Three of the members shall be appointed from qualified, trained and experienced telephone communications administrators or engineers actively engaged in such work within the state of Washington at the time of appointment, and three of the members shall be appointed from qualified, trained and experienced radio communication administrators or engineers actively engaged in such work within the state of Washington at the time of appointment. The director shall appoint a state coordinator of search and rescue operations to coordinate those state resources, services and facilities (other than those for which the state director of aeronautics is directly responsible) requested by political subdivisions in support of search and rescue operations, and on request to maintain liaison with and coordinate the resources, services, and facilities of political subdivisions when more than one political subdivision is engaged in joint search and rescue operations.

The director, subject to the direction and control of the governor, shall prepare and administer a state program for emergency assistance to individuals within the state who are victims of a natural or man-made disaster, as defined by RCW 38.52.010(6). Such program may be integrated into and coordinated with disaster assistance plans and programs of the federal government which provide to the state, or through the state to any political subdivision thereof, services, equipment, supplies, materials, or funds by way of gift, grant, or loan for purposes of assistance to individuals affected by a disaster. Further, such program may include, but shall not be limited to, grants, loans, or gifts of services, equipment, supplies, materials, or funds of the state, or any political subdivision thereof, to individuals who, as a result of a disaster, are in need of assistance and who meet standards of eligibility for disaster assistance established by the department of social and health services: PROVIDED, HOWEVER, That nothing herein shall be construed in any manner inconsistent with the provisions of Article VIII, section 5 or section 7 of the Washington state Constitution.

The director shall appoint a state coordinator for radioactive and hazardous waste emergency response programs. The coordinator shall consult with the state radiation control officer in matters relating to radioactive materials. The department ((of emergency management)) shall consult with appropriate local, state, federal, and private sector officials in developing a comprehensive state mine rescue plan. The plan shall identify mine rescue resources, set forth a framework for a coordinated response to mine rescue emergencies, identify shortfalls, and recommend solutions.

The draft of the comprehensive state mine rescue plan and a schedule for submittal of the final plan shall be submitted to the legislature on January 13, 1986.

Sec. 27. Section 6, chapter 178, Laws of 1951 as last amended by section 6, chapter 38, Laws of 1984 and RCW 38.52.050 are each amended to read as follows:

(1) The governor, through the director, shall have general supervision and control of the ((department of)) emergency management functions in the department, and shall be responsible for the carrying out of the provisions of this chapter, and in the event of disaster beyond local control, may assume direct operational control over all or any part of the emergency management functions within this state.

(2) In performing his or her duties under this chapter, the governor is authorized to cooperate with the federal government, with other states, and with private agencies in all matters pertaining to the emergency management of this state and of the nation.

(3) In performing his or her duties under this chapter and to effect its policy and purpose, the governor is further authorized and empowered:

(a) To make, amend, and rescind the necessary orders, rules, and regulations to carry out the provisions of this chapter within the limits of the authority conferred upon him herein, with due consideration of the plans of the federal government;

(b) On behalf of this state, to enter into mutual aid arrangements with other states and territories, or provinces of the Dominion of Canada and to coordinate mutual aid plans between political subdivisions of this state;

(c) To delegate any administrative authority vested in him under this chapter, and to provide for the subdelegation of any such authority;

(d) To appoint, with the advice of local authorities, metropolitan or regional area coordinators, or both, when practicable;

(e) To cooperate with the president and the heads of the armed forces, the emergency management agency of the United States, and other appropriate federal officers and agencies, and with the officers and agencies of other states in matters pertaining to the emergency management of the state and nation.

Sec. 28. Section 8, chapter 178, Laws of 1951 as last amended by section 7, chapter 38, Laws of 1984 and RCW 38.52.070 are each amended to read as follows:
Each political subdivision of this state is hereby authorized and directed to establish a local organization for emergency management in accordance with the state emergency management plan and program: PROVIDED, That a political subdivision proposing such establishment shall submit its plan and program for emergency management to the state director (of emergency management) and secure his or her recommendations thereon, and certification for consistency with the state comprehensive emergency management plan, in order that the plan of the local organization for emergency management may be coordinated with the plan and program of the state. No political subdivision may be required to include in its plan provisions for the emergency evacuation or relocation of residents in anticipation of nuclear attack. If the director's recommendations are adverse to the plan as submitted, and, if the local organization does not agree to the director's recommendations for modification to the proposal, the matter shall be referred to the council for final action. The director (of emergency management) may authorize two or more political subdivisions to join in the establishment and operation of a local organization for emergency management as circumstances may warrant, in which case each political subdivision shall contribute to the cost of emergency management upon such fair and equitable basis as may be determined upon by the executive heads of the constituent subdivisions. If in any case the executive heads cannot agree upon the proper division of cost the matter shall be referred to the council for arbitration and its decision shall be final. When two or more political subdivisions join in the establishment and operation of a local organization for emergency management each shall pay its share of the cost into a special pooled fund to be administered by the treasurer of the most populous subdivision, which fund shall be known as the emergency management fund. Each local organization for emergency management shall have a director who shall be appointed by the executive head of the political subdivision, and who shall have direct responsibility for the organization, administration, and operation of such local organization for emergency management, subject to the direction and control of such executive officer or officers. In the case of a jointly established and operated organization for emergency management, the director shall be appointed by the joint action of the executive heads of the constituent political subdivisions. Each local organization for emergency management shall perform emergency management functions within the territorial limits of the political subdivision within which it is organized, and, in addition, shall conduct such functions outside of such territorial limits as may be required pursuant to the provisions of this chapter.

In carrying out the provisions of this chapter each political subdivision, in which any disaster as described in RCW 38.52.020 occurs, shall have the power to enter into contracts and incur obligations necessary to
combat such disaster, protecting the health and safety of persons and property, and providing emergency assistance to the victims of such disaster. Each political subdivision is authorized to exercise the powers vested under this section in the light of the exigencies of an extreme emergency situation without regard to time-consuming procedures and formalities prescribed by law (excepting mandatory constitutional requirements), including, but not limited to, budget law limitations, requirements of competitive bidding and publication of notices, provisions pertaining to the performance of public work, entering into contracts, the incurring of obligations, the employment of temporary workers, the rental of equipment, the purchase of supplies and materials, the levying of taxes, and the appropriation and expenditures of public funds.

Sec. 29. Section 10, chapter 178, Laws of 1951 as last amended by section 9, chapter 38, Laws of 1984 and RCW 38.52.090 are each amended to read as follows:

(1) The director of each local organization for emergency management may, in collaboration with other public and private agencies within this state, develop or cause to be developed mutual aid arrangements for reciprocal emergency management aid and assistance in case of disaster too great to be dealt with unassisted. Such arrangements shall be consistent with the state emergency management plan and program, and in time of emergency it shall be the duty of each local organization for emergency management to render assistance in accordance with the provisions of such mutual aid arrangements. The director of community development shall adopt and distribute a standard form of contract for use by local organizations in understanding and carrying out said mutual aid arrangements.

(2) The director of community development and the director of each local organization for emergency management may, subject to the approval of the governor, enter into mutual aid arrangements with emergency management agencies or organizations in other states for reciprocal emergency management aid and assistance in case of disaster too great to be dealt with unassisted. All such arrangements shall be pursuant to either of the compacts contained in subsection (2) (a) or (b) of this section.

(a) The legislature recognizes that the compact language contained in this subsection is inadequate to meet many forms of emergencies. For this reason, after June 7, 1984, the state may not enter into any additional compacts under this subsection (2) (a).

INTERSTATE CIVIL DEFENSE AND DISASTER COMPACT

The contracting States solemnly agree:

Article I. The purpose of this compact is to provide mutual aid among the States in meeting any emergency or disaster from enemy attack or other
cause (natural or otherwise) including sabotage and subversive acts and direct attacks by bombs, shellfire, and atomic, radiological, chemical, bacteriological means, and other weapons. The prompt, full and effective utilization of the resources of the respective States, including such resources as may be available from the United States Government or any other source, are essential to the safety, care and welfare of the people thereof in the event of enemy action or other emergency, and any other resources, including personnel, equipment or supplies, shall be incorporated into a plan or plans of mutual aid to be developed among the civil defense agencies or similar bodies of the States that are parties hereto. The Directors of Civil Defense (Emergency Services) of all party States shall constitute a committee to formulate plans and take all necessary steps for the implementation of this compact.

Article 2. It shall be the duty of each party State to formulate civil defense plans and programs for application within such State. There shall be frequent consultation between the representatives of the States and with the United States Government and the free exchange of information and plans, including inventories of any materials and equipment available for civil defense. In carrying out such civil defense plans and programs the party States shall so far as possible provide and follow uniform standards, practices and rules and regulations including:

(a) Insignia, arm bands and any other distinctive articles to designate and distinguish the different civil defense services;
(b) Blackouts and practice blackouts, air raid drills, mobilization of civil defense forces and other tests and exercises;
(c) Warnings and signals for drills or attacks and the mechanical devices to be used in connection therewith;
(d) The effective screening or extinguishing of all lights and lighting devices and appliances;
(e) Shutting off water mains, gas mains, electric power connections and the suspension of all other utility services;
(f) All materials or equipment used or to be used for civil defense purposes in order to assure that such materials and equipment will be easily and freely interchangeable when used in or by any other party State;
(g) The conduct of civilians and the movement and cessation of movement of pedestrians and vehicular traffic, prior, during, and subsequent to drills or attacks;
(h) The safety of public meetings or gatherings; and
(i) Mobile support units.

Article 3. Any party State requested to render mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms hereof; provided that it is understood that the State rendering aid may withhold resources to the extent necessary to provide reasonable protection for such State. Each party
State shall extend to the civil defense forces of any other party State, while operating within its State limits under the terms and conditions of this compact, the same powers (except that of arrest unless specifically authorized by the receiving State), duties, rights, privileges and immunities as if they were performing their duties in the State in which normally employed or rendering services. Civil defense forces will continue under the command and control of their regular leaders but the organizational units will come under the operational control of the civil defense authorities of the State receiving assistance.

Article 4. Whenever any person holds a license, certificate or other permit issued by any State evidencing the meeting of qualifications for professional, mechanical or other skills, such person may render aid involving such skill in any party State to meet an emergency or disaster and such State shall give due recognition to such license, certificate or other permit as if issued in the State in which aid is rendered.

Article 5. No party State or its officers or employees rendering aid in another State pursuant to this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged, or on account of the maintenance or use of any equipment or supplies in connection therewith.

Article 6. Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two or more states may differ from that appropriate among other States party hereto, this instrument contains elements of a broad base common to all States, and nothing herein contained shall preclude any State from entering into supplementary agreements with another State or States. Such supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons, and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel, equipment and supplies.

Article 7. Each party State shall provide for the payment of compensation and death benefits to injured members of the civil defense forces of that State and the representatives of deceased members of such forces in case such members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such State.

Article 8. Any party State rendering aid in another State pursuant to this compact shall be reimbursed by the party State receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost incurred in connection with such requests; provided, that any aiding State may assume in whole or in part such loss, damage, expense, or other cost, or may loan such equipment or donate such services to the receiving party State without charge or cost; and provided further that any two or more party States may enter into
supplementary agreements establishing a different allocation of costs as among those States. The United States Government may relieve the party State receiving aid from any liability and reimburse the party State supplying civil defense forces for the compensation paid to and the transportation, subsistence and maintenance expenses of such forces during the time of the rendition of such aid or assistance outside the State and may also pay fair and reasonable compensation for the use or utilization of the supplies, materials, equipment or facilities so utilized or consumed.

Article 9. Plans for the orderly evacuation and reception of the civilian population as the result of an emergency or disaster shall be worked out from time to time between representatives of the party States and the various local civil defense areas thereof. Such plans shall include the manner of transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing, and medical care will be provided, the registration of the evacuees, the providing of facilities for the notification of relatives or friends and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies, and all other relevant factors. Such plans shall provide that the party State receiving evacuees shall be reimbursed generally for the out-of-pocket expenses incurred in receiving and caring for such evacuees, for expenditures for transportation, food, clothing, medicines and medical care and like items. Such expenditures shall be reimbursed by the party State of which the evacuees are residents, or by the United States Government under plans approved by it. After the termination of the emergency or disaster the party State of which the evacuees are resident shall assume the responsibility for the ultimate support or repatriation of such evacuees.

Article 10. This compact shall be available to any State, territory or possession of the United States, and the District of Columbia. The term "State" may also include any neighboring foreign country or province or state thereof.

Article 11. The committee established pursuant to Article 1 of this compact may request the Civil Defense Agency of the United States Government to act as an informational and coordinating body under this compact, and representatives of such agency of the United States Government may attend meetings of such committee.

Article 12. This compact shall become operative immediately upon its ratification by any State as between it and any other State or States so ratifying and shall be subject to approval by Congress unless prior Congressional approval has been given. Duly authenticated copies of this compact and of such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the party States and with the Civil Defense Agency and other appropriate agencies of the United States Government.
Article 13. This compact shall continue in force and remain binding on each party State until the legislature or the Governor of such party State takes action to withdraw therefrom. Such action shall not be effective until 30 days after notice thereof has been sent by the Governor of the party State desiring to withdraw to the Governors of all other party States.

Article 14. This compact shall be construed to effectuate the purposes stated in Article 1 hereof. If any provision of this compact is declared unconstitutional, or the applicability thereof to any person or circumstance is held invalid, the constitutionality of the remainder of this compact and the applicability thereof to other persons and circumstances shall not be effected thereby.

Article 15. (a) This Article shall be in effect only as among those states which have enacted it into law or in which the Governors have adopted it pursuant to constitutional or statutory authority sufficient to give it the force of law as part of this compact. Nothing contained in this Article or in any supplementary agreement made in implementation thereof shall be construed to abridge, impair or supersede any other provision of this compact or any obligation undertaken by a State pursuant thereto, except that if its terms so provide, a supplementary agreement in implementation of this Article may modify, expand or add to any such obligation as among the parties to the supplementary agreement.

(b) In addition to the occurrences, circumstances and subject matters to which preceding articles of this compact make it applicable, this compact and the authorizations, entitlements and procedures thereof shall apply to:

1. Searches for and rescue of person who are lost, marooned, or otherwise in danger.

2. Action useful in coping with disasters arising from any cause or designed to increase the capability to cope with any such disasters.

3. Incidents, or the imminence thereof, which endanger the health or safety of the public and which require the use of special equipment, trained personnel or personnel in larger numbers than are locally available in order to reduce, counteract or remove the danger.

4. The giving and receiving of aid by subdivisions of party States.

5. Exercises, drills or other training or practice activities designed to aid personnel to prepare for, cope with or prevent any disaster or other emergency to which this compact applies.

(c) Except as expressly limited by this compact or a supplementary agreement in force pursuant thereto, any aid authorized by this compact or such supplementary agreement may be furnished by any agency of a party State, a subdivision of such State, or by a joint agency providing such aid shall be entitled to reimbursement therefor to the same extent and in the same manner as a State. The personnel of such a joint agency, when rendering aid pursuant to this compact shall have the same rights, authority and immunity as personnel of party States.
(d) Nothing in this Article shall be construed to exclude from the coverage of Articles 1-15 of this compact any matter which, in the absence of this Article, could reasonably be construed to be covered thereby.

(b) The compact language contained in this subsection (2)(b) is intended to deal comprehensively with emergencies requiring assistance from other states.

INTERSTATE MUTUAL AID COMPACT

Purpose

The purpose of this Compact is to provide voluntary assistance among participating states in responding to any disaster or imminent disaster, that over extends the ability of local and state governments to reduce, counteract or remove the danger. Assistance may include, but not be limited to, rescue, fire, police, medical, communication, transportation services and facilities to cope with problems which require use of special equipment, trained personnel or personnel in large numbers not locally available.

Authorization

Article I, Section 10 of the Constitution of the United States permits a state to enter into an agreement or compact with another state, subject to the consent of Congress. Congress, through enactment of Title 50 U.S.C. Sections 2281(g), 2283 and the Executive Department, by issuance of Executive Orders No. 10186 of December 1, 1950, encourages the states to enter into emergency, disaster and civil defense mutual aid agreements or pacts.

Implementation

It is agreed by participating states that the following conditions will guide implementation of the Compact:

1. Participating states through their designated officials are authorized to request and to receive assistance from a participating state. Requests will be granted only if the requesting state is committed to the mitigation of the emergency, and other resources are not immediately available.

2. Requests for assistance may be verbal or in writing. If the request is made by other than written communication, it shall be confirmed in writing as soon as practical after the request. A written request shall provide an itemization of equipment and operators, types of expertise, personnel or other resources needed. Each request must be signed by an authorized official.

3. Personnel and equipment of the aiding party made available to the requesting party shall, whenever possible, remain under the control and direction of the aiding party. The activities of personnel and equipment of the aiding party must be coordinated by the requesting party.

4. An aiding state shall have the right to withdraw some or all of their personnel and/or equipment whenever the personnel or equipment are
needed by that state. Notice of intention to withdraw should be communicated to the requesting party as soon as possible.

**General Fiscal Provisions**

The state government of the requesting party shall reimburse the state government of the aiding party. It is understood that reimbursement shall be made as soon as possible after the receipt by the requesting party of an itemized voucher requesting reimbursement of costs.

1. Any party rendering aid pursuant to this Agreement shall be reimbursed by the state receiving such aid for any damage to, loss of, or expense incurred in the operation of any equipment used in responding to a request for aid, and for the cost incurred in connection with such requests.

2. Any state rendering aid pursuant to this Agreement shall be reimbursed by the state receiving such aid for the cost of payment of compensation and death benefits to injured officers, agents, or employees and their dependents or representatives in the event such officers, agents, or employees sustain injuries or are killed while rendering aid pursuant to this arrangement, provided that such payments are made in the same manner and on the same terms as if the injury or death were sustained within such state.

**Privileges and Immunities**

1. All privileges and immunities from liability, exemptions from law, ordinances, rules, all pension, relief disability, workmen’s compensation, and other benefits which apply to the activity of officers, agents, or employees when performing their respective functions within the territorial limits of their respective political subdivisions, shall apply to them to the same degree and extent while engaged in the performance of any of their functions and duties extra-territorially under the provisions of this Agreement.

2. All privileges and immunities from liability, exemptions from law, ordinances, and rules, workmen's compensation and other benefits which apply to duly enrolled or registered volunteers when performing their respective functions at the request of their state and within its territorial limits, shall apply to them to the same degree and extent while performing their functions extra-territorially under the provisions of this Agreement. Volunteers may include, but not be limited to, physicians, surgeons, nurses, dentists, structural engineers, and trained search and rescue volunteers.

3. The signatory states, their political subdivisions, municipal corporations and other public agencies shall hold harmless the corresponding entities and personnel thereof from the other state with respect to the acts and omissions of its own agents and employees that occur while providing assistance pursuant to the common plan.

4. Nothing in this arrangement shall be construed as repealing or impairing any existing Interstate Mutual Aid Agreements.

5. Upon enactment of this Agreement by two or more states, and by January 1, annually thereafter, the participating states will exchange with
each other the names of officials designated to request and/or provide services under this arrangement. In accordance with the cooperative nature of this arrangement, it shall be permissible and desirable for the parties to exchange operational procedures to be followed in requesting assistance and reimbursing expenses.

6. This compact shall enter into force and become effective and binding upon the states so acting when it has been enacted into law by any two states. Thereafter, this compact shall enter into force and become effective and binding as to any other of said states upon similar action by such state.

7. This compact shall continue in force and remain binding upon a party state until it shall have enacted a statute repealing the same and providing for the sending of formal written notice of withdrawal from the compact to the appropriate official of all other party states. An actual withdrawal shall not take effect until the thirtieth consecutive day after the notice provided in the statute has been sent. Such withdrawal shall not relieve the withdrawing state from its obligations assumed hereunder prior to the effective date of withdrawal.

Sec. 30. Section 20, chapter 178, Laws of 1951 as last amended by section 16, chapter 38, Laws of 1984 and RCW 38.52.170 are each amended to read as follows:

Whenever the ((sate)) director ((of emergency management)) finds that it will be in the interest of the emergency management of this state or of the United States, ((he)) the director may, with the approval of the governor, agree with the federal government, or any agency thereof carrying on activities within this state, upon a plan of emergency management applicable to a federally owned area, which plan may or may not conform to all of the other provisions of this chapter with the view to integrating federally owned areas into the comprehensive plan and program of the emergency management of this state. Such plan may confer upon persons carrying out such plan any or all of the rights, powers, privileges and immunities granted employees or representatives of the state and/or its political subdivisions by this chapter. The plan of emergency management authorized under this section may not include preparation for emergency evacuation or relocation of residents in anticipation of nuclear attack.

The director ((of the state department of emergency management)), with the approval of the attorney general, may consider, ascertain, adjust, determine, compromise and settle property loss or damage claims arising out of conduct or circumstances for which the state of Washington would be liable in law for money damages of two thousand dollars or less. The acceptance by the claimant of any such award, compromise, or settlement shall be final and conclusive on the claimant; and upon the state of
Washington, unless procured by fraud, and shall constitute a complete release of any claim against the state of Washington. A request for administrative settlement shall not preclude a claimant from filing court action pending administrative determination, or limit the amount recoverable in such a suit, or constitute an admission against interest of either the claimant or the state.

Sec. 32. Section 4, chapter 223, Laws of 1953 as last amended by section 23, chapter 38, Laws of 1984 and RCW 38.52.210 are each amended to read as follows:

The compensation board shall be composed of: (a) The county executive if the county has an elected county executive or, if it does not, one member of the county legislative authority selected by the authority. The executive or the member will serve as the chair of the compensation board; (b) the county director of emergency services; (c) the prosecuting attorney; (d) the emergency services coordinator for medical and health services; and (e) the county auditor who will serve as secretary of the compensation board.

(2) In each local organization for emergency management established by cities and towns in accordance with RCW 38.52.070, there is hereby created and established a compensation board for the processing of claims as provided in this chapter. The councilmember or commissioner so selected shall serve as the chair of the compensation board and the city director of emergency management shall serve as secretary of the board.

The compensation board shall hear and decide all applications for compensation under this chapter. The board shall submit its recommendations to the director ((of the department of emergency management)) on such forms as he or she may prescribe. In case the decision of the director is different from the recommendation of the compensation board, the matter shall be submitted to the state emergency management council for action.

Sec. 34. Section 8, chapter 223, Laws of 1953 as last amended by section 26, chapter 38, Laws of 1984 and RCW 38.52.250 are each amended to read as follows:
A majority of the compensation board shall constitute a quorum, and no business shall be transacted when a majority is not present, and no claim shall be allowed when a majority of the board has not voted favorably thereon.

The board shall send a copy of the minutes of all meetings to the department (of emergency management) with copies of all material pertaining to each claim submitted and noting the action of the board on each claim. Appeals may be made by the emergency worker from any action by the board within one year by writing to the department (of emergency management).

Sec. 37. Section 16, chapter 223, Laws of 1953 as last amended by section 33, chapter 38, Laws of 1984 and RCW 38.52.320 are each amended to read as follows:

The department (of emergency management) shall provide each compensation board with the approved maximum schedule of payments for injury or death prescribed in chapter 51.32 RCW: PROVIDED, That

The department (of emergency management) is authorized to make all expenditures necessary and proper to carry out the provisions of this chapter including payments to claimants for compensation as emergency workers and their dependents; to adjust and dispose of all claims submitted by a local compensation board. When medical treatment is necessary, the department (of emergency management) is authorized to make medical and compensation payments on an interim basis. Nothing herein shall be construed to mean that the department (of emergency management) or the state emergency management council or its officers or agents shall have the final decision with respect to the compensability of any case or the amount of compensation or benefits due, but any emergency worker or his or her dependents shall have the same right of appeal from any order, decision, or award to the same extent as provided in chapter 51.32 RCW (as amended by this 1971 amendatory act).

FIRE PROTECTION BOARD

NEW SECTION. Sec. 54. A new section is added to chapter 43.63A RCW to read as follows:

The legislature finds that fire protection services at the state level are provided by different, independent state agencies. This has resulted in a lack of a comprehensive state-level focus for state fire protection services, funding, and policy. It is the intent of the legislature to consolidate fire protection services into a single state agency and to create a state board with the
responsibility of (1) establishing a comprehensive state policy regarding fire protection services and (2) advising the director of community development and the director of fire protection on matters relating to their duties under state law. It is also the intent of the legislature that the fire protection services program created herein will assist local fire protection agencies in program development without encroaching upon their historic autonomy.

*NEW SECTION. Sec. 55. A new section is added to chapter 43.63A RCW to read as follows:

There is created the state fire protection policy board consisting of ten members appointed by the governor:

1. Three representatives of fire chiefs. At least one shall be from a fire department east of the Cascade mountains and at least one shall be from a fire department west of the Cascade mountains. One shall be from a fire protection district;

3. One representative of cities and towns;
4. One representative of counties;
5. Two full-time, paid, career fire fighters;
6. One volunteer fire fighter; and
7. One representative of fire commissioners.

The governor, the commissioner of public lands, the insurance commissioner, the chairperson of the commission for vocational education or its successor organization, and the director of fire protection or their designees, shall be nonvoting ex officio members of the board. If an ex officio member of the board elects to send a designee to any or all meetings of the board, then that designee shall be selected from the immediate staff of that ex officio member and may not be a person who otherwise serves as a member of the board.

In making the appointments required under subsections (1) through (7) of this section, the governor shall (a) seek the advice of and consult with organizations involved in fire protection; and (b) ensure that racial minorities, women, and persons with disabilities are represented.

The terms of the appointed members of the board shall be three years and until a successor is appointed and qualified. However, initial board members shall be appointed as follows: Three members to terms of one year, three members to terms of two years, and four members to terms of three years. In the case of a vacancy of a member appointed under subsections (1) through (7) of this section, the governor shall appoint a new representative to fill the unexpired term of the member whose office has become vacant. A vacancy shall occur whenever an appointed member ceases to be employed in the occupation the member was appointed to represent.

The appointed members of the board shall be reimbursed for travel expenses under RCW 43.03.050 and 43.03.060.
The board shall select its own chairperson and shall meet at the request of the governor or the chairperson and at least four times per year.

6. Promote mutual aid and disaster planning for fire services in this state;
7. Assure the dissemination of information concerning the amount of fire damage including that damage caused by arson, and its causes and prevention;
8. Submit annually a report to the governor containing a statement of its official acts pursuant to this chapter, and make such studies, reports, and recommendations to the governor and the legislature as are requested;
9. Adopt a state fire training and education master plan;
10. Develop and adopt a master plan for the construction, equipping, maintaining, and operation of necessary fire service training and education facilities, but the authority to construct, equip, and maintain such facilities is subject to chapter 43.19 RCW;
11. Develop and adopt a master plan for the purchase, lease, or other acquisition of real estate necessary to establish and operate fire service training and education facilities in a manner provided by law;

MISCELLANEOUS

NEW SECTION. Sec. 138. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 139. Sections 54 through 135 of this act are necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately.

*NEW SECTION. Sec. 140. Sections 1 through 53 of this act shall take effect January 1, 1987.

*Sec. 140 was vetoed, see message at end of chapter.

Passed the House March 11, 1986.
Passed the Senate March 11, 1986.
Approved by the Governor April 3, 1986, with the exception of certain items which are vetoed.
Filed in Office of Secretary of State April 3, 1986.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to several sections, Substitute House Bill No. 1709, entitled:

"AN ACT Relating to consolidation of agencies into the department of community development."

This bill would consolidate the Office of Archaeology and Historic Preservation, the Department of Emergency Management, and the Fire Protection Board into the Department of Community Development. The original bill was introduced at my request in order to consolidate programs that deal with local government officials. I also encouraged this bill in order to reduce the number of executive agencies and to achieve better efficiencies by centralized support services. However, a number of partial vetoes are necessary to perfect the measure.

Sections 46 and 47 of Substitute House Bill No. 1709 would amend the Sunset Act provisions affecting the Office of Archaeology and Historic Preservation. Since I intend to sign the portion of Substitute House Bill 1333 that will repeal the same statute, I have vetoed sections 46 and 47 of Substitute House Bill 1709 to avoid a double amendment situation.

I have also vetoed portions of section 55 that would have put several officials on the State Fire Protection Policy Board as nonvoting ex-officio members. These members included the Governor, the Commissioner of Public Lands, the Insurance Commissioner, the Chair of the Commission for Vocational Education and the Director of Fire Protection. The latter official will, in fact, serve as the primary staff person for the Board, so it is inappropriate that he/she serve as a voting member. I believe the other officials will monitor the Board's activities with appropriate staff. Also, having the officials on the Board as ex-officio members makes the Board unnecessarily large.
Finally, I have vetoed section 140 so that the transfer of the Office of Archaeology and Historic Preservation and the Department of Emergency Management to the Department of Community Development can take place in June 1986 rather than in January 1987. The departments indicate the change can be accomplished earlier and the delay is not necessary.

For these reasons, I have vetoed sections 46, 47, 55 in part, and 140. With the exception of these vetoes, Substitute House Bill No. 1709 has been approved."
