NEW SECTION. Sec. 2. LOCAL FIELD AGENTS. (1) The sea grant and cooperative extension shall jointly administer a program to provide field agents to work with local governments, property owners, and the general public to increase the propagation of shellfish, and to address Puget Sound water quality problems within Kitsap, Mason, and Jefferson counties that may limit shellfish propagation potential. The sea grant and cooperative extension shall each make available the services of no less than two agents within these counties for the purposes of this section.

(2) The responsibilities of the field agents shall include but not be limited to the following:

(a) Provide technical assistance to property owners, marine industry owners and operators, and others, regarding methods and practices to address nonpoint and point sources of pollution of Puget Sound;

(b) Provide technical assistance to address water quality problems limiting opportunities for enhancing the recreational harvest of shellfish;

(c) Provide technical assistance in the management and increased production of shellfish to facility operators or to those interested in establishing an operation;

(d) Assist local governments to develop and implement education and public involvement activities related to Puget Sound water quality;

(e) Assist in coordinating local water quality programs with region-wide and state-wide programs;

(f) Provide information and assistance to local watershed committees.

Sea grant and cooperative extension shall require a match from nonstate sources of at least twenty-five percent of the cost of the services provided, and not exceeding fifty percent of the cost. The match may be either monetary compensation or in-kind services, such as the provision for office space or clerical support. Only direct costs of providing the services, excluding costs of administrative overhead, may be included in the estimate of costs.

NEW SECTION. Sec. 4. PROGRAM REVIEW. By November 1, 1992, sea grant and cooperative extension shall jointly submit a report to the legislature that includes the activities of the program, an evaluation of the success in improving practices affecting Puget Sound water quality, and recommendations regarding whether the program should be expanded to other areas of Puget Sound. The report shall also recommend additional methods of increasing shellfish propagation, recreational harvesting of shellfish, and addressing of water quality conditions affecting shellfish within Kitsap, Mason, and Jefferson counties.

NEW SECTION. Sec. 5. If specific funding for the purposes of this act, referencing this act by bill number, is not provided by June 30, 1990, in the omnibus appropriations act, this act shall be null and void.
