commenced or prosecuted to judgment. In addition, the association shall be entitled to recover costs and reasonable attorneys' fees if it prevails on appeal and in the enforcement of a judgment.

(15) The association upon written request shall furnish to a unit owner or a mortgagee a statement signed by an officer or authorized agent of the association setting forth the amount of unpaid assessments against that unit. The statement shall be furnished within fifteen days after receipt of the request and is binding on the association, the board of directors, and every unit owner, unless and to the extent known by the recipient to be false.

(16) To the extent not inconsistent with this section, the declaration may provide for such additional remedies for collection of assessments as may be permitted by law.

(17)(a) When the association mails to the unit owner by first-class mail the first notice of delinquency for past due assessments to the unit address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

(a) The unit owner, at the time the action is commenced, owes at least a sum equal to the greater of:

(i) Three months or more of assessments, not including fines, late charges, interest, attorneys' fees, or costs incurred by the association in connection with the collection of a delinquent owner's account; or

Sec. 4. RCW 64.34.364 and 2021 c 222 s 6 are each amended to read as follows:

(1) The association has a lien on a unit for any unpaid assessments levied against a unit from the time the assessment is due.

(2) A lien under this section shall be prior to all other liens and encumbrances on a unit except: (a) Liens and encumbrances recorded before the recording of the declaration; (b) a mortgage on the unit recorded before the date on which the assessment sought to be enforced became delinquent; and (c) liens for real property taxes and other governmental assessments or charges against the unit. A lien under this section is not subject to the provisions of chapter 6.13 RCW.

(3) Except as provided in subsections (4) and (5) of this section, the lien shall also be prior to the mortgages described in subsection (2)(b) of this section to the extent of assessments for common expenses, excluding any amounts for capital improvements, based on the periodic budget adopted by the association pursuant to RCW 64.34.360(1) which would have become due during the six months immediately preceding the date of a sheriff's sale in an action for judicial foreclosure by either the association or a mortgagee, the date of a trustee's sale in

a nonjudicial foreclosure by a mortgagee, or the date of recording of the declaration of forfeiture in a proceeding by the vendor under a real estate contract.

(4) The priority of the association's lien against units encumbered by a mortgage held by an eligible mortgagee or by a mortgagee which has given the association a written request for a notice of delinquent assessments shall be reduced by up to three months if and to the extent that the lien priority under subsection (3) of this section includes delinquencies which relate to a period after such holder becomes an eligible mortgagee or has given such notice and before the association gives the holder a written notice of the delinquency. This subsection does not affect the priority of mechanics' or material suppliers' liens, or the priority of liens for other assessments made by the association.

(5) If the association forecloses its lien under this section nonjudicially pursuant to chapter 61.24 RCW, as provided by subsection (9) of this section, the association shall not be entitled to the lien priority provided for under subsection (3) of this section.

(6) Unless the declaration otherwise provides, if two or more associations have liens for assessments created at any time on the same real estate, those liens have equal priority.

(7) Recording of the declaration constitutes record notice and perfection of the lien for assessments. While no further recording of any claim of lien for assessment under this section shall be required to perfect the association's lien, the association may record a notice of claim of lien for assessments under this section in the real property records of any county in which the condominium is located. Such recording shall not constitute the written notice of delinquency to a mortgagee referred to in subsection (2) of this section.

(8) A lien for unpaid assessments and the personal liability for payment of assessments is extinguished unless proceedings to enforce the lien or collect the debt are instituted within three years after the amount of the assessments sought to be recovered becomes due.

(9) The lien arising under this section may be enforced judicially by the association or its authorized representative in the manner set forth in chapter 61.12 RCW. The lien arising under this section may be enforced nonjudicially in the manner set forth in chapter 61.24 RCW for nonjudicial foreclosure of deeds of trust if the declaration (a) contains a grant of the condominium in trust to a trustee qualified under RCW 61.24.010 to secure the obligations of the unit owners to the association for the payment of assessments, (b) contains a power of sale, (c) provides in its terms that the units are not used principally for agricultural or farming purposes, and (d) provides that the power of sale is operative in the case of a default in the obligation to pay assessments. The association or its authorized representative shall have the power, unless prohibited by the declaration, to purchase the unit at the foreclosure sale and to acquire, hold, lease, mortgage, or convey the same. Upon an express waiver in the complaint of any right to a deficiency judgment in a judicial foreclosure action, the period of redemption shall be eight months. Nothing in this section shall prohibit an association from taking a deed in lieu of foreclosure.

(10) From the time of commencement of an action by the association to foreclose a lien for nonpayment of delinquent assessments against a unit that is not occupied by the owner thereof, the association shall be entitled to the appointment of a receiver to collect from the lessee thereof the rent for the unit as and when due. If the rental is not paid, the receiver may obtain possession of the unit, refurbish it for rental up to a reasonable standard for rental units in this type of condominium, rent the unit or permit its rental to others, and apply the rents first to the cost of

EIGHTY NINTH DAY, APRIL 7, 2023

the receivership and attorneys' fees thereof, then to the cost of refurbishing the unit, then to applicable charges, then to costs, fees, and charges of the foreclosure action, and then to the payment of the delinquent assessments. Only a receiver may take possession and collect rents under this subsection, and a receiver shall not be appointed less than ((ninety)) 90 days after the delinquency. The exercise by the association of the foregoing rights shall not affect the priority of preexisting liens on the unit.

(11) Except as provided in subsection (3) of this section, the holder of a mortgage or other purchaser of a unit who obtains the right of possession of the unit through foreclosure shall not be liable for assessments or installments thereof that became due prior to such right of possession. Such unpaid assessments shall be deemed to be common expenses collectible from all the unit owners, including such mortgagee or other purchaser of the unit. Foreclosure of a mortgage does not relieve the prior owner of personal liability for assessments accruing against the unit prior to the date of such sale as provided in this subsection.

(12) In addition to constituting a lien on the unit, each assessment shall be the joint and several obligation of the owner or owners of the unit to which the same are assessed as of the time the assessment is due. In a voluntary conveyance, the grantee of a unit shall be jointly and severally liable with the grantor for all unpaid assessments against the grantor up to the time of the grantor's conveyance, without prejudice to the grantee's right to recover from the grantor the amounts paid by the grantee therefor. Suit to recover a personal judgment for any delinquent assessment shall be maintainable in any court of competent jurisdiction without foreclosing or waiving the lien securing such sums.

(13) The association may from time to time establish reasonable late charges and a rate of interest to be charged on all subsequent delinquent assessments or installments thereof. In the absence of another established nonusurious rate, delinquent assessments shall bear interest from the date of delinquency at the maximum rate permitted under RCW 19.52.020 on the date on which the assessments became delinquent.

(14) The association shall be entitled to recover any costs and reasonable attorneys' fees incurred in connection with the collection of delinquent assessments, whether or not such collection activities result in suit being commenced or prosecuted to judgment. In addition, the association shall be entitled to recover costs and reasonable attorneys' fees if it prevails on appeal and in the enforcement of a judgment.

(15) The association upon written request shall furnish to a unit owner or a mortgagee a statement signed by an officer or authorized agent of the association setting forth the amount of unpaid assessments against that unit. The statement shall be furnished within fifteen days after receipt of the request and is binding on the association, the board of directors, and every unit owner, unless and to the extent known by the recipient to be false.

(16) To the extent not inconsistent with this section, the declaration may provide for such additional remedies for collection of assessments as may be permitted by law.

(17)(a) When the association mails to the unit owner by first-class mail the first notice of delinquency for past due assessments to the unit address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

Sec. 7. RCW 64.90.485 and 2021 c 222 s 1 are each amended to read as follows:

(1) The association has a statutory lien on each unit for any unpaid assessment against the unit from the time such assessment is due.

(2) A lien under this section has priority over all other liens and encumbrances on a unit except:

(a) Liens and encumbrances recorded before the recordation of the declaration and, in a cooperative, liens and encumbrances that the association creates, assumes, or takes subject to;

(b) Except as otherwise provided in subsection (3) of this section, a security interest on the unit recorded before the date on which the unpaid assessment became due or, in a cooperative, a security interest encumbering only the unit owner's interest and perfected before the date on which the unpaid assessment became due; and

(c) Liens for real estate taxes and other state or local governmental assessments or charges against the unit or cooperative.

(3)(a) A lien under this section also has priority over the security interests described in subsection (2)(b) of this section to the extent of an amount equal to the following:

(i) The common expense assessments, excluding any amounts for capital improvements, based on the periodic budget adopted by the association pursuant to RCW 64.90.480(1), along with any specially allocated assessments that are properly assessable against the unit under such periodic budget, which would have become due in the absence of acceleration during the six months immediately preceding the institution of proceedings to foreclose either the association's lien or a security interest described in subsection (2)(b) of this section;

(ii) The association's actual costs and reasonable attorneys' fees incurred in foreclosing its lien but incurred after the giving of the notice described in (a)(iii) of this subsection; provided, however, that the costs and reasonable attorneys' fees that will have priority under this subsection (3)(a)(ii) shall not exceed ((two thousand dollars)) \$2,000 or an amount equal to the amounts described in (a)(i) of this subsection, whichever is less;

(iii) The amounts described in (a)(ii) of this subsection shall be prior only to the security interest of the holder of a security interest on the unit recorded before the date on which the unpaid assessment became due and only if the association has given that holder not less than ((sixty)) 60 days' prior written notice that the owner of the unit is in default in payment of an assessment. The notice shall contain:

- (A) Name of the borrower;
- (B) Recording date of the trust deed or mortgage;
- (C) Recording information;

(D) Name of condominium, unit owner, and unit designation stated in the declaration or applicable supplemental declaration;

(E) Amount of unpaid assessment; and

(F) A statement that failure to, within ((sixty)) 60 days of the written notice, submit the association payment of six months of assessments as described in (a)(i) of this subsection will result in the priority of the amounts described in (a)(ii) of this subsection; and

(iv) Upon payment of the amounts described in (a)(i) and (ii) of this subsection by the holder of a security interest, the association's lien described in this subsection (3)(a) shall thereafter be fully subordinated to the lien of such holder's security interest on the unit.

(b) For the purposes of this subsection:

(i) "Institution of proceedings" means either:

(A) The date of recording of a notice of trustee's sale by a deed of trust beneficiary;

(B) The date of commencement, pursuant to applicable court rules, of an action for judicial foreclosure either by the association or by the holder of a recorded security interest; or

(C) The date of recording of a notice of intention to forfeit in a real estate contract forfeiture proceeding by the vendor under a real estate contract.

(ii) "Capital improvements" does not include making, in the ordinary course of management, repairs to common elements or replacements of the common elements with substantially similar items, subject to: (A) Availability of materials and products, (B) prevailing law, or (C) sound engineering and construction standards then prevailing.

(c) The adoption of a periodic budget that purports to allocate to a unit any fines, late charges, interest, attorneys' fees and costs incurred for services unrelated to the foreclosure of the association's lien, other collection charges, or specially allocated assessments assessed under RCW 64.90.480 (6) or (7) does not cause any such items to be included in the priority amount affecting such unit.

(4) Subsections (2) and (3) of this section do not affect the priority of mechanics' or material suppliers' liens to the extent that law of this state other than chapter 277, Laws of 2018 gives priority to such liens, or the priority of liens for other assessments made by the association.

(5) A lien under this section is not subject to chapter 6.13 RCW.

(6) If the association forecloses its lien under this section nonjudicially pursuant to chapter 61.24 RCW, as provided under subsection (13) of this section, the association is not entitled to the lien priority provided for under subsection (3) of this section, and is subject to the limitations on deficiency judgments as provided in chapter 61.24 RCW.

(7) Unless the declaration provides otherwise, if two or more associations have liens for assessments created at any time on the same property, those liens have equal priority as to each other, and any foreclosure of one such lien shall not affect the lien of the other.

(8) Recording of the declaration constitutes record notice and perfection of the statutory lien created under this section. Further notice or recordation of any claim of lien for assessment under this section is not required, but is not prohibited.

(9) A lien for unpaid assessments and the personal liability for payment of those assessments are extinguished unless proceedings to enforce the lien or collect the debt are instituted within six years after the full amount of the assessments sought to be recovered becomes due.

(10) This section does not prohibit actions against unit owners to recover sums for which subsection (1) of this section creates a

EIGHTY NINTH DAY, APRIL 7, 2023

lien or prohibit an association from taking a deed in lieu of foreclosure.

(11) The association upon written request must furnish to a unit owner or a mortgagee a statement signed by an officer or authorized agent of the association setting forth the amount of unpaid assessments or the priority amount against that unit, or both. The statement must be furnished within ((fifteen)) 15 days after receipt of the request and is binding on the association, the board, and every unit owner unless, and to the extent, known by the recipient to be false. The liability of a recipient who reasonably relies upon the statement must not exceed the amount set forth in any statement furnished pursuant to this section or RCW 64.90.640(1)(b).

(12) In a cooperative, upon nonpayment of an assessment on a unit, the unit owner may be evicted in the same manner as provided by law in the case of an unlawful holdover by a commercial tenant, and the lien may be foreclosed as provided under this section.

(13) The association's lien may be foreclosed in accordance with (a) and (b) of this subsection.

(a) In a common interest community other than a cooperative, the association's lien may be foreclosed judicially in accordance with chapter 61.12 RCW, subject to any rights of redemption under chapter 6.23 RCW.

(b) The lien may be enforced nonjudicially in the manner set forth in chapter 61.24 RCW for nonjudicial foreclosure of deeds of trust if the declaration: Contains a grant of the common interest community in trust to a trustee qualified under RCW 61.24.010 to secure the obligations of the unit owners to the association for the payment of assessments, contains a power of sale, provides in its terms that the units are not used principally for agricultural purposes, and provides that the power of sale is operative in the case of a default in the obligation to pay assessments. The association or its authorized representative may purchase the unit at the foreclosure sale and acquire, hold, lease, mortgage, or convey the unit. Upon an express waiver in the complaint of any right to a deficiency judgment in a judicial foreclosure action, the period of redemption is eight months.

(c) In a cooperative in which the unit owners' interests in the units are real estate, the association's lien must be foreclosed in like manner as a mortgage on real estate or by power of sale under (b) of this subsection.

(d) In a cooperative in which the unit owners' interests in the units are personal property, the association's lien must be foreclosed in like manner as a security interest under chapter 62A.9A RCW.

(14) If the unit owner's interest in a unit in a cooperative is real estate, the following requirements apply:

(a) The association, upon nonpayment of assessments and compliance with this subsection, may sell that unit at a public sale or by private negotiation, and at any time and place. The association must give to the unit owner and any lessee of the unit owner reasonable notice in a record of the time, date, and place of any public sale or, if a private sale is intended, of the intention of entering into a contract to sell and of the time and date after which a private conveyance may be made. Such notice must also be sent to any other person that has a recorded interest in the unit that would be cut off by the sale, but only if the recorded interest was on record seven weeks before the date specified in the notice as the date of any public sale or seven weeks before the date specified in the notice as the date after which a private sale may be made. The notices required under this subsection may be sent to any address reasonable in the circumstances. A sale may not be held until five weeks after the sending of the notice. The association may buy at any public sale and, if the sale is

conducted by a fiduciary or other person not related to the association, at a private sale.

(b) Unless otherwise agreed to or as stated in this section, the unit owner is liable for any deficiency in a foreclosure sale.

(c) The proceeds of a foreclosure sale must be applied in the following order:

(i) The reasonable expenses of sale;

(ii) The reasonable expenses of securing possession before sale; the reasonable expenses of holding, maintaining, and preparing the unit for sale, including payment of taxes and other governmental charges and premiums on insurance; and, to the extent provided for by agreement between the association and the unit owner, reasonable attorneys' fees, costs, and other legal expenses incurred by the association;

(iii) Satisfaction of the association's lien;

(iv) Satisfaction in the order of priority of any subordinate claim of record; and

(v) Remittance of any excess to the unit owner.

(d) A good-faith purchaser for value acquires the unit free of the association's debt that gave rise to the lien under which the foreclosure sale occurred and any subordinate interest, even though the association or other person conducting the sale failed to comply with this section. The person conducting the sale must execute a conveyance to the purchaser sufficient to convey the unit and stating that it is executed by the person after a foreclosure of the association's lien by power of sale and that the person was empowered to make the sale. Signature and title or authority of the person signing the conveyance as grantor and a recital of the facts of nonpayment of the assessment and of the giving of the notices required under this subsection are sufficient proof of the facts recited and of the authority to sign. Further proof of authority is not required even though the association is named as grantee in the conveyance.

(e) At any time before the association has conveyed a unit in a cooperative or entered into a contract for its conveyance under the power of sale, the unit owners or the holder of any subordinate security interest may cure the unit owner's default and prevent sale or other conveyance by tendering the performance due under the security agreement, including any amounts due because of exercise of a right to accelerate, plus the reasonable expenses of proceeding to foreclosure incurred to the time of tender, including reasonable attorneys' fees and costs of the creditor.

(15) In an action by an association to collect assessments or to foreclose a lien on a unit under this section, the court may appoint a receiver to collect all sums alleged to be due and owing to a unit owner before commencement or during pendency of the action. The receivership is governed under chapter 7.60 RCW. During pendency of the action, the court may order the receiver to pay sums held by the receiver to the association for any assessments against the unit. The exercise of rights under this subsection by the association does not affect the priority of preexisting liens on the unit.

(16) Except as provided in subsection (3) of this section, the holder of a mortgage or other purchaser of a unit who obtains the right of possession of the unit through foreclosure is not liable for assessments or installments of assessments that became due prior to such right of possession. Such unpaid assessments are deemed to be common expenses collectible from all the unit owners, including such mortgagee or other purchaser of the unit. Foreclosure of a mortgage does not relieve the prior unit owner of personal liability for assessments accruing against the unit prior to the date of such sale as provided in this subsection.

(17) In addition to constituting a lien on the unit, each assessment is the joint and several obligation of the unit owner of the unit to which the same are assessed as of the time the

assessment is due. A unit owner may not exempt himself or herself from liability for assessments. In a voluntary conveyance other than by foreclosure, the grantee of a unit is jointly and severally liable with the grantor for all unpaid assessments against the grantor up to the time of the grantor's conveyance, without prejudice to the grantee's right to recover from the grantor the amounts paid by the grantee. Suit to recover a personal judgment for any delinquent assessment is maintainable in any court of competent jurisdiction without foreclosing or waiving the lien securing such sums.

(18) The association may from time to time establish reasonable late charges and a rate of interest to be charged, not to exceed the maximum rate calculated under RCW 19.52.020, on all subsequent delinquent assessments or installments of assessments. If the association does not establish such a rate, delinquent assessments bear interest from the date of delinquency at the maximum rate calculated under RCW 19.52.020 on the date on which the assessments became delinquent.

(19) The association is entitled to recover any costs and reasonable attorneys' fees incurred in connection with the collection of delinquent assessments, whether or not such collection activities result in a suit being commenced or prosecuted to judgment. The prevailing party is also entitled to recover costs and reasonable attorneys' fees in such suits, including any appeals, if it prevails on appeal and in the enforcement of a judgment.

(20) To the extent not inconsistent with this section, the declaration may provide for such additional remedies for collection of assessments as may be permitted by law.

(21)(a) When the association mails to the unit owner by first-class mail the first notice of delinquency for past due assessments to the unit address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

THIS IS A NOTICE OF DELINQUENCY FOR PAST DUE ASSESSMENTS FROM THE UNIT OWNERS ASSOCIATION TO WHICH YOUR HOME BELONGS. THIS NOTICE IS ONE STEP IN A PROCESS THAT COULD RESULT IN YOUR LOSING YOUR HOME. The second preforeclosure notice may not be mailed sooner than 60 days after the first preforeclosure notice is mailed.

(22) An association may not commence an action to foreclose a lien on a unit under this section unless:

~~the notice~~) must include a second preforeclosure notice that contains the same information as the first preforeclosure notice provided to the owner pursuant to subsection (21)(a) of this section. The second preforeclosure notice may not be mailed sooner than 60 days after the first preforeclosure notice required in subsection (21)(a) of this section is mailed;

(c) At least 180 days have elapsed from the date the minimum amount required in (a) of this subsection has accrued; and

(d) The board approves commencement of a foreclosure action specifically against that unit.

((22)) (23) Every aspect of a collection, foreclosure, sale, or other conveyance under this section, including the method, advertising, time, date, place, and terms, must be commercially reasonable.

Sec. 8. RCW 64.90.485 and 2021 c 222 s 2 are each amended to read as follows:

(1) The association has a statutory lien on each unit for any unpaid assessment against the unit from the time such assessment is due.

(2) A lien under this section has priority over all other liens and encumbrances on a unit except:

(a) Liens and encumbrances recorded before the recordation of the declaration and, in a cooperative, liens and encumbrances that the association creates, assumes, or takes subject to;

(b) Except as otherwise provided in subsection (3) of this section, a security interest on the unit recorded before the date on which the unpaid assessment became due or, in a cooperative, a security interest encumbering only the unit owner's interest and perfected before the date on which the unpaid assessment became due; and

(c) Liens for real estate taxes and other state or local governmental assessments or charges against the unit or cooperative.

(3)(a) A lien under this section also has priority over the security interests described in subsection (2)(b) of this section to the extent of an amount equal to the following:

(i) The common expense assessments, excluding any amounts for capital improvements, based on the periodic budget adopted by the association pursuant to RCW 64.90.480(1), along with any specially allocated assessments that are properly assessable against the unit under such periodic budget, which would have become due in the absence of acceleration during the six months immediately preceding the institution of proceedings to foreclose either the association's lien or a security interest described in subsection (2)(b) of this section;

(ii) The association's actual costs and reasonable attorneys' fees incurred in foreclosing its lien but incurred after the giving of the notice described in (a)(iii) of this subsection; provided, however, that the costs and reasonable attorneys' fees that will have priority under this subsection (3)(a)(ii) shall not exceed ((two thousand dollars)) \$2,000 or an amount equal to the amounts described in (a)(i) of this subsection, whichever is less;

(iii) The amounts described in (a)(ii) of this subsection shall be prior only to the security interest of the holder of a security interest on the unit recorded before the date on which the unpaid assessment became due and only if the association has given that holder not less than ((sixty)) 60 days' prior written notice that the owner of the unit is in default in payment of an assessment. The notice shall contain:

- (A) Name of the borrower;
- (B) Recording date of the trust deed or mortgage;
- (C) Recording information;
- (D) Name of condominium, unit owner, and unit designation stated in the declaration or applicable supplemental declaration;
- (E) Amount of unpaid assessment; and

(F) A statement that failure to, within ((sixty)) 60 days of the written notice, submit the association payment of six months of assessments as described in (a)(i) of this subsection will result in the priority of the amounts described in (a)(ii) of this subsection; and

(iv) Upon payment of the amounts described in (a)(i) and (ii) of this subsection by the holder of a security interest, the association's lien described in this subsection (3)(a) shall thereafter be fully subordinated to the lien of such holder's security interest on the unit.

(b) For the purposes of this subsection:

(i) "Institution of proceedings" means either:

(A) The date of recording of a notice of trustee's sale by a deed of trust beneficiary;

(B) The date of commencement, pursuant to applicable court rules, of an action for judicial foreclosure either by the association or by the holder of a recorded security interest; or

(C) The date of recording of a notice of intention to forfeit in a real estate contract forfeiture proceeding by the vendor under a real estate contract.

(ii) "Capital improvements" does not include making, in the ordinary course of management, repairs to common elements or replacements of the common elements with substantially similar items, subject to: (A) Availability of materials and products, (B) prevailing law, or (C) sound engineering and construction standards then prevailing.

(c) The adoption of a periodic budget that purports to allocate to a unit any fines, late charges, interest, attorneys' fees and costs incurred for services unrelated to the foreclosure of the association's lien, other collection charges, or specially allocated assessments assessed under RCW 64.90.480 (6) or (7) does not cause any such items to be included in the priority amount affecting such unit.

(4) Subsections (2) and (3) of this section do not affect the priority of mechanics' or material suppliers' liens to the extent that law of this state other than chapter 277, Laws of 2018 gives priority to such liens, or the priority of liens for other assessments made by the association.

(5) A lien under this section is not subject to chapter 6.13 RCW.

(6) If the association forecloses its lien under this section nonjudicially pursuant to chapter 61.24 RCW, as provided under subsection (13) of this section, the association is not entitled to the lien priority provided for under subsection (3) of this section, and is subject to the limitations on deficiency judgments as provided in chapter 61.24 RCW.

(7) Unless the declaration provides otherwise, if two or more associations have liens for assessments created at any time on the same property, those liens have equal priority as to each other, and any foreclosure of one such lien shall not affect the lien of the other.

(8) Recording of the declaration constitutes record notice and perfection of the statutory lien created under this section. Further notice or recordation of any claim of lien for assessment under this section is not required, but is not prohibited.

(9) A lien for unpaid assessments and the personal liability for payment of those assessments are extinguished unless proceedings to enforce the lien or collect the debt are instituted within six years after the full amount of the assessments sought to be recovered becomes due.

(10) This section does not prohibit actions against unit owners to recover sums for which subsection (1) of this section creates a lien or prohibit an association from taking a deed in lieu of foreclosure.

(11) The association upon written request must furnish to a unit owner or a mortgagee a statement signed by an officer or authorized agent of the association setting forth the amount of unpaid assessments or the priority amount against that unit, or both. The statement must be furnished within ((fifteen)) 15 days after receipt of the request and is binding on the association, the board, and every unit owner unless, and to the extent, known by the recipient to be false. The liability of a recipient who reasonably relies upon the statement must not exceed the amount set forth in any statement furnished pursuant to this section or RCW 64.90.640(1)(b).

(12) In a cooperative, upon nonpayment of an assessment on a unit, the unit owner may be evicted in the same manner as provided by law in the case of an unlawful holdover by a commercial tenant, and the lien may be foreclosed as provided under this section.

(13) The association's lien may be foreclosed in accordance with (a) and (b) of this subsection.

(a) In a common interest community other than a cooperative, the association's lien may be foreclosed judicially in accordance with chapter 61.12 RCW, subject to any rights of redemption under chapter 6.23 RCW.

(b) The lien may be enforced nonjudicially in the manner set forth in chapter 61.24 RCW for nonjudicial foreclosure of deeds of trust if the declaration: Contains a grant of the common interest community in trust to a trustee qualified under RCW 61.24.010 to secure the obligations of the unit owners to the association for the payment of assessments, contains a power of sale, provides in its terms that the units are not used principally for agricultural purposes, and provides that the power of sale is operative in the case of a default in the obligation to pay assessments. The association or its authorized representative may purchase the unit at the foreclosure sale and acquire, hold, lease, mortgage, or convey the unit. Upon an express waiver in the complaint of any right to a deficiency judgment in a judicial foreclosure action, the period of redemption is eight months.

(c) In a cooperative in which the unit owners' interests in the units are real estate, the association's lien must be foreclosed in like manner as a mortgage on real estate or by power of sale under (b) of this subsection.

(d) In a cooperative in which the unit owners' interests in the units are personal property, the association's lien must be foreclosed in like manner as a security interest under chapter 62A.9A RCW.

(14) If the unit owner's interest in a unit in a cooperative is real estate, the following requirements apply:

(a) The association, upon nonpayment of assessments and compliance with this subsection, may sell that unit at a public sale or by private negotiation, and at any time and place. The association must give to the unit owner and any lessee of the unit owner reasonable notice in a record of the time, date, and place of any public sale or, if a private sale is intended, of the intention of entering into a contract to sell and of the time and date after which a private conveyance may be made. Such notice must also be sent to any other person that has a recorded interest in the unit that would be cut off by the sale, but only if the recorded interest was on record seven weeks before the date specified in the notice as the date of any public sale or seven weeks before the date specified in the notice as the date after which a private sale may be made. The notices required under this subsection may be sent to any address reasonable in the circumstances. A sale may not be held until five weeks after the sending of the notice. The association may buy at any public sale and, if the sale is conducted by a fiduciary or other person not related to the association, at a private sale.

(b) Unless otherwise agreed to or as stated in this section, the unit owner is liable for any deficiency in a foreclosure sale.

(c) The proceeds of a foreclosure sale must be applied in the following order:

(i) The reasonable expenses of sale;

(ii) The reasonable expenses of securing possession before sale; the reasonable expenses of holding, maintaining, and preparing the unit for sale, including payment of taxes and other governmental charges and premiums on insurance; and, to the extent provided for by agreement between the association and the unit owner, reasonable attorneys' fees, costs, and other legal expenses incurred by the association;

(iii) Satisfaction of the association's lien;

(iv) Satisfaction in the order of priority of any subordinate claim of record; and

(v) Remittance of any excess to the unit owner.

(d) A good-faith purchaser for value acquires the unit free of the association's debt that gave rise to the lien under which the foreclosure sale occurred and any subordinate interest, even though the association or other person conducting the sale failed to comply with this section. The person conducting the sale must execute a conveyance to the purchaser sufficient to convey the unit and stating that it is executed by the person after a foreclosure of the association's lien by power of sale and that the person was empowered to make the sale. Signature and title or authority of the person signing the conveyance as grantor and a recital of the facts of nonpayment of the assessment and of the giving of the notices required under this subsection are sufficient proof of the facts recited and of the authority to sign. Further proof of authority is not required even though the association is named as grantee in the conveyance.

(e) At any time before the association has conveyed a unit in a cooperative or entered into a contract for its conveyance under the power of sale, the unit owners or the holder of any subordinate security interest may cure the unit owner's default and prevent sale or other conveyance by tendering the performance due under the security agreement, including any amounts due because of exercise of a right to accelerate, plus the reasonable expenses of proceeding to foreclosure incurred to the time of tender, including reasonable attorneys' fees and costs of the creditor.

(15) In an action by an association to collect assessments or to foreclose a lien on a unit under this section, the court may appoint a receiver to collect all sums alleged to be due and owing to a unit owner before commencement or during pendency of the action. The receivership is governed under chapter 7.60 RCW. During pendency of the action, the court may order the receiver to pay sums held by the receiver to the association for any assessments against the unit. The exercise of rights under this subsection by the association does not affect the priority of preexisting liens on the unit.

(16) Except as provided in subsection (3) of this section, the holder of a mortgage or other purchaser of a unit who obtains the right of possession of the unit through foreclosure is not liable for assessments or installments of assessments that became due prior to such right of possession. Such unpaid assessments are deemed to be common expenses collectible from all the unit owners, including such mortgagee or other purchaser of the unit. Foreclosure of a mortgage does not relieve the prior unit owner of personal liability for assessments accruing against the unit prior to the date of such sale as provided in this subsection.

(17) In addition to constituting a lien on the unit, each assessment is the joint and several obligation of the unit owner of the unit to which the same are assessed as of the time the assessment is due. A unit owner may not exempt himself or herself from liability for assessments. In a voluntary conveyance

other than by foreclosure, the grantee of a unit is jointly and severally liable with the grantor for all unpaid assessments against the grantor up to the time of the grantor's conveyance, without prejudice to the grantee's right to recover from the grantor the amounts paid by the grantee. Suit to recover a personal judgment for any delinquent assessment is maintainable in any court of competent jurisdiction without foreclosing or waiving the lien securing such sums.

(18) The association may from time to time establish reasonable late charges and a rate of interest to be charged, not to exceed the maximum rate calculated under RCW 19.52.020, on all subsequent delinquent assessments or installments of assessments. If the association does not establish such a rate, delinquent assessments bear interest from the date of delinquency at the maximum rate calculated under RCW 19.52.020 on the date on which the assessments became delinquent.

(19) The association is entitled to recover any costs and reasonable attorneys' fees incurred in connection with the collection of delinquent assessments, whether or not such collection activities result in a suit being commenced or prosecuted to judgment. The prevailing party is also entitled to recover costs and reasonable attorneys' fees in such suits, including any appeals, if it prevails on appeal and in the enforcement of a judgment.

(20) To the extent not inconsistent with this section, the declaration may provide for such additional remedies for collection of assessments as may be permitted by law.

(21)(a) When the association mails to the unit owner by first-class mail the first notice of delinquency for past due assessments to the unit address and to any other address that the owner has provided to the association, the association shall include a first preforeclosure notice that states as follows:

THIS IS A NOTICE OF DELINQUENCY FOR PAST DUE ASSESSMENTS FROM THE UNIT OWNERS ASSOCIATION TO WHICH YOUR HOME BELONGS. THIS NOTICE IS ONE STEP IN A PROCESS THAT COULD RESULT IN YOUR LOSING YOUR HOME. The second preforeclosure notice may not be mailed sooner than 60 days after the first preforeclosure notice is mailed.

(22) An association may not commence an action to foreclose a lien on a unit under this section unless:

Strike everything after the enacting clause and insert the following:

EIGHTY NINTH DAY, APRIL 7, 2023

"NEW SECTION. **Sec. 1.** The legislature finds that office of financial management forecasts are showing state population growth of more than 2.2 million people by the year 2050. In the face of this dramatic growth, the legislature finds that it is more important than ever to help preserve, maintain, and enhance local parks, trails, and open spaces that are key contributors to the state's quality of life.

The legislature further finds that local parks and recreation agencies confronted with this growth are still dealing with severe budget impacts brought on by the COVID-19 pandemic and facing a pending economic slowdown, even as the utilization of parks, open spaces, and trails has spiked up dramatically.

The legislature finds that local parks agencies desperately need additional funding and tools to address the significant growth in use and to better empower nonprofit and service organizations to make a positive impact in their communities.

The legislature finds that community service organizations can help local agencies bring people together in a way that fosters an ethic of service, builds cohesion among residents, and provides more free and accessible outdoor recreation opportunities, particularly in underserved communities.

The legislature finds that increased use of volunteers, and agreements with community service organizations, can help smaller agencies stretch local dollars further and take on bigger projects than they otherwise would be able to.

The legislature finds that one way to incentivize these types of agreements with community service organizations is by modernizing the state laws around contracting with such organizations, which have not been updated since 1988.

The legislature further finds that years of inflation and growth should be taken into account in updating these state laws, which currently restrict many local agencies to a \$25,000 per year limit for all community service organization contracts.

Therefore, it is the intent of the legislature to modernize the state laws around contracting with community service organizations in a manner that accounts for three and a half decades of growth and inflationary costs, so that local parks agencies can operate with more reasonable and up-to-date limits that are in keeping with today's budget and cost realities. Doing so will provide local agencies one additional tool to address maintenance backlogs, preserve quality open spaces, and better serve communities experiencing inequities and lacking access to parks and recreation facilities and programs that support healthy living. The legislature therefore intends to increase the dollar limit from \$25,000 to \$75,000 for smaller agencies. It is the intent of the legislature that this limit apply annually to all contracts entered into by an agency under RCW 35.21.278 in any one year, and that this limit not be interpreted to apply on a per contract basis so as to allow any number of individual contracts of up to \$75,000.

It is the intent of the legislature that this authority be used to provide additional opportunities for public service organizations to meaningfully participate in the betterment of their community, rather than as a way for local agencies to advantage nonprofits over other businesses in public contracting.

Sec. 2. RCW 35.21.278 and 2019 c 352 s 7 are each amended to read as follows:

(1) Without regard to competitive bidding laws for public works, a county, city, town, school district, metropolitan park district, park and recreation district, port district, or park and recreation service area may contract with a chamber of commerce, a service organization, a community, youth, or athletic association, or other similar association located and providing service in the immediate neighborhood, for drawing design plans, making improvements to a park, school playground,

public square, other public spaces, or port habitat site, installing equipment or artworks, or providing maintenance services for such a project, or for a facility or facilities as a community or neighborhood project, or for an environmental justice stewardship or sustainability project, and may reimburse the contracting association its expense. The contracting association may use volunteers to whom no wage or salary compensation is paid in the project and provide the volunteers with clothing or tools; meals or refreshments; accident/injury insurance coverage; and reimbursement of their expenses. The consideration to be received by the public entity through the value of the improvements, artworks, equipment, or maintenance shall have a value at least equal to ~~((three))~~ two times that of the payment to the contracting association. All payments made by a public entity under the authority of this section for all such contracts in any one year shall not exceed ~~((twenty five thousand dollars))~~ \$75,000 or two dollars per resident within the boundaries of the public entity, whichever is greater.

(2) A county, city, town, school district, metropolitan park district, park and recreation district, or park and recreation service area may ratify an agreement, which qualifies under subsection (1) of this section and was made before June 9, 1988.

(3) Without regard to competitive bidding laws for public works, a school district, institution of higher education, or other governmental entity that includes training programs for students may contract with a community service organization, nonprofit organization, or other similar entity, to build tiny houses for low-income housing, if the students participating in the building of the tiny houses are in:

- (a) Training in a community and technical college construction or construction management program;
- (b) A career and technical education program;
- (c) A state-recognized apprenticeship preparation program; or
- (d) Training under a construction career exploration program for high school students administered by a nonprofit organization."

The measure was read the second time.

MOTION

Senator Boehnke moved that the following committee striking amendment by the Committee on Environment, Energy & Technology be not adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Department" means the department of ecology.

(2) "Hub height" means the distance from the ground to the middle of a wind turbine's rotor.

(3) "Light-mitigating technology system" means aircraft detection lighting or any other comparable system capable of reducing the impact of facility obstruction lighting while maintaining conspicuity sufficient to assist aircraft in identifying and avoiding collision with a utility-scale wind energy facility.

(4) "Power offtake agreement" means a long-term contract that provides for the provision of the whole or any part of the available capacity or the sale or other disposal of the whole or any part of the output of a utility-scale wind energy facility.

(5) "Repowering" means a rebuild or refurbishment of a turbine or facility that is required due to the turbine or facility reaching the end of its useful life or useful reasonable economic life. The rebuild or refurbishment does not constitute repowering if it is part of routine major maintenance or the maintenance of or replacement of equipment that does not materially affect the expected physical or economical life of the turbine or facility.

(6) "Utility-scale wind energy facility" means a facility used in the generation of electricity by means of turbines or other devices that capture and employ the kinetic energy of the wind and:

(a) Is required under federal aviation administration regulations, guidelines, circulars, or standards, as they existed as of January 1, 2023, to have obstruction lights; or

(b) Has at least one obstruction light and at least one wind turbine with a hub height of at least 75 feet above ground level.

NEW SECTION. **Sec. 2.** (1) On and after July 1, 2023, no new utility-scale wind energy facility shall commence operations unless the developer, owner, or operator of the facility applies to the federal aviation administration for installation of a light-mitigating technology system that complies with federal aviation administration regulations, 14 C.F.R. § 1.1 et seq. If approved by the federal aviation administration, the developer, owner, or operator of such utility-scale wind energy facility shall

install the light-mitigating technology system on approved turbines within 24 months after receipt of such approval.

(2) On and after January 1, 2025, or upon the completion of repowering, whichever is earlier, any developer, owner, or operator of a utility-scale wind energy facility that has commenced operations without a light-mitigating technology system shall apply to the federal aviation administration for installation and operation of a light-mitigating technology system that complies with federal aviation administration regulations, 14 C.F.R. § 1.1 et seq., within six months after the execution of a new power offtake agreement related to such utility-scale wind energy facility. If approved by the federal aviation administration, the developer, owner, or operator of such utility-scale wind energy facility shall install the light-mitigating technology system on approved turbines within 24 months following such approval.

(3) Prior to construction, operation, or repowering of any utility scale wind energy facility, the board of county commissioners of any county in which construction is proposed may determine the type of light-mitigating technology system that shall be used on such wind energy facility. The developer shall submit an application to the board on a form and in the manner specified by the board proposing the light-mitigating technology system that such developer will install and maintain upon such wind energy facility. The board shall have the authority to approve the proposed light-mitigating technology system or to require the installation of another light-mitigating technology system to serve the public interest.

NEW SECTION. Sec. 3. (1) A violation of the requirements of this chapter is punishable by a civil penalty of up to \$5,000 per day per violation. Penalties are appealable to the pollution control hearings board.

(2)(a) The department may enforce the requirements of this chapter.

(b) Enforcement of this chapter by the department must rely on notification and information exchange between the department and utility-scale wind energy facility owners or operators. The department must prepare and distribute information regarding this chapter to utility-scale wind energy facility owners and operators to help facility owners and operators in their advance planning to meet the deadlines.

(c)(i) If the department obtains information that a facility is not in compliance with the requirements of this chapter, the department may issue a notification letter by certified mail to the facility owner or operator and offer information or other appropriate assistance regarding compliance with this chapter. If compliance is not achieved within 60 days of the issuance of a notification letter under this subsection, the department may assess penalties under this section.

(ii) The department may delay any combination of the issuance of a notification letter under this subsection (2)(c), the 60-day period in which compliance with the requirements of this chapter must be achieved, or the imposition of penalties for good cause shown due to:

- (A) Supply chain constraints, including lack of light-mitigating technology system availability;
- (B) Lack of contractor availability;
- (C) Lighting system permitting delays; or
- (D) Technological feasibility considerations.

Sec. 4. RCW 43.21B.110 and 2022 c 180 s 812 are each amended to read as follows:

Senators Boehnke and Nguyen spoke in favor of the motion to not adopt the committee striking amendment.

The President declared the question before the Senate to be to not adopt the committee striking amendment by the Committee on Environment, Energy & Technology to Engrossed Substitute House Bill No. 1173.

The motion by Senator Boehnke carried and the committee striking amendment was not adopted by voice vote.

MOTION

Senator Boehnke moved that the following striking amendment no. 0324 by Senator Boehnke be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Aircraft detection lighting system" means a sensor-based system that:

(a) Is designed to detect approaching aircraft;

(b) Automatically activates appropriate obstruction lights until the lights are no longer needed by the aircraft; and

(c) The federal aviation administration has approved as meeting the requirements set forth in chapter 10 of the federal

aviation administration's 2020 advisory circular AC 70/7460-1M, "Obstruction marking and lighting."

(2) "Department" means the department of ecology.

(3) "Hub height" means the distance from the ground to the middle of a wind turbine's rotor.

(4) "Light-mitigating technology system" means aircraft detection lighting or another federal aviation administration-approved system capable of reducing the impact of aviation obstruction lighting while maintaining conspicuity sufficient to assist aircraft in identifying and avoiding collision with a utility-scale wind energy facility.

(5) "Repowering" means a rebuild or refurbishment of a turbine or facility that is required due to the turbine or facility reaching the end of its useful life or useful reasonable economic life. The rebuild or refurbishment does not constitute repowering if it is part of routine major maintenance or the maintenance or replacement of equipment that does not materially affect the expected physical or economical life of the turbine or facility.

(6) "Utility-scale wind energy facility" means a facility used in the generation of electricity by means of turbines or other devices that capture and employ the kinetic energy of the wind and:

(a) Is required under federal aviation administration regulations, guidelines, circulars, or standards, as they existed as of January 1, 2023, to have obstruction lights; or

(b) Has at least one obstruction light and at least one wind turbine with a hub height of at least 75 feet above ground level.

NEW SECTION. Sec. 2. (1) Except as provided in section 3 of this act, beginning July 1, 2023, no new utility-scale wind energy facility shall commence operations unless the developer, owner, or operator of the facility applies to the federal aviation administration for installation of a light-mitigating technology system that complies with federal aviation administration regulations, as they existed as of the effective date of this section. If approved by the federal aviation administration, the developer, owner, or operator of such utility-scale wind energy facility shall install the light-mitigating technology system on approved turbines within 24 months after receipt of such approval. If not approved by the federal aviation administration, the developer, owner, or operator of such utility-scale wind energy facility is not subject to this chapter.

(2) Except as provided in section 3 of this act, beginning January 1, 2028, or upon the completion of repowering, whichever is earlier, any developer, owner, or operator of a utility-scale wind energy facility that has commenced operations without an aircraft detection lighting system shall apply to the federal aviation administration for installation and operation of a light-mitigating technology system that achieves comparable light mitigation outcomes to an aircraft detection lighting system and that complies with federal aviation administration regulations, as they existed as of the effective date of this section. If approved by the federal aviation administration, the developer, owner, or operator of such utility-scale wind energy facility shall install the light-mitigating technology system on approved turbines within 24 months following such approval. If not approved by the federal aviation administration, the developer, owner, or operator of such utility-scale wind energy facility is not subject to this chapter.

(3) A developer, owner, or operator of a utility-scale wind energy facility shall comply with any wind energy ordinance adopted by a legislative authority of a county pursuant to section 3 of this act.

(4) Nothing in this section requires mitigation of light pollution to be carried out in a manner that conflicts with federal requirements, including requirements of the federal aviation administration or the United States department of defense.

NEW SECTION. Sec. 3. A new section is added to chapter 36.01 RCW to read as follows:

(1) A legislative authority of any county may adopt a wind energy ordinance that includes specifications for aviation obstruction light-mitigating technology systems only when there is more than one technology approved by the federal aviation administration. In adopting an ordinance under this section, the county legislative authority shall consider whether affected wind energy facilities have caused, or will cause, light impacts requiring mitigation. Additional practicability criteria related to the selection of light-mitigating technology systems may include the costs associated with the installation of such a system, the economic impact to a developer, owner, or operator of the installation of such a system, conditions under which light mitigation is required, and the type of system that best serves the public interest of the county. Nothing in this section authorizes a county to deny a permit application for a wind energy facility where the use of a light-mitigating technology system is not allowed by the federal aviation administration, United States department of defense, or if it is determined by the county to be impracticable.

(2) The definitions in section 1 of this act apply throughout this section unless the context clearly requires otherwise.

NEW SECTION. Sec. 4. (1) A violation of the requirements of this chapter is punishable by a civil penalty of up to \$5,000 per day per violation. Penalties are appealable to the pollution control hearings board.

(2)(a) The department may enforce the requirements of this chapter.

(b) Enforcement of this chapter by the department must rely on notification and information exchange between the department and utility-scale wind energy facility owners or operators. The department must prepare and distribute information regarding this chapter to utility-scale wind energy facility owners and operators to help facility owners and operators in their advance planning to meet the deadlines.

(c)(i) If the department obtains information that a facility is not in compliance with the requirements of this chapter, the department may issue a notification letter by certified mail to the facility owner or operator and offer information or other appropriate assistance regarding compliance with this chapter. If compliance is not achieved within 60 days of the issuance of a notification letter under this subsection, the department may assess penalties under this section.

(ii) The department may delay any combination of the issuance of a notification letter under this subsection (2)(c), the 60-day period in which compliance with the requirements of this chapter must be achieved, or the imposition of penalties for good cause shown due to:

- (A) Supply chain constraints, including lack of light-mitigating technology system availability;
- (B) Lack of contractor availability;
- (C) Lighting system permitting delays; or
- (D) Technological feasibility considerations.

(3) A utility-scale wind energy facility owner or operator of a facility that has commenced operations prior to January 1, 2023, that applies for the approval of a light-mitigating technology system to the federal aviation administration prior to January 1, 2027, but that has not received a determination to approve the system by the federal aviation administration as of July 1, 2027, may not be assessed a penalty under this chapter until at least 24 months after the federal aviation administration issues its determination on the application of the utility-scale wind energy facility's proposed light-mitigating technology system.

(4) The department may adopt by rule a light mitigation standard that references a more recent version of any federal requirements referenced in section 2 of this act in order to maintain consistency between this chapter and federal aviation administration requirements.

Sec. 5. RCW 43.21B.110 and 2022 c 180 s 812 are each amended to read as follows:

Creating the covenant homeownership account and program to address the history of housing discrimination due to racially restrictive real estate covenants in Washington state.

The measure was read the second time.

MOTION

Senator Lovick moved that the following committee striking amendment by the Committee on Ways & Means be not adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that:

(a) Generations of systemic, racist, and discriminatory policies and practices have created barriers to credit and homeownership for black, indigenous, and people of color and other historically marginalized communities in Washington state. The legislature finds that these policies and practices include redlining, racially restrictive covenants, mortgage subsidies and incentives, and displacement and gentrification.

(b) The state government was both an active and passive participant in this discrimination. For example, the legislature recognizes the role of state courts in facilitating discrimination by property owners; the existence of mandatory recording statutes that required county auditors to record racially restrictive covenants; the passage of the urban renewal law authorizing the designation, regulation, and displacement of certain neighborhoods that were deemed to be blighted; and state funding and regulation of the real estate and banking industries in ways that facilitated or promoted private discrimination. The legislature finds that the specific discriminatory acts and omissions are well documented, including in numerous public and private studies, reports, and other publications.

(c) This discrimination and its impacts continue to exist in the present day. The legislature recognizes that the homeownership rate for black, indigenous, and people of color and other historically marginalized communities in Washington is 19 percent below that of non-Hispanic white households, and the homeownership rate for black households is even lower. The legislature recognizes that credit, including home mortgages, is harder and more expensive to obtain for black, indigenous, and people of color and other historically marginalized communities in Washington than for non-Hispanic white households. The legislature finds that the imbalance in supply and demand in Washington's housing market has only exacerbated these inequities.

(d) These negative impacts extend beyond homeownership and affect wealth generation, housing security, and other outcomes for black, indigenous, and people of color and other historically marginalized communities in Washington. The legislature finds that these impacts include higher rates of homelessness, rent burdening, substandard or otherwise unhealthy or unsafe housing, and predatory and discriminatory lending practices that lead to further displacement and gentrification.

(e) Existing state and federal programs and other race-neutral approaches are insufficient to remedy that discrimination and its impacts on access to credit and homeownership for black, indigenous, and people of color and other historically marginalized communities in Washington. The legislature finds that race-conscious programs, such as the special purpose credit programs authorized by section 6 of this act, are necessary to remedy the past discrimination in which the state was complicit and to remove the structural barriers that persist.

(2) The legislature declares that the state has a compelling interest in remedying past and ongoing discrimination and its

impacts on access to credit and homeownership for black, indigenous, and people of color and other historically marginalized communities in Washington.

NEW SECTION. Sec. 2. A new section is added to chapter 36.22 RCW to read as follows:

The county auditor may retain up to one percent of the moneys for collection of the assessment and must remit the remainder of the moneys to the state treasurer to be deposited in the covenant homeownership account created in section 4 of this act.

(2) The assessment imposed in this section does not apply to: (a) Assignments or substitutions of previously recorded deeds of trust; (b) documents recording a birth, marriage, divorce, or death; (c) any recorded documents otherwise exempted from a recording fee or additional assessments under state law; (d) marriage licenses issued by the county auditor; (e) documents recording a name change order under RCW 4.24.130; or (f) documents recording a federal, state, county, city, or water-sewer district, or wage lien or satisfaction of lien.

NEW SECTION. Sec. 4. The covenant homeownership account is created in the state treasury. All receipts from the assessment established in section 2 of this act must be deposited into the account. (iv) Identify methodology to evaluate the efficacy of any recommended programmatic and policy changes over time.

(b) By March 1, 2024, and in compliance with RCW 43.01.036, the commission shall submit a copy of the initial covenant homeownership program study to the appropriate committees of the legislature and post a copy of the study to the commission's website.

(2)(a) At least every five years after the initial covenant homeownership program study is completed, the commission shall complete, or cause to be completed, an updated covenant homeownership program study. The updated covenant homeownership program study must:

(i) Update and reevaluate the findings and recommendations contained in the initial covenant homeownership program study and any subsequent program studies;

(ii) Document the experience of program participants and others impacted by past and ongoing discrimination, including their experience accessing or attempting to access credit and any barriers to homeownership in the state that they have faced or continue to face;

(iii) Evaluate the special purpose credit program or programs' efficacy in providing down payment and closing cost assistance to the economically disadvantaged class or classes of persons identified in the initial covenant homeownership program study and any subsequent program studies, and the special purpose credit program or programs' impacts on remedying discrimination and reducing racial disparities in homeownership in the state; and

(iv) Recommend program modifications and improvements.

(b) By December 31, 2028, and by December 31st every five years thereafter, and in compliance with RCW 43.01.036, the commission shall submit a copy of an updated covenant homeownership program study to the appropriate committees of the legislature and post a copy of the study to the commission's website.

NEW SECTION. Sec. 6. (1) As part of the covenant homeownership program, the department shall contract with the commission to design, develop, implement, and evaluate one or more special purpose credit programs to reduce racial disparities in homeownership in the state by providing down payment and closing cost assistance. The contract must authorize the commission to use the contract funding as follows:

(a) The contract must authorize the commission to use up to one percent of the contract funding for costs related to administering the program including, but not limited to, costs related to completing a covenant homeownership program study required under section 5 of this act, and other administrative, data collection, and reporting costs;

In creating a special purpose credit program, the commission must consider the evidence-based documentation and programmatic and policy recommendations set forth in the initial covenant homeownership program study and any subsequent program studies. If the covenant homeownership program study identifies an economically disadvantaged class or classes of persons that share one or more common characteristics such as, race, national origin, or sex and the board of the commission finds it necessary to consider this information in tailoring a special purpose credit program to provide credit assistance to economically disadvantaged classes of persons, the commission may consider these characteristics in designing and implementing the program.

(3) At minimum, a special purpose credit program authorized under this section must:

(a) Provide loans for down payment and closing cost assistance to program participants that can be combined with other forms of down payment and closing cost assistance;

Program rules or policies must include procedures and standards for extending credit under the special purpose credit program, including program eligibility requirements. From time to time, including in response to a covenant homeownership program study's evaluation of program efficacy, the board of the commission may amend the special purpose credit programs, rules, and policies.

(6) By July 1, 2024, one or more of the special purpose credit programs must begin providing down payment and closing cost assistance to program participants.

(7) By December 31, 2025, and by each following December 31st, and in compliance with RCW 43.01.036, the commission shall submit an annual report to the appropriate committees of the legislature on the progress of the special purpose credit program or programs developed under this section. The President declared the question before the Senate to be the motion to not adopt the committee striking amendment by the Committee on Ways & Means to Second Substitute Senate Bill No. 1474.

The motion by Senator Lovick carried and the committee striking amendment was not adopted by voice vote.

MOTION

Senator Lovick moved that the following committee striking amendment by the Committee on Housing be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that:

(a) Generations of systemic, racist, and discriminatory policies and practices have created barriers to credit and homeownership for black, indigenous, and people of color and other historically marginalized communities in Washington state. The legislature finds that these policies and practices include redlining, racially restrictive covenants, mortgage subsidies and incentives, and displacement and gentrification.

(b) The state government was both an active and passive participant in this discrimination. For example, the legislature recognizes the role of state courts in facilitating discrimination by property owners; the existence of mandatory recording statutes that required county auditors to record racially restrictive covenants; the passage of the urban renewal law authorizing the designation, regulation, and displacement of certain neighborhoods that were deemed to be blighted; and state funding and regulation of the real estate and banking industries in ways that facilitated or promoted private discrimination. The legislature finds that the specific discriminatory acts and omissions are well documented, including in numerous public and private studies, reports, and other publications.

(c) This discrimination and its impacts continue to exist in the present day. The legislature recognizes that the homeownership rate for black, indigenous, and people of color and other historically marginalized communities in Washington is 19 percent below that of non-Hispanic white households, and the homeownership rate for black households is even lower. The legislature recognizes that credit, including home mortgages, is harder and more expensive to obtain for black, indigenous, and people of color and other historically marginalized communities in Washington than for non-Hispanic white households. The legislature finds that the imbalance in supply and demand in Washington's housing market has only exacerbated these inequities.

(d) These negative impacts extend beyond homeownership and affect wealth generation, housing security, and other outcomes for black, indigenous, and people of color and other historically marginalized communities in Washington. The legislature finds that these impacts include higher rates of homelessness, rent burdening, substandard or otherwise unhealthy or unsafe housing, and predatory and discriminatory lending practices that lead to further displacement and gentrification.

(e) Existing state and federal programs and other race-neutral approaches are insufficient to remedy that discrimination and its impacts on access to credit and homeownership for black, indigenous, and people of color and other historically marginalized communities in Washington. The legislature finds that race-conscious programs, such as the special purpose credit

EIGHTY NINTH DAY, APRIL 7, 2023

programs authorized by section 6 of this act, are necessary to remedy the past discrimination in which the state was complicit and to remove the structural barriers that persist.

(2) The legislature declares that the state has a compelling interest in remedying past and ongoing discrimination and its impacts on access to credit and homeownership for black, indigenous, and people of color and other historically marginalized communities in Washington.

NEW SECTION. Sec. 2. A new section is added to chapter 36.22 RCW to read as follows:

(1) Beginning January 1, 2024, except as provided in subsection (2) of this section, the county auditor must collect a covenant homeownership program assessment of \$100 for each document recorded, which is in addition to any other charge, surcharge, or assessment allowed by law. The county auditor may retain up to one percent of the moneys for collection of the assessment and must remit the remainder of the moneys to the state treasurer to be deposited in the covenant homeownership account created in section 4 of this act.

(2) The assessment imposed in this section does not apply to: (a) Assignments or substitutions of previously recorded deeds of trust; (b) documents recording a birth, marriage, divorce, or death; (c) any recorded documents otherwise exempted from a recording fee or additional assessments under state law; (d) marriage licenses issued by the county auditor; (e) documents recording a name change order under RCW 4.24.130; or (f) documents recording a federal, state, county, city, or water-sewer district, or wage lien or satisfaction of lien.

NEW SECTION. Sec. 3. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

Sec. 1691 et seq.) as amended, allowing a creditor to extend special purpose credit to applicants who meet eligibility requirements under a credit assistance program expressly authorized by state law for the benefit of an economically disadvantaged class of persons.

NEW SECTION. Sec. 4. The covenant homeownership account is created in the state treasury. All receipts from the assessment established in section 2 of this act must be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be made only for the purposes of the program described in section 6 of this act. The legislature may appropriate moneys in the account as follows:

(1) The legislature may appropriate up to one percent of moneys in the account to the department for costs related to the program described in section 6 of this act including, but not limited to, costs related to administering one or more contracts with the commission for purposes of the program, costs related to outreach and stakeholder engagement, costs related to reimbursing the department of financial institutions for its costs related to the oversight committee created in section 7 of this act, and other administrative, data collection, and reporting costs; and

(2) The legislature may appropriate the remainder of the moneys in the account to the department to contract with the commission for the purposes of the program described in section 6 of this act.

NEW SECTION. Sec. 5. (1)(a) The commission shall complete, or cause to be completed, an initial covenant homeownership program study. The initial covenant homeownership program study must:

(i) Document past and ongoing discrimination against black, indigenous, and people of color and other historically marginalized communities in Washington state and the impacts of this discrimination on homeownership in the state, including access to credit and other barriers to homeownership in the state;

(ii) Analyze whether and to what extent existing programs and race-neutral approaches have been insufficient to remedy this discrimination and its impacts;

(iii)(A) Recommend and evaluate potential programmatic and policy changes, including creation of one or more special purpose credit programs, to remedy this discrimination and its impacts;

(B) As part of the recommendations related to creation of one or more special purpose credit programs, identify through evidence-based documentation the economically disadvantaged class or classes of persons that require down payment and closing cost assistance in order to reduce racial disparities in homeownership in the state. The class or classes of persons identified in the study may share one or more common characteristics such as, race, national origin, or sex; and

(iv) Identify methodology to evaluate the efficacy of any recommended programmatic and policy changes over time.

(b) By March 1, 2024, and in compliance with RCW 43.01.036, the commission shall submit a copy of the initial covenant homeownership program study to the appropriate committees of the legislature and post a copy of the study to the commission's website.

(2)(a) At least every five years after the initial covenant homeownership program study is completed, the commission shall complete, or cause to be completed, an updated covenant homeownership program study. The updated covenant homeownership program study must:

(i) Update and reevaluate the findings and recommendations contained in the initial covenant homeownership program study and any subsequent program studies;

(ii) Document the experience of program participants and others impacted by past and ongoing discrimination, including their experience accessing or attempting to access credit and any barriers to homeownership in the state that they have faced or continue to face;

(iii) Evaluate the special purpose credit program or programs' efficacy in providing down payment and closing cost assistance to the economically disadvantaged class or classes of persons identified in the initial covenant homeownership program study and any subsequent program studies, and the special purpose credit program or programs' impacts on remedying discrimination and reducing racial disparities in homeownership in the state; and

(iv) Recommend program modifications and improvements.

(b) By December 31, 2028, and by December 31st every five years thereafter, and in compliance with RCW 43.01.036, the commission shall submit a copy of an updated covenant homeownership program study to the appropriate committees of the legislature and post a copy of the study to the commission's website.

(c) The board of the commission shall review each subsequent covenant homeownership program study and consider the evidence-based documentation and recommendations in designing and implementing program amendments.

NEW SECTION. Sec. 6. (1) As part of the covenant homeownership program, the department shall contract with the commission to design, develop, implement, and evaluate one or more special purpose credit programs to reduce racial disparities in homeownership in the state by providing down payment and closing cost assistance. The contract must authorize the commission to use the contract funding as follows:

(a) The contract must authorize the commission to use up to one percent of the contract funding for costs related to administering the program including, but not limited to, costs related to completing a covenant homeownership program study required under section 5 of this act, and other administrative, data collection, and reporting costs;

(b) The contract must authorize the commission to use up to one percent of the contract funding to provide targeted education,

homeownership counseling, and outreach about special purpose credit programs created under this section to black, indigenous, and people of color and other historically marginalized communities in Washington state, including outreach to relevant affinity groups for mortgage lenders; and

(c) The contract must authorize the commission to use the remainder of the contract funding to provide down payment and closing cost assistance to program participants. This portion of the contract funding may not be used to provide any type of assistance other than down payment and closing cost assistance.

(2) The commission shall create one or more special purpose credit programs to provide down payment and closing cost assistance for the benefit of one or more economically disadvantaged classes of persons identified in a covenant homeownership program study under section 5 of this act. In creating a special purpose credit program, the commission must consider the evidence-based documentation and programmatic and policy recommendations set forth in the initial covenant homeownership program study and any subsequent program studies. If the covenant homeownership program study identifies an economically disadvantaged class or classes of persons that share one or more common characteristics such as, race, national origin, or sex and the board of the commission finds it necessary to consider this information in tailoring a special purpose credit program to provide credit assistance to economically disadvantaged classes of persons, the commission may consider these characteristics in designing and implementing the program.

(3) At minimum, a special purpose credit program authorized under this section must:

(a) Provide loans for down payment and closing cost assistance to program participants that can be combined with other forms of down payment and closing cost assistance;

(b) Require a program participant to repay loans for down payment and closing cost assistance at the time that the house is sold; and

(c) Be implemented in conjunction with the commission's housing finance programs.

(4) To be eligible to receive down payment and closing cost assistance through a special purpose credit program authorized under this section, a special purpose credit program applicant must:

(a) Have a household income at or below 100 percent of the area median income;

(b) Be a first-time home buyer; and

(c)(i) Be a Washington state resident who:

(A) Was a Washington state resident on or before the enactment of the federal fair housing act (Title VIII of the civil rights act of 1968; P.L. 90-284; 82 Stat. 73) on April 11, 1968, and was or would have been excluded from homeownership in Washington state by a racially restrictive real estate covenant on or before April 11, 1968; or

Concerning contracting and procurement requirements for behavioral health services in medical assistance programs.

The measure was read the second time.

MOTION

Senator Cleveland moved that the following committee striking amendment by the Committee on Health & Long Term Care be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) The legislature finds that:

(a) Medicaid enrollees in Washington are challenged with accessing needed behavioral health care. According to the Washington state department of social and health services, as of 2021, among medicaid enrollees with an identified mental health need, only 50 percent of adults and 66 percent of youth received treatment, while among medicaid enrollees with an identified substance use disorder need, only 37 percent of adults and 23 percent of youth received treatment. Furthermore, the national council for mental wellbeing's 2022 access to care survey found that 43 percent of adults in the United States who say they need mental health or substance use care did not receive that care, and they face numerous barriers to receiving needed treatment. Lack of necessary care can cause behavioral health conditions to deteriorate and crises to escalate, driving increasing use of intensive services such as inpatient care and involuntary treatment. As a result, the behavioral health system is reaching a crisis point in communities across the state.

(b) As of December 2022, 1,953,153 Washington residents rely on apple health managed care organizations to provide for their physical and behavioral health needs. During the integration of physical and behavioral health care pursuant to chapter 225, Laws of 2014, the health care authority most recently procured managed care services in 2018 and selected five managed care organizations to serve as Washington's apple health plans to provide for the physical and behavioral health care needs of medicaid enrollees. The health care authority has begun considering when to conduct a new procurement for managed care organizations, including an allowance for possible new entrants that do not currently serve Washington's medicaid population.

(c) Medicaid managed care procurement presents a need and an opportunity for the state to reset expectations for managed care organizations related to behavioral health services to ensure that Washington residents are being served by qualified and experienced health plans that can deliver on the access to care and quality of care that residents need and deserve.

(2) It is the intent of the legislature to seize this opportunity to address ongoing challenges Washington's medicaid enrollees face in accessing behavioral health care. The legislature intends to establish robust new standards defining the levels of

medicaid-funded behavioral health service capacity and resources that are adequate to meet medicaid enrollees' treatment needs; to ensure that managed care organizations that serve Washington's medicaid enrollees have a track record of success in delivering a broad range of behavioral health care services to safety net populations; and to advance payment structures and provider network delivery models that improve equitable access, promote integration of care, and deliver on outcomes.

(3) The legislature finds that increased access to behavioral health services for American Indians and Alaska Natives, children in foster care, and the aged, blind, and disabled through the preservation and enhancement of the fee-for-service system is also critical to reducing health disparities among these vulnerable populations. The legislature also intends to increase access to timely and robust behavioral health services for American Indians and Alaska Natives, children in foster care, and the aged, blind, and disabled, in the fee-for-service system they access.

Sec. 2. RCW 74.09.871 and 2019 c 325 s 4006 are each amended to read as follows:

(1) Any agreement or contract by the authority to provide behavioral health services as defined under RCW 71.24.025 to persons eligible for benefits under medicaid, Title XIX of the social security act, and to persons not eligible for medicaid must include the following:

(a) Contractual provisions consistent with the intent expressed in RCW 71.24.015 and 71.36.005;

(b) Standards regarding the quality of services to be provided, including increased use of evidence-based, research-based, and promising practices, as defined in RCW 71.24.025;

(c) Accountability for the client outcomes established in RCW 71.24.435, 70.320.020, and 71.36.025 and performance measures linked to those outcomes;

(d) Standards requiring behavioral health administrative services organizations and managed care organizations to maintain a network of appropriate providers that is supported by written agreements sufficient to provide adequate access to all services covered under the contract with the authority and to protect essential behavioral health system infrastructure and capacity, including a continuum of substance use disorder services;

(e) Provisions to require that medically necessary substance use disorder and mental health treatment services be available to clients;

(f) Standards requiring the use of behavioral health service provider reimbursement methods that incentivize improved performance with respect to the client outcomes established in RCW 71.24.435 and 71.36.025, integration of behavioral health and primary care services at the clinical level, and improved care coordination for individuals with complex care needs;

(g) Standards related to the financial integrity of the contracting entity. This subsection does not limit the authority of the authority to take action under a contract upon finding that a contracting entity's financial status jeopardizes the contracting entity's ability to meet its contractual obligations;

(h) Mechanisms for monitoring performance under the contract and remedies for failure to substantially comply with the requirements of the contract including, but not limited to, financial deductions, termination of the contract, receivership, reprocurement of the contract, and injunctive remedies;

(i) Provisions to maintain the decision-making independence of designated crisis responders; and

(j) Provisions stating that public funds appropriated by the legislature may not be used to promote or deter, encourage, or discourage employees from exercising their rights under Title 29,

chapter 7, subchapter II, United States Code or chapter 41.56 RCW.

(2) At least six months prior to releasing a medicaid integrated managed care procurement, but no later than January 1, 2025, the authority shall adopt statewide network adequacy standards that are assessed on a regional basis for the behavioral health provider networks maintained by managed care organizations pursuant to subsection (1)(d) of this section. The standards shall require a network that ensures access to appropriate and timely behavioral health services for the enrollees of the managed care organization who live within the regional service area. At a minimum, these standards must address each behavioral health services type covered by the medicaid integrated managed care contract. This includes, but is not limited to: Outpatient, inpatient, and residential levels of care for adults and youth with a mental health disorder; outpatient, inpatient, and residential levels of care for adults and youth with a substance use disorder; crisis and stabilization services; providers of medication for opioid use disorders; specialty care; other facility-based services; and other providers as determined by the authority through this process. The authority shall apply the standards regionally and shall incorporate behavioral health system needs and considerations as follows:

(a) Include a process for an annual review of the network adequacy standards;

(b) Provide for participation from counties and behavioral health providers in both initial development and subsequent updates;

(c) Account for the regional service area's population; prevalence of behavioral health conditions; types of minimum behavioral health services and service capacity offered by providers in the regional service area; number and geographic proximity of providers in the regional service area; an assessment of the needs or gaps in the region; and availability of culturally specific services and providers in the regional service area to address the needs of communities that experience cultural barriers to health care including but not limited to communities of color and the LGBTQ+ community;

(d) Include a structure for monitoring compliance with provider network standards and timely access to the services;

(e) Consider how statewide services, such as residential treatment facilities, are utilized cross-regionally; and

(f) Consider how the standards would impact requirements for behavioral health administrative service organizations.

(3) Before releasing a medicaid integrated managed care procurement, the authority shall identify options that minimize provider administrative burden, including the potential to limit the number of managed care organizations that operate in a regional service area.

(4) The following factors must be given significant weight in any medicaid integrated managed care procurement process under this section:

(a) Demonstrated commitment and experience in serving low-income populations;

(b) Demonstrated commitment and experience serving persons who have mental illness, substance use disorders, or co-occurring disorders;

(c) Demonstrated commitment to and experience with partnerships with county and municipal criminal justice systems, housing services, and other critical support services necessary to achieve the outcomes established in RCW 71.24.435, 70.320.020, and 71.36.025;

(d) The ability to provide for the crisis service needs of medicaid enrollees, consistent with the degree to which such services are funded;

EIGHTY NINTH DAY, APRIL 7, 2023

(e) Recognition that meeting enrollees' physical and behavioral health care needs is a shared responsibility of contracted behavioral health administrative services organizations, managed care organizations, service providers, the state, and communities;

~~((e))~~ (f) Consideration of past and current performance and participation in other state or federal behavioral health programs as a contractor; ~~(and~~

~~(f))~~ (g) The ability to meet requirements established by the authority ~~((-3))~~;

(h) The extent to which a managed care organization's approach to contracting simplifies billing and contracting burdens for community behavioral health provider agencies, which may include but is not limited to a delegation arrangement with a provider network that leverages local, federal, or philanthropic funding to enhance the effectiveness of medicaid-funded integrated care services and promote medicaid clients' access to a system of services that addresses additional social support services and social determinants of health as defined in RCW 43.20.025;

(i) Demonstrated prior national or in-state experience with a full continuum of behavioral health services that are substantially similar to the behavioral health services covered under the Washington medicaid state plan, including evidence through past and current data on performance, quality, and outcomes; and

(j) Demonstrated commitment by managed care organizations to the use of alternative pricing and payment structures between a managed care organization and its behavioral health services providers, including provider networks described in subsection (b) of this section, and between a managed care organization and a behavioral administrative service organization, in any of their agreements or contracts under this section, which may include but are not limited to:

(i) Value-based purchasing efforts consistent with the authority's value-based purchasing strategy, such as capitated payment arrangements, comprehensive population-based payment arrangements, or case rate arrangements; or

(ii) Payment methods that secure a sufficient amount of ready and available capacity for levels of care that require staffing 24 hours per day, 365 days per year, to serve anyone in the regional service area with a demonstrated need for the service at all times, regardless of fluctuating utilization.

(5) The authority may use existing cross-system outcome data such as the outcomes and related measures under subsection (4)(c) of this section and chapter 338, Laws of 2013, to determine that the alternative pricing and payment structures referenced in subsection (4)(j) of this section have advanced community behavioral health system outcomes more effectively than a fee-for-service model may have been expected to deliver.

(6)(a) The authority shall urge managed care organizations to establish, continue, or expand delegation arrangements with a provider network that exists on the effective date of this section and that leverages local, federal, or philanthropic funding to enhance the effectiveness of medicaid-funded integrated care services and promote medicaid clients' access to a system of services that addresses additional social support services and social determinants of health as defined in RCW 43.20.025. Such delegation arrangements must meet the requirements of the integrated managed care contract and the national committee for quality assurance accreditation standards.

(b) The authority shall recognize and support, and may not limit or restrict, a delegation arrangement that a managed care organization and a provider network described in (a) of this subsection have agreed upon, provided such arrangement meets the requirements of the integrated managed care contract and the national committee for quality assurance accreditation standards.

The authority may periodically review such arrangements for effectiveness according to the requirements of the integrated managed care contract and the national committee for quality assurance accreditation standards.

(c) Managed care organizations and the authority may evaluate whether to establish or support future delegation arrangements with any additional provider networks that may be created after the effective date of this section, based on the requirements of the integrated managed care contract and the national committee for quality assurance accreditation standards.

(7) The authority shall expand the types of behavioral health crisis services that can be funded with medicaid to the maximum extent allowable under federal law, including seeking approval from the centers for medicare and medicaid services for amendments to the medicaid state plan or medicaid state directed payments that support the 24 hours per day, 365 days per year capacity of the crisis delivery system when necessary to achieve this expansion.

(8) The authority shall, in consultation with managed care organizations, review reports and recommendations of the involuntary treatment act work group established pursuant to section 103, chapter 302, Laws of 2020 and develop a plan for adding contract provisions that increase managed care organizations' accountability when their enrollees require long-term involuntary inpatient behavioral health treatment and shall explore opportunities to maximize medicaid funding as appropriate.

(9) In recognition of the value of community input and consistent with past procurement practices, the authority shall include county and behavioral health provider representatives in the development of any medicaid integrated managed care procurement process. This shall include, at a minimum, two representatives identified by the association of county human services and two representatives identified by the Washington council for behavioral health to participate in the review and development of procurement documents.

(10) For purposes of purchasing behavioral health services and medical care services for persons eligible for benefits under medicaid, Title XIX of the social security act and for persons not eligible for medicaid, the authority must use regional service areas. The regional service areas must be established by the authority as provided in RCW 74.09.870.

~~((4))~~ (11) Consideration must be given to using multiple-biennia contracting periods.

~~((5))~~ (12) Each behavioral health administrative services organization operating pursuant to a contract issued under this section shall serve clients within its regional service area who meet the authority's eligibility criteria for mental health and substance use disorder services within available resources.

Sec. 3. RCW 71.24.861 and 2019 c 325 s 1047 are each amended to read as follows:

(1) The legislature finds that ongoing coordination between state agencies, the counties, and the behavioral health administrative services organizations is necessary to coordinate the behavioral health system. To this end, the authority shall establish a committee to meet quarterly to address systemic issues, including but not limited to the data-sharing needs of behavioral health system partners.

(2) The committee established in subsection (1) of this section must be convened by the authority, meet quarterly, and include representatives from:

- (a) The authority;
- (b) The department of social and health services;
- (c) The department;
- (d) The office of the governor;

(e) One representative from the behavioral health administrative services organization per regional service area; and

HOUSE BILL NO. 1564, by Representatives Mosbrucker, Orwall, Chambers, Graham, Rude and Rule

Prohibiting the sale of over-the-counter sexual assault kits.

The measure was read the second time.

MOTION

Senator Dhingra moved that the following committee striking amendment by the Committee on Law & Justice be not adopted:

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. It is the intent of the legislature to support survivors of sexual offenses through building victim-centered, trauma-informed systems that promote successful investigations and prosecutions of sexual offenses. Thorough and professional investigations, including preservation of forensic evidence, are imperative and a fundamental component in achieving these outcomes. At-home sexual assault test kits create false expectations and harm the potential for successful investigations and prosecutions. The sale of over-the-counter sexual assault kits may prevent survivors from receiving accurate information about their options and reporting processes; from obtaining access to appropriate and timely medical treatment and follow up; and from connecting to their community and other vital resources.

NEW SECTION. Sec. 2. A new section is added to chapter 5.70 RCW to read as follows:

(ii) Is offered for sale or as a sample to members of the public; and

(iii) Purports to allow a natural person to independently collect evidence of a sexual assault outside of a hospital or other health care facility.

(b) "Over-the-counter sexual assault kit" does not include a sexual assault kit intended for administration or collection by law enforcement or a health care provider.

(c) As used in this section, "health care provider" means a person, hospital, or other health care facility that is licensed, certified, or otherwise authorized or permitted by law in Washington state to administer health care or dispense medication in the ordinary course of business or practice of a profession.

(d) As used in this section, "natural person" means a human being. (2) A person may not sell, offer for sale, or provide to a natural person an over-the-counter sexual assault kit.

(3) The legislature finds that the practices covered by this section are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. A violation of this section is not reasonable in relation to the development and preservation of business and is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW."

A violation of this section is not reasonable in relation to the development and preservation of business and is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW."

MOTION

Senator Lovelett moved that the following striking amendment no. 0333 by Senator Lovelett be adopted:

Strike everything after the enacting clause and insert the following:

"**Sec. 1.** RCW 36.70A.020 and 2021 c 254 s 1 are each amended to read as follows:

The following goals are adopted to guide the development and adoption of comprehensive plans and development regulations of those counties and cities that are required or choose to plan under RCW 36.70A.040 and, where specified, also guide the development of regional policies, plans, and strategies adopted under RCW 36.70A.210 and chapter 47.80 RCW. The following goals are not listed in order of priority and shall be used exclusively for the purpose of guiding the development of comprehensive plans ~~((and))~~, development regulations, and, where specified, regional plans, policies, and strategies:

(1) Urban growth. Encourage development in urban areas where adequate public facilities and services exist or can be provided in an efficient manner.

(2) Reduce sprawl. Reduce the inappropriate conversion of undeveloped land into sprawling, low-density development.

(3) Transportation. Encourage efficient multimodal transportation systems that will reduce greenhouse gas emissions and per capita vehicle miles traveled, and are based on regional priorities and coordinated with county and city comprehensive plans.

(4) Housing. Plan for and accommodate housing affordable to all economic segments of the population of this state, promote a variety of residential densities and housing types, and encourage preservation of existing housing stock.

(5) Economic development. Encourage economic development throughout the state that is consistent with adopted comprehensive plans, promote economic opportunity for all citizens of this state, especially for unemployed and for disadvantaged persons, promote the retention and expansion of existing businesses and recruitment of new businesses, recognize regional differences impacting economic development opportunities, and encourage growth in areas experiencing insufficient economic growth, all within the capacities of the state's natural resources, public services, and public facilities.

(6) Property rights. Private property shall not be taken for public use without just compensation having been made. The property rights of landowners shall be protected from arbitrary and discriminatory actions.

(7) Permits. Applications for both state and local government permits should be processed in a timely and fair manner to ensure predictability.

(8) Natural resource industries. Maintain and enhance natural resource-based industries, including productive timber, agricultural, and fisheries industries. Encourage the conservation of productive forestlands and productive agricultural lands, and discourage incompatible uses.

(9) Open space and recreation. Retain open space and green space, enhance recreational opportunities, ~~((conserve))~~ enhance fish and wildlife habitat, increase access to natural resource lands and water, and develop parks and recreation facilities.

(10) Environment. Protect and enhance the environment and enhance the state's high quality of life, including air and water quality, and the availability of water.

(11) Citizen participation and coordination. Encourage the involvement of citizens in the planning process, including the participation of vulnerable populations and overburdened communities, and ensure coordination between communities and jurisdictions to reconcile conflicts.

(12) Public facilities and services. Ensure that those public facilities and services necessary to support development shall be adequate to serve the development at the time the development is available for occupancy and use without decreasing current service levels below locally established minimum standards.

(13) Historic preservation. Identify and encourage the preservation of lands, sites, and structures, that have historical or archaeological significance.

(14) Climate change and resiliency. Ensure that comprehensive plans, development regulations, and regional policies, plans, and strategies under RCW 36.70A.210 and chapter 47.80 RCW adapt to and mitigate the effects of a changing climate; support reductions in greenhouse gas emissions and per capita vehicle miles traveled; prepare for climate impact scenarios; foster resiliency to climate impacts and natural hazards; protect and enhance environmental, economic, and human health and safety; and advance environmental justice.

(15) Shorelines of the state. For shorelines of the state, the goals and policies of the shoreline management act as set forth in RCW 90.58.020 shall be considered an element of the county's or city's comprehensive plan.

"**Sec. 2.** RCW 36.70A.480 and 2010 c 107 s 2 are each amended to read as follows:

(1) For shorelines of the state, the goals and policies of the shoreline management act as set forth in RCW 90.58.020 are added as one of the goals of this chapter as set forth in RCW 36.70A.020 without creating an order of priority among the ~~((fourteen))~~ 15 goals. The goals and policies of a shoreline master program for a county or city approved under chapter 90.58 RCW shall be considered an element of the county or city's comprehensive plan. All other portions of the shoreline master program for a county or city adopted under chapter 90.58 RCW, including use regulations, shall be considered a part of the county or city's development regulations.

(2) The shoreline master program shall be adopted pursuant to the procedures of chapter 90.58 RCW rather than the goals, policies, and procedures set forth in this chapter for the adoption of a comprehensive plan or development regulations.

(3)(a) The policies, goals, and provisions of chapter 90.58 RCW and applicable guidelines shall be the sole basis for determining compliance of a shoreline master program with this chapter except as the shoreline master program is required to comply with the internal consistency provisions of RCW 36.70A.070, 36.70A.040(4), 35.63.125, and 35A.63.105.

EIGHTY NINTH DAY, APRIL 7, 2023

(b) Except as otherwise provided in (c) of this subsection, development regulations adopted under this chapter to protect critical areas within shorelines of the state apply within shorelines of the state until the department of ecology approves one of the following: A comprehensive master program update, as defined in RCW 90.58.030; a segment of a master program relating to critical areas, as provided in RCW 90.58.090; or a new or amended master program approved by the department of ecology on or after March 1, 2002, as provided in RCW 90.58.080. The adoption or update of development regulations to protect critical areas under this chapter prior to department of ecology approval of a master program update as provided in this subsection is not a comprehensive or segment update to the master program.

(c)(i) Until the department of ecology approves a master program or segment of a master program as provided in (b) of this subsection, a use or structure legally located within shorelines of the state that was established or vested on or before the effective date of the local government's development regulations to protect critical areas may continue as a conforming use and may be redeveloped or modified if: (A) The redevelopment or modification is consistent with the local government's master program; and (B) the local government determines that the proposed redevelopment or modification will result in no net loss of shoreline ecological functions. The local government may waive this requirement if the redevelopment or modification is consistent with the master program and the local government's development regulations to protect critical areas.

(ii) For purposes of this subsection (3)(c), an agricultural activity that does not expand the area being used for the agricultural activity is not a redevelopment or modification. "Agricultural activity," as used in this subsection (3)(c), has the same meaning as defined in RCW 90.58.065.

(d) Upon department of ecology approval of a shoreline master program or critical area segment of a shoreline master program, critical areas within shorelines of the state are protected under chapter 90.58 RCW and are not subject to the procedural and substantive requirements of this chapter, except as provided in subsection (6) of this section. Nothing in chapter 321, Laws of 2003 or chapter 107, Laws of 2010 is intended to affect whether or to what extent agricultural activities, as defined in RCW 90.58.065, are subject to chapter 36.70A RCW.

(e) The provisions of RCW 36.70A.172 shall not apply to the adoption or subsequent amendment of a local government's shoreline master program and shall not be used to determine compliance of a local government's shoreline master program with chapter 90.58 RCW and applicable guidelines. Nothing in this section, however, is intended to limit or change the quality of information to be applied in protecting critical areas within shorelines of the state, as required by chapter 90.58 RCW and applicable guidelines.

(4) Shoreline master programs shall provide a level of protection to critical areas located within shorelines of the state that assures no net loss of shoreline ecological functions necessary to sustain shoreline natural resources as defined by department of ecology guidelines adopted pursuant to RCW 90.58.060.

(5) Shorelines of the state shall not be considered critical areas under this chapter except to the extent that specific areas located within shorelines of the state qualify for critical area designation based on the definition of critical areas provided by RCW 36.70A.030(~~((5))~~) (6) and have been designated as such by a local government pursuant to RCW 36.70A.060(2).

(6) If a local jurisdiction's master program does not include land necessary for buffers for critical areas that occur within shorelines of the state, as authorized by RCW 90.58.030(2)(~~((4))~~)

(d), then the local jurisdiction shall continue to regulate those critical areas and their required buffers pursuant to RCW 36.70A.060(2).

Sec. 3. RCW 36.70A.070 and 2022 c 246 s 2 and 2022 c 220 s 1 are each reenacted and amended to read as follows:

The comprehensive plan of a county or city that is required or chooses to plan under RCW 36.70A.040 shall consist of a map or maps, and descriptive text covering objectives, principles, and standards used to develop the comprehensive plan. The plan shall be an internally consistent document and all elements shall be consistent with the future land use map. A comprehensive plan shall be adopted and amended with public participation as provided in RCW 36.70A.140. Each comprehensive plan shall include a plan, scheme, or design for each of the following:

(1) A land use element designating the proposed general distribution and general location and extent of the uses of land, where appropriate, for agriculture, timber production, housing, commerce, industry, recreation, open spaces and green spaces, urban and community forests within the urban growth area, general aviation airports, public utilities, public facilities, and other land uses. The land use element shall include population densities, building intensities, and estimates of future population growth. The land use element shall provide for protection of the quality and quantity of groundwater used for public water supplies. The land use element must give special consideration to achieving environmental justice in its goals and policies, including efforts to avoid creating or worsening environmental health disparities. Wherever possible, the land use element should consider utilizing urban planning approaches that promote physical activity and reduce per capita vehicle miles traveled within the jurisdiction, but without increasing greenhouse gas emissions elsewhere in the state. Where applicable, the land use element shall review drainage, flooding, and stormwater runoff in the area and nearby jurisdictions and provide guidance for corrective actions to mitigate or cleanse those discharges that pollute waters of the state, including Puget Sound or waters entering Puget Sound. The land use element must reduce and mitigate the risk to lives and property posed by wildfires by using land use planning tools, which may include, but are not limited to, reducing wildfire risks to residential development in high risk areas and the wildland urban interface area, separating human development from wildfire prone landscapes, and protecting existing residential development and infrastructure through community wildfire preparedness and fire adaptation measures.

(2) A housing element ensuring the vitality and character of established residential neighborhoods that:

(a) Includes an inventory and analysis of existing and projected housing needs that identifies the number of housing units necessary to manage projected growth, as provided by the department of commerce, including:

(i) Units for moderate, low, very low, and extremely low-income households; and

(ii) Emergency housing, emergency shelters, and permanent supportive housing;

(b) Includes a statement of goals, policies, objectives, and mandatory provisions for the preservation, improvement, and development of housing, including single-family residences, and within an urban growth area boundary, moderate density housing options including, but not limited to, duplexes, triplexes, and townhomes;

(c) Identifies sufficient capacity of land for housing including, but not limited to, government-assisted housing, housing for moderate, low, very low, and extremely low-income households, manufactured housing, multifamily housing, group homes, foster care facilities, emergency housing, emergency shelters,

permanent supportive housing, and within an urban growth area boundary, consideration of duplexes, triplexes, and townhomes;

(d) Makes adequate provisions for existing and projected needs of all economic segments of the community, including:

(i) Incorporating consideration for low, very low, extremely low, and moderate-income households;

(ii) Documenting programs and actions needed to achieve housing availability including gaps in local funding, barriers such as development regulations, and other limitations;

(iii) Consideration of housing locations in relation to employment location; and

(iv) Consideration of the role of accessory dwelling units in meeting housing needs;

(e) Identifies local policies and regulations that result in racially disparate impacts, displacement, and exclusion in housing, including:

(i) Zoning that may have a discriminatory effect;

(ii) Disinvestment; and

(iii) Infrastructure availability;

(f) Identifies and implements policies and regulations to address and begin to undo racially disparate impacts, displacement, and exclusion in housing caused by local policies, plans, and actions;

(g) Identifies areas that may be at higher risk of displacement from market forces that occur with changes to zoning development regulations and capital investments; and

(h) Establishes antidisplacement policies, with consideration given to the preservation of historical and cultural communities as well as investments in low, very low, extremely low, and moderate-income housing; equitable development initiatives; inclusionary zoning; community planning requirements; tenant protections; land disposition policies; and consideration of land that may be used for affordable housing.

In counties and cities subject to the review and evaluation requirements of RCW 36.70A.215, any revision to the housing element shall include consideration of prior review and evaluation reports and any reasonable measures identified. The housing element should link jurisdictional goals with overall county goals to ensure that the housing element goals are met.

The adoption of ordinances, development regulations and amendments to such regulations, and other nonproject actions taken by a city that is required or chooses to plan under RCW 36.70A.040 that increase housing capacity, increase housing affordability, and mitigate displacement as required under this subsection (2) and that apply outside of critical areas are not subject to administrative or judicial appeal under chapter 43.21C RCW unless the adoption of such ordinances, development regulations and amendments to such regulations, or other nonproject actions has a probable significant adverse impact on fish habitat.

(3) A capital facilities plan element consisting of: (a) An inventory of existing capital facilities owned by public entities, including green infrastructure, showing the locations and capacities of the capital facilities; (b) a forecast of the future needs for such capital facilities; (c) the proposed locations and capacities of expanded or new capital facilities; (d) at least a six-year plan that will finance such capital facilities within projected funding capacities and clearly identifies sources of public money for such purposes; and (e) a requirement to reassess the land use element if probable funding falls short of meeting existing needs and to ensure that the land use element, capital facilities plan element, and financing plan within the capital facilities plan element are coordinated and consistent. Park and recreation facilities shall be included in the capital facilities plan element.

The county or city shall identify all public entities that own capital facilities and endeavor in good faith to work with other public entities, such as special purpose districts, to gather and include within its capital facilities element the information required by this subsection. If, after a good faith effort, the county or city is unable to gather the information required by this subsection from the other public entities, the failure to include such information in its capital facilities element cannot be grounds for a finding of noncompliance or invalidity under this act. A good faith effort must, at a minimum, include consulting the public entity's capital facility or system plans and emailing and calling the staff of the public entity.

(4)(a) A utilities element consisting of the general location, proposed location, and capacity of all existing and proposed utilities(;) including, but not limited to, electrical (~~(lines)~~), (~~(telecommunication lines)~~) telecommunications, and natural gas (~~(lines)~~) systems.

(b) The county or city shall identify all public entities that own utility systems and endeavor in good faith to work with other public entities, such as special purpose districts, to gather and include within its utilities element the information required in (a) of this subsection. However, if, after a good faith effort, the county or city is unable to gather the information required in (a) of this subsection from the other public entities, the failure to include such information in the utilities element shall not be grounds for a finding of noncompliance or invalidity under this act. A good faith effort must, at a minimum, include consulting the public entity's capital facility or system plans, and emailing and calling the staff of the public entity.

(5) Rural element. Counties shall include a rural element including lands that are not designated for urban growth, agriculture, forest, or mineral resources. The following provisions shall apply to the rural element:

(a) Growth management act goals and local circumstances. Because circumstances vary from county to county, in establishing patterns of rural densities and uses, a county may consider local circumstances, but shall develop a written record explaining how the rural element harmonizes the planning goals in RCW 36.70A.020 and meets the requirements of this chapter.

(b) Rural development. The rural element shall permit rural development, forestry, and agriculture in rural areas. The rural element shall provide for a variety of rural densities, uses, essential public facilities, and rural governmental services needed to serve the permitted densities and uses. To achieve a variety of rural densities and uses, counties may provide for clustering, density transfer, design guidelines, conservation easements, and other innovative techniques that will accommodate appropriate rural economic advancement, densities, and uses that are not characterized by urban growth and that are consistent with rural character.

(c) Measures governing rural development. The rural element shall include measures that apply to rural development and protect the rural character of the area, as established by the county, by:

(i) Containing or otherwise controlling rural development;

(ii) Assuring visual compatibility of rural development with the surrounding rural area;

(iii) Reducing the inappropriate conversion of undeveloped land into sprawling, low-density development in the rural area;

(iv) Protecting critical areas, as provided in RCW 36.70A.060, and surface water and groundwater resources; and

(v) Protecting against conflicts with the use of agricultural, forest, and mineral resource lands designated under RCW 36.70A.170.

EIGHTY NINTH DAY, APRIL 7, 2023

(d) Limited areas of more intensive rural development. Subject to the requirements of this subsection and except as otherwise specifically provided in this subsection (5)(d), the rural element may allow for limited areas of more intensive rural development, including necessary public facilities and public services to serve the limited area as follows:

(i) Rural development consisting of the infill, development, or redevelopment of existing commercial, industrial, residential, or mixed-use areas, whether characterized as shoreline development, villages, hamlets, rural activity centers, or crossroads developments.

(A) A commercial, industrial, residential, shoreline, or mixed-use area are subject to the requirements of (d)(iv) of this subsection, but are not subject to the requirements of (c)(ii) and (iii) of this subsection.

(B) Any development or redevelopment other than an industrial area or an industrial use within a mixed-use area or an industrial area under this subsection (5)(d)(i) must be principally designed to serve the existing and projected rural population.

(C) Any development or redevelopment in terms of building size, scale, use, or intensity may be permitted subject to confirmation from all existing providers of public facilities and public services of sufficient capacity of existing public facilities and public services to serve any new or additional demand from the new development or redevelopment. Development and redevelopment may include changes in use from vacant land or a previously existing use so long as the new use conforms to the requirements of this subsection (5) and is consistent with the local character. Any commercial development or redevelopment within a mixed-use area must be principally designed to serve the existing and projected rural population and must meet the following requirements:

(I) Any included retail or food service space must not exceed the footprint of previously occupied space or 5,000 square feet, whichever is greater, for the same or similar use; and

(II) Any included retail or food service space must not exceed 2,500 square feet for a new use;

(ii) The intensification of development on lots containing, or new development of, small-scale recreational or tourist uses, including commercial facilities to serve those recreational or tourist uses, that rely on a rural location and setting, but that do not include new residential development. A small-scale recreation or tourist use is not required to be principally designed to serve the existing and projected rural population. Public services and public facilities shall be limited to those necessary to serve the recreation or tourist use and shall be provided in a manner that does not permit low-density sprawl;

(iii) The intensification of development on lots containing isolated nonresidential uses or new development of isolated cottage industries and isolated small-scale businesses that are not principally designed to serve the existing and projected rural population and nonresidential uses, but do provide job opportunities for rural residents. Rural counties may allow the expansion of small-scale businesses as long as those small-scale businesses conform with the rural character of the area as defined by the local government according to RCW 36.70A.030(23). Rural counties may also allow new small-scale businesses to utilize a site previously occupied by an existing business as long as the new small-scale business conforms to the rural character of the area as defined by the local government according to RCW 36.70A.030(23). Public services and public facilities shall be limited to those necessary to serve the isolated nonresidential use and shall be provided in a manner that does not permit low-density sprawl;

(iv) A county shall adopt measures to minimize and contain the existing areas of more intensive rural development, as appropriate, authorized under this subsection. Lands included in such existing areas shall not extend beyond the logical outer boundary of the existing area, thereby allowing a new pattern of low-density sprawl. Existing areas are those that are clearly identifiable and contained and where there is a logical boundary delineated predominately by the built environment, but that may also include undeveloped lands if limited as provided in this subsection. The county shall establish the logical outer boundary of an area of more intensive rural development. In establishing the logical outer boundary, the county shall address (A) the need to preserve the character of existing natural neighborhoods and communities, (B) physical boundaries, such as bodies of water, streets and highways, and land forms and contours, (C) the prevention of abnormally irregular boundaries, and (D) the ability to provide public facilities and public services in a manner that does not permit low-density sprawl;

(v) For purposes of this subsection (5)(d), an existing area or existing use is one that was in existence:

(A) On July 1, 1990, in a county that was initially required to plan under all of the provisions of this chapter;

(B) On the date the county adopted a resolution under RCW 36.70A.040(2), in a county that is planning under all of the provisions of this chapter under RCW 36.70A.040(2); or

(C) On the date the office of financial management certifies the county's population as provided in RCW 36.70A.040(5), in a county that is planning under all of the provisions of this chapter pursuant to RCW 36.70A.040(5).

(e) Exception. This subsection shall not be interpreted to permit in the rural area a major industrial development or a master planned resort unless otherwise specifically permitted under RCW 36.70A.360 and 36.70A.365.

(6) A transportation element that implements, and is consistent with, the land use element.

(a) The transportation element shall include the following subelements:

(i) Land use assumptions used in estimating travel;

(ii) Estimated ~~((traffic))~~ multimodal level of service impacts to state-owned transportation facilities resulting from land use assumptions to assist ~~((the department of transportation))~~ in monitoring the performance of state facilities, to plan improvements for the facilities, and to assess the impact of land-use decisions on state-owned transportation facilities;

(iii) Facilities and services needs, including:

(A) An inventory of air, water, and ground transportation facilities and services, including transit alignments, active transportation facilities, and general aviation airport facilities, to define existing capital facilities and travel levels ~~((as a basis for))~~ to inform future planning. This inventory must include state-owned transportation facilities within the city or county's jurisdictional boundaries;

(B) ~~((Level))~~ Multimodal level of service standards for all locally owned arterials ((and)), locally and regionally operated transit routes that serve urban growth areas, state-owned or operated transit routes that serve urban areas if the department of transportation has prepared such standards, and active transportation facilities to serve as a gauge to judge performance of the system and success in helping to achieve the goals of this chapter consistent with environmental justice. These standards should be regionally coordinated;

(C) For state-owned transportation facilities, multimodal level of service standards for highways, as prescribed in chapters 47.06 and 47.80 RCW, to gauge the performance of the system. The purposes of reflecting multimodal level of service standards for

state highways in the local comprehensive plan are to monitor the performance of the system, to evaluate improvement strategies, and to facilitate coordination between the county's or city's six-year street, road, active transportation, or transit program and the office of financial management's ten-year investment program. The concurrency requirements of (b) of this subsection do not apply to transportation facilities and services of statewide significance except for counties consisting of islands whose only connection to the mainland are state highways or ferry routes. In these island counties, state highways and ferry route capacity must be a factor in meeting the concurrency requirements in (b) of this subsection;

(D) Specific actions and requirements for bringing into compliance (~~(locally owned)~~) transportation facilities or services that are below an established multimodal level of service standard;

(E) Forecasts of (~~(traffic)~~) multimodal transportation demand and needs within cities and urban growth areas, and forecasts of multimodal transportation demand and needs outside of cities and urban growth areas, for at least ten years based on the adopted land use plan to (~~(provide information on the location, timing, and capacity needs of future growth)~~) inform the development of a transportation element that balances transportation system safety and convenience to accommodate all users of the transportation system to safely, reliably, and efficiently provide access and mobility to people and goods. Priority must be given to inclusion of transportation facilities and services providing the greatest multimodal safety benefit to each category of roadway users for the context and speed of the facility;

(F) Identification of state and local system needs to equitably meet current and future demands. Identified needs on state-owned transportation facilities must be consistent with the statewide multimodal transportation plan required under chapter 47.06 RCW. Local system needs should reflect the regional transportation system and local goals, and strive to equitably implement the multimodal network;

(G) A transition plan for transportation as required in Title II of the Americans with disabilities act of 1990 (ADA). As a necessary step to a program access plan to provide accessibility under the ADA, state and local government, public entities, and public agencies are required to perform self-evaluations of their current facilities, relative to accessibility requirements of the ADA. The agencies are then required to develop a program access plan, which can be called a transition plan, to address any deficiencies. The plan is intended to achieve the following:

(I) Identify physical obstacles that limit the accessibility of facilities to individuals with disabilities;

(II) Describe the methods to be used to make the facilities accessible;

(III) Provide a schedule for making the access modifications; and

(IV) Identify the public officials responsible for implementation of the transition plan;

(iv) Finance, including:

(A) An analysis of funding capability to judge needs against probable funding resources;

(B) A multiyear financing plan based on the needs identified in the comprehensive plan, the appropriate parts of which shall serve as the basis for the six-year street, road, or transit program required by RCW 35.77.010 for cities, RCW 36.81.121 for counties, and RCW 35.58.2795 for public transportation systems. The multiyear financing plan should be coordinated with the ten-year investment program developed by the office of financial management as required by RCW 47.05.030;

(C) If probable funding falls short of meeting the identified needs of the transportation system, including state transportation facilities, a discussion of how additional funding will be raised, or how land use assumptions will be reassessed to ensure that level of service standards will be met;

(v) Intergovernmental coordination efforts, including an assessment of the impacts of the transportation plan and land use assumptions on the transportation systems of adjacent jurisdictions;

(vi) Demand-management strategies;

(vii) (~~(Pedestrian and bicycle)~~) Active transportation component to include collaborative efforts to identify and designate planned improvements for (~~(pedestrian and bicycle)~~) active transportation facilities and corridors that address and encourage enhanced community access and promote healthy lifestyles.

(b) After adoption of the comprehensive plan by jurisdictions required to plan or who choose to plan under RCW 36.70A.040, local jurisdictions must adopt and enforce ordinances which prohibit development approval if the development causes the level of service on a locally owned or locally or regionally operated transportation facility to decline below the standards adopted in the transportation element of the comprehensive plan, unless transportation improvements or strategies to accommodate the impacts of development are made concurrent with the development. These strategies may include (~~(increased)~~) active transportation facility improvements, increased or enhanced public transportation service, ride-sharing programs, demand management, and other transportation systems management strategies. For the purposes of this subsection (6), "concurrent with the development" means that improvements or strategies are in place at the time of development, or that a financial commitment is in place to complete the improvements or strategies within six years. If the collection of impact fees is delayed under RCW 82.02.050(3), the six-year period required by this subsection (6)(b) must begin after full payment of all impact fees is due to the county or city. A development proposal may not be denied for causing the level of service on a locally owned or locally or regionally operated transportation facility to decline below the standards adopted in the transportation element of the comprehensive plan where such impacts could be adequately mitigated through active transportation facility improvements, increased or enhanced public transportation service, ride-sharing programs, demand management, or other transportation systems management strategies funded by the development.

(c) The transportation element described in this subsection (6), the six-year plans required by RCW 35.77.010 for cities, RCW 36.81.121 for counties, and RCW 35.58.2795 for public transportation systems, and the ten-year investment program required by RCW 47.05.030 for the state, must be consistent.

(7) An economic development element establishing local goals, policies, objectives, and provisions for economic growth and vitality and a high quality of life. A city that has chosen to be a residential community is exempt from the economic development element requirement of this subsection.

(8) A park and recreation element that implements, and is consistent with, the capital facilities plan element as it relates to park and recreation facilities. The element shall include: (a) Estimates of park and recreation demand for at least a ten-year period; (b) an evaluation of facilities and service needs; ~~(c) an~~ evaluation of tree canopy coverage within the urban growth area; and ~~((c))~~ (d) an evaluation of intergovernmental coordination opportunities to provide regional approaches for meeting park and recreational demand.

EIGHTY NINTH DAY, APRIL 7, 2023

(9)(a) A climate change and resiliency element that is designed to result in reductions in overall greenhouse gas emissions and that must enhance resiliency to and avoid the adverse impacts of climate change, which must include efforts to reduce localized greenhouse gas emissions and avoid creating or worsening localized climate impacts to vulnerable populations and overburdened communities.

(b) The climate change and resiliency element shall include the following subelements:

(i) A greenhouse gas emissions reduction subelement;

(ii) A resiliency subelement.

(c) The greenhouse gas emissions reduction subelement of the climate change and resiliency element is mandatory for the jurisdictions specified in section 4(1) of this act and is encouraged for all other jurisdictions, including those planning under RCW 36.70A.040 and those planning under chapter 36.70 RCW. The resiliency subelement of the climate change and resiliency element is mandatory for all jurisdictions planning under RCW 36.70A.040 and is encouraged for those jurisdictions planning under chapter 36.70 RCW.

(d)(i) The greenhouse gas emissions reduction subelement of the comprehensive plan, and its related development regulations, must identify the actions the jurisdiction will take during the planning cycle consistent with the guidelines published by the department pursuant to section 5 of this act that will:

(A) Result in reductions in overall greenhouse gas emissions generated by transportation and land use within the jurisdiction but without increasing greenhouse gas emissions elsewhere in the state;

(B) Result in reductions in per capita vehicle miles traveled within the jurisdiction but without increasing greenhouse gas emissions elsewhere in the state; and

(C) Prioritize reductions that benefit overburdened communities in order to maximize the cobenefits of reduced air pollution and environmental justice.

(ii) Actions not specifically identified in the guidelines developed by the department pursuant to section 5 of this act may be considered consistent with these guidelines only if:

(A) They are projected to achieve greenhouse gas emissions reductions or per capita vehicle miles traveled reductions equivalent to what would be required of the jurisdiction under the guidelines adopted by the department; and

(B) They are supported by scientifically credible projections and scenarios that indicate their adoption is likely to result in reductions of greenhouse gas emissions or per capita vehicle miles traveled.

(iii) A jurisdiction may not restrict population growth or limit population allocation in order to achieve the requirements set forth in this subsection (9)(d).

(e)(i) The resiliency subelement must equitably enhance resiliency to, and avoid or substantially reduce the adverse impacts of, climate change in human communities and ecological systems through goals, policies, and programs consistent with the best available science and scientifically credible climate projections and impact scenarios that moderate or avoid harm, enhance the resiliency of natural and human systems, and enhance beneficial opportunities. The resiliency subelement must prioritize actions that benefit overburdened communities that will disproportionately suffer from compounding environmental impacts and will be most impacted by natural hazards due to climate change. Specific goals, policies, and programs of the resiliency subelement must include, but are not limited to, those designed to:

(A) Identify, protect, and enhance natural areas to foster resiliency to climate impacts, as well as areas of vital habitat for safe passage and species migration;

(B) Identify, protect, and enhance community resiliency to climate change impacts, including social, economic, and built environment factors, that support adaptation to climate impacts consistent with environmental justice; and

(C) Address natural hazards created or aggravated by climate change, including sea level rise, landslides, flooding, drought, heat, smoke, wildfire, and other effects of changes to temperature and precipitation patterns.

(ii) A natural hazard mitigation plan or similar plan that is guided by RCW 36.70A.020(14), that prioritizes actions that benefit overburdened communities, and that complies with the applicable requirements of this chapter, including the requirements set forth in this subsection (9)(e), may be adopted by reference to satisfy these requirements, except that to the extent any of the substantive requirements of this subsection (9)(e) are not addressed, or are inadequately addressed, in the referenced natural hazard mitigation plan, a county or city must supplement the natural hazard mitigation plan accordingly so that the adopted resiliency subelement complies fully with the substantive requirements of this subsection (9)(e).

(A) If a county or city intends to adopt by reference a federal emergency management agency natural hazard mitigation plan in order to meet all or part of the substantive requirements set forth in this subsection (9)(e), and the most recently adopted federal emergency management agency natural hazard mitigation plan does not comply with the requirements of this subsection (9)(e), the department may grant the county or city an extension of time in which to submit a natural hazard mitigation plan.

(B) Eligibility for an extension under this subsection prior to July 1, 2027, is limited to a city or county required to review and, if needed, revise its comprehensive plan on or before June 30, 2025, as provided in RCW 36.70A.130, or for a city or county with an existing, unexpired federal emergency management agency natural hazard mitigation plan scheduled to expire before December 31, 2024.

(C) Extension requests after July 1, 2027, may be granted if requirements for the resiliency subelement are amended or added by the legislature or if the department finds other circumstances that may result in a potential finding of noncompliance with a jurisdiction's existing and approved federal emergency management agency natural hazard mitigation plan.

(D) A city or county that wishes to request an extension of time must submit a request in writing to the department no later than the date on which the city or county is required to review and, if needed, revise its comprehensive plan as provided in RCW 36.70A.130.

(E) Upon the submission of such a request to the department, the city or county may have an additional 48 months from the date provided in RCW 36.70A.130 in which to either adopt by reference an updated federal emergency management agency natural hazard mitigation plan or adopt its own natural hazard mitigation plan, and to then submit that plan to the department.

(F) The adoption of ordinances, amendments to comprehensive plans, amendments to development regulations, and other nonproject actions taken by a county or city pursuant to (d) of this subsection in order to implement measures specified by the department pursuant to section 5 of this act are not subject to administrative or judicial appeal under chapter 43.21C RCW.

(10) It is the intent that new or amended elements required after January 1, 2002, be adopted concurrent with the scheduled update provided in RCW 36.70A.130. Requirements to incorporate any such new or amended elements shall be null and void until funds

sufficient to cover applicable local government costs are appropriated and distributed by the state at least two years before local government must update comprehensive plans as required in RCW 36.70A.130.

NEW SECTION. Sec. 4. A new section is added to chapter 36.70A RCW to read as follows:

(1) The requirements of the greenhouse gas emissions reduction subelement of the climate change and resiliency element set forth in RCW 36.70A.070 apply only to those counties that are required or that choose to plan under RCW 36.70A.040 and that also meet either of the criteria set forth in (a), (b), or (c) of this subsection on or after April 1, 2021, and the cities with populations greater than 6,000 as of April 1, 2021, within those counties:

(a) A county with a population density of at least 100 people per square mile and a population of at least 200,000;

(b) A county bordering on the Columbia and Snake rivers with a population density of at least 75 people per square mile and an annual growth rate of at least 1.65 percent; or

(c) A county located to the west of the crest of the Cascade mountains with a population of at least 130,000.

(2) The requirements of the amendments to the transportation element of RCW 36.70A.070 set forth in this act apply only to:

(a) Counties and cities that meet the population criteria set forth in subsection (1) of this section; and (b) cities with populations of 6,000 or greater as of April 1, 2021, that are located in a county that is required or that chooses to plan under RCW 36.70A.040.

(3) The requirements of the amendments to the land use element of RCW 36.70A.070 set forth in this act apply only to:

(a) Counties and cities that meet the population criteria set forth in subsection (1) or (2) of this section; and (b) counties that have a population of 20,000 or greater as of April 1, 2021, and that are required or that choose to plan under RCW 36.70A.040.

(4) Once a county meets either of the sets of criteria set forth in subsection (1) of this section, the requirement to conform with the greenhouse gas emissions reduction subelement of the climate change and resiliency element set forth in RCW 36.70A.070 remains in effect, even if the county no longer meets one of these sets of criteria.

(5) If the population of a county that previously had not been required to conform with the greenhouse gas emissions reduction subelement of the climate change and resiliency element set forth in RCW 36.70A.070 changes sufficiently to meet either of the sets of criteria set forth in subsection (1) of this section, the county, and the cities with populations greater than 6,000 as of April 1, 2021, within that county, shall adopt a greenhouse gas emissions reduction subelement of the climate change and resiliency element set forth in RCW 36.70A.070 at the next scheduled update of the comprehensive plan as set forth in RCW 36.70A.130.

(6) The population criteria used in this section must be based on population data as determined by the office of financial management.

NEW SECTION. Sec. 5. A new section is added to chapter 70A.45 RCW to read as follows:

(1) The department of commerce, in consultation with the department of ecology, the department of health, and the department of transportation, shall publish guidelines that specify a set of measures counties and cities may implement via updates to their comprehensive plans and development regulations that have a demonstrated ability to increase housing capacity within urban growth areas or reduce greenhouse gas emissions, allowing for consideration of the emissions reductions achieved through the adoption of statewide programs. The guidelines must prioritize measures that benefit overburdened communities,

including communities that have experienced disproportionate harm due to air pollution and may draw upon the most recent health disparities data from the department of health to identify high pollution areas and disproportionately burdened communities. These guidelines must be developed consistent with an environmental justice assessment pursuant to RCW 70A.02.060 and the guidelines must include environmental justice assessment processes. The guidelines must be based on:

(a) The most recent greenhouse gas emissions report prepared by the department of ecology and the department of commerce pursuant to RCW 70A.45.020(2);

(b) The most recent city and county population estimates prepared by the office of financial management pursuant to RCW 43.62.035;

(c) The locations of major employment centers and transit corridors, for the purpose of increasing housing supply in these areas; and

(d) Available environmental justice data and data regarding access to public transportation for people with disabilities and for vulnerable populations.

(2)(a) The department of commerce, in consultation with the department of transportation, shall publish guidelines that specify a set of measures counties and cities may have available to them to take through updates to their comprehensive plans and development regulations that have a demonstrated ability to reduce per capita vehicle miles traveled, including measures that are designed to be achievable throughout the state, including in small cities and rural cities.

(b) The guidelines must be based on:

(i) The most recent greenhouse gas emissions report prepared by the department of ecology and the department of commerce pursuant to RCW 70A.45.020(2);

(ii) The most recent city and county population estimates prepared by the office of financial management pursuant to RCW 43.62.035; and

(iii) The most recent summary of per capita vehicle miles traveled as compiled by the department of transportation.

(3) The department of commerce shall first publish the full set of guidelines described in subsections (1) and (2) of this section no later than December 31, 2025. The department of commerce shall update these guidelines at least every five years thereafter based on the most recently available data, and shall provide for a process for local governments and other parties to submit alternative actions for consideration for inclusion into the guidelines at least once per year. The department of commerce shall publish an intermediate set of guidelines no later than December 31, 2023, in order to be available for use by jurisdictions whose periodic updates are required by RCW 36.70A.130(5) to occur prior to December 31, 2025. Jurisdictions whose periodic updates are required by RCW 36.70A.130(5)(b) may utilize the intermediate set of guidelines published by the department of commerce to meet the requirements of RCW 36.70A.070(9).

(4)(a) In any updates to the guidelines published after 2025, the department of commerce shall include an evaluation of the impact that locally adopted climate change and resiliency elements have had on local greenhouse gas emissions and per capita vehicle miles traveled reduction goals. The evaluation must also address the impact that locally adopted greenhouse gas emissions reduction subelements have had on meeting local housing goals and targets.

(b) The updates must also include an estimate of the impacts that locally adopted climate change and resiliency elements will have on achieving local greenhouse gas emissions and per capita vehicle miles traveled reduction goals. The evaluation must also

EIGHTY NINTH DAY, APRIL 7, 2023

include an estimate of the impact that locally adopted greenhouse gas emissions reduction subelements will have on meeting local housing goals and targets.

(c) The department may include in the specified guidelines what additional measures cities and counties should take to make additional progress on local reduction goals, including any measures that increase housing capacity within urban growth areas.

(5) The department of commerce may not propose or adopt any guidelines that would include any form of a road usage charge or any fees or surcharges related to vehicle miles traveled.

(6) The department of commerce may not propose or adopt any guidelines that would direct or require local governments to regulate or tax, in any form, transportation service providers, delivery vehicles, or passenger vehicles.

(7) The department of commerce, in the course of implementing this section, shall provide and prioritize options that support increased housing supply and diversity of housing types that assist counties and cities in meeting greenhouse gas emissions reduction, housing supply, and other requirements established under this chapter.

(8) The provisions of this section as applied to the department of transportation are subject to the availability of amounts appropriated for this specific purpose.

(9) For purposes of this section, "overburdened communities" and "vulnerable populations" means the same as provided in RCW 36.70A.030.

NEW SECTION. Sec. 6. A new section is added to chapter 36.70A RCW to read as follows:

(1) A county or city required to complete a greenhouse gas emissions reduction subelement may submit the subelement to the department for approval. When submitted to the department for approval, the subelement becomes effective when approved by the department as provided in this section. If a county or city does not seek department approval of the subelement, the effective date of the subelement is the date on which the comprehensive plan is adopted by the county or city.

(2) Notice of intent to apply for approval. (a) Not less than 120 days prior to applying for approval of a subelement, the county or city must notify the department in writing that it intends to apply for approval. The department shall review proposed subelements prior to final adoption and advise the county or city of the actions necessary to receive approval.

(b) The department may consult with other relevant state agencies in making its determination.

(c) The department shall publish notice in the Washington State Register that a city or county has notified the department of its intent to apply for approval and the department shall post a copy of the notice on the department website.

(3) Procedures for an application for approval. (a) After taking final action to adopt a greenhouse gas emissions reduction subelement, a city or county may apply to the department for approval of the subelement. A city or county must submit its application to the department within 10 days of taking final action.

(b) An application for approval must include, at a minimum, the following:

(i) A cover letter from the legislative authority requesting approval;

(ii) A copy of the adopted ordinance or resolution taking the legislative action or actions required to adopt the greenhouse gas emissions reduction subelement;

(iii) A statement explaining how the adopted subelement complies with the provisions of this chapter; and

(iv) A copy of the record developed by the city or county at any public meetings or public hearings at which action was taken on the greenhouse gas emissions reduction subelement.

(c) For purposes of this subsection, the terms "action" and "meeting" have the same definition as in RCW 42.30.020.

(4) Approval procedures. (a) The department shall strive to achieve final action to approve or deny an application within 180 days of the date of receipt of the application.

(b) The department must issue its decision in the form of a written statement, including findings of fact and conclusions, and noting the date of the issuance of its decision. The department's issued decision must conspicuously and plainly state that it is the department's final decision and that there will be no further modifications to the proposed greenhouse gas emissions reduction subelement.

(c) The department will promptly publish its decision on the application for approval as follows:

- (i) Notify the city or county in writing of its determination;
- (ii) Publish a notice of action in the Washington State Register;
- (iii) Post a notice of its decision on the agency website; and
- (iv) Notify other relevant state agencies regarding the approval decision.

(5) The department shall approve a proposed greenhouse gas emissions reduction subelement unless it determines that the proposed greenhouse gas emissions reduction subelement is not consistent with the policy of RCW 36.70A.070 and, after they are adopted, the applicable guidelines.

(6) The department's final decision to approve or reject a proposed greenhouse gas emissions reduction subelement or amendment by a local government planning under RCW 36.70A.040 may be appealed according to the following provisions:

(a) The department's final decision to approve or reject a proposed greenhouse gas emissions reduction subelement or amendment by a local government planning under RCW 36.70A.040 may be appealed to the growth management hearings board by filing a petition as provided in RCW 36.70A.290.

(b) A decision of the growth management hearings board concerning an appeal of the department's final decision to approve or reject a proposed greenhouse gas emissions reduction subelement or amendment must be based solely on whether or not the adopted or amended greenhouse gas emissions reduction subelement, any adopted amendments to other elements of the comprehensive plan necessary to carry out the subelement, and any adopted or amended development regulations necessary to implement the subelement, comply with the goal set forth in RCW 36.70A.020(14) as it applies to greenhouse gas emissions reductions, RCW 36.70A.070(9) excluding RCW 36.70A.070(9)(e), the guidelines adopted under section 5 of this act applicable to the greenhouse gas emissions reduction subelement, or chapter 43.21C RCW.

Sec. 7. RCW 36.70A.280 and 2011 c 360 s 17 are each amended to read as follows:

(1) The growth management hearings board shall hear and determine only those petitions alleging either:

(a) That, except as provided otherwise by this subsection, a state agency, county, or city planning under this chapter is not in compliance with the requirements of this chapter, chapter 90.58 RCW as it relates to the adoption of shoreline master programs or amendments thereto, or chapter 43.21C RCW as it relates to plans, development regulations, or amendments, adopted under RCW 36.70A.040 or chapter 90.58 RCW. Nothing in this subsection authorizes the board to hear petitions alleging noncompliance with RCW 36.70A.5801;

(b) That the ~~((twenty))~~ 20-year growth management planning population projections adopted by the office of financial management pursuant to RCW 43.62.035 should be adjusted;

(c) That the approval of a work plan adopted under RCW 36.70A.735(1)(a) is not in compliance with the requirements of the program established under RCW 36.70A.710;

(d) That regulations adopted under RCW 36.70A.735(1)(b) are not regionally applicable and cannot be adopted, wholly or partially, by another jurisdiction; ~~((or))~~

(e) That a department certification under RCW 36.70A.735(1)(c) is erroneous; or

(f) That the department's final decision to approve or reject a proposed greenhouse gas emissions reduction subelement or amendments by a local government planning under RCW 36.70A.040 was not in compliance with the joint guidance issued by the department pursuant to section 5 of this act.

(2) A petition may be filed only by: (a) The state, or a county or city that plans under this chapter; (b) a person who has participated orally or in writing before the county or city regarding the matter on which a review is being requested; (c) a person who is certified by the governor within ~~((sixty))~~ 60 days of filing the request with the board; or (d) a person qualified pursuant to RCW 34.05.530.

(3) For purposes of this section "person" means any individual, partnership, corporation, association, state agency, governmental subdivision or unit thereof, or public or private organization or entity of any character.

(4) To establish participation standing under subsection (2)(b) of this section, a person must show that his or her participation before the county or city was reasonably related to the person's issue as presented to the board.

(5) When considering a possible adjustment to a growth management planning population projection prepared by the office of financial management, the board shall consider the implications of any such adjustment to the population forecast for the entire state.

The rationale for any adjustment that is adopted by the board must be documented and filed with the office of financial management within ten working days after adoption.

If adjusted by the board, a county growth management planning population projection shall only be used for the planning purposes set forth in this chapter and shall be known as the "board adjusted population projection." None of these changes shall affect the official state and county population forecasts prepared by the office of financial management, which shall continue to be used for state budget and planning purposes.

Sec. 8. RCW 36.70A.320 and 1997 c 429 s 20 are each amended to read as follows:

(1) Except as provided in subsections (5) and (6) of this section, comprehensive plans and development regulations, and amendments thereto, adopted under this chapter are presumed valid upon adoption.

(2) Except as otherwise provided in subsection (4) of this section, the burden is on the petitioner to demonstrate that any action taken by a state agency, county, or city under this chapter is not in compliance with the requirements of this chapter.

(3) In any petition under this chapter, the board, after full consideration of the petition, shall determine whether there is compliance with the requirements of this chapter. In making its determination, the board shall consider the criteria adopted by the department under RCW 36.70A.190(4). The board shall find compliance unless it determines that the action by the state agency, county, or city is clearly erroneous in view of the entire record before the board and in light of the goals and requirements of this chapter.

(4) A county or city subject to a determination of invalidity made under RCW 36.70A.300 or 36.70A.302 has the burden of demonstrating that the ordinance or resolution it has enacted in response to the determination of invalidity will no longer substantially interfere with the fulfillment of the goals of this chapter under the standard in RCW 36.70A.302(1).

(5) The shoreline element of a comprehensive plan and the applicable development regulations adopted by a county or city shall take effect as provided in chapter 90.58 RCW.

(6) The greenhouse gas emissions reduction subelement required by RCW 36.70A.070 shall take effect as provided in section 6 of this act.

Sec. 9. RCW 36.70A.190 and 2022 c 252 s 5 are each amended to read as follows:

(1) The department shall establish a program of technical and financial assistance and incentives to counties and cities to encourage and facilitate the adoption and implementation of comprehensive plans and development regulations throughout the state.

(2) The department shall develop a priority list and establish funding levels for planning and technical assistance grants both for counties and cities that plan under RCW 36.70A.040. Priority for assistance shall be based on a county's or city's population growth rates, commercial and industrial development rates, the existence and quality of a comprehensive plan and development regulations, the presence of overburdened communities, and other relevant factors. The department shall establish funding levels for grants to community-based organizations for the specific purpose of advancing participation of vulnerable populations and overburdened communities in the planning process.

(3) The department shall develop and administer a grant program to provide direct financial assistance to counties and cities for the preparation of comprehensive plans under this chapter. The department may establish provisions for county and city matching funds to conduct activities under this subsection. Grants may be expended for any purpose directly related to the preparation of a county or city comprehensive plan as the county or city and the department may agree, including, without limitation, the conducting of surveys, inventories and other data gathering and management activities, the retention of planning consultants, contracts with regional councils for planning and related services, and other related purposes.

(4) The department shall establish a program of technical assistance:

(a) Utilizing department staff, the staff of other state agencies, and the technical resources of counties and cities to help in the development of comprehensive plans required under this chapter. The technical assistance may include, but not be limited to, model land use ordinances, regional education and training programs, and information for local and regional inventories; and

(b) Adopting by rule procedural criteria to assist counties and cities in adopting comprehensive plans and development regulations that meet the goals and requirements of this chapter. These criteria shall reflect regional and local variations and the diversity that exists among different counties and cities that plan under this chapter.

(5) The department shall provide mediation services to resolve disputes between counties and cities regarding, among other things, coordination of regional issues and designation of urban growth areas.

(6) The department shall provide services to facilitate the timely resolution of disputes between a federally recognized Indian tribe and a city or county.

EIGHTY NINTH DAY, APRIL 7, 2023

(a) A federally recognized Indian tribe may request the department to provide facilitation services to resolve issues of concern with a proposed comprehensive plan and its development regulations, or any amendment to the comprehensive plan and its development regulations.

(b) Upon receipt of a request from a tribe, the department shall notify the city or county of the request and offer to assist in providing facilitation services to encourage resolution before adoption of the proposed comprehensive plan. Upon receipt of the notice from the department, the city or county must delay any final action to adopt any comprehensive plan or any amendment or its development regulations for at least 60 days. The tribe and the city or county may jointly agree to extend this period by notifying the department. A county or city must not be penalized for noncompliance under this chapter due to any delays associated with this process.

(c) Upon receipt of a request, the department shall provide comments to the county or city including a summary and supporting materials regarding the tribe's concerns. The county or city may either agree to amend the comprehensive plan as requested consistent with the comments from the department, or enter into a facilitated process with the tribe, which must be arranged by the department using a suitable expert to be paid by the department. This facilitated process may also extend the 60-day delay of adoption, upon agreement of the tribe and the city or county.

(d) At the end of the 60-day period, unless by agreement there is an extension of the 60-day period, the city or county may proceed with adoption of the proposed comprehensive plan and development regulations. The facilitator shall write a report of findings describing the basis for agreements or disagreements that occurred during the process that are allowed to be disclosed by the parties and the resulting agreed-upon elements of the plan to be amended.

(7) The department shall provide planning grants to enhance citizen participation under RCW 36.70A.140.

(8) The department shall develop, in collaboration with the department of ecology, the department of fish and wildlife, the department of natural resources, the department of health, the emergency management division of the military department, as well as any federally recognized tribe who chooses to voluntarily participate, and adopt by rule guidance that creates a model climate change and resiliency element that may be used by counties, cities, and multiple-county planning regions for developing and implementing climate change and resiliency plans and policies required by RCW 36.70A.070(9), subject to the following provisions:

(a) The model element must establish minimum requirements, and may include model options or voluntary cross-jurisdictional strategies, or both, for fulfilling the requirements of RCW 36.70A.070(9);

(b) The model element should provide guidance on identifying, designing, and investing in infrastructure that supports community resilience to climate impacts, including the protection, restoration, and enhancement of natural infrastructure as well as traditional infrastructure and protecting and enhancing natural areas to foster resiliency to climate impacts, as well as areas of vital habitat for safe passage and species migration;

(c) The model element should provide guidance on identifying and addressing natural hazards created or aggravated by climate change, including sea level rise, landslides, flooding, drought, heat, smoke, wildfires, and other effects of reasonably anticipated changes to temperature and precipitation patterns; and

(d) The rule must recognize and promote as many cobenefits of climate resilience as possible such as climate change mitigation,

salmon recovery, forest health, ecosystem services, and socioeconomic health and resilience.

NEW SECTION. Sec. 10. A new section is added to chapter 47.80 RCW to read as follows:

The department shall compile, maintain, and publish a summary of the per capita vehicle miles traveled annually in each city in the state, and in the unincorporated portions of each county in the state.

NEW SECTION. Sec. 11. A new section is added to chapter 90.58 RCW to read as follows:

The department shall update its shoreline master program guidelines to require shoreline master programs to address the impact of sea level rise and increased storm severity on people, property, and shoreline natural resources and the environment.

Sec. 12. RCW 86.12.200 and 1991 c 322 s 3 are each amended to read as follows:

The county legislative authority of any county may adopt a comprehensive flood control management plan for any drainage basin that is located wholly or partially within the county.

A comprehensive flood control management plan shall include the following elements:

(1) Designation of areas that are susceptible to periodic flooding, from inundation by bodies of water or surface water runoff, or both, including the river's meander belt or floodway;

(2) Establishment of a comprehensive scheme of flood control protection and improvements for the areas that are subject to such periodic flooding, that includes: (a) Determining the need for, and desirable location of, flood control improvements to protect or preclude flood damage to structures, works, and improvements, based upon a cost/benefit ratio between the expense of providing and maintaining these improvements and the benefits arising from these improvements; (b) establishing the level of flood protection that each portion of the system of flood control improvements will be permitted; (c) identifying alternatives to in-stream flood control work; (d) identifying areas where flood waters could be directed during a flood to avoid damage to buildings and other structures; and (e) identifying sources of revenue that will be sufficient to finance the comprehensive scheme of flood control protection and improvements;

(3) Establishing land use regulations that preclude the location of structures, works, or improvements in critical portions of such areas subject to periodic flooding, including a river's meander belt or floodway, and permitting only flood-compatible land uses in such areas;

(4) Establishing restrictions on construction activities in areas subject to periodic floods that require the flood proofing of those structures that are permitted to be constructed or remodeled; ~~((and))~~

(5) Establishing restrictions on land clearing activities and development practices that exacerbate flood problems by increasing the flow or accumulation of flood waters, or the intensity of drainage, on low-lying areas. Land clearing activities do not include forest practices as defined in chapter 76.09 RCW; and

(6) Consideration of climate change impacts, including the impact of sea level rise and increased storm severity on people, property, natural resources, and the environment.

A comprehensive flood control management plan shall be subject to the minimum requirements for participation in the national flood insurance program, requirements exceeding the minimum national flood insurance program that have been adopted by the department of ecology for a specific floodplain pursuant to RCW 86.16.031, and rules adopted by the department of ecology pursuant to RCW 86.26.050 relating to floodplain management activities. When a county plans under chapter

36.70A RCW, it may incorporate the portion of its comprehensive flood control management plan relating to land use restrictions in its comprehensive plan and development regulations adopted pursuant to chapter 36.70A RCW.

NEW SECTION. Sec. 13. A new section is added to chapter 43.21C RCW to read as follows:

The adoption of ordinances, amendments to comprehensive plans, amendments to development regulations, and other nonproject actions taken by a county or city pursuant to RCW 36.70A.070(9) (d) or (e) in order to implement measures specified by the department of commerce pursuant to section 5 of this act are not subject to administrative or judicial appeals under this chapter.

Sec. 14. RCW 36.70A.030 and 2021 c 254 s 6 are each amended to read as follows:

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Adopt a comprehensive land use plan" means to enact a new comprehensive land use plan or to update an existing comprehensive land use plan.

(2) "Affordable housing" means, unless the context clearly indicates otherwise, residential housing whose monthly costs, including utilities other than telephone, do not exceed thirty percent of the monthly income of a household whose income is:

(a) For rental housing, (~~sixty~~) 60 percent of the median household income adjusted for household size, for the county where the household is located, as reported by the United States department of housing and urban development; or

(b) For owner-occupied housing, (~~eighty~~) 80 percent of the median household income adjusted for household size, for the county where the household is located, as reported by the United States department of housing and urban development.

(3) "Agricultural land" means land primarily devoted to the commercial production of horticultural, viticultural, floricultural, dairy, apiary, vegetable, or animal products or of berries, grain, hay, straw, turf, seed, Christmas trees not subject to the excise tax imposed by RCW 84.33.100 through 84.33.140, finfish in upland hatcheries, or livestock, and that has long-term commercial significance for agricultural production.

(4) "City" means any city or town, including a code city.

(5) "Comprehensive land use plan," "comprehensive plan," or "plan" means a generalized coordinated land use policy statement of the governing body of a county or city that is adopted pursuant to this chapter.

(6) "Critical areas" include the following areas and ecosystems: (a) Wetlands; (b) areas with a critical recharging effect on aquifers used for potable water; (c) fish and wildlife habitat conservation areas; (d) frequently flooded areas; and (e) geologically hazardous areas. "Fish and wildlife habitat conservation areas" does not include such artificial features or constructs as irrigation delivery systems, irrigation infrastructure, irrigation canals, or drainage ditches that lie within the boundaries of and are maintained by a port district or an irrigation district or company.

(7) "Department" means the department of commerce.

(8) "Development regulations" or "regulation" means the controls placed on development or land use activities by a county or city, including, but not limited to, zoning ordinances, critical areas ordinances, shoreline master programs, official controls, planned unit development ordinances, subdivision ordinances, and binding site plan ordinances together with any amendments thereto. A development regulation does not include a decision to approve a project permit application, as defined in RCW 36.70B.020, even though the decision may be expressed in a

resolution or ordinance of the legislative body of the county or city.

(9) "Emergency housing" means temporary indoor accommodations for individuals or families who are homeless or at imminent risk of becoming homeless that is intended to address the basic health, food, clothing, and personal hygiene needs of individuals or families. Emergency housing may or may not require occupants to enter into a lease or an occupancy agreement.

(10) "Emergency shelter" means a facility that provides a temporary shelter for individuals or families who are currently homeless. Emergency shelter may not require occupants to enter into a lease or an occupancy agreement. Emergency shelter facilities may include day and warming centers that do not provide overnight accommodations.

(11) "Extremely low-income household" means a single person, family, or unrelated persons living together whose adjusted income is at or below thirty percent of the median household income adjusted for household size, for the county where the household is located, as reported by the United States department of housing and urban development.

In determining whether forestland is primarily devoted to growing trees for long-term commercial timber production on land that can be economically and practically managed for such production, the following factors shall be considered: (a) The proximity of the land to urban, suburban, and rural settlements; (b) surrounding parcel size and the compatibility and intensity of adjacent and nearby land uses; (c) long-term local economic conditions that affect the ability to manage for timber production; and (d) the availability of public facilities and services conducive to conversion of forestland to other uses.

(13) "Freight rail dependent uses" means buildings and other infrastructure that are used in the fabrication, processing, storage, and transport of goods where the use is dependent on and makes use of an adjacent short line railroad. Such facilities are both urban and rural development for purposes of this chapter. "Freight rail dependent uses" does not include buildings and other infrastructure that are used in the fabrication, processing, storage, and transport of coal, liquefied natural gas, or "crude oil" as defined in RCW 90.56.010.

(14) "Geologically hazardous areas" means areas that because of their susceptibility to erosion, sliding, earthquake, or other geological events, are not suited to the siting of commercial, residential, or industrial development consistent with public health or safety concerns.

(15) "Long-term commercial significance" includes the growing capacity, productivity, and soil composition of the land for long-term commercial production, in consideration with the land's proximity to population areas, and the possibility of more intense uses of the land.

(16) "Low-income household" means a single person, family, or unrelated persons living together whose adjusted income is at or below eighty percent of the median household income adjusted for household size, for the county where the household is located, as reported by the United States department of housing and urban development.

(19) "Permanent supportive housing" is subsidized, leased housing with no limit on length of stay that prioritizes people who need comprehensive support services to retain tenancy and utilizes admissions practices designed to use lower barriers to entry than would be typical for other subsidized or unsubsidized rental housing, especially related to rental history, criminal history, and personal behaviors. Permanent supportive housing is paired with on-site or off-site voluntary services designed to support a person living with a complex and disabling behavioral health or physical health condition who was experiencing homelessness or was at imminent risk of homelessness prior to moving into housing to retain their housing and be a successful tenant in a housing arrangement, improve the resident's health status, and connect the resident of the housing with community-based health care, treatment, or employment services. Permanent supportive housing is subject to all of the rights and responsibilities defined in chapter 59.18 RCW.

(20) "Public facilities" include streets, roads, highways, sidewalks, street and road lighting systems, traffic signals, domestic water systems, storm and sanitary sewer systems, parks and recreational facilities, and schools.

(21) "Public services" include fire protection and suppression, law enforcement, public health, education, recreation, environmental protection, and other governmental services.

(22) "Recreational land" means land so designated under RCW 36.70A.1701 and that, immediately prior to this designation, was designated as agricultural land of long-term commercial significance under RCW 36.70A.170. Recreational land must have playing fields and supporting facilities existing before July 1, 2004, for sports played on grass playing fields.

(23) "Rural character" refers to the patterns of land use and development established by a county in the rural element of its comprehensive plan:

(a) In which open space, the natural landscape, and vegetation predominate over the built environment;

(b) That foster traditional rural lifestyles, rural-based economies, and opportunities to both live and work in rural areas;

(c) That provide visual landscapes that are traditionally found in rural areas and communities;

(d) That are compatible with the use of the land by wildlife and for fish and wildlife habitat;

(e) That reduce the inappropriate conversion of undeveloped land into sprawling, low-density development;

(f) That generally do not require the extension of urban governmental services; and

(g) That are consistent with the protection of natural surface water flows and groundwater and surface water recharge and discharge areas.

(24) "Rural development" refers to development outside the urban growth area and outside agricultural, forest, and mineral resource lands designated pursuant to RCW 36.70A.170. Rural development can consist of a variety of uses and residential densities, including clustered residential development, at levels that are consistent with the preservation of rural character and the requirements of the rural element. Rural development does not refer to agriculture or forestry activities that may be conducted in rural areas.

(25) "Rural governmental services" or "rural services" include those public services and public facilities historically and

typically delivered at an intensity usually found in rural areas, and may include domestic water systems, fire and police protection services, transportation and public transit services, and other public utilities associated with rural development and normally not associated with urban areas. Rural services do not include storm or sanitary sewers, except as otherwise authorized by RCW 36.70A.110(4).

(26) "Short line railroad" means those railroad lines designated class II or class III by the United States surface transportation board.

(27) "Urban governmental services" or "urban services" include those public services and public facilities at an intensity historically and typically provided in cities, specifically including storm and sanitary sewer systems, domestic water systems, street cleaning services, fire and police protection services, public transit services, and other public utilities associated with urban areas and normally not associated with rural areas.

(28) "Urban growth" refers to growth that makes intensive use of land for the location of buildings, structures, and impermeable surfaces to such a degree as to be incompatible with the primary use of land for the production of food, other agricultural products, or fiber, or the extraction of mineral resources, rural uses, rural development, and natural resource lands designated pursuant to RCW 36.70A.170. A pattern of more intensive rural development, as provided in RCW 36.70A.070(5)(d), is not urban growth. When allowed to spread over wide areas, urban growth typically requires urban governmental services. "Characterized by urban growth" refers to land having urban growth located on it, or to land located in relationship to an area with urban growth on it as to be appropriate for urban growth.

(29) "Urban growth areas" means those areas designated by a county pursuant to RCW 36.70A.110.

(30) "Very low-income household" means a single person, family, or unrelated persons living together whose adjusted income is at or below fifty percent of the median household income adjusted for household size, for the county where the household is located, as reported by the United States department of housing and urban development.

(31) "Wetland" or "wetlands" means areas that are inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas. Wetlands do not include those artificial wetlands intentionally created from nonwetland sites, including, but not limited to, irrigation and drainage ditches, grass-lined swales, canals, detention facilities, wastewater treatment facilities, farm ponds, and landscape amenities, or those wetlands created after July 1, 1990, that were unintentionally created as a result of the construction of a road, street, or highway. Wetlands may include those artificial wetlands intentionally created from nonwetland areas created to mitigate conversion of wetlands.

(32) "Per capita vehicle miles traveled" means the number of miles traveled using cars and light trucks in a calendar year divided by the number of residents in Washington. The calculation of this value excludes vehicle miles driven conveying freight.

(33) "Active transportation" means forms of pedestrian mobility including walking or running, the use of a mobility assistive device such as a wheelchair, bicycling and cycling irrespective of the number of wheels, and the use of small personal devices such as foot scooters or skateboards. Active transportation includes both traditional and electric assist bicycles and other devices. Planning for active transportation

must consider and address accommodation pursuant to the Americans with disabilities act and the distinct needs of each form of active transportation.

(34) "Transportation system" means all infrastructure and services for all forms of transportation within a geographical area, irrespective of the responsible jurisdiction or transportation provider.

(35) "Environmental justice" means the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to development, implementation, and enforcement of environmental laws, regulations, and policies. Environmental justice includes addressing disproportionate environmental and health impacts in all laws, rules, and policies with environmental impacts by prioritizing vulnerable populations and overburdened communities and the equitable distribution of resources and benefits.

(36) "Active transportation facilities" means facilities provided for the safety and mobility of active transportation users including, but not limited to, trails, as defined in RCW 47.30.005, sidewalks, bike lanes, shared-use paths, and other facilities in the public right-of-way.

(37) "Green space" means an area of land, vegetated by natural features such as grass, trees, or shrubs, within an urban context and less than one acre in size that creates public value through one or more of the following attributes:

- (a) Is accessible to the public;
- (b) Promotes physical and mental health of residents;
- (c) Provides relief from the urban heat island effects;
- (d) Promotes recreational and aesthetic values;
- (e) Protects streams or water supply; or
- (f) Preserves visual quality along highway, road, or street corridors.

(38) "Green infrastructure" means a wide array of natural assets and built structures within an urban growth area boundary, including parks and other areas with protected tree canopy, and management practices at multiple scales that manage wet weather and that maintain and restore natural hydrology by storing, infiltrating, evapotranspiring, and harvesting and using stormwater.

(39) "Wildland urban interface" means the geographical area where structures and other human development meets or intermingles with wildland vegetative fuels.

(40) "Overburdened community" means a geographic area where vulnerable populations face combined, multiple environmental harms and health impacts, and includes, but is not limited to, highly impacted communities as defined in RCW 19.405.020.

(41)(a) "Vulnerable populations" means population groups that are more likely to be at higher risk for poor health outcomes in response to environmental harms, due to: (i) Adverse socioeconomic factors, such as unemployment, high housing and transportation costs relative to income, limited access to nutritious food and adequate health care, linguistic isolation, and other factors that negatively affect health outcomes and increase vulnerability to the effects of environmental harms; and (ii) sensitivity factors, such as low birth weight and higher rates of hospitalization.

(b) "Vulnerable populations" includes, but is not limited to:

- (i) Racial or ethnic minorities;
- (ii) Low-income populations; and
- (iii) Populations disproportionately impacted by environmental harms.

Sec. 15. RCW 36.70A.130 and 2022 c 287 s 1 and 2022 c 192 s 1 are each reenacted and amended to read as follows:

(1)(a) Each comprehensive land use plan and development regulations shall be subject to continuing review and evaluation by the county or city that adopted them. Except as otherwise provided, a county or city shall take legislative action to review and, if needed, revise its comprehensive land use plan and development regulations to ensure the plan and regulations comply with the requirements of this chapter according to the deadlines in subsections (4) and (5) of this section.

(b) Except as otherwise provided, a county or city not planning under RCW 36.70A.040 shall take action to review and, if needed, revise its policies and development regulations regarding critical areas and natural resource lands adopted according to this chapter to ensure these policies and regulations comply with the requirements of this chapter according to the deadlines in subsections (4) and (5) of this section. Legislative action means the adoption of a resolution or ordinance following notice and a public hearing indicating at a minimum, a finding that a review and evaluation has occurred and identifying the revisions made, or that a revision was not needed and the reasons therefor.

(c) The review and evaluation required by this subsection shall include, but is not limited to, consideration of critical area ordinances and, if planning under RCW 36.70A.040, an analysis of the population allocated to a city or county from the most recent ~~((ten))~~ 10-year population forecast by the office of financial management.

(d) Any amendment of or revision to a comprehensive land use plan shall conform to this chapter. Any amendment of or revision to development regulations shall be consistent with and implement the comprehensive plan.

(2)(a) Each county and city shall establish and broadly disseminate to the public a public participation program consistent with RCW 36.70A.035 and 36.70A.140 that identifies procedures and schedules whereby updates, proposed amendments, or revisions of the comprehensive plan are considered by the governing body of the county or city no more frequently than once every year. "Updates" means to review and revise, if needed, according to subsection (1) of this section, and the deadlines in subsections (4) and (5) of this section or in accordance with the provisions of subsection (6) of this section. Amendments may be considered more frequently than once per year under the following circumstances:

(i) The initial adoption of a subarea plan. Subarea plans adopted under this subsection (2)(a)(i) must clarify, supplement, or implement jurisdiction-wide comprehensive plan policies, and may only be adopted if the cumulative impacts of the proposed plan are addressed by appropriate environmental review under chapter 43.21C RCW;

(ii) The development of an initial subarea plan for economic development located outside of the one hundred year floodplain in a county that has completed a state-funded pilot project that is based on watershed characterization and local habitat assessment;

(iii) The adoption or amendment of a shoreline master program under the procedures set forth in chapter 90.58 RCW;

(iv) The amendment of the capital facilities element of a comprehensive plan that occurs concurrently with the adoption or amendment of a county or city budget; or

(v) The adoption of comprehensive plan amendments necessary to enact a planned action under RCW 43.21C.440, provided that amendments are considered in accordance with the public participation program established by the county or city under this subsection (2)(a) and all persons who have requested notice of a comprehensive plan update are given notice of the amendments and an opportunity to comment.

(b) Except as otherwise provided in (a) of this subsection, all proposals shall be considered by the governing body concurrently

EIGHTY NINTH DAY, APRIL 7, 2023

so the cumulative effect of the various proposals can be ascertained. However, after appropriate public participation a county or city may adopt amendments or revisions to its comprehensive plan that conform with this chapter whenever an emergency exists or to resolve an appeal of a comprehensive plan filed with the growth management hearings board or with the court.

(3)(a) Each county that designates urban growth areas under RCW 36.70A.110 shall review, according to the schedules established in subsections (4) and (5) of this section, its designated urban growth area or areas, patterns of development occurring within the urban growth area or areas, and the densities permitted within both the incorporated and unincorporated portions of each urban growth area. In conjunction with this review by the county, each city located within an urban growth area shall review the densities permitted within its boundaries, and the extent to which the urban growth occurring within the county has located within each city and the unincorporated portions of the urban growth areas.

(b) The county comprehensive plan designating urban growth areas, and the densities permitted in the urban growth areas by the comprehensive plans of the county and each city located within the urban growth areas, shall be revised to accommodate the urban growth projected to occur in the county for the succeeding ~~((twenty))~~ 20-year period. The review required by this subsection may be combined with the review and evaluation required by RCW 36.70A.215.

(c) If, during the county's review under (a) of this subsection, the county determines revision of the urban growth area is not required to accommodate the urban growth projected to occur in the county for the succeeding 20-year period, but does determine that patterns of development have created pressure in areas that exceed available, developable lands within the urban growth area, the urban growth area or areas may be revised to accommodate identified patterns of development and likely future development pressure for the succeeding 20-year period if the following requirements are met:

(i) The revised urban growth area may not result in an increase in the total surface areas of the urban growth area or areas;

(ii) The areas added to the urban growth area are not or have not been designated as agricultural, forest, or mineral resource lands of long-term commercial significance;

(iii) Less than 15 percent of the areas added to the urban growth area are critical areas;

(iv) The areas added to the urban growth areas are suitable for urban growth;

(v) The transportation element and capital facility plan element have identified the transportation facilities, and public facilities and services needed to serve the urban growth area and the funding to provide the transportation facilities and public facilities and services;

(vi) The urban growth area is not larger than needed to accommodate the growth planned for the succeeding 20-year planning period and a reasonable land market supply factor;

(vii) The areas removed from the urban growth area do not include urban growth or urban densities; and

(viii) The revised urban growth area is contiguous, does not include holes or gaps, and will not increase pressures to urbanize rural or natural resource lands.

(4) Except as otherwise provided in subsections (6) and (8) of this section, counties and cities shall take action to review and, if needed, revise their comprehensive plans and development regulations to ensure the plan and regulations comply with the requirements of this chapter as follows:

(a) On or before June 30, 2015, for King, Pierce, and Snohomish counties and the cities within those counties;

(b) On or before June 30, 2016, for Clallam, Clark, Island, Jefferson, Kitsap, Mason, San Juan, Skagit, Thurston, and Whatcom counties and the cities within those counties;

(c) On or before June 30, 2017, for Benton, Chelan, Cowlitz, Douglas, Kittitas, Lewis, Skamania, Spokane, and Yakima counties and the cities within those counties; and

(d) On or before June 30, 2018, for Adams, Asotin, Columbia, Ferry, Franklin, Garfield, Grant, Grays Harbor, Klickitat, Lincoln, Okanogan, Pacific, Pend Oreille, Stevens, Wahkiakum, Walla Walla, and Whitman counties and the cities within those counties.

(5) Except as otherwise provided in subsections (6) and (8) of this section, following the review of comprehensive plans and development regulations required by subsection (4) of this section, counties and cities shall take action to review and, if needed, revise their comprehensive plans and development regulations to ensure the plan and regulations comply with the requirements of this chapter as follows:

(a) ~~((On))~~ Except as provided in subsection (10) of this section, on or before December 31, 2024, with the following review and, if needed, revision on or before June 30, 2034, and then every ~~((ten))~~ 10 years thereafter, for King, Kitsap, Pierce, and Snohomish counties and the cities within those counties;

(b) On or before June 30, 2025, and every ~~((ten))~~ 10 years thereafter, for Clallam, Clark, Island, Jefferson, Lewis, Mason, San Juan, Skagit, Thurston, and Whatcom counties and the cities within those counties;

(c) On or before June 30, 2026, and every ~~((ten))~~ 10 years thereafter, for Benton, Chelan, Cowlitz, Douglas, Franklin, Kittitas, Skamania, Spokane, Walla Walla, and Yakima counties and the cities within those counties; and

(d) On or before June 30, 2027, and every ~~((ten))~~ 10 years thereafter, for Adams, Asotin, Columbia, Ferry, Garfield, Grant, Grays Harbor, Klickitat, Lincoln, Okanogan, Pacific, Pend Oreille, Stevens, Wahkiakum, and Whitman counties and the cities within those counties.

(6)(a) Nothing in this section precludes a county or city from conducting the review and evaluation required by this section before the deadlines established in subsections (4) and (5) of this section. Counties and cities may begin this process early and may be eligible for grants from the department, subject to available funding, if they elect to do so.

(b) A county that is subject to a deadline established in subsection (5)(b) through (d) of this section and meets the following criteria may comply with the requirements of this section at any time within the twenty-four months following the deadline established in subsection (5) of this section: The county has a population of less than fifty thousand and has had its population increase by no more than seventeen percent in the ten years preceding the deadline established in subsection (5) of this section as of that date.

(c) A city that is subject to a deadline established in subsection (5)(b) through (d) of this section and meets the following criteria may comply with the requirements of this section at any time within the twenty-four months following the deadline established in subsection (5) of this section: The city has a population of no more than five thousand and has had its population increase by the greater of either no more than one hundred persons or no more than seventeen percent in the ten years preceding the deadline established in subsection (5) of this section as of that date.

(d) State agencies are encouraged to provide technical assistance to the counties and cities in the review of critical area ordinances, comprehensive plans, and development regulations.

(7)(a) The requirements imposed on counties and cities under this section shall be considered "requirements of this chapter" under the terms of RCW 36.70A.040(1). Only those counties and cities that meet the following criteria may receive grants, loans, pledges, or financial guarantees under chapter 43.155 or 70A.135 RCW:

- (i) Complying with the deadlines in this section; or
 - (ii) Demonstrating substantial progress towards compliance with the schedules in this section for development regulations that protect critical areas.
- (b) A county or city that is fewer than ~~((twelve))~~ 12 months out of compliance with the schedules in this section for development regulations that protect critical areas is making substantial progress towards compliance. Only those counties and cities in compliance with the schedules in this section may receive preference for grants or loans subject to the provisions of RCW 43.17.250.

(8)(a) Except as otherwise provided in (c) of this subsection, if a participating watershed is achieving benchmarks and goals for the protection of critical areas functions and values, the county is not required to update development regulations to protect critical areas as they specifically apply to agricultural activities in that watershed.

(b) A county that has made the election under RCW 36.70A.710(1) may only adopt or amend development regulations to protect critical areas as they specifically apply to agricultural activities in a participating watershed if:

- (i) A work plan has been approved for that watershed in accordance with RCW 36.70A.725;
- (ii) The local watershed group for that watershed has requested the county to adopt or amend development regulations as part of a work plan developed under RCW 36.70A.720;
- (iii) The adoption or amendment of the development regulations is necessary to enable the county to respond to an order of the growth management hearings board or court;
- (iv) The adoption or amendment of development regulations is necessary to address a threat to human health or safety; or
- (v) Three or more years have elapsed since the receipt of funding.

(c) Beginning ~~((ten))~~ 10 years from the date of receipt of funding, a county that has made the election under RCW 36.70A.710(1) must review and, if necessary, revise development regulations to protect critical areas as they specifically apply to agricultural activities in a participating watershed in accordance with the review and revision requirements and timeline in subsection (5) of this section. This subsection (8)(c) does not apply to a participating watershed that has determined under RCW 36.70A.720(2)(c)(ii) that the watershed's goals and benchmarks for protection have been met.

(9)(a) Counties subject to planning deadlines established in subsection (5) of this section that are required or that choose to plan under RCW 36.70A.040 and that meet either criteria of (a)(i) or (ii) of this subsection, and cities with a population of more than 6,000 as of April 1, 2021, within those counties, must provide to the department an implementation progress report detailing the progress they have achieved in implementing their comprehensive plan five years after the review and revision of their comprehensive plan. Once a county meets the criteria in (a)(i) or (ii) of this subsection, the implementation progress report requirements remain in effect thereafter for that county and the cities therein with populations greater than 6,000 as of April 1, 2021, even if the county later no longer meets either or both criteria. A county is subject to the implementation progress report requirement if it meets either of the following criteria on or after April 1, 2021:

(i) The county has a population density of at least 100 people per square mile and a population of at least 200,000; or

(ii) The county has a population density of at least 75 people per square mile and an annual growth rate of at least 1.75 percent as determined by the office of financial management.

(b) The department shall adopt guidelines for indicators, measures, milestones, and criteria for use by counties and cities in the implementation progress report that must cover:

(i) The implementation of previously adopted changes to the housing element and any effect those changes have had on housing affordability and availability within the jurisdiction;

(ii) Permit processing timelines; and

(iii) Progress toward implementing any actions required to achieve reductions to meet greenhouse gas and vehicle miles traveled requirements as provided for in any element of the comprehensive plan under RCW 36.70A.070.

(c) If a city or county required to provide an implementation progress report under this subsection (9) has not implemented any specifically identified regulations, zoning and land use changes, or taken other legislative or administrative action necessary to implement any changes in the most recent periodic update in their comprehensive plan by the due date for the implementation progress report, the city or county must identify the need for such action in the implementation progress report. Cities and counties must adopt a work plan to implement any necessary regulations, zoning and land use changes, or take other legislative or administrative action identified in the implementation progress report and complete all work necessary for implementation within two years of submission of the implementation progress report.

(10) Any county or city that is required by section 4 of this act to include in its comprehensive plan a climate change and resiliency element and that is also required by subsection (5)(a) of this section to review and, if necessary, revise its comprehensive plan on or before December 31, 2024, must update its transportation element and incorporate a climate change and resiliency element into its comprehensive plan as part of the first implementation progress report required by subsection (9) of this section if funds are appropriated and distributed by December 31, 2027, as required under RCW 36.70A.070(10).

NEW SECTION. Sec. 16. A new section is added to chapter 36.70A RCW to read as follows:

(1) Notwithstanding the requirements of RCW 36.70A.070(10), it is the intent that jurisdictions subject to RCW 36.70A.130(5)(b) implement the requirements of this act on or before June 30, 2025. Any funding provided to cover applicable local government costs related to implementation of this act shall be considered timely.

(2) This section expires July 31, 2025.

The measure was read the second time.

MOTION

Senator Cleveland moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that:

(1) Fetal alcohol spectrum disorders are lifelong physical, developmental, behavioral, and intellectual disabilities caused by prenatal alcohol exposure;

(2) According to the federal centers for disease control and prevention, fetal alcohol spectrum disorders affect as many as one in 20 people in the United States;

(3) The health care authority estimates that one percent of births, or approximately 870 children each year, are born with fetal alcohol spectrum disorders;

(4) In addition to alcohol use, other substances consumed during pregnancy may result in prenatal substance exposure affecting the physical, developmental, behavioral, and intellectual abilities of the exposed child;

(5) Washington has limited diagnostic capacity and currently lacks the capacity to diagnose and treat every child who needs support and treatment due to prenatal substance exposure;

(6) Without appropriate treatment and supports, children born with fetal alcohol spectrum disorders and other prenatal substance disorders are likely to experience adverse outcomes. According to current statistics, these children face adverse outcomes such as:

(a) 61 percent of children with fetal alcohol spectrum disorders are suspended or expelled from school by age 12;

(b) 90 percent of persons with fetal alcohol spectrum disorders develop comorbid mental health conditions; and

(c) 60 percent of youth with fetal alcohol spectrum disorders are involved in the justice system;

(7) Untreated and unsupported prenatal substance exposure results in higher costs for the state and worse outcomes for children and their families;

(8) Investing in prevention and earlier intervention, including diagnostic capacity, treatment, and services for children and supports for families and caregivers will improve school outcomes; and

(9) Effective prenatal substance exposure response requires effective and ongoing cross-agency strategic planning and coordination.

NEW SECTION. Sec. 2. A new section is added to chapter 41.05 RCW to read as follows:

(1) By January 1, 2024, the authority, on behalf of clients or potential clients of the department of children, youth, and families as described in this subsection, shall contract with a provider with expertise in comprehensive prenatal substance exposure treatment and family supports to offer services to children over the age of three and families who are or have been involved in the child welfare system or who are at risk of becoming involved in the child welfare system. This contract shall maximize the number of families that can be served through referrals by authority employees and other community partners in order to keep families together, reduce the number of placements, and prevent adverse outcomes for impacted children.

(2) By January 1, 2025, the authority, on behalf of clients or potential clients of the department of children, youth, and families as described in this subsection, shall contract with up to three providers across the state, in addition to the contracted provider in subsection (1) of this section, to offer comprehensive treatment services for prenatal substance exposure and family supports for children who were prenatally exposed to substances and who are, or have been, involved in the child welfare system.

(3) Comprehensive treatment and family supports must be trauma-informed and may include:

(a) Occupational, speech, and language therapy;

(b) Behavioral health counseling and caregiver counseling;

(c) Sensory processing support;

(d) Educational advocacy, psychoeducation, social skills support, and groups;

(e) Linkages to community resources; and

(f) Family supports and education, including the programs for parents, caregivers, and families recommended by the federal centers for disease control and prevention.

(4) The authority shall contract with the University of Washington fetal alcohol and drug unit to support the providers under contract in subsections (1) and (2) of this section by:

(a) Creating education and training programs for providers working with children who had prenatal substance exposure; and

(b) Offering ongoing coaching and support in creating a safe and healing environment, free from judgment, where families are supported through the challenges of care for children with prenatal substance exposure.

(5) The authority, in collaboration with the department of children, youth, and families, shall work with the contracted providers and families to collect relevant outcome data and provide a report on the expansion of services under the contracts and the outcomes experienced by persons receiving services under this section. The authority shall submit the report to the legislature with any recommendations related to improving availability of and access to services and ways to improve outcomes by June 1, 2028.

NEW SECTION. Sec. 3. A new section is added to chapter 71.24 RCW to read as follows:

(1) By June 1, 2024, the authority shall submit to the legislature recommendations on ways to increase access to diagnoses,

treatment, services, and supports for children who were exposed to alcohol or other substances during pregnancy and their families and caregivers. In creating the recommendations, the authority shall consult with service providers, medical professionals with expertise in diagnosing and treating prenatal substance exposure, families of children who were exposed to alcohol or other substances during pregnancy, communities affected by prenatal substance exposure, and advocates.

(2) The recommendations adopted under subsection (1) of this section shall, at a minimum, address:

(a) Increasing the availability of evaluation and diagnosis services for children and youth for fetal alcohol spectrum disorders and other prenatal substance disorders, including assuring an adequate payment rate for the interdisciplinary team required for diagnosis and developing sufficient capacity in rural and urban areas so that every child is able to access diagnosis services; and

(b) Increasing the availability of treatment for fetal alcohol spectrum disorders and other prenatal substance disorders for all children and youth including all treatments and services recommended by the federal centers for disease control and prevention. The authority shall review all barriers to accessing treatment and make recommendations on removing those barriers, including recommendations related to the definition of medical necessity, prior authorization requirements for diagnosis and treatment services, and limitations of treatment procedure codes and insurance coverage.

NEW SECTION. Sec. 4. A new section is added to chapter 71.24 RCW to read as follows:

Subject to the availability of amounts appropriated for this specific purpose, the authority shall contract with a statewide nonprofit entity with expertise in fetal alcohol spectrum disorders and experience in supporting parents and caregivers to offer free support groups for individuals living with fetal alcohol spectrum disorders and their parents and caregivers.

Sec. 5. RCW 71.24.610 and 2018 c 201 s 4049 are each amended to read as follows:

The authority, the department of social and health services, the department (~~of health~~), the department of corrections, the department of children, youth, and families, and the office of the superintendent of public instruction shall execute an interagency agreement to ensure the coordination of identification, prevention, and intervention programs for children who have fetal alcohol exposure and other prenatal substance exposures, and for women who are at high risk of having children with fetal alcohol exposure or other prenatal substance exposures.

The interagency agreement shall provide a process for community advocacy groups to participate in the review and development of identification, prevention, and intervention programs administered or contracted for by the agencies executing this agreement.

NEW SECTION. Sec. 6. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2023, in the omnibus appropriations act, this act is null and void."

On page 1, line 2 of the title, after "exposure;" strike the remainder of the title and insert "amending RCW 71.24.610; adding a new section to chapter 41.05 RCW; adding new sections to chapter 71.24 RCW; and creating new sections."

~~((b) The state, through the legislature or initiative process, may enact a statewide firearms background check system equivalent to, or more comprehensive than, the check required by (a) of this subsection to determine that a purchaser is eligible to possess a firearm under RCW 9.41.040. (v) A statement that the purchaser is eligible to purchase and possess a firearm under state and federal law~~(; and~~

(ii) CAUTION: The presence of a firearm in the home has been associated with an increased risk of death to self and others, including an increased risk of suicide, death during domestic violence incidents, and unintentional deaths to children and others.

The purchaser shall be given a copy of the department of fish and wildlife pamphlet on the legal limits of the use of firearms and firearms safety.

(c) The dealer shall, by the end of the business day, ~~((sign and attach his or her address and deliver a copy of the application and such other documentation as required under subsections (1) and (2) of this section to the chief of police of the municipality or the sheriff of the county of which the purchaser is a resident, or the state pursuant to subsection (3)(b) of this section))~~ transmit the information from the application through secure automated firearms e-check (SAFE) to the Washington state patrol firearms background check program. (d) The dealer shall deliver the ~~((pistol or semiautomatic assault rifle))~~ firearm to the purchaser ~~((following))~~ once the requirements and period of time specified in this chapter ~~((unless the dealer is notified of an investigative hold under subsection (5) of this section in writing by the chief of police of the municipality, the sheriff of the county, or the state, whichever is applicable, or of the denial of the purchaser's application to purchase and the grounds thereof))~~ are satisfied. The application shall not be denied unless the purchaser is not eligible to purchase or possess the firearm under state or federal law or has not complied with the requirements of this section.

~~((d))~~ (e) The ~~((chief of police of the municipality or the sheriff of the county, or the state pursuant to subsection (3)(b) of this section,))~~ Washington state patrol firearms background check program shall retain or destroy applications to purchase a ~~((pistol or semiautomatic assault rifle))~~ firearm in accordance with the requirements of 18 U.S.C. (b) The fee under (a) of this subsection shall be no more than is necessary to fund the following:

(i) The state for the cost of meeting its obligations under this section;

(ii) The health care authority, mental health institutions, and other health care facilities for state mandated costs resulting from the reporting requirements imposed by RCW 9.41.097(1); and

Sec. 3. RCW 9.41.047 and 2020 c 302 s 60 are each amended to read as follows:

(1)(a) At the time a person is convicted or found not guilty by reason of insanity of an offense making the person ineligible to possess a firearm under state or federal law, including if the person was convicted of possession under RCW 69.50.4011, 69.50.4013, 69.50.4014, or 69.41.030, or at the time a person is committed by court order under RCW 71.05.240, 71.05.320, 71.34.740, 71.34.750, or chapter 10.77 RCW for mental health treatment, or at the time that charges are dismissed based on incompetency to stand trial under RCW 10.77.088 and the court makes a finding that the person has a history of one or more violent acts, the convicting or committing court, or court that dismisses charges, shall notify the person, orally and in writing, that the person must immediately surrender any concealed pistol license and that the person may not possess a firearm unless his or her right to do so is restored by a court of record. For purposes of this section a convicting court includes a court in which a person has been found not guilty by reason of insanity.

(b) The court shall forward within three judicial days after conviction, entry of the commitment order, or dismissal of charges, a copy of the person's driver's license or identicard, or comparable information such as their name, address, and date of birth, along with the date of conviction or commitment, or date charges are dismissed, to the department of licensing and to the Washington state patrol firearms background check program. When a person is committed by court order under RCW 71.05.240, 71.05.320, 71.34.740, 71.34.750, or chapter 10.77 RCW, for mental health treatment, or when a person's charges are dismissed based on incompetency to stand trial under RCW 10.77.088 and the court makes a finding that the person has a history of one or more violent acts, the court also shall forward, within three judicial days after entry of the commitment order, or dismissal of charges, a copy of the person's driver's license, or comparable information, along with the date of commitment or date charges are dismissed, to the national instant criminal background check system index, denied persons file, created by the federal Brady handgun violence prevention act (P.L. 103-159). The petitioning party shall provide the court with the information required. If more than one commitment order is entered under one cause number, only one notification to the department of licensing, the Washington state patrol firearms background check program, and the national instant criminal background check system is required.

(2) Upon receipt of the information provided for by subsection (1) of this section, the department of licensing shall determine if the convicted or committed person, or the person whose charges

are dismissed based on incompetency to stand trial, has a concealed pistol license. If the person does have a concealed pistol license, the department of licensing shall immediately notify the license-issuing authority which, upon receipt of such notification, shall immediately revoke the license.

(3)(a) A person who is prohibited from possessing a firearm, by reason of having been involuntarily committed for mental health treatment under RCW 71.05.240, 71.05.320, 71.34.740, 71.34.750, chapter 10.77 RCW, or equivalent statutes of another jurisdiction, or by reason of having been detained under RCW 71.05.150 or 71.05.153, or because the person's charges were dismissed based on incompetency to stand trial under RCW 10.77.088 and the court made a finding that the person has a history of one or more violent acts, may, upon discharge, petition the superior court to have his or her right to possess a firearm restored.

(b) The petition must be brought in the superior court that ordered the involuntary commitment or dismissed the charges based on incompetency to stand trial or the superior court of the county in which the petitioner resides.

(c) Except as provided in (d) and (e) of this subsection, the court shall restore the petitioner's right to possess a firearm if the petitioner proves by a preponderance of the evidence that:

(i) The petitioner is no longer required to participate in court-ordered inpatient or outpatient treatment;

(ii) The petitioner has successfully managed the condition related to the commitment or detention or incompetency;

(iii) The petitioner no longer presents a substantial danger to himself or herself, or the public; and

(iv) The symptoms related to the commitment or detention or incompetency are not reasonably likely to recur.

(d) If a preponderance of the evidence in the record supports a finding that the person petitioning the court has engaged in violence and that it is more likely than not that the person will engage in violence after his or her right to possess a firearm is restored, the person shall bear the burden of proving by clear, cogent, and convincing evidence that he or she does not present a substantial danger to the safety of others.

(e) If the petitioner seeks restoration after having been detained under RCW 71.05.150 or 71.05.153, the state shall bear the burden of proof to show, by a preponderance of the evidence, that the petitioner does not meet the restoration criteria in (c) of this subsection.

SUBSTITUTE HOUSE BILL NO. 1460, by House Committee on Capital Budget (originally sponsored by Hackney, Waters, Simmons, Kloba, Pollet, Davis and Macri)

Concerning the department of natural resources land transactions, revenue distributions, and creation and management of a trust land transfer program.

The measure was read the second time.

MOTION

Senator Rolfes moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that some state lands and state forestlands have a low potential for natural resource management or low income-generating potential or are inefficient for the department of natural resources to manage due to geographic location or other factors.

(2) The legislature further finds that some of these lands have high ecological values and public benefits and should be maintained in public ownership as a park, open space, nature preserve, or similar designation to benefit the people of Washington.

(3) The legislature further finds that the department of natural resources needs an effective program to transfer these lands out of trust status to the natural areas program, other public agencies, or tribes, and simultaneously acquire legislative funding to acquire productive replacement lands to improve the revenue-generating performance of the state lands and state forestlands it manages.

(4) The legislature further finds that the trust land transfer program should be established within the department of natural resources with adequate funds to cover the department's expenses for administering the program and completing trust land transfers.

(5) The legislature further finds that there exists an interest by the public and trust beneficiaries that the program be well-documented and transparent, that each potential transfer be examined by the department of natural resources to ensure it is in the best interests of the trust beneficiaries, that an external advisory committee place proposed transfers into a prioritized order using standardized criteria, that the board of natural resources approve submission of the list to the legislature, and that parcels be transferred in order of priority.

NEW SECTION. Sec. 2. (1) The department is authorized to create and manage a trust land transfer program. Real property available for the trust land transfer program is economically under-performing state land and state forestland with high ecological or public benefit and deemed appropriate for state parks, fish and wildlife habitats, natural area preserves, natural resources conservation areas, community forests, recreation, or other public purposes.

(2) Underperforming state land and state forestland is land that the department determines has limited potential to generate income in the reasonably foreseeable future due to physical, legal, or access constraints. The department may use the real property transfer authorities under this chapter and chapter 79.22 RCW, as appropriate, to complete transfers under the trust land transfer program.

(3) The department shall use legislative appropriations for approved trust land transfers to acquire replacement real property that will provide long-term, sustainable revenue to the trust beneficiaries or is otherwise desirable to be added to the affected

trust and to pay for the department's administrative expenses to complete the transfer, including the cost of department staff time, appraisals, surveys, environmental reviews, and other similar costs of the program.

(4) Transfers funded by legislative appropriation must be at fair market value, including the value of land, timber, other valuable materials, and improvements owned by the state. The legislative appropriation must be deposited in the natural resources real property replacement account created in RCW 79.17.210 and the parkland trust revolving fund established in RCW 43.30.385, as appropriate.

(5) The department shall prioritize the acquisition of working farms and forests when acquiring replacement real property for state lands transferred under this program when it can be demonstrated that the trust fiduciary obligations can be better fulfilled with these lands. The department shall endeavor to acquire replacement real property as quickly as practicable.

(6) The department shall only submit real properties for trust land transfers to the board or legislature through the process created in section 3 of this act if at least 50 percent of all previous appropriations provided after the effective date of this section for purchase of replacement lands for the trust land transfer program have been utilized to purchase replacement trust lands. The list of properties submitted to the board or legislature for possible trust land transfers through the process created in section 3 of this act may not exceed \$30,000,000 in total property value for each year the list is submitted.

NEW SECTION. Sec. 3. The department shall administer the trust land transfer program as follows:

(1) Any citizen, state and federal agencies, counties, cities, towns, tribes, nonprofit organizations, special purpose districts, public development authorities, and other political subdivisions of the state, may nominate a parcel of state land or state forestland for the trust land transfer program. The nomination must be made to the department on forms provided by the department and accompanied by the fee provided under RCW 79.02.250.

(2) The department shall perform an initial review to determine whether the transfer of a nominated parcel is in the best interest of the trust for which the land is held and whether a public agency, as defined in RCW 79.17.200, is willing to take ownership of the parcel and is capable of managing the land for the public benefit. The department may require prenomination review of parcels over 4,500 acres or parcels over an estimated appraised market value of \$15,000,000, including the value of the land, valuable materials, and improvements, if any.

(3) If the department determines through its initial review that transfer would be in the best interest of the trust for which the land is held and a public agency is willing and able to take ownership and manage the land, the department shall consult with potentially affected tribes, consistent with the department's consultation policy to identify and address cultural resource issues.

(4) Following the department's initial review and tribal consultation, the department may submit parcels to an advisory committee that shall evaluate and prioritize nominated parcels according to criteria approved by the board, including social, ecological, economic, and other values. The advisory committee may include representatives of trust beneficiaries, public agencies, tribes, overburdened communities, and vulnerable populations as defined in chapter 70A.02 RCW, and other stakeholders as determined by the department.

(5) The department, with approval of the board, shall determine the final, prioritized list of trust land transfer parcels to submit to the legislature for funding. If a legislative appropriation includes the full fair market value for the trust land transfer

NINETIETH DAY, APRIL 8, 2023

parcel, and the board determines that the transfer is in the best interest of the trust for which the land is held, the department shall complete the transfer.

Sec. 4. RCW 79.17.020 and 2013 2nd sp.s. c 19 s 7035 are each amended to read as follows:

(1) The board of county commissioners of any county and/or the mayor and city council or city commission of any city or town and/or the board shall have authority to exchange, each with the other, or with the federal forest service, the federal government or any proper agency thereof and/or with any private landowner, county land of any character, land owned by municipalities of any character, and state forestland owned by the state under the jurisdiction of the department, for real property of equal value for the purpose of consolidating and blocking up the respective landholdings of any county, municipality, the federal government, or the state of Washington or for the purpose of obtaining lands having commercial recreational leasing potential. The board shall also have the authority to exchange state forestland for the purpose of obtaining land with greater natural resource or income-producing potential, when in the best interest of the state or affected trust. State forestland exchanged under this section may not be used to reduce the publicly owned forestland base.

~~(2)((a) During the biennium ending June 30, 2013, for the purposes of maintaining working farm and forest landscapes or acquiring natural resource lands at risk of development, the department, with approval of the board of natural resources, may exchange any state land and any timber thereon for any land and proceeds of equal value, when it can be demonstrated that the trust fiduciary obligations can be better fulfilled after an exchange is completed. Proceeds may be in the form of cash or services in order to achieve the purposes established in this section. Any cash received as part of an exchange transaction shall be deposited in the forest development account to pay for administrative expenses incurred in carrying out an exchange transaction. These administrative expenses include road maintenance and abandonment expenses. The amount of proceeds received from the exchange partner may not exceed five percent of the total value of the exchange. The receipt of proceeds shall not change the character of the transaction from an exchange to a sale.~~

~~(b) During the biennium ending June 30, 2015, for the purposes of maintaining working farm and forest landscapes or acquiring natural resource lands at risk of development, the department, with approval of the board of natural resources, may exchange any state land and any timber thereon for any land and proceeds of equal value, when it can be demonstrated that the trust fiduciary obligations can be better fulfilled after an exchange is completed. Proceeds may be in the form of cash or services in order to achieve the purposes established in this section. Any cash received as part of an exchange transaction shall be deposited in the forest development account to pay for administrative expenses incurred in carrying out an exchange transaction. These administrative expenses include road maintenance and abandonment expenses. The amount of proceeds received from the exchange partner may not exceed five percent of the total value of the exchange. The receipt of proceeds shall not change the character of the transaction from an exchange to a sale.~~

~~(3))~~ Prior to executing an exchange under this section, and in addition to the public notice requirements set forth in RCW 79.17.050, the department shall consult with legislative members, other state and federal agencies, local governments, tribes, local stakeholders, conservation groups, and any other interested parties to identify and address cultural resource issues, and the

potential of the state lands proposed for exchange to be used for open space, park, school, or critical habitat purposes.

Sec. 5. RCW 79.17.210 and 2018 c 298 s 7005 are each amended to read as follows:

(1) The legislature finds that the department has a need to maintain the real property asset base it manages and needs an accounting mechanism to complete transactions without reducing the real property asset base.

(2) The natural resources real property replacement account is created in the state treasury. This account shall consist of funds, including the value of land, timber, other valuable materials, and improvements owned by the state, transferred or paid for the disposal or transfer of real property by the department under RCW 79.17.200 and the transfer of state lands or state forestlands into community forest trust lands under RCW 79.155.040. The funds in this account shall be used solely for the acquisition of replacement real property and may be spent only when, and as, authorized by legislative appropriation. ~~((During the 2013 2015 fiscal biennium, funds in the account may also be appropriated for the land purchase in section 3245, chapter 19, Laws of 2013 2nd sp. sess. under the provisions of section 3245, chapter 19, Laws of 2013 2nd sp. sess. and chapter 11, Laws of 2013 2nd sp. sess. ~~((4))~~ (3)(a) Except as provided in ((b) of) this subsection, the proceeds from real property transferred or disposed of under this section shall be deposited into the parkland trust revolving fund and be solely used to buy replacement ((land within the same county as the property transferred or disposed)) forestland for the benefit of the county from which the property was

The money distributed to the county must be paid, distributed, and prorated to the various other funds in the same manner as general taxes are paid and distributed during the year of payment.

(2) A school district may transfer amounts deposited in its debt service fund pursuant to this section into its capital projects fund as authorized in RCW 28A.320.330.

Sec. 9. RCW 79.19.020 and 2003 c 334 s 526 are each amended to read as follows:

The department, with the approval of the board, may purchase property at fair market value to be held in a land bank, which is hereby created within the department. Property so purchased shall be property which would be desirable for addition to the public lands of the state because of the potential for natural resource or income production of the property. ~~((The total acreage held in the land bank shall not exceed one thousand five hundred acres.))~~

Sec. 10. RCW 79.19.030 and 2004 c 199 s 215 are each amended to read as follows:

The department, with the approval of the board, may:

(1) Exchange property held in the land bank for any other lands of equal value administered by the department, including ~~((any))~~ state lands (held in trust) and state forestlands;

(2) Exchange property held in the land bank for property of equal or greater value which is owned publicly or privately, and which has greater potential for natural resource or income production or which could be more efficiently managed by the department, however, no power of eminent domain is hereby granted to the department; ~~((and))~~

(3) ~~((Sell property held in the land bank in the manner provided by law for the sale of state lands))~~ Except as provided in subsection (4) of this section, sell property that has been exchanged into and is held in the land bank as provided under RCW 79.11.340 without any requirement of platting and ((to)) use the proceeds to acquire property for the land bank which has greater potential for natural resource or income production or which would be more efficiently managed by the department; and

(4) If a department lessee owns and resides in a house located on land that has been exchanged into and is held in the land bank, sell the land directly to the lessee for the appraised fair market value of the land and use the proceeds of the sale as provided in subsection (3) of this section. If the lessee does not purchase the

land for the appraised fair market value, the department shall sell the land as provided under subsection (3) of this section.

Sec. 11. RCW 79.11.340 and 2003 c 334 s 399 are each amended to read as follows:

(1) Except as provided in RCW 79.10.030(2), the department shall manage and control all lands acquired by the state by escheat, deed of sale, gift, devise, or under RCW 79.19.010 through 79.19.110, except such lands that are conveyed or devised to the state for a particular purpose.

(2) ~~((When))~~ Except as provided in RCW 79.19.030(4), when the department determines to sell the lands, they ((shall)) may initially be offered for sale either at public auction or direct ((sale)) transfer to public agencies as provided in this chapter.

(3) ~~((If the lands are not sold at public auction, the))~~ The department may, with approval of the board, market the lands through persons licensed under chapter 18.85 RCW or through other commercially feasible means at a price not lower than the land's appraised value.

(4) Necessary marketing costs may be paid from the sale proceeds. For the purpose of this subsection, necessary marketing costs include reasonable costs associated with advertising the property and paying commissions.

(5) Proceeds of the sale shall be deposited into the appropriate fund in the state treasury unless the grantor in any deed or the testator in case of a devise specifies that the proceeds of the sale be devoted to a particular purpose.

Sec. 12. RCW 79.22.140 and 2012 c 166 s 3 are each amended to read as follows:

(1) The board may create a state forestland pool, to be managed in accordance with this section, if the board determines that creation of a land pool is in the best interest of the state or affected trust, based on an analysis prepared by the department under RCW 79.22.150. ~~((The land pool may not contain more than ten thousand acres of state forestland at any one time.))~~

(2) A county is eligible to participate in a land pool if the board determines it((:

(a) ~~Has a population of twenty five thousand or less; and~~

(b) ~~Has))~~ has existing state forestlands encumbered with timber harvest deferrals, associated with wildlife species listed under the federal endangered species act, more than ((thirty)) 30 years in length.

(3) All lands in the land pool are state forestlands and must be managed in the same manner and with the same responsibilities as other state forestlands. Proceeds from the state forestland pool must, except as provided in RCW 79.64.110, be distributed under RCW 79.22.010 and 79.22.040.

(4)(a) A county may participate in the land pool only if it is eligible, as determined under subsection (2) of this section, and the board receives a written request to do so by the legislative authority of that county.

(b) The board shall end any further participation of a county in the land pool if it receives a written request to do so by the legislative authority of that county. If the board receives such a request, that county's interest in the land pool as a beneficiary remains, but no new contributions of asset value may be made to the land pool on behalf of the county and no new lands may be purchased in that county for the land pool.

(5)(a) If a land pool is created by the board, the department and the participating counties must develop a funding strategy for acquiring land to include in the land pool.

(b) The department and participating counties may pursue funding for the transfer of state forestland encumbered by long-term wildlife-related harvest deferrals within the participating counties into status as a natural area preserve under chapter 79.70 RCW or a natural resources conservation area

under chapter 79.71 RCW, and use the value of the transferred land to acquire working forestlands to include in the land pool.

(c) The department and participating counties may pursue other land acquisition funding strategies.

(6) The department may acquire replacement state forestland located outside of counties participating in a state forestland pool when the department has transferred some or all of the encumbered state forestlands of the counties to natural area status under chapter 79.70 or 79.71 RCW.

(a) Counties participating in a state forestland pool that desire to have the department acquire replacement lands in a designated county not included in the state forestland pool shall provide the department an agreement entered with the designated county that meets the following requirements:

(i) The designated county shall not object to forest practices undertaken on the replacement state forestland in conformity with all applicable laws and rules;

(ii) The counties participating in the state forestland pool acknowledge that they shall pass through the payment in lieu of taxes to which they are entitled, under RCW 79.70.130 or 79.71.130, to the designated county in which replacement lands are purchased, on an acre for acre basis;

(iii) If the designated county desires to terminate the agreement, the designated county shall be required to pay the department the fair market value of the replacement forestlands, including the value of valuable materials attached to the lands, at the time of termination based on an appraisal accepted by the department and approved by the board; and

(iv) The board of county commissioners for the designated county and each county participating in the state forestland pool approves the agreement in the manner provided by RCW 42.30.060.

(b) When the department receives an agreement meeting the requirements of (a) of this subsection, the department shall make reasonable efforts to acquire working forestlands within the designated county to include in the state forestland pool.

(c) The counties participating in the state forestland pool shall pass through the payment in lieu of taxes to which they are entitled under RCW 79.70.130 or 79.71.130, based on the encumbered state forestlands within their counties transferred to natural area status, to the designated county in which the replacement state forestlands are located, on an acre for acre basis.

(d) Whenever the board of county commissioners of the county in which the replacement state forestlands are located determines to terminate the agreement described in (a) of this subsection, the board of county commissioners shall notify the department and the counties participating in the state forestland pool. The department shall transfer the replacement state forestlands to the county upon receipt of the fair market value of the lands, including the value of valuable materials attached to the lands, as determined by appraisal and approved by the board. The proceeds shall be placed in the parkland trust revolving fund and be solely used by the department to buy replacement land within the counties participating in the subject state forestland pool or another county with which the participating counties have entered an agreement under (a) of this subsection.

(e) The authority provided by this subsection to acquire replacement state forestlands located outside of the counties participating in a state forestland pool does not preclude the department from acquiring replacement lands within the counties participating in the state forestland pool as necessary to fully replace the encumbered state forestlands transferred under RCW 79.22.060(1)(b).

Sec. 13. RCW 79.19.050 and 2003 c 334 s 529 are each amended to read as follows:

~~((The legislature may authorize appropriation of funds from the forest development account or the resource management cost account for the purposes of this chapter.))~~ Income from the sale ~~((or management))~~ of property in the land bank shall be ~~((returned as a recovered expense to the forest development account or the resource management cost account))~~ deposited in the land bank account created in section 14 of this act and may be used to acquire property under RCW 79.19.020.

NEW SECTION. Sec. 14. A new section is added to chapter 79.19 RCW to read as follows:

The land bank account is created in the state treasury. To this account shall be deposited such funds as the legislature directs or appropriates. Expenditures from this account may be used only to acquire property under RCW 79.19.020. Expenditures from this account may be made only after appropriation.

MOTION

Senator Nguyen moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** STATEMENT OF LEGISLATIVE INTENT. (1) The legislature finds that efficient and effective siting and permitting of new clean energy projects throughout Washington is necessary to: Fight climate change and achieve the state's greenhouse gas emission limits; improve air quality; grow family-wage clean energy jobs and innovative clean energy businesses that provide economic benefits across the state; and make available secure domestic sources of the clean energy products needed to transition off fossil fuels.

(2) The legislature intends to: Enable more efficient and effective siting and permitting of clean energy projects with policies and investments that protect the environment, overburdened communities, and tribal rights, interests, and resources, including cultural resources; bring benefits to the communities that host clean energy projects; and facilitate the rapid transition to clean energy that is required to avoid the worst impacts of climate change on Washington's people and places. There is no single solution for improved siting and permitting processes. Rather, a variety of efforts and investments will help

bring together state, local, tribal, and federal governments, communities, workers, clean energy project developers, and others to succeed in this essential task. The legislature intends to make biennial appropriations to support tribal review of clean energy project proposals, permit applications, and environmental reviews, as well as tribal participation in up-front planning for clean energy projects, such as nonproject environmental impact statements for clean energy projects as described in this act.

(3) Efficient and effective siting and permitting will benefit from early and meaningful community and tribal engagement, and from up-front planning including identification of areas of higher and lower levels of impact, and nonproject environmental review that identifies measures to avoid, minimize, and mitigate project impacts.

(4) Incorporating the principles and strategies identified in subsections (1), (2), and (3) of this section, the legislature intends to invest in, facilitate, and require better coordinated, faster environmental review and permitting decisions by state and local governments.

(5) Therefore, it is the intent of the legislature to support efficient, effective siting and permitting of clean energy projects through a variety of interventions, including:

(a) Establishing an interagency clean energy siting coordinating council to improve siting and permitting of clean energy projects;

(b) Creating a designation for clean energy projects of statewide significance;

(c) Creating a fully coordinated permit process for clean energy projects;

(d) Improving processes for review of clean energy projects under the state environmental policy act;

(e) Requiring preparation of separate nonproject environmental impact statements for green electrolytic and renewable hydrogen projects and colocated battery energy storage facilities, onshore utility-scale wind energy projects and colocated battery energy storage facilities, and for solar energy projects and colocated battery energy storage facilities, with the goal of preparing these nonproject reviews by June 30, 2025; and

(f) Requiring the Washington State University energy program to complete by June 30, 2025, a siting information process for pumped storage projects in Washington.

PART 1

INTERAGENCY CLEAN ENERGY SITING COORDINATING COUNCIL

NEW SECTION. Sec. 101. INTERAGENCY CLEAN ENERGY SITING COORDINATING COUNCIL. (1) The interagency clean energy siting coordinating council is created. The coordinating council is cochaired by the department of commerce and the department of ecology with participation from the following:

- (a) The office of the governor;
- (b) The energy facility site evaluation council;
- (c) The department of fish and wildlife;
- (d) The department of agriculture;

- (g) The department of natural resources;
- (h) The department of transportation;
- (i) The utilities and transportation commission;
- (j) The governor's office for regulatory innovation and assistance;

(k) Staff from the environmental justice council; and

(l) Other state and federal agencies invited by the department of commerce and the department of ecology with key roles in siting clean energy to participate on an ongoing or ad hoc basis.

(2) The department of commerce and department of ecology shall assign staff in each agency to lead the coordinating council's work and provide ongoing updates to the governor and appropriate committees of the legislature, including those with jurisdiction over the environment, energy, or economic development policy.

(3) For purposes of this section and section 102 of this act, "coordinating council" means the interagency clean energy siting coordinating council created in this section.

NEW SECTION. Sec. 102. INTERAGENCY CLEAN ENERGY SITING COORDINATING COUNCIL DUTIES.

(1) The responsibilities of the coordinating council include, but are not limited to:

(a) Identifying actions to improve siting and permitting of clean energy projects as defined in section 201 of this act, including through review of the recommendations of the department of ecology and department of commerce's 2022 *Low Carbon Energy Facility Siting Improvement Report*, creating implementation plans and timelines, and making recommendations for needed funding or policy changes;

(b) Tracking federal government efforts to improve clean energy project siting and permitting, including potential federal funding sources, and identifying state agency actions to improve coordination across state, local, and federal processes or to pursue supportive funding;

(c) Conducting outreach to parties with interests in clean energy siting and permitting for ongoing input on how to improve state agency processes and actions;

(d) Establishing work groups as needed to focus on specific energy types such as solar, wind, battery storage, or emerging technologies, or specific geographies for clean energy project siting;

(e) The creation of advisory committees deemed necessary to inform the development of items identified in (a) through (d) of this subsection;

(f) Supporting the governor's office of Indian affairs in creating and updating annually, or when requested by a federally recognized Indian tribe, a list of contacts at federally recognized Indian tribes, applicable tribal laws on consultation from federally recognized Indian tribes, and tribal preferences regarding outreach about clean energy project siting and permitting, such as outreach by developers directly, by state government in the government-to-government relationship, or both;

(g) Supporting the department of archaeology and historic preservation, the governor's office of Indian affairs, the department of commerce, and the energy facility site evaluation council in developing and providing to clean energy project developers a training on consultation and engagement processes for federally recognized Indian tribes. The governor's office of Indian affairs must collaborate with federally recognized Indian tribes in the development of the training;

(h) Supporting the department of archaeology and historic preservation in updating the statewide predictive archaeological model to provide clean energy project developers information about where archaeological resources are likely to be found and the potential need for archaeological investigations; and

(i) Supporting and promptly providing information to the department of ecology in support of the nonproject reviews required under section 303 of this act.

(2) The coordinating council shall provide an annual report beginning October 1, 2024, to the governor and the appropriate committees of the legislature summarizing: Progress on efficient, effective, and responsible siting and permitting of clean energy projects; areas of additional work, including where clean energy

NINETIETH DAY, APRIL 8, 2023

project siting and permitting outcomes are not broadly recognized as efficient, effective, or responsible; resource needs; recommendations for future nonproject environmental impact statements for categories of clean energy projects; and any needed policy changes to help achieve the deployment of clean energy necessary to meet the state's statutory greenhouse gas emissions limits, chapter 70A.45 RCW, and the clean energy transformation act requirements, chapter 19.405 RCW, and to support achieving the state energy strategy adopted by the department of commerce.

(3) The coordinating council shall:

(a) Advise the department of commerce in:

(i) Contracting with an external, independent third party to:

(A) Carry out an evaluation of state agency siting and permitting processes for clean energy projects and related federal and state regulatory requirements, including the energy facility site evaluation council permitting process authorized in chapter 80.50 RCW;

(B) Identify successful models used in other states for the siting and permitting of projects similar to clean energy projects, including local and state government programs to prepare build ready clean energy sites; and

(C) Develop recommendations for improving these processes, including potential policy changes and funding, with the goal of more efficient, effective siting of clean energy projects; and

(ii) Reporting on the evaluation and recommendations in (a)(i) of this subsection to the governor and the legislature by July 1, 2024;

(b) Pursue development of a consolidated clean energy application similar to the joint aquatic resources permit application for, at a minimum, state permits needed for clean energy projects. The department of ecology shall lead this effort and engage with federal agencies and local governments to explore inclusion of federal and local permit applications as part of the consolidated application. The department may design a single consolidated application for multiple clean energy project types, may design separate applications for individual clean energy technologies, or may design an application for related resources. The department of ecology shall provide an update on its development of consolidated permit applications for clean energy projects to the governor and legislature by December 31, 2024. The consolidated permit application process must be available, but not required, for clean energy projects;

(c) Explore development of a consolidated permit for clean energy projects. The department of ecology shall lead this effort and, in consultation with federally recognized Indian tribes, explore options including a clean energy project permit that consolidates department of ecology permits only, or that consolidates permits from multiple state and local agencies. The permit structure must identify criteria or conditions that must be met for projects to use the consolidated permit. The department of ecology may analyze criteria or conditions as part of a nonproject review under chapter 43.21C RCW. The department of ecology shall update the legislature on its evaluation of consolidated permit options and make recommendations by October 1, 2024;

(d) Determine priorities for categories of clean energy projects to be the focus of new nonproject environmental impact statements under chapter 43.21C RCW for the legislature to fund subsequent to the nonproject environmental impact statements specified in section 302 of this act; and

(e) Consider and provide recommendations to the legislature on additional benefits that could be provided to projects designated as clean energy projects of statewide significance under section 203 of this act.

NEW SECTION. Sec. 202. CLEAN ENERGY PROJECTS OF STATEWIDE SIGNIFICANCE—APPLICATION PROCESS. (1) The department of commerce shall develop an application for the designation of clean energy projects as clean energy projects of statewide significance.

(2) An application to the department of commerce by an applicant under this section must include:

(a) Information regarding the location of the project;

(b) Information sufficient to demonstrate that the project qualifies as a clean energy project;

(c) An explanation of how the project is expected to contribute to the state's achievement of the greenhouse gas emission limits in chapter 70A.45 RCW and is consistent with the state energy strategy adopted by the department of commerce, as well as any contribution that the project is expected to make to other state regulatory requirements for clean energy and greenhouse gas emissions, including the requirements of chapter 19.405, 70A.30, 70A.60, 70A.65, 70A.535, or 70A.540 RCW;

(d) An explanation of how the project is expected to contribute to the state's economic development goals, including information regarding the applicant's average employment in the state for the prior year, estimated new employment related to the project, estimated wages of employees related to the project, and estimated time schedules for completion and operation;

(e) A plan for engagement and information sharing with potentially affected federally recognized Indian tribes;

(f) A description of potential community benefits and impacts from the project, a plan for community engagement in the project development, and an explanation of how the applicant might use a community benefit agreement or other legal document that stipulates the benefits that the developer agrees to fund or furnish, in exchange for community support of a project; and

(g) Other information required by the department of commerce.

NEW SECTION. Sec. 203. CLEAN ENERGY PROJECTS OF STATEWIDE SIGNIFICANCE—DEPARTMENT OF COMMERCE DECISION. (1)(a) The department of commerce, in consultation with natural resources agencies and other state agencies identified as likely to have a role in siting or permitting a project, must review applications received under section 202 of this act. Within 14 business days of receiving the application, the department of commerce must mail or provide in person a written determination that the application is complete, or if the application is incomplete, an opportunity to meet with the department of commerce to determine what is necessary to make the application complete. Within seven business days after an applicant has submitted additional information identified by the department of commerce as being necessary for a complete application, the department of commerce must notify the applicant whether the application is complete or what additional information is necessary.

(b) When the application is complete, the director of the department of commerce must determine within 60 business days whether to designate an applicant's project as a clean energy project of statewide significance.

(c) A determination of completeness does not preclude the department of commerce from requesting additional information

NINETIETH DAY, APRIL 8, 2023

if new information is required or substantial changes in the proposed project occur.

(2) The department of commerce may designate a clean energy project of statewide significance taking into consideration:

- (a) Whether the project qualifies as a clean energy project;
- (b) Whether the project will: Contribute to achieving state emission reduction limits under chapter 70A.45 RCW; be consistent with the state energy strategy adopted by the department of commerce; contribute to achieving other state requirements for clean energy and greenhouse gas emissions reductions; and support the state's economic development goals;
- (c) Whether the level of applicant need for coordinated state assistance, including for siting and permitting and the complexity of the project, warrants the designation of a project;
- (d) Whether the project is proposed for an area or for a clean energy technology that has been reviewed through a nonproject environmental review process, or least-conflict siting process including, but not limited to, the processes identified in sections 303 and 306 of this act, and whether the project is consistent with the recommendations of such processes;

(e) Whether the project is anticipated to have potential near-term or long-term significant positive or adverse impacts on environmental and public health, including impacts to:

- (i) State or federal endangered species act listed species in Washington;
 - (ii) Overburdened communities; and
 - (iii) Rights, interests, and resources, including tribal cultural resources, of potentially affected federally recognized Indian tribes; and
- (f) Input received from potentially affected federally recognized Indian tribes, which the department must solicit and acknowledge the receipt of.

(3) In determining whether to approve an application, the department of commerce must consider information contained in an application under section 202 of this act demonstrating an applicant's tribal outreach and engagement, engagement with the department of archaeology and historic preservation, and engagement with the governor's office of Indian affairs.

(4)(a) The department of commerce may designate an unlimited number of projects of statewide significance that meet the criteria of this section.

(b) An applicant whose application to the department of commerce under this chapter is not successful is eligible to reapply.

NEW SECTION. Sec. 204. CLEAN ENERGY COORDINATED PERMITTING PROCESS—DEPARTMENT OF ECOLOGY DUTIES. An optional, fully coordinated permit process is established for clean energy projects that do not apply to the energy facility site evaluation council under chapter 80.50 RCW. In support of the coordinated permitting process for clean energy projects, the department of ecology must:

(1) Act as the central point of contact for the project proponent for the coordinated permitting process for projects that do not apply to the energy facility site evaluation council under chapter 80.50 RCW and communicate with the project proponent about defined issues;

(2) Conduct an initial assessment of the proposed project review and permitting actions for coordination purposes as provided in section 205 of this act;

(3) Ensure that the project proponent has been informed of all the information needed to apply for the state and local permits that are included in the coordinated permitting process;

(4) Facilitate communication between project proponents and agency staff to promote timely permit decisions and promote adherence to agreed schedules;

(5) Verify completion among participating agencies of administrative review and permit procedures, such as providing public notice;

(6) Assist in resolving any conflict or inconsistency among permit requirements and conditions;

(7) Consult with potentially affected federally recognized Indian tribes as provided in section 209 of this act in support of the coordinated permitting process;

(8) Engage with potentially affected overburdened communities as provided in section 209 of this act;

(9) Manage a fully coordinated permitting process; and

(10) Coordinate with local jurisdictions to assist with fulfilling the requirements of chapter 36.70B RCW and other local permitting processes.

NEW SECTION. Sec. 205. CLEAN ENERGY COORDINATED PERMITTING PROCESS INITIAL ASSESSMENT. (1) Upon the request of a proponent of a clean energy project, the department of ecology must conduct an initial assessment to determine the level of coordination needed, taking into consideration the complexity of the project and the experience of those expected to be involved in the project application and review process.

(2) The initial project assessment must consider the complexity, size, and need for assistance of the project and must address as appropriate:

- (a) The expected type of environmental review;
- (b) The state and local permits or approvals that are anticipated to be required for the project;
- (c) The permit application forms and other application requirements of the participating permit agencies;
- (d) The anticipated information needs and issues of concern of each participating agency; and

(e) The anticipated time required for the environmental review process under chapter 43.21C RCW and permit decisions by each participating agency, including the estimated time required to determine if the permit applications are complete, to conduct the environmental review under chapter 43.21C RCW, and conduct permitting processes for each participating agency. In determining the estimated time required, full consideration must be given to achieving the greatest possible efficiencies through any concurrent studies and any consolidated applications, hearings, and comment periods.

(3) The outcome of the initial assessment must be documented in writing, furnished to the project proponent, and be made available to the public.

(4) The initial assessment must be completed within 60 days of the clean energy project proponent's request to the department under this section, unless information on the project is not complete.

NEW SECTION. Sec. 206. CLEAN ENERGY COORDINATED PERMITTING PROCESS REQUIREMENTS AND PROCEDURES. (1) A project proponent may submit a written request to the department of ecology pursuant to section 208 of this act and a local government development agreement to support local government actions pursuant to section 207 of this act for participation in a fully coordinated permitting process. To be eligible to participate in the fully coordinated permit process:

- (a) The project proponent must:
 - (i) Enter into a cost-reimbursement agreement pursuant to section 208 of this act;
 - (ii) Provide sufficient information on the project and project site to identify probable significant adverse environmental impacts;
 - (iii) Provide information on any voluntary mitigation measures; and

(iv) Provide information on engagement actions taken by the proponent with federally recognized Indian tribes, local government, and overburdened communities; and

(b) The department of ecology must determine that the project raises complex coordination, permit processing, or substantive permit review issues.

(2) A project proponent who requests designation as a fully coordinated project must provide the department of ecology with a complete description of the project. The department of ecology may request any information from the project proponent that is necessary to make the designation under this section and may convene a meeting of the likely participating permit agencies.

(3) For a fully coordinated permitting process, the department of ecology must serve as the main point of contact for the project proponent and participating agencies with regard to coordinating the permitting process for the project as a whole. Each participating permit agency must designate a single point of contact for coordinating with the department of ecology. The department of ecology must keep a schedule identifying required procedural steps in the permitting process and highlighting substantive issues as appropriate that must be resolved in order for the project to move forward. In carrying out these responsibilities, the department of ecology must:

(a) Conduct the duties for the coordinated permitting process as described in section 205 of this act;

(b)(i) Reach out to tribal or federal jurisdictions responsible for issuing a permit for the project and invite them to participate in the coordinated permitting process or to receive periodic updates of the project;

(ii) Reach out to local jurisdictions responsible for issuing a permit for the project and inform them of their obligations under section 207 of this act.

(4) Within 30 days, or longer with agreement of the project proponent, of the date that the department of ecology determines a project is eligible for the fully coordinated permitting process, the department of ecology shall convene a work plan meeting with the project proponent, local government, and the participating permit agencies to develop a coordinated permitting process schedule. The work plan meeting agenda may include any of the following:

(a) Review of the permits that are anticipated for the project;

(b) A review of the permit application forms and other application requirements of the agencies that are participating in the coordinated permitting process;

(c) An estimation of the timelines that will be used by each participating permit agency to make permit decisions, including the estimated time periods required to determine if the permit applications are complete and to review or respond to each application or submittal of new information. In the development of this timeline, full attention must be given to achieving the maximum efficiencies possible through concurrent studies and consolidated applications, hearings, and comment periods; or

(d) An estimation of reasonable costs for the department of ecology, participating agencies, and the county, city, or town in which the project is proposed for environmental review and permitting, based on known information about the project.

(5) Each participating agency and the lead agency under chapter 43.21C RCW must send at least one representative qualified to discuss the applicability and timelines associated with all permits administered by that agency or jurisdiction to the work plan meeting. The department of ecology must notify any relevant federal agency or potentially affected federally recognized Indian tribe of the date of the meeting and invite them to participate in the process.

(6) Any accelerated time period for the consideration of a permit application or for the completion of the environmental review process under chapter 43.21C RCW must be consistent with any statute, rule, or regulation, or adopted state policy, standard, or guideline that requires the participation of other agencies, federally recognized Indian tribes, or interested persons in the application process.

(7) Upon the completion of the work plan meeting under subsection (4) of this section, the department of ecology must finalize the coordinated permitting process schedule, share it in writing with the project proponent, participating state agencies, lead agencies under chapter 43.21C RCW, and cities and counties subject to an agreement specified in section 207 of this act, and make the schedule available to the public.

(8) As part of the coordinated permit process, the developer may prepare a community benefit agreement or other similar document to identify how to mitigate potential community impacts or impacts to tribal rights and resources, including cultural resources. The agreement should include benefits in addition to jobs or tax revenues resulting from the project. Approval of any benefit agreement or other legal document stipulating the benefits that the developer agrees to fund or furnish, in exchange for community or tribal government support of the project, must be made by the local government legislative authority of the county, city, or town in which the project is proposed or by the relevant federally recognized Indian tribal government.

(9) If a lead agency under chapter 43.21C RCW, a permit agency, or the project proponent foresees, at any time, that it will be unable to meet the estimated timelines or other obligations under the schedule agreement, it must notify the department of ecology of the reasons for the delay and offer potential solutions or an amended timeline. The department of ecology must notify the participating agencies and the project proponent and, upon agreement of all parties, adjust the schedule or, if necessary, schedule another work plan meeting.

(10) The project proponent may withdraw from the coordinated permitting process by submitting to the department of ecology a written request that the process be terminated. Upon receipt of the request, the department of ecology must notify each participating agency that a coordinated permitting process is no longer applicable to the project.

(11)(a) Permitting decisions made by state and local jurisdictions under the fully coordinated permitting process in this chapter are considered final, subject to any appeals process available to applicants or other parties. Applicants utilizing the fully coordinated permitting process in this chapter are not eligible for permitting under chapter 80.50 RCW unless a substantial change is made to the proposed project.

(b) Prior to considering an application under chapter 80.50 RCW from a project applicant that has previously used the fully coordinated permitting process under this chapter for the project, the energy facility site evaluation council must determine that the project applicant has made a substantial change to the project, relative to the project as it was proposed under the fully coordinated permitting process.

NEW SECTION. Sec. 207. CLEAN ENERGY COORDINATED PERMITTING PROCESS—LOCAL JURISDICTION AGREEMENTS. (1)(a) Counties and cities with clean energy projects that are determined to be eligible for the fully coordinated permit process shall enter into an agreement with the department of ecology or with the project proponents of clean energy projects for expediting the completion of projects.

(b) For the purposes of this section, "expedite" means that a county or city will develop and implement a method to accelerate

NINETIETH DAY, APRIL 8, 2023

the process for permitting and environmental review. Expediting should not disrupt or otherwise delay the permitting and environmental review of other projects or require the county or city to incur additional costs that are not compensated.

(2) Agreements required by this section must include requirements that the county or city coordinate with the department of ecology and conduct environmental review and permitting to align with the work plan described in section 206(4) of this act and:

(a) Expedite permit processing for the design and construction of the project;

(b) Expedite environmental review processing;

(c) Expedite processing of requests for street, right-of-way, or easement vacations necessary for the construction of the project;

(d) Develop and follow a plan for consultation with potentially affected federally recognized Indian tribes; and

(e) Carry out such other actions identified by the department of ecology as needed for the fully coordinated permitting process.

NEW SECTION. Sec. 208. CLEAN ENERGY COORDINATED PERMITTING

PROCESS—COST-REIMBURSEMENT AGREEMENTS. (1) For a fully coordinated permitting process, a project proponent must enter into a cost-reimbursement agreement with the department of ecology in accordance with RCW 43.21A.690. The cost-reimbursement agreement is to recover reasonable costs incurred by the department of ecology and participating agencies in carrying out the coordinated permitting process.

(2) The cost-reimbursement agreement may include deliverables and schedules for invoicing and reimbursement.

(3) For a fully coordinated permitting process, a project proponent must enter into a development agreement with the county, city, or town in which the project is proposed, in accordance with the authorization and requirements in RCW 36.70B.170 through 36.70B.210. The development agreement must detail the obligations of the local jurisdiction and the project applicant. It must also include, but not be limited to, the process the county, city, or town will implement for meeting its obligation to expedite the application, other clarifications for project phasing, and an estimate of reasonable costs.

(4) For a fully coordinated permitting process, a project proponent may enter directly into a cost-reimbursement agreement similar to that described in subsection (1) of this section, to reimburse the costs of a federally recognized Indian tribe for reviewing and providing input on the siting and permitting of a clean energy project.

(5) If a project proponent foresees, at any time, that it will be unable to meet its obligations under the agreement, it must notify the department of ecology and state the reasons, along with proposals for resolution.

NEW SECTION. Sec. 209. CLEAN ENERGY COORDINATED PERMITTING PROCESS—TRIBAL

CONSULTATION AND OVERBURDENED COMMUNITY ENGAGEMENT. (1)(a) The department of ecology must offer early, meaningful, and individual consultation with any affected federally recognized Indian tribe on designated clean energy projects participating in the coordinated permitting process for the purpose of understanding potential impacts to tribal rights, interests, and resources, including tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which an Indian tribe or tribes possess rights reserved or protected by federal treaty, statute, or executive order. The consultation is independent of, and in addition to, any public participation process required by state law, or by a state agency. The goal of the consultation process is to support the coordinated permitting process by early

identification of tribal rights, interests, and resources, including tribal cultural resources, potentially affected by the project, and identifying solutions, when possible, to avoid, minimize, or mitigate any adverse effects on tribal rights, interests, or resources, including tribal cultural resources, based on environmental or permit reviews.

(b) At the earliest possible date after the initiation of the coordinated permitting process under this chapter, the department of ecology shall engage in a preapplication process with all affected federally recognized Indian tribes potentially impacted by the project.

(i) The department of ecology must notify the department of archaeology and historic preservation, the department of fish and wildlife, and all affected federally recognized Indian tribes potentially impacted by the project. The notification must include geographical location, detailed scope of the proposed project, preliminary proposed project details available to federal, state, or local governmental jurisdictions, and all publicly available materials.

(ii) The department of ecology must also offer to discuss the project with the department of archaeology and historic preservation, the department of fish and wildlife, and all affected federally recognized Indian tribes potentially impacted by the project. Any resultant discussions must include the project's impact to tribal rights, interests, and resources, including tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which a tribe or tribes possess rights reserved or protected by federal treaty, statute, or executive order.

(iii) All affected federally recognized Indian tribes may submit to the department of ecology a summary of tribal issues, questions, concerns, or other statements regarding the project, which must become part of the official files maintained by the department of ecology for the coordinated permitting process. The summary does not limit what issues affected federally recognized Indian tribes may raise in the consultation process.

(iv) The notification and offer to initiate discussion must be documented by the department of ecology and delivered to the department of archaeology and historic preservation, the department of fish and wildlife, and to the affected federally recognized Indian tribe or tribes. If the discussions pursuant to (b)(ii) of this subsection do not occur, the department of ecology must document the reason why the discussion or discussions did not occur.

(v) Nothing in this section may be interpreted to require the disclosure of information that is exempt from disclosure pursuant to RCW 42.56.300 or federal law, including section 304 of the national historic preservation act of 1966. Any information that is exempt from disclosure pursuant to RCW 42.56.300 or federal law, including section 304 of the national historic preservation act of 1966, shall not become part of publicly available coordinated permitting process files.

(2) The department of ecology must identify overburdened communities, as defined in RCW 70A.02.010, which may be potentially affected by clean energy projects participating in the coordinated permitting process. The department of ecology must verify these communities have been meaningfully engaged in the regulatory processes in a timely manner by participating agencies and their comments considered for determining potential impacts.

NEW SECTION. Sec. 210. MISCELLANEOUS. (1) Nothing in this chapter:

(a) Prohibits an applicant, a project proponent, a state agency, a local government, or a federally recognized Indian tribe from entering into a nondisclosure agreement to protect confidential

business information, trade secrets, financial information, or other proprietary information;

(b) Limits or affects other statutory provisions specific to any state agency related to that agency's procedures and protocols related to the identification, designation, or disclosure of information identified as confidential business information, trade secrets, financial information, or other proprietary information;

(c) Limits or affects the provisions of chapter 42.56 RCW as they apply to information or nondisclosure agreements obtained by a state agency under this chapter; or

(d) Relieves the responsible official under chapter 43.21C RCW for an action of the official's responsibilities under that chapter.

(2) The decisions by the department of commerce to designate a clean energy project of statewide significance must be made available to the public. Regardless of any exemptions otherwise set forth in RCW 42.56.270, publicly shared information must include the designee's name, a brief description of the project, the intended project location, a description of climate and economic development benefits to the state and communities therein, a tribal engagement plan, a community engagement plan, and a community benefit agreement if applicable.

(3) The department of commerce may terminate a designation of a clean energy project of statewide significance for reasons that include, but are not limited to, failure to comply with requirements of the designation or the emergence of new information that significantly alters the department of commerce's assessment of the applicant's application, project, or project proponent. The department of commerce must notify the applicant, project proponent, and the department of ecology of the termination in writing within 30 days.

(4) Nothing in this chapter affects the jurisdiction of the energy facility site evaluation council under chapter 80.50 RCW.

(5) This chapter does not limit or abridge the powers and duties granted to a participating permit agency under the law or laws that authorizes or requires the agency to issue a permit for a project. Each participating permit agency retains its authority to make all decisions on all substantive matters with regard to the respective component permit that is within its scope of its responsibility including, but not limited to, the determination of permit application completeness, permit approval or approval with conditions, or permit denial.

NEW SECTION. Sec. 211. A new section is added to chapter 80.50 RCW to read as follows:

Applicants utilizing the fully coordinated permitting process under chapter 43.--- RCW (the new chapter created in section 402 of this act) are not eligible for permitting under this chapter unless a substantial change is made to the proposed project. Prior to considering an application under this chapter from a project applicant that has previously used the fully coordinated permitting process under chapter 43.--- RCW (the new chapter created in section 402 of this act) for that project, the council must determine that the project applicant has made a substantial change to the project, relative to the project as it was proposed under the fully coordinated permitting process.

Sec. 212. RCW 80.50.140 and 1988 c 202 s 62 are each amended to read as follows:

(1)(a) The following decisions are subject to judicial review pursuant to the provisions of chapter 34.05 RCW and this section:

(i) A final decision pursuant to RCW 80.50.100 on an application for certification ~~((shall be subject to judicial review pursuant to provisions of chapter 34.05 RCW and this section))~~; or

(ii) A land use decision as defined in RCW 36.70C.020, a final decision on a permit or other similar approval required under

chapter 90.58 RCW, or any decision that would otherwise have been subject to the jurisdiction of the pollution control hearings board under RCW 43.21B.110, and which is necessary for a clean energy project as defined in section 201 of this act.

(b) Petitions for review of such a decision shall be filed in the Thurston county superior court. All petitions for review of a decision under RCW 80.50.100 or decision relating to any permit as set forth in this subsection for a clean energy project as defined in section 201 of this act shall be consolidated into a single proceeding before the Thurston county superior court. The Thurston county superior court shall certify the petition for review to the supreme court upon the following conditions:

~~((a))~~ (i) Review can be made on the administrative record;

~~((b))~~ (ii) Fundamental and urgent interests affecting the public interest and development of energy facilities are involved which require a prompt determination;

~~((c))~~ (iii) Review by the supreme court would likely be sought regardless of the determination of the Thurston county superior court; and

~~((d))~~ (iv) The record is complete for review.

The Thurston county superior court shall assign a petition for review of a decision under RCW 80.50.100 or a decision relating to any permit as set forth in this subsection (1) for a clean energy project as defined in section 201 of this act for hearing at the earliest possible date and shall expedite such petition in every way possible. If the court finds that review cannot be limited to the administrative record as set forth in ~~((subparagraph (a)))~~ (b)(i) of this subsection because there are alleged irregularities in the procedure before the council or other permitting authority not found in the record, but finds that the standards set forth in ~~((subparagraphs))~~ (b)(- (c), and (d)) (ii), (iii), and (iv) of this subsection are met, the court shall proceed to take testimony and determine such factual issues raised by the alleged irregularities and certify the petition and its determination of such factual issues to the supreme court. Upon certification, the supreme court shall assign the petition for hearing at the earliest possible date, and it shall expedite its review and decision in every way possible.

(2) Objections raised by any party in interest concerning procedural error by the council shall be filed with the council within ~~((sixty))~~ 60 days of the commission of such error, or within ~~((thirty))~~ 30 days of the first public hearing or meeting of the council at which the general subject matter to which the error is related is discussed, whichever comes later, or such objection shall be deemed waived for purposes of judicial review as provided in this section.

(3) The rules and regulations adopted by the council shall be subject to judicial review pursuant to the provisions of chapter 34.05 RCW.

Sec. 213. RCW 36.70C.030 and 2010 1st sp.s. c 7 s 38 are each amended to read as follows:

(1) This chapter replaces the writ of certiorari for appeal of land use decisions and shall be the exclusive means of judicial review of land use decisions, except that this chapter does not apply to:

(a) Judicial review of:

(i) Land use decisions made by bodies that are not part of a local jurisdiction;

(ii) Land use decisions of a local jurisdiction that are subject to review by a quasi-judicial body created by state law, such as the shorelines hearings board or the growth management hearings board;

(b) Judicial review of applications for a writ of mandamus or prohibition; ~~((c))~~

NINETIETH DAY, APRIL 8, 2023

(c) Claims provided by any law for monetary damages or compensation. If one or more claims for damages or compensation are set forth in the same complaint with a land use petition brought under this chapter, the claims are not subject to the procedures and standards, including deadlines, provided in this chapter for review of the petition. The judge who hears the land use petition may, if appropriate, preside at a trial for damages or compensation; or

(d) A land use decision relating to a clean energy project as defined in section 201 of this act and subject to the review proceedings set forth in RCW 80.50.140.

(2) The superior court civil rules govern procedural matters under this chapter to the extent that the rules are consistent with this chapter.

Sec. 214. RCW 90.58.180 and 2011 c 277 s 4 are each amended to read as follows:

(1) Any person aggrieved by the granting, denying, or rescinding of a permit on shorelines of the state pursuant to RCW 90.58.140 may seek review from the shorelines hearings board by filing a petition for review within ~~((twenty one))~~ 21 days of the date of filing of the decision as defined in RCW 90.58.140(6).

Within seven days of the filing of any petition for review with the board as provided in this section pertaining to a final decision of a local government, the petitioner shall serve copies of the petition on the department, the office of the attorney general, and the local government. The department and the attorney general may intervene to protect the public interest and ensure that the provisions of this chapter are complied with at any time within fifteen days from the date of the receipt by the department or the attorney general of a copy of the petition for review filed pursuant to this section. The shorelines hearings board shall schedule review proceedings on the petition for review without regard as to whether the period for the department or the attorney general to intervene has or has not expired.

(2) The department or the attorney general may obtain review of any final decision granting a permit, or granting or denying an application for a permit issued by a local government by filing a written petition with the shorelines hearings board and the appropriate local government within ~~((twenty one))~~ 21 days from the date the final decision was filed as provided in RCW 90.58.140(6).

(3) The review proceedings authorized in subsections (1) and (2) of this section are subject to the provisions of chapter 34.05 RCW pertaining to procedures in adjudicative proceedings. Judicial review of such proceedings of the shorelines hearings board is governed by chapter 34.05 RCW. The board shall issue its decision on the appeal authorized under subsections (1) and (2) of this section within ~~((one hundred eighty))~~ 180 days after the date the petition is filed with the board or a petition to intervene is filed by the department or the attorney general, whichever is later. The time period may be extended by the board for a period of ~~((thirty))~~ 30 days upon a showing of good cause or may be waived by the parties.

(4) Any person may appeal any rules, regulations, or guidelines adopted or approved by the department within ~~((thirty))~~ 30 days of the date of the adoption or approval. The board shall make a final decision within sixty days following the hearing held thereon.

(5) The board shall find the rule, regulation, or guideline to be valid and enter a final decision to that effect unless it determines that the rule, regulation, or guideline:

- (a) Is clearly erroneous in light of the policy of this chapter; or
- (b) Constitutes an implementation of this chapter in violation of constitutional or statutory provisions; or
- (c) Is arbitrary and capricious; or

(d) Was developed without fully considering and evaluating all material submitted to the department during public review and comment; or

(e) Was not adopted in accordance with required procedures.

(6) If the board makes a determination under subsection (5)(a) through (e) of this section, it shall enter a final decision declaring the rule, regulation, or guideline invalid, remanding the rule, regulation, or guideline to the department with a statement of the reasons in support of the determination, and directing the department to adopt, after a thorough consultation with the affected local government and any other interested party, a new rule, regulation, or guideline consistent with the board's decision.

(7) A decision of the board on the validity of a rule, regulation, or guideline shall be subject to review in superior court, if authorized pursuant to chapter 34.05 RCW. A petition for review of the decision of the shorelines hearings board on a rule, regulation, or guideline shall be filed within ~~((thirty))~~ 30 days after the date of final decision by the shorelines hearings board.

(8) The review proceedings authorized in subsections (1) and (2) of this section do not apply to any decision required under this chapter relating to a clean energy project as defined in section 201 of this act and subject to the review proceedings set forth in RCW 80.50.140.

PART 3

PERMITTING AND ENVIRONMENTAL REVIEW PROVISIONS FOR CLEAN ENERGY PROJECTS

NEW SECTION. Sec. 301. A new section is added to chapter 43.21C RCW to read as follows:

SEPA CLEAN ENERGY FACILITIES.

(1) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(l) "Storage facility" has the same meaning as defined in RCW 80.50.020.

(2)(a) After the submission of an environmental checklist and prior to issuing a threshold determination that a clean energy project proposal is likely to cause a probable significant adverse environmental impact consistent with RCW 43.21C.033, the lead agency must notify the project applicant and explain in writing the basis for its anticipated determination of significance. Prior to issuing the threshold determination of significance, the lead agency must give the project applicant the option of withdrawing and revising its application and the associated environmental checklist. The lead agency shall make its threshold determination based upon the changed or clarified application and associated environmental checklist. The responsible official has no more than 30 days from the date of the resubmission of a clarified or changed application to make a threshold determination, unless the applicant makes material changes that substantially modify the impact of the proposal, in which case the responsible official must treat the resubmitted clarified or changed application as new, and is subject to the timelines established in RCW 43.21C.033.

(b) The notification required under (a) of this subsection is not an official determination by the lead agency and is not subject to appeal under this chapter.

(c) Nothing in this subsection amends the requirements of RCW 43.21C.033 as they apply to proposals that are not for clean energy projects and nothing in this subsection precludes the lead agency from allowing an applicant for a proposal that is not a clean energy project to follow application processes similar to or the same as the application processes identified in this subsection.

(3)(a) When an environmental impact statement is required, a lead agency shall prepare a final environmental impact statement for clean energy projects within 24 months of a threshold determination of a probable significant, adverse environmental impact.

(b) A lead agency may work with clean energy project applicants to set or extend a time limit longer than 24 months under (a) of this subsection, provided the:

(i) Applicant agrees to a longer time limit; and

(ii) Responsible official for the lead agency maintains an updated schedule available for public review.

(c) For all clean energy projects that require the preparation of an environmental impact statement, the lead agency shall work collaboratively with applicants and all agencies that will have

NINETIETH DAY, APRIL 8, 2023

actions requiring review under this chapter to develop a schedule that shall:

(i) Include a list of, and roles and responsibilities for, all entities that have actions requiring review under this chapter for the project;

(ii) Include a comprehensive schedule of dates by which review under this chapter will be completed, all actions requiring review under this chapter will be taken, and the public will have an opportunity to participate;

(iii) Be completed within 60 days of issuance of a determination of significance;

(iv) Be updated as needed, but no later than 30 days of missing a date on the schedule; and

(v) Be available for public review on the state environmental policy act register.

(d) A lead agency may fulfill its responsibilities under this subsection with a coordinated project plan prepared pursuant to 42 U.S.C. Sec. 4370m-2(c)(1) if it includes all dates identified under (c)(ii) of this subsection.

(e) A failure to comply with the requirements in this subsection is not subject to appeal and does not provide a basis for the invalidation of the review by an agency under this chapter. Nothing in this subsection creates any civil liability for an agency or creates a new cause of action against an agency.

(f) For clean energy projects, the provisions of this subsection are in addition to the requirements of RCW 43.21C.0311.

(4) This subsection provides clarifications on the content of review under this chapter specific to clean energy projects.

(a) In defining the proposal that is the subject of review under this chapter, a lead agency may not combine the evaluation of a clean energy project proposal with other proposals unless the:

(i) Proposals are closely related; or

(ii) Applicant agrees to combining the proposals' evaluation.

(b) An agency with authority to impose mitigation under RCW 43.21C.060 may require mitigation measures for clean energy projects only to address the environmental impacts that are attributable to and caused by a proposal.

NEW SECTION. Sec. 302. A new section is added to chapter 43.21C RCW to read as follows:

NONPROJECT ENVIRONMENTAL IMPACT STATEMENTS.

(1) The department of ecology shall prepare nonproject environmental impact statements, pursuant to RCW 43.21C.030, that assess and disclose the probable significant adverse environmental impacts, and that identify related mitigation measures, for each of the following categories of clean energy projects, and colocated battery energy storage projects that may be included in such projects:

(a) Green electrolytic or renewable hydrogen projects;

(b) Utility-scale solar energy projects, which will consider the findings of the Washington State University least-conflict solar siting process; and

(c) Onshore utility-scale wind energy projects.

(2) The scope of a nonproject environmental review shall be limited to the probable, significant adverse environmental impacts in geographic areas that are suitable for the applicable clean energy type. The department of ecology may consider standard attributes for likely development, proximity to existing transmission or complementary facilities, and planned corridors for transmission capacity construction, reconstruction, or enlargement. The nonproject review is not required to evaluate geographic areas that lack the characteristics necessary for the applicable clean energy project type.

(3)(a) The scope of nonproject environmental impact statements must consider, as appropriate, analysis of the

following probable significant adverse environmental impacts, including direct, indirect, and cumulative impacts to:

(i) Historic and cultural resources;

(ii) Species designated for protection under RCW 77.12.020 or the federal endangered species act;

(iii) Landscape scale habitat connectivity and wildlife migration corridors;

(iv) Environmental justice and overburdened communities as defined in RCW 70A.02.010;

(v) Cultural resources and elements of the environment relevant to tribal rights, interests, and resources including tribal cultural resources, and fish, wildlife, and their habitat;

(vi) Land uses, including agricultural and ranching uses; and

(vii) Military installations and operations.

(b) The nonproject environmental impact statements must identify measures to avoid, minimize, and mitigate probable significant adverse environmental impacts identified during the review. These include measures to mitigate probable significant adverse environmental impacts to elements of the environment as defined in WAC 197-11-444 as it existed as of January 1, 2023, tribal rights, interests, and resources, including tribal cultural resources, as identified in RCW 70A.65.305, and overburdened communities as defined in RCW 70A.02.010. The department of ecology shall consult with federally recognized Indian tribes and other agencies with expertise in identification and mitigation of probable, significant adverse environmental impacts including, but not limited to, the department of fish and wildlife. The department of ecology shall further specify when probable, significant adverse environmental impacts cannot be mitigated.

(4) In defining the scope of nonproject review of clean energy projects, the department of ecology shall request input from agencies, federally recognized Indian tribes, industry, stakeholders, local governments, and the public to identify the geographic areas suitable for the applicable clean energy project type, based on the climatic and geophysical attributes conducive to or required for project development. The department of ecology will provide opportunities for the engagement of tribes, overburdened communities, and stakeholders that self-identify an interest in participating in the processes.

(5) The department of ecology will offer early and meaningful consultation with any affected federally recognized Indian tribe on the nonproject review under this section for the purpose of understanding potential impacts to tribal rights and resources, including tribal cultural resources, archaeological sites, sacred sites, fisheries, or other rights and interests in tribal lands and lands within which an Indian tribe or tribes possess rights reserved or protected by federal treaty, statute, or executive order. Certain information obtained by the department of ecology under this section is exempt from disclosure consistent with RCW 42.56.300.

(6) Final nonproject environmental review documents for the clean energy projects identified in subsection (1) of this section, where applicable, shall include maps identifying probable, significant adverse environmental impacts for the resources evaluated. Maps must be prepared with the intention to illustrate probable, significant impacts, creating a tool that may be used by project proponents, tribes, and government to inform decision making. The maps may not be used in the place of surveys on specific parcels of land or input of a potentially affected federally recognized Indian tribe regarding specific parcels.

(7) Following the completion of a nonproject review subject to this section, the interagency clean energy siting coordinating council created in section 101 of this act must consider the findings and make recommendations to the legislature and governor on potential areas to designate as clean energy preferred

zones for the clean energy project technology analyzed, and any taxation, regulatory, environmental review, or other benefits that should accrue to projects in such designated preferred zones.

(8) Nothing in this section prohibits or precludes projects from being located outside areas designated as clean energy preferred zones.

NEW SECTION. Sec. 303. A new section is added to chapter 43.21C RCW to read as follows:

LEAD AGENCY USE OF NONPROJECT ENVIRONMENTAL IMPACT STATEMENT.

(1) A lead agency conducting a project-level environmental review under this chapter of a clean energy project identified in section 302(1) of this act must consider a nonproject environmental impact statement prepared pursuant to section 302 of this act in order to identify and mitigate project-level probable significant adverse environmental impacts.

(2)(a) Project-level environmental review conducted pursuant to this chapter of a clean energy project identified in section 302(1) of this act must begin with review of the applicable nonproject environmental impact statement prepared pursuant to section 302 of this act. The review must address any probable significant adverse environmental impacts associated with the proposal that were not analyzed in the nonproject environmental impact statements prepared pursuant to section 302 of this act. The review must identify any mitigation measures specific to the project for probable significant adverse environmental impacts.

(b) Lead agencies reviewing site-specific project proposals for clean energy projects under this chapter shall use the nonproject review described in this section through one of the following methods and in accordance with WAC 197-11-600, as it existed as of January 1, 2023:

(i) Use of the nonproject review unchanged, in accordance with RCW 43.21C.034, if the project does not cause any probable significant adverse environmental impact not identified in the nonproject review;

(ii) Preparation of an addendum;

(iii) Incorporation by reference; or

(iv) Preparation of a supplemental environmental impact statement.

(3) Clean energy project proposals following the recommendations developed in the nonproject environment review completed pursuant to section 302 of this act must be considered to have mitigated the probable significant adverse project-specific environmental impacts under this chapter for which recommendations were specifically developed unless the project-specific environmental review identifies project-level probable significant adverse environmental impacts not addressed in the nonproject environmental review.

NEW SECTION. Sec. 304. A new section is added to chapter 36.70B RCW to read as follows:

PROHIBITION ON DEMONSTRATION OF NEED.

During project review of a project to construct or improve facilities for the generation, transmission, or distribution of electricity, a local government may not require a project applicant to demonstrate the necessity or utility of the project other than to require, as part of a completed application under RCW 36.70B.070(2), submission of any publicly available documentation required by the federal energy regulatory commission or its delegees or the utilities and transportation commission or its delegees, or from any other federal agency with regulatory authority over the assessment of electric power transmission and distribution needs as applicable.

NEW SECTION. Sec. 305. A new section is added to chapter 36.01 RCW to read as follows:

A county may not prohibit the installation of wind and solar resource evaluation equipment necessary for the design and environmental planning of a renewable energy project.

NEW SECTION. Sec. 306. IDENTIFYING INFORMATION FOR PUMPED STORAGE SITING. (1) The Washington State University energy program shall conduct a process to identify issues and interests related to siting pumped storage projects in Washington state, to support expanded capacity to store intermittently produced renewable energy, such as from wind and solar, as part of the state's transition from fossil fuel to 100 percent clean energy. The Washington State University energy program may decide to include within the process's scope the colocation of pumped storage with wind or solar energy generation. The goal of the process is to identify and understand issues and interests of various stakeholders and federally recognized Indian tribes related to areas where pumped storage might be sited, providing useful information to developers of potential projects, and for subsequent environmental reviews under the state environmental policy act.

(2) In carrying out this process, the Washington State University energy program shall provide ample opportunities for the engagement of federally recognized Indian tribes, local governments and special purpose districts, land use and environmental organizations, and additional stakeholders that self-identify as interested in participating in the process.

(3) The Washington State University energy program must develop and make available a map and associated GIS data layers, highlighting areas identified through the process.

(4) Any information provided by tribes will help to inform the map product, but the Washington State University energy program may not include sensitive tribal information, as identified by federally recognized Indian tribes, in the publicly available map or GIS data layers. The information developed by this process and creation of the map under this section does not supplant the need for project developers to conduct early and individual outreach to federally recognized Indian tribes and other affected communities. The Washington State University energy program must take precautions to prevent disclosure of any sensitive tribal information it receives during the process, consistent with RCW 42.56.300.

(5) The pumped storage siting information process must be completed by June 30, 2025.

NEW SECTION. Sec. 307. (1)(a) The department must consult with stakeholders from rural communities, agriculture, natural resource management and conservation, and forestry to gain a better understanding of the benefits and impacts of anticipated changes in the state's energy system, including the siting of facilities under the jurisdiction of the energy facility site evaluation council, and to identify risks and opportunities for rural communities. This consultation must be conducted in compliance with the community engagement plan developed by the department under chapter 70A.02 RCW and with input from the environmental justice council, using the best recommended practices available at the time. The department must collect the best available information and learn from the lived experiences of people in rural communities, with the objective of improving state implementation of clean energy policies, including the siting of energy facilities under the jurisdiction of the energy facility site evaluation council, in ways that protect and improve life in rural Washington. The department must consult with an array of rural community members, including: Low-income community and vulnerable population members or representatives; legislators; local elected officials and staff; those involved with agriculture, forestry, and natural resource management and

NINETIETH DAY, APRIL 8, 2023

conservation; renewable energy project property owners; utilities; large energy consumers; and others.

(b) The consultation must include stakeholder meetings with at least one in eastern Washington and one in western Washington.

(c) The department's consultation with stakeholders may include, but is not limited to, the following topics:

(i) Energy facility siting under the jurisdiction of the energy facility site evaluation council, including placement of new renewable energy resources, such as wind and solar generation, pumped storage, and batteries or new nonemitting electric generation resources, and their contribution to resource adequacy;

(ii) Production of hydrogen, biofuels, and feedstocks for clean fuels;

(iii) Programs to reduce energy cost burdens on rural families and farm operations;

(iv) Electric vehicles, farm and warehouse equipment, and charging infrastructure suitable for rural use;

(v) Efforts to capture carbon or produce energy on agricultural, forest, and other rural lands, including dual use solar projects that ensure ongoing agricultural operations;

(vi) The use of wood products and forest practices that provide low-carbon building materials and renewable fuel supplies; and

(vii) The development of clean manufacturing facilities, such as solar panels, vehicles, and carbon fiber.

(2)(a) The department must complete a report on rural clean energy and resilience that takes into consideration the consultation with rural stakeholders as described in subsection (1) of this section. The report must include recommendations for how policies, projects, and investment programs, including energy facility siting through the energy facility site evaluation council, can be developed or amended to more equitably distribute costs and benefits to rural communities. The report must include an assessment of how to improve the total benefits to rural areas overall, as well as the equitable distribution of benefits and costs within rural communities.

(b) The report must include a baseline understanding of rural energy production and consumption, and collect data on their economic impacts. Specifically, the report must examine:

(i) Direct, indirect, and induced jobs in construction and operations;

(ii) Financial returns to property owners;

(iii) Effects on local tax revenues and public services, which must include whether any school districts had a net loss of resources from diminished local effort assistance payments required under chapter 28A.500 RCW and impacts to public safety, the 911 emergency communications system, mental health, criminal justice, and rural county roads;

(iv) Effects on other rural land uses, such as agriculture, natural resource management and conservation, and tourism;

(v) Geographic distribution of large energy projects previously sited or forecast to be sited in Washington;

(vi) Potential forms of economic development assistance and impact mitigation payments; and

(vii) Relevant information from the least-conflict priority solar siting pilot project in the Columbia basin of eastern and central Washington required under section 607, chapter 334, Laws of 2021.

(c) The report must include a forecast of what Washington's clean energy transition will require for siting energy projects in rural Washington. The department must gather and analyze the best available information to produce forecast scenarios.

(d) By December 1, 2024, the department must submit a final report on rural clean energy and resilience to the joint committee on energy supply, energy conservation, and energy resilience

created in RCW 44.39.010 and the appropriate policy and fiscal committees of the legislature.

(3) For the purposes of this section, "department" means the department of commerce.

Sec. 308. RCW 44.39.010 and 2005 c 299 s 1 are each amended to read as follows:

There is hereby created the joint committee on energy supply ~~((and)), energy conservation, and energy resilience.~~

Sec. 309. RCW 44.39.012 and 2005 c 299 s 4 are each amended to read as follows:

(1) "Committee" means the joint committee on energy supply ~~((and)), energy conservation, and energy resilience.~~

(2) "Conservation" means reduced energy consumption or energy cost, or increased efficiency in the use of energy, and activities, measures, or equipment designed to achieve such results.

NEW SECTION. Sec. 310. (1) The committee shall review the report produced by the department of commerce under section 307 of this act and consider any policy or budget recommendations to reduce impacts and increase benefits of the clean energy transition for rural communities, including mechanisms to support local tax revenues and public services.

(2) The committee must hold at least two meetings, at least one of which must be in eastern Washington. The first meeting of the committee must occur by September 30, 2023.

(3) Relevant state agencies, departments, and commissions, including the energy facility site evaluation council, shall cooperate with the committee and provide information as the chair reasonably requests.

(4) The committee shall report its findings and any recommendations to the energy facility site evaluation council and the committees of the legislature with jurisdiction over environment and energy laws by December 1, 2024. Recommendations of the committee may be made by a simple majority of committee members. In the event that the committee does not reach majority-supported recommendations, the committee may report minority findings supported by at least two members of the committee.

(5) The definitions in this subsection apply throughout this section unless the context clearly requires otherwise.

(a) "Alternative energy" means energy derived from an alternative energy resource specified in RCW 80.50.020(1).

(b) "Committee" means the joint committee on energy supply, energy conservation, and energy resilience created in RCW 44.39.010.

Establishing firearms-related safety measures to increase public safety.

The measure was read the second time.

MOTION

Senator Kuderer moved that the following committee striking amendment by the Committee on Law & Justice be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds and declares that gun violence is a threat to the public health and safety of Washingtonians. Assault weapons are civilian versions of weapons created for the military and are designed to kill humans quickly and efficiently. For this reason the legislature finds that assault weapons are "like" "M-16 rifles" and thus are "weapons most useful in military service." Assault weapons have been used in the deadliest mass shootings in the last decade. An assailant with an assault weapon can hurt and kill twice the number of people than an assailant with a handgun or nonassault rifle. This is because the additional features of an assault weapon are not "merely cosmetic"; rather, these are features that allow shooters to fire large numbers of rounds quickly. An analysis of mass shootings that result in four or more deaths found that 85 percent of those fatalities were caused by an assault weapon. The legislature also finds that this regulation is likely to have an impact on the number of mass shootings committed in Washington. Studies have shown that during the period the federal assault weapon ban was in effect, mass shooting fatalities were 70 percent less likely to occur. Moreover, the legislature finds that assault weapons are not suitable for self-defense and that studies show that assault weapons are statistically not used in self-defense. The legislature finds that assault weapons are not commonly used in self-defense and that any proliferation is not the result of the assault weapon being well-suited for self-defense, hunting, or sporting purposes. Rather, increased sales are the result of the gun industry's concerted efforts to sell more guns to a civilian market. The legislature finds that the gun industry has specifically marketed these weapons as "tactical," "hyper masculine," and "military style" in manner that overtly appeals to troubled young men intent on becoming the next mass shooter. The legislature intends to limit the prospective sale of assault weapons, while allowing existing legal owners to retain the assault weapons they currently own.

Sec. 2. RCW 9.41.010 and 2022 c 105 s 2 and 2022 c 104 s 2 are each reenacted and amended to read as follows:

(1) No person in this state may manufacture, import, distribute, sell, or offer for sale any assault weapon, except as authorized in this section.

(2) Subsection (1) of this section does not apply to any of the following:

(a) The manufacture, importation, distribution, offer for sale, or sale of an assault weapon by a licensed firearms manufacturer for the purposes of sale to any branch of the armed forces of the United States or the state of Washington, or to any law enforcement agency for use by that agency or its employees for law enforcement purposes, or to a person who does not reside in this state;

The purpose of this section is to allow individuals who no longer wish to own an assault weapon to sell their assault weapon and is not intended

to allow Washington dealers to purchase assault weapons wholesale for the purpose of selling a stock or inventory of assault weapons online or in person to nonresidents; or

(d) The receipt of an assault weapon by a person who, on or after the effective date of this section, acquires possession of the assault weapon by operation of law upon the death of the former owner who was in legal possession of the assault weapon, provided the person in possession of the assault weapon can establish such provenance. Receipt under this subsection (2)(d) is not "distribution" under this chapter. A person who legally receives an assault weapon under this subsection (2)(d) may not sell or transfer the assault weapon to any other person in this state other than to a licensed dealer, to a federally licensed gunsmith for the purpose of service or repair, or to a law enforcement agency for the purpose of permanently relinquishing the assault weapon.

(1) The legislature finds that manufacturing, importing, distributing, selling, or offering for sale any assault weapon in violation of section 3 of this act are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW; are not reasonable in relation to the development and preservation of business; and constitutes an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the consumer protection act, chapter 19.86 RCW.

(2) A violation of section 3 of this act is an unfair or deceptive act or practice or unfair method of competition in the conduct of trade or commerce for purposes of the consumer protection act, chapter 19.86 RCW.

(3) Any person or entity that receives a civil investigative demand issued pursuant to RCW 19.86.110 and that has an objection to answering in whole or in part may avail themselves of the procedural protections afforded in RCW 19.86.110(8). Further, the attorney general shall not share with a law enforcement agency conducting a criminal investigation any materials or information obtained via a response to a civil investigative demand issued pursuant to RCW 19.86.110 unless such information or materials are required to be disclosed pursuant to issuance of a search warrant.

NEW SECTION. Sec. 5. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 6. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately."

MOTION

Senator Wilson, L. moved that the following amendment no. 0361 by Senator Wilson, L. be adopted:

Beginning on page 1, line 3, strike all of section 1 and insert the following:

"NEW SECTION. Sec. 1. The legislature finds and declares that firearms are not a threat to the public health and safety of Washingtonians. Firearms are a tool for self-defense, hunting, and developing skills. Certain firearms were banned in the United States from 1994 to 2004, but, statistically, the ban did not result in any measurable reduction in shootings or crime. Certain of these firearms have the capability to add on attachments, such as a flash suppressor, noise suppressor, or muzzle brake. These attachments make a firearm easier for vulnerable users to use. The legislature finds that the gun industry helps people defend themselves, feed themselves in the face of an ever-uncertain food supply, and provides a valuable skill-based form of recreation. Misuse of firearms should not be a reason to punish the industry or force the firearms industry out of business. In contrast, an escalation of the misuse of firearms should trigger more vigorous investigation, prosecution, and retribution for crimes. Income inequality, poverty, a lack of education, and a lack of opportunity for vulnerable and overburdened communities are the root cause of crime. In contrast to destroying viable industries and causing law abiding citizens to choose between defenselessness or criminalization, the legislature finds that it should find ways to create firm boundaries for people who engage in criminal behavior and invest in building communities, instead of outlawing industries and self-defense."

Senator Wilson, L. spoke in favor of adoption of the amendment to the committee striking amendment.

Senator Kuderer spoke against adoption of the amendment to the committee striking amendment.

The President declared the question before the Senate to be the adoption of amendment no. 0361 by Senator Wilson, L. on page 1, line 3 to Substitute House Bill No. 1240.

The motion by Senator Wilson, L. did not carry, and amendment no. 0361 was not adopted by voice vote.

MOTION

Senator Fortunato moved that the following amendment no. 0362 by Senator Fortunato be adopted:

Beginning on page 1, line 3, strike all of section 1 and insert the following:

"NEW SECTION. Sec. 1. The legislature intends to instill a fear of firearms in the populace based off the shape and color of the firearm instead of any measurable difference in actual accuracy, capacity, or versatility. The lethal effects of the misuse of firearms are attributed to the style and shape of the firearms in addition to accessories that can be attached to the firearm. These attributes are utilized to describe the lethality of the actions of people who utilize these firearms for nefarious purposes by individuals and organizations that are strongly opposed to possession of firearms. These individuals and organizations attribute lethal characteristics to commonly used accessories and components in an effort to instill and encourage the fear of inanimate objects and detract focus from the cause of firearm violence, the mental status of the firearms user.

Violence accomplished with firearms has been exploited to create an atmosphere of fear surrounding the existence and legality of firearm possession. A desire to protect society and prevent future violence has led to a desire to ban firearms, their

NINETIETH DAY, APRIL 8, 2023

components, and accessories. Because of the strikingly similar assault weapons ban from 1994 to 2004, there is an opportunity to examine data that can support or refute claims that banning certain firearm accessories reduce the lethality of mass shootings. An examination of that evidence finds that both the federal assault weapons ban and several state assault weapons bans have had inconclusive effects on reducing violence. Many of the studies that do indicate a positive link do not take into consideration gang violence and manipulate the data to prove a reduction in violence.

In the United States, there are approximately 393 million civilian owned firearms, with roughly 20 million of those being AR-15 style firearms. In Washington state, 42 percent of Washington state residents live in households with guns and there are less than 100,000 registered firearms in the state. The legislature intends to exert control over the future purchase of a certain type of firearm without addressing the safety of the most treasured members of our society by providing school safety officers.

According to the 2018 mass shootings work group, funding school resource officers, multistage threat assessment processes implemented in education facilities, extreme risk protection orders, and increased investment in mental health professionals were the most important policy recommendations that would prevent future mass shootings. The legislature finds that this legislation which limits what law abiding citizens may possess will not protect anyone's children. Focusing on who is using firearms to commit violent crimes, why they are committing these crimes, and how to protect children would accomplish much more."

MOTION

Senator Fortunato moved that the amendment be read in full.

RULING BY THE PRESIDENT

President Heck: "Thank you Senator Fortunato. The President would just like to point out that in our rules, Rule 64, it reads 'no amendment shall be considered by the Senate until it had been sent to the Secretary's desk in writing and read by the Secretary.' You are within your rights. The secretary shall read."

The amendment was read in full.

MOTION

Senator Fortunato moved that the following amendment no. 0383 by Senator Fortunato be adopted:

Beginning on page 1, line 3, after "legislature" strike all material through "immediately." on page 15, line 4 and insert "finds that, according to the 2018 mass shootings work group, funding school resource officers, multistage threat assessment processes implemented in education facilities, and increased investment in mental health professionals were the most

The legislature finds that providing financial support for the hardening of schools will provide more safety for the most treasured members of society than an arbitrary firearms ban.

NEW SECTION. Sec. 2. The legislature hereby directs the criminal justice training commission to conduct a study on the effects, including lethality, velocity, safety for the user, and likelihood of serious injury of the following firearm accessories: (1) A grip that is independent or detached from the stock that protrudes conspicuously beneath the action of the weapon; (2) thumbhole stock; (3) folding or telescoping stock; (4) forward pistol, vertical, angled, or other grip designed for use by the nonfiring hand to improve control; (5) flash suppressor, flash guard, flash eliminator, flash hider, sound suppressor, silencer, or any item designed to reduce the visual or audio signature of the firearm; (6) muzzle brake, recoil compensator, or any item designed to be affixed to the barrel to reduce recoil or muzzle rise; (7) threaded barrel designed to attach a flash suppressor, sound 21 suppressor, muzzle break, or similar item; (8) grenade launcher or flare launcher; (9) a shroud that encircles either all or part of the barrel designed to shield the bearer's hand from heat, except a solid forearm of a stock that covers only the bottom of the barrel; and (10) the capacity to accept a detachable magazine at some location outside of the pistol grip.

The commission shall also study the length of time required to change a magazine by shooters from different demographics and with different skill levels; for example, gender, levels of experience, and law enforcement at varying levels of experience. The commission shall publish a report of the findings, including a list of military units that use AR-15 firearms in combat, by December 31, 2024.

NEW SECTION. Sec. 3. The office of the superintendent of public instruction shall develop a grant program for the security of K-12 public and private schools. The office shall adopt rules for qualifying applicants to include local law enforcement and participating schools. The rules must also provide the scope of security to be provided for participating schools, including but not limited to:

(1) The minimum number of school resource officers to be assigned to each participating school, which must be based on considerations such as student population, building access points, and school facility layout in order to provide a response time of one minute or less for a school resource officer to respond to a physical threat; and

(2) Allowing school districts to acquire structural upgrades for school facilities in order to provide enhanced security and safety including, but not limited to, design upgrades, automatic locking doors, and ballistic films on glass entries.

NEW SECTION. Sec. 4. The criminal justice training commission shall conduct a study on mental health evaluations of people in crisis and mass shootings. The study shall focus on identifying warning signs and proactive solutions for the assessment, treatment, and reduction of violence by persons with

a mental health crisis. The commission shall publish the study and distribute the study to first responders by December 31, 2024.

NEW SECTION. Sec. 5. The sum of \$50,000,000, or as much thereof as may be necessary, is appropriated for the fiscal year ending June 30, 2024, from the general fund to the office of the superintendent of public instruction to develop a grant program with local law enforcement to develop an onsite security presence of school resource officers at public and private schools to respond to any physical threat pursuant to section 3 of this act.

NEW SECTION. Sec. 6. The sum of \$50,000,000, or as much thereof as may be necessary, is appropriated for the fiscal year ending June 30, 2024, from the general fund to the office of the superintendent of public instruction to allow school districts to acquire structural upgrades for school facilities in order to provide enhanced security and safety pursuant to section 3 of this act.

NEW SECTION. Sec. 7. The sum of \$10,000,000, or as much thereof as may be necessary, is appropriated for the fiscal year ending June 30, 2024, from the general fund to the criminal justice training commission for the study of certain defined rifle accessories pursuant to section 2 of this act, and to study mental health evaluations of people in crisis pursuant to section 4 of this act."

Senator Fortunato spoke in favor of adoption of the amendment to the committee striking amendment.

POINT OF ORDER

Senator Pedersen: "Mr. President, I believe that amendment 383 may be a striker to a striker, not permitted."

RULING BY THE PRESIDENT

President Heck: "Senator Pedersen, in a previous ruling the President ruled that while a striking amendment could itself be amended, an amendment which acted as a striker in whole, or, substantially, was out of order as it should more properly be viewed as a competing striker in its own right and offered as such. The amendment before us acts as a striker although the format masks that. It strikes virtually the entire committee striking amendment. The amendment, the proposed amendment would be in order should the committee striking amendment be voted down. Therefore, your point is well taken. The amendment is out of order."

Further consideration of amendment no. 0383 by Senator Fortunato was deferred.

POINT OF INQUIRY

Senator Short: Will the senator from the 45th District yield to a question?

President Heck: "The senator yields."

Senator Short: "Senator Dhingra, in order to make a clear record of legislative intent and for clarification on what the bill encompasses, based on inquiries my colleagues and I have received from our constituents, would an individual who is already ordered and paid for a firearm and is in the midst of the ten-day waiting period when this bill goes into effect be prohibited from receiving their firearm?"

Senator Dhingra: "Thank you Senator Short for that question. Yes, it is my understanding that the law applies to sales of assault weapons after the effective date of the law. The term sale is defined in RCW 9.41.01028 to mean the actual approval of the delivery of the firearm in consideration of payment or promise of payment. It is not the actual delivery but just the approval. If an individual has already purchased a firearm and passes a background check and other required eligibility criteria and has been approved for delivery prior to the effective date but is just waiting the mandatory ten days, then the new law would not apply for those prior purchases."

(i) Theft of a firearm; or (ii) theft of an assault weapon from a residence, store, shop, sales outlet, or vehicle (section 5 of this act); or (iii) possession of a stolen firearm, ((or both,)) the standard sentence range for each of these current offenses shall be determined by using all other current and prior convictions, except other current convictions for the felony crimes listed in this subsection (1)(c), as if they were prior convictions. The offender shall serve consecutive sentences for each conviction of the felony crimes listed in this subsection (1)(c), and for each firearm unlawfully possessed.

(d) All sentences imposed under RCW 46.61.502(6), 46.61.504(6), or 46.61.5055(4) shall be served consecutively to any sentences imposed under RCW 46.20.740 and 46.20.750.

(2)(a) Whenever a person while under sentence for conviction of a felony commits another felony and is sentenced to another term of confinement, the latter term of confinement shall not begin until expiration of all prior terms of confinement. However, any terms of community custody shall run concurrently to each other, unless the court pronouncing the current sentence expressly orders that they be served consecutively.

(b) Whenever a second or later felony conviction results in consecutive community custody with conditions not currently in effect, under the prior sentence or sentences of community custody, the court may require that the conditions of community custody contained in the second or later sentence begin during the immediate term of community custody and continue throughout the duration of the consecutive term of community custody.

(3) Subject to subsections (1) and (2) of this section, whenever a person is sentenced for a felony that was committed while the person was not under sentence for conviction of a felony, the sentence shall run concurrently with any felony sentence which has been imposed by any court in this or another state or by a federal court subsequent to the commission of the crime being sentenced unless the court pronouncing the current sentence expressly orders that the confinement terms be served consecutively to each other. Even if the court orders the confinement terms to run consecutively to each other, the terms of community custody shall run concurrently to each other, unless the court expressly orders the community custody terms to run consecutively to each other.

(4) Whenever any person granted probation under RCW 9.95.210 or 9.92.060, or both, has the probationary sentence revoked and a prison sentence imposed, that sentence shall run consecutively to any sentence imposed pursuant to this chapter, unless the court pronouncing the subsequent sentence expressly orders that they be served concurrently.

(5) In the case of consecutive sentences, all periods of total confinement shall be served before any partial confinement, community restitution, community supervision, or any other requirement or conditions of any of the sentences. Except for exceptional sentences as authorized under RCW 9.94A.535, if two or more sentences that run consecutively include periods of community supervision, the aggregate of the community supervision period shall not exceed twenty-four months."

Concerning military spouse employment.

The measure was read the second time.

MOTION

Senator Conway moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. This act may be known and cited as the military spouse employment act.

NEW SECTION. Sec. 2. The legislature finds that the lives of military spouses are dominated by frequent deployments and relocations, and one-third of military families move each year. Many military families depend on two incomes, and military spouses tend to be better educated than the civilian population, with approximately 34 to 50 percent working in fields that require a professional license. The length of time to credential after a move is a significant employment barrier, with one study finding 20 percent of military spouses waited at least 10 months for a license after moving to a new state. This wait contributes to higher rates of unemployment or underemployment for military spouses when compared to their civilian counterparts. Given the fiscal and economic constraints of military families and the readiness considerations of the department of defense, the legislature intends to help alleviate the career turmoil military spouses face while serving in our state.

NEW SECTION. Sec. 3. A new section is added to chapter 18.340 RCW to read as follows:

The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Authority" means any agency, board, commission, or other authority for issuance of a license, certificate, registration, or permit under this title. "Authority" does not include the department of labor and industries, or the department of financial

institutions with respect to escrow agent licensure under chapter 18.44 RCW.

(2) "License" means a license, certificate, registration, or permit to perform professional services.

Sec. 4. RCW 18.340.020 and 2011 2nd sp.s. c 5 s 2 are each amended to read as follows:

(1) ~~((For the purposes of this section, "authority" means any board, commission, or other authority for issuance of a license, certificate, registration, or permit under this title.~~

~~(2) To the extent resources are available:))~~

(a) Each authority shall establish procedures to expedite the issuance of a license ~~((certificate, registration, or permit to perform professional services))~~ regulated by each such authority to a person:

(i) Who is ~~((certified or))~~ licensed, certified, or registered, or has a permit in another state to perform professional services in that state; and

(ii) Whose spouse is the subject of a military transfer to Washington ~~((and~~

~~(iii) Who left employment in the other state to accompany the person's spouse to Washington)).~~

(b) The procedure must include a process for issuing the person a license ~~((certificate, registration, or permit, if, in the opinion of the authority, the requirements for licensure, certification, registration, or obtaining a permit of such other state are substantially equivalent to that required in Washington))~~ within 30 days of receiving a completed application. A completed application means that the authority has received all supporting materials, related application fees, fingerprints, and required documentation associated with a criminal background check.

~~((e)) (2) Each authority in this title shall develop a method and adopt rules to authorize a person who meets the criteria in ((a)(i) through (iii) of) this ((subsection)) section to perform services regulated by the authority in Washington by issuing the person a temporary license ~~((certificate, registration, or permit))~~ within 30 days of receiving a completed application. A completed application means that the authority has received a copy of the certificate issued by the other state for a certificated education professional, related application fees, fingerprints, and required documentation associated with a criminal background check. The license may be issued for a limited period of time of no less than 180 days to allow the person to perform services regulated by the authority while completing any specific additional requirements of the profession that were not required in the other state in which the person is licensed, certified, or registered, or has a permit.~~

(3) Nothing in this section requires the authority to issue a ((temporary)) license ~~((certificate, registration, or permit))~~ if the standards of the other state are substantially unequal to Washington standards.

~~((d)) (4) An applicant must state in the application that ((he or she)) the applicant:~~

~~((f)) (a) Has requested verification from the other state or states that the person is currently licensed, certified, registered, or has a permit; and~~

~~((g)) (b) Is not subject to any pending investigation, charges, or disciplinary action by the regulatory body of the other state or states.~~

~~((e)) (5) If the authority finds reasonable cause to believe that an applicant falsely affirmed or stated either of the requirements under ((d)(i) or (ii) of this) subsection (4)(a) or (b) of this section, the authority may summarily suspend the license ~~((certificate, registration, or permit))~~ pending an investigation or further action to discipline or revoke the license ~~((certificate, registration, or permit)).~~~~

NEW SECTION. Sec. 5. A new section is added to chapter 18.340 RCW to read as follows:

(1) Each authority must identify a contact or coordinator within the authority to assist military spouse applicants and licensees.

(2) Each authority must provide training to each board or commission member on the culture of military spouses, the military spouse experience, and issues related to military spouse career paths. Board or commission members appointed on or before October 1, 2023, must complete the training by January 1, 2024. Board or commission members appointed after October 1, 2023, must complete the training within 90 days after appointment. The department of veterans affairs shall create an internet-based training that may be used by each authority to satisfy this requirement.

(a) Appoint a military spouse to serve on its licensing board or commission;

(b) Conduct a review of the authority's licensing application process for military spouses and identify barriers to military spouse employment; and

(a) Each authority's rules and procedures, including any required fees, related to the licensing of military spouses;

(b) Contact information for each authority's military spouse contact or coordinator; and

(c) Links to the military spouse assistance web pages of other agencies.

(2) A direct link to the agency's military spouse assistance web page must be displayed on the agency's home page.

NEW SECTION. Sec. 7. A new section is added to chapter 28A.410 RCW to read as follows:

The agency responsible for educator certification shall, as set forth in chapter 18.340 RCW:

(1) Adopt rules for expedited professional certification for military spouses;

(2) Identify a contact or coordinator to assist military spouse applicants and licensees;

(3) Provide training to each board member on the culture of military spouses, the military spouse experience, and issues related to military spouse career paths; and

(4) Maintain a military spouse assistance web page.

NEW SECTION. Sec. 8. A new section is added to chapter 43.60A RCW to read as follows:

(1) The department, the employment security department, and the department of commerce shall consult local chambers of commerce, associate development organizations, and businesses to initiate a demonstration campaign to increase military spouse employment. This campaign may include partnerships with chambers of commerce that result in business owners sharing, with the local chamber of commerce, information on the number of military spouses employed and the local chambers of commerce providing this information to the department.

(2) Participants in the campaign are encouraged to work with the Washington state military transition council and county veterans' advisory boards under RCW 73.08.035.

(3) Funding for the campaign shall be established from existing resources.

Locally regulated utilities with fewer than 25,000 retail electric customers in Washington must provide similar information upon request by the department.

(a) Subject to availability, each locally regulated utility must provide any other information related to utility disconnections that is requested by the department.

(b) The information required in this subsection must be submitted in a form, timeline, and manner as prescribed by the department.

NINETY SECOND DAY, APRIL 10, 2023

Sec. 4. RCW 54.16.285 and 1995 c 399 s 144 are each amended to read as follows:

(1) A district providing utility service for residential space heating shall not terminate such utility service between November 15 through March 15 if the customer:

(a) Notifies the utility of the inability to pay the bill (~~(including a security deposit)~~). This notice should be provided within five business days of receiving a payment overdue notice unless there are extenuating circumstances. If the customer fails to notify the utility within five business days and service is terminated, the customer can, by ~~((paying reconnection charges, if any, and))~~ fulfilling the requirements of this section, receive the protections of this chapter;

(b) Provides self-certification of household income for the prior ~~((twelve))~~ 12 months to a grantee of the department of ~~((community, trade, and economic development))~~ commerce which administers federally funded energy assistance programs. The grantee shall determine that the household income does not exceed the maximum allowed for eligibility under the state's plan for low-income energy assistance under 42 U.S.C. 8624 and shall provide a dollar figure that is seven percent of household income. The grantee may verify information provided in the self-certification;

(c) Has applied for home heating assistance from applicable government and private sector organizations and certifies that any assistance received will be applied to the current bill and future utility bills;

(d) Has applied for low-income weatherization assistance to the utility or other appropriate agency if such assistance is available for the dwelling;

(e) Agrees to a payment plan and agrees to maintain the payment plan. The plan will be designed both to pay the past due bill by the following October 15 and to pay for continued utility service. If the past due bill is not paid by the following October 15, the customer shall not be eligible for protections under this chapter until the past due bill is paid. The plan shall not require monthly payments in excess of seven percent of the customer's monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter during November 15 through March 15. A customer may agree to pay a higher percentage during this period, but shall not be in default unless payment during this period is less than seven percent of monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter. If assistance payments are received by the customer subsequent to implementation of the plan, the customer shall contact the utility to reformulate the plan; and

(f) Agrees to pay the moneys owed even if ~~((he or she moves. (2))~~ the customer moves.

(2) The utility shall:

(a) Include in any notice that an account is delinquent and that service may be subject to termination, a description of the customer's duties in this section;

(b) Assist the customer in fulfilling the requirements under this section;

(c) Be authorized to transfer an account to a new residence when a customer who has established a plan under this section moves from one residence to another within the same utility service area;

(d) Be permitted to disconnect service if the customer fails to honor the payment program except on the days indicated in subsection (5) of this section. Utilities may continue to disconnect service for those practices authorized by law other than for nonpayment as provided for in this section. Customers who qualify for payment plans under this section who default on their

payment plans and are disconnected can be reconnected and maintain the protections afforded under this chapter by paying ~~((reconnection charges, if any, and by paying))~~ all amounts that would have been due and owing under the terms of the applicable payment plan, absent default, on the date on which service is reconnected; and

(e) Advise the customer in writing at the time it disconnects service that it will restore service if the customer contacts the utility and fulfills the other requirements of this section.

(3) All districts providing utility service for residential space heating shall offer residential customers the option of a budget billing or equal payment plan. The budget billing or equal payment plan shall be offered low-income customers eligible under the state's plan for low-income energy assistance prepared in accordance with 42 U.S.C. 8624(C)(1) without limiting availability to certain months of the year, without regard to the length of time the customer has occupied the premises, and without regard to whether the customer is the tenant or owner of the premises occupied.

(4) An agreement between the customer and the utility, whether oral or written, shall not waive the protections afforded under this chapter.

(5) A district providing electric or water utility service to residential customers may not effect, due to lack of payment, an involuntary termination of utility service to any residential user, including tenants of metered apartment buildings and residents of mobile homes, on any day for which the national weather service issues a publicly available notice that the heat risk is at a level 2 (orange), level 3 (red), or level 4 (magenta) for the area in which the residential user's address is located.

(6)(a) A residential user at whose dwelling utility service has been disconnected for lack of payment may request that the district reconnect service on any day for which the national weather service issues a publicly available notice that the heat risk is at a level 2 (orange), level 3 (red), or level 4 (magenta) for the area in which the residential user's address is located. The district shall inform all customers in the notice of disconnection of the ability to seek reconnection and provide clear and specific information on how to make that request, including how to contact the district.

(b) Upon receipt of a request made pursuant to (a) of this subsection, the district shall promptly make a reasonable attempt to reconnect service to the dwelling. The district, in connection with a request made pursuant to (a) of this subsection, shall provide the residential user with information regarding the availability of bill assistance, options for payment plans, and other financial resources from community action agencies, the district, or other sources to assist the residential customer with payment of utility bills. If a district requires a payment plan, customer income verification shall be by self-attestation or through a community action agency.

(7) On an annual basis, each district with more than 25,000 retail electric customers or 2,500 water customers in Washington must submit a report to the department of commerce that includes the total number of disconnections that occurred on each day for which the national weather service issues a publicly available notice that the heat risk is at a level 2 (orange), level 3 (red), or level 4 (magenta). Districts with fewer than 25,000 retail electric customers or 2,500 water customers in Washington must provide similar information upon request by the department.

(a) Subject to availability, each district must provide any other information related to utility disconnections that is requested by the department.

(b) The information required in this subsection must be submitted in a form, timeline, and manner as prescribed by the department.

Sec. 5. RCW 57.08.081 and 2003 c 394 s 6 are each amended to read as follows:

(1) Subject to RCW 57.08.005(~~((6))~~) (7), the commissioners of any district shall provide for revenues by fixing rates and charges for furnishing sewer and drainage service and facilities to those to whom service is available or for providing water, such rates and charges to be fixed as deemed necessary by the commissioners, so that uniform charges will be made for the same class of customer or service and facility. Rates and charges may be combined for the furnishing of more than one type of sewer or drainage service and facilities.

(2) In classifying customers of such water, sewer, or drainage system, the board of commissioners may in its discretion consider any or all of the following factors: The difference in cost to various customers; the location of the various customers within and without the district; the difference in cost of maintenance, operation, repair, and replacement of the various parts of the system; the different character of the service furnished various customers; the quantity and quality of the service and facility furnished; the time of its use; the achievement of water conservation goals and the discouragement of wasteful practices; capital contributions made to the system including but not limited to assessments; and any other matters which present a reasonable difference as a ground for distinction. Rates shall be established as deemed proper by the commissioners and as fixed by resolution and shall produce revenues sufficient to take care of the costs of maintenance and operation, revenue bond and warrant interest and principal amortization requirements, and all other charges necessary for efficient and proper operation of the system. Prior to furnishing services, a district may require a deposit to guarantee payment for services. However, failure to require a deposit does not affect the validity of any lien authorized by this section.

(3) The commissioners shall enforce collection of connection charges, and rates and charges for water supplied against property owners connecting with the system or receiving such water, and for sewer and drainage services charged against property to which and its owners to whom the service is available, such charges being deemed charges against the property served, by addition of penalties of not more than ten percent thereof in case of failure to pay the charges at times fixed by resolution. The commissioners may provide by resolution that where either connection charges or rates and charges for services supplied are delinquent for any specified period of time, the district shall certify the delinquencies to the auditor of the county in which the real property is located, and the charges and any penalties added thereto and interest thereon at the rate of not more than the prime lending rate of the district's bank plus four percentage points per year shall be a lien against the property upon which the service was received, subject only to the lien for general taxes.

(4) The district may, at any time after the connection charges or rates and charges for services supplied or available and penalties are delinquent for a period of (~~(sixty)~~) 60 days, bring suit in foreclosure by civil action in the superior court of the county in which the real property is located. The court may allow, in addition to the costs and disbursements provided by statute, attorneys' fees, title search and report costs, and expenses as it adjudges reasonable. The action shall be in rem, and may be brought in the name of the district against an individual or against all of those who are delinquent in one action. The laws and rules of the court shall control as in other civil actions.

(5) In addition to the right to foreclose provided in this section, the district may also cut off all or part of the service after charges for water or sewer service supplied or available are delinquent for a period of (~~(thirty)~~) 30 days, except on the days indicated in subsection (8) of this section.

(6) A district may determine how to apply partial payments on past due accounts.

(7) A district may provide a real property owner or the owner's designee with duplicate bills for service to tenants, or may notify an owner or the owner's designee that a tenant's service account is delinquent. However, if an owner or the owner's designee notifies the district in writing that a property served by the district is a rental property, asks to be notified of a tenant's delinquency, and has provided, in writing, a complete and accurate mailing address, the district shall notify the owner or the owner's designee of a tenant's delinquency at the same time and in the same manner the district notifies the tenant of the tenant's delinquency or by mail. When a district provides a real property owner or the owner's designee with duplicates of tenant utility service bills or notice that a tenant's utility account is delinquent, the district shall notify the tenant that it is providing the duplicate bills or delinquency notice to the owner or the owner's designee. After January 1, 1999, if a district fails to notify the owner of a tenant's delinquency after receiving a written request to do so and after receiving the other information required by this subsection (7), the district shall have no lien against the premises for the tenant's delinquent and unpaid charges.

(8) A district providing water utility service to residential customers may not effect, due to lack of payment, an involuntary termination of utility service to any residential user, including tenants of metered apartment buildings and residents of mobile homes, on any day for which the national weather service issues a publicly available notice that the heat risk is at a level 2 (orange), level 3 (red), or level 4 (magenta) for the area in which the residential user's address is located.

(9)(a) A residential user at whose dwelling utility service has been disconnected for lack of payment may request that the district reconnect service on any day for which the national weather service issues a publicly available notice that the heat risk is at a level 2 (orange), level 3 (red), or level 4 (magenta) for the area in which the residential user's address is located. The district shall inform all customers in the notice of disconnection of the ability to seek reconnection and provide clear and specific information on how to make that request, including how to contact the district.

(b) Upon receipt of a request made pursuant to (a) of this subsection, the district shall promptly make a reasonable attempt to reconnect service to the dwelling. The district, in connection with a request made pursuant to (a) of this subsection, shall provide the residential user with information regarding the availability of bill assistance, options for payment plans, and other financial resources from community action agencies, the district, or other sources to assist the residential customer with payment of utility bills. If a district requires a payment plan, customer income verification shall be by self-attestation or through a community action agency.

(10) On an annual basis, each district with more than 25,000 retail electric customers or 2,500 water customers in Washington must submit a report to the department of commerce that includes the total number of disconnections that occurred on each day for which the national weather service issues a publicly available notice that the heat risk is at a level 2 (orange), level 3 (red), or level 4 (magenta). Districts with fewer than 2,500 water customers in Washington must provide similar information upon request by the department.

NINETY SECOND DAY, APRIL 10, 2023

(a) Subject to availability, each district must provide any other information related to utility disconnections that is requested by the department.

(b) The information required in this subsection must be submitted in a form, timeline, and manner as prescribed by the department.

Sec. 6. RCW 80.28.010 and 2011 c 214 s 11 are each amended to read as follows:

(1) All charges made, demanded or received by any gas company, electrical company, wastewater company, or water company for gas, electricity or water, or for any service rendered or to be rendered in connection therewith, shall be just, fair, reasonable and sufficient. Reasonable charges necessary to cover the cost of administering the collection of voluntary donations for the purposes of supporting the development and implementation of evergreen community management plans and ordinances under RCW 80.28.300 must be deemed as prudent and necessary for the operation of a utility.

(2) Every gas company, electrical company, wastewater company, and water company shall furnish and supply such service, instrumentalities and facilities as shall be safe, adequate and efficient, and in all respects just and reasonable.

(3) All rules and regulations issued by any gas company, electrical company, wastewater company, or water company, affecting or pertaining to the sale or distribution of its product or service, must be just and reasonable.

(4) Utility service for residential space heating shall not be terminated between November 15 through March 15 if the customer:

(a) ~~Notifies the utility of the inability to pay the bill (including a security deposit).~~ This notice should be provided within five business days of receiving a payment overdue notice unless there are extenuating circumstances. If the customer fails to notify the utility within five business days and service is terminated, the customer can, by ~~((paying reconnection charges, if any, and))~~ fulfilling the requirements of this section, receive the protections of this chapter;

(b) Provides self-certification of household income for the prior twelve months to a grantee of the department of commerce, which administers federally funded energy assistance programs. The grantee shall determine that the household income does not exceed the maximum allowed for eligibility under the state's plan for low-income energy assistance under 42 U.S.C. 8624 and shall provide a dollar figure that is seven percent of household income. The grantee may verify information provided in the self-certification;

(c) Has applied for home heating assistance from applicable government and private sector organizations and certifies that any assistance received will be applied to the current bill and future utility bills;

(d) Has applied for low-income weatherization assistance to the utility or other appropriate agency if such assistance is available for the dwelling;

(e) Agrees to a payment plan and agrees to maintain the payment plan. The plan will be designed both to pay the past due bill by the following October 15th and to pay for continued utility service. If the past due bill is not paid by the following October 15, the customer is not eligible for protections under this chapter until the past due bill is paid. The plan may not require monthly payments in excess of seven percent of the customer's monthly income plus one-twelfth of any arrearage accrued from the date application is made and thereafter during November 15 through March 15. A customer may agree to pay a higher percentage during this period, but shall not be in default unless payment during this period is less than seven percent of monthly income

plus one-twelfth of any arrearage accrued from the date application is made and thereafter. If assistance payments are received by the customer subsequent to implementation of the plan, the customer shall contact the utility to reformulate the plan; and

(f) Agrees to pay the moneys owed even if ~~((he or she moves. (5)))~~ the customer moves.

(5) The utility shall:

(a) Include in any notice that an account is delinquent and that service may be subject to termination, a description of the customer's duties in this section;

(b) Assist the customer in fulfilling the requirements under this section;

(c) Be authorized to transfer an account to a new residence when a customer who has established a plan under this section moves from one residence to another within the same utility service area;

(d) Be permitted to disconnect service if the customer fails to honor the payment program except on the days indicated in subsection (8) of this section. Utilities may continue to disconnect service for those practices authorized by law other than for nonpayment as provided for in this subsection. Customers who qualify for payment plans under this section who default on their payment plans and are disconnected can be reconnected and maintain the protections afforded under this chapter by paying ~~((reconnection charges, if any, and by paying))~~ all amounts that would have been due and owing under the terms of the applicable payment plan, absent default, on the date on which service is reconnected; and

(e) Advise the customer in writing at the time it disconnects service that it will restore service if the customer contacts the utility and fulfills the other requirements of this section.

(6) A payment plan implemented under this section is consistent with RCW 80.28.080.

(7) Every gas company and electrical company shall offer residential customers the option of a budget billing or equal payment plan. The budget billing or equal payment plan shall be offered low-income customers eligible under the state's plan for low-income energy assistance prepared in accordance with 42 U.S.C. 8624(C)(1) without limiting availability to certain months of the year, without regard to the length of time the customer has occupied the premises, and without regard to whether the customer is the tenant or owner of the premises occupied.

(8)(a) Every electrical company and water company must have and must abide by the terms of a tariff approved by the commission that prohibits the electrical company or water company from effecting, due to lack of payment, an involuntary termination of electric or water utility service to any residential user, including tenants of metered apartment buildings and residents of mobile homes, on any day for which the national weather service issues a publicly available notice that the heat risk is at a level 2 (orange), level 3 (red), or level 4 (magenta) for the area in which the residential user's address is located.

(b) Nothing in this subsection (8) limits the authority of the commission to prohibit an electrical company or water company from terminating electric or water utility service in accordance with an approved tariff, rule, or order, in circumstances independent of the weather.

(9)(a) A residential user at whose dwelling electric or water utility service has been disconnected for lack of payment may request that the utility reconnect service on any day for which the national weather service issues a publicly available notice that the heat risk is at a level 2 (orange), level 3 (red), or level 4 (magenta) for the area in which the residential user's address is located. The utility shall, through a process approved by the commission,

inform all customers in the notice of disconnection of the ability to seek reconnection and provide clear and specific information on how to make that request, including how to contact the utility.

(b) Upon receipt of a request made pursuant to (a) of this subsection, the utility shall promptly make a reasonable attempt to reconnect service to the dwelling. The utility, in connection with a request made pursuant to (a) of this subsection, shall provide the residential user with information regarding the availability of bill assistance, options for payment plans, and other financial resources from community action agencies, the utility, or other sources to assist the residential customer with payment of utility bills. If a utility requires a payment plan, customer income verification shall be by self-attestation or through a community action agency.

(10) Every gas company, electrical company, wastewater company, and water company shall construct and maintain such facilities in connection with the manufacture and distribution of its product, or provision of its services, as will be efficient and safe to its employees and the public.

~~((9))~~ (11) An agreement between the customer and the utility, whether oral or written, does not waive the protections afforded under this chapter.

~~((40))~~ (12) In establishing rates or charges for water service, water companies as defined in RCW 80.04.010 may consider the achievement of water conservation goals and the discouragement of wasteful water use practices.

(13) On an annual basis, each utility must submit a report to the commission that includes the total number of electric or water disconnections that occurred on each day for which the national weather service issues a publicly available notice that the heat risk is at a level 2 (orange), level 3 (red), or level 4 (magenta).

Sec. 7. RCW 87.03.015 and 2017 c 63 s 1 are each amended to read as follows:

"NEW SECTION. Sec. 1. The legislature finds that carbon monoxide poisoning kills at least 430 people in the United States every year and 50,000 people seek medical care to treat the adverse effects of carbon monoxide poisoning. Carbon monoxide gas is odorless and colorless, making it difficult for people to protect themselves and detect an issue that can cause sudden illness, death, and lifelong disability. Washington state has already enacted requirements for carbon monoxide alarms in residences. Therefore, the legislature intends to direct state agencies to collaborate on a study of what Washington state is doing to prevent carbon monoxide poisoning from sources outside of the home and what the state might reasonably do to keep people safe.

NEW SECTION. Sec. 2. (1) By September 1, 2023, the department of health must convene an interagency carbon monoxide work group consisting of representatives of the department of ecology, the Washington state patrol, and the office of the attorney general. The interagency carbon monoxide work group must nominate a chair and the chair may designate up to two additional participants with subject matter expertise to participate on the work group.

(2) The purpose of the interagency carbon monoxide work group is to produce a report regarding current and recommended future state agency activities to:

(a) Prevent carbon monoxide poisoning from sources outside of the home;

(b) Increase awareness of carbon monoxide among the most at-risk populations;

(c) Collect data on the number of incidents of carbon monoxide poisoning and their causes in Washington, in order to track the reduction of such incidents over time; and

(d) Identify any opportunities to seek federal grants or other sources of funding available for public awareness campaigns related to carbon monoxide harm avoidance.

(3) The interagency carbon monoxide work group must submit a report to the appropriate committees of the legislature and the governor by December 1, 2024, that contains recommendations

on new policy changes and other actions that could be taken to reduce carbon monoxide poisoning in Washington.

(4) This section expires July 1, 2026.

(1) A local government may designate an increment area under this chapter and use the tax allocation revenues to pay public improvement costs, subject to the following conditions:

(a) The local government must adopt an ordinance designating an increment area within its boundaries and describing the public improvements proposed to be paid for, or financed with, tax allocation revenues;

(b) The local government may not designate increment area boundaries such that the entirety of its territory falls within an increment area;

(c) The increment area may not have an assessed valuation of more than \$200,000,000 or more than 20 percent of the sponsoring jurisdiction's total assessed valuation, whichever is less, when the ordinance is passed. If a sponsoring jurisdiction creates two increment areas, the total combined assessed valuation in both of the two increment areas may not equal more than \$200,000,000 or more than 20 percent of the sponsoring jurisdiction's total assessed valuation, whichever is less, when the ordinances are passed creating the increment areas;

(d) A local government can create no more than two active increment areas at any given time and they may not physically overlap by including the same land in more than one increment area at any time;

(e) The ordinance must set a sunset date for the increment area, which may be no more than 25 years after the first year in which tax allocation revenues are collected from the increment area;

(f) The ordinance must identify the public improvements to be financed and indicate whether the local government intends to issue bonds or other obligations, payable in whole or in part, from tax allocation revenues to finance the public improvement costs, and must estimate the maximum amount of obligations contemplated;

(g) The ordinance must provide that the increment area takes effect on June 1st following the adoption of the ordinance in (a) of this subsection;

(h) The sponsoring jurisdiction may not add additional public improvements to the project after adoption of the ordinance creating the increment area or change the boundaries of the

increment area. The sponsoring jurisdiction may expand, alter, or add to the original public improvements when doing so is necessary to assure the originally approved improvements can be constructed or operated;

(i) The ordinance must impose a deadline by which commencement of construction of the public improvements shall begin, which deadline must be at least five years into the future and for which extensions shall be made available for good cause; and

(j) The local government must make a finding that:

(i) The public improvements proposed to be paid or financed with tax allocation revenues are expected to encourage private development within the increment area and to increase the assessed value of real property within the increment area;

(ii) Private development that is anticipated to occur within the increment area as a result of the proposed public improvements will be permitted consistent with the permitting jurisdiction's applicable zoning and development standards;

(iii) The private development would not reasonably be expected to occur solely through private investment within the reasonably foreseeable future without the proposed public improvements; and

(iv) The increased assessed value within the increment area that could reasonably be expected to occur without the proposed public improvements would be less than the increase in the assessed value estimated to result from the proposed development with the proposed public improvements.

(2) In considering whether to designate an increment area, the legislative body of the local government must prepare a project analysis that shall include, but need not be limited to, the following:

(a) A statement of objectives of the local government for the designated increment area;

(b) A statement as to the property within the increment area, if any, that the local government may intend to acquire;

(c) The duration of the increment area;

(d) Identification of all parcels to be included in the area;

(e) A description of the expected private development within the increment area, including a comparison of scenarios with the proposed public improvements and without the proposed public improvements;

(g) The assessed value of real property listed on the tax roll as certified by the county assessor under RCW 84.52.080 from within the increment area and an estimate of the increment value and tax allocation revenues expected to be generated;

(h) An estimate of the job creation reasonably expected to result from the public improvements and the private development expected to occur in the increment area; and

(i) An assessment of any impacts and any necessary mitigation to address the impacts identified on the following:

(i) Affordable and low-income housing;

(ii) The local business community;

(iii) The local school districts; and

(iv) The local fire service.

(3) The local government may charge a private developer, who agrees to participate in creating the increment area, a fee sufficient to cover the cost of the project analysis and establishing the increment area, including staff time, professionals and consultants, and other administrative costs related to establishing the increment area.

(4) Nothing in this section prohibits a local government from entering into an agreement under chapter 39.34 RCW with another local government for the administration or other activities related to tax increment financing authorized under this section.

(5) If the project analysis indicates that an increment area will impact at least 20 percent of the assessed value in a fire protection district or regional fire protection service authority, or the fire service agency's annual report demonstrates an increase in the level of service directly related to the increment area, the local government must negotiate a mitigation plan with the fire protection district or regional fire protection service authority to address level of service issues in the increment area.

(6) The local government may reimburse the assessor and treasurer for their costs as provided in RCW 39.114.010(6)(e).

(7) Prior to the adoption of an ordinance authorizing creation of an increment area, the local government must:

(a) Hold at least two public briefings for the community solely on the tax increment project that include the description of the increment area, the public improvements proposed to be financed with the tax allocation revenues, and a detailed estimate of tax revenues for the participating local governments and taxing districts, including the amounts allocated to the increment public improvements. The briefings must be announced at least two weeks prior to the date being held, including publishing in a legal newspaper of general circulation and posting information on the local government website and all local government social media sites; and

(b) Submit the project analysis to the office of the treasurer for review and consider any comments that the treasurer may provide upon completion of their review of the project analysis as provided under this subsection. The treasurer must complete the review within 90 days of receipt of the project analysis and may consult with other agencies and outside experts as necessary. Upon completing their review, the treasurer must promptly provide to the local government any comments regarding suggested revisions or enhancements to the project analysis that the treasurer deems appropriate based on the requirements in subsection (2) of this section.

Sec. 3. RCW 39.114.040 and 2021 c 207 s 4 are each amended to read as follows:

The local government designating the increment area must:

(1) Publish notice in a legal newspaper of general circulation within the jurisdiction of the local government at least two weeks before the date on which the ordinance authorizing creation of an increment area is adopted that describes the public improvements, describes the boundaries of the increment area, and identifies the location and times where the ordinance and other public information concerning the public improvement may be inspected; and

(2) Deliver a certified copy of the adopted ordinance to the county treasurer, the county assessor, and the governing body of each taxing district within which the increment area is located at the respective addresses specified pursuant to RCW 42.56.040 within 10 days of the date on which the ordinance was adopted.

Sec. 4. RCW 39.114.050 and 2021 c 207 s 5 are each amended to read as follows:

Apportionment of taxes shall be as follows:

(1) Commencing in the calendar year immediately following the ~~((passage of the ordinance))~~ calendar year in which the increment area takes effect in accordance with RCW 39.114.020, the county treasurer shall distribute receipts from regular property taxes imposed on real property located in the increment area as follows:

(a) Each taxing district shall receive that portion of its regular property taxes produced by the rate of tax levied by or for the

NINETY SECOND DAY, APRIL 10, 2023

taxing district on the tax allocation base value for that increment area;

(b) The local government that designated the increment area shall be entitled to receive an additional amount equal to the amount derived from the regular property taxes levied by or for each taxing district upon the increment value within the increment area. The local government that designated the increment area shall receive no more than is needed to pay or repay costs directly associated with the public improvements identified in the approved ordinance and may agree to receive less than the full amount of this portion, as long as bond debt service, reserve, and other bond covenant requirements are satisfied, in which case the balance of these tax receipts shall be allocated to the taxing districts that imposed regular property taxes, or have regular property taxes imposed for them, in the increment area for collection that year in proportion to their regular tax levy rates for collection that year. The local government may request that the treasurer transfer this additional portion of the property taxes to its designated agent. The portion of the tax receipts distributed to the local government or its agent under this subsection (1)(b) may only be expended to finance public improvement costs associated with the public improvements financed in whole or in part by tax increment financing; and

(c) This section shall not apply to any receipts from the regular property taxes levied by:

(i) The state for the support of the common schools under RCW 84.52.065;

(ii) Local school district excess levies; and

(iii) Port districts or public utility districts specifically for the purpose of making required payments of principal and interest or general indebtedness.

(2) The apportionment of tax allocation revenues must cease when the taxing district certifies to the county assessor in writing that tax allocation revenues are no longer necessary or obligated to pay public improvement costs, but in no event shall the apportionment of tax allocation revenues continue beyond the sunset date established pursuant to RCW 39.114.020(1)(e). Any excess tax allocation revenues and earnings on the tax allocation revenues remaining at the time the apportionment of tax receipts terminates must be returned to the county treasurer and distributed to the taxing districts that imposed regular property taxes, or had regular property taxes imposed for it, in the increment area for collection that year, in proportion to the rates of their regular property tax levies for collection that year.

(3) The apportionment and distribution of portions of the regular property taxes levied by or for each taxing district upon the increment value within the increment area pursuant to and subject to the requirements of this chapter is declared to be a public purpose of and benefit each such taxing district.

(4) The apportionment and distribution of portions of the regular property taxes levied by or for each taxing district upon the increment value within the increment area pursuant to this section shall not affect or be deemed to affect the rate of taxes levied by or within any such taxing district or the consistency of any such levies with the uniformity requirement of Article VII, section 1 of the state Constitution.

(5)(a) For a local government having a designated increment area under this chapter as of the effective date of this section, the county assessor must adjust the tax allocation base value for that increment area to include the assessed value of any privately owned improvements located on publicly owned land for taxes imposed in the year in which the increment area was first designated. However, no adjustment is required if the increment area does not include any privately owned improvements located

on publicly owned land subject to property taxation as of the date the increment area became effective.

(b) The adjusted tax allocation base value under this subsection (5) does not impact any apportionment and distribution under this section occurring in calendar years before calendar year 2024.

Sec. 5. RCW 84.55.015 and 2014 c 4 s 2 are each amended to read as follows:

If a taxing district has not levied since 1985 and elects to restore a regular property tax levy subject to applicable statutory limitations then such first restored levy must be set so that the regular property tax payable does not exceed the amount which was last levied, plus an additional dollar amount calculated by multiplying the property tax rate which is proposed to be restored, or the maximum amount which could be lawfully levied in the year such a restored levy is proposed, by the increase in assessed value in the district since the last levy resulting from:

(1) New construction;

(2) Increases in assessed value due to construction of wind turbine, solar, biomass, and geothermal facilities, if such facilities generate electricity and the property is not included elsewhere under this section for purposes of providing an additional dollar amount. The property may be classified as real or personal property;

(3) Improvements to property; ~~((and))~~

(4) Any increase in the assessed value of state-assessed property; and

(5) Any increase in the assessed value of real property, as defined in RCW 39.114.010, within an increment area as designated by any local government in RCW 39.114.020 if the increase is not included elsewhere under this section. This subsection does not apply to levies by the state or by port districts or public utility districts for the purpose of making required payments of principal and interest on general indebtedness.

Sec. 6. RCW 84.55.020 and 2014 c 4 s 3 are each amended to read as follows:

Notwithstanding the limitation set forth in RCW 84.55.010, the first levy for a taxing district created from consolidation of similar taxing districts must be set so that the regular property taxes payable in the following year do not exceed the limit factor multiplied by the sum of the amount of regular property taxes lawfully levied for each component taxing district in the highest of the three most recent years in which such taxes were levied for such district plus the additional dollar amount calculated by multiplying the regular property tax rate of each component district for the preceding year by the increase in assessed value in each component district resulting from:

(1) New construction;

(2) Increases in assessed value due to construction of wind turbine, solar, biomass, and geothermal facilities, if such facilities generate electricity and the property is not included elsewhere under this section for purposes of providing an additional dollar amount. The property may be classified as real or personal property;

(3) Improvements to property; ~~((and))~~

(4) Any increase in the assessed value of state-assessed property; and

(5) Any increase in the assessed value of real property, as defined in RCW 39.114.010, within an increment area as designated by any local government under RCW 39.114.020 if the increase is not included elsewhere under this section. This subsection does not apply to levies by the state or by port districts and public utility districts for the purpose of making required payments of principal and interest on general indebtedness.

Sec. 7. RCW 84.55.030 and 2014 c 4 s 4 are each amended to read as follows:

For the first levy for a taxing district following annexation of additional property, the limitation set forth in RCW 84.55.010 must be increased by an amount equal to the aggregate assessed valuation of the newly annexed property as shown by the current completed and balanced tax rolls of the county or counties within which such property lies, multiplied by the dollar rate that would have been used by the annexing unit in the absence of such annexation, plus the additional dollar amount calculated by multiplying the regular property tax levy rate of that annexing taxing district for the preceding year by the increase in assessed value in the annexing district resulting from:

- (1) New construction;
- (2) Increases in assessed value due to construction of wind turbine, solar, biomass, and geothermal facilities, if such facilities generate electricity and the property is not included elsewhere under this section for purposes of providing an additional dollar amount. The property may be classified as real or personal property;

"Part I. Electronic Monitoring with Victim Notification Technology

NEW SECTION. Sec. 101. A new section is added to chapter 2.56 RCW to read as follows:

(1) By December 1, 2023, the administrative office of the courts must adopt rules:

(a) Establishing standards for the operation of electronic monitoring with victim notification technology by monitoring agencies, with the goal of implementing best practices to improve victim safety;

(b) Establishing protocols for implementing court orders that include electronic monitoring with victim notification, including protocols for the installation and removal of monitoring devices to ensure uninterrupted monitoring services following release from detainment or incarceration; and

(c) Establishing any additional requirements necessary to promote compliance with RCW 2.56.260 and 9.94A.736, which may include, but not be limited to, training requirements for court

officials, peace officers, 911 dispatchers, local corrections officers and staff, and other appropriate practitioners.

(2) In developing the rules required under this section, the administrative office of the courts must solicit input from courts of general and limited jurisdiction, local governments, monitoring agencies, and statewide associations representing law enforcement leaders, prosecutors, the department of corrections, domestic violence victims, and domestic violence agencies.

(3) The administrative office of the courts must develop a model policy on electronic monitoring with victim notification technology based on best practices where the technology is being currently used in Washington. Each law enforcement agency in the state must adopt its own policy based on the model policy.

(4) For the purposes of this section:

(a) "Electronic monitoring" has the meaning provided in RCW 9.94A.030; and

(b) "Monitoring agency" has the meaning provided in RCW 9.94A.736.

Part II. Access to Counsel

NEW SECTION. Sec. 201. A new section is added to chapter 2.53 RCW to read as follows:

The legislature recognizes: The authority of tribes to exercise tribal court civil jurisdiction in domestic violence matters; that tribal courts and tribal programs serve residents of this state; that consistent with tribal sovereignty and the centennial accord, the state of Washington does not have the authority to direct tribal court practices or direct that counsel be appointed in tribal court civil protection proceedings; and that provisions of chapter 7.105 RCW do not apply in tribal courts. Where consistent with tribal justice system rules and practices, and upon agreement with individual tribal courts or justice systems, the state should support the provision of indigenous-informed, culturally appropriate legal support for indigenous survivors of domestic violence in tribal court domestic violence protection proceedings. To this end, and subject to appropriations for this purpose, the office of civil legal aid shall coordinate with the Indian policy advisory council at the department of social and health services and representatives of tribal justice systems to develop a plan and implementation schedule to provide indigenous-informed, culturally appropriate legal support for survivors in tribal court domestic violence protection proceedings. The office of civil legal aid shall submit the plan along with fiscal projections for its implementation to the appropriate legislative committees by December 1, 2024.

Part III. Civil Proceedings

Sec. 301. RCW 7.105.155 and 2022 c 268 s 10 are each amended to read as follows:

When service is to be completed under this chapter by a law enforcement officer:

(1) The clerk of the court shall have a copy of any order issued under this chapter, the confidential information form, as well as the petition for a protection order and any supporting materials, electronically forwarded on or before the next judicial day to the law enforcement agency in the county or municipality where the respondent resides, as specified in the order, for service upon the respondent. If the respondent has moved from that county or municipality and personal service is not required, the law enforcement agency specified in the order may serve the order;

(2) Service of an order issued under this chapter must take precedence over the service of other documents by law enforcement unless they are of a similar emergency nature;

(3) Where personal service is required, the first attempt at service must occur within 24 hours of receiving the order from the court (~~whenever practicable, but not more than five days after receiving the order~~) unless an emergency situation renders

the service infeasible. If the first attempt is not successful, no fewer than two additional attempts should be made to serve the order, particularly for respondents who present heightened risk of lethality or other risk of physical harm to the petitioner or petitioner's family or household members. All attempts at service must be documented on a proof of service form and submitted to the court in a timely manner;

(4) If service cannot be completed within 10 calendar days, the law enforcement officer shall notify the petitioner. The petitioner shall provide information sufficient to permit notification. Law enforcement shall continue to attempt to complete service unless otherwise directed by the court. In the event that the petitioner does not provide a service address for the respondent or there is evidence that the respondent is evading service, the law enforcement officer shall use law enforcement databases to assist in locating the respondent;

(5) If the respondent is in a protected person's presence at the time of contact for service, the law enforcement officer should take reasonable steps to separate the parties when possible prior to completing the service or inquiring about or collecting firearms. When the order requires the respondent to vacate the parties' shared residence, law enforcement shall take reasonable steps to ensure that the respondent has left the premises and is on notice that (~~his or her~~) the respondent's return is a violation of the terms of the order. The law enforcement officer shall provide the respondent with copies of all forms with the exception of the confidential information form completed by the protected party and the proof of service form;

(6) Any law enforcement officer who serves a protection order on a respondent with the knowledge that the respondent requires special assistance due to a disability, brain injury, or impairment shall make a reasonable effort to accommodate the needs of the respondent to the extent practicable without compromise to the safety of the petitioner;

(7) Proof of service must be submitted to the court on the proof of service form. The form must include the date and time of service and each document that was served in order for the service to be complete, along with any details such as conduct at the time of service, threats, or avoidance of service, as well as statements regarding possession of firearms, including any denials of ownership despite positive purchase history, active concealed pistol license, or sworn statements in the petition that allege the respondent's access to, or possession of, firearms; or

(8) If attempts at service were not successful, the proof of service form or the form letter showing that the order was not served, and stating the reason it was not served, must be returned to the court by the next judicial day following the last unsuccessful attempt at service. Each attempt at service must be noted and reflected in computer aided dispatch records, with the date, time, address, and reason service was not completed.

Sec. 302. RCW 7.105.255 and 2022 c 268 s 15 are each amended to read as follows:

(1) To help ensure familiarity with the unique nature of protection order proceedings, and an understanding of trauma-informed practices and best practices in the use of new technologies for remote hearings, judicial officers, including persons who serve as judicial officers pro tempore, should receive evidence-based training on procedural justice, trauma-informed practices, gender-based violence dynamics, coercive control, elder abuse, juvenile sex offending, teen dating violence, domestic violence homicide prevention, and requirements and best practices for the surrender of weapons before presiding over protection order hearings. Trainings should be provided on an ongoing basis as best practices, research on trauma, and legislation continue to evolve. As a method of continuous

NINETY SECOND DAY, APRIL 10, 2023

training, court commissioners, including pro tempore commissioners, shall be notified by the presiding judge or court administrator upon revision of any decision made under this chapter.

(2) The administrative office of the courts shall develop training for judicial officers on the topics listed in subsection (1) of this section, which must be provided free of charge to judicial officers.

NEW SECTION. Sec. 303. A new section is added to chapter 7.105 RCW to read as follows:

(1) Because of the potential for error in protection order proceedings and the danger associated with firearm access in domestic violence situations, in any proceeding in which the court enters a temporary protection order that includes a temporary order to surrender and prohibit weapons, and after the hearing the court denies the petition for a full protection order, the order to surrender and prohibit weapons must remain in effect until the period for a petitioner to file a motion for reconsideration or revision has passed. If a motion for reconsideration or revision is filed, the order to surrender and prohibit weapons must remain in effect until the motion for reconsideration or revision is resolved.

(2) The court must notify the petitioner verbally and provide the petitioner with written information at the hearing in which the court denies the petition for a full protection order explaining the procedures and timelines for filing a motion for reconsideration or a motion for revision. The information must also include contact information for civil legal aid organizations that may assist the petitioner with a motion for reconsideration or a motion for revision.

(3) Subsection (1) of this section does not apply if allowing the order to surrender and prohibit weapons to remain in effect would be manifestly unjust including, but not limited to, situations where the court finds the temporary protection order was entirely without merit, the petitioner was engaged in abusive use of litigation, or the petitioner was exerting coercive control, as defined in RCW 7.105.010, over the respondent.

Part IV. Domestic Violence Protections

Sec. 401. RCW 10.99.033 and 2019 c 367 s 2 are each amended to read as follows:

(1) All training relating to the handling of domestic violence complaints by law enforcement officers must stress enforcement of criminal laws in domestic situations, availability of community resources, and protection of the victim. Law enforcement agencies and community organizations with expertise in the issue of domestic violence shall cooperate in all aspects of such training.

(2) The criminal justice training commission shall implement by July 28, 2019, a course of instruction for the training of law enforcement officers in Washington in the handling of domestic violence complaints. The basic law enforcement curriculum of the criminal justice training commission must include at least twenty hours of basic training instruction on the law enforcement response to domestic violence. The course of instruction, the learning and performance objectives, and the standards for the training must be developed by the commission and focus on enforcing the criminal laws, safety of the victim, and holding the perpetrator accountable for the violence. The curriculum must include training on the extent and prevalence of domestic violence, the importance of criminal justice intervention, techniques for responding to incidents that minimize the likelihood of officer injury and that promote victim safety, trauma-informed investigation and interviewing skills, evidence gathering and report writing, assistance to and services for victims and children, domestic violence homicide prevention, the

intersection of firearms and domestic violence, best practices for serving and enforcing protection orders, best practices for implementation and enforcement of orders to surrender and prohibit weapons and extreme risk protection orders, the impacts that trauma may have on domestic violence victims, understanding the risks of traumatic brain injury posed by domestic violence, verification and enforcement of court orders, liability, and any additional provisions that are necessary to carry out the intention of this subsection.

(3) The criminal justice training commission shall develop and update annually an in-service training program to familiarize law enforcement officers with domestic violence laws. The program must include techniques for handling incidents of domestic violence that minimize the likelihood of injury to the officer and that promote the safety of all parties. The program must also include training on domestic violence homicide prevention, the intersection of firearms and domestic violence, best practices for serving and enforcing protection orders, and assistance to and services for victims and children. The commission shall make the training program available to all law enforcement agencies in the state.

(4) Development of the training in subsections (2) and (3) of this section must be conducted in conjunction with agencies having a primary responsibility for serving victims of domestic violence with emergency shelter and other services, and representatives to the statewide organization providing training and education to these organizations and to the general public.

Sec. 402. RCW 10.99.040 and 2021 c 215 s 122 are each amended to read as follows:

(1) Because of the serious nature of domestic violence, the court in domestic violence actions:

(a) Shall not dismiss any charge or delay disposition because of concurrent dissolution or other civil proceedings;

(b) Shall not require proof that either party is seeking a dissolution of marriage prior to instigation of criminal proceedings;

(c) Shall waive any requirement that the victim's location be disclosed to any person, other than the attorney of a criminal defendant, upon a showing that there is a possibility of further violence: PROVIDED, That the court may order a criminal defense attorney not to disclose to ~~((his or her))~~ the attorney's client the victim's location; and

(d) Shall identify by any reasonable means on docket sheets those criminal actions arising from acts of domestic violence; and

(e) Shall not deny issuance of a no-contact order based on the existence of an applicable civil protection order preventing the defendant from contacting the victim.

(2)(a) Because of the likelihood of repeated violence directed at those who have been victims of domestic violence in the past, when any person charged with or arrested for a crime involving domestic violence is released from custody before arraignment or trial on bail or personal recognizance, the court authorizing the release may prohibit that person from having any contact with the victim. The jurisdiction authorizing the release shall determine whether that person should be prohibited from having any contact with the victim. If there is no outstanding restraining or ~~((protective))~~ protection order prohibiting that person from having contact with the victim, the court authorizing release may issue, by telephone, a no-contact order prohibiting the person charged or arrested from having contact with the victim or from knowingly coming within, or knowingly remaining within, a specified distance of a location.

(b) In issuing the order, the court shall consider the provisions of RCW 9.41.800, and shall order the defendant to surrender, and prohibit the person from possessing, all firearms, dangerous

weapons, and any concealed pistol license as required in RCW 9.41.800.

(c) The no-contact order shall also be issued in writing as soon as possible, and shall state that it may be extended as provided in subsection (3) of this section. By January 1, 2011, the administrative office of the courts shall develop a pattern form for all no-contact orders issued under this chapter. A no-contact order issued under this chapter must substantially comply with the pattern form developed by the administrative office of the courts.

(3)(a) At the time of arraignment the court shall determine whether a no-contact order shall be issued or extended. So long as the court finds probable cause, the court may issue or extend a no-contact order even if the defendant fails to appear at arraignment. The no-contact order shall terminate if the defendant is acquitted or the charges are dismissed.

(b) In issuing the order, the court shall consider all information documented in the incident report concerning the person's possession of and access to firearms and whether law enforcement took temporary custody of firearms at the time of the arrest. The court may as a condition of release prohibit the defendant from possessing or accessing firearms and order the defendant to immediately surrender all firearms and any concealed pistol license to a law enforcement agency upon release.

(c) If a no-contact order is issued or extended, the court may also include in the conditions of release a requirement that the defendant submit to electronic monitoring as defined in RCW 9.94A.030. If electronic monitoring is ordered, the court shall specify who shall provide the monitoring services, and the terms under which the monitoring shall be performed. Upon conviction, the court may require as a condition of the sentence that the defendant ~~((reimburse the providing agency for))~~ pay the costs of the electronic monitoring. If a defendant enters into a deferred prosecution or stipulated order of continuance, the applicable order or agreement may require the defendant pay the costs of the electronic monitoring.

(4)(a) Willful violation of a court order issued under subsection (2), (3), or (7) of this section is punishable under RCW 7.105.450.

(b) The written order releasing the person charged or arrested shall contain the court's directives and shall bear the legend: "Violation of this order is a criminal offense under chapter 7.105 RCW and will subject a violator to arrest; any assault, drive-by shooting, or reckless endangerment that is a violation of this order is a felony. You can be arrested even if any person protected by the order invites or allows you to violate the order's prohibitions. You have the sole responsibility to avoid or refrain from violating the order's provisions. Only the court can change the order."

(c) A certified copy of the order shall be provided to the victim.

(5) If a no-contact order has been issued prior to charging, that order shall expire at arraignment or within seventy-two hours if charges are not filed.

(6) Whenever a no-contact order is issued, modified, or terminated under subsection (2) or (3) of this section, the clerk of the court shall forward a copy of the order on or before the next judicial day to the appropriate law enforcement agency specified in the order. Upon receipt of the copy of the order the law enforcement agency shall enter the order for one year or until the expiration date specified on the order into any computer-based criminal intelligence information system available in this state used by law enforcement agencies to list outstanding warrants. Entry into the computer-based criminal intelligence information system constitutes notice to all law enforcement agencies of the existence of the order. The order is fully enforceable in any jurisdiction in the state. Upon receipt of notice that an order has

been terminated under subsection (3) of this section, the law enforcement agency shall remove the order from the computer-based criminal intelligence information system.

(7) All courts shall develop policies and procedures by January 1, 2011, to grant victims a process to modify or rescind a no-contact order issued under this chapter. The administrative office of the courts shall develop a model policy to assist the courts in implementing the requirements of this subsection.

Part V. Firearms and Dangerous Weapons

Sec. 501. RCW 9.41.340 and 2020 c 29 s 5 are each amended to read as follows:

(1)(a) Each law enforcement agency shall develop a notification protocol that ~~((allows))~~ :

(i) Allows a family or household member or intimate partner to use an incident or case number to request to be notified when a law enforcement agency returns a privately owned firearm to the individual from whom it was obtained or to an authorized representative of that person; and

(2) A law enforcement agency shall not provide notification to any party other than ~~((a family or household member or intimate partner who has an incident or case number and who has requested to be notified pursuant to this section or))~~ another criminal justice agency or as authorized or required under subsection (1) of this section.

(3) The information provided by a family or household member or intimate partner pursuant to chapter 130, Laws of 2015, including the existence of the request for notification, is not subject to public disclosure pursuant to chapter 42.56 RCW.

(4) An appointed or elected official, public employee, or public agency as defined in RCW 4.24.470, or combination of units of local government and its employees, as provided in RCW 36.28A.010, are immune from civil liability for damages for any release of information or the failure to release information related to this section, so long as the release or failure was without gross negligence.

(5) An individual who knowingly makes a request for notification under this section based on false information may be held liable under RCW 9A.76.175.

Sec. 502. RCW 9.41.345 and 2020 c 29 s 6 are each amended to read as follows:

(1) Before a law enforcement agency returns a privately owned firearm, the law enforcement agency must:

(a) Confirm that the individual to whom the firearm will be returned is the individual from whom the firearm was obtained or an authorized representative of that person;

(b) Confirm that the individual to whom the firearm will be returned is eligible to possess a firearm pursuant to RCW 9.41.040;

(c) Ensure that the firearm is not otherwise required to be held in custody or otherwise prohibited from being released; ~~((and))~~

(d) Ensure that ~~((twenty four hours))~~ five business days have elapsed from the time the firearm was obtained by law enforcement ~~((unless the firearm was seized in connection with a~~

~~domestic violence call pursuant to RCW 10.99.030, in which case the law enforcement agency must ensure that five business days have elapsed from the time the firearm was obtained); and~~

(e) If a family or household member or intimate partner has requested notification, provide notice to the family or household member or intimate partner who has requested notification within one business day of verifying that the requirements in (a) through (c) of this subsection have been met.

(2)(a) Once the requirements in subsections (1) and (3) of this section have been met, a law enforcement agency must release a firearm to the individual from whom it was obtained or an authorized representative of that person upon request without unnecessary delay.

(b)(i) If a firearm cannot be returned because it is required to be held in custody or is otherwise prohibited from being released, a law enforcement agency must provide written notice to the individual from whom it was obtained within five business days of the individual requesting return of ~~((his or her))~~ the firearm and specify the reason the firearm must be held in custody.

(ii) Notification may be made via email, text message, mail service, or personal service. For methods other than personal service, service shall be considered complete once the notification is sent.

~~(3) If ((a family or household member or intimate partner has requested to be notified pursuant to RCW 9.41.340))~~ notification is required under subsection (1)(e) of this section, a law enforcement agency must~~((:~~

~~(b) Hold))~~ hold the firearm in custody for ~~((seventy-two hours))~~ five business days from the time notification has been provided or information has been entered.

(4)(a) A law enforcement agency may not return a concealed pistol license that has been surrendered to, or impounded by, the law enforcement agency for any reason to the licensee until the law enforcement agency determines the licensee is eligible to possess a firearm under state and federal law and meets the other eligibility requirements for a concealed pistol license under RCW 9.41.070.

(b) A law enforcement agency must release a concealed pistol license to the licensee without unnecessary delay, and in no case longer than five business days, after the law enforcement agency determines the requirements of (a) of this subsection have been met.

(5) The provisions of chapter 130, Laws of 2015 and subsection (4) of this section shall not apply to circumstances where a law enforcement officer has momentarily obtained a firearm or concealed pistol license from an individual and would otherwise immediately return the firearm or concealed pistol license to the individual during the same interaction.

Sec. 503. RCW 9.41.801 and 2022 c 268 s 30 are each amended to read as follows:

(1) Because of the heightened risk of lethality to petitioners when respondents to protection orders become aware of court involvement and continue to have access to firearms, and the frequency of noncompliance with court orders prohibiting possession of firearms, law enforcement and judicial processes must emphasize swift and certain compliance with court orders prohibiting access, possession, and ownership of all firearms.

(2) A law enforcement officer serving a protection order, no-contact order, or restraining order that includes an order to surrender all firearms, dangerous weapons, and a concealed pistol license under RCW 9.41.800 shall inform the respondent that the order is effective upon service and the respondent must

immediately surrender all firearms and dangerous weapons in the respondent's custody, control, or possession and any concealed pistol license issued under RCW 9.41.070, and conduct any search permitted by law for such firearms, dangerous weapons, and concealed pistol license. The law enforcement officer shall take possession of all firearms, dangerous weapons, and any concealed pistol license belonging to the respondent that are surrendered, in plain sight, or discovered pursuant to a lawful search. If the order is entered in open court and the respondent appears in person, the respondent shall be provided a copy and further service is not required. If the respondent refuses to receive a copy, an agent of the court may indicate on the record that the respondent refused to receive a copy of the order. If the respondent appears remotely for the hearing, or leaves the hearing before a final ruling is issued or order signed, and the court believes the respondent has sufficient notice such that additional service is not necessary, the order must recite that the respondent appeared before the court, has actual notice of the order, the necessity for further service is waived, and proof of service of the order is not necessary. The court shall enter the service and receipt into the record. A copy of the order and service shall be transmitted immediately to law enforcement. The respondent must immediately surrender all firearms, dangerous weapons, and any concealed pistol license in a safe manner to the control of the local law enforcement agency on the day of the hearing at which the respondent was present in person or remotely. Alternatively, if personal service by a law enforcement officer is not possible, and the respondent did not appear in person or remotely at the hearing, the respondent shall surrender the firearms in a safe manner to the control of the local law enforcement agency within 24 hours of being served with the order by alternate service.

(3) At the time of surrender, a law enforcement officer taking possession of firearms, dangerous weapons, and any concealed pistol license shall issue a receipt identifying all firearms, dangerous weapons, and any concealed pistol license that have been surrendered and provide a copy of the receipt to the respondent. The law enforcement agency shall file the original receipt with the court within 24 hours after service of the order and retain a copy of the receipt, electronically whenever electronic filing is available.

(4) Upon the sworn statement or testimony of the petitioner or of any law enforcement officer alleging that the respondent has failed to comply with the surrender of firearms or dangerous weapons as required by an order issued under RCW 9.41.800 or 10.99.100, the court shall determine whether probable cause exists to believe that the respondent has failed to surrender all firearms and dangerous weapons in their possession, custody, or control. If probable cause exists that a crime occurred, the court shall issue a warrant describing the firearms or dangerous weapons and authorizing a search of the locations where the firearms and dangerous weapons are reasonably believed to be and the seizure of all firearms and dangerous weapons discovered pursuant to such search.

(5) If a person other than the respondent claims title to any firearms or dangerous weapons surrendered pursuant to this section, and the person is determined by the law enforcement agency to be the lawful owner of the firearm or dangerous weapon, the firearm or dangerous weapon shall be returned to the lawful owner, provided that:

(a) The firearm or dangerous weapon is removed from the respondent's access, custody, control, or possession and the lawful owner agrees by written document signed under penalty of perjury to store the firearm or dangerous weapon in a manner

such that the respondent does not have access to or control of the firearm or dangerous weapon;

(b) The firearm or dangerous weapon is not otherwise unlawfully possessed by the owner; and

(c) The requirements of RCW 9.41.345 are met.

(6)(a) Courts shall develop procedures to verify timely and complete compliance with orders to surrender and prohibit weapons under RCW 9.41.800 or 10.99.100, including compliance review hearings to be held as soon as possible upon receipt from law enforcement of proof of service. ~~((A compliance review hearing is not required if the court can otherwise enter findings on the record or enter written findings that the proof of surrender or declaration of nonsurrender))~~ For any case where the court has indication that the respondent has in the respondent's possession, custody, or control firearms, dangerous weapons, or a concealed pistol license, a compliance review hearing shall be held. A compliance review hearing may be waived by the court or held at a later date if the information attested to by the person subject to the order, along with verification from law enforcement and any other relevant evidence, makes a sufficient showing that the person has timely and completely surrendered all firearms and dangerous weapons in the person's custody, control, or possession, and any concealed pistol license issued under RCW 9.41.070, to a law enforcement agency, and the court is able to make a finding of compliance. If the court does not have a sufficient record before it on which to make such a finding, the court must set a review hearing to occur as soon as possible ~~((at which the))~~ and service by law enforcement shall be prioritized to minimize the time during which the respondent could access their firearms, dangerous weapons, or concealed pistol license. The respondent must be present and provide proof of compliance with the court's order. Courts shall make available forms that petitioners may complete and submit to the court in response to a respondent's declaration of whether the respondent has surrendered weapons.

(b) In making its findings regarding compliance, the court shall also consider any department of licensing and Washington state patrol firearm records; for criminal cases, the police report and any documentation of firearms, or their recovery pursuant to RCW 10.99.030(3)(a); and for civil protection order cases, the protection order narrative, any sections of the protection order petition that specifically reference or inquire about firearms and other dangerous weapons, any attachments to the protection order petition, any affidavits from law enforcement or the petitioner in response to a respondent's declaration regarding firearm surrender, or other relevant evidence regarding firearms, dangerous weapons, or a concealed pistol license in the person's custody, control, or possession.

(c) If the court is considering waiving or delaying the compliance review hearing, the petitioner, law enforcement, or the state or city attorney may request that the compliance hearing be held, if there is reasonable suspicion to believe that the respondent has not surrendered all firearms, dangerous weapons, and any concealed pistol license, or is otherwise out of compliance with the court's order.

(7)(a) If a court finds at the compliance review hearing, or any other hearing where compliance with the order to surrender and prohibit weapons is addressed, that there is probable cause to believe the respondent was aware of and failed to fully comply with the order, failed to appear at the compliance review hearing, or violated the order after the court entered findings of compliance, pursuant to its authority under chapter 7.21 RCW, the court may issue an arrest warrant and initiate a contempt proceeding to impose remedial sanctions on its own motion, or upon the motion of the prosecutor, city attorney, or the

petitioner's counsel, and issue an order requiring the respondent to appear, with additional sanctions for failure to appear, provide proof of compliance with the order, and show cause why the respondent should not be held in contempt of court.

(b) If the respondent is not present in court at the compliance review hearing or if the court issues an order to appear and show cause after a compliance review hearing, the clerk of the court shall electronically transmit a copy of the order to show cause to the law enforcement agency where the respondent resides for personal service or service in the manner provided in the civil rules of superior court or applicable statute. Law enforcement shall also serve a copy of the order to show cause on the petitioner, either electronically or in person, at no cost.

(c) The order to show cause served upon the respondent shall state the date, time, and location of the hearing and shall include a warning that the respondent may be held in contempt of court if the respondent fails to promptly comply with the terms of the order to surrender and prohibit weapons and a warning that an arrest warrant could be issued if the respondent fails to appear on the date and time provided in the order.

(d)(i) At the show cause hearing, the respondent must be present and provide proof of compliance with the underlying court order to surrender and prohibit weapons and demonstrate why the relief requested should not be granted.

(ii) The court shall take judicial notice of the receipt filed with the court by the law enforcement agency pursuant to subsection (3) of this section. The court shall also provide sufficient notice to the law enforcement agency of the hearing. Upon receiving notice pursuant to this subsection, a law enforcement agency must:

(A) Provide the court with a complete list of firearms and other dangerous weapons surrendered by the respondent or otherwise belonging to the respondent that are in the possession of the law enforcement agency; and

(B) Provide the court with verification that any concealed pistol license issued to the respondent has been surrendered and ~~((the))~~ an agency with authority to revoke the license has been notified.

(iii) If the law enforcement agency has a reasonable suspicion that the respondent is not in full compliance with the terms of the order, the law enforcement agency must submit the basis for its belief to the court, and may do so through the filing of a declaration.

(e) If the court finds the respondent in contempt, the court may impose remedial sanctions designed to ensure swift compliance with the order to surrender and prohibit weapons.

(f) The court may order a respondent found in contempt of the order to surrender and prohibit weapons to pay for any losses incurred by a party in connection with the contempt proceeding, including reasonable attorneys' fees, service fees, and other costs. The costs of the proceeding shall not be borne by the petitioner.

(8)(a) To help ensure that accurate and comprehensive information about firearms compliance is provided to judicial officers, a representative from either the prosecuting attorney's office or city attorney's office, or both, from the relevant jurisdiction may appear and be heard or submit written information at any hearing that concerns compliance with an order to surrender and prohibit weapons ~~((issued in connection with another type of protection order))~~.

(b) Either the prosecuting attorney's office or city attorney's office, or both, from the relevant jurisdiction may designate an advocate or a staff person from their office who is not an attorney to appear on behalf of their office. Such appearance does not constitute the unauthorized practice of law.

(9)(a) ~~((An order to surrender and prohibit weapons issued pursuant to RCW 9.41.800 must state that the))~~ The act of

NINETY SECOND DAY, APRIL 10, 2023

voluntarily surrendering firearms or weapons, ~~((or))~~ providing testimony relating to the surrender of firearms or weapons, ~~((pursuant to such an order,))~~ or complying with an order to surrender and prohibit weapons issued pursuant to RCW 9.41.800 or 10.99.100, and any information directly or indirectly derived from such act or testimony, may not be used against the ~~((respondent))~~ person subject to the order in any criminal prosecution under this chapter, chapter 7.105 RCW, or RCW 9A.56.310, or in any criminal prosecution pursuant to which such order to surrender and prohibit weapons was issued, except a prosecution for perjury, giving a false statement, or otherwise failing to comply with the order. Every such order issued subsequent to the effective date of this section shall contain language consistent with the statutory immunity set forth in this subsection.

(b) If a person subject to such an order invokes the privilege against self-incrimination at the time of issuance of the order or at a subsequent hearing, the court may afford the person subject to the order an opportunity to demonstrate that compliance with the surrender provision of the order would expose that person to a realistic threat of self-incrimination in a subsequent or pending criminal proceeding. The court may conduct this portion of the proceeding ex parte or receive evidence in camera, without the presence of the prosecuting attorney, after the court conducts an analysis under *State v. Bone-Club*, 128 wn.2d 254, and concludes that the courtroom may be closed.

(c) If the person subject to the order establishes such a realistic threat of self-incrimination regarding possible criminal prosecution that is not addressed by the immunity from prosecution set forth in (a) of this subsection, the court shall afford the relevant prosecuting attorney an opportunity to offer an immunity agreement tailored specifically to the firearms or weapons implicated by the potential self-incrimination. To achieve the purposes of this section, any immunity offered should be narrowly tailored to address any realistic threat of self-incrimination while ensuring that any other firearms not implicated are surrendered.

(d) Any immunity from prosecution beyond the immunity set forth in (a) of this subsection, may only be extended by the prosecuting attorney. If the prosecuting attorney declines to extend immunity such that the person subject to the order cannot fully comply with its surrender provision without facing a realistic threat of self-incrimination, the court's order must provide for the surrender of every firearm, dangerous weapon, and concealed pistol license that does not implicate a realistic threat of self-incrimination. The order's prohibitions regarding accessing, purchasing, receiving, or attempting to purchase or receive, any firearms or other dangerous weapons, or concealed pistol license, remain in effect.

(e) Nothing in this section shall be interpreted as diminishing the requirement that the person subject to the order fully comply with the order issued by the court. The burden remains on the person subject to the order to prove compliance.

~~((b))~~ (10) To provide relevant information to the court to determine compliance with the order, the court may allow the prosecuting attorney or city attorney to question the respondent regarding compliance.

~~((10))~~ (11) All law enforcement agencies must have policies and procedures to provide for the acceptance, storage, and return of firearms, dangerous weapons, and concealed pistol licenses that a court requires must be surrendered under RCW 9.41.800. A law enforcement agency holding any firearm or concealed pistol license that has been surrendered under RCW 9.41.800 shall comply with the provisions of RCW 9.41.340 and 9.41.345

before the return of the firearm or concealed pistol license to the owner or individual from whom it was obtained.

~~((11))~~ (12) The administrative office of the courts shall create a statewide pattern form to assist the courts in ensuring timely and complete compliance in a consistent manner with orders issued under this chapter. The administrative office of the courts shall report annually on the number of ex parte and full orders issued under this chapter by each court, ~~((the degree of compliance, and the number of firearms obtained, and may make recommendations regarding additional procedures))~~ the type of protection order, no contact order, restraining order, or criminal charge with which the order was issued, the duration of the order, the period of time from issuance of the order until the court's finding of compliance, any violations, the nature of the violations, any sanctions imposed, the number of firearms obtained pursuant to each order, whether subsequent orders were issued involving the same respondent, and may make recommendations regarding additional procedures, training, or data collection and reporting to enhance compliance and victim safety.

Sec. 504. RCW 9.41.804 and 2014 c 111 s 5 are each amended to read as follows:

~~((A party ordered))~~ (1) To prove full compliance with the court's order to surrender firearms, dangerous weapons, and ~~((his or her))~~ any concealed pistol license under RCW 9.41.800 the person subject to the order must file with the clerk of the court ~~((a))~~: (a) A completed proof of surrender and receipt form ~~((or a declaration of nonsurrender form within five judicial days of the entry of the order));~~ (b) a declaration that the person has no firearms, dangerous weapons, or concealed pistol license; or (c) other evidence sufficient to establish full and timely compliance with the order.

(2) The verification of compliance required in subsection (1) of this section must be provided to the court within 48 hours of service of the order, unless the order is pursuant to a criminal proceeding. In a criminal proceeding, if the person subject to the order is in custody, proof of compliance must be provided to the court before the person subject to the order is released from custody; otherwise, proof of compliance must be provided before the conclusion of the sentencing hearing. If the court finds that surrender of all firearms, dangerous weapons, and any concealed pistol license is not possible prior to release or prior to the conclusion of the hearing, then arrangements for surrender shall be made and approved by the court before the person's release from custody or before the conclusion of the sentencing hearing, and the court shall order a law enforcement officer to accompany the person to the location where the firearms, dangerous weapons, and concealed pistol license are located so that they are surrendered directly to the law enforcement officer. Surrender to local law enforcement shall occur in a safe manner and proof of compliance provided by law enforcement to the court within 24 hours of either the person's release from custody or the conclusion of the sentencing hearing.

(3) By December 30, 2023, the administrative office of the courts shall develop and distribute any new or updated forms necessary to implement subsections (1) and (2) of this section, and other sections of this act where a form needs to be created or updated.

Sec. 505. RCW 7.105.340 and 2022 c 268 s 19 are each amended to read as follows:

(1) Upon the issuance of any extreme risk protection order under this chapter, including a temporary extreme risk protection order, the court shall:

(a) Order the respondent to surrender to the local law enforcement agency all firearms in the respondent's custody, control, or possession, or subject to the respondent's immediate

possession or control, and any concealed pistol license issued under RCW 9.41.070; and

(b) Other than for ex parte temporary protection orders, direct law enforcement to revoke any concealed pistol license issued to the respondent.

(2) The court may, at the same time it issues an order pursuant to this section, also issue an order authorizing the search for and seizure of any firearm, dangerous weapon, or concealed pistol license, if there is probable cause to find that the person subject to the court's order issued pursuant to this section is violating the order by refusing to comply after being served with the order. The court's order authorizing such search and seizure must state with specificity the location and scope of the search and seizure authorized.

(3) The law enforcement officer serving any extreme risk protection order under this chapter, including a temporary extreme risk protection order, shall request that the respondent immediately surrender all firearms in ((his or her)) the respondent's custody, control, or possession, and any concealed pistol license issued under RCW 9.41.070, and conduct any search permitted by law for such firearms. The law enforcement officer shall take possession of all firearms belonging to the respondent that are surrendered, in plain sight, or discovered pursuant to a lawful search. If the order is entered in open court and the respondent appears in person, the respondent must be provided a copy and further service is not required. If the respondent refuses to accept a copy, an agent of the court may indicate on the record that the respondent refused to accept a copy of the order. If the respondent appears remotely for the hearing, or leaves the hearing before a final ruling is issued or order signed, and the court believes the respondent has sufficient notice such that additional service is not necessary, the order must recite that the respondent appeared before the court, has actual notice of the order, the necessity for further service is waived, and proof of service of the order is not necessary. The court shall enter the service and receipt into the record. A copy of the order and service must be transmitted immediately to law enforcement. The respondent must immediately surrender all firearms and any concealed pistol license, not previously surrendered, in a safe manner to the control of the local law enforcement agency on the day of the hearing at which the respondent was present in person or remotely. If the respondent is in custody, arrangements to recover the firearms must be made prior to release. Alternatively, if personal service by a law enforcement officer is not possible, and the respondent did not appear in person or remotely at the hearing, the respondent shall surrender the firearms in a safe manner to the control of the local law enforcement agency within 24 hours of being served with the order by alternate service.

((3)) (4) At the time of surrender, a law enforcement officer taking possession of a firearm or concealed pistol license shall issue a receipt identifying all firearms that have been surrendered and provide a copy of the receipt to the respondent. Within 72 hours after service of the order, the officer serving the order shall file the original receipt with the court and shall ensure that ((his or her)) the officer's law enforcement agency retains a copy of the receipt.

((4)) (5) Upon the sworn statement or testimony of the petitioner or of any law enforcement officer alleging that the respondent has failed to comply with the surrender of firearms as required by an order issued under this chapter, the court shall determine whether probable cause exists to believe that the respondent has failed to surrender all firearms in ((his or her)) the respondent's possession, custody, or control. If probable cause for a violation of the order exists, the court shall issue a warrant describing the firearms and authorizing a search of the locations

where the firearms are reasonably believed to be and the seizure of any firearms discovered pursuant to such search.

((5)) (6) If a person other than the respondent claims title to any firearms surrendered pursuant to this section, and that person is determined by the law enforcement agency to be the lawful owner of the firearm, the firearm must be returned to that person, provided that:

(a) The firearm is removed from the respondent's custody, control, or possession, and the lawful owner provides written verification to the court regarding how the lawful owner will safely store the firearm in a manner such that the respondent does not have access to, or control of, the firearm for the duration of the order;

(b) The court advises the lawful owner of the penalty for failure to do so; and

(c) The firearm is not otherwise unlawfully possessed by the owner.

((6)) (7) Upon the issuance of a one-year extreme risk protection order, the court shall order a new compliance review hearing date and require the respondent to appear not later than three judicial days from the issuance of the order. The court shall require a showing that the respondent has surrendered any firearms in the respondent's custody, control, or possession, and any concealed pistol license issued under RCW 9.41.070 to a law enforcement agency. The compliance review hearing is not required upon a satisfactory showing on which the court can otherwise enter findings on the record that the respondent has timely and completely surrendered all firearms in the respondent's custody, control, or possession, and any concealed pistol license issued under RCW 9.41.070 to a law enforcement agency, and is in compliance with the order. If the court does not have a sufficient record before it on which to make such a finding, the court must set a review hearing to occur as soon as possible, at which the respondent must be present and provide proof of compliance with the court's order.

((7)) (8)(a) If a court finds at the compliance review hearing, or any other hearing where compliance with the order is addressed, that there is probable cause to believe the respondent was aware of, and failed to fully comply with, the order, failed to appear at the compliance review hearing, or violated the order after the court entered findings of compliance, pursuant to its authority under chapter 7.21 RCW, the court may initiate a contempt proceeding on its own motion, or upon the motion of the prosecutor, city attorney, or the petitioner's counsel, to impose remedial sanctions, and issue an order requiring the respondent to appear, provide proof of compliance with the order, and show cause why the respondent should not be held in contempt of court.

(b) If the respondent is not present in court at the compliance review hearing or if the court issues an order to appear and show cause after a compliance review hearing, the clerk of the court shall electronically transmit a copy of the order to show cause to the law enforcement agency where the respondent resides for personal service or service in the manner provided in the civil rules of superior court or applicable statute.

(c) The order to show cause served upon the respondent shall state the date, time, and location of the hearing, and shall include a warning that the respondent may be held in contempt of court if the respondent fails to promptly comply with the terms of the extreme risk protection order and a warning that an arrest warrant could be issued if the respondent fails to appear on the date and time provided in the order to show cause.

(d)(i) At the show cause hearing, the respondent must be present and provide proof of compliance with the extreme risk

protection order and demonstrate why the relief requested should not be granted.

(ii) The court shall take judicial notice of the receipt filed with the court by the law enforcement agency pursuant to subsection ~~((3))~~ (4) of this section. The court shall also provide sufficient notice to the law enforcement agency of the hearing. Upon receiving notice pursuant to this subsection, a law enforcement agency must:

(A) Provide the court with a complete list of firearms surrendered by the respondent or otherwise belonging to the respondent that are in the possession of the law enforcement agency; and

(B) Provide the court with verification that any concealed pistol license issued to the respondent has been surrendered and that a law enforcement agency with authority to revoke the license has been notified.

(iii) If the law enforcement agency has a reasonable suspicion that the respondent is not in full compliance with the terms of the order, the law enforcement agency must submit the basis for its belief to the court, and may do so through the filing of an affidavit.

(e) If the court finds the respondent in contempt, the court may impose remedial sanctions designed to ensure swift compliance with the order to surrender and prohibit weapons.

(f) The court may order a respondent found in contempt of the order to pay for any losses incurred by a party in connection with the contempt proceeding, including reasonable attorneys' fees, service fees, and other costs. The costs of the proceeding must not be borne by the petitioner.

~~((8))~~ (9)(a) To help ensure that accurate and comprehensive information about firearms compliance is provided to judicial officers, a representative from either the prosecuting attorney's office or city attorney's office, or both, from the relevant jurisdiction may appear and be heard or submit written information at any hearing that concerns compliance with an extreme risk protection order.

(b) Either the prosecuting attorney's office or city attorney's office, or both, from the relevant jurisdiction may designate an advocate or a staff person from their office who is not an attorney to appear on behalf of their office. Such appearance does not constitute the unauthorized practice of law.

~~((9))~~ (10)(a) An extreme risk protection order must state that the act of voluntarily surrendering firearms, or providing testimony relating to the surrender of firearms, pursuant to such an order, may not be used against the respondent in any criminal prosecution under this chapter, chapter 9.41 RCW, or RCW 9A.56.310.

(b) To provide relevant information to the court to determine compliance with the order, the court may allow the prosecuting attorney or city attorney to question the respondent regarding compliance.

~~((10))~~ (11) All law enforcement agencies must develop and implement policies and procedures regarding the acceptance, storage, and return of firearms required to be surrendered under this chapter. Any surrendered firearms must be handled and stored properly to prevent damage or degradation in appearance or function, and the condition of the surrendered firearms documented, including by digital photograph. A law enforcement agency holding any surrendered firearm or concealed pistol license shall comply with the provisions of RCW 9.41.340 and 9.41.345 before the return of the firearm or concealed pistol license to the owner or individual from whom it was obtained.

Sec. 506. RCW 10.21.050 and 2018 c 276 s 5 are each amended to read as follows:

The judicial officer in any felony, misdemeanor, or gross misdemeanor case must, in determining whether there are conditions of release that will reasonably assure the safety of any other person and the community, take into account the available information concerning:

(1) The nature and circumstances of the offense charged, including whether the offense is a crime of violence;

(2) The weight of the evidence against the defendant; and

(3) The history and characteristics of the defendant, including:

(a) The ~~((person's))~~ defendant's character, physical and mental condition, family ties, employment, financial resources, length of residence in the community, community ties, past conduct, history relating to drug or alcohol abuse, criminal history, and record concerning appearance at court proceedings;

(b) Whether, at the time of the current offense or arrest, the defendant was on community supervision, probation, parole, or on other release pending trial, sentencing, appeal, or completion of sentence for an offense under federal, state, or local law; ~~((and))~~

(c) The nature and seriousness of the danger to any person or the community that would be posed by the defendant's release; and

(d) The defendant's firearms history, including purchase history, any concealed pistol license history, and the requirements of RCW 9.41.800 regarding issuance of an order to surrender and prohibit weapons.

SECOND READING

ENGROSSED SUBSTITUTE HOUSE BILL NO. 1498, by House Committee on Agriculture and Natural Resources (originally sponsored by Dye, Dent, Christian, Schmidt, Eslick, Graham and Volz)

Concerning aviation assurance funding in response to wildland fires.

The measure was read the second time.

MOTION

Senator Salomon moved that the following committee striking amendment by the Committee on Agriculture, Water, Natural Resources & Parks be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) Local and tribal fire departments in the state of Washington serve as frontline responders to wildland fires. The fire chief of each local fire department with jurisdiction over wildland fires is tasked with making rapid decisions, especially during the summer months when weather conditions can cause fires to rapidly enlarge. Flashy fuels, especially during times of low humidity, can be ignited by a single spark and erupt into a rapidly moving incident that can quickly destroy rangelands, ripe dryland crops, and timberlands.

(2) Local fire departments need immediate access to local aviation resources that are certified to fly and drop fire retardants and water to suppress or extinguish wildland fires quickly. The use of aviation assets has proven to be a valuable tool to prevent many wildland fires from growing large and requiring the response of state mobilization and prevent the deployment of

state and federal fire agencies and their mobilization partner agencies.

(3) Further, the strategic use of aviation assets in initial attack, or at times when conditions on the ground may warrant additional air support, can prevent fires from becoming uncontrollable. Local fire departments that use aviation assets on initial attack can prevent most fires from requiring a state mobilization. Providing financial assurances for local fire departments to deploy aviation assets will provide greater protection to our state's natural resources, air quality, and communities.

(4) The legislature intends to provide suppression funding to the department of natural resources to support local fire departments in the use of aviation resources certified and trained to operate in wildland fires and drop fire retardant or water to suppress or extinguish fires as an initial attack strategy. Deployment and air operations command will be conducted at the direction of trained air operations commanders.

(5) The legislature intends to authorize the department of natural resources to provide aviation resources to local fire departments statewide for use during the initial attack of wildland fires in order to provide assurance that local fire departments will have sufficient financial capacity to effectively control wildland fires throughout the length of the fire season. Having assurance that local fire departments can afford to use aircraft under conditions that would warrant their use and at the discretion of the local fire department chief will incentivize the use of aircraft more quickly in order to rapidly suppress the fire and minimize damage to lands, resources, and structures, while protecting regional air quality.

NEW SECTION. Sec. 2. A new section is added to chapter 76.04 RCW to read as follows:

(1) The department shall prepare and submit, consistent with RCW 43.01.036, an appendix on aviation usage by local fire departments for initial attack as a part of its annual wildfire report to the standing committees of the legislature with jurisdiction over wildland firefighting. The department shall submit the report by December 1st of each year. The report must address, at a minimum, the following topics:

(a) The dollar value of funding utilized by local fire departments for initial attack aviation during the year;

(b) The specific local fire departments that utilized this funding during the year;

(c) The wildland fires on which suppression funding was utilized to provide local fire departments initial attack aviation resources during the year, including names, locations, and sizes of fires, and amount of funding utilized on each of the fires; and

(d) A review of lessons learned related to aviation use by local fire departments for initial attack based on the preceding fire season, along with recommendations for future improvements to the wildland fire response process based on the lessons learned.

(2) The department shall consult with the state fire defense committee, fire service representatives, and the state fire marshal's office annually to review aviation program performance and determine aviation needs for the following fire year.

NEW SECTION. Sec. 3. A new section is added to chapter 76.04 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the department must use suppression funding to assist local fire departments with aerial fire response capabilities during the critical initial attack phase of fighting a wildland fire.

(2) The department must use suppression funding to assist local fire departments with initial attacks that meet the following requirements:

(a) The local fire department must have entered into a response agreement with the department;

(b) The local fire department must provide documentation to the department that personnel have received training regarding the use of aviation assets in initial attack and criteria to use for determining when to call for aviation assets;

(c) The aviation assets used in initial attack must come from a list of private contractors approved by the department on exclusive use or call-when-needed agreements based upon the annual review of aviation response and aviation needs required in section 2(2) of this act;

(d) Local fire departments must make direct requests to the appropriate coordination center, including the central Washington interagency coordination center, the northeast Washington interagency coordination center, the Blue Mountain interagency coordination center, or the department of natural resources coordination center, in order to ensure the safe coordination of all aircraft; and

(e) Upon receiving a request for aviation assets under this section, the coordinating agency must notify the director of fire protection or that individual's designee to ensure operational knowledge of a potential future request to invoke the fire service mobilization plan under RCW 43.43.960.

NEW SECTION. Sec. 4. (1) The department of natural resources shall convene a work group composed of wildfire aviation subject matter experts, fire service representatives from the Washington fire chiefs association, the Washington state council of firefighters, the Washington state firefighters' association, the Washington state fire commissioners association, wildland fire management staff, and other partners to evaluate the costs and benefits of a state certification program for aircraft and pilots used in wildfire suppression.

(2) The department of natural resources shall include the findings of the work group in a report to be submitted to the wildfire advisory committee and appropriate committees of the legislature by December 1, 2025.

NEW SECTION. Sec. 5. This act expires July 1, 2027."
