Chapter 182-543 WAC
MEDICAL EQUIPMENT, SUPPLIES, AND APPLIANCES

WAC 182-543-0500 General. (1) The federal government considers medical equipment, supplies, and appliances, which the medicaid agency refers to throughout this chapter as medical equipment, services under the medicaid program.

(2) The agency pays for medical equipment, including modifications, accessories, and repairs, according to agency rules and subject to the limitations and requirements in this chapter when the medical equipment is:

(a) Medically necessary, as defined in WAC 182-500-0070;

(b) Authorized, as required within this chapter, chapters 182-501 and 182-502 WAC, and the agency’s published billing instructions and provider notices; and

(c) Billed according to this chapter, chapters 182-501 and 182-502 WAC, and the agency’s published billing instructions and provider notices.

(3) For the initiation of medical equipment under WAC 182-551-2122, the face-to-face encounter must be related to the primary reason the client requires medical equipment and must occur no later than six months prior to the start of services.

(11/27/18)
(4) The face-to-face encounter must be conducted by the ordering physician, a nonphysician practitioner as described in WAC 182-500-0075, or the attending acute, or post-acute physician, for beneficiaries admitted to home health immediately after an acute or post-acute stay.

(5) If a nonphysician practitioner as described in WAC 182-500-0075 (or the attending physician when a client is discharged from an acute hospital stay) performs the face-to-face encounter, the nonphysician practitioner (or attending physician) must communicate the clinical findings of that face-to-face encounter to the ordering physician. Those clinical findings must be incorporated into a written or electronic document included in the client's medical record.

(6) The agency requires prior authorization for covered medical equipment when the clinical criteria set forth in this chapter are met, including the criteria associated with the expedited prior authorization process.

(a) The agency evaluates requests requiring prior authorization on a case-by-case basis to determine medical necessity as defined in WAC 182-500-0070, according to the process found in WAC 182-501-0165.

(b) Refer to WAC 182-543-7000, 182-543-7100, 182-543-7200, and 182-543-7300 for specific details regarding authorization.

(7) The agency bases its determination about which medical equipment requires prior authorization (PA) or expedited prior authorization (EPA) on utilization criteria (see WAC 182-543-7100 for PA and WAC 182-543-7300 for EPA). The agency considers all of the following when establishing utilization criteria:

(a) Cost;
(b) The potential for utilization abuse;
(c) A narrow therapeutic indication; and
(d) Safety.

(8) The agency evaluates a request for equipment that does not meet the definition of medical equipment or that is determined not medically necessary under the provisions of WAC 182-501-0160. When early and periodic screening, diagnosis and treatment (EPSDT) applies, the agency evaluates a noncovered service, equipment, or supply according to the process in WAC 182-501-0165 to determine if it is medically necessary, safe, effective, and not experimental (see WAC 182-543-0100 for EPSDT rules).

(9) The agency may terminate a provider's participation with the agency according to WAC 182-502-0030 and 182-502-0040.

(10) The agency evaluates a request for a service that meets the definition of medical equipment but has been determined to be experimental or investigational, under the provisions of WAC 182-501-0165.

(11) If the agency denies a requested service, the agency notifies the client in writing that the client may request an administrative hearing under chapter 182-526 WAC. (For MCO enrollees, see WAC 182-538-110.)

**WAC 182-543-4100 Covered—Wheelchairs—Manual.** The medicaid agency covers the rental or purchase of a manual wheelchair for a home client who is nonambulatory or has limited mobility and requires a wheelchair to participate in normal daily activities. For clients who reside in a skilled nursing facility, see WAC 182-543-5700.

(1) The agency determines the type of manual wheelchair for a home client as follows:

(a) A standard wheelchair if the client's medical condition requires the client to have a wheelchair to participate in normal daily activities;

   (i) Cannot self-propel a standard weight wheelchair; or
   (ii) Requires custom modifications that cannot be provided on a standard weight wheelchair.
(c) A high-strength, lightweight wheelchair for a client:
   (i) Whose medical condition is such that the client cannot self-propel a lightweight or standard weight wheelchair; or
   (ii) Requires custom modifications that cannot be provided on a standard weight or lightweight wheelchair.
(d) A heavy duty wheelchair for a client who requires a specifically manufactured wheelchair designed to:
   (i) Support a person weighing three hundred pounds or over; or
   (ii) Accommodate a seat width up to twenty-two inches wide (not to be confused with custom heavy duty wheelchairs).
(e) A custom heavy duty wheelchair for a client who requires a specifically manufactured wheelchair designed to:
   (i) Support a person weighing three hundred pounds or over; or
   (ii) Accommodate a seat width over twenty-two inches wide.

**WAC 182-543-4200 Wheelchairs—Power-drive.** (1) The medicaid agency pays for power-drive wheelchairs when the prescribing physician certifies that:

(a) The client can independently and safely operate a power-drive wheelchair;
(b) The client's medical condition negates the client's ability to self-propel any of the wheelchairs listed in the manual wheelchair category in any setting where normal life activities take place; and
(c) A power-drive wheelchair will:
(i) Provide the client the only means of independent mobility in any setting where normal life activities take place; or
(ii) Enable a child to achieve age-appropriate independence and developmental milestones.
(2) Additionally, for a three or four-wheeled power-drive scooter/power-operated vehicle (POV), the prescribing physician must certify the client's condition is unlikely to require a standard power-drive wheelchair within the next two years.
(3) When the agency approves a power-drive wheelchair for a client who already has a manual wheelchair, the power-drive wheelchair becomes the client's primary chair, unless the client meets the criteria in subsection (5) of this section.
(4) The agency pays to maintain only the client's primary wheelchair, unless the conditions of subsection (6) of this section apply.
(5) The agency pays for one manual wheelchair and one power-drive wheelchair for noninstitutionalized clients only when one of the following circumstances applies:
(a) The architecture of locations where the client's normal life activities take place are completely unsuitable for a power-drive wheelchair, due to conditions such as narrow hallways, narrow doorways, steps at the entryway, and insufficient turning radius;
(b) The architecture of the bathroom in locations where the client's normal life activities take place is such that power-drive wheelchair access is not possible, and the client needs a manual wheelchair to safely and successfully complete bathroom activities and maintain personal cleanliness; or
(c) The client has a power-drive wheelchair, but also requires a manual wheelchair because the power-drive wheelchair cannot be transported to meet the client's community, workplace, or educational activities. In this case, the manual wheelchair would allow the caregiver to transport the client in a standard automobile or van. The agency requires the client's situation to meet the following conditions:
(i) The client's activities that require the second wheelchair must be located farther than one-fourth of a mile from the client's home or along a pathway that does not provide for safe use of a power wheelchair; and
(ii) Cabulance, public buses, or personal transit are not available, practical, or possible for financial or other reasons.
(6) When the agency approves both a manual wheelchair and a power-drive wheelchair for a noninstitutionalized client who meets one of the circumstances in subsection (5) of this section, the agency pays to maintain both wheelchairs.

**WAC 182-543-5700 Medical equipment for clients in skilled nursing facilities.** (1) The Medicaid agency's skilled nursing facility per diem rate, established in chapters 74.46 RCW, 388-96, and 388-97 WAC, includes any reusable and disposable medical supplies that may be required for a skilled nursing facility client, unless otherwise specified within this section.

(2) The agency pays for the following medical equipment outside of the skilled nursing facility per diem rate, subject to the limitations in this section:

(a) Manual or power-drive wheelchairs (including CRT);

(b) Speech generating devices (SGD); and

(c) Specialty beds.

(3) The agency pays for one manual or one power-drive wheelchair for clients who reside in a skilled nursing facility, with prior authorization, according to the requirements in WAC 182-543-4100, 182-543-4200, and 182-543-4300. Requests for prior authorization must:

(a) Be for the exclusive full-time use of a skilled nursing facility resident;

(b) Not be included in the skilled nursing facility's per diem rate;

(c) Include a completed General Information for Authorization form (HCA 13-835);

(d) Include a copy of the telephone order, signed by the physician, for the wheelchair assessment;

(e) Include a completed Medical Necessity for Wheelchair Purchase for Nursing Facility Clients form (HCA 13-729).

(4) The agency pays for wheelchair accessories and modifications that are specifically identified by the manufacturer as separate line item charges, with prior authorization. To receive payment, providers must submit the following to the agency:

(a) A copy of the telephone order, signed by the physician for the wheelchair accessories and modifications;

(b) A completed Medical Necessity for Wheelchair Purchase for Nursing Facility Clients form (HCA 13-729). The date on this form (HCA 13-729) must not be prior to the date on the telephone order. The agency's electronic forms are available online (see WAC 182-543-7000, Authorization);

(c) The make, model, and serial number of the wheelchair to be modified;

(b) The make, model, and serial number of the wheelchair to be repaired; and

(c) The repair requested.
Prior authorization is required for the repair and modification of client-owned equipment.

The skilled nursing facility must provide a house wheelchair as part of the per diem rate, when the client resides in a skilled nursing facility.

When the client is eligible for both Medicare and Medicaid and is residing in a skilled nursing facility in lieu of hospitalization, the agency does not reimburse for medical equipment, related services, or related repairs or labor charges under fee-for-service (FFS).

The agency pays for the purchase and repair of a speech generating device (SGD), with prior authorization. The agency pays for replacement batteries for SGDs in accordance with WAC 182-543-5500(3).

The agency pays for the purchase or rental of a specialty bed (a heavy duty bariatric bed is not a specialty bed), with prior authorization, when:

- The specialty bed is intended to help the client heal, and
- The client's nutrition and laboratory values are within normal limits.

The agency considers decubitus care products to be included in the skilled nursing facility per diem rate and does not reimburse for these separately.

See WAC 182-543-9000 for reimbursement for wheelchairs and CRT.

The agency pays for the following medical supplies for a client in a skilled nursing facility outside the skilled nursing facility per diem rate:

- Medical supplies or services that replace all or part of the function of a permanently impaired or malfunctioning internal body organ. This includes, but is not limited to, the following:

- Surgical dressings required as a result of a surgical procedure, for up to six weeks post-surgery.

Prior authorization is required for the repair and modification of client-owned equipment.

Medical Supplies and Related Services 182-543-7100

Prior authorization. (1) The Medicaid agency requires providers to obtain prior authorization for certain medical equipment and services before delivering the equipment or service to the client, except for dual-eligible Medicare/Medicaid clients when Medicare is the primary payer. The equipment or service must also be delivered to the client before the provider bills the agency.

(2) All prior authorization requests must be accompanied by a completed General Information for Authorization form (HCA 13-835), in addition to any program specific forms as required within this chapter. Agency forms are available online at http://www.hca.wa.gov/medicaid/forms/Pages/index.aspx.

(c) For expedited prior authorization (EPA), a provider must meet the clinically appropriate EPA criteria outlined in the agency’s published billing guides. The appropriate EPA number must be used when the provider bills the agency (see WAC 182-543-7200).

(2) When a service requires authorization, the provider must properly request authorization in accordance with the agency's rules, billing guides, and provider notices.

(3) The agency's authorization of services does not necessarily guarantee payment.

(4) When authorization is not properly requested, the agency rejects and returns the request to the provider for further action. The agency does not consider the rejection of the request to be a denial of service.

(5) Authorization requirements in this chapter are not a denial of service to the client.

(6) The agency may recoup any payment made to a provider if the agency later determines that the service was not properly authorized or did not meet the EPA criteria. Refer to WAC 182-502-0100(1)(c).

WAC 182-543-7100 Prior authorization. (1) The Medicaid agency requires providers to obtain prior authorization for certain medical equipment and services before delivering the equipment or service to the client, except for dual-eligible Medicare/Medicaid clients when Medicare is the primary payer. The equipment or service must also be delivered to the client before the provider bills the agency.

(2) All prior authorization requests must be accompanied by a completed General Information for Authorization form (HCA 13-835), in addition to any program specific forms as required within this chapter. Agency forms are available online at http://www.hca.wa.gov/medicaid/forms/Pages/index.aspx.

(3) When the agency receives the initial request for prior authorization, the prescription for the medical equipment or services must not be older than six months from the date the agency receives the request.

(4) The agency requires certain information from providers in order to prior authorize the purchase or rental of equipment. This information includes, but is not limited to:

- The manufacturer's name;
- The equipment model and serial number;
- A detailed description of the item; and
- Any modifications required, including the product or accessory number as shown in the manufacturer's catalog.

(5) For prior authorization requests, the agency requires the prescribing provider to furnish patient-specific justification for base equipment and each requested line item accessory or modification as identified by the manufacturer as a separate charge. The agency does not accept general standards of care or industry standards for generalized equipment as justification.

(6) The agency considers requests for medical equipment that does not have assigned health care common procedure coding system (HCPCS) codes and are not listed in the agency's published issuances, including billing instructions or provider notices. These items require prior authorization. The provider must furnish all of the following information to the agency to establish medical necessity:

(a) A detailed description of the equipment or service to be provided;
(b) The cost or charge for the equipment;
(c) A copy of the manufacturer's invoice, price-list or catalog with the product description for the equipment being provided; and
(d) A detailed explanation of how the requested equipment differs from an already existing code description.

(7) The agency does not pay for the purchase, rental, or repair of medical equipment that duplicates equipment that the client already owns, rents, or that the agency has authorized for the client. If the provider believes the purchase, rental, or repair of medical equipment is not duplicative, the provider must request prior authorization and submit the following to the agency:

(a) Why the existing equipment no longer meets the client's medical needs; or
(b) Why the existing equipment could not be repaired or modified to meet the client's medical needs.
(c) Upon request, documentation showing how the client's condition met the criteria for PA or EPA.

(8) A provider may resubmit a request for prior authorization for equipment or services that the agency has denied. The agency requires the provider to include new documentation that is relevant to the request.

WAC 182-543-7200 Prior authorization for limits on amount, frequency, or duration. (1) The medicaid agency limits the amount, frequency, or duration of certain medical equipment and related services, and reimburses up to the stated limit without requiring prior authorization.

(2) Certain items have limitations on quantity and frequency. These limits are designed to avoid the need for prior authorization for items normally considered medically necessary and for quantities sufficient for a thirty-day supply for one client.

(3) The agency requires a provider to request prior authorization in order to exceed the stated limits for medical equipment and supplies that do not require prior authorization. All requests for prior authorization must be accompanied by a completed General Information for Authorization form (HCA 13-835) in addition to any program specific forms as required within this chapter. Agency forms are available online at http://www.hca.wa.gov/medicaid/forms/Pages/index.aspx.

(4) The agency evaluates such requests under the provisions of WAC 182-501-0169, and grants prior authorization when it is medically necessary, as defined in WAC 182-500-0070.

WAC 182-543-7300 Expedited prior authorization (EPA). (1) The expedited prior authorization process (EPA) is designed to eliminate the need for written and telephonic requests for prior authorization for selected medical equipment procedure codes.

(2) The medicaid agency requires a provider to create an authorization number for EPA for selected medical equipment procedure codes. The process and criteria used to create the authorization number is explained in the agency published medical equipment-related billing guide. The authorization number must be used when the provider bills the agency.

(3) Upon request, a provider must provide documentation to the agency showing how the client's condition met the criteria for EPA.

(4) A written or telephone request for prior authorization is required when a situation does not meet the EPA criteria for selected medical equipment procedure codes.

(5) The agency may recoup any payment made to a provider under this section if the provider did not follow the expedited authorization process and criteria.

WAC 182-543-8000 Billing general. (1) A provider must not bill the medicaid agency for the rental or purchase of medical equipment supplied to the provider at no cost by suppliers or manufacturers.

(2) The agency does not pay a medical equipment provider for medical supplies used in conjunction with a physician office visit. The agency pays the office physician for these supplies when appropriate. Refer to the agency’s physician-related professional services billing guide.

(3) The agency does not pay for any prosthetics and orthotics required for surgery or placed during the hospital stay under this chapter. See chapter 182-550 WAC. In this situation, the prosthetics and orthotics are included in the hospital reimbursement rate.

Medical Supplies and Related Services

WAC 182-543-8100 Billing for managed care clients.

If a fee-for-service (FFS) client enrolls in a Medicaid agency-contracted managed care organization (MCO), the following apply:

1. The agency stops paying for any rented medical equipment on the last day of the month preceding the month in which the client becomes enrolled in the MCO.
2. The plan determines the client's continuing need for the medical equipment and is responsible for paying the provider.
3. A client may become an MCO enrollee before the agency completes the purchase of prescribed medical equipment. The agency considers the purchase complete when the product is delivered and the agency is notified of the serial number. If the client becomes an MCO enrollee before the agency completes the purchase:
   a. The agency rescinds the agency's authorization with the vendor until the MCO's primary care provider (PCP) evaluates the client; then
   b. The agency requires the PCP to write a new prescription if the PCP determines the equipment is still medically necessary as defined in WAC 182-500-0070; then
   c. The MCO's applicable reimbursement policies apply to the purchase or rental of the equipment.
4. If a client is disenrolled from an MCO and placed into fee-for-service before the MCO completes the purchase of prescribed medical equipment:
   a. The agency rescinds the MCO's authorization with the vendor until the client's primary care provider (PCP) evaluates the client; then
   b. The agency requires the PCP to write a new prescription if the PCP determines the equipment is still medically necessary as defined in WAC 182-500-0070; then
   c. The MCO's applicable reimbursement policies apply to the purchase or rental of the equipment.

WAC 182-543-8200 Billing for clients eligible for Medicare and Medicaid.

If a client is eligible for both Medicare and Medicaid:

1. The Medicaid agency requires a provider to accept Medicare assignment before any Medicaid reimbursement;
2. In accordance with WAC 182-502-0110(3):
   a. If the service provided is covered by Medicare and Medicaid, the agency pays only the deductible or coinsurance up to Medicare's or Medicaid's allowed amount, whichever is less.
   b. If the service provided is covered by Medicare but is not covered by the agency, the agency pays only the deductible or coinsurance up to Medicare's allowed amount.

WAC 182-543-9000 General reimbursement.

1. The Medicaid agency pays qualified providers who meet all conditions in WAC 182-502-0100 for medical equipment, repairs, and related services provided on a fee-for-service (FFS) basis as follows:
   a. To agency-enrolled medical equipment providers, qualified complex rehabilitation technology (CRT) suppliers, pharmacies, and home health agencies under their national provider identifier (NPI) numbers, subject to the limitations of this chapter, and according to the procedures and codes in the agency's current medical equipment billing guide;
   b. In accordance with the health care common procedure coding system (HCPCS) guidelines for product classification and code assignment; and
   c. Providers must code the specific brand and model of wheelchair or CRT products dispensed according to the centers for Medicare and Medicaid services' (CMS) pricing, data analysis, and coding (PDAC) web site.
2. The agency sets, evaluates, and updates the maximum allowable fees for Medicaid equipment and related services at least once yearly, unless otherwise directed by the legislature or determined necessary by the agency.
3. The agency sets the rates for medical equipment codes subject to the Federal financial participation (FFP) limitation at the lesser of Medicare's prevailing payment rates in the Durable Medical Equipment Prosthetics/Orthotics, and Supplies (DMEPOS) Fee Schedule or Competitive Bid Area (CBA) rate. For all other procedure codes, the agency sets rates using one of the following:
   a. Medicare fee schedules;
   b. Legislative direction;
   c. Input from stakeholders or relevant sources that the agency determines to be reliable and appropriate;
   d. Pricing clusters; or
   e. A by-report (BR) basis.
4. The Medicaid agency evaluates a by-report (BR) item, procedure, or service for its medical necessity, appropriateness and reimbursement value on a case-by-case basis. The agency's reimbursement rate is a percentage of the manufacturer's list or manufacturer's suggested retail price (MSRP), or a percentage of the wholesale acquisition cost (AC). The agency uses the following percentages:
   a. For basic standard wheelchairs, sixty-five percent of MSRP or one hundred forty percent of AC;
   b. For wheelchair parts and add-on CRT accessories and parts, eighty-four percent of MSRP or one hundred forty percent of AC;
   c. For wheelchair seat and back cushions, CRT manual wheelchair base, and up-charge modifications and seating systems, eighty percent of MSRP or one hundred forty percent of AC;

(11/27/18)
(d) For CRT power-drive wheelchair base, eighty-five percent of MSRP or one hundred forty percent of AC;
(e) For prosthetics and orthotics and medical supplies and related services, eighty-five percent of MSRP or one hundred twenty-five percent of AC;
(f) For other medical equipment, eighty percent of MSRP or one hundred twenty-five percent of AC;
(g) For medical supplies, eighty-five percent of MSRP or one hundred twenty-five percent of AC.

(5) When establishing reimbursement rates for medical equipment based on pricing clusters for a specific HCPCS code, the maximum allowable fee is the median or average amount of all items in the cluster. The pricing cluster is comprised of all the brands/models for which the agency obtains pricing information. However, the agency may limit the number of brands/models included in the pricing cluster due to:
(a) A client's medical needs;
(b) Product quality;
(c) Introduction, substitution or discontinuation of certain brands/models; and/or
(d) Cost.

(6) When there is only a rental rate on the DMEPOS fee schedule, the agency sets the maximum allowable purchase rate at either the DMEPOS rate divided by 0.15 or multiplied by ten. The agency sets the maximum allowable fee for daily rental at one-three-hundredth of the new purchase price or one-thirtieth of the monthly rental rate on the DMEPOS fee schedule;

(7) The agency may adopt policies, procedure codes, and/or rates that are inconsistent with those set by Medicare if the agency determines that such actions are necessary to:
(a) Assure that payments are sufficient to enlist providers and maintain access to care and services; or
(b) Comply with legislative budget directives.

(8) The agency's maximum payment for medical equipment and related services is the lesser of either the:
(a) Providers' usual and customary charges; or
(b) Established rates, except as provided in WAC 182-543-8200.

(9) The agency is the payor of last resort for clients with Medicare or third-party insurance.

(10) The agency's reimbursement for a prosthetic or orthotic includes the cost of any necessary molds, fitting, shipping, handling or any other administrative expenses related to provision of the prosthetic or orthotic to the client.

(11) The agency's reimbursement rate for purchased or rented covered medical equipment and related services includes all of the following:
(a) Any adjustments or modifications to the medical equipment required within three months of the date of delivery or covered under the manufacturer's warranty. This does not apply to adjustments required because of changes in the client's medical condition;
(b) Any pick-up or delivery fees or associated costs (e.g., mileage, travel time, gas, etc.);
(c) Telephone calls;
(d) Shipping, handling, and/or postage;
(e) Routine maintenance that includes testing, cleaning, regulating, and assessing the client's equipment;
(f) Fitting and set-up; and
(g) Instruction to the client or client's caregiver in the appropriate use of the medical equipment.

(12) Medical equipment and related services supplied to eligible clients under the following reimbursement methodologies are included in those methodologies and are not reimbursed under fee-for-service:
(a) Hospice providers' per diem reimbursement;
(b) Hospitals' diagnosis-related group (DRG) reimbursement;
(c) Managed care plans' capitation rate;
(d) Skilled nursing facilities' per diem rate; and
(e) Professional services' resource-based relative value system reimbursement (RBRVS) rate.

(13) The provider must make warranty information, including date of purchase, applicable serial number, model number or other unique identifier of the equipment, and warranty period, available to the agency upon request.

(14) The dispensing provider who furnishes the medical equipment to a client is responsible for any costs incurred to have a different provider repair the equipment when:
(a) Any medical equipment the agency considers purchased requires repair during the applicable warranty period;
(b) The provider refuses or is unable to fulfill the warranty; and
(c) The equipment continues to be medically necessary.

(15) If the rental medical equipment must be replaced during the warranty period, the agency recoups fifty percent of the total amount previously paid toward rental and eventual purchase of the medical equipment delivered to the client if:
(a) The provider is unwilling or unable to fulfill the warranty; and
(b) The equipment continues to be medically necessary.

(16) The agency does not reimburse for medical equipment, related services, and related repairs and labor charges under fee-for-service when the client is:
(a) An inpatient hospital client;
(b) Eligible for both Medicare and Medicaid, and is staying in a skilled nursing facility in lieu of hospitalization;
(c) Terminally ill and receiving hospice care; or
(d) Enrolled in a risk-based managed care plan that includes coverage for such items and/or services.

(17) The agency rescinds any purchase order for a prescribed item if the equipment was not delivered to the client before the client:
(a) Dies;
(b) Loses medical eligibility;
(c) Becomes covered by a hospice agency; or
(d) Becomes covered by a managed care organization.

(18) A provider may incur extra costs for customized equipment that may not be easily resold. In these cases, for purchase orders rescinded in subsection (7) of this section, the agency may pay the provider an amount it considers appropriate to help defray these extra costs. The agency requires the provider to submit justification sufficient to support such a claim.

(19) For clients residing in skilled nursing facilities, see WAC 182-543-5700.
