WAC 181-78A-003 Authority. The authority for this chapter is RCW 28A.410.210 (1) through (4) which authorizes the professional educator standards board to approve and disapprove educator preparation programs in institutions of higher education in Washington state.

WAC 181-78A-005 Purpose. This chapter establishes the procedures, standards, and criteria to be used in the development and approval of preparation programs offered by preparation program providers in Washington state leading to teacher, administrator, and educational staff associates certification. These rules establish a performance-based preparation system for educators that supports the Improvement of Student Achievement Act of 1993 (ESHB 1209) which will enable educators to implement the Washington state student learning standards and requirements.

WAC 181-78A-007 Minimum state standards. All state standards prescribed in this chapter for the approval of professional preparation programs are minimal standards for state approval. Where allowed programs may and are encouraged to develop program standards which exceed the minimums herein prescribed.

WAC 181-78A-010 Definition of terms. The following definitions shall be used in this chapter:

approved thresholds on the indicators identified in the notice. The board staff will offer providers guidance on content and timelines for submission of this optional response. The board will review responses concurrently with annual data analysis reports.

(b) Interventions: Providers with program performance below indicator thresholds are subject to graduated levels of intervention as follows:

(i) Intervention 1 - Required self-study report: If a provider that received written notification of performance below threshold on one or more indicators during the previous review period has performance below thresholds on the same indicator(s) during the subsequent review period, the board will send the provider a second notification. The provider must complete a self-study report related to the components and domain(s) identified in both notifications and submit it to the board. The board will give providers written timelines and guidance for the submission of these materials. In the self-study report, the provider may also submit evidence and a description of the provider's performance related to the indicator(s), components, and domains identified in the notifications. If the board is satisfied with the self-study report, the board will approve it on the consent agenda of the board meeting following submission. If the board is not satisfied with the self-study report, staff will give providers additional written timelines and guidance to address the board's concerns.

(ii) Intervention 2 - Formal review: If a provider demonstrates performance below thresholds for a third successive review period or more, the professional educator standards board will provide a third notification. Based on its discretion and authorized by a vote, the board also may require a formal review related to the provider's performance in the domains of practice identified in the notifications. Prior to commencing a formal review, the board will consider the notifications, responses, and self-study report to determine whether to proceed with or postpone a formal review.

(A) The formal review will incorporate the following elements:

(I) The board shall determine the schedule for formal reviews and whether an on-site visit or other forms of documentation and validation will be used to evaluate programs under program approval standards.

(II) The provider will submit requested evidence to the board staff.

(III) A review team, including at least one member of the board, will review the evidence. The review team may request additional information including information provided through interviews with provider staff or affiliates as needed.

(IV) The review team will provide a report to the board identifying areas of practice associated with the previous notifications where the provider is out of compliance with educator preparation program requirements established in WAC 181-78A-300 and the educator preparation program expectations and outcomes established in WAC 181-78A-220. The review team may also identify areas of practice where the provider is out of compliance with educator preparation program requirements that were not associated with previous notifications but were noticed by the review team during the process of review. The report may also identify whether the approved indicators or thresholds are functioning as intended.

(V) Board staff serving on the review team will provide assistance to the review team during the review process but will not serve in an evaluative role.

(VI) The review team will submit its report and other appropriate documentation to the provider and the board within one year of the board designating the program for formal review.

(VII) The board may extend the length of the one-year period for submission of the review team's report up to two years at its discretion.

(B) Providers may submit a reply to the review team report within two weeks following receipt of the report. The reply is to focus on the evidence, conclusions, and recommendations in the report but also may include additional evidence of factors and circumstances that explain why program performance is persistently below board approved thresholds on the indicators identified in the notice and self-study report. The board shall publish the process for submitting and reviewing the reply.

(C) In considering the review team's report, the board may request additional information or review, or take action to extend, or change the program's approval status per the provisions of WAC 181-78A-110.

(c) A provider may request a hearing in instances where it disagrees with the board's decision to extend or change the program's approval status. This request must be made within twenty days from the decision date. The hearing will be conducted through the office of administrative hearings by an administrative law judge per chapter 34.05 RCW. The provider seeking a hearing will provide a written request to the professional educator standards board in accordance with WAC 10-08-035.

(d) The board will publish a schedule for its review of the domains, components, indicators and thresholds. This review will occur at least every five years and not more frequently than every two years.

2) Superintendent programs: The board will annually review data related to the performance of all superintendent programs according to data reporting guidance published by the board.

(a) Annual data analysis: After each annual review period, the board will give superintendent program providers written analysis of annual data submission.

(b) Superintendent program review: The professional educator standards board shall determine the schedule for formal reviews and whether an on-site visit or other forms of documentation and validation shall be used for evaluation.

(i) Superintendent program reviews will be conducted at least every five years and not more frequently than every three years.

(v) At least three months in advance of scheduled review, superintendent program providers must complete a self-study report related to the components and domain(s) identified in the written analyses of annual data submissions. The board will give providers written timelines and guidance for the submission of these materials. In the self-study report, the provider may also provide evidence and a description of the provider's performance related to the indicator(s), components, and domains identified in the notifications. Evidence shall include such data and information from the annual data submissions required per WAC 181-78A-255(2) as have been designated by the board as evidence pertinent to the program approval process.

(c) Following the review, the review team will provide a report identifying any areas where the program is out of compliance with requirements established in WAC 181-78A-300 and the program expectations and outcomes established in WAC 181-78A-220.

(i) The report may also verify or contradict that the approved indicators or thresholds are functioning as intended.

(ii) The board may extend the length of the one-year report period up to two years at its discretion. The review team's report and other appropriate documentation will be submitted to the provider and the board within one year of the board designating the program for formal review.

(iii) Providers may submit a reply to the review team report within two weeks following receipt of the report. The reply is limited to evidence that the review disregarded state standards, failed to follow state procedures for review, or failed to consider evidence that was available at the time of the review. The board shall publish the process for submitting and reviewing the reply.

(iv) In considering the review team's report, the board may request additional information or review, or take action to extend or change the educator preparation program's approval status per the provisions of WAC 181-78A-110.

(d) A provider may request a hearing in instances where it disagrees with the professional educator standards board's decision. This request must be made within twenty days from the decision date. The hearing will be conducted through the office of administrative hearings by an administrative law judge per chapter 34.05 RCW. The provider seeking a hearing will provide a written request to the board in accordance with WAC 10-08-035.

PROFESSIONAL CERTIFICATE PROGRAMS—PROGRAM APPROVAL STANDARD—SPECIFIC—KNOWLEDGE AND SKILLS

WAC 181-78A-700 First peoples' language, culture, and oral tribal traditions certification program—Findings, purposes and intent—Definitions—Program established—Tribal eligibility to participate—Program requirements—Assignment of teachers—Reports. (1) FINDINGS. The professional educator standards board endorses the following:

(a) Teaching first peoples' languages can be a critical factor in successful educational experiences and promoting cultural sensitivity for all students. The effect is particularly strong for native American students;

(b) First peoples' languages are falling silent. Despite tribal efforts, first peoples' languages are not fully incorporated into the school systems. This is a loss to the cultural heritage of the affected tribes and to the cultural resources of Washington state;

(c) Recognition of native American languages under RCW 28A.230.090(3) and 28B.80.350(2), as satisfying state or local graduation requirements and minimum college admission requirements, while concentrating on promoting a positive impact on student learning through state policies, is insufficient to meet the educational needs of native American students;

(d) The potential to have a positive impact on student learning is in part dependent on the willingness of the local education agency to collaborate with the sovereign tribal government's language/culture program;

(e) It is within the statutory authority of the professional educator standards board to enhance the learning opportunities for all students by helping prevent the loss of first peoples' languages through assisting the state's sovereign neighbors to sustain, maintain or recover their linguistic heritage, history and culture;

(f) From the Multi-Ethnic Think Tank position statement, June 2001:

(i) "...A culturally inclusive pedagogy will ensure the success of all students, who will develop greater appreciation of other cultures and worldviews;"

(ii) "All students have prior experiences that frame their worldview; learn from childbirth and are lifelong learners; can academically achieve at high levels when they are appropriately taught; and are entitled to learn in a multicultural context;"

(g) Research has shown that students who study another language may benefit in the following ways: Greater academic success in other areas of study, including reading, social studies, and mathematics; a clearer understanding of the English language including function, vocabulary and syntax; and an increase on standardized test scores, especially in verbal areas;

(h) From the Native American Languages Act, Public Law 101-477, Section 102, 1990:

(i) "The traditional languages of Native Americans are an integral part of their cultures and identities and form the basic medium for the transmission, and thus survival, of Native American cultures, literatures, histories, religions, political institutions, and values;"

(ii) "Languages are the means of communication for the full range of human experiences and are critical to the survival of cultural and political integrity of any people;" and

(i) There are many sovereign tribal nations in the state of Washington and they serve the needs of many groups of first peoples, each possessing unique languages, cultures and worldviews.

(2) PURPOSES. The purpose of this section of the established first peoples' language, culture, and oral tribal traditions program is to accomplish the following goals:

(a) To honor the sovereign status of tribal governments in their sole expertise in the transmission of their indigenous languages, heritage, cultural knowledge, customs, traditions and best practices for the training of first peoples' language, culture, and oral tribal traditions teachers;

(b) Contribute to a positive impact on student learning by promoting continuous improvement of student achievement of the sovereign tribal government's language/culture learning goals, as established by each sovereign tribal government's language/culture program, and by supporting the goals for multicultural education included in the 2001 position statement developed by the Washington state Multi-Ethnic Think Tank;

(c) Contribute to the preservation, recovery, revitalization, and promotion of first peoples' languages and cultures;

(d) Meaningfully acknowledge that language is inherently integral to native American culture and ways of life;

(e) Implement in a tangible way the spirit of the 1989 Centennial Accord and the 2000 Millennium Accord between Washington state and the sovereign tribal governments in the state of Washington;

(f) Provide a mechanism for the professional educator standards board to recognize tribally qualified language/culture teachers as eligible to receive a Washington state first peoples' language/culture teaching certificate; and

(g) Provide the opportunity for native American students to learn first peoples' languages and cultures while at school and provide another avenue for students to learn core curricula through first peoples' worldviews.

(3) INTENT. It is the intent of the professional educator standards board to work in collaboration with the sovereign tribal governments of Washington state to establish a Washington state first peoples' language, culture, and oral tribal traditions teacher certification program in order to:
(a) Act in a manner consistent with the policy as specified in the Native American Languages Act, P.L. 101-477 Sec. 104(1) "preserve, protect, and promote the rights and freedom of Native Americans to use, practice, and develop Native American languages";

(b) Act in a manner consistent with Washington state's government-to-government relationship with Washington state sovereign tribal governments and use the Washington state first peoples' language, culture, and oral tribal traditions certification programs to model effective government-to-government relationships;

(c) Act in a manner consistent with the goal of the state Basic Education Act under RCW 28A.150.210;

(d) Act in a manner consistent with the following purposes of Public Law 107-110, "No Child Left Behind Act":

(i) "Holding schools, local education agencies, and States accountable for improving the academic achievement of all students, and identifying and turning around low-performing schools that have failed to provide a high-quality education to their students, while providing alternatives to students in such schools to enable the students to receive a high-quality education," [Sec. 1002(4)];

(ii) "Providing children an enriched and accelerated educational program, including the use of schoolwide programs or additional services that increase the amount and quality of instructional time," [Sec. 1002(8)];

(iii) "Promoting schoolwide reform and ensuring the access of children to effective, scientifically based instructional strategies and challenging academic content," [Sec. 1002(9)];

(iv) "...Supporting local education agencies, Indian tribes, organizations, postsecondary institutions and other entities to meet the unique education, culturally related academic needs of American Indian and Alaskan native Students" [Sec. 7102(a)];

(e) Act on its involvement with and adoption of the 1991 joint policy statement on Indian education:

(f) Acknowledge that there is a public responsibility to make available to all students in the state of Washington an accurate and balanced study of the American Indian experiences with and contributions to life on this continent;

(g) Act on the following professional educator standards board beliefs:

(i) In order to meet the needs of all students, highly qualified teachers are required;
