Additionally, amendments are made in sections 30, 31, 32 and 33 of this act to sections of law which are repealed by House Bill 392, an act relating to divorce. Inasmuch as I have approved House Bill 392, it would be inappropriate to leave those sections in this act.

"AN ACT Relating to public health."

This act creates an alcoholism advisory board for the Department of Social and Health Services and also provides a mechanism for program funding at the county level for those counties which desire it. Section four of the bill establishes a distribution formula for the funds appropriated to the department for alcoholism. The formula allows ten percent of the funds for administration, twenty percent for pilot and statewide programs and the balance to be allocated to the counties based on the ratio of liquor taxes and profits derived from a county to the taxes and profits derived from the sale of liquor statewide. This formula is unduly restrictive in that it would not allow for the continued funding of existing statewide and pilot programs. Additionally, the ratio established for county allocation varies widely from period to period, making it very difficult for the counties to do meaningful planning for future needs. With these considerations in mind, it would be appropriate for the legislature to reconsider the formula between now and next September and at that time establish a more viable method for allocating these funds to the counties.

Veto
Message

Accordingly, for the reasons set out above I have determined to veto section four of Senate Bill No. 2435."
