

## Presentation to the Joint Transportation Committee

November 16, 2011

### **EFFECTIVE COST RECOVERY STRUCTURE FOR JURISDICTIONS, AND EFFICIENCIES IN STORMWATER MANAGEMENT**

- I.** Purpose of Study
  - a. Understanding stormwater and the relationship between WSDOT and jurisdictions
  - b. Development of efficiencies in cost recovery and management
- II.** Overview of Stormwater Regulation and Fee Structure (“101” Guide)
  - a. Stormwater characteristics: flow and quality
  - b. Regulations
  - c. Financing practices
  - d. Experience of other States
- III.** Inventory of State Highways Subject to the Federal Clean Water Act
  - a. Definitions
  - b. Summary of data
  - c. Representative map(s)
- IV.** Survey of Jurisdictions
  - a. Criteria for inclusion in survey
  - b. Methods
  - c. Responses and results
- V.** Case Studies
  - a. Criteria for selection
  - b. Methods
  - c. Responses and results
- VI.** Preliminary jurisdiction results, in the relationship between WSDOT, for efficiencies in the cost and management of stormwater
  - a. Results of interviews with WSDOT
  - b. Preliminary results for improvements in jurisdictions’ charging WSDOT
  - c. Preliminary results for improvements in management of stormwater between WSDOT and jurisdictions
- VII.** Development of recommendations
  - a. Local ordinance changes
  - b. State statutory changes
  - c. Other
- VIII.** Final Report
