

the department shall be reimbursed for all such payments from the particular self-insured employer through periodic charges not less than quarterly in a manner to be determined by the director.

Any self-insured employer electing this alternative method of providing for payment to the beneficiary or beneficiaries shall additionally pay to the department a deposit equal to the first three months' payments otherwise required under RCW 51.32.050 and 51.32.060. Such deposit shall be placed in the reserve fund in accordance with RCW 51.44.140 and shall be returned to the respective self-insured employer when monthly payments are no longer required for such particular obligation.

If a self-insurer delays or refuses to reimburse the department beyond fifteen days after the reimbursement charges become due, there shall be a penalty paid by the self-insurer upon order of the director of an additional amount equal to twenty-five percent of the amount then due which shall be paid into the pension reserve fund. Such an order shall conform to the requirements of RCW 51.52.050.

Passed the House March 30, 1983.

Passed the Senate April 18, 1983.

Approved by the Governor May 17, 1983.

Filed in Office of Secretary of State May 17, 1983.

CHAPTER 313

[Substitute House Bill No. 1011]

STATE BUILDINGS—ENERGY CONSERVATION MEASURES

AN ACT Relating to building requirements; and amending section 5, chapter 172, Laws of 1980 as amended by section 3, chapter 48, Laws of 1982 and RCW 43.19.680.

Be it enacted by the Legislature of the State of Washington:

Sec. 1. Section 5, chapter 172, Laws of 1980 as amended by section 3, chapter 48, Laws of 1982 and RCW 43.19.680 are each amended to read as follows:

(1) Upon completion of each walk-through survey required by RCW 43.19.675, the director of general administration or the agency responsible for the facility if other than the department of general administration shall implement energy conservation maintenance and operation procedures that may be identified for any state-owned facility. These procedures shall be implemented as soon as possible but not later than twelve months after the walk-through survey.

(2) By December 31, 1981, for the capitol campus the director of general administration, in cooperation with the director of the state energy office, shall prepare and transmit to the governor and the legislature an implementation plan.

(3) By December 31, 1983, for all other state-owned facilities, the director of general administration in cooperation with the director of the state energy office shall prepare and transmit to the governor and the legislature the results of the energy consumption and walk-through surveys and a schedule for the conduct of technical assistance studies. This submission shall contain the energy conservation measures planned for installation during the ensuing biennium. Priority considerations for scheduling technical assistance studies shall include but not be limited to a facility's energy efficiency, responsible agency participation, comparative cost and type of fuels, possibility of outside funding, logistical considerations such as possible need to vacate the facility for installation of energy conservation measures, coordination with other planned facility modifications, and the total cost of a facility modification, including other work which would have to be done as a result of installing energy conservation measures. Energy conservation measure acquisitions and installations shall be scheduled to be twenty-five percent complete by June 30, 1985, or at the end of the capital budget biennium which includes that date, whichever is later, fifty-five percent complete by June 30, 1989, or at the end of the capital budget biennium which includes that date, whichever is later, eighty-five percent complete by June 30, 1993, or at the end of the capital budget biennium which includes that date, whichever is later, and fully complete by June 30, 1995, or at the end of the capital budget biennium which includes that date, whichever is later. Each state agency shall implement energy conservation measures with a payback period of twenty-four months or less that have a positive cash flow in the same biennium.

For each biennium until all measures are installed, the director of general administration shall report to the governor and legislature installation progress, measures planned for installation during the ensuing biennium, and changes, if any, to the technical assistance study schedule. This report shall be submitted by December 31, 1984, or at the end of the following year whichever immediately precedes the capital budget adoption, and every two years thereafter until all measures are installed.

(4) The director of general administration shall adopt rules to facilitate private investment in energy conservation measures for state-owned buildings consistent with state law.

Passed the House April 20, 1983.

Passed the Senate April 15, 1983.

Approved by the Governor May 17, 1983.

Filed in Office of Secretary of State May 17, 1983.
