Sec. 3. The word "agency" used herein shall mean and include every state government office, officer, each institution, whether educational, correctional, or other, and every department, division, board and commission, except as otherwise provided in this act.

The phrase "agencies headed by elective officials" used herein shall mean those executive offices or departments of the state which are directly supervised, administered, or controlled by the governor, lieutenant governor, secretary of state, treasurer, auditor, attorney general, superintendent of public instruction, commissioner of public lands, or insurance commissioner, but it shall not include those boards, commissions, or committees on which one or more of the above named elected officials serve.

Sec. 4. In order to carry out the provisions of these appropriations and the state budget, the budget director, with the approval of the governor, may:

(1) Allot all or any portion of the funds herein appropriated, or included in the state budget, to the various agencies by such periods as he shall determine and may place any funds not so allotted in reserve available for subsequent allotment: Provided, That the budget director shall not alter allotment requests filed with him, nor shall he place in reserve any funds, for the following: Agencies headed by elective officials; University of Washing-
ton; Washington State University; Central Washington State College; Eastern Washington State College; Western Washington State College; Washington State Apple Advertising Commission; Washington State Fruit Commission; Washington Dairy Products Commission or any agricultural commodity commission created under the provisions of chapter 15.66 RCW; the legislative branch of state government including the legislative council, the legislative budget committee, the statute law committee, and any legislative interim committee; or the judicial branch of state government: Provided, however, That the aggregate of allotments for any agency shall not exceed the total of applicable appropriations and local funds available to the agency concerned. It shall be unlawful for any officer or employee to incur obligations in excess of approved allotments or to incur a deficiency and any obligation so made shall be deemed invalid. Nothing in this section or in chapter 328, Laws of 1959 shall prevent revision of any allotment when necessary to prevent the making of expenditures under appropriations in this act in excess of available revenues.

(2) Issue rules and regulations to establish uniform standards and business practices throughout the state service, including regulation of travel by officers and employees and the conditions under which per diem shall be paid, so as to improve efficiency and conserve funds.

(3) Prescribe procedures and forms to carry out the above.

(4) Allot funds from appropriations in this act in advance of July 1, 1963, for the sole purpose of authorizing agencies to order goods, supplies or services for delivery after July 1, 1963: Provided, That no expenditures may be made from the appropriations contained in section 1 until after July 1, 1963.
SEC. 5. Except as otherwise provided in this act, any receipts from federal or other sources or from gifts or grants in excess of those estimated in the budget may be received and allotted by the governor but in the event that receipts shall be less than those estimated in the budget from any source the appropriation shall be limited to the amount actually received and allotments made as provided in section 4. Whenever possible, the receipt of federal or other funds which are not anticipated by the governor's budget or the legislature shall be used to support regular programs instead of using appropriated funds.

SEC. 6. Agencies are authorized to make refunds of erroneous or excessive payments and in the case of other refunds, which may be provided by law, without express appropriation therefor.

SEC. 7. Whenever allocations are made from the governor's emergency appropriation to an agency which is financed by other than general fund moneys, the budget director may direct the repayment of such allocated amount to the general fund from any balance in the fund or funds which finance such agency. No appropriations shall be necessary to effect such repayment.

SEC. 8. In addition to the amounts appropriated in this act for revenue for distribution and bond retirement and interest, there is also appropriated such further amounts as may be required or available for these purposes under any statutory formula or under any proper bond covenant made in accordance with law.

SEC. 9. Amounts received by an agency as reimbursements pursuant to RCW 43.09.210 shall be considered as returned loans of materials supplied or services rendered. Such amounts may be expended as a part of the original appropriation of the fund to
which it belongs, without further or additional appropriation, subject to conditions and procedures prescribed by the budget director which shall provide for determination of full costs, disclosure of such reimbursements in the governor's budget, maximum inter-agency usage of data processing equipment and services and such restrictions as will promote more economical operations of state government without incurring continuing costs beyond those reimbursed.

SEC. 10. The regents, trustees or board of directors of any of the state educational institutions or school districts are authorized to use funds appropriated by this act to provide and pay for tax deferred annuities for their respective employees in lieu of a portion of salary or wages as authorized under the provisions of 26 U.S.C. section 403(b) as amended by Public Law 87-370, 75 Stat. 796, as now or hereafter amended.

SEC. 11. The balance of the appropriation to the Liquor Control Board from the General Fund in chapter 26, Laws of 1961 Extraordinary Session, remaining unexpended as of April 1, 1963, is hereby transferred to and authorized to be expended from the Liquor Revolving Fund.

The balance of the appropriation to the Department of Employment Security from the General Fund in chapter 26, Laws of 1961 Extraordinary Session, remaining unexpended as of April 1, 1963 is hereby transferred to and authorized to be expended from the Unemployment Compensation Administration Fund, which fund is hereby declared to be a fund in the state treasury.

The budget director shall certify such amounts available to the Liquor Control Board and the Department of Employment Security.
Sec. 12. This act is necessary for the immediate preservation of the public peace, health and safety, the support of the state government and its existing public institutions, and shall take effect immediately.

Passed the House April 6, 1963.
Passed the Senate April 6, 1963.

Approved by the Governor April 18, 1963, with the exception of certain items in Section 1 and Section 2, which were vetoed.

GOVERNOR'S EXPLANATION OF ITEMS VETOED IS AS FOLLOWS:

"Two years ago the Legislature appropriated six million dollars more than was available to be spent by the state. This was a situation that I could not allow to exist. Accordingly, I put into effect stringent economies in the agencies under my control that corrected the situation.

"This year, once again, the Legislature has pressed upon me a critical fiscal problem. I find myself faced with a legislative budget proposal that asks the state to spend three million dollars more than it will have available during the next two years. This, despite the fact that such a budget would be directly contrary to state law, which stipulates that spending may NOT exceed income.

"As Governor, I am obligated to assure that this law is fully carried out. Therefore, I must choose one of two alternatives.

"I can veto the entire budget proposal and call the Legislature back into a costly special session to correct this over-appropriation of funds. Or, I can follow a responsible course of action, as I did two years ago—that is, to veto certain items and require further stringent economies in departments under my control in order to achieve a balanced budget.

"I choose the latter method.

"My decision will result in a reduction of more than three million dollars in proposed spending, and bring the state budget into balance.

"Through veto action I have assured savings of $365,000. The remaining imbalance through over-appropriated funds shall be absorbed by the state agencies over which I have direct control. I have instructed that State Budget Director plan for economies in the next two years to assure a reduction in spending by those agencies to a figure of two and a half million dollars below the totals appropriated to them by the Legislature. Only by instituting such sacrifices was I able to return the budget to a balanced condition.

"Since the Legislature was instrumental in creating this situation, I decided that it must share the burden of the overall financial sacrifices that were necessary. Accordingly, the most substantial of the vetoed items relates to appropriations approved by the Legislature for its own interim committees.

"In Section 2, under the heading of 'STATE LEGISLATURE' there is a General Fund appropriation for all legislative interim committees in the amount of $547,741. This appropriation, together with other allowances for legislative salaries and expenses of $422,658 appropriated elsewhere in this bill; plus individual appropriations for the Commission on Game and Game Fish, the Joint Committee on Highways, the Public Pension Committee, amount to a total appropriation for legislative expenses of OVER ONE MILLION DOLLARS DURING A PERIOD WHEN THE LEGISLATURE IS NOT IN SESSION. It seems curiously inconsistent that the Legislature does not exercise the same frugality necessary in every other agency of government when they appropriate for their own use.
In terms of interim committee membership, there are 131 committee positions available during the interim period for the 148 members of the House and Senate. I believe it is time to curb this practice which can only result in needless expense to the taxpayers. Although essential expenditures must be maintained, less desirable expenses must be eliminated. By combining the appropriation for numerous committees in one sum, the Legislature purposely insulated unnecessary committees from executive veto.

While some of the committees included within this appropriation serve useful purposes, and many members of the Legislature serve commendably without selfish interest, other committees need serious reevaluation. When the Legislative Council was first authorized in 1947, the express purpose was to stop the trend toward proliferation of interim committees which were used only as publicity and political tools. The Council was constituted with a balanced political representation to secure non-partisan interim study of important legislative problems. Yet the present Legislature has continued the coalition government by making the appointments strictly for political gain. There is even a serious question as to whether the Council is legally constituted because political considerations delayed the appointment of members. The original moral intent and legal directive has been violated.

It is patently clear that coalition government, which has resulted only in controversy, bitterness and rancor, should not be promoted during the interim period at an expense to the taxpayers of over a half million dollars.

During the past years, numerous committee staff studies having merit have been conducted, but the results have not been thoroughly analyzed by the Legislature. The elimination of the appropriation does not necessarily make the committees inoperative. This may be a good time for the members to catch up on the deluge of studies made in the past.

For the foregoing reasons, the appropriation of $547,741 to the legislative interim committees is vetoed. Interim committee appropriations from non-General Fund sources are not included in this appropriation and therefore substantial interim committee expenditures still remain.

In Section 1, under the general heading 'DEPARTMENT OF INSTITUTIONS—SOLDIERS' AND VETERANS' HOME AND COLONY' three provisos were attached to the appropriation as follows:

"Provided, That no part of this appropriation shall be used for the care and maintenance of members in the home having a yearly income of over $900 or with assets of over $900 unless all income and assets in excess of these amounts are paid into the general fund: Provided, that the director of the Department of Institutions may make rules and regulations for waiver of the foregoing proviso, for all, or such portion of income over $900, as in his discretion may be reasonably necessary for medical care not furnished by the Department of Institutions, support of dependents, and the payment of premiums on existing insurance, and such other situations as may be reasonably necessary to the welfare of such member: Provided, that nothing in this proviso shall be construed to modify or change the requirements for admission as provided by law and as prescribed in the rules and regulations of the Department of Institutions:"

These provisos place a $900 per year income limitation on those persons otherwise eligible to receive the veterans' benefits made available by this appropriation. Income and assets in excess of this amount must be paid to the General Fund. While the intent of the Legislature in setting such a limitation is desirable, the $900 amount is both undesirable and unnecessary.

It is undesirable because the limitation is so low as to place a severe hardship on veterans and because of its doubtful legality, as indicated by an adverse Superior Court decision on a similar proviso in
the 1961 Appropriations Act. It is unnecessary because the department can administratively set a more equitable limitation and because the total appropriation will effectively set the limits on membership.

"For the foregoing reason, I am vetoing the above section.

"In Section 1 under the heading of ‘INTERSTATE COMPACT COMMISSION’ there is a General Fund appropriation of $17,000.

"I am vetoing this item because I believe continuation of the staff work on the Columbia River Compact will in no way inure to the benefit of the people of the State of Washington. A proposed compact has been presented to the Legislature on several occasions and in each instance, the State of Washington has been asked to surrender much more than can be gained by entry into the compact. Washington State has by far the largest stake in the northwest river system and would have been relegated to a minority position if proposed Columbia River Compacts had been adopted.

"Vetoing this appropriation does not dissolve the Commission. Should further work on the compact be indicated, present state and local agencies charged with the administration and control of our natural resources are available to provide the necessary staff review.

"In Section 1, under the heading of ‘DEPARTMENT OF PUBLIC ASSISTANCE,’ within the proviso earmarking $100,000 for a study of federally-matched programs, there appears a limitation on the Governor's authority to select committee members in the following words:

"‘... from the various areas of the state representing institutions of higher learning, governmental agencies, and statewide private social agencies.

"While representation of these groups may be desirable, and will receive proper recognition in my appointments, any limitation on my authority to select the advisory committee for a study for which I will be held responsible is unwise.

"Accordingly, I am vetoing this item.

"Under the same general heading of the Department of Public Assistance, I note that the Legislature has added the $1,000,000 that I requested for restoration of medical care. But I also note that the Legislature reduced my request for aid to dependent children, general assistance, and disability assistance by $1,500,000, a cut that will force a ratable reduction in the grants to these needy persons.

"In Section 1 under the heading of ‘JUDICIAL COUNCIL,’ a General Fund appropriation of $30,000 is made. This appropriation represents an increase of over 200% from that appropriated in the previous biennium. The work of the Judicial Council is most commendable, but this increase is difficult to justify in light of policies establishing present program levels.

"Most of the work of the Council has traditionally been donated. I am confident that with the assistance of the outstanding law schools in our state, the work can continue.

"For the foregoing reasons, I am vetoing the item appropriation to the Judicial Council.

"In the area of education, I am gratified by the fact that the Legislature, on the basis of my request, has appropriated $450,575,964 for the State Superintendent of Public Instruction, an increase of $36.9 million, or 8.9 per cent. The appropriations for higher education likewise have moved forward to a total of $120,767,741, an increase of $17.3 million.

"With the exception of the foregoing items which are vetoed, the remainder of House Bill No. 1 (Extraordinary Session) is approved.”

ALBERT D. ROSELLINI
Governor.
