The follow-up health care shall include a hepatitis C diagnostic test.

(4) The offering of a hepatitis B screening test and a hepatitis C screening test under this section must be culturally and linguistically appropriate.

(5) This section does not affect the scope of practice of any health care provider or diminish any authority or legal or professional obligation of any health care provider to offer a hepatitis B screening test, hepatitis C screening test, or both, or a hepatitis C diagnostic test, or to provide services or care for the patient of a hepatitis B screening test, hepatitis C screening test, or both, or a hepatitis C diagnostic test.

(6) A health care provider or health care clinic where primary care services are provided that fails to comply with the requirements of this section shall not be subject to any actions related to their licensure or certification, or to any civil or criminal liability, because of the health care clinic's failure to comply with the requirements of this section.

NEW SECTION. Sec. 2. A new section is added to chapter 43.70 RCW to read as follows:

(1) By September 1, 2025, and subject to the availability of amounts appropriated for this specific purpose, the department shall design a hepatitis B and a hepatitis C awareness campaign for the public and primary care providers. The department shall collaborate with health care providers and community-based organizations that serve high risk patients and patient groups that historically have lacked health care coverage or access to consistent primary care services.

(2) The awareness campaign must focus on increasing awareness of the prevalence of hepatitis B and hepatitis C, the potential treatments and cures for hepatitis B and hepatitis C, and aim to reduce the stigmas surrounding hepatitis B and hepatitis C.

(3) This section expires December 31, 2027.

Sec. 3. RCW 43.70.613 and 2021 c 276 s 2 are each amended to read as follows:

(1) By January 1, 2024, the rule-making authority for each health profession licensed under Title 18 RCW subject to continuing education requirements must adopt rules requiring a licensee to complete health equity continuing education training at least once every four years.

(2) Health equity continuing education courses may be taken in addition to or, if a rule-making authority determines the course fulfills existing continuing education requirements, in place of other continuing education requirements imposed by the rule-making authority.

(3)(a) The secretary and the rule-making authorities must work collaboratively to provide information to licensees about available courses. The secretary and rule-making authorities shall consult with patients or communities with lived experiences of health inequities or racism in the health care system and relevant professional organizations when developing the information and must make this information available by July 1, 2023. The information should include a course option that is free of charge to licensees. It is not required that courses be included in the information in order to fulfill the health equity continuing education requirement.

(b) By January 1, 2023, the department, in consultation with the boards and commissions, shall adopt model rules establishing the minimum standards for continuing education programs meeting the requirements of this section. The department shall consult with patients or communities with lived experience of health inequities or racism in the health care system, relevant professional organizations, and the rule-making authorities in the development of these rules.

(c) The minimum standards must include instruction on skills to address the structural factors, such as bias, racism, and poverty, that manifest as health inequities. These skills include individual-level and system-level intervention, and self-reflection to assess how the licensee's social position can influence their relationship with patients and their communities. These skills enable a health care professional to care effectively for patients from diverse cultures, groups, and communities, varying in race, ethnicity, gender identity, sexuality, religion, age, ability, socioeconomic status, and other categories of identity. The courses must assess the licensee's ability to apply health equity concepts into practice. Course topics may include, but are not limited to:

(i) Strategies for recognizing patterns of health care disparities on an individual, institutional, and structural level and eliminating factors that influence them;

(ii) Intercultural communication skills training, including how to work effectively with an interpreter and how communication styles differ across cultures;

(iii) Implicit bias training to identify strategies to reduce bias during assessment and diagnosis;

(iv) Methods for addressing the emotional well-being of children and youth of diverse backgrounds;

(v) Ensuring equity and antiracism in care delivery pertaining to medical developments and emerging therapies;

(vi) Structural competency training addressing five core competencies:

(A) Recognizing the structures that shape clinical interactions;

(B) Developing an extracurricular language of structure;

(C) Rearticulating "cultural" formulations in structural terms;

(D) Observing and imagining structural interventions; and

(E) Developing structural humility; ~~(and)~~

(vii) Cultural safety training; and

(viii) Viral hepatitis screening and treatment, including courses related to recommendations from the federal centers for disease control and prevention and the United States preventive services task force.

(4) The rule-making authority may adopt rules to implement and administer this section, including rules to establish a process to determine if a continuing education course meets the health equity continuing education requirement established in this section.

(5) For purposes of this section the following definitions apply:

(a) "Rule-making authority" means the regulatory entities identified in RCW 18.130.040 and authorized to establish continuing education requirements for the health care professions governed by those regulatory entities.

(b) "Structural competency" means a shift in medical education away from pedagogic approaches to stigma and inequalities that emphasize cross-cultural understandings of individual patients, toward attention to forces that influence health outcomes at levels above individual interactions. Structural competency reviews existing structural approaches to stigma and health inequities developed outside of medicine and proposes changes to United States medical education that will infuse clinical training with a structural focus.

(c) "Cultural safety" means an examination by health care professionals of themselves and the potential impact of their own culture on clinical interactions and health care service delivery. This requires individual health care professionals and health care organizations to acknowledge and address their own biases, attitudes, assumptions, stereotypes, prejudices, structures, and characteristics that may affect the quality of care provided. In doing so, cultural safety encompasses a critical consciousness where health care professionals and health care organizations engage in ongoing self-reflection and self-awareness and hold themselves accountable for providing culturally safe care, as defined by the patient and their communities, and as measured through progress towards achieving health equity. Cultural safety requires health care professionals and their associated health care organizations to influence health care to reduce bias and achieve equity within the workforce and working environment."

On page 1, line 2 of the title, after "services;" strike the remainder of the title and insert "amending RCW 43.70.613; adding a new section to chapter 70.54 RCW; adding a new section to chapter 43.70 RCW; and providing an expiration date."

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the Washington state liquor and cannabis board exists to promote safe communities and public safety, and that there is no state entity to oversee research and education of the state's cannabis industry.

(2) The legislature therefore declares:

(a) The Washington state cannabis commission is established to benefit the people of the state of Washington and its economy;

(b) The general welfare of the people of the state will be served by the research and development of best practices surrounding safe cultivation and processing activities of cannabis so the industry is therefore affected with the public interest; and

(c) Creating a Washington state cannabis commission for the public purpose of administering the revenue of the commission serves the public interest by materially advancing the producing and processing of cannabis and improving environmental sustainability in the cannabis producing and processing sectors.

(3) To complement the development of a comprehensive regulatory scheme for the production and processing of cannabis and cannabis products, the legislature further declares that:

(a) It is in the overriding public interest that the state support responsible agricultural production of cannabis in order to:

(i) Protect the public by providing research and education in reference to the quality, care, and methods used in the production of cannabis and cannabis products; and

(ii) Support and engage in programs or activities that benefit the safe production, handling, processing, and uses of cannabis and cannabis products; and

(b) Cannabis production and processing is a highly regulated industry and that this chapter and the rules adopted under it are only one aspect of the regulated industry. Other applicable laws include:

- (ii) Chapter 15.125 RCW, cannabis and cannabis products;
- (iii) Title 69 RCW, food, drugs, cosmetics, and poisons; and
- (iv) Chapter 82.08 RCW, retail sales tax.

The legislature finds that school districts may have school facilities with significant building systems deficiencies that are not adequately served by a large construction project program like the school construction assistance program or a small construction project program like the small school district and state-tribal education compact school modernization program. Therefore, the legislature finds it would be beneficial to local tax payers to establish a low interest loan program that would allow school districts to fund midsize projects through existing resources rather than paying all project costs upfront.

NEW SECTION. Sec. 2. A new section is added to chapter

28A.525 RCW to read as follows:

(1) Subject to the availability of amounts appropriated for this specific purpose, the office of the superintendent of public instruction, in coordination with the office of the state treasurer, must administer a modernization loan program for school districts and state-tribal education compact schools with significant building system deficiencies. The office of the superintendent of public instruction and the office of the state treasurer may adopt rules to implement this section.

The superintendent of public instruction may prioritize planning grants for school districts and state-tribal education compact schools with the most serious building deficiencies and the most limited financial capacity. Planning grants may not exceed \$75,000 per applicant.

(3)(a) An advisory committee with the following membership must assist the office of the superintendent of public instruction in designing the loan application process, developing the prioritization criteria, and evaluating the grant applications:

(i) Four members of the legislature of the state of Washington, one of whom is appointed by the chairperson of each of the two largest political caucuses in the senate and house of representatives; and

(ii) Three members who have experience in financing and managing school facilities, as appointed by the superintendent of public instruction.

(b) Advisory committee members may not be involved in developing projects or applying for loans funded under this section.

(c) The office of the superintendent of public instruction must provide administrative and staff support to the advisory committee.

(4) The superintendent of public instruction must submit a list of modernization projects, as prioritized by the advisory committee, to the governor and legislature by January 8, 2025, and every November 1st thereafter. The list must include: (a) A description of the project; (b) the proposed state funding level, not to exceed \$6,000,000 or 10 percent of the amount appropriated for this purpose, whichever is greater; (c) estimated total project costs; and (d) local funding resources used as repayment. Loan funds may be awarded only after the legislature approves the list of projects.

(5) The office of the state treasurer must administer the loans approved by the legislature under subsection (4) of this section.

(a) Modernization loans provided pursuant to this section may not exceed a one percent interest rate or a period of 20 years.

(b) Funds collected as repayment of loans issued under this section must be deposited in the common school construction fund.

(6) For projects in this section that are also eligible for funding through the school construction assistance program, the office of the superintendent of public instruction must expedite and streamline the administrative requirements, timelines, and matching requirements for the funds provided under this section to be used promptly. Funds provided under this section plus state funds provided in the school construction assistance program grant must not exceed total project costs minus available local resources."

MOTIONS

SECOND SUBSTITUTE SENATE BILL NO. 5955, by Senate Committee on Ways & Means (originally sponsored by Keiser, Hasegawa, Kauffman, Nguyen, and Wilson, C.)

Senator Keiser moved that the following striking amendment no. 639 by Senator Keiser be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. Airports are an important part of Washington's economy. Airports enable travel for business or recreation, allow for the transportation of cargo, and provide thousands of jobs for the people of the state.

For those living near an airport, there can also be adverse impacts from aircraft operations. In King county, the majority of people identifying as Black, Hispanic, Native Hawaiian, or Pacific Islander live within 10 miles of Seattle-Tacoma international airport.

Large port districts operating commercial service airports that administer aircraft noise mitigation programming have expressed a desire and intention to repair or replace aircraft noise mitigation equipment that has been found to be no longer working as intended or is reported to have caused additional hazards or structural damage to the property. Large port districts are restricted to use local, nonairport resources to address such equipment due to limitations imposed by federal regulations.

Ensuring the efficacy of existing noise mitigation equipment, and the repair or replacement of equipment that has caused hazards or structural damage to the property serves a fundamental governmental purpose and thereby provides wider public benefit to the citizens of Washington.

The legislature intends to partner with port districts operating large airports in the state and impacted areas to provide resources to repair or replace noise mitigation equipment that has been found to be no longer working as intended, or is found to have caused additional hazards or structural damage to the property,

THIRTY SEVENTH DAY, FEBRUARY 13, 2024

2024 REGULAR SESSION

and to address the impacts of aircraft operations that are faced by impacted areas.

With this partnership and resources large airports can be more responsive, more effectively and quickly address relevant noise mitigation equipment, and help uphold the values of respect, antiracism, equity, and stewardship.

Sec. 2. RCW 53.54.020 and 2020 c 105 s 2 are each amended to read as follows:

(1) Prior to initiating programs as authorized in this chapter, the port commission shall undertake the investigation and monitoring of aircraft noise impact to determine the nature and extent of the impact. The port commission shall adopt a program of noise impact abatement based upon the investigations and as amended periodically to conform to needs demonstrated by the monitoring programs. In no case may the port district undertake any of the programs prescribed in this chapter in an area that is:

(a) More than ~~((ten))~~ 10 miles beyond the paved north end of any runway;

(b) More than ~~((thirteen))~~ 13 miles beyond the paved south end of any runway; or

(c) More than two miles from the centerline of any runway ~~((ten))~~ 10 miles north and ~~((thirteen))~~ 13 miles south from the paved end of such runway.

(2) ~~((Such areas as determined in this section.))~~ Areas within which a port district may undertake a program authorized in this chapter shall be known as "impacted areas."

Sec. 3. RCW 53.54.030 and 2021 c 65 s 3 are each amended to read as follows:

(1) For the purposes of this chapter, in developing a remedial program, the port commission may take steps as appropriate including, but not limited to, one or more of the following programs:

(a) Acquisition of property or property rights within the impacted area, which shall be deemed necessary to accomplish a port purpose. The port district may purchase such property or property rights by time payment notwithstanding the time limitations provided for in RCW 53.08.010. The port district may mortgage or otherwise pledge any such properties acquired to secure such transactions. The port district may assume any outstanding mortgages.

(b) Transaction assistance programs, including assistance with real estate fees and mortgage assistance, and other neighborhood remedial programs as compensation for impacts due to aircraft noise and noise associated conditions. Any such programs shall be in connection with properties located within an impacted area and shall be provided upon terms and conditions as the port district shall determine appropriate.

(c) Programs of soundproofing structures located within an impacted area. Such programs may be executed without regard to the ownership, provided the owner waives damages and conveys an easement for the operation of aircraft, and for noise and noise associated conditions therewith, to the port district.

(d) Mortgage insurance of private owners of lands or improvements within such noise impacted area where such private owners are unable to obtain mortgage insurance solely because of noise impact. In this regard, the port district may establish reasonable regulations and may impose reasonable conditions and charges upon the granting of such mortgage insurance. Such mortgage insurance fees and charges shall at no time exceed fees established for federal mortgage insurance programs for like service.

(e) Management of all lands, easements, or development rights acquired, including but not limited to the following:

(i) Rental of any or all lands or structures acquired;

(ii) Redevelopment of any such lands for any economic use

consistent with airport operations, local zoning and the state environmental policy;

(iii) Sale of such properties for cash or for time payment and subjection of such property to mortgage or other security transaction: PROVIDED, That any such sale shall reserve to the port district by covenant an unconditional right of easement for the operation of all aircraft and for all noise or noise conditions associated therewith.

(2)(a) An individual property may be provided benefits by the port district under each of the programs described in subsection (1) of this section. However, an individual property may not be provided benefits under any one of these programs more than once, unless the property:

(i) Is subjected to increased aircraft noise or differing aircraft noise impacts that would have afforded different levels of mitigation, even if the property owner had waived all damages and conveyed a full and unrestricted easement; or

(ii) Contains a soundproofing installation, structure, or other type of sound mitigation equipment product or benefit previously installed pursuant to the remedial program under this chapter by the port district that is determined through inspection to be in need of a repair or replacement.

(b) Port districts choosing to exercise the authority under (a)(ii) of this subsection are required to conduct inspections of homes where mitigation improvements are no longer working as intended. In those properties, port districts ~~((must work with a state certified building inspector))~~ may contract with building inspectors or other professionals with experience in sound testing, or window and door installs, or port districts may enter into an interlocal agreement under chapter 39.34 RCW with the county in which the port is located to contract for the provision of building inspectors or professionals with experience in sound testing, or window and door installs to determine whether package failure resulted in additional hazards or structural damage to the property. Any expense incurred by the county related to contracting of a building inspector or professional under this subsection (2)(b) must be reimbursed by the port district. A port district may use funds from the grant program created under section 5 of this act to reimburse the county for expenses incurred for the contracting of a building inspector or other professional.

(c) Port districts choosing to exercise their authority under (b) of this subsection may apply to the grant program created under section 5 of this act for resources to facilitate the assessment and inspection of noise mitigation equipment that is no longer working as intended, or is reported to have caused additional hazards or structural damage to the property.

(d) If a building inspector or other professional contracted pursuant to (c) of this subsection identifies that a property's noise mitigation equipment is no longer working as intended, then the associated port district must apply to the grant program created under section 5 of this act for resources to repair or replace existing noise mitigation equipment. If an inspection confirms that installation of noise mitigation equipment resulted in additional hazards or structural damage to the property, then a port district must apply to the grant program under section 5 of this act for resources to address those hazards or damages.

(3) A property shall be considered within the impacted area if any part thereof is within the impacted area.

Sec. 4. RCW 53.54.040 and 1974 ex.s. c 121 s 4 are each amended to read as follows:

A port district may establish a fund to be utilized in effectuating the intent of this chapter. The port district may finance such fund by: The proceeds of any grants or loans made by federal agencies; the proceeds of any grants made by the department of commerce pursuant to section 5 of this act; rentals, charges, and other

revenues as may be generated by programs authorized by this chapter, airport revenues; and revenue bonds based upon such revenues. The port district may also finance such fund, as necessary, in whole or in part, with the proceeds of general obligation bond issues of not more than one-eighth of one percent of the value of taxable property in the port district: PROVIDED, That any such bond issue shall be in addition to bonds authorized by RCW 53.36.030: PROVIDED FURTHER, That any such general obligation bond issue may be subject to referendum by petition as provided by county charter, the same as if it were a county ordinance.

NEW SECTION. Sec. 5. A new section is added to chapter 43.330 RCW to read as follows:

(1) The department of commerce shall administer a grant program to provide assistance to qualifying port districts for expenses related to noise mitigation pursuant to RCW 53.54.030(2) (c) and (d).

(2) The department of commerce shall prepare and publish an annual report on its website detailing grants made under this section. The report must include: (a) The number of inspectors or other professionals contracted; (b) the number of inspections conducted; (c) the number of properties provided with new or improved noise mitigation equipment subsequent to an inspection; (d) the number of properties receiving funds to address hazards or damages proven by an inspection to be associated with the installation of noise mitigation equipment; and (e) the number of inspected properties where no repairs occurred and the reasons why.

(3) A qualifying port district receiving funds under this section may commit to matching, from port district funds not subject to federal airport revenue use requirements, at least half of the total funding provided by the legislature under section 6 of this act for the purposes of noise mitigation under RCW 53.54.030(2) (c) and (d) each fiscal year.

(4) For the purposes of this section, "qualifying port district" means a port district authorized to undertake programs for the abatement of aircraft noise under RCW 53.54.010.

NEW SECTION. Sec. 6. A new section is added to chapter 53.20 RCW to read as follows:

(1) The port district equity fund is created in the custody of the state treasurer. Moneys to the account may consist of appropriations by the legislature, contributions from county and local governments and port districts, and private contributions. Expenditures from the account may only be used to make grants to port districts under section 5 of this act. Only the director of the department of commerce or the director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) The department of commerce shall provide management services for the port district equity fund. The department shall establish procedures for fund management. The department shall develop the grant criteria, monitor the grant program, and select grant recipients.

(3) The department of commerce shall prepare and publish an annual report on its website detailing grants made under this section, the uses to which the grants have been put, and the benefits that have been realized.

NEW SECTION. Sec. 8. A new section is added to chapter 43.131 RCW to read as follows:

In addition to the requirements of this chapter, the joint

legislative audit and review committee must include in its review of the grant program under section 5 of this act the number of homes remediated since the effective date of this section and the number of homes remaining in need of noise mitigation remediation.

NEW SECTION. Sec. 9. A new section is added to chapter 43.131 RCW to read as follows:

(2) RCW 53.20.--- and 2024 c . . . s 6 (section 6 of this act)."

On page 1, line 2 of the title, after "districts;" strike the remainder of the title and insert "amending RCW 53.54.020, 53.54.030, and 53.54.040; adding a new section to chapter 43.330 RCW; adding a new section to chapter 53.20 RCW; adding new sections to chapter 43.131 RCW; creating a new section; and providing an effective date."
