PART II

HUMAN SERVICES

NEW SECTION. Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable

relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for

The administration must report to the legislature by December 1, 2018, about how funding is used for referred youth and the impact of that use on overall use of funding. The committee will be co-chaired by the juvenile rehabilitation administration and the juvenile courts, who will also have the ability to change members of the committee as needed to achieve its purpose. The committee may make changes to the formula categories in (b) of this subsection if it determines the changes will increase statewide service delivery or effectiveness of evidence-based program or disposition alternative resulting in increased cost/benefit savings to the state,

TOTAL APPROPRIATION \$20,014,090,000

The appropriations in this section are subject to the following conditions and limitations:

(a) PHYSICAL HEALTH CARE

(i) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(ii) Medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(iii) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(iv) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(v) It is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(vi) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(vii) \$4,261,000 of the general fund-state appropriation for fiscal year 2018, \$4,261,000 of the general fund-state appropriation for fiscal year 2019, and \$8,522,000 of the general fund-federal appropriation are provided solely for low-income disproportionate share hospital payments.

(viii) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(ix) \$6,000,000 of the general fund-federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

(x) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2017-2019 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state,

except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2017, and by November 1, 2018, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2018 and fiscal year 2019, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of: (A) The inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2017-2019 biennial operating appropriations act and in effect on July 1, 2017; (B) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005; and (C) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2017-2019 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline

amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$10,575,000 of the general fund-state appropriation for fiscal year 2018 and \$13,185,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for state grants for the participating hospitals.

(xi) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(xii) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(xiii) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(xiv) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

(xv) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(xvi) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(xix) Within the amounts appropriated in this section, the authority shall reimburse for primary care services provided by naturopathic physicians.

(xx) Within the amounts appropriated in this section, the authority shall continue to provide coverage for pregnant teens that qualify under existing pregnancy medical programs, but whose eligibility for pregnancy related services would otherwise end due to the application of the new modified adjusted gross income eligibility standard.

(xxi) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

(xxii) The authority shall use revenue appropriated from the dedicated marijuana

fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund-state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(xxiii) The authority shall submit reports to the governor and the legislature by September 15, 2018, and by September 15, 2019, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(xxiv) Within the amounts appropriated within this section, beginning July 1, 2017, the authority must increase facility fees for birth centers to the amount listed on page 2 of their report to the legislature dated October 15, 2016, entitled "reimbursement for births performed at birth centers." This increased rate is applicable in both fee-for-service settings and is the minimum allowable rate in a managed care setting. The authority shall report to the governor and appropriate committees of the legislature by October 15, 2018, on updated information regarding access to care, improvements to the Cesarean section rate, and savings outcomes for utilizing birth centers as an alternative to hospitals.

(xxv) Within the amounts appropriated within this section, the authority shall implement the plan to show how improved access to home health nursing reduces potentially preventable readmissions, increases access to care, reduces hospital length of stay, and prevents overall hospital admissions for clients receiving private duty nursing, medically intensive care, or home health benefits as described in their report to the legislature dated December 15, 2016, entitled "home health nursing." The authority shall report to the governor and appropriate committees of the legislature by December 31, 2017,

information regarding the effect of the ten-dollar rate increases for skilled nursing care delivered via private duty nursing or home health nursing, and how the rate changes impacted the utilization and cost of emergency room visits, reduced the length of stay for initial hospital admissions, and reduced utilization and costs of preventable hospital readmissions. The report will quantify potential cost saving opportunities that may exist through improved access to private duty and home health nursing statewide.

The work group shall identify barriers that may prevent skilled nursing facilities from accepting and admitting clients from acute care hospitals in a timely and appropriate manner. and \$500,000 of the general fund–federal appropriation are provided solely for the authority to implement the oral health connections pilot project in collaboration with Washington dental service foundation. The authority must model the pilot on the access to baby and child dentistry program. The pilot program must include enhanced reimbursement rates for participating dental providers, including denturists licensed under chapter 18.30 RCW, and an increase in the allowable number of periodontal treatments to up to four per calendar year. Diabetic or pregnant adult medicaid clients who are receiving dental care within the pilot region(s), regardless of location of the service within the pilot region(s), are eligible for the increased number of periodontal treatments. (iii) \$6,590,000 of the general fund-state appropriation for fiscal year 2018, \$6,590,000 of the general fund-state appropriation for fiscal year 2019, and \$7,620,000 of the general fund-federal appropriation are provided solely for the authority and behavioral health organizations to continue to contract for implementation of high-intensity programs for assertive community treatment (PACT) teams. In determining the proportion of medicaid and nonmedicaid funding provided to behavioral health organizations with PACT teams, the authority shall consider the differences between behavioral health organizations in the percentages of services and other costs associated with the teams that are not reimbursable under medicaid. The authority may allow behavioral health organizations which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to

supplement these funds with local dollars or funds received under section 212(1)(b)(xvi) of this act. The authority and behavioral health organizations shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

mental diseases. In fiscal year 2018, the authority must distribute these amounts proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from behavioral health organization fiscal year 2018 capitation rates because they exceeded the amounts allowed under federal regulations. In fiscal year 2019, the authority must distribute these funds based on a formula in which seventy-five percent are distributed proportionate to the number of bed days for medicaid clients in institutions for mental diseases that were excluded from behavioral health organization fiscal year 2019 capitation rates because they exceeded the amounts allowed under federal regulations and twenty-five percent are distributed proportionate to the estimated medicaid caseload of the behavioral health organizations. The authority must also use these amounts to directly pay for costs in institutions of mental disease facilities for American Indian and Alaska Natives who opt to receive behavioral health services on a fee for service basis. The amounts used for these individuals must be reduced from the allocation of the behavioral health organization where the individual resides. If a behavioral health organization receives more funding through this subsection than is needed to pay for the cost of their medicaid clients in institutions for mental diseases, they must use the remainder of the amounts to provide other services not covered under the medicaid program.

(viii) \$830,000 of the general fund-state appropriation for fiscal year 2018 and \$830,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for behavioral health organizations to contract with local entities to develop a street outreach program. This program will utilize peer supports to engage adults with mental health illness who may have not yet been engaged in mental health treatment with the goal of reducing jail admissions and involuntary commitments.

To the extent possible, levels of behavioral health organization spending shall be maintained in the following priority order: Crisis and commitment services; community inpatient services; and residential care services, including personal care and emergency housing assistance. These amounts must be distributed to behavioral health organizations proportionate to the fiscal year 2017 allocation of flexible nonmedicaid funds. The authority must include the following language in medicaid contracts with behavioral health organizations unless they are provided formal notification from the center for medicaid and medicare services that the language will result in the loss of federal medicaid participation: "The contractor may voluntarily provide services that are in addition to those covered under the state plan, although the cost of these services cannot be included when determining payment rates unless including these costs are specifically

allowed under federal law or an approved waiver."

(xii) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health organizations for children's long-term inpatient facility services.

(xiii) \$1,125,000 of the general fund-state appropriation for fiscal year 2018 and \$1,125,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for the Spokane county behavioral health organization to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(B) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

At least annually, the Spokane county behavioral health organization shall assess the effectiveness of these services in reducing utilization at eastern state hospital, identify services that are not optimally effective, and modify those services to improve their effectiveness.

(xiv) \$1,204,000 of the general fund-state appropriation for fiscal year 2018 and \$1,204,000 of the general fund-state appropriation for fiscal year 2019 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(xv) Behavioral health organizations may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health organizations may use a portion of the state funds allocated in accordance with (b)(x) of this subsection to earn

additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(xvi) \$2,291,000 of the general fund-state appropriation for fiscal year 2018 and \$2,291,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. The authority must collect information from the behavioral health organizations on their plan for using these funds, the numbers of individuals served, and the types of services provided and submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1st of each year of the biennium.

(xvii) Within the amounts appropriated in this section, funding is provided for the authority to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(xviii) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The authority must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the

behavioral health organization has come into substantial compliance with an approved excess reserve corrective action plan.

(xix) \$446,000 of the general fund-state appropriation for fiscal year 2018, \$446,000 of the general fund-state appropriation for fiscal year 2019, and \$178,000 of the general fund-federal appropriation are provided solely for the University of Washington's evidence-based practice institute which supports the identification, evaluation, and implementation of evidence-based or promising practices. (xxxii) Within the amounts provided in this section, behavioral health organizations must provide outpatient chemical dependency treatment for offenders enrolled in the medicaid program who are supervised by the department of corrections pursuant to a term of community supervision. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. (1) The department of health shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department of health and the state board of health shall not implement any new or amended rules pertaining to primary and secondary school facilities until the rules and a final cost estimate have been presented to the legislature, and the legislature has formally funded implementation of the rules through the omnibus appropriations act or by statute. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation that provides appropriation authority, and an equal amount of appropriated state moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(2) During the 2017-2019 fiscal biennium, each person subject to RCW 43.70.110(3)(c) is required to pay only one surcharge of up to twenty-five dollars annually for the purposes of RCW 43.70.112, regardless of how many professional licenses the person holds.

(3) In accordance with RCW 43.20B.110, 43.135.055, and 71.24.035, the department is authorized to adopt license and certification fees in fiscal years 2018 and 2019 to support the costs of the regulatory program. The department's fee schedule shall have differential rates for providers with proof of accreditation from

organizations that the department has determined to have substantially equivalent standards to those of the department, including but not limited to the joint commission on accreditation of health care organizations, the commission on accreditation of rehabilitation facilities, and the council on accreditation. To reflect the reduced costs associated with regulation of accredited programs, the department's fees for organizations with such proof of accreditation must reflect the lower costs of licensing for these programs than for other organizations which are not accredited.

(4) In accordance with RCW 70.96A.090, 71.24.035, 43.20B.110, and 43.135.055, the department is authorized to adopt fees for the review and approval of mental health and substance use disorder treatment programs in fiscal years 2018 and 2019 as necessary to support the costs of the regulatory program. The department's fee schedule shall have differential rates for providers with proof of accreditation from organizations that the department has determined to have substantially equivalent standards to those of the department, including but not limited to the joint commission on accreditation of health care organizations, the commission on accreditation of rehabilitation facilities, and the council on accreditation. To reflect the reduced costs associated with regulation of accredited programs, the department's fees for organizations with such proof of accreditation must reflect the lower cost of licensing for these programs than for other organizations which are not accredited. To the extent that the fees charged in fiscal year 2018 are not expected to fully cover the cost of the program, the department must submit a report to the office of financial management and the appropriate fiscal committees of the legislature identifying what further increases would be required and the differential impact on providers. This report must be submitted by December 1, 2017.

Allocations for classified staff units providing school building-level and district-wide support services for the 2017-18 and 2018-19 school years are determined using the formula-generated staff units provided in RCW 28A.150.260 and pursuant to this subsection, and adjusted based on each district's annual average full-time equivalent student enrollment in each grade, except the allocation for parent involvement coordinators in an elementary school shall be 0.0825 for the 2017-18 and 2018-19 school years, which enhancement is within the program of basic education.

(5) CENTRAL OFFICE ALLOCATIONS

In addition to classified and administrative staff units allocated in subsections (3) and (4) of this section, classified and administrative staff units are provided for the 2017-18 and 2018-19 school years for the central office

administrative costs of operating a school district, at the following rates:

(a) The total central office staff units provided in this subsection (5) are calculated by first multiplying the total number of eligible certificated instructional, certificated administrative, and classified staff units providing school-based or district-wide support services, as identified in RCW 28A.150.260(6)(b) and the increased allocations provided pursuant to subsections (2) and (4) of this section, by 5.3 percent.

(b) Of the central office staff units calculated in (a) of this subsection, 74.53 percent are allocated as classified staff units, as generated in subsection (4) of this section, and 25.47 percent shall be allocated as administrative staff units, as generated in subsection (3) of this section.

(c) Staff units generated as enhancements outside the program of basic education to the minimum requirements of RCW 28A.150.260, and staff units generated by skill center and career-technical students, are excluded from the total central office staff units calculation in (a) of this subsection.

(d) For students in approved career-technical and skill center programs, central office classified units are allocated at the same staff unit per student rate as those generated for general education students of the same grade in this subsection (5), and central office administrative staff units are allocated at staff unit per student rates that exceed the general education rate established for students in the same grade in this subsection (5) by 1.71 percent in the 2017-18 school year and 1.71 percent in the 2018-19 school year for career and technical education students, and 17.61 percent in the 2017-18 school year and 17.61 percent in the 2018-19 school year for skill center students.

(b) The number of classified staff units determined in subsections (4) and (5) of this section multiplied by 1.152. At the close of the fiscal year the superintendent of public instruction shall report to the office of financial management and the appropriate fiscal committees of the legislature on the allocations provided to districts and the nature of the emergency.

Additionally, the office of the superintendent of public instruction, in consultation with the state board for community and technical colleges, the student achievement council, and the education data center, shall annually track and report to the fiscal committees of the legislature on the combined FTE experience of students participating in the running start program, including course load analyses at

Middle and secondary career and technical education programs are considered separate programs for funding and financial reporting purposes under this section.

(b) Career and technical education program full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported career and technical education program enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support.

((In the 2017-2019 fiscal biennium the legislature intends to allocate seventy-three million dollars of future loan repayments paid into the public works assistance account to support basic education.))

Sec. 962. RCW 69.50.540 and 2015 3rd sp.s. c 4 s 967 are each amended to read as follows:

It is the intent of the legislature that this policy will be continued in the 2019-2021 fiscal biennium;

(e) Twenty-three thousand seven hundred fifty dollars to the department of enterprise services provided solely for the state building code council established under RCW 19.27.070, to develop and adopt fire and building code provisions related to marijuana processing and extraction facilities. and practices aimed at the prevention or reduction of maladaptive substance use, substance use disorder, substance abuse or substance dependence, as these terms are defined in the Diagnostic and Statistical Manual of Mental Disorders, among middle school and high school-age students, whether as an explicit goal of a given program or practice or as a consistently corresponding effect of its implementation, mental health services for children and youth, and services for pregnant and parenting women; PROVIDED, That:

(A) Of the funds appropriated under (a)(i) of this subsection for new programs and new services, at least eighty-five percent must be directed to evidence-based or research-based programs and practices that produce objectively measurable results and, by September 1, 2020, are cost-beneficial; and

(B) Up to fifteen percent of the funds appropriated under (a)(i) of this subsection for new programs and new services may be directed to proven and tested practices, emerging best practices, or promising practices.

(ii) In deciding which programs and practices to fund, the secretary of the department of social and health services must consult, at least annually, with the University of Washington's social development research group and the University of Washington's alcohol and drug abuse institute.

(b)(i) Up to ten percent to the department of health for the following, subject to (b)(ii) of this subsection (2):

(A) Creation, implementation, operation, and management of a marijuana education and public health program that contains the following:

(I) A marijuana use public health hotline that provides referrals to substance abuse treatment providers, utilizes evidence-based or research-based public health approaches to minimizing the harms associated with marijuana use, and

does not solely advocate an abstinence-only approach;

(II) A grants program for local health departments or other local community agencies that supports development and implementation of coordinated intervention strategies for the prevention and reduction of marijuana use by youth; and

(III) Media-based education campaigns across television, internet, radio, print, and out-of-home advertising, separately targeting youth and adults, that provide medically and scientifically accurate information about the health and safety risks posed by marijuana use;

(B) The Washington poison control center; and

(C) During the 2015-2017 fiscal biennium, the funds appropriated under this subsection (2)(b) may be used for prevention activities that target youth and populations with a high incidence of tobacco use.

(ii) For the fiscal year beginning July 1, 2016, the legislature must appropriate a minimum of seven million five hundred thousand dollars and for each subsequent fiscal year thereafter, the legislature must appropriate a minimum of nine million seven hundred fifty thousand dollars under this subsection (2)(b);

(c)(i) Up to six-tenths of one percent to the University of Washington and four-tenths of one percent to Washington State University for research on the short and long-term effects of marijuana use, to include but not be limited to formal and informal methods for estimating and measuring intoxication and impairment, and for the dissemination of such research.

(ii) For the fiscal year beginning July 1, 2016, the legislature must appropriate a minimum of two hundred seven thousand dollars and for each subsequent fiscal year, the legislature must appropriate a minimum of one million twenty-one thousand dollars to the University of Washington. For the fiscal year beginning July 1, 2016, the legislature must appropriate a minimum of one hundred thirty-eight thousand dollars and for each subsequent fiscal year thereafter, a minimum of six hundred eighty-one thousand dollars to Washington State University under this subsection (2)(c);

(d) Fifty percent to the state basic health plan trust account to be

administered by the Washington basic health plan administrator and used as provided under chapter 70.47 RCW;

(e) Five percent to the Washington state health care authority to be expended exclusively through contracts with community health centers to provide primary health and dental care services, migrant health services, and maternity health care services as provided under RCW 41.05.220;

(f)(i) Up to three-tenths of one percent to the office of the superintendent of public instruction to fund grants to building bridges programs under chapter 28A.175 RCW.

(ii) For the fiscal year beginning July 1, 2016, and each subsequent fiscal year, the legislature must appropriate a minimum of five hundred eleven thousand dollars to the office of the superintendent of public instruction under this subsection (2)(f); and

(g) At the end of each fiscal year, the treasurer must transfer any amounts in the dedicated marijuana account that are not appropriated pursuant to subsection (1) of this section and this subsection (2) into the general fund, except as provided in (g)(i) of this subsection (2).

(i) Beginning in fiscal year 2018, if marijuana excise tax collections deposited into the general fund in the prior fiscal year exceed twenty-five million dollars, then each fiscal year the legislature must appropriate an amount equal to thirty percent of all marijuana excise taxes deposited into the general fund the prior fiscal year to the treasurer for distribution to counties, cities, and towns as follows:

(A) Thirty percent must be distributed to counties, cities, and towns where licensed marijuana retailers are physically located. Each jurisdiction must receive a share of the revenue distribution under this subsection (2)(g)(i)(A) based on the proportional share of the total revenues generated in the individual jurisdiction from the taxes collected under RCW 69.50.535, from licensed marijuana retailers physically located in each jurisdiction. For purposes of this subsection (2)(g)(i)(A), one hundred percent of the proportional amount attributed to a retailer physically located in a city or town must be distributed to the city or town.

(B) Seventy percent must be distributed to counties, cities, and towns ratably on a per capita basis. Counties must receive sixty percent of the distribution, which must be disbursed based on each county's total proportional population. Funds may only be distributed to jurisdictions that do not prohibit the siting of any state licensed marijuana producer, processor, or retailer.

(ii) Distribution amounts allocated to each county, city, and town must be distributed in four installments by the last day of each fiscal quarter.

(iii) By September 15th of each year, the state liquor and cannabis board must provide the state treasurer the annual distribution amount, if any, for each county and city as determined in (g)(i) of this subsection (2).

(iv) The total share of marijuana excise tax revenues distributed to counties and cities in (g)(i) of this subsection (2) may not exceed (~~fifteen~~) six million dollars in fiscal years 2018 and 2019 and twenty million dollars per fiscal year thereafter. However, if forecasted state revenues for the general fund in the 2017-2019 fiscal biennium exceed the amount estimated in the March 2017 revenue forecast by over eighteen million dollars after adjusting for changes directly related to legislation adopted in the 2017 legislative session, the total share of marijuana excise tax revenue distributed to counties and cities in (g)(i) of this subsection (2) may not exceed fifteen million dollars in fiscal years 2018 and 2019. It is the intent of the legislature that the policy for the maximum distributions in the subsequent fiscal biennia will be no more than \$6 million per fiscal year.

For the purposes of this section, "marijuana products" means "useable marijuana," "marijuana concentrates," and "marijuana-infused products" as those terms are defined in RCW 69.50.101.

Sec. 963. RCW 70.105D.070 and 2016 sp.s. c 36 s 943 are each amended to read as follows:

(1) The state toxics control account and the local toxics control account are hereby created in the state treasury.

(x) For the 2013-2015 fiscal biennium, moneys in the state toxics control account may be spent on projects in section 3160, chapter 19, Laws of 2013 2nd sp. sess. and for transfer to the local toxics control account;

(y) For the 2013-2015 fiscal biennium, moneys in the state toxics control account may be transferred to the radioactive mixed waste account; and

(z) For the 2015-2017 and 2017-2019 fiscal ((biennium)) biennia, forest practices regulation at the department of natural resources.

(4)(a) The department shall use moneys deposited in the local toxics control account for grants or loans to local governments for the following purposes in descending order of priority:

(i) Extended grant agreements entered into under (e)(i) of this subsection;

(ii) Remedial actions, including planning for adaptive reuse of properties as provided for under (e)(iv) of this subsection. The department must prioritize funding of remedial actions at:

(A) Facilities on the department's hazardous sites list with a high hazard ranking for which there is an approved remedial action work plan or an equivalent document under federal cleanup law;

(B) Brownfield properties within a redevelopment opportunity zone if the local government is a prospective purchaser of the property and there is a department-approved remedial action work plan or equivalent document under the federal cleanup law;

(iii) Storm water pollution source projects that: (A) Work in conjunction with a remedial action; (B) protect completed remedial actions against recontamination; or (C) prevent hazardous clean-up sites;

(vii) Appropriations to the state toxics control account or the environmental legacy stewardship account created in RCW 70.105D.170, if the legislature determines that priorities for spending exceed available funds in those accounts.

(b) Funds for plans and programs must be allocated consistent with the priorities and matching requirements established in chapters 70.105, 70.95C, 70.95I, and 70.95 RCW.

(c) During the 2013-2015 fiscal biennium, the local toxics control account may also be used for local government storm water planning and implementation activities.

(d) During the 2013-2015 fiscal biennium, the legislature may transfer from the local toxics control account to the state general fund, such amounts as reflect the excess fund balance in the account.

(e) To expedite cleanups throughout the state, the department may use the following strategies when providing grants to local governments under this subsection:

(i) Enter into an extended grant agreement with a local government conducting remedial actions at a facility where those actions extend over multiple biennia and the total eligible cost of those actions exceeds twenty million dollars. The agreement is subject to the following limitations:

(A) The initial duration of such an agreement may not exceed ten years. The department may extend the duration of such an agreement upon finding substantial progress has been made on remedial actions at the facility;

(B) Extended grant agreements may not exceed fifty percent of the total eligible remedial action costs at the facility; and

(C) The department may not allocate future funding to an extended grant agreement unless the local government has demonstrated to the department that funds awarded under the agreement during the previous biennium have been substantially expended or contracts have been entered into to substantially expend the funds;

(ii) Enter into a grant agreement with a local government conducting a remedial action that provides for periodic reimbursement of remedial action costs as they are incurred as established in the agreement;

(iii) Enter into a grant agreement with a local government prior to it acquiring a property or obtaining necessary access to conduct remedial actions, provided the agreement is conditioned upon the local government acquiring the property or obtaining the access in accordance with a schedule specified in the agreement;

(iv) Provide integrated planning grants to local governments to fund studies necessary to facilitate remedial actions at brownfield properties and adaptive reuse of properties following remediation. Eligible activities include, but are not limited to: Environmental site assessments; remedial investigations; health assessments; feasibility studies; site planning; community involvement; land use and regulatory analyses; building and infrastructure assessments; economic and fiscal analyses; and any environmental analyses under chapter 43.21C RCW;

(v) Provide grants to local governments for remedial actions related to area-wide groundwater contamination. To receive the funding, the local government does not need to be a potentially liable person or be required to seek reimbursement of grant funds from a potentially liable person;

(vi) The director may alter grant matching requirements to create incentives for local governments to expedite cleanups when one of the following conditions exists:

(A) Funding would prevent or mitigate unfair economic hardship imposed by the clean-up liability;

(B) Funding would create new substantial economic development, public recreational opportunities, or habitat restoration opportunities that would not otherwise occur; or

(C) Funding would create an opportunity for acquisition and redevelopment of brownfield property under RCW 70.105D.040(5) that would not otherwise occur;

(vii) When pending grant applications under (e)(iv) and (v) of this subsection (4) exceed the amount of funds available, designated redevelopment opportunity zones must receive priority for distribution of available funds.

(f) To expedite multiparty clean-up efforts, the department may purchase remedial action cost-cap insurance. For the 2013-2015 fiscal biennium, moneys in the local toxics control account may be spent on projects in sections 3024, 3035, 3036, and 3059, chapter 19, Laws of 2013 2nd sp. sess.

(5) Except for unanticipated receipts under RCW 43.79.260 through 43.79.282, moneys in the state and local toxics control accounts may be spent only after appropriation by statute.

(6) No moneys deposited into either the state or local toxics control account may be used for: Natural disasters where there is no hazardous substance contamination; high performance buildings; solid waste incinerator facility feasibility studies, construction, maintenance, or operation; or after January 1, 2010, for projects designed to address the restoration of Puget Sound, funded in a competitive grant process, that are in conflict with the action agenda developed by the Puget Sound partnership under RCW 90.71.310. However, this subsection does not prevent an appropriation from the state toxics control account to the department of revenue to enforce compliance with the hazardous substance tax imposed in chapter 82.21 RCW.

(7) Except during the 2011-2013 and the 2015-2017 fiscal biennia, one percent of the moneys collected under RCW 82.21.030 shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public

interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remediating of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. No grant may exceed sixty thousand dollars. Grants may be renewed annually. Moneys appropriated for public participation that are not expended at the close of any biennium revert to the state toxics control account.

(8) The department shall adopt rules for grant or loan issuance and performance. To accelerate both remedial action and economic recovery, the department may expedite the adoption of rules necessary to implement chapter 1, Laws of 2013 2nd sp. sess. using the expedited procedures in RCW 34.05.353. The department shall initiate the award of financial assistance by August 1, 2013. To ensure the adoption of rules will not delay financial assistance, the department may administer the award of financial assistance through interpretive guidance pending the adoption of rules through July 1, 2014.

(9) Except as provided under subsection (3)(k) and (q) of this section, nothing in chapter 1, Laws of 2013 2nd sp. sess. affects the ability of a potentially liable person to receive public funding.

(10) During the 2015-2017 fiscal biennium the local toxics control account may also be used for the centennial clean water program and for the storm water financial assistance program administered by the department of ecology.

Sec. 964. RCW 71.24.580 and 2016 sp.s. c 29 s 511 are each amended to read as follows:

(1) The criminal justice treatment account is created in the state treasury. Moneys in the account may be expended solely for: (a) Substance use disorder treatment and treatment support services for offenders with a substance use disorder that, if not treated, would result in addiction, against whom charges are filed by a prosecuting attorney in Washington state; (b) the provision of substance use disorder treatment services and treatment support services for nonviolent offenders within a drug court program; and (c) the administrative and overhead costs associated with the operation of a drug court. During the

2015-2017 fiscal biennium, the legislature may transfer from the criminal justice treatment account to the state general fund amounts as reflect the state savings associated with the implementation of the medicaid expansion of the federal affordable care act and the excess fund balance of the account. During the 2017-2019 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys in the criminal justice treatment account to the state general fund. It is the intent of the legislature that this policy be continued in future biennia. Moneys in the account may be spent only after appropriation.

(2) For purposes of this section:

(a) "Treatment" means services that are critical to a participant's successful completion of his or her substance use disorder treatment program, but does not include the following services: Housing other than that provided as part of an inpatient substance use disorder treatment program, vocational training, and mental health counseling; and

(b) "Treatment support" means transportation to or from inpatient or outpatient treatment services when no viable alternative exists, and child care services that are necessary to ensure a participant's ability to attend outpatient treatment sessions.

(3) Revenues to the criminal justice treatment account consist of: (a) Funds transferred to the account pursuant to this section; and (b) any other revenues appropriated to or deposited in the account.

(4)(a) For the fiscal year beginning July 1, 2006, and each subsequent fiscal year, the amount transferred shall be increased on an annual basis by the implicit price deflator as published by the federal bureau of labor statistics.

(b) In each odd-numbered year, the legislature shall appropriate the amount transferred to the criminal justice treatment account in (a) of this subsection to the department for the purposes of subsection (5) of this section.

(5) Moneys appropriated to the department from the criminal justice treatment account shall be distributed as specified in this subsection. The department may retain up to three percent of the amount appropriated under

subsection (4)(b) of this section for its administrative costs.

(a) Seventy percent of amounts appropriated to the department from the account shall be distributed to counties pursuant to the distribution formula adopted under this section. The division of alcohol and substance abuse, in consultation with the department of corrections, the Washington state association of counties, the Washington state association of drug court professionals, the superior court judges' association, the Washington association of prosecuting attorneys, representatives of the criminal defense bar, representatives of substance use disorder treatment providers, and any other person deemed by the department to be necessary, shall establish a fair and reasonable methodology for distribution to counties of moneys in the criminal justice treatment account. County or regional plans submitted for the expenditure of formula funds must be approved by the panel established in (b) of this subsection.

(b) Thirty percent of the amounts appropriated to the department from the account shall be distributed as grants for purposes of treating offenders against whom charges are filed by a county prosecuting attorney. The department shall appoint a panel of representatives from the Washington association of prosecuting attorneys, the Washington association of sheriffs and police chiefs, the superior court judges' association, the Washington state association of counties, the Washington defender's association or the Washington association of criminal defense lawyers, the department of corrections, the Washington state association of drug court professionals, substance use disorder treatment providers, and the division. The panel shall review county or regional plans for funding under (a) of this subsection and grants approved under this subsection. The panel shall attempt to ensure that treatment as funded by the grants is available to offenders statewide.

(6) The county alcohol and drug coordinator, county prosecutor, county sheriff, county superior court, a substance abuse treatment provider appointed by the county legislative authority, a member of the criminal defense bar appointed by the county legislative authority, and, in counties with a drug court, a representative of the

drug court shall jointly submit a plan, approved by the county legislative authority or authorities, to the panel established in subsection (5)(b) of this section, for disposition of all the funds provided from the criminal justice treatment account within that county. The funds shall be used solely to provide approved alcohol and substance abuse treatment pursuant to RCW 71.24.560, treatment support services, and for the administrative and overhead costs associated with the operation of a drug court.

(b) No more than ten percent of the total moneys received under subsections (4) and (5) of this section by a county or group of counties participating in a regional agreement shall be spent for treatment support services.

(7) Counties are encouraged to consider regional agreements and submit regional plans for the efficient delivery of treatment under this section.

(8) Moneys allocated under this section shall be used to supplement, not supplant, other federal, state, and local funds used for substance abuse treatment.

(9) Counties must meet the criteria established in RCW 2.30.030(3).

(10) The authority under this section to use funds from the criminal justice treatment account for the administrative and overhead costs associated with the operation of a drug court expires June 30, 2015.

Sec. 965. RCW 74.13.621 and 2015 3rd sp.s. c 4 s 970 are each amended to read as follows:

(1) Within existing resources, the department shall establish an oversight committee to monitor, guide, and report on kinship care recommendations and implementation activities. The committee shall:

(a) Draft a kinship care definition that is restricted to persons related by blood, marriage, or adoption, including marriages that have been dissolved, or for a minor defined as an "Indian child" under

the federal Indian child welfare act (25 U.S.C. Sec. 1901 et seq.), the definition of "extended family member" under the federal Indian child welfare act, and a set of principles. If the committee concludes that one or more programs or services would be more efficiently and effectively delivered under a different definition of kin, it shall state what definition is needed, and identify the program or service in the report. It shall also provide evidence of how the program or service will be more efficiently and effectively delivered under the different definition. The department shall not adopt rules or policies changing the definition of kin without authorizing legislation;

(b) Monitor and provide consultation on the implementation of recommendations contained in the 2002 kinship care report, including but not limited to the recommendations relating to legal and respite care services and resources;

(c) Partner with nonprofit organizations and private sector businesses to guide a public education awareness campaign; and

(d) Assist with developing future recommendations on kinship care issues.

(2) The department shall consult with the oversight committee on its efforts to better collaborate and coordinate services to benefit kinship care families.

(3) The oversight committee must consist of a minimum of thirty percent kinship caregivers, who shall represent a diversity of kinship families. Statewide representation with geographic, ethnic, and gender diversity is required. Other members shall include representatives of the department, representatives of relevant state agencies, representatives of the private nonprofit and business sectors, child advocates, representatives of Washington state Indian tribes as defined under the federal Indian welfare act (25 U.S.C. Sec. 1901 et seq.), and representatives of the legal or judicial field. Birth parents, foster parents, and others who have an interest in these issues may also be included.

(4) To the extent funding is available, the department may reimburse nondepartmental members of the oversight committee for costs incurred in participating in the meetings of the oversight committee.

(5) The kinship care oversight committee shall update the legislature and

governor annually on committee activities, with the first update due by January 1, 2006.

(6) This section expires June 30, ((2017)) 2019.

Sec. 966. RCW 74.39A.270 and 2016 sp.s. c 30 s 1 are each amended to read as follows:

(1) Solely for the purposes of collective bargaining and as expressly limited under subsections (2) and (3) of this section, the governor is the public employer, as defined in chapter 41.56 RCW, of individual providers, who, solely for the purposes of collective bargaining, are public employees as defined in chapter 41.56 RCW. To accommodate the role of the state as payor for the community-based services provided under this chapter and to ensure coordination with state employee collective bargaining under chapter 41.80 RCW and the coordination necessary to implement RCW 74.39A.300, the public employer shall be represented for bargaining purposes by the governor or the governor's designee appointed under chapter 41.80 RCW. The governor or governor's designee shall periodically consult with the authority during the collective bargaining process to allow the authority to communicate issues relating to the long-term in-home care services received by consumers. The department shall solicit input from the developmental disabilities council, the governor's committee on disability issues and employment, the state council on aging, and other consumer advocacy organizations to obtain informed input from consumers on their interests, including impacts on consumer choice, for all issues proposed for collective bargaining under subsections (5) and (6) of this section.

(2) Chapter 41.56 RCW governs the collective bargaining relationship between the governor and individual providers, except as otherwise expressly provided in this chapter and except as follows:

(a) The only unit appropriate for the purpose of collective bargaining under RCW 41.56.060 is a statewide unit of all individual providers;

(b) The showing of interest required to request an election under RCW 41.56.060 is ten percent of the unit, and any intervener seeking to appear on the ballot must make the same showing of interest;

(c) The mediation and interest arbitration provisions of RCW 41.56.430 through 41.56.470 and 41.56.480 apply, except that:

(i) With respect to commencement of negotiations between the governor and the bargaining representative of individual providers, negotiations shall be commenced by May 1st of any year prior to the year in which an existing collective bargaining agreement expires; and

(ii) The decision of the arbitration panel is not binding on the legislature and, if the legislature does not approve the request for funds necessary to implement the compensation and fringe benefit provisions of the arbitrated collective bargaining agreement, is not binding on the authority or the state;

(d) Individual providers do not have the right to strike; and

(e) Individual providers who are related to, or family members of, consumers or prospective consumers are not, for that reason, exempt from this chapter or chapter 41.56 RCW.

(3) Individual providers who are public employees solely for the purposes of collective bargaining under subsection (1) of this section are not, for that reason, employees of the state, its political subdivisions, or an area agency on aging for any purpose. Chapter 41.56 RCW applies only to the governance of the collective bargaining relationship between the employer and individual providers as provided in subsections (1) and (2) of this section.

(4) Consumers and prospective consumers retain the right to select, hire, supervise the work of, and terminate any individual provider providing services to them. Consumers may elect to receive long-term in-home care services from individual providers who are not referred to them by the authority.

(5) Except as expressly limited in this section and RCW 74.39A.300, the wages, hours, and working conditions of individual providers are determined solely through collective bargaining as provided in this chapter. Except as described in subsection (9) of this section, no agency or department of the state may establish policies or rules governing the wages or hours of individual providers. This subsection does not modify:

(a) The department's authority to establish a plan of care for each consumer or its core responsibility to manage long-term in-home care services under this chapter, including determination of the level of care that each consumer is eligible to receive. However, at the request of the exclusive bargaining representative, the governor or the governor's designee appointed under chapter 41.80 RCW shall engage in collective bargaining, as defined in RCW 41.56.030(4), with the exclusive bargaining representative over how the department's core responsibility affects hours of work for individual providers. This subsection shall not be interpreted to require collective bargaining over an individual consumer's plan of care;

(b)(i) The requirement that the number of hours the department may pay any single individual provider is limited to:

(A) Sixty hours each workweek if the individual provider was working an average number of hours in excess of forty hours for the workweeks during January 2016, except for fiscal years 2016 ((and)), 2017, and 2018, the limit is sixty-five hours each workweek; or

(B) Forty hours each workweek if the individual provider was not working an average number of hours in excess of forty hours for the workweeks during January 2016, or had no reported hours for the month of January 2016.

(ii) Additional hours may be authorized under criteria established by rules adopted by the department under subsection (9) of this section.

(iii) Additional hours may be authorized for required training under RCW 74.39A.074, 74.39A.076, and 74.39A.341.

(iv) An individual provider may appeal to the department for qualification for the hour limitation in (b)(i)(A) of this subsection if the average weekly hours the ((individual)) individual provider was working in January 2016 materially underrepresent the average weekly hours worked by the individual provider during the first three months of 2016.

(v) No individual provider is subject to the hour limitations in (b)(i)(A) of this subsection until the department has conducted a review of the plan of care for the consumers served by the ((individual)) individual provider. The department shall review plans of care expeditiously, starting with consumers

connected with the most individual provider overtime;

(c) The requirement that the total number of additional hours in excess of forty hours authorized under (b) of this subsection and subsection (9) of this section are limited by the total hours as provided in subsection (10) of this section;

(d) The department's authority to terminate its contracts with individual providers who are not adequately meeting the needs of a particular consumer, or to deny a contract under RCW 74.39A.095(8);

(e) The consumer's right to assign hours to one or more individual providers consistent with the rules adopted under this chapter and his or her plan of care;

(f) The consumer's right to select, hire, terminate, supervise the work of, and determine the conditions of employment for each individual provider providing services to the consumer under this chapter;

(g) The department's obligation to comply with the federal medicaid statute and regulations and the terms of any community-based waiver granted by the federal department of health and human services and to ensure federal financial participation in the provision of the services; and

(h) The legislature's right to make programmatic modifications to the delivery of state services under this title, including standards of eligibility of consumers and individual providers participating in the programs under this title, and the nature of services provided. The governor shall not enter into, extend, or renew any agreement under this chapter that does not expressly reserve the legislative rights described in this subsection (5)(h).

(6) At the request of the exclusive bargaining representative, the governor or the governor's designee appointed under chapter 41.80 RCW shall engage in collective bargaining, as defined in RCW 41.56.030(4), with the exclusive bargaining representative over employer contributions to the training partnership for the costs of: (a) Meeting all training and peer mentoring required under this chapter; and (b) other training intended to promote the career development of individual providers.

(7) The state, the department, the area agencies on aging, or their contractors under this chapter may not be held vicariously or jointly liable for the action or inaction of any individual provider or prospective individual provider, whether or not that individual provider or prospective individual provider was included on the referral registry or referred to a consumer or prospective consumer. The existence of a collective bargaining agreement, the placement of an individual provider on the referral registry, or the development or approval of a plan of care for a consumer who chooses to use the services of an individual provider and the provision of case management services to that consumer, by the department or an area agency on aging, does not constitute a special relationship with the consumer.

(8) Nothing in this section affects the state's responsibility with respect to unemployment insurance for individual providers. However, individual providers are not to be considered, as a result of the state assuming this responsibility, employees of the state.

(9) The department may not pay any single individual provider more than the hours listed in subsection (5)(b) of this section unless the department authorizes additional hours under criteria established by rule. The criteria must be limited in scope to reduce the state's exposure to payment of overtime, address travel time from worksite to worksite, and address the following needs of consumers:

(a) Ensuring that consumers are not at increased risk for institutionalization;

(b) When there is a limited number of ((individual)) individual providers within the geographic region of the consumer;

(c) When there is a limited number of ((individual)) individual providers available to support a consumer with complex medical and behavioral needs or specific language needs;

(d) Emergencies that could pose a health and safety risk for consumers; and

(e) Instances where the cost of the allowed hour is less than other alternatives to provide care to a consumer, distinct from any increased risk of institutionalization.

(10)(a) Each fiscal year, the department shall establish a spending plan

and a system to monitor the authorization and cost of hours in excess of forty hours each workweek from subsections (5)(b) and (9) of this section beginning July 1, 2016, and each fiscal year thereafter. Expenditures for hours in excess of forty hours each workweek under subsections (5)(b) and (9) of this section shall not exceed 8.75 percent of the total average authorized personal care hours for the fiscal year as projected by the caseload forecast council. The caseload forecast council may adopt a temporary adjustment to the 8.75 percent of the total average hours projection for that fiscal year, up to a maximum of 10.0 percent, if it finds a higher percentage of overtime hours is necessitated by a shortage of individual providers to provide adequate client care, taking into consideration factors including the criteria in subsection (9) of this section. If the council elects to temporarily increase the limit, it may do so only upon a majority vote of the council.

(b) The department also shall provide expenditure reports beginning September 1, 2016, and on a quarterly basis thereafter. If the department determines, based upon quarterly expenditure reports, that the annual expenditures will exceed the limitation established in (a) of this subsection, the department shall take those actions necessary to ensure compliance with the limitation.

(c) The spending plan and expenditure reports must be submitted to the legislative fiscal committees and the joint legislative-executive overtime oversight task force. The joint legislative-executive overtime oversight task force members are as follows:

(i) Two members from each of the two largest caucuses of the senate, appointed by the respective caucus leaders.

(ii) The speaker of the house of representatives shall appoint two members from each of the two largest caucuses of the house of representatives.

(iii) The governor shall appoint members representing the department of social and health services and the office of financial management.

(iv) The governor shall appoint two members representing individual providers and two members representing consumers receiving personal care or respite care services from an individual provider.

(d) The task force shall meet at least annually, but may meet more frequently as desired by the task force. The task force shall choose cochairs, one from among the legislative members and one from among the executive branch members.

(e) The department is authorized to adopt rules, including emergency rules under RCW 34.05.350, to implement this subsection.

Sec. 967. RCW 77.12.201 and 2016 sp.s. c 36 s 947 are each amended to read as follows:

The legislative authority of a county may elect, by giving written notice to the director and the treasurer prior to January 1st of any year, to obtain for the following year an amount in lieu of real property taxes on game lands as provided in RCW 77.12.203. Upon the election, the county shall keep a record of all fines, forfeitures, reimbursements, and costs assessed and collected, in whole or in part, under this title for violations of law or rules adopted pursuant to this title, with the exception of the ((2011-2013, 2013-2015[,] and)) 2015-2017 and 2017-2019 fiscal biennia, and shall monthly remit an amount equal to the amount collected to the state treasurer for deposit in the state general fund. This amount may not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, water access sites, tidelands, or public fishing areas.

(2) "Game lands," as used in this section and RCW 77.12.201, means those

tracts, regardless of acreage, owned in fee by the department and used for wildlife habitat and public recreational purposes. All lands purchased for wildlife habitat, public access, or recreation purposes with federal funds in the Snake River drainage basin are considered game lands regardless of acreage.

(3) This section does not apply to lands transferred after April 23, 1990, to the department from other state agencies.

(4) The county must distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. These amounts may not be assessed or paid on department buildings, structures, facilities, game farms, fish hatcheries, water access sites, tidelands, or public fishing areas.

Sec. 969. RCW 79.64.040 and 2015 3rd sp.s. c 4 s 972 are each amended to read as follows:

(1) The board shall determine the amount deemed necessary in order to achieve the purposes of this chapter and shall provide by rule for the deduction of this amount from the moneys received from all leases, sales, contracts, licenses, permits, easements, and rights-of-way issued by the department and affecting state lands and aquatic lands, provided that no deduction shall be made from the proceeds from agricultural college lands.

(2) Moneys received as deposits from successful bidders, advance payments, and security under RCW 79.15.100, 79.15.080, and 79.11.150 prior to December 1, 1981, which have not been subjected to deduction under this section are not subject to deduction under this section.

The state treasurer shall distribute funds to the counties four times per month, with no more than ten days between each payment date.

The county assessor and county legislative authority shall assist in determining the appropriate calculation of the amount of tax that would be due. However, in the 2017-2019 fiscal biennium, the treasurer must distribute payments under this section in the amount specified by the legislature in the omnibus operating appropriations act. The county shall distribute the amount received under this section in lieu of real property taxes to all property taxing districts except the state in appropriate tax code areas the same way it would distribute local property taxes from private property. PART XII**HUMAN SERVICES**

Sec. 1201. 2016 sp.s. c 36 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES

(1) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys

shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority

to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. No later than October 1, 2015, the department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(c) The department, in coordination with the health care authority, shall pursue a federal waiver to use supplemental nutrition assistance program eligibility, aged, blind, or disabled program eligibility, or temporary assistance for needy families eligibility, to enroll eligible persons into medicaid.

(7) In accordance with RCW 71.24.380, the health care authority and the department are authorized to purchase medical and behavioral health services through integrated contracts upon request of all of the county authorities in a regional service area to become an early adopter of fully integrated purchasing of medical and behavioral health services. The department may combine and transfer such amounts appropriated under sections 204, 208, and 213 of this act as may be necessary to fund early adopter contracts. The amount of medicaid funding transferred from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled, times the number of clients enrolled. The amount of non-medicaid funding transferred from sections 204 and 208 may not exceed the amount that would have been contracted with a behavioral health organization if the county authorities had not requested to become an early adopter of fully integrated purchasing. (9)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, ~~(2016)~~ 2017, unless prohibited by this act, the department may transfer general fund-state appropriations for fiscal year ~~(2016)~~ 2017 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in (b) of this subsection.

(b) To the extent that transfers under (a) of this subsection are insufficient to fund actual expenditures in excess of fiscal year ~~(2016)~~ 2017 caseload forecasts and utilization assumptions in the long-term care, foster care, adoptions support, medical personal care, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose. The department shall not transfer funds, and the director of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds. The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing seven days prior to approving any allotment modifications or transfers under this subsection. The written notification shall include a narrative explanation and justification of the changes, along with expenditures and allotments by budget unit and appropriation, both before and after any allotment modifications or transfers.

The number of nonforensic beds allocated for use by regional support networks at western state hospital shall be 587 per day in fiscal year 2016. Pursuant to Engrossed Second Substitute House Bill No. 2453 (state hospital oversight) or Substitute Senate Bill No. 6656 (state hospital practices), the department must transition and divert enough patients with long term care needs from western state hospital by January 1, 2017, to reduce the capacity needed for this population by 30 beds and the department must reduce the number of nonforensic beds allocated for use by regional support networks at western state hospital to 557. The department may contract through a regional support network for up to 30 local community hospital beds to provide treatment to individuals on a 90 day involuntary commitment order and must lower that

regional support network's allocation of beds by the number of contracted beds.

(h) From the general fund-state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund-state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(i) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(j) \$750,000 of the general fund-state appropriation for fiscal year 2016 and \$750,000 of the general fund-state appropriation for fiscal year 2017 are provided solely to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who were discharged from the state hospitals as part of the expanding community services initiative. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(k) \$1,125,000 of the general fund-state appropriation for fiscal year 2016 and \$1,125,000 of the general fund-state appropriation for fiscal year 2017 are provided solely for the Spokane regional support network to implement services to reduce utilization and the census at eastern state hospital. Such services shall include:

(i) High intensity treatment team for persons who are high utilizers of psychiatric inpatient services, including those with co-occurring disorders and other special needs;

(ii) Crisis outreach and diversion services to stabilize in the community individuals in crisis who are at risk of requiring inpatient care or jail services;

(iii) Mental health services provided in nursing facilities to individuals with dementia, and consultation to facility staff treating those individuals; and

(l) \$1,204,000 of the general fund-state appropriation for fiscal year 2016 and \$1,204,000 of the general fund-state appropriation for fiscal year 2017 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting 180-day commitment hearings at the state psychiatric hospitals.

(m) Regional support networks may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, regional support networks may use a portion of the state funds allocated in accordance with (e) of this subsection to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(n) \$2,291,000 of the general fund-state appropriation for fiscal year 2016 and \$2,291,000 of the general fund-state appropriation for fiscal year 2017 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement.

(o) Within the amounts appropriated in this section, funding is provided for the department to develop and phase in intensive mental health services for high needs youth consistent with the settlement agreement in *T.R. v. Dreyfus and Porter*.

(p) \$9,184,000 of the general fund-state appropriation for fiscal year 2016, \$11,405,000 of the general fund-state appropriation for fiscal year 2017, and \$17,680,000 of the general fund-federal appropriation are provided solely for enhancement of community mental health services. The department must contract these funds for the operation of community programs in which the department determines there is a need for capacity that allows individuals to be diverted or

In contracting for community evaluation and treatment services, the department may not use these resources in facilities that meet the criteria to be classified under federal law as institutions for mental diseases. If the department is unable to come to a contract agreement with a designated regional support network for any of the services identified above, it may consider contracting for that service in another regional support network that has the need for such service.

(q) The appropriations in this section include a reduction of \$16,462,000 in general fund-state and \$16,468,000 of general fund-federal expenditure authority. This reduction must be achieved by reducing regional support network medicaid rates for disabled adults, nondisabled adults, disabled children, and nondisabled children. No regional support network rate may be lowered below the low end of the rate range that is certified as actuarially sound. The department must work to develop updated minimum and maximum reserve levels that reflect the changes in the number of medicaid eligible individuals since reserve levels were originally set as well as the integration of substance use disorder services into managed care contracts funded within the amounts appropriated in this section. The department must submit a report to the office of financial management and the appropriate fiscal committees of the legislature by December 1, 2015, that includes the revised minimum and maximum reserve levels for medicaid and

nonmedicaid behavioral health organization contracts.

(r) \$300,000 of the general fund-state appropriation for fiscal year 2016, \$1,394,000 of the general fund-state appropriation for fiscal year 2017, and \$2,020,000 of the general fund-federal appropriation are provided solely for implementation of chapter 7, Laws of 2015 1st sp. sess. (2E2SSB 5177) (timeliness of competency evaluation and restoration services). Regional support networks must use the amounts for outpatient mental health treatment costs associated with implementation of the bill.

(s) \$1,500,000 of the general fund-state appropriation for fiscal year 2017 is provided solely to support the southwest Washington region in transitioning to become an early adopter for full integration of physical and behavioral health care. These amounts must be used to provide a reserve for nonmedicaid services in the region and to stabilize the new crisis services system. The department and the health care authority must develop a memorandum of understanding on the use of these funds.

(t) By April 1, 2016, the department must establish minimum and maximum funding levels for all reserves allowed under behavioral health organization contracts and insert contract language that clearly states the requirements and limitations. The department must monitor and ensure that behavioral health organization reserves do not exceed maximum levels. The department must monitor behavioral health organization revenue and expenditure reports and must require a behavioral health organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The department must review and approve such plans and monitor to ensure compliance. If the department determines that a behavioral health organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the department must reduce payments to the behavioral health organization in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the department determines that the behavioral health organization has come into substantial compliance with an

approved excess reserve corrective action plan.

(u) \$2,000,000 of the general fund-state appropriation for fiscal year 2017 and \$762,000 of the general fund-federal appropriation for fiscal year 2017 are provided solely for four housing support and step down services teams.

The appropriations in this section are subject to the following conditions and limitations:

(1) For purposes of implementing chapter 74.46 RCW, the weighted average nursing facility payment rate shall not exceed \$178.87 for fiscal year 2016 and shall not exceed (~~\$197.33~~) \$196.41 for fiscal year 2017. There will be no adjustments for economic trends and conditions in fiscal years 2016 and 2017. The economic trends and conditions factor or factors defined in the biennial appropriations act shall not be compounded with the economic trends and conditions factor or factors defined in any other biennial appropriations acts before applying it to the component rate allocations established in accordance with chapter 74.46 RCW. When no economic trends and conditions factor for either fiscal year is defined in a biennial appropriations act, no economic trends and conditions factor or factors defined in any earlier biennial appropriations act shall be applied solely or compounded to the component rate allocations established in accordance with chapter 74.46 RCW.

(a) For fiscal year 2016 within the funds provided, the department shall continue to provide an add-on per medicaid resident day per facility not to exceed \$1.57. The add-on shall be used to increase wages, benefits, and/or staffing levels for certified nurse aides; or to increase wages and/or benefits for dietary aides, housekeepers, laundry aides, or any other category of worker whose statewide average dollars-per-hour wage was less than \$15 in calendar year 2008, according to cost report data. The add-on may also be used to address resulting wage compression for related job classes immediately affected by wage increases to low-wage workers. For fiscal year 2016 within funds provided, the department shall provide an additional add-on per medicaid resident day per facility not to exceed the industry weighted average rate of \$2.44. The add-on shall be used to increase wages, benefits, and/or staffing levels for certified nurse aides; or to increase wages and/or benefits for dietary aides, housekeepers, laundry aides, or any other category of worker whose statewide average dollars-per-hour wage was less than \$17 in calendar year 2012, according to cost report data. (b) The department shall do a comparative analysis of the facility-based payment rates calculated on July 1, 2015,

using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the low wage worker add-on found in (a) of this subsection, the rate add-ons for direct care, support services, and therapy care found in (g) of this subsection, the comparative add-on, acuity add-on, and safety net reimbursement, to the facility-based payment rates in effect June 30, 2010. For fiscal year 2016, if the facility-based payment rate calculated on July 1, 2015, is smaller than the facility-based payment rate on June 30, 2010, then the difference shall be provided to the individual nursing facilities as an add-on payment per medicaid resident day.

(c) During the comparative analysis performed in subsection (b) of this section, for fiscal year 2016, if it is found that the direct care rate for any facility calculated using the payment methodology defined in chapter 74.46 RCW and as funded in the omnibus appropriations act, excluding the low wage worker add-on found in (a) of this subsection, the rate add-ons for direct care, support services, and therapy care found in (g) of this subsection, the comparative add-on, acuity add-on, and safety net reimbursement, is greater than the direct care rate in effect on June 30, 2010, then the facility shall receive a ten percent direct care rate add-on to compensate that facility for taking on more acute clients than they have in the past.

(d) The department shall provide a medicaid rate add-on to reimburse the medicaid share of the skilled nursing facility safety net assessment as a medicaid allowable cost. The nursing facility safety net rate add-on may not be included in the calculation of the annual statewide weighted average nursing facility payment rate.

(e) The rate add-on provided in (c) of this subsection is subject to the reconciliation and settlement process provided in RCW 74.46.022(6).

(f) If the waiver requested from the federal centers for medicare and medicaid services in relation to the safety net assessment is for any reason disapproved, (b), (c), (d), (g), and the fiscal year 2016 additional add-on in (a) of this subsection do not apply.

For the first two quarters of fiscal year 2017, the downward adjustment shall be no greater than thirteen percent. ((m))) (k) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

((n))) (l) \$4,261,000 of the general fund-state appropriation for fiscal year 2016, \$4,261,000 of the general fund-state appropriation for fiscal year 2017, and \$8,522,000 of the general fund-federal appropriation are provided solely for low-income disproportionate share hospital payments.

((o))) (m) Within the amounts appropriated in this section, the health care authority shall provide disproportionate share hospital payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

((p))) (n) \$6,000,000 of the general fund-federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost

settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

((+)) (o) The health care authority shall continue the inpatient hospital certified public expenditures program for the 2015-2017 fiscal biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. The health care authority shall submit reports to the governor and legislature by November 1, 2015, and by November 1, 2016, that evaluate whether savings continue to exceed costs for this program. If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2016 and fiscal year 2017, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2015-2017 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment

amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2015-2017 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$14,014,000 of the general fund-state appropriation for fiscal year 2016 and ((9,700,000)) \$9,855,000 of the general fund-state appropriation for fiscal year 2017 are provided solely for state grants for the participating hospitals.

The authority must submit a report to the governor and the appropriate committees of the legislature that includes which encounter rates exceed uniform medical rates, the amount by which the rates are exceeded, and the annual cost of paying above uniform medical rates. The report shall also include the steps the authority has taken with the centers for medicare and medicaid services to ensure that rates bear a reasonable relationship to costs incurred by efficiently and economically operated facilities, including whether uniform medical plan or commercial rates may be considered a reasonable proxy to cost. The report must be submitted by January 1, 2016. By September 15, 2016, the authority is directed to directly consult with the centers for medicaid and medicare services to determine whether federally qualified encounter rates may be adjusted to uniform medical plan rates as a reasonable proxy to cost and resubmit the report to include the results of this consultation.

The collaborative shall adopt a transparent process that allows for public comment prior to the final adoption of any evidence-based practice.

(iii) The collaborative shall:

(A) Identify and develop evidence-based practices to improve care to patients with bleeding disorders with specific attention to health care cost reduction. To the extent that evidence-based practices are unavailable, the collaborative shall research and create the practices or compile the necessary information. (B) Make recommendations regarding the dissemination of the evidence-based practices to relevant health care professionals and support service providers and propose options for incorporating evidence-based practices into their treatment regimens; and

(C) Assist the authority in the development of a cost-benefit analysis regarding the use of evidence-based practices for specific populations in state-purchased health care programs.

(b) Students in approved career and technical education and skill center programs generate certificated school building-level administrator staff units at per student rates that are a multiple of the general education rate in (a) of this subsection by the following factors: Career and Technical Education students 1.025

Skill Center students 1.198

(4) CLASSIFIED STAFF ALLOCATIONS

Allocations for classified staff units providing school building-level and district-wide support services for the 2015-16 and 2016-17 school years are determined using the formula-generated staff units provided in RCW 28A.150.260, and adjusted based on each district's

annual average full-time equivalent student enrollment in each grade, except that the allocation for parent involvement coordinators in an elementary school shall be 0.0825 for the 2015-16 and 2016-17 school years, which enhancement is within the program of basic education.

(5) CENTRAL OFFICE ALLOCATIONS

In addition to classified and administrative staff units allocated in subsections (3) and (4) of this section, classified and administrative staff units are provided for the 2015-16 and 2016-17 school year for the central office administrative costs of operating a school district, at the following rates:

(a) The total central office staff units provided in this subsection (5) are calculated by first multiplying the total number of eligible certificated instructional, certificated administrative, and classified staff units providing school-based or district-wide support services, as identified in RCW 28A.150.260(6)(b), by 5.3 percent.

(b) Of the central office staff units calculated in (a) of this subsection, 74.53 percent are allocated as classified staff units, as generated in subsection (4) of this section, and 25.47 percent shall be allocated as administrative staff units, as generated in subsection (3) of this section.

(c) Staff units generated as enhancements outside the program of basic education to the minimum requirements of RCW 28A.150.260, and staff units generated by skill center and career-technical students, are excluded from the total central office staff units calculation in (a) of this subsection.

(d) For students in approved career-technical and skill center programs, central office classified units are allocated at the same staff unit per student rate as those generated for general education students of the same grade in this subsection (5), and central office administrative staff units are allocated at staff unit per student rates that exceed the general education rate established for students in the same grade in this subsection (5) by 1.46 percent in the 2015-16 school year and 1.45 percent in the 2016-17 school year for career and technical education students, and 17.33 percent in the 2015-16 school year and 17.31 percent in the 2016-17 school year for skill center students.

Insurance benefit allocations shall be calculated at the maintenance rate specified in section 504 of this act, based on the number of benefit units determined as follows:

(a) The number of certificated staff units determined in subsections (2), (3), and (5) of this section; and

(b) The number of classified staff units determined in subsections (4) and (5) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purpose of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1,440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(8) MATERIALS, SUPPLIES, AND OPERATING COSTS (MSOC) ALLOCATIONS

including school district and institution of higher education enrollment consistent with the running start course requirements provided in Engrossed Second Substitute House Bill No. 1546 (dual credit education opportunities). In calculating the combined 1.2 FTE, the office of the superintendent of public instruction may average the participating student's September through June enrollment to account for differences in the start and end dates for courses provided by the high school and higher education institution. Additionally, the office of the superintendent of public instruction, in consultation with the state board for community and technical colleges, the student achievement council, and the education data center, shall annually track and report to the fiscal committees of the legislature on the combined FTE experience of students participating in the running start program, including course load analyses at both the high school and community and technical college system.

(20) (a) Indirect cost charges by a school district to approved career and technical education middle and secondary programs shall not exceed 15 percent of the combined basic education and career and technical education program enhancement allocations of state funds. Middle and secondary career and technical education programs are considered separate programs for funding and financial reporting purposes under this section.

(b) Career and technical education program full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported career and technical education program enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support.

POINT OF ORDER

Representative Tarleton requested a scope and object ruling on amendment (385) to the striking amendment (330) to ENGROSSED SUBSTITUTE SENATE BILL NO. 5048.

SPEAKER'S RULING

Mr. Speaker (Representative Lovick presiding): *The bill before us is the operating budget. It makes appropriations for the 2017-19 biennium.*

The scope and object of a budget bill does not extend to permanent changes in substantive law.

Amendment 385 directs the Department of Health to adopt certain rules, but does not limit the application of those rules to the 2017-19 biennium.

The Speaker therefore finds and rules that the amendment is beyond the scope and object of the bill and that the point of order is well taken.

Representative Smith moved the adoption of amendment (391) to the striking amendment (330):

On page 105, line 18, increase the general fund-state appropriation for fiscal year 2018 by \$43,000

The child safety policy shall be for all organizations that provide recreational programming to individuals under age eighteen, including local government organizations and organizations that contract with local governments to provide such programming. The child safety policy must contain minimum standards that address the following: (i) screening and selection of employees and volunteers; (ii) guidelines for interactions between individuals; (iii) monitoring the behavior of employees, volunteers, and participants; (iv) ensuring safe environments; (v) responding to inappropriate behavior, breaches in policy, and allegations; and (vi) training about child sexual abuse prevention.

(b) The department shall encourage the contracted nongovernmental organization to work with organizations that provide recreational programming for individuals under age eighteen to establish the minimum standards, and these standards shall be used to approve the child safety policies of such organizations. The minimum standards must be developed and made available on the department's public web site by December 1, 2017.

(c) Beginning December 1, 2017, the department shall select a region of two contiguous counties, with a combined population between three hundred thousand and three hundred fifty thousand, for a pilot program, whereby participants are trained regarding the child safety policy developed by the nongovernmental organization. Under the pilot program, the department shall collaborate with the contracted nongovernmental organization and local governments of the two counties to ensure that, by June 30, 2018, all local government organizations within the two-county region that provide recreational programming for individuals under age eighteen have established and implemented a child safety policy that meets the minimum standards.

(d) By December 1, 2018, the department shall report the following to the appropriate committees of the legislature:

(i) a description of the pilot program and of the child safety policy requirements;

"(33) During the 2017-19 fiscal biennium, a disciplining authority identified in RCW 18.130.040 may not take adverse licensing action against a health care professional based solely on the standards articulated in the state supreme court's 2016 ruling in *Volk v. DeMeerleer*, unless the disciplining authority determines that the professional failed to provide a warning when there was an actual threat of physical violence that posed a serious or imminent threat to the health or safety of a reasonably identifiable person or persons."

On page 251, after line 9, insert the following:

"NEW SECTION. Sec. 756. FOR THE
DEPARTMENT OF ENTERPRISE SERVICES OFFICE
OF RISK MANAGEMENT--VOLK LIABILITY AND
INDEMNIFICATION

General Fund--State Appropriation (FY
2018) \$5,00,000

General Fund--State Appropriation (FY
2019) \$5,00,000

TOTAL APPROPRIATION
. \$10,000,000

(1) The legislature finds that there is an important state interest in promoting provision of behavioral health

care services in a variety of practice settings. The legislature further finds that the 2016 decision of the state supreme court in *Volk v. DeMeerleer* will impair access to these services due to broader tort liability for behavioral health care professionals who provide care in an outpatient setting, the consequent impact on these professionals' ability to secure insurance, and the resulting increased costs that will be borne by consumers and taxpayers. To mitigate these effects on access to behavioral health care, the legislature establishes the behavioral health care professionals indemnity pool. In addition, *Volk* may create new tort liability for the state, and ultimately the taxpayers, through the state's employment of, contracts with, or licensure of, behavioral health care professionals. This requires the legislature to account for these risks in the state's self-insurance liability program.

(2) Of the amounts provided in this section, \$4,500,000 of the general fund--state appropriation for fiscal year 2018 and \$4,500,000 of the general fund--state appropriation for fiscal year 2019 are provided solely for expenditure into the behavioral health care professionals indemnity pool account for purposes of subsection (3) of this section.

(3) (a) The behavioral health care professionals indemnity pool account is created in the custody of the state treasurer. Only the director of the office of risk management of the department of enterprise services or the director's designee may authorize expenditures from the account. An appropriation is not required for expenditures.

(b) If a final judgment is entered against a behavioral health care professional, and if the director determines that all or a portion of the judgment is based on the standards established in *Volk* for a special relationship and failure to warn foreseeable victims in an outpatient setting, then the director may authorize expenditures from the behavioral health care professionals indemnity account to wholly or partially indemnify the professional. If the director determines that the judgment is partially based on *Volk* and partially on other legal bases, then the director may provide partial indemnification in proportion to the portion of the judgment that the director

determines is attributable to Volk liability. However, the director may not provide indemnification if the director determines that the judgment is based on the behavioral health professional's failure to warn when there was an actual threat of physical violence that posed a serious or imminent threat to the health or safety of a reasonably identifiable person or persons.

(4) Of the amounts provided in this section, \$500,000 of the general fund--state appropriation for fiscal year 2018 and \$500,000 of the general fund--state appropriation are provided solely for expenditure into the state self-insurance liability account. This funding is provided to account for future state liability under the Volk standard for behavioral health care professionals employed, contracted, or licensed by the state.

(5) For purposes of this section, "behavioral health care professional" means:

(a) An adviser or counselor certified under chapter 18.19 RCW;

(b) A chemical dependency professional licensed under chapter 18.205 RCW;

(c) A marriage and family therapist licensed under chapter 18.225 RCW;

(d) A mental health counselor licensed under chapter 18.225 RCW;

(e) A physician licensed under chapter 18.71 RCW who is board-certified in psychiatry;

(f) An osteopathic physician licensed under chapter 18.57 RCW who is board-certified in psychiatry;

(g) An advanced registered nurse practitioner licensed under chapter 18.79 RCW who is board certified in advanced practice psychiatric and mental health nursing;

(h) An physician assistant licensed under chapter 18.71A RCW working with a supervising psychiatrist;

(i) An osteopathic physician assistant licensed under chapter 18.57A RCW working with a supervising psychiatrist;

(j) A psychologist licensed under chapter 18.83 RCW;

(k) An advanced social worker or independent clinical social worker licensed under chapter 18.225 RCW; and

(l) A social worker associate--advanced or social worker associate--independent clinical licensed under chapter 18.225 RCW."

Representative Pike moved the adoption of amendment (372) to the striking amendment (330):

On page 116, after line 3, insert the following:

"The appropriations in this subsection are subject to the following conditions and limitations: In addition to the requirements of RCW 72.09.100, the department of corrections shall elect workers' compensation and pay any workers' compensation premiums or costs due for

offenders under the custody of the department working or performing services for a local government or nonprofit organization under a class IV or class V correctional industries work program adopted by the department. \$193,000 of the general fund-state appropriation for fiscal year 2018 and \$210,000 of the general fund-state appropriation for fiscal year 2019 are provided solely for these purposes.

(a) In addition to the requirements of RCW 51.12.045, when an offender under the department's jurisdiction provides services to a public benefit nonprofit or local government entity, the department's payment of offender labor and industries workers' compensation premiums does not in any way establish the department as the employer for department of labor and industries purposes and statutes. Therefore, the department will not be required to behave as the employer, which includes, but is not limited to, supervising the work performed by offenders, training offenders for a specific work project, or ensuring work site compliance with department of labor and industries workplace safety standards.

(b) The legislature intends to make these changes to correctional industries practice permanent in future biennia in order to allow the department of corrections to maintain cost-effective business practices, provide cost-saving work services to local communities, and continue to effectively reduce recidivism by allowing maximum statewide participation in correctional industries work programs."

On page 284, after line 21, insert the following:

"Sec. 961. RCW 51.12.045 and 2002 c 175 s 40 are each amended to read as follows:

In the case of an offender who is under the custody of the state, any premiums or assessments due under this title for community work shall be the obligation of and be paid for by the state agency that has custody of the offender. Coverage commences when ((a))the state agency, county, city, town, or nonprofit organization has given notice to the director that it ((wishes to cover)) is covering offenders performing community restitution before the occurrence of an injury or contraction of an occupational disease."

On page 298, after line 28, insert the following:

"Sec. 965. RCW 72.09.100 and 2012 c 220 s 2 are each amended to read as follows:

It is the intent of the legislature to vest in the department the power to provide for a comprehensive inmate work program and to remove statutory and other restrictions which have limited work programs in the past. It is also the intent of the legislature to ensure that the department, in developing and selecting correctional industries work programs, does not encourage the development of, or provide for selection of or contracting for, or the significant expansion of, any new or existing class I correctional industries work programs that unfairly compete with Washington businesses. The legislature intends that the requirements relating to fair competition in the correctional industries work programs be liberally construed by the department to protect Washington businesses from unfair competition. For purposes of establishing such a comprehensive program, the legislature recommends that the department consider adopting any or all, or any variation of, the following classes of work programs:

(1) CLASS I: FREE VENTURE INDUSTRIES.

(a) The employer model industries in this class shall be operated and managed in total or in part by any profit or nonprofit organization pursuant to an agreement between the organization and the department. The organization shall produce goods or services for sale to both the public and private sector.

(b) The customer model industries in this class shall be operated and managed by the department to provide Washington state manufacturers or businesses with products or services currently produced or provided by out-of-state or foreign suppliers.

(c) The department shall review these proposed industries, including any potential new class I industries work program or the significant expansion of an existing class I industries work program, before the department contracts to provide such products or services. The review shall include the analysis required under RCW 72.09.115 to determine if the proposed correctional industries work program will compete with any Washington business. An agreement for a new class I correctional industries work program, or an agreement for a significant expansion of an existing class I correctional industries work program, that unfairly competes with any Washington business is prohibited.

(d) The department shall supply appropriate security and custody services without charge to the participating firms.

(e) Inmates who work in free venture industries shall do so at their own choice. They shall be paid a wage comparable to the wage paid for work of a similar nature in the locality in which the industry is located, as determined by the director of correctional industries. If the director cannot reasonably determine the comparable wage, then the pay shall not be less than the federal minimum wage.

(f) An inmate who is employed in the class I program of correctional industries shall not be eligible for unemployment compensation benefits pursuant to any of the provisions of Title 50 RCW until released on parole or discharged.

(2) CLASS II: TAX REDUCTION INDUSTRIES.

(a) Industries in this class shall be state-owned and operated enterprises designed primarily to reduce the costs for goods and services for tax-supported agencies and for nonprofit organizations.

(b)(i) The industries selected for development within this class shall, as much as possible, match the available pool of inmate work skills and aptitudes with the work opportunities in the free community. The industries shall be closely patterned after private sector industries but with the objective of reducing public support costs rather than making a profit.

(ii) Except as provided in *RCW 43.19.534(3) and this section, the products and services of this industry, including purchased products and services necessary for a complete product line, may be sold to the following:

- (A) Public agencies;
- (B) Nonprofit organizations;

(C) Private contractors when the goods purchased will be ultimately used by a public agency or a nonprofit organization;

(D) An employee and immediate family members of an employee of the department;

(E) A person under the supervision of the department and his or her immediate family members; and

(F) A licensed health professional for the sole purpose of providing eyeglasses to enrollees of the state medical program at no more than the health professional's cost of acquisition.

(iii) The department shall authorize the type and quantity of items that may be purchased and sold under (b)(ii)(D) and (E) of this subsection.

(iv) It is prohibited to purchase any item purchased under (b)(ii)(D) and (E) of this subsection for the purpose of resale.

(v) Clothing manufactured by an industry in this class may be donated to nonprofit organizations that provide clothing free of charge to low-income persons.

(c) Under no circumstance shall offenders under the custody of the department of corrections make or assemble uniforms to be worn by correctional officers employed with the department.

(d)(i) Class II correctional industries products and services shall be reviewed by the department before offering such products and services for sale to private contractors.

(ii) The secretary shall conduct a yearly marketing review of the products and services offered under this subsection. Such review shall include an analysis of the potential impact of the proposed products and services on the Washington state business community. To avoid waste or spoilage and consequent loss to the state, when there is no public sector market for such goods, by-products and surpluses of timber, agricultural, and animal husbandry enterprises may be sold to private persons, at private sale.

Surplus by-products and surpluses of timber, agricultural and animal husbandry enterprises that cannot be sold to public agencies or to private persons may be donated to nonprofit organizations. All sales of surplus products shall be carried out in accordance with rules prescribed by the secretary.

(e) Security and custody services shall be provided without charge by the department.

(f) Inmates working in this class of industries shall do so at their own choice and shall be paid for their work on a gratuity scale which shall not exceed the wage paid for work of a similar nature in the locality in which the industry is located and which is approved by the director of correctional industries.

(g) Provisions of RCW 41.06.142 shall not apply to contracts with Washington state businesses entered into by the department through class II industries.

(3) CLASS III: INSTITUTIONAL SUPPORT INDUSTRIES.

(a) Industries in this class shall be operated by the department. They shall be designed and managed to accomplish the following objectives:

(i) Whenever possible, to provide basic work training and experience so that the inmate will be able to qualify for better work both within correctional industries and the free community. It is not intended that an inmate's work within this class of industries should be his or her final and total work experience as an inmate.

(ii) Whenever possible, to provide forty hours of work or work training per week.

(iii) Whenever possible, to offset tax and other public support costs.

(b) Class III correctional industries shall be reviewed by the department to set policy for work crews. The department shall prepare quarterly detail statements showing where work crews worked, what correctional industry class, and the hours worked.

(c) Supervising, management, and custody staff shall be employees of the department.

(d) All able and eligible inmates who are assigned work and who are not working in other classes of industries shall work in this class.

(e) Except for inmates who work in work training programs, inmates in this class shall be paid for their work in accordance with an inmate gratuity scale. The scale shall be adopted by the secretary of corrections.

(4) CLASS IV: COMMUNITY WORK INDUSTRIES.

(a) Industries in this class shall be operated by the department. They shall be designed and managed to provide services in the inmate's resident community at a reduced cost. The services shall be provided to public agencies, to persons who are poor or infirm, or to nonprofit organizations.

(b) Class IV correctional industries shall be reviewed by the department to set policy for work crews. The department shall prepare quarterly detail statements showing where work crews worked, what correctional industry class, and the hours worked. Class IV correctional industries operated in work camps established pursuant to RCW 72.64.050 are exempt from the requirements of this subsection (4)(b).

(c) Inmates in this program shall reside in facilities owned by, contracted for, or licensed by the department. A unit of local government shall provide work supervision services without charge to the state and shall pay the inmate's wage.

(d) ((The department shall reimburse participating units of local government for liability and workers compensation insurance costs.

+e))) Inmates who work in this class of industries shall do so at their own choice and shall receive a gratuity which shall not exceed the wage paid for work of a similar nature in the locality in which the industry is located.

(5) CLASS V: COMMUNITY RESTITUTION PROGRAMS.

(a) Programs in this class shall be subject to supervision by the department. The purpose of this class of industries is to enable an inmate, placed on community supervision, to work off all or part of a community restitution order as ordered by the sentencing court.

(b) Employment shall be in a community restitution program operated by the state, local units of government, or a nonprofit agency.

((c) To the extent that funds are specifically made available for such purposes, the department shall reimburse nonprofit agencies for workers compensation insurance costs.))"
