NEW SECTION. Sec. 73. NEW SECTION. Sec. 74. It shall be unlawful for any officer or employee to incur obligations in excess of approval allotments or to incur a deficiency and any obligation so made shall be deemed invalid. Nothing in this section or in chapter 328, Laws of
1959, shall prevent revision of any allotment when necessary to prevent the making of expenditures under appropriations in this act in excess of available revenues.

(2) Issue rules and regulations to establish uniform standards and business practices throughout the state service, including regulation of travel by officers and employees and the conditions under which per diem shall be paid, so as to improve efficiency and conserve funds.

Passed the Senate April 23, 1974.
Passed the House April 20, 1974.
Approved by the Governor May 6, 1974, with the exception of certain sections and items which are vetoed.
Filed in Office of Secretary of State May 6, 1974.
Note: Governor's explanation of partial veto is as follows:

"I am returning herewith without my approval as to certain sections and items Engrossed Substitute Senate Bill No. 3253 entitled:

"AN ACT Relating to expenditures by state agencies and offices of the state; making appropriations for the fiscal biennium beginning July 1, 1973, and ending June 30, 1975; making other appropriations; designating effective dates for certain appropriations."

The specific sections and items which I have vetoed are as follows:

1. Superior Court Judges
On page 2, lines 11 through 17, I have vetoed the entire section 2.

This appropriation of $35,333 was intended to fund the costs for two additional Superior Court Judges authorized by Senate Bill No. 3181. The bill authorizing additional Judges was not approved by the Legislature, and this appropriation is unnecessary.

2. Department of Commerce and Economic Development
On page 3, lines 12 through 17, I have vetoed the entire section 7. Section 7 proposes an appropriation of $23,106 from the State Trade Fair Fund to the Department of Commerce and Economic Development for a Washington State Aviation Trade Fair. Through the enactment of Chapter 43.31 RCW, the Legislature determined that the State Trade Fair Fund should not be subject to appropriation. Expenditures from the fund are governed by the provisions of Chapter 43.31 RCW, and this appropriation is clearly contrary to the intent of that earlier legislative decision. If the Legislature desires to reverse an earlier decision on a non-appropriated fund, that change should be effected by amendment of the basic statute rather than through the appropriation bill. It should be
noted that the veto of this section will not
prevent the Department of Commerce and Economic
Development from expending funds for a Washington
State Aviation Trade Fair under the present
provisions of Chapter 43.31.

3. Employment Relations Commission

On page 4, lines 11 through 30, I have vetoed the
entire section 13.

This proposed appropriation of $155,000 was
intended to fund the Employment Relations
Commission and its Advisory Committee to be
authorized by Engrossed Substitute House Bill No.
1341. The bill authorizing the Commission was
not approved by the Legislature, and this
appropriation is unnecessary.

4. Department of Agriculture

On page 6, section 19, I have vetoed the item on
lines 22 and 23 which requires the Department of
Agriculture to contract with the Department of
Game for the study of predator control funded in
this section.

Although predators do affect both game and non-
game wildlife species, this particular study is
intended chiefly to control livestock predators.
Because of this emphasis on the protection of
livestock, the study should be conducted by the
Department of Agriculture rather than through the
Department of Game. The deletion of the
reference will ensure that the study is
conducted by the agency having major
responsibility for livestock programs.

5. Department of Employment Security

On page 9, section 22, line 22, I have vetoed the
item "WIN".

The proposed wording of this proviso would
specifically require that federal WIN funds be
used to contract with Neighbors in Need for
training, job placement, and other employment
services to make persons served by Neighbors in
Need employable. The specification that only
federal WIN funds be used for this purpose,
however, is unduly restrictive. There is no
assurance that WIN funds will be available, and
there is no guarantee that other federal funds
might be available for use in this worthwhile
program. The deletion of "WIN" in this section
will enhance the possibility that federal funds
might be obtained.

6. Department of Social and Health Services

On page 11, section 24, line 1, I have vetoed the
item "by the director".

These words appear in a proviso which is intended
to give counties, cities and other political
subdivisions the authority to lease publicly-
owned social and health care facilities to
private organizations. In copying the proviso
from an existing statute, these words were
inadvertently included. If the words are not
deleted, the intent of this proviso cannot be
accomplished.

7. Department of Social and Health Services

On page 22, section 25, I have vetoed the proviso
starting on line 27 and ending on page 23, line
6, which prohibits the Department from imposing
ratable reductions in public assistance grants.

The proviso could impose on the Department a task
that might not be possible to perform. It would
require the Department to meet the necessary
caseload financial costs from established
appropriations without imposing ratable
reductions or reducing grants. Should the
legislature's estimate of caseloads prove to be
mistaken and the caseload increases, the
Department would have no choice but to reduce grants through ratable reductions or otherwise lower maximum grants so as to avoid expending funds in excess of those appropriated.

8. Board of Prison Terms and Paroles

On page 61, lines 22 through 28, I have vetoed the entire section 49.

This appropriation of $211,297 was intended to fund the costs of reorganizing the Board of Prison Terms and Paroles under the provisions of Engrossed Substitute House Bill No. 647. This bill was not approved by the Legislature, and the appropriation is unnecessary.

9. Department of Revenue

On page 62, section 50, I have vetoed the proviso starting on line 3 and ending on line 6.

Under this proviso, the Department of Revenue would be required to use 1972 values instead of the 1973 values which would be contrary to legislative intent. The confusing language in this section was a result of an error in legislative drafting, and removal of this proviso is supported by the Department of Revenue to clarify the basis of distribution to library districts as contained in this section.

10. Department of Revenue

On page 62, I have vetoed the entire section 51.

This appropriation is intended to reimburse certain taxing districts in Pierce County for losses they might suffer under the recent Washington State Supreme Court decision in Valley Bank v. Johnston, 83 Wn.2d 399 (1974). I am vetoing this section in its entirety for several reasons. First, the language used in the appropriation may be technically in error since it provides for a payment to the Pierce County Refund Fund for amounts paid to certain taxing districts. Payments from the Refund Fund are not made to the taxing districts but rather to the individual taxpayer. Second, the necessary mechanics already exist in the present property tax laws (RCW 84.68.030 and 84.68.040) for the county to reimburse itself for payments from the County Refund Fund. County officials also have several other alternative courses of action to make the necessary adjustments. Third, this appropriation discriminates against certain units of local government such as the county and port districts in that they are excluded from the proposed reimbursement. Fourth, this appropriation requires taxpayers all over the state to provide the necessary funds to resolve a problem unique to a single county. This is neither equitable nor is it necessary given the fact that local officials have ample means to resolve the problem.

11. Department of Ecology

On page 63, I have vetoed the entire section 54.

This section appropriates $680,400 from federal sources to the Department of Ecology and directs that this amount be granted by the Department to activated air pollution control authorities.

Presently the Environmental Protection Agency directs the manner and designates agencies which may receive federal funds available for air pollution control. The effect of the language in this section could bring the state into conflict with federal regulations and jeopardize the receipt of any of these federal funds. Federal funds are made available to the state for a statewide air pollution control program with available funds directed to be used by those agencies which the Environmental Protection Agency considers can contribute the most to statewide control. If the Environmental
Protection Agency were to require that a lesser amount than that contained in the appropriation should go to local authorities and a greater amount to the Department of Ecology, this appropriation could result in withholding of all federal pollution control funds from the state. Further, should any local authority cease to function, which is a possibility, the Department of Ecology is required by state statute to carry out the pollution control efforts in that area. Federal funds designated for that area should reasonably be assigned to the Department to carry out those responsibilities. This would not be possible under the terms of this section.

12. Apportionment Formula Funds

On page 70 I have vetoed the entire section 73.

The section would require local school districts to place a high priority on reducing special levies to the extent that any districts receive apportionment formula funds in excess of those anticipated when the districts established their excess levies for collection in 1975.

This section purports to direct that the twenty-five million dollars appropriated in section 33 of this bill be employed for relief of special levies. In fact, it does nothing of the kind, inasmuch as the referenced appropriation was not made through the apportionment formula, and that this constitutes special levy relief is a cruel hoax to beleaguered taxpayers across the state.

It now appears that the twenty-five million dollars appropriated in section 33 may be channeled to fund salary increases for certificated personnel. I initially contemplated vetoing both Sections 33 and 73 on the grounds that the purported special levy relief passed by the Legislature was purely fictitious. I have instead determined to veto only section 73 and allow the section 33 appropriation to be used for salary increases for certificated personnel. Any such increases will be taken into account when I next present a request to the Legislature to deal with the question of salary increases for state employees and employees in the higher education sector.

13. Legislative approval requirements

For the reasons set forth below, I have determined to veto certain items appearing as follows:

1. Page 8, section 21, beginning on line 30 and ending on page 9 line 1;
2. Page 10, section 24, beginning on line 15 and ending on line 22;
3. Page 40, section 25, beginning on line 20 and ending on line 21;
4. Page 43, section 26, line 5.

Each of the referenced items provides for the review and approval by the Legislature or designated legislative committees of actions and expenditures authorized in their respective sections. This requirement violates the fundamentals of good government by interposing legislative interference in the administrative process. The Legislature will always have the prerogative to prescribe legislation, basic policy and such guidelines as may be needed for its implementation. Having done so, however, administrative agencies must be empowered to carry out its functions without having to seek legislative approval at every turn of the decision-making process.

With the exception of the sections and items described above, the remainder of Engrossed Substitute Senate Bill No. 3253 is approved."
