component county to veto all operations of the metropolitan municipal corporation in the central county and central city. This would have the effect of permitting the county commissioners representing a small portion of the entire metropolitan municipal corporation to control the activities of the entire corporation.

"For the foregoing reason this item is vetoed.

"Section 58 of Senate Bill 136 is likewise an amendment to the bill. It confines the provisions of the act to class AA counties and areas immediately adjacent thereto. It provides that before a metropolitan district shall have the power to perform any of the functions in section 5, subsection (2) through (6), that the electorate in such adjacent areas shall first approve the exercise of such power or powers.

"It was apparently the intent of this section to give the electorate in the adjacent areas the right to determine whether or not such areas should be included in the metropolitan municipal corporation when such powers were to be exercised. However, the wording of section 58 is so broad that it would thwart operation of the metropolitan municipal corporation in its desire to exercise the functions set forth in subsections (2) through (6) of section 5 in the central city and central county.

"For this reason section 58 is vetoed. The remainder of the bill is approved."
