WAC 458-28-030 Deductions.

In arriving at income taxable to a city or town from activities of a place of business located therein, financial institutions may deduct from gross income:

(1) Dividends received by a parent from a subsidiary corporation.

(2) Interest received on investments or loans primarily secured by first mortgages or trust deeds on nontransient residential properties.

(3) Interest received on obligations of the state of Washington, its political subdivisions, and municipal corporations. A deduction may also be taken for interest received on direct obligations of the federal government, but not for interest attributable to loans or other financial obligations on which the federal government is merely a guarantor or insurer.

(4) Gross proceeds from the sale or rental of real estate.

[Order ET 72-1, § 458-28-030, filed 9/29/72.]

WAC 458-28-040 Branch locations, division of income.

Financial institutions having more than one place of business shall divide total taxable gross income so as to attribute taxable income to each location in the ratio of total interest earned (whether taxable or not) on loans originated at each location during the period covered by the tax return. The location at which a loan is originated is the place of business of the financial institution at which the customer deals with the financial institution to obtain the loan. Financial institutions having time or demand deposits may compute the ratio of total deposits at each location as a basis for approximating gross income of each location, provided the financial institution can demonstrate that the taxable income so computed will not differ by more than $10,000 in any one calendar year as to any one business location from the amount computed using the ratio of interest earned on loans originated at each location.
