Sec. 13. To establish eligibility for reimbursement by the department, a board or boards of county commissioners operating or administering a

Sec. 14. Sec. 15. Except as hereinafter provided, there shall be paid to each county on account of expenditures made for a community mental health program subject to reimbursement by the department pursuant to the provisions of this act, not more than fifty percent of the amount expended for such program, exclusive of the expenditure of funds secured by a community mental health program from federal sources. Where it is determined by the director to be necessary for the expansion of existing mental health services or for the development of new mental health services, as described in section 3, and after consultation with the Washington state tax commission regarding the extent to which local funds for the support of mental health services have been exhausted, the state share in any community mental health program may exceed fifty percent of the total expenditures: Provided, That the state share shall be reduced to not more than fifty percent of the total expenditures within two years from the starting date of such new services. Reimbursement
shall be made on a monthly basis, upon submission to the director such information as he may require.

Sec. 16. The board or boards of county commissioners shall make satisfactory showing to the director that all increases in state matching funds distributed under the provisions of this act shall be used for expansion of existing services or for developing new services, and that such state matching funds shall in no case be used to replace local funds from any source being used to finance mental health services prior to the effective date of this act.

Sec. 17. Existing local outpatient mental health services now receiving more than fifty percent support from the department shall continue to receive such support until local funds are secured to provide fifty percent of such support, but in no event beyond two years from the effective date of this act.

Sec. 18. In determining the expenditures to be reimbursed by the department to a community mental health service, reimbursements shall not be made from state funds as provided in this act to a community mental health program for expenditures for capital improvements or the purchase or construction of buildings, except for such equipment items and remodeling expense as may be provided for in the regulations of the department.

Sec. 19. The department shall promulgate rules and regulations to effectuate the purposes of this act, the form, manner and time for the submission of proposed plans for approval as submitted by the county commissioners, and the form, manner and time for the submission of claims for state reimbursement. Reimbursement may be made for the expenses of per diem and travel to meetings by members of the community mental health program administrative board, and for per diem and travel
expenses of supervisors of community mental health services to conferences which may from time to

time be called by the director. Such per diem and

tavel expenses may be paid in amounts prescribed by RCW 36.17.030.

Sec. 20. Expenditures of county funds under this act shall be subject to the provisions of chapter 36.40 RCW and other statutes relating to expenditures by counties.

Sec. 21. Community mental health programs shall require that patients make payment for community mental health services in accordance with their ability to pay, rendered pursuant to a plan submitted to the director, but not in excess of actual cost.

Sec. 22. The director may withhold state reimbursement in whole or in part for any community mental health program in the event of a failure to comply with the provisions of this act or regulations made by the department pursuant thereto relating to the community mental health program or the administration thereof.

Sec. 23. The department is designated as the "state mental health authority" and shall be authorized to enter into agreements with any agency of the United States government concerning the mental health program of the state.

Sec. 24. In order to establish eligibility for funding under this act, any county or counties seeking to obtain federal funds for the support of any aspect of a community mental health program as defined in this act shall submit program plans to the director for prior review and approval before such plans are submitted to any federal agency.

[1933]
Sec. 25. The board or boards of county commissioners are authorized to accept and expend gifts and grants received from private, county, state, and federal sources.

Sec. 26. This act shall take effect on July 1, 1967.

Sec. 27. Section 72.06.080, chapter 28, Laws of 1959 and RCW 72.06.080; and section 72.06.090, chapter 28, Laws of 1959 and RCW 72.06.090 are each repealed.

Passed the House March 29, 1967.

Passed the Senate March 22, 1967.

Approved by the Governor April 7, 1967, with the exception of a certain item in Section 2 which was vetoed.

NOTE: Governor's explanation of partial veto is as follows:

"In my State of the State Message, I stated that 'of all human needs, none can be more compelling—and none more important than to meet the urgent needs of our unfortunate and unrepresented citizens afflicted with mental illness and retardation. The degree of the problem requires an equal degree of response. To do less is neither fiscally responsible nor humanely defensible."

"'Over and above state action, this administration will support the expansion of comprehensive community services in creating a network of community mental health and retardation clinics which can deal with these problems at the level of local concern.'

"Substitute House Bill 303, the Community Mental Health Services Act, is one of three parts of a package to accomplish these goals. I believe it represents a major stride forward in recognizing that many facets of mental illness can be handled with greater success for the individual and the community without requiring transportation of individuals to large institutions far from their homes."

"Substitute House Bill 303 was amended to add to Section 2 a subsection (3) defining 'Community Mental Health Program' as 'any consciously adopted program designed to help people learn to avoid mental crisis.' This language is contained as a suggested definition in the state's mental health grant-in-aid plan submitted to the federal government. The attempt to define the programs covered by this bill was meritorious, and would have improved the legislation. Unfortunately, the amendment inadvertently left out two words, 'or overcome', from the definition contained in the grant-in-aid plan, thus suggesting that community mental health programs are designed only to prevent and not to treat mental crisis.

"Not only do the goals and requirements of the remainder of the act conflict with this concept of community mental health programs, but such a concept would not meet federal matching fund requirements and would result in loss of federal revenue of approximately $2.7 million to assist in establishment of community mental health programs anticipated in the budget passed by both houses of this legislature."
"I am sure it was not the intention of the legislature or the sponsor of the amendment to cast any doubt on the ability of the community programs to aid individuals in overcoming mental crises, nor the ability of the state to participate in federal matching programs for community mental health. For this reason, I have vetoed subsection (3) of Section 2 and have approved the remainder of the bill."

DANIEL J. EVANS,
Governor.
