Section 5. (1) Under such rules and regulations as the board of trustees shall adopt, each teacher, upon becoming a member of the retirement system shall file with the board of trustees a detailed statement of all services as a teacher rendered by him, in this state and elsewhere under the jurisdiction of the government of the United States, prior to becoming a member, together with a statement of such other facts as the board shall require: Provided, That the board of trustees may, at the option of a member, accept the service record of a member of a local fund or the former state fund in lieu of such detailed statement, and issue a prior service certificate to the applicant for such prior service;

(a) Service rendered for the entire school term in any district shall be credited as a year's service regardless of the length of such school term, but in no case shall more than one (1) year of service be creditable for service rendered in one (1) fiscal year: Provided, That service shall be credited for the fraction of the year served where service has not been rendered throughout the school term: Provided, further, That any service equal to or larger than four-fifths (4/5) of the entire school term shall be credited as a full year;

As soon as practicable after the filing of such statements of service the board of trustees shall determine the number of years of service with which a teacher applicant shall be credited under this act, and shall issue a prior service certificate to the applicant for such prior service: However, No credit shall be given for teaching service rendered in a dis-
strict which was under the jurisdiction of a local fund or the former state fund at the time such service was rendered, unless contributions were made to such local fund or the former state fund, during such time:  Provided, however, That credit shall be given as provided under paragraph (4) subdivision (b) of section 6: Provided, further, That not more than ten (10) years of service outside this state shall be credited to a Class A member, and not more than fifteen (15) years of such service shall be credited to a Class B member, or to a Class C member;

Provided, still further, That any teacher who leaves the State of Washington after becoming a member of the retirement system may, upon being re-employed as a teacher in this state, be credited with membership service in an amount which, when added to the out-state credit for prior service, shall not exceed the total amount of out-state service credit provided for above:  Provided, also, That satisfactory proof of such service rendered elsewhere during the interim period, as a teacher, as defined in this act, shall be furnished to the board of trustees, and contributions to the annuity fund shall be made for such credit in the same amount, either in a lump sum or in installments approved by the board of trustees, as would have been made had the teacher rendered such service in the State of Washington during the interim period;

Provided, still further, That the board of trustees may, at its discretion, allow credit for leave of absence for professional preparation to a member taking such leave of absence subsequent to last becoming a member, upon satisfactory proof of such leave of absence and the payment of contributions to the annuity fund in such an amount, either in a lump sum or in installments approved by the board of trustees, as would have been paid had such member been employed as a regular teacher in the public
schools of this state: Provided, also, That not more than two such leaves of absence may be granted to any teacher, and not more than one such leave may be granted in any ten-year period of service;

(3) So long as membership continues, a prior service certificate shall be final and conclusive evidence for retirement purposes as to such service: Provided, however, That any member may within one (1) year of the date of the issuance or modification of such certificate request the board of trustees to modify or correct his prior service certificate. When membership ceases, such prior service certificate shall become void. Should the membership of a teacher cease and the teacher again become a member he shall enter the retirement system as provided in paragraph (3) subdivision (d) of section 6, and shall be entitled to credit for all former creditable service, and his prior service certificate shall again be in full force and effect;

(4) Creditable service of a member at retirement shall consist of the membership service rendered by him for which credit has been allowed, and also, if he has a prior service certificate that is in full force and effect, the amount of the service certified on his prior service certificate.

Sec. 5. That section 6 of chapter 221 of the Laws of 1937 (section 4995-6 of Remington’s Revised Statutes) be amended to read as follows:

Section 6. All the assets of the retirement system shall be credited according to the purpose for which they are held to one of four funds, namely, the annuity fund, the pension fund, the disability reserve fund, and the expense fund:

(1) Suitable office quarters shall be provided by the State of Washington for the operation of the retirement system; such office to be located at the state capitol;
(2) It shall be the duty of the board of trustees at its regular meeting in July of each year preceding the regular session of the legislature to prepare an estimate of the total disbursements from the pension fund of the retirement system for the period included in the ensuing biennium beginning on April first following the date of the submission of said report. Said estimate shall include payments for retirement pensions as provided for herein, also all disbursements provided for in subsection (7) of section 7 as herein set forth, and an amount calculated upon accepted tables for the purpose of establishing and maintaining a pension reserve fund as provided in subsection (17a) of section 1, above. The secretary of the board shall submit all of the same to the Governor with a showing of the total amount needed for the biennium to insure the full satisfaction of the aforesaid awards and compensations. Said amount shall be appropriated by the legislature to the pension fund of the retirement system.

(3) (a) The annuity fund shall be the fund in which shall be accumulated the contributions from the compensation of members to provide for their annuities. Upon the basis of such tables as the board of trustees shall adopt, and regular interest, the actuary of the retirement system shall determine the proportion of the compensation of a teacher whose annual salary every year from the time said teacher began teaching under the provisions of this act to age sixty (60) years is twelve hundred dollars ($1,200), which, when deducted from each payment of his prospective earnable compensation prior to the attainment of age sixty (60) and accumulated with regular interest until his attainment of such age shall be computed to provide at that time an annuity of twenty-five dollars ($25) per month for the remainder of his life; such proportion shall be the basis of contribution of all teachers regardless of salary.
(b) It shall be the duty of the county superintendent of schools of each county in the state and the city superintendent of each district of the first class and any other employer in the state, on or before the first day of September of each year, to file with the board of trustees of the retirement system a notice in writing on forms provided for that purpose, stating the number of the district or the name of the institution or department of the state or county, the full name of each qualified teacher employed in each district in his county or city or institution or department, the address of each teacher, the date when the employment begins, the number of contracted months, the length of the regular school term, and the annual salary of each teacher; and each employer shall report to the board of trustees on the fifth day of each succeeding month during the school year, any change in the teacher personnel under his employ; and shall notify the teacher in writing of the provisions of this act with reference to membership in the retirement system and that an application for credit for former or prior service on a form to be furnished for that purpose, may be filed with the board of trustees of the retirement system;

The board of trustees shall certify the amount to be deducted to the employer by which the member is employed, or to the county auditor or other officer authorized to issue warrants to teachers. Such employer or auditor or other officer shall cause to be deducted from the salary of each member on each and every payroll of such employer for each and every payroll period, the same proportion of his salary as was computed in subdivision (a) of paragraph (3) of this section. In determining the amount earnable by a member in a payroll period the board of trustees may consider the rate of annual compensation payable to such member on the first day of the payroll period as continuing throughout such pay-
roll period, and it may omit deduction from compensation for any period less than a full payroll period if a teacher was not a member on the first day of the payroll period, and to facilitate the making of deductions it may modify the deductions required of any member by such an amount as shall not exceed one tenth of one per cent (1/10 of 1%) of the annual earnable compensation upon the basis of which such deduction is to be made: Provided, however, That not more than eight per cent (8%) of the annual earnable compensation of a member may be deducted for the annuity fund: Provided, further, That any member who shall accept the actuarial equivalent in lieu of the full amount provided in the last proviso of section 8, paragraph (1), subdivision (a), shall have his rate of deduction reduced to 5% of his annual earnable compensation.

It shall be the duty of the State Auditor and the county auditor of each county of the state and the secretary of each district of the first class, on or before the tenth day of each month of the school term, to draw warrants payable out of the appropriate funds of the state, county or several districts, respectively, and in favor of the State Treasurer, covering the amounts of deductions made from the salaries of teachers employed. The State Auditor, county auditor or secretary of a first-class district shall forthwith remit said warrants to the board of trustees of the retirement system, accompanied by a report giving the names of the teachers of each district, county or state institution or department from whose salaries deductions have been made, the amount of each deduction, the total amount of each warrant, and the number and date of each warrant. Such warrants shall be registered in the office of the state teachers retirement system and forthwith remitted to the State Treasurer, together with a detailed report segregating cash and registered warrants. Upon
the presentation of such warrants the State Treasurer and county treasurer shall transfer the amount thereof from the appropriate funds of the state, county and several districts to the State Treasurer, who shall place the amounts so received to the credit of the retirement system, and shall, by order of the board of trustees, disburse the same upon warrants issued and signed by the State Auditor;

(c) The deductions provided for herein shall be made notwithstanding that the minimum compensation provided for by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deductions made as provided herein, and shall receipt for his full compensation, and payment of salaries or compensation, less said deduction, shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such member during the period covered by such payment, except as to the benefits provided under this act. Upon receiving the report of deductions from the State Auditor, the county auditor and secretary of a district of the first-class, each of said amounts shall be paid into said annuity fund and shall be credited, together with regular interest thereon, to the individual account of the member from whose compensation said deductions were made: Provided, That at the beginning of each fiscal year pro rata deductions on account of the expense fund shall be made from the annuity contributions of each member, in accordance with paragraph (10), section 7;

(d) In addition to the contributions deducted from compensation as hereinbefore provided, a member who re-enters the retirement system, and who previously withdrew his accumulated contributions shall redeposit in the annuity fund by a single payment, or by an increased rate of contribution in such amounts as shall be approved by the board, an
amount equal to the amount which he previously withdrew therefrom, and regular interest before he shall be restored to his former status;

(4) (a) The pension fund shall be the fund in which shall be deposited the appropriations made by the legislature for the purpose of creating, establishing and maintaining a fund from which pensions may be paid to members of the retirement system in accordance with the terms and provisions of this act and in the manner set out herein, and all gifts and bequests intended for the benefit of such pension fund, and any other funds hereinafter set over to the pension fund and contributions from teachers as provided in this act;

(b) Any teacher entering the retirement system as a Class C member under the provisions of section 4, who wishes credit for prior service as provided in section 5, shall pay to the pension fund the contributions accumulated at four per cent (4%) compound interest, which he would have paid on account of service as a teacher rendered prior to the establishment of the retirement system had he been a member of a local fund or of the former state fund from his first date of eligibility for membership in either a local fund or the former state fund, with full credit for all former service. Any Class C member who complies with the foregoing requirement shall have all the rights and privileges of a Class B member. Any Class B member who was a member of a local fund or the former state fund who desires credit for service rendered as a teacher for which no credit has been given in the said local or former state fund, shall pay to the pension fund the contributions with four per cent (4%) compound interest which he would have paid to the local fund or the former state fund on account of such service had such service been credited: Provided, That the board of trustees shall transfer the same proportion of such payments to the
individual account of the member in the annuity fund as would have been transferred to his account if he had made such payments as regular contributions to a local fund or the former state fund. Amounts payable under this paragraph shall be made in a lump sum or in such installments as shall be approved by the board of trustees with the provision that the initial payment made at the time of application for prior service credits shall be at least equal to the amount of the interest due on the prior service contributions and that any unpaid installments at the time the member or his estate or other legal representative may become eligible for any benefit shall constitute a first, prior and paramount lien against the benefit;

(5) The disability reserve fund' shall be the fund in which shall be accumulated the contributions from the compensation of members to provide for their disability allowances. Upon the basis of such tables as the board of trustees shall adopt, and regular interest, the actuary of the retirement system shall determine for each member the proportion of compensation which, when deducted from each payment of his prospective earnable compensation for that year, will provide for a disability allowance as provided in section 8 to all members of the retirement system who shall become disabled as defined in this act during that year. The board of trustees shall cause to be made at the same time and in the same manner and in addition to deductions made as provided in subdivision (b) of paragraph (3) of this section, deductions on account of the disability reserve fund, and when so made they shall be placed in the disability reserve fund: Provided, That no deduction shall be made for the disability reserve fund from the salary of a member who has less than three (3) years of membership service or who has thirty (30) years or more of
creditable service and has attained age sixty (60) years.

(6) The expense fund shall be the fund from which shall be paid all necessary expenses incurred in the operation of the retirement system.

Sec. 6. That section 7 of chapter 221 of the Laws of 1937 (section 4995-7 of Remington's Revised Statutes) be amended to read as follows:

Section 7. (1) The board of trustees shall hold regular meetings on the first Monday of January, April, July and October of each year, and may hold as many other meetings as may be found necessary to properly transact the business of the retirement system. Special meetings may be called by the chairman of the board either on his own initiative or at the request in writing of three (3) other members of the board of trustees. At each regular meeting the board of trustees shall authorize, as provided in this act, payment of retirement allowances. The board shall authorize payment of disability allowances, salaries and other regular disbursements to be made during the succeeding three (3) months. At the first regular meeting in each fiscal year, the board shall designate two (2) of its members whose signatures shall appear upon its vouchers, as provided in paragraph (3) of this section. Retirement allowances shall be paid quarterly, and disability allowances shall be paid monthly;

(2) The board of trustees annually shall allow regular interest on the mean amount for the preceding year in each of the funds with the exception of the expense fund. The amounts so allowed shall be due and payable to said funds, and shall be annually credited thereto by the board of trustees from interest and other earnings on the monies of the retirement system. Any additional amount required to meet the interest on the funds of the retirement system shall be collected from the mem-
bers as provided in paragraph (3) subdivision (a) section 6, and any excess earnings over such amount required shall be deductible from the amounts payable by the members;

(3) The treasurer of the State of Washington shall be the custodian for all monies received by him for the retirement system. All payments from the several funds of the retirement system shall be made only upon vouchers signed by two (2) members of the board of trustees, as provided in paragraph (1) of this section. A duly attested copy of a resolution by the board of trustees designating such members and bearing on its face specimen signatures of such members shall be filed with the State Auditor as his authority for issuing warrants upon such vouchers. No voucher shall be drawn unless it has previously been authorized by resolutions of the board of trustees;

(5) Except as otherwise herein provided, no trustee and no employee of the board of trustees shall have any direct interest in the gain or profits of any investment made by the board of trustees. No trustee or employee of the board shall, directly or indirectly for himself or as an agent in any manner use any of the assets of the retirement system, except to make such current and necessary payments as are authorized by the board of trustees; nor shall any trustee or employee of the board of trustees become an endorser or surety, or in any manner an obligor for monies loaned or borrowed from the board of trustees;

(6) When this law becomes operative the board of trustees shall transfer the assets of each of the local funds and the assets of the former state fund to the annuity fund of the retirement system. The boards of trustees shall appraise the assets of each fund and determine the proportion of the contributions of each member of each of the local funds
and the former state fund that is on hand in the respective funds, and shall credit to each member of each of such local funds and the former state fund his pro rata share of the assets of the fund of which he was formerly a member to his individual account in the annuity fund: Provided, That any member of the former state fund or a local fund who shall withdraw from the retirement system as provided in section 4 shall be entitled to receive in cash his pro rata share of the assets of the fund of which he was a member;

(7) The board of trustees shall use the assets of the pension fund as follows:

To pay allowances, both on account of retirement and disability, to retirement and disability annuitants of the local funds and the former state funds on the date this law becomes operative, as provided in sections 4995 to 5020-29, Remington's Revised Statutes, inclusive, to pay allowances as provided in paragraph (a) of subsection (1) of section 8; to pay pensions to retirement annuitants who retire under the provisions of the retirement system; to pay the difference, if any there be, between forty dollars ($40) per month and the sum of the pension paid by the retirement system to retirement annuitants, and the annuity earned by the retired member;

(8) The board of trustees shall use the assets of the annuity fund to pay annuities to the retirement annuitants who retire under the provisions of this act, and to pay withdrawals as provided in this act;

(9) The board of trustees shall use the assets of the disability reserve fund to pay disability allowances under the provisions of this act;

(10) At the beginning of the second fiscal year of the operation of this system, and at the beginning of each fiscal year thereafter the board of trustees
shall deduct pro rata from the annuity contributions of the members of the retirement system during the previous fiscal year sufficient funds to defray the expenses of this system during the current year, and shall deposit the same in the expense fund;

(11) The board of trustees shall be the trustees of the several funds created by this act as provided in section 6, and shall authorize the state finance committee to invest and reinvest such funds, subject to all the terms, conditions, limitations and restrictions imposed by the law of the State of Washington for the investment of permanent school funds; and subject to said terms, conditions, limitations and restrictions, said state finance committee shall have full power to hold, purchase, sell, assign, transfer and dispose of any of the securities and investments in which any of the funds created herein shall have been invested, as well as the proceeds of said investments and any monies belonging to said funds: Provided, however, That the state finance committee shall have power to invest such funds in school warrants.

Sec. 7. That section 8 of chapter 221 of the Laws of 1937 (section 4995-8 of Remington's Revised Statutes) be amended to read as follows:

Section 8. (1) With the provision that no member of the retirement system can retire and receive a retirement allowance until he has had either five (5) years of membership credit or an amount of credit from the former state fund or a local fund, which, when added to his membership credit, shall equal five (5) years, and with the further provisions that separation from service subsequent to the filing of the application shall not render the application invalid;

(a) Any member having attained age sixty (60) years and having completed thirty (30) years of creditable service may retire upon written appli-
cation to the board of trustees setting forth at which time he desires to be retired. Upon retirement such member shall receive a service retirement allowance consisting of: An annuity which shall be the actuarial equivalent of his accumulated contribution at the time of retirement; and a pension of twenty dollars ($20.00) per month to be paid from the pension fund as hereinbefore provided: Provided, that if the annuity earned by the member's contributions together with the pension hereinbefore mentioned, does not amount to forty dollars ($40.00) per month, then funds shall be taken from the pension fund in amounts sufficient to make such payments forty dollars ($40.00) per month: Provided, further, That any member who shall accept the reduced rate of deduction mentioned in section 6, paragraph (3), subdivision (b), shall receive the actuarial equivalent of the full amount provided in the foregoing proviso;

(b) Any Class B or Class C member having thirty (30) years of service credits shall be entitled to retire and, upon retirement, shall receive a retirement allowance consisting of: An annuity which shall be the actuarial equivalent of his accumulated contributions at his age of retirement and a pension consisting of as many thirtieths (not to exceed thirty-thirtieths) of forty dollars ($40.00) per month as he has years of prior service credits: Provided, That such member shall first pay into the pension fund an amount which, together with his former contributions in the state fund or a local fund, or in the pension fund, shall equal as many thirtieths (not to exceed thirty-thirtieths) of seven hundred and twenty dollars ($720.00) as he has years of prior service credits;

(c) Any member who has attained age sixty (60) years may retire on a retirement allowance consisting of an annuity which shall be the actuarial
equivalent of his accumulated contributions at retirement and a pension consisting of as many thirtieths (not to exceed thirty-thirtieths) of twenty dollars ($20.00) per month as he has years of credited service;

(d) Any member who completes all other requirements for retirement on a retirement allowance but who has not attained age sixty (60) years, may retire on a retirement allowance which is the actuarial equivalent at his age of a retirement allowance at age sixty (60) years;

(2) Upon receipt of proper proofs of death of any member before retirement his accumulated contributions in the annuity fund shall be paid to his estate or to such person as he shall have nominated by written designation duly executed and filed with the board of trustees;

(3) Should a member cease to be a teacher except by death or retirement under the provisions of this act, he shall be paid upon request filed on a form provided by the board of trustees, the amount of the accumulated contributions standing to the credit of his individual account in the annuity fund;

(4) With the provision that no optional selection shall be effective in case a beneficiary dies within thirty (30) days after retirement and that such beneficiary shall be considered as an active member at the time of death; any member prior to the time the first payment of any benefit becomes normally due, may elect to receive his benefit in the form of a retirement allowance payable throughout life, or he may elect to receive the actuarial equivalent at the time of retirement of his retirement allowance in a reduced retirement allowance payable throughout life with the provision that:
