AN ACT Relating to hazardous wastes; adding new sections to chapter 70.105 RCW; and making appropriations.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. There is added to chapter 70.105 RCW a new section to read as follows:

The legislature hereby declares that:

(1) The health and welfare of the people of the state depend on clean and pure environmental resources unaffected by hazardous waste contamination. Management and regulation of hazardous waste disposal should encourage practices which result in the least amount of waste being produced. Towards that end, the legislature finds that the following priorities in the management of hazardous waste are necessary and should be followed in order of descending priority as applicable:

   (a) Waste reduction;
   (b) Waste recycling;
   (c) Physical, chemical, and biological treatment;
   (d) Incineration;
   (e) Solidification/stabilization treatment;
   (f) Landfill.

(2) As used in this section:

   (a) "Waste reduction" means reducing waste so that hazardous byproducts are not produced;
   (b) "Waste recycling" means reusing waste materials and extracting valuable materials from a waste stream;
   (c) "Physical, chemical, and biological treatment" means processing the waste to render it completely innocuous, produce a recyclable byproduct, reduce toxicity, or substantially reduce the volume of material requiring disposal;
   (d) "Incineration" means reducing the volume or toxicity of wastes by use of an enclosed device using controlled flame combustion;
   (e) "Solidification/stabilization treatment" means the use of encapsulation techniques to solidify wastes and make them less permeable or leachable; and
   (f) "Landfill" means a disposal facility, or part of a facility, at which waste is placed in or on land and which is not a land treatment facility, surface impoundment, or injection well.

NEW SECTION. Sec. 2. There is added to chapter 70.105 RCW a new section to read as follows:
The department shall conduct a study to determine the best management practices for categories of waste for the priority waste management methods established in section 1 of this act, with due consideration in the course of the study to sound environmental management and available technology. As an element of the study, the department shall review methods that will help achieve the priority of section 1(1)(a) of this act, waste reduction. After conducting the study, the department shall prepare new rules or modify existing rules as appropriate to promote implementation of the priorities established in section 1 of this act for management practices which assure use of sound environmental management techniques and available technology. The preliminary study shall be completed by July 1, 1986, and the rules shall be adopted by July 1, 1987. The solid waste advisory committee shall review the studies and the new or modified rules and submit recommendations to the legislature by January 1, 1988, regarding policy options (such as fee incentives, disposal bans, etc.) that will be used to reduce the production of dangerous and extremely hazardous waste in Washington state.

NEW SECTION. Sec. 3. There is added to chapter 70.105 RCW a new section to read as follows:

Consistent with the purposes of sections 1 and 2 of this act, the department is authorized to promote the priority waste management methods listed in section 1 of this act by establishing or assisting in the establishment of: (1) Consultative services which, in conjunction with any business or industry requesting such service, study and recommend alternative waste management practices; and (2) technical assistance, such as a toll-free telephone service, to persons interested in waste management alternatives. Any person receiving such service or assistance may, in accordance with state law, request confidential treatment of information about their manufacturing or business practices.

NEW SECTION. Sec. 4. There is added to chapter 70.105 RCW a new section to read as follows:

All fines and penalties collected under this chapter shall be deposited in the hazardous waste control and elimination account, which is hereby created in the state general fund. Moneys in the account collected from fines and penalties shall be expended exclusively by the department of ecology for the purposes of this act, subject to legislative appropriation. Other sources of funds deposited in this account may also be used for the purposes of this act.

NEW SECTION. Sec. 5. (1) There is appropriated to the department of ecology from the hazardous waste control and elimination account in the general fund for the biennium ending June 30, 1985, the sum of one hundred thousand dollars, or so much thereof as may be necessary, for the purposes of section 2 of this act.
