(uncodified); prescribing penalties; making appropriations; providing an effective date; providing an expiration date; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. INTENT. The legislature recognizes that the beneficial stewardship of the land, air, and waters of the state is a solemn obligation of the present generation for the benefit of future generations.

A healthful environment is threatened by numerous hazardous waste sites in this state. The legislature finds that private parties should be provided with encouragement to exercise their responsibility to clean up the sites for which they are responsible, but that if they refuse to do so, then the state should conduct cleanup operations and recover the costs thereof from the private parties. The legislature also finds that there are numerous publicly owned sites that were former solid waste landfills and that because the cost of cleaning those sites frequently exceeds the financial resources of refuse rate payers, state financial assistance is appropriate.

The legislature finds that because it is often difficult or impossible to allocate responsibility among persons liable for hazardous waste sites and because it is essential that sites be cleaned up well and expeditiously, each liable person should be liable jointly and severally.

NEW SECTION. Sec. 2. DEFINITIONS. The definitions set forth in this section apply throughout this chapter.

(1) "Department" means the department of ecology.

(2) "Director" means the director of ecology or the director's designee.
