
State Taxes and Fees

Overview and Table of Contents

This section summarizes most of the state's transportation taxes and fees, the major source of revenue for state transportation purposes. After being collected by the administering agency (usually the Department of Licensing), these user taxes and fees are sent to the State Treasurer, placed into accounts as directed by statute, and expended after being appropriated by the Legislature.

The Department of Revenue's [Tax Reference Manual 2016](#) provides more information about Washington State taxes. The [fee inventory on fiscal.wa.gov](http://www.dor.wa.gov/feeinventory) also provides information on fees charged by the Departments of Licensing and Transportation.

The Transportation Revenue Forecast documents can be found on the OFM web site at the following address: <http://www.ofm.wa.gov/budget/info/transportationrevenue.asp>

Some taxes and fees in this chapter are designated as “restricted to highway purposes” based on language in the 18th amendment to the state constitution which specifies that:

“license fees for motor vehicles and all excise taxes collected by the State of Washington on the sale, distribution or use of motor vehicle fuel and all other state revenue intended to be used for highway purposes must be restricted to highway purposes . . . and this section shall not be construed to . . . apply to vehicle operator's license fees”

Intended use for highway purposes has customarily been established by depositing fee or tax revenue in accounts created “in the motor vehicle fund.” A list of accounts organized by whether expenditures from the account are restricted to highway purposes can be found in the State Accounts chapter.

For more information, please see the chapter on the [18th Amendment to the State Constitution, beginning on page 31](#).
