# REQUEST FOR PROPOSALS EVALUATION OF STATE-LEVEL TRANSPORTATION PLANS

The Legislature has directed the Joint Transportation Committee (JTC) to “evaluate the preparation of state-level transportation plans. The evaluation must include a review of federal planning requirements, the Washington transportation plan and statewide modal plan requirements, and transportation plan requirements for regional and local entities. The evaluation must make recommendations concerning the appropriate responsibilities for preparation of plans, methods to develop plans more efficiently, and the utility of statewide planning documents.” ESSB 6381, §204(7) [2010].

JTC staff are preparing the contemplated review of planning requirements. The Committee is requesting proposals to assist it in carrying out the remainder of the study.

## **I. Background**

The Washington State Legislature appropriates funds for the maintenance, preservation, and improvement of the state-wide transportation system. State and regional transportation agencies inform that process by developing transportation plans, many required by Federal or State law.

Planning requirements come from three primary sources: 1) Federal planning requirements; 2) legislatively-mandated state planning requirements; and 3) local planning requirements, including those mandated by the Growth Management Act.

Eligibility for federal funds is contingent on compliance with federal planning requirements, but some state regional planning laws are permissive and rely on the voluntary compliance of local jurisdictions. The Legislature has assigned planning responsibilities to

both the Transportation Commission (WSTC) and the Department of Transportation (WSDOT).

Recent changes in transportation governance have produced some ambiguity in the distribution of planning responsibilities. Before 2005 WSDOT's secretary served at the pleasure of and reported to the WSTC. In 2005 the Legislature created a new role for the WSTC by making WSDOT into a cabinet agency whose secretary was appointed directly by the Governor. The governance bill did not reallocate statutory planning responsibilities.

During the same session that it changed transportation governance, the Legislature directed the Transportation Performance Audit Board (TPAB) to study transportation goals, benchmarks and investment criteria. The resulting study (which can be viewed at [http://www.wstc.wa.gov/TPAB/Benchmark\\_FINAL\\_Report.pdf](http://www.wstc.wa.gov/TPAB/Benchmark_FINAL_Report.pdf) ) included a review of state transportation planning process and criteria. The Legislature adopted planning goals and requirements recommended by the study in 2007 (SSB 5412).

With these significant changes, it is often a challenge for the Legislature to integrate the different plans into an effective tool to inform state-wide transportation decision-making, or to understand the comprehensive nature of what is required under existing federal and state transportation planning laws. The Legislature is interested in evaluating and improving the state-level transportation planning process, including streamlining by eliminating any unnecessarily duplicative requirements.

## II. SCOPE OF WORK

**The key objectives of the study are to recommend appropriate assignment and coordination of state-level planning responsibilities and identify: 1) necessary or desirable planning elements; and 2) methods to develop state level plans more efficiently.** This requires performance of the tasks described below with input from the JTC members and staff, and staff from the Senate Transportation Committee and House Transportation Committee.

The description below is not intended to fully encompass the study's tasks, but instead includes the minimum requirements in order to provide the consultant with a framework for the study. Additions and innovations that accomplish the study's tasks, or other tasks recommended by the consultant, are encouraged.

### Research Tasks:

1. Review federal planning requirements, Washington transportation plan and statewide modal plan requirements, and transportation plan requirements for regional and local entities, and any other state transportation planning requirements. This work should incorporate and build on the planning review work done as part of the 2006 TPAB report. JTC staff are preparing a preliminary review of these requirements.

2. Identify roles and responsibilities of state, regional and local planning agencies in developing these plans, including areas of overlapping or ambiguous responsibility. This should include:
  - a. Identifying the interplay between the Washington Transportation Plan and WSDOT's various plans, including the multimodal plan, in terms of plan development, content, and timeframe for development. This task includes a review of both statutory requirements and actual practice – which may or may not be different.
  - b. Reviewing the degree to which plans are vertically integrated – whether and how local plans contribute to the regional plan and the state plan, and whether in developing the state plan, WSDOT consults with and integrates regional and local plans.
  - c. Identification of plans prepared by state or regional planning entities that may not be required by state or federal law, and the rationale and usefulness for such plans.
3. Examine currently developed plans to determine how the plans are currently used and by whom, including how they inform state transportation investment decisions and the establishment of statewide transportation policy.
4. Identify resources used for state level transportation planning, including FTEs, expenditures, and source of funds.
5. Identify and evaluate successful statewide planning organizational structures from other states.

The successful consultant will produce a white paper presenting the results of these research tasks.

Analysis & Recommendation Tasks: Based on the results of the research, evaluate and provide options, including recommended options for:

1. How should planning responsibility be allocated among state agencies? The analysis should include options for coordination or consolidation of activities among state transportation planning agencies.
2. What statewide planning documents should be produced? This task includes review of current planning documents, analysis of utility, and developing options to enhance utility. The evaluation should include recommended options for more efficient development and maintenance of plans, including repeal of obsolete or unnecessarily duplicative planning requirements.

The successful consultant will produce a report documenting and supporting their recommendations.

The consultant must submit a final report incorporating the white paper and their recommendations to the transportation committees of the Legislature by December 15, 2010, including draft legislation if recommended. Meeting this deadline requires

submitting a draft final report to the JTC Project Manager by November 15, 2010, for presentation at the JTC's December 1, 2010 meeting. The successful consultant will anticipate revision of the draft report based on JTC input throughout the process.

### **III. CONTRACT DELIVERABLES**

The successful consultant will provide the following services and deliverables:

1. Within five (5) calendar days after the award date of the contract, the consultant shall submit a work plan to meet the requirements in Section II, of this RFP, and any changes necessary based on additional information. The work plan shall include:
  - Specific steps detailing how this study will be carried out;
  - The specific tasks to be performed and by whom;
  - The expected duration and level of effort in hours by person;
  - The specific data that will be needed, along with data sources; and
  - A schedule for performing the tasks.

The JTC will review, comment on, and approve the final work plan. Any subsequent changes to the work plan shall also require approval by the JTC.

2. Prepare and present monthly interim progress briefings to the JTC Project Manager, The briefing may be by phone and should include written progress reports that address and summarize the issues in the consultant's contracted Scope of Work and Work Plan.
3. Must submit working papers on each task as they are completed, to the JTC Project Manager. Progress payments will depend on meeting these milestones.
4. Provide presentations to the JTC members at the following currently scheduled meetings: 1) July 15<sup>th</sup> in Redmond – introductory presentation; 2) October 12<sup>th</sup> in Seattle – status report; 3) December 1 in Olympia – presentation of draft final report. A report to the House and Senate Transportation Committees is anticipated in the 2011 session.
5. Prepare a draft final and final report, including draft legislation if warranted. Legislation, if any, will be drafted with the assistance of legislative staff. The report should describe the analysis, findings, conclusions, and recommendations for the contracted Scope of Work and Work Plan. The JTC will provide comments. After reviewing and incorporating the JTC's comments, the consultant will finalize the report and submit up to 75 paper copies and an electronic PDF copy on CD or flash drive to the JTC Project Manager. The Consultant is expected to submit a draft report to the JTC by November 15, 2010, finalize the report in early December, 2010, and to provide the report to the House and Senate Transportation Committees by December 15, 2010.

6. Prepare an executive summary of the final report.
7. Provide an electronic copy of a Power Point presentation for this study and be prepared to present the report to the House and/or Senate Transportation Committees upon request.

**XII. PROPRIETARY INFORMATION**

All proposals received shall become public record, but shall remain confidential until the successful bidder resulting from this RFP, if any, is announced. Thereafter, proposals shall be available for public inspection and copying as required by Chapter 42.56 RCW (the principal Washington State statute pertaining to accessibility to public records) except as exempted in that chapter or by other. Bidders are advised that the permissible exemptions from public disclosure pursuant to Chapter 42.56 RCW are very narrow in scope and will be strictly construed. In the event that a bidder desires to claim portions of its proposal as exempt from disclosure under the provisions of the aforementioned RCW, it is incumbent upon that bidder to clearly identify those portions in a proposal transmittal letter. The transmittal letter must identify the page and particular exemption(s) from disclosure upon which it is making its claim. Further, each page claimed to be exempt must be clearly identified by the word "CONFIDENTIAL" printed on the lower right-hand corner of the page. ***Designating the entire proposal as confidential is not acceptable and will not be honored.***

**NOTE:** The proposal of the successful bidder will be attached to the resulting contract and incorporated therein by that attachment. Therefore, as part of a public state agency contract, the *entirety* of the successful bidder's proposal will be subject to public disclosure regardless of any claim of confidentiality or previously applicable statutory exemption. Nevertheless, should a successful bidder obtain a court order from a Washington State court of competent jurisdiction prohibiting disclosure of parts of its proposal prior to the execution of the contract incorporating the same, the JTC shall comply with the court order. The burden is upon the successful bidder to evaluate and anticipate its need to maintain confidentiality and to proceed accordingly. Timeliness will be of the essence; a delay in execution of the contract to accommodate a petition to the courts will not be allowed.

**XIII. JTC RIGHTS**

1. Determination of clarity and completeness in the responses to any of the provisions in this RFP will be made solely by the JTC. The JTC reserves the right to require clarification, additional information, and materials in any form relative to any or all of the provisions or conditions of this RFP.
2. The JTC reserves the right to reject any or all proposals at any time prior to the execution of a contract acceptable to the JTC, without any penalty to the JTC.

3. The JTC intends to award the contract to the Bidder with the best combination of attributes based on the evaluation criteria listed in Section X of this RFP. This RFP does not, however, obligate the JTC to contract for services herein.
4. Should the JTC fail to negotiate a contract with the Apparently Successful Bidder, the JTC reserves the right to negotiate and contract with the next most qualified Bidder.
5. The JTC reserves the right to waive specific terms and conditions contained in this RFP.
6. It shall be understood by Bidders that the proposal is predicated upon acceptance of all terms and conditions contained in this RFP unless the Bidder has obtained such a waiver, in writing, from the JTC prior to submission of the proposal. Any such waiver will be granted to all Bidders.
7. The JTC reserves the right, at its sole discretion, to waive minor administrative irregularities contained in any Bidder's proposal.

**Thank you for your interest.**

CHANGES AND MODIFICATIONS -- The JTC may, at any time, by written notification to the Contractor and without notice to any known guarantor or surety, make changes in the general scope of the services to be performed under the contract. If any such changes cause an increase or decrease in the cost of, or the time required for the performance of this contract, an equitable adjustment may be made in the contract price or period of performance, or both, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the date of Contractor's receipt of the notice of such change; *provided*, however, that the JTC may, upon determining that the facts justify such action, receive and act upon such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

DISPUTES -- If a dispute should arise between the Contractor and JTC regarding the performance or expected outcomes of the contract, such dispute shall be referred to the JTC Coordinator for review and decision. If the decision by the JTC Coordinator is not satisfactory to the Contractor, the Contractor may request in writing that the dispute be reviewed by the executive committee of JTC. Such written request shall be provided to the JTC Coordinator within five (5) days following the Coordinator's decision. The Coordinator shall present the written request to the executive committee at its earliest convenience for review and decision. The decision of the executive committee shall become final and binding.

Unless mutually agreed to by the JTC and the Contractor, the work to be performed under this agreement shall not be delayed or stopped during the review of a dispute either by the JTC Staff Coordinator or the JTC Executive Committee.

TERMINATION FOR DEFAULT -- By written notice, JTC may terminate the contract, in whole or in part, for failure of the Contractor to perform any of the provisions hereof. In such event the Contractor shall be liable for damages as authorized by law including, but not limited to, any cost difference between the original contract and the replacement or cover contract and all administrative costs directly related to the replacement contract, e.g., cost of the mailing, advertising, and staff time; *provided*, that if (i) it is determined for any reason the Contractor was not in default, or (ii) the Contractor's failure to perform is without Contractor's and/or Subcontractor's control, fault or negligence, the termination shall be deemed to be a Termination for Convenience.

TERMINATION FOR CONVENIENCE -- Except as otherwise provided in this contract, the JTC may, by five (5) days written notice, beginning on the second day after the mailing, terminate this contract in whole or in part when it is in the best interests of JTC. If this contract is so terminated, JTC shall be liable only for payment in accordance with the terms of this contract for services rendered prior to the effective date of termination.

TERMINATION PROCEDURE -- Upon termination of this contract, JTC, in addition to any other rights provided in this contract, may require the Contractor to deliver to JTC any property specifically produced or acquired for the performance of such part of this contract as has been

terminated. The provisions of the "Treatment of Assets" clause shall apply in such property transfer.

JTC shall pay to the Contractor the agreed upon price, if separately stated, for completed work and services accepted by JTC, and the amount agreed upon by the Contractor and JTC for (i) completed work and services for which no separate price is stated, (ii) partially completed work and services, (iii) other property or services which are accepted by JTC, and (iv) the protection and preservation of property, unless the termination is for default, in which case the JTC shall determine the extent of the liability of JTC. Failure to agree with such determination shall be a dispute within the meaning of the "Disputes" clause of this contract. JTC may withhold from any amounts due the Contractor such sum as the JTC determines to be necessary to protect JTC against potential loss or liability.

The rights and remedies of JTC provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

After receipt of a notice of termination, and except as otherwise directed by the JTC, the Contractor shall:

1. Stop work under the contract on the date, and to the extent specified, in the notice;
2. Place no further orders or subcontracts for materials, services, or facilities except as may be necessary for completion of such portion of the work under the contract as is not terminated;
3. Assign to JTC, in the manner, at the times, and to the extent directed by the JTC, all of the rights, title, and interest of the Contractor under the orders and subcontracts so terminated, in which case JTC has the right, at its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;
4. Settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts, with the approval or ratification of the JTC to the extent the JTC may require, which approval or ratification shall be final for all the purposes of this clause;
5. Transfer title to JTC and deliver in the manner, at the times, and to the extent directed by the JTC any property which, if the contract has been completed, would have been required to be furnished to JTC;
6. Complete performance of such part of the work as shall not have been terminated by the JTC; and
7. Take such action as may be necessary, or as the JTC may direct, for the protection and preservation of the property related to this contract which is in the possession of the Contractor and in which JTC has or may acquire an interest.

GOVERNING LAW -- This contract shall be governed by the laws of the state of Washington. In the event of a lawsuit involving this contract, venue shall be proper only in Thurston County. The Contractor, by execution of this contract, acknowledges the jurisdiction of the courts of the state of Washington in this matter.

SEVERABILITY -- If any provision of this contract or any provision of any document

incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this contract which can be given effect without the invalid provision, and to this end the provisions of this contract are declared to be severable.

FORCE MAJEURE -- Neither party shall be liable to the other or deemed in default under this contract for any delay or failure to perform its obligations under this contract if such delay or failure arises from any cause or causes beyond the reasonable control of the parties and without fault or negligence of the parties, including and not limited to acts of God, war, riots, strikes, fire, floods, earthquakes, epidemics, or other similar circumstances.

SCOPE OF CONTRACT -- This contract and the attachments incorporate all the contracts, covenants, and understandings between the parties concerning the subject matter, and all such covenants, agreements, and understandings have been merged into this contract. No prior contract or understandings, verbal or otherwise, of the parties or their agents shall be valid or enforceable unless embodied in this contract.

CHANGE OF CONTROL OR PERSONNEL -- Contractor shall promptly and in any case within twenty-four (24) hours notify the JTC Contract Coordinator in writing:

1. If any of the representations and warranties of the Contractor set forth in this contract shall cease to be true at any time during the term of this contract;
2. Of any material change in the Contractor's management staff;
3. Of any change in control of the Contractor or in the business structure of the Contractor; or
4. Of any other material change in the Contractor's business, partnership, or corporate organization relating to this engagement. All written notices regarding changes in management staff shall contain the same information about newly assigned management staff as was requested by JTC in the RFP and such additional information as may be requested by the JTC. For purposes hereof, the term "management staff" shall mean those persons identified as senior management in any response to a RFP or who otherwise will exercise a major administrative role or major policy or consultant role to the provision of the Contractor's services hereunder. All written notices regarding changes in control of the Contractor shall contain the same information about any new controlling entity as was requested by JTC in the RFP regarding the Contractor and such additional information as may be requested by JTC.

Approval of these changes rests solely with JTC and will not be unreasonably withheld.

PAYMENT OF TAXES -- Contractor shall pay all applicable taxes assessed on the compensation received under this contract and shall identify and pay those taxes under Contractor's federal and state identification number(s).
