"Sec. 4006. RCW 71.24.037 and 2017 c 330 s 2 are each amended to read as follows:

(1) The secretary shall by rule establish state minimum standards for licensed or certified behavioral health service providers and services, whether those service providers and services are licensed or certified to provide solely mental health services, substance use disorder treatment services, or services to persons with co-occurring disorders.

(2) Minimum standards for licensed or certified behavioral health service providers shall, at a minimum, establish: Qualifications for staff providing services directly to persons with mental disorders, substance use disorders, or both, the intended result of each service, and the rights and responsibilities of persons receiving behavioral health services pursuant to this chapter. The secretary shall provide for deeming of licensed or certified behavioral health service providers as meeting state minimum standards as a result of accreditation by a recognized behavioral health accrediting body recognized and having a current agreement with the department.

(3) Minimum standards for community support services and resource management services shall include at least qualifications for resource management services, client tracking systems, and the transfer of patient information between behavioral health service providers.

(4) The department may suspend, revoke, limit, restrict, or modify an approval, or refuse to grant approval, for failure to

meet the provisions of this chapter, or the standards adopted under this chapter. RCW ((43.20A.205)) 43.70.115 governs notice of a license or certification denial, revocation, suspension, or modification and provides the right to an adjudicative proceeding.

(5) No licensed or certified behavioral health service provider may advertise or represent itself as a licensed or certified behavioral health service provider if approval has not been granted, has been denied, suspended, revoked, or canceled.

(6) Licensure or certification as a behavioral health service provider is effective for one calendar year from the date of issuance of the license or certification. The license or certification must specify the types of services provided by the behavioral health service provider that meet the standards adopted under this chapter. Renewal of a license or certification must be made in accordance with this section for initial approval and in accordance with the standards set forth in rules adopted by the secretary.

(7) Licensure or certification as a licensed or certified behavioral health service provider must specify the types of services provided that meet the standards adopted under this chapter. Renewal of a license or certification must be made in accordance with this section for initial approval and in accordance with the standards set forth in rules adopted by the secretary.

(8) Licensed or certified behavioral health service providers may not provide types of services for which the licensed or certified behavioral health service provider has not been certified. Licensed or certified behavioral health service providers may provide services for which approval has been sought and is pending, if approval for the services has not been previously revoked or denied.

(9) The department periodically shall inspect licensed or certified behavioral health service providers at reasonable times and in a reasonable manner.

(10) Upon petition of the department and after a hearing held upon reasonable notice to the facility, the superior court may issue a warrant to an officer or employee of the department authorizing him or her to enter and inspect at reasonable times, and examine the books and accounts of, any licensed or certified behavioral

health service provider refusing to consent to inspection or examination by the department or which the department has reasonable cause to believe is operating in violation of this chapter.

(11) The department shall maintain and periodically publish a current list of licensed or certified behavioral health service providers.

(12) Each licensed or certified behavioral health service provider shall file with the department or the authority upon request, data, statistics, schedules, and information the department or the authority reasonably requires. A licensed or certified behavioral health service provider that without good cause fails to furnish any data, statistics, schedules, or information as requested, or files fraudulent returns thereof, may have its license or certification revoked or suspended.

(13) The ((department)) authority shall use the data provided in subsection (12) of this section to evaluate each program that admits children to inpatient substance use disorder treatment upon application of their parents. The evaluation must be done at least once every twelve months. In addition, the ((department)) authority shall randomly select and review the information on individual children who are admitted on application of the child's parent for the purpose of determining whether the child was appropriately placed into substance use disorder treatment based on an objective evaluation of the child's condition and the outcome of the child's treatment.

(14) Any settlement agreement entered into between the department and licensed or certified behavioral health service providers to resolve administrative complaints, license or certification violations, license or certification suspensions, or license or certification revocations may not reduce the number of violations reported by the department unless the department concludes, based on evidence gathered by inspectors, that the licensed or certified behavioral health service provider did not commit one or more of the violations.

(15) In cases in which a behavioral health service provider that is in violation of licensing or certification standards attempts to transfer or sell the behavioral health service provider to a family member, the transfer or sale may

only be made for the purpose of remedying license or certification violations and achieving full compliance with the terms of the license or certification. Transfers or sales to family members are prohibited in cases in which the purpose of the transfer or sale is to avoid liability or reset the number of license or certification violations found before the transfer or sale. If the department finds that the owner intends to transfer or sell, or has completed the transfer or sale of, ownership of the behavioral health service provider to a family member solely for the purpose of resetting the number of violations found before the transfer or sale, the department may not renew the behavioral health service provider's license or certification or issue a new license or certification to the behavioral health service provider."

"**Sec. 4017.** RCW 71.24.310 and 2017 c 222 s 1 are each amended to read as follows:

The legislature finds that administration of chapter 71.05 RCW and this chapter can be most efficiently and effectively implemented as part of the behavioral health organization defined in RCW 71.24.025. For this reason, the legislature intends that the ~~((department))~~ authority and the behavioral health organizations shall work together to implement chapter 71.05 RCW as follows:

(1) ~~((By June 1, 2006,))~~ Behavioral health organizations shall recommend to the ~~((department))~~ authority the number of state hospital beds that should be allocated for use by each behavioral health organization. The statewide total allocation shall not exceed the number of state hospital beds offering long-term inpatient care, as defined in this chapter, for which funding is provided in the biennial appropriations act.

(2) If there is consensus among the behavioral health organizations regarding the number of state hospital beds that should be allocated for use by each behavioral health organization, the ~~((department))~~ authority shall contract with each behavioral health organization accordingly.

(3) If there is not consensus among the behavioral health organizations regarding the number of beds that should be

allocated for use by each behavioral health organization, the ~~((department))~~ authority shall establish by emergency rule the number of state hospital beds that are available for use by each behavioral health organization. ~~((The emergency rule shall be effective September 1, 2006.))~~ The primary factor used in the allocation shall be the estimated number of adults with acute and chronic mental illness in each behavioral health organization area, based upon population-adjusted incidence and utilization.

(4) The allocation formula shall be updated at least every three years to reflect demographic changes, and new evidence regarding the incidence of acute and chronic mental illness and the need for long-term inpatient care. In the updates, the statewide total allocation shall include (a) all state hospital beds offering long-term inpatient care for which funding is provided in the biennial appropriations act; plus (b) the estimated equivalent number of beds or comparable diversion services contracted in accordance with subsection (5) of this section.

(5) The ~~((department))~~ authority is encouraged to enter performance-based contracts with behavioral health organizations to provide some or all of the behavioral health organization's allocated long-term inpatient treatment capacity in the community, rather than in the state hospital. The performance contracts shall specify the number of patient days of care available for use by the behavioral health organization in the state hospital.

(6) If a behavioral health organization uses more state hospital patient days of care than it has been allocated under subsection (3) or (4) of this section, or than it has contracted to use under subsection (5) of this section, whichever is less, it shall reimburse the ~~((department))~~ authority for that care. Reimbursements must be calculated using quarterly average census data to determine an average number of days used in excess of the bed allocation for the quarter. The reimbursement rate per day shall be the hospital's total annual budget for long-term inpatient care, divided by the total patient days of care assumed in development of that budget.

(7) One-half of any reimbursements received pursuant to subsection (6) of this section shall be used to support the

cost of operating the state hospital (~~and, during the 2007-2009 fiscal biennium, implementing new services that will enable a behavioral health organization to reduce its utilization of the state hospital~~). The (~~department~~) authority shall distribute the remaining half of such reimbursements among behavioral health organizations that have used less than their allocated or contracted patient days of care at that hospital, proportional to the number of patient days of care not used."

"**NEW SECTION. Sec. 4065.** A new section is added to chapter 71.24 RCW to read as follows:

(1) The authority shall, upon the request of a county authority or authorities within a regional service area, collaborate with counties to create an interlocal leadership structure that includes participation from counties and the managed health care systems serving that regional service area. The interlocal leadership structure must include representation from physical and behavioral health care providers, tribes, and other entities serving the regional service area as necessary.

(2) The interlocal leadership structure regional organization must be chaired by the counties and jointly administered by the authority, managed health care systems, and counties. It must design and implement the fully integrated managed care model for that regional service area to assure clients are at the center of care delivery and support integrated delivery of physical and behavioral health care at the provider level.

(3) The interlocal leadership structure may address, but is not limited to addressing, the following topics:

(a) Alignment of contracting, administrative functions, and other processes to minimize administrative burden at the provider level to achieve outcomes;

(b) Monitoring implementation of fully integrated managed care in the regional service area, including design of an early warning system to monitor ongoing success to achieve better outcomes and to make adjustments to the system as necessary;

(c) Developing regional coordination processes for capital infrastructure

requests, local capacity building, and other community investments;

(d) Identifying, using, and building on measures and data consistent with, but not limited to, RCW 70.320.030 and 41.05.690, for tracking and maintaining regional accountability for delivery system performance; and

(e) Discussing whether the managed health care systems awarded the contract by the authority for a regional service area should subcontract with a county-based administrative service organization or other local organization, which may include and determine, in partnership with that organization, which value-add services will best support a bidirectional system of care.

(4) To ensure an optimal transition, regional service areas that enter as mid-adopters must be allowed a transition period of up to one year during which the interlocal leadership structure develops and implements a local plan, including measurable milestones, to transition to fully integrated managed care. The transition plan may include provisions for the counties' organization to maintain existing contracts during some or all of the transition period if the managed care design begins during 2017 to 2018, with the mid-adopter transition year occurring in 2019.

(5) Nothing in this section may be used to compel contracts between a provider, integrated managed health care system, or administrative service organization.

(6) The interlocal leadership group expires December 1, 2021, unless the interlocal leadership group decides locally to extend it."

if deemed appropriate by the assessment. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer or other separate alcohol monitoring device, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Forty-five days of imprisonment and ninety days of electronic home monitoring may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. Whenever the mandatory minimum sentence is suspended, the court shall state in writing the reason for granting the suspension and the facts upon which the suspension is based; and

(ii) By a fine of not less than seven hundred fifty dollars nor more than five thousand dollars. Seven hundred fifty dollars of the fine may not be suspended unless the court finds the offender to be indigent.

In lieu of the mandatory minimum term of one hundred twenty days of electronic home monitoring, the court may order at least an additional eight days in jail. The court shall order an expanded alcohol assessment and treatment, if deemed appropriate by the assessment. The offender shall pay for the cost of the electronic monitoring. The county or municipality where the penalty is being imposed shall determine the cost. The

court may also require the offender's electronic home monitoring device include an alcohol detection breathalyzer or other separate alcohol monitoring device, and may restrict the amount of alcohol the offender may consume during the time the offender is on electronic home monitoring. Ninety days of imprisonment and one hundred twenty days of electronic home monitoring may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. One hundred twenty days of imprisonment and one hundred fifty days of electronic

home monitoring may not be suspended unless the court finds that the imposition of this mandatory minimum sentence would impose a substantial risk to the offender's physical or mental well-being. (b) **Monitoring devices.** If the court orders that a person refrain from consuming any alcohol, the court may order the person to submit to alcohol monitoring through an alcohol detection breathalyzer device, transdermal sensor device, or other technology designed to detect alcohol in a person's system. The person shall pay for the cost of the monitoring, unless the court specifies that the cost of monitoring will be paid with funds that are available from an alternative source

identified by the court. The county or municipality where the penalty is being imposed shall determine the cost.

(c) **24/7 sobriety program monitoring.** In any county or city where a 24/7 sobriety program is available and verified by the Washington association of sheriffs and police chiefs, the court shall:

(i) Order the person to install and use a functioning ignition interlock or other device in lieu of such period of 24/7 sobriety program monitoring;

dollars of the fine may not be suspended unless the court finds the offender to be indigent.

(7) **Other items courts must consider while setting penalties.** In exercising its discretion in setting penalties within the limits allowed by this section, the court shall particularly consider the following:

(a) Whether the person's driving at the time of the offense was responsible for injury or damage to another or another's property;

(b) Whether at the time of the offense the person was driving or in physical control of a vehicle with one or more passengers;

(c) Whether the driver was driving in the opposite direction of the normal flow of traffic on a multiple lane highway, as defined by RCW 46.04.350, with a posted speed limit of forty-five miles per hour or greater; and

(d) Whether a child passenger under the age of sixteen was an occupant in the driver's vehicle.

(8) **Treatment and information school.** An offender punishable under this section is subject to the alcohol assessment and treatment provisions of RCW 46.61.5056.

(9) **Driver's license privileges of the defendant.** The license, permit, or nonresident privilege of a person convicted of driving or being in physical control of a motor vehicle while under the influence of intoxicating liquor or drugs must:

(a) **Penalty for alcohol concentration less than 0.15.** If the person's alcohol concentration was less than 0.15, or if for reasons other than the person's refusal to take a test offered under RCW 46.20.308 there is no test result indicating the person's alcohol concentration:

(i) Where there has been no prior offense within seven years, be suspended or denied by the department for ninety days or until the person is evaluated by an alcoholism agency or probation department pursuant to RCW 46.20.311 and the person completes or is enrolled in a ninety-day period of 24/7 sobriety program monitoring. In no circumstances shall the license suspension be for fewer than two days;

(ii) Where there has been one prior offense within seven years, be revoked or

denied by the department for two years or until the person is evaluated by an alcoholism agency or probation department pursuant to RCW 46.20.311 and the person completes or is enrolled in a six-month period of 24/7 sobriety program monitoring. In no circumstances shall the license suspension be for less than one year; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for three years;

(b) Penalty for alcohol concentration at least 0.15. If the person's alcohol concentration was at least 0.15:

(i) Where there has been no prior offense within seven years, be revoked or denied by the department for one year or until the person is evaluated by an alcoholism agency or probation department pursuant to RCW 46.20.311 and the person completes or is enrolled in a one hundred twenty day period of 24/7 sobriety program monitoring. In no circumstances shall the license revocation be for fewer than four days;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for nine hundred days; or

(iii) Where there have been two or more prior offenses within seven years, be revoked or denied by the department for four years; or

(c) Penalty for refusing to take test. If by reason of the person's refusal to take a test offered under RCW 46.20.308, there is no test result indicating the person's alcohol concentration:

(i) Where there have been no prior offenses within seven years, be revoked or denied by the department for two years;

(ii) Where there has been one prior offense within seven years, be revoked or denied by the department for three years; or

(iii) Where there have been two or more previous offenses within seven years, be revoked or denied by the department for four years.

The department shall grant credit on a day-for-day basis for any portion of a suspension, revocation, or denial already served under this subsection for a suspension, revocation, or denial imposed

under RCW 46.20.3101 arising out of the same incident.

Upon receipt of a notice from the court under RCW 36.28A.390 that a participant has been removed from a 24/7 sobriety program, the department must resume any suspension, revocation, or denial that had been terminated early under this subsection due to participation in the program, granting credit on a day-for-day basis for any portion of a suspension, revocation, or denial already served under RCW 46.20.3101 or this section arising out of the same incident.

Upon its own motion or upon motion by a person, a court may find, on the record, that notice to the department under RCW 46.20.270 has been delayed for three years or more as a result of a clerical or court error. If so, the court may order that the person's license, permit, or nonresident privilege shall not be revoked, suspended, or denied for that offense. The court shall send notice of the finding and order to the department and to the person. Upon receipt of the notice from the court, the department shall not revoke, suspend, or deny the license, permit, or nonresident privilege of the person for that offense.

For purposes of this subsection (9), the department shall refer to the driver's record maintained under RCW 46.52.120 when determining the existence of prior offenses.

(10) Probation of driving privilege. After expiration of any period of suspension, revocation, or denial of the offender's license, permit, or privilege to drive required by this section, the department shall place the offender's driving privilege in probationary status pursuant to RCW 46.20.355.

(11) Conditions of probation. (a) In addition to any nonsuspendable and nondeferrable jail sentence required by this section, whenever the court imposes up to three hundred sixty-four days in jail, the court shall also suspend but shall not defer a period of confinement for a period not exceeding five years. The court shall impose conditions of probation that include: (i) Not driving a motor vehicle within this state without a valid license to drive; (ii) not driving a motor vehicle within this state without proof of liability insurance or other financial responsibility for the future pursuant to RCW 46.30.020; (iii) not driving or being in physical control of a motor vehicle within this state while having an alcohol

concentration of 0.08 or more or a THC concentration of 5.00 nanograms per milliliter of whole blood or higher, within two hours after driving; (iv) not refusing to submit to a test of his or her breath or blood to determine alcohol or drug concentration upon request of a law enforcement officer who has reasonable grounds to believe the person was driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drug; and (v) not driving a motor vehicle in this state without a functioning ignition interlock device as required by the department under RCW 46.20.720. The court may impose conditions of probation that include nonrepetition, installation of an ignition interlock device on the probationer's motor vehicle, alcohol or drug treatment, supervised probation, or other conditions that may be appropriate. The sentence may be imposed in whole or in part upon violation of a condition of probation during the suspension period.

(b) For each violation of mandatory conditions of probation under (a)(i), (ii), (iii), (iv), or (v) of this subsection, the court shall order the convicted person to be confined for thirty days, which shall not be suspended or deferred.

(c) For each incident involving a violation of a mandatory condition of probation imposed under this subsection, the license, permit, or privilege to drive of the person shall be suspended by the court for thirty days or, if such license, permit, or privilege to drive already is suspended, revoked, or denied at the time the finding of probation violation is made, the suspension, revocation, or denial then in effect shall be extended by thirty days. The court shall notify the department of any suspension, revocation, or denial or any extension of a suspension, revocation, or denial imposed under this subsection.

(12) Waiver of electronic home monitoring. A court may waive the electronic home monitoring requirements of this chapter when:

(a) The offender does not have a dwelling, telephone service, or any other necessity to operate an electronic home monitoring system. However, if a court determines that an alcohol monitoring device utilizing wireless reporting technology is reasonably available, the court may require the person to obtain

such a device during the period of required electronic home monitoring;

(b) The offender does not reside in the state of Washington; or

(c) The court determines that there is reason to believe that the offender would violate the conditions of the electronic home monitoring penalty.

Whenever the mandatory minimum term of electronic home monitoring is waived, the court shall state in writing the reason for granting the waiver and the facts upon which the waiver is based, and shall impose an alternative sentence with similar punitive consequences. The alternative sentence may include, but is not limited to, use of an ignition interlock device, the 24/7 sobriety program monitoring, additional jail time, work crew, or work camp.

Whenever the combination of jail time and electronic home monitoring or alternative sentence would exceed three hundred sixty-four days, the offender shall serve the jail portion of the sentence first, and the electronic home monitoring or alternative portion of the sentence shall be reduced so that the combination does not exceed three hundred sixty-four days.

(13) Extraordinary medical placement. An offender serving a sentence under this section, whether or not a mandatory minimum term has expired, may be granted an extraordinary medical placement by the jail administrator subject to the standards and limitations set forth in RCW 9.94A.728(1)(c).

Concerning the addition of services for long-term placement of mental health patients in community settings that voluntarily contract to provide the services.

There being no objection, the rules were suspended, and ENGROSSED HOUSE BILL NO. 2107 was returned to second reading for the purpose of amendment.

SECOND READING

Representative Schmick moved the adoption of the striking amendment (604):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 71.24 RCW to read as follows:

The legislature finds that concentrating all long-term placements for mental health patients at eastern and western state hospitals is not a sustainable model for the future. There is insufficient capacity at eastern and western state hospitals to meet current and growing demand for services and patients, and families are better supported when care is provided in communities closer to their homes. Therefore, the legislature intends to facilitate the addition of services to the existing system by making long-term placement for mental health patients available in community hospitals and evaluation and treatment facilities that voluntarily contract and are certified by the department of social and health services.

Sec. 2. RCW 71.24.310 and 2017 c 222 s 1 are each amended to read as follows:

The legislature finds that administration of chapter 71.05 RCW and this chapter can be most efficiently and effectively implemented as part of the behavioral health organization defined in RCW 71.24.025. For this reason, the legislature intends that the department and the behavioral health organizations shall work together to implement chapter 71.05 RCW as follows:

(1) By June 1, 2006, behavioral health organizations shall recommend to the department the number of state hospital beds that should be allocated for use by each behavioral health organization. The statewide total allocation shall not exceed the number of state hospital beds offering long-term inpatient care, as defined in this chapter, for which funding is provided in the biennial appropriations act.

(2) If there is consensus among the behavioral health organizations regarding

the number of state hospital beds that should be allocated for use by each behavioral health organization, the department shall contract with each behavioral health organization accordingly.

(3) If there is not consensus among the behavioral health organizations regarding the number of beds that should be allocated for use by each behavioral health organization, the department shall establish by emergency rule the number of state hospital beds that are available for use by each behavioral health organization. The emergency rule shall be effective September 1, 2006. The primary factor used in the allocation shall be the estimated number of adults with acute and chronic mental illness in each behavioral health organization area, based upon population-adjusted incidence and utilization.

(4) The allocation formula shall be updated at least every three years to reflect demographic changes, and new evidence regarding the incidence of acute and chronic mental illness and the need for long-term inpatient care. In the updates, the statewide total allocation shall include (a) all state hospital beds offering long-term inpatient care for which funding is provided in the biennial appropriations act; plus (b) the estimated equivalent number of beds or comparable diversion services contracted in accordance with subsection (5) of this section.

(5)(a) The department (~~is encouraged to~~) shall enter into performance-based contracts with behavioral health organizations to provide some or all of the behavioral health organization's allocated long-term inpatient treatment capacity in the community, rather than in the state hospital, to the extent that willing certified facilities are available. The performance contracts shall specify the number of patient days of care available for use by the behavioral health organization in the state hospital and the number of patient days of care available for use by the behavioral health organization in a facility certified by the department to provide treatment to adults on a ninety or one hundred eighty day inpatient involuntary commitment order, including hospitals licensed under chapters 70.41 and 71.12 RCW and evaluation and treatment facilities certified under chapter 71.05 RCW.

(b) Nothing in this section requires a hospital licensed under chapter 70.41 or 71.12 RCW to contract or become certified to treat patients on ninety or one hundred eighty day involuntary commitment orders as a condition for continuing to treat adults who are waiting for placement at either the state hospital or in certified facilities that voluntarily contract to provide treatment to patients on ninety or one hundred eighty day involuntary commitment orders.

(6) If a behavioral health organization uses more state hospital patient days of care than it has been allocated under subsection (3) or (4) of this section, or than it has contracted to use under subsection (5) of this section, whichever is less, it shall reimburse the department for that care. Reimbursements must be calculated using quarterly average census data to determine an average number of days used in excess of the bed allocation for the quarter. The reimbursement rate per day shall be the hospital's total annual budget for long-term inpatient care, divided by the total patient days of care assumed in development of that budget.

(7) One-half of any reimbursements received pursuant to subsection (6) of this section shall be used to support the cost of operating the state hospital and, during the 2007-2009 fiscal biennium, implementing new services that will enable a behavioral health organization to reduce its utilization of the state hospital. The department shall distribute the remaining half of such reimbursements among behavioral health organizations that have used less than their allocated or contracted patient days of care at that hospital, proportional to the number of patient days of care not used.

Sec. 3. RCW 71.24.380 and 2014 c 225 s 5 are each amended to read as follows:

(1) The secretary shall purchase mental health and chemical dependency treatment services primarily through managed care contracting, but may continue to purchase behavioral health services directly from tribal clinics and other tribal providers.

(2)(a) The secretary shall request a detailed plan from the entities identified in (b) of this subsection that demonstrates compliance with the contractual elements of RCW 43.20A.894 and federal regulations related to medicaid managed care contracting((7)) including, but not limited to: Having a sufficient

network of providers to provide adequate access to mental health and chemical dependency services for residents of the regional service area that meet eligibility criteria for services, ability to maintain and manage adequate reserves, and maintenance of quality assurance processes. In addition, such entities must demonstrate the ability to contract for a minimum number of patient days, to be determined by the secretary, in a facility certified by the department to provide treatment to adults on a ninety or one hundred eighty day inpatient involuntary commitment order, including at hospitals licensed under chapters 70.41 and 71.12 RCW and evaluation and treatment facilities certified under chapter 71.05 RCW, to the extent that willing certified facilities are available. Any responding entity that submits a detailed plan that demonstrates that it can meet the requirements of this section must be awarded the contract to serve as the behavioral health organization.

(b)(i) For purposes of responding to the request for a detailed plan under (a) of this subsection, the entities from which a plan will be requested are:

(A) A county in a single county regional service area that currently serves as the regional support network for that area;

(B) In the event that a county has made a decision prior to January 1, 2014, not to contract as a regional support network, any private entity that serves as the regional support network for that area;

(C) All counties within a regional service area that includes more than one county, which shall form a responding entity through the adoption of an interlocal agreement. The interlocal agreement must specify the terms by which the responding entity shall serve as the behavioral health organization within the regional service area.

(ii) In the event that a regional service area is comprised of multiple counties including one that has made a decision prior to January 1, 2014, not to contract as a regional support network the counties shall adopt an interlocal agreement and may respond to the request for a detailed plan under (a) of this subsection and the private entity may also respond to the request for a detailed plan. If both responding entities meet the requirements of this section, the responding entities shall follow the department's procurement process

established in subsection (3) of this section.

(3) If an entity that has received a request under this section to submit a detailed plan does not respond to the request, a responding entity under subsection (1) of this section is unable to substantially meet the requirements of the request for a detailed plan, or more than one responding entity substantially meets the requirements for the request for a detailed plan, the department shall use a procurement process in which other entities recognized by the secretary may bid to serve as the behavioral health organization in that regional service area.

(4) Contracts for behavioral health organizations must begin on April 1, 2016.

(5) Upon request of all of the county authorities in a regional service area, the department and the health care authority may jointly purchase behavioral health services through an integrated medical and behavioral health services contract with a behavioral health organization or a managed health care system as defined in RCW 74.09.522, pursuant to standards to be developed jointly by the secretary and the health care authority. Any contract for such a purchase must comply with all federal medicaid and state law requirements related to managed health care contracting.

(6) As an incentive to county authorities to become early adopters of fully integrated purchasing of medical and behavioral health services, the standards adopted by the secretary and the health care authority under subsection (5) of this section shall provide for an incentive payment to counties which elect to move to full integration by January 1, 2016. Subject to federal approval, the incentive payment shall be targeted at ten percent of savings realized by the state within the regional service area in which the fully integrated purchasing takes place. Savings shall be calculated in alignment with the outcome and performance measures established in RCW 43.20A.895, 70.320.020, and 71.36.025, and incentive payments for early adopter counties shall be made available for up to a six-year period, or until full integration of medical and behavioral health services is accomplished statewide, whichever comes sooner, according to rules to be developed by the secretary and health care authority.

NEW SECTION. **Sec. 4.** A new section is added to chapter 71.24 RCW to read as follows:

(1) The department and the entities identified in RCW 71.24.310 and 71.24.380 shall: (a) Work with willing community hospitals licensed under chapters 70.41 and 71.12 RCW and evaluation and treatment facilities certified under chapter 71.05 RCW to assess their capacity to become certified to provide long-term mental health placements and to meet the requirements of this chapter; and (b) enter into contracts and payment arrangements with such hospitals and evaluation and treatment facilities choosing to provide long-term mental health placements, to the extent that willing certified facilities are available. Nothing in this chapter requires any community hospital or evaluation and treatment facility to be certified to provide long-term mental health placements.

(2) The department must establish reporting requirements for certified facilities. The reporting standards must allow the department to monitor the performance of the certified facilities and compare results with the state hospitals in a consistent format. The measures must align with the data reported by the department to the select committee on quality improvement in state hospitals, including the length of stay of patients, outcomes after discharge, employee-related measures, and demographic information.

NEW SECTION. **Sec. 5.** A new section is added to chapter 71.24 RCW to read as follows:

The legislature finds that concentrating all long-term placements for mental health patients at eastern and western state hospitals is not a sustainable model for the future. There is insufficient capacity at eastern and western state hospitals to meet current and growing demand for services and patients, and families are better supported when care is provided in communities closer to their homes. Therefore, the legislature intends to facilitate the addition of services to the existing system by making long-term placement for mental health patients available in community hospitals and evaluation and treatment facilities that voluntarily contract and are certified by the department of health.

Sec. 6. RCW 71.24.310 and 2017 c 222 s 1 are each amended to read as follows:

The legislature finds that administration of chapter 71.05 RCW and this chapter can be most efficiently and effectively implemented as part of the behavioral health organization defined in RCW 71.24.025. For this reason, the legislature intends that the ~~((department))~~ authority and the behavioral health organizations shall work together to implement chapter 71.05 RCW as follows:

(1) ~~((By June 1, 2006,))~~ Behavioral health organizations shall recommend to the ~~((department))~~ authority the number of state hospital beds that should be allocated for use by each behavioral health organization. The statewide total allocation shall not exceed the number of state hospital beds offering long-term inpatient care, as defined in this chapter, for which funding is provided in the biennial appropriations act.

(2) If there is consensus among the behavioral health organizations regarding the number of state hospital beds that should be allocated for use by each behavioral health organization, the ~~((department))~~ authority shall contract with each behavioral health organization accordingly.

(3) If there is not consensus among the behavioral health organizations regarding the number of beds that should be allocated for use by each behavioral health organization, the ~~((department))~~ authority shall establish by emergency rule the number of state hospital beds that are available for use by each behavioral health organization. ~~((The emergency rule shall be effective September 1, 2006.))~~ The primary factor used in the allocation shall be the estimated number of adults with acute and chronic mental illness in each behavioral health organization area, based upon population-adjusted incidence and utilization.

(4) The allocation formula shall be updated at least every three years to reflect demographic changes, and new evidence regarding the incidence of acute and chronic mental illness and the need for long-term inpatient care. In the updates, the statewide total allocation shall include (a) all state hospital beds offering long-term inpatient care for which funding is provided in the biennial appropriations act; plus (b) the estimated

equivalent number of beds or comparable diversion services contracted in accordance with subsection (5) of this section.

(5)(a) ~~The ((department is encouraged to))~~ authority shall enter into performance-based contracts with behavioral health organizations to provide some or all of the behavioral health organization's allocated long-term inpatient treatment capacity in the community, rather than in the state hospital, to the extent that willing certified facilities are available. The performance contracts shall specify the number of patient days of care available for use by the behavioral health organization in the state hospital and the number of patient days of care available for use by the behavioral health organization in a facility certified by the department to provide treatment to adults on a ninety or one hundred eighty day inpatient involuntary commitment order, including hospitals licensed under chapters 70.41 and 71.12 RCW and evaluation and treatment facilities certified under chapter 71.05 RCW.

(b) Nothing in this section requires a hospital licensed under chapter 70.41 or 71.12 RCW to contract or become certified to treat patients on ninety or one hundred eighty day involuntary commitment orders as a condition for continuing to treat adults who are waiting for placement at either the state hospital or in certified facilities that voluntarily contract to provide treatment to patients on ninety or one hundred eighty day involuntary commitment orders.

(6) If a behavioral health organization uses more state hospital patient days of care than it has been allocated under subsection (3) or (4) of this section, or than it has contracted to use under subsection (5) of this section, whichever is less, it shall reimburse the ((department)) authority for that care. Reimbursements must be calculated using quarterly average census data to determine an average number of days used in excess of the bed allocation for the quarter. The reimbursement rate per day shall be the hospital's total annual budget for long-term inpatient care, divided by the total patient days of care assumed in development of that budget.

(7) One-half of any reimbursements received pursuant to subsection (6) of this section shall be used to support the cost of operating the state hospital

~~((and, during the 2007-2009 fiscal biennium, implementing new services that will enable a behavioral health organization to reduce its utilization of the state hospital)).~~ The ((department)) authority shall distribute the remaining half of such reimbursements among behavioral health organizations that have used less than their allocated or contracted patient days of care at that hospital, proportional to the number of patient days of care not used.

Sec. 7. RCW 71.24.380 and 2014 c 225 s 5 are each amended to read as follows:

(1) The ((secretary)) director shall purchase mental health and chemical dependency treatment services primarily through managed care contracting, but may continue to purchase behavioral health services directly from tribal clinics and other tribal providers.

(2)(a) The ((secretary)) director shall request a detailed plan from the entities identified in (b) of this subsection that demonstrates compliance with the contractual elements of RCW 43.20A.894 and federal regulations related to medicaid managed care contracting((r)) including, but not limited to: Having a sufficient network of providers to provide adequate access to mental health and chemical dependency services for residents of the regional service area that meet eligibility criteria for services, ability to maintain and manage adequate reserves, and maintenance of quality assurance processes. In addition, such entities must demonstrate the ability to contract for a minimum number of patient days, to be determined by the secretary, in a facility certified by the department to provide treatment to adults on a ninety or one hundred eighty day inpatient involuntary commitment order, including at hospitals licensed under chapters 70.41 and 71.12 RCW and evaluation and treatment facilities certified under chapter 71.05 RCW, to the extent that willing certified facilities are available. Any responding entity that submits a detailed plan that demonstrates that it can meet the requirements of this section must be awarded the contract to serve as the behavioral health organization.

(b)(i) For purposes of responding to the request for a detailed plan under (a) of this subsection, the entities from which a plan will be requested are:

(A) A county in a single county regional service area that currently serves as the regional support network for that area;

(B) In the event that a county has made a decision prior to January 1, 2014, not to contract as a regional support network, any private entity that serves as the regional support network for that area;

(C) All counties within a regional service area that includes more than one county, which shall form a responding entity through the adoption of an interlocal agreement. The interlocal agreement must specify the terms by which the responding entity shall serve as the behavioral health organization within the regional service area.

(ii) In the event that a regional service area is comprised of multiple counties including one that has made a decision prior to January 1, 2014, not to contract as a regional support network the counties shall adopt an interlocal agreement and may respond to the request for a detailed plan under (a) of this subsection and the private entity may also respond to the request for a detailed plan. If both responding entities meet the requirements of this section, the responding entities shall follow the ~~((department's))~~ authority's procurement process established in subsection (3) of this section.

(3) If an entity that has received a request under this section to submit a detailed plan does not respond to the request, a responding entity under subsection (1) of this section is unable to substantially meet the requirements of the request for a detailed plan, or more than one responding entity substantially meets the requirements for the request for a detailed plan, the ~~((department))~~ authority shall use a procurement process in which other entities recognized by the ~~((secretary))~~ director may bid to serve as the behavioral health organization in that regional service area.

(4) Contracts for behavioral health organizations must begin on April 1, 2016.

(5) Upon request of all of the county authorities in a regional service area, the ~~((department and the health care))~~ authority may ~~((jointly))~~ purchase behavioral health services through an integrated medical and behavioral health services contract with a behavioral health organization or a managed health care system as defined in RCW 74.09.522, pursuant to standards to be developed

~~((jointly))~~ by the ~~((secretary and the health care))~~ authority. Any contract for such a purchase must comply with all federal medicaid and state law requirements related to managed health care contracting.

(6) As an incentive to county authorities to become early adopters of fully integrated purchasing of medical and behavioral health services, the standards adopted by the ~~((secretary and the health care))~~ authority under subsection (5) of this section shall provide for an incentive payment to counties which elect to move to full integration by January 1, 2016. Subject to federal approval, the incentive payment shall be targeted at ten percent of savings realized by the state within the regional service area in which the fully integrated purchasing takes place. Savings shall be calculated in alignment with the outcome and performance measures established in RCW 43.20A.895, 70.320.020, and 71.36.025, and incentive payments for early adopter counties shall be made available for up to a six-year period, or until full integration of medical and behavioral health services is accomplished statewide, whichever comes sooner, according to rules to be developed by the ~~((secretary and health care))~~ authority.

NEW SECTION. Sec. 8. A new section is added to chapter 71.24 RCW to read as follows:

(1) The authority and the entities identified in RCW 71.24.310 and 71.24.380 shall: (a) Work with willing community hospitals licensed under chapters 70.41 and 71.12 RCW and evaluation and treatment facilities certified under chapter 71.05 RCW to assess their capacity to become certified to provide long-term mental health placements and to meet the requirements of this chapter; and (b) enter into contracts and payment arrangements with such hospitals and evaluation and treatment facilities choosing to provide long-term mental health placements, to the extent that willing certified facilities are available. Nothing in this chapter requires any community hospital or evaluation and treatment facility to be certified to provide long-term mental health placements.

(2) The authority must establish reporting requirements for certified facilities. The reporting standards must allow the authority to monitor the performance of the certified facilities

and compare results with the state hospitals in a consistent format. The measures must align with the data reported by the authority to the select committee on quality improvement in state hospitals, including the length of stay of patients, outcomes after discharge, employee-related measures, and demographic information.

NEW SECTION. Sec. 9. Sections 1 through 4 of this act take effect only if neither Substitute House Bill No. 1388 (including any later amendments or substitutes) nor Substitute Senate Bill No. 5259 (including any later amendments or substitutes) is signed into law by the governor by the effective date of this section.
