Every milk producer, milk distributor, milk hauler, and operator of a milk plant shall secure a permit to conduct such operation as defined in this chapter. Only a person who complies with the requirements of this chapter shall be entitled to receive and retain such a permit. Permits shall not be transferable with respect to persons and/or locations.

Such a permit may be temporarily suspended by the director ((or health officer of a milk inspection unit)) upon violation by the holder of any of the terms of this chapter, or for interference with the director ((or health officer of a milk inspection unit)) in the performance of his duties, or revoked after an opportunity for a hearing by the director upon serious or repeated violations.

During each six months period at least four samples of milk and cream from each dairy farm and each milk plant shall be taken on separate days and examined by the director: PROVIDED, That in the case of raw milk
for pasteurization the director may accept the results of nonofficial laboratories which have been officially checked periodically and found satisfactory. Samples of other milk products may be taken and examined by the director as often as he deems necessary. Samples of milk and milk products from stores, cafes, soda fountains, restaurants, and other places where milk or milk products are sold shall be examined as often as the director may require. Bacterial plate counts, direct microscopic counts, coliform determinations, phosphatase tests and other laboratory tests shall conform to the procedures in the current edition of "Standard Methods For The Examination Of Dairy Products," recommended by the American public health association. Examinations may include such other chemical and physical determinations as the director may deem necessary for the detection of adulteration. Samples may be taken by the director at any time prior to the final delivery of the milk or milk products. All proprietors of cafes, stores, restaurants, soda fountains, and other similar places shall furnish the director, upon his request, with the name of all distributors from whom their milk and milk products are obtained. Bio-assays of the vitamin D content of vitamin D milk shall be made when required by the director in a laboratory approved by him for such examinations.

If two of the last four consecutive bacterial counts, somatic cell counts, coliform determinations, or cooling temperatures, taken on separate days, exceed the standard for milk or milk products, the director shall send written notice thereof to the person concerned. This notice shall remain in effect so long as two of the last four consecutive samples exceed the limit of the standard. An additional sample shall be taken within twenty-one days of the sending of the notice, but not before the lapse of three days, except sixty days must lapse before an official somatic cell count can be taken. The director shall degrade or suspend the grade A permit whenever the standard is again violated (by more than one of the last four consecutive samples) so that three of the last five consecutive samples exceed the limit of the standard. A grade A permit shall subsequently be reinstated in notice status upon receipt of sample results that are within the standard for which the suspension occurred.

In case of violation of the phosphatase test requirements, the cause of underpasteurization shall be determined and removed before milk or milk products from this plant can again be sold as pasteurized milk or milk products.

Sec. 18. Section 1, chapter 226, Laws of 1984 and RCW 15.36.115 are each amended to read as follows:

(1) If the results of an antibiotic (or), pesticide, or other drug residue test are above the actionable level (as determined by) established in the pasteurized milk ordinance published by the United States public health service and determined using procedures set forth in the current edition of "Standard Methods for the Examination of Dairy Products," a producer
holding a grade A permit is subject to a civil penalty. The penalty shall be in an amount equal to one-half the value of the sum of the volumes of milk equivalent produced under the permit on the day prior to and the day of the adulteration. The value of the milk shall be computed by the weighted average price for the federal market order under which the milk is delivered.

(2) The penalty is imposed by the department giving a written notice which is either personally served upon or transmitted by certified mail, return receipt requested, to the person incurring the penalty. The notice of the civil penalty shall be a final order of the department unless, within fifteen days after the notice is received, the person incurring the penalty appeals the penalty by filing a notice of appeal with the department. If a notice of appeal is filed in a timely manner, a contested case hearing shall be conducted on behalf of the department by the office of administrative hearings in accordance with chapters 34.05 and 34.12 RCW and, to the extent they are not inconsistent with this subsection, the provisions of RCW 15.36.580. At the conclusion of the hearing, the department shall determine whether the penalty should be affirmed, ((reduced, or not imposed)) and, if so, shall issue a final order setting forth the civil penalty assessed, if any. The order may be appealed to superior court in accordance with chapter 34.05 RCW. Tests performed for antibiotic, pesticide, or other drug residues by a state or certified industry laboratory of a milk sample drawn by a department official or a licensed dairy technician shall be admitted as prima facie evidence of the presence or absence of an antibiotic, pesticide, or other drug residue.

(3) Any penalty imposed under this section is due and payable upon the issuance of the final order by the department. The penalty shall be deducted by the violator's marketing organization from the violator's final payment for the month following the issuance of the final order. The department shall promptly notify the violator's marketing organization of any penalties contained in the final order.

(4) All penalties received or recovered from violations of this section shall be remitted monthly by the violator's marketing organization to the Washington state dairy products commission and deposited in a revolving fund to be used solely for the purposes of education and research. No appropriation is required for disbursements from this fund.

(5) In case of a violation of the antibiotic, pesticide, or other drug residue test requirements, an investigation shall be made to determine the cause of the residue which shall be corrected. Additional samples shall be taken as soon as possible and tested as soon as feasible for antibiotic, pesticide, or other drug residue by the department or a certified laboratory. After the notice has been received by the producer and the results of a test of such an additional sample indicate that residues are above the actionable level or levels referred to in subsection (1) of this section, the
producer's milk may not be sold until a sample is shown to be below the actionable levels established for the residues.

Sec. 19. Section 15.36.300, chapter 11, Laws of 1961 and RCW 15-36.300 are each amended to read as follows:

The health ((officer)) authority or a physician authorized by him shall examine and take careful morbidity history of every person connected with a pasteurization plant, or about to be employed, whose work brings him in contact with the production, handling, storage, or transportation of milk, milk products, containers, or equipment. If such examination or history suggests that such person may be a carrier of or infected with the organisms of typhoid or paratyphoid fever or any other communicable diseases likely to be transmitted through milk, he shall secure appropriate specimens of body discharges and cause them to be examined in a laboratory approved by him or by the state department of social and health services for such examinations, and if the results justify such persons shall be barred from such employment.

Such persons shall furnish such information, submit to such physical examinations, and submit such laboratory specimens as the health ((officer)) official may require for the purpose of determining freedom from infection.

Sec. 21. Section 15.36.460, chapter 11, Laws of 1961 and RCW 15-36.460 are each amended to read as follows:

No milk or milk products shall be sold to the final consumer or to restaurants, soda fountains, grocery stores, or similar establishments except ((certified milk–pasteurized, certified raw–milk;)) grade A milk pasteurized, or grade A milk–raw, and the director may revoke the permit of any milk distributor failing to qualify for one of the above grades, or in lieu thereof may degrade his product and permit its sale during a period not exceeding thirty days or in emergencies during such longer period as he may deem necessary.

Any producer or distributor of milk or milk products upon whose dairy farm or in whose milk plant any communicable disease occurs, or who suspects that any employee has contracted any disease shall notify the health ((officer)) authority immediately.

Commodities tendered for inspection must be offered and made accessible for sampling at inspection points during customary business hours.

(1) No inspector shall issue a certificate of grade, grading factors, condition, or other qualitative measurement for any commodity unless the inspection (and) or grading thereof be based upon a correct and representative sample of the commodity and the inspection is made under conditions which permit the determination of its true grade or quality, except as provided in subsections (2) and (3) of this section. No sample shall be deemed to be representative unless it is of the size and procured in accordance with the uniform methods prescribed by the department.

(2) An inspection may be made of a submitted sample (or package) of a commodity, provided that the certificate issued in such case clearly shows that the inspection (and) or grading covers only the submitted sample (or package) of such commodity and not the lot from which it (was) purportedly drawn.

(3) When commodities are tendered for inspection in such a manner as to make the drawing of a representative sample impossible, a qualified inspection may be made. In such case, the certificate shall clearly show the condition preventing proper sampling such as heavily loaded (box) car, truck, barge, or other container, or other condition.

Sec. 49. Section 41, chapter 124, Laws of 1963 and RCW 22.09.740 are each amended to read as follows:

The department's inspectors shall, at terminal warehouses, have exclusive control of the weighing, inspecting, and grading of the commodities that are included within the provisions of this chapter (and): PROVIDED, That official supervision of weighing under the United States grain standards act shall be deemed in compliance with this section. The action
and the certificates of the inspectors in the discharge of their duties, as to all commodities ({\it weighed or}) inspected or weighed by them, shall be accepted as prima facie evidence of the correctness of the above activity. (However, an appeal may be taken as provided in RCW 22.09.780 to the director of the department. Suitable books and records shall be kept in which shall be entered a record of every carload, or cargo, or part of cargo of commodities inspected or weighed by them, showing the number and initial or other designation of the vehicle or boat containing the carload, or cargo, or part of cargo, its weight, the kind of commodity, and its grade, the reason for the grade if of inferior grade, the amount of the dockage, the amount of fees and forfeitures and disposition of them; and for each vehicle or cargo, or part of cargo, of commodity inspected, they shall give a certificate of inspection showing the kind and grade of the same and the reason for all grades established. They shall also keep a record of all appeals, decisions, and a complete record of every official act, which books and records shall be open to inspection by any party in interest. They shall also furnish the agent of the railroad company, or other carrier over which the commodity was shipped or carried, a report showing the weight thereof; if requested to do so) Suitable books and records shall be maintained in which shall be entered a record of each inspection activity and the fees assessed and collected. These books and records shall be available for inspection by any party of interest during customary business hours. The records shall be maintained for periods set by regulation.

Such notice of appeal may be given by a letter or other written notice to the department stating the inspector's name, number of the certificate, date of inspection, and that such party appeals from such decision concerning such grade:))

(2) It shall be the duty of the department upon receiving such notice of appeal to hold a hearing within twenty days and inquire into the reasonableness and correctness of such original grading and such evidence shall be received as the parties thereto may desire to offer. After such hearing the director of the department shall make such order affirming or modifying the grade so established by the inspector as the facts may justify. The reinspection or appeal may be based in the official file sample or upon a new
sample drawn from the lot of the grain or commodity if the lot remains intact and available for sampling. The reinspection or appeal inspection shall be of the same factors and scope as the original inspection.

(2) For commodities inspected under federal standards, the reinspection and appeal inspection procedure provided in the applicable federal regulations shall apply. For commodities inspected under state standards, the department shall provide a minimum of a reinspection and appeal inspection service. The reinspection shall consist of a full review of all relevant information and a reexamination of the commodity to determine the correctness of the grade assigned or other determination. The reinspection shall be performed by an authorized inspector of the department other than the inspector who performed the original inspection unless no other inspector is available. An appeal inspection shall be performed by a supervisory inspector.

(3) If the grading of any commodity for which federal standards have been fixed and the same adopted as official state standards has not been the subject of a hearing, in accordance with subsection (2) of this section, any interested party who is aggrieved with the grading of such commodity, may, with the approval of the secretary of the United States department of agriculture, appeal to the federal grain supervisor of the supervision district in which the state of Washington may be located. Such federal grain supervisor shall confer with the department inspectors and any other interested party and shall make such tests as he may deem necessary to determine the correct grade of the commodity in question. Such federal grade certificate shall be prima facie evidence of the correct grade of the commodity in any court in the state of Washington.

Sec. 52. Section 50, chapter 124, Laws of 1963 as amended by section 25, chapter 297, Laws of 1981 and RCW 22.09.830 are each amended to read as follows:

The state treasurer is the custodian of the revolving fund. Disbursements from the revolving fund shall be on authorization of the director of the department of agriculture. The revolving fund is subject to the allotment procedure provided in chapter 43.88 RCW, but no appropriation is required for disbursements from the fund. (Such) The fund shall be used for all expenses directly incurred by the commodity inspection division (of grain and agricultural chemicals) in carrying out the provisions of this chapter. The department may use so much of such fund not exceeding five percent thereof as the director of agriculture may determine necessary for research and promotional work, including rate studies, relating to wheat and wheat products.
(2) All fees collected for the inspection, grading, and testing of hops shall be deposited into the hop inspection fund, which is hereby established, and shall be retained by the department for the purpose of inspecting, grading, and testing hops. Any moneys in any fund retained by the department on July 1, 1963, and derived from hop inspection and grading shall be deposited to this hop inspection fund. No expenditures shall be made under the provisions of this subsection when the hop inspection fund is, or the director may reasonably anticipate that it will be, reduced below twenty thousand dollars as the result of such expenditure or other necessary expenditures made to carry out the inspection, grading, and testing of hops.

(2) The report of the arbitration committee shall include, in addition to its award, recommendations as to costs, if any.

(3) In the course of its investigation, the arbitration committee may examine the buyer and the dealer on all matters that the arbitration committee may consider relevant; may grow a representative sample of the seed referred to in the complaint if considered necessary; and may hold informal hearings at such time and place as the committee chairman may direct upon reasonable notice to all parties. If the committee decides to grow a representative sample of the seed, the sixty-day period identified in this section shall be extended an additional thirty days.

(4) After the committee has made its award, the director shall promptly transmit the report by certified mail to all parties.

The secretary shall keep accurate records of all such meetings and deliberations and perform such other duties for the commission as the chairman may direct.

(4) The purpose of the committee is to conduct arbitration as provided in this chapter. The committee may be called into session by or at the direction of the director or upon direction of its chairman to consider matters referred to it by the director in accordance with this chapter.

(5) The members of the committee shall receive no compensation for performing their duties but shall be reimbursed for travel expenses; expense reimbursement shall be borne equally by the parties to the arbitration.
For purposes of this chapter, a quorum of four members or their alternates is necessary to conduct an arbitration investigation or to make an award. If a quorum is present, a simple majority of members present shall be sufficient to make a decision. Any member disagreeing with the award may prepare a dissenting opinion and such opinion also will be included in the committee's report.

The director shall make provisions for staff support, including legal advice, as the committee finds necessary.

CHAPTER 355
[Substitute House Bill No. 2000]
AGRICULTURAL MARKETING—FAIR PRACTICES

AN ACT Relating to agricultural marketing; adding a new chapter to Title 15 RCW; prescribing penalties; making an appropriation; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. Agricultural products are produced by many individual farmers and ranchers located throughout the state. The efficient production and marketing of agricultural products by farmers, ranchers, and handlers is of vital concern to the welfare and general economy of the state. It is the purpose of this chapter to establish standards of fair practices required of handlers, producers, and associations of producers, with respect to certain agricultural commodities, to establish the mutual obligation of handlers and accredited associations of producers to negotiate relative to the production or marketing of these agricultural commodities.

It is the intent of the legislature that a workable process be developed through which a fair price and other contract terms can be arrived at through negotiations between processors of agricultural products and an accredited association of producers, and that in developing rules and administering this chapter the director of agriculture shall recognize this intent.

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Accredited association of producers" means an association of producers which is accredited by the director to be the exclusive negotiation agent for all producer members of the association within a negotiating unit.

(2) "Advance contract" means a contract for purchase and sale of a crop entered into before the crop becomes a growing crop and providing for delivery at or after the harvest of that crop.

(3) "Agricultural products" as used in this chapter means sweet corn and potatoes produced for sale from farms in this state.

(4) "Association of producers" means any association of producers of agricultural products engaged in marketing, negotiating for its members, shipping, or processing as defined in section 15(a) of the federal agriculture marketing act of 1929 or in section 1 of 42 Stat. 388.

(5) "Director" means the director of the department of agriculture.
