Chapter 16-200 WAC

FERTILIZERS

WAC
16-200-600 Purpose.
16-200-695 Definitions.
16-200-701 What products are exempt from the definition of commercial fertilizer?
16-200-703 How are biosolids regulated under the Commercial Fertilizer Act?
16-200-7061 What information must I include with my registration application concerning total metals and application rates?
16-200-7062 What method must I use to analyze the total metals contained in my commercial fertilizer?
16-200-7063 How will the department determine whether a commercial fertilizer meets Washington standards for metals?
16-200-7064 What are the Washington standards for metals?
16-200-711 Plant nutrients in addition to nitrogen, phosphorus and potassium.
16-200-715 Fertilizer labels.
16-200-721 Slowly released plant nutrients.
16-200-725 Commercial fertilizer definitions.
16-200-731 Commercial value of plant nutrients.
16-200-735 Breakdown of plant food elements within the guaranty analysis.
16-200-739 Brand name.
16-200-7401 Statement of purpose—Penalty assignment.
16-200-7402 Definitions—Penalty assignment.
16-200-7403 Application of RCW 43.05.110 and 43.05.110—Issuance of a civil penalty without first issuing a notice of correction.
16-200-7404 Calculation of a civil penalty.
16-200-7405 Denial of application or cancellation of a bulk fertilizer distribution license.
16-200-7406 Other dispositions of alleged violations.
16-200-7407 Penalty assignment schedule.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-200-003, 16-200-004, 16-200-005, 16-200-010 through 16-200-630. [From Orders 779, 761, 629, 599, 591 and Regulation 1 through 63 and 69 of Order 453, filed 3/22/60.] Repealed by 81-18-058 (Order 1747), filed 9/1/81. Statutory Authority: RCW 15.53.9018.
16-200-512 Screenings, screenings waste or screenings refuse, defined—Established tolerances. [Order 619, Regulations 69 and 70, effective 2/11/52.] Repealed by 00-16-046, filed 7/26/00, effective 8/26/00. Statutory Authority: Chapter 15.49 RCW.

(12/1/03)

[Ch. 16-200 WAC—p. 1]
Expression of guarantees. [Statutory Authority: RCW 15.53.9012, 96-15-018A (Order 5098), § 16-200-770, filed 7/9/96, effective 8/9/96; Order 1016, filed 5/20/66.] Repealed by Order 1164, § 16-200-129, filed 11/19/03, effective 7/1/04. Statutory Authority: Chapters 15.53 and 34.05 RCW. Later promulgation, see chapters 16-250 and 16-252 WAC.

Ingredients. [Statutory Authority: RCW 15.53.9012, 99-17-043, § 16-200-790, filed 8/13/99, effective 9/13/99; 96-15-018A (Order 5098), § 16-200-790, filed 7/9/96, effective 8/9/96; Order 1164, § 16-200-790, filed 7/9/96, effective 8/9/96; Order 1016, filed 5/20/66.] Repealed by Order 1164, § 16-200-790, filed 7/9/96, effective 8/9/96; Order 1119, filed 11/19/03, effective 7/1/04. Statutory Authority: Chapters 15.53 and 34.05 RCW. Later promulgation, see chapters 16-250 and 16-252 WAC.

Ingredient statement. [Statutory Authority: RCW 15.53.9012, 99-17-043, § 16-200-790, filed 8/13/99, effective 9/13/99; 96-15-018A (Order 5098), § 16-200-795, filed 7/9/96, effective 8/9/96.] Repealed by Order 1164, § 16-200-129, filed 11/19/03, effective 7/1/04. Statutory Authority: Chapters 15.53 and 34.05 RCW. Later promulgation, see chapters 16-250 and 16-252 WAC.

16-200-890 Registration requirements. [Order 1432, § 16-200-900, filed 3/12/76.] Repealed by Order 1164, § 16-200-129, filed 11/19/03, effective 7/1/04. Statutory Authority: Chapters 15.53 and 34.05 RCW. Later promulgation, see chapter 16-256 WAC.

16-200-910 Refusing or cancelling registration—Procedure. [Order 1432, § 16-200-910, filed 3/12/76.] Repealed by Order 1164, § 16-200-129, filed 11/19/03, effective 7/1/04. Statutory Authority: Chapters 15.53 and 34.05 RCW. Later promulgation, see chapter 16-256 WAC.

16-200-920 Quality standards. [Order 1432, § 16-200-920, filed 3/12/76.] Repealed by Order 1164, § 16-200-129, filed 11/19/03, effective 7/1/04. Statutory Authority: Chapters 15.53 and 34.05 RCW. Later promulgation, see chapter 16-256 WAC.

16-200-930 Labeling requirements of animal waste products. [Order 1432, § 16-200-930, filed 3/12/76.] Repealed by Order 1164, § 16-200-129, filed 11/19/03, effective 7/1/04. Statutory Authority: Chapters 15.53 and 34.05 RCW. Later promulgation, see chapter 16-256 WAC.

16-200-940 Testing required. [Order 1432, § 16-200-940, filed 3/12/76.] Repealed by Order 1164, § 16-200-129, filed 11/19/03, effective 7/1/04. Statutory Authority: Chapters 15.53 and 34.05 RCW. Later promulgation, see chapter 16-256 WAC.

16-200-950 Records required. [Order 1432, § 16-200-950, filed 3/12/76.] Repealed by Order 1164, § 16-200-129, filed 11/19/03, effective 7/1/04. Statutory Authority: Chapters 15.53 and 34.05 RCW. Later promulgation, see chapter 16-256 WAC.

WAC 16-200-600 Purpose. The following sections concerning the protection of groundwater, labeling requirements and examination of fertilizer minerals and limes (WAC 16-200-708 through 16-200-742) are established in this chapter under the authority of the Commercial Fertilizer Act, chapter 15.54 RCW.

This chapter also describes the requirements for registration of commercial fertilizers, including the information which must be submitted as part of the registration application, the sample preparation and analysis methods which must be used, the maximum application rates the department will use to determine whether a commercial fertilizer may be registered, the Washington standards for metals (in pounds per acre per year), and the acts which are unlawful under this chapter.

[Statutory Authority: RCW 15.54.270(4) and 15.54.800. 00-19-058, § 16-200-600, filed 9/18/00, effective 10/19/00.]
WAC 16-200-695 Definitions. The definitions set forth in this section shall apply throughout this chapter unless context otherwise requires:

1) "Organic" means a material containing carbon and one or more elements (other than hydrogen and oxygen) essential for plant growth. When the term "organic" is utilized in the label or labeling of any commercial fertilizer, it shall be qualified as either "synthetic organic" or "natural organic," with the percentage of each specified.

2) "Natural organic" means a material derived from either plant or animal products containing carbon and one or more elements (other than hydrogen and oxygen) essential for plant growth.

3) "Synthetic organic" means a material that is manufactured chemically (by synthesis) from its elements and other chemicals, containing carbon and one or more elements (other than hydrogen and oxygen) essential for plant growth.

4) "Unit" means one percent (by weight) of a ton.

5) "AOAC" means the association of official analytical chemists.

6) "Commercial fertilizer" means a substance containing one or more recognized plant nutrients and that is used for its plant nutrient content or that is designated for use or claimed to have value in promoting plant growth, and shall include limes, gypsum, and manipulated animal and vegetable manures. It does not include unmanipulated animal and vegetable manures, organic waste-derived material, and other products exempted by the department by rule.

7) "Fertilization" means a method of applying commercial fertilizers with irrigation water to fertilize land or plants.

8) "Fertilizer component" means a commercial fertilizer ingredient containing one or more recognized plant nutrients which is incorporated in the commercial fertilizer for its plant nutrient value.

9) "Maximum acceptable cumulative metals additions to soil" means the amount of total metals that can be added to soil over a forty-five-year period of time without exceeding the Canadian standards which have been adopted in RCW 15.54.325 and 15.54.800 as Washington standards for metals.

10) "Organic waste-derived material" means grass clippings, leaves, weeds, bark, plantings, prunings, and other vegetative wastes, uncontaminated wood waste from logging and milling operations, food wastes, food processing wastes, and materials derived from these wastes through composting. "Organic waste-derived material" does not include products that include biosolids.

11) "Maximum application rate" means the maximum amount of commercial fertilizer expressed by weight (such as: Pounds, ounces, kilograms, or milligrams) or volume (such as: Gallons, quarts, fluid ounces, liters, or milliliters) to be applied to an area of a specified size (such as: Acres, square feet, hectares, or square meters) in a period of time stated in years.

12) "Biosolids" means municipal sewage sludge that is a primarily organic, semisolid product resulting from the wastewater treatment process that can be beneficially recycled, including material derived from biosolids, and septic tank sludge, also known as septic tankage. For the purposes of this rule, semisolid products include biosolids or products derived from biosolids ranging in character from mostly liquid to fully dried solids.

(12/1/03)
(2) The department may request quality assurance and quality control documentation for analytical procedures and/or for the laboratory which performed the analyses.

(3) The analytical data and maximum application rate will be used to determine if a commercial fertilizer meets or exceeds the Washington standards for metals.

(4) For all commercial fertilizers that have application rates on their labels, the maximum application rate shall be disclosed for each commercial fertilizer on the registration application form.

WAC 16-200-7062 What method must I use to analyze the total metals contained in my commercial fertilizer? (1) You must prepare your sample of commercial fertilizer using U.S. Environmental Protection Agency ("EPA") sample preparation method 3050B (except when preparing a sample for analysis of mercury*). You must analyze your commercial fertilizer for the total concentration of each of the following nine metals in each commercial fertilizer using one or more of the EPA analysis methods listed in Table 1. All methods are described in EPA's SW-846, Third Edition.

Table 1. Acceptable Sample Preparation and Analysis Methods for Total Metals

Sample Preparation 3050B 3050B 3050B

*Since sample preparation method 3050B cannot provide for an analysis of mercury, when you prepare a sample for analysis of mercury you must use the sample preparation method established for analysis method 7470A when using method 7470A to analyze your sample and the sample preparation method established for analysis method 7471A when using method 7471A to analyze your product.

(2) Other sample preparation and analysis methods for total concentration of each metal in each commercial fertilizer may be used only under the following conditions:

(a) You must submit a request to the department, in writing, detailing the sample preparation and analysis methods, minimum detection limits and quality assurance, quality control documentation and a side-by-side comparison of the analysis results from the alternative method to one of the approved methods' analysis results of the same material; and

(b) The department, after reviewing the request, may approve the sample preparation or analysis method only if the capability of the method meets or exceeds the sensitivity and accuracy of the applicable method listed in the Table 1.

(3) Any commercial fertilizer product registered prior to the enactment of these provisions using any sample preparation or analysis method not authorized by subsection (1) or (2) must be registered in accordance with subsection (1) or (2) in the next annual commercial fertilizer registration cycle.

WAC 16-200-7063 How will the department determine whether a commercial fertilizer meets Washington standards for metals? (1) To determine whether a commercial fertilizer meets Washington standards for metals, the department will use the following formula:

\[
\text{Pounds of product applied per acre per year} \times \text{X metal content of product (ppm)} = 1,000,000
\]

The number used for pounds of product applied per acre per year will be the maximum application rate allowed by the commercial fertilizer label. If specific label directions for use are not available, the department will use the Washington application rates listed in subsection (2) of this section, divided by four.

(2) Using normal agronomic rates that are representative of soil, crop rotation, and climatic conditions in Washington state, the department developed the following Washington application rates:

<table>

(3) To ensure that the maximum acceptable cumulative metals additions to soil are not exceeded, the department will assume the commercial fertilizer will be applied at the maximum rate as stated on the label or established in this rule.

WAC 16-200-7064 What are the Washington standards for metals? (1) The standards for metals in Washington are the maximum acceptable annual metals additions to soils adopted in RCW 15.54.800 and are presented in Table 2. Because the Canadian standards contained in the Canadian Trade Memorandum T-4-93 dated August 1996 are based on long-term (forty-five-year) cumulative metals additions to soils, the maximum acceptable annual metals additions to soils are determined by dividing the Canadian standards by forty-five. The Washington standards are expressed as pounds per acre per year.

Table 2. Washington Standards For Metals.

(2) To be registered with the department and distributed in Washington, a commercial fertilizer must not exceed the above standards. Because cobalt (Co), molybdenum (Mo), and zinc (Zn) are also plant nutrients, higher concentrations than those presented in the table may be permitted. Commercial fertilizers which contain cobalt (Co), molybdenum (Mo), and/or zinc (Zn) concentrations may be registered and distributed in Washington if those metals are used as plant nutrients and those metals meet all applicable minimum guarantees and labeling requirements of chapter 15.54 RCW and the rules adopted thereunder.

(3) If a commercial fertilizer contains cobalt (Co), molybdenum (Mo), or zinc (Zn) and any one or more of those metals are not intended to be used as a plant nutrient, then the nonplant nutrient metals must meet the Standards shown in Table 2.

[Statutory Authority: Chapter 15.54 RCW. 99-02-035, § 16-200-7064, filed 12/30/98, effective 1/30/99.]

WAC 16-200-708 Unlawful acts. (1) It shall be unlawful for any person to refuse or neglect to comply with the provisions of the applicable sections of chapter 15.54 RCW, the rules adopted thereunder, or any lawful order of the department.

(2) It is unlawful to distribute a commercial fertilizer in Washington that exceeds the standards for nonnutritive substances established in RCW 15.54.800(3). The department will determine if a commercial fertilizer exceeds the standards by using the maximum application rates and by either:

(a) Comparing data submitted by the registrant to the standards established in WAC 16-200-7064;

(b) Comparing the results of the analysis of an official sample to the standards established in WAC 16-200-7064.

Official samples will be analyzed by the methods set forth in these rules.

[Statutory Authority: Chapter 15.54 RCW. 99-02-035, § 16-200-708, filed 12/30/98, effective 1/30/99. Statutory Authority: RCW 15.54.800. 91-01-015 (Order 2066), § 16-200-708, filed 12/7/90, effective 1/7/91.]
(a) Boron:
(i) This fertilizer contains boron which may be injurious
to certain crops. Contact your local county agent or field con-
sultant for specific information.

(ii) WARNING: This fertilizer carries added borax and is
intended for use only on alfalfa. Its use on any other crops or
under conditions other than those recommended may result in
serious injury to the crops.

(b) Molybdenum: CAUTION: This fertilizer is to be used
only on crops which respond to molybdenum. Crops high in
molybdenum are toxic to grazing animals (ruminants).

[Statutory Authority: Chapter 15.54 RCW. 87-19-097 (Order 1952), § 16-
200-711, filed 9/17/87.]

WAC 16-200-715 Fertilizer labels. The following
information, in the format presented, is the minimum infor-
mation required for all fertilizer labels. For packaged pro-
ducts, this information shall either appear on the front or back
of the package; or occupy at least the upper-third side of the
package; or be printed on a tag and attached to the package.
This information shall be in a readable and conspicuous form.
For bulk products, this same information in written or printed
form shall accompany delivery and be supplied to the pur-
chaser at time of delivery.

(1) Net weight.
(2) Brand.
(3) Grade (provided that the grade shall not be required
when no primary nutrients are claimed.)
(4) Guaranteed analysis*

(5) Sources of nutrients guaranteed on the label shall be
listed below the completed guaranteed analysis statement.

(6) Name and address of registrant.
(7) At a minimum, one of the following label statements:
(a) "Information received by the Washington state
department of agriculture regarding the components in this
product is available on the internet at http://agr.wa.gov."
Through June 30, 2006, you may use the following label
statement: "Information received by the Washington state
department of agriculture regarding the components in this
product is available on the internet at http://www.wa.gov/agr."

(b) "Information regarding the contents and levels of
metals in this product is available on the internet at http://
www.regulatory-info-xx.com."

Through June 30, 2006, you may use the following label
statement: "Information regarding the contents and levels of
metals in this product is available on the internet at http://
www.aapfco.org/metals.htm."

Note: The department's Uniform Resource Locator
(URL) changed in 2003, thus requiring a revision to the label-
ning statements required in subsection (7)(a) and (b) of this
section. (The new URL is "http://agr.wa.gov." The old URL
was "http://www.wa.gov/agr.") In order for companies to
deplete existing stocks and revise labels, the department will
allow either URL to be referenced on labels distributed
through June 30, 2006. During this "phase-in" period, the
department will maintain a redirect link to ensure that people
are directed to the appropriate web site when they enter the
old URL. Beginning July 1, 2006, all labels distributed in
Washington using the statement in subsection (7)(a) or (b) of
this section must include the new URL.

* Zero guarantees shall not be made and shall not appear in the state-
ment.
** If chemical forms of nitrogen are claimed or required, the form shall
be shown and the percentages of the individual forms shall add up to
the total nitrogen percentage.
*** As prescribed by WAC 16-200-711.

[Statutory Authority: Chapters 15.54 and 34.05 RCW. 03-24-053, § 16-200-
715, filed 12/1/03, effective 1/1/04. Statutory Authority: Chapter 15.54
RCW 87-19-097 (Order 1952), § 16-200-715, filed 9/17/87.]

WAC 16-200-721 Slowly released plant nutrients. (1)
No fertilizer label shall bear a statement that connotes or
implies that certain plant nutrients contained in a fertilizer are
released slowly over a period of time, unless the nutrient or
nutrients are identified and guaranteed.

(2) Types of products with slow release properties recog-
nized are:
(a) Water insoluble (nitrogen products only), such as nat-
ural organics, ureaform materials, urea-formaldehyde prod-
ucts, IBDU, oxamide, etc.
(b) Coated slow release, such as sulfur coated urea and
other encapsulated soluble fertilizers;
(c) Occluded slow release, where fertilizers or fertilizer
materials are mixed with waxes, resins, or other inert materi-
als and formed into particles; and
(d) Products containing water soluble nitrogen such as
ureaform materials, urea-formaldehyde products, methylene-
diurea (MDU), dimethylethintriurea (DMTU), dicyanodiame-
te (DCD), etc.

(3) The terms "water insoluble," "coated slow release,"
"slow release," "controlled release," "slowly available water
soluble," and "occluded slow release" are accepted as
descriptive of the products listed in subsection (2) of this sec-
tion; however the registrant can show a testing program sub-

[Ch. 16-200 WAC—p. 6] (12/1/03)
stantiating the claim (testing under guidance of experiment station personnel or a recognized reputable researcher acceptable to the director). A laboratory procedure, acceptable to the director for evaluating the release characteristics of the product(s) shall also be provided by the registrant upon request.

(4) When the nitrogen is organic, it shall be established that if a label states the amount of organic nitrogen present in a phrase, such as "nitrogen in organic form equivalent to X% N," then the water insoluble nitrogen guarantee shall not be less than sixty percent of the nitrogen so designated. For example: If the total nitrogen guarantee for a fertilizer is ten percent and the label states "Nitrogen in organic form equivalent to 2.5% N" then the water insoluble nitrogen guarantee shall not be less than 1.5% (2.5% x 0.6 = 1.5%).

(5) When a slowly released nutrient is less than fifteen percent of the guarantee for either total nitrogen (N), available phosphoric acid (P$_{2}$O$_{5}$), or soluble potash (K$_{2}$O), as appropriate, the label shall bear no reference to such designations.

(6) AOAC method 2.074 (13th Edition), or as designated in subsequent editions, shall be used to confirm the coated slow release and occluded slow release nutrients and others whose slow release characteristics depend on particle size. AOAC method 2.072 (13th Edition) or as designated in subsequent editions, shall be used to determine the water insoluble nitrogen of organic materials.

[Statutory Authority: Chapter 15.54 RCW. 87-19-097 (Order 1952), § 16-200-721, filed 9/17/87.]

**WAC 16-200-725 Commercial fertilizer definitions.**

Except as the director designates otherwise in specific cases, the names and definitions for commercial fertilizers shall be those adopted by the Association of American Plant Food Control Officials.

[Statutory Authority: Chapter 15.54 RCW. 87-19-097 (Order 1952), § 16-200-725, filed 9/17/87.]

**WAC 16-200-731 Commercial value of plant nutrients.** The commercial values used in assessing penalties for plant nutrient deficiencies are as follows:

<table>

(3) Values used for determining and assessing penalties for secondary and minor plant nutrients shall be determined from the sales invoice.

[Statutory Authority: Chapter 15.54 RCW. 87-19-097 (Order 1952), § 16-200-731, filed 9/17/87.]

**WAC 16-200-735 Breakdown of plant food elements within the guaranteed analysis.** When a plant nutrient guarantee is broken down into the component forms, the percentage for each component shall be shown before the name of the form. For example: 4% Nitrate Nitrogen.

[Statutory Authority: Chapter 15.54 RCW. 87-19-097 (Order 1952), § 16-200-735, filed 9/17/87.]

**WAC 16-200-739 Brand name.** The addition of another prominent name or design to a registered brand (other than descriptive words associated with the grade) shall constitute a new and different brand. For example: Blue Bird 5-10-10 vs. John Doe Blue Bird 5-10-10.

[Statutory Authority: Chapter 15.54 RCW. 87-19-097 (Order 1952), § 16-200-739, filed 9/17/87.]

**WAC 16-200-7401 Statement of purpose—Penalty assignment.** For the purpose of fair, uniform determination of penalty as set forth in WAC 16-200-7401 through 16-200-7407, the director hereby declares:

(1) Regulatory action is necessary to deter violations of the Fertilizer Regulation Act and rules adopted under it, and to educate persons about the consequences of such violations; and

(2) Any regulatory action taken by the department against any person who violates the provisions of chapter 15.54 RCW and/or rules adopted under it shall be commensurate with the seriousness of the violation under the circumstances; and

(3) Each person shall be treated fairly in accordance with the rules set forth in this chapter and in adherence with the Administrative Procedure Act (chapter 34.05 RCW).

[Statutory Authority: Chapters 15.54, 34.05 RCW. 03-02-100, § 16-200-7401, filed 1/2/03, effective 2/2/03.]
**WAC 16-200-7402 Definitions—Penalty assignment.**

In addition to the definitions set forth in RCW 15.54.270 and WAC 16-200-695, the following shall apply to WAC 16-200-7401 through 16-200-7407.

1. "Adverse effect(s)" means that the effects resulting from violations of chapter 15.54 RCW or the rules adopted under it actually causes, or creates the possibility of damage or injury to humans, animals, plants, property or the environment, or causes or creates the possibility of a threat to public health.

2. "Level of violation" means that the alleged violation is a first, second, third, fourth, or more violation(s).
   - (a) First violation. This means the alleged violator has committed no prior violation within three years of committing the current alleged violation.
   - (b) Second violation. This means the alleged violator committed one prior violation within three years of committing the current alleged violation.
   - (c) Third violation. This means the alleged violator committed two prior violations within three years of committing the current alleged violation.
   - (d) Fourth violation. This means the alleged violator committed three or more prior violations within three years of committing the current alleged violation.
   - (e) For purposes of calculating the level of violation, prior violations will be measured from the date that a final action was taken by the department and not from the date that the violation(s) occurred.
3. "Not probable" means that the alleged violator's conduct more likely than not would not have an adverse effect.
4. "Probable" means that the alleged violator's conduct more likely than not would have an adverse effect.
5. "Violation" means commission of an act or acts prohibited by chapter 15.54 RCW, and/or rules adopted under it.
6. "Civil penalty" means a monetary penalty administratively issued by a regulatory agency for noncompliance with state or federal law, or rules. The term does not include any criminal penalty, damage assessment, wages, premiums, taxes owed, interest or late fees on any existing obligation.
7. "Notice of correction" means a document issued by the department that describes a condition or conduct that is not in compliance with chapter 15.54 RCW, or the rules adopted under it and is not subject to civil penalties as provided for in RCW 43.05.110. A notice of correction is not a formal enforcement action, is not subject to appeal and is a public record.
8. "Notice of intent" means a document issued by the department that alleges specific violations of chapter 15.54 RCW, or any rules adopted under it. A notice of intent is a formal enforcement document issued with the intent to assess civil penalties to the alleged violator and/or to deny or cancel a license issued under the authority of chapter 15.54 RCW.

**WAC 16-200-7403 Application of RCW 43.05.100 and 43.05.110—Issuance of a civil penalty without first issuing a notice of correction.**

1. Pursuant to RCW 43.05.100, a notice of correction may be issued by the department when they become aware of conditions and/or conduct that are not in compliance with the applicable laws and rules enforced by the department. The issuance of a notice of correction by the department shall not constitute a previous violation for purposes of WAC 16-200-7402, but may, at the discretion of the department, be considered as an aggravating factor for the purposes of WAC 16-200-7404.(2).
2. Prior to issuing a civil penalty for a violation of chapter 15.54 RCW and/or the rules adopted under it, the department shall comply with the requirements of RCW 43.05.110. RCW 43.05.110 allows the department of agriculture to issue a civil penalty provided for by law without first issuing a notice of correction if:
   - (a) The person has previously been subject to an enforcement action for the same or similar type of violation of the same statute or rule or has been given a previous notice of the same or similar type of violation of the same statute or rule; or
   - (b) Compliance is not achieved by the date established by the department in a previously issued notice of correction, if the department has responded to any request for review of such date by reaffirming the original date or establishing a new date; or
   - (c) The violation has a probability of placing a person in danger of death or bodily harm, has a probability of causing more than minor environmental harm, or has a probability of causing physical damage to the property of another in an amount exceeding one thousand dollars; or
   - (d) The violation was committed by a business that employed fifty or more employees on at least one day in each of the preceding twelve months.

**WAC 16-200-7404 Calculation of a civil penalty.**

1. In the disposition of administrative cases, the department shall use the penalty assignment schedules listed in WAC 16-200-7407 to determine the appropriate penalty. The department shall calculate the appropriate penalty based on the level of violation and the adverse effect(s) or potential adverse effects at the time of the incident(s) giving rise to the violation. The median penalty shall be assessed unless an adjustment is warranted due to aggravating or mitigating factors. The median penalty may be adjusted to a lesser amount due to mitigating factors, but not less than the minimum penalty listed for the violation.
2. Adjustment of median penalty.
   - (a) The department reserves the right to increase the civil penalty when certain aggravating factors are present. Such aggravating factors include, but are not limited to:
     - (i) Situations where the civil penalty assessed is not substantially equivalent to the violator's economic benefit derived from the violation;
     - (ii) The number of separate alleged violations contained within a single notice of intent;
     - (iii) The high magnitude of the harm, or potential harm, including quantity and/or degree, to humans, animals, plants, property or the environment caused by the violation(s);
(iv) The similarity of the current alleged violation to previous violations committed within the last three years;
(v) The extent to which the alleged violation is part of a pattern of the same or substantially similar conduct.

(b) The department also reserves the right to decrease the civil penalty when certain mitigating factors are present. Such mitigating factors include, but are not limited to:
(i) Situations involving voluntary disclosure of a violation;
(ii) Situations involving a low magnitude of the harm, or potential harm, including quantity and/or degree, caused by the violation;
(iii) Voluntary taking of remedial measures that will result in increased public protection, or that will result in a decreased likelihood that the violation will be repeated.

(3) The department considers each violation to be a separate and distinct event. When a person has committed multiple violations, the violations are cumulative for purposes of calculating the appropriate civil penalty. The penalties are added together.

(4) Violation(s) committed during the period when a bulk fertilizer distribution license is denied or canceled shall be subject to the maximum civil penalty of seven thousand five hundred dollars and/or cancellation of the bulk fertilizer distribution license for a period of up to five years.

[Statutory Authority: Chapters 15.54, 34.05 RCW. 03-02-100, § 16-200-7404, filed 1/2/03, effective 2/2/03.]

WAC 16-200-7405 Denial or cancellation of a bulk fertilizer distribution license. (1) The department retains the sole discretion to determine when a bulk fertilizer distribution license should be canceled. Cancellation of a license shall be an option for the department in those circumstances where:
(a) The penalty schedule allows for cancellation; and/or
(b) One or more aggravating factors are present.

WAC 16-200-7406 Other dispositions of alleged violations. Nothing herein shall prevent the department from:
(1) Choosing not to pursue a civil penalty or bulk fertilizer distribution license denial or cancellation.
(2) Issuing a notice of correction in lieu of pursuing a civil penalty, or bulk fertilizer distribution license denial or cancellation.
(3) Negotiating settlement(s) of cases on such terms and for such reasons as it deems appropriate. Prior violation(s) covered by a prior settlement agreement may be used by the department for the purpose of determining the appropriate penalty for the current alleged violation(s) if not prohibited by the agreement.
(4) Referring violations or alleged violations to any federal, state or county authority with jurisdiction over the activities in question.

[Statutory Authority: Chapters 15.54, 34.05 RCW. 03-02-100, § 16-200-7406, filed 1/2/03, effective 2/2/03.]

WAC 16-200-7407 Penalty assignment schedule. This assignment schedule shall be used for violations of chapter 15.54 RCW and rules adopted under it.
