PART II

HUMAN SERVICES

Sec. 201. 2011 2nd sp.s. c 9 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under ~~((this))~~ the Washington medicaid integration partnership (WMIP) and the medicare integrated care project (MICP), the health care authority and the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP and the MICP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2011-2013 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP and the MICP, the health care authority and the department may: ~~((a))~~ (i) Withhold from calculations of "available resources" as set forth in

RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and ~~((b))~~ (ii) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The health care authority and the department shall conduct an evaluation of the WMIP~~((;))~~ by October 15, 2012, and of the MICP measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

(b) Effective January 1, 2013, if Washington has been selected to participate in phase two of the federal demonstration project for persons dually-eligible for both medicare and medicaid, the department and the authority may initiate the MICP. Participation in the project shall be limited to persons who are eligible for both medicare and medicaid and to counties in which the county legislative authority has agreed to the terms and conditions under which it will operate. The purpose of the project shall be to demonstrate and evaluate ways to improve care while reducing state expenditures for persons enrolled both in medicare and medicaid. To that end, prior to initiating the project, the department and the authority shall assure that state expenditures shall be no greater on either a per person or total basis than the state would otherwise incur. Individuals who are solely eligible for medicaid may also participate if their participation is agreed to by the health care authority, the department, and the county legislative authority.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(6)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2012, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2012 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2012 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medicaid personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management

shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

The amounts provided in this section shall be allotted on a monthly basis and expenditures shall not exceed allotments based on a three month rolling average without approval of the office of financial management following notification to the legislative fiscal committees.

(b) The department shall use (~~performance-based contracts to provide~~) these services to safely reduce the number of children in out-of-home care, safely reduce the time spent in out-of-home care prior to achieving permanency, and safely reduce the number of

children returning to out-of-home care following permanency. The department shall provide an initial report to the legislature and the governor by January 15, 2012, regarding the start-up costs associated with performance-based contracts under RCW 74.13.360 (~~and House Bill No. 2122 (child welfare)~~)).

The amounts in this subsection are provided solely for contracted education coordinators to assist foster children in succeeding in K-12 and higher education systems and to assure a focus on education during the transition to performance based contracts. Funding shall be prioritized to regions with high numbers of foster care youth and/or regions where backlogs of youth that have formerly requested educational outreach services exist. The department shall utilize private matching funds to maintain educational advocacy services.

(5) \$670,000 of the general fund--state appropriation for fiscal year 2012 and \$670,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for services provided through children's advocacy centers.

(6) To ensure expenditures remain within available funds appropriated in this section as required by RCW 74.13A.005 and 74.13A.020, the secretary shall not set the amount of any adoption assistance payment or payments, made pursuant to RCW 26.33.320 and 74.13A.005 through 74.13A.080, to more than ninety percent of the foster care maintenance payment for that child had he or she remained in a foster family home during the same period. This subsection does not apply to adoption assistance agreements in existence on the effective date of this section.

(7) \$10,741,000 of the home security fund--state appropriation is provided solely for the department to contract for services pursuant to RCW 13.32A.030 and 74.15.220. The department shall contract and collaborate with service providers in a manner that maintains the availability and geographic representation of secure and semi-secure crisis residential centers and HOPE centers. To achieve efficiencies and increase utilization, the department shall allow the co-location of these centers, except that a youth may not be placed in a secure facility or the secure portion of a co-located facility except as specifically authorized by chapter 13.32A RCW. The reductions to appropriations in this subsection related to semi-secure crisis residential centers reflect a reduction to the number of beds for semi-secure crisis residential centers and not a reduction in rates. Any secure crisis residential center or semi-secure crisis residential center bed reduction shall not be based solely upon bed utilization. (8) The juvenile courts and administrative office of the courts shall collect and distribute information related to program outcome and provide access to these data systems to the juvenile rehabilitation administration and Washington state institute for public policy. Consistent with chapter 13.50 RCW, all confidentiality agreements necessary to implement this information-sharing shall be approved within 30 days of the effective date of this section. The agreements between administrative office of the courts, the juvenile courts, and the juvenile rehabilitation administration shall be executed to ensure that the juvenile rehabilitation administration receives the data that the juvenile rehabilitation administration identifies as needed to comply with this subsection. Appropriation (~~(\$6,802,000)~~) \$5,251,000

TOTAL APPROPRIATION (~~(\$1,113,772,000)~~) \$1,114,761,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$109,342,000 of the general fund--state appropriation for fiscal year 2012 and \$109,341,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for persons and services not covered by the medicaid program. This is a reduction of \$4,348,000 each fiscal year from the nonmedicaid funding that was allocated for expenditure by regional support networks during fiscal year 2011 prior to supplemental budget reductions. This \$4,348,000 reduction shall be distributed among regional support networks proportional to each network's share of the total state population. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance.

(b) \$6,590,000 of the general fund--state appropriation for fiscal year 2012, \$6,590,000 of the general fund--state appropriation for fiscal year 2013, and \$7,620,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) \$5,850,000 of the general fund--state appropriation for fiscal year 2012, \$5,850,000 of the general fund--state appropriation for fiscal year 2013, and \$1,300,000 of the general fund--federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.

(d) The number of nonforensic beds allocated for use by regional support networks at eastern state hospital shall be 192 per day. The

number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 557 per day through June 2012, 527 per day from July 2012 through September 2012, and 497 per day from October 2012 through the remainder of fiscal year 2013.

(e) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(f) \$4,582,000 of the general fund--state appropriation for fiscal year 2012 and \$4,582,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. Beginning in fiscal year 2013, the department shall report regional outcome data on individuals in jail who are referred for regional support network services. By December 1, 2012, the department shall provide a report to the relevant fiscal and policy committees of the legislature on the number of individuals referred to the program who had an evaluation for regional support network services either during incarceration or within 30 and 60 days of release from jail; and the number who were made newly eligible or reinstated to eligibility for medical assistance services either during incarceration or within 30 and 60 days of release from jail. In addition, the report shall identify how many of the individuals who were determined to be eligible for regional support network services received additional outpatient services within 30 and 60 days of release from incarceration.

(g) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(h) \$750,000 of the general fund--state appropriation for fiscal year 2012 and \$750,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(i) \$1,125,000 of the general fund--state appropriation for fiscal year 2012 and \$1,125,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(iv) Services at the sixteen-bed evaluation and treatment facility.

At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(j) \$1,529,000 of the general fund--state appropriation for fiscal year 2012 and \$1,529,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(k) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(l) Given the recent approval of federal medicaid matching funds for the disability lifeline and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

(m) \$750,000 of the general fund--state appropriation for fiscal year 2012, \$750,000 of the general fund--state appropriation for fiscal year 2013, and \$1,500,000 of the general fund--federal appropriation are provided solely to adjust regional support network capitation rates to account for the per diem rates actually paid for psychiatric care provided at hospitals participating in the certified public expenditure program operated pursuant to section 213 of this act.

(n) The appropriations in this section reflect efficiencies to be achieved through voluntary consolidation of regional support networks in accordance with Substitute House Bill No. 2139 (regional support networks). Voluntary consolidation of regional support networks is expected to result in administrative efficiencies and maximize dollars available for direct services to individuals with mental illnesses without corresponding increases in state appropriations.

The reduction shall be scaled based on the acuity level of care recipients. The largest hour reductions shall be to lower acuity patients and the smallest hour reductions shall be to higher acuity patients.

This amount is pursuant to the collective bargaining agreement negotiated with the exclusive bargaining representative of individual providers established under RCW 74.39A.270.)) Contributions are funded at \$0.22 per benefit-eligible paid hour worked by all home care workers. Expenditures for the purposes specified in this subsection shall not exceed the amounts provided in this subsection, unless the governor and the service employees international union healthcare 775nw can reach agreement on repurposing funding that is currently provided in the individual provider collective bargaining agreement for new individual provider wages paid during training or other training related items.

The department shall inform clients and their legal representatives of all available options for employment and day services. Information provided to the client and the client's legal representative shall include the types of activities each service option provides, and the amount, scope, and duration of service for which the client would be eligible under each service option. An individual client may be authorized for only one service option, either employment services or community access services. Clients may not participate in more than one of these services at any given time.

(ii) The department shall work with counties and stakeholders to strengthen and expand the existing community access program. The program must emphasize support for the client so they are able to participate in activities that integrate them into their community and support independent living and skills.

(iii) The appropriation in this subsection includes funding to provide employment or community access services to 168 medicaid eligible young adults with developmental disabilities living with their families who need employment opportunities and assistance after high school graduation.

(j) Clients with developmental disabilities have demonstrated a need and a desire for a day services program as verified by over 900 clients currently accessing day programs through a long-term care service model. In addition, every individual, to include those with a developmental disability, should have the opportunity for meaningful employment which allows them to contribute to their communities and to become as self-sufficient as possible. Providing choice empowers recipients of publicly funded services and their families by expanding their degree of control over the services and supports they need.

The department shall work with legislators and stakeholders to develop a new approach to employment and day services. The objective of this plan is to ensure that adults with developmental disabilities have optimum choices, and that employment and day offerings are comprehensive enough to meet the needs of all clients currently served on a home and community based waiver. The proposal shall be submitted to the 2012 legislature for consideration and shall be constructed such that a client ultimately receives employment, community access, or the community day option but not more than one service at a time. The proposal shall include options

for program efficiencies within the current employment and day structure and shall provide details on the plan to implement a consistent, statewide outcome-based vendor contract for employment and day services as specified in (c) of this subsection.

TOTAL APPROPRIATION (~~(\$3,385,886,000)~~) \$3,428,612,000

The appropriations in this section are subject to the following conditions and limitations:

(1) For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall not exceed \$170.37 for fiscal year 2012 and shall not exceed \$171.43 for fiscal year 2013, including the rate add-on(s) described in (a) (~~and (b)~~) of this subsection. However, if the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is for any reason not approved and implemented, the weighted average nursing facility payment rate shall not exceed \$159.87 for fiscal year 2012 and shall not exceed \$160.93 for fiscal year 2013. The add-on may also be used to address resulting wage compression for related job classes immediately affected by wage increases to low-wage workers. The department shall continue reporting requirements and a settlement process to ensure that the funds are spent according to this subsection.

(b)) The department shall do a comparative analysis of the facility-based payment rates calculated on July 1, ((2011)) 2012, using the payment methodology defined in ((Engrossed Substitute Senate Bill No. 5581 (nursing home payments))) chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the comparative add-on, acuity add-on, and safety net reimbursement, to the facility-based payment rates in effect June 30, 2010. If the facility-based payment rate calculated on July 1, ((2011)) 2012, is smaller than the facility-based payment rate on June 30, 2010, then the difference shall be provided to the individual nursing facilities as an add-on payment per medicaid resident day.

((c) During the comparative analysis performed in subsection (b) of this section, if it is found that the direct care rate for any facility calculated using the payment methodology defined in Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is greater than the direct care rate in effect on June 30, 2010, then the facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.) (b) The direct care rate add-on defined in RCW 74.46.431 to compensate facilities for taking on more acute clients than they have in the past is frozen at the March 1, 2012, payment levels.

((~~(d)~~)) (d) If the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment created by Engrossed Substitute Senate Bill No. 5581 (nursing home payments) is for any reason not approved and implemented, ((subsections (b), (c), and (d))) (a), (b), and (c) of this subsection do not apply.

(2) After examining actual nursing facility cost information, the legislature finds that the medicaid nursing facility rates calculated pursuant to Engrossed Substitute Senate Bill No. 5581 (nursing home payments) provide sufficient reimbursement to efficiently and economically operating nursing facilities and bear a reasonable relationship to costs.

(3) In accordance with chapter 74.46 RCW, the department shall issue no additional certificates of capital authorization for fiscal year 2012 and no new certificates of capital authorization for fiscal year 2013 and shall grant no rate add-ons to payment rates for capital

The appropriations in this section are subject to the following conditions and limitations:

(1) The appropriations to the authority in this act shall be expended for the purposes and in the amounts specified in this act. To the extent that appropriations in this section are insufficient to fund actual expenditures in excess of caseload forecasts and utilization assumptions, the authority, after May 1, 2012, may transfer general fund--state appropriations for fiscal year 2012 that are provided solely for a specified purpose. The authority shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(2) Within amounts appropriated in this section and sections 205 and 206 of this act, the health care authority shall continue to provide an enhanced basic health plan subsidy for foster parents licensed

Under this enhanced subsidy option, foster parents eligible to participate in the basic health plan as subsidized enrollees and home care workers with family incomes below 200 percent of the federal poverty level shall be allowed to enroll in the basic health plan at the minimum premium amount charged to enrollees with incomes below sixty-five percent of the federal poverty level.

~~((2))~~ (3) The health care authority shall require organizations and individuals that are paid to deliver basic health plan services and that choose to sponsor enrollment in the subsidized basic health plan to pay 133 percent of the premium amount which would otherwise be due from the sponsored enrollees.

~~((3))~~ (4)(a) \$1,200,000 of the general fund--state appropriation for fiscal year 2012 is provided solely to plan the implementation of a system of consolidated public school employee health benefits purchasing.

It is the intent of the legislature to improve the administration, transparency, and equity in delivering a K-12 employees' health benefits system. In addition, the legislature intends that any cost savings that result from changes to K-12 health benefits be dedicated to public schools.

To further this legislative intent, the state health care authority shall develop a plan to implement a consolidated health benefits' system for K-12 employees for the 2013-14 school year. The health care authority shall deliver a report to the legislature by December 15, 2011, that sets forth the implementation plan to the ways and means committees of the house of representatives and the senate.

(b) The report prepared by the health care authority shall compare and contrast the costs and benefits, both long and short term, of:

(i) The current K-12 health benefits system;

(ii) A new K-12 employee benefits pool; and

(iii) Enrolling K-12 employees into the health benefits pool for state employees.

(c) In addition to the implementation plan, the report shall include the following information:

(i) The costs and benefits of the current K-12 health benefits system;

(ii) The costs and benefits of providing a new statewide K-12 employees' health benefits pool to school districts and school employees;

(iii) The costs and benefits of enrolling K-12 employees into the existing health benefits pool for state employees;

(iv) Recommendations of ways to limit administrative duplication and costs, improve transparency to employees, the legislature, and the public and assure equity among beneficiaries of publicly provided employee health benefits;

(v) Recommendations for standardizing benefit packages and purchasing efforts in a manner that seeks to maximize funding and equity for all school employees;

(vi) Recommendations regarding the use of incentives, including how changes to state health benefit allocations could provide employees with benefits that would encourage participation;

(vii) Recommendations regarding the implementation of a new K-12 employee benefit plan, with separate options for voluntary participation and mandatory statewide participation;

(viii) Recommendations regarding methods to reduce inequities between individual and family coverage;

(ix) Consolidation of the purchasing and budget accountability for school employee benefits to maximize administrative efficiency and leverage existing skills and resources; and

(x) Other details the health care authority deems necessary, including but not limited to recommendations on the following:

(A) Approaches for implementing the transition to a statewide pool, including administrative and statutory changes necessary to ensure a successful transition, and whether the pool should be separate from, or combined with, the public employees' benefits pool;

(B) The structure of a permanent governing group to provide ongoing oversight to the consolidated pool, in a manner similar to the public employees benefits board functions for employee health benefits, including statutory duties and authorities of the board; and

(C) Options for including potential changes to: Eligibility standardization, the public employees benefits risk pools, the movement of school employee retirees into the new K-12 pool or pools, and the movement of educational service district employees into the new K-12 pool or pools.

(d) In determining its costs and benefits of a new statewide K-12 employees' health benefits pool for school districts and school employees, the health care authority shall assume the following:

(i) School district enrollees must constitute an entire bargaining unit, or an entire group of nonrepresented employees;

(ii) Staffing and administration for benefits purchasing shall be provided by the health care authority; and

~~((7))~~ (8) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

~~((8))~~ (9) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

The health care authority shall submit reports to the governor and legislature by November 1, 2011, and by November 1, 2012, that evaluate whether savings continue to exceed costs for this program. During fiscal year 2012 and fiscal year 2013, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the

Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2011-13 biennial operating appropriations act and in effect on July 1, 2011, (b) one half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2011-13 biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. The authority will report to the legislature on its progress toward achieving these goals by January 1, 2012. If the authority has not achieved these goals by July 1, 2012,

then the authority shall reduce expenditures on management staff in order to increase expenditures on customer service staff until the goals are achieved.

~~((40))~~ (39) The department shall purchase a brand name drug when it determines that the cost of the brand name drug after rebates is less than the cost of generic alternatives and that purchase of the brand rather than generic version can save at least \$250,000. The department may purchase generic alternatives when changes in market prices make the price of the brand name drug after rebates more expensive than the generic alternatives.

~~((41))~~ The department shall collaborate closely with the Washington state hospital and medical associations in identification of the diagnostic codes and retroactive review procedures that will be used to determine whether an emergency room visit is a nonemergency condition to assure that conditions that require emergency treatment continue to be covered.)

(40) The authority, in collaboration with the department of social and health services, the department of health, the Washington state hospital association, the Puget Sound health alliance, the Washington association of community and migrant health centers, and the forum, a collaboration of health carriers, physicians, and hospitals in Washington state, shall design a system of rural health system access and quality incentive payments. The incentive payments must be linked to explicit performance measures that consider not only services provided by health care providers, but also the role that providers might play in the rural health delivery systems in their communities, including the provision of long-term care services. In designing the incentive payment system, the authority shall consider the department of health's necessary provider criteria for critical access hospitals, the quality measures used to determine quality incentive payments under RCW 74.60.130, and any other performance measures that would promote access and quality in rural health systems. The authority, in conjunction with those groups identified in this subsection, shall develop parameters for determining criteria for increased payment, alternative payment methodologies, or other incentives for those providers that improve and achieve sustained improvement with respect to the measures. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by December 15, 2012.

(41) \$150,000 of the general fund--state appropriation for fiscal year 2012 and \$1,964,000 of the general fund--state appropriation for fiscal year 2013 are provided solely to implement Engrossed Second Substitute House Bill No. 2319 (affordable care act). If the bill is not enacted by June 30, 2012, the amounts provided in this subsection shall lapse.

(42) \$1,109,000 of the general fund--state appropriation for fiscal year 2012, \$1,471,000 of the general fund--state appropriation for fiscal year 2013, and \$21,890,000 of the general fund--federal appropriation are provided solely to implement phase two of the project to create a single provider payment system that consolidates medicaid medical and social services payments and replaces the social service payment system.

(43) The authority, in consultation with the Washington state hospital association, the Washington state medical association, and the Washington chapter of the American college of emergency physicians shall designate best practices to reduce medical assistance expenditures through the reduction of unnecessary emergency room visits. In consultation with emergency room physicians and hospitals, the goal is to achieve, by July 1, 2012, adoption of the designated best practices by hospitals in Washington state that, in total, provided at least seventy-five percent of emergency room visits to medicaid fee-for-service clients in fiscal year 2010. The best practices shall consist of the following items:

(a) Adoption of a system to exchange patient information among emergency departments;

(b) Active dissemination of patient educational materials

produced by the Washington state hospital association, Washington state medical association, and the Washington chapter of the American college of emergency physicians that instruct patients on the best places to go for health care;

(c) Designation of hospital personnel and emergency room physician personnel to receive and appropriately disseminate information on clients participating in the medicaid patient review and coordination program and monthly utilization reports on those clients;

(d) A process to assist the authority's patient review and coordination program clients with their care plans. The process must include substantial efforts to make an appointment for a client in the patient review and coordination program to see a primary care provider within seventy-two hours of the client's nonemergent emergency room visit when follow-up by a primary care provider is appropriate under the client's care plan;

(e) Implementation of narcotic guidelines that incorporate the Washington chapter of the American college of emergency physician guidelines;

(f) Physician enrollment in the state's prescription monitoring program; and

(g) Designation of a hospital emergency physician responsible for reviewing the state's medicaid utilization management feedback reports and taking appropriate action in response to the information in the feedback reports.

The requirements for best practices for a critical access hospital should not include adoption of a system to exchange patient information if doing so would pose a financial burden, and should not include requirements related to the authority's patient review and coordination program if the volumes of patients seen at the critical access hospital are small.

The components of the best practices and list of participating hospitals shall be submitted to the relevant policy and fiscal committees of the legislature by May 1, 2012. By July 1, 2012, the participating hospitals shall submit to the authority an attestation indicating their adoption of and compliance with the best practices. If the hospitals submitting the attestation do not represent at least seventy-five percent of emergency room visits by medicaid fee-for-service clients in fiscal year 2010, the authority may implement a policy of nonpayment for nonemergent care for which hospital emergency department services are not medically necessary, with appropriate processes for exemptions or expedited prior authorization. Criteria for exemption or expedited prior authorization shall include but are not limited to: Patients presenting with abnormal vital signs, traumatic etiology, or high risk conditions; patients with abnormal laboratory findings; and patients with documented referrals to the emergency department by primary care providers. If the percentage is above seventy-five percent, the authority shall not proceed with implementing any plan or policy that does not comport with national prudent layperson standards for either fee-for-service or managed care clients or that utilizes a discharge diagnosis list for determination of coverage.

(44) \$25,000 of the hospital safety net assessment--state appropriation and \$25,000 of the general fund--federal appropriation are provided solely for the authority to review and report on the payment of facility fees in programs administered by the authority. The study shall include a summary of state and federal requirements and practices with regard to the use of such fees; an analysis of how authority payments for services and procedures that include an explicit facility fee component compare to amounts paid for comparable services and procedures that do not; the amount expended for facility fees by major program and service in each of the four most recent years for which reasonably complete and comparable information is available; an analysis of the extent to which hospital acquisition of physician practices and of laboratory, imaging, and other outpatient diagnostic and treatment services has contributed to

increased state expenditures; and the authority's recommendations regarding possible revisions to calculation and payment of such fees. The authority shall report its finding and recommendations to the health care and appropriate fiscal committees of the legislature by November 1, 2012.

(45) Prior to entering into a contract for medicaid managed care services for the period commencing July 1, 2012, the director of the health care authority shall certify to the governor and to the health care committees of the legislature that the contractor has established a network of acute, primary, and specialty care providers that is sufficient to meet the needs of the contractor's anticipated enrollee population. If no plan is able to certify an adequate provider network in a county, the health care authority shall request re-bids from all plans which originally submitted bids for the county during the regular procurement process until award is successful. No county, that is currently served by Medicaid managed care services shall revert to fee-for-service as a result of the procurement process.

(46) The department shall seek a medicaid state plan amendment to create a graduate medical education supplemental payment for services delivered to managed care recipients by University of Washington medicine and other public professional providers. This program shall be effective as soon as administratively possible and shall operate concurrently with the existing professional services supplemental payment program. Providers that participate in the graduate medical education supplemental payment program are not eligible to participate in the professional services supplemental payment program. The department shall apply federal rules for identifying the difference between current physician encounter and fee-for-service medicaid payments to participating providers and the applicable federal upper payment limit. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the department in the development, implementation, and maintenance of this program shall be the responsibility of the participating providers. Participating providers shall retain the full amount of supplemental payments provided under this program, net of any costs related to the program that are disallowed due to audits or litigation against the state.

(47) The authority shall exclude HIV/AIDS disease, chemotherapy, hemophilia, diabetes, and immunosuppressant drugs from any formulary limitations implemented to operate within the appropriations provided in this section.

(48) If Engrossed Substitute Senate Bill No. 5978 (medicaid fraud) is not enacted by June 30, 2012, the amounts appropriated in this section from the medicaid fraud penalty account--state appropriation shall lapse and an additional \$3,608,000 shall be appropriated from the general fund--state for fiscal year 2013 for medicaid services, fraud detection and prevention activities, recovery of improper payments, and for other medicaid fraud enforcement activities.

(49) The authority may pursue a competitive bidding process for the purchase of lowest cost generic drugs within the medicaid program.

(50) Within the amounts appropriated in this section, the health care authority and the department of social and health services shall implement the state option to provide health homes for enrollees with chronic conditions under section 2703 of the federal affordable care act. The total state match for enrollees who are dually-eligible for both medicare and medicaid and not enrolled in managed care shall be no more than the net savings to the state from the enhanced match rate for its medicaid-only managed care enrollees under section 2703.

(51) The health care authority shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal

funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the health care authority receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(52) \$66,000 of the general fund--state appropriation for fiscal year 2013 and \$66,000 of the general fund--federal appropriation are provided solely to implement Engrossed Second Substitute House Bill No. 2536 (children services/delivery). The department of social and health services' programs responsible for administration of mental health, child welfare, and juvenile justice programs will coordinate with the health care authority on the development of contract terms which facilitate efforts to meet requirements of the bill. If the bill is not enacted by June 30, 2012, the amounts provided in this subsection shall lapse.

(53) The health care authority shall participate in the work group established by the department of corrections in section 220(2) of this act to review release options for elderly and infirm offenders.

This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(8) MATERIALS, SUPPLIES, AND OPERATING COSTS (MSOC) ALLOCATIONS

Funding is allocated per annual average full-time equivalent student for the materials, supplies, and operating costs (MSOC) incurred by school districts, consistent with the requirements of RCW 28A.150.260.

(a) MSOC funding for general education students are allocated at the following per student rates:

Funding priority shall be given to schools with the highest poverty levels, as measured by prior year free and reduced price lunch eligibility rates in each school. Funding in this section is sufficient to fund voluntary full day kindergarten programs for July and August of the 2010-11 school year.

(12) ADDITIONAL FUNDING FOR SMALL SCHOOL DISTRICTS AND REMOTE AND NECESSARY PLANTS

(a) For districts enrolling not more than twenty-five average annual full-time equivalent students in grades K-8, and for small school plants within any school district which have been judged to be remote and necessary by the superintendent of public instruction and enroll not more than twenty-five average annual full-time equivalent students in grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76 certificated instructional staff units and 0.24 certificated administrative staff units for enrollment of not more than five students, plus one-twentieth of a certificated instructional staff unit for each additional student enrolled; and

(ii) For those enrolling students in grades 7 or 8, 1.68 certificated instructional staff units and 0.32 certificated administrative staff units for enrollment of not more than five students, plus one-tenth of a certificated instructional staff unit for each additional student enrolled;

(b) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred average annual full-time equivalent students in grades K-8, and for small school plants within any school district which enroll more than twenty-five average annual full-time equivalent students in grades K-8 and have been judged to be remote and necessary by the superintendent of public instruction:

(i) For enrollment of up to sixty annual average full-time equivalent students in grades K-6, 2.76 certificated instructional staff units and 0.24 certificated administrative staff units; and

(ii) For enrollment of up to twenty annual average full-time equivalent students in grades 7 and 8, 0.92 certificated instructional staff units and 0.08 certificated administrative staff units;

(c) For districts operating no more than two high schools with enrollments of less than three hundred average annual full-time equivalent students, for enrollment in grades 9-12 in each such school, other than alternative schools, except as noted in this subsection:

(ii) For all other small high schools under this subsection, nine certificated instructional staff units and one-half of a certificated administrative staff unit for the first sixty average annual full-time equivalent students, and additional staff units based on a ratio of 0.8732 certificated instructional staff units and 0.1268 certificated

administrative staff units per each additional forty-three and one-half average annual full-time equivalent students;

(iii) Districts receiving staff units under this subsection shall add students enrolled in a district alternative high school and any grades nine through twelve alternative learning experience programs with the small high school enrollment for calculations under this subsection;

(d) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit;

(e) For each nonhigh school district having an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-6 program or a grades 1-6 program, an additional one-half of a certificated instructional staff unit;

(f)(i) For enrollments generating certificated staff unit allocations under (a) through (e) of this subsection, one classified staff unit for each 2.94 certificated staff units allocated under such subsections;

(ii) For each nonhigh school district with an enrollment of more than fifty annual average full-time equivalent students and less than one hundred eighty students, an additional one-half of a classified staff unit; and

(g) School districts receiving additional staff units to support small student enrollments and remote and necessary plants under subsection (12) of this section shall generate additional MSOC allocations consistent with the nonemployee related costs (NERC) allocation formula in place for the 2010-11 school year as provided section 502, chapter 37, Laws of 2010 1st sp. sess. (2010 supplemental budget), adjusted annually for inflation.

(13) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(14) The superintendent may distribute funding for the following programs outside the basic education formula during fiscal years 2012 and 2013 as follows:

(a) \$589,000 of the general fund--state appropriation for fiscal year 2012 and ~~(\$597,000)~~ \$598,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW.

(b) \$436,000 of the general fund--state appropriation for fiscal year 2012 and \$436,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed \$500 per full-time equivalent student enrolled in those programs.

(c) Funding in this section is sufficient to fund adjustments to school districts' allocations resulting from the implementation of the prototypical school funding formula, pursuant to chapter 236, Laws of 2010 (K-12 education funding). The funding in this section is intended to hold school districts harmless in total for funding changes resulting from conversion to the prototypical school formula in the general apportionment program, the learning assistance program, the transitional bilingual program, and the highly capable program, after adjustment for changes in enrollment and other caseload adjustments.

(15) \$208,000 of the general fund--state appropriation for fiscal year 2012 and \$211,000 of the general fund--state appropriation for fiscal year 2013 are provided solely for school district emergencies as

certified by the superintendent of public instruction. At the close of the fiscal year the superintendent of public instruction shall report to the office of financial management and the appropriate fiscal committees of the legislature on the allocations provided to districts and the nature of the emergency.

(16) Funding in this section is sufficient to fund a maximum of 1.6 FTE enrollment for skills center students pursuant to chapter 463, Laws of 2007.

(17) Beginning in the 2011-12 school year, students participating in running start programs may be funded up to a combined maximum enrollment of 1.2 FTE including school district and institution of higher education enrollment. In calculating the combined 1.2 FTE, the office of the superintendent of public instruction may average the participating student's September through June enrollment to account for differences in the start and end dates for courses provided by the high school and higher education institution. Additionally, the office of the superintendent of public instruction, in consultation with the state board for community and technical colleges, the higher education coordinating board, and the education data center, shall annually track and report to the fiscal committees of the legislature on the combined FTE experience of students participating in the running start program, including course load analyses at both the high school and community and technical college system.

(18) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (12) of this section, the following apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (12) of this section shall be reduced in increments of twenty percent per year.

(19)(a) Indirect cost charges by a school district to approved career and technical education middle and secondary programs shall not exceed 15 percent of the combined basic education and career and technical education program enhancement allocations of state funds. Middle and secondary career and technical education programs are considered separate programs for funding and financial reporting purposes under this section.

(b) Career and technical education program full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported career and technical education program enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support.

- (i) Credits earned since receiving the masters degree; and
- (ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

- (a) "BA" means a baccalaureate degree.
- (b) "MA" means a masters degree.
- (c) "PHD" means a doctorate degree.

(d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.

(e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this part V, or any replacement schedules and documents, unless:

- (a) The employee has a masters degree; or
- (b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2).

Sec. 504. 2011 2nd sp.s. c 9 s 504 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL EMPLOYEE COMPENSATION ADJUSTMENTS
 General Fund--Federal Appropriation \$2,000

The appropriation in this section is subject to the following conditions and limitations:

(1)(a) Additional salary adjustments as necessary to fund the base salaries for certificated instructional staff as listed for each district in LEAP Document 2, defined in section 504(2)(b) of this act. Allocations for these salary adjustments shall be provided to all districts that are not grandfathered to receive salary allocations above

the statewide salary allocation schedule, and to certain grandfathered districts to the extent necessary to ensure that salary allocations for districts that are currently grandfathered do not fall below the statewide salary allocation schedule.

(b) Additional salary adjustments to certain districts as necessary to fund the per full-time-equivalent salary allocations for certificated administrative staff as listed for each district in LEAP Document 2, defined in section 504(2)(b) of this act.

(c) Additional salary adjustments to certain districts as necessary to fund the per full-time-equivalent salary allocations for classified staff as listed for each district in LEAP Document 2, defined in section 504(2)(b) of this act.

(d) The appropriations in this subsection (1) include associated incremental fringe benefit allocations at 15.69 percent for the 2011-12 school year and ~~((15.69))~~ 15.70 percent for the 2012-13 school year for certificated instructional and certificated administrative staff and 15.23 percent for the 2011-12 school year and 15.23 percent for the 2012-13 school year for classified staff.

(e) The appropriations in this section include the increased or decreased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in part V of this act. Changes for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 503 and 504 of this act. Changes for special education result from changes in each district's basic education allocation per student. Changes for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in sections 503 and 504 of this act.

(f) The appropriations in this section include no salary adjustments for substitute teachers.

(2) The maintenance rate for insurance benefit allocations is \$768.00 per month for the 2011-12 and 2012-13 school years. The appropriations in this section reflect the incremental change in cost of allocating rates of \$768.00 per month for the 2011-12 school year and \$768.00 per month for the 2012-13 school year.

(3) The rates specified in this section are subject to revision each year by the legislature.

(2)(a) The superintendent of public instruction shall ensure that:

- (iii) Special education students are basic education students for the entire school day.

(b) The superintendent of public instruction shall continue to implement the full cost method of excess cost accounting, as designed by the committee and recommended by the superintendent, pursuant to section 501(1)(k), chapter 372, Laws of 2006.

FOR THE WASHINGTON STATE DEPARTMENT OF TRANSPORTATION

The legislature finds that it is critically important that highway improvement project lists, incorporated by reference in the biennial transportation appropriations act, accurately reflect the intent of the legislature with respect to the identified projects and activities as listed by fund, project, and amount in the list, including intended future commitments. The legislature further finds that during the 2012 regular legislative session, Engrossed Substitute House Bill No. 2190, as recommended by the conference committee, passed the legislature and that it incorporated by reference a highway improvement project list containing various technical drafting errors resulting in an inaccurate reflection of the conference committee report as agreed to by the conferees. The legislature further finds that a corrected version of the list is necessary to conform with the recommendations of the conference committee in a manner that does not change the funding decisions or appropriations for the current 2011-2013 biennium as agreed to by the conferees. Therefore, any reference in chapter 86 (ESHB 2190), Laws of 2012 to "LEAP Transportation Document 2012-2 as developed March 8, 2012, Program – Highway Improvement Program (I)" is superseded by the corrected version "LEAP Transportation Document 2012- 2C as developed March 14, 2012, Program – Highway Improvements Program (I)".

Sec. 921. RCW 43.88.110 and 2009 c 518 s 3 are each amended to read as follows:

This section sets forth the expenditure programs and the allotment and reserve procedures to be followed by the executive branch for public funds.

(1) Allotments of an appropriation for any fiscal period shall conform to the terms, limits, or conditions of the appropriation.

(2) The director of financial management shall provide all agencies with a complete set of operating and capital instructions for preparing a statement of proposed expenditures at least thirty days before the beginning of a fiscal period. The set of instructions need not include specific appropriation amounts for the agency.

(3) Within forty-five days after the beginning of the fiscal period or within forty-five days after the governor signs the omnibus biennial appropriations act, whichever is later, all agencies shall submit to the governor a statement of proposed expenditures at such times and in such form as may be required by the governor.

(4) The office of financial management shall develop a method for monitoring capital appropriations and expenditures that will capture at least the following elements:

- (a) Appropriations made for capital projects including transportation projects;
- (b) Estimates of total project costs including past, current, ensuing, and future biennial costs;
- (c) Comparisons of actual costs to estimated costs;
- (d) Comparisons of estimated construction start and completion dates with actual dates;
- (e) Documentation of fund shifts between projects.

This data may be incorporated into the existing accounting system or into a separate project management system, as deemed appropriate by the office of financial management.

(5) The office of financial management, prior to approving allotments for major capital construction projects valued over five million dollars, shall institute procedures for reviewing such projects at the predesign stage that will reduce long-term costs and increase facility efficiency. The procedures shall include, but not be limited to, the following elements:

- (a) Evaluation of facility program requirements and consistency with long-range plans;
- (b) Utilization of a system of cost, quality, and performance standards to compare major capital construction projects; and
- (c) A requirement to incorporate value-engineering analysis and constructability review into the project schedule.

(6) No expenditure may be incurred or obligation entered into for such major capital construction projects including, without exception, land acquisition, site development, predesign, design, construction, and equipment acquisition and installation, until the allotment of the funds to be expended has been approved by the office of financial management. This limitation does not prohibit the continuation of expenditures and obligations into the succeeding biennium for projects for which allotments have been approved in the immediate prior biennium.

~~(7)~~ (a) Beginning January 1, 2013, if at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, the governor shall make across-the-board reductions in allotments for that particular fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods.

(b)(i) From the effective date of this section until January 1, 2013, if at any time during the fiscal period the governor projects a cash deficit in a particular fund or account as defined by RCW 43.88.050, then as set forth in (b) of this subsection the governor shall make across-the-board reductions in the total amount allotted to each agency from each appropriation from that fund or account so as to prevent a cash deficit, unless the legislature has directed the liquidation of the cash deficit over one or more fiscal periods.

(ii) The percentage reduction applied to individual allotments of

an agency's total allotments from each appropriation from that fund or account may vary, but each agency's total allotments from each appropriation from that fund or account must be uniformly reduced by the percentage necessary to prevent a cash deficit. Where a portion of an appropriation is provided solely for a particular purpose, allotments of that portion of the appropriation may be reduced only by the same percentage as the overall appropriation.

(iii) Allotments for the following programs may be reduced only by a percentage equal to one-half of the percentage reduction applied to total allotments of appropriations under (b)(ii) of this subsection:

(A) Direct custody in the department of corrections and the juvenile rehabilitation administration; and

(B) The special commitment center of the department of social and health services.

(iv) Basic education programs, debt service on state bonds, state contributions to retirement systems, and programs for which a defined benefit is specifically mandated in statute are exempt from across-the-board allotment reductions under this subsection (7)(b) and allotments for these purposes shall not be included when calculating the allotment reductions.

(8) Except for the legislative and judicial branches and other agencies headed by elective officials, the governor shall review the statement of proposed operating expenditures for reasonableness and conformance with legislative intent. The governor may request corrections of proposed allotments submitted by the legislative and judicial branches and agencies headed by elective officials if those proposed allotments contain significant technical errors.

(9) Once the governor approves the proposed allotments, further revisions may at the request of the office of financial management or upon the agency's initiative be made on a quarterly basis and must be accompanied by an explanation of the reasons for significant changes. If the governor initiates across-the-board allotment revisions under subsection (7)(b) of this section, the office of financial management shall provide notice to the appropriate legislative fiscal committees of the proposed revisions, including the explanation for the significant changes, and the revisions may not take effect until ten days after this notice is provided. However, changes in appropriation level authorized by the legislature, changes required by across-the-board reductions mandated by the governor, changes caused by executive increases to spending authority, and changes caused by executive decreases to spending authority for failure to comply with the provisions of chapter 36.70A RCW may require additional revisions. Revisions shall not be made retroactively. However, the governor may assign to a reserve status any portion of an agency appropriation withheld as part of across-the-board reductions made by the governor and any portion of an agency appropriation conditioned on a contingent event by the appropriations act. The governor may remove these amounts from reserve status if the across-the-board reductions are subsequently modified or if the contingent event occurs. The director of financial management shall enter approved statements of proposed expenditures into the state budgeting, accounting, and reporting system within forty-five days after receipt of the proposed statements from the agencies. If an agency or the director of financial management is unable to meet these requirements, the director of financial management shall provide a timely explanation in writing to the legislative fiscal committees.

(8) It is expressly provided that all agencies shall be required to maintain accounting records and to report thereon in the manner prescribed in this chapter and under the regulations issued pursuant to this chapter. Within ninety days of the end of the fiscal year, all agencies shall submit to the director of financial management their final adjustments to close their books for the fiscal year. Prior to submitting fiscal data, written or oral, to committees of the legislature, it is the responsibility of the agency submitting the data to reconcile it with the budget and accounting data reported by the agency to the director of financial management.

(9) The director of financial management may exempt certain public funds from the allotment controls established under this chapter if it is not practical or necessary to allot the funds. Allotment control exemptions expire at the end of the fiscal biennium for which they are granted. The director of financial management shall report any exemptions granted under this subsection to the legislative fiscal committees.

(xii) Development and demonstration of alternative management technologies designed to carry out the hazardous waste management priorities of RCW 70.105.150;

(xvi) During the 2011-2013 fiscal biennium, the department of ecology's water quality, shorelands and environmental assessment, hazardous waste, waste to resources, nuclear waste, and air quality programs.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

(a) Moneys deposited in the local toxics control account shall be used by the department for grants or loans to local governments for the following purposes in descending order of priority:

- (i) Remedial actions;
- (ii) Hazardous waste plans and programs under chapter 70.105 RCW;

- (iv) Funds for a program to assist in the assessment and cleanup of sites of methamphetamine production, but not to be used for the initial containment of such sites, consistent with the responsibilities and intent of RCW 69.50.511; and
- (v) Cleanup and disposal of hazardous substances from abandoned or derelict vessels, defined for the purposes of this section as vessels that have little or no value and either have no identified owner or have an identified owner lacking financial resources to clean up and dispose of the vessel, that pose a threat to human health or the environment.

(b) Funds for plans and programs shall be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW, except that any applicant that is a Puget Sound partner, as defined in RCW 90.71.010, along with any project that is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, shall, except as conditioned by RCW 70.105D.120, receive priority for any available funding for any grant or funding programs or sources that use a competitive bidding process. During the 2007-2009 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.

(c) To expedite cleanups throughout the state, the department shall partner with local communities and liable parties for cleanups. The department is authorized to use the following additional strategies in order to ensure a healthful environment for future generations:

(i) The director may alter grant-matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of vacant, orphaned, or abandoned property under RCW 70.105D.040(5) that would not otherwise occur;

(ii) The use of outside contracts to conduct necessary studies;

(iii) The purchase of remedial action cost-cap insurance, when necessary to expedite multiparty clean-up efforts.

(d) To facilitate and expedite cleanups using funds from the local toxics control account, during the 2009-2011 fiscal biennium the director may establish grant-funded accounts to hold and disperse local toxics control account funds and funds from local governments to be used for remedial actions.

(4) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(5) Except during the ~~((2009-2011))~~ 2011-2013 fiscal biennium, one percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management

priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation from either account which are not expended at the close of any biennium shall revert to the state toxics control account.

(6) No moneys deposited into either the state or local toxics control account may be used for solid waste incinerator feasibility studies, construction, maintenance, or operation, or, after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(7) The department shall adopt rules for grant or loan issuance and performance.

(8) During the ~~((2007-2009 and 2009-2011))~~ 2011-2013 fiscal ~~(biennia)~~ biennium, the legislature may transfer from the local toxics control account to ~~((either))~~ the state ~~((general fund or the oil spill prevention account, or both))~~ toxics control account such amounts as reflect excess fund balance in the account.

~~((9))~~ During the 2009-2011 fiscal biennium, the local toxics control account may also be used for a standby rescue tug at Neah Bay, local government shoreline update grants, private and public sector diesel equipment retrofit, and oil spill prevention, preparedness, and response activities.

(10) During the 2009-2011 fiscal biennium, the legislature may transfer from the state toxics control account to the state general fund such amounts as reflect the excess fund balance in the account.

~~(11))~~ (9) During the 2011-2013 fiscal biennium, the local toxics control account may also be used for local government shoreline update grants and actions for reducing public exposure to toxic air pollution.

Sec. 923. RCW 74.48.090 and 2011 1st sp.s. c 7 s 21 are each amended to read as follows:

(1) The department and the department of health, in consultation with the Washington state health care association, and aging services of Washington, shall design a system of skilled nursing facility quality incentive payments. The design of the system shall be submitted to the relevant policy and fiscal committees of the legislature by ~~((December 15, 2011))~~ January 1, 2013. For the 2011-2013 fiscal biennial budget period, the department shall not implement a system of skilled nursing facility quality incentive payments designed pursuant to this section. The system shall be based upon the following principles:

(a) Evidence-based treatment and processes shall be used to improve health care outcomes for skilled nursing facility residents;

(b) Effective purchasing strategies to improve the quality of health care services should involve the use of common quality improvement measures, while recognizing that some measures may not be appropriate for application to facilities with high bariatric, behaviorally challenged, or rehabilitation populations;

(c) Quality measures chosen for the system should be consistent with the standards that have been developed by national quality improvement organizations, such as the national quality forum, the federal centers for medicare and medicaid services, or the federal agency for healthcare research and quality. New reporting burdens to skilled nursing facilities should be minimized by giving priority to measures skilled nursing facilities that are currently required to report to governmental agencies, such as the nursing home compare measures collected by the federal centers for medicare and medicaid services;

(d) Benchmarks for each quality improvement measure should be set at levels that are feasible for skilled nursing facilities to achieve, yet represent real improvements in quality and performance for a majority of skilled nursing facilities in Washington state; and

(e) Skilled nursing facilities performance and incentive payments should be designed in a manner such that all facilities in Washington are able to receive the incentive payments if performance is at or

above the benchmark score set in the system established under this section.

(2) Pursuant to an appropriation by the legislature, for state fiscal year ((2013)) 2014 and each fiscal year thereafter, assessments may be increased to support an additional one percent increase in skilled nursing facility reimbursement rates for facilities that meet the quality incentive benchmarks established under this section.

Sec. 924. RCW 76.04.610 and 2007 c 110 s 1 are each amended to read as follows:

(1)(a) If any owner of forest land within a forest protection zone neglects or fails to provide adequate fire protection as required by RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (i) A flat fee assessment of seventeen dollars and fifty cents; and (ii) twenty-seven cents on each acre exceeding fifty acres.

(b) Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) seventeen dollars, (ii) twenty-seven cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

Applications for refunds shall be submitted to the department on a form prescribed by the department and in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

In addition to the procedures under this subsection, property owners with multiple parcels in a single county who qualify for a refund under this section may apply to the department on an application listing all the parcels owned in order to have the assessment computed on all parcels but billed to a single parcel. Property owners with the following number of parcels may apply to the department in the year indicated:

Year	Number of Parcels
2002	10 or more parcels
2003	8 or more parcels
2004 and thereafter	6 or more parcels

The department must compute the correct assessment and allocate one parcel in the county to use to collect the assessment. The county must then bill the forest fire protection assessment on that one allocated identified parcel. The landowner is responsible for notifying the department of any changes in parcel ownership.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forest lands.

(4) For the purpose of this chapter, the department may divide the forest lands of the state, or any part thereof, into districts, for fire

protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forest lands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forest lands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660.

(6) When land against which forest protection assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a prior lien on the proceeds of sale over and above the amount necessary to satisfy the county's delinquent tax judgment. The county treasurer, in case the proceeds of sale exceed the amount of the delinquent tax judgment, shall immediately remit to the department the amount of the outstanding forest protection assessments.

(7) All nonfederal public bodies owning or administering forest land included in a forest protection zone shall pay the forest protection assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.630. The forest protection assessments and special forest fire suppression account assessments shall be payable by nonfederal public bodies from available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the year in which the protection was provided. Unpaid assessments are not a lien against the nonfederal publicly owned land but shall constitute a debt by the nonfederal public body to the department and are subject to interest charges at the legal rate. During the 2011-2013 fiscal biennium, the forest fire protection assessment account may be appropriated to the joint legislative audit review committee for analysis and recommendations to improve the efficiency and effectiveness of the state's mechanisms for funding fire prevention and suppression activities.

(8) A public body, having failed to previously pay the forest protection assessments required of it by this section, which fails to suppress a fire on or originating from forest lands owned or

administered by it, is liable for the costs of suppression incurred by the department or its agent and is not entitled to reimbursement of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section, including, but not limited to, rules on levying and collecting forest protection assessments.

Sec. 925. RCW 77.12.201 and 2009 c 479 s 63 are each amended to read as follows:

The legislative authority of a county may elect, by giving written notice to the director and the treasurer prior to January 1st of any year, to obtain for the following year an amount in lieu of real property taxes on game lands as provided in RCW 77.12.203. Upon the election, the county shall keep a record of all fines, forfeitures, reimbursements, and costs assessed and collected, in whole or in part, under this title for violations of law or rules adopted pursuant to this title, with the exception of the 2011-2013 fiscal biennium, and shall monthly remit an amount equal to the amount collected to the state treasurer for deposit in the state general fund. The election shall continue until the department is notified differently prior to January 1st of any year.

Sec. 926. RCW 77.12.203 and 2005 c 303 s 14 are each amended to read as follows:

(1) Except as provided in subsection (5) of this section and notwithstanding RCW 84.36.010 or other statutes to the contrary, the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes equal to that amount paid on similar parcels of open space land taxable under chapter 84.34 RCW or the greater of seventy cents per acre per year or the amount paid in 1984 plus an additional amount for control of noxious weeds equal to that which would be paid if such lands were privately owned. This amount shall not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, tidelands, or public fishing areas of less than one hundred acres.

(2) "Game lands," as used in this section and RCW 77.12.201, means those tracts one hundred acres or larger owned in fee by the department and used for wildlife habitat and public recreational purposes. All lands purchased for wildlife habitat, public access or recreation purposes with federal funds in the Snake River drainage basin shall be considered game lands regardless of acreage.

(3) This section shall not apply to lands transferred after April 23, 1990, to the department from other state agencies.

(4) The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. The county shall distribute the amount received under this section for weed control to the appropriate weed district.

(5) For the 2011-2013 fiscal biennium, the director shall pay by April 30th of each year on game lands in each county, if requested by an election under RCW 77.12.201, an amount in lieu of real property taxes and shall be distributed as follows:

Sec. 927. RCW 77.95.090 and 2009 c 340 s 4 are each amended to read as follows:

The dedicated regional fisheries enhancement group account is created in the custody of the state treasurer. Only the commission or the commission's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

A portion of each recreational fishing license fee shall be used as provided in RCW 77.32.440. A surcharge of one hundred dollars shall be collected on each commercial salmon fishery license, each salmon delivery license, and each salmon charter license sold in the state. All receipts shall be placed in the regional fisheries enhancement group account and shall be used exclusively for regional fisheries enhancement group projects for the purposes of RCW 77.95.110. For the 2011-2013 fiscal biennium, the regional fisheries enhancement group account may be used for the purposes of RCW 77.95.070 and hatcheries. Except as provided in RCW 77.95.320, funds from the regional fisheries enhancement group account shall not serve as replacement funding for department operated salmon projects that exist on January 1, 1991.

All revenue from the department's sale of salmon carcasses and eggs that return to group facilities shall be deposited in the regional fisheries enhancement group account for use by the regional fisheries enhancement group that produced the surplus. The commission shall adopt rules to implement this section pursuant to chapter 34.05 RCW.

Sec. 928. RCW 79.22.010 and 2003 c 334 s 205 are each amended to read as follows:

(1) The department has the power to accept gifts and bequests of money or other property, made in its own name, or made in the name of the state, to promote generally the interests of reforestation or for a specific named purpose in connection with reforestation, and to acquire in the name of the state, by purchase or gift, any lands which by reason of their location, topography, or geological formation, are chiefly valuable for purpose of developing and growing timber, and to designate such lands and any lands of the same character belonging to the state as state forest lands; and may acquire by gift or purchase any lands of the same character.

(2) The department has the power to seed, plant, and develop forests on any lands, purchased, acquired, or designated by it as state forest

lands, and shall furnish such care and fire protection for such lands as it shall deem advisable.

(3) Upon approval of the board of county commissioners of the county in which the land is located such gift or donation of land may be accepted subject to delinquent general taxes thereon, and upon such acceptance of such gift or donation subject to such taxes, the department shall record the deed of conveyance thereof and file with the assessor and treasurer of the county wherein such land is situated, written notice of acquisition of such land, and that all delinquent general taxes thereon, except state taxes, shall be canceled, and the county treasurer shall thereupon proceed to make such cancellation in the records of the county treasurer. ~~((Thereafter, such lands))~~

(4)(a) Lands acquired under this section shall be held in trust, protected, managed, and administered upon, and the proceeds therefrom disposed of, under RCW 79.22.040.

(b) During the 2011-2013 fiscal biennium, the legislature may appropriate moneys derived subject to this section from the forest development account consistent with RCW 79.64.100.

Sec. 929. RCW 79.22.040 and 2003 c 334 s 206 are each amended to read as follows:

(1) If any land acquired by a county through foreclosure of tax liens, or otherwise, comes within the classification of land described in RCW 79.22.010 and can be used as state forest land and if the department deems such land necessary for the purposes of this chapter, the county shall, upon demand by the department, deed such land to the department and the land shall become a part of the state forest lands.

(2) Such land shall be held in trust and administered and protected by the department in the same manner as other state forest lands.

(3)(a) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys derived subject to this section are the net proceeds from the contract harvesting sale.

(b) During the 2011-2013 fiscal biennium, the legislature may appropriate moneys derived subject to this section from the forest development account consistent with RCW 79.64.100.

Sec. 930. RCW 79.64.040 and 2011 1st sp.s. c 50 s 966 and 2011 c 216 s 16 are each reenacted and amended to read as follows:

(1) The board shall determine the amount deemed necessary in order to achieve the purposes of this chapter and shall provide by rule for the deduction of this amount from the moneys received from all leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting state lands, community forest trust lands, and aquatic lands, provided that no deduction shall be made from the proceeds from agricultural college lands.

(2) Moneys received as deposits from successful bidders, advance payments, and security under RCW 79.15.100, 79.15.080, and 79.11.150 prior to December 1, 1981, which have not been subjected to deduction under this section are not subject to deduction under this section.

(3) Except as otherwise provided in subsections (4) and (6) of this section, the deductions authorized under this section shall not exceed twenty-five percent of the moneys received by the department in connection with any one transaction pertaining to state lands and aquatic lands other than second-class tide and shore lands and the beds of navigable waters, and fifty percent of the moneys received by the department pertaining to second-class tide and shore lands and the beds of navigable waters.

(4) Deductions authorized under this section for transactions pertaining to community forest trust lands must be established at a level sufficient to defray over time the management costs for activities prescribed in a parcel's management plan adopted pursuant to RCW 79.155.080, and, if deemed appropriate by the board consistent with RCW 79.155.090, to reimburse the state and any local entities' eligible financial contributions for acquisition of the parcel.

(5) In the event that the department sells logs using the contract harvesting process described in RCW 79.15.500 through 79.15.530, the moneys received subject to this section are the net proceeds from the contract harvesting sale.

(6) During the ~~((2009-2014))~~ 2011-2013 fiscal biennium ~~((and fiscal year 2012))~~, the twenty-five percent limitation on deductions set in subsection (3) of this section may be increased up to thirty percent by the board.

Sec. 931. RCW 79.64.100 and 2003 c 334 s 219 are each amended to read as follows:

There is created a forest development account in the state treasury. The state treasurer shall keep an account of all sums deposited therein and expended or withdrawn therefrom. Any sums placed in the forest development account shall be pledged for the purpose of paying interest and principal on the bonds issued by the department under RCW 79.22.080 and 79.22.090 and the provisions of this chapter, and for the purchase of land for growing timber. Any bonds issued shall constitute a first and prior claim and lien against the account for the payment of principal and interest. No sums for the above purposes shall be withdrawn or paid out of the account except upon approval of the department.

Appropriations may be made by the legislature from the forest development account to the department for the purpose of carrying on the activities of the department on state forest lands, lands managed on a sustained yield basis as provided for in RCW 79.10.320, and for reimbursement of expenditures that have been made or may be made from the resource management cost account in the management of state forest lands. For the 2011-2013 fiscal biennium, moneys from the forest development account shall be distributed as directed in section 706 of this act to the beneficiaries of the revenues derived from state forest lands. During the 2011-2013 fiscal biennium, the legislature may appropriate moneys in the forest development account to support emergency fire suppression activities in a manner that, at a maximum, represents the proportion of land that the department manages in comparison to the total land the department conducts emergency fire suppression activities on.

Sec. 932. RCW 79.105.150 and 2011 2nd sp.s. c 9 s 911 are each amended to read as follows:

(1) After deduction for management costs as provided in RCW 79.64.040 and payments to towns under RCW 79.115.150(2), all moneys received by the state from the sale or lease of state-owned aquatic lands and from the sale of valuable material from state-owned aquatic lands shall be deposited in the aquatic lands enhancement account which is hereby created in the state treasury. After appropriation, these funds shall be used solely for aquatic lands enhancement projects; for the purchase, improvement, or protection of aquatic lands for public purposes; for providing and improving access to the lands; and for volunteer cooperative fish and game projects. During the ~~((2009-2011 and))~~ 2011-2013 fiscal ~~((biennia))~~ biennium, the aquatic lands enhancement account may also be used for scientific research as part of the adaptive management process and for developing a planning report for McNeil Island. During the ~~((2009-2011 and))~~ 2011-2013 fiscal ~~((biennia))~~ biennium, the legislature may transfer from the aquatic lands enhancement account to the state general fund such amounts as reflect excess fund balance of the account. During the 2011-2013 fiscal biennium, the aquatic lands enhancement account may be used to support the shellfish program, the ballast water program, parks, hatcheries, and the Puget Sound toxic sampling program at the department of fish and wildlife, and the knotweed program at the department of agriculture.

(2) In providing grants for aquatic lands enhancement projects, the recreation and conservation funding board shall:

(a) Require grant recipients to incorporate the environmental benefits of the project into their grant applications;

(b) Utilize the statement of environmental benefits, consideration, except as provided in RCW 79.105.610, of whether the applicant is a

Puget Sound partner, as defined in RCW 90.71.010, whether a project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310, and except as otherwise provided in RCW 79.105.630, and effective one calendar year following the development and statewide availability of model evergreen community management plans and ordinances under RCW 35.105.050, whether the applicant is an entity that has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030 in its prioritization and selection process; and

(c) Develop appropriate outcome-focused performance measures to be used both for management and performance assessment of the grants.

(3) To the extent possible, the department should coordinate its performance measure system with other natural resource-related agencies as defined in RCW 43.41.270.

(4) The department shall consult with affected interest groups in implementing this section.

(5) After January 1, 2010, any project designed to address the restoration of Puget Sound may be funded under this chapter only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

Sec. 933. RCW 79A.25.200 and 2007 c 241 s 53 are each amended to read as follows:

The recreation resource account is created in the state treasury. Moneys in this account are subject to legislative appropriation. The board shall administer the account in accordance with this chapter and chapter 79A.35 RCW and shall hold it separate and apart from all other money, funds, and accounts of the board. Moneys received from the marine fuel tax refund account under RCW 79A.25.070 shall be deposited into the account. Grants, gifts, or other financial assistance, proceeds received from public bodies as administrative cost contributions, and moneys made available to the state of Washington by the federal government for outdoor recreation may be deposited into the account. During the 2011-2013 fiscal biennia, the recreation resource account may be used by the department of fish and wildlife for the purposes of activities related to aquatic and marine enforcement.

Sec. 934. RCW 86.26.007 and 2011 1st sp.s. c 50 s 976 are each amended to read as follows:

The flood control assistance account is hereby established in the state treasury. At the beginning of the 2005-2007 fiscal biennium, the state treasurer shall transfer three million dollars from the general fund to the flood control assistance account. Each biennium thereafter the state treasurer shall transfer four million dollars from the general fund to the flood control assistance account, except that during the ~~((2009-2011 and))~~ 2011-2013 fiscal ~~((biennia))~~ biennium, the state treasurer shall transfer ~~((two))~~ one million dollars from the general fund to the flood control assistance account. Moneys in the flood control assistance account may be spent only after appropriation for purposes specified under this chapter.

Sec. 935. RCW 90.48.390 and 2008 c 329 s 925 are each amended to read as follows:

The coastal protection fund is established to be used by the department as a revolving fund for carrying out the purposes of restoration of natural resources under this chapter and chapter 90.56 RCW. To this fund there shall be credited penalties, fees, damages, charges received pursuant to the provisions of this chapter and chapter 90.56 RCW, compensation for damages received under this chapter and chapter 90.56 RCW, and an amount equivalent to one cent per gallon from each marine use refund claim under RCW 82.36.330.

Moneys in the fund not needed currently to meet the obligations of the department in the exercise of its powers, duties, and functions under RCW 90.48.142, 90.48.366, 90.48.367, and 90.48.368 shall be deposited with the state treasurer to the credit of the fund. During the 2007-2009 fiscal biennium, the coastal protection fund may also be

used for a standby rescue tug at Neah Bay. During the 2011-2013 fiscal biennium, the legislature may transfer from the coastal protection fund to the state general fund such amounts as reflect excess fund balance derived from penalties, forfeits, and seizures.

Sec. 936. 2010 c 23 s 205 (uncodified) is amended to read as follows:

(1) The legislature finds that this state's tax policy with respect to the taxation of transactions between affiliated entities and the income derived from such transactions (intercompany transactions) has motivated some taxpayers to engage in transactions designed solely or primarily to minimize the tax effects of intercompany transactions. The legislature further finds that some intercompany transactions result from taxpayers that are required to establish affiliated entities to comply with regulatory mandates and that transactions between such affiliates effectively increases the tax burden in this state on the affiliated group of entities.

(2) Therefore, as existing resources allow, the department of revenue is directed to conduct a review of the state's tax policy with respect to the taxation of intercompany transactions. The review must include the impacts of such transactions under the state's business and occupation tax and state and local sales and use taxes. The department may include other taxes in the review as it deems appropriate.

(3) In conducting the review, the department must examine how this state's tax policy compares to the tax policy of other states with respect to the taxation of intercompany transactions. The department's review must include an analysis of potential alternatives to the current policy of taxing intercompany transactions, including their estimated revenue impacts if practicable.

(4) In conducting this review, the department may seek input from members of the business community and others as it deems appropriate.

(5) The department must report its findings to the fiscal committees of the house of representatives and senate by December 1, 2010. However, if the department has not completed its review by December 1, 2010, the department must provide the fiscal committees of the legislature with a brief status report by December 1, 2010, and the final report by December 1, ~~((2011))~~ 2012.

NEW SECTION. Sec. 937. A new section is added to 2011 1st sp.s. c 50 (uncodified) to read as follows:

It is the intent of the legislature that regulatory agencies receiving appropriations in this act work with the office of regulatory assistance to:

(1) Establish a small business liaison team to assist small businesses with permitting and regulatory issues.

(2) Take action to assure that additional violations or corrective actions that could have been discovered and noted in the original violation or correction notice are not subsequently added and to provide a single list of any violations discovered during the regulatory visit or inspection;

(3) Provide notice about when the business may expect the results of a technical assistance or regulatory visit;

(4) Provide information about how the business may provide anonymous feedback regarding a technical assistance or other regulatory visit; and

(5) Provide information regarding the role of the agency's small business liaison as a neutral party within the agency, as well as contact information for the liaison.

Pension contribution rates for the public employees' retirement system, the public safety employees'

retirement system, the school employees' retirement systems, and the teachers' retirement system are established.

(1) For the public employees' retirement system:

(b) Beginning July 1, 2012, an employer contribution rate of 8.87 percent shall be charged.

(3) For the school employees' retirement system:

(a) Beginning April 1, 2012, an employer contribution rate of 7.58 percent shall be charged;

(b) Beginning September 1, 2012, an employer contribution rate of 7.59 percent shall be charged.

(4) For the teachers' retirement system:

(a) Beginning April 1, 2012, an employer contribution rate of 8.04 percent shall be charged; and

(b) Beginning September 21, 2012, an employer contribution rate of 8.05 percent shall be charged.

These rates are inclusive of a department of retirement systems expense charge of 0.16 percent. The department of retirement systems shall collect employee contributions as provided in chapter 41.45 RCW.

NEW SECTION. Sec. 939. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 940. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.

"In order to achieve the reductions in appropriations provided in this section, the authority, in consultation with the Washington state hospital association, the Washington state medical association, and the Washington chapter of the American college of emergency physicians shall designate best practices and performance measures to reduce medically unnecessary emergency room visits of medicaid clients. The Washington state hospital association, the Washington state medical association, and the Washington chapter of the American college of emergency physicians will work with the authority to promote these best practices. The best practices and performance measures shall consist of the following items:

(a) Adoption of a system to exchange patient information among emergency room departments on a regional or statewide basis;

(b) Active dissemination of patient educational materials produced by the Washington state hospital association, Washington state medical association, and the Washington chapter of the American college of emergency physicians that instruct patients on appropriate facilities for non-emergent health care needs;

(c) Designation of hospital personnel and emergency room physician personnel to receive and appropriately disseminate information on clients participating in the medicaid patient review and coordination program and to review monthly utilization reports on those clients provided by the authority;

(d) A process to assist the authority's patient review and coordination program clients with their care plans. The process must include substantial efforts by hospitals to schedule an appointment with the client's assigned primary care provider within seventy-two hours of the client's medically unnecessary emergency room visit when appropriate under the client's care plan;

(e) Implementation of narcotic guidelines that incorporate the Washington chapter of the American college of emergency physician guidelines;

(f) Physician enrollment in the state's prescription monitoring program, as long as the program is funded; and

(g) Designation of a hospital emergency department physician responsible for reviewing the state's medicaid utilization management feedback reports, which will include defined performance measures. The emergency department physician and hospital will have a process to take appropriate action in response to the information in the feedback reports if performance measures are not met. The authority must develop feedback reports that include timely emergency room utilization data such as visit rates, medically unnecessary visit rates (by hospital and by client), emergency department imaging utilization rates, and other measures as needed. The authority may utilize the Robert Bree collaborative for assistance related to this best practice.

The requirements for best practices for a critical access hospital should not include adoption of a system to exchange patient information if doing so would pose a financial burden, and should not include requirements related to the authority's patient review and coordination program if the volume of those patients seen at the critical access hospital are small.

Hospitals participating in this medicaid best practices program shall submit to the authority a declaration from executive level leadership indicating hospital adoption of and compliance with the best practices enumerated above. In the declaration, hospitals will affirm that they have in place written policies, procedures, or guidelines to implement these best practices and are willing to share them upon request. The declaration must also give consent for the authority to disclose feedback reports and performance measures on its website. The authority shall submit a list of declaring hospitals to the relevant policy and fiscal committees of the legislature by July 15, 2012.

If the authority does not receive by July 1, 2012, declarations from hospitals representing at least seventy-five percent of emergency room visits by medicaid clients in fiscal year 2010, the authority may implement a policy of nonpayment of medically unnecessary emergency room visits, with appropriate client and clinical safeguards such as exemptions and expedited prior authorization. The authority shall by January 15, 2013, perform a preliminary fiscal analysis of trends in implementing the best practices in this subsection, focusing on outlier hospitals with high rates of unnecessary visits by Medicaid clients, high emergency room visit rates for patient review and coordination clients, low rates of completion of treatment plans for patient review and coordination clients assigned to the hospital, and high rates of prescribed long-acting opiates. In cooperation with the leadership of the hospital, medical, and emergency physician associations, additional efforts shall be focused on assisting those outlier hospitals and providers to achieve more substantial savings. The authority by January 15, 2013, will report to the legislature about whether assumed savings based on preliminary trend and forecasted data are on target and if additional best practices or other actions need to be implemented.

If necessary, pursuant to RCW 34.05.350(1)(c), the authority may employ emergency rulemaking to achieve the reductions assumed in the appropriations under this section.

Nothing in this subsection shall in any way impact the authority's ability to adopt and implement policies pertaining to the patient review and coordination program."
