On and after ((May 23, 1972)) July 1, 1984, the state department of ((civil-defense)) emergency services shall be known and designated as the department of emergency ((services)) management which shall administer the comprehensive emergency management program of ((civil-defense-in)) the state of Washington as provided for in this chapter. As used in this chapter:

(1) "Emergency ((services)) management" or "comprehensive emergency management" means the preparation for and the carrying out of all emergency functions, other than functions for which the military forces are primarily responsible, to ((minimize and repair injury and damage)) mitigate, prepare for, respond to, and recover from emergencies and disasters, and to aid victims suffering from injury or damage, resulting from disasters caused by ((enemy attack, sabotage, or other hostile action, or by fire, flood;
storm, earthquake, or other natural causes) all hazards, whether natural or man-made, and to provide support for search and rescue operations for persons and property in distress. However, "emergency management" or "comprehensive emergency management" does not mean preparation for emergency evacuation or relocation of residents in anticipation of nuclear attack. (These functions include, without limitation, fire fighting services, police services, medical and health services, rescue, engineering, air raid warning services, communications, radiological, chemical and other special weapons defense, evacuation of persons from stricken areas, emergency welfare services, emergency transportation, existing or properly assigned functions of plant protection, temporary restoration of public utility services and other functions related to civilian protection, together with all other activities necessary or incidental to the preparation and for carrying out of the foregoing functions:)

(2) "Local organization for emergency services or management" means an organization created in accordance with the provisions of this chapter by state or local authority to perform local emergency (services) management functions.

(6) "Injury" as used in this chapter shall mean and include accidental injuries and/or occupational diseases arising out of emergency (services) management activities.

(7) "Emergency or disaster" as used in this chapter shall mean (events, arising out of either enemy attack, sabotage, or other hostile action, or natural causes, which reach) an event or set of circumstances which: (a) Demands immediate action to preserve public health, protect life, protect public property, or to provide relief to any stricken community overtaken by such occurrences, or (b) reaches such a dimension or degree of destructiveness as to warrant the governor declaring a state of emergency pursuant to RCW 43.06.010.

(8) "Search and rescue" means the acts of searching for, rescuing, or recovering by means of ground, marine, or air activity any person who becomes lost, injured, or is killed while outdoors or as a result of a
natural or man-made disaster, including instances involving searches for

cy management as established by this chapter.

(10) "Local director" means the director of a local organization of

*Sec. 3. Section 2, chapter 178, Laws of 1951 as last amended by sec-
tion 2, chapter 268, Laws of 1979 ex. sess. and RCW 38.52.020 are each
amended to read as follows:

(1) Because of the existing and increasing possibility of the occurrence
of disasters of unprecedented size and destructiveness (resulting from en-
emy attack, sabotage or other hostile action, or from fire, flood, storm,
earthquake, or other natural causes) as defined in RCW 38.52.010(6), and
in order to insure that preparations of this state will be adequate to deal
with such disasters, to insure the administration of state and federal pro-
grams providing disaster relief to individuals, and further to insure adequate
support for search and rescue operations, and generally to (provide for the
common defense and to) protect the public peace, health, and safety, and
to preserve the lives and property of the people of the state, it is hereby
found and declared to be necessary:

(a) To create a state department of emergency (services) manage-
ment, and to authorize the creation of local organizations for emergency
(services) management in the political subdivisions of the state;

(b) To confer upon the governor and upon the executive heads of the
political subdivisions of the state the emergency powers provided herein;

(c) To provide for the rendering of mutual aid among the political
subdivisions of the state and with other states and to cooperate with the
federal government with respect to the carrying out of emergency (services)
management functions;

(d) To provide a means of compensating emergency (services) man-
agement workers who may suffer any injury, as herein defined, or death;
who suffer economic harm including personal property damage or loss; or
who incur expenses for transportation, telephone or other methods of com-
unication, and the use of personal supplies as a result of participation in
emergency (services) management activities; and

(e) To provide programs, with intergovernmental cooperation, to edu-
cate and train the public to be prepared for emergencies.
(2) It is further declared to be the purpose of this chapter and the policy of the state that all emergency (services) management functions of this state and its political subdivisions be coordinated to the maximum extent with the comparable functions of the federal government including its various departments and agencies of other states and localities, and of private agencies of every type, to the end that the most effective preparation and use may be made of the nation's manpower, resources, and facilities for dealing with any disaster that may occur.

(3) The legislature also recognizes that the possibility of surviving a nuclear attack is extremely remote, and believes that planning for an emergency response in the event of a nuclear attack instills a false sense of security in our citizens that they will be protected if a nuclear attack occurs. It is the policy of the state that the emergency management functions of this state, and its political subdivisions, be used for dealing with disasters that may occur other than nuclear attack.

*Sec. 3 was partially vetoed, see message at end of chapter.

Sec. 4. Section 4, chapter 178, Laws of 1951 as last amended by section 3, chapter 113, Laws of 1975 1st ex. sess. and RCW 38.52.030 are each amended to read as follows:

(1) There is hereby created within the executive branch of the state government a department of emergency (services and a director of emergency services (hereinafter called the director) who shall be the head thereof) management. The department shall be headed by the director of emergency management. The director shall be appointed by the governor with the advice and consent of the senate; the director shall not hold any other state office; the director shall hold office (during) at the pleasure of the governor, and shall be compensated at the rate established by the (governor's advisory committee on salaries and wages) governor, subject to RCW 43.03.040.

(2) The director may employ such (technical, clerical, stenographic, and other) personnel and may make such expenditures within the appropriation therefor, or from other funds made available for purposes of emergency (services) management, as may be necessary to carry out the purposes of this chapter.

(3) (The director and other personnel of the department shall be provided with appropriate office space, furniture, equipment, supplies, stationery, and printing in the same manner as provided for personnel of other state agencies:

(4)) The director, subject to the direction and control of the governor, shall be the executive head of the department and shall be responsible to the governor for carrying out the program for emergency (services) management of this state. The director shall coordinate the activities of all organizations for emergency (services) management within the state, and shall
maintain liaison with and cooperate with emergency services management agencies and organizations of other states and of the federal government, and shall have such additional authority, duties, and responsibilities authorized by this chapter, as may be prescribed by the governor.

((5))) (4) The director shall develop and maintain a comprehensive, all-hazard emergency plan for the state which shall include an analysis of the natural and man-caused hazards which could affect the state of Washington, and shall include the procedures to be used during emergencies for coordinating local resources, as necessary, and the resources of all state agencies, departments, commissions, and boards. The comprehensive, all-hazard emergency plan authorized under this subsection may not include preparation for emergency evacuation or relocation of residents in anticipation of nuclear attack. This plan shall be known as the comprehensive emergency management plan.

(5) In accordance with the comprehensive emergency management plans and the programs for the emergency management of this state, the director shall procure supplies and equipment, institute training programs and public information programs, and shall take all other preparatory steps, including the partial or full mobilization of emergency management organizations in advance of actual disaster, to insure the furnishing of adequately trained and equipped forces of emergency management personnel in time of need.

(6) The director shall make such studies and surveys of the industries, resources, and facilities in this state as may be necessary to ascertain the capabilities of the state for emergency management, and shall plan for the most efficient emergency use thereof.

(7) The director may appoint a communications coordinating committee consisting of six to eight persons with the director, or his designee, as chairman thereof. Three of the members shall be appointed from qualified, trained and experienced telephone communications administrators or engineers actively engaged in such work within the state of Washington at the time of appointment, and three of the members shall be appointed from qualified, trained and experienced radio communication administrators or engineers actively engaged in such work within the state of Washington at the time of appointment. This committee shall advise the director on all aspects of the communications and warning systems and facilities operated or controlled under the provisions of this chapter.

((6))) (8) The director shall appoint a state coordinator of search and rescue operations, who shall coordinate those state resources, services and
facilities (other than those for which the state director of aeronautics is directly responsible) requested by political subdivisions in support of search and rescue operations, and who shall on request maintain liaison with and coordinate the resources, services, and facilities of political subdivisions when more than one political subdivision is engaged in joint search and rescue operations.

The director, subject to the direction and control of the governor, shall prepare and administer a state program for emergency assistance to individuals within the state who are victims of a natural or man-made disaster (caused by enemy attack, sabotage, or other hostile action; or by fire, flood, storms, earthquake, or other natural causes), as defined by RCW 38.52.010(6). Such program may be integrated into and coordinated with disaster assistance plans and programs of the federal government which provide to the state, or through the state to any political subdivision thereof, services, equipment, supplies, materials, or funds by way of gift, grant, or loan for purposes of assistance to individuals affected by a disaster. Further, such program may include, but shall not be limited to, grants, loans, or gifts of services, equipment, supplies, materials, or funds of the state, or any political subdivision thereof, to individuals who, as a result of a disaster, are in need of assistance and who meet standards of eligibility for disaster assistance established by the department of social and health services: PROVIDED, HOWEVER, That nothing herein shall be construed in any manner inconsistent with the provisions of Article VIII, section 5 or section 7 of the Washington state Constitution.

Sec. 5. Section 5, chapter 178, Laws of 1951 as last amended by section 8, chapter 57, Laws of 1979 ex. sess. and RCW 38.52.040 are each amended to read as follows:

There is hereby created the emergency management council (hereinafter called the council), to consist of not less than seven nor more than fifteen members who shall be appointed by the governor. The council shall advise the governor and the director on all matters pertaining to emergency management. The membership of the council shall include, but not be limited to, representatives of city and county governments, sheriffs and police chiefs, local emergency management directors, search and rescue volunteers, medical professions who have expertise in emergency medical care, private industry, and local fire chiefs. The council members shall elect a chairman from within the council membership. The members of the council shall serve without compensation, but may be reimbursed for their travel expenses incurred in the performance of their duties in accordance with RCW 43.03.050 and 43.03.060 as now existing or hereafter amended.

(1) The governor, through the director, shall have general supervision and control of the department of emergency ((services)) management, and shall be responsible for the carrying out of the provisions of this chapter, and in the event of disaster beyond local control, may assume direct operational control over all or any part of the emergency ((services)) management functions within this state.

(3) In performing his duties under this chapter and to effect its policy and purpose, the governor is further authorized and empowered:

(a) To make, amend, and rescind the necessary orders, rules, and regulations to carry out the provisions of this chapter within the limits of the authority conferred upon him herein, with due consideration of the plans of the federal government; ((copies of all of such rules, regulations and orders shall upon their issuance forthwith be transmitted to the auditors of the respective counties for filing in their offices and a separate file and a separate index shall be maintained therefor;)

Sec. 7. Section 8, chapter 178, Laws of 1951 as amended by section 9, chapter 171, Laws of 1974 ex. sess. and RCW 38.52.070 are each amended to read as follows:

(1) Each political subdivision of this state is hereby authorized and directed to establish a local organization for emergency (services) management in accordance with the state emergency (services) management plan and program: PROVIDED, That a political subdivision proposing such establishment shall submit its plan and program for emergency (services) management to the state director of emergency (services) management and secure his recommendations thereon, and certification for consistency with the state comprehensive emergency management plan, in order that the plan of the local organization for emergency (services) management may be coordinated with the plan and program of the state. No political subdivision may be required to include in its plan provisions for the emergency evacuation or relocation of residents in anticipation of nuclear attack. If the director's recommendations are adverse to the plan as submitted, and, if the local organization does not agree to the director's recommendations for modification to the proposal, the matter shall be referred to the council for final action. The director of emergency (services) management may authorize two or more political subdivisions to join in the establishment and
operation of a local organization for emergency (services) management as circumstances may warrant, in which case each political subdivision shall contribute to the cost of emergency (services) management upon such fair and equitable basis as may be determined upon by the executive heads of the constituent subdivisions. If in any case the executive heads cannot agree upon the proper division of cost the matter shall be referred to the council for arbitration and its decision shall be final. When two or more political subdivisions join in the establishment and operation of a local organization for emergency (services) management each shall pay its share of the cost into a special pooled fund to be administered by the treasurer of the most populous subdivision, which fund shall be known as the emergency (services) management fund. Each local organization for emergency (services) management shall have a director who shall be appointed by the executive head of the political subdivision, and who shall have direct responsibility for the organization, administration, and operation of such local organization for emergency (services) management, subject to the direction and control of such executive officer or officers. In the case of a jointly established and operated organization for emergency (services) management, the director shall be appointed by the joint action of the executive heads of the constituent political subdivisions. (As used in this chapter, the term "executive head" and "executive heads" mean, in the case of counties, the board of county commissioners and, in the case of cities and towns, the mayor.) Each local organization for emergency (services) management shall perform emergency (services) management functions within the territorial limits of the political subdivision within which it is organized, and, in addition, shall conduct such functions outside of such territorial limits as may be required pursuant to the provisions of this chapter.

(2) In carrying out the provisions of this chapter each political subdivision, in which any disaster as described in RCW 38.52.020 occurs, shall have the power to enter into contracts and incur obligations necessary to combat such disaster, protecting the health and safety of persons and property, and providing emergency assistance to the victims of such disaster. Each political subdivision is authorized to exercise the powers vested under this section in the light of the exigencies of an extreme emergency situation without regard to time-consuming procedures and formalities prescribed by law (excepting mandatory constitutional requirements), including, but not limited to, budget law limitations, requirements of competitive bidding and publication of notices, provisions pertaining to the performance of public work, entering into contracts, the incurring of obligations, the employment of temporary workers, the rental of equipment, the purchase of supplies and materials, the levying of taxes, and the appropriation and expenditures of public funds.
Sec. 8. Section 9, chapter 178, Laws of 1951 as amended by section 10, chapter 171, Laws of 1974 ex. sess. and RCW 38.52.080 are each amended to read as follows:

(1) Whenever the employees of any political subdivision are rendering outside aid pursuant to the authority contained in RCW 38.52.070 such employees shall have the same powers, duties, rights, privileges, and immunities as if they were performing their duties in the political subdivisions in which they are normally employed.

(2) The political subdivision in which any equipment is used pursuant to this section shall be liable for any loss or damage thereto and shall pay any expense incurred in the operation and maintenance thereof. No claim for such loss, damage, or expense shall be allowed unless, within sixty days after the same is sustained or incurred, an itemized notice of such claim under oath is served by mail or otherwise upon the executive head of such political subdivision where the equipment was used. The term "employee" as used in this section shall mean, and the provisions of this section shall apply with equal effect to, volunteer auxiliary employees, and emergency ((services)) workers.

(3) The foregoing rights, privileges, and obligations shall also apply in the event such aid is rendered outside the state, provided that payment or reimbursement in such case shall or may be made by the state or political subdivision receiving such aid pursuant to a reciprocal mutual aid agreement or compact with such state or by the federal government.

Sec. 9. Section 10, chapter 178, Laws of 1951 as amended by section 11, chapter 171, Laws of 1974 ex. sess. and RCW 38.52.090 are each amended to read as follows:

(1) The director of each local organization for emergency ((services)) management may, in collaboration with other public and private agencies within this state, develop or cause to be developed mutual aid arrangements for reciprocal emergency ((services)) management aid and assistance in case of disaster too great to be dealt with unassisted. Such arrangements shall be consistent with the state emergency ((services)) management plan and program, and in time of emergency it shall be the duty of each local organization for emergency ((services)) management to render assistance in accordance with the provisions of such mutual aid arrangements. The director of the department of emergency management shall adopt and distribute a standard form of contract for use by local organizations in understanding and carrying out said mutual aid arrangements.

(2) The director of the department of emergency management and the director of each local organization for emergency ((services)) management may, subject to the approval of the governor, enter into mutual aid arrangements with emergency ((services)) management agencies or organizations in other states for reciprocal emergency ((services)) management aid and assistance in case of disaster too great to be dealt with unassisted((and
in furtherance thereof the following interstate civil defense and disaster compact is hereby approved, ratified, adopted, entered into, and enacted by the state of Washington). All such arrangements shall be pursuant to either of the compacts contained in subsection (2) (a) or (b) of this section.

(a) The legislature recognizes that the compact language contained in this subsection is inadequate to meet many forms of emergencies. For this reason, after the effective date of this 1984 act, the state may not enter into any additional compacts under this subsection (2)(a).

INTERSTATE CIVIL DEFENSE AND DISASTER COMPACT

The contracting States solemnly agree:

Article 1. The purpose of this compact is to provide mutual aid among the States in meeting any emergency or disaster from enemy attack or other cause (natural or otherwise) including sabotage and subversive acts and direct attacks by bombs, shelling, and atomic, radiological, chemical, bacteriological means, and other weapons. The prompt, full and effective utilization of the resources of the respective States, including such resources as may be available from the United States Government or any other source, are essential to the safety, care and welfare of the people thereof in the event of enemy action or other emergency, and any other resources, including personnel, equipment or supplies, shall be incorporated into a plan or plans of mutual aid to be developed among the civil defense agencies or similar bodies of the States that are parties hereto. The Directors of Civil Defense (Emergency Services) of all party States shall constitute a committee to formulate plans and take all necessary steps for the implementation of this compact.

Article 2. It shall be the duty of each party State to formulate civil defense plans and programs for application within such State. There shall be frequent consultation between the representatives of the States and with the United States Government and the free exchange of information and plans, including inventories of any materials and equipment available for civil defense. In carrying out such civil defense plans and programs the party States shall so far as possible provide and follow uniform standards, practices and rules and regulations including:

(a) Insignia, arm bands and any other distinctive articles to designate and distinguish the different civil defense services;

(b) Blackouts and practice blackouts, air raid drills, mobilization of civil defense forces and other tests and exercises;

(c) Warnings and signals for drills or attacks and the mechanical devices to be used in connection therewith;

(d) The effective screening or extinguishing of all lights and lighting devices and appliances;

(e) Shutting off water mains, gas mains, electric power connections and the suspension of all other utility services;
(f) All materials or equipment used or to be used for civil defense purposes in order to assure that such materials and equipment will be easily and freely interchangeable when used in or by any other party State;

(g) The conduct of civilians and the movement and cessation of movement of pedestrians and vehicular traffic, prior, during, and subsequent to drills or attacks;

(h) The safety of public meetings or gatherings; and

(i) Mobile support units.

Article 3. Any party State requested to render mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms hereof; provided that it is understood that the State rendering aid may withhold resources to the extent necessary to provide reasonable protection for such State. Each party State shall extend to the civil defense forces of any other party State, while operating within its State limits under the terms and conditions of this compact, the same powers (except that of arrest unless specifically authorized by the receiving State), duties, rights, privileges and immunities as if they were performing their duties in the State in which normally employed or rendering services. Civil defense forces will continue under the command and control of their regular leaders but the organizational units will come under the operational control of the civil defense authorities of the State receiving assistance.

Article 4. Whenever any person holds a license, certificate or other permit issued by any State evidencing the meeting of qualifications for professional, mechanical or other skills, such person may render aid involving such skill in any party State to meet an emergency or disaster and such State shall give due recognition to such license, certificate or other permit as if issued in the State in which aid is rendered.

Article 5. No party State or its officers or employees rendering aid in another State pursuant to this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged, or on account of the maintenance or use of any equipment or supplies in connection therewith.

Article 6. Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two or more states may differ from that appropriate among other States party hereto, this instrument contains elements of a broad base common to all States, and nothing herein contained shall preclude any State from entering into supplementary agreements with another State or States. Such supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons, and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel, equipment and supplies.
Article 7. Each party State shall provide for the payment of compensation and death benefits to injured members of the civil defense forces of that State and the representatives of deceased members of such forces in case such members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such State.

Article 8. Any party State rendering aid in another State pursuant to this compact shall be reimbursed by the party State receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost incurred in connection with such requests; provided, that any aiding State may assume in whole or in part such loss, damage, expense, or other cost, or may loan such equipment or donate such services to the receiving party State without charge or cost; and provided further that any two or more party States may enter into supplementary agreements establishing a different allocation of costs as among those States. The United States Government may relieve the party State receiving aid from any liability and reimburse the party State supplying civil defense forces for the compensation paid to and the transportation, subsistence and maintenance expenses of such forces during the time of the rendition of such aid or assistance outside the State and may also pay fair and reasonable compensation for the use or utilization of the supplies, materials, equipment or facilities so utilized or consumed.

Article 9. Plans for the orderly evacuation and reception of the civilian population as the result of an emergency or disaster shall be worked out from time to time between representatives of the party States and the various local civil defense areas thereof. Such plans shall include the manner of transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing, and medical care will be provided, the registration of the evacuees, the providing of facilities for the notification of relatives or friends and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies, and all other relevant factors. Such plans shall provide that the party State receiving evacuees shall be reimbursed generally for the out-of-pocket expenses incurred in receiving and caring for such evacuees, for expenditures for transportation, food, clothing, medicines and medical care and like items. Such expenditures shall be reimbursed by the party State of which the evacuees are residents, or by the United States Government under plans approved by it. After the termination of the emergency or disaster the party State of which the evacuees are resident shall assume the responsibility for the ultimate support or repatriation of such evacuees.

Article 10. This compact shall be available to any State, territory or possession of the United States, and the District of Columbia. The term "State" may also include any neighboring foreign country or province or state thereof.
Article 11. The committee established pursuant to Article 1 of this compact may request the Civil Defense Agency of the United States Government to act as an informational and coordinating body under this compact, and representatives of such agency of the United States Government may attend meetings of such committee.

Article 12. This compact shall become operative immediately upon its ratification by any State as between it and any other State or States so ratifying and shall be subject to approval by Congress unless prior Congressional approval has been given. Duly authenticated copies of this compact and of such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the party States and with the Civil Defense Agency and other appropriate agencies of the United States Government.

Article 13. This compact shall continue in force and remain binding on each party State until the legislature or the Governor of such party State takes action to withdraw therefrom. Such action shall not be effective until 30 days after notice thereof has been sent by the Governor of the party State desiring to withdraw to the Governors of all other party States.

Article 14. This compact shall be construed to effectuate the purposes stated in Article 1 hereof. If any provision of this compact is declared unconstitutional, or the applicability thereof to any person or circumstance is held invalid, the constitutionality of the remainder of this compact and the applicability thereof to other persons and circumstances shall not be effected thereby.

Article 15. (a) This Article shall be in effect only as among those states which have enacted it into law or in which the Governors have adopted it pursuant to constitutional or statutory authority sufficient to give it the force of law as part of this compact. Nothing contained in this Article or in any supplementary agreement made in implementation thereof shall be construed to abridge, impair or supersede any other provision of this compact or any obligation undertaken by a State pursuant thereto, except that if its terms so provide, a supplementary agreement in implementation of this Article may modify, expand or add to any such obligation as among the parties to the supplementary agreement.

(b) In addition to the occurrences, circumstances and subject matters to which preceding articles of this compact make it applicable, this compact and the authorizations, entitlements and procedures thereof shall apply to:

1. Searches for and rescue of person who are lost, marooned, or otherwise in danger.

2. Action useful in coping with disasters arising from any cause or designed to increase the capability to cope with any such disasters.

3. Incidents, or the imminence thereof, which endanger the health or safety of the public and which require the use of special equipment, trained
personnel or personnel in larger numbers than are locally available in order to reduce, counteract or remove the danger.

4. The giving and receiving of aid by subdivisions of party States.

INTERSTATE MUTUAL AID COMPACT

Purpose

The purpose of this Compact is to provide voluntary assistance among participating states in responding to any disaster or imminent disaster, that overextends the ability of local and state governments to reduce, counteract or remove the danger. Assistance may include, but not be limited to, rescue, fire, police, medical, communication, transportation services and facilities to cope with problems which require use of special equipment, trained personnel or personnel in large numbers not locally available.

Authorization

Article I, Section 10 of the Constitution of the United States permits a state to enter into an agreement or compact with another state, subject to the consent of Congress. Congress, through enactment of Title 50 U.S.C. Sections 2281(g), 2283 and the Executive Department, by issuance of Executive Orders No. 10186 of December 1, 1950, encourages the states to enter into emergency, disaster and civil defense mutual aid agreements or pacts.

Implementation

It is agreed by participating states that the following conditions will guide implementation of the Compact:

1. Participating states through their designated officials are authorized to request and to receive assistance from a participating state. Requests will be granted only if the requesting state is committed to the mitigation of the emergency, and other resources are not immediately available.
2. Requests for assistance may be verbal or in writing. If the request is made by other than written communication, it shall be confirmed in writing as soon as practical after the request. A written request shall provide an itemization of equipment and operators, types of expertise, personnel or other resources needed. Each request must be signed by an authorized official.

3. Personnel and equipment of the aiding party made available to the requesting party shall, whenever possible, remain under the control and direction of the aiding party. The activities of personnel and equipment of the aiding party must be coordinated by the requesting party.

4. An aiding state shall have the right to withdraw some or all of their personnel and/or equipment whenever the personnel or equipment are needed by that state. Notice of intention to withdraw should be communicated to the requesting party as soon as possible.

General Fiscal Provisions
The state government of the requesting party shall reimburse the state government of the aiding party. It is understood that reimbursement shall be made as soon as possible after the receipt by the requesting party of an itemized voucher requesting reimbursement of costs.

1. Any party rendering aid pursuant to this Agreement shall be reimbursed by the state receiving such aid for any damage to, loss of, or expense incurred in the operation of any equipment used in responding to a request for aid, and for the cost incurred in connection with such requests.

2. Any state rendering aid pursuant to this Agreement shall be reimbursed by the state receiving such aid for the cost of payment of compensation and death benefits to injured officers, agents, or employees and their dependents or representatives in the event such officers, agents, or employees sustain injuries or are killed while rendering aid pursuant to this arrangement, provided that such payments are made in the same manner and on the same terms as if the injury or death were sustained within such state.

Privileges and Immunities
1. All privileges and immunities from liability, exemptions from law, ordinances, rules, all pension, relief disability, workmen's compensation, and other benefits which apply to the activity of officers, agents, or employees when performing their respective functions within the territorial limits of their respective political subdivisions, shall apply to them to the same degree and extent while engaged in the performance of any of their functions and duties extra-territorially under the provisions of this Agreement.

2. All privileges and immunities from liability, exemptions from law, ordinances, and rules, workmen's compensation and other benefits which apply to duly enrolled or registered volunteers when performing their respective functions at the request of their state and within its territorial limits, shall apply to the same degree and extent while performing their
functions extra-territorially under the provisions of this Agreement. Volunteers may include, but not be limited to, physicians, surgeons, nurses, dentists, structural engineers, and trained search and rescue volunteers.

3. The signatory states, their political subdivisions, municipal corporations and other public agencies shall hold harmless the corresponding entities and personnel thereof from the other state with respect to the acts and omissions of its own agents and employees that occur while providing assistance pursuant to the common plan.

4. Nothing in this arrangement shall be construed as repealing or impairing any existing Interstate Mutual Aid Agreements.

5. Upon enactment of this Agreement by two or more states, and by January 1, annually thereafter, the participating states will exchange with each other the names of officials designated to request and/or provide services under this arrangement. In accordance with the cooperative nature of this arrangement, it shall be permissible and desirable for the parties to exchange operational procedures to be followed in requesting assistance and reimbursing expenses.

6. This compact shall enter into force and become effective and binding upon the states so acting when it has been enacted into law by any two states. Thereafter, this compact shall enter into force and become effective and binding as to any other of said states upon similar action by such state.

7. This compact shall continue in force and remain binding upon a party state until it shall have enacted a statute repealing the same and providing for the sending of formal written notice of withdrawal from the compact to the appropriate official of all other party states. An actual withdrawal shall not take effect until the thirtieth consecutive day after the notice provided in the statute has been sent. Such withdrawal shall not relieve the withdrawing state from its obligations assumed hereunder prior to the effective date of withdrawal.

the emergency (services) management of this state. Such plan may confer upon persons carrying out such plan any or all of the rights, powers, privileges and immunities granted employees or representatives of the state and/or its political subdivisions by this chapter. Approved by the Governor February 23, 1984, with the exception of section 3(3), which was vetoed.
Filed in Office of Secretary of State February 23, 1984.

Note: Governor’s explanation of partial veto is as follows:

"I am returning herewith, without my approval as to one section Substitute Senate Bill No. 4561, entitled:

"AN ACT Relating to emergency management."

Subsection 3 of section 3 ostensibly is intended as a broad policy statement in opposition to planning for emergency response in the event of nuclear attack. Unfortunately, as drafted, the subsection could be construed to prohibit the use of emergency management functions in response to a nuclear attack as distinct from merely planning for one.

The state of Washington is responsible for the protection of the lives and property of its citizens. This responsibility is expressed in our state and national Constitutions and outlined in state and Federal laws. Although a nuclear attack would be a nightmare, one which would make all other calamities man has suffered seem small, state government is obligated to save as many lives as possible, and it is immoral to prevent government from doing all that it can to save lives and reduce suffering. The section which I am vetoing would shackle the hands of state agencies in responding to the massive human suffering following an attack. Although there may be little that government can do, it cannot stand by and watch citizens suffer if there are state resources that can be used to provide them some relief.

Although possible scenarios for a nuclear war can be debated, the fact remains that no one can guarantee that our entire population will be lost in an attack. As long as any of our citizens remain alive, they are entitled to the protection and services of the state. If at all possible, food, water, relief from pain, and shelter must be provided to those in need.
Therefore, I have vetoed section 3(3). The remainder of Substitute Senate Bill No. 4561 is approved.

CHAPTER 39
[Senate Bill No. 4475]
MOTOR VEHICLE TITLE AND REGISTRATION TRANSFERS

AN ACT Relating to motor vehicle title and registration transfers; amending section 7, chapter 140, Laws of 1967 as last amended by section 1, chapter 99, Laws of 1972 ex. sess. and RCW 46.12.101; adding a new section to chapter 46.12 RCW; and prescribing penalties.

Be it enacted by the Legislature of the State of Washington:

Sec. 1. Section 7, chapter 140, Laws of 1967 as last amended by section 1, chapter 99, Laws of 1972 ex. sess. and RCW 46.12.101 are each amended to read as follows:

A transfer of ownership in a motor vehicle is perfected by compliance with the requirements of this section.

(1) If an owner transfers his interest in a vehicle, other than by the creation of a security interest, he shall, at the time of the delivery of the vehicle, execute an assignment to the transferee and inscribe in ink the number of miles indicated on the odometer in the respective spaces provided therefor on the certificate or as the department prescribes, and cause the certificate and assignment to be transmitted to the transferee. Within five days the owner shall notify the department of the sale or transfer giving the date thereof, the name and address of the owner and of the transferee, and such description of the vehicle as may be required in the appropriate form provided for that purpose by the department.

(2) Except as provided in RCW 46.12.120 the transferee shall within fifteen days after delivery to him of the vehicle, execute the application for a new certificate of ownership in the same space provided therefor on the certificate or as the department prescribes, and cause the certificates and application to be transmitted to the department.

(3) Upon request of the owner or transferee, a secured party in possession of the certificate of ownership shall, unless the transfer was a breach of its security agreement, either deliver the certificate to the transferee for transmission to the department or, when the secured party receives the owner's assignment from the transferee, it shall transmit the transferee's application for a new certificate, the existing certificate, and the required fee to the department. Compliance with this section does not affect the rights of the secured party under his security agreement.

(4) If a security interest is reserved or created at the time of the transfer, the certificate of ownership shall be retained by or delivered to the person who becomes the secured party, and the parties shall comply with the provisions of RCW 46.12.170.
