economic growth and an equally unprecedented decline in employment and by social disorder and unrest. I am simply unwilling to follow the legislative suggestion that we reward the hard work and dedication of these employees by limiting their opportunity to continue to receive any merit adjustments which other employees would continue to receive.

Therefore, I have vetoed Section 113 in its entirety.

With the exception of the items described above, the remainder of the bill is approved."

CHAPTER 276
[Substitute House Bill No. 152]  
CAPITAL BUDGET

AN ACT Adopting the capital budget; making appropriations for capital improvements; authorizing certain projects; and declaring an emergency.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

NEW SECTION. Section 1. That a capital budget is hereby adopted and subject to provisions hereinafter set forth the several amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be disbursed for capital projects during the period ending June 30, 1973, out of the several funds hereinafter named:

FOR THE EMPLOYMENT SECURITY DEPARTMENT From the Unemployment Compensation Administration Fund

Improvement of existing central office buildings and necessary related costs:

PROVIDED, That this appropriation shall be available only to the extent that federal funds under section 903 of the Federal Social Security Act are made available for this purpose:

PROVIDED FURTHER, That this appropriation is made pursuant to and is limited by provisions of section 903-c(2) of the Federal Social Security Act as amended: PROVIDED FURTHER, That any unexpended balance of said federal funds shall be promptly returned to the account of the State of Washington in the Unemployment Compensation Trust Fund as may be required by federal law or regulation 500,000

NEW SECTION. Sec. 1A. FOR THE UNIVERSITY OF WASHINGTON HEALTH SERVICES EXPANSION--General Fund Reappropriation: PROVIDED,
That this reappropriation shall not be allotted if sufficient funds are available in the University of Washington Building Account: PROVIDED FURTHER, That any disbursements that may be made from this reappropriation shall be repaid to the general fund prior to June 30, 1973.......................... $4,500,000.

NEW SECTION. Sec. 2. There is hereby appropriated from the general fund to the State Board for Community College Education the sum of $350,000 or so much thereof as may be required for construction and equipping the final unit of the engineering technology building on the South Campus of the Seattle Community College: PROVIDED, That the director of the Office of Program Planning and Fiscal Management may allocate from this appropriation no more than shall be realized from the pending sale of the real property and improvements thereto known as the Holgate Branch of the Seattle Community College.

NEW SECTION. Sec. 3. The words "capital improvements" or "capital projects" used herein shall mean acquisition of sites, easements, rights of way or improvements thereon and appurtenances thereto, construction and initial equipment, reconstruction, demolition or major alterations of new or presently owned capital assets.

NEW SECTION. Sec. 4. Before a capital project shall begin or an obligation incurred or contract entered into, the Director of the Office of Program Planning and Fiscal Management, with the approval of the Governor, shall first allot funds therefor or so much as may be necessary from the appropriation made herein.

NEW SECTION. Sec. 5. Additional Federal or other receipts and gifts and grants in excess of those estimated in the budget may be allotted by the Governor for capital projects included in the Capital Budget. In addition, the Governor may receive and allot any Federal funds made available for capital outlay at any one of the six institutions of higher education. Whenever possible, funds from other available sources shall be used to finance projects for which General Fund appropriations are made in this act.

NEW SECTION. Sec. 6. To effectively carry out the provisions of this act, the Governor may assign responsibility for planning, engineering and construction and other related activities to any appropriate agency.

NEW SECTION. Sec. 7. Reappropriations shall be limited to the unexpended balances remaining June 30, 1971, in the current appropriation for each project.

NEW SECTION. Sec. 8. The governor, through the Director of the Office of Program Planning and Fiscal Management, may authorize a transfer of funds appropriated for a capital project in excess of the amount required for the completion of such project to another capital
project for which the appropriation is insufficient only within the Division of Institutions, Department of Social and Health Services, or between appropriations for a specific department, commission or institution of higher education. No such transfer shall be used to expand the capacity of any facility beyond that anticipated by the legislature in making the appropriations. A report of any transfer effected under this section shall be filed with the Legislative Auditor for transmittal to the Legislative Budget Committee by the Director of the Office of Program Planning and Fiscal Management within thirty days of the date the transfer is effected.

NEW SECTION. Sec. 9. Any capital improvement or capital project for construction, repair or maintenance authorized by this act, unless constructed pursuant to the provisions of chapter 39.04 RCW, shall be done by contract after public notice and competitive bid: PROVIDED, That this section shall not apply to the acquisition of sites, easements, or rights of way; nor to contracts for architectural or engineering services; nor to emergency repairs nor to any improvement or project costing less than twenty-five hundred dollars, nor to portions of projects involving inmate labor at a state institution.

NEW SECTION. Sec. 10. Except as provided in section 12 of this act none of the funds appropriated in this act shall be used by any community college for satellite or secondary campuses, nor any facilities acquired therefore; a satellite or secondary campus for the purposes of this act shall be any location having facilities to carry on instructional programs away from the primary campus of a community college district, with the exception of those facilities of a temporary nature, including facilities in local high schools, in community or privately owned buildings, mobile units, or in any other facility or location which is rented or leased for a period not to exceed two years.

NEW SECTION. Sec. 11. None of the funds appropriated in this act shall be used for new dormitory facilities at community colleges. In addition, any proposals to establish new dormitory facilities at any community college shall be included in the capital budget request of the state board for community colleges as submitted to the office of program planning and fiscal management, and thereafter shall be included in the executive budget for review by the legislature. Such facilities shall not be established unless authorized by the legislature.

NEW SECTION. Sec. 12. No expenditures of appropriated funds for minor capital outlays and/or repairs approved in this act shall be made by any state institution of higher learning offering post-high school educational programs until such anticipated expenditures have been reported to the office of program planning.
fiscal management and the legislative budget committee.

NEW SECTION. Sec. 13. Notwithstanding any other provision of law, it is the intention of the Legislature that the Institutions of Higher Education not expend any local plant funds or any other moneys for construction of married student housing during the 1971-73 biennium.

NEW SECTION. Sec. 14. This act is necessary for the immediate preservation of the public peace, health and safety, for the support of state government and its existing public institutions, and shall take effect immediately.

Passed the House May 10, 1971.
Passed the Senate May 10, 1971.
Approved by the Governor May 21, 1971 with the exception of certain items which are vetoed.
Filed in Office of Secretary of State May 21, 1971.

Note: Governor's explanation of partial veto is as follows:

"...This capital budget contains only $6.8 million in new state General Fund appropriations, a sharp reduction from previous biennia. However, at the last minute certain projects were added by the Senate from the General Fund, with no discussion, and totally ignoring higher priority and urgent projects which should be funded if state General Fund money were available. Because of the lack of time, the Capital Budget returned by the Senate was not discussed in the House. This does not represent a responsible method of allocation of state resources, and I have therefore vetoed appropriations for several projects.

The specific items I have vetoed are as follows:

1. Washington State University

On page 26, lines 28-30, I have vetoed the following appropriation:

From the General Fund

Laboratory Animal Facility
Facility Planning & Design

$31,020.

The Laboratory Animal Resource Facility project consists of a holding facility for livestock under veterinarian care at the University. While it is a project
that will eventually have high priority, it has not been accorded a sufficiently high priority by the University this coming biennium to warrant funding it from the state General Fund.

2. Eastern Washington State College

On page 30, beginning on line 26 through line 1 on page 31, I have vetoed the following appropriations:

From the General Fund

Instruction and Computer Center Building, Design and Planning $91,642

Plant Services - Phase II and III Maintenance Building

Plant Storage Building $20,278

The Instruction and Computer Center Building is basically an instructional classroom and faculty office space facility with a small area set aside for housing the computer operations. Given the slowdown in enrollment growth at the college, it will be several years before enrollments reach a level where additional space of this type will be required, according to the college's own space utilization standards.

The Plant Services, Phase II and III, project at Eastern Washington State College is another structure that cannot be justified at this time on the basis of needed space. Currently the college stores supplies and other plant articles in a variety of places, which the college administrators indicate will be adequate now that there is a slowdown in college growth.

While I am sure that both of these projects will materialize in a future biennium, they do not warrant funding at this time from the state General Fund.

3. For the State Board of Community College Education

On page 43, lines 15 through 21, I have vetoed the following appropriations:

[1389]
Language Research Center (correctly identified as Learning Resource Center)
Phase II - Everett Community College $728,900
Science Building - Edmonds Community College $4,400,554

My capital budget for community colleges was based upon fully utilizing the unused bonding capacity of the Community College System of $13.9 million. The amendment by the Legislature to the Tuition and Fee Bill (HB 740) which excluded Vietnam veterans from paying the increase in tuition and fees will further reduce this unused bonding capacity by $2.6 million. As a result of this amendment, there are not sufficient funds available for those projects initially included in the Capital Budget, let alone the two additional projects added by the Legislature.

For the Legislature to add two more projects, for an additional $5.1 million may be a popular political approach, but not a responsible method of handling community college facility requirements.

I am certain that the Learning Resource Center at Everett Community College and the Science Building at Edmonds Community College will receive additional consideration by the next session of the legislature, at the same time additional financing is considered.

With the exception of the items described above, the remainder of the bill is approved."
