18.51.020; repealing section 15, chapter 99, Laws of 1975 1st ex. sess. and RCW 18.51- .055; repealing section 5, chapter 260, Laws of 1977 ex. sess. and RCW 74.09.590; re- pealing section 83, chapter 177, Laws of 1980 and RCW 74.46.830; providing effective dates; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Section 1. There is added to chapter 74.09 RCW a new section to read as follows:

(1) The nursing home auditing and cost reimbursement system of the department of social and health services shall be governed by this section until implementation of chapter 74.46 RCW. The department shall reim- burse nursing homes on the basis of the following cost centers: Patient care, food, administration and operations, and property.

(2) The department shall reimburse the patient care cost center at the January 1, 1981, reimbursement rate, as adjusted for inflation.

(a) In addition, the reimbursement shall be enhanced by three million dollars for the first year of the biennium and by five million dollars for the second year of the biennium. These enhancements shall be apportioned among the nursing homes proportionately based on the patient care cost center for each nursing home.

(b) For the purpose of nursing assistant certification, the department shall reimburse at a rate of thirty cents for each medicaid patient day for the first year of the biennium and at a rate of thirty-three cents, as adjusted for inflation, for each medicaid patient day for the second year of the biennium. This is in addition to the January 1, 1981, reimbursement rate.

(3) Reimbursement for the food cost center shall be at the January 1, 1981, reimbursement rate, adjusted for inflation.

(4) The administration and operations cost center consists of two components:

(a) The wages for all employees, other than nursing service personnel and administrators and assistant administrators, shall be reimbursed at the January 1, 1981, rate as adjusted for inflation.

(b) Reimbursement for administration and operations, including all items not specified in subsections (2), (3), (4)(a), (5), and (6) of this section, shall not exceed the eighty-fifth percentile of the costs of all reporting facilities, not including any funds shifted pursuant to subsection (8) of this section, as adjusted for inflation, except that the nursing home facilities may be grouped by factors, other than ownership or legal organizational characteristics, which could reasonably influence cost requirements for administration and operations.

(5) The return on net invested equity for each facility shall be deter- mined by utilizing medicare rules and regulations.

(6) Property cost center reimbursement for both leased and owner-op- erated facilities shall not exceed the predicted cost plus one standard devia- tion of the necessary and ordinary costs of depreciation, and interest, of owner-operated facilities utilizing a multiple regression formula developed
by the department of social and health services, recognizing factors which
may be significant, including location, age, and type of facility. Rental costs
of leased facilities other than those operating as intermediate care facilities
for the mentally retarded, and depreciation and interest costs of owner-oper-
ated facilities, for leases or mortgages entered into prior to July 1, 1979,
shall be reimbursed to the extent they do not exceed the reimbursement rate
payable for the property cost center as of June 30, 1979, or July 1, 1979,
whichever is higher, adjusted to meet any discrepancies as determined by
the federal government between the reimbursements made and the approved
state medicaid plan, and adjusted for any approved capitalized additions or
replacements, except that any leased facility which has operated as an in-
termediate care facility for the mentally retarded prior to July 1, 1979, shall
be reimbursed to the extent that the property costs exceed the upper limit of
the multiple regression formula.

(7) The patient personal needs allowance limitation shall be thirty-three
dollars and fifty cents.

(8) For settlement purposes only, for calendar years 1981, 1982, and
1983, a nursing home may shift among cost centers an amount not greater
than twenty percent of the reimbursement rate of the cost center into which
the shift is being made. Shifts may be made among the cost centers. How-
ever, shifts may not be made into the property cost center. The department
shall monitor on a random basis the extent and patterns of shifting between
cost centers authorized by this section. The department shall report to the
legislature on its findings required by this section prior to February 15th of
each year.

(9) Audits shall be conducted by the department and settlements shall
be calculated by cost center only.

(10) The department may adjust reimbursement rates to reflect required
increases in staffing levels and capital improvements.

(11) Any reference in this section to a January 1, 1981, reimbursement
rate includes any adjustment resulting from a rate appeal and its final reso-
lution, but shall not include any adjustment resulting from litigation on re-
imbursement rates prior to June 30, 1981, or the procedures by which they
were established.

(12) References in this section to adjustments for inflation mean adjust-
ments of 5.0 percent for rates effective July 1, 1981, through December 31,
1981; 5.2 percent for rates effective January 1, 1982, through June 30,
1982; 4.35 percent for rates effective July 1, 1982, through December 31,
1982; and 4.35 percent for rates effective January 1, 1983, through June 30,
1983.

Sec. 2. Section 4, chapter 260, Laws of 1977 ex. sess. and RCW 74.09-
.580 are each amended to read as follows:
The nursing home payment system under this chapter shall provide for individually-based or class-based rates which shall be the maximum reimbursement for each nursing home for the period for which the rates are assigned.

(1)(a) Beginning with the settlements for calendar year 1981, the nursing home shall submit a preliminary settlement report simultaneously with the annual cost report.

(b) Within ninety days after receipt of the reports by the secretary, the department shall submit a proposed settlement report by cost center to the nursing home which fully substantiates disallowed costs, refunds, underpayments, and/or adjustments to the preliminary settlement report.

(c) The proposed settlement shall provide the basis for a schedule to correct overpayments and underpayments.

(2) Operators of nursing homes shall refund all portions of payments received which exceed actual audited costs and all portions of payments received which are attributable to unreasonable or nonallowable costs as determined by federal or state regulations.

Sec. 3. Section 7, chapter 177, Laws of 1980 and RCW 74.46.070 are each amended to read as follows:

(1) The office of financial management shall, within seventy-five days after April 4, 1980, engage a consultant through competitive bids who will develop the following:

(a) A uniform chart of accounts;

(b) A standard cost report form, including financial statements which shall be in conformity with generally accepted accounting principles and such regulatory requirements established by this section as well as any relevant federal regulatory requirements;

(c) Regulatory reporting and accounting provisions which may be required; and

(d) Regulatory auditing provisions which may be required.

(2) Such consultant will develop the items specified in subsection (1) of this section:

(a) In cooperation with an advisory committee to be composed of representatives of the office of financial management, the legislature, the department, the office of the state auditor, the Washington society of certified public accountants, and the providers of nursing home services; and

(b) In a manner which will achieve the principles stated in RCW 74.46.030 and 74.46.100.

(3) Such consultant shall provide ongoing financial consulting assistance to the patient task force created in section 86 of this act. The patient classification system and standard hours for each classification established by the task force must tie to the uniform chart of accounts, standard cost reports,
and financial statements to allow the independent certified public accountant to express an opinion on the statement of expenditures presented in the annual cost report.

(4) Such consultant will complete the development of the items specified in subsection (1) of this section not later than October 1, 1980. The secretary will adopt rules and regulations necessary to implement the consultant's product not later than December 31, 1980, for use in the (1983) 1983 reporting year.

Sec. 4. Section 12, chapter 177, Laws of 1980 and RCW 74.46.120 are each amended to read as follows:

Certified audits of the cost reports and patient trust accounts shall be conducted in accordance with the provisions of this chapter, as follows:

(1) The annual cost report of each contractor and the patient trust accounts under his control will be audited prior to submission to the department by an independent certified public accountant, licensed according to the provisions of chapter 18.04 RCW, who shall be engaged by the office of financial management through competitive bids. The office of financial management shall cause to be published a request for qualifications from independent certified public accountants. The office of financial management shall then select those independent certified public accountant firms which have qualified to participate in the competitive bid process through a request for proposals: PROVIDED, That during fiscal year (1984) 1984, for one hundred percent of the contractors, cost reports and patient trust accounts shall be audited: PROVIDED FURTHER, That during fiscal year (1985) 1985, for up to one hundred percent of the contractors, cost reports and patient trust accounts shall be audited. The requirements contained in this subsection shall not be required after June 30, (1985) 1985;

(2) Upon request of the secretary; and

(3) Upon termination of a contract.

Sec. 5. Section 46, chapter 177, Laws of 1980 and RCW 74.46.460 are each amended to read as follows:

(1) Each contractor's reimbursement rates will be determined prospectively at least once each calendar year, to be effective July 1st.

(2) Rates may be adjusted as determined by the department to take into account variations of more than ten percent in the distribution of patient classifications from the prior reporting year, program changes, economic trends and conditions, and/or administrative review provided by RCW 74.46.780 and shall be adjusted for any capitalized additions or replacements made as a condition for licensure or certification.

(4) All prospective reimbursement rates for ((1983)) 1985 and thereaft-
er shall be determined utilizing the prior year’s audited cost reports.

Sec. 6. Section 49, chapter 177, Laws of 1980 and RCW 74.46.490 are
each amended to read as follows:

(1) The food cost center shall include all costs for bulk and raw food
and beverages purchased for the dietary needs of medical care recipients.

(2) The food cost reimbursement rate for each facility shall be comput-
ed as follows:

\[ FR = (TFC/TPD) \times 1.15, \]

where

\( FR \) = the facility food cost center reimbursement rate;

\( TFC \) = the total of all reporting facilities’ food cost center costs; and

\( TPD \) = the total patient days for the prior year of all reporting facilities.

(3) Unless extended by law for an additional period of time, on and af-
fer July 1, ((1984)) 1986, the food cost reimbursement rate for each facility
shall be computed as follows:

\[ FR = (TFC/TPD), \]

where

\( FR \) = the facility food cost center reimbursement rate;

\( TFC \) = the total of all reporting facilities’ food cost center costs; and

\( TPD \) = the total patient days for the prior year of all reporting facilities.

Sec. 7. Section 53, chapter 177, Laws of 1980 and RCW 74.46.530 are
each amended to read as follows:

(1) The department shall first establish a total state-wide return on in-
vestment pool for use in determining individual facility return on investment
allowances.

(a) In establishing the total state-wide return on investment pool the
department shall determine the sum of net invested funds as of the end of
the most recent reporting period of all facilities participating in the medical
care program.

(b) In computing the portion of net invested funds representing the net
book value of tangible fixed assets, the same assets, depreciation bases, lives,
and methods referred to in RCW 74.46.330, 74.46.350, 74.46.360, and 74-
.46.370, including owned and leased assets, shall be utilized, except that the
capitalized cost of land upon which the facility is located and such other
contiguous land which is reasonable and necessary for use in the regular
course of providing patient care shall also be included. In the case of leased
facilities where the net invested funds are unknown or the contractor is un-
able to provide necessary information to determine net invested funds, the
secretary shall have the authority to determine an amount for net invested
funds based on an appraisal conducted according to RCW 74.46.360(1).

(c) The sum of net invested funds shall then be multiplied by 1.4 times
the average of the rates of interest on special issues of public debt obliga-
tions issued to the federal hospital insurance trust fund for the last com-
pleted calendar quarter prior to rate-setting to establish the total state-wide
return on investment pool.
(2) The department shall establish for individual facilities return on investment allowances composed of two parts: A financing allowance and a variable return allowance.

(a) The financing allowance shall be determined by multiplying the net invested funds of each facility by 1.07 times the average of the rates of interest on special issues of public debt obligations issued to the federal hospital insurance trust fund for the last completed quarter prior to rate-setting, and dividing by the contractor's total patient days. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total patient days used in computing the financing and variable return allowances shall be adjusted to the anticipated patient day level.

(b) In determining the variable return allowance:

(i) The department will first rank all facilities in numerical order from highest to lowest according to their average per diem allowable costs for the sum of the administration and operations and property cost centers for the previous reimbursement period.

(ii) The department shall then compute the variable return allowance by multiplying the appropriate percentage amounts, which shall not be less than one percent and not greater than five percent, by the total prospective rate for each facility, as determined in RCW 74.46.450 through 74.46.510. The percentage amounts will be based on groupings of facilities according to the rankings as established in subparagraph (2)(b)(i) of this section. Those groups of facilities with lower per diem costs shall receive higher percentage amounts than those with higher per diem costs.

(iii) Such percentage amounts shall be calculated so that the variable return allowance plus the financing allowance times the total patient days for each facility, when summed for all facilities, shall be as close in amount to the total state-wide return on investment pool as is practical; except that, such percentage amounts for equivalent groups of facilities as determined in subparagraph (2)(b)(ii) of this section shall be no less than the percentage amounts as calculated pursuant to this subsection on July 1, 1984.

(c) The sum of the financing allowance and the variable return allowance shall be the return on investment for each facility, and shall be added to the prospective rates of each contractor as determined in RCW 74.46.450 through 74.46.510.

(d) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, which continues to be leased under the same lease agreement, and for which the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center
determined according to RCW 74.46.510, is more than the return on investment allowance determined according to RCW 74.46.530(2)(c), the following shall apply:

(i) The financing allowance shall be recomputed substituting the fair market value of the assets as of January 1, 1982, as determined by the department of general administration through an appraisal procedure, for the net book value of the assets in determining net invested funds for the facility. A determination by the department of general administration of fair market value shall be final unless the procedure used to make such determination is shown to be arbitrary and capricious.

(ii) The sum of the financing allowance computed under subparagraph (2)(d)(i) of this section and the variable allowance shall be compared to the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center rate determined according to RCW 74.46.510. The lesser of the two amounts shall be called the alternate return on investment allowance.

(iii) The return on investment allowance determined according to RCW 74.46.530(2)(c) or the alternate return on investment allowance, whichever is greater, shall be the return on investment allowance for the facility and shall be added to the prospective rates of the contractor as determined in RCW 74.46.450 through 74.46.510.

(3) In the event that the department of health, education and welfare disallows the application of the return on investment allowances to nonprofit facilities, the department shall modify the measurements of net invested funds used for computing both total state-wide return on investment pool and individual facility return on investment allowances as follows: Net invested funds for each nonprofit facility shall be multiplied by one minus the ratio of equity funds to the net invested funds of all nonprofit facilities.

(4) Each biennium, beginning in 1984, the secretary shall review the adequacy of return on investment allowances in relation to anticipated requirements for maintaining, reducing, or expanding nursing care capacity. The secretary shall report the results of such review to the legislature and make recommendations for adjustments in the return on investment rates utilized in this section, if appropriate.

Sec. 8. Section 81, chapter 177, Laws of 1980 and RCW 74.46.810 are each amended to read as follows:

The department, pursuant to RCW 74.09.560, shall be responsible for the completion of all audits for cost reports covering all periods through December 31, 1982.

Sec. 9. Section 90, chapter 177, Laws of 1980 (uncodified) is amended to read as follows:

Sec. 10. Section 94, chapter 177, Laws of 1980 and RCW 74.46.901 are each amended to read as follows:
(1) Sections 2, 7, 83, 85, 86, and 91 of ((this act)) chapter 177, Laws of 1980 are necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect ((immediately)) on April 4, 1980.

(4) All other sections of ((this act)) chapter 177, Laws of 1980 shall take effect on July 1, (1982) 1984, which shall be "the effective date of this act" where that term is used in ((this act)) chapter 177, Laws of 1980.

Sec. 11. Section 74.09.120, chapter 26, Laws of 1959 as last amended by section 1, chapter 213, Laws of 1975 1st ex. sess. and RCW 74.09.120 are each amended to read as follows:

The department shall purchase hospital care by contract or by an inclusive day rate, or at a reasonable cost based on a ratio of charges to cost. Any hospital when requested by the department shall supply such information as necessary to justify its rate, charges or costs. All additional services provided by the hospital shall be purchased at rates established by the department after consultation with the hospital. The department shall purchase nursing home care by contract. The department shall establish regulations for reasonable nursing home accounting and reimbursement systems which ((recognize relevant cost related factors for department of social and health services patients, including but not limited to the scope or level of services or care, requirements of staff, and physical plant, and a reasonable rate of return on investment; said formula)) comply with section 1 of this act. The regulations shall provide that no payment shall be made to a nursing home which does not permit inspection by the department of social and health services of every part of its premises and an examination of all records, including financial records, methods of administration, general and special dietary programs, the disbursement of drugs and methods of supply, and any other records the department deems relevant to the establishment of such a system.
All other services and supplies provided under the program shall be secured by contract.

Sec. 12. Section 1, chapter 244, Laws of 1977 ex. sess. as last amended by section 5, chapter 184, Laws of 1980 and RCW 18.51.310 are each amended to read as follows:

(1) (No later than September 30, 1977, the secretary shall implement and operate a patient assessment system whereby the characteristics of patients supported by the department under RCW 74.09.120, as now or hereafter amended, shall be computerized for the purpose of assisting in the setting of reimbursement for nursing homes in accordance with the documented needs of the client population in each home and for the provision of statistical and summary information for use by the department and the legislature.

(2)) No later than December 31, 1980, the department shall adopt revised licensing standards for nursing homes. The licensing standards shall be suitable for implementing the civil penalty system authorized under this chapter, chapter 74.42 RCW, and chapter ((177 (Senate Bill No. 3250; Laws of 1980, if enacted)) 74.46 RCW.

NEW SECTION. Sec. 13. If any part of sections 1 through 12 of this act is found by an agency of the federal government to be in conflict with federal requirements which are a prescribed condition to the receipt of federal funds by the state, the conflicting part of sections 1 through 12 of this act is hereby declared inoperative solely to the extent of the conflict and with respect to the agencies directly affected, and such finding or determination shall not affect the operation of the remainder of sections 1 through 12 of this act in their application to the agencies concerned. If any portion of sections 1 through 12 of this act is found to be in conflict with federal requirements which are a prescribed condition to the receipt of federal funds, the secretary of social and health services, to the extent that the secretary finds it to be consistent with the general policies and intent of chapters 18.51, 74.09, and 74.46 RCW, may adopt such rules as are necessary to resolve a specific conflict and which meet minimum federal requirements. PROVIDED, That no sanction shall be imposed by the department until the department has informed the owner and administrator of the nursing home about the rules and regulations required to be followed to avoid penalties and until the department has granted a reasonable amount of time to the owner and administrator of the nursing home to correct the condition which would result in the penalty for resident health and safety.
