WAC 296-06-040 Operations and procedures. The general operations and procedures of the department's five divisions are summarized below. For more information, go to: www.lni.wa.gov.

(1) Insurance services.
This division administers Washington's workers' compensation program—Medical care and disability benefits for workers who are injured on the job. Every business with employees must provide this coverage. L&I administers the "state fund," which covers the majority of the state's workers. Through its self-insurance program, it also monitors coverage offered by large companies that choose to self-insure and manage their own claims.

This division includes all of the workers' compensation programs that:
• Manage injured worker claims;
• Bill employers for their required quarterly premiums;
• Pay health care (and other) providers for their services.

The division also:
• Sets workers' compensation rates;
• Helps employers control their premiums through a variety of financial incentive, claims management, return-to-work and safety programs;
• Administers the department's crime victims compensation program, which covers those who are injured as a result of criminal acts.

More information is available at www.LNI.wa.gov/Claimslns.

(2) WISHA services.
This division administers the Washington Industrial Safety and Health Act (WISHA), under a state plan agreement with the federal Occupational Safety and Health Administration (OSHA). It aids in the prevention of job injuries and illnesses by adopting and enforcing safety and health standards and by training employers and employees in safe working procedures.

Through the RCW, the legislature has directed L&I to administer and enforce three additional programs. These programs are also handled by WISHA:
• Asbestos, including certifications and notifications of asbestos projects;
• Explosives, regulating the possession, handling, and use of explosives or explosive devices;
• Worker and community right to know, which provides a way of communicating information regarding hazardous substances in the workplace and the community.

Employer and employee procedures and responsibilities, and information about voluntary consultations to improve workplace safety can be found on the internet at http://www.osha.gov/pls/publications/pubin dex.list.

(3) Specialty compliance services.
This division encompasses several diverse programs related to the construction trades, workplace rights, and apprenticeship. Its programs' duties include:
