Provided, the livestock and dairy herd at the Western State Hospital shall be maintained at its approximate present capacity.

Passed the House March 8, 1961.
Approved by the Governor March 20, 1961.

CHAPTER 194.
[S.B. 203.]

INSURANCE.

Be it enacted by the Legislature of the State of Washington:

Section 1. Section .05.01, chapter 79, Laws of 1947 and RCW 48.05.010 are each amended to read as follows:

(1) A "domestic" insurer is one formed under the laws of this state.

(2) A "foreign" insurer is one formed under the laws of the United States, of a state or territory of the United States other than this state, or of the District of Columbia.

[1839]
(3) An "alien" insurer is one formed under the laws of a nation other than the United States.

(4) For the purposes of this code, "United States," when used to signify place, means only the states of the United States, the government of Puerto Rico and the District of Columbia.

Sec. 2. Section .05.24, chapter 79, Laws of 1947 and RCW 48.05.240 are each amended to read as follows:

The provisions of RCW 48.05.230 shall not apply to reinsurance contracts between insurers, to life or disability insurances, to bid bonds issued in connection with any public or private contract, or to insurance contracts:

(1) Issued as a surplus line under RCW 48.15.040, or exempted under RCW 48.15.160.

(2) Covering the rolling stock, vessels, or aircraft of any common carrier in interstate or foreign commerce, or any vehicle principally garaged and used in another state, or covering any liability or other risks incident to the ownership, maintenance, or operation thereof.

(3) Covering any property in course of transportation interstate or in foreign trade, or any liability or risk incident thereto.

(4) Issued by insurers not using agents in the general solicitation of business.

Sec. 3. Section .12.15, chapter 79, Laws of 1947, as last amended by section 3, chapter 225, Laws of 1959, and RCW 48.12.150 are each amended to read as follows:

(1) This section shall be known as the standard valuation law.

(2) Annual valuation: The commissioner shall annually value, or cause to be valued, the reserve liabilities (hereinafter called reserves) for all outstanding life insurance policies and annuity and pure endowment contracts of every life insurer doing
business in this state, except that in the case of an alien insurer such valuation shall be limited to its insurance transactions in the United States, and may certify the amount of any such reserves, specifying the mortality table or tables, rate or rates of interest and methods (net level premium method or others) used in the calculation of such reserves. In calculating such reserves, the commissioner may use group methods and approximate averages for fractions of a year or otherwise. He may accept, in his discretion, the insurer's calculation of such reserves. In lieu of the valuation of the reserves herein required of any foreign or alien insurer, he may accept any valuation made, or caused to be made, by the insurance supervisory official of any state or other jurisdiction when such valuation complies with the minimum standard herein provided and if the official of such state or jurisdiction accepts as sufficient and valid for all legal purposes the certificate of valuation of the commissioner when such certificate states the valuation to have been made in a specified manner according to which the aggregate reserves would be at least as large as if they had been computed in the manner prescribed by the law of that state or jurisdiction.

(3) Minimum valuation standard:
(a) The minimum standard for the valuation of all such policies and contracts issued prior to the operative date of RCW 48.23.350 shall be as follows:

For policies issued prior to the operative date no standard of valuation for ordinary policies, whether on the net level premium, preliminary term, or select and ultimate reserve basis, shall be less than that determined upon such basis according to the American Experience Table of Mortality with three and one-half percent interest; except, that when the preliminary term basis is used it shall not exceed one year. The commissioner may vary the standard of valuation in particular cases of invalid lives and
other extra hazards, provided, that the interest rate used is not greater than three and one-half percent.

The legal minimum standard for the valuation of annuities issued on or after January 1, 1912, and prior to the operative date of RCW 48.23.350, shall be McClintock's Table of Mortality Among Annuitants, with interest at three and one-half percent per annum, but annuities deferred ten or more years and written in connection with life or term insurance may be valued on the same mortality table from which the consideration or premiums were computed, with interest not higher than three and one-half percent per annum.

The legal minimum standard for the valuation of industrial policies issued on or after the first day of January, 1912, and prior to the operative date of RCW 48.23.350, shall be the American Experience Table of Mortality with interest at three and one-half percent per annum; except, that any life insurer may voluntarily value such industrial policies according to the Standard Industrial Mortality Table or the Substandard Industrial Mortality Table.

The legal minimum standard for the valuation of group life insurance policies under which premium rates are not guaranteed for a period in excess of five years shall be, at the option of the life insurer issuing such policies, either the American Men Ultimate Table of Mortality, the Commissioners 1941 Standard Ordinary Mortality Table, or any other table approved by the commissioner, with interest at three and one-half percent per annum.

(b) The minimum standard for the valuation of all such policies and contracts issued on or after the operative date of RCW 48.23.350 shall be the Commissioners Reserve Valuation Method defined in subsection (4) of this section, three and one-half percent interest, and the following tables:

(i) For all ordinary policies of life insurance issued on the standard basis, excluding any disability
and accidental death benefits in such policies,—the Commissioners 1941 Standard Ordinary Mortality Table for such policies issued prior to the operative date of RCW 48.23.350 (3a), and the Commissioners 1958 Standard Ordinary Mortality Table for such policies issued on or after such operative date: Provided, That for any category of such policies issued on female risks on or after July 1, 1957, modified net premiums and present values, referred to in subsection (4) of this section, may be calculated according to an age not more than three years younger than the actual age of the insured.

(ii) For all industrial life insurance policies issued on the standard basis, excluding any disability and accidental death benefits in such policies,—the 1941 Standard Industrial Mortality Table.

(iii) For individual annuity and pure endowment contracts, excluding any disability and accidental death benefits in such policies,—the 1937 Standard Annuity Mortality Table or, at the option of the insurer, the Annuity Mortality Table for 1949, Ultimate, or any modification of either of these tables approved by the commissioner.

(iv) For group annuity and pure endowment contracts, excluding any disability and accidental death benefits in such policies,—the Group Annuity Mortality Table for 1951, any modification of such table approved by the commissioner, or, at the option of the insurer, any of the tables or modifications of tables specified for individual annuity and pure endowment contracts.

(v) For total and permanent disability benefits in or supplementary to ordinary policies or contracts,—for policies or contracts issued on or after January 1, 1966, the tables of Period 2 disablement rates and the 1930 to 1950 termination rates of the 1952 Disability Study of the Society of Actuaries, with due regard to the type of benefit; for policies or contracts issued on or after January 1, 1961, and prior to
January 1, 1966, either such tables or, at the option of the insurer, the Class (3) Disability Table (1926); and for policies issued prior to January 1, 1961, the Class (3) Disability Table (1926). Any such table shall, for active lives, be combined with a mortality table permitted for calculating the reserves for life insurance policies.

(vi) For accidental death benefits in or supplementary to policies,—for policies issued on or after January 1, 1966, the 1959 Accidental Death Benefits Table; for policies issued on or after January 1, 1961, and prior to January 1, 1966, either such table or, at the option of the insurer, the Inter-Company Double Indemnity Mortality Table; and for policies issued prior to January 1, 1961, the Inter-Company Double Indemnity Mortality Table. Either table shall be combined with a mortality table permitted for calculating the reserves for life insurance policies.

(vii) For group life insurance, life insurance issued on the substandard basis and other special benefits,—such tables as may be approved by the commissioner.

(4) Commissioners Reserve Valuation Method:
Reserves according to the Commissioners Reserve Valuation Method, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums shall be the excess, if any, of the present value, at the date of valuation, of such future guaranteed benefits provided for by such policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such policy shall be such uniform percentage of the respective contract premiums for such benefits (excluding extra premiums on a substandard policy) that the present value, at the date of issue of the policy, of all such modified net premiums shall be equal to the sum of the then present value of such
benefits provided for by the policy and the excess of (a) over (b) as follows:

(a) A net level annual premium equal to the present value, at the date of issue, of such benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one per annum payable on the first and each subsequent anniversary of such policy on which a premium falls due; provided, however, that such net level annual premium shall not exceed the net level annual premium on the nineteen-year premium whole life plan for insurance of the same amount at an age one year higher than the age at issue of such policy.

(b) A net one-year term premium for such benefits provided for in the first policy year.

Reserves according to the Commissioners Reserve Valuation Method for (1) life insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums, (2) annuity and pure endowment contracts, (3) disability and accidental death benefits in all policies and contracts, and (4) all other benefits, except life insurance and endowment benefits in life insurance policies, shall be calculated by a method consistent with the principles of this paragraph.

(5) Minimum aggregate reserves: In no event shall an insurer's aggregate reserves for all life insurance policies, excluding disability and accidental death benefits, issued on or after the operative date of RCW 48.23.350, be less than the aggregate reserves calculated in accordance with the method set forth in subsection (4) and the mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for such policies.

(6) Optional reserve bases: Reserves for all policies and contracts issued prior to the operative date of RCW 48.23.350 may be calculated, at the option of the insurer, according to any standards
which produce greater aggregate reserves for all such policies and contracts than the minimum reserves required by the laws in effect immediately prior to such date.

For any category of policies, contracts or benefits specified in subsection (3) of this section, issued on or after the operative date of RCW 48.23.350, reserves may be calculated, at the option of the insurer, according to any standard or standards which produce greater aggregate reserves for such category than those calculated according to the minimum standard herein provided, but the rate or rates of interest used shall not be higher than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided for therein: Provided, That reserves for participating life insurance policies issued on or after the operative date of RCW 48.23.350 may, with the consent of the commissioner, be calculated according to a rate of interest lower than the rate of interest used in calculating the nonforfeiture benefits in such policies, with the further proviso that if such lower rate differs from the rate used in the calculation of the nonforfeiture benefits by more than one-half percent the insurer issuing such policies shall file with the commissioner a plan providing for such equitable increases, if any, in the cash surrender values and nonforfeiture benefits in such policies as the commissioner shall approve.

Any such insurer which at any time had adopted any standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard herein provided may, with the approval of the commissioner, adopt any lower standard of valuation, but not lower than the minimum herein provided.

(7) Deficiency reserve: If the gross premium charged by any life insurer on any policy or contract is less than the net premium for the policy or contract
according to the mortality table, rate of interest and
method used in calculating the reserve thereon, there
shall be maintained on such policy or contract a de-
ficiency reserve in addition to all other reserves re-
quired by law. For each such policy or contract the
deficiency reserve shall be the present value, accord-
ing to such standard, of an annuity of the difference
between such net premium and the premium charged
for such policy or contract, running for the re-
mainder of the premium-paying period.

Sec. 4. Section .17.15, chapter 79, Laws of 1947
and RCW 48.17.150 are each amended to read as fol-
lows:

(1) To qualify for an agent's or broker's license
an applicant must otherwise comply with this code
therefor and must

(a) be twenty-one years of age or over, if an
individual;

(b) be a bona fide resident of and actually reside
in this state, or if a corporation, be other than an
insurer and maintain a lawfully established place
of business in this state, except as provided in RCW
48.17.330;

(c) be empowered to be an agent or broker, as
the case may be, under its members' agreement, if a
firm, or by its articles of incorporation, if a corpo-
rating;

(d) successfully pass any examination as re-
quired under RCW 48.17.110;

(e) be a trustworthy person;

(f) not intend to use or use the license for the
purpose principally of writing controlled business,
as defined in RCW 48.17.080;

(g) if for an agent's license, be appointed as its
agent by one or more authorized insurers, subject
to issuance of the license;

(h) if for broker's license, have had experience
either as an agent, solicitor, adjuster, general agent,
brocker, or as an employee of insurers or representatives of insurers, or special education or training of sufficient duration and extent reasonably to satisfy the commissioner that he possesses the competence necessary to fulfill the responsibilities of broker.

(2) If the commissioner finds that the applicant is so qualified and that the license fee has been paid, he shall issue the license. Otherwise, the commissioner shall refuse to issue the license.

**Sec. 5.** Section .20.34, chapter 79, Laws of 1947 and RCW 48.20.340 are each amended to read as follows:

(1) Family expense disability insurance is that covering members of any one family including one or both spouses and dependents provided under a master policy issued to the head of the family.

(2) Any authorized disability insurer may issue family expense disability insurance.

(3) A disability policy providing such family expense coverage, in addition to other provisions required to be contained in disability policies under this chapter, shall contain the following provisions:

(a) A provision that the policy and the application of the head of the family shall constitute the entire contract between the parties.

(b) A provision that to the family group originally insured shall, on notice to the insurer, be added from time to time all new members of the family as they become eligible for insurance in such family group, and on the payment of such additional premium as may be required therefor.

**Sec. 6.** Section .21.08, chapter 79, Laws of 1947 and RCW 48.21.080 are each amended to read as follows:

In group disability insurance policies there shall be a provision that the insurer shall issue to the employer, the policyholder, or other person or association in whose name such policy is issued, for deliv-
ery to each insured employee or member, a certificate setting forth in summary form a statement of the essential features of the insurance coverage, and to whom the benefits thereunder are payable described by name, relationship, or reference to the insurance records of the policyholder or insurer. If family members are insured, only one certificate need be issued for each family. This section shall not apply to blanket disability insurance policies.

Sec. 7. Section .23.35, chapter 79, Laws of 1947, as last amended by section 8, chapter 225, Laws of 1959, and RCW 48.23.350 are each amended to read as follows:

(1) This section shall be known as the standard nonforfeiture law.

(2) Nonforfeiture provisions—Life: In the case of policies issued on or after the operative date of this section as defined in subsection (8), no policy of life insurance, except as stated in subsection (7), shall be delivered or issued for delivery in this state unless it shall contain in substance the following provisions, or corresponding provisions which in the opinion of the commissioner are at least as favorable to the defaulting or surrendering policyholder:

(a) That, in the event of default in any premium payment, the insurer will grant, upon proper request not later than sixty days after the due date of the premium in default, a paid-up nonforfeiture benefit on a plan stipulated in the policy, effective as of such due date, of such value as may be hereinafter specified.

(b) That, upon surrender of the policy within sixty days after the due date of any premium payment in default after premiums have been paid for at least three full years in the case of ordinary insurance or five full years in the case of industrial insurance, the insurer will pay, in lieu of any paid-up nonforfeiture benefit, a cash surrender value of such amount as may be hereinafter specified.
(c) That a specified paid-up nonforfeiture benefit shall become effective as specified in the policy unless the person entitled to make such election elects another available option not later than sixty days after the due date of the premium in default.

(d) That, if the policy shall have become paid-up by completion of all premium payments or if it is continued under any paid-up nonforfeiture benefits which become effective on or after the third policy anniversary in the case of ordinary insurance or the fifth policy anniversary in the case of industrial insurance, the insurer will pay, upon surrender of the policy within thirty days after any policy anniversary, a cash surrender value of such amount as may be hereinafter specified.

(e) A statement of the mortality table and interest rate used in calculating the cash surrender values and the paid-up nonforfeiture benefits available under the policy, together with a table showing the cash surrender value, if any, and paid-up nonforfeiture benefit, if any, available under the policy on each policy anniversary either during the first twenty policy years or during the term of the policy, whichever is shorter, such values and benefits to be calculated upon the assumption that there are no dividends or paid-up additions credited to the policy and that there is no indebtedness to the insurer on the policy.

(f) A statement that the cash surrender values and the paid-up nonforfeiture benefits available under the policy are not less than the minimum values and benefits required by or pursuant to the insurance law of this state; an explanation of the manner in which the cash surrender values and the paid-up nonforfeiture benefits are altered by the existence of any paid-up additions credited to the policy or any indebtedness to the insurer on the policy; if a detailed statement of the method of com-
putation of the values and benefits shown in the policy is not stated therein, a statement that such method of computation has been filed with the insurance supervisory official of the state in which the policy is delivered; and a statement of the method to be used in calculating the cash surrender value and paid-up nonforfeiture benefit available under the policy on any policy anniversary beyond the last anniversary for which such values and benefits are consecutively shown in the policy.

Any of the foregoing provisions or portions thereof not applicable by reason of the plan of insurance may, to the extent inapplicable, be omitted from the policy.

The insurer shall reserve the right to defer the payment of any cash surrender value for a period of six months after demand therefor with surrender of the policy.

(3) Cash surrender value—Life: Any cash surrender value available under the policy in the event of default in a premium payment due on any policy anniversary, whether or not required by subsection (2) of this section, shall be an amount not less than the excess, if any, of the present value, on such anniversary, of the future guaranteed benefits which would have been provided for by the policy including any existing paid-up additions, if there had been no default, over the sum of (a) the then present value of the adjusted premiums as defined in subsections (5) and (5a) of this section corresponding to premiums which would have fallen due on and after such anniversary, and (b) the amount of any indebtedness to the insurer on account of or secured by the policy. Any cash surrender value available within thirty days after any policy anniversary under any policy paid-up by completion of all premium payments or any policy continued under any paid-up nonforfeiture benefits whether or not required by such subsection (2), shall be an amount
not less than the present value, on such anniversary, of the future guaranteed benefits provided for by the policy including any existing paid-up additions, decreased by any indebtedness to the insurer on account of or secured by the policy.

(4) Paid-up nonforfeiture benefit—Life: Any paid-up nonforfeiture benefit available under the policy in the event of default in a premium payment due on any policy anniversary shall be such that its present value as of such anniversary shall be at least equal to the cash surrender value then provided for by the policy or, if none is provided for, that cash surrender value which would have been required by this section in the absence of the condition that premiums shall have been paid for at least a specified period.

(5) The adjusted premium—Life: Except as provided in the third paragraph of this subsection, the adjusted premiums for any policy shall be calculated on an annual basis and shall be such uniform percentage of the respective premiums specified in the policy for each policy year, excluding extra premiums on a substandard policy, that the present value, at the date of issue of the policy, of all such adjusted premiums shall be equal to the sum of (a) the then present value of the future guaranteed benefits provided for by the policy; (b) two percent of the amount of insurance, if the insurance be uniform in amount, or of the equivalent uniform amount, as hereinafter defined, if the amount of insurance varies with duration of the policy; (c) forty percent of the adjusted premium for the first policy year; (d) twenty-five percent of either the adjusted premium for the first policy year or the adjusted premium for a whole life policy of the same uniform or equivalent uniform amount with uniform premiums for the whole of life issued at the same age for the same amount of insurance, whichever is less: Provided, That in applying the percentages
specified in (c) and (d) above, no adjusted premium shall be deemed to exceed four percent of the amount of insurance or uniform amount equivalent thereto. Whenever the plan or term of a policy has been changed, either by request of the insured or automatically in accordance with the provisions of the policy, the date of inception of the changed policy for the purposes of determining a nonforfeiture benefit or cash surrender value shall be the date as of which the age of the insured is determined for the purpose of the changed policy.

In the case of a policy providing an amount of insurance varying with duration of the policy, the equivalent uniform amount thereof for the purpose of this subsection shall be deemed to be the uniform amount of insurance provided by an otherwise similar policy, containing the same endowment benefit or benefits, if any, issued at the same age and for the same term, the amount of which does not vary with duration and the benefits under which have the same present value at the date of issue as the benefits under the policy, provided, however, that in the case of a policy, providing a varying amount of insurance issued on the life of a child under age ten, the equivalent uniform amount may be computed as though the amount of insurance provided by the policy prior to the attainment of age ten were the amount provided by such policy at age ten.

The adjusted premiums for any policy providing term insurance benefits by rider or supplemental policy provision shall be equal to (i) the adjusted premiums for an otherwise similar policy issued at the same age without such term insurance benefits, increased, during the period for which premiums for such term insurance benefits are payable, by (ii) the adjusted premiums for such term insurance, the foregoing items (i) and (ii) being calculated separately and as specified in the first two paragraphs of this
subsection except that, for the purposes of (b), (c) and (d) of the first such paragraph, the amount of insurance or equivalent uniform amount of insurance used in the calculation of the adjusted premiums referred to in (ii) shall be equal to the excess of the corresponding amount determined for the entire policy over the amount used in the calculation of the adjusted premiums in (i).

Except as otherwise provided in subsection (5a) of this section, all adjusted premiums and present values referred to in this section shall for all policies of ordinary insurance be calculated on the basis of the Commissioners 1941 Standard Ordinary Mortality Table: Provided, That for any category of ordinary insurance issued on female risks on or after July 1, 1957, adjusted premiums and present values may be calculated according to an age not more than three years younger than the actual age of the insured. Such calculations for all policies of industrial insurance shall be made on the basis of the 1941 Standard Industrial Mortality Table. All calculations shall be made on the basis of the rate of interest, not exceeding three and one-half percent per annum, specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits: Provided, That in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than one hundred and thirty percent of the rates of mortality according to such applicable table: Provided further, That for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the insurer and approved by the commissioner.

(5a) In the case of ordinary policies issued on or after the operative date of this subsection (5a) as defined herein, all adjusted premiums and present
values referred to in this section shall be calculated on the basis of the Commissioners 1958 Standard Ordinary Mortality Table and the rate of interest, not exceeding three and one-half percent per annum, specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits, provided that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to an age not more than three years younger than the actual age of the insured. Provided, however, that in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioners 1958 Extended Term Insurance Table. Provided, further, That for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the insurer and approved by the commissioner.

On or after June 11, 1959, any insurer may file with the commissioner a written notice of its election to comply with the provisions of this subsection, either as to designated ordinary policies or as to all ordinary policies issued by it, after a specified date before January 1, 1966. After the filing of such notice, then upon such specified date (which shall be the operative date of this subsection as to such policies for such insurer), this subsection shall become operative with respect to such policies thereafter issued by such insurer. If an insurer makes no such election, or so elects to have this subsection apply as to certain of its ordinary policies only, the operative date of this subsection as to all of the ordinary policies issued by such insurer (other than those policies as to which the insurer has elected an earlier operative date as hereinabove provided) shall be January 1, 1966.
(6) Calculation of values—Life: Any cash surrender value and any paid-up nonforfeiture benefit, available under the policy in the event of default in a premium payment due at any time other than on the policy anniversary, shall be calculated with allowance for the lapse of time and the payment of fractional premiums beyond the last preceding policy anniversary. All values referred to in subsections (3), (4), (5) and (5a) of this section may be calculated upon the assumption that any death benefit is payable at the end of the policy year of death. The net value of any paid-up additions, other than paid-up term additions, shall be not less than the dividends used to provide such additions. Notwithstanding the provisions of subsection (3) of this section, additional benefits payable (a) in the event of death or dismemberment by accident or accidental means, (b) in the event of total and permanent disability, (c) as reversionary annuity or deferred reversionary annuity benefits, (d) as term insurance benefits provided by a rider or supplemental policy provision to which, if issued as a separate policy, this section would not apply, (e) as term insurance on the life of a child or on the lives of children provided in a policy on the life of a parent of the child, if such term insurance expires before the child’s age is twenty-six, is uniform in amount after the child’s age is one, and has not become paid-up by reason of the death of a parent of the child, and (f) as other policy benefits additional to life insurance and endowment benefits, and premiums for all such additional benefits, shall be disregarded in ascertaining cash surrender values and nonforfeiture benefits required by this section, and no such additional benefits shall be required to be included in any paid-up nonforfeiture benefits.

(7) Exceptions: This section shall not apply to any reinsurance, group insurance, pure endowment, annuity or reversionary annuity contract, nor to
any term policy of uniform amount, or renewal thereof, of fifteen years or less expiring before age sixty-six, for which uniform premiums are payable during the entire term of the policy, nor to any term policy of decreasing amount on which each adjusted premium, calculated as specified in subsections (5) and (5a) of this section, is less than the adjusted premium so calculated, on such fifteen year term policy issued at the same age and for the same initial amount of insurance, nor to any policy which shall be delivered outside this state through an agent or other representative of the insurer issuing the policy.

(8) Operative date: After the effective date of this section, any insurer may file with the commissioner a written notice of its election to comply with the provisions of this section after a specified date before July 1, 1948. After the filing of such notice, then upon such specified date (which shall be the operative date for such insurer), this section shall become operative with respect to the policies thereafter issued by such insurer. If an insurer makes no such election, the operative date of this section for such insurer shall be July 1, 1948.

Sec. 8. There is added to chapter 79, Laws of 1947 and to chapter 48.24 RCW a new section to read as follows:

The lives of a group of individuals may be insured under a policy issued to a credit union, which shall be deemed the policyholder, to insure eligible members of such credit union for the benefit of persons other than the credit union or its officials, subject to the following requirements:

(1) The members eligible for insurance under the policy shall be all of the members of a credit union, or all except any as to whom evidence of individual insurability is not satisfactory to the insurer, or all of any class or classes thereof determined by conditions pertaining to their age or membership in the credit union or both.
(2) The premium for the policy shall be paid by the policyholder, either wholly from the credit union’s funds, or partly from such funds and partly from funds contributed by the insured members specifically for their insurance. No policy may be issued for which the entire premium is to be derived from funds contributed by the insured members specifically for their insurance.

(3) The policy must cover at least twenty-five members at the date of issue.

(4) The amount of insurance under the policy shall not exceed the amount of the total shares and deposits of the member or two thousand dollars, whichever is less.

(5) As used herein, “credit union” means a credit union organized and operating under the federal credit union act of 1934 or chapter 31.12 RCW.

Sec. 9. Section .24.04, chapter 79, Laws of 1947, as amended by section 18, chapter 303, Laws of 1955 and RCW 48.24.040 are each amended to read as follows:

The lives of a group of individuals may be insured under a policy issued to a creditor, who shall be deemed the policyholder, to insure debtors of the creditors, subject to the provisions of the insurance code relating to credit life insurance and credit accident and health insurance and to the following requirements:

(1) The debtors eligible for insurance under the policy shall be all of the debtors of the creditor whose indebtedness is repayable in installments, or all of any class or classes thereof determined by conditions pertaining to the indebtedness or to the purchase giving rise to the indebtedness. The policy may provide that the term “debtors” shall include the debtors of one or more subsidiary corporations, and the debtors of one or more affiliated corporations, pro-
prietors or partnerships if the business of the policyholder and of such affiliated corporations, proprietors or partnerships is under common control through stock ownership, contract, or otherwise.

(2) The premium for the policy shall be paid by the policyholder, either from the creditor's funds, or from charges collected from the insured debtors, or from both. A policy on which part or all of the premium is to be derived from the collection from the insured debtors of identifiable charges not required of uninsured debtors shall not include, in the class or classes of debtors eligible for insurance, debtors under obligations outstanding at its date of issue without evidence of individual insurability unless at least seventy-five percent of the then eligible debtors elect to pay the required charges. A policy on which no part of the premium is to be derived from the collection of such identifiable charges must insure all eligible debtors, or all except any as to whom evidence of individual insurability is not satisfactory to the insurer.

(3) The policy may be issued only if the group of eligible debtors is then receiving new entrants at the rate of at least one hundred persons yearly, or may reasonably be expected to receive at least one hundred new entrants during the first policy year, and only if the policy reserves to the insurer the right to require evidence of individual insurability if less than seventy-five percent of the new entrants become insured.

(4) Payment by the debtor insured under any such group life insurance contract of the premium charged the creditor by the insurer for such insurance pertaining to the debtor, shall not be deemed to constitute a charge upon a loan in violation of any usury law.

Sec. 10. Section .24.17, chapter 79, Laws of 1947 and RCW 48.24.170 are each amended to read as follows:

[ 1889 ]
There shall be a provision that the insurer will issue to the policyholder for delivery to each individual insured a certificate setting forth a statement as to the insurance protection to which he is entitled, to whom the insurance benefits are payable, described by name, relationship, or reference to the insurance records of the policyholder or insurer, and the rights and conditions set forth in RCW 48.24.180, 48.24.190 and 48.24.200, following.

Sec. 11. Section .31.01, chapter 79, Laws of 1947 and RCW 48.31.010 are each amended to read as follows:

(1) Subject to the provisions of RCW 48.08.080, relating to the mutualization of stock insurers, RCW 48.09.350, relating to the conversion or reinsurance of mutual insurers, and RCW 48.10.330, relating to the consolidation or conversion of reciprocal insurers, a domestic insurer may merge or consolidate with another insurer, subject to the following conditions:

(a) The plan of merger or consolidation must be submitted to and be approved by the commissioner in advance of the merger or consolidation.

(b) The commissioner shall not approve any such plan unless, after a hearing, he finds that it is fair, equitable, consistent with law, and that no reasonable objection exists. If the commissioner fails to approve the plan, he shall state his reasons for such failure in his order made on such hearing. The insurers involved in the merger shall bear the expense of the mailing of the notice of hearing and of the order on hearing.

(c) No director, officer, member, or subscriber of any such insurer, except as is expressly provided by the plan of merger or consolidation, shall receive any fee, commission, other compensation or valuable consideration whatsoever, for in any manner aiding, promoting or assisting in the merger or consolidation.

[ 1890 ]
(d) Any merger or consolidation as to an incorporated domestic insurer shall in other respects be governed by the general laws of this state relating to business corporations. Except, that as to domestic mutual insurers, approval by two-thirds of its members who vote thereon pursuant to such notice and procedure as was approved by the commissioner shall constitute approval of the merger or consolidation as respects the insurer's members.

(2) Reinsurance of all or substantially all of the insurance in force of a domestic insurer by another insurer shall be deemed a consolidation for the purposes of this section.

SEC. 12. Section .31.11, chapter 79, Laws of 1947 and RCW 48.31.110 are each amended to read as follows:

This section and RCW 48.31.120 to 48.31.180, inclusive, comprise and may be cited as the uniform insurers liquidation act. For the purposes of this act:

(1) "Insurer" means any person, firm, corporation, association, or aggregation of persons doing an insurance business and subject to the insurance supervisory authority of, or to liquidation, rehabilitation, reorganization, or conservation by, the commissioner, or the equivalent insurance supervisory official of another state.

(2) "Delinquency proceeding" means any proceeding commenced against an insurer for the purpose of liquidating, rehabilitating, reorganizing, or conserving such insurer.

(3) "State" means any state of the United States, and also the District of Columbia and Puerto Rico.

(4) "Foreign country" means territory not in any state.

(5) "Domiciliary state" means the state in which an insurer is incorporated or organized, or, in the case of an insurer incorporated or organized in a
foreign country, the state in which such insurer, having become authorized to do business in such state, has, at the commencement of delinquency proceedings, the largest amount of its assets held in trust and assets held on deposit for the benefit of its policyholders or policyholders and creditors in the United States; and any such insurer is deemed to be domiciled in such state.

(6) "Ancillary state" means any state other than a domiciliary state.

(7) "Reciprocal state" means any state other than this state in which in substance and effect the provisions of this act are in force, including the provisions requiring that the insurance commissioner or equivalent insurance supervisory official be the receiver of a delinquent insurer.

(8) "General assets" means all property, real, personal, or otherwise, not specifically mortgaged, pledged, deposited, or otherwise encumbered for the security or benefit of specified persons or a limited class or classes of persons, and as to such specifically encumbered property the term includes all such property or its proceeds in excess of the amount necessary to discharge the sum or sums secured thereby. Assets held in trust and assets held on deposit for the security or benefit of all policyholders, or all policyholders and creditors in the United States, shall be deemed general assets.

(9) "Preferred claim" means any claim with respect to which the law of a state or of the United States accords priority of payment from the general assets of the insurer.

(10) "Special deposit claim" means any claim secured by a deposit made pursuant to statute for the security or benefit of a limited class or classes of persons, but not including any general assets.

(11) "Secured claim" means any claim secured by mortgage, trust, deed, pledge, deposit as security, escrow, or otherwise, but not including special de-
POSIT CLAIMS OR CLAIMS AGAINST GENERAL ASSETS. THE TERM ALSO INCLUDES CLAIMS WHICH MORE THAN FOUR MONTHS PRIOR TO THE COMMENCEMENT OF DELINQUENCY PROCEEDINGS IN THE STATE OF THE INSURER'S DOMICILE HAVE BECOME LIENS UPON SPECIFIC ASSETS BY REASON OF JUDICIAL PROCESS.

(12) "RECEIVER" MEANS RECEIVER, LIQUIDATOR, REHABILITATOR, OR CONSERVATOR AS THE CONTEXT MAY REQUIRE.

PASSED THE HOUSE MARCH 8, 1961.
APPROVED BY THE GOVERNOR MARCH 20, 1961.

CHAPTER 195.
[S. B. 223.]
COUNTY ROADS AND CITY STREETS—COMPREHENSIVE PROGRAM.
An act relating to county roads and city streets; and repealing section 5, chapter 156, Laws of 1949 and RCW 36.81.120.

Be it enacted by the Legislature of the State of Washington:

SECTION 1. Prior to January 1, 1962, the board of county commissioners of each county with the advice and assistance of the county road engineer, and pursuant to one or more public hearings thereon, shall prepare and adopt a comprehensive road program for the ensuing six years and shall file the same with the director of highways not more than thirty days after its adoption by the board. Biennially thereafter each board shall review the work accomplished under the program and determine current county road needs. Based on these findings each board shall prepare and after public hearing thereon adopt a revised and extended comprehensive road program, and each two-year extension and revision shall be filed with the director of highways not more than thirty days after its adoption by the board. The
