(2) The department of social and health services shall not initiate any services that will require expenditure of state general fund moneys except as expressly authorized in this act, unless the services were previously provided. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act and, in the case of unanticipated unrestricted federal moneys, as long as an equal amount of appropriated state general fund moneys is placed in a reserve status. Unrestricted federal moneys shall be used, to the maximum extent permitted under federal law, to replace state general fund moneys appropriated under this act for the fiscal year ending June 30, 1986. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on explicitly defined projects or matched on a formula basis by state funds. The governor's budget document for fiscal year 1987 shall include a report on compliance with this subsection and shall estimate the balance, as of July 1, 1986, in reserve status under this subsection. Such state general fund moneys in reserve may be expended...
only as authorized in the supplemental appropriations act for the fiscal year ending June 30, 1987.

(3) This act is not intended to affect any vendor rate increases that were implemented prior to the effective date of this act.

(4) The department shall continue the aid to families with dependent children program for two-parent families through June 30, 1987.

(5) The department shall adopt by rule medical criteria for general assistance eligibility to ensure that eligibility decisions are consistent with statutory requirements and are based on clear, objective medical information.

(a) The process implementing such medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontradicted medical opinion must set forth clear and convincing reasons for doing so.

(b) Recipients of general assistance who remain otherwise eligible shall not have their benefits terminated absent a clear showing of material improvement in their medical or mental condition or specific error in the prior determination that found the recipient eligible by reason of incapacitation.

(6) Department staff shall assist general assistance clients in establishing eligibility for social security and/or supplemental security income benefits. The assistance shall include providing to the client or the appropriate social security office any documentation of the client's disability and, if appropriate, referral to legal counsel with expertise in social security law.

(7) $452,000 for fiscal year 1986, of which $405,000 is from the general fund—state appropriation and $783,000 for fiscal year 1987, of which $689,000 is from the general fund—state appropriation are provided solely for the Kitsap mental health services residential treatment center's alternative project. Of the $452,000 for fiscal year 1986, $61,000 of the general fund—state appropriation is provided solely for initial program costs associated with implementation. The state reimbursement rate shall not exceed $180 per client day and treatment for individual clients shall not exceed 180 days. All eligible involuntary treatment referrals will be made to the project. No involuntary treatment referrals of Kitsap county residents will be made to Western State Hospital after March 31, 1986. The maximum reimbursement rate to Kitsap county private hospitals shall be $250 per day per patient. Kitsap mental health services shall provide quarterly reports to the senate and house committees on ways and means describing the numbers and characteristics of clients served and resulting diversions from private hospitals and Western State Hospital. In addition, the department shall present an annual report to the same legislative committees beginning January 1, 1987, indicating progress made toward meeting the long-term residential bed needs of Kitsap County.
(8) It is the continuing intention of the legislature that payment levels in the aid to families with dependent children, general assistance, and refugee assistance programs contain an energy allowance to offset the high and rising costs of energy and that such allowance be excluded from consideration as income for the purpose of determining eligibility and benefit levels of the food stamp program to the maximum extent such exclusion is authorized under federal law and RCW 74.08.046. To this end, up to $150,000,000 is so designated for exemptions of the following amounts:

(9) The legislature finds that rising hospital costs continue to be a matter of serious concern to the public and to the state government. The department may continue to pay for inpatient hospital services principally on the basis of diagnosis-related groups. The department shall continue in force ratable reductions not less than those imposed in 1984 on hospital payments under the medical care services program and the limited casualty program for the medically indigent.

Sec. 502. Section 504, chapter 6, Laws of 1985 ex. sess. as amended by section 504, chapter 312, Laws of 1986 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION—SCHOOL DISTRICT EMPLOYEE COMPENSATION

General Fund Appropriation .................. $ 47,733,000

(1) For the purposes of section 503 of this act and this section, the following conditions and limitations apply:

(a) "LEAP Document 7" means the computer tabulation of 1984–85 derived base salaries for basic education certified staff and 1984–85 average salaries for basic education classified staff, as developed by the legislative evaluation and accountability program committee on April 11, 1985, at 10:36 hours.

(b) "Revised LEAP Document 7" means the computer tabulation of certificated and classified derived base salaries as developed by the legislative evaluation and accountability program committee on February 27, 1986, at 9:41 hours.

(c) For the purposes of the appropriation in section 502 of this 1986 act, each district's average basic education certificated salary allocation shall be the district's certificated derived base salary shown on LEAP Document 7, multiplied by the district's prior year staff mix factor calculated using LEAP Document 1.

(d) For the purposes of the appropriation in section 502 of this 1986 act, each district's average basic education classified salary allocation for both the 1985–86 and 1986–87 school years shall be the district's classified derived base salary multiplied by the district's prior year classified increment mix factor, as specified in this section. For the 1985–86 school year, the classified derived base salary for each district shall be the average classified salary specified for each district in LEAP Document 7 divided by the
1984–85 classified increment mix factor for each district calculated according to the formula used by the superintendent of public instruction in the 1984–85 school year. By December 1, 1985, the superintendent of public instruction shall provide to the legislative evaluation and accountability program committee the appropriate data with which to modify LEAP Document 7 to reflect the classified derived base salary for use in the 1986–87 school year.

(e) "Incremental fringe benefits" means (19.44%) 19.48 percent for certificated staff and (15.49%) 15.54 percent for classified staff, which percentages shall be the fringe benefit rates applied to all salary increases provided in this section, and is for employer contributions to employee benefits and retirement benefits.

(2) For the purposes of RCW 28A.58.095 and section 503(1) of this act, the following conditions and limitations apply:

(a) Effective September 1, 1986, each school district is authorized to grant salary increases that increase the district's actual basic education certificated derived base salary to no more than the sum of: (i) The district's certificated derived base salary as shown on revised LEAP Document 7; and (ii) three percent of the state-wide average certificated derived base salary as shown on revised LEAP Document 7.

(b) Effective September 1, 1986, each school district is authorized to grant salary increases that increase the district's actual basic education classified derived base salary to no more than the sum of: (i) The district's classified derived base salary as shown on revised LEAP Document 7; and (ii) three percent of the state-wide average classified derived base salary as shown on revised LEAP Document 7.

(c) The maximum average percentage salary increase in school district programs other than the basic education program shall not exceed the percentage increase authorized pursuant to this section for the district's basic education program.

(d) Insurance benefits are limited by this act to an average monthly rate of $167 per full time equivalent certificated employee and to an average monthly rate of $167 per classified unit. Classified units shall be calculated on the basis of 1,440 hours of work per year, with no individual employee counted for more than one unit. In accordance with RCW 28A.58.095, this subsection relates to insurance benefit increases granted in either the 1985–86 or 1986–87 school year which would raise the rate per full time equivalent unit to over $167 per month.

(e) Increments granted by school districts to certificated staff shall constitute salary increase in the year in which the increments are given by a district to the extent only that the aggregate of increments granted by a district exceeds the aggregate of increments pursuant to LEAP Document 1.
(f) Seniority increments granted by a school district pursuant to the district’s salary schedule for classified employees shall constitute salary increase in the year in which the increments are given to the extent only that the aggregate of the increments granted by the district exceeds the amount of the district’s increments calculated using the formula adopted by the superintendent of public instruction for the classified increment mix factor.

(g) Districts may elect an alternate measure of salary compliance for classified staff by comparing base salaries of 1986–87 staff to the imputed base that was or would have been paid the same staff in the same positions during 1985–86 if the districts electing this alternative certify by board resolution that any amount in excess of state-funded salary levels in each year henceforward is solely a district obligation created through local district personnel policies and salary schedule placements, and that the effect shall neither incur nor imply any current or future funding obligation by the state.

(3)(a) A maximum of $(650,000) 700,000 of the appropriation in this section is provided to fund the conversion from LEAP Document 7 to revised LEAP Document 7, effective September 1, 1986. The superintendent of public instruction shall distribute these moneys to fund increases in salary costs and incremental fringe benefits resulting from using revised LEAP Document 7 to calculate allocations for certificated and classified staff units as in section 502 of this 1986 act.

(b) $(2,82,000) 28,861,000 is provided, effective September 1, 1986, to increase funding for each basic education certificated staff unit allocated for the 1986–87 school year in section 502 of this 1986 act by an amount equal to the district’s 1985–86 LEAP Document 1 basic education staff mix factor times three percent of the state-wide average certificated derived base salary as shown on revised LEAP Document 7, and for incremental fringe benefits.

(c) $(59,26,000) 5,971,000 is provided, effective September 1, 1986, to increase funding for each basic education classified staff unit allocated for the 1986–87 school year in section 502 of this 1986 act by an amount equal to the district’s 1985–86 basic education classified increment mix factor times three percent of the state-wide average classified derived base salary as shown on revised LEAP Document 7, and for incremental fringe benefits.

(d) A maximum of $(2,263,000) 2,390,000 is provided for salary increases and incremental fringe benefits in the following programs, to be distributed by increasing 1986–87 school year allocation rates as specified:

(ii) Remediation assistance (section 509), $8.80 per pupil;
(iii) Education of highly capable students (section 510), $6.77 per pupil;
(iv) Vocational-technical institutes (section 512), $59.94 per FTE pupil;

(v) Pupil transportation (section 514), $0.46 per weighted pupil-mile.

(e) A maximum of $((3,968,000)) 4,934,000 is provided for salary increases and incremental fringe benefits for state-supported staff unit allocations in the handicapped program (section 506), and for state-supported staff in educational service districts (section 502) and institutional education programs (section 507). The superintendent of public instruction shall distribute a three percent salary increase for these programs using the pertinent program state-wide average derived base salaries.

(f) $6,344,000 of the appropriation in this section is provided to enhance salaries for certificated personnel in state-supported programs pursuant to this subsection. Each school district with a certificated derived base salary of less than $16,500, as shown on revised LEAP Document 7, is authorized to grant salary increases effective September 1, 1986, which both:

(i) Increase the actual full time equivalent salary of each certificated employee of the district to a minimum of $16,500 for the 1986-87 school year; and

(ii) Increase the district's actual basic education certificated derived base salary, excluding the salary increase provided in subsection (2)(a) of this section, to no more than $16,500.

For the purposes of allocating basic education funds in the 1986-87 school year, the superintendent of public instruction shall modify revised LEAP Document 7 to reflect a certificated derived base salary of $16,500 for each district which grants the increases authorized by this subsection. The superintendent of public instruction may distribute a maximum of $71,000 of the funds provided by this subsection to those districts whose actual cost of granting minimum increases to $16,500 under (i) of this subsection exceeds the increase in the district's total salary allocation resulting from the modification of revised LEAP Document 7.

In addition to other increases provided by this section, each school district with a certificated derived base salary of at least $16,500, as shown on revised LEAP Document 7, is authorized to grant such increases effective September 1, 1986, as are necessary to achieve a minimum full time equivalent salary of $16,500 for any individual certificated employee. $((1,500,000)) 700,000, or so much thereof as may be necessary, shall be distributed by the superintendent of public instruction solely to increase salaries of individual certificated employees in these districts who would otherwise receive a full time equivalent salary of less than $16,500.

(4) Increases provided by this section shall be included in the programs referenced in RCW 84.52.0531(1) for purposes of calculating the levy lid.
