AN ACT Relating to limited licenses for physicians; and reenacting and amending RCW 18.71.095.

Be it enacted by the Legislature of the State of Washington:

Sec. 1. Section 1, chapter 189, Laws of 1959 as last amended by section 6, chapter 322, Laws of 1985 and by section 110, chapter 259, Laws of 1986 and RCW 18.71.095 are each reenacted and amended to read as follows:

The board may, without examination, issue a limited license to persons who possess the qualifications set forth herein:

(1) The board may, upon the written request of the secretary of the department of social and health services or the secretary of corrections, issue a limited license to practice medicine in this state to persons who have been accepted for employment by the department of social and health services or the department of corrections as physicians; who are licensed to practice medicine in another state of the United States or in the country of Canada or any province or territory thereof; and who meet all of the qualifications for licensure set forth in RCW 18.71.050.

Such license shall permit the holder thereof to practice medicine only in connection with patients, residents, or inmates of the state institutions

under the control and supervision of the secretary of the department of social and health services or the department of corrections.

(2) The board may issue a limited license to practice medicine in this state to persons who have been accepted for employment by a county or city health department as physicians; who are licensed to practice medicine in another state of the United States or in the country of Canada or any province or territory thereof; and who meet all of the qualifications for licensure set forth in RCW 18.71.050.

Such license shall permit the holder thereof to practice medicine only in connection with his or her duties in employment with the city or county health department.

(3) Upon receipt of a completed application showing that the applicant meets all of the requirements for licensure set forth in RCW 18.71.050 except for completion of two years of postgraduate medical training, and that the applicant has been appointed as a resident physician in a program of postgraduate clinical training in this state approved by the board, the board may issue a limited license to a resident physician. Such license shall permit the resident physician to practice medicine only in connection with his or her duties as a resident physician and shall not authorize the physician to engage in any other form of practice. Each resident physician shall practice medicine only under the supervision and control of a physician licensed in this state, but such supervision and control shall not be construed to necessarily require the personal presence of the supervising physician at the place where services are rendered.

(4)(a) Upon nomination by the dean of the school of medicine at the University of Washington or the chief executive officer of a hospital or other appropriate health care facility licensed in the state of Washington, the board may issue a limited license to a physician applicant invited to serve as a teaching-research member of the institution's instructional staff if the sponsoring institution and the applicant give evidence that he or she has graduated from a recognized medical school and has been licensed or otherwise privileged to practice medicine at his or her location of origin. Such license shall permit the recipient to practice medicine only within the confines of the instructional program specified in the application and shall terminate whenever the holder ceases to be involved in that program, or at the end of one year, whichever is earlier. Upon request of the applicant and the institutional authority, the license may be renewed for no more than a total of two years.

(b) Upon nomination by the dean of the school of medicine of the University of Washington or the chief executive officer of any hospital or appropriate health care facility licensed in the state of Washington, the board may issue a limited license to an applicant selected by the sponsoring institution to be enrolled in one of its designated departmental or divisional fellowship programs provided that the applicant shall have graduated from

a recognized medical school and has been granted a license or other appropriate certificate to practice medicine in the location of the applicant's origin. Such license shall permit the holder only to practice medicine within the confines of the fellowship program to which he or she has been appointed and, upon the request of the applicant and the sponsoring institution, the license may be renewed by the board for a total period of time not to exceed two calendar years.

All persons licensed under this section shall be subject to the jurisdiction of the medical disciplinary board to the same extent as other members of the medical profession, in accordance with chapters 18.72 and 18.130 RCW.

Persons applying for licensure pursuant to this section shall pay an application fee determined by the director as provided in RCW 43.24.086 and, in the event the license applied for is issued, a license fee at the rate provided for renewals of licenses generally. Licenses issued hereunder may be renewed annually pursuant to the provisions of RCW 18.71.080.
