

## Building Definitions

Data Element	Description
<b>Basic Information</b>	
School Name(s)	Schools using this building - list schools that report WASL scores
Building Address	Street address of building
Number of Stories	Finished, occupied levels in building
Year of Occupancy	Calendar year the building was first occupied by students
Building SF (gross)	All space, including covered play areas
Covered play area SF	Total SF for covered play areas
Building Use by percentage	Enter percentages based on building usage (average hours/week)
Grade Levels	All that apply, from pre-K to post-12
<b>Construction Information</b>	
Construction Type	Heavy (fire resistive, non-combustible) Medium (ordinary, heavy timber) Light (lightweight wood frame) Temporary (portable, modular, short-term construction)
Year of Construction	Calendar year in which all construction documents approved
Total Construction Costs	All costs directly related to the original construction of the building
State-Funded Construction Costs	All costs directly related to the original construction that were funded by the state
Total Non-Construction Costs	All non-construction costs related to the original construction of the building (e.g., permitting)
Total State-Funded Non-Construction Costs	All non-construction costs related to the original construction that were funded by the state
<b>Modernization Information</b>	
Year of Most Recent Modernization	The calendar year of the most recent modernization work
Total Modernization Construction Costs	All costs directly related to the construction of the building's most recent modernization
State-Funded Modernization Construction Costs	All costs funded by the state that are directly related to the construction of the building's most recent modernization
Total Non-Construction Modernization Costs	All non-construction costs related to the most recent modernization of the building
Total State-Funded Non-Construction Modernization Costs	All non-construction costs funded by the state that are related to the most recent modernization

Data Element	Description
<b>Planned Building Capacity</b>	
Planned Number of Students (FTE)	Expected number of student FTEs for the building
Planned Number of Certificated Staff (FTE)	Expected number of certificated staff FTEs for the building
Planned Number of Other Staff (FTE)	Expected number of non-certificated staff FTEs for the building
Planned Number of Students (Headcount)	Expected number of actual students for the building
Planned Number of Certificated Staff (Headcount)	Expected number of actual certificated staff for the building
Planned Number of Other Staff (Headcount)	Expected number of actual non-certificated staff for the building
<b>Building Use Information</b>	
Actual Number of Students (FTE)	Total student FTEs as reported on Form SPI P-223 (OSPI) for October 1, 2008
Actual Number of Certificated Staff (FTE)	Total certificated staff FTEs as reported on Form S-275 (OSPI) for October 1, 2008
Actual Number of Other Staff (FTE)	Total non-certificated staff FTEs as reported on Form S-275 (OSPI) for October 1, 2008
Actual Number of Students (Headcount)	Total actual students as reported on Form SPI P-223 (OSPI) for October 1, 2008
Actual Number of Certificated Staff (Headcount)	Total actual certificated staff as reported on Form S-275 (OSPI) for October 1, 2008
Actual Number of Other Staff (Headcount)	Total actual non-certificated staff as reported on Form S-275 (OSPI) for October 1, 2008
<b>Health/Safety</b>	
Date of last local Board of Health assessment	The date of the last local Board of Health assessment
Environmental health/safety improvements made within the last two years	Any improvements made within the last two years that are specifically related to environmental health/safety
<b>Maintenance &amp; Operations</b>	
<i>See the "Building Maintenance &amp; Operations" section for definitions</i>	
<b>Energy Efficiency</b>	
Sustainable Schools Protocol Score	If available, please provide score
Leadership in Energy and Environmental Design (LEED) Score	If available, please provide score
Separate utility meters to measure energy costs	Please indicate the lowest level at which you have separate energy meters: site, school or building.
Non-renewable energy source(s)	Indicate all that apply
Renewable energy source(s)	Indicate all that apply
Energy costs and consumption	Indicate annual cost, consumption, and reporting year for primary source of energy. Use comments to indicate units of measure, as well as any secondary source data.
Water costs and consumption	Indicate annual cost, consumption, and reporting year.
