NEW SECTION. Sec. 26. The appropriations contained within this 1973 act shall be administered, where applicable, pursuant to those rules, regulations, and administrative procedures established
by chapters 114, 131, 134, 137, 215, and 222, Laws of 1973 1st ex. sess., and chapter 43.88 RCW.

NEW SECTION. Sec. 27. If any provision of this 1973 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 28. This 1973 amendatory act is necessary for the immediate preservation of the public peace, health and safety, the support of the state government and its existing public institutions, and shall take effect immediately.

Passed the Senate September 13, 1973.
Approved by the Governor September 26, 1973 with the exception of certain items which are vetoed.
Filed in Office of Secretary of State September 27, 1973.
"I am filing herewith to be transmitted to the Senate at the next session of the Legislature, without my approval as to certain items, Engrossed Substitute Senate Bill No. 2956 entitled:

"AN ACT Relating to expenditures by state agencies and offices of the state; making appropriations for the fiscal biennium beginning July 1, 1973, and ending June 30, 1975; making other appropriations; designating effective dates for certain appropriations."

The specific items which I have vetoed are as follows:

1. Insurance Commissioner.

On page 5, Section 13, I have vetoed the proviso starting on line 1 and ending on line 6.

This proviso would require the Insurance Commissioner to sign his name on informational material distributed by him in a print not larger in size than the smallest print on such material. I have vetoed this item because I believe that substantive legislation of this kind does not properly belong in an appropriations bill and should be enacted separately. I further believe that if such a standard is to be set it should be applied to all elective officials and not just one elected official. If
there is indeed a problem of abuse of elective or personal authority in such a way as to gain personal recognition, the citizens of this state are quite capable of dealing with such problem at the next election.

I have chosen not to veto the amendment which reduced the Insurance Commissioner's budget by $467,000. These funds were added by the Legislature during the First Extraordinary Session in 1973 in anticipation of passage of a no-fault insurance law. Since the law has not been enacted, the removal of these funds by the Legislature is certainly understandable. In fairness, however, it should be pointed out that the Insurance Commissioner has initiated a voluntary no-fault insurance program which will have a fiscal impact beyond the amount of funds remaining in the Insurance Commissioner's budget. I believe that serious consideration should be given during the next session of the Legislature to provide the necessary funds to meet the additional work load of the Office of the Insurance Commissioner as a result of implementation of the voluntary no-fault plan.

2. Department of Social and Health Services.

On page 5, beginning on line 7, I have vetoed the entire Section 14 which ends on page 16.

Section 14 contains a series of amendments resulting in a total reduction of $12.1 million from the appropriation to the Department of Social and Health Services made by the Legislature during the First Extraordinary Session in 1973. These reductions were made presumably on the assumption by the Legislature that the federal government will provide the same funds either through the Federal Social Security Act or the food stamp and commodity program.

These budget reductions are entirely premature. We simply do not know at this time what amount of state support will be necessary for the Social Services Program and food stamp program until federal regulations governing participation in these programs are adopted later this year. I do not quarrel with either the need or the desirability of effecting such a substantial savings should federal funding be realized. I further intend to work
closely with the Legislature as soon as information is available which will allow us to determine more precisely the amount of state funds which can be saved. I believe it is far more sound budgeting procedure and policy to provide assured biennial funding for such essential programs as day care, drug abuse, alcoholism, mental retardation and mental health, rather than to risk severe cutbacks in these programs if the federal funds do not materialize, in which event the Legislature would have to reappropriate the amounts reduced at its next session.

I further consider it to be bad budgetary practice to make budget cuts in a departmental appropriation while at the same time authorizing the department to overspend its reduced budget until the next session of the Legislature if federal funding does not materialize. This type of budget adjustment is the best indication that the Legislature has no knowledge at this time whether federal funding will indeed be available prior to its next session.

3. Four-Year Colleges and Universities.

I have vetoed the entire Sections 15, 17, 18, 19 and 20, and also the proviso in Section 16, at page 18, beginning on line 25 and ending on page 19, line 5.

The items vetoed consist principally of: (1) budget reductions for Eastern, Western and Central Washington State Colleges, and (2) provisos requiring the governing board of each four-year college or university to limit advance notice for non-renewal of faculty contracts to six months.

It is expected that Eastern, Western and Central Washington State Colleges will experience an enrollment decline to a level below that for which state support was provided during the 1973-75 biennium. While budget reductions to match reduced enrollment may eventually be necessary, it is premature of the Legislature to reduce arbitrarily the budgets for these colleges based on assumed enrollment declines which may or may not prove to be accurate. Actual and accurate enrollment information at these colleges for this fall will be available within a few short weeks, at which time a more realistic base for the necessary reductions can be taken. In addition, it has
been recognized in a statement made on the record for the House Journal that fiscal computations used to compute the reduction for each college were in error. These computations did not adequately recognize the full amount of the corresponding student operating fees which will be lost to the colleges as a result of the lower enrollment levels. While I am now vetoing the budget cuts made by the Legislature, it is incumbent upon the administrators of the affected colleges to seek every possible way to limit spending and take such action as may be necessary to limit contract renewals to assure that every economy is achieved while not denying enrolled students the opportunity to complete their educational programs.

The provisos which would require the governing boards of the four-year colleges and universities to limit advance notice for non-renewal of faculty contracts to six months were adopted in a precipitous manner with little research or forethought. Moreover, adequate opportunity was not provided to representatives of the colleges and universities to comment upon the effect of the provisos.

Based upon an institution by institution review of faculty codes, handbooks and contracts, it is apparent that while there is some variation in institutional policies regarding advanced notification of termination or non-renewal, such policies are conditioned on the existence of financial exigencies. In actuality, under the existing policies at these institutions in the event of financial exigency such as would be occasioned by an abrupt and unanticipated decline in enrollment, no advance notice is provided. In short, if a faculty member were terminated with no notification whatsoever by reason of insufficient funds to operate the institution at its existing staffing level, there would be no breach of contract because the right to receive advance notice of termination or nonrenewal is a right conditioned on the institution having sufficient funds to maintain its existing staffing level.

The net effect of the provisos is thus to provide a legislated six-month advance notice requirement for non-renewal of faculty contracts if a college or university experiences financial difficulties as a result of lower enrollment levels. It is ironic indeed that this right to notice currently does not exist.
I am not convinced that the Legislature intended to confer this additional benefit upon the faculty of our colleges and universities. I am convinced, however, of the need for the governing boards of the four-year state colleges and universities to adopt necessary and proper retrenchment procedures for the termination or non-renewal of faculty contracts in the event financial exigencies created by reduced enrollment or discontinuance of funded programs necessitate such action. I further believe that such operating policies and procedures are properly the delegated responsibility of the governing board of each institution and not a matter to be legislated in an appropriations bill.

With the exception of the items described above, the remainder of the bill is approved."
