A STUDENT GUIDE TO THE LEGISLATURE
Your Legislature

1. What is the minimum age for minors to work? □ 14 □ 15 □ 16

2. Can teenagers drive between 1 a.m. and 5 a.m. without an adult passenger? □ Yes □ No

3. Can you talk on your cell phone while driving? □ Yes □ No

See, state laws really do affect your daily lives! Decisions are made at the Washington State Legislature about how old you have to be to work, who can ride in your car, and when you can talk on your cell phone. It is your legislature too, and as a citizen of Washington, you have the power to help decide who our elected officials are and the ability to influence the decision-making process in a real way. By regularly voting in elections and sharing your opinions and ideas with your elected officials, you can start making the changes you seek.

What is the Legislature?

The Legislature is the branch of government that makes new laws and changes old ones. Our State Legislature makes laws only for Washington. The Washington State Legislature is also responsible for imposing taxes, writing the state’s budget, and regulating other state agencies.

What are chambers?

Like almost every other state in the country, Washington has a bicameral Legislature. This means it has two chambers—the Senate and the House of Representatives. There are 49 state senators and 98 state representatives. Nebraska is the only state with just one chamber, which is called a unicameral Legislature.

What are Legislative districts?

There are 49 Legislative districts in Washington State. You live in one of these districts along with approximately 120,000 other people. The residents of each district elect one Senator and two Representatives to the Legislature. New district boundary lines are redrawn every 10 years after the Census. The shapes of the districts may be

What are the political parties?

The members of the two chambers are divided into groups or teams, called “political parties.” The two major parties are the Democrats and the Republicans. The group having the largest number of members is called the “majority party.” The other group is the “minority party.”

The Democratic Party mascot is the donkey.

The Republican Party mascot is the elephant.

The state of Washington is the only state to be named after a United States president.
changed to reflect changes in the population. This is why western Washington has more districts than eastern Washington—there are simply more people on the west side to be represented!

Who can be a Legislator?

State Senators are elected by the voters in their districts to a 4-year term, and State Representatives are elected for 2 years. To be a Legislator, you must be at least 18 years old, live in your Legislative district, and be a registered voter.

The Washington State Legislature is a part-time citizen legislature, which means most of its members have other careers or jobs in addition to their elected position, such as being a nurse, electrician, or teacher.

When does your Legislature meet?

Our State Constitution says that the Legislature will hold regular sessions every year, beginning on the second Monday of January. The Legislature operates on a biennial schedule, or a 2-year period. A new biennium begins every odd-numbered year and lasts for 105 calendar days. This is known as a long session, and it is when the Legislature passes the state budgets. A short session is held during even-numbered years for 60 days. All bills that do not pass during the long session are retained for the following short session. Bills are often considered by the Legislature for several years before they are passed into law, and many bills will never become law!

Sometimes Legislators are called back to Olympia for special sessions, which are usually held between regular sessions to handle emergencies.

What are committees?

The Legislature has committees, or small groups of Senators or Representatives who review proposed laws and study issues. Many bills introduced in the Legislature will receive a public hearing, where citizens are given a chance to present their opinions on proposed legislation.
How a Bill Becomes a Law

A bill may be introduced in either the Senate or House of Representatives.

A committee studies the bill and often holds public hearings on it.

A committee report is read in open session of the House or Senate, and the bill is then referred to the Rules Committee.

The rules committee decides which bills will be sent to the floor for further consideration and which bills won’t.

At the second reading a bill is subject to debate and amendment before being placed on the third reading calendar for final passage.

After passing one house, the bill goes through the same procedure in the other house.

If amendments are made in one house, the other house must concur.

When the bill is accepted in both houses, it is signed by the respective leaders and sent to the Governor.

The Governor signs the bill into law or may veto all or part of it. If the Governor fails to act on the bill, it may become law without a signature.
ACROSS:
1. A “rule” created by the Legislature.
2. Student helper who runs errands.
3. To end the day’s session or meeting.
5. The 42nd state of the United States.
6. A proposed law presented to the Legislature for consideration.
9. Represents you in the Senate.
11. Person elected to the House
12. To assemble for an official meeting.

DOWN:
1. Name given to the entire group of lawmakers.
4. The month when regular session begins.
7. The time between regular legislative sessions.
8. The rejection of a bill by the Governor.
10. A meeting where the public voices its opinions on a bill.

(The answers are on page 16)
State government provides services for the people of Washington, but federal and local governments have important responsibilities too! The federal level makes decisions that affect the entire country. State governments regulate issues for individual states. Local governments deal with issues for a particular city, county or community. All 3 levels of government are essential to the democratic process.

Match each answer with the correct level of government. Mark “F” for federal, “S” for state and “L” for local government.

1. Who are the elected officials at each level of government?
   ____ Legislator
   ____ President
   ____ Councilmember
   ____ Member of Congress
   ____ County Executive
   ____ Governor
   ____ Mayor

2. Where do elected representatives meet?
   ____ Your Hometown
   ____ Washington, D.C.
   ____ Olympia

3. Which level of government has the following responsibilities?
   ____ runs the police department
   ____ declares war
   ____ provides and maintains National Guard
   ____ removes snow from city streets
   ____ maintains state parks
   ____ prints money
   ____ runs public libraries
   ____ maintains Post Office
   ____ writes Washington’s budget
   ____ gives money to your town to build a school
   ____ runs the Social Security system
   ____ collects income tax for the IRS
   ____ issues drivers’ licenses
   ____ passes rules about building heights

(The answers are on page 16)
Branches of State Government

Similar to the federal government, state government also has three branches of government: executive, legislative and judicial. Commonly referred to as the “separation of powers,” this system ensures that no single branch has too much control over another. Each branch has unique responsibilities and limitations.

Complete the paragraphs about each branch of state government.
You will only need to use each word once.

The head of the _______ branch is the ________, who is elected to ___ year term. This person’s job is to _______ the laws of Washington and ___ bills passed by the Legislature. He/she also has the power to ___ proposed laws. State _______ are also part of this branch and manage the daily ________ of state government.

The _______ branch of state government _____ the laws of our state. This branch also determines the state ______. The governing body of this branch is the ________, which is made up of the _____ and __________________________. _______ are elected to four year terms and ___________ serve ___ year terms. Each legislator represents citizens living in their home ______; our state has __ Legislative districts.

The Washington State ____________ is the head of the _____ branch. The other levels of this branch are the Court of ______, Superior Court, ____________ and Municipal Court. Their job is to _______ our laws. Washington judges are ______ by the people to uphold the State _________.

(The answers are on page 16)
Write Your Own Law

Have you ever wanted to change something in your state? Are there problems that you and your friends have discussed over and over that never seem to get resolved? Now’s your chance! Use the space below to identify a problem in your state and describe what you think should be done about it.

1. Problem
   Identify a problem that you think should be addressed by state government. How (if at all) is this problem currently being handled by decision makers?
   ___________________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________

2. Options
   List two or three options for solving the problem. What will happen if nothing is done to address the problem?
   Option #1 _____________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   Option #2 _____________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   Option #3 _____________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
   ___________________________________________________________________________
Write Your Own Law (cont.)

Just like you, other Washingtonians have good ideas about how to solve tough problems. Legislators rely on these good ideas to help them write new laws and fix old ones. During session, hundreds of ordinary people come to Olympia to talk to legislators about problems in their communities and give them ideas about how to fix things. These people are often referred to as “citizen lobbyists.” You can be a citizen lobbyist too! Now that you have identified a problem and thought of some solutions, think about what you would tell your legislator...

3. Your Proposal
Which option do you think is the best and why? Which community members will be affected by these changes? How do you think they will react to your proposal (positively or negatively)?

___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________

4. Action
Describe what steps you need to take to implement your proposal? Who do you need to meet with? What other constraints do you anticipate?

___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________

Look on the back page of this booklet to learn about contacting your legislator. Share your proposal and see what they think. Your good idea could very well become the next new bill!
Be a Legislator for a Day!

Since the Legislature is only in session three or four months a year, Legislators spend much of their time in their home districts raising families and working other jobs in addition to their duties as elected officials. This is why we call our Legislature a part-time, citizen legislature. However, even though being a Legislator is technically a part-time job, Legislators’ schedules can be very hectic at times when they try to balance everything.

Using the appointments below, try to schedule your busy day as a Legislator, parent and apple farmer. Remember, you might not be able to do everything on the list.

- You are scheduled to give a speech at the Chamber of Commerce meeting at 4 p.m.
- Your daughter’s birthday party starts at 6:30 p.m.
- You are supposed to call a contractor to discuss using wind energy to power your farm.
- You are invited to the Youth Alliance’s annual kickoff breakfast.
- You have a luncheon meeting with a group of farmers from your district from 12-1 p.m.
- You have a stack of 50 letters to your constituents to sign.
- You are invited to do a radio interview in your district at 11 a.m.
- You must attend an honorary ceremony for a constituent in your district’s accomplishments at 5 p.m.
- The leader of a local labor union would like to meet with you at 1:30 p.m.
- You are invited to a town hall forum about a controversial issue in your district at 7 p.m.
- One of your constituents would like to meet with you this afternoon to discuss the proposal for a new shopping mall in your district.
- Your son has a dentist appointment at 10:15 a.m.
- You have agreed to attend the opening ceremony for a new assisted living center in your district at 2 p.m.
- You must read three daily newspapers and a weekly newsletter in your district.
- You have 22 constituent emails that need responses.
- A group of concerned citizens would like to meet with you to discuss a new law they’d like you to introduce next session.
- A representative from the small business community wants to discuss upcoming issues with you this morning.
- You need to drop off the apples from your orchard at the local farmers market in the morning.

Match Game

Washington has many official symbols that represent things that are special to our state. Look at the pictures on the left. Using letters “A” through “S,” match each symbol name to the correct picture. See sample below.

| A | Pacific Chorus Frog  
State Amphibian, 2007 |
| B | Willow Goldfinch  
State Bird, 1928 |
| C | Square Dance  
State Dance, 1979 |
| D | Steelhead Trout  
State Fish, 1969 |
| E | State Flag  
1890s |
| F | Coast Rhododendron  
State Flower, 1959 |
| G | “Roll On, Columbia, Roll On”  
State Folk Song, 1987 |
| H | Columbian Mammoth  
State Fossil, 1998 |
| I | Apple  
State Fruit, 1989 |
| J | Petrified Wood  
State Gem, 1975 |
| K | Bluebunch Wheatgrass  
State Grass, 1989 |
| L | Green Darner Dragonfly  
State Insect, 1997 |
| M | Orca  
State Marine Mammal, 2005 |
| N | State Seal  
1889 |
| O | The Lady Washington  
State Ship, 2007 |
| P | “Washington, My Home”  
State Song, 1959 |
| Q | State Tartan  
A design for the weaving of cloth, 1991 |
| R | Western Hemlock  
State Tree, 1947 |
| S | Walla Walla Sweet Onion  
State Vegetable, 2007 |

(The answers are on page 16)
Symbols of Washington State

State Seal
In 1889, jeweler Charles Talcott designed our first state seal using an ink bottle, silver dollar and a postage stamp. Talcott’s brother, L. Grant Talcott, lettered the words, “The Seal of the State of Washington, 1889,” and another brother, G.N. Talcott, cut the printing die. More information can be found at the Secretary of State’s Web site on the State Seal.

State Flower
Coast Rhododendron
In 1892, before they had the right to vote, Washington women selected the coast rhododendron as the state flower. They wanted an official flower to enter in a floral exhibit at the 1893 World’s Fair in Chicago. Six flowers were considered, but the final decision was narrowed to clover and the “rhodie,” and voting booths were set up for ladies throughout the state. When the ballots were counted, the rhododendron had been chosen as the Washington state flower. In 1959, the Legislature designated the native species, Rhododendron macrophyllum, as the official flower of the state of Washington.

The State Flag
The state flag and the state seal are similar. Passed in 1923, Washington law describes the flag as having dark green bunting with a state seal in the center. In the late 1890s, a blue and gold military state flag with George Washington’s profile on it flew over many cities and towns throughout the state. But when it came to a final decision, the current flag was adopted by the Legislature. According to law, the flag of the United States and the flag of the state shall be prominently installed, displayed and maintained in schools, court rooms and state buildings. For further information about the state flag, check the Secretary of State’s web site.

State Tree
Western Hemlock
In 1946, an Oregon newspaper teased Washington for not having a state tree. The Portland Oreganian picked out the western hemlock, Tsuga heterophylla for us, but Washington newspapers decided to choose their own and selected the popular western red cedar. State Representative George Adams of Mason County pleaded with the Legislature to adopt the western hemlock. The hemlock, he said, would become “the backbone of this state’s forest industry.” Adams’ bill passed the Legislature and was signed into law in 1947.

State Bird
Willow Goldfinch
The goldfinch is a delicate little bird with a yellow body and black wings, and although it eventually became the official state bird, many other birds were considered for the title. In 1928, legislators let school children select the state bird and the meadowlark won hands-down. It was a nice choice but seven other states already had chosen the same bird. Another vote was taken in 1931 by the Washington Federation of Women’s Clubs. Many birds were nominated, but the goldfinch won handily over the tanager, song sparrow, junco and piliated woodpecker. Now there were two state birds and the Legislature decided to leave the final choice to school children. In 1951, children voted for the goldfinch and the Legislature made it unanimous.

State Song
“Washington, My Home”
The state song, “Washington, My Home,” was written by Helen Davis, arranged by Stuart Churchill, and became the official state song in 1959. But, like the goldfinch, it had some stiff competition from another popular song. Back in 1909, “Washington Beloved” was adopted, sort of, by the Legislature. Professor Edmond Meany, the historian, wrote the words and Reginald de Koven, who also wrote “O Promise Me” and other operettas, wrote the music. But the official designation for the song was never formally introduced as a bill and so was not part of the state’s code of law. When a state senator from South Bend introduced a bill in 1959 to make “Washington, My Home” our state song, it was approved unanimously.

State Fish
Steelhead Trout
The steelhead trout is an anadromous fish, meaning it returns to fresh water rivers to spawn. The scales of the steelhead shine flecks of silver with a gray spotted back from head to tail and an intensely white belly; the two colors separated by a hint of opalescent pink. Steelhead trout is one of the most popular fish for recreational fishing, a major industry in Washington State. The steelhead trout (Salmo gairdnerii) was adopted by the Legislature as a state symbol in 1969.

State Gem
Petrified Wood
The geological history of our state has encompassed many great changes, one of them being the many lava flows from volcanic fissures. Centuries ago, the interior of Washington was swampy and mild with many trees such as cypress, oak, elm and gingko growing in wet areas. Layers of logs were preserved with each new lava flow, and as the layers grew deeper, many of the logs became waterlogged and lay protected in deep water. Over time, water continued to seep through the lava and permeate the wood with silica. Eventually, the wood fiber was completely replaced by silica, thus petrifying many logs. The petrified wood is perfect in form and detail to the original wood. In 1975, petrified wood was adopted as the state gem. The best place to see petrified wood is the Gingko Petrified Forest State Park in Vantage.

State Fruit
Apple
Washington is the nation’s top apple-producing state, so it is appropriate that the apple was named a state symbol in 1989, the centennial year. A favorite fruit around the world, the apple comes in many different colors, sizes and varities. From the beautiful blossoms of spring, to the heavily laden branches in autumn, the apple trees of eastern Washington represent one of the largest industries in the state. The Washington apple is certainly one of the most recognized symbols of the state worldwide.
**State Grass**

**Bluebunch Wheatgrass**

Although many state symbols are readily identifiable with the western part of the state, bluebunch wheatgrass is a state symbol that is unique to eastern Washington. Bluebunch wheatgrass was a blessing to Washington’s pioneer farmers and continues to play a major role in our agriculture industry today. It was adopted by the 1989 Legislature as the official state grass. Its botanical name is Agropyron spicatum.

**State Insect**

**Green Darter Dragonfly**

In 1997, the common green darter dragonfly, Anax junius Drury, became Washington’s official state insect. Students from over 100 school districts statewide participated in the selection of the common green darter dragonfly. Also known as the “mosquito hawk,” this insect can be found throughout Washington and is a beneficial contributor to the ecosystem because it consumes a large number of insect pests. It is easily recognizable by its bright green head and thorax, it has a four to six-inch wingspan and can fly 25 to 35 miles per hour. There are over 400 different species of dragonflies. Dragonflies existed prior to the dinosaur age and some had up to a three-foot wing span. “Darter” is one family of dragonflies and the common green was first sighted and recorded by Drury in 1773.

**State Fossil**

**Columbian Mammoth**

Following a four-year effort by students to have this behemoth designated as our state fossil, the Legislature recognized in 1998 that the large, hairy prehistoric elephants of the extinct genus Mammutthus roamed the North American continent, including the Pacific Northwest, during the Pleistocene epoch (ice ages). Mammoth is the common name given to any member of an extinct genus Mammutthus of the elephant family. The first North American mammoths migrated across the Bering Strait from Asia down through Alaska about two million years ago. Nearly all mammoths died out about 10,000 years ago. From studies based on deposits of the Columbian mammoths, M. columbi, it is clear that grasses featured prominently in their diets. The maximum life expectancy of the mammoth would have been 60 to 65 years. The males grew to the size of modern adult elephants; females were about half that size. Several years ago, fossils of the Columbian mammoth were found on the Olympic Peninsula.

**State Vegetable**

**Walla Walla Sweet Onion**

In 2007, the Walla Walla sweet onion was designated as the official vegetable of the state of Washington. The Walla Walla Sweet is from Walla Walla and is only grown properly in the Walla Walla Valley. This onion finds its origins on the island of Corsica. Over a century ago, a retired French soldier found a sweet onion seed there and brought it to the Walla Walla Valley. The sweet onion had impressive winter hardiness well-suited for the climate of southeastern Washington. Soon he and other immigrants in the area began harvesting the seed. After several generations of careful hand selection, the sweet onion developed greater sweetness, size, and shape. Today, there are many growers producing Walla Walla Sweet onions on farmland in the Walla Walla Valley. Sweet onion season is mid-June through September.

**State Marine Mammal**

**Orca Whale**

As a result of two years of research and persuasion by students, the Legislature designated the orca, Orcinus Orca, as the official marine mammal of the state of Washington in 2005. Many people visit Washington state to watch orcas; the orca is a significant symbol for the Native American culture; there are pods of orcas that migrate annually through Puget Sound; and the orca is easily recognizable because of its distinct markings. The designation is intended to promote orca awareness and to encourage protection of the natural marine habitat.

**State Amphibian**

**Pseudacris regilla**

In 2007, the Pacific chorus frog was designated as the official amphibian of the State of Washington. Because Pacific chorus frogs live in every county in the state and on both sides of the Cascades, they are an excellent choice as an emblem for the whole state. The Pacific chorus frog is charming and makes beautiful sounds. Less than two inches long, they swell their throat sacs to three times the size of their heads to send their calls into the night. This amphibian is useful because it eats insects, including mosquitoes. It is recognizable by the black stripe through the eye to the shoulder, and can be brown, tan, grey or green. A native amphibian, it is preyed upon by bullfrogs, snakes, raccoons, shorebirds, hawks and ducks.

**State Ship**

**Lady Washington**

The legislature designated the Lady Washington as the official ship of the state of Washington in 2007. Built over a two-year period and launched on March 7, 1899, the ship was built in Aberdeen by the Grays Harbor Historical Seaport Authority. Master shipwrights from all over the Pacific Northwest constructed her near the confluence of the Wishkah and Chehalis rivers. The Lady Washington is based in Aberdeen.

A reproduction sailing ship of the original Washington/Lady Washington that sailed during approximately 1750-1798, the vessel type is a “brig,” indicating the configuration of the sails. The Office of the Secretary of State for the State of Washington in 2007. The legislature designated the orca, Orcinus Orca, as the official marine mammal of the state of Washington in 2005. Many people visit Washington state to watch orcas; the orca is a significant symbol for the Native American culture; there are pods of orcas that migrate annually through Puget Sound; and the orca is easily recognizable because of its distinct markings. Branches of State Government

The head of the executive branch is the Governor, who is elected to a four-year term. This person's job is to enforce the laws of Washington and sign bills passed by the Legislature. He/she also has the power to veto proposed laws. State agencies are also part of this branch and manage the daily operations of state government.

The legislative branch of state government writes the laws of our state. This branch also determines the state budget. The governing body of this branch is the Legislature, which is made up of the Senate and House Representatives. Senators are elected to four-year terms and Representatives serve two-year terms. Each legislator represents citizens living in their home district; our state has 49 Legislative districts.

The Washington State Supreme Court is the head of the judicial branch. The other levels of this branch are the Court of Appeals, Superior Court, District Court, and Municipal Court. Their job is to interpret our laws. Washington judges are elected by the people to uphold the State Constitution.

The Legislative Information Center (LIC) is a service provided by the Washington State Legislature. Information and documents about the legislative process can be obtained by:

- Calling the toll-free hotline at **1-800-562-6000**
- Calling the office at **360-786-7573**
- Visiting LIC in Room **106** of the Legislative Building
- E-mailing **support@leg.wa.gov**
- Writing to:
  
  **The Legislative Information Center**
  
  P.O. Box 40600
  
  Olympia, WA 98504-0600

Please feel free to make copies of this document. You can download the document from the legislative web site at: [http://www.leg.wa.gov/documents/legislature/studentspage/teenguide_web.pdf](http://www.leg.wa.gov/documents/legislature/studentspage/teenguide_web.pdf)
You have an important role in the formation of Washington’s laws, even though you cannot vote until you are 18 years old. As a citizen, you may contact your state senator or representative about laws being considered by the Legislature, laws already in place, or an idea for a new law.

Legislators particularly enjoy hearing from students, so we encourage you to share your ideas and concerns with them.

### Write a Letter

One of the best ways to communicate is to write a letter. To do so, include your senator’s or representative’s name and one of the following addresses on a stamped envelope:

**For the Senate:**
(Senator’s Name)  
PO Box 40482  
Olympia, WA 98504-0482

**For the House:**
(Representative’s Name)  
PO Box 40600  
Olympia, WA 98504-0600

### Become a Legislative Page

Throughout every Legislative Session, 14-16 year old Washingtonians serve week-long terms as Legislative Pages in Olympia. Page activities include running errands for Legislators and staff on the Capitol Campus, meeting new people and learning about the lawmaking process at Page School.

To find out more about the House & Senate Page Programs, visit the Students’ Page of the website:

### Visit the Capitol Campus

We encourage you to personally visit the state capitol campus in Olympia. We have a tour office which can arrange a fun and interesting tour for your class or your family throughout the year.

It is best to give them as much advance notice as possible. They can be reached at (360) 902-8880.

### Visit the Legislature’s Web site

On the website you’ll find resources for finding & contacting your legislators, researching bills, applying for the Page Program, and much more! Check it out!
