WAC 480-140-015 Exemptions from rules.
WAC 480-140-030 When to file. The budget for the ensuing fiscal year must be filed with the commission within ten days after it is approved by the company, but no later than sixty days after the beginning of the company's fiscal year.

WAC 480-140-040 What to file. Budgets, in a format selected by the reporting company, must show amounts needed for construction, operation and maintenance during the ensuing year. The reporting company must provide the information by industry (water, gas, and electrical) to the extent such information has been prepared. All major construction projects must be identified in the budget. Major construction projects will be determined for water, gas, and electrical companies, as all projects where the Washington-allocated share of the total project is greater than five-tenths of one percent of the company's latest year-end Washington-allocated net utility plant in service, but does not include any project of less than three million dollars on a total project basis. This determination for companies providing combined industry services will be done on an industry-specific basis.

The commission may, in its discretion, to the extent permitted by RCW 80.04.095 and chapter 42.17 RCW, upon the request of any public service company, withhold from publication, any portion of any budget designated as confidential pursuant to WAC 480-07-160.

WAC 480-140-180 Additional information. The commission may, in its discretion, require any public service company to furnish information, data or detail as to any proposed expenditure.
