CHAPTER 4
[House Bill 1891]
BASIC HEALTH PLAN—COORDINATION WITH MEDICAL ASSISTANCE
Effective Date: 7/1/91

AN ACT Relating to coordination of the basic health plan with medical assistance; amending RCW 70.47.030, 70.47.060, and 70.47.110; providing an effective date; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

Sec. 1. RCW 70.47.030 and 1987 1st ex.s. c 5 s 5 are each amended to read as follows:

The basic health plan trust account is hereby established in the state treasury. All nongeneral fund-state funds ((appropriated)) collected for this ((chapter)) program shall be deposited in the basic health plan trust account and may be expended without further appropriation. ((Disbursements from other moneys in the account shall be made pursuant to appropriation and upon warrants drawn by the Washington basic health plan administrator;)) Moneys in the account shall be used exclusively for the purposes of this chapter, including payments to participating managed health care systems on behalf of enrollees in the plan and payment of costs of administering the plan. ((The earnings on any surplus balances in the basic health plan trust account shall be credited to the account; notwithstanding RCW 43.84.090.)) After ((January 1, 1988)) July 1, 1991, the
Sec. 2. RCW 70.47.060 and 1987 1st ex.s. c 5 s 8 are each amended to read as follows:

The administrator has the following powers and duties:

(1) To design and from time to time revise a schedule of covered basic health care services, including physician services, inpatient and outpatient hospital services, and other services that may be necessary for basic health care, which enrollees in any participating managed health care system under the Washington basic health plan shall be entitled to receive in return for premium payments to the plan. The schedule of services shall emphasize proven preventive and primary health care, shall include all services necessary for prenatal, postnatal, and well-child care, and shall include a separate schedule of basic health care services for children, eighteen years of age and younger, for those enrollees who choose to secure basic coverage through the plan only for their dependent children. In designing and revising the schedule of services, the administrator shall consider the guidelines for assessing health services under the mandated benefits act of 1984, RCW 48.42.080, and such other factors as the administrator deems appropriate.

(2) To design and implement a structure of periodic premiums due the administrator from enrollees that is based upon gross family income, giving appropriate consideration to family size as well as the ages of all family members. The enrollment of children shall not require the enrollment of their parent or parents who are eligible for the plan.

(3) To design and implement a structure of nominal copayments due a managed health care system from enrollees. The structure shall discourage inappropriate enrollee utilization of health care services, but shall not be so costly to enrollees as to constitute a barrier to appropriate utilization of necessary health care services.

(4) To design and implement, in concert with a sufficient number of potential providers in a discrete area, an enrollee financial participation structure, separate from that otherwise established under this chapter, that has the following characteristics:

(a) Nominal premiums that are based upon ability to pay, but not set at a level that would discourage enrollment;

(b) A modified fee-for-services payment schedule for providers;

(c) Coinsurance rates that are established based on specific service and procedure costs and the enrollee’s ability to pay for the care. However, coinsurance rates for families with incomes below one hundred twenty percent of the federal poverty level shall be nominal. No coinsurance shall be required for specific proven prevention programs, such as prenatal care. The coinsurance...
rate levels shall not have a measurable negative effect upon the enrollee’s health status; and

(d) A case management system that fosters a provider-enrollee relationship whereby, in an effort to control cost, maintain or improve the health status of the enrollee, and maximize patient involvement in her or his health care decision-making process, every effort is made by the provider to inform the enrollee of the cost of the specific services and procedures and related health benefits.

The potential financial liability of the plan to any such providers shall not exceed in the aggregate an amount greater than that which might otherwise have been incurred by the plan on the basis of the number of enrollees multiplied by the average of the prepaid capitated rates negotiated with participating managed health care systems under RCW 70.47.100 and reduced by any sums charged enrollees on the basis of the coinsurance rates that are established under this subsection.

(5) To limit enrollment of persons who qualify for subsidies so as to prevent an overexpenditure of appropriations for such purposes. Whenever the administrator finds that there is danger of such an overexpenditure, the administrator shall close enrollment until the administrator finds the danger no longer exists.

(6) To adopt a schedule for the orderly development of the delivery of services and availability of the plan to residents of the state, subject to the limitations contained in RCW 70.47.080.

In the selection of any area of the state for the initial operation of the plan, the administrator shall take into account the levels and rates of unemployment in different areas of the state, the need to provide basic health care coverage to a population reasonably representative of the portion of the state’s population that lacks such coverage, and the need for geographic, demographic, and economic diversity.

Before July 1, 1988, the administrator shall endeavor to secure participation contracts with managed health care systems in discrete geographic areas within at least five congressional districts.

(7) To solicit and accept applications from managed health care systems, as defined in this chapter, for inclusion as eligible basic health care providers under the plan. The administrator shall endeavor to assure that covered basic health care services are available to any enrollee of the plan from among a selection of two or more participating managed health care systems. In adopting any rules or procedures applicable to managed health care systems and in its dealings with such systems, the administrator shall consider and make suitable allowance for the need for health care services and the differences in local availability of health care resources, along with other resources, within and among the several areas of the state.

(8) To receive periodic premiums from enrollees, deposit them in the basic health plan operating account, keep records of enrollee status, and authorize
periodic payments to managed health care systems on the basis of the number of enrollees participating in the respective managed health care systems.

(9) To accept applications from individuals residing in areas served by the plan, on behalf of themselves and their spouses and dependent children, for enrollment in the Washington basic health plan, to establish appropriate minimum-enrollment periods for enrollees as may be necessary, and to determine, upon application and at least annually thereafter, or at the request of any enrollee, eligibility due to current gross family income for sliding scale premiums. An enrollee who remains current in payment of the sliding-scale premium, as determined under subsection (2) of this section, and whose gross family income has risen above twice the federal poverty level, may continue enrollment unless and until the enrollee's gross family income has remained above twice the poverty level for six consecutive months, by making payment at the unsubsidized rate required for the managed health care system in which he or she may be enrolled. No subsidy may be paid with respect to any enrollee whose current gross family income exceeds twice the federal poverty level or, subject to RCW 70.47.110, who is a recipient of medical assistance or medical care services under chapter 74.09 RCW. If a number of enrollees drop their enrollment for no apparent good cause, the administrator may establish appropriate rules or requirements that are applicable to such individuals before they will be allowed to re-enroll in the plan.

(10) To require that prospective enrollees who may be eligible for categorically needy medical coverage under RCW 74.09.510 or whose income does not exceed the medically needy income level under RCW 74.09.700 apply for such coverage, but the administrator shall enroll the individuals in the plan pending the determination of eligibility under chapter 74.09 RCW.

(11) To monitor the provision of covered services to enrollees by participating managed health care systems in order to assure enrollee access to good quality basic health care, to require periodic data reports concerning the utilization of health care services rendered to enrollees in order to provide adequate information for evaluation, and to inspect the books and records of participating managed health care systems to assure compliance with the purposes of this chapter. In requiring reports from participating managed health care systems, including data on services rendered enrollees, the administrator shall endeavor to minimize costs, both to the managed health care systems and...
to the administrator. The administrator shall coordinate any such reporting requirements with other state agencies, such as the insurance commissioner and the ((hospital commission)) department of health, to minimize duplication of effort.

(((13))) (12) To monitor the access that state residents have to adequate and necessary health care services, determine the extent of any unmet needs for such services or lack of access that may exist from time to time, and make such reports and recommendations to the legislature as the administrator deems appropriate.

(((4))) (13) To evaluate the effects this chapter has on private employer-based health care coverage and to take appropriate measures consistent with state and federal statutes that will discourage the reduction of such coverage in the state.

(((4-4))) (14) To develop a program of proven preventive health measures and to integrate it into the plan wherever possible and consistent with this chapter.

(((4-4))) (15) To provide, consistent with available resources, technical assistance for rural health activities that endeavor to develop needed health care services in rural parts of the state.

Sec. 3. RCW 70.47.110 and 1987 1st ex.s. c 5 s 13 are each amended to read as follows:

The department of social and health services ((shall)) may make ((periodic)) payments to the administrator ((as an agent for the)) or to participating managed health care systems on behalf of any enrollee who is a recipient of ((medical assistance—medical care—limited casualty program, or)) medical care ((services)) under chapter 74.09 RCW, at the maximum rate allowable for federal matching purposes under Title XIX of the social security act((but not to exceed the rate negotiated by the administrator with the participating managed health care system for the services covered by the plan, and no premium or copayment may be charged to such an enrollee)). Any enrollee on whose behalf the department of social and health services makes such payments ((to the administrator under this section and chapter 74.09-RCW)) may continue as an enrollee, making premium payments based on the enrollee’s own income as determined under the sliding scale, after eligibility for coverage under chapter 74.09 RCW has ended, as long as the enrollee remains eligible under this chapter. Nothing in this section affects the right of any person eligible for coverage under chapter 74.09 RCW to receive the services offered to other persons under that chapter but not included in the schedule of basic health care services covered by the plan. The administrator shall seek to determine which enrollees or prospective enrollees may be eligible for medical care under chapter 74.09 RCW and may require these individuals to complete the eligibility determination process under chapter 74.09 RCW prior to enrollment or continued participation in the plan. The administrator and the department of social and health services shall cooperatively
adopt procedures to facilitate the transition of plan enrollees and payments on their behalf between the plan and the programs established under chapter 74.09 RCW.

**NEW SECTION.** Sec. 4. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1991.

Passed the Senate June 29, 1991.
Approved by the Governor June 30, 1991.

state.

(3) An insurer holding a certificate of authority to transact insurance in this
state immediately prior to July 1, 1991, may continue to be authorized

be authorized to transact any kind or kinds of insurance upon the basis of the
capital and surplus requirements of such an insurer under the laws in force
immediately prior to such effective date (PROVIDED, That any applicable

(a) Any foreign insurer having less than six million dollars of capital and surplus or substantially equivalent capital funds, or any admitted multiple-line insurer in accordance with RCW 48.05.300 as now or hereafter amended, and in the case of an alien insurer, there must be on file with the commissioner a copy of a trust agreement, certified by the trustee, evidencing a subsisting trust deposit of not less than one-half of a like amount by such insurer with a bank or trust company in the United States, and which deposit is held for the protection of United States policyholders. Such trust account shall consist of cash or other assets acceptable to the commissioner and shall have an expiration date which at no time shall be less than five years hence.) substantially equivalent capital funds, of which not less than one million five hundred thousand dollars is capital; or

(b) Any alien insurer having less than six million dollars of capital and surplus or substantially equivalent capital funds. By January 1, 1992, this requirement shall be increased to twelve million five hundred thousand dollars. By January 1, 1993, this requirement shall be further increased to fifteen million dollars. Such alien insurers must have in force in the United States an irrevocable trust account, in a qualified United States financial institution, on behalf of United States policyholders of not less than two million five hundred thousand dollars and consisting of cash, securities, letters of credit, or investments of substantially the same character and quality as those which are eligible investments for the capital and statutory reserves of admitted insurers authorized to write like kinds of insurance in this state. There must be on file with the commissioner a copy of the trust, certified by the trustee, evidencing a subsisting trust deposit having an expiration date which at no time shall be less than five years after the date of creation of the trust. Such trust fund shall be included in the calculation of the insurer’s capital and surplus or its equivalents; or

(d) Any insurance exchange created by the laws of an individual state, maintaining capital and surplus, or substantially equivalent capital funds of less than fifty million dollars in the aggregate. For insurance exchanges which maintain funds for the protection of all insurance exchange policyholders, each individual syndicate shall maintain minimum capital and surplus, or the substantial equivalent thereof, of not less than six million dollars. In the event the insurance exchange does not maintain funds for the protection of all insurance exchange policyholders, each individual syndicate shall meet the minimum capital and surplus requirements of (a) of this subsection.

(2) The commissioner may, by rule ((and regulation;)): 
(a) Increase the financial requirements under subsection (1) of this section by not more than one million dollars in any twelve-month period, but in no case may the requirements exceed fifteen million dollars; or

CHAPTER 6
[Engrossed House Bill 2231]
FIRE PROTECTION SPRINKLER SYSTEM
CONTRACTORS—SURETY BOND REQUIREMENTS
Effective Date: 6/30/91

AN ACT Relating to the surety bond required from fire protection sprinkler system contractors; adding a new section to chapter 18.160 RCW; repealing RCW 18.160.060; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. A new section is added to chapter 18.160 RCW to read as follows:

(1) Before granting a license under this chapter, the director of fire protection shall require that the applicant file with the state director of fire protection a surety bond issued by a surety insurer who meets the requirements of chapter 48.28 RCW in a form acceptable to the director of fire protection running to the state of Washington in the penal sum of ten thousand dollars. However, the surety bond for a fire protection sprinkler system contractor whose business is restricted solely to NFPA 13-D or NFPA 13-R systems shall be in the penal sum of six thousand dollars. The bond shall be conditioned that the applicant will pay all purchasers of fire protection sprinkler systems with whom the applicant has a contract for the applicant to install, inspect, maintain, or service a fire protection sprinkler system, and who have obtained a judgment against the applicant for the breach of such a contract. The term "purchaser" means an owner of property who has entered into a contract for the installation of a fire protection sprinkler system on that property, or a contractor who
contracts to install, inspect, maintain, or service such a system with an owner of property and subcontracts the work to the applicant. No other person, including, but not limited to, persons who supply labor, materials, or rental equipment to the applicant, shall have any rights against the bond.

(2) In lieu of the surety bond required by this section the applicant may file with the director of fire protection a deposit consisting of cash or other security acceptable to the director of fire protection in an amount equal to the penal sum of the required bond. The director of fire protection may adopt rules necessary for the proper administration of the security.

(3) Before granting renewal of a fire protection sprinkler system contractor’s license to any applicant, the director of fire protection shall require that the applicant file with the director satisfactory evidence that the surety bond or cash deposit is in full force.

(4) Any purchaser of a fire protection sprinkler system having a claim against the licensee for the breach of a contract for the licensee to install, inspect, maintain, or service a fire protection sprinkler system may bring suit upon such bond in superior court of the county in which the work was done or of any county in which jurisdiction of the licensee may be had. Any such action must be brought not later than one year after the expiration of the licensee’s license or renewal license then in effect at the time of the alleged breach of contract.

(5) The bond shall be considered one continuous obligation, and the surety upon the bond shall not be liable in aggregate or cumulative amount exceeding ten thousand dollars, or six thousand dollars if the bond was issued to a licensee whose business is restricted solely to NFPA 13-D or NFPA 13-R systems, regardless of the number of years the bond is in effect, or whether it is reinstated, renewed, reissued, or otherwise continued, and regardless of the year in which any claim accrued. The bond shall not be liable for any liability of the licensee for tortious acts, whether or not such liability is imposed by statute or common law, or is imposed by contract. The bond shall not be a substitute or supplemental to any liability or other insurance required by law or by the contract.

(6) If the surety desires to make payment without awaiting court action against it, the amount of the bond shall be reduced to the extent of any payment made by the surety in good faith under the bond. Any payment shall be based on final judgments received by the surety.

(7) Claims against the bond shall be satisfied from the bond in the following order:

(a) Claims by a purchaser of a fire protection sprinkler system for the breach of a contract for the licensee to install, inspect, maintain, or service a fire protection sprinkler system;

(b) Any court costs, interest, and attorneys’ fees the plaintiff may be entitled to recover by contract, statute, or court rule.

A condition precedent to the surety being liable to any claimant is a final judgment against the licensee, unless the surety desires to make payment without
awaiting court action. In the event of a dispute regarding the apportionment of
the bond proceeds among claimants, the surety may bring an action for
interpleader against all claimants upon the bond.

(8) Any purchaser of a fire protection sprinkler system having an unsatisfied
final judgment against the licensee for the breach of a contract for the licensee
to install, inspect, maintain, or service a fire protection sprinkler system may

Sec. 16. RCW 74.46.481 and 1990 c 207 s 1 are each amended to read as follows:

(1) The nursing services cost center shall include all costs related to the direct provision of nursing and related care, including fringe benefits and payroll taxes for the nursing and related care personnel. For rates effective for state fiscal year 1984, the department shall adopt by administrative rule a definition of "related care" which shall incorporate, but not exceed services reimbursable as of June 30, 1983. For rates effective for state fiscal year 1985, the definition of related care shall include ancillary care. For rates effective after June 30, 1991, nursing services costs, as reimbursed within this chapter and as tested for reasonableness within this section, shall not include costs of any purchased
(2) The department shall adopt by administrative rules a method for establishing a nursing services cost center rate consistent with the principles stated in this section.

(3) Utilizing regression or other statistical technique, the department shall determine a reasonable limit on facility nursing staff taking into account facility patient characteristics. For purposes of this section, facility nursing staff refers to registered nurses, licensed practical nurses and nursing assistants employed by the facility or obtained through temporary labor contract arrangements. Effective January 1, 1988, the hours associated with the training of nursing assistants and the supervision of that training for nursing assistants shall not be included in the calculation of facility nursing staff. In selecting a measure of patient characteristics, the department shall take into account:

(a) The correlation between alternative measures and facility nursing staff; and

(b) The cost of collecting information for and computation of a measure.

If regression is used, the limit shall be set at predicted nursing staff plus 1.75 regression standard errors. If another statistical method is utilized, the limit shall be set at a level corresponding to 1.75 standard errors above predicted staffing computed according to a regression procedure.

(4) No facility shall receive reimbursement for nursing staff levels in excess of the limit, except that, if a facility was reimbursed for a nursing staff level in excess of the limit as of June 30, 1983, the facility may choose to continue to receive its June, 1983 nursing services rate plus any adjustments in rates, such as adjustments for economic trends, made available to all facilities. However, nursing staff levels established under subsection (3) of this section shall not apply to the nursing services cost center reimbursement rate for the pilot facility especially designed to meet the needs of persons living with AIDS as defined by RCW 70.24.017 and specifically authorized for this purpose under the 1989 amendment to the Washington state health plan [1989 1st ex.s. c 9]. The reasonableness limit established pursuant to this subsection shall remain in effect for the period July 1, 1983 through June 30, 1985. At that time the department may revise the measure of patient characteristics or method used to establish the limit.

(5) The department shall select an index of cost increase relevant to the nursing and related services cost area. In the absence of a more representative index, the department shall use the medical care component index as maintained by the United States bureau of labor statistics.

(6) If a facility's nursing staff level is below the limit specified in subsection (3) of this section, the department shall determine the percentage increase for all
items included in the nursing services cost center between the facility’s most recent cost reporting period and the next prior cost reporting period.

(a) If the percentage cost increase for a facility is below the increase in the selected index for the same time period, the facility’s reimbursement rate in the nursing services cost center shall equal the facility’s cost from the most recent cost reporting period plus any allowance for inflation provided by legislative appropriation.

(b) If the percentage cost increase for a facility exceeds the increase in the selected index, the department shall limit the cost used for setting the facility’s rate in the nursing services cost area to a level reflecting the increase in the selected index.

(7) If the facility’s nursing staff level exceeds the reasonableness limit established in subsection (3) of this section, the department shall determine the increase for all items included in the nursing services cost center between the facility’s most recent cost reporting period and the next prior cost reporting period.

(a) If the percentage cost increase for a facility is below the increase in the index selected pursuant to subsection (5) of this section, the facility’s reimbursement rate in the nursing cost center shall equal the facility’s cost from the most recent cost reporting period adjusted downward to reflect the limit on nursing staff, plus any allowance for inflation provided by legislative appropriation subject to the provisions of subsection (4) of this section.

(b) If the percentage cost increase for a facility exceeds the increase in the selected index, the department shall limit the cost used for setting the facility’s rate in the nursing services cost center to a level reflecting the nursing staff limit and the cost increase limit, subject to the provisions of subsection (4) of this section, plus any allowance for inflation provided by legislative appropriation.

(8) Prospective rates for the nursing services cost center, for state fiscal year 1992 only, shall not be subject to the cost growth index lid in subsections (5), (6), and (7) of this section. The lid shall apply for state fiscal year 1991 rate setting and all state fiscal years subsequent to fiscal year 1992.

(9) The department is authorized to determine on a systematic basis facilities with unmet patient care service needs. The department may increase the nursing services cost center prospective rate for a facility beyond the level determined in accordance with subsection (6) of this section if the facility’s actual and reported nursing staffing is one standard error or more below predicted staffing as determined according to the method selected pursuant to subsection (3) of this section and the facility has unmet patient care service needs: PROVIDED, That prospective rate increases authorized by this subsection shall be funded only from legislative appropriations made for this purpose and the increases shall be conditioned on specified improvements in patient care at such facilities.

(((9)))) (10) The department shall establish a method for identifying patients with exceptional care requirements and a method for establishing or negotiating on a consistent basis rates for such patients.

(((40)))) (11) The department, in consultation with interested parties, shall adopt rules to establish the criteria the department will use in reviewing any
requests by a contractor for a prospective rate adjustment to be used to increase
the number of nursing staff. These rules shall also specify the time period for
submission and review of staffing requests: PROVIDED, That a decision on a
staffing request shall not take longer than sixty days from the date the
department receives such a complete request. In establishing the criteria, the
department may consider, but is not limited to, the following:
(a) Increases in acuity levels of contractors' residents;
(b) Staffing patterns for similar facilities;
(c) Physical plant of contractor; and
(d) Survey, inspection of care, and department consultation results.

Sec. 17. RCW 74.46.530 and 1985 c 361 s 17 are each amended to read as
follows:
(1) The department shall establish for individual facilities return on
investment allowances composed of two parts: A financing allowance and a
variable return allowance.
(a) The financing allowance shall be determined by multiplying the net
invested funds of each facility by \((\frac{44}{4}) .10\), and dividing by the contractor's
total patient days. If a capitalized addition or retirement of an asset will result
in a different licensed bed capacity during the ensuing period, the prior period
total patient days used in computing the financing and variable return allowances
shall be adjusted to the anticipated patient day level.
(b) In computing the portion of net invested funds representing the net book
value of tangible fixed assets, the same assets, depreciation bases, lives, and
methods referred to in RCW 74.46.330, 74.46.350, 74.46.360, (and)) 74.46.370,
and 74.46.380, including owned and leased assets, shall be utilized, except that
the capitalized cost of land upon which the facility is located and such other
contiguous land which is reasonable and necessary for use in the regular course
of providing patient care shall also be included. Subject to provisions and
limitations contained in this chapter, for land purchased by owners or lessors
before July 18, 1984, capitalized cost of land shall be the buyer's capitalized
cost. For all partial or whole rate periods after July 17, 1984, if the land is
purchased after July 17, 1984, capitalized cost shall be that of the owner of
record on July 17, 1984, or buyer's capitalized cost, whichever is lower. In the
case of leased facilities where the net invested funds are unknown or the
contractor is unable to provide necessary information to determine net invested
funds, the secretary shall have the authority to determine an amount for net
invested funds based on an appraisal conducted according to RCW 74.46.360(1).
(c) In determining the variable return allowance:
(i) The department will first rank all facilities in numerical order from
highest to lowest according to their average per diem allowable costs for the sum
of the administration and operations and property cost centers for the previous
cost report period.
(ii) The department shall then compute the variable return allowance by
multiplying the appropriate percentage amounts, which shall not be less than one
percent and not greater than four percent, by the total prospective rate for each
facility, as determined in RCW 74.46.450 through 74.46.510. The percentage

[2374]
amounts will be based on groupings of facilities according to the rankings as established in ((subparagraph (1)(b)(ii)) (i) of this ((section)) subsection (1)(c). Those groups of facilities with lower per diem costs shall receive higher percentage amounts than those with higher per diem costs.

(d) The sum of the financing allowance and the variable return allowance shall be the return on investment for each facility, and shall be added to the prospective rates of each contractor as determined in RCW 74.46.450 through 74.46.510.

(e) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm’s-length agreement, which continues to be leased under the same lease agreement, and for which the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor’s total patient days, minus the property cost center determined according to RCW 74.46.510, is more than the return on investment allowance determined according to subsection (1)(d) of this section, the following shall apply:

(i) The financing allowance shall be recomputed substituting the fair market value of the assets as of January 1, 1982, as determined by the department of general administration through an appraisal procedure, less accumulated depreciation on the lessor’s assets since January 1, 1982, for the net book value of the assets in determining net invested funds for the facility. A determination by the department of general administration of fair market value shall be final unless the procedure used to make such determination is shown to be arbitrary and capricious.

(ii) The sum of the financing allowance computed under subsection (1)(e)(i) of this section and the variable allowance shall be compared to the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor’s total patient days, minus the property cost center determined according to RCW 74.46.510. The lesser of the two amounts shall be called the alternate return on investment allowance.

(iii) The return on investment allowance determined according to subsection (1)(d) of this section or the alternate return on investment allowance, whichever is greater, shall be the return on investment allowance for the facility and shall be added to the prospective rates of the contractor as determined in RCW 74.46.450 through 74.46.510.

(f) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm’s-length agreement, if the lease is renewed or extended pursuant to a provision of the lease, the treatment provided in subsection (1)(e) of this section shall be applied except that in the case of renewals or extensions made subsequent to April 1, 1985, reimbursement for the annualized lease payment shall be no greater than the reimbursement for the annualized lease payment for the last year prior to the renewal or extension of the lease.

(2) In the event that the department of health and human services disallows the application of the return on investment allowances to nonprofit facilities, the department shall modify the measurements of net invested funds used for
computing individual facility return on investment allowances as follows: Net invested funds for each nonprofit facility shall be multiplied by one minus the ratio of equity funds to the net invested funds of all nonprofit facilities.

(3) Each biennium, beginning in 1985, the secretary shall review the adequacy of return on investment allowances in relation to anticipated requirements for maintaining, reducing, or expanding nursing care capacity. The secretary shall report the results of such review to the legislature and make recommendations for adjustments in the return on investment rates utilized in this section, if appropriate.

Sec. 18. RCW 74.46.360 and 1989 c 372 s 14 are each amended to read as follows:

(1) For all partial or whole rate periods after December 31, 1984, the cost basis of land and depreciation base of depreciable assets shall be the historical cost of the contractor or lessor, when the assets are leased by the contractor, in acquiring the asset in an arm’s-length transaction and preparing it for use, less goodwill, and less accumulated depreciation, if applicable, which has been incurred during periods that the assets have been used in or as a facility by any contractor, such accumulated depreciation to be measured in accordance with subsections (2), (3), and (4) of this section and RCW 74.46.350 and 74.46.370. If the department challenges the historical cost of an asset, or if the contractor cannot or will not provide the historical costs, the department will have the department of general administration, through an appraisal procedure, determine the fair market value of the assets at the time of purchase. The cost basis of land and depreciation base of depreciable assets will not exceed such fair market value.

(2) The historical cost of depreciable and nondepreciable donated assets, or of depreciable and nondepreciable assets received through testate or intestate distribution, shall be the lesser of:

(a) Fair market value at the date of donation or death; or

(b) The historical cost base of the owner last contracting with the department, if any.

(3) Estimated salvage value of acquired, donated, or inherited assets shall be deducted from historical cost where the straight-line or sum-of-the-years’ digits method of depreciation is used.

(4) (a) Where land or depreciable assets are acquired that were used in the medical care program subsequent to January 1, 1980, the cost basis or depreciation base of the assets will not exceed the net book value which did exist or would have existed had the assets continued in use under the previous contract with the department; except that depreciation shall not be assumed to accumulate during periods when the assets were not in use in or as a facility.

(b) The provisions of (a) of this subsection shall not apply to the most recent arm’s-length acquisition if it occurs at least ten years after the ownership of the assets has been previously transferred in an arm’s-length transaction nor to the first arm’s-length acquisition that occurs after January 1, 1980, for facilities participating in the medical care program prior to January 1, 1980. The new cost basis or depreciation base for such acquisitions shall not exceed the fair market
value of the assets as determined by the department of general administration through an appraisal procedure. A determination by the department of general administration of fair market value shall be final unless the procedure used to make such determination is shown to be arbitrary and capricious. For all partial or whole rate periods after July 17, 1984, this subsection is inoperative for any transfer of ownership of any asset, depreciable or nondepreciable, occurring on or after July 18, 1984, leaving (a) of this subsection to apply alone to such transfers: PROVIDED, HOWEVER, That this subsection shall apply to transfers of ownership of assets occurring prior to January 1, 1985, if the costs of such assets have never been reimbursed under medicaid cost reimbursement on an owner-operated basis or as a related-party lease: PROVIDED FURTHER, That for any contractor that can document in writing an enforceable agreement for the purchase of a nursing home dated prior to July 18, 1984, and submitted to the department prior to January 1, 1988, the cost basis of allowable land and the depreciation base of the nursing home, for rates established after July 18, 1984, shall not exceed the fair market value of the assets at the date of purchase as determined by the department of general administration through an appraisal procedure. For medicaid cost reimbursement purposes, an agreement to purchase a nursing home dated prior to July 18, 1984, is enforceable, even though such agreement contains no legal description of the real property involved, notwithstanding the statute of frauds or any other provision of law.

(c) In the case of land or depreciable assets leased by the same contractor since January 1, 1980, in an arm's-length lease, and purchased by the lessee/contractor, the lessee/contractor shall have the option:

(i) To have the provisions of subsection (b) of this section apply to the purchase; or

(ii) To have the reimbursement for property and return on investment continue to be calculated pursuant to the provisions contained in RCW 74.46.530(1) (e) and (i) based upon the provisions of the lease in existence on the date of the purchase, but only if the purchase date meets one of the following criteria:

(A) The purchase date is after the lessor has declared bankruptcy or has defaulted in any loan or mortgage held against the leased property;

(B) The purchase date is within one year of the lease expiration or renewal date contained in the lease;

(C) The purchase date is after a rate setting for the facility in which the reimbursement rate set pursuant to this chapter no longer is equal to or greater than the actual cost of the lease; or

(D) The purchase date is within one year of any purchase option in existence on January 1, 1988.

(d) For all rate periods past or future where land or depreciable assets are acquired from a related organization, the contractor's cost basis and depreciation base shall not exceed the base the related organization had or would have had under a contract with the department.

(e) Where the land or depreciable asset is a donation or distribution between related organizations, the cost basis or depreciation base shall be the lesser of (i)
fair market value, less salvage value, or (ii) the cost basis or depreciation base
the related organization had or would have had for the asset under a contract
with the department.

Sec. 19. RCW 74.46.700 and 1980 c 177 s 70 are each amended to read as
follows:

(((4))) Each ((contractor)) nursing home shall establish and maintain, as a
service to the ((medical care recipient)) resident, a bookkeeping system
incorporated into the business records for all ((recipient)) resident moneys
entrusted to the contractor and received by the facility for the ((recipient))
resident.

(((2))) Such system will apply to a recipient who is:
(a) In capable of handling his or her own money and the department or the
recipient's guardian, relative, or physician makes written request of the facility
to accept this responsibility; or
(b) Capable of handling his or her own money, but requests the facility in
writing to accept this responsibility.

(3) The written requests provided in subsection (2) of this section shall be
maintained by the contractor in the recipient's file.

(4) The recipient must be given at least a quarterly reporting of all financial
transactions in his or her trust account. The representative payee, the guardian,
and/or other designated agents of the recipient must be sent a copy of said
reporting on the same basis as the recipient

The department shall adopt rules to ensure that resident personal funds
handled by the facility are maintained by each nursing home in a manner that is,
at a minimum, consistent with federal requirements.

PUBLIC ASSISTANCE—ELIGIBILITY BASED ON INCAPACITY—REVISED REQUIREMENTS
Effective Date: 7/1/91

AN ACT Relating to public assistance; amending RCW 74.04.005; providing an effective date; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

Sec. 1. RCW 74.04.005 and 1991 c 126 s 1 are each amended to read as follows:

For the purposes of this title, unless the context indicates otherwise, the following definitions shall apply:

[2382]
(1) "Public assistance" or "assistance"—Public aid to persons in need thereof for any cause, including services, medical care, assistance grants, disbursing orders, work relief, general assistance and federal-aid assistance.

(2) "Department"—The department of social and health services.

(3) "County or local office"—The administrative office for one or more counties or designated service areas.

(4) "Director" or "secretary" means the secretary of social and health services.

(5) "Federal-aid assistance"—The specific categories of assistance for which provision is made in any federal law existing or hereafter passed by which payments are made from the federal government to the state in aid or in respect to payment by the state for public assistance rendered to any category of needy persons for which provision for federal funds or aid may from time to time be made, or a federally administered needs-based program.

(6)(a) "General assistance"—Aid to persons in need who:

(i) Are not eligible to receive federal-aid assistance, other than food stamps and medical assistance; however, an individual who refuses or fails to cooperate in obtaining federal-aid assistance, without good cause, is not eligible for general assistance;

(ii) Are either:

(A) Pregnant: PROVIDED, That need is based on the current income and resource requirements of the federal aid to families with dependent children program: PROVIDED FURTHER, That during any period in which an aid for dependent children employable program is not in operation, only those pregnant women who are categorically eligible for medicaid are eligible for general assistance; or

(B) Incapacitated from gainful employment by reason of bodily or mental infirmity that will likely continue for a minimum of ((sixty)) ninety days as determined by the department. Persons who are unemployable due to alcohol or drug addiction are not eligible for general assistance. Persons receiving general assistance on July 26, 1987, or becoming eligible for such assistance thereafter, due to an alcohol or drug-related incapacity, shall be referred to appropriate assessment, treatment, shelter, or supplemental security income referral services as authorized under chapter 74.50 RCW. Referrals shall be made at the time of application or at the time of eligibility review. Alcoholic and drug addicted clients who are receiving general assistance on July 26, 1987, may remain on general assistance if they otherwise retain their eligibility until they are assessed for services under chapter 74.50 RCW. This subsection (6)(a)(ii)(B) shall not be construed to prohibit the department from granting general assistance benefits to alcoholics and drug addicts who are incapacitated due to other physical or mental conditions that meet the eligibility criteria for the general assistance program;

(iii) Are citizens or aliens lawfully admitted for permanent residence or otherwise residing in the United States under color of law; and
(iv) Have furnished the department their social security account number. If the social security account number cannot be furnished because it has not been issued or is not known, an application for a number shall be made prior to authorization of assistance, and the social security number shall be provided to the department upon receipt.

(b) Notwithstanding the provisions of subsection (6)(a)(i), (ii), and (c) of this section, general assistance shall be provided to the following recipients of federal-aid assistance:

(i) Recipients of supplemental security income whose need, as defined in this section, is not met by such supplemental security income grant because of separation from a spouse; or

(ii) To the extent authorized by the legislature in the biennial appropriations act, to recipients of aid to families with dependent children whose needs are not being met because of a temporary reduction in monthly income below the entitled benefit payment level caused by loss or reduction of wages or unemployment compensation benefits or some other unforeseen circumstances. The amount of general assistance authorized shall not exceed the difference between the entitled benefit payment level and the amount of income actually received.

(c) General assistance shall be provided only to persons who are not members of assistance units receiving federal aid assistance, except as provided in subsection (6)(a)(ii)(A) and (b) of this section, and will accept available services which can reasonably be expected to enable the person to work or reduce the need for assistance unless there is good cause to refuse. Failure to accept such services shall result in termination until the person agrees to cooperate in accepting such services and subject to the following maximum periods of ineligibility after reapplication:

(i) First failure: One week;

(ii) Second failure within six months: One month;

(iii) Third and subsequent failure within one year: Two months.

(d) The department shall adopt by rule medical criteria for general assistance eligibility to ensure that eligibility decisions are consistent with statutory requirements and are based on clear, objective medical information.

(e) The process implementing the medical criteria shall involve consideration of opinions of the treating or consulting physicians or health care professionals regarding incapacity, and any eligibility decision which rejects uncontroverted medical opinion must set forth clear and convincing reasons for doing so.

(f) Recipients of general assistance based upon a finding of incapacity from gainful employment who remain otherwise eligible shall not have their benefits terminated absent a clear showing of material improvement in their medical or mental condition or specific error in the prior determination that found the recipient eligible by reason of incapacitation. Recipients of general assistance based upon pregnancy who relinquish their child for adoption, remain otherwise eligible, and are not eligible to receive benefits under the federal aid to families
with dependent children program shall not have their benefits terminated until the end of the month in which the period of six weeks following the birth of the recipient’s child falls. Recipients of the federal aid to families with dependent children program who lose their eligibility solely because of the birth and relinquishment of the qualifying child may receive general assistance through the end of the month in which the period of six weeks following the birth of the child falls.

(7) "Applicant"—Any person who has made a request, or on behalf of whom a request has been made, to any county or local office for assistance.

(8) "Recipient"—Any person receiving assistance and in addition those dependents whose needs are included in the recipient’s assistance.

(9) "Standards of assistance"—The level of income required by an applicant or recipient to maintain a level of living specified by the department.

(10) "Resource"—Any asset, tangible or intangible, owned by or available to the applicant at the time of application, which can be applied toward meeting the applicant’s need, either directly or by conversion into money or its equivalent: PROVIDED, That an applicant may retain the following described resources and not be ineligible for public assistance because of such resources.

(a) A home, which is defined as real property owned and used by an applicant or recipient as a place of residence, together with a reasonable amount of property surrounding and contiguous thereto, which is used by and useful to the applicant. Whenever a recipient shall cease to use such property for residential purposes, either for himself or his dependents, the property shall be considered as a resource which can be made available to meet need, and if the recipient or his dependents absent themselves from the home for a period of ninety consecutive days such absence, unless due to hospitalization or health reasons or a natural disaster, shall raise a rebuttable presumption of abandonment: PROVIDED, That if in the opinion of three physicians the recipient will be unable to return to the home during his lifetime, and the home is not occupied by a spouse or dependent children or disabled sons or daughters, such property shall be considered as a resource which can be made available to meet need.

(b) Household furnishings and personal effects and other personal property having great sentimental value to the applicant or recipient, as limited by the department consistent with limitations on resources and exemptions for federal aid assistance.

(c) A motor vehicle, other than a motor home, used and useful having an equity value not to exceed one thousand five hundred dollars.

(d) All other resources, including any excess of values exempted, not to exceed one thousand dollars or other limit as set by the department, to be consistent with limitations on resources and exemptions necessary for federal aid assistance.

(e) Applicants for or recipients of general assistance may retain the following described resources in addition to exemption for a motor vehicle or home and not be ineligible for public assistance because of such resources:
(i) Household furnishings, personal effects, and other personal property having great sentimental value to the applicant or recipient;

(ii) Term and burial insurance for use of the applicant or recipient;

(iii) Life insurance having a cash surrender value not exceeding one thousand five hundred dollars; and

(iv) Cash, marketable securities, and any excess of values above one thousand five hundred dollars equity in a vehicle and above one thousand five hundred dollars in cash surrender value of life insurance, not exceeding one thousand five hundred dollars for a single person or two thousand two hundred fifty dollars for a family unit of two or more. The one thousand dollar limit in subsection (10)(d) of this section does not apply to recipients of or applicants for general assistance.

(f) If an applicant for or recipient of public assistance possesses property and belongings in excess of the ceiling value, such value shall be used in determining the need of the applicant or recipient, except that: (i) The department may exempt resources or income when the income and resources are determined necessary to the applicant’s or recipient’s restoration to independence, to decrease the need for public assistance, or to aid in rehabilitating the applicant or recipient or a dependent of the applicant or recipient; and (ii) the department may provide grant assistance for a period not to exceed nine months from the date the agreement is signed pursuant to this section to persons who are otherwise ineligible because of excess real property owned by such persons when they are making a good faith effort to dispose of that property: PROVIDED, That:

(A) The applicant or recipient signs an agreement to repay the lesser of the amount of aid received or the net proceeds of such sale;

(B) If the owner of the excess property ceases to make good faith efforts to sell the property, the entire amount of assistance may become an overpayment and a debt due the state and may be recovered pursuant to RCW 43.20B.630;

(C) Applicants and recipients are advised of their right to a fair hearing and afforded the opportunity to challenge a decision that good faith efforts to sell have ceased, prior to assessment of an overpayment under this section; and

(D) At the time assistance is authorized, the department files a lien without a sum certain on the specific property.

(11) "Income"—(a) All appreciable gains in real or personal property (cash or kind) or other assets, which are received by or become available for use and enjoyment by an applicant or recipient during the month of application or after applying for or receiving public assistance. The department may by rule and regulation exempt income received by an applicant for or recipient of public assistance which can be used by him to decrease his need for public assistance or to aid in rehabilitating him or his dependents, but such exemption shall not, unless otherwise provided in this title, exceed the exemptions of resources granted under this chapter to an applicant for public assistance. In determining the amount of assistance to which an applicant or recipient of aid to families

[2386]
with dependent children is entitled, the department is hereby authorized to disregard as a resource or income the earned income exemptions consistent with federal requirements. The department may permit the above exemption of earnings of a child to be retained by such child to cover the cost of special future identifiable needs even though the total exceeds the exemptions or resources granted to applicants and recipients of public assistance, but consistent with federal requirements. In formulating rules and regulations pursuant to this chapter, the department shall define income and resources and the availability thereof, consistent with federal requirements. All resources and income not specifically exempted, and any income or other economic benefit derived from the use of, or appreciation in value of, exempt resources, shall be considered in determining the need of an applicant or recipient of public assistance.

If the member has created a trust for the benefit of the child or children, the payment shall be made to the trust.

Sec. 15. RCW 82.14.200 and 1990 c 42 s 313 are each amended to read as follows:

There is created in the state treasury a special account to be known as the "county sales and use tax equalization account." Into this account shall be placed a portion of all motor vehicle excise tax receipts as provided in RCW 82.44.110(6)). Funds in this account shall be allocated by the state treasurer according to the following procedure:

(1) Prior to April 1st of each year the director of revenue shall inform the state treasurer of the total and the per capita levels of revenues for the unincorporated area of each county and the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties imposing the sales and use tax authorized under RCW 82.14.030(1) for the previous calendar year.

(2) At such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than one hundred fifty thousand dollars from the tax for the previous calendar year, an amount from the county sales and use tax equalization account sufficient, when added to the amount of revenues received the previous calendar year by the county, to equal one hundred fifty thousand dollars.

The department of revenue shall establish a governmental price index as provided in this subsection. The base year for the index shall be the end of the third quarter of 1982. Prior to November 1, 1983, and prior to each November 1st thereafter, the department of revenue shall establish another index figure for the third quarter of that year. The department of revenue may use the implicit price deflators for state and local government purchases of goods and services calculated by the United States department of commerce to establish the governmental price index. Beginning on January 1, 1984, and each January 1st thereafter, the one hundred fifty thousand dollar base figure in this subsection shall be adjusted in direct proportion to the percentage change in the governmental price index from 1982 until the year before the adjustment. Distributions made under this subsection for 1984 and thereafter shall use this adjusted base amount figure.

(3) Subsequent to the distributions under subsection (2) of this section and at such times as distributions are made under RCW 82.44.150, as now or
hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties as determined by the department of revenue under subsection (1) of this section, an amount from the county sales and use tax equalization account sufficient, when added to the per capita level of revenues for the unincorporated area received the previous calendar year by the county, to equal seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties determined under subsection (1) of this section, subject to reduction under subsections (6) and (7) of this section. When computing distributions under this section, any distribution under subsection (2) of this section shall be considered revenues received from the tax imposed under RCW 82.14.030(1) for the previous calendar year.

(4) Subsequent to the distributions under subsection (3) of this section and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (2) of this section, a third distribution from the county sales and use tax equalization account. The distribution to each qualifying county shall be equal to the distribution to the county under subsection (2) of this section, subject to the reduction under subsections (6) and (7) of this section. To qualify for the total distribution under this subsection, the county must impose the tax under RCW 82.14.030(2) for the entire calendar year. Counties imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(5) Subsequent to the distributions under subsection (4) of this section and at such times as distributions are made under RCW 82.44.150, as now or hereafter amended, the state treasurer shall apportion to each county imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (3) of this section, a fourth distribution from the county sales and use tax equalization account. The distribution to each qualifying county shall be equal to the distribution to the county under subsection (3) of this section, subject to the reduction under subsections (6) and (7) of this section. To qualify for the distributions under this subsection, the county must impose the tax under RCW 82.14.030(2) for the entire calendar year. Counties imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(6) Revenues distributed under this section in any calendar year shall not exceed an amount equal to seventy percent of the state-wide weighted average per capita level of revenues for the unincorporated areas of all counties during the previous calendar year. If distributions under subsections (3) through (5) of
this section cannot be made because of this limitation, then distributions under subsections (3) through (5) of this section shall be reduced ratably among the qualifying counties.

(7) If inadequate revenues exist in the county sales and use tax equalization account to make the distributions under subsections (3) through (5) of this section, then the distributions under subsections (3) through (5) of this section shall be reduced ratably among the qualifying counties. At such time during the year as additional funds accrue to the county sales and use tax equalization account, additional distributions shall be made under subsections (3) through (5) of this section to the counties.

(8) If the level of revenues in the county sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5) of this section, then the additional revenues shall be credited and transferred to the state general fund.

(9) All earnings of investments of balances in the county sales and use tax equalization account shall be credited to the general fund.

Sec. 16. RCW 82.14.210 and 1990 2nd ex.s. c 1 s 701 are each amended to read as follows:

Into this account shall be placed such revenues as are provided under RCW 82.44.110((5)) (1)(e). Funds in this account shall be allocated by the state treasurer according to the following procedure:

(1) Prior to January 1st of each year the department of revenue shall determine the total and the per capita levels of revenues for each city and the state-wide weighted average per capita level of revenues for all cities imposing the sales and use tax authorized under RCW 82.14.030(1) for the previous calendar year.

(2) At such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city not imposing the sales and use tax under RCW 82.14.030(2) an amount from the municipal sales and use tax equalization account equal to the amount distributed to the city under RCW 82.44.155, multiplied by thirty-five sixty-fifths.

(3) Subsequent to the distributions under subsection (2) of this section, and at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city imposing the sales and use tax under RCW 82.14.030(1) at the maximum rate and receiving less than seventy percent of the state-wide weighted average per capita level of revenues for all cities as determined by the department of revenue under subsection (1) of this section, an amount from the municipal sales and use tax equalization account sufficient, when added to the per capita level of revenues received the previous calendar year by the city, to equal seventy percent of the state-wide weighted average per
capita level of revenues for all cities determined under subsection (1) of this section, subject to reduction under subsection (6) of this section.

(4) Subsequent to the distributions under subsection (3) of this section, and at such times as distributions are made under RCW 82.44.150, the state treasurer shall apportion to each city imposing the sales and use tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution under subsection (3) of this section, a third distribution from the municipal sales and use tax equalization account. The distribution to each qualifying city shall be equal to the distribution to the city under subsection (3) of this section, subject to the reduction under subsection (6) of this section. To qualify for the distributions under this subsection, the city must impose the tax under RCW 82.14.030(2) for the entire calendar year. Cities imposing the tax for less than the full year shall qualify for prorated allocations under this subsection proportionate to the number of months of the year during which the tax is imposed.

(5) For a city with an official incorporation date after January 1, 1990, municipal sales and use tax equalization distributions shall be made according to the procedures in this subsection. Municipal sales and use tax equalization distributions to eligible new cities shall be made at the same time as distributions are made under subsections (3) and (4) of this section. The department of revenue shall follow the estimating procedures outlined in this subsection until the new city has received a full year's worth of revenues under RCW 82.14.030(1) as of the January municipal sales and use tax equalization distribution.

(a) Whether a newly incorporated city determined to receive funds under this subsection receives its first equalization payment at the January, April, July, or October municipal sales and use tax equalization distribution shall depend on the date the city first imposes the tax authorized under RCW 82.14.030(1).

(i) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of January 1st shall be eligible to receive funds under this subsection beginning with the April municipal sales and use tax equalization distribution of that year.

(ii) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of February 1st, March 1st, or April 1st shall be eligible to receive funds under this subsection beginning with the July municipal sales and use tax equalization distribution of that year.

(iii) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of May 1st, June 1st, or July 1st shall be eligible to receive funds under this subsection beginning with the October municipal sales and use tax equalization distribution of that year.

(iv) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of August 1st, September 1st, or October 1st shall be eligible to receive funds under this subsection beginning with the January municipal sales and use tax equalization distribution of the next year.

(v) A newly incorporated city imposing the tax authorized under RCW 82.14.030(1) effective as of November 1st or December 1st shall be eligible to
receive funds under this subsection beginning with the April municipal sales and use tax equalization distribution of the next year.

(b) For purposes of calculating the amount of funds the new city should receive under this subsection, the department of revenue shall:

(i) Estimate the per capita amount of revenues from the tax authorized under RCW 82.14.030(1) that the new city would have received had the city received revenues from the tax the entire calendar year;

(ii) Calculate the amount provided under subsection (3) of this section based on the per capita revenues determined under (b)(i) of this subsection;

(iii) Prorate the amount determined under (b)(ii) of this subsection by the number of months the tax authorized under RCW 82.14.030(1) is imposed.

(c) A new city imposing the tax under RCW 82.14.030(2) at the maximum rate and receiving a distribution calculated under (b) of this subsection shall receive another distribution from the municipal sales and use tax equalization account. This distribution shall be equal to the calculation made under (b)(ii) of this subsection, prorated by the number of months the city imposes the tax authorized under RCW 82.14.030(2) at the full rate.

(d) The department of revenue shall advise the state treasurer of the amounts calculated under (b) and (c) of this subsection and the state treasurer shall distribute these amounts to the new city from the municipal sales and use tax equalization account subject to the limitations imposed in subsection (6) of this section.

(e) Revenues estimated under this subsection shall not affect the calculation of the state-wide weighted average per capita level of revenues for all cities made under subsection (1) of this section.

(6) If inadequate revenues exist in the municipal sales and use tax equalization account to make the distributions under subsection (3), (4), or (5) of this section, then the distributions under subsections (3), (4), and (5) of this section shall be reduced ratably among the qualifying cities. At such time during the year as additional funds accrue to the municipal sales and use tax equalization account, additional distributions shall be made under subsections (3), (4), and (5) of this section to the cities.

(7) If the level of revenues in the municipal sales and use tax equalization account exceeds the amount necessary to make the distributions under subsections (2) through (5) of this section, then the additional revenues shall be apportioned among the several cities within the state ratably on the basis of population as last determined by the office of financial management: PROVIDED, That no such distribution shall be made to those cities receiving a distribution under subsection (2) of this section.

When an applicant is found to be unqualified for a certificate because of a lack of good character, the board shall furnish the applicant a statement containing the findings of the board and a notice of the applicant's right of appeal;

To such end this section is intended to promote the development of economical and practical alternate agricultural practices to such burning, and to provide for interim regulation of such burning until practical alternates are found.

(1) The department shall approve of a study or studies for the exploration and identification of economical and practical alternate agricultural practices to the open burning of field and turf grasses grown for seed. Prior to the issuance of any permit for such burning under RCW 70.94.650, there shall be collected a fee not to exceed one dollar per acre of crop to be burned. Any such fees received by any authority shall be transferred to the department of ecology. The department of ecology shall deposit all such acreage fees in a special grass seed burning research account, hereby created, in the state treasury. ((All earnings of investments of balances in the special grass seed burning research account shall be credited to the general fund.)) The department shall allocate moneys annually from this account for the support of any approved study or studies as provided for in this subsection. For the conduct of any such study or studies, the department may contract with public or private entities: PROVIDED, That whenever the department of ecology shall conclude that sufficient reasonably available alternates to open burning have been developed, and at such time as all costs of any studies have been paid, the grass seed burning research account shall be dissolved, and any money remaining therein shall revert to the general fund.

The fee collected under this subsection shall constitute the research portion of fees required under RCW 70.94.650 for open burning of grass grown for seed.

(2) Whenever on the basis of information available to it, the department after public hearings have been conducted wherein testimony will be received and considered from interested parties wishing to testify shall conclude that any procedure, program, technique, or device constitutes a practical alternate agricultural practice to the open burning of field or turf grasses grown for seed, the department shall, by order, certify approval of such alternate. Thereafter, in any case which any such approved alternate is reasonably available, the open burning of field and turf grasses grown for seed shall be disallowed and no permit shall issue therefor.

(3) Until approved alternates become available, the department or the authority may limit the number of acres on a pro rata basis among those affected for which permits to burn will be issued in order to effectively control emissions from this source.

(4) Permits issued for burning of field and turf grasses may be conditioned to minimize emissions insofar as practical, including denial of permission to burn during periods of adverse meteorological conditions.

No agency or institution of higher education may receive an appropriation for an amount greater than the refund earned by the agency. Sec. 31. RCW 76.04.630 and 1989 c 362 s 2 and 1989 c 175 s 162 are each reenacted and amended to read as follows:

There is created a landowner contingency forest fire suppression account ((which shall be a separate account)) in the state treasury. Moneys in the account may be spent only as provided in this section. Disbursements from the account shall be on authorization of the commissioner of public lands or the commissioner's designee. The account is subject to the allotment procedure provided under chapter 43.88 RCW, but no appropriation is required for disbursements.

The department may expend from this account such amounts as may be available and as it considers appropriate for the payment of emergency fire costs resulting from a participating landowner fire. The department may, when moneys are available from the landowner contingency forest fire suppression account, expend moneys for summarily abating, isolating, or reducing an extreme fire hazard under RCW 76.04.660. All moneys recovered as a result of the department's actions, from the owner or person responsible, under RCW 76.04.660 shall be deposited in the landowner contingency forest fire suppression account.

When a determination is made that the fire was started by other than a landowner operation, moneys expended from this account in the suppression of such fire shall be recovered from such general fund appropriations as may be available for emergency fire suppression costs. The department shall deposit in the landowner contingency forest fire suppression account any moneys paid out of the account which are later recovered, less reasonable costs of recovery.

This account shall be established and renewed by a special forest fire suppression account assessment paid by participating landowners at a rate to be established by the department, but not to exceed fifteen cents per acre per year for such period of years as may be necessary to establish and thereafter reestablish a balance in the account of three million dollars. The department may establish a minimum assessment for ownership parcels identified in RCW 76.04.610 as paying the minimum assessment. The maximum assessment for these parcels shall not exceed the fees levied on a thirty-acre parcel. There shall be no assessment on each parcel of privately owned lands of less than two acres. The assessments may differ to equitably distribute the assessment based on emergency fire suppression cost experience necessitated by landowner operations. Amounts assessed for this account shall be a lien upon the forest lands with respect to which the assessment is made and may be collected as directed by the

department in the same manner as forest protection assessments. ((This account shall be held by the state treasurer, who is authorized to invest so much of the account as is not necessary to meet current needs. Any interest earned on moneys from the account shall be deposited in and remain a part of the account and shall be computed as part of same in determining the balance thereof. Interfund loans to and from this account are authorized at the current rate of interest as determined by the state treasurer, provided that the effect of the loan is considered for purposes of determining the assessments.)) Payment of emergency costs from this account shall in no way restrict the right of the department to recover costs pursuant to RCW 76.04.495 or other laws.

When the department determines that a forest fire was started in the course of or as a result of a landowner operation, it shall notify the forest fire advisory board of the determination. The determination shall be final, unless, within ninety days of the notification, the forest fire advisory board or any interested party serves a request for a hearing before the department. The hearing shall constitute an adjudicative proceeding under chapter 34.05 RCW, the administrative procedure act, and any appeal shall be in accordance with RCW 34.05.510 through 34.05.598.

Prior to November 1 of each even-numbered year, the state investment board shall determine and certify to the state treasurer and the office of financial management the value of the various funds managed by the investment board in order to determine the proportional liability of the funds for the operating expenses of the state investment board. Pursuant to appropriation, the state treasurer is authorized to transfer such moneys from the various funds managed by the investment board to the state investment board expense account as are necessary to pay the operating expenses of the investment board. The director of ecology shall, in addition to the powers and duties otherwise imposed by law, have the following special powers and duties:

(1) To fulfill the responsibilities of the state under the lease between the state of Washington and the federal government executed September 10, 1964, covering one thousand acres of land lying within the Hanford reservation near Richland, Washington. The department of ecology may sublease to private or public entities all or a portion of the land for specific purposes or activities which are determined, after public hearing, to be in agreement with the terms of the lease and in the best interests of the citizens of the state consistent with any criteria that may be developed as a requirement by the legislature;

(2) To assume the responsibilities of the state under the perpetual care agreement between the state of Washington and the federal government executed July 29, 1965 and the sublease between the state of Washington and the site operator of the Hanford low-level radioactive waste disposal facility. In order to finance perpetual surveillance and maintenance under the agreement and ensure site closure under the sublease, the department of ecology shall impose and collect fees from parties holding radioactive materials for waste management purposes. The fees shall be established by rule adopted under chapter 34.05 RCW and shall be an amount determined by the department of ecology to be necessary to defray the estimated liability of the state. Such fees shall reflect equity between the disposal facilities of this and other states. A site closure account and a perpetual surveillance and maintenance account is hereby created in the state treasury. The site closure account shall be exclusively available to reimburse, to the extent that moneys
are available in the account, the site operator for its costs plus a reasonable profit as agreed by the operator and the state, or to reimburse the state licensing agency and any agencies under contract to the state licensing agency for their costs in final closure and decommissioning of the Hanford low-level radioactive waste disposal facility. If a balance remains in the account after satisfactory performance of closure and decommissioning, this balance shall be transferred to the perpetual surveillance and maintenance account. The perpetual surveillance and maintenance account shall be used exclusively by the state to meet post-closure surveillance and maintenance costs, or for otherwise satisfying surveillance and maintenance obligations. Appropriations are required to permit expenditures and payment of obligations from the site closure account and the perpetual surveillance and maintenance account. All moneys, including earnings from the investment of balances in the site closure and the perpetual surveillance and maintenance account((, less the allocation to the state treasurer's service account, pursuant to RCW 43.88.190 accruing under the authority of this section)) shall be directed to the site closure account until December 31, 1992. Additional moneys specifically appropriated by the legislature or received from any public or private source may be placed in the site closure account and the perpetual surveillance and maintenance account;

(3) To assure maintenance of such insurance coverage by state licensees, lessees, or sublessees as will adequately, in the opinion of the director, protect the citizens of the state against nuclear accidents or incidents that may occur on privately or state-controlled nuclear facilities;

(4) To institute a user permit system and issue site use permits, consistent with regulatory practices, for generators, packagers, or brokers using the Hanford low-level radioactive waste disposal facility. The costs of administering the user permit system shall be borne by the applicants for site use permits. The site use permit fee shall be set at a level that is sufficient to fund completely the executive and legislative participation in activities related to the Northwest Interstate Compact on Low-Level Radioactive Waste Management;

(5) To make application for or otherwise pursue any federal funds to which the state may be eligible, through the federal resource conservation and recovery act or any other federal programs, for the management, treatment or disposal, and any remedial actions, of wastes that are both radioactive and hazardous at all Hanford low-level radioactive waste disposal facilities; and

(6) To develop contingency plans for duties and options for the department and other state agencies related to the Hanford low-level radioactive waste disposal facility based on various projections of annual levels of waste disposal. These plans shall include an analysis of expected revenue to the state in
various taxes and funds related to low-level radioactive waste disposal and the resulting implications that any increase or decrease in revenue may have on state agency duties or responsibilities. The plans shall be updated annually. The department shall report annually on the plans and on the balances in the site closure and perpetual surveillance accounts to the energy and utilities committees of the senate and the house of representatives.

Passed the Senate June 28, 1991.
Approved by the Governor June 30, 1991, with the exception of certain items which were vetoed.
Filed in Office of Secretary of State June 30, 1991.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 123 through 139, Reengrossed Substitute House Bill No. 1058, entitled:

"AN ACT relating to treasurer-managed funds and accounts."

Sections 123-139 effectively negate the deposit interest changes contained in the rest of the bill by restoring existing RCW language at the end of the 1991-93 Biennium. Reengrossed Substitute House Bill No. 1058 was designed to improve consistency in the disposition of interest earnings for Treasury accounts and it makes little sense to abandon this more uniform approach after just two years.

Reengrossed Substitute House Bill No. 1058 also has budget implications by providing additional state General Fund revenue in support of the 1991-93 Omnibus Appropriations Act. These revenues are integral to the statewide balance of revenues and expenditures, and their elimination would unquestionably pose a significant problem to the 1993-95 budget.

The Legislature has the opportunity to reconsider enacted legislation at any time. I can't condone the administrative and budget upheaval that would be created by an automatic reversal of the deposit interest changes that were the original intention of Reengrossed Substitute House Bill No. 1058.

With the exception of sections 123 through 139, Reengrossed Substitute House Bill No. 1058 is approved."
AN ACT Adopting the capital budget; amending RCW 43.168.110; amending section 208, chapter 12, Laws of 1989 1st ex. sess. (uncodified); making appropriations and authorizing expenditures for the capital improvements; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period ending June 30, 1993, out of the several funds specified in this act.

**NEW SECTION.** Sec. 26. **FOR THE PARKS AND RECREATION COMMISSION: TIMBERLAND PURCHASES AND COMMON SCHOOL PURCHASES**

The appropriation in this section is subject to the following conditions and limitations:

(1) This appropriation is provided to the state parks and recreation commission ("commission") solely to acquire trust lands that have been identified by the department of natural resources ("department") as appropriate for state park use and development. Except as specifically otherwise provided in this section, the commission shall acquire the following parcels:

(a) Lord Hill, in Snohomish county, west of Monroe;
(b) Beacon Rock, in Skamania county, adjacent to Beacon Rock State Park;
(c) Larrabee Addition, (1 and 2) in Whatcom county, northeast of Larrabee State Park and Chuckanut Mountain;
(d) South Whidbey, in Island county, adjacent to South Whidbey State Park;
(e) Wallace Falls Addition, in Snohomish county, adjacent to Wallace Falls State Park;
(f) Soleduck corridor, in Clallam county, on the Soleduck river at Sappho;
(g) Dugualia Bay property, in Island county, on the northeast shore of Whidbey Island;
(h) Rasar property, in Skagit county, west of Birdseyeview, near the Skagit river;
(i) Wallace Falls Addition (Northwest) property, in Snohomish county, adjacent to the northwestern side of the designated park property;
(j) Wallace Falls Addition (Southwest) property, in Snohomish county, adjacent to the southwestern side of Wallace Falls State Park;
(k) Hoypus Hill in Island county south of Hoypus Point Natural Forest Area at Deception Pass State Park;
(1) Lake Easton in Easton in Kittitas county west of Lake Easton State park near the town of Easton;
(m) Diamond Point, in Clallam county, on the Strait of Juan de Fuca; and
(n) Skykomish river property, along Highway 2, near Index.

(2) The commission may expend moneys from this appropriation for acquisition of the Skykomish river property under subsection (1)(n) of this section only to the extent that moneys remain available after the commission has made all reasonable efforts to acquire the other properties identified in this subsection.

(3) To achieve the purposes of this section, intergrant exchanges between common school trust lands and parcels of noncommon school trust lands shall occur on an equal-value basis.

(4) Proceeds from the transfer of the timber shall be deposited by the department in the same manner as timber revenues from other common school trust lands.
No deduction may be made for the resource management cost account under RCW 79.64.040. The proceeds from the transfer of the land shall be used by the department to acquire timber land of equal value to be managed as common school trust land and to maintain a sustainable yield.

(5) The department shall attempt to maintain an aggregate ratio of approximately 85:15 timber-to-land value in these transactions. If the aggregate value of timber-to-land varies by more than plus or minus five percent of that ratio, individual land acquisitions may be dropped in order to maintain the approximate ratio.

(6) It is the intent of the legislature that, insofar as feasible, the full parcels identified in subsection (1) of this section be acquired for park purposes. However, to the extent authorized by the commission, the boundaries of the Diamond Point property under subsection (1)(m) of this section may vary from the property boundaries as described in the joint study conducted by the commission and the department under section 4, chapter 163, Laws of 1985.

(a) The reappropriation in this subsection is provided solely for the purchase of unused rail rights of way as authorized by chapter 47.76 RCW and shall not be used for operating expenses of rail systems, programs, or services.

(b) Expenditures shall not be made until the department consults with the chairs and ranking minority members of the house of representatives and senate transportation committees, house of representatives capital facilities committee, and senate ways and means committee, concerning specific railroad rights of way that the department proposes to acquire or assist local governments in acquiring, and as required by chapter 43, Laws of 1990.

(c) The appropriation in this subsection is provided solely to acquire the Stampede Pass rail line and right of way and is subject to the following conditions and limitations:

(i) The department of transportation is directed to negotiate an agreement with the city of Tacoma for the purchase by one or both parties of the rail line and right of way in anticipation of the carrier filing for
abandonment. The department shall reimburse the state building construction account with moneys received under the agreement from the city of Tacoma and the reimbursed moneys shall lapse. The amount to be paid by the city of Tacoma under the agreement shall represent the value of that portion of the rail line and right of way lying within the city’s Green river watershed, as determined by appraisal by the department.

(ii) The department shall not expend this appropriation unless the carrier has filed for abandonment or the department and the carrier have agreed on a purchase price prior to an abandonment filing.

(iii) If the filing of an abandonment application by the carrier precedes the execution of an agreement between the department and the city of Tacoma, the department is directed to purchase the rail line on behalf of the state’s and city of Tacoma’s interest.

(iv) It is the intent of the legislature that, when Interstate Commerce Commission regulations allow, the department shall sell an interest or fee title to the city of Tacoma for that portion of the rail line and right of way lying with the city’s Green river watershed. The first $2,100,000 of the proceeds from the sale shall be deposited in the state building construction account and any additional amount shall be deposited one-third in the essential rail banking account and two-thirds in the state motor vehicle fund. The agreement shall ensure that joint corridor use requirements of the state and the city are met including the protection of the Green river watershed.

(v) This appropriation is contingent upon an appropriation of an additional $2,000,000 being provided in the omnibus transportation appropriations act, Reenacted Substitute House Bill No. 1231 for the department of transportation to acquire the Stampede Pass rail line and/or right of way.

(vi) This appropriation shall not be used for operating expenses of rail systems, programs, or services.

NEW SECTION. Sec. 48. FOR THE ARTS COMMISSION—ART WORK ALLOWANCE POOLING.

One-half of one percent of moneys appropriated in this act for original construction of school plant facilities is provided solely for the purposes of RCW 28A.335.210. One-half of one percent of moneys appropriated in this act for
original construction of any building by any college or university or for any major renovation or remodel work exceeding $200,000 by any college or university is provided solely for the purposes of RCW 28B.1J.027. One-half of one percent of moneys appropriated in this act for original construction of any other public building by a state agency as defined by RCW 43.17.200 is provided solely for the purposes of RCW 43.17.200.

NEW SECTION. Sec. 49. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts.

NEW SECTION. Sec. 50. "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining June 30, 1991, in the 1989-91 biennial appropriations for each project.

NEW SECTION. Sec. 51. To carry out the provisions of this act, the governor may assign responsibility for planning, engineering, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 52. As part of the annual update to the State Facilities and Capital Plan, agencies shall provide information on lease development and lease purchase projects to the office of financial management.

NEW SECTION. Sec. 53. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate committee on ways and means and the house of representatives committee on capital facilities and financing.

NEW SECTION. Sec. 54. Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditure of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs. This section shall not apply to section 12(5) of this act.

NEW SECTION. Sec. 55. Notwithstanding any other provisions of law, for the 1991-93 biennium, transfers of reimbursement by the state treasurer to the general fund from the community college capital projects account for debt service payments made under Title 28B RCW shall occur only after such debt service payment has been made and only to the extent that funds are actually available in the account. Any unpaid reimbursements shall be a continuing obligation against the community college capital projects account until paid. The
state board for community college education need not accumulate any specific balance in the community college capital projects account in anticipation of transfers to reimburse the general fund.

NEW SECTION. Sec. 56. Any capital improvements or capital project involving construction or major expansion of a state office facility, including district headquarters, detachment offices, and off-campus faculty offices, shall be reviewed by the department of general administration for possible consolidation and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

NEW SECTION. Sec. 57. The governor, through the director of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer shall be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account.

For purposes of this section, the governor may find that an amount is in excess of the amount required for the completion of a project only if (1) the project as defined in the notes to the budget document is substantially complete and there are funds remaining or (2) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated herein.

For the purposes of this section, the legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

A report of any transfer effected under this section except emergency projects or any transfer under $250,000 shall be filed with the legislative fiscal committees of the senate and house of representatives by the director of financial management at least thirty days before the date the transfer is effected, and shall report all transfers within thirty days from the date of transfer.

*Sec. 58. RCW 43.168.110 and 1985 c 164 s 11 are each amended to read as follows:

There is established the Washington state development loan fund which shall be an account in the state treasury. All loan payments of principal and interest which are transferred under RCW 43.168.050 shall be deposited into
the account. Moneys in the account may be spent (without) only after legislative appropriation for loans under this chapter. (However) Any expenditures of these moneys shall conform to federal law.

*Sec. 58 was vetoed, see message at end of chapter.

NEW SECTION. Sec. 59. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act referencing this section shall not be expended until the office of financial management has reviewed the agency's programmatic preplanning document and approved continuation of or made changes to the project. The program preplanning document shall include but not be limited to projected workload, site conditions, user requirements, current space available, and an overall budget and cost estimate breakdown in a form prescribed by the office of financial management. The office of financial management shall report to the house of representatives capital facilities committee, the senate ways and means committee, and the legislative transportation committee a listing of the program documents the office has reviewed and approved, changes made to the documents resulting from the review, and the estimated cost changes resulting from the review.

NEW SECTION. Sec. 60. The appropriations in sections 34 through 39 and 44 of this act are subject to the following requirements:

(1) Using a committee that includes one or more students, faculty, and staff with disabilities, each institution of higher education shall identify barriers to physical access on that institution's campuses.

(2) Beginning with its 1993-95 capital budget request, each institution shall incorporate into its capital budget process efforts to reduce physical barriers to access.

NEW SECTION. Sec. 61. The department of information services shall act as lead agency in coordinating video telecommunications services for state agencies. As lead agency, the department shall develop standards and common specifications for leased and purchased telecommunications equipment and assist state agencies in developing a video telecommunications expenditure plan. No agency may spend any portion of any appropriation in this act for new video telecommunication equipment, new video telecommunication transmission, or new video telecommunication programming, or for expanding current video telecommunication systems without first complying with chapter 43.105 RCW, including but not limited to RCW 43.105.041(2), and without first submitting a video telecommunications equipment expenditure plan, in accordance with the policies of the department of information services, for review and assessment by the department of information services under RCW 43.105.052. Before any such expenditure by a public school, a video telecommunications expenditure plan shall be approved by the superintendent of public instruction. The office of the
superintendent of public instruction shall submit the plans to the department of information services in a form prescribed by the department. The office of the superintendent of public instruction shall submit the plans to the department of information services in a form prescribed by the department. The office of the superintendent of public instruction shall coordinate the use of video telecommunications in public schools by providing educational information to local school districts and shall assist local school districts and educational service districts in telecommunications planning and curriculum development. Before any such expenditure by a public institution of postsecondary education, a telecommunications expenditure plan shall be approved by the higher education coordinating board. The higher education coordinating board shall coordinate the use of video telecommunications for instruction and instructional support in postsecondary education, including the review and approval of instructional telecommunications course offerings.

PART 7

To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 1991-93 biennium.

NEW SECTION. Sec. 63. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 64. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

Passed the House June 29, 1991.
Passed the Senate June 28, 1991.
Approved by the Governor June 30, 1991, with the exception of certain items which were vetoed.
Filed in Office of Secretary of State June 30, 1991.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 5, 6(3)(b), (4)(d), 15(4), 19(62), 20(5), 24(17) line 8, page 105, (18) line 25, page 105, (22), line 23, page 106, 30(9)(b)(c)(d)(e), and section 58 of Engrossed Substitute House Bill No. 1427, entitled:

"AN ACT Adopting the capital budget."

My reasons for vetoing these sections are as follows:

Section 5, page 7, Office of the Administrator for the Courts

Section 5 provides for the replacement of the heating-ventilation-air conditioning system in the Olympia eastside building. This building is leased by the state and therefore it would be inappropriate to use bond money to correct building deficiencies.

Section 6(3)(b), page 8 and page 9, Asbestos Removal or Abatement Projects

Subsection 3(b) provides funding to the Office of Financial Management to be allocated to agencies and institutions for asbestos removal or abatement projects with conditions and limitations. While I agree with the Legislature's concern that funding asbestos projects needs a statewide, comprehensive approach, this language is unduly restrictive and does not allow for emergency situations. The federal law requirement applies only to school districts through the Asbestos Hazard Emergency Response Act (AHERA) program and this provision may unduly impact those institutions such as Developmentally Disabled facilities that do not fall within the AHERA requirements. The requirements for evaluation of asbestos projects is more appropriately established through administrative rule.

Section 6(4)(d), page 10, Higher Education Branch Campuses Site Acquisition and Development (90-5-002)

Subsection 4 provides funding for the acquisition and development of sites for branch campuses with conditions and limitations. Subsection (d) requires that the appropriation not be expended for land in the Spokane area until an environmental study indicates the property is free of toxic substances. While I concur with the Legislature that property acquired by the state not contain substances which exceed state and federal toxic standards, it is unreasonable to establish a standard which prohibits the state from acquiring property until it is "totally" free of toxic substance, as such a certification may be impossible for any property.

Section 15(4), page 56, Garfield Barracks

This subsection directs the Office of Financial Management to report to the legislature on the costs of constructing, maintaining, and operating Garfield Barracks using federal Veterans' Affairs funds compared to the cost of using Medicaid Nursing Home funding. This subsection also indicates funds cannot be expended until the agency has sought Medicaid Certification for its existing facilities. The federal Veterans' Administration has indicated that federal funds will not be released for projects with these kinds of provisos. Additionally, to seek Medicaid Certification for the existing facilities before a study has been completed is inappropriate. I am directing the Department of Veterans' Affairs to complete the study of funding alternatives.

Section 19(62), page 89, Olmstead Park

This subsection provides for the revenues generated from the lease of state lands at the park to be used exclusively for the improvements of this park. This language is
unduly prescriptive and limits the Commission's discretion in efficiently administering the state park system.

Section 20(5), page 91, Clear Creek Dam

This subsection provides funding to rebuild the Clear Creek Dam in Yakima County. Although this project has strong local interest, because the benefits from the project are purely local they do not justify state funding. Given the limited nature of state capital dollars this project does not warrant a $1.75 million commitment of state funds.

Section 24(17) line 8, page 105 (18), line 25, page 105, (22), line 23, page 106, Wildlife Reimbursable Bonds

These sections make appropriations for capital projects for the Department of Wildlife and are funded through reimbursable bonds backed by the State Wildlife Account. While use of such funding may be an acceptable policy, it cannot be decided without determining the future amount of General Fund which will be used to fund the Department. The Wildlife Department cannot commit to debt service until there is a resolution to provide sufficient General Fund financing for their operating budget. I am therefore vetoing the appropriations from the Wildlife Reimbursable Construction Account. The agency will scale back these capital projects and complete them to the extent possible within existing funds.

Section 30(9)(b)(c)(d)(e), page 127, Public School Building Construction

Section 30(9) provides funding for school construction subject to conditions. These conditions would effectively gut the log export restriction recently enacted by Congress and implemented by my office. I believe it is a cruel hoax to encourage the export of raw logs overseas at a time we are facing an extreme raw log shortage within our own state. Last month, a judge shut down virtually all new timber sales on Federal lands in Washington state. Consequently, the only supply of logs left for those federally dependent mills will be from state lands. This budget proviso attempts to take that supply away from these mills as well. If successfully implemented, this proviso would effectively snatch thousands of jobs from Washington forest products workers and send those jobs to Japan.

I am vetoing the proviso requiring the Department of Natural Resources to rewrite the rules adopted by my office to implement the state log export restriction. The rules currently in force prohibit the practice of substitution. Substitution is a practice carried out by the large landowning, log-exporting companies of exporting logs from their own lands overseas and then running the export restricted logs through their mills. This practice effectively negates the impact of the export restriction and results in the state subsidizing the big log-exporting companies.

The Department of Natural Resources opposes the substitution prohibition and has expressed a desire to write rules which would allow the big log exporting companies to buy export restricted state logs.

I am vetoing this proviso for three reasons: 1) An effective export restriction is needed during this time of log shortages. 2) Changing the rules will not save the common school construction fund money. It is a federal law which prohibits exports not the state rules. Gutting the rules will merely ensure that the beneficiaries of the law are the big log exporting companies rather than the small and medium sized domestic processors. 3) This proviso is not legal under Federal law. The Federal log export restriction gives the Governor or the legislature the authority to write rules implementing the federal log export restrictions. This federal authority can only be promulgated by the passage of specific authorizing legislation or by an issuance of rules by the Governor. Budget provisos are not a substitute for either of these actions.

Section 58, page 194 and 195, Development Loan Fund

This section amends the development loan fund statute to make principal and interest payments to the fund appropriated. The state appropriation of funds with federal status will not allow the program to comply with federal regulations.

The legislature recognizes the need to address issues remaining unresolved from the 1991 title and registration study required by the legislature and the governor. The intent of the legislature is to better align the fee structure with the costs associated with providing services for the state. Evidence from the 1991 study indicates inequities exist in cost recovery and/or profits realized between large and small county auditors and their subagents. Further, no policy exists regarding how counties treat excess revenues generated from providing this service. The Washington association of counties, the Washington association of county officials, representatives of the subagents, and the department of licensing, under the direction of the legislative transportation committee, shall report to the legislative transportation committee by December 1, 1991, their recommendations for resolving these policy issues and inequities.

The appropriation in this section is subject to the following conditions and limitations:

(1) The marine operating fund is hereby created in the state treasury.

To fund the appropriations in this act, the department shall transfer operating subsidies from the Puget Sound ferry operations account and ferry user revenues from the ferry system revolving account to the marine operating fund.

The department shall transfer moneys from the ferry system revolving account to the marine operating fund so as to minimize the need for revenues from the Puget Sound ferry operations account during June of each respective fiscal year in support of the expenditures necessary for the operation and maintenance of the state ferry system as authorized in this section.

(3) The appropriation contained in this section provides for the compensation
of ferry employees, including increases. The expenditures for compensation paid
to ferry employees during the 1991-93 biennium shall not exceed $135,862,000

dollar amount as prescribed by the office of financial management for salary
increases during the 1991-93 biennium, and a dollar amount as prescribed by the
office of financial management for costs associated with pension amortization

allocated from the governor’s compensation insurance benefits appropriation is
in addition to the appropriation contained in this section and may be used to
increase compensation costs, effective July 1, 1992.

service between Seattle and Bremerton. The transportation commission is
responsible for evaluating other potential passenger-only routes and determining
the location of a new passenger-only route. The transfer of the Seattle/
Bremerton passenger-only vessel to a new route should be implemented as soon as it is feasible.

Funds to be paid to the counties of the state shall be subject to deduction and distribution as follows:

NEW SECTION. Sec. 48. The motor vehicle fund revenues are received at a relatively even flow throughout the year. Expenditures exceed the revenue during the accelerated summer and fall highway construction season, creating a negative cash balance during the heavy construction season. Negative cash balances also may result from the use of state funds to finance federal advance construction projects prior to conversion to federal funding. The legislature recognizes that the department of transportation may require interfund loans or other short-term financing to meet temporary seasonal cash requirements and additional cash requirements to fund federal advance construction projects.
NEW SECTION. Sec. 49. In addition to such other appropriations as are made by this act, there is appropriated to the department of transportation from legally available bond proceeds in the respective construction or building accounts such amounts as are necessary to pay the expenses incurred by the state finance committee in the issuance and sale of the subject bonds.

NEW SECTION. Sec. 50. FOR THE DEPARTMENT OF TRANSPORTATION—TRANSFER

Motor Vehicle Fund—Highway Construction
Stabilization Account Transfer: For
transfer to the Motor Vehicle Fund $ 100,000,000

The appropriation transfer in this section is provided for expenditures pursuant to RCW 46.68.200.

NEW SECTION. Sec. 51. The department of transportation is authorized to undertake federal advance construction projects under the provisions of 23 U.S.C. Sec. 115 in order to maintain progress in meeting approved highway construction and preservation objectives. The legislature recognizes that the use of state funds may be required to temporarily fund expenditures of the federal appropriations for the highway construction and preservation programs for federal advance construction projects prior to conversion to federal funding.

NEW SECTION. Sec. 52. (1) Any public agency including but not limited to transit agencies, cities, counties, and the state department of transportation, awarded contracts from counties or transit agencies for the construction of high occupancy vehicle lanes and related facilities shall use such moneys in addition to, and not as a substitute for, moneys currently used, or planned to be used, for high occupancy vehicle lanes by the public agency receiving the award.

(2) Cities, counties, transit agencies, and the state department of transportation having within their boundaries a portion of the existing or planned high occupancy vehicle system contained in the document dated March 1991, entitled "Puget Sound HOV Core Lane Needs: 2000", shall coordinate programming and operational decisions affecting the high occupancy vehicle system.

NEW SECTION. Sec. 53. To maximize the use of motor vehicle fund revenues, it is the intent of the legislature to encourage sharing of technology, information, and systems where appropriate between transportation agencies.

To facilitate this exchange, the Washington state department of transportation assistant secretary for finance and budget management; Washington state department of transportation chief for management information systems; the Washington state patrol deputy chief, chief of staff; Washington state patrol manager of the computer services division; the department of licensing deputy director and department of licensing assistant director for information systems will meet quarterly to share plans, discuss progress of key projects and to coordinate activities for the common good. Minutes of these meetings will be distributed to the respective agency heads and the legislative transportation committee. Washington state department of transportation will provide staff support and meeting coordination.

[2673]
NEW SECTION. Sec. 54. Agencies shall comply with the following requirements regarding information technology projects if directed to do so by specific appropriation proviso within this act. In addition to these provisos agencies shall comply with all department of information services requirements.

It is the intent of the legislature that information technology projects in state government be managed and completed successfully. Information technology projects should be divided into distinct phases. Each phase of a project should be successfully completed before subsequent phases are commenced, unless an alternative plan is approved by the department of information services, office of financial management, and legislative transportation committee. In addition to the post-implementation review, reviews using oversight and quality assurance measures are to be conducted throughout the project.

The legislature, with recommendations from department of information services and office of financial management, should evaluate each project's scope, duration, and risk in determining whether appropriations should be for a fiscal year or a biennium, and whether specific phases or the entire project can be accomplished within a specified time period.

Work shall not commence on any task in a subsequent phase of a project until the status report for the preceding key decision point has been approved by the department of information services, the office of financial management, and the legislative transportation committee as appropriate.

(1) Scoping process phase. Prior to requesting moneys from the legislature, or as a condition of receiving an appropriation for planning or development of information technology projects, an agency shall complete a project scoping process. The scoping process shall detail the key issues to be addressed by the information technology project. The scoping process shall precede the feasibility study.

The scoping process must define the project's scope; key issues, including business, management, technical and other issues; major objectives; project justifications; project approach; and answer by a test of reasonableness that the project is feasible. The purpose of the scoping process is to provide the legislature, office of financial management, and the department of information services with the high level information that is needed to grant approval to proceed with the project.

(2) The agency shall produce a feasibility study for each information systems project in accordance with published department of information services instructions. In addition to department of information services requirements such studies shall examine and evaluate the costs and benefits of maintaining the status quo, and of the proposed project. The study shall identify if and in what amounts any fiscal savings, costs, and benefits will occur, and what programs or fund sources will be affected. Benefits of information technology projects shall not be limited to fiscal savings, but may include improvements in service delivery by the agency to the citizens of the state. The feasibility study in this section shall be accompanied by the project management plan described in subsection (3) of this section.
The project management plan shall document how the agency will manage the project identified in the feasibility study. The plan shall be an evolving document. Each subsequent phase of the project shall have an updated project management plan submitted as a prerequisite for approval to begin the next phase.

The project management plan shall cover all factors critical to the entire project and shall specifically address management plans for successfully completing the subsequent phase. The project management plan shall address all factors critical to the overall project, including, but not limited to, the following elements:

(a) Project organization: Define agency executive personnel accountable for project success; define oversight and management committee structures; identify key personnel including key positions that are not yet filled; address staffing requirements, including backfilling requirements; and other key resources needed for successful project implementation.

(b) A description of scope change and cost control procedures.

(c) A risk assessment and risk mitigation plan.

(d) A description of project oversight monitoring and quality assurance procedures.

(e) A project workplan: Explaining the appropriately defined phases, key management decision points, scheduling of other activities, and estimated costs for the next phase or phases to be conducted in a specified time period.

(4) Prior to reaching key decision points identified in the relevant project management plan a project status report shall be submitted to the department of information services, the office of financial management, and the legislative transportation committee for each project. Project status reports shall examine and evaluate project management, accomplishments, budget, action to address variances, risk management, cost and benefits analysis, and other aspects critical to completion of a project.

(5) In instances where a project review is requested in accordance with department of information services policies, the reviews shall examine and evaluate: System requirements specifications; scope; system architecture; change controls; documentation; user involvement; training; availability and capability of resources; programming languages and techniques; system inputs and outputs; plans for testing, conversion, implementation, and post-implementation; and other aspects critical to successful construction, integration, and implementation of information technology projects. Copies of written project review reports shall be forwarded to the office of financial management and the legislative transportation committee by the agency.

(6) The agency and the department of information services shall provide the legislative transportation committee and the office of financial management with a written bi-monthly project oversight and risk assessment report for each project that has a specific proviso under this section. The report shall include, but not be limited to, the following: Project name, agency undertaking the project, a description of the project, key project activities during the next sixty to ninety days, base-line cost data, costs to date, schedule to date, risk assessments, risk management, and recommendations.
7 A written post-implementation review report shall be prepared by the agency for each information systems project in accordance with published department of information services instructions. In addition to the information requested pursuant to the department of information services instructions, post-implementation reports shall evaluate the degree to which a project accomplished its major objectives including, but not limited to, a comparison of original cost and benefit estimates to actual costs and benefits achieved. Copies of post-implementation review reports shall be provided to the department of information services, the office of financial management, and the legislative transportation committee.

8 Where major variances in project scope, cost, or risk occur, the sponsoring agency shall inform the department of information services of the change. The director of the sponsoring agency and the director of the department of information services shall jointly report such findings in writing to the legislative transportation committee and office of financial management. A major variance is defined as a budget change in excess of $1,000,000 or ten percent, whichever is lower; an increase in risk category to high; or a change in scope that could result in major change in budget or risk.

*Sec. 54 was vetoed, see message at end of chapter.

*NEW SECTION. Sec. 55. The department of transportation shall identify and coordinate all growth management functions. Such functions shall cease to exist on June 30, 1995.

*Sec. 55 was vetoed, see message at end of chapter.

*NEW SECTION. Sec. 56. The attorney general shall prepare by December 31 of each year, a report to the legislative transportation committee comprising a comprehensive summary of all cases involving tort claims against the department of transportation involving highways that were concluded and closed in the previous calendar year. The report shall include for each case closed:

1 A summary of the factual background of the case;
2 Identification of the attorneys representing the state and the opposing parties;
3 A synopsis of the legal theories asserted and the defenses presented;
4 Whether the case was tried, settled, or dismissed, and in whose favor;
5 The amount of any settlement or verdict reached, and the terms for payment;
6 A summary of all settlement offers made by the parties where a verdict was returned against the state;
7 The approximate number of attorney hours expended by the state on the case, together with the corresponding dollar amount billed therefore; and
8 Such other matters relating to the case as the attorney general deems relevant or appropriate, especially including any comments or recommendations for changes in statute law or agency practice that might effectively reduce the exposure of the state to such tort claims.

*Sec. 56 was vetoed, see message at end of chapter.

The state patrol and the department of licensing shall coordinate their activities when siting facilities. This coordination shall result in the colocation of driver and vehicle licensing and vehicle inspection service facilities whenever possible.

The department and state patrol shall explore alternative state services, such as vehicle emission testing, that would be feasible to collocate in these joint facilities. The department and state patrol shall reach agreement with the department of transportation for the purposes of offering department of transportation permits at these one-stop transportation centers. All services
provided by the department or the state patrol at these transportation service facilities shall be provided at cost to the participating agencies.

In those instances where the community need or the agencies needs do not warrant colocation this proviso shall not apply.

*Sec. 57 was partially vetoed, see message at end of chapter.

*NEW SECTION. Sec. 58. It is the intent of the legislature that a four range, or approximately ten percent, salary increase be effective July 1, 1991, for the transportation technician 2, transportation engineer 2, transportation engineer 5, and right-of-way agent 2 job classes, and all job classes directly indexed to one of those four benchmark job classes.

*Sec. 58 was vetoed, see message at end of chapter.

*NEW SECTION. Sec. 59. A new section is added to chapter 46.68 RCW to read as follows:

(1) All equipment capitalized by the account shall be subject to annual use and depreciation costs in an amount that will recover a replacement value by the time the life cycle has expired for a particular piece of equipment. The account shall be an internal service fund subject to legislative appropriation.

(2) Use and depreciation costs shall be charged to all users of Washington State Patrol equipment, except in those circumstances where the chief of the state patrol deems it necessary to waive those charges.

(3) The state patrol shall propose a replacement schedule and the rate for use, for all equipment to be included in the account.

(4) The state patrol shall report to the legislative transportation committee and the office of financial management by December 1, 1991, on the alternatives for the inclusion of different types of equipment to be included in the state patrol equipment account and on financing alternatives.

The joint select committee shall be chaired by the chair of the legislative transportation committee.

The committee shall, at a minimum, make recommendations as to the following issues: The percentages by which public safety and education account revenues shall be split between the general fund and transportation budgets; the programs that shall be eligible for public safety and education account appropriations; the budget from which each eligible program shall receive its public safety and education account funding, in particular, the superintendent of

Whenever the secretary makes an agreement for any such transfer or conveyance, the secretary shall execute and deliver to the grantee a deed of conveyance, easement, or other instrument, duly acknowledged, as necessary to fulfill the terms of the agreement. All moneys paid to the state of Washington under this section shall be deposited in the essential rail assistance account of the general fund.

2) The department shall first give notice of the sale by publication on the same day of the week for two consecutive weeks, with the first publication at least two weeks before the date of the auction, in a legal newspaper of general circulation in the area where the property to be sold is located. The notice shall be placed in both the legal notices section and the real estate classified section of the newspaper. The notice shall contain a description of the property, the time and place of the auction, and the terms of the sale. The sale may be for cash or by real estate contract.

Any offer to purchase real property under this subsection shall be in writing and may be rejected at any time before written acceptance by the department.

5) Conveyances made under this section shall be by deed executed by the secretary of transportation and shall be duly acknowledged.

The state department of transportation and the local authorities are authorized to reserve all or any portion of any highway under their respective jurisdictions, including any designated lane or ramp, for the exclusive or preferential use of public transportation vehicles or private motor vehicles carrying no fewer than a specified number of passengers when such limitation will increase the efficient utilization of the highway or will aid in the conservation of energy resources. For lanes so designated on the main line of limited access freeways, the required number of occupants in private motor vehicles, other than motorcycles, will be two. If the operating condition of a restricted lane falls below level of service "C" during peak hours for a period of twelve continuous months, as verified by the department, the number of occupants required during peak hours shall be increased to maintain an operating condition of level of service "C". The department shall report any changes in vehicle occupancy requirements to the legislative transportation committee.

There is hereby appropriated from the transportation fund—state to the department of transportation, program C for the period ending June 30, 1993, an additional $15 million for the sole purpose of expediting completion of the HOV core lane system. Regulations authorizing such exclusive or preferential use of a highway facility may be declared to be effective at all times or at specified times of day or on specified days. The department shall evaluate the efficacy of the vehicle occupancy requirements and shall report to the legislative transportation committee by January 1, 1992.

*Sec. 67 was partially vetoed, see message at end of chapter.

Sec. 68. RCW 81.104.100 and 1991 c 318 s 9 are each amended to read as follows:

To assure development of an effective high capacity transportation system, local authorities shall follow the following planning process:

(1) Regional, multimodal transportation planning is the ongoing urban transportation planning process conducted in each urbanized area by its regional transportation planning organization. During this process, regional transportation goals are identified, travel patterns are analyzed, and future land use and travel are projected. The process provides a comprehensive view of the region’s transportation needs but does not select specified modes to serve those needs. The process shall identify a priority corridor or corridors for further study of high capacity transportation facilities if it is deemed feasible by local officials.

(2) High capacity transportation system planning is the detailed evaluation of a range of high capacity transportation system options, including: Do nothing, low capital, and ranges of higher capital facilities. To the extent possible this evaluation shall take into account the urban mass transportation administration’s requirements identified in subsection (3) of this section.

High capacity transportation system planning shall proceed as follows:
(a) Organization and management. The responsible local transit agency or agencies shall define roles for various local agencies, review background information, provide for public involvement, and develop a detailed work plan for the system planning process.

(b) Development of options. Options to be studied shall be developed to ensure an appropriate range of technologies and service policies can be evaluated. A do-nothing option and a low capital option that maximizes the current system shall be developed. Several higher capital options that consider a range of capital expenditures for several candidate technologies shall be developed.

(c) Analysis methods. The local transit agency shall develop reports describing the analysis and assumptions for the estimation of capital costs, operating and maintenance costs, methods for travel forecasting, a financial plan and an evaluation methodology.

(d) The system plan submitted to the voters pursuant to RCW ((81.04.140)) 81.104.140 shall address, but is not limited to the following issues:

(i) Identification of level and types of high capacity transportation services to be provided;
(ii) A plan of high occupancy vehicle lanes to be constructed;
(iii) Identification of route alignments and station locations with sufficient specificity to permit calculation of costs, ridership, and system impacts;
(iv) Performance characteristics of technologies in the system plan;
(v) Patronage forecasts;
(vi) A financing plan describing: Phasing of investments; capital and operating costs and expected revenues; cost-effectiveness represented by a total cost per system rider and new rider estimate; estimated ridership and the cost of service for each individual high capacity line; and identification of the operating revenue to operating expense ratio.

The financing plan shall specifically differentiate the proposed use of funds between high capacity transportation facilities, high occupancy vehicle facilities, and expanded local/feeder service;

(vii) Description of the relationship between the high capacity transportation system plan and adopted land use plans;
(viii) An assessment of social, economic, and environmental impacts; and
(ix) Mobility characteristics of the system presented, including but not limited to: Qualitative description of system/service philosophy and impacts; qualitative system reliability; travel time and number of transfers between selected residential, employment, and activity centers; and system and activity center mode splits.

(3) High capacity transportation project planning is the detailed identification of alignments, station locations, equipment and systems, construction schedules, environmental effects, and costs. High capacity transportation project planning shall proceed as follows: The local transit agency shall analyze and produce information needed for the preparation of environmental impact statements. The impact statements shall address the impact that development of such a system will have on abutting or nearby property owners. The process of identification of alignments and station locations shall include notification of affected property owners by normal legal publication. At minimum, such notification shall include
notice on the same day for at least three weeks in at least two newspapers of
general circulation in the county where such project is proposed. Special notice
of hearings by the conspicuous posting of notice, in a manner designed to attract
public attention; in the vicinity of areas identified for station locations or transfer
sites shall also be provided.

In order to increase the likelihood of future federal funding, the project
planning processes shall follow the urban mass transportation administration's
requirements as described in "Procedures and Technical Methods for Transit
Project Planning", published by the United States department of transportation,
urban mass transportation administration, September 1986, or the most recent
edition. Nothing in this subsection shall be construed to preclude detailed
evaluation of more than one corridor in the planning process.

The department of transportation shall provide system and project planning
review and monitoring in cooperation with the expert review panel identified in
RCW 81.104.110. In addition, the local transit agency shall maintain a
continuous public involvement program and seek involvement of other
government agencies.

NEW SECTION. Sec. 69. The appropriations of moneys and the
designation of funds and accounts by this and other acts of the 1991 legislature
shall be construed in a manner consistent with legislation enacted by the 1985,
1987, and 1989 legislatures to conform state funds and accounts with generally
accepted accounting principles. If any provision of this act or its application to
any person or circumstance is held invalid, the remainder of the act or the
application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 70. This act is necessary for the immediate
preservation of the public peace, health, or safety, or support of the state
government and its existing public institutions, and shall take effect immediately.

Passed the Senate June 27, 1991.
Approved by the Governor June 30, 1991, with the exception of certain
items which were vetoed.
Filed in Office of Secretary of State June 30, 1991.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 35, page 16, lines 13
through 22, 36(1), page 17, lines 12 through 15 beginning with the word "Upon" and
ending with "implementation," 45, 54, 55, 56, 57(2), 58, 59, and section 67, page 44, line
28 beginning with the word "For" through page 45, line 8 ending with the word
"committee" Engrossed Substitute House Bill No. 1231 entitled:

"AN ACT Relating to transportation appropriations."

My reasons for vetoing these sections are as follows:

Section 35, page 16, lines 13 through 22, Department of Personnel Study

Section 35, page 16 lines 13 through 22 directs a joint study conducted by the
Office of Financial Management, the Department of Personnel, and the Department
of Transportation. This study would determine if personnel training, education, recruitment,
and retention services rendered to the Department of Transportation by the Department
of Personnel are sufficient. A comprehensive evaluation of the Department of Personnel
has already been initiated with the findings incorporated in the Work Force 2000 report.
This legislation duplicates that ongoing evaluation of personnel services by the Office of
Financial Management and the Department of Personnel. For several years, my executive request legislation proposing solutions to improving the personnel system has been ignored by the Legislature.

No funding for this study has been provided in either the transportation or operating budgets. I continue my commitment to an overall statewide solution and will direct the Office of Financial Management and Department of Personnel to attempt, to the extent possible within existing resources, to resolve the problems which have been identified.

Section 36(1), page 17, lines 12 through 15, the sentence beginning with the word "Upon" and ending with "implementation." Amtrak Service Improvements

When the transportation revenue bill was developed, there was an agreement that the transit residual was to be left in reserve until a review of priorities and efficiencies were completed. Specifically, the review included the following studies: (1) Programming a Prioritization Study; (2) Cost Responsibility Study; (3) Public Transportation Study. Further, it was envisioned that the results of the Growth Strategy Commission recommendations would be integrated into a multi-modal approach to transportation. The appropriations of the Transportation Fund contained in this section violate this agreement.

Section 36(1) gives the Legislative Transportation Committee the authority to require the Department of Transportation to submit to the committee a program to improve Amtrak service in Washington and to withhold expenditure of funds for program implementation until approval by the Legislative Transportation Committee.

In addition to violating the agreement regarding use of the Transportation Fund, I am vetoing this item because it is an inappropriate application of executive power by the Legislative Transportation Committee. It is inappropriate for the Legislature to delegate to a single committee the authority to adopt or reject a new program and allow it to exercise a legislative veto of these expenditures. Further, this would occur without opportunity for executive review or veto. Clearly, the Legislature and specific committees may require consultation in which clarification of legislative intent can be achieved, but it may not provide the discretion that combines both legislative and executive powers. To do so violates the concept of separation of powers.

Section 45, page 26, Revolving Funds

Section 45 requires that the Legislative Transportation Committee give prior approval for expenditures above what is "assumed" to be included in the transportation budget for services provided through revolving funds to the Washington State Patrol and the Department of Licensing. These services include those provided by the Department of Personnel, tort claim administrative costs and other legal costs, and audit services. This provision oversteps the boundary of legislative authority and would effectively create a legislative veto.

Section 54, pages 31 through 35, Information Technology Projects

Section 54 establishes significant additional requirements for agency information technology projects and increases agency workload without reducing existing reporting and planning requirements. The requirements for planning and reporting that would be established by the proviso overrule the existing process. These additional requirements do not improve the likelihood of project success. The proviso also has the result of establishing different standards for information projects in agencies receiving transportation funding from the standards applied to other agencies, which would increase the difficulty of establishing statewide information sharing. The proviso impinges upon the statutory responsibilities of the Office of Financial Management to conduct the budget process by interposing the Legislative Transportation Committee between an agency budget request and the Office of Financial Management. The establishment of a process by which a legislative committee encroaches upon the budgetary responsibilities of the executive branch is unacceptable.
Section 55, page 35 Growth Management Coordination

Section 55 requires the Department of Transportation to "...identify and coordinate all growth management functions." It further states that "Such functions shall cease to exist on June 30, 1995." This language is vague and the intent unclear.

Section 56, pages 35 and 36, Attorney General Tort Claims

Section 56 subsection (6) contains language that requires the Attorney General to submit in a yearly report to the Legislative Transportation Committee a summary of all settlement offers made by the parties where a verdict is rendered against the state. This provision makes the settlement offers public information. This provides a road map to the state's negotiating strategy which puts the state at a disadvantage against claimant's attorneys. While those who have legitimate tort claims against the state are entitled to reasonable compensation, the state also has an obligation to settle claims without unnecessary and unjustified costs to the taxpayers of the state.

The Attorney General's office has requested a veto of this section based on the concern noted above. The Attorney General's office has also stated its willingness to provide the Committee with a yearly report covering the elements in subsections (1) through (5) and, if additional resources are provided, cost data as specified in subsection (7).

Section 57(2), page 37, State Patrol Headquarters Design

This subsection is unnecessary because funding for this project is included in Engrossed Substitute House Bill No. 1427.

Section 58, page 39, Transportation Salary Increases

This section duplicates the language contained in Section 712(4) of Engrossed Substitute House Bill No. 1330. Unlike the provision in the operating budget, this section contains no funding.

Section 59, page 39 and 40, State Patrol Equipment Account

Section 59 would establish a State Patrol Equipment Account to finance and acquire equipment used for State Patrol highway-related purposes. In this account, users would be charged for depreciation and use of the equipment. The bill would also require the patrol to report to the Legislative Transportation Committee and the Office of Financial Management the kinds of equipment and the replacement schedules to be included in the account and financing alternatives.

Because the critical definitions are not established, this mechanism could result in increased user-fees in advance of a full understanding of the implications to users. These issues need to be worked out before changing state statutes.

Section 67, page 44, line 28 beginning with the word "For" through page 45, line 8 ending with the word "committee." High Occupancy Vehicle Requirement

Section 67 requires two persons as the minimum number of occupants per vehicle for HOV lane use on limited access freeways unless operating conditions in the lane fall below level of service "C" during peak hours over 12 continuous months. The current definition of carpools allowed to use HOV lanes is determined by evaluation of operating conditions. The definition and evaluation are appropriately performed by the Department of Transportation. The public is better served by allowing the Department of Transportation to retain flexibility in this area.

With the exception of sections 35, page 16, lines 13 through 22, 36(1), page 17, lines 12 through 15 beginning with the word "Upon" and ending with "implementation," 45, 54, 55, 56, 57(2), 58, 59, and section 67, page 44, line 28 beginning with the word "For" through page 45, line 8 ending with the word "committee" Engrossed Substitute House Bill No. 1231 is approved."

Sec. 918. RCW 41.60.050 and 1987 c 387 s 4 are each amended to read as follows:

The legislature shall appropriate from the department of personnel service fund for the payment of administrative costs of the productivity board. However, during the 1991-93 fiscal biennium, the administrative costs of the productivity board shall be appropriated from the savings recovery account.

Sec. 919. RCW 43.08.250 and 1985 c 57 s 27 are each amended to read as follows:

The money received by the state treasurer from fees, fines, forfeitures, penalties, reimbursements or assessments by any court organized under Title 3 or 35 RCW, or chapter 2.08 RCW, shall be deposited in the public safety and
education account which is hereby created in the state treasury. The legislature shall appropriate the funds in the account to promote traffic safety education, highway safety, criminal justice training, crime victims' compensation, judicial education, the judicial information system, winter recreation parking, and state game programs. All earnings of investments of balances in the public safety and education account shall be credited to the general fund. During the fiscal biennium ending June 30, 1993, the legislature may appropriate moneys from the public safety and education account for the purposes of local jail population data collection under RCW 10.98.130, the department of corrections' county partnership program under RCW 72.09.300, the treatment alternatives to street crimes program, the criminal litigation unit of the attorney general's office, and contracts with county officials to provide support enforcement services.

Sec. 920. RCW 43.09.270 and 1982 c 206 s 1 are each amended to read as follows:

The expense of maintaining and operating the division shall be paid out of the state general fund: PROVIDED, That those expenses directly related to the prescribing of accounting systems, training, maintenance of working capital including reserves for late and uncollectable accounts and necessary adjustments to billings, and field audit supervision, shall be considered as expenses of auditing public accounts within the meaning of RCW 43.09.280 and 43.09.282, and shall be prorated for that purpose equally among all entities directly affected by such service.

During the fiscal biennium ending June 30, 1993, the expense of maintaining and operating the division of municipal corporations shall be paid from the municipal revolving fund under RCW 43.09.282.

Sec. 921. RCW 43.19.1923 and 1987 c 504 s 17 are each amended to read as follows:

There is created within the department of general administration a revolving fund to be known as the (central stores revolving fund), which shall be used for the purchase of supplies and equipment handled or rented through central stores, and the payment of salaries, wages, and other costs incidental to the acquisition, operation, and maintenance of the central stores, and other activities connected therewith, which shall include utilities services. Disbursements from the fund for the purchasing and contract administration activities of the division of purchasing within the department are subject to appropriation and allotment procedures under chapter 43.88 RCW. Disbursements for all other activities within the central stores are not subject to appropriation. The fund shall be credited with all receipts from the rental, sale or distribution of supplies, equipment, and services rendered to the various state agencies. Central stores, utilities services, and other activities within the central stores revolving fund shall be treated as separate operating entities for financial and accounting control. Financial records involving the central stores revolving fund shall be designed
to provide data for achieving maximum effectiveness and economy of each individual activity within the fund.

Sec. 922. RCW 43.51.280 and 1987 c 466 s 2 are each amended to read as follows:

There is hereby created the trust land purchase account in the state treasury. Any revenues accruing to this account shall be used for the purchase of the property described in RCW 43.51.270(3)(a), to include all reasonable costs of acquisition, and a fee interest or such other interest in state trust lands presently used for park purposes as the state parks and recreation commission shall determine and to reimburse the state parks and recreation commission for the cost of collecting such fees beginning with the 1973-75 fiscal biennium. Any funds remaining in the account shall be used for the renovation and redevelopment of state park structures and facilities to extend the original life expectancy or correct damage to the environment of state parks and for the administration, maintenance, and operation of state parks and other state parks programs in the 1991-93 biennium. Thereafter, the funds shall not be used for such purposes until the money in the account satisfies the payment required to be made in the contract for sale of lands in RCW 43.51.270(2), the acquisition of the property described in RCW 43.51.270(3)(a), those amounts necessary to pay for the remaining trust assets of timber situated on the lands described in RCW 43.51.270(2), and for the acquisition of the property described in RCW 43.51.270(3) (b), (c), (d), and (e) and 43.51.270(4) on a schedule satisfactory to the board of natural resources. Payments may be delayed for property described in RCW 43.51.270(3) (b), (c), (d), and (e) until the existing contract for purchase of lands in RCW 43.51.270(2) has been paid off. Payments for the property in RCW 43.51.270(4) may be delayed until contracts for purchase of lands and timber described in RCW 43.51.270 (2) and (3) have been paid off. Payments from the account for those parcels included in RCW 43.51.270(4) shall be established on a schedule which is mutually acceptable to the board of natural resources and the parks and recreation commission. All earnings of investments of balances in the trust land purchase account shall be credited to the general fund.

Sec. 923. RCW 70.146.080 and 1986 c 3 s 11 are each amended to read as follows:

Within thirty days after June 30, 1987, and within thirty days after each succeeding fiscal year thereafter, the state treasurer shall determine the tax receipts deposited into the water quality account for the preceding fiscal year. If the tax receipts deposited into the account in each of the fiscal years 1988 and 1989 are less than forty million dollars, the state treasurer shall transfer sufficient moneys from general state revenues into the water quality account to bring the total receipts in each fiscal year up to forty million dollars.

"After June 30, 1989, if the tax receipts deposited into the water quality account for the preceding fiscal year are less than forty-five million dollars, the
state treasurer shall transfer sufficient moneys from general state revenues into the water quality account to bring the total receipts up to forty-five million dollars."

For the biennium ending June 30, 1991, if the tax receipts deposited into the water quality account and the earnings on investment of balances credited to the account are less than ninety million dollars, the treasurer shall transfer sufficient moneys from general state revenues into the water quality account to bring the total revenue up to ninety million dollars. The determination and transfer shall be made by July 31, 1991.

For fiscal year 1992 and thereafter, if the tax receipts deposited into the water quality account for each fiscal year are less than forty-five million dollars, the treasurer shall transfer sufficient moneys from general state revenues into the water quality account to bring the total revenue up to forty-five million dollars. Determinations and transfers shall be made by July 31 for the preceding fiscal year.

Sec. 924. RCW 74.13.0903 and 1989 c 381 s 5 are each amended to read as follows:

The office of the child care resources coordinator is established to operate under the authority of the department of social and health services. The office shall, within appropriated funds:

(1) Staff and assist the child care coordinating committee in the implementation of its duties under RCW 74.13.090;

(4) Adopt rules regarding the application for and distribution of grants to local child care resource and referral organizations. The rules shall, at a minimum, require an applicant to submit a plan for achieving the following objectives:

(a) Provide parents with information about child care resources, including location of services and subsidies;

(b) Carry out child care provider recruitment and training programs;

(c) Offer support services, such as parent and provider seminars, toy-lending libraries, and substitute banks;

[2798]
(e) Advocate for increased public and private sector resources devoted to child care; and

(f) Provide technical assistance to employers regarding employee child care services;

(5) Provide staff support and technical assistance to local child care resource and referral organizations;

(6) Organize the local child care resource and referral organizations into a state-wide system;

(7) Maintain a state-wide child care referral data bank and work with department of social and health services licensors to provide information to local child care resource and referral organizations about licensed child care providers in the state;

(8) Through local resource and referral organizations, compile data about local child care needs and availability for future planning and development;

(9) Coordinate the provision of training and technical assistance to child care providers; and

(10) Collect and assemble information regarding the availability of insurance and federal and other child care funding to assist state and local agencies, businesses, and other child care providers in offering child care services.

Sec. 925. RCW 82.49.030 and 1989 c 393 s 10 are each amended to read as follows:

(1) The excise tax imposed under this chapter is due and payable to the department of licensing or its agents at the time of registration of a vessel. The department of licensing shall not issue or renew a registration for a vessel until the tax is paid in full.

(2) The excise tax collected under this chapter shall be deposited in the general fund.

(3) ((Until June 30, 1995)) For the 1993-95 fiscal biennium, the watercraft excise tax revenues exceeding five million dollars in each fiscal year, but not exceeding six million dollars, may, subject to appropriation by the legislature, be used for the purposes specified in RCW 88.36.100.

NEW SECTION. Sec. 926. SEVERABILITY. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 927. EMERGENCY CLAUSE. Passed the Senate June 30, 1991.
Approved by the Governor June 30, 1991, with the exception of certain
items which were vetoed.
Filed in Office of Secretary of State June 30, 1991.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 126(1), (2), (4), 128(3),
148, lines 1 through 4, 201(3)(b), (c), (f), 202(14), 203(1)(b), 205(1)(a), (1)(b), (2)(a),
(2)(c), 206, 212(2), 213(11), (12), 215(1), 216(6), (12), 219(4), 220(26), 227(3), 232(1),
(4), (5), (8), (9), (10), (11), (12), 303(10), (17), 308(2), (5), (6), (10), 312(4), 313(7),
315(6), 402(1), 516(6), 517(13)(a), (20), 601(2), (5), (8), 905, 906, 907(5), and section
908 of Engrossed Substitute House Bill No. 1330, entitled:

"AN ACT Relating to fiscal matters; making appropriations and authorized
expenditures for the operations of state agencies for the fiscal biennium
beginning July 1, 1991, and ending June 30, 1993."

My reasons for vetoing these sections are as follows:

Section 126(1), page 11, Status of MWBE's Study

Subsection 1 requires the Office of Financial Management (OFM) to conduct, within
the appropriations provided, a statewide study of the status of minority- and women-
owned businesses. This subsection does not describe the intended uses of the study nor
does it adequately define the scope of the study. Absent clearer direction regarding the
scope of such a study and appropriations to support it, OFM cannot undertake this work.

Section 126(2), page 11, Commission on Student Learning

This subsection provides funding solely for costs related to the Commission on
Student Learning. The education restructuring bill failed to pass the Legislature.
However, during the 1991-93 Biennium the recently formed Governor's Council on
Education Reform and Funding will require financial support which was not provided in
this budget. It is Important that the Office of Financial Management have flexibility in
determining the relative priority of this task and the other ongoing work of OFM not
supported by its appropriation.

Section 126(4), page 11, and section 128(3), page 12, Authorized FTE Positions

These subsections require the Office of Financial Management (OFM) and the
Department of Personnel (DOP) to jointly reconcile the two agencies' lists of authorized
FTE positions for each agency under the jurisdiction of the Department of Personnel, and
report to the legislative fiscal committees by September 1, 1991. It is not clear what is
meant by a "reconciliation" of lists of authorized FTE positions. OFM allocates and
monitors the use of FTEs by agency, irrespective of the classes or percent of time for the
positions that consume the FTEs. DOP, on the other hand, maintains the integrity of the
classification system by ensuring that established positions are allocated to correct classes,
that new positions are established in appropriated classes, and that classes that have
become obsolete are removed from the system. There is no present expectation that DOP
will have exactly one position established for each FTE consumed by an agency. I will
ask that representatives from OFM and DOP meet with representatives from the fiscal
committees to determine the intent of these subsections and satisfy that intent to the
extent that doing so is consistent with current practice and can be accommodated within
budgetary constraints.
Section 148, lines 1 through 4, page 20, Cigarette Tax Enforcement

Lines 8 through 11 proviso a portion of the Liquor Control Board appropriation for the purpose of implementing Senate Bill No. 5560 (cigarette tax enforcement). I have vetoed Senate Bill No. 5560, therefore, this language is moot. I will direct the Liquor Control Board to place $2,847,000 in reserve.

The appropriations provided for the Department of Revenue in section 135 are adjusted downward $742,000 on the assumption that Senate Bill No. 5560 would be enacted. Because the Department of Revenue must continue cigarette tax enforcement and the $742,000 is the Department's minimal fixed cost for the activity, the Department will be required to reduce expenditures in other activities. This places stress on the Department's ability to generate the revenues needed to fund this budget. The Department, OFM, the Forecast Council, and my office will monitor the effects of this reduction carefully, and request corrective action if it becomes necessary.

Section 201(3)(b), page 23, Early Childhood Education and Assistance Program

Subsection 201(3)(b) provides $6,200,000 from the federal child care and development block grant for the Early Childhood Education and Assistance Program (ECEAP) in the Department of Community Development. Federal statute and regulations governing these block grant funds set an amount to be spent for early childhood education services that appears to be approximately $3,800,000. The remaining $2,400,000 provided for ECEAP would have to meet all of the requirements in federal regulations for child care services which may be overly prescriptive for ECEAP. I am determined to ensure that ECEAP will be available for all eligible children and will, therefore, allow the transfer of $3,800,000 to the Department of Community Development for ECEAP and direct the Department of Social and Health Services to allocate the $2,400,000 according to priorities established in federal statute and regulations including ECEAP, if allowed.

Section 201(3)(c), page 23, Local Child Care Block Grants

Section 201(3)(c) provides $4,901,000 from the federal child care and development block grant for block grants to communities for locally designated child care services. The Federal Block Grant Advisory Group I convened earlier this year also recommended that a portion of the federal block grant funds go towards this purpose. Since then, we have received interim federal regulations, which have set some very specific priorities for use of these block grant funds. While I continue to support the concept of local discretion, it is unclear that the federal regulations will allow this level of funding to be used for local block grants. Therefore, I am directing the Department of Social and Health Services to allocate these funds according to the priorities established in federal statute and regulations.

Section 201(3)(f), page 24, Resource and Referral Services

Section 201(3)(f) provides $850,000 from the federal child care and development block grant for 50 percent matching grants to child care resource and referral programs. The proviso is overly prescriptive concerning what the resource and referral agencies must provide with these funds. Furthermore, it is unclear whether the 50 percent match requirement applies to an individual resource and referral agency or on a statewide basis. I am concerned that some distressed communities which need resource and referral services will be unable to meet the matching requirements as specified in this proviso. Therefore, I am directing the Department of Social and Health Services to use these funds for resource and referral purposes in a more flexible manner.

Section 202(14), page 28, Adoption Support Payment Prohibition

Section 202(14) prohibits the Department of Social and Health Services from continuing adoption support payments for children beyond the age of 18 years. I am vetoing this subsection for two reasons: it is not possible to discontinue existing
agreements with adoptive parents and under some circumstances, it may be appropriate for the Department to continue adoption support payments.

Section 203(1)(b), page 29, Expand Option B Community Service

This subsection mandates $1,501,000 for the Division of Juvenile Rehabilitation be expended solely for option B community services diversion. The expansion of community capacity is the backbone of the Division's ten-year plan and I fully support the concept and the funding incentives which drive its implementation. Even though the Department has been directed to aggressively pursue this option, the Division must retain flexibility in managing the offender population across a continuum of custody and treatment levels.

Section 205(1)(a), page 33, Developmental Disabilities Downsizing

Subsection 1(a) requires the Department of Social and Health Services (DSHS) to transfer at least 250 residents from the residential habilitation centers to community residential programs. By this action the Legislature is directing the agency to change its interpretation of the "Family Choice" statutes. To move this many clients with the funds provided appears very difficult and will require the Department to expedite placement planning. I am committed to good, safe, high quality placements for the developmentally disabled clients living at the Institutions as well as in community settings.

Section 205(1)(b), page 33, Residential Services

Subsection 1(b) requires the Department of Social and Health Services to continue to contract with King County to administer community-based residential services. This contract, unique to King County, adds additional administrative expenses for both the state and the providers. The money provides a greater benefit if spent on the direct delivery of services to clients.

Section 205(2)(a), page 35, Temporary Staff

This subsection provides funds to the Department of Social and Health Services for costs related to hiring temporary staff at the residential habilitation centers. To ensure continued certification at these institutions, staff must be well-trained. To protect our investment in this training as well as ensure continued certification, some temporary staff may have to be made permanent. I am directing the Department to use temporary staff at the institutions to the maximum extent possible to the degree it does not risk continued federal certification of the residential habilitation centers. The agency will provide the appropriate committees of the Legislature with a thorough accounting of these funds as well as the status of the temporary and permanent staff employed at the residential habilitation centers.

Section 205(2)(c), page 35, Loss of Federal Financial Participation

Subsection 2(c) provides funds solely for residential habilitation center clients who risk causing the institutions to lose federal financial participation. I am directing the Department of Social and Health Services to use its discretion in how to best serve these residents and ensure continued federal certification. Any savings that may accrue as a result of these actions will be set aside and not be expended until reviewed and approved by the Office of Financial Management. The agency will notify the appropriate committees of the Legislature about the status of its efforts to maintain federal certification and how these funds have been expended.

Section 206, pages 36-37, Developmental Disabilities 10-Year Plan

This section provides funds for the Center for Disability Policy and Research of the University of Washington to complete a 10-year plan for the operation of state-funded services for the developmentally disabled. I feel strongly that this plan should be done, but it is the responsibility of the Department of Social and Health Services. I am directing the Department to develop this plan within their existing resources. In preparing this plan, I am directing the Department to involve representatives from community providers, institutional advocates, and other developmental disability advocacy groups.
Section 212(2), page 42, Intensive Inpatient Treatment Beds

The proviso language contained in this subsection is overly prescriptive in directing the Division of Alcohol and Substance Abuse to contract with a specific service provider. While I agree that additional adult intensive inpatient treatment beds may be needed in Pierce County, it is imperative that the Department of Social and Health Services be allowed to follow established administrative procedures in selecting and acquiring treatment resources. I will direct the Department to examine the treatment needs consistent with this proviso and act accordingly.

Section 213(11), page 45, Diabetic Services

Subsection 11 directs the Department of Social and Health Services to develop and put into effect medical assistance procedural codes and payment schedules for specific diabetic services. This proviso is unduly prescriptive in the limits it places on the Department's discretion to manage the medical assistance program. The Department will pursue a review of diabetic services and will, on a case-by-case basis, determine the most cost-effective means of providing this care. These reviews will address the issue of whether, and when, in-home care as opposed to hospital care is appropriate. These actions will meet the intent of this subsection.

Section 213(12), page 45, Managed Care

This subsection requires the Department of Social and Health Services to increase total payments to managed care providers whenever the current rate is below the statewide average fee-for-service equivalent rate. The increased payments are to be made in the form of signing bonuses. No discretion is provided to the Department, it is simply mandated to increase rates uniformly for all managed care contractors. The cost of going from regional managed care rates with federal matching participation to the statewide average rate where the difference is all General Fund-State would be substantial and is not funded. Without the specific funding for this purpose, not only would the Department have to absorb this cost, but it would also lose the opportunity to gain federal matching funds. In making this veto, I am in no way implying a lessening of interest in managed health care. I am directing the Department to look for ways, within available funds, to promote equity and provide incentives to encourage current providers and new providers to participate to a greater degree in managed care programs.

Section 215(1), page 46, Local Impact Account

This subsection provides funds solely to mitigate the impact of state institutions on local communities. Rather than set aside these funds I am directing the Department of Social and Health Services to pay for these impacts as the bills are received.

Section 216(6), page 48, Evening and/or Weekend Service Hours

Subsection 6 requires the Department of Social and Health Services to deploy 20 percent of the local office staffing added for increased caseload to expand evening and/or weekend service hours. While the intent of this proviso is supported, it cannot be met without additional funding. The Community Services Administration program did not receive funding for a number of requirements it must meet in the 1991-93 Biennium. In addition to numerous policy reductions and an across-the-board 3 percent decrease, funding for outstationing of eligibility staff required by the federal Omnibus Reconciliation Act of 1990 was not provided. The cumulative effect of these unfunded requirements makes it impossible for the Department to meet the added requirements of this subsection.

Section 216(12), page 49, Grant Standard Increase

This subsection provisos funds for a grant standard increase in the Community Services Administration Program within the Department of Social and Health Services. The wording of the proviso addresses assistance programs while the funding is for additional staff associated with the increased caseload that comes with a grant standard increase. The wording is misleading and is being vetoed to eliminate any possible...
discrepancy between the grant standard increase and staffing requirements in this program.

Section 219(4), pages 51-52, Study of Health Care Coverage

This subsection requires the Health Care Authority to conduct a study of health care coverage for retired and disabled state, local government, and public school employees. The study is to be completed by December 1, 1991. The study required is not funded and is too broad to be completed either by December 1, 1991, or by available staff.

Section 220(26), page 58, Grant Expenditure Notification

This subsection requires that the Department of Community Development notify the Legislature before reducing grants or contracts in assistance to units of government. While the Department will make every effort to adequately fund programs, this proviso unduly limits the agency's management prerogatives.

Section 227(3), page 64, Women, Infants, and Children Program

Subsection 227(3) purports to provide $5,000,000 in General Fund-State specifically for enhancement of the Women, Infants, and Children (WIC) program. It is clear that the Department of Health is actually receiving only $2,500,000 in additional General Fund-State authority. I am vetoing this subsection because we cannot provide $5,000,000 General Fund-State for increased WIC services and I do not wish to mislead anyone into believing that the Department of Health has the available funding.

Section 232(1), page 68, Administration of Extended Unemployment Compensation Benefits

This subsection requires that the Employment Security Department (ESD) use $1,278,000 of the Unemployment Compensation Administration Fund-Federal appropriation to perform several duties related to the administration of the extended benefits for timber workers set out in chapter 315, Laws of 1991 (Engrossed Substitute Senate Bill No. 5555). Use of this source of funds for purposes set out in sections 3, 5, and 9 of chapter 315 is inappropriate and would lead to adverse federal audit findings. Neither the extended benefits program or the delivery of services to timber workers are adversely affected by this veto.

Section 232(4), (5), (8), (9), and (10), pages 68-69, Administrative Contingency Fund

Subsections 2 through 10 direct the expenditure of $7,829,000 of the Administrative Contingency Fund appropriation to specified purposes. Subsections 2, 3, 6, and 7 appropriate $1,810,000 to essential elements of our state's assistance to timber-dependent communities and displaced timber workers. Funding of these four activities at the levels indicated is sufficiently important that I am letting these subsections stand. Because the total appropriation for this fund (page 67, line 21) of $11,808,000 exceeds my understanding that only $9,510,000 in revenue will be received by this fund, however, I am vetoing subsections 4, 5, 8, 9, and 10 to increase the Employment Security Department's flexibility to absorb the $2.3 million shortfall. Whereas it would have been necessary for ESD to make cuts averaging 71 percent in the $5.3 million of nonprovisoed current level programs, these vetoes reduce the percentage cut which must be taken in the revised nonprovisoed base of $11 million to 30 percent. I will require that ESD present its planned allocation of the unprovisoed balance to programs to me for my approval.

Section 232(11), pages 69-70, Administrative Contingency Fund

This subsection would require the Employment Security Department (ESD) to adhere to the program allocations specified in subsections 2 through 10 through all of Fiscal Year 1992. The Legislature would consider making up any revenue shortfall with supplemental appropriations for Fiscal Year 1993. In view of the fact that the appropriation for the Administrative Contingency Fund already exceeds estimated revenue by $2.3 million, and to avoid the future consequences of spending more than is available in the short term, I must ask that less be expended in Fiscal Year 1992. My veto of subsections 4, 5, 8, 9, and 10 (see above), the veto of this subsection, and my earlier
stated requirement that ESD submit a balanced expenditure plan to me for approval should ensure continuity in the delivery of services supported by this fund.

Section 232(12), page 70, Displaced Timber Worker Pilot Program

This subsection requires the Employment Security Department to make funds available from federal funds that have been received for a pilot program for dislocated timber worker training. The funds that would be used for this purpose have already been allocated to Service Delivery Areas, consistent with federal Department of Labor requirements. They are not available to implement a pilot program as specified in this subsection.

Section 303(10), page 75, Columbia Basin Irrigation Matching Funds

This subsection provides $100,000 as state matching funds for the Columbia Basin Irrigation project. There are significant questions about the appropriateness, cost-effectiveness and economic justification for this project as a whole. Given the planting process currently underway, it would be inappropriate to support a large expansion of the Columbia River Reclamation project at this time.

Section 303(17), page 77, and Section 313(7), page 86, Wildlife Rehabilitation Center

Both of these subsections direct the Department of Wildlife to expend $450,000 from the Coastal Protection Account for a marine mammal and bird rehabilitation center. Although the agencies support the concept and plan to develop such a center, this proviso conflicts with existing statute and fund obligations. Under RCW 90.48.142, expenditures from the Coastal Protection Account can only be authorized by a steering committee of natural resource agencies. In addition, the majority of funding available in the Coastal Protection Account is derived from the settlement of the Nestucca Oil Spill. Although the settlement makes a provision for a rehabilitation center, only $360,000 was designated for this purpose in the agreement. This proviso would be in conflict with the settlement agreement. Although I am vetoing these sections, the agencies will continue the development of a center.

Section 308(2), page 80, Washington Research Foundation

This subsection provides $200,000 for the Washington Research Foundation. While I am supportive of encouraging greater commercialization of promising technologies developed in state research institutions, it is more appropriate that the Department of Trade and Economic Development contract directly with the appropriate university for services. If the university deems it appropriate, they may contract with the Washington Research Foundation.

Section 308(5), pages 80-81, Value Added Program

The language in this subsection is in conflict with the requirements stipulated in Engrossed Substitute House Bill No. 1341, timber-dependent communities. It provides for business contracts above the current level of expenditure, and unnecessarily restricts the flexibility of our highly successful value added program. I will require the Department of Trade and Economic Development to use a significant proportion of the funds for business contracts to promote value added manufacturing.

Section 308(6), page 81, Program Coordination

This subsection provides funding for coordination of the state timber response currently being done by the Governor’s timber team. I will require that the Department of Trade and Economic Development enter into an interagency agreement with the Office of Financial Management (OFM). I am requiring OFM to expend these funds in compliance with Engrossed Substitute House Bill No. 1341. This appears to be a technical error.
Section 308(10), page 81, Grant Expenditure Notification

This subsection requires that the Department of Trade and Economic Development notify the Legislature before reducing grants or contracts in assistance to units of government. While the Department will make every effort to adequately fund programs, this proviso unduly limits the agency’s management prerogatives.

Section 312(4), page 84, Coho Net Pens

This subsection provides $785,000 in General Fund-State for increased coho salmon production through net pens and delayed release methods. While increasing the production of salmon is important, a project of this size is infeasible at this time. Further study is required to determine the role that such projects will have in artificial and natural production programs, to evaluate environmental consideration in siting net pens, and to ensure consistency with the Salmon 2000 Plan scheduled to be submitted to the Legislature in January 1992. Although I am vetoing the proviso, I am directing the Department of Fisheries to expend $75,000 on developing a plan for pen-rearing coho to be completed no later than July 1, 1992. The remaining funds will be placed in unallotted status until a specific plan for expenditures has been completed and submitted to the executive and the Legislature.

Section 315(6), page 91, Yakima Office - Livestock Marketing News

Subsection 6 directs that $172,000 of the General Fund-State appropriation be maintained for this function out of the Yakima office. This proviso unreasonably restricts the Department from carrying out this function which will be maintained, as efficiently as possible, out of the Department’s Olympia office. Furthermore, this provision would require the agency to reduce needed services in other areas due to other legislative cuts.

Section 402(1), page 93, Master License System

Subsection 402(1) requires that $1,000,000 be transferred from nine state agencies to help fund the Department of Licensing’s Master License System (MLS). No funding has been provided in any of the affected agencies budgets to fund this requirement. The appropriate role of fee support versus General Fund support for the Master License System has been a matter of controversy for several years. The time has come to resolve this matter. I believe the Master License System has proven itself to be a valuable service to business, greatly simplifying the time and effort required to meet the state’s license, tax, and regulatory requirements. It is time for the Legislature to decide whether the MLS is a benefit to business worth additional fee support, a service provided by the state to business funded at least partially through the General Fund or not worth doing at all. In any case, requiring participating agencies to absorb the costs of the system is not an acceptable option.

Section 516(6), page 123, Drug Enforcement and Education Account

Subsection 6 provides $10,300,000 to be provided to support school district substance abuse awareness programs. The funding is restricted in distribution to the same method used in the current biennium. Several districts, in a concentrated geographic region, received large grant amounts and other districts received no funding at all. By restricting the grants to the current districts, a true statewide impact on substance abuse education for our students cannot be achieved.

Section 517(13)(a), pages 126-127 Fair Start Program

Section 517(13)(a) requires that school districts and educational service districts receiving funding for early intervention and prevention services collaborate with regional support networks or counties for coordinated case management. Although this mandate is commendable, this language would require labeling of children before early intervention services could be offered. It would also preclude the purchase of services from some youth and family service agencies. Fair Start funds have provided schools the opportunity to assist children and their families before serious problems emerge. Children benefit from a variety of interventions, including, but not limited to approved mental
health providers. Again, I commend the intent of this proviso, and encourage continued collaboration between the schools and the mental health community.

Section 517(20), page 129, REACH for Excellence Program

Subsection 20 provides grant funding to local school districts to develop outcome-based educational programs and methods of assessing students' achievement. I am committed to a system that is performance oriented and emphasizes student results. However, it would be inefficient and a questionable policy to have this complex task undertaken by individual districts without benefit of state direction and technical assistance such as was envisioned in the education restructuring bill which failed to pass the Legislature. I will ask the Governor's Council on Education Reform and Funding to address these issues as part of its charge.

Section 601(2), page 136, HECB Recommendations on Expenditure Categories

This subsection requires the Higher Education Coordinating Board to define instructional support expenditures and indirect support expenditures, identify the rates of these expenditures in each higher education institution, and recommend guidelines for these categories of spending. This subsection is vetoed because it takes time from other important tasks assigned to the Higher Education Coordinating Board.

Section 601(5), page 140, Salary Increase Restrictions

This subsection prohibits salary increases over $3,900 in 1992 and 1993 for any person in the higher education system with an annual salary over $100,000. This subsection impedes recruitment and retention of qualified administrators and instructors and is therefore vetoed.

Section 601(8), page 142, Administrative Overhead

Subsection 601(8) stipulates that institutions of higher education shall not deduct more than 15 percent for administrative overhead from any amount received for services performed under an interagency contract new or renewed since June 30, 1990, unless a higher rate receives Office of Financial Management approval prior to execution of the agreement. This subsection conflicts with statutory law, RCW 39.34.130 and RCW 43.09.210, requiring state agencies to pay full costs for services performed on its behalf by other state agencies. I recommend the Office of Financial Management review administrative overhead cost recovery rates paid to institutions of higher education.

Section 905, pages 180-181, Publication Expenditures

Subsection 1 requires that all state publications be printed on recycled paper. I have already encouraged this practice and most state agencies actively support recycling efforts. However, universal access to recycled paper is not certain and some publications such as state maps cannot be reproduced on available quality paper. I prefer that state agencies have the flexibility to make the most cost effective choice in this matter without risking violation of the appropriations act.

Subsection 2, which requires recipient confirmation of their desire to be on a state mailing list, also makes a lot of sense from a broad policy perspective but could prove counterproductive in actual practice. Agencies may, for example, have a legal responsibility to provide information to specific clients, or find that surveying recipients poses additional costs.

Although I am vetoing this section in its entirety, I will instruct state agencies to initiate procedures which accomplish the general intentions of the Legislature.

Section 906, page 181, Personnel Recruitment

This section restricts agencies from obtaining outside assistance in filling vacancies except when granted a waiver by the Department of Personnel (DOP). Under this provision, agencies are encouraged to obtain these services from DOP. This provision is unreasonably restrictive. While the bill provides resources to DOP for doing executive searches, these are likely to be insufficient for the purpose intended. In any case,
requiring waivers creates additional bureaucratic hurdles and represents an unacceptable incursion in the executive's authority. Finally, the Legislature failed to identify any criteria for granting waivers.

Section 907(5), pages 182-183, Limitations on Personal Service Contracts

I concur with strengthened management of the state's personal service contracting process embodied in this section. In fact I intend to go further in requiring executive agencies to provide information on all personal service contracts so that a complete database on activity in this area will be available.

Subsection 5 of section 907 requires the Office of Financial Management to ensure that statewide expenditures for personal service contracts in the 1991-93 allotments do not exceed personal service expenditures incurred during 1989-91. Object expenditures are dictated by specific budget policy decisions, not historical patterns. Personal service contracts tend to be project in nature and it would be arbitrary to stipulate that individual agency costs or statewide costs match the prior biennium.

In practical terms, this requirement could not be implemented until after the 1991-93 allotments were submitted since the Legislature does not appropriate at the object level of detail. This approach would require some executive-determined reduction to initial allotments if the statewide personal service contracts total exceeded 1989-91 estimates. The language also specifically includes judicial agencies over which the Governor has no allotment approval authority.

Section 908, pages 183-184, OFM Out-of-State Travel Expenditures

I support the concept of increased accountability for state employee travel and have recently issued tighter travel regulations requiring agency head approval for out-of-country travel, limiting overnight stays, increasing the personal accountability of all employees for their travel, and establishing centralized travel management practices. Section 908 creates another layer of reporting and approval requirements that are a cumbersome attempt at micro-management.

Since Subsection 1 applies to "executive branch" agencies, it could provide OFM with authority over statewide elected officials' delegation of travel approval authority. Subsection 2 requires that expenditures for out-of-state travel that involves five or more employees and more than $1,000 per employee have prior approval of the Office of Financial Management (for executive agencies) or the agency head (for legislative and judicial agencies). Although I agree with the general policy of agency Director approval of certain out-of-state travel expenditures, I cannot accept a role for OFM that usurps the legal responsibility of agency directors and separately elected officials to make legitimate expenditures.

Subsection 3 requires agencies incurring out-of-state travel expenses for air transportation, for five or more persons, or in excess of $500 per person, to report specific details of this travel to the Legislative Budget Committee on a quarterly basis.

It may be desirable to provide more visibility to certain levels of out-of-state travel, but there is also an administrative burden that is created by having to report detailed information about most trips. The cost to universities and other agencies that necessarily engage in out-of-state travel does not appear justified by the benefits.

With the exceptions of sections 126(1), (2), (4), 128(3), 148, lines 1 through 4, 201(3)(b), (c), (f), 202(14), 203(1)(b), 205(1)(a), (1)(b), (2)(a), (2)(c), 206, 212(2), 213(11), (12), 215(1), 216(6), (12), 219(4), 220(26), 227(3), 232(1), (4), (5), (8), (9), (10), (11), (12), 303(10), (17), 308(2), (5), (6), (10), 312(4), 313(7), 315(6), 402(1), 516(6), 517(13)(a), (20), 601(2), (5), (8), 905, 906, 907(5), and section 908 Engrossed Substitute House Bill No. 1330 is approved."
CHAPTER 17
[Senate Bill 5988]
LIBRARY IMPROVEMENT TAX LEVIES
Effective Date: 9/29/91

AN ACT Relating to tax levies for library improvements; and creating a new section.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. Tax levies authorized by voter approval of a ballot proposition submitted by a city under RCW 84.55.050 at an election held prior to 1988 for the purpose of funding the cost of library improvements, plus the costs of borrowing such amount for up to twenty years, may be levied in the amounts and in the years authorized by the voters in addition to the levies otherwise allowed by this chapter until the expiration of the limited period or satisfaction of the limited purpose so authorized, whichever comes first, notwithstanding the provisions of RCW 84.55.050(2). This section is curative and shall apply retroactively to all limited ballot propositions described herein. The elections at which any such ballot propositions were submitted, and the tax levies authorized thereby, shall be valid and effective in all respects. This section shall not be construed to adversely affect the validity or reduce the amount of any tax levies authorized by any other ballot proposition heretofore or hereafter submitted under RCW 84.55.050.

Passed the Senate June 17, 1991.
Approved by the Governor July 2, 1991.
Filed in Office of Secretary of State July 2, 1991.

CHAPTER 18
[Engrossed Substitute Senate Bill 5149]
PUBLIC OFFICERS—GIFT REPORTING AND PUBLIC OFFICE FUND REQUIREMENTS
Effective Date: 9/29/91

AN ACT Relating to gifts and public office funds; amending RCW 42.17.020, 42.17.170, and 42.17.243; adding a new section to chapter 42.17 RCW; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

Sec. 1. RCW 42.17.020 and 1990 c 139 s 2 are each amended to read as follows:

(1) "Agency" includes all state agencies and all local agencies. "State agency" includes every state office, department, division, bureau, board, commission, or other state agency. "Local agency" includes every county, city, town, municipal corporation, quasi-municipal corporation, or special purpose district, or any office, department, division, bureau, board, commission, or agency thereof, or other local public agency.

(2) "Ballot proposition" means any "measure" as defined by RCW 29.01.110, or any initiative, recall, or referendum proposition proposed to be
submitted to the voters of the state or any municipal corporation, political subdivision, or other voting constituency from and after the time when the proposition has been initially filed with the appropriate election officer of that constituency prior to its circulation for signatures.

(3) "Depository" means a bank designated by a candidate or political committee pursuant to RCW 42.17.050.

(4) "Treasurer" and "deputy treasurer" mean the individuals appointed by a candidate or political committee, pursuant to RCW 42.17.050, to perform the duties specified in that section.

(5) "Candidate" means any individual who seeks election to public office. An individual shall be deemed to seek election when he first:

(a) Receives contributions or makes expenditures or reserves space or facilities with intent to promote his candidacy for office; or

(b) Announces publicly or files for office.

(6) "Commercial advertiser" means any person who sells the service of communicating messages or producing printed material for broadcast or distribution to the general public or segments of the general public whether through the use of newspapers, magazines, television and radio stations, billboard companies, direct mail advertising companies, printing companies, or otherwise.

(7) "Commission" means the agency established under RCW 42.17.350.

(8) "Compensation" unless the context requires a narrower meaning, includes payment in any form for real or personal property or services of any kind: PROVIDED, That for the purpose of compliance with RCW 42.17.241, the term "compensation" shall not include per diem allowances or other payments made by a governmental entity to reimburse a public official for expenses incurred while the official is engaged in the official business of the governmental entity.

(9) "Continuing political committee" means a political committee that is an organization of continuing existence not established in anticipation of any particular election campaign.

(10) "Contribution" includes a loan, gift, deposit, subscription, forgiveness of indebtedness, donation, advance, pledge, payment, transfer of funds between political committees, or transfer of anything of value, including personal and professional services for less than full consideration, but does not include interest on moneys deposited in a political committee's account, ordinary home hospitality and the rendering of personal services of the sort commonly performed by volunteer campaign workers, or incidental expenses personally incurred by volunteer campaign workers not in excess of fifty dollars personally paid for by the worker. Volunteer services, for the purposes of this chapter, means services or labor for which the individual is not compensated by any person. For the purposes of this chapter, contributions other than money or its equivalents shall be deemed to have a money value equivalent to the fair market value of the contribution. Sums paid for tickets to fund-raising events such as dinners and parties are contributions; however, the amount of any such
contribution may be reduced for the purpose of complying with the reporting requirements of this chapter, by the actual cost of consumables furnished in connection with the purchase of the tickets, and only the excess over the actual cost of the consumables shall be deemed a contribution.

(11) "Elected official" means any person elected at a general or special election to any public office, and any person appointed to fill a vacancy in any such office.

(12) "Election" includes any primary, general, or special election for public office and any election in which a ballot proposition is submitted to the voters: PROVIDED, That an election in which the qualifications for voting include other than those requirements set forth in Article VI, section 1 (Amendment 63) of the Constitution of the state of Washington shall not be considered an election for purposes of this chapter.

(13) "Election campaign" means any campaign in support of or in opposition to a candidate for election to public office and any campaign in support of, or in opposition to, a ballot proposition.

(14) "Expenditure" includes a payment, contribution, subscription, distribution, loan, advance, deposit, or gift of money or anything of value, and includes a contract, promise, or agreement, whether or not legally enforceable, to make an expenditure. The term "expenditure" also includes a promise to pay, a payment, or a transfer of anything of value in exchange for goods, services, property, facilities, or anything of value for the purpose of assisting, benefiting, or honoring any public official or candidate, or assisting in furthering or opposing any election campaign. For the purposes of this chapter, agreements to make expenditures, contracts, and promises to pay may be reported as estimated obligations until actual payment is made. The term "expenditure" shall not include the partial or complete repayment by a candidate or political committee of the principal of a loan, the receipt of which loan has been properly reported.

(15) "Final report" means the report described as a final report in RCW 42.17.080(2).

(16) "Gift," for the purposes of RCW 42.17.170 and section 3 of this 1991 act, means a rendering of anything of value in return for which reasonable consideration is not given and received and includes a rendering of money, property, services, discount, loan forgiveness, payment of indebtedness, or reimbursements from or payments by persons (other than the federal government, or the state of Washington or any agency or political subdivision thereof) for travel or anything else of value. The term "reasonable consideration" refers to the approximate range of consideration that exists in transactions not involving donative intent. However, the value of the gift of partaking in a single hosted reception shall be determined by dividing the total amount of the cost of conducting the reception by the total number of persons partaking in the
reception. "Gift" for the purposes of RCW 42.17.170 and section 3 of this 1991 act does not include:

(a) A gift, other than a gift of partaking in a hosted reception, with a value of fifty dollars or less;
(b) The gift of partaking in a hosted reception if the value of the gift is one hundred dollars or less;
(c) A contribution that is required to be reported under RCW 42.17.090 or 42.17.243;
(d) Informational material that is transferred for the purpose of informing the recipient about matters pertaining to official business of the governmental entity of which the recipient is an official or officer, and that is not intended to confer on that recipient any commercial, proprietary, financial, economic, or monetary advantage, or the avoidance of any commercial, proprietary, financial, economic, or monetary disadvantage;
(e) A gift that is not used and that, within thirty days after receipt, is returned to the donor or delivered to a charitable organization. However, this exclusion from the definition does not apply if the recipient of the gift delivers the gift to a charitable organization and claims the delivery as a charitable contribution for tax purposes;
(f) A gift given under circumstances where it is clear beyond any doubt that the gift was not made as part of any design to gain or maintain influence in the governmental entity of which the recipient is an officer or official or with respect to any legislative matter or matters of that governmental entity; or
(g) A gift given prior to the effective date of this 1991 act.

(17) "Immediate family" includes the spouse, dependent children, and other dependent relatives, if living in the household.

(18) "Legislation" means bills, resolutions, motions, amendments, nominations, and other matters pending or proposed in either house of the state legislature, and includes any other matter that may be the subject of action by either house or any committee of the legislature and all bills and resolutions that, having passed both houses, are pending approval by the governor.

(19) "Lobby" and "lobbying" each mean attempting to influence the passage or defeat of any legislation by the legislature of the state of Washington, or the adoption or rejection of any rule, standard, rate, or other legislative enactment of any state agency under the state Administrative Procedure Act, chapter 34.05 RCW. Neither "lobby" nor "lobbying" includes an association's or other organization's act of communicating with the members of that association or organization.

(20) "Lobbyist" includes any person who lobbies either in his own or another's behalf.

(21) "Lobbyist's employer" means the person or persons by whom a lobbyist is employed and all persons by whom he is compensated for acting as a lobbyist.

As used in this chapter, the singular shall take the plural and any gender, the other, as the context requires.
Sec. 2. RCW 42.17.170 and 1990 c 139 s 3 are each amended to read as follows:

(1) Any lobbyist registered under RCW 42.17.150 and any person who lobbies shall file with the commission periodic reports of his activities signed by the lobbyist. The reports shall be made in the form and manner prescribed by the commission. They shall be due monthly and shall be filed within fifteen days after the last day of the calendar month covered by the report.

(2) Each such monthly periodic report shall contain:

(a) The totals of all expenditures for lobbying activities made or incurred by such lobbyist or on behalf of such lobbyist by the lobbyist’s employer during the period covered by the report. Such totals for lobbying activities shall be segregated according to financial category, including compensation; food and refreshments; living accommodations; advertising; travel; contributions; and other expenses or services. Each individual expenditure of more than twenty-five dollars for entertainment shall be identified by date, place, amount, and the names of all persons in the group partaking in or of such entertainment including any portion thereof attributable to the lobbyist’s participation therein ((but)), without allocating any portion of such expenditure to individual participants. However, if the expenditure for a single hosted reception is more than one hundred dollars per person partaking therein, the report shall specify the per person amount, which shall be determined by dividing the total amount of the expenditure by the total number of persons partaking in the reception.

Notwithstanding the foregoing, lobbyists are not required to report the following:

(i) Unreimbursed personal living and travel expenses not incurred directly for lobbying;

(ii) Any expenses incurred for his or her own living accommodations;

All contributions made to, or for the benefit of, any candidate, elected official, or officer or employee of any agency, or any political committee supporting or opposing any ballot proposition shall be identified by date, amount, and the name
of the candidate, elected official, or officer or employee of any agency, or any political committee supporting or opposing any ballot proposition receiving, or to be benefited by each such contribution.

(d) The subject matter of proposed legislation or other legislative activity or rule-making under chapter 34.05 RCW, the state Administrative Procedure Act, and the state agency considering the same, which the lobbyist has been engaged in supporting or opposing during the reporting period.

(e) Such other information relevant to lobbying activities as the commission shall by rule prescribe. Information supporting such activities as are required to be reported is subject to audit by the commission.

(f) A listing of each gift, as defined in RCW 42.17.020, made to a state elected official or executive state officer or to a member of the immediate family of such an official or officer. Such a gift shall be separately identified by the date it was given, the approximate value of the gift, and the name of the recipient. However, for a hosted reception where the average per person amount is reported under (a) of this subsection, the approximate value for the gift of partaking in the event is such average per person amount. The commission shall adopt forms to be used for reporting the giving of gifts under this subsection (2)(f). The forms shall be designed to permit a lobbyist to report on a separate form for each recipient the reportable gifts given to that recipient during the reporting period or, alternatively, to report on one form all reportable gifts given by the lobbyist during the reporting period.

(3) If a state elected official or a member of such an official's immediate family is identified by a lobbyist in such a report as having received from the lobbyist a gift, as defined in RCW 42.17.020, the lobbyist shall transmit to the official a copy of the completed form used to identify the gift in the report at the same time the report is filed with the commission.

NEW SECTION. Sec. 3. A new section is added to chapter 42.17 RCW to read as follows:

At the same time that an elected official or executive state officer must file a statement of financial affairs under RCW 42.17.240(1), the official or officer shall file a statement identifying each gift, as defined in RCW 42.17.020, which was received by the official or officer or by a member of his or her immediate family during the previous calendar year. The statement shall apply to that portion of the previous calendar year during which the official or officer held an office or position for which a statement of financial affairs is required under RCW 42.17.240. The statement shall identify the nature of the gift, the date it was received, and the name of the donor. The commission may adopt a form for reporting the receipt of gifts under this section or may incorporate that reporting into the form or forms adopted by the commission for the statement of financial affairs.

Sec. 4. RCW 42.17.243 and 1977 ex.s. c 336 s 5 are each amended to read as follows:
(1) Elected and appointed officials required to report under RCW 42.17.240, shall report for themselves and for members of their immediate family to the commission any contributions received during the preceding calendar year for the officials' use in defraying nonreimbursed public office-related expenses. Contributions reported under this section shall be referred to as a "public office fund" and shall not be transferred to a political committee nor used to promote or oppose a candidate or ballot proposition, other than as provided by subsection (3)(a) of this section. (For the purposes of this section contributions shall include reimbursements from or payments by persons, other than the state of Washington or any agency, for travel expenses.)

Reimbursements or payments for travel do not constitute contributions for the purposes of this section.

A report shall be filed during the month of January of any year following a year in which such contributions were received for or expenditures made from a public office fund. The report shall include:

(a) The name and address of each contributor;

(b) A description of each contribution, including the date on which it was received and its amount or, if its dollar value is unascertainable, an estimate of its fair market value; and

(c) A description of each expenditure made from a public office fund, including the name and address of the recipient, the amount, and the date of each such expenditure.

(2) No report under subsection (1) of this section shall be required if:

(a) The receipt of the contribution has been reported pursuant to RCW 42.17.065 (continuing political committee reports) or RCW 42.17.090 (political committee reports); or

(b) The contribution is in the form of meals, refreshments, or entertainment given in connection with official appearances or occasions where public business was discussed.

(3) Any funds which remain in a public office fund after all permissible public office related expenses have been paid may only be disposed of in one or more of the following ways:

(a) Returned to a contributor in an amount not to exceed that contributor’s original contribution; or

(b) Donated to a charitable organization registered in accordance with chapter 19.09 RCW; or

(c) Transferred to the state treasurer for deposit in the general fund.

*NEW SECTION. Sec. 5. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

*Sec. 5 was vetoed, see message at end of chapter.
Passed the Senate June 28, 1991.
Approved by the Governor July 2, 1991, with the exception of certain items which were vetoed.
Filed in Office of Secretary of State July 2, 1991.

Note: Governor's explanation of partial veto is as follows:
"I am returning herewith, without my approval as to section 5, Engrossed Substitute Senate Bill No. 5149 entitled:

"AN ACT Relating to gifts and public office funds."

This bill represents a positive step in the area of public disclosure by requiring lobbyists and public officials to report certain gifts. The bill contains an emergency clause making the disclosure requirements effective immediately. The bill was originally proposed by the Public Disclosure Commission and did not contain an emergency clause. A short period of time is required to allow both the Commission and the approximately five thousand individuals affected by this bill to set up reporting procedures and record-keeping mechanisms. The Public Disclosure Commission agrees that a veto of the emergency clause is appropriate. For this reason, I have vetoed the emergency clause set out in section 5.

With the exception of section 5, Engrossed Substitute Senate Bill No. 5149 is approved."

AN ACT Relating to funds transfers; and adding a new Article to Title 62A RCW.
Be it enacted by the Legislature of the State of Washington:

ARTICLE 4A
FUNDS TRANSFERS

PART I
SUBJECT MATTER AND DEFINITIONS

NEW SECTION. Sec. 4A-101. SHORT TITLE. This Article may be cited as the Uniform Commercial Code—Funds Transfers.

NEW SECTION. Sec. 4A-102. SUBJECT MATTER. Except as otherwise provided in section 4A-108 of this act this Article applies to funds transfers defined in section 4A-104 of this act.

NEW SECTION. Sec. 4A-103. PAYMENT ORDER—DEFINITIONS. (1)
In this Article:
(a) "Payment order" means an instruction of a sender to a receiving bank, transmitted orally, electronically, or in writing, to pay, or to cause another bank to pay, a fixed or determinable amount of money to a beneficiary if:
(i) The instruction does not state a condition of payment to the beneficiary other than time of payment;
(ii) The receiving bank is to be reimbursed by debiting an account of, or otherwise receiving payment from, the sender; and
(iii) The instruction is transmitted by the sender directly to the receiving bank or to an agent, funds-transfer system, or communication system for transmittal to the receiving bank.
(b) "Beneficiary" means the person to be paid by the beneficiary's bank.
(c) "Beneficiary’s bank" means the bank identified in a payment order in which an account of the beneficiary is to be credited pursuant to the order or which otherwise is to make payment to the beneficiary if the order does not provide for payment to an account.
(d) "Receiving bank" means the bank to which the sender's instruction is addressed.
(e) "Sender" means the person giving the instruction to the receiving bank.
(2) If an instruction complying with subsection (1)(a) of this section is to make more than one payment to a beneficiary, the instruction is a separate payment order with respect to each payment.
(3) A payment order is issued when it is sent to the receiving bank.

NEW SECTION. Sec. 4A-104. FUNDS TRANSFER—DEFINITIONS. In this Article:
(1) "Funds transfer" means the series of transactions, beginning with the originator's payment order, made for the purpose of making payment to the beneficiary of the order. The term includes any payment order issued by the originator's bank or an intermediary bank intended to carry out the originator's payment order. A funds transfer is completed by acceptance by the beneficiary's bank of a payment order for the benefit of the beneficiary of the originator's payment order.

(2) "Intermediary bank" means a receiving bank other than the originator's bank or the beneficiary's bank.

(3) "Originator" means the sender of the first payment order in a funds transfer.

NEW SECTION. Sec. 4A-105. OTHER DEFINITIONS. (1) In this Article:

(a) "Authorized account" means a deposit account of a customer in a bank designated by the customer as a source of payment orders issued by the customer to the bank. If a customer does not so designate an account, any account of the customer is an authorized account if payment of a payment order from that account is not inconsistent with a restriction on the use of the account.

(b) "Bank" means a person engaged in the business of banking and includes a savings bank, savings and loan association, credit union, and trust company. A branch or separate office of a bank is a separate bank for purposes of this Article.

(c) "Customer" means a person, including a bank, having an account with a bank or from whom a bank has agreed to receive payment orders.

(d) "Funds-transfer business day" of a receiving bank means the part of a day during which the receiving bank is open for the receipt, processing, and transmittal of payment orders and cancellations and amendments of payment orders.

(e) "Funds-transfer system" means a wire transfer network, automated clearing house, or other communication system of a clearing house or other association of banks through which a payment order by a bank may be transmitted to the bank to which the order is addressed.

(f) "Good faith" means honesty in fact and the observance of reasonable commercial standards of fair dealing.

(g) "Prove" with respect to a fact means to meet the burden of establishing the fact (RCW 62A.1-201(8)).

(2) Other definitions applying to this Article and the sections in which they appear are:
"Acceptance" section 4A-209 of this act
"Beneficiary" section 4A-103 of this act
"Beneficiary's bank"  section 4A-103 of this act

(3) The following definitions in Article 4 (RCW 62A.4-101 through 62A.4-504) apply to this Article:
"Clearing house"  section 4-104 of this act
"Item"  section 4-104 of this act
"Suspends payments"  sections 4-104 of this act

(4) In addition to Article 1 (RCW 62A.1-101 through 62A.1-208) contains general definitions and principles of construction and interpretation applicable throughout this Article.

NEW SECTION. Sec. 4A-106. TIME PAYMENT ORDER IS RECEIVED. (1) The time of receipt of a payment order or communication canceling or amending a payment order is determined by the rules applicable to receipt of a notice stated in RCW 62A.1-201(27). A receiving bank may fix a cut-off time or times on a funds-transfer business day for the receipt and processing of payment orders and communications canceling or amending payment orders. Different cut-off times may apply to payment orders, cancellations, or amendments, or to different categories of payment orders, cancellations, or amendments. A cut-off time may apply to senders generally or different cut-off times may apply to different senders or categories of payment orders. If a payment order or communication canceling or amending a payment order is received after the close of a funds-transfer business day or after the appropriate cut-off time on a funds-transfer business day, the receiving bank may treat the payment order or communication as received at the opening of the next funds-transfer business day.

[2826]
(2) If this Article refers to an execution date or payment date or states a day on which a receiving bank is required to take action, and the date or day does not fall on a funds-transfer business day, the next day that is a funds-transfer business day is treated as the date or day stated, unless the contrary is stated in this Article.

NEW SECTION. Sec. 4A-107. FEDERAL RESERVE REGULATIONS AND OPERATING CIRCULARS. Regulations of the board of governors of the federal reserve system and operating circulars of the federal reserve banks supersede any inconsistent provision of this Article to the extent of the inconsistency.

NEW SECTION. Sec. 4A-108. EXCLUSION OF CONSUMER TRANSACTIONS GOVERNED BY FEDERAL LAW. This Article does not apply to a funds transfer any part of which is governed by the Electronic Fund Transfer Act of 1978 (Title XX, P.L. 95-630, 92 Stat. 3728, 15 U.S.C. Sec. 1693 et seq.) as amended from time to time.

PART 2
ISSUE AND ACCEPTANCE OF PAYMENT ORDER

NEW SECTION. Sec. 4A-201. SECURITY PROCEDURE. "Security procedure" means a procedure established by agreement of a customer and a receiving bank for the purpose of (1) verifying that a payment order or communication amending or canceling a payment order is that of the customer, or (2) detecting error in the transmission or the content of the payment order or communication. A security procedure may require the use of algorithms or other codes, identifying words or numbers, encryption, callback procedures, or similar security devices. Comparison of a signature on a payment order or communication with an authorized specimen signature of the customer is not by itself a security procedure.

NEW SECTION. Sec. 4A-202. AUTHORIZED AND VERIFIED PAYMENT ORDERS. (1) A payment order received by the receiving bank is the authorized order of the person identified as sender if that person authorized the order or is otherwise bound by it under the law of agency.

(2) If a bank and its customer have agreed that the authenticity of payment orders issued to the bank in the name of the customer as sender will be verified pursuant to a security procedure, a payment order received by the receiving bank is effective as the order of the customer, whether or not authorized, if (a) the security procedure is a commercially reasonable method of providing security against unauthorized payment orders, and (b) the bank proves that it accepted the payment order in good faith and in compliance with the security procedure and any written agreement or instruction of the customer restricting acceptance of payment orders issued in the name of the customer. The bank is not required to
follow an instruction that violates a written agreement with the customer or notice of which is not received at a time and in a manner affording the bank a reasonable opportunity to act on it before the payment order is accepted.

(3) Commercial reasonableness of a security procedure is a question of law to be determined by considering the wishes of the customer expressed to the bank, the circumstances of the customer known to the bank, including the size, type, and frequency of payment orders normally issued by the customer to the bank, alternative security procedures offered to the customer, and security procedures in general use by customers and receiving banks similarly situated. A security procedure is deemed to be commercially reasonable if (a) the security procedure was chosen the customer after the bank offered, and the customer refused, a security procedure that was commercially reasonable for that customer, and (b) the customer expressly agreed in writing to be bound by any payment order, whether or not authorized, issued in its name, and accepted by the bank in compliance with the security procedure chosen by the customer.

(4) The term "sender" in this Article includes the customer in whose name a payment order is issued if the order is the authorized order of the customer under subsection (1) of this section, or it is effective as the order of the customer under subsection (2) of this section.

(5) This section applies to amendments and cancellations of payment orders to the same extent it applies to payment orders.

(6) Except as provided in this section and section 4A-203(1)(a) of this act, rights and obligations arising under this section or section 4A-203 of this act may not be varied by agreement.

NEW SECTION. Sec. 4A-203. UNENFORCEABILITY OF CERTAIN VERIFIED PAYMENT ORDERS. (1) If an accepted payment order is not, under section 4A-202(1) of this act, an authorized order of a customer identified as sender, but is effective as an order of the customer pursuant to section 4A-202(2) of this act, the following rules apply.

(a) By express written agreement, the receiving bank may limit the extent to which it is entitled to enforce or retain payment of the payment order.

(b) The receiving bank is not entitled to enforce or retain payment of the payment order if the customer proves that the order was not caused, directly or indirectly, by a person (i) entrusted at any time with duties to act for the customer with respect to payment orders or the security procedure, or (ii) who obtained access to transmitting facilities of the customer or who obtained, from a source controlled by the customer and without authority of the receiving bank, information facilitating breach of the security procedure, regardless of how the information was obtained or whether the customer was at fault. Information includes any access device, computer software, or the like.

(2) This section applies to amendments of payment orders to the same extent it applies to payment orders.
NEW SECTION. Sec. 4A-204. REFUND OF PAYMENT AND DUTY OF CUSTOMER TO REPORT WITH RESPECT UNAUTHORIZED PAYMENT ORDER. (1) If a receiving bank accepts a payment order issued in the name of its customer as sender which is (a) not authorized and not effective as the order of the customer under section 4A-202 of this act, or (b) not enforceable, in whole or in part, against the customer under section 4A-203 of this act, the bank shall refund any payment of the payment order received from the customer to the extent the bank is not entitled to enforce payment and shall pay interest on the refundable amount calculated from the date the bank received payment to the date of the refund. However, the customer is not entitled to interest from the bank on the amount to be refunded if the customer fails to exercise ordinary care to determine that the order was not authorized by the customer and to notify the bank of the relevant facts within a reasonable time not exceeding ninety days after the date the customer received notification from the bank that the order was accepted or that the customer's account was debited with respect to the order. The bank is not entitled to any recovery from the customer on account of a failure by the customer to give notification as stated in this section.

(2) Reasonable time under subsection (1) of this section may be fixed by agreement as stated in RCW 62A.1-204(1), but the obligation of a receiving bank to refund payment as stated in subsection (1) may not otherwise be varied by agreement.

NEW SECTION. Sec. 4A-205. ERRONEOUS PAYMENT ORDERS. (1) If an accepted payment order was transmitted pursuant to a security procedure for the detection of error and the payment order (a) erroneously instructed payment to a beneficiary not intended by the sender, (b) erroneously instructed payment in an amount greater than the amount intended by the sender, or (c) was an erroneously transmitted duplicate of a payment order previously sent by the sender, the following rules apply:

(i) If the sender proves that the sender or a person acting on behalf of the sender pursuant to section 4A-206 of this act complied with the security procedure and that the error would have been detected if the receiving bank had also complied, the sender is not obliged to pay the order to the extent stated in (ii) and (iii) of this subsection.

(ii) If the funds transfer is completed on the basis of an erroneous payment order described in (b) or (c) of this subsection, the sender is not obliged to pay the order and the receiving bank is entitled to recover from the beneficiary any amount paid to the beneficiary to the extent allowed by the law governing mistake and restitution.

(iii) If the funds transfer is completed on the basis of a payment order described in (b) of this subsection, the sender is not obliged to pay the order to the extent the amount received by the beneficiary is greater than the amount intended by the sender. In that case, the receiving bank is entitled to recover
from the beneficiary the excess amount received to the extent allowed by the law governing mistake and restitution.

(2) If (a) the sender of an erroneous payment order described in subsection (1) of this section is not obliged to pay all or part of the order, and (b) the sender receives notification from the receiving bank that the order was accepted by the bank or that the sender's account was debited with respect to the order, the sender has a duty to exercise ordinary care, on the basis of information available to the sender, to discover the error with respect to the order and to advise the bank of the relevant facts within a reasonable time, not exceeding ninety days, after the bank's notification was received by the sender. If the bank proves that the sender failed to perform that duty, the sender is liable to the bank for the loss the bank proves it incurred as a result of the failure, but the liability of the sender may not exceed the amount of the sender's order.

(3) This section applies to amendments to payment orders to the same extent it applies to payment orders.

NEW SECTION. Sec. 4A-206. TRANSMISSION OF PAYMENT ORDER THROUGH FUNDS-TRANSFER OR OTHER COMMUNICATION SYSTEM.

(1) If a payment order addressed to a receiving bank is transmitted to a funds-transfer system or other third-party communication system for transmittal to the bank, the system is deemed to be an agent of the sender for the purpose of transmitting the payment order to the bank. If there is a discrepancy between the terms of the payment order transmitted to the system and the terms of the payment order transmitted by the system to the bank, the terms of the payment order of the sender are those transmitted by the system. This section does not apply to a funds-transfer system of the federal reserve banks.

(2) This section applies to cancellations and amendments of payment orders to the same extent it applies to payment orders.

NEW SECTION. Sec. 4A-207. MISDESCRIPTION OF BENEFICIARY.

(1) Subject to subsection (2) of this section, if, in a payment order received by the beneficiary's bank, the name, bank account number, or other identification of the beneficiary refers to a nonexistent or unidentifiable person or account, no person has rights as a beneficiary of the order and acceptance of the order cannot occur.

(2) If a payment order received by the beneficiary's bank identifies the beneficiary both by name and by an identifying or bank account number and the name and number identify different persons, the following rules apply:

(a) Except as otherwise provided in subsection (3) of this section, if the beneficiary's bank does not know that the name and number refer to different persons, it may rely on the number as the proper identification of the beneficiary of the order. The beneficiary's bank need not determine whether the name and number refer to the same person.
(b) If the beneficiary's bank pays the person identified by name or knows that the name and number identify different persons, no person has rights as beneficiary except the person paid by the beneficiary's bank if that person was entitled to receive payment from the originator of the funds transfer. If no person has rights as beneficiary, acceptance of the order cannot occur.

(3) If (a) a payment order described in subsection (2) of this section is accepted, (b) the originator's payment order described the beneficiary inconsistently by name and number, and (c) the beneficiary's bank pays the person identified by number as permitted by subsection (2)(a) of this section, the following rules apply:

(i) If the originator is a bank, the originator is obliged to pay its order.

(ii) If the originator is not a bank and proves that the person identified by number was not entitled to receive payment from the originator, the originator is not obliged to pay its order unless the originator's bank proves that the originator, before acceptance of the originator's order, had notice that payment of a payment order issued by the originator might be made by the beneficiary's bank on the basis of an identifying or bank account number even if it identifies a person different from the named beneficiary. Proof of notice may be made by any admissible evidence. The originator's bank satisfies the burden of proof if it proves that the originator, before the payment order was accepted, signed a writing stating the information to which the notice relates.

(4) In a case governed by subsection (2)(a) of this section, if the beneficiary's bank rightfully pays the person identified by number and that person was not entitled to receive payment from the originator, the amount paid may be recovered from that person to the extent allowed by the law governing mistake and restitution as follows:

(a) If the originator is obliged to pay its payment order as stated in subsection (3) of this section, the originator has the right to recover.

(b) If the originator is not a bank and is not obliged to pay its payment order, the originator's bank has the right to recover.

NEW SECTION. Sec. 4A-208. MISDESCRIPTION OF INTERMEDIARY BANK OR BENEFICIARY'S BANK. (1) This subsection applies to a payment order identifying an intermediary bank or the beneficiary's bank only by an identifying number.

(a) The receiving bank may rely on the number as the proper identification of the intermediary or beneficiary's bank and need not determine whether the number identifies a bank.

(b) The sender is obliged to compensate the receiving bank for any loss and expenses incurred by the receiving bank as a result of its reliance on the number in executing or attempting to execute the order.

(2) This subsection applies to a payment order identifying an intermediary bank or the beneficiary's bank both by name and an identifying number if the name and number identify different persons.
(a) If the sender is a bank, the receiving bank may rely on the number as the proper identification of the intermediary or beneficiary's bank if the receiving bank, when it executes the sender's order, does not know that the name and number identify different persons. The receiving bank need not determine whether the name and number refer to the same person or whether the number refers to a bank. The sender is obliged to compensate the receiving bank for any loss and expenses incurred by the receiving bank as a result of its reliance on the number in executing or attempting to execute the order.

(b) If the sender is not a bank and the receiving bank proves that the sender, before the payment order was accepted, had notice that the receiving bank might rely on the number as the proper identification of the intermediary or beneficiary's bank even if it identifies a person different from the bank identified by name, the rights and obligations of the sender and the receiving bank are governed by subsection (2)(a) of this section, as though the sender were a bank. Proof of notice may be made by any admissible evidence. The receiving bank satisfies the burden of proof if it proves that the sender, before the payment order was accepted, signed a writing stating the information to which the notice relates.

(c) Regardless of whether the sender is a bank, the receiving bank may rely on the name as the proper identification of the intermediary or beneficiary's bank if the receiving bank, at the time it executes the sender's order, does not know that the name and number identify different persons. The receiving bank need not determine whether the name and number refer to the same person.

(d) If the receiving bank knows that the name and number identify different persons, reliance on either the name or the number in executing the sender's payment order is a breach of the obligation stated in section 4A-302(1)(a) of this act.

NEW SECTION. Sec. 4A-209. ACCEPTANCE OF PAYMENT ORDER.
(1) Subject to subsection (4) of this section, a receiving bank other than the beneficiary's bank accepts a payment order when it executes the order.

(2) Subject to subsections (3) and (4) of this section, a beneficiary's bank accepts a payment order at the earliest of the following times:

(a) When the bank (i) pays the beneficiary as stated in section 4A-405(1) or (2) of this act or (ii) notifies the beneficiary of receipt of the order or that the account of the beneficiary has been credited with respect to the order unless the notice indicates that the bank is rejecting the order or that funds with respect to the order may not be withdrawn or used until receipt of payment from the sender of the order;

(b) When the bank receives payment of the entire amount of the sender's order pursuant to section 4A-403(1)(a) or (b) of this act; or

(c) The opening of the next funds-transfer business day of the bank following the payment date of the order if, at that time, the amount of the sender's order is fully covered by a withdrawable credit balance in an authorized account of the sender or the bank has otherwise received full payment from the

[2832]
sender, unless the order was rejected before that time or is rejected within (i) one hour after that time, or (ii) one hour after the opening of the next business day of the sender following the payment date if that time is later. If notice of rejection is received by the sender after the payment date and the authorized account of the sender does not bear interest, the bank is obliged to pay interest to the sender on the amount of the order for the number of days elapsing after the payment date to the day the sender receives notice or learns that the order was not accepted, counting that day as an elapsed day. If the withdrawable credit balance during that period falls below the amount of the order, the amount of interest payable is reduced accordingly.

(3) Acceptance of a payment order cannot occur before the order is received by the receiving bank. Acceptance does not occur under subsection (2)(b) or (c) of this section if the beneficiary of the payment order does not have an account with the receiving bank, the account has been closed, or the receiving bank is not permitted by law to receive credits for the beneficiary’s account.

(4) A payment order issued to the originator’s bank cannot be accepted until the payment date if the bank is the beneficiary’s bank, or the execution date if the bank is not the beneficiary’s bank. If the originator’s bank executes the originator’s payment order before the execution date or pays the beneficiary of the originator’s payment order before the payment date and the payment order is subsequently canceled pursuant to section 4A-211(2) of this act, the bank may recover from the beneficiary any payment received to the extent allowed by the law governing mistake and restitution.

NEW SECTION. Sec. 4A-210. REJECTION OF PAYMENT ORDER. (1) A payment order is rejected by the receiving bank by a notice of rejection transmitted to the sender orally, electronically, or in writing. A notice of rejection need not use any particular words and is sufficient if it indicates that the receiving bank is rejecting the order or will not execute or pay the order. Rejection is effective when the notice is given if transmission is by a means that is reasonable in the circumstances. If notice of rejection is given by a means that is not reasonable, rejection is effective when the notice is received. If an agreement of the sender and receiving bank establishes the means to be used to reject a payment order, (a) any means complying with the agreement is reasonable and (b) any means not complying is not reasonable unless no significant delay in receipt of the notice resulted from the use of the noncomplying means.

(2) This subsection applies if a receiving bank other than the beneficiary’s bank fails to execute a payment order despite the existence on the execution date of a withdrawable credit balance in an authorized account of the sender sufficient to cover the order. If the sender does not receive notice of rejection of the order on the execution date and the authorized account of the sender does not bear interest, the bank is obliged to pay interest to the sender on the amount of the order for the number of days elapsing after the execution date to the earlier of
the day the order is canceled pursuant to section 4A-211(4) of this act or the day
the sender receives notice or learns that the order was not executed, counting the
final day of the period as an elapsed day. If the withdrawable credit balance
during that period falls below the amount of the order, the amount of interest is
reduced accordingly.

(3) If a receiving bank suspends payments, all unaccepted payment orders
issued to it are deemed rejected at the time the bank suspends payments.

(4) Acceptance of a payment order precludes a later rejection of the order.
Rejection of a payment order precludes a later acceptance of the order.

NEW SECTION. Sec. 4A-211. CANCELLATION AND AMENDMENT
OF PAYMENT ORDER. (1) A communication of the sender of a payment
order canceling or amending the order may be transmitted to the receiving bank
orally, electronically, or in writing. If a security procedure is in effect between
the sender and the receiving bank, the communication is not effective to cancel
or amend the order unless the communication is verified pursuant to the security
procedure or the bank agrees to the cancellation or amendment.

(2) Subject to subsection (1) of this section, a communication by the sender
canceling or amending a payment order is effective to cancel or amend the order
if notice of the communication is received at a time and in a manner affording
the receiving bank a reasonable opportunity to act on the communication before
the bank accepts the payment order.

(3) After a payment order has been accepted, cancellation or amendment of
the order is not effective unless the receiving bank agrees or a funds-transfer
system rule allows cancellation or amendment without agreement of the bank.

(a) With respect to a payment order accepted by a receiving bank other than
the beneficiary's bank, cancellation or amendment is not effective unless a
conforming cancellation or amendment of the payment order issued by the
receiving bank is also made.

(b) With respect to a payment order accepted by the beneficiary's bank,
cancellation or amendment is not effective unless the order was issued in
execution of an unauthorized payment order, or because of a mistake by a sender
in the funds transfer which resulted in the issuance of a payment order (i) that
is a duplicate of a payment order previously issued by the sender, (ii) that orders
payment to a beneficiary not entitled to receive payment from the originator, or
(iii) that orders payment in an amount greater than the amount the beneficiary
was entitled to receive from the originator. If the payment order is canceled or
amended, the beneficiary's bank is entitled to recover from the beneficiary any
amount paid to the beneficiary to the extent allowed by the law governing
mistake and restitution.

(4) An unaccepted payment order is canceled by operation of law at the
close of the fifth funds-transfer business day of the receiving bank after the
execution date or payment date of the order.

[2834]
(5) A canceled payment order cannot be accepted. If an accepted payment order is canceled, the acceptance is nullified and no person has any right or obligation based on the acceptance. Amendment of a payment order is deemed to be cancellation of the original order at the time of amendment and issue of a new payment order in the amended form at the same time.

(6) Unless otherwise provided in an agreement of the parties or in a funds-transfer system rule, if the receiving bank, after accepting a payment order, agrees to cancellation or amendment of the order by the sender or is bound by a funds-transfer system rule allowing cancellation or amendment without the bank's agreement, the sender, whether or not cancellation or amendment is effective, is liable to the bank for any loss and expenses, including reasonable attorneys' fees, incurred by the bank as a result of the cancellation or amendment or attempted cancellation or amendment.

(7) A payment order is not revoked by the death or legal incapacity of the sender unless the receiving bank knows of the death or of an adjudication of incapacity by a court of competent jurisdiction and has reasonable opportunity to act before acceptance of the order.

(8) A funds-transfer system rule is not effective to the extent it conflicts with subsection (3)(b) of this section.

NEW SECTION. Sec. 4A-212. LIABILITY AND DUTY OF RECEIVING BANK REGARDING UNACCEPTED PAYMENT ORDER. If a receiving bank fails to accept a payment order that is obliged by express agreement to accept, the bank is liable for breach of the agreement to the extent provided in the agreement or in this Article, but does not otherwise have any duty to accept a payment order or, before acceptance, to take any action, or refrain from taking action, with respect to the order except as provided in this Article or by express agreement. Liability based on acceptance arises only when acceptance occurs as stated in section 4A-209 of this act and liability is limited to that provided in this Article. A receiving bank is not the agent of the sender or beneficiary of the payment order it accepts, or of any other party to the funds transfer, and the bank owes no duty to any party to the funds transfer except as provided in this Article or by express agreement.

PART 3
EXECUTION OF SENDER'S PAYMENT ORDER BY RECEIVING BANK

NEW SECTION. Sec. 4A-301. EXECUTION AND EXECUTION DATE. (1) A payment order is "executed" by the receiving bank when it issues a payment order intended to carry out the payment order received by the bank. A payment order received by the beneficiary's bank can be accepted but cannot be executed.

(2) "Execution date" of a payment order means the day on which the receiving bank may properly issue a payment order in execution of the sender's
order. The execution date may be determined by instruction of the sender but cannot be earlier than the day the order is received and, unless otherwise determined, is the day the order is received. If the sender's instruction states a payment date, the execution date is the payment date or an earlier date on which execution is reasonably necessary to allow payment to the beneficiary on the payment date.

NEW SECTION.  Sec. 4A-302. OBLIGATIONS OF RECEIVING BANK IN EXECUTION OF PAYMENT ORDER.  (1) Except as provided in subsections (2) through (4) of this section, if the receiving bank accepts a payment order pursuant to section 4A-209(1) of this act, the bank has the following obligations in executing the order.

(a) The receiving bank is obliged to issue, on the execution date, a payment order complying with the sender's order and to follow the sender's instructions concerning (i) any intermediary bank or funds-transfer system to be used in carrying out the funds transfer, or (ii) the means by which payment orders are to be transmitted in the funds transfer. If the originator's bank issues a payment order to an intermediary bank, the originator's bank is obliged to instruct the intermediary bank accordingly to the instruction of the originator. An intermediary bank in the funds transfer is similarly bound by an instruction given to it by the receiver of the payment order it accepts.

(b) If the sender's instruction states that the funds transfer is to be carried out telephonically or by wire transfer or otherwise indicates that the funds transfer is to be carried out by the most expeditious means, the receiving bank is obliged to transmit its payment order by the most expeditious available means, and to instruct any intermediary bank accordingly. If a sender's instruction states a payment date, the receiving bank is obliged to transmit its payment order at a time and by means reasonably necessary to allow payment to the beneficiary on the payment date or as soon thereafter as is feasible.

(2) Unless otherwise instructed, a receiving bank executing a payment order may (a) use any funds-transfer system if use of that system is reasonable in the circumstances, and (b) issue a payment order to the beneficiary's bank or to an intermediary bank through which a payment order conforming to the sender's order can expeditiously be issued to the beneficiary's bank if the receiving bank exercises ordinary care in the selection of the intermediary bank. A receiving bank is not required to follow an instruction of the sender designating a funds-transfer system to be used in carrying out the funds transfer if the receiving bank, in good faith, determines that it is not feasible to follow the instruction or that following the instruction would unduly delay completion of the funds transfer.

(3) Unless subsection (1)(b) of this section applies or the receiving bank is otherwise instructed, the bank may execute a payment order by transmitting its payment order by first class mail or by any means reasonable in the circumstances. If the receiving bank is instructed to execute the sender's order by
transmitting its payment order by a particular means, the receiving bank may issue its payment order by the means stated or by any means as expeditious as the means stated.

(4) Unless instructed by the sender, (a) the receiving bank may not obtain payment of its charges for services and expenses in connection with the execution of the sender's order by issuing a payment order in an amount equal to the amount of the sender's order less the amount of the charges, and (b) may not instruct a subsequent receiving bank to obtain payment of its charges in the same manner.

NEW SECTION. Sec. 4A-303. ERRONEOUS EXECUTION OF PAYMENT ORDER. (1) A receiving bank that (a) executes the payment order of the sender by issuing a payment order in an amount greater than the amount of the sender's order, or (b) issues a payment order in execution of the sender's order and then issues a duplicate order, is entitled to payment of the amount of the sender's order under section 4A-402(3) of this act if that subsection is otherwise satisfied. The bank is entitled to recover from the beneficiary of the erroneous order the excess payment received to the extent allowed by the law governing mistake and restitution.

(2) A receiving bank that executes the payment order of the sender by issuing a payment order in an amount less than the amount of the sender's order is entitled to payment of the amount of the sender's order under section 4A-402(3) of this act if (a) that subsection is otherwise satisfied and (b) the bank corrects its mistake by issuing an additional payment order for the benefit of the beneficiary of the sender's order. If the error is not corrected, the issuer of the erroneous order is entitled to receive or retain payment from the sender of the order it accepted only to the extent of the amount of the erroneous order. This subsection does not apply if the receiving bank executes the sender's payment order by issuing a payment order in an amount less than the amount of the sender's order for the purpose of obtaining payment of its charges for services and expenses pursuant to instruction of the sender.

(3) If a receiving bank executes the payment order of the sender by issuing a payment order to a beneficiary different from the beneficiary of the sender's order and the funds transfer is completed on the basis of that error, the sender of the payment order that was erroneously executed and all previous senders in the funds transfer are not obliged to pay the payment orders they issued. The issuer of the erroneous order is entitled to recover from the beneficiary of the order the payment received to the extent allowed by the law governing mistake and restitution.

NEW SECTION. Sec. 4A-304. DUTY OF SENDER TO REPORT ERRONEOUSLY EXECUTED PAYMENT ORDER. If the sender of a payment order that is erroneously executed as stated in section 4A-303 of this act receives notification from the receiving bank that the order was executed or that the
sender's account was debited with respect to the order, the sender has a duty to exercise ordinary care to determine, on the basis of information available to the sender, that the order was erroneously executed and to notify the bank of the relevant facts within a reasonable time not exceeding ninety days after the notification from the bank was received by the sender. If the sender fails to perform that duty, the bank is not obliged to pay interest on any amount refundable to the sender under section 4A-402(4) of this act for the period before the bank learns of the execution error. The bank is not entitled to any recovery from the sender on account of a failure by the sender to perform the duty stated in this section.

NEW SECTION. Sec. 4A-305. LIABILITY FOR LATE OR IMPROPER EXECUTION OR FAILURE TO EXECUTE PAYMENT ORDER. (1) If a funds transfer is completed but execution of a payment order by the receiving bank in breach of section 4A-302 of this act results in delay in payment to the beneficiary, the bank is obliged to pay interest to either the originator or the beneficiary of the funds transfer for the period of delay caused by the improper execution. Except as provided in subsection (3) of this section, additional damages are not recoverable.

(2) If execution of a payment order by a receiving bank in breach of section 4A-302 of this act results in (a) noncompletion of the funds transfer, (b) failure to use an intermediary bank designated by the originator, or (c) issuance of a payment order that does not comply with the terms of the payment order of the originator, the bank is liable to the originator for its expenses in the funds transfer and for incidental expenses and interest losses, to the extent not covered by subsection (1) of this section, resulting from the improper execution. Except as provided in subsection (3) of this section, additional damages are not recoverable.

(3) In addition to the amounts payable under subsections (1) and (2) of this section, damages, including consequential damages, are recoverable to the extent provided in an express written agreement of the receiving bank.

(4) If a receiving bank fails to execute a payment order it was obliged by express agreement to execute, the receiving bank is liable to the sender for its expenses in the transaction and for incidental expenses and interest losses resulting from the failure to execute. Additional damages, including consequential damages, are recoverable to the extent provided in an express written agreement of the receiving bank, but are not otherwise recoverable.

(5) Reasonable attorneys' fees are recoverable if demand for compensation under subsection (1) or (2) of this section is made and refused before an action is brought on the claim. If a claim is made for breach of an agreement under subsection (4) of this section and the agreement does not provide for damages, reasonable attorneys' fees are recoverable if demand for compensation under subsection (4) of this section is made and refused before an action is brought on the claim.

[2838]
(6) Except as stated in this section, the liability of a receiving bank under subsections (1) and (2) of this section may not be varied by agreement.

PART 4
PAYMENT

NEW SECTION. Sec. 4A-401. PAYMENT DATE. "Payment date" of a payment order means the day on which the amount of the order is payable to the beneficiary by the beneficiary’s bank. The payment date may be determined by instruction of the sender but cannot be earlier than the day the order is received by the beneficiary’s bank and, unless otherwise determined, is the day the order is received by the beneficiary’s bank.

NEW SECTION. Sec. 4A-402. OBLIGATION OF SENDER TO PAY RECEIVING BANK. (1) This section is subject to sections 4A-205 and 4A-207 of this act.

(2) With respect to a payment order issued to the beneficiary’s bank, acceptance of the order by the bank obliges the sender to pay the bank the amount of the order, but payment is not due until the payment date of the order.

(3) This subsection is subject to subsection (5) of this section and to section 4A-303 of this act. With respect to a payment order issued to a receiving bank other than the beneficiary’s bank, acceptance of the order by the receiving bank obliges the sender to pay the bank the amount of the sender’s order. Payment by the sender is not due until the execution date of the sender’s order. The obligation of that sender to pay its payment order is excused if the funds transfer is not completed by acceptance by the beneficiary’s bank of a payment order instructing payment to the beneficiary of that sender’s payment order.

(4) If the sender of a payment order pays the order and was not obliged to pay all or part of the amount paid, the bank receiving payment is obliged to refund payment to the extent the sender was not obliged to pay. Except as provided in sections 4A-204 and 4A-304 of this act, interest is payable on the refundable amount from the date of payment.

(5) If a funds transfer is not completed as stated in this subsection and an intermediary bank is obliged to refund payment as stated in subsection (4) of this section but is unable to do so because not permitted by applicable law or because the bank suspends payments, a sender in the funds transfer that executed a payment order in compliance with an instruction, as stated in section 4A-302(1)(a) of this section, to route the funds transfer through that intermediary bank is entitled to receive or retain payment from the sender of the payment order that it accepted. The first sender in the funds transfer that issued an instruction requiring routing through that intermediary bank is subrogated to the right of the bank that paid the intermediary bank to refund as stated in subsection (4) of this section.
(6) The right of the sender of a payment order to be excused from the obligation to pay the order as stated in subsection (3) of this section or to receive refund under subsection (4) of this section may not be varied by agreement.

NEW SECTION. Sec. 4A-403. PAYMENT BY SENDER TO RECEIVING BANK. (1) Payment of the sender's obligation under section 4A-402 of this act to pay the receiving bank occurs as follows:

(a) If the sender is a bank, payment occurs when the receiving bank receives final settlement of the obligation through a federal reserve bank or through a funds-transfer system.

(b) If the sender is a bank and the sender (i) credited an account of the receiving bank with the sender, or (ii) caused an account of the receiving bank in another bank to be credited, payment occurs when the credit is withdrawn or, if not withdrawn, at midnight of the day on which the credit is withdrawable and the receiving bank learns of that fact.

(c) If the receiving bank debits an account of the sender with the receiving bank, payment occurs when the debit is made to the extent the debit is covered by a withdrawable credit balance in the account.

(2) If the sender and receiving bank are members of a funds-transfer system that nets obligations multilaterally among participants, the receiving bank receives final settlement when settlement is complete in accordance with the rules of the system. The obligation of the sender to pay the amount of a payment order transmitted through the funds-transfer system may be satisfied, to the extent permitted by the rules of the system, by setting off and applying against the sender's obligation the right of the sender to receive payment from the receiving bank of the amount of any other payment order transmitted to the sender by the receiving bank through the funds-transfer system. The aggregate balance of obligations owed by each sender to each receiving bank in the funds-transfer system may be satisfied, to the extent permitted by the rules of the system, by setting off and applying against that balance the aggregate balance of obligations owed to the sender by other members of the system. The aggregate balance is determined after the right of setoff stated in the second sentence of this subsection has been exercised.

(3) If two banks transmit payment orders to each other under an agreement that settlement of the obligations of each bank to the other under section 4A-402 of this act will be made at the end of the day or other period, the total amount owed with respect to all orders transmitted by one bank shall be set off against the total amount owed with respect to all orders transmitted by the other bank. To the extent of the setoff, each bank has made payment to the other.

(4) In a case not covered by subsection (1) of this section, the time when payment of the sender's obligation under section 4A-402 (2) or (3) of this act occurs is governed by applicable principles of law that determine when an obligation is satisfied.
NEW SECTION. Sec. 4A-404. OBLIGATION OF BENEFICIARY'S BANK TO PAY AND GIVE NOTICE TO BENEFICIARY. (1) Subject to sections 4A-211(5), 4A-405(4), and 4A-405(5) of this act, if a beneficiary's bank accepts a payment order, the bank is obliged to pay the amount of the order to the beneficiary of the order. Payment is due on the payment date of the order, but if acceptance occurs on the payment date after the close of the funds-transfer business day of the bank, payment is due on the next funds-transfer business day. If the bank refuses to pay after demand by the beneficiary and receipt of notice of particular circumstances that will give rise to consequential damages as a result of nonpayment, the beneficiary may recover damages resulting from the refusal to pay to the extent the bank had notice of the damages, unless the bank proves that it did not pay because of a reasonable doubt concerning the right of the beneficiary to payment.

(2) If a payment order accepted by the beneficiary's bank instructs payment to an account of the beneficiary, the bank is obliged to notify the beneficiary of receipt of the order before midnight of the next funds-transfer business day following the payment date. If the payment order does not instruct payment to an account of the beneficiary, the bank is required to notify the beneficiary only if notice is required by the order. Notice may be given by first class mail or any other means reasonable in the circumstances. If the bank fails to give the required notice, the bank is obliged to pay interest to the beneficiary on the amount of the payment order from the day notice should have been given until the day the beneficiary learned of receipt of the payment order by the bank. No other damages are recoverable. Reasonable attorneys' fees are also recoverable if demand for interest is made and refused before an action is brought on the claim.

(3) The right of a beneficiary to receive payment and damages as stated in subsection (a) may not be varied by agreement or a funds-transfer system rule. The right of a beneficiary to be notified as stated in subsection (2) of this section may be varied by agreement of the beneficiary or by a funds-transfer system rule if the beneficiary is notified of the rule before initiation of the funds transfer.

NEW SECTION. Sec. 4A-405. PAYMENT BY BENEFICIARY'S BANK TO BENEFICIARY. (1) If the beneficiary's bank credits an account of the beneficiary of a payment order payment of the bank's obligation under section 4A-404(1) of this act occurs when and to the extent (a) the beneficiary is notified of the right to withdraw the credit, (b) the bank lawfully applies the credit to a debt of the beneficiary, or (c) funds with respect to the order are otherwise made available to the beneficiary by the bank.

(2) If the beneficiary's bank does not credit an account of the beneficiary of a payment order, the time when payment of the bank's obligation under section 4A-404(1) of this act occurs is governed by principles of law that determine when an obligation is satisfied.
(3) Except as stated in subsections (4) and (5) of this act, if the beneficiary's bank pays the beneficiary of a payment order under a condition to payment or agreement of the beneficiary giving the bank the right to recover payment from the beneficiary if the bank does not receive payment of the order, the condition to payment or agreement is not enforceable.

(4) A funds-transfer system rule may provide that payments made to beneficiaries of funds transfers made through the system are provisional until receipt of payment by the beneficiary's bank of the payment order it accepted. A beneficiary's bank that makes a payment that is provisional under the rule is entitled to refund from the beneficiary if (a) the rule requires that both the beneficiary and the originator be given notice of the provisional nature of the payment before the funds transfer is initiated, (b) the beneficiary, the beneficiary's bank and the originator's bank agreed to be bound by the rule, and (c) the beneficiary's bank did not receive payment of the payment order that it accepted. If the beneficiary is obliged to refund payment to the beneficiary's bank, acceptance of the payment order by the beneficiary's bank is nullified and no payment by the originator of the funds transfer to the beneficiary occurs under section 4A-406 of this act.

(5) This subsection applies to a funds transfer that includes a payment order transmitted over a funds-transfer system that (a) nets obligations multilaterally among participants, and (b) has in effect a loss-sharing agreement among participants for the purpose of providing funds necessary to complete settlement of the obligations of one or more participants that do not meet their settlement obligations. If the beneficiary's bank in the funds transfer accepts a payment order and the system fails to complete settlement pursuant to its rules with respect to any payment order in the funds transfer, (i) the acceptance by the beneficiary's bank is nullified and no person has any right or obligation based on the acceptance, (ii) the beneficiary's bank is entitled to recover payment from the beneficiary, (iii) no payment by the originator to the beneficiary occurs under section 4A-406 of this act, and (iv) subject to section 4A-402(5), each sender in the funds transfer is excused from its obligation to pay its payment order under section 4A-402(5), each sender in the funds transfer is excused from its obligation to pay its payment order under section 4A-402(3) of this act because the funds transfer has not been completed.

NEW SECTION.  Sec. 4A-406. PAYMENT BY ORIGINATOR TO BENEFICIARY; DISCHARGE OF UNDERLYING OBLIGATION. (1) Subject to sections 4A-211(5), 4A-405(4), and 4A-405(5) of this act, the originator of a funds transfer pays the beneficiary of the originator's payment order (a) at the time a payment order for the benefit of the beneficiary is accepted by the beneficiary's bank in the funds transfer and (b) in an amount equal to the amount of the order accepted by the beneficiary's bank, but not more than the amount of the originator's order.
(2) If payment under subsection (1) of this section is made to satisfy an obligation, the obligation is discharged to the same extent discharge would result from payment to the beneficiary of the same amount in money, unless (a) the payment under subsection (1) of this section was made by a means prohibited by the contract of the beneficiary with respect to the obligation, (b) the beneficiary, within a reasonable time after receiving notice of receipt of the order by the beneficiary’s bank, notified the originator of the beneficiary’s refusal of the payment, (c) funds with respect to the order were not withdrawn by the beneficiary or applied to a debt of the beneficiary, and (d) the beneficiary would suffer a loss that could reasonably have been avoided if payment had been made by a means complying with the contract. If payment by the originator does not result in discharge under this section, the originator is subrogated to the rights of the beneficiary to receive payment from the beneficiary’s bank under section 4A-404(1) of this act.

(3) For the purpose of determining whether discharge of an obligation occurs under subsection (2) of this section, if the beneficiary’s bank accepts a payment order in an amount equal to the amount of the originator’s payment order less charges of one or more receiving banks in the funds transfer, payment to the beneficiary is deemed to be in the amount of the originator’s order unless upon demand by the beneficiary the originator does not pay the beneficiary the amount of the deducted charges.

(4) Rights of the originator or of the beneficiary of a funds transfer under this section may be varied only by agreement of the originator and the beneficiary.

PART 5
MISCELLANEOUS PROVISIONS

NEW SECTION. Sec. 4A-501. VARIATION BY AGREEMENT AND EFFECT OF FUNDS-TRANSFER SYSTEM RULE. (1) Except as otherwise provided in this Article, the rights and obligations of a party to a funds transfer may be varied by agreement of the affected party.

(2) "Funds-transfer system rule" means a rule of an association of banks (a) governing transmission of payment orders by means of a funds-transfer system of the association or rights and obligations with respect to those orders, or (b) to the extent the rule governs rights and obligations between banks that are parties to a funds transfer in which a federal reserve bank, acting as an intermediary bank, sends a payment order to the beneficiary’s bank. Except as otherwise provided in this Article, a funds-transfer system rule governing rights and obligations between participating banks using the system may be effective even if the rule conflicts with the Article and indirectly affects another party to the funds transfer who does not consent to the rule. A funds-transfer system rule may also govern rights and obligations of parties other than participating banks.
using the system to the extent stated in sections 4A-404(3), 4A-405(4), and 4A-507(3) of this act.

NEW SECTION. Sec. 4A-502. CREDITOR PROCESS SERVED ON RECEIVING BANK; SETOFF BY BENEFICIARY'S BANK. (1) As used in this section, "creditor process" means levy, attachment, garnishment, notice of lien, sequestration, or similar process issued by or on behalf of a creditor or other claimant with respect to an account.

(2) This subsection applies to creditor process with respect to an authorized account of the sender of a payment order if the creditor process is served on the receiving bank. For the purpose of determining rights with respect to the creditor process, if the receiving bank accepts the payment order the balance in the authorized account is deemed to be reduced by the amount of the payment order to the extent the bank did not otherwise receive payment of the order, unless the creditor process is served at the time and in a manner affording the bank a reasonable opportunity to act on it before the bank accepts the payment order.

(3) If a beneficiary's bank has received a payment order for payment to the beneficiary's account in the bank, the following rules apply:

(a) The bank may credit the beneficiary's account. The amount credited may be set off against an obligation owed by the beneficiary to the bank or may be applied to satisfy creditor process served on the bank with respect to the account.

(b) The bank may credit the beneficiary's account and allow withdrawal of the amount credited unless creditor process with respect to the account is served at the time and in a manner affording the bank a reasonable opportunity to act to prevent withdrawal.

(c) If creditor process with respect to the beneficiary's account has been served and the bank has had a reasonable opportunity to act on it, the bank may not reject the payment order except for a reason unrelated to the service of process.

(4) Creditor process with respect to a payment by the originator to the beneficiary pursuant to a funds transfer may be served only on the beneficiary's bank with respect to the debt owed by that bank to the beneficiary. Any other bank served with the creditor process is not obliged to act with respect to the process.

NEW SECTION. Sec. 4A-503. INJUNCTION OR RESTRAINING ORDER WITH RESPECT TO FUNDS TRANSFER. For proper cause and in compliance with applicable law, a court may restrain (1) a person from issuing a payment order to initiate a funds transfer, (2) an originator's bank from executing the payment order of the originator, or (3) the beneficiary's bank from releasing funds to the beneficiary or the beneficiary from withdrawing the funds. A court may not otherwise restrain a person from issuing a payment order,
paying or receiving payment of a payment order, or otherwise acting with respect to a funds transfer.

**NEW SECTION.** Sec. 4A-504. ORDER IN WHICH ITEMS AND PAYMENT ORDERS MAY BE CHARGED TO ACCOUNT; ORDER OF WITHDRAWALS FROM ACCOUNT. (1) If a receiving bank has received more than one payment order of the sender or one or more payment orders and other items that are payable from the sender's account, the bank may charge the sender's account with respect to the various orders and items in any sequence.

(2) In determining whether a credit to an account has been withdrawn by the holder of the account or applied to a debt of the holder of the account, credits first made to the account are first withdrawn or applied.

**NEW SECTION.** Sec. 4A-505. PRECLUSION OF OBJECTION TO DEBIT OF CUSTOMER'S ACCOUNT. If a receiving bank has received payment from its customer with respect to a payment order issued in the name of the customer as sender and accepted by the bank, and the customer received notification reasonably identifying the order, the customer is precluded from asserting that the bank is not entitled to retain the payment unless the customer notifies the bank of the customer's objection to the payment within one year after the notification was received by the customer.

**NEW SECTION.** Sec. 4A-506. RATE OF INTEREST. (1) If, under this Article, a receiving bank is obliged to pay interest with respect to a payment order issued to the bank, the amount payable may be determined (a) by agreement of the sender and receiving bank, or (b) by a funds-transfer system rule if the payment order is transmitted through a funds-transfer system.

(2) If the amount of interest is not determined by an agreement or rule as stated in subsection (1) of this section, the amount is calculated by multiplying the applicable federal funds rate by the amount on which interest is payable, and then multiplying the product by the number of days for which interest is payable. The applicable federal funds rate is the average of the federal funds rates published by the federal reserve bank of New York for each of the days for which interest is payable divided by three hundred sixty. The federal funds rate for any day on which a published rate is not available is the same as the published rate for the next preceding day for which there is a published rate. If a receiving bank that accepted a payment order is required to refund payment to the sender of the order because the funds transfer was not completed, but the failure to complete was not due to any fault by the bank, the interest payable is reduced by a percentage equal to the reserve requirement on deposits of the receiving bank.

**NEW SECTION.** Sec. 4A-507. CHOICE OF LAW. (1) The following rules apply unless the affected parties otherwise agree or subsection (3) of this section applies;
(a) The rights and obligations between the sender of a payment order and the receiving bank are governed by the law of the jurisdiction in which the receiving bank is located.

(b) The rights and obligations between the beneficiary’s bank and the beneficiary are governed by the law of the jurisdiction in which the beneficiary’s bank is located.

(c) The issue of when payment is made pursuant to a funds transfer by the originator to the beneficiary is governed by the law of the jurisdiction in which the beneficiary’s bank is located.

(2) If the parties described in each paragraph of subsection (1) of this section have made an agreement selecting the law of a particular jurisdiction to govern rights and obligations between each other, the law of that jurisdiction governs those rights and obligations, whether or not the payment order or the funds transfer bears a reasonable relation to that jurisdiction.

(3) A funds-transfer system rule may select the law of a particular jurisdiction to govern (a) rights and obligations between participating banks with respect to payment orders transmitted or processed through the system, or (b) the rights and obligations of some or all parties to a funds transfer any part of which is carried out by means of the system. A choice of law made pursuant to (a) of this subsection is binding on participating banks. A choice of law made pursuant to (b) of this subsection is binding on the originator, other sender, or a receiving bank having notice that the funds-transfer system might be used in the funds transfer and of the choice of law by the system. A choice of law made pursuant to (a) of this subsection is binding on participating banks. A choice of law made pursuant to (b) of this subsection is binding on the originator, other sender, or a receiving bank having notice that the funds-transfer system might be used in the funds transfer and of the choice of law by the system. The beneficiary of a funds transfer is bound by the choice of law if, when the funds transfer is initiated, the beneficiary has notice that the funds-transfer system might be used in the funds transfer and of the choice of law by the system. The law of a jurisdiction selected pursuant to this subsection may govern, whether or not that law bears a reasonable relation to the matter in issue.

(4) In the event of inconsistency between an agreement under subsection (2) of this section and a choice-of-law rule under subsection (3) of this section, the agreement under subsection (2) of this section prevails.

(5) If a funds transfer is made by use of more than one funds-transfer system and there is inconsistency between choice-of-law rules of the systems, the matter in issue is governed by the law of the selected jurisdiction that has the most significant relationship to the matter in issue.

NEW SECTION. Sec. 4A-508. Sections 4A-101 through 4A-507 of this act shall constitute a new Article in Title 62A RCW.

Passed the Senate June 24, 1991.
Approved by the Governor July 2, 1991.
Filed in Office of Secretary of State July 2, 1991.
AN ACT Relating to subjecting certain ownership changes to real estate excise taxation; adding new sections to Title 82 RCW; creating a new section; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. (1) The legislature finds that transfers of ownership of a corporation may be, in some circumstances, essentially equivalent to the sale of real property held by the corporation. The legislature further finds that all transfers of possession or use of real property should be subject to the same excise tax burdens.

(2) The intent of this act is to apply an excise tax to transfers of corporate ownership when the transfer of ownership is comparable to a sale of real property. The excise tax imposed under this act is intended to be equivalent in burden to the excise tax imposed on sales of real estate under chapter 82.45 RCW.

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Ownership transfer" means a transfer or series of transfers in any consecutive twelve-month period, for a valuable consideration, of ownership of stock possessing more than fifty percent of the total combined voting power of the issued and outstanding shares of each class of stock entitled to vote.

(2) "Value of real property assets" means the true and fair value in money, at the time an ownership transfer is completed, of any estate or interest in real property located in this state.

NEW SECTION. Sec. 3. (1) An excise tax is imposed on each ownership transfer of a corporation, to be paid by the corporation, at the rate of one and twenty-eight one-hundredths percent of the value of the real property assets of the corporation.

(2) Chapter 82.32 RCW applies to the tax imposed in this chapter. The tax due dates, reporting periods, and return requirements applicable to chapter 82.04 RCW apply equally to the tax imposed in this chapter.

NEW SECTION. Sec. 4. The tax imposed in this chapter does not apply to ownership transfers:

(1) When the taxpayer demonstrates by a preponderance of the evidence that the primary intent of the ownership transfer is for purposes other than avoidance of the tax imposed in chapter 82.45 RCW.

(2) When the value of the real property assets of the corporation is less than fifty percent of the true and fair value in money of all assets held by the corporation at the time of the ownership transfer.

[2847]
(3) Of interests that are required to be registered with the federal securities and exchange commission under the securities act of 1933 or the securities exchange act of 1934.

(4) By gift, devise, or inheritance.

(5) From one spouse to the other in accordance with the terms of a decree of divorce or in fulfillment of a property settlement agreement incident thereto.

(6) Solely for the purpose of securing a debt.

(7) Upon execution of a judgment.

(8) To a corporation that is wholly owned by the transferor and/or the transferor’s spouse or children. If such transferee corporation voluntarily transfers the ownership interest, or the real property represented by the ownership interest, or such transferor, spouse, or children voluntarily transfer stock in the transferee corporation or interest in the transferee partnership capital, as the case may be, to other than (a) the transferor and/or the transferor’s spouse or children, (b) a trust having the transferor and/or the transferor’s spouse or children as the only beneficiaries at the time of the transfer to the trust, or (c) a corporation or partnership wholly owned by the original transferor and/or the transferor’s spouse or children, within five years after the original transfer to which this exemption applies, excise taxes shall become due and payable on the original transfer as otherwise provided by law.

NEW SECTION. Sec. 5. Sections 2 through 4 of this act shall constitute a new chapter in Title 82 RCW.

NEW SECTION. Sec. 6. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

Passed the Senate June 28, 1991.
Approved by the Governor July 2, 1991.

CHAPTER 23
[Engrossed Substitute House Bill 1856]
WEIGHTS AND MEASURES—REVISED PROVISIONS
Effective Date: 9/29/91

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. The legislature finds:

(1) Accurate weights and measures are essential for the efficient operation of commerce in Washington, and weights and measures are important to both consumers and businesses.
(2) Legislation to expand the weights and measures program and fund the program with license fees on weights and measures devices has been considered.

(3) Additional information is necessary before further action can be taken.

**NEW SECTION.** Sec. 2. It is the intent of the legislature to fund the current weights and measures program only through the first year of the 1991-93 fiscal biennium, and to base funding of the program for the second year of the biennium and ensuing biennia upon the recommendations of the study performed under section 3 of this act.

**NEW SECTION.** Sec. 3. The department of agriculture shall conduct a study of a weights and measures program necessary to protect both consumers and business. In the conduct of this study the department shall consult with those affected by the weights and measures program. The department may create an advisory committee made up of consumers and members of the business community affected by the weights and measures program.

(2) The study shall include:

(a) Determination of the appropriate level and form for a weights and measures program sufficient for the efficient operation of commerce in Washington.

(b) Recommendations for an appropriate funding mechanism for the weights and measures program.

(3) In conducting the study the department shall:

(a) Identify the benefits of the weights and measures program, taking into account the element of service provided the device owners and the element of consumer protection provided the general public.

(b) Survey other states about their methods of funding weights and measures programs, frequency of inspection, and number of inspection personnel.

(c) Investigate the potential for error for different types of devices and determine the appropriate frequency of inspection for different types of weights and measures devices.

(d) Determine an appropriate license fee schedule for different types of devices taking into account the cost of equipment and personnel to the department of agriculture.

(e) Determine the appropriate level of license fee revenue sharing with those first class cities operating a weights and measures program.

(f) Examine the need to license and inspect electronic scanning devices and other new weighing and measuring technology.

(g) Examine the level of complaints relating to firewood deliveries.

(h) Study any other issues relevant to the weights and measures program.

**Sec. 4.** RCW 19.94.150 and 1969 c 67 s 15 are each amended to read as follows:

The system of weights and measures in customary use in the United States and the metric system of weights and measures are jointly recognized, and either
one or both of these systems shall be used for all commercial purposes in this state. The definitions of basic units of weight and measure and weights and measures equivalents, as published by the national institute of standards and technology, are recognized and shall govern weighing and measuring equipment and transactions in the state.

Sec. 5. RCW 19.94.160 and 1969 c 67 s 16 are each amended to read as follows:

Weights and measures in conformity with the standards of the United States as have been supplied to the state by the federal government or otherwise obtained by the state for use as state standards, shall, when the same shall have been certified as such by the national institute of standards and technology, be the state standards of weight and measure. The state standards shall be kept in a place designated by the director and shall not be removed from the said place except for repairs or for certification: PROVIDED, That they shall be submitted at least once in ten years to the national institute of standards and technology for certification.

Sec. 6. RCW 19.94.190 and 1989 c 354 s 36 are each amended to read as follows:

The director shall enforce the provisions of this chapter and shall adopt rules for enforcing and carrying out the purposes of this chapter. Such rules shall have the effect of law and may include (1) standards of net weight, measure, or count, and reasonable standards of fill for any commodity in package form, (2) the governing technical and reporting procedures to be followed, and the report and record forms and marks of rejection to be used by the director and city sealers in the discharge of their official duties, (3) the governing technical test procedures, reporting procedures, record and reporting forms to be used by commercial firms when installing, repairing or testing commercial weights or measures, (4) the criteria that all weights and measures used by commercial firms in repairing or servicing commercial weighing and measuring devices shall be calibrated by the department and be directly traceable to state standards and shall be submitted to the department for calibration and certification as necessary and/or at such reasonable intervals as may be established or required by the director, (5) exemptions from the sealing or marking requirements of RCW 19.94.250 with respect to weights and measures of such character or size that such sealing or marking would be inappropriate, impracticable, or damaging to the apparatus in question, (6) provisions that allow the director to establish fees for weighing, measuring, and providing calibration services performed by the weights and measures laboratory, with all money collected under this subsection paid to the director and deposited in an account within the agricultural local fund to be used for the repair and maintenance of weights and measures devices and other related functions, (7) exemptions from the requirements of RCW 19.94.200
and 19.94.210 for testing, with respect to classes of weights and measures found to be of such character that periodic retesting is unnecessary to continued accuracy. These ((regulations)) rules shall include specifications, tolerances, and ((regulations)) rules for weights and measures of the character of those specified in RCW 19.94.210, designed to eliminate from use, without prejudice to apparatus that conforms as closely as practicable to the official standards, those (a) that are not accurate, (b) that are of such construction that they are faulty, that is, that are not reasonably permanent in their adjustment or will not repeat their indications correctly, or (c) that facilitate the perpetration of fraud. The specifications, tolerances, and ((regulations)) rules for commercial weighing and measuring devices, together with amendments thereto, as recommended by the most recent edition of Handbook 44 published by the national ((bureau-of standards Handbook 44, third edition as published at the time of the enactment of this chapter)) institute of standards and technology shall be the specifications, tolerances, and regulations for commercial weighing and/or measuring devices of the state. To promote uniformity, any supplements or amendments to Handbook 44 or any similar subsequent publication of the national ((bureau-of standards)) institute of standards and technology shall be deemed to have been adopted under this section. The director may, however, within thirty days of the publication or effective date of Handbook 44 or any supplements, amendments, or similar publications give public notice that a hearing will be held to determine if such publications should not be applicable under this section. The hearing shall be conducted under chapter 34.05 RCW. For the purpose of this chapter, apparatus shall be deemed to be "correct" when it conforms to all applicable requirements promulgated as specified in this section; all other apparatus shall be deemed to be "incorrect".

Sec. 7. RCW 19.94.200 and 1969 c 67 s 20 are each amended to read as follows:

The director shall test the standards of weight and measure procured by any city for which the appointment of a sealer of weights and measures is provided by this chapter, at least once every five years, and shall approve the same when found to be correct, and ((the)) the director shall inspect such standards at least once every two years. ((He)) The director shall test all weights and measures used in checking the receipt or disbursement of supplies in every institution for the maintenance of which moneys are appropriated by the legislature, and ((he)) the director shall report ((his)) the findings, in writing, to the executive officer of the institution concerned.

Sec. 8. RCW 19.94.220 and 1969 c 67 s 22 are each amended to read as follows:

The director shall investigate complaints made ((to-him)) concerning violations of the provisions of this chapter, and shall, upon his or her own initiative, conduct such investigations as ((he deems)) deemed appropriate and advisable to develop information on prevailing procedures in commercial quantity

[2851]
determination and on possible violations of the provisions of this chapter and to promote the general objective of accuracy in the determination and representation of quantity in commercial transactions.

Sec. 9. RCW 19.94.240 and 1969 c 67 s 24 are each amended to read as follows:

The director shall have the power to issue stop-use orders, stop-removal orders and removal orders with respect to weights and measures being, or susceptible of being, commercially used, and to issue stop-removal orders and removal orders with respect to packages or amounts of commodities kept, offered, exposed for sale, sold or in process of delivery, whenever in the course of his or her enforcement of the provisions of this chapter (and/or) or rules ((and regulations)) adopted hereunder he or she deems it necessary or expedient to issue such orders. No person shall use, remove from the premises specified or fail to remove from any premises specified any weight, measure, or package or amount of commodity contrary to the terms of a stop-use order, stop-removal order or removal order issued under the authority of this section.

Sec. 10. RCW 19.94.250 and 1969 c 67 s 25 are each amended to read as follows:

The director shall reject and mark or tag as "rejected" such weights and measures as he or she finds upon inspection or test to be "incorrect" as defined in RCW 19.94.190, but which in his or her best judgment are susceptible of satisfactory repair: PROVIDED, That such sealing or marking shall not be required with respect to such weights and measures as may be exempted therefrom by ((a regulation)) rule of the director issued under the authority of RCW 19.94.190. The director may reject or seize any weights and measures found to be incorrect that, in his or her best judgment, are not susceptible of satisfactory repair. Weights and measures that have been rejected may be confiscated and may be destroyed by the director if not corrected as required by RCW 19.94.330 or if used or disposed of contrary to the requirements of said section.

Sec. 11. RCW 19.94.260 and 1969 c 67 s 26 are each amended to read as follows:

(1) With respect to the enforcement of this chapter and any other acts dealing with weights and measures that he or she is, or may be empowered to enforce, the director is authorized ((to arrest any violator of the said chapter, and)) to seize for use as evidence incorrect or unsealed weights and measures or amounts or packages of commodities to be used, retained, offered, exposed for sale or sold in violation of the law.

(2) In the performance of his or her official duties the director is authorized at reasonable times during the normal business hours of the person using the weights and measures to enter into or upon any structure or premises where weights and measures are used or kept for commercial purposes. Should the director be denied access to any premises or establishment where such access
was sought for the purposes set forth in this section, (he) the director may apply to any court of competent jurisdiction for a search warrant authorizing access to such premises or establishment for said purposes. The court may, upon such application, issue the search warrant for the purposes requested.

Sec. 12. RCW 19.94.290 and 1969 c 67 s 29 are each amended to read as follows:

A bond with sureties, to be approved by the appointing power, and conditioned upon the faithful performance of (his) duties and the safekeeping of any standards or equipment entrusted to (his) the city sealer's care, shall forthwith, upon his or her appointment, be given by each city sealer and deputy sealer in the penal sum of one thousand dollars; the premium on such bond shall be paid by the city for which the officer in question is appointed.

Sec. 13. RCW 19.94.300 and 1969 c 67 s 30 are each amended to read as follows:

The city sealer and his or her deputy sealers when acting under his or her instructions and at his or her direction shall have the same powers and shall perform the same duties within the city for which appointed as are granted to and imposed upon the director by RCW 19.94.210, 19.94.220, 19.94.230, 19.94.240, and 19.94.250.

Sec. 14. RCW 19.94.330 and 1969 c 67 s 33 are each amended to read as follows:

Weights and measures that have been rejected under the authority of the director or a city sealer shall remain subject to the control of the rejecting authority until such time as suitable repair or disposition thereof has been made as required by this section. The owners of such rejected weights and measures shall cause the same to be made correct within thirty days or such longer period as may be authorized by the rejecting authority; or, in lieu of this, may dispose of the same, but only in such a manner as is specifically authorized by the rejecting authority. Weights and measures that have been rejected shall not again be used commercially until they have been officially reexamined (and found to be correct or until specific written permission for such use is issued by the rejecting authority)) or until standardized corrective measures have been instituted as prescribed by rule as adopted by the department.

Sec. 15. RCW 19.94.340 and 1969 c 67 s 34 are each amended to read as follows:

Commodities in liquid form shall be sold only by liquid measure or by weight, and, except as otherwise provided in this chapter, commodities not in liquid form shall be sold only by weight, by measure of length or area, or by count: PROVIDED, That liquid commodities may be sold by weight and commodities not in liquid form may be sold by count only if such methods give accurate information as to the quantity of commodity sold: AND PROVIDED FURTHER, That the provisions of this section shall not apply (1) to commodities [2853]
when sold for immediate consumption on the premises where sold, (2) to
vegetables when sold by the head or bunch, (3) to commodities in containers
standardized by a law of this state or by federal law, (4) to commodities in
package form when there exists a general consumer usage to express the quantity
in some other manner, (5) to concrete aggregates, concrete mixtures, and loose
solid materials such as earth, soil, gravel, crushed stone, and the like, when sold
by cubic measure, or (6) to unprocessed vegetable and animal fertilizer when
sold by cubic measure. The director may issue such reasonable rules as are necessary to assure that amounts of commodity sold are determined
in accordance with good commercial practice and are so determined and
represented to be accurate and informative to all interested parties.

Sec. 16. RCW 19.94.350 and 1969 c 67 s 35 are each amended to read as
follows:

 Except as otherwise provided in this chapter, any commodity in package
form introduced or delivered for introduction into or received in intrastate
commerce, kept for the purpose of sale, offered or exposed for sale or sold in
intrastate commerce, shall bear on the outside of the package such definite, plain,
and conspicuous declaration of (1) the identity of the commodity in the package
unless the same can easily be identified through the wrapper or container; (2)
the net quantity of the contents in terms of weight, measure or count; and (3) in
the case of any package not sold on the premises where packed, the name and
place of business of the manufacturer, packer, or distributor, as may be
prescribed by rule issued by the director PROVIDED, That in
connection with the declaration required under subsection (2) of
this section, neither the qualifying term "when packed" or any words of similar
import, nor any term qualifying a unit of weight, measure, or count (for example,
"jumbo", "giant", "full", "or over", and the like) that tends to exaggerate the
amount of commodity in a package, shall be used: AND PROVIDED
FURTHER, That under subsection (2) of this section the director shall
by rule establish (a) reasonable variations to be allowed, (b)
exemptions as to small packages and (c) exemptions as to commodities put up
in variable weights or sizes for sale to the consumer intact and either customarily
not sold as individual units or customarily weighed or measured at time of sale
to the consumer.

Sec. 17. RCW 19.94.420 and 1975 1st ex.s. c 51 s 1 are each amended to read as
follows:

All fluid dairy products, including but not limited to whole milk, skimmed
milk, cultured milk, sweet cream, sour cream and buttermilk and all fluid
imitation and fluid substitute dairy products shall be packaged for retail sale only
in units as provided by the director of the department of agriculture by
rule pursuant to the provisions of chapter 34.05 RCW.
Sec. 18. RCW 19.94.440 and 1969 c 67 s 44 are each amended to read as follows:

AN ACT Relating to delaying the phase-in of property taxes for homes for the aging; amending RCW 84.36.041; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

Sec. 1. RCW 84.36.041 and 1991 c 203 s 2 are each amended to read as follows:

(1) All real and personal property used by a nonprofit home for the aging that is reasonably necessary for the purposes of the home is exempt from taxation if the benefit of the exemption inures to the home and:

(a) At least fifty percent of the occupied dwelling units in the home are occupied by eligible residents; or

(b) The home is subsidized under a federal department of housing and urban development program. The department of revenue shall provide by rule a definition of homes eligible for exemption under this subsection (b), consistent with the purposes of this section.

(2) A home for the aging is eligible for a partial exemption if the home does not meet the requirements of subsection (1) of this section because fewer than fifty percent of the occupied dwelling units are occupied by eligible residents. The amount of exemption shall be calculated by multiplying the assessed value of the property reasonably necessary for the purposes of the home by a fraction. The numerator of the fraction is the number of dwelling units occupied by eligible persons multiplied by two. The denominator of the fraction is the total number of occupied dwelling units. The fraction shall never exceed one.

(3) To be exempt under this section, the property must be used exclusively for the purposes for which the exemption is granted, except as provided in RCW 84.36.805.

(4) A home for the aging is exempt from taxation only if the organization operating the home is exempt from income tax under section 501(c) of the federal internal revenue code as existing on January 1, 1989, or such subsequent date as the director may provide by rule consistent with the purposes of this section.

(5) Each eligible resident of a home for the aging shall submit the form required under RCW 84.36.385 to the county assessor by July 1st of the assessment year. An eligible resident who has filed a form for a previous year need not file a new form until there is a change in status affecting the person's eligibility.

(6) In determining the true and fair value of a home for the aging for purposes of the partial exemption provided by subsection (2) of this section, the assessor shall apply the computation method provided by RCW 84.34.060 and shall consider only the use to which such property is applied during the years for
which such partial exemptions are available and shall not consider potential uses of such property.

(7) A home for the aging that was exempt for taxes levied for collection in 1990 and is not fully exempt under this section is entitled to partial exemptions as follows:

(a) For taxes levied for collection in 1991 and 1992, two-thirds of the assessed value that would otherwise be subject to tax under this section is exempt from taxation.

(b) For taxes levied for collection in 1993, one-third of the assessed value that would otherwise be subject to tax under this section is exempt from taxation.

(8) As used in this section:

(a) "Eligible resident" means a person who would be eligible for an exemption of regular property taxes under RCW 84.36.381 if the person owned a single-family dwelling. For the purposes of determining eligibility under this section, a "cotenant" as used in RCW 84.36.383 means a person who resides with an eligible resident and who shares personal financial resources with the eligible resident.

(b) "Home for the aging" means a residential housing facility that (i) provides a housing arrangement chosen voluntarily by the resident, the resident's guardian or conservator, or another responsible person; (ii) has only residents who are at least sixty-two years of age or who have needs for care generally compatible with persons who are at least sixty-two years of age; and (iii) provides varying levels of care and supervision, as agreed to at the time of admission or as determined necessary at subsequent times of reappraisal.

NEW SECTION. Sec. 2. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

(3) Any person who knowingly provides false evidence of financial responsibility to a law enforcement officer or to a court, including an expired or canceled insurance policy, bond, or certificate of deposit is guilty of a misdemeanor.

(b) The city has levied the tax authorized in RCW 82.14.030(2) at the maximum rate or the tax authorized in RCW 82.46.010(2) at the maximum rate; and

(6) This section expires January 1, 1994.
NEW SECTION. Sec. 2. A new section is added to chapter 82.14 RCW to read as follows:

The agreement shall require any municipal court system of such cities to be linked to the system and be fully capable of on-line use of the data contained therein. The agreement shall specify a date by which such linkage and use shall be effective and in no event shall the date be later than January 1, 1994, unless funding is not made available by the legislature, in which case the date for linkage shall be postponed only until such funding is available.

NEW SECTION. Sec. 4. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 5. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

Passed the Senate June 24, 1991.
Approved by the Governor July 2, 1991, with the exception of certain items which were vetoed.
Filed in Office of Secretary of State July 2, 1991.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to section 2, House Bill No. 2214 entitled:

"AN ACT Relating to the municipal criminal justice assistance account."

This bill was intended to rectify an ambiguity resulting from a partial veto of Chapter 311, Laws of 1991. That measure defined criminal justice purposes and established a base year for supplanting provisions of the local criminal justice assistance provided by the Legislature in 1990. Section 3 of Chapter 311, Laws of 1991, contained the same language as sections 1 and 2 of this bill.

I vetoed section 3 because I believe it to be inappropriate to withhold critically needed criminal justice funds to effect an administrative agreement between two public entities. For these same reasons, I am vetoing section 2 of House Bill No. 2214.

With the exception of section 2, House Bill No. 2214 is approved."
AN ACT Relating to higher education health care training; adding a new section to chapter 28B.-- RCW; repealing RCW 18.150.080, 28B.104.010, 28B.104.020, 28B.104.030, 28B.104.040, 28B.104.050, 28B.104.060, 28B.104.070, 28B.104.090, 70.180.007, 70.180.010, 70.180.050, 70.180.060, 70.180.070, 70.180.080, 70.180.090, 70.180.100, and 70.180.910; creating a new section; and repealing 1991 c 332 s 45 (uncodified).

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. A new section is added to chapter 28B.-- RCW (1991 c 332 s 4 & 5) to read as follows:

The institutional plans provided for in this chapter are to be implemented by each institution consistent with the biennial appropriation of the legislature. Whenever feasible, each institution shall make a good faith effort to implement the plan utilizing existing financial resources.

If there is a conflict between portions of the institutional plans proposing changes in curriculum and the accreditation standards of health training and education programs, the institution may deviate from the plan. However, the institution shall provide to the committee established in this chapter confirmation from the accrediting body indicating that the proposed changes will jeopardize accreditation and that the institution has made a good faith effort to obtain approval for such changes. If the institution is unable to obtain approval from the accrediting agency, it shall present to the committee an alternative proposal with changes that meet the objectives of the state-wide and institutional plans and has the approval of the accrediting agency.

Implementation of the institutional plans with respect to changes in admission requirements or curriculum are subject to the approval of the board of regents or the board of trustees as specified in Title 28B RCW. If the board believes that implementation of portions of the institutional plan may not be consistent with standards and practices of the institution, the board shall conduct a public hearing in accordance with chapter 34.05 RCW. At such time, the committee shall present an explanation of the need for such changes. In addition, the institution shall present alternative recommended changes to the institutional plan that meet the requirements of this chapter for the state-wide and institutional plans. After deliberation the board shall prepare a summary of the proceedings together with recommendations for modifications of the institutional plan.

NEW SECTION. Sec. 2. The following acts or parts of acts are each repealed:

(1) RCW 18.150.080 and 1989 1st ex.s. c 9 s 723;
(2) RCW 28B.104.010 and 1988 c 242 s 1;

(17) RCW 70.180.100 and 1991 c 164 s 9 & 1990 c 271 s 12; and
(18) RCW 70.180.910 and 1990 c 271 s 13.

*NEW SECTION. Sec. 3. 1991 c 332 s 45 is repealed.

*Sec. 3 was vetoed, see message at end of chapter.

*NEW SECTION. Sec. 4. If funding for the purposes of sections 1 through 33, 36 through 39, 43, 44, and 46 of Engrossed Substitute House Bill No. 1960 (chapter 332, Laws of 1991) is not provided in the omnibus appropriations act, sections 1 through 33, 36 through 39, 43, 44, and 46 of Engrossed Substitute House Bill No. 1960 (chapter 332, Laws of 1991) and this act shall be null and void.

*Sec. 4 was vetoed, see message at end of chapter.

Passed the Senate June 28, 1991.
Approved by the Governor July 2, 1991, with the exception of certain items which were vetoed.
Filed in Office of Secretary of State July 2, 1991.

Note: Governor's explanation of partial veto is as follows:

"I am returning herewith, without my approval as to sections 3 and 4, Engrossed Senate Bill No. 5985, entitled:

"AN ACT Relating to higher education health care training."

In the 1991 Regular Legislative Session, the Legislature passed House Bill No. 160, which I signed on May 21st. House Bill No. 160 contained an emergency clause and a null and void clause tying the effectiveness of the bill to a specific proviso in the 1991-93 appropriation act. Engrossed Substitute House Bill No. 1330 (the 1991-93 appropriation act) contained a proviso for House Bill No. 160, so when I signed Engrossed Substitute House Bill No. 1330 into law on June 30, 1991, chapter 332, laws of 1991 (House Bill No. 160) was enacted.

Section 3 of Engrossed Senate Bill No. 5985 repeals section 45 of chapter 332, laws of 1991 (the uncodified null and void clause). Section 4 of Engrossed Substitute House Bill No. 5985 replaces it with a limited null and void clause. Because the conditions of section 45 of Chapter 332, Laws of 1991 were met on June 30th, neither section 3 nor section 4 of this bill would have any effect or purpose if signed into law. For this reason, I have vetoed sections 3 and 4 of Engrossed Senate Bill No. 5985.
Chapter 28

[Engrossed Substitute Senate Bill 5996]

Effective Date: 9/1/91

Be it enacted by the Legislature of the State of Washington:

(2) The court may require automatic periodic adjustments or modifications of child support. That portion of any decree that requires periodic adjustments or modifications of child support shall use the provisions in chapter 26.19 RCW as the basis for the adjustment or modification. Provisions in the decree for periodic adjustment or modification shall not conflict with RCW 26.09.170 except that the decree may require periodic adjustments or modifications of support more frequently than the time periods established pursuant to RCW 26.09.170.

(3) Upon motion of a party and without a substantial change of circumstances, the court shall modify the decree to comply with subsection (2) of this section as to installments accruing subsequent to entry of the court's order on the motion for modification.

(4) The adjustment or modification provision may be modified by the court due to economic hardship consistent with the provisions of RCW 26.09.170(4)(a).

The provisions as to property disposition may not be revoked or modified, unless the
court finds the existence of conditions that justify the reopening of a judgment under the laws of this state.

(2) Unless otherwise agreed in writing or expressly provided in the decree the obligation to pay future maintenance is terminated upon the death of either party or the remarriage of the party receiving maintenance.

(3) Unless otherwise agreed in writing or expressly provided in the decree, provisions for the support of a child are terminated by emancipation of the child or by the death of the parent obligated to support the child.

   (c) If a child is still in high school, upon a finding that there is a need to extend support beyond the eighteenth birthday to complete high school; or
   (d) To add an automatic adjustment of support provision consistent with RCW 26.09.100.

(5) An order or decree entered prior to June 7, 1984, may be modified without showing a substantial change of circumstances if the requested modification is to:
   (a) Require health insurance coverage for a child named therein; or
   (b) Modify an existing order for health insurance coverage.

(6) An obligor's voluntary unemployment or voluntary underemployment, by itself, is not a substantial change of circumstances.

(7) The department of social and health services may file an action to modify an order of child support if public assistance money is being paid to or for the benefit of the child and the child support order is twenty-five percent or more below the appropriate child support amount set forth in the standard calculation as defined in section 4 of this act and reasons for the deviation are not set forth in the findings of fact or order. The determination of twenty-five percent or more shall be based on the current income of the parties and the department shall not be required to show a substantial change of circumstances if the reasons for the deviations were not set forth in the findings of fact or order.

(8)(a) Except as provided in (b) and (c) of this subsection, all child support decrees may be adjusted once every twenty-four months based upon changes in the income of the parents without a showing of substantially changed circumstances. Either party may initiate the modification pursuant to procedures of RCW 26.09.175.

(b) Parents whose decrees are entered before July 1, 1990, may petition the court for a modification after twelve months has
sec. 3. RCW 26.09.225 and 1990 1st ex.s. c 2 s 18 are each amended to read as follows:

(2) Educational records are limited to academic, attendance, and disciplinary records of public and private schools in all grades kindergarten through twelve and any form of alternative school for all periods for which child support is paid or the child is the dependent in fact of the parent requesting access to the records.

(8) "Standard calculation" means the presumptive amount of child support owed as determined from the child support schedule before the court considers any reasons for deviation.

(9) "Support transfer payment" means the amount of money the court orders one parent to pay to another parent or custodian for child support after determination of the standard calculation and deviations. If certain expenses or credits are expected to fluctuate and the order states a formula or percentage to determine the additional amount or credit on an ongoing basis, the term "support transfer payment" does not mean the additional amount or credit.

(10) "Worksheets" means the forms developed by the office of the administrator for the courts pursuant to RCW 26.19.050 for use in determining the amount of child support.

NEW SECTION. Sec. 5. A new section is added to chapter 26.19 RCW to read as follows:

STANDARDS FOR DETERMINATION OF INCOME. (1) Consideration of all income. All income and resources of each parent's household shall be disclosed and considered by the court when the court determines the child support obligation of each parent. Only the income of the parents of the children whose support is at issue shall be calculated for purposes of calculating the basic support obligation. Income and resources of any other person shall not be included in calculating the basic support obligation.

(2) Verification of income. Tax returns for the preceding two years and current paystubs shall be provided to verify income and deductions. Other sufficient verification shall be required for income and deductions which do not appear on tax returns or paystubs.

(3) Income sources included in gross monthly income. Except as specifically excluded in subsection (4) of this section, monthly gross income shall include income from any source, including:

(a) Salaries;
(b) Wages;
(c) Commissions;
(d) Deferred compensation;
(e) Overtime;
(f) Contract-related benefits;
(g) Income from second jobs;
(h) Dividends;
(i) Interest;
(j) Trust income;
(k) Severance pay;
(l) Annuities;
(m) Capital gains;
(n) Pension retirement benefits;
(o) Workers' compensation;
(p) Unemployment benefits;
(q) Spousal maintenance actually received;
(r) Bonuses;
(s) Social security benefits; and
(t) Disability insurance benefits.

(4) Income sources excluded from gross monthly income. The following income and resources shall be disclosed but shall not be included in gross income:

(a) Income of a new spouse or income of other adults in the household;
(b) Child support received from other relationships;
(c) Gifts and prizes;
(d) Aid to families with dependent children;
(e) Supplemental security income;
(f) General assistance; and
(g) Food stamps.

Receipt of income and resources from aid to families with dependent children, supplemental security income, general assistance, and food stamps shall not be a reason to deviate from the standard calculation.

(5) Determination of net income. The following expenses shall be disclosed and deducted from gross monthly income to calculate net monthly income:

(a) Federal and state income taxes;
(b) Federal insurance contributions act deductions;
(c) Mandatory pension plan payments;
(d) Mandatory union or professional dues;
(e) State industrial insurance premiums;
(f) Court-ordered spousal maintenance to the extent actually paid;
(g) Up to two thousand dollars per year in voluntary pension payments actually made if the contributions were made for the two tax years preceding the earlier of the (i) tax year in which the parties separated with intent to live separate and apart or (ii) tax year in which the parties filed for dissolution; and
(h) Normal business expenses and self-employment taxes for self-employed persons. Justification shall be required for any business expense deduction about which there is disagreement.

Items deducted from gross income under this subsection shall not be a reason to deviate from the standard calculation.

(6) **Imputation of income.** The court shall impute income to a parent when the parent is voluntarily unemployed or voluntarily underemployed. The court shall determine whether the parent is voluntarily underemployed or voluntarily unemployed based upon that parent’s work history, education, health, and age, or any other relevant factors. A court shall not impute income to a parent who is gainfully employed on a full-time basis, unless the court finds that the parent is voluntarily underemployed and finds that the parent is purposely underemployed to reduce the parent’s child support obligation. Income shall not be imputed for an unemployable parent. In the absence of information to the contrary, a parent’s imputed income shall be based on the median income of year-round full-time workers as derived from the United States bureau of census, current populations reports, or such replacement report as published by the bureau of census.

**NEW SECTION.** Sec. 6. A new section is added to chapter 26.19 RCW to read as follows:

**STANDARDS FOR DEVIATION FROM THE STANDARD CALCULATION.** (1) Reasons for deviation from the standard calculation include but are not limited to the following:

(a) **Sources of income and tax planning.** The court may deviate from the standard calculation after consideration of the following:

(1) Income of a new spouse if the parent who is married to the new spouse is asking for a deviation based on any other reason. Income of a new spouse is not, by itself, a sufficient reason for deviation;

(2) Income of other adults in the household if the parent who is living with the other adult is asking for a deviation based on any other reason. Income of the other adults in the household is not, by itself, a sufficient reason for deviation;

(3) Child support actually received from other relationships;

(4) Gifts;

(5) Prizes;

(6) Possession of wealth, including but not limited to savings, investments, real estate holdings and business interests, vehicles, boats, pensions, bank accounts, insurance plans, or other assets;

(7) Extraordinary income of a child; or

(8) Tax planning considerations. A deviation for tax planning may be granted only if the child would not receive a lesser economic benefit due to the tax planning.
(b) Nonrecurring income. The court may deviate from the standard calculation based on a finding that a particular source of income included in the calculation of the basic support obligation is not a recurring source of income. Depending on the circumstances, nonrecurring income may include overtime, contract-related benefits, bonuses, or income from second jobs. Deviations for nonrecurring income shall be based on a review of the nonrecurring income received in the previous two calendar years.

(c) Debt and high expenses. The court may deviate from the standard calculation after consideration of the following expenses:

(i) Extraordinary debt not voluntarily incurred;

(ii) A significant disparity in the living costs of the parents due to conditions beyond their control;

(iii) Special needs of disabled children; or

(iv) Special medical, educational, or psychological needs of the children.

(d) Residential schedule. The court may deviate from the standard calculation if the child spends a significant amount of time with the parent who is obligated to make a support transfer payment. The court may not deviate on that basis if the deviation will result in insufficient funds in the household receiving the support to meet the basic needs of the child or if the child is receiving aid to families with dependent children. When determining the amount of the deviation, the court shall consider evidence concerning the increased expenses to a parent making support transfer payments resulting from the significant amount of time spent with that parent and shall consider the decreased expenses, if any, to the party receiving the support resulting from the significant amount of time the child spends with the parent making the support transfer payment.

(e) Children from other relationships. The court may deviate from the standard calculation when either or both of the parents before the court have children from other relationships to whom the parent owes a duty of support.

(i) The child support schedule shall be applied to the mother, father, and children of the family before the court to determine the presumptive amount of support.

(ii) Children from other relationships shall not be counted in the number of children for purposes of determining the basic support obligation and the standard calculation.

(iii) When considering a deviation from the standard calculation for children from other relationships, the court may consider only other children to whom the parent owes a duty of support. The court may consider court-ordered payments of child support for children from other relationships only to the extent that the support is actually paid.

(iv) When the court has determined that either or both parents have children from other relationships, deviations under this section shall be based on consideration of the total circumstances of both households. All child support
obligations paid, received, and owed for all children shall be disclosed and considered.

(2) All income and resources of the parties before the court, new spouses, and other adults in the households shall be disclosed and considered as provided in this section. The presumptive amount of support shall be determined according to the child support schedule. Unless specific reasons for deviation are set forth in the written findings of fact and are supported by the evidence, the court shall order each parent to pay the amount of support determined by using the standard calculation.

(3) The court shall enter findings that specify reasons for any deviation or any denial of a party's request for any deviation from the standard calculation made by the court. The court shall not consider reasons for deviation until the court determines the standard calculation for each parent.

(4) When reasons exist for deviation, the court shall exercise discretion in considering the extent to which the factors would affect the support obligation.

(5) Agreement of the parties is not by itself adequate reason for any deviations from the standard calculation.

Sec. 7. RCW 26.19.090 and 1990 1st ex.s. c 2 s 9 are each amended to read as follows:

STANDARDS FOR POSTSECONDARY EDUCATIONAL SUPPORT AWARDS. (1) The child support schedule shall be advisory and not mandatory for postsecondary educational support.

(2) When considering whether to order support for postsecondary educational expenses, the court shall determine whether the child is in fact dependent and is relying upon the parents for the reasonable necessities of life. The court shall exercise its discretion when determining whether and for how long to award postsecondary educational support based upon consideration of factors that include but are not limited to the following: Age of the child; the child's needs; the expectations of the parties for their children when the parents were together; the child's prospects, desires, aptitudes, abilities or disabilities; the nature of the postsecondary education sought; and the parents' level of education, standard of living, and current and future resources. Also to be considered are the amount and type of support that the child would have been afforded if the parents had stayed together.

(3) The child must (be-enrolled) enroll in an accredited academic or vocational school, must be actively pursuing a course of study commensurate with the child's vocational goals, and must be in good academic standing as defined by the institution (or). The court-ordered postsecondary educational support (may) shall be automatically suspended during the period or periods the child fails to comply with these conditions. ((The court, in its discretion may order that the payment be made directly to the parent who has been receiving the transfer payments, to the educational institution if feasible, or to the child;))

[2871]
(4) The child shall also make available all academic records and grades to both parents as a condition of receiving postsecondary educational support. Each parent shall have full and equal access to the postsecondary education records as provided in RCW 26.09.225.

(5) The court shall not order the payment of postsecondary educational expenses beyond the child’s twenty-third birthday, except for exceptional circumstances, such as mental, physical, or emotional disabilities.

(6) The court shall direct that either or both parents’ payments for postsecondary educational expenses be made directly to the educational institution if feasible. If direct payments are not feasible, then the court in its discretion may order that either or both parents’ payments be made directly to the child if the child does not reside with either parent. If the child resides with one of the parents the court may direct that the parent making the support transfer payments make the payments to the child or to the parent who has been receiving the support transfer payments.

CHAPTER 29
[Engrossed House Bill 1376]
COMPUTER SOFTWARE—PERSONAL PROPERTY TAXATION OF
Effective Date: 7/11/91

AN ACT Relating to the taxation of computer software; amending RCW 84.36.815; amending 1990 c 255 s 2 (uncodified); adding a new section to chapter 84.04 RCW; adding a new section to chapter 84.36 RCW; adding a new section to chapter 84.40 RCW; creating new sections; and declaring an emergency.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. (1) The legislature finds that:

(a) Computer software is a class of personal property that is itself comprised of several different subclasses of personal property which can be distinguished by their use, development, distribution, and relationship to hardware, and includes custom software, canned software, and embedded software;

(b) Because different classes of software serve different needs, may be used by different taxpayers, and present different administrative burdens on both the state and the citizens of the state of Washington, the different classes of software should be treated differently for tax purposes;

(c) Canned software should continue to be subject to property tax, but, because of its rapid obsolescence, should be subject to tax for only two years; and the taxable interest should reside with the end user;

(d) Canned software that has been modified should continue to be taxable on the canned portion of the software;

(e) Embedded software should continue to be taxed as part of the machinery or equipment of which it is a part;

(f) Custom software should be exempt from taxation, in part because of the difficulty in accurately and uniformly determining the value of such software;

(g) Retained rights in computer software should be exempt from the property tax in part because of the difficulty in accurately and uniformly determining the value of such software, the difficulty in determining the scope and situs of such rights, and the adverse economic consequences to the state of taxing such rights; and

(h) So-called "golden" or "master" copies of software should be exempt from property tax like business inventory.

(2) It is the intent of the legislature that:

(a) The voluntary compliance nature of the personal property tax system should be preserved and nothing in this act shall be construed to reduce the taxpayer's obligation to fully and accurately list all taxable computer software;

(b) Computer software should be listed and assessed for property taxes payable in 1991 and 1992 in the same manner and to the same extent as computer software was listed and assessed for taxes due in 1989;

(c) The definition of custom software, golden or master copies, and retained rights shall be liberally construed in accordance with the purposes of this act;
(d) This act shall provide fairness, equity, and uniformity in the property tax treatment of each class of computer software in the state of Washington; and

(e) No inference should be taken from this act regarding the application of the property tax to data bases.

NEW SECTION. Sec. 2. A new section is added to chapter 84.04 RCW to read as follows:

(1) "Computer software" is a set of directions or instructions that exist in the form of machine-readable or human-readable code, is recorded on physical or electronic medium, and directs the operation of a computer system or other machinery or equipment. "Computer software" includes the associated documentation that describes the code and its use, operation, and maintenance and typically is delivered with the code to the user. "Computer software" does not include data bases.

A "data base" is text, data, or other information that may be accessed or managed with the aid of computer software but that does not itself have the capacity to direct the operation of a computer system or other machinery or equipment.

(2) "Custom computer software" is computer software that is designed for a single person's or a small group of persons' specific needs. "Custom computer software" includes modifications to canned computer software and can be developed in-house by the user, by outside developers, or by both.

A group of four or more persons is presumed not to be a small group of persons for the purposes of this subsection unless each of the persons is affiliated through common control and ownership. The department may by rule provide a definition of small group and affiliates consistent with this subsection.

For purposes of this subsection, "person" has the meaning given in RCW 82.04.030.

(3) "Canned computer software," occasionally known as prewritten or standard software, is computer software that is designed for and distributed "as is" for multiple persons who can use it without modifying its code and that is not otherwise considered custom computer software.

(4) "Embedded software" is computer software that resides permanently on some internal memory device in a computer system or other machinery or equipment, that is not removable in the ordinary course of operation, and that is of a type necessary for the routine operation of the computer system or other machinery or equipment. "Embedded software" may be either canned or custom computer software.

(5) "Retained rights" are any and all rights, including intellectual property rights such as those rights arising from copyrights, patents, and trade secret laws, that are owned or are held under contract or license by a computer software developer, author, inventor, publisher, licensor, sublicensor, or distributor.
(6) A "golden" or "master" copy of computer software is a copy of computer software from which a computer software developer, author, inventor, publisher, licensor, sublicensor, or distributor makes copies for sale or license.

NEW SECTION. Sec. 3. A new section is added to chapter 84.36 RCW to read as follows:

(1) All custom computer software, except embedded software, is exempt from property taxation.

(2) Retained rights in computer software are exempt from property taxation.

(3) Modifications to canned software are exempt from property taxation, but the underlying canned software remains subject to taxation as provided in section 4 of this act.

(4) Master or golden copies of computer software are exempt from property taxation.

NEW SECTION. Sec. 4. A new section is added to chapter 84.40 RCW to read as follows:

(1) Computer software, except embedded software, shall be valued in the first year of taxation at one hundred percent of the acquisition cost of the software and in the second year at fifty percent of the acquisition cost. Computer software, other than embedded software, shall have no value for purposes of property taxation after the second year.

(2) Embedded software is a part of the computer system or other machinery or equipment in which it is housed and shall be valued in the same manner as the machinery or equipment.

NEW SECTION. Sec. 5. (1) The department of revenue shall conduct a study of the property tax exemptions and valuation rules provided for computer software in sections 3 and 4 of this act. In the study, the department shall determine whether the exemptions and valuation rules are reasonably necessary and appropriate to achieve fairness, equity, and uniformity in the property tax treatment of computer software. The study shall also include a review of computer software taxation in other states, techniques for valuing computer software, and the effects of changing technology upon the appropriate application of property taxation to computer software.

(2) To assist in the performance of the study, the department shall form an advisory committee with appropriate representation from businesses and county assessors.

(3) The department shall report the findings of the study to the committees of the legislature that deal with revenue matters no later than November 30, 1998.

Sec. 6. RCW 84.36.815 and 1988 c 131 s 1 are each amended to read as follows:

In order to qualify for exempt status for any real or personal property (pursuant to the provisions of chapter 84.36 RCW, as now or hereafter amended) under this chapter except personal property under section 3 of this act.
all foreign national governments, churches, cemeteries, nongovernmental nonprofit corporations, organizations, and associations, private schools or colleges, and soil and water conservation districts shall file an initial application on or before March 31 with the state department of revenue. All applications shall be filed on forms prescribed by the department and shall be signed by an authorized agent of the applicant.

In order to requalify for exempt status, such applicants except nonprofit cemeteries shall file a renewal application on or before March 31 of the fourth year following the date of such initial application and on or before March 31 of every fourth year thereafter. An applicant previously granted exemption shall annually file, on forms prescribed by the department, an affidavit certifying the exempt status of the real or personal property owned by the exempt organization. When an organization acquires real property qualified for exemption or converts real property to exempt status, such organization shall file an initial application for the property within sixty days following the acquisition or conversion. If the application is filed after the expiration of the sixty-day period a late filing penalty shall be imposed pursuant to RCW 84.36.825, as now or hereafter amended.

When organizations acquire real property qualified for exemption or convert real property to an exempt use, the property, upon approval of the application for exemption, is entitled to a property tax exemption for property taxes due and payable the following year. If the owner has paid taxes for the year following the year the property qualified for exemption, the owner is entitled to a refund of the amount paid on the property so acquired or converted.

Sec. 7. 1990 c 255 s 2 (uncodified) is amended to read as follows:

(1) For property taxes due in 1991, a county assessor shall list and assess computer software in the same manner and to the same extent as computer software was listed and assessed for taxes due in 1989. If the assessor adds an item of computer software to the assessment list for any taxpayer for 1991 taxes, and that item was not listed and assessed for 1989 taxes for that taxpayer, the assessor shall have the burden of proving the item of computer software is taxable within the intent of this act.

(2) For property taxes due in 1992, a county assessor shall list and assess computer software in the same manner and to the same extent as computer software was listed and assessed for taxes due in 1989. If the assessor adds an item of computer software to the assessment list for any taxpayer for 1992 taxes, and that item was not listed and assessed for 1989 taxes for that taxpayer, the assessor shall have the burden of proving the item of computer software is taxable within the intent of this act.

NEW SECTION. Sec. 8. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.
NEW SECTION. Sec. 9. Sections 2 through 4 and 6 of this act apply to
taxes levied for collection in 1993, and thereafter.

NEW SECTION. Sec. 10. This act is necessary for the immediate
preservation of the public peace, health, or safety, or support of the state
government and its existing public institutions, and shall take effect immediately.

Passed the Senate June 29, 1991.
Approved by the Governor July 11, 1991.
Filed in Office of Secretary of State July 11, 1991.

CHAPTER 30
[Engrossed Substitute House Bill 1907]
LOCAL GOVERNMENT—SELF-INSURANCE AUTHORITY
Effective Date: 1/1/92

AN ACT Relating to the regulation of local government self-insurance; amending RCW
41.04.180, 35.23.460, 35A.41.020, 36.32.400, 53.08.170, 54.04.050, 56.08.100, 57.08.100, 43.09.260,
39.58.080, and 4.28.080; adding new sections to chapter 48.62 RCW; creating new sections; repealing
48.62.080, 48.62.090, 48.62.100, 48.62.110, and 48.62.120; and providing an effective date.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. This chapter is intended to provide the exclusive
source of local government entity authority to individually or jointly self-insure
risks, jointly purchase insurance or reinsurance, and to contract for risk
management, claims, and administrative services. This chapter shall be liberally
construed to grant local government entities maximum flexibility in self-insuring
to the extent the self-insurance programs are operated in a safe and sound
manner. This chapter is intended to require prior approval for the establishment
of every individual local government self-insured employee health and welfare
benefit program and every joint local government self-insurance program. In
addition, this chapter is intended to require every local government entity that
establishes a self-insurance program not subject to prior approval to notify the
state of the existence of the program and to comply with the regulatory and
statutory standards governing the management and operation of the programs as
provided in this chapter. This chapter is not intended to authorize or regulate
self-insurance of unemployment compensation under chapter 50.44 RCW, or
industrial insurance under chapter 51.14 RCW.

NEW SECTION. Sec. 2. Unless the context clearly requires otherwise, the
definitions in this section apply throughout this chapter.

(1) "Local government entity" or "entity" means every unit of local
government, both general purpose and special purpose, and includes, but is not
limited to, counties, cities, towns, port districts, public utility districts, water
districts, sewer districts, school districts, fire protection districts, irrigation
districts, metropolitan municipal corporations, conservation districts, and other
political subdivisions, governmental subdivisions, municipal corporations, and quasi-municipal corporations.

(2) "Risk assumption" means a decision to absorb the entity's financial exposure to a risk of loss without the creation of a formal program of advance funding of anticipated losses.

(3) "Self-insurance" means a formal program of advance funding and management of entity financial exposure to a risk of loss that is not transferred through the purchase of an insurance policy or contract.

(4) "Health and welfare benefits" means a plan or program established by a local government entity or entities for the purpose of providing its employees and their dependents, and in the case of school districts, its district employees, students, directors, or any of their dependents, with health care, accident, disability, death, and salary protection benefits.

(5) "Property and liability risks" includes the risk of property damage or loss sustained by a local government entity and the risk of claims arising from the tortious or negligent conduct or any error or omission of the local government entity, its officers, employees, agents, or volunteers as a result of which a claim may be made against the local government entity.

(6) "State risk manager" means the state risk manager of the division of risk management within the department of general administration.

NEW SECTION. Sec. 3. (1) The governing body of a local government entity may individually self-insure, may join or form a self-insurance program together with other entities, and may jointly purchase insurance or reinsurance with other entities for property and liability risks, and health and welfare benefits only as permitted under this chapter. In addition, the entity or entities may contract for or hire personnel to provide risk management, claims, and administrative services in accordance with this chapter.

(2) The agreement to form a joint self-insurance program shall be made under chapter 39.34 RCW.

(3) Every individual and joint self-insurance program is subject to audit by the state auditor.

(4) If provided for in the agreement or contract established under chapter 39.34 RCW, a joint self-insurance program may, in conformance with this chapter:

(a) Contract or otherwise provide for risk management and loss control services;

(b) Contract or otherwise provide legal counsel for the defense of claims and other legal services;

(c) Consult with the state insurance commissioner and the state risk manager;

(d) Jointly purchase insurance and reinsurance coverage in such form and amount as the program's participants agree by contract; and
(e) Possess any other powers and perform all other functions reasonably necessary to carry out the purposes of this chapter.

(5) A local government entity that has decided to assume a risk of loss must have available for inspection by the state auditor a written report indicating the class of risk or risks the governing body of the entity has decided to assume.

(6) Every joint self-insurance program governed by this chapter shall appoint the risk manager as its attorney to receive service of, and upon whom shall be served, all legal process issued against it in this state upon causes of action arising in this state.

(a) Service upon the risk manager as attorney shall constitute service upon the program. Service upon joint insurance programs subject to this act can be had only by service upon the risk manager. At the time of service, the plaintiff shall pay to the risk manager a fee to be set by the risk manager, taxable as costs in the action.

(b) With the initial filing for approval with the risk manager, each joint self-insurance program shall designate by name and address the person to whom the risk manager shall forward legal process so served upon him or her. The joint self-insurance program may change such person by filing a new designation.

(c) The appointment of the risk manager as attorney shall be irrevocable, shall bind any successor in interest or to the assets or liabilities of the joint self-insurance program, and shall remain in effect as long as there is in force in this state any contract made by the joint self-insurance program or liabilities or duties arising therefrom.

(d) The risk manager shall keep a record of the day and hour of service upon him or her of all legal process. A copy of the process, by registered mail with return receipt requested, shall be sent by the risk manager, to the person designated for the purpose by the joint self-insurance program in its most recent such designation filed with the risk manager. No proceedings shall be had against the joint self-insurance program, and the program shall not be required to appear, plead, or answer, until the expiration of forty days after the date of service upon the risk manager.

NEW SECTION. Sec. 4. (1) The property and liability advisory board is created, consisting of the insurance commissioner and the state risk manager, or their designees, as ex officio members and five members appointed by the governor on the basis of their experience and knowledge in matters pertaining to local government risk management, self-insurance, and management of joint self-insurance programs. The board shall include at least two representatives from individual property or liability self-insurance programs and at least two representatives from joint property or liability self-insurance programs.

(2) The board shall assist the state risk manager in:

(a) Adopting rules governing the operation and management of both individual and joint self-insurance programs covering liability and property risks;
(b) Reviewing and approving the creation of joint self-insurance programs covering property or liability risks;

(c) Reviewing annual reports filed by joint self-insurance programs covering property and liability risks and recommending that corrective action be taken by the programs when necessary; and

(d) Responding to concerns of the state auditor related to the management and operation of both individual and joint self-insurance programs covering liability or property risks.

(3) The board shall annually elect a chair and a vice-chair from its members. The board shall meet at least quarterly at such times as the state risk manager may fix. The board members who are appointed shall serve without compensation from the state but shall suffer no loss because of absence from their regular employment. Members of the board who are not public employees shall be compensated in accordance with RCW 43.03.240.

(4) A majority of the board constitutes a quorum for the transaction of business.

(5) The board shall keep public records of its proceedings.

NEW SECTION. Sec. 5. (1) The health and welfare advisory board is created consisting of the insurance commissioner and the state risk manager, or their designees, as ex officio members and six members appointed by the governor on the basis of their experience and knowledge pertaining to local government self-insured health and welfare benefits programs. The board shall include one city management representative; one county management representative; two management representatives from local government self-insured health and welfare programs; and two representatives of state-wide employee organizations representing local government employees.

(2) The board shall assist the state risk manager in:

(a) Adopting rules governing the operation and management of both individual and joint self-insured health and welfare benefits programs;

(b) Reviewing and approving the creation of both individual and joint self-insured health and welfare benefits programs;

(c) Reviewing annual reports filed by health and welfare benefits programs and in recommending that corrective action be taken by the programs when necessary; and

(d) Responding to concerns of the state auditor related to the management and operation of health and welfare benefits programs.

(3) The board shall annually elect a chair and a vice-chair from its members. The board shall meet at least quarterly at such times as the state risk manager may fix. The board members who are appointed shall serve without compensation from the state but shall suffer no loss because of absence from their regular employment. Members of the board who are not public employees shall be compensated in accordance with RCW 43.03.240.
(4) A majority of the board constitutes a quorum for the transaction of business.

(10) All contracts between the program and private persons providing risk management, claims, or other administrative services;

(11) A professional analysis of the feasibility of creation and maintenance of the program; and

(12) Any other information required by rule of the state risk manager that is necessary to determine the probable financial and management success of the program or that is necessary to determine compliance with this chapter.

NEW SECTION. Sec. 8. A local government entity may participate in a joint self-insurance program covering property or liability risks with similar local government entities from other states if the program satisfies the following requirements:

(2) The participating local government entities of this state and other states shall elect a board of directors to manage the program, a majority of whom shall be affiliated with one or more of the participating entities;

(3) The program must provide coverage through the delivery to each participating entity of one or more written policies effecting insurance of covered risks;

(4) The program shall be financed, including the payment of premiums and the contribution of initial capital, in accordance with the plan of management and operation submitted to the state risk manager in accordance with this chapter;

(5) The financial statements of the program shall be audited annually by the certified public accountants for the program, and such audited financial statements shall be delivered to the Washington state auditor and the state risk manager not more than one hundred twenty days after the end of each fiscal year of the program;

(6) The investments of the program shall be initiated only with financial institutions and/or broker-dealers doing business in those states in which participating entities are located, and such investments shall be audited annually by the certified public accountants for the program, and a list of such investments shall be delivered to the Washington state auditor not more than one hundred twenty days after the end of each fiscal year of the program;

(7) The treasurer of a multistate joint self-insurance program shall be designated by resolution of the program and such treasurer shall be located in the state of one of the participating entities;

(9) The program shall obtain approval from the state risk manager in accordance with this chapter and shall remain in compliance with the provisions of this chapter, except to the extent that such provisions are modified by or inconsistent with this section.

NEW SECTION. Sec. 9. (1) Within one hundred twenty days of receipt of a plan of management and operation, the state risk manager shall either approve or disapprove the formation of the self-insurance program after reviewing the plan to determine whether the proposed program complies with this chapter and all rules adopted in accordance with this chapter.

(2) If the state risk manager denies a request for approval, the state risk manager shall specify in detail the reasons for denial and the manner in which the program fails to meet the requirements of this chapter or any rules adopted in accordance with this chapter.

(3) Whenever the state risk manager determines that a joint self-insurance program covering property or liability risks or an individual or joint self-insured health and welfare benefits program is in violation of this chapter or is operating in an unsafe financial condition, the state risk manager may issue and serve upon the program an order to cease and desist from the violation or practice.

(a) The state risk manager shall deliver the order to the appropriate entity or entities directly or mail it to the appropriate entity or entities by registered mail with return receipt requested.

(b) If the program violates the order or has not taken steps to comply with the order after the expiration of twenty days after the cease and desist order has been received by the program, the program is deemed to be operating in violation of this chapter, and the state risk manager shall notify the state auditor and the attorney general of the violation.

(c) After hearing or with the consent of a program governed by this chapter and in addition to or in lieu of a continuation of the cease and desist order, the risk manager may levy a fine upon the program in an amount not less than three hundred dollars and not more than ten thousand dollars. The order levying such fine shall specify the period within which the fine shall be fully paid. The period within which such fines shall be paid shall not be less than fifteen nor more than thirty days from the date of such order. Upon failure to pay any such fine when due the risk manager shall request the attorney general to bring a civil action on the risk manager's behalf to collect the fine. The risk manager shall pay any fine so collected to the state treasurer for the account of the general fund.

(4) Each self-insurance program approved by the state risk manager shall annually file a report with the state risk manager and state auditor providing:
(a) Details of any changes in the articles of incorporation, bylaws, or interlocal agreement;
(b) Copies of all the insurance coverage documents;
(c) A description of the program structure, including participants’ retention, program retention, and excess insurance limits and attachment point;
(d) An actuarial analysis, if required;
(e) A list of contractors and service providers;
(f) The financial and loss experience of the program; and
(g) Such other information as required by rule of the state risk manager.

(5) No self-insurance program requiring the state risk manager’s approval may engage in an act or practice that in any respect significantly differs from the management and operation plan that formed the basis for the state risk manager’s approval of the program unless the program first notifies the state risk manager in writing and obtains the state risk manager’s approval. The state risk manager shall approve or disapprove the proposed change within sixty days of receipt of the notice. If the state risk manager denies a requested change, the risk manager shall specify in detail the reasons for denial and the manner in which the program would fail to meet the requirements of this chapter or any rules adopted in accordance with this chapter.

NEW SECTION. Sec. 10. (1) All self-insurance programs governed by this chapter may provide for executive sessions in accordance with chapter 42.30 RCW to consider litigation and settlement of claims when it appears that public discussion of these matters would impair the program’s ability to conduct its business effectively.

(2) Notwithstanding any provision to the contrary contained in the public disclosure act, chapter 42.17 RCW, in a claim or action against the state or a local government entity, no person is entitled to discover that portion of any funds or liability reserve established for purposes of satisfying a claim or cause of action, except that the reserve is discoverable in a supplemental or ancillary proceeding to enforce a judgment. All other records of individual or joint self-insurance programs are subject to disclosure in accordance with chapter 42.17 RCW.

(3) In accordance with chapter 42.17 RCW, bargaining groups representing local government employees shall have reasonable access to information concerning the experience and performance of any health and welfare benefits program established for the benefit of such employees.

NEW SECTION. Sec. 11. (1) The assets of a joint self-insurance program governed by this chapter may be invested only in accordance with the general investment authority that participating local government entities possess as a governmental entity.

(2) Except as provided in subsection (3) of this section, a joint self-insurance program may invest all or a portion of its assets by depositing the assets with the
treasurer of a county within whose territorial limits any of its member local government entities lie, to be invested by the treasurer for the joint program.

(3) Local government members of a joint self-insurance program may by resolution of the program designate some other person having experience in financial or fiscal matters as treasurer of the program, if that designated treasurer is located in Washington state. The program shall, unless the program's treasurer is a county treasurer, require a bond obtained from a surety company authorized to do business in Washington in an amount and under the terms and conditions that the program finds will protect against loss arising from mismanagement or malfeasance in investing and managing program funds. The program may pay the premium on the bond.

All program funds must be paid to the treasurer and shall be disbursed by the treasurer only on warrants issued by the treasurer or a person appointed by the program and upon orders or vouchers approved by the program or as authorized under chapters 35A.40 and 42.24 RCW. The treasurer shall establish a program account, into which shall be recorded all program funds, and the treasurer shall maintain such special accounts as may be created by the program into which the treasurer shall record all money as the program may direct by resolution.

(4) The treasurer of the joint program shall deposit all program funds in a qualified public depository or depositories as defined in RCW 39.58.010(2) and under the same restrictions, contracts, and security as provided for any participating local government entity, and such depository shall be designated by resolution of the program.

(5) A joint self-insurance program may invest all or a portion of its assets by depositing the assets with the state investment board, to be invested by the state investment board in accordance with chapter 43.33A RCW. The state investment board shall designate a manager for those funds to whom the program may direct requests for disbursement upon orders or vouchers approved by the program or as authorized under chapters 35A.40 and 42.24 RCW.

(6) All interest and earnings collected on joint program funds belong to the program and must be deposited to the program's credit in the proper program account.

(7) A joint program may require a reasonable bond from any person handling money or securities of the program and may pay the premium for the bond.

(8) Subsections (3) and (4) of this section do not apply to a multistate joint self-insurance program governed by section 8 of this act.

NEW SECTION. Sec. 12. (1) No employee or official of a local government entity may directly or indirectly receive anything of value for services rendered in connection with the operation and management of a self-insurance program other than the salary and benefits provided by his or her employer or the reimbursement of expenses reasonably incurred in furtherance
of the operation or management of the program. No employee or official of a local government entity may accept or solicit anything of value for personal benefit or for the benefit of others under circumstances in which it can be reasonably inferred that the employee's or official's independence of judgment is impaired with respect to the management and operation of the program.

(2) No local government entity may participate in a joint self-insurance program in which local government entities do not retain complete governing control. This prohibition does not apply to local government contribution to a self-insured employee health and welfare benefits plan otherwise authorized and governed by state statute nor to local government participation in a multistate joint program where control is shared with local government entities from other states.

(3) Moneys made available and moneys expended by school districts and educational service districts for self-insurance under this chapter are subject to such rules of the superintendent of public instruction as the superintendent may adopt governing budgeting and accounting. However, the superintendent shall ensure that the rules are consistent with those adopted by the state risk manager for the management and operation of self-insurance programs.

(5) Every individual and joint local government self-insured health and welfare benefits program that provides comprehensive coverage for health care services shall include mandated benefits that the state health care authority is required to provide under RCW 41.05.170 and 41.05.180. The state risk manager may adopt rules identifying the mandated benefits.

NEW SECTION. Sec. 13. Every local government entity that has established a self-insurance program not subject to the prior approval requirements of this chapter shall provide written notice to the state auditor of the existence of the program. The notice must identify the manager of the program and the class or classes of risk self-insured. The notice must also identify all investments and distribution of assets of the program, the current depository of assets and the program's designation of asset depository and investment agent as required by section 11 of this act. In addition, the local government entity shall notify the state auditor whenever the program covers a new class of risk or discontinues the self-insurance of a class of risk.

NEW SECTION. Sec. 14. Every joint self-insurance program covering liability or property risks, excluding multistate programs governed by section 8 of this act, shall provide for the contingent liability of participants in the program if assets of the program are insufficient to cover the program's liabilities.

NEW SECTION. Sec. 15. A joint self-insurance program approved in accordance with this chapter is exempt from insurance premium taxes, from fees assessed under chapter 48.02 RCW, from chapters 48.32 and 48.32A RCW, from business and occupations taxes imposed under chapter 82.04 RCW, and from any
assigned risk plan or joint underwriting association otherwise required by law. This section does not apply to and no exemption is provided for insurance companies issuing policies to cover program risks, nor does it apply to or provide an exemption for third-party administrators or brokers serving the self-insurance program.

NEW SECTION. Sec. 16. (1) The state risk manager shall establish and charge an investigation fee in an amount necessary to cover the costs for the initial review and approval of a self-insurance program. The fee must accompany the initial submission of the plan of operation and management.

(2) The costs of subsequent reviews and investigations shall be charged to the self-insurance program being reviewed or investigated in accordance with the actual time and expenses incurred in the review or investigation.

(3) After the formation of the two advisory boards, each board may calculate, levy, and collect from each joint property and liability self-insurance program and each individual and joint health and welfare benefit program regulated by this chapter a start-up assessment to pay initial expenses and operating costs of the boards and the risk manager's office in administering this chapter. Any program failing to remit its assessment when due is subject to denial of permission to operate or to a cease and desist order until the assessment is paid.

NEW SECTION. Sec. 17. (1) Any person who files reports or furnishes other information required under Title 48 RCW, required by the risk manager or the state auditor under authority granted by Title 48 RCW, or which is useful to the risk manager or the state auditor in the administration of Title 48 RCW, shall be immune from liability in any civil action or suit arising from the filing of any such report or furnishing such information to the risk manager or to the state auditor, unless actual malice, fraud, or bad faith is shown.

(2) The risk manager and the state auditor, and the agents and employees of each, are immune from liability in any civil action or suit arising from the publication of any report or bulletins or arising from dissemination of information related to the official activities of the risk manager, the advisory boards, or the state auditor, unless actual malice, fraud, or bad faith is shown.

(3) The immunity granted by this section is in addition to any common law or statutory privilege or immunity enjoyed by such person, and nothing in this section is intended to abrogate or modify in any way such common law or statutory privilege or immunity.

respective boards of county commissioners may, if deemed expedient, join in the procuring of such health care services and/or group insurance, and the board of county commissioners of each participating county may, by appropriate resolution, authorize their respective counties to pay all or any portion of the cost thereof.

The port commission shall have authority by resolution to utilize and compensate agents for the purpose of paying, in the name and by the check of such agent or agents or otherwise, wages, salaries and other benefits to employees, or particular classifications thereof, and for the purpose of withholding payroll taxes and paying over tax moneys so withheld to appropriate government agencies, on a combined basis with the wages, salaries, benefits, or taxes of other employers or otherwise; to

However, an examination of the financial affairs of all taxing districts shall be made at least once in every three years, and an examination of individual local government health and welfare benefit plans and local government self-insurance programs shall be made at least once every two years. The term "taxing districts" for purposes of RCW 43.09.190 through 43.09.285 includes but is not limited to all counties, cities, and other political subdivisions, municipal corporations, and quasi-municipal corporations, however denominated.

The state auditor shall establish a schedule to govern the auditing of taxing districts which shall include: A designation of the various classifications of taxing districts; a designation of the frequency for auditing each type of taxing district; and a description of events which cause a more frequent audit to be conducted.

Be it enacted by the Legislature of the State of Washington:

NEW SECTION. Sec. 1. The state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of one billion ninety-five million dollars, or so much thereof as may be required, to finance the projects described and authorized by the legislature in the capital and operating appropriations acts for the 1991-1993 fiscal biennium and subsequent fiscal biennia, and all costs incidental thereto.

Bonds authorized in this section shall be sold in such manner, at such time or times, in such amounts, and at such price as the state finance committee shall determine. No such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds. The state finance committee may obtain insurance, letters of credit, or other credit enhancements and may authorize the execution and delivery of agreements, promissory notes, and other obligations for the purpose of insuring the payment or enhancing the marketability of bonds authorized in this section. Promissory notes or other obligations issued pursuant to this section shall not constitute a debt or the contracting of indebtedness under any constitutional or statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal of or interest on the bonds with respect to which the same relate.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued.

Be it enacted by the Legislature of the State of Washington:
NEW SECTION. Sec. 1. SITING OF ESSENTIAL PUBLIC FACILITIES.
(1) The comprehensive plan of each county and city that is planning under this chapter shall include a process for identifying and siting essential public facilities. Essential public facilities include those facilities that are typically difficult to site, such as airports, state education facilities and state or regional transportation facilities, state and local correctional facilities, solid waste handling facilities, and in-patient facilities including substance abuse facilities, mental health facilities, and group homes.

(2) The office of financial management shall maintain a list of those essential state public facilities that are required or likely to be built within the next six years. The office of financial management may at any time add facilities to the list. No local comprehensive plan or development regulation may preclude the siting of essential public facilities.

NEW SECTION. Sec. 2. COUNTY-WIDE PLANNING POLICIES. (1) The legislature recognizes that counties are regional governments within their boundaries, and cities are primary providers of urban governmental services within urban growth areas. For the purposes of this section, a "county-wide planning policy" is a written policy statement or statements used solely for establishing a county-wide framework from which county and city comprehensive plans are developed and adopted pursuant to this chapter. This framework shall ensure that city and county comprehensive plans are consistent as required in RCW 36.70A.100. Nothing in this section shall be construed to alter the land-use powers of cities.

(2) The legislative authority of a county that plans under RCW 36.70A.040 shall adopt a county-wide planning policy in cooperation with the cities located in whole or in part within the county as follows:

(a) No later than sixty calendar days from the effective date of this act, the legislative authority of the county shall convene a meeting with representatives of each city for the purpose of establishing a collaborative process that will provide a framework for the adoption of a county-wide planning policy;

(b) The process and framework for adoption of a county-wide planning policy specified in (a) of this subsection shall determine the manner in which the county and the cities agree to all procedures and provisions including but not limited to desired planning policies, deadlines, ratification of final agreements and demonstration thereof, and financing, if any, of all activities associated therewith;

(c) If a county fails for any reason to convene a meeting with representatives of cities as required in (a) of this subsection, the governor may immediately impose any appropriate sanction or sanctions on the county from those specified under section 26 of this act;

(d) If there is no agreement by October 1, 1991, the governor shall first inquire of the jurisdictions as to the reason or reasons for failure to reach an agreement. If the governor deems it appropriate, the governor may immediately
request the assistance of the department of community development to mediate any disputes that preclude agreement. If mediation is unsuccessful in resolving all disputes that will lead to agreement, the governor may impose appropriate sanctions from those specified under section 26 of this act on the county, city, or cities for failure to reach an agreement as provided in this section. The governor shall specify the reason or reasons for the imposition of any sanction; and

(e) No later than July 1, 1992, the legislative authority of the county shall adopt a county-wide planning policy according to the process provided under this section and that is consistent with the agreement pursuant to (b) of this subsection, and after holding a public hearing or hearings on the proposed county-wide planning policy.

(3) A county-wide planning policy shall at a minimum, address the following:

(4) Federal agencies and Indian tribes may participate in and cooperate with the county-wide planning policy adoption process. Adopted county-wide planning policies shall be adhered to by state agencies.

(5) Failure to adopt a county-wide planning policy that meets the requirements of this section may result in the imposition of a sanction or sanctions on a county or city within the county, as specified in section 26 of this act. In imposing a sanction or sanctions, the governor shall specify the reasons for failure to adopt a county-wide planning policy in order that any imposed sanction or sanctions are fairly and equitably related to the failure to adopt a county-wide planning policy.

(6) Cities and the governor may appeal an adopted county-wide planning policy to the growth planning hearings board within sixty days of the adoption of the county-wide planning policy.

(7) Multicounty planning policies shall be adopted by two or more counties, each with a population of four hundred fifty thousand or more, with contiguous urban areas and may be adopted by other counties, according to the process established under this section or other processes agreed to among the counties and cities within the affected counties throughout the multicounty region.

Priority for assistance shall be based on a county’s or city’s population growth rates, commercial and industrial development rates, the existence and quality of a comprehensive plan and development regulations, and other relevant factors.

(3) The department shall develop and administer a grant program to provide direct financial assistance to counties and cities for the preparation of comprehensive plans under this chapter. The department may establish provisions for county and city matching funds to conduct activities under this subsection. (4) The department shall establish a program of technical assistance:

(a) Utilizing department staff, the staff of other state agencies, and the technical resources of counties and cities to help in the development of comprehensive plans required under this chapter. The technical assistance may include, but not be limited to, model land use ordinances, regional education and training programs, and information for local and regional inventories; and

(b) Adopting by rule procedural criteria to assist counties and cities in adopting comprehensive plans and development regulations that meet the goals and requirements of this chapter. These criteria shall reflect regional and local variations and the diversity that exists among different counties and cities that plan under this chapter.

(5) The department shall provide mediation services to resolve disputes between counties and cities regarding, among other things, coordination of regional issues and designation of urban growth areas.

(6) The department shall provide planning grants to enhance citizen participation under RCW 36.70A.140.

(c) A Western Washington board with jurisdictional boundaries including all counties that are required or choose to plan under RCW 36.70A.040 and are located west of the crest of the Cascade mountains and are not included in the Central Puget Sound board jurisdictional boundaries. Skamania county, should it be required or choose to plan under RCW 36.70A.040, may elect to be included within the jurisdictional boundaries of either the Western or Eastern board.

(2) Each board shall only hear matters pertaining to the cities and counties located within its jurisdictional boundaries.

NEW SECTION. Sec. 6. GROWTH PLANNING HEARINGS BOARDS—MEMBER QUALIFICATIONS. (1) Each growth planning hearings board shall consist of three members qualified by experience or training in matters pertaining to land use planning and residing within the jurisdictional boundaries of the applicable board. At least one member of each board must be admitted to practice law in this state and at least one member must have been a city or county elected official. Each board shall be appointed by the governor and not more than two members at the time of appointment or during their term shall be members of the same political party. No more than two members at the time of appointment or during their term shall reside in the same county.

(2) Each member of a board shall be appointed for a term of six years. A vacancy shall be filled by appointment by the governor for the unexpired portion of the term in which the vacancy occurs. The governor shall transmit such written charges to the member accused and the chief justice of the supreme court. The chief justice shall thereupon designate a tribunal composed of three judges of the superior court to hear and adjudicate the

(2) Each board member shall receive reimbursement for travel expenses incurred in the discharge of his or her duties in accordance with RCW 43.03.050 and 43.03.060. If it is determined that the review boards shall operate on a full-time basis, each member shall receive an annual salary to be determined by the governor pursuant to RCW 43.03.040. If it is determined that a review board shall operate on a part-time basis, each member shall receive compensation pursuant to RCW 43.03.250, provided such amount shall not exceed the amount that would be set if they were a full-time board member. The principal office of each board shall be located by the governor within the jurisdictional boundaries of each board. The boards shall operate on either a part-time or full-time basis, as determined by the governor.

(3) Each board member shall not: (a) Be a candidate for or hold any other public office or trust; (b) engage in any occupation or business interfering with or inconsistent with his or her duty as a board member; and (c) for a period of one year after the termination of his or her board membership, act in a representative capacity before the board on any matter.

(4) A majority of each board shall constitute a quorum for making orders or decisions, adopting rules necessary for the conduct of its powers and duties, or transacting other official business, and may act even though one position of the board is vacant. One or more members may hold hearings and take testimony to be reported for action by the board when authorized by rule or order of the board. The board may also appoint as its authorized agents one or more hearing examiners to assist the board in the performance of its hearing function pursuant to the authority contained in the administrative procedure act, chapter 34.05 RCW. The findings of the hearing examiner shall not become final until they have been formally approved by the board. Such hearing examiners must have demonstrated knowledge of land use planning and law. The board shall perform all the powers and duties specified in this chapter or as otherwise provided by law.

(5) Each board shall make findings of fact and prepare a written decision in each case decided by it, and such findings and decision shall be effective upon being signed by two or more members of the board and upon being filed at the board’s principal office, and shall be open for public inspection at all reasonable times.

(6) All proceedings before the board or any of its members shall be conducted in accordance with such administrative rules of practice and procedure as the boards jointly prescribe. All three boards shall jointly meet to develop and adopt joint rules of practice and procedure, including rules regarding expeditious and summary disposition of appeals. The boards shall publish such rules and arrange for the reasonable distribution of the rules. The administrative procedure act, chapter 34.05 RCW, shall govern the administrative rules of practice and procedure adopted by the boards.
(7) The members of the boards shall meet jointly on at least an annual basis with the objective of sharing information that promotes the goals and purposes of this chapter.

(1) Each county and city proposing adoption of a comprehensive plan or development regulations under this chapter shall notify the department of its intent to adopt such plan or regulations at least sixty days prior to final adoption. State agencies including the department may provide comments to the county or city on the proposed comprehensive plan, or proposed development regulations, during the public review process prior to adoption.

(2) Each county and city planning under this chapter shall transmit a complete and accurate copy of its comprehensive plan or development regulations to the department within ten days after final adoption.

(3) Any amendments for permanent changes to a comprehensive plan or development regulation that are proposed by a county or city to its adopted plan or regulations shall be submitted to the department in the same manner as initial plans and development regulations under this section. Any amendments to a comprehensive plan or development regulations that are adopted by a county or city shall be transmitted to the department in the same manner as the initial plans and regulations under this section.

NEW SECTION. Sec. 9. MATTERS SUBJECT TO BOARD REVIEW. (1) A growth planning hearings board shall hear and determine only those petitions alleging either: (a) That a state agency, county, or city is not in compliance with the requirements of this chapter, or chapter 43.21C RCW as it relates to plans, regulations, and amendments thereto, adopted under RCW 36.70A.040; or (b) that the twenty-year growth management planning population projections adopted by the office of financial management pursuant to RCW 43.62.035 should be adjusted.

(2) A petition may be filed only by the state, a county or city that plans under this chapter, a person who has either appeared before the county or city regarding the matter on which a review is being requested or is certified by the governor within sixty days of filing the request with the board, or a person qualified pursuant to RCW 34.05.530.

(3) For purposes of this section "person" means any individual, partnership, corporation, association, governmental subdivision or unit thereof, or public or private organization or entity of any character.

(4) When considering a possible adjustment to a growth management planning population projection prepared by the office of financial management, a board shall consider the implications of any such adjustment to the population forecast for the entire state.
The rationale for any adjustment that is adopted by a board must be documented and filed with the office of financial management within ten working days after adoption.

If adjusted by a board, a county growth management planning population projection shall only be used for the planning purposes set forth in this chapter and shall be known as a "board adjusted population projection". None of these changes shall affect the official state and county population forecasts prepared by the office of financial management, which shall continue to be used for state budget and planning purposes.

NEW SECTION. Sec. 10. PETITIONS TO GROWTH PLANNING HEARINGS BOARDS—EVIDENCE TO BE CONSIDERED BY BOARD. (1) All requests for review to a growth planning hearings board shall be initiated by filing a petition that includes a detailed statement of issues presented for resolution by the board.

(2) All petitions relating to whether or not an adopted comprehensive plan, development regulation, or permanent amendment thereto, is in compliance with the goals and requirements of this chapter must be filed within sixty days after publication by the legislative bodies of the county or city. The date of publication for a city shall be the date the city publishes the ordinance, or summary of the ordinance, adopting the comprehensive plan or development regulations, or amendment thereto, as is required to be published. Promptly after adoption, a county shall publish a notice that it has adopted the comprehensive plan or development regulations, or amendment thereto. The date of publication for a county shall be the date the county publishes the notice that it has adopted the comprehensive plan or development regulations, or amendment thereto.

(3) Unless the board dismisses the petition as frivolous or finds that the person filing the petition lacks standing, the board shall, within ten days of receipt of the petition, set a time for hearing the matter.

(4) The board shall base its decision on the record developed by the city, county, or the state and supplemented with additional evidence if the board determines that such additional evidence would be necessary or of substantial assistance to the board in reaching its decision.

(5) The board shall consolidate, when appropriate, all petitions involving the review of the same comprehensive plan or the same development regulation or regulations.

NEW SECTION. Sec. 11. FINAL ORDERS. (1) The board shall issue a final order within one hundred eighty days of receipt of the petition for review, or, when multiple petitions are filed, within one hundred eighty days of receipt of the last petition that is consolidated. Such a final order shall be based exclusively on whether or not a state agency, county, or city is in compliance with the requirements of this chapter, or chapter 43.21C RCW as it relates to plans, regulations, and amendments thereto, adopted under RCW 36.70A.040. In the final order, the board shall either: (a) Find that the state agency, county,
or city is in compliance with the requirements of this chapter; or (b) find that the state agency, county, or city is not in compliance with the requirements of this chapter, in which case the board shall remand the matter to the affected state agency, county, or city and specify a reasonable time not in excess of one hundred eighty days within which the state agency, county, or city shall comply with the requirements of this chapter.

(2) Any party aggrieved by a final decision of the hearings board may appeal the decision to Thurston county superior court within thirty days of the final order of the board.

NEW SECTION. Sec. 12. LIMITATIONS ON APPEAL BY THE STATE. A request for review by the state to a growth planning hearings board may be made only by the governor, or with the governor's consent the head of an agency, or by the commissioner of public lands as relating to state trust lands, for the review of whether: (1) A county or city that is required or chooses to plan under RCW 36.70A.040 has failed to adopt a comprehensive plan or development regulations, or county-wide planning policies within the time limits established by this chapter; or (2) a county or city that is required or chooses to plan under this chapter has adopted a comprehensive plan, development regulations, or county-wide planning policies, that are not in compliance with the requirements of this chapter.

NEW SECTION. Sec. 13. PRESUMPTION OF VALIDITY—BURDEN OF PROOF—PLANS AND REGULATIONS. Comprehensive plans and development regulations, and amendments thereto, adopted under this chapter are presumed valid upon adoption. In any petition under this chapter, the board, after full consideration of the petition, shall determine whether there is compliance with the requirements of this chapter. In making its determination, the board shall consider the criteria adopted by the department under RCW 36.70A.190(4). The board shall find compliance unless it finds by a preponderance of the evidence that the state agency, county, or city erroneously interpreted or applied this chapter.

NEW SECTION. Sec. 14. NONCOMPLIANCE. (1) After the time set for complying with the requirements of this chapter under section 11(1)(b) of this act has expired, the board, on its own motion or motion of the petitioner, shall set a hearing for the purpose of determining whether the state agency, county, or city is in compliance with the requirements of this chapter.

(2) The board shall conduct a hearing and issue a finding of compliance or noncompliance. A hearing under this subsection shall be given the highest priority of business to be conducted by the board, and a finding shall be issued within forty-five days of the filing of the motion under subsection (1) of this section with the board.

(3) If the board finds that the state agency, county, or city is not in compliance, the board shall transmit its finding to the governor. The board may
recommend to the governor that the sanctions authorized by this chapter be imposed.

**NEW SECTION. Sec. 15. PHASING OF COMPREHENSIVE PLANS SUBMITTAL.** The department may adopt a schedule to permit phasing of comprehensive plan submittal for counties and cities planning under RCW 36.70A.040. This schedule shall not permit a comprehensive plan to be submitted greater than one hundred eighty days past the date that the plan was required to be submitted and shall be used to facilitate expeditious review and interjurisdictional coordination of comprehensive plans and development regulations.

**NEW SECTION. Sec. 16. NEW FULLY CONTAINED COMMUNITIES.** A county required or choosing to plan under RCW 36.70A.040 may establish a process as part of its urban growth areas, that are designated under RCW 36.70A.110, for reviewing proposals to authorize new fully contained communities located outside of the initially designated urban growth areas.

(1) A new fully contained community may be approved in a county planning under this chapter if criteria including but not limited to the following are met:

(a) New infrastructure is provided for and impact fees are established consistent with the requirements of RCW 82.02.050;

(b) Transit-oriented site planning and traffic demand management programs are implemented;

(c) Buffers are provided between the new fully contained communities and adjacent urban development;

(d) A mix of uses is provided to offer jobs, housing, and services to the residents of the new community;

(e) Affordable housing is provided within the new community for a broad range of income levels;

(f) Environmental protection has been addressed and provided for;

(g) Development regulations are established to ensure urban growth will not occur in adjacent nonurban areas;

(h) Provision is made to mitigate impacts on designated agricultural lands, forest lands, and mineral resource lands;

(i) The plan for the new fully contained community is consistent with the development regulations established for the protection of critical areas by the county pursuant to RCW 36.70A.170.

(2) New fully contained communities may be approved outside established urban growth areas only if a county reserves a portion of the twenty-year population projection and offsets the urban growth area accordingly for allocation to new fully contained communities that meet the requirements of this chapter. Any county electing to establish a new community reserve shall do so no more often than once every five years as a part of the designation or review of urban growth areas required by this chapter. The new community reserve shall be allocated on a project-by-project basis, only after specific project approval.
procedures have been adopted pursuant to this chapter as a development regulation. When a new community reserve is established, urban growth areas designated pursuant to this chapter shall accommodate the unreserved portion of the twenty-year population projection.

Final approval of an application for a new fully contained community shall be considered an adopted amendment to the comprehensive plan prepared pursuant to RCW 36.70A.070 designating the new fully contained community as an urban growth area.

**NEW SECTION.** Sec. 17. NEW MASTER PLANNED RESORTS. Counties that are required or choose to plan under RCW 36.70A.040 may permit master planned resorts which may constitute urban growth outside of urban growth areas as limited by this section. A master planned resort means a self-contained and fully integrated planned unit development, in a setting of significant natural amenities, with primary focus on destination resort facilities consisting of short-term visitor accommodations associated with a range of developed on-site indoor or outdoor recreational facilities. A master planned resort may include other residential uses within its boundaries, but only if the residential uses are integrated into and support the on-site recreational nature of the resort.

A master planned resort may be authorized by a county only if:

1. The comprehensive plan specifically identifies policies to guide the development of master planned resorts;

2. The comprehensive plan and development regulations include restrictions that preclude new urban or suburban land uses in the vicinity of the master planned resort, except in areas otherwise designated for urban growth under RCW 36.70A.110;

3. The county includes a finding as a part of the approval process that the land is better suited, and has more long-term importance, for the master planned resort than for the commercial harvesting of timber or agricultural production, if located on land that otherwise would be designated as forest land or agricultural land under RCW 36.70A.170;

4. The county ensures that the resort plan is consistent with the development regulations established for critical areas; and

5. On-site and off-site infrastructure impacts are fully considered and mitigated.

**NEW SECTION.** Sec. 18. PROTECTION OF PRIVATE PROPERTY. (1) The state attorney general shall establish by October 1, 1991, an orderly, consistent process, including a checklist if appropriate, that better enables state agencies and local governments to evaluate proposed regulatory or administrative actions to assure that such actions do not result in an unconstitutional taking of private property. It is not the purpose of this section to expand or reduce the scope of private property protections provided in the state and federal Constituent...
tions. The attorney general shall review and update the process at least on an annual basis to maintain consistency with changes in case law.

(2) Local governments that are required or choose to plan under RCW 36.70A.040 and state agencies shall utilize the process established by subsection (1) of this section to assure that proposed regulatory or administrative actions do not result in an unconstitutional taking of private property.

(3) The attorney general, in consultation with the Washington state bar association, shall develop a continuing education course to implement this section.

(4) The process used by government agencies shall be protected by attorney client privilege. Nothing in this section grants a private party the right to seek judicial relief requiring compliance with the provisions of this section.

*NEW SECTION. Sec. 19. OPEN SPACE PROTECTION. When open space is to be protected for the purpose of public use and access, a county or city shall acquire sufficient interest to prevent its development. This acquisition requirement does not apply to the land areas needed to protect critical areas. County and city governments may utilize a variety of methods to limit the future use of, or otherwise conserve, selected open space including, but not limited to, incentive zoning, the acquisition by gift, purchase, grant, bequest, devise, lease, or otherwise, the fee simple interest or lesser interest, transfer of development right, easement, covenant, or other contractual right. *Sec. 19 was vetoed, see message at end of chapter.

NEW SECTION. Sec. 20. ENVIRONMENTAL PLANNING PILOT PROJECTS. (1) The legislature intends to determine whether the environmental review process mandated under chapter 43.21C RCW may be enhanced and simplified, and coordination improved, when applied to comprehensive plans mandated by this chapter. The department of community development shall undertake pilot projects on environmental review to determine if the review process can be improved by fostering more coordination and eliminating duplicative environmental analysis which is made to assist decision makers approving comprehensive plans pursuant to this chapter. Such pilot projects should be designed and scoped to consider cumulative impacts resulting from plan decisions, plan impacts on environmental quality, impacts on adjacent jurisdictions, and similar factors in sufficient depth to simplify the analysis of subsequent specific projects being carried out pursuant to the approved plan.

(2) The legislature hereby authorizes the department of community development to establish, in cooperation with business, industry, cities, counties, and other interested parties, at least two but not more than four pilot projects, one of which shall be with a county, on enhanced draft and final nonproject environmental analysis of comprehensive plans prepared pursuant to this chapter, for the purposes outlined in subsection (1) of this section. The department of community development may select appropriate geographic subareas within a
comprehensive plan if that will best serve the purposes of this section and meet the requirements of chapter 43.21C RCW.

(3) An enhanced draft and final nonproject environmental analysis prepared pursuant to this section shall follow the rules adopted pursuant to chapter 43.21C RCW.

(4) Not later than December 31, 1993, the department of community development shall evaluate the overall effectiveness of the pilot projects under this section regarding preparing enhanced nonproject environmental analysis for the approval process of comprehensive plans and shall:

(a) Provide an interim report of its findings to the legislature with such recommendations as may be appropriate, including the need, if any, for further legislation;

(b) Consider adoption of any further rules or guidelines as may be appropriate to assist counties and cities in meeting requirements of chapter 43.21C RCW when considering comprehensive plans; and

(c) Prepare and circulate to counties and cities such instructional manuals or other information derived from the pilot projects as will assist all counties and cities in meeting the requirements and objectives of chapter 43.21C RCW in the most expeditious and efficient manner in the process of considering comprehensive plans pursuant to this chapter.

(5) The department of community development shall submit a final report to the legislature no later than December 31, 1995.

Sec. 21. RCW 36.70A.060 and 1990 1st ex.s. c 17 s 6 are each amended to read as follows:

FOREST, AGRICULTURE, AND MINERAL RESOURCE LANDS AND CRITICAL AREAS—DEVELOPMENT REGULATIONS. (1) Each county that is required or chooses to plan under RCW 36.70A.040, and each city within such county, shall adopt development regulations on or before September 1, 1991, to assure the conservation of agricultural, forest, and mineral resource lands designated under RCW 36.70A.170. Regulations adopted under this ((section)) subsection may not prohibit uses ((permitted)) legally existing on any parcel prior to their adoption and shall remain in effect until ((a)) the county or city adopts development regulations pursuant to RCW 36.70A.120. Such regulations shall assure that the use of lands adjacent to agricultural, forest, or mineral resource lands shall not interfere with the continued use, in the accustomed manner and in accordance with best management practices, of these designated lands for the production of food, agricultural products, or timber, or for the extraction of minerals. Counties and cities shall require that all plats, short plats, development permits, and building permits issued for development activities on, or within three hundred feet of, lands designated as agricultural lands, forest lands, or mineral resource lands, contain a notice that the subject property is within or near designated agricultural lands, forest lands, or mineral resource lands on
which a variety of commercial activities may occur that are not compatible with residential development for certain periods of limited duration.

(2) Each county ((that is required or chooses to plan under RCW 36.70A-.040)) and ((each)) city ((within such county)) shall adopt development regulations ((on or before September 1, 1991, precluding land uses or development)) that ((is incompatible with the)) protect critical areas that are required to be designated under RCW 36.70A.170. For counties and cities that are required or choose to plan under RCW 36.70A.040, such development regulations shall be adopted on or before September 1, 1991. For the remainder of the counties and cities, such development regulations shall be adopted on or before March 1, 1992.

(3) Such counties and cities shall review these designations and development regulations when adopting their comprehensive plans under RCW 36.70A.040 and implementing development regulations under RCW 36.70A.120 and may alter such designations and development regulations to insure consistency.

(4) Forest land and agricultural land located within urban growth areas shall not be designated by a county or city as forest land or agricultural land of long-term commercial significance under RCW 36.70A.170 unless the city or county has enacted a program authorizing transfer or purchase of development rights.

NEW SECTION. Sec. 22. A new section is added to chapter 36.93 RCW to read as follows:

POWER TO DISBAND BOUNDARY REVIEW BOARD. When a county and the cities and towns within the county have adopted a comprehensive plan and consistent development regulations pursuant to the provisions of chapter 36.70A RCW, the county may, at the discretion of the county legislative authority, disband the boundary review board in that county.

Sec. 23. RCW 43.155.070 and 1990 1st ex.s. c 17 s 82 are each amended to read as follows:

BOARD TO CONSIDER WHETHER REGIONAL PLANS ARE ADOPTED WHEN MAKING LOANS. (1) To qualify for loans or pledges under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a long-term plan for financing public works needs; ((and))

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors; and

(d) A county, city, or town that is required or chooses to plan under RCW 36.70A.040 must have adopted a comprehensive plan in conformance with the requirements of chapter 36.70A RCW, after it is required that the comprehensive
plan be adopted, and must have adopted development regulations in conformance with the requirements of chapter 36.70A RCW, after it is required that development regulations be adopted.

(2) The board shall develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board shall attempt to assure a geographical balance in assigning priorities to projects. The board shall consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(c) The cost of the project compared to the size of the local government and amount of loan money available;

(d) The number of communities served by or funding the project;

(e) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(f) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(g) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(h) Other criteria that the board considers advisable.

(3) Existing debt or financial obligations of local governments shall not be refinanced under this chapter. Each local government applicant shall provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(4) Before November 1 of each year, the board shall develop and submit to the chairs of the ways and means committees of the senate and house of representatives a description of the emergency loans made under RCW 43.155.065 during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list shall include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list shall also include measures of fiscal capacity for each
jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(5) The board shall not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board. The legislature shall not change the order of the priorities recommended for funding by the board.

(6) Subsections (4) and (5) of this section do not apply to loans made for emergency public works projects under RCW 43.155.065.

Sec. 24. RCW 70.146.070 and 1986 c 3 s 10 are each amended to read as follows:

When making grants or loans for water pollution control facilities, the department shall consider the following:

(1) The protection of water quality and public health;
(2) The cost to residential ratepayers if they had to finance water pollution control facilities without state assistance;
(3) Actions required under federal and state permits and compliance orders;
(4) The level of local fiscal effort by residential ratepayers since 1972 in financing water pollution control facilities;
(5) The extent to which the applicant county or city, or if the applicant is another public body, the extent to which the county or city in which the applicant public body is located, has established programs to mitigate nonpoint pollution of the surface or subterranean water sought to be protected by the water pollution control facility named in the application for state assistance; and
(6) The recommendations of the Puget Sound water quality authority and any other board, council, commission, or group established by the legislature or a state agency to study water pollution control issues in the state.

A county, city, or town that is required or chooses to plan under RCW 36.70A.040 may not receive a grant or loan for water pollution control facilities unless it has adopted a comprehensive plan in conformance with the requirements of chapter 36.70A RCW, after it is required that the comprehensive plan be adopted, or unless it has adopted development regulations in conformance with the requirements of chapter 36.70A RCW, after it is required that development regulations be adopted.

NEW SECTION. Sec. 25. A new section is added to chapter 43.01 RCW to read as follows:

COUNTY-WIDE PLANNING POLICY INCENTIVES. Whenever a state agency is considering awarding grants or loans for a county, city, or town to finance public facilities, it shall consider whether the county, city, or town that is requesting the grant or loan is a party to a county-wide planning policy under section 2 of this act relating to the type of public facility for which the grant or
loan is sought, and shall accord additional preference to the county, city, or town if such county-wide planning policy exists. Whenever a state agency is considering awarding grants or loans to a special district for public facilities, it shall consider whether the county, city, or town in whose planning jurisdiction the proposed facility is located is a party to a county-wide planning policy under section 2 of this act relating to the type of public facility for which the grant or loan is sought.

NEW SECTION. Sec. 26. NONCOMPLIANCE AND SANCTIONS. Upon receipt from the board of a finding that a state agency, county, or city is in noncompliance under section 14 of this act, or as a result of failure to meet the requirements of section 2 of this act, the governor may either:

(1) Notify and direct the director of the office of financial management to revise allotments in appropriation levels;

(2) Notify and direct the state treasurer to withhold the portion of revenues to which the county or city is entitled under one or more of the following: The motor vehicle fuel tax, as provided in chapter 82.36 RCW; the transportation improvement account, as provided in RCW 47.26.084; the urban arterial trust account, as provided in RCW 47.26.080; the rural arterial trust account, as provided in RCW 36.79.150; the sales and use tax, as provided in chapter 82.14 RCW; the liquor profit tax, as provided in RCW 66.08.190; and the liquor excise tax, as provided in RCW 82.08.170; or

(3) File a notice of noncompliance with the secretary of state and the county or city, which shall temporarily rescind the county or city's authority to collect the real estate excise tax under RCW 82.46.030 until the governor files a notice rescinding the notice of noncompliance.

Sec. 27. RCW 43.88.110 and 1987 c 502 s 5 are each amended to read as follows:

EXPENDITURE PROGRAMS—ALLOTMENTS—RESERVES. This section sets forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds. Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.

(1) The director of financial management shall provide all agencies with a complete set of instructions for preparing a statement of proposed expenditures at least thirty days before the beginning of a fiscal period. The set of instructions need not include specific appropriation amounts for the agency.

(2) Within forty-five days after the beginning of the fiscal period or within forty-five days after the governor signs the omnibus biennial appropriations act, whichever is later, all agencies shall submit to the governor a statement of proposed expenditures at such times and in such form as may be required by the governor. If at any time during the fiscal period the governor projects a cash deficit as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments so as to prevent a cash deficit, unless the legislature has
directed the liquidation of the cash deficit over one or more fiscal periods. Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed expenditures for reasonableness and conformance with legislative intent. Once the governor approves the statements of proposed expenditures, further revisions shall be made only at the beginning of the second fiscal year and must be initiated by the governor. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, ((and)) changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter 36.70A RCW may require additional revisions. Revisions shall not be made retroactively. Revisions caused by executive increases to spending authority shall not be made after June 30, 1987. However, the governor may assign to a reserve status any portion of an agency appropriation withheld as part of across-the-board reductions made by the governor and any portion of an agency appropriation conditioned on a contingent event by the appropriations act. The governor may remove these amounts from reserve status if the across-the-board reductions are subsequently modified or if the contingent event occurs. The director of financial management shall enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting system within forty-five days after receipt of the proposed statements from the agencies. If an agency or the director of financial management is unable to meet these requirements, the director of financial management shall provide a timely explanation in writing to the legislative fiscal committees.

(3) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days of the end of the fiscal year, all agencies shall submit to the director of financial management their final adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it with the budget and accounting data reported by the agency to the director of financial management. The director of financial management shall monitor agency expenditures against the approved statement of proposed expenditures and shall provide the legislature with quarterly explanations of major variances.

(4) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Allotment control exemptions expire at the end of the fiscal biennium for which they are granted. The director of financial management shall report any exemptions granted under this subsection to the legislative fiscal committees.
Sec. 28. RCW 19.27.097 and 1990 1st ex.s. c 17 s 63 are each amended to read as follows:

(1) Each applicant for a building permit of a building necessitating potable water shall provide evidence of an adequate water supply for the intended use of the building. Evidence may be in the form of a water right permit from the department of ecology, a letter from an approved water purveyor stating the ability to provide water, or another form sufficient to verify the existence of an adequate water supply. In addition to other authorities, the county or city may impose conditions on building permits requiring connection to an existing public water system where the existing system is willing and able to provide safe and reliable potable water to the applicant with reasonable economy and efficiency. An application for a water right shall not be sufficient proof of an adequate water supply.

(2) Within counties not required or not choosing to plan pursuant to RCW 36.70A.040, the county and the state may mutually determine those areas in the county in which the requirements of subsection (1) of this section shall not apply. The departments of health and ecology shall coordinate on the implementation of this section. Should the county and the state fail to mutually determine those areas to be designated pursuant to this subsection, the county may petition the department of community development to mediate or, if necessary, make the determination.

Buildings that do not need potable water facilities are exempt from the provisions of this section. The department of ecology, after consultation with local governments, may adopt rules to implement this section, which may recognize differences between high-growth and low-growth counties.

Sec. 29. RCW 36.70A.110 and 1990 1st ex.s. c 17 s 11 are each amended to read as follows:

COMPREHENSIVE PLANS—URBAN GROWTH AREAS. (1) Each county that is required or chooses to adopt a comprehensive land use plan under RCW 36.70A.040 shall designate an urban growth area or areas within which urban growth shall be encouraged and outside of which growth can occur only if it is not urban in nature. Each city that is located in such a county shall be included within an urban growth area. An urban growth area may include more than a single city. An urban growth area may include territory that is located outside of a city only if such territory already is characterized by urban growth or is adjacent to territory already characterized by urban growth.

(2) Based upon the population (forecast) growth management planning population projection made for the county by the office of financial management, the urban growth areas in the county shall include areas and densities sufficient to permit the urban growth that is projected to occur in the county for the succeeding twenty-year period. Each urban growth area shall permit urban densities and shall include greenbelt and open space areas. Within one year of July 1, 1990, each county required to designate urban growth areas shall begin
consulting with each city located within its boundaries and each city shall propose the location of an urban growth area. The county shall attempt to reach agreement with each city on the location of an urban growth area within which the city is located. If such an agreement is not reached with each city located within the urban growth area, the county shall justify in writing why it so designated the area an urban growth area. A city may object formally with the department over the designation of the urban growth area within which it is located. Where appropriate, the department shall attempt to resolve the conflicts, including the use of mediation services.

(3) Urban growth should be located first in areas already characterized by urban growth that have existing public facility and service capacities to serve such development, and second in areas already characterized by urban growth that will be served by a combination of both existing public facilities and services and any additional needed public facilities and services that are provided by either public or private sources. Further, it is appropriate that urban government services be provided by cities, and urban government services should not be provided in rural areas.

Sec. 30. RCW 43.62.035 and 1990 1st ex.s. c 17 s 32 are each amended to read as follows:

DETERMINING POPULATION. The office of financial management shall determine the population of each county of the state annually as of April 1st of each year and on or before July 1st of each year shall file a certificate with the secretary of state showing its determination of the population for each county. The office of financial management also shall determine the percentage increase in population for each county over the preceding ten-year period, as of April 1st, and shall file a certificate with the secretary of state by July 1st showing its determination. At least once every ten years the office of financial management shall prepare twenty-year growth management planning population projections required by RCW 36.70A.110 for each county that adopts a comprehensive plan under RCW 36.70A.040 and shall review these projections with such counties before final adoption.

Sec. 31. RCW 36.79.150 and 1983 1st ex.s. c 49 s 15 are each amended to read as follows:

RURAL ARTERIAL TRUST ACCOUNT. (1) Whenever the board approves a rural arterial project it shall determine the amount of rural arterial trust account funds to be allocated for such project. The allocation shall be based upon information contained in the six-year plan submitted by the county seeking approval of the project and upon such further investigation as the board deems necessary. The board shall adopt reasonable rules pursuant to which rural arterial trust account funds allocated to a project may be increased upon a subsequent application of the county constructing the project. The rules adopted by the board shall take into account, but shall not be limited to, the following factors: The financial effect of increasing the original allocation for

[2922]
the project upon other rural arterial projects either approved or requested; (((2)))
(b) whether the project for which an additional allocation is requested can be
reduced in scope while retaining a usable segment; (((3))) (c) whether the
original cost of the project shown in the applicant’s six-year program was based
upon reasonable engineering estimates; and (((4))) (d) whether the requested
additional allocation is to pay for an expansion in the scope of work originally
approved.

(2) The board shall not allocate funds, nor make payments under RCW
36.79.160, to any county or city identified by the governor under section 26 of
this act.

Sec. 32. RCW 47.26.080 and 1988 c 167 s 13 are each amended to read as
follows:

URBAN ARTERIAL TRUST ACCOUNT. There is hereby created in the
motor vehicle fund the urban arterial trust account. All moneys deposited in the
motor vehicle fund to be credited to the urban arterial trust account shall be
expended for the construction and improvement of city arterial streets and county
arterial roads within urban areas, for expenses of the transportation improvement
board, or for the payment of principal or interest on bonds issued for the purpose
of constructing or improving city arterial streets and county arterial roads within
urban areas, or for reimbursement to the state, counties, cities, and towns in
accordance with RCW 47.26.4252 and 47.26.4254, the amount of any payments
made on principal or interest on urban arterial trust account bonds from motor
vehicle or special fuel tax revenues which were distributable to the state,
counties, cities, and towns.

The board shall not allocate funds, nor make payments of the funds under
RCW 47.26.260, to any county, city, or town identified by the governor under
section 26 of this act.

Sec. 33. RCW 82.46.035 and 1990 1st ex.s. c 17 s 38 are each amended to
read as follows:

ADDITIONAL TAX—CERTAIN COUNTIES—BALLOT PROPOSI-
TION—USE LIMITED TO CAPITAL PROJECTS. (1) The governing body of
any county or any city that plans under RCW 36.70A.040(1) may impose an
additional excise tax on each sale of real property in the unincorporated areas of
the county for the county tax and in the corporate limits of the city for the city
tax at a rate not exceeding one-quarter of one percent of the selling price. Any
county choosing to plan under RCW 36.70A.040(2) and any city within such a
county may only adopt an ordinance imposing the excise tax authorized by this
section if the ordinance is first authorized by a proposition approved by a
majority of the voters of the taxing district voting on the proposition at a general
election held within the district or at a special election within the taxing district
called by the district for the purpose of submitting such proposition to the voters.
(2) Revenues generated from the tax imposed under subsection (1) of this section shall be used by such counties and cities solely for financing capital projects specified in a capital facilities plan element of a comprehensive plan.

(3) Revenues generated by the tax imposed by this section shall be deposited in a separate account.

(4) As used in this section, "city" means any city or town.

(5) When the governor files a notice of noncompliance under section 26 of this act with the secretary of state and the appropriate county or city, the county or city's authority to impose the additional excise tax under this section shall be temporarily rescinded until the governor files a subsequent notice rescinding the notice of noncompliance.

Sec. 34. RCW 66.08.190 and 1988 c 229 s 4 are each amended to read as follows:

LIQUOR REVOLVING FUND—DISBURSEMENT OF EXCESS FUNDS TO STATE, COUNTIES AND CITIES. When excess funds are distributed, all moneys subject to distribution shall be disbursed as follows:

(1) Three-tenths of one percent to the department of community development to be allocated to border areas under RCW 66.08.195; and

(2) From the amount remaining after distribution under subsection (1) of this section, fifty percent to the general fund of the state, ten percent to the counties of the state, and forty percent to the incorporated cities and towns of the state.

(3) The governor may notify and direct the state treasurer to withhold the revenues to which the counties and cities are entitled under this section if the counties or cities are found to be in noncompliance pursuant to section 26 of this act.

NEW SECTION. Sec. 35. A new section is added to chapter 82.14 RCW to read as follows:

WITHHOLDING REVENUE—NONCOMPLIANCE. The governor may notify and direct the state treasurer to withhold the revenues to which the county or city is entitled under this chapter if a county or city is found to be in noncompliance pursuant to section 26 of this act.

NEW SECTION. Sec. 36. A new section is added to chapter 82.08 RCW to read as follows:

WITHHOLDING REVENUE—NONCOMPLIANCE. The governor may notify and direct the state treasurer to withhold the revenues to which the counties, cities, and towns are entitled under RCW 82.08.170 if the counties, cities, or towns are found to be in noncompliance pursuant to section 26 of this act.

NEW SECTION. Sec. 37. TEMPORARY COMMITTEE ON NATURAL RESOURCES OF STATE-WIDE SIGNIFICANCE. (1) There is created a temporary committee consisting of the commissioner of public lands, the director of parks and recreation, the director of wildlife, the director of fisheries, the

[2924]
director of ecology, the director of community development, the director of the interagency committee for outdoor recreation, or their designees, one representative from the association of Washington cities, one representative from the Washington state association of counties, and by appointment of the governor, three members of the public. In selecting the three members of the public to serve on this committee, the governor shall keep in mind the diversity of the state's natural resources and the diverse needs of state residents. The director of community development shall serve as the chair of the committee and the department shall provide staff to the committee. Members employed by the state shall serve without additional pay, and participation in the work of the committee shall be deemed performance of their employment. Members from the public at large shall be compensated in accordance with RCW 43.03.240 and shall be entitled to reimbursement individually for travel expenses incurred in performance of their duties as members of the committee in accordance with RCW 43.03.050 and 43.03.060.

(2) This section shall expire January 1, 1992.

NEW SECTION. Sec. 38. LEGISLATIVE REPORT ON NATURAL RESOURCES OF STATE-WIDE SIGNIFICANCE. (1) The committee established in section 37 of this act shall submit to the legislature a report on or before December 31, 1991, that develops recommendations on: (a) Criteria that could be used in identifying natural resources of state-wide significance; (b) minimum standards to protect natural resources of state-wide significance within the jurisdictions of cities or counties and means for resolving issues of protection between jurisdictions; (c) the need for acquisition of natural resources of state-wide significance; and (d) issues regarding designation of mineral resource lands of long-term commercial significance within and outside urban growth areas. In carrying out the responsibilities under this subsection, the committee shall consult with interested parties and shall conduct public hearings in various regions of the state. The committee shall consider the input obtained at such public hearings when developing the recommendations.

(2) For purposes of this section, natural resources of state-wide significance are those natural resources that possess outstanding natural, ecological, or scenic values, and are of the highest quality and most significant of their type. Because of their quality, they are of interest to all residents of the state.

(3) This section shall expire January 1, 1992.

NEW SECTION. Sec. 39. A new section is added to chapter 36.70A RCW to read as follows:

The department may extend the date by which a county or city is required to designate agricultural lands, forest lands, mineral resource lands, and critical areas under RCW 36.70A.170, or the date by which a county or city is required to protect such lands and critical areas under RCW 36.70A.060, if the county or city demonstrates that it is proceeding in an orderly fashion, and is making a good faith effort, to meet these requirements. An extension may be for up to an
additional one hundred eighty days. The length of an extension shall be based on the difficulty of the effort to conform with these requirements.

NEW SECTION. Sec. 40. HEADINGS. Section headings as used in this act do not constitute any part of the law.

NEW SECTION. Sec. 41. CODIFICATION. Sections 1, 2, 4 through 20, and 26 of this act are each added to chapter 36.70A RCW.

NEW SECTION. Sec. 42. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately.

Passed the Senate June 28, 1991.
Approved by the Governor July 16, 1991, with the exception of certain items which were vetoed.
Filed in Office of Secretary of State July 16, 1991.

Note: Governor’s explanation of partial veto is as follows:

"I am returning herewith, without my approval as to section 19, Reengrossed Substitute House Bill No. 1025 entitled:

"AN ACT Relating to growth strategies."

I welcome this measure, and am pleased to sign it into law.

Passage of this legislation fulfills an important promise made to the state’s citizens. It is a success story that should strengthen the public’s faith in the democratic political process.

I commend the Legislature - and particularly the legislative leadership - for keeping its commitment to Washington citizens, and for working hard to ensure that this bill will effectively protect our quality of life.

Reengrossed Substitute House Bill No. 1025 builds on the landmark growth management legislation passed last year, and on the recommendations of the Growth Strategies Commission. Even more important, it builds trust: trust between citizens and their elected representatives, trust between businesses and local governments, and trust among the bipartisan group of legislators who crafted it. That trust is, in the end, the key element necessary for effective and sustained growth management.

While I welcome this legislation, I have determined that section 19 of this bill is so ambiguous that it gives rise to numerous legal interpretations of its meaning and invites litigation.

I am not alone in this belief. Among the many letters my office has received on this bill, the overwhelming opinion is that because key terms are left undefined, and because the language is vague, this section is likely to result in significant court action. Such litigation could result in a reduction of existing local authority to protect open space — thus producing a consequence that is the direct opposite of the section’s intent. I intend to insist that we take actions that ensure that the existing authority of local governments to protect open space are not compromised in any way.

I support the intent of the negotiators to address the relationship between open space designation and protection of private property rights, and I believe that we can come to consensus on how to clarify this issue.

Clearly, it is better to negotiate than to litigate. And this issue is far too important to leave to the uncertainties of the judicial system. If we want clear and effective protection for open space, we have more work to do, and I am committed to working with legislators to make sure it gets done in the next legislative session.

With the exception of section 19, I am approving Reengrossed Substitute House Bill No. 1025."
