(3) In order to provide flexibility to the local school districts in the set-
ting of their curricula, and in order to maintain the intent of this legislation,
which is to stress the instruction of basic skills and work skills, any local
school district may establish minimum course mix percentages that deviate
by up to five percentage points above or below those minimums required by
subsection (2) of this section, so long as the total program hour requirement
is still met.

(4) Nothing contained in subsection (2) of this section shall be con-

by the superintendent of public instruction and the state board of education.

programs, state institution and state residential school programs, all of
which programs are conducted for the common school age, kindergarten

(8) Any school district may petition the state board of education for a reduction in the total program hour offering requirements for one or more of the grade level groupings specified in this section. The state board of education shall grant all such petitions that are accompanied by an assurance that the minimum total program hour offering requirements in one or more other grade level groupings will be exceeded concurrently by no less than the number of hours of the reduction.

From those funds made available by the legislature for the current use of the common schools, the superintendent of public instruction shall distribute annually as provided in RCW 28A.48.010 to each school district of the state operating a program approved by the state board of education an amount which, when combined with the following revenues, excluding excess property tax levies, will constitute a basic education allocation in dollars for each annual average full time equivalent student enrolled, based upon one full school year of one hundred eighty days, except that for kindergartens one full school year may be ninety days or the equivalent as provided in RCW 28A.58.754, as now or hereafter amended:

(1) The receipts from the one percent tax on real estate transactions pursuant to chapter 28A.45 RCW; and

If a school district's basic education program fails to meet the basic education program requirements enumerated in RCW 28A.41.130, 28A.41.140 and 28A.58.754, each as now or hereafter amended, or established by rule pursuant thereto, the state board of education shall require the superintendent of public instruction to withhold state funds in whole or in part for the basic education allocation until program compliance is assured: PROVIDED, That for the school years 1978 through 1981 the state board of education may waive this requirement in the event of levy failure: PROVIDED FURTHER, That the state board of education may waive this requirement in the event of substantial lack of classroom space: PROVIDED FURTHER, That effective July 1, 1979, those school districts which have been found by the state board of education to be out of compliance with the basic education program requirements enumerated in RCW 28A.58.754 during the 1978 and 1979 school year shall be deemed to be in compliance if such districts are in compliance with those basic education program requirements enumerated in RCW 28A.58.754 as of August 15, 1979.

be ((ninety–days)) one hundred eighty half days of instruction, or the equivalent as provided ((by RCW 28A.58.180)) in RCW 28A.58.754, as now or hereafter amended.

Operation of a program approved by the state board of education, for the purposes of this section, shall include a finding that the ratio of students per classroom teacher in grades kindergarten through three is not greater than the ratio of students per classroom teacher in grades four and above for such district: PROVIDED, That for the purposes of this section, "classroom teacher" shall be defined as an instructional employee possessing at least a provisional certificate, but not necessarily employed as a certificated employee, whose primary duty is the daily educational instruction of students: PROVIDED FURTHER, That the state board of education shall adopt rules and regulations to insure compliance with the student/teacher ratio provisions of this section, and such rules and regulations shall allow for exemptions for those special programs and/or school districts which may be deemed unable to practically meet the student/teacher ratio requirements of this section by virtue of a small number of students: PROVIDED, FURTHER, That these rules and regulations shall provide that any district that has a ratio of no greater than twenty-five students per classroom teacher in grades kindergarten through three shall be in conformance with this section.

If a school district's basic education program fails to meet the basic education requirements enumerated in RCW 28A.41.130, 28A.41.140 and 28A.58.754, the state board of education shall require the superintendent of public instruction to withhold state funds in whole or in part for the basic education allocation until program compliance is assured: PROVIDED, That the state board of education may waive this requirement in the event of substantial lack of classroom space.

This section shall be effective September 1, 1982.
