Sec. 3. RCW 80.50.060 and 2007 c 325 s 2 are each amended to read as follows:

(1) The provisions of this chapter apply to the construction of energy facilities which includes the new construction of energy facilities and the reconstruction or enlargement of existing energy facilities where the net increase in physical capacity or dimensions resulting from such reconstruction or enlargement exceeds those capacities or dimensions set forth in RCW 80.50.020 (7 and 15) (2) and (21). No construction of such energy facilities may be undertaken, except as otherwise provided in this chapter, after July 15, 1977, without first obtaining certification in the manner provided in this chapter.

(2) The provisions of this chapter apply to the construction, reconstruction, or enlargement of a new or existing energy facility that exclusively uses alternative energy resources and chooses to receive certification under this chapter,
regardless of the generating capacity of the project.

(3)(a) The provisions of this chapter apply to the construction, reconstruction, or modification of electrical transmission facilities when:

(i) The facilities are located in a national interest electric transmission corridor as specified in RCW 80.50.045;

(ii) An applicant chooses to receive certification under this chapter, and the facilities are: (A) Of a nominal voltage of at least one hundred fifteen thousand volts and are located in a completely new corridor, except for the terminus of the new facility or interconnection of the new facility with the existing grid, and the corridor is not otherwise used for electrical transmission facilities; and (B) located in more than one jurisdiction that has promulgated land use plans or zoning ordinances; or

(iii) An applicant chooses to receive certification under this chapter, and the facilities are: (A) Of a nominal voltage in excess of one hundred fifteen thousand volts; and (B) located outside an electrical transmission corridor identified in (a)(i) and (ii) of this subsection (3).

(b) For the purposes of this subsection, "modify" means a significant change to an electrical transmission facility and does not include the following: (i) Minor improvements such as the replacement of existing transmission line facilities or supporting structures with equivalent facilities or structures; (ii) the relocation of existing electrical transmission line facilities; (iii) the conversion of existing overhead lines to underground; or (iv) the placing of new or additional conductors, supporting structures, insulators, or their accessories on or replacement of supporting structures already built.

(4) The provisions of this chapter shall not apply to normal maintenance and repairs which do not increase the capacity or dimensions beyond those set forth in RCW 80.50.020 ((4)) and (11) and (21).

(5) Applications for certification of energy facilities made prior to July 15, 1977, shall continue to be governed by the applicable provisions of law in effect on the day immediately preceding July 15, 1977, with the exceptions of RCW 80.50.190 and 80.50.071 which shall apply to such prior applications and to site certifications prospectively from July 15, 1977.

(6) Applications for certification shall be upon forms prescribed by the council and shall be supported by such information and technical studies as the council may require.

(7) Upon receipt of an application for certification under this chapter, the chair shall notify:

(a) The department of agriculture;
(b) The department of health;
(c) The military department;
(d) The department of transportation;
(e) The appropriate county legislative authority where the proposed facility is located; and
(f) The appropriate federally recognized tribal governments affected by the proposed facility.

(8) The council shall work with local governments where a project is proposed to be sited in order to ensure meaningful participation and input during siting review and compliance monitoring.

(9) The council must work with all federally recognized tribal governments affected by a proposed facility in order to ensure meaningful participation and input during siting review and compliance monitoring. Consistent with RCW 43.376.020, the chair and designated staff must conduct government-to-government meetings to address tribal issues of concern. The chair must provide regular meeting updates to the council throughout the application review process. The report required in RCW 80.50.100 must include a summary of the government-to-government meetings, including the issues and resolutions.

Sec. 4. RCW 80.50.090 and 2006 c 205 s 3 and 2006 c 196 s 6 are each reenacted and amended to read as follows:

(1) The council shall conduct an informational public hearing in the county of the proposed site as soon as practicable but not later than sixty days after receipt of an application for site certification. However, the place of such public hearing shall be as close as practical to the proposed site. ((4))
At this hearing, the council shall conduct a public hearing to determine) must take public comment on the application for site certification, as well as whether or not the proposed site is consistent and in compliance with city, county, or regional land use plans or zoning ordinances in effect on the date of the application. (If it is determined that the proposed site does conform with existing land use plans or zoning ordinances in effect as of the date of the application, the city, county, or regional planning authority shall not thereafter change such land use plans or zoning ordinances so as to affect the proposed site.)

(2) After the completion of tribal consultation and its environmental review under chapter 43.21C RCW, the council shall determine whether genuine issues of fact exist on matters the council deems material to its recommendation to the governor. A council determination that such issues do not exist may only be made after holding a hearing to take public comment on the question and after tribal consultation is complete. If the council determines that such issues do not exist and that under subsection (1) of this section the proposed site is consistent and in compliance with city, county, or regional land use plans or zoning ordinances, the council may waive the adjudicative proceeding required by subsection (3) of this section. Waiving the adjudicative proceeding requires a vote of the council.

(3) Prior to the issuance of a council recommendation to the governor under RCW 80.50.100, a public hearing, conducted as an adjudicative proceeding under chapter 34.05 RCW, the administrative procedure act, shall be held unless previously waived in accordance with subsection (2) of this section. At such a public hearing any person shall be entitled to be heard in support of or in opposition to the application for certification.

(4) Additional public hearings shall be held as deemed appropriate by the council in the exercise of its functions under this chapter.

Sec. 5. RCW 80.50.100 and 2011 c 180 s 109 are each amended to read as follows:

(1)(a) The council shall report to the governor its recommendations as to the approval or rejection of an application for certification within twelve months of receipt by the council of such an application deemed complete by the council, or such later time as is mutually agreed by the council and the applicant.

(b) In the case of an application filed prior to December 31, 2025, for certification of an energy facility proposed for construction, modification, or expansion for the purpose of providing generating facilities that meet the requirements of RCW 80.80.040 and are located in a county with a coal-fired electric generating facility subject to RCW 80.80.040(3)(c), the council shall expedite the processing of the application pursuant to RCW 80.50.075 and shall report its recommendations to the governor within one hundred eighty days of receipt by the council of such an application, or a later time as is mutually agreed by the council and the applicant.

(2) If the council recommends approval of an application for certification, it shall also submit a draft certification agreement with the report. The council shall include conditions in the draft certification agreement to implement the provisions of this chapter, including, but not limited to, conditions to protect state or local governmental or community interests affected by the construction or operation of the energy facility, and conditions designed to recognize the purpose of laws or ordinances, or rules or regulations promulgated thereunder, that are preempted or superseded pursuant to RCW 80.50.110 as now or hereafter amended.

(3)(a) Within sixty days of receipt of the council's report the governor shall take one of the following actions:

(i) Approve the application and execute the draft certification agreement; or

(ii) Reject the application; or

(iii) Direct the council to reconsider certain aspects of the draft certification agreement.

(b) The council shall reconsider such aspects of the draft certification agreement by reviewing the existing record of the application or, as necessary, by reopening the adjudicative
proceeding for the purposes of receiving additional evidence. Such reconsideration shall be conducted expeditiously. The council shall submit the draft certification to the governor incorporating any amendments deemed necessary upon reconsideration. Within sixty days of receipt of such draft certification agreement, the governor shall either approve the application and execute the certification agreement or reject the application. The certification agreement shall be binding upon execution by the governor and the applicant.

(4) The rejection of an application for certification by the governor shall be final as to that application but shall not preclude submission of a subsequent application for the same site on the basis of changed conditions or new information.

Sec. 6. RCW 80.50.175 and 1983 c 3 s 205 are each amended to read as follows:

(1) In addition to all other powers conferred on the council under this chapter, the council shall have the powers set forth in this section.

(2) (a) The council, upon ((request of)) agreement with any potential applicant, is authorized, as provided in this section, to conduct a preliminary study of any potential ((site)) project prior to receipt of an application for site certification. A fee of ten thousand dollars for each potential ((site)) project, to be applied toward the cost of any study agreed upon pursuant to (b) of this subsection ((4) of this section)), shall accompany the ((request of)) agreement and shall be a condition precedent to any action on the ((request of)) agreement by the council.

(4) Any study prepared by the council pursuant to subsection (3) of this section may be used in place of the “detailed statement” required by RCW 43.21C.030(2)(a) by any branch of government except the council created pursuant to chapter 80.50 RCW.

(3) All payments required of the potential applicant under this section are to be ((made to the state treasurer, who in turn shall pay the consultant as instructed by the council)) deposited with the utilities and transportation commission. All such funds shall be subject to state auditing procedures. Any unexpended portions thereof shall be returned to the potential applicant.

(5) Nothing in this section shall change the requirements for an application for site certification or the requirement of payment of a fee as (4) (4)

If a potential applicant subsequently submits a formal application for site certification for an energy facility at the site where a preliminary study was conducted, payment made under this section for that study may be considered as payment towards the application fee provided in RCW 80.50.071((, or change the time for disposition of an application for certification as provided in RCW 80.50.100.))

7) Nothing in this section shall be construed as preventing a city or county from requiring any information it deems appropriate to make a decision approving a particular location)."

(1) Any person filing an application for certification of an energy facility (or an alternative energy resource facility) pursuant to this chapter may apply to the council for an expedited processing of such an application. The application for expedited processing shall be submitted to the council in such form and manner and accompanied by such information as may be prescribed by council rule. The council may grant an applicant expedited processing of an application for certification upon finding that the environmental impact of the proposed energy facility is not significant or will be mitigated to a nonsignificant level under RCW 43.21C.031 and the project is found under RCW 80.50.090((2)) to be consistent and in compliance with city, county, or regional land use plans or zoning ordinances.

(2) Upon granting an applicant expedited processing of an application for certification, the council shall not be required to:
