shall constitute a new chapter in Title 80 RCW.

Passed the Senate January 31, 1970
Passed the House February 9, 1970
Approved by the Governor February 23, 1970, with the exception
of an item in section 17 which is vetoed.
Filed in Office of Secretary of State February 24, 1970

NOTE: Governor's explanation of partial veto is as follows:
"...This act establishes a procedure for evaluating and certifying proposed sites for thermal power plants in the State of Washington. Under present law, there is no set procedure in state government for reviewing an application to establish a thermal power plant facility. An applicant seeking to establish a plant, whether the applicant be a private industry or a unit of government, must now deal separately with a number of different units of government. The principal purpose of this act is to coordinate the interests and activities of each unit of state government that plays a role in the establishment, location, and operation of such a facility so that the state can have a unified position. It is a significant step forward in availing ourselves of this newly developing power resource.

Section 17 of the act provides that if any portions except sections 11 and 12 are declared to be unconstitutional, the remainder of the act shall be effective. There is no reason to believe any part of sections 11 or 12 is unconstitutional. No convincing argument has been suggested for striking down the entire act because of some now unknown flaws in these sections. I have therefore vetoed from Senate Bill 49 the exceptions from the severability clause of sections 11 and 12, so that each part of the act may be administered and, if necessary, examined solely on its own merits.

The remainder of Senate Bill 49 is approved."
