WAC 136-130-020 Priorities by project type. There shall be five project types eligible for RATA funding, with each having separate rating systems for project ranking and selection. The five project types include:

(1) Reconstruction - Emphasis on alignment and grade changes on fifty percent or more of the project length, and may include additional travel lanes and right of way costs.

(2) 3R - Resurfacing, restoration, and rehabilitation - Primary focus on extending the service life of existing facility involving less than fifty percent vertical or horizontal changes, and on safety improvements. Right of way costs are eligible for RATA reimbursement as a part of this project type.

(3) 2R - Resurfacing and restoration - Primary focus on restoration of the pavement structure on the existing vertical and horizontal alignment and spot safety improvements. Minor widening costs are allowed as a part of this project type. Right of way costs are not eligible for RATA reimbursement in this project type.

(4) Intersection - 3R or reconstruction work limited to the vicinity of an existing intersection, and may include additional travel lanes and right of way costs.

(5) Bridge and drainage structures - Replacement or major rehabilitation of an existing bridge or other drainage structure, and may include additional travel lanes and right of way costs. The county road administration board has determined that the interests of the counties in the several regions will be best served by encouraging development of a distinct project priority rating systems for each region.

In consultation with the individual regions, the executive director shall approve the various forms and procedures necessary to allocate available RATA funding, consistent with RCW 36.79.080.

WAC 136-130-050 Supplemental rules in northeast region (NER). Each county in the NER may submit projects requesting RATA funds not to exceed twenty-five percent of the forecasted NER biennial apportionment.

Bridge projects may be submitted requesting RATA funds under one of the following conditions:

(1) Bridges must be approved for federal bridge funding and RATA funds shall be used only as a match for such federal funding. Bridges will be ranked for RATA funding using the WSDOT priority list and may be added to the NER Category 1 priority array at any time during the biennium upon approval of the bridge for federal bridge funding.

(2) A stand-alone bridge project may be submitted as an ordinary reconstruction or 3R RAP project provided that its priority rating has been computed by the bridge rating method in the NER RAP rating procedures. Such projects shall not be considered for funding from the bridge reserve described above.

[Ch. 136-130 WAC—p. 1]

(3) A RAP project may include a bridge when the cost of the bridge does not exceed twenty percent of the total project cost.

WAC 136-130-060 Supplemental rules in southeast region (SER). Each county in the SER may submit projects requesting RATA funds not to exceed twice the per county limit of the forecasted SER biennial apportionment as follows:

Asotin County	ten percent
Benton County	fourteen percent
Columbia County	eleven percent
Franklin County	thirteen percent
Garfield County	ten percent
Kittitas County	thirteen percent
Klickitat County	fourteen percent
Walla Walla County	fourteen percent
Yakima County	twenty percent

Federally funded bridges for which counties are seeking matching funds shall receive first consideration for bridge funds. Bridges receiving federal funding may be added to this list at any time during the biennium. Stand-alone bridges may compete for funds in this reserve that remain after all bridges seeking match for federal funds have been funded. Whatever part of the bridge reserve that is not allocated to bridge projects shall be available for allocation to other RAP projects.
