- (2) Prior to receiving funds, project recipients must demonstrate that the project site is under control for a minimum of ten years, either through ownership or a long-term lease. This requirement does not apply to appropriations for preconstruction activities or appropriations whose sole purpose is to purchase real property that does not include a construction or renovation component.
- (3) Projects funded in this section may be required to comply with Washington's high performance building standards as required by chapter 39.35D RCW.
- (4) Project funds are available on a reimbursement basis only, and shall not be advanced under any circumstances.

  - (c) The department must issue a competitive request for qualifications and quotations and select a certified nonprofit community development financial institution to implement the demonstration program. The department and selected organization must enter into a contract and jointly develop a project solicitation, evaluation and selection process.
  - (d) The expectation is that at least five percent of the project cost will be contributed by the building owner in cash. The contractor must work with other public and private lenders to underwrite financing packages that leverage additional funding resources and applicable tax credits.
  - (e) Projects will be evaluated on criteria including but not limited to the following:

**Sec. 6003.** RCW 43.155.070 and 2013 2nd sp.s. c 19 s 7032 are each amended to read as follows:

(1) To qualify for financial assistance under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a capital facility plan; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town planning under RCW 36.70A.040 may not receive financial assistance under this chapter unless it has adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving financial assistance under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 that has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 may apply for and receive financial assistance under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before executing a contractual agreement for financial assistance with the board.

(3) In considering awarding financial assistance for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board must consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) The board must develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board must attempt to assure a geographical balance in assigning priorities to projects. The board must consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Except as otherwise conditioned by RCW 43.155.110, whether the entity receiving assistance is a Puget Sound partner, as defined in RCW 90.71.010;

(c) Whether the project is referenced in the action agenda developed by the Puget Sound partnership under RCW 90.71.310;

(d) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(e) Whether the applicant's permitting process has been certified as streamlined by the office of regulatory assistance;

(f) Whether the applicant has developed and adhered to guidelines regarding its permitting process for those applying for development permits consistent with section 1(2), chapter 231, Laws of 2007;

(g) The cost of the project compared to the size of the local government and amount of loan money available;

(h) The number of communities served by or funding the project;

(i) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(j) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(k) Except as otherwise conditioned by RCW 43.155.120, and effective one calendar year following the development of model evergreen community management plans and ordinances under RCW 35.105.050, whether the entity receiving assistance has been recognized, and what gradation of recognition was received, in the evergreen community recognition program created in RCW 35.105.030;

(l) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(m) Other criteria that the board considers advisable.

(5) For the 2013-2015 fiscal biennium, in place of the criteria, ranking, and submission processes for construction loan lists provided in subsections (4) and (7) of this section:

(a) The board must develop a process for numerically ranking applications for construction loans submitted by local governments. The board must consider, at a minimum and in any order, the following factors in assigning a numerical ranking to a project:

(i) Whether the project is critical in nature and would affect the health and safety of many people;

(ii) The extent to which the project leverages nonstate funds;

(iii) The extent to which the project is ready to proceed to construction;

(iv) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

- (v) Whether the project promotes the sustainable use of resources and environmental quality;
  - (vi) Whether the project consolidates or regionalizes systems;
  - (vii) Whether the project encourages economic development through mixed-use and mixed income development consistent with chapter 36.70A RCW;
  - (viii) Whether the system is being well-managed in the present and for long-term sustainability;
  - (ix) Achieving equitable distribution of funds by geography and population;
  - (x) The extent to which the project meets the following state policy objectives:
    - (A) Efficient use of state resources;
    - (B) Preservation and enhancement of health and safety;
    - (C) Abatement of pollution and protection of the environment;
    - (D) Creation of new, family wage jobs, and avoidance of shifting existing jobs from one Washington state community to another;
    - (E) Fostering economic development consistent with chapter 36.70A RCW;
    - (F) Efficiency in delivery of goods and services, public transit, and transportation;
    - (G) Avoidance of additional costs to state and local governments that adversely impact local residents and small businesses; and
    - (H) Reduction of the overall cost of public infrastructure; and
  - (xi) Other criteria that the board considers necessary to achieve the purposes of this chapter.
- (b) Before November 1, 2014, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a ranked list of qualified public works projects which have been evaluated by the board and are recommended for funding by the legislature. The maximum amount of funding that the board may recommend for any jurisdiction is ten million dollars per biennium. For each project on the ranked list, as well as for eligible projects not recommended for funding, the board must document the numerical ranking that was assigned.

(6) Existing debt or financial obligations of local governments may not be refinanced under this chapter. Each local government applicant must provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(7) Before November 1st of each even-numbered year, the board must develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (10) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list must include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list must also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(8) The board may not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of public works projects. The legislature may remove projects from the list recommended by the board. The legislature may not change the order of the priorities recommended for funding by the board.

(9) Subsection (8) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (10) of this section.

(10) Loans made for the purpose of capital facilities plans are exempted from subsection (8) of this section.

(11) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

(12) After January 1, 2010, any project designed to address the effects of storm water or wastewater on Puget Sound may be funded under this section only if the project is not in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310.

(13) During the 2013-2015 fiscal biennium, for projects involving repair, replacement, or improvement of a wastewater treatment plant or other public works facility for which an investment grade efficiency audit is obtainable, the public works board must require as a contract condition that the project sponsor undertake an investment grade efficiency audit. The project sponsor may finance the costs of the audit as part of its public works assistance account program loan.

(14)(a) For public works assistance account application rounds conducted during the 2013-2015 fiscal biennium, the board must implement policies and procedures designed to maximize local government use of federally funded drinking water and clean water state revolving funds operated by the state departments of health and ecology. The board, department of ecology, and department of health must jointly develop evaluation criteria and application procedures that will increase access of eligible drinking water and wastewater projects to the public works assistance account for short-term preconstruction financing and to the federally funded state revolving funds for construction financing. The procedures must also strengthen coordinated funding of preconstruction and construction projects.

(b) For all construction loan projects proposed to the legislature for funding during the 2013-2015 fiscal biennium, the board must ~~((base interest rates on the average daily market interest rate for tax exempt municipal bonds as published in the bond buyer's index for the period from sixty to thirty days before the start of the application cycle. For projects with a repayment period between five and twenty years, the rate must be sixty percent of the market rate. For projects with a repayment period under five years, the rate must be thirty percent of the market rate))~~ establish lending policies and procedures that are consistent with managing the public works assistance account for long-term sustainability. When determining loan terms that will be in effect for an application round, the board must take into account applicable market rates, but may, at its discretion, use additional factors to set the final loan terms. The board must also provide reduced interest rates~~((s))~~ or extended repayment periods~~((s))~~ or forgivable principal loans for projects that meet financial hardship criteria as measured by the affordability index or similar standard measure of financial hardship.

(c) By December 1, 2013, the board must recommend to the appropriate committees of the legislature statutory language to make permanent these new criteria, procedures, and financing policies.

**Sec. 6004.** RCW 70.105D.070 and 2013 2nd sp.s. c 19 s 7033 and 2013 2nd sp.s. c 4 s 992 are each reenacted and amended to read as follows:

(w) For the 2013-2015 fiscal biennium, moneys in the state toxics control account may be spent on projects in section ~~((3159))~~ 3160, chapter 19, Laws of 2013 2nd sp. sess. and for transfer to the local toxics control account; and

(x) For the 2013-2015 fiscal biennium, moneys in the state toxics control account may be transferred to the radioactive mixed waste account.

(4)(a) The department shall use moneys deposited in the local toxics control account for grants or loans to local governments for the following purposes in descending order of priority:

(i) Extended grant agreements entered into under ~~((e))~~ (e)(i) of this subsection;

(ii) Remedial actions, including planning for adaptive reuse of properties as provided for under ~~((e))~~ (e)(iv) of this subsection. The department must prioritize funding of remedial actions at:

(A) Facilities on the department's hazardous sites list with a high hazard ranking for which there is an approved remedial action work plan or an equivalent document under federal cleanup law;

(B) Brownfield properties within a redevelopment opportunity zone if the local government is a prospective purchaser of the property and there is a department-approved remedial action work plan or equivalent document under the federal cleanup law;

(iii) Storm water pollution source projects that: (A) Work in conjunction with a remedial action; (B) protect completed remedial actions against recontamination; or (C) prevent hazardous clean-up sites;

(c) During the 2013-2015 fiscal biennium, the local toxics control account may also be used for local government storm water planning and implementation activities.

(d) During the 2013-2015 fiscal biennium, the legislature may transfer from the local toxics control account to the state general fund, such amounts as reflect the excess fund balance in the account.

(e) To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:

(i) Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those actions extend over multiple biennia and the total eligible cost of those actions exceeds twenty million dollars. The agreement is subject to the following limitations:

(A) The initial duration of such an agreement may not exceed ten years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;

(B) Extended grant agreements may not exceed fifty percent of the total eligible remedial action costs at the facility; and

(C) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(ii) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to areawide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(vi) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70.105D.040(5) that would not otherwise occur;

(vii) When pending grant applications under ~~((e)-(f))~~ (e)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

~~((d)-(f))~~ (f) To expedite multiparty clean-up efforts, the department may purchase remedial action cost-cap insurance. For the 2013-2015 fiscal biennium, moneys in the local toxics control account may be spent on projects in sections 3024, 3035, 3036, and 3059, chapter 19, Laws of 2013 2nd sp. sess.

(5) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(6) No moneys deposited into either the state or local toxics control account may be used for: Natural disasters where there is no hazardous substance contamination; high performance buildings; solid waste incinerator facility feasibility studies, construction, maintenance, or operation; or after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) Except during the 2011-2013 fiscal biennium, one percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance and performance. To accelerate both remedial action and economic recovery, the department may expedite the adoption of rules necessary to implement chapter 1, Laws of 2013 2nd sp. sess. using the expedited procedures in RCW 34.05.353. The department shall initiate the award of financial assistance by August 1, 2013. To ensure the adoption of rules will not delay financial assistance, the department may administer the award of financial assistance through interpretive guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this section, nothing in chapter 1, Laws of 2013 2nd sp. sess. effects [affects] the ability of a potentially liable person to receive public funding.

(10) During the 2013-2015 fiscal biennium the local toxics control account may also be used for the centennial clean water program and for storm water grants.

During the 2013- 2015 biennium, sums in the public facilities construction loan revolving account may be used for the animal disease traceability project in section 3247, chapter 19, Laws of 2013 2nd sp. sess., administered by the department of agriculture.

Expenditures for payment of administrative and operating costs of the agency are subject to the allotment procedures under chapter 43.88 RCW and may be made only after appropriation by statute. No appropriation is required for other expenditures from the account.

(2) Each calendar quarter, the director shall report to the insurance commissioner the loss and surplus reserves required for the calendar quarter. The director shall notify the department of revenue of this amount by the fifteenth day of each calendar quarter.

(3) Each calendar quarter the director shall determine the amount of reserves necessary to fund commitments made to provide financial assistance under RCW 70.148.130 to the extent that the financial assistance reserves do not jeopardize the operations and liabilities of the pollution liability insurance program. The director shall notify the department of revenue of this amount by the fifteenth day of each calendar quarter. The director may immediately establish an initial financial assistance reserve of five million dollars from available revenues. The director may not expend more than fifteen million dollars for the financial assistance program.

(4) During the 2013-2015 fiscal biennium, the legislature may transfer from the pollution liability insurance program trust account to the state general fund such amounts as reflect the excess fund balance of the account.

The nonstate portion of the total project cost may include cash, the value of real property when acquired solely for the purpose of the project, and in-kind contributions. The department shall not sign contracts or otherwise financially obligate funds under this section until the legislature has approved a specific list of projects. If the grantee is found to be out of compliance with provisions of the contract, the grantee shall repay to the state general fund the principal amount of the grant plus interest calculated at the rate of interest on state of Washington general obligation bonds issued most closely to the date of authorization of the grant. Program administration costs retained by the society must be consistent with capital budget guidelines established by the office of financial management.

**Funding all-day kindergarten and early elementary class size reduction facility needs with lottery revenues.**

The bill was read the second time.

Representative Dunshee moved the adoption of amendment (861):

### "PART I

### INTENT

NEW SECTION. Sec. 101. The legislature finds that school districts are strapped for the physical space to meet education funding reforms as provided in chapter 548, Laws of 2009 (Engrossed Substitute House Bill No. 2261) and chapter 236, Laws of 2010 (Substitute House Bill No. 2776), as interpreted in *McCleary v. State*, related to all-day kindergarten and K-3 class size reduction. The legislature further finds that a program of near-term state grants without a local match requirement will assist school districts to provide these new programs by the scheduled full implementation date of the 2017-18 school year. The legislature further finds that school districts will need flexibility in determining the most appropriate construction method to accommodate the additional classroom space, including permanent construction, modular construction, or portables. The legislature further finds that the use of lottery revenues for common schools is consistent with the construction objectives of chapter 3, Laws of 2001 (Initiative Measure No. 728). Therefore, it is the intent of the legislature to authorize seven hundred million dollars in lottery revenue bonds for grants to school districts to support the physical capacity required for statewide implementation of all-day kindergarten and K-3 class size reduction beginning with the 2015-2017 fiscal biennium.

### PART II

### BOND AUTHORIZATION

NEW SECTION. Sec. 201. LOTTERY REVENUE BONDS AUTHORIZED. (1) For the purpose of providing needed construction assistance to support all-day kindergarten and K-3 class size reduction, the state finance committee is authorized to issue a total of seven hundred seven million dollars of lottery revenue bonds,

or as much thereof as may be required, payable from the Washington opportunity pathways account revenues under RCW 28B.76.526, which consist of net lottery revenues deposited in the lottery account created in RCW 67.70.230, and net shared game lottery revenues deposited in the shared game lottery account in RCW 67.70.044, as such revenues are defined in section 202 of this act, to finance these projects and all costs incidental thereto.

(2) Bonds authorized in this section may be sold at such price as the state finance committee shall determine. No bonds authorized in this section may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

(3) The state finance committee may determine and include in any resolution authorizing the issuance of any bonds authorized by this section and sections 202 through 207 of this act such terms, provisions, covenants, and conditions as it may deem appropriate in order to assist with the marketing and sale of the bonds, confer rights upon the owners of bonds, and safeguard rights of the owners of bonds, including, among other things:

(a) Provisions that the bonds shall be payable solely from and secured solely by the Washington opportunity pathways account revenues under RCW 28B.76.526, as such revenues are defined in section 202 of this act;

(b) The conditions that must be satisfied prior to the issuance of any additional bonds that are to be payable from and secured by the Washington opportunity pathways account revenues, as such revenues are defined in section 202 of this act, on equal basis with previously issued and outstanding bonds payable from the net lottery revenues and net shared game lottery revenues;

(c) Provisions regarding debt service reserves and credit enhancement; and

(d) Whether bonds may be issued as tax-exempt bonds or must be issued as taxable bonds under the applicable provisions of the federal internal revenue code.

**NEW SECTION. Sec. 202. WASHINGTON OPPORTUNITY PATHWAYS ACCOUNT/LOTTERY REVENUES PLEDGED TO BONDS.** (1) Each bond issued under the authority of this section and sections 201 and 203 through 207 of this act shall distinctly state that payment or redemption of the bond and payment of the interest and any premium thereon is payable solely from and secured solely by a pledge of the Washington opportunity pathways account revenues under RCW 28B.76.526, which consist of net lottery revenues received in the lottery account established in RCW 67.70.230 and net shared game lottery revenues received in the shared game lottery account in RCW 67.70.044 and is not a general obligation of the state to which the full faith and credit of the state is pledged. The legislature covenants to appropriate the Washington opportunity pathways account revenues pledged to the payment of the bonds issued under this section and sections 201 and 203 through 207 of this act. The legislature further agrees for the benefit of the owners of outstanding bonds issued by the state under this section and sections 201 and 203 through 207 of this act to continue in effect and not to impair the operation of the state lottery as authorized in chapter 67.70 RCW for the payment and security of the bonds. The state finance committee shall include this pledge and agreement of the state to owners of any bonds issued under this section and sections 201 and 203 through 207 of this act. The owner of any bond or the trustee for the owner of any of the bonds may by mandamus or other appropriate proceeding require the transfer and payment of pledged revenues as directed in this section.

(2) For purposes of this section and sections 201 and 203 through 209 of this act:

(a) "Washington opportunity pathways account revenues" means all revenues of the Washington opportunity pathways account in RCW 28B.76.526 including, but not limited to, net lottery revenues and net shared game lottery revenues;

(b) "Net lottery revenues" means all revenues deposited in the lottery account, excluding revenues used to make the following distributions under RCW 67.70.240: Payment of prizes under RCW 67.70.240(1)(a) other than unclaimed prizes under RCW 67.70.190; deposits made by the lottery commission in the reserve account and lottery administrative account under RCW 67.70.240(1)(b); amounts obligated under RCW 67.70.240(1)(d); amounts used for the purchase and promotion of games and services under RCW 67.70.240(1)(e); and payments to agents under RCW 67.70.240(1)(f); and

(c) "Net shared game lottery revenues" means all moneys deposited in the shared game lottery account in RCW 67.70.044 excluding direct expenses of the shared game.

**Sec. 203.** RCW 67.70.230 and 2010 1st sp.s. c 37 s 941 are each amended to read as follows:

**NET LOTTERY REVENUES PLEDGED TO BONDS.** There is hereby created and established a separate account, to be known as the state lottery account. Such account shall be managed, maintained, and controlled by the commission and shall consist of all revenues received from the sale of lottery tickets or shares, and all other moneys credited or transferred thereto from any other fund or source pursuant to law. The account shall be a separate account outside the state treasury. No appropriation is required to permit expenditures and payment of obligations from the account. ~~((During the 2009–2011 fiscal biennium, the legislature may transfer from the state lottery account to the education legacy trust account such amounts as reflect the excess fund balance of the account.))~~ As set forth in section 202 of this act, net lottery revenues are pledged to principal and interest payments on bonds issued under section 201 of this act, including any required reserves as provided in the bond proceedings, and must be transferred for this purpose by the state treasurer into the Washington opportunity pathways account in RCW 28B.76.526.

**Sec. 204.** RCW 67.70.044 and 2010 1st sp.s. c 37 s 940 are each amended to read as follows:

**NET SHARED GAME LOTTERY REVENUES PLEDGED TO BONDS.** (1) Pursuant to RCW 67.70.040(1)(a), the commission may enter into the multistate agreement establishing a shared game lottery known as "The Big Game," that was entered into by party state lotteries in August 1996 and subsequently amended and a shared game lottery known as "Powerball."

(2) The shared game lottery account is created as a separate account outside the state treasury. The account is managed, maintained, and controlled by the commission and consists of all revenues received from the sale of shared game lottery tickets or shares, and all other moneys credited or transferred to it from any other fund or source under law. The account is allotted according to chapter 43.88 RCW. ~~((During the 2009–2011 fiscal biennium, the legislature may transfer from the shared game lottery account to the education legacy trust account such amounts as reflect the excess fund balance of the account.))~~

(3) As set forth in section 202 of this act, net shared game lottery revenues deposited in the shared game lottery account are pledged to principal and interest payments on bonds issued under section 201 of this act, including any required reserves as provided in the bond proceedings, and must be transferred for this purpose by the state treasurer into the Washington opportunity pathways account in RCW 28B.76.526.

**NEW SECTION. Sec. 205. BOND PROCEEDS DEPOSITED INTO EDUCATION CONSTRUCTION REVENUE BOND PROCEEDS ACCOUNT.** The proceeds from the sale of bonds authorized in section 201 of this act shall be deposited in the education construction revenue bond proceeds account hereby created in the state treasury. Moneys in the account may be spent only after appropriation and only for the purposes stated in section 201 of this act, for the payment of bond anticipation notes or other interim financing, if any, capitalizing interest on the bonds, and payment of expenses incurred in the sale and issuance of the bonds, including

underwriter compensation. The state treasurer may establish subaccounts in the account for the purpose of segregating bond proceeds, including separate subaccounts for segregating proceeds of tax-exempt bonds and taxable bonds.

**Sec. 206.** RCW 28B.76.526 and 2010 1st sp.s. c 27 s 2 are each amended to read as follows:

WASHINGTON OPPORTUNITY PATHWAYS ACCOUNT; PRIORITY PLEDGE OF REVENUES TO BONDS. (1) The Washington opportunity pathways account is created in the state treasury. Deposits to the account must include net lottery revenues as defined in section 202 of this act that are required to be deposited in the account pursuant to RCW 67.70.230, net shared game lottery revenues as defined in section 202 of this act that are required to be deposited in the account pursuant to RCW 67.70.044, and any other amounts directed by the legislature to be transferred to or deposited in the \_\_\_\_\_ account.

(2) As set forth in sections 202, 208, and 209 of this act, net lottery revenues and net shared game lottery revenues deposited in the account are pledged to principal and interest payments on bonds issued under section 201 of this act, including any required reserves as provided in the bond proceedings. This pledge of Washington opportunity pathways account revenues to pay and secure bonds issued under section 201 of this act takes priority over the use of Washington opportunity pathways account revenues to make any other expenditures from the account for any other purpose. Before any other expenditures may be made from the account, moneys in the account must have been expended or set aside on or before the applicable payment date for debt service requirements and debt service reserve requirements of the bonds issued under section 201 of this act in the amounts certified from time to time by the state finance committee pursuant to section 207 of this act. The state finance committee in the bond proceedings may provide for the establishment of a special subaccount in the account to serve as a debt service reserve fund for bonds issued under section 201 of this act.

(3) After applicable debt service requirements and debt service reserve requirements for bonds issued under section 201 of this act have been satisfied or provided for pursuant to subsection (2) of this section, other expenditures from the account may be used only for programs in chapter 28B.12 RCW (state work-study), chapter 28B.50 RCW (opportunity grant), RCW 28B.76.660 (Washington scholars award), RCW 28B.76.670 (Washington award for vocational excellence), chapter 28B.92 RCW (state need grant program), chapter 28B.101 RCW (educational opportunity grant), chapter 28B.105 RCW (GET ready for math and science scholarship), chapter 28B.117 RCW (passport to college promise), chapter 28B.118 RCW (college bound scholarship), chapter 28B.119 RCW (Washington promise scholarship), chapter 43.215 RCW (early childhood education and assistance program), and RCW 43.330.280 (recruitment of entrepreneurial researchers, innovation partnership zones and research teams).

**NEW SECTION. Sec. 207. RETIREMENT OF BONDS.** (1) The nondebt- limit bond retirement account shall be used for the payment of principal of and interest on the bonds authorized in section 201 of this act.

(2) The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest payments on the bonds and the amounts, if any, required for the funding or replenishment of any debt service reserve fund for the bonds in accordance with the bond proceedings.

(3) On each date on which any principal and interest payment is due on bonds or on which any amount is required for the funding or replenishment of any debt service reserve fund for bonds issued for the purposes of section 201 of this act, the state treasurer shall withdraw from the Washington opportunity pathways account an amount equal to the amount certified by the state finance committee to be due or required on such date.

**Sec. 208.** RCW 67.70.240 and 2013 c 136 s 1 are each amended to read as follows:

DISTRIBUTION OF LOTTERY REVENUES. (1) The moneys in the state lottery account may be used only:

(a) For the payment of prizes to the holders of winning lottery tickets or shares;

(b) For purposes of making deposits into the reserve account created by RCW 67.70.250 and into the lottery administrative account created by RCW 67.70.260;

~~(c) ((For purposes of making deposits into the Washington opportunity pathways account created in RCW 28B.76.526. Moneys in the state lottery account deposited in the Washington opportunity pathways account are included in "general state revenues" under RCW 39.42.070;)) For deposits in the Washington opportunity pathways account for purposes of debt service payments and any required reserve on bonds issued under section 201 of this act and for other authorized purposes of the account after such payments are made;~~

(d) For distribution to the stadium and exhibition center account, created in RCW 43.99N.060. Subject to the conditions of RCW 43.99N.070, six million dollars must be distributed under this subsection during the calendar year 1998. During subsequent years, such distribution must equal the prior year's distributions increased by four percent. No distribution may be made under this subsection after December 31, 1999, unless the conditions for issuance of the bonds under RCW 43.99N.020(2) are met. Distributions under this subsection must cease when the bonds are retired, but not later than December 31, 2020;

(e) For the purchase and promotion of lottery games and game-related services; and

(f) For the payment of agent compensation.

(2) The office of financial management shall require the allotment of all expenses paid from the account and shall report to the ways and means committees of the senate and house of representatives any changes in the allotments.

**Sec. 209.** RCW 67.70.340 and 2012 1st sp.s. c 10 s 6 are each amended to read as follows:

DISTRIBUTION OF SHARED GAME REVENUES. (1) ~~((The legislature recognizes that creating a shared game lottery could result in less revenue being raised by the existing state lottery ticket sales. The legislature further recognizes that the fund most impacted by this potential event is the Washington opportunity pathways account. Therefore, it is the intent of the legislature to use some of the proceeds from the shared game lottery to make up the difference that the potential state lottery revenue loss would have on the Washington opportunity pathways account. The legislature further intends to use some of the proceeds from the shared game lottery to fund programs and services related to problem and pathological gambling.~~

~~(2) The Washington opportunity pathways account is expected to receive one hundred two million dollars annually from state lottery games other than the shared game lottery. For fiscal year 2011 and thereafter, if the amount of lottery revenues earmarked for the Washington opportunity pathways account is less than one hundred two million dollars, the commission, after making the transfer required under subsection (3) of this section, must transfer sufficient moneys from revenues derived from the shared game lottery into the Washington opportunity pathways account to bring the total revenue up to one hundred two million dollars.~~

~~(3)) If at any time the amount available to be transferred from the state lottery account in RCW 67.70.240 to the Washington opportunity pathways account pursuant to section 207 of this act is insufficient to satisfy the amount certified under RCW 28B.76.526, then before the commission may make any transfers under this section the treasurer must transfer net shared game lottery revenues from the shared game lottery account to the Washington opportunity pathways account.~~

(a) The commission shall transfer, from revenue derived from the shared game lottery, to the problem gambling account created in RCW 43.20A.892, an amount equal to the percentage specified in (b) of this subsection of net receipts. ## PART II

## HUMAN SERVICES

**Sec. 201.** 2013 2nd sp.s. c 4 s 201 (uncodified) is amended to read as follows:

**FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES**

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The health care authority and the department are authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage medicaid expenditures for the aged and disabled population. Under the Washington medicaid integration partnership (WMIP) and the medicare integrated care project (MICP), the health care authority and the department may combine and transfer such medicaid funds appropriated under sections 204, 206, 208, and 213 of this act as may be necessary to finance a unified health care plan for the WMIP and the MICP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons, nor expand beyond one county during the 2013-2015 fiscal biennium. The amount of funding assigned from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. In implementing the WMIP and the MICP, the health care authority and the department may: (i) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for enrolled individuals; and (ii) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs.

(b) If Washington has been selected to participate in phase two of the federal demonstration project for persons dually-eligible for both medicare and medicaid, the department and the authority may initiate the MICP. Participation in the project shall be limited to persons who are eligible for both medicare and medicaid and to counties in which the county legislative authority has agreed to the terms and conditions under which it will operate. The purpose of the project shall be to demonstrate and evaluate ways to improve care while reducing state expenditures for persons enrolled both in medicare and medicaid. To that end, prior to initiating the project, the department and the authority shall assure that state expenditures shall be no greater on either a per person or total basis than the state would otherwise incur. Individuals who are solely eligible for medicaid may also participate if their participation is agreed to by the health care authority, the department, and the county legislative authority.

(4) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(5) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in section 213 of this act. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(6) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for the medicaid expansion but are enrolled in coverage that will be eliminated in the transition to the medicaid expansion.

(7)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2014, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2014 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year 2014 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medicaid personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

The appropriations in this subsection are subject to the following conditions and limitations:

(a) \$104,999,000 of the general fund--state appropriation for fiscal year 2014 and ~~(\$85,895,000)~~ \$88,895,000 of the general fund-- state appropriation for fiscal year 2015 are provided solely for persons and services not covered by the medicaid program. To the extent possible, levels of regional support network spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. This is a reduction in flexible nonmedicaid funding of \$4,343,000 for fiscal year 2014 and ~~(\$23,446,000)~~ \$20,446,000 for fiscal year 2015. This reduction reflects offsets in state funding related to services that will now be funded with federal dollars through the affordable care act medicaid expansion. This reduction shall be distributed ~~((as follows:))~~ ((as follows:))

~~(i) The \$4,343,000 reduction in fiscal year 2014 and \$11,723,000 of the reduction in fiscal year 2015 must be distributed~~ among regional support networks based on a formula that equally weights each regional support networks proportion of individuals who become newly eligible and enroll in medicaid under the expansion provisions of the affordable care act ~~((in fiscal year 2014))~~ and each regional support network's spending of flexible nonmedicaid funding on services that would be reimbursable for federal medicaid matching funds if provided to medicaid enrollees in the 2011-2013 fiscal biennium.

(b) \$6,590,000 of the general fund--state appropriation for fiscal year 2014, \$6,590,000 of the general fund--state appropriation for fiscal year 2015, and \$7,620,000 of the general fund--federal appropriation are provided solely for the department and regional support networks to continue to contract for implementation of high- intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to regional support networks with PACT teams, the department shall consider the differences between regional support networks in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The department may allow regional support networks which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under section 204(1)(a) of

this act. The department and regional support networks shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(c) \$5,850,000 of the general fund--state appropriation for fiscal year 2014, \$5,850,000 of the general fund--state appropriation for fiscal year 2015, and \$1,300,000 of the general fund--federal appropriation are provided solely for the western Washington regional support networks to provide either community- or hospital campus-based services for persons who require the level of care previously provided by the program for adaptive living skills (PALS) at western state hospital.

(f) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(g) \$750,000 of the general fund--state appropriation for fiscal year 2014 and \$750,000 of the general fund--state appropriation for fiscal year 2015 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(h) \$1,125,000 of the general fund--state appropriation for fiscal year 2014 and \$1,125,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. At least annually, the Spokane regional support network shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(i) \$1,529,000 of the general fund--state appropriation for fiscal year 2014 and \$1,529,000 of the general fund--state appropriation for fiscal year 2015 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(j) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (a) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(k) \$3,436,000 of the general fund--state appropriation for fiscal year 2014 and \$2,291,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(n) Due to recent approval of federal medicaid matching funds for the disability lifeline and the alcohol and drug abuse treatment support act programs, the department shall charge regional support networks for only the state share rather than the total cost of community psychiatric hospitalization for persons enrolled in those programs.

(o) The legislature finds that the circumstances of the Chelan- Douglas regional support network (CD-RSN) make it necessary for CD-RSN to undergo restructuring in order to provide mental health services essential to the health and wellness of the citizens within its service area. The legislature intends to provide additional temporary financial relief to the CD-RSN while it undergoes internal restructuring or negotiates a merger with another regional support network.

The department shall negotiate relief for outstanding fiscal year 2013 reimbursements owed by CD-RSN to the state provided that the CD-RSN has a plan in place that is approved by the department by August 1, 2013, that demonstrates how CD-RSN will maintain financial viability and stability or will merge with another regional support network.

For the period of July 1, 2013, through December 31, 2013, the department may alter collection of reimbursement from CD-RSN for overuse of state hospital beds. To receive a reduction to the required reimbursement for overuse of state hospital beds, CD-RSN must continue to prioritize services that reduce its utilization and census at eastern state hospital and be actively implementing an approved plan to maintain financial viability or pursuing a future merger with another regional support network. Up to \$298,000 of the general fund--state appropriation for fiscal year 2014 is for the department to provide payments to regional support networks in eastern Washington which have used less than their allocated or contracted patient days of care at the state hospital to replace the share of the reimbursements from CD-RSN that the regional support networks would have received under RCW 71.24.320.

(p) \$266,000 of the general fund--state appropriation for fiscal year 2014 (~~(is)~~) and \$1,500,000 of the general fund--state appropriation for fiscal year 2015 are provided solely to maintain services for the King county regional support network as it works to transition services to settings that are eligible for federal participation for individuals covered under the medicaid program.

(q) Within the amounts appropriated in this section, funding is provided for the department to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(r) \$7,281,000 of the general fund--state appropriation for fiscal year 2015 and \$4,589,000 of the general fund--federal appropriation are provided solely for implementation of Substitute House Bill No. 2725 (involuntary commitment) and enhancement of community mental health services. The department must contract these funds for the operation of the following community programs that allow individuals to be diverted or transitioned from the state hospitals: (i) Community hospital or free standing evaluation and treatment services providing short-term detention and commitment services under the involuntary treatment act to be located in the geographic areas of the King regional support network, the Spokane regional support network outside of Spokane county, and the Thurston Mason regional support network; (ii) one new full program of an assertive community treatment team in the King regional support network and two new half programs of assertive community treatment teams in the Spokane regional support network and the Pierce regional support network; and (iii) three new recovery support services programs in the Grays Harbor regional support network, the Greater Columbia regional support network, and the North Sound regional support network. In contracting for community evaluation and treatment services, the department may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the department is unable to come to a contract agreement with a designated regional support network for any of the services identified above, it may consider contracting for that service in another regional support network that has the need for such service.

(a) For fiscal year 2014 within the funds provided, the department shall continue to provide an add-on per medicaid resident day per facility not to exceed \$1.57. (b) The department shall do a comparative analysis of the facility- based payment rates calculated on July 1, 2013, using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the low wage worker add-on, the direct care add-on found in subsection (1)(g) of this section, the comparative add-on, acuity add-on, and safety net reimbursement, to the facility- based payment rates in effect June 30, 2010. If the facility-based payment rate calculated on July 1, 2013, is smaller than the facility- based payment rate on June 30, 2010, then the difference shall be provided to the individual nursing facilities as an add-on payment per medicaid resident day.

(c) During the comparative analysis performed in subsection (b) of this section, if it is found that the direct care rate for any facility calculated using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the low wage worker add-on, the direct care add-on found in subsection (1)(g) of this section, the comparative add-on, acuity add-on, and safety net reimbursement, is greater than the direct care rate in effect on June 30, 2010, then the facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.

(d) The department shall provide a medicaid rate add-on to reimburse the medicaid share of the skilled nursing facility safety net assessment as a medicaid allowable cost. The nursing facility safety net rate add-on may not be included in the calculation of the annual statewide weighted average nursing facility payment rate.

(f) If the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment is for any reason disapproved, (b), (c), ~~((and))~~ (d), and (g) of this subsection do not apply.

(g) For fiscal year 2015, the department shall provide a direct care rate add-on applied evenly across all nursing facilities of no more than six percent of the direct care payment rate calculated according to chapter 74.46 RCW. This subsection (g) is subject to the reconciliation and settlement process provided in RCW 74.46.022(6).

The license fees may not exceed the department's annual licensing and oversight activity costs and shall include the department's cost of paying providers for the amount of the license fee attributed to medicaid clients.

(a) The current annual renewal license fee for adult family homes shall be increased to \$225 per bed beginning in fiscal year 2014 and \$225 per bed beginning in fiscal year 2015. The appropriations in this section are subject to the following conditions and limitations:

(1) (~~(\$1,143,994,000)~~) \$1,900,484,000 of the general fund--federal appropriation is provided solely to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII), subject to the conditions and limitations in this subsection. If the federal medical assistance percentage for the medicaid expansion falls below the percentages in section 1905(y) of the social security act as of July 1, 2013, the authority shall ensure that the state does not incur any additional state costs above what would have been incurred had the federal medical assistance percentages remained at the percentages in section 1905(y) as of July 1, 2013. The director is authorized to make any necessary program adjustments to comply with this requirement, including adding or adjusting premiums, modifying benefits, or reducing optional programs. To the extent a waiver is needed to accomplish this, the director shall promptly apply for such waiver. If a necessary waiver is not approved, the medicaid expansion program shall be terminated upon appropriate notification to the legislature and enrollees.

(2) The requirements of this subsection apply to the basic health plan. This subsection is null and void and has no further effect upon implementation of the medicaid expansion under subsection (1) of this section.

(a) Within amounts appropriated in this section and sections 205 and 206 of this act, the health care authority shall continue to provide an enhanced basic health plan subsidy for foster parents licensed under chapter 74.15 RCW and workers in state-funded home care programs. Under this enhanced subsidy option, foster parents eligible to participate in the basic health plan as subsidized enrollees and home care workers with family incomes below 200 percent of the federal poverty level shall be allowed to enroll in the basic health plan at the minimum premium amount charged to enrollees with incomes below sixty-five percent of the federal poverty level.

(b) The health care authority shall require organizations and individuals that are paid to deliver basic health plan services and that choose to sponsor enrollment in the subsidized basic health plan to pay 133 percent of the premium amount which would otherwise be due from the sponsored enrollees.

(c) The administrator shall take at least the following actions to assure that persons participating in the basic health plan are eligible for the level of assistance they receive: (a) Require submission of (i) income tax returns, and recent pay history, from all applicants, or (ii) other verifiable evidence of earned and unearned income from those persons not required to file income tax returns; (b) check employment security payroll records at least once every twelve months on all enrollees; (c) require enrollees whose income as indicated by payroll records exceeds that upon which their subsidy is based to document their current income as a condition of continued eligibility; (d) require enrollees for whom employment security payroll records cannot be obtained to document their current income at least once every six months; (e) not reduce gross family income for self-employed persons by noncash-flow expenses such as, but not limited to, depreciation, amortization, and home office deductions, as defined by the United States internal revenue service; and (f) pursue repayment and civil penalties from persons who have received excessive subsidies, as provided in RCW 70.47.060(9).

(d) Enrollment in the subsidized basic health plan shall be limited to only include persons who qualify as subsidized enrollees as defined in RCW 70.47.020 and who (a) qualify for services under 1115 medicaid demonstration project number 11-W-00254/10; or (b) are foster parents licensed under chapter 74.15 RCW.

(3) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(5) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(6) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(7) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(8) \$4,261,000 of the general fund--state appropriation for fiscal year 2014, \$4,261,000 of the general fund--state appropriation for fiscal year 2015, and \$8,522,000 of the general fund--federal appropriation are provided solely for low-income disproportionate share hospital payments.

(9) \$400,000 of the general fund--state appropriation for fiscal year 2014, (~~(\$400,000)~~) \$200,000 of the general fund--state appropriation for fiscal year 2015, and (~~(\$800,000)~~) \$600,000 of the general fund--federal appropriation are provided solely for disproportionate share hospital payments to rural hospitals certified by the centers for medicare and medicaid services as sole community hospitals as of January 1, 2013, with less than one hundred fifty acute care licensed beds in fiscal year 2011 that do not participate in the certified public expenditures program. The authority shall discontinue these payments on January 1, 2015.

(10) \$100,000 of the general fund--state appropriation for fiscal year 2014 and (~~(\$100,000)~~) \$50,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for grants to rural hospitals in Clallam county that were certified by the centers for medicare and medicaid services as sole community hospitals as of January 1, 2013, with less than one hundred fifty acute care licensed beds in fiscal year 2011. The authority shall discontinue these payments on January 1, 2015.

(11) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(12) \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(13) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2013-2015 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2013, and by November 1, 2014, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2014 and fiscal year 2015, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2013-2015 biennial operating appropriations act and in effect on July 1, 2013, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2013-2015 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. (~~(\$3,860,000)~~ \$11,928,000 of the general fund--state appropriation for fiscal year 2014 and (~~(\$1,137,000)~~ \$14,821,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for state grants for the participating hospitals.

(14) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(15) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(16) \$170,000 of the general fund--state appropriation for fiscal year 2014, \$121,000 of the general fund--state appropriation for fiscal year 2015, and \$292,000 of the general fund--federal appropriation are provided solely to implement Engrossed Substitute House Bill No. 1519 (service coordination organizations) and Second Substitute Senate Bill No. 5732 (behavioral health services). If neither of the bills is enacted by June 30, 2013, the amounts provided in this subsection shall lapse.

(17) \$57,000 of the general fund--state appropriation for fiscal year 2014, \$40,000 of the general fund--state appropriation for fiscal year 2015, and \$55,000 of the general fund--federal appropriation are provided solely to develop a report on state efforts to prevent and control diabetes. The authority, the department of social and health services, and the department of health shall submit a coordinated report to the governor and the appropriate committees of the legislature by December 31, 2014, on the following:

(a) The financial impacts and reach that diabetes of all types and undiagnosed gestational diabetes are having on the programs administered by each agency and individuals, including children with mothers with undiagnosed gestational diabetes, enrolled in those programs. (d) The development or revision of detailed policy-related action plans and budget recommendations for battling diabetes and undiagnosed gestational diabetes that includes a range of actionable items for consideration by the legislature. The plans and budget recommendations must identify proposed action steps to reduce the impact of diabetes, prediabetes, related diabetes complications, and undiagnosed gestational diabetes. The plans and budget recommendations must also identify expected outcomes of the action steps proposed in the following biennium while also establishing benchmarks for controlling and preventing all types of diabetes; and

(e) An estimate of savings, efficiencies, costs, and budgetary savings and resources required to implement the plans and budget recommendations identified in (d) of this subsection (17).

(18) Within the amounts appropriated in this section, the authority shall identify strategies to improve patient adherence to treatment plans for diabetes and implement these strategies as a pilot through one health home program to be identified by the authority. The authority shall report to the governor and the legislature in December 2014 on the progress of strategy implementation. The authority shall report to the governor and legislature in December 2015 on patient outcomes and cost savings derived from new adherence strategies in the health home model and make recommendations for improving the strategies.

(19) Effective January 1, 2014, managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(20) \$25,000 of the general fund--state appropriation for fiscal year 2014 and \$25,000 of the general fund--federal appropriation are provided solely for the development of recommendations for funding integrated school nursing and outreach services. The authority shall collaborate with the office of the superintendent of public instruction to develop recommendations for increasing federal financial participation for providing nursing services in schools with the goals of integrating nursing and outreach services and supporting one nurse for every four hundred fifty students in elementary schools and one nurse for every seven hundred fifty students in secondary schools. In developing these recommendations, the authority shall inquire with the federal centers for medicare and medicaid services about state plan amendment or waiver options for receiving additional federal matching funds for school nursing services provided to children enrolled in apple health for kids. The recommendations shall include proposals for funding training and reimbursement for nurses that provide outreach services to help eligible students enroll in apple health for kids and other social services programs. The authority and the office of the superintendent of public instruction shall provide these recommendations to the governor and the legislature by December 1, 2013.

(21) \$430,000 of the general fund--state appropriation for fiscal year 2014 and \$500,000 of the general fund--federal appropriation are provided solely to complete grant requirements for the health information exchange.

(26) Within the amounts appropriated in this section, the authority shall increase reimbursement rates for primary care services provided by independent nurse practitioners to medicare levels for the period from July 1, 2013, to December 31, 2014.

(27) The authority shall seek a medicaid state plan amendment to create a professional services supplemental payment managed care program for professional services delivered to managed care recipients by University of Washington medicine and other public professional providers. This program shall be effective as soon as administratively possible and shall operate concurrently with the existing professional services supplemental payment program. The authority shall apply federal rules for identifying the difference between average commercial rates and fee-for-service medicaid payments. This difference will be multiplied by the number of managed care encounters and incorporated into the managed care plan capitation rates by a certified actuary. The managed care plans will pay the providers the difference attributable to the increased capitation rate. Participating providers shall be solely responsible for providing the local funds required to obtain federal matching funds. Any incremental costs incurred by the authority in the development, implementation, and maintenance of this program shall be the responsibility of the participating providers. Participating providers shall retain the full amount of supplemental payments provided under this program, net of any costs related to the program that are disallowed due to audits or litigation against the state.

(30) The authority shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the authority and its contractors. Prior to open enrollment, the authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for the medicaid expansion but are enrolled in coverage that will be eliminated in the transition to the medicaid expansion.

(32) Within the amounts appropriated in this section, the authority shall reduce premiums for children with family incomes above 200 percent of the federal poverty level in the state-funded children's health program who are not eligible for coverage under the federal children's health insurance program. Premiums in the state and federal children's health insurance program shall be equal.

(33) The appropriations in this section reflect savings and efficiencies by transferring children receiving medical care provided through fee-for-service to medical care provided through managed care.

(34) \$150,000 of the general fund--state appropriation for fiscal year 2014, \$436,000 of the general fund--state appropriation for fiscal year 2015, and \$170,561,000 of the general fund--federal appropriation are provided solely for the provider incentive program and other initiatives related to the health information technology medicaid plan.

~~((37) \$1,531,000)~~ (35) \$1,528,000 of the general fund--state appropriation for fiscal year 2014, ~~((280,000))~~ \$2,206,000 of the general fund--state appropriation for fiscal year 2015, and ~~((10,803,000))~~ \$17,912,000 of the general fund--federal appropriation are provided solely to implement phase two of the project to create a single provider payment system that consolidates medicaid medical and social services payments and replaces the social service payment system. ~~((38))~~ (36) Within the amounts appropriated in this section, the health care authority and the department of social and health services shall implement the state option to provide health homes for enrollees with chronic conditions under section 2703 of the federal affordable care act. The total state match for enrollees who are dually-eligible for both medicare and medicaid and not enrolled in managed care shall be no more than the net savings to the state from the enhanced match rate for its medicaid-only managed care enrollees under section 2703.

~~((39))~~ (37) The health care authority shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The health care authority may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the health care authority receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. A report summarizing the review and the authority's recommendations to reduce costs and full time equivalent employees must be submitted to the governor and legislature by November 1, 2013.

~~((42) \$17,279,000)~~ (40) \$16,209,000 of the health benefit exchange account--state appropriation and ~~((2,721,000))~~ \$3,791,000 of the general fund--federal appropriation are provided solely to support the operations of the Washington health benefit exchange from January 1, 2015, to June 30, 2015. The Washington state health insurance pool administrator shall transfer \$20,838,000 of pool contributions to the treasurer for deposit into the health benefit exchange account in calendar year 2014. The receipt and use of medicaid funds provided to the health benefit exchange from the health care authority are subject to compliance with state and federal regulations and policies governing the Washington apple health programs, including timely and proper application, eligibility, and enrollment procedures.

~~((43))~~ (41) Within the amounts appropriated in this section, the authority shall continue to provide coverage after December 31, 2013, for pregnant teens that qualify under existing pregnancy medical programs, but whose eligibility for pregnancy related services would otherwise end due to the application of the new modified adjusted gross income eligibility standard.

~~((44))~~ (42) ~~((Upon implementation of the medicaid expansion under subsection (1) of this section, the breast and cervical cancer treatment program is eliminated. To maintain continuity of coverage, the authority shall offer the option to stay in a fee for service program to clients that are already enrolled in the breast and cervical cancer treatment program and will be transitioned into the new adult group upon implementation of the medicaid expansion. The authority will continue to provide coverage to clients that are already enrolled in the breast and cervical cancer treatment program at the time of program elimination until their courses of treatment are completed))~~ Sufficient amounts are appropriated in this section to restore medicaid coverage under the breast and cervical cancer treatment program.

~~((45))~~ (43) \$40,000 of the general fund--state appropriation for fiscal year 2014 and \$40,000 of the general fund--federal appropriation are provided solely for the authority to create a new position to provide adequate oversight and assistance to managed care organizations, rural health clinics, and federally qualified health centers under a new administratively streamlined payment methodology. Effective July 1, 2013, or upon obtaining any necessary federal approval, but in no case during the first quarter of a calendar year, the authority shall implement an administratively streamlined payment methodology for federally qualified health centers and rural health clinics. The authority's payments to managed care organizations shall include the full encounter payment comprised of both the standard and enhancement payments for federally qualified health centers and rural health clinics as defined in the medicaid state plan and in accordance with section 1902(bb) of the social security act (42 U.S.C. 1396a(bb)). At no time will a managed care organization be at risk for or have any claim to the supplemental payment portion of the rate which will be reconciled to ensure accurate payment and full pass through of the obligated funds. For any services eligible for encounter payments, as defined in the medicaid state plan, managed care organizations shall be required to pay at least the full published encounter rates directly to each clinic or center, and payments will be reconciled on at least an annual basis between the managed care organization and the authority, with final review and approval by the authority. At the option of any clinic, the enhancement payment can be received from the managed care organization on a per member per month basis for all assigned managed care enrollees in an amount prescribed by the authority. Nothing in this section is intended to disrupt mutually agreeable contractual arrangements between managed care organizations and clinics that impact how the standard payment for services is paid. The authority will require participating managed care organizations to reimburse federally qualified health centers and rural health clinics for clean claims in strict adherence to the timeliness of payment standards established under contract and specified for the medicaid fee-for-service program in section 1902(a)(37) of the social security act (42 U.S.C. 1396a(a)(37)), 42 C.F.R. Sec. 447.46, and specified for health carriers in WAC 284-43-321. The authority shall exercise all necessary options under its existing sanctions policy to enforce timely payment of claims. The authority shall ensure necessary staff and resources are identified to actively monitor and enforce the timeliness and accuracy of payments to federally qualified health centers and rural health clinics. By January 1, 2014, and after collaboration with federally qualified health centers, rural health clinics, managed care plans, and the centers for medicare and medicaid services, the authority will produce a report that provides options for a new payment methodology that rewards innovation and outcomes over volume of services delivered, and which maintains the integrity of the rural health clinic and federally qualified health center programs as outlined under federal law. The report will detail necessary federal authority for implementation and provide the benefits and drawbacks of each option.

~~((46))~~ (44) \$3,605,000 of the general fund--state appropriation for fiscal year 2014 is provided solely to proportionally reduce the amounts that rural health clinics owe the state under the calendar year 2009 recoupment.

~~((47))~~ (45) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the current medicaid benefit plan beginning January 1, 2014. ~~((The authority shall monitor the costs of the habilitative benefit as part of the forecasting process but shall not provide this benefit in the current medicaid benefit plan without a direct appropriation in the omnibus appropriations act.))~~ (48) (46) The appropriations in this section reflect savings and efficiencies achieved by modifying dispensing methods of contraceptive drugs. The authority must make arrangements for all medicaid programs offered through managed care plans or fee-for-service programs to require dispensing of contraceptive drugs with a one-year supply provided at one time unless a patient requests a smaller supply or the prescribing physician instructs that the patient must receive a smaller supply. Contracts with managed care plans must allow on-site dispensing of the prescribed contraceptive drugs at family planning clinics. Dispensing practices must follow clinical guidelines for appropriate prescribing and dispensing to ensure the health of the patient while maximizing access to effective contraceptive drugs.

~~((49))~~ (47)(a) \$75,000 of the general fund--state appropriation for fiscal year 2014 and \$75,000 of the general fund--federal appropriation are provided solely for preparing options with an expert consultant for possible implementation of a targeted premium assistance program and possible implementation of the federal basic health option. \$75,000 of the amounts appropriated in this subsection is provided solely for the development of options related to the targeted premium assistance program. The authority shall develop options for a waiver request to the federal centers for medicare and medicaid services to implement a targeted premium assistance program for the expansion adults, identified in section 1902(a)(10)(A)(i)(VIII) of the social security act, with incomes above one hundred percent of the federal poverty level, and for children covered in the children's health insurance program with incomes above two hundred percent of the federal poverty level, with a goal of providing seamless coverage through the health benefit exchange and improving opportunities for families to be covered in the same health plans. The options must include the possibility of applying premiums for individuals and cost-sharing that may exceed the five percent of family income cap under federal law, and the options must include recommendations to make the targeted premium assistance program cost neutral. The authority shall submit a report on the options to the legislature and the governor by January 1, 2014. The authority is encouraged to be creative, use subject matter experts, and exhaust all possible options to achieve cost neutrality. The report shall also include a detailed plan and timeline. \$75,000 of the amounts appropriated in this subsection is provided solely for the development of options related to the federal basic health option. The authority shall prepare options for implementing the federal basic health option as federal guidance becomes available. The authority shall submit a report on the options to the legislature and the governor by January 1, 2014, or ninety days following the release of federal guidance. The report must include a comparison of the premiums and cost-sharing under the federal basic health option with the premium assistance options described in this subsection, options for implementing the federal basic health option in combination with a premium assistance program, a detailed fiscal analysis for each coverage approach, including the estimated costs for system design and implementation, and information about impacted populations.

(b) Where possible, the authority shall leverage the same expert consultants to review each proposal and compare and contrast the approaches to ensure seamless coordination with the health benefit exchange.

(c) The authority shall collaborate with the joint select committee on health care oversight in the development of these options.

If the bill is not enacted by June 30, 2014, the amounts provided in this subsection shall lapse.

(51) \$306,000 of the general fund--state appropriation for fiscal year 2015 and \$306,000 of the general fund--federal appropriation are provided solely to implement Substitute House Bill No. 2310 (provider safety equipment). If the bill is not enacted by June 30, 2014, the amounts provided in this subsection shall lapse.

(52) The health care authority may contract with any managed health care system to provide medicaid services to the extent that minimum contracting requirements defined by the authority are met for a given region. The authority shall respond to any request to contract from a managed health care system with a written explanation of the preliminary decision within ninety days, with a final decision contingent on successful completion of an onsite readiness review process conducted by the authority. New managed health care systems will only be considered for inclusion during annual contract renewal periods, and requests must be submitted no later than June 1 to be considered for the next contract year. The authority must heavily weigh the benefit of medicaid-exchange alignment in reaching its decision.

(53) The appropriations to the authority in this act shall be expended for the purposes and in the amounts specified in this act. To the extent that appropriations in this section are insufficient to fund actual expenditures in excess of caseload forecasts and utilization assumptions, the authority, after May 1, 2014, may transfer general fund--state appropriations for fiscal year 2014 that are provided solely for a specified purpose. The authority shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

(54) Moneys appropriated in this section shall not be used to pay hospital owned physician practices or clinics a higher payment rate than the maximum resource based relative value scale fee rate received by nonhospital owned physician practices or clinics for the same procedure.

(55) By January 1, 2015, the authority shall increase the fee-for-service reimbursement rates for private duty nursing services for medically fragile children, increase fee-for-service rates for home health care services, and add licensed clinical medical social services as covered home health services only to the extent that the authority determines that the provider rate increases and the additional covered services will not increase payment rates under healthy options managed care contracts.

The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation that provides appropriation authority, and an equal amount of appropriated state moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. The review committee shall determine whether (i) the rules are within the intent of the legislature as expressed by the statute that the rule implements, (ii) the rule has been adopted in accordance with all applicable provisions of law, or (iii) that the agency is using a policy or interpretive statement in place of a rule. The rules review committee shall report to the appropriate policy and fiscal committees of the legislature the results of committee's review and any recommendations that the committee deems advisable.

The appropriations in this section are subject to the following conditions and limitations:

- (1) \$237,454,000 of the general fund--state appropriation for fiscal year 2014, \$237,455,000 of the general fund--state appropriation for fiscal year 2015, \$6,000,000 of the education legacy trust account--state appropriation, and (\$147,000,000) \$141,000,000 of the Washington opportunity pathways account--state appropriation are provided solely for student financial aid payments under the state need grant and state work study programs including up to four percent administrative allowance for the state work study program. Of the amounts provided in this subsection, \$100,000 of the general fund-- state appropriation for fiscal year 2015 is provided solely for the council to develop an alternative financial aid application system to implement Senate Bill No. 6523 (higher education opportunities).
- (2) Changes made to the state need grant program in the 2011-2013 fiscal biennium are continued in the 2013-2015 fiscal biennium including aligning increases in awards given to private institutions with the annual tuition increases for public research institutions or the private institution's average annual tuition increase experience of 3.5 percent per year, whichever is less, and reducing the awards for students who first enrolled as a new student in for-profit institutions as of the 2011-2012 academic year or thereafter by fifty percent, except that one-half of the fifty percent reduction shall be restored on July 1, 2013, for students attending regionally accredited for- profit institutions.
- (3) Changes made to the state work study program in the 2009-2011 and 2011-2013 fiscal biennia are continued in the 2013-2015 fiscal biennium including maintaining the increased required employer share of wages; adjusted employer match rates; discontinuation of nonresident student eligibility for the program; and revising distribution methods to institutions by taking into consideration other factors such as off- campus job development, historical utilization trends, and student need.
- (4) Within the funds appropriated in this section, eligibility for the state need grant shall include students with family incomes at or below 70 percent of the state median family income (MFI), adjusted for family size, and shall include students enrolled in three to five credit-bearing quarter credits, or the equivalent semester credits. Awards for all students shall be adjusted by the estimated amount by which Pell grant increases exceed projected increases in the noninstructional costs of attendance. Awards for students with incomes between 51 and 70 percent of the state median shall be prorated at the following percentages of the award amount granted to those with incomes below 51 percent of the MFI: 70 percent for students with family incomes between 51 and 55 percent MFI; 65 percent for students with family incomes between 56 and 60 percent MFI; 60 percent for students with family incomes between 61 and 65 percent MFI; and 50 percent for students with family incomes between 66 and 70 percent MFI.

(5)(a) Students who are eligible for the college bound scholarship shall be given priority for the state need grant program if the students have applied by the institution's priority financial aid deadline and have completed their financial aid file in a timely manner. These eligible college bound students whose family incomes are in the 0-65 median family income ranges shall be awarded the maximum state need grant for which they are eligible under state policies and may not be denied maximum state need grant funding due to institutional policies or delayed awarding of college bound scholarship students.

(b) In calculating the college bound award, public institutions of higher education shall be subject to the conditions and limitations in RCW 28B.15.102 and shall not utilize college bound funds to offset tuition costs from rate increases in excess of levels authorized in section 603, chapter 50, Laws of 2011 and those assumed in section 602 or 603 of this act.

(6) (~~(\$36,036,000)~~) \$48,297,000 of the education legacy trust account--state appropriation is provided solely for the college bound scholarship program and may support scholarships for summer session. This amount assumes that college bound scholarship recipients will receive priority for state need grant awards in fiscal year 2014 and fiscal year 2015. If this policy of prioritization is not fully achieved, it is the intent of this legislation to provide supplemental appropriations in the 2014 supplemental operating budget.

(7) \$2,236,000 of the general fund--state appropriation for fiscal year 2014 and \$2,236,000 of the general fund--state appropriation for fiscal year 2015 are provided solely for the passport to college program. The maximum scholarship award shall be \$5,000. (b) For purposes of verifying an offender's identity and eligibility for the program, a valid identification card issued by the department of corrections serves as sufficient proof of identity and residency for an offender to apply for and obtain a Washington state identicard.

(c) For the purposes of the pilot program, and notwithstanding the provisions of chapter 46.20.117 RCW, the department of licensing must (i) waive the requirement that the offender not hold a valid Washington driver's license in order to receive an identicard; (ii) set an expiration date for an identicard issued under the pilot program for the first anniversary of the offender's birthdate after issuance; and (iii) not charge any fee to an applicant for an identicard issued as part of the pilot program.
